PROXY STATEMENT

What is the purpose of the Annual Meeting?

At our Annual Meeting, shareholders will act upon the matters set forth in the Notice of Annual Meeting of Shareholders, which are described in this Proxy Statement. In addition, we will review the business and operations of the Company and respond to questions from shareholders.

Who may attend the Annual Meeting?

Anyone who was a shareholder as of the close of business on March 16, 2005 may attend the Annual Meeting if you have an admission ticket and photo identification. For shareholders of record, an admission ticket is attached to the proxy card sent with this Proxy Statement. If you plan to attend the Annual Meeting, please vote your proxy but keep the admission ticket and bring it with you to the Annual Meeting. Shareholders holding their shares in a bank or brokerage account can obtain an admission ticket in advance by sending a written request, along with proof of ownership (such as a brokerage statement) to our Investor Relations Department, Avon Products, Inc., 1345 Avenue of the Americas, New York, NY 10105, by mail or by fax (fax: 212-282-6035). We must receive your request at least one week prior to the Annual Meeting to have time to process your request and mail the admission ticket to you. Anyone who arrives without an admission ticket will not be admitted to the Annual Meeting unless it can be verified that the individual was a shareholder of the Company as of March 16, 2005.

What is the purpose of this Proxy Statement?

This Proxy Statement describes the matters proposed to be voted on at the Annual Meeting, including the election of directors, ratification of the appointment of our independent accountants, amendment of our Restated Certificate of Incorporation and By-Laws to eliminate the classification of our Board of Directors, approval of our 2005 Stock Incentive Plan and, if presented, two proposals by shareholders. The Proxy Statement and accompanying proxy card are being mailed on or about March 28, 2005.

Who is entitled to vote?

Only holders of record of Avon common stock at the close of business on March 16, 2005 (Shareholders) are entitled to vote. There were 470,718,157 shares of common stock (Common Stock or Shares) outstanding on March 16, 2005. All share numbers have been adjusted to reflect the effect of a two-for-one stock split in the form of a stock dividend effective May 28, 2004. Shareholders are entitled to vote cumulatively for the election of directors and to cast one vote per Share on all other matters. For more information on cumulative voting, see the

Edgar Filing: AVON PRODUCTS INC - Form DEF 14A

description on page 4 under Proposal 1 Election of Directors.

How do I vote?

You can vote by filling out the accompanying proxy card and returning it in the return envelope that we have enclosed for you. Also, Shareholders can vote by telephone or via the Internet unless you want to cumulate your votes, in which case you must vote by using the proxy card. Voting information is provided on the enclosed proxy card.

What if my Shares are held in street name ?

If your Shares are held in the name of a bank or broker or other nominee, follow the voting instructions on the form that you receive from them. The availability of telephone and Internet voting will depend on the bank's

or broker's voting process. Your broker or nominee may not be permitted to exercise voting discretion as to some of the matters to be acted upon. Therefore, please give voting instructions to your broker or nominee.

How will my proxy be voted?

Your proxy, when properly signed and returned to us, or processed by telephone or via the Internet, and not revoked, will be voted in accordance with your instructions relating to the election of directors, ratification of the appointment of our independent accountants, amendment of our Restated Certificate of Incorporation and By-Laws to eliminate the classification of our Board of Directors, approval of our 2005 Stock Incentive Plan, and, if presented, the individual shareholder proposals. We are not aware of any other matter that may be properly presented at the meeting. If any other matter is properly presented, the persons named as proxies on the proxy card will have discretion to vote in their best judgment.

What if I don't mark the boxes on my proxy?

Unless you give other instructions on your proxy card, or unless you give other instructions when you cast your vote by telephone or via the Internet, the persons named as proxies will vote in accordance with the recommendations of the Board of Directors. The Board's recommendation is set forth with the description of each Proposal in this Proxy Statement. In summary, the Board recommends a vote for the election of directors, the ratification of the appointment of our independent accountants, the amendment to our Restated Certificate of Incorporation and By-Laws to eliminate the classification of our Board of Directors, the approval of our 2005 Stock Incentive Plan and against the individual shareholder proposals.

Can I still attend the Annual Meeting if I return my proxy?

Yes. Attending the meeting does not revoke the proxy. However, you may revoke your proxy at any time before it is actually voted by giving written notice of revocation to the Secretary of Avon, by delivering a proxy bearing a later date or by attending and voting in person at the Annual Meeting.

Will my vote be made public?

All proxies, ballots and voting materials that identify the votes of specific Shareholders will be kept permanently confidential, except as may be required by law, for all matters other than contested elections. All proxy cards and other voting materials will be returned by Shareholders to an independent vote tabulator, and the tabulation process and results of Shareholder votes will be inspected by independent inspectors of election.

What constitutes a quorum?

The presence at the meeting, in person or by proxy, of the holders of a majority of the outstanding Shares will constitute a quorum, permitting the meeting to conduct its business.

How many votes are needed to approve a Proposal?

Under New York law, corporate action taken at a shareholders' meeting is generally based on the votes cast. Votes cast means the votes actually cast for or against a particular proposal, whether in person or by proxy. Therefore, abstentions and broker non-votes generally have no effect in determining whether a proposal is approved by Shareholders. Directors are elected by a plurality of the votes cast, while approval of Proposals 2, 4, 5 and 6 requires the affirmative vote of a majority of the votes cast at the Annual Meeting. Approval of Proposal 3, to amend our Restated Certificate of Incorporation and By-Laws to eliminate the classification of our Board of Directors, however, requires the affirmative vote of 80% of all of our outstanding shares, not merely of the votes cast. Abstentions and broker non-votes in connection with Proposal 3 will have the same effect as a vote against the Proposal.

What if I am a participant in the Avon Personal Savings Account Plan or the Avon Puerto Rico Associates Savings Plan?

We are also mailing this Proxy Statement and proxy card to participants in the Avon Personal Savings Account Plan and the Avon Puerto Rico Associates Savings Plan. The trustees of the Plans, as record holders of the Shares held in the Plans, will vote the Shares allocated to your account under the Plans in accordance with your instructions. Unless your proxy card is received by May 3, 2005 and unless you have specified your instructions, your Shares cannot be voted by the Trustees.

PROPOSAL 1 ELECTION OF DIRECTORS

Effective from and after the date of the 2005 Annual Meeting, the Board of Directors has fixed the number of directors at 10. The Board is divided into three classes as nearly equal in number as possible, as follows:

Three incumbent directors whose term expires in 2005 and who are nominated for the class of 2008 (Class of 2008), three incumbent directors in the class whose term expires in 2007 (Class of 2007) and four incumbent directors in the class whose term expires in 2006 (Class of 2006). If, however, Proposal 3, to amend our Restated Certificate of Incorporation and By-Laws to eliminate the classification of our Board of Directors is approved, all directors have agreed to tender their resignation in connection with our Annual Meeting in 2006 and shall stand for re-election annually for one-year terms beginning at our Annual Meeting in 2006.

PROPOSAL 1: The Board of Directors has nominated Fred Hassan, Ann S. Moore and Lawrence A. Weinbach for election to the Class of 2008, each to serve for a three-year term to expire at the Annual Meeting in 2008. If, however, Proposal 3, to amend our Restated Certificate of Incorporation and By-Laws to eliminate the classification of our Board of Directors is approved, these nominees for the Class of 2008 have agreed to tender their resignation in connection with our Annual Meeting in 2006 and shall stand for re-election annually for one-year terms beginning at our Annual Meeting in 2006.

All Shares duly voted will be voted for the election of directors as specified by the Shareholders. Unless otherwise specified, it is the intention of the persons named on the enclosed proxy card to vote **FOR** the election of Fred Hassan, Ann S. Moore and Lawrence A. Weinbach, to the Class of 2008. Each of the nominees has consented to serve as a director of the Company if elected. We have no reason to believe that any of the nominees will be unable or decline to serve as a director.

You may withhold your votes from the entire slate of nominees by so indicating in the space provided on the enclosed proxy card or by following the instructions for voting by telephone or via the Internet. You may withhold your votes from any particular nominee by writing that nominee's name in the space provided for that purpose on the enclosed proxy card or so indicating by telephone or via the Internet.

In voting for the election of directors, you are entitled to vote cumulatively. Each Shareholder is entitled to cast in each election the number of votes equal to the number of Shares held of record by the Shareholder, multiplied by the number of directors to be elected in the election. In the election of three directors to the Class of 2008, you will be entitled, under cumulative voting, to a total of three votes per Share held of record by you, and you may cast all of such votes in this election for a single nominee, or distribute them among any two or more nominees, as you see fit. You may (but need not) cumulate your votes in the election of directors for the Class of 2008 by indicating the distribution of your votes among the nominees in the space provided on the enclosed proxy card. If you wish to cumulate your votes, you must vote by using the proxy card; cumulative voting by telephone or via the Internet is not possible. If votes are not so distributed on the proxy card, the persons named as proxies may exercise the right to vote your Shares represented by such proxy cumulatively in the Class of 2008 election and may distribute the votes represented by such proxy among one or more of the nominees for the Class of 2008 listed below in any manner they see fit.

Set forth below is certain information furnished to the Company by each nominee and each director continuing in office after the Annual Meeting.

The Board has the following regular standing committees: Audit Committee, Compensation Committee, Nominating and Corporate Governance Committee, and Finance and Strategic Planning Committee. The charters of each Committee, the Company's Corporate Governance Guidelines and the Company's Code of Business Conduct and Ethics are available on the Company's website (www.avoninvestor.com) and in print to any shareholder upon request. Directors are expected to attend all meetings of the Board of Directors and the Board Committees on which they serve and to attend the Annual Meeting of Shareholders. No director attended less than 75% of the aggregate number of meetings of the Board and of each Board Committee on which he or she served. All directors attended the 2004 Annual Meeting. In addition to participation at Board and Committee meetings and the Annual Meeting of Shareholders, our directors discharge their duties throughout the year through communications with senior management regarding issues relating to the Company.

The Board, based on the recommendation of the Nominating and Corporate Governance Committee, has appointed Stanley Gault to preside at all executive sessions of the Board and will review this appointment periodically. In the absence of the presiding director from any executive session, the non-management directors will choose from among themselves one director to preside at such executive session. A shareholder who wishes to communicate with the Board, the non-management directors as a group, the presiding director or any other individual director may do so by addressing the correspondence to that individual or group, c/o Corporate Secretary, Avon Products, Inc., 1345 Avenue of the Americas, New York, NY 10105. Director Independence

The Board of Directors assesses the independence of its members at least annually in accordance with the listing standards of the New York Stock Exchange, the Sarbanes-Oxley Act of 2002 and the regulations of the Securities and Exchange Commission, as well as the Company's Corporate Governance Guidelines. As part of its assessment of the independence of the non-management directors, the Board determines whether or not any such director has a material relationship with Avon, either directly or indirectly as a partner, shareholder or officer of an organization that has a relationship with Avon. In making this determination, the Board broadly considers all relevant facts and circumstances and will consider this issue not merely from the standpoint of the director, but also from that of persons or organizations with which the director has an affiliation. This consideration will include: (i) the nature of the relationship; (ii) the significance of the relationship to Avon, the other organization and the individual director; (iii) whether or not the relationship is solely a business relationship in the ordinary course of Avon's and the other organization's businesses and does not afford the director any special benefits; and (iv) any commercial, industrial, banking, consulting, legal, accounting, charitable, familial and other relationships; *provided*, that ownership of a significant amount of Avon stock is not, by itself, a bar to independence. In assessing the independence of directors and the materiality of any relationship with Avon and the other organization, the Board has determined that a relationship in the ordinary course of business involving the sale, purchase or leasing of property or services will not be deemed material if the amounts involved, on an annual basis, do not exceed the greater of (i) \$1,000,000 or (ii) one percent (1%) of Avon's revenues or one percent (1%) of the revenues of the other organization involved.

Until March 2005, Maria Elena Lagomasino was Chairman and Chief Executive Officer of JP Morgan Private Bank, a division of JP Morgan Chase & Co., an investment banking firm that will perform services for the Company during the course of 2005, a substantial portion of which would be a continuation of the banking, risk management and administrative services regularly provided during 2004. The Company conducts no business with JP Morgan Private Bank. Ms. Lagomasino derived no direct benefit from services performed on behalf of Avon by JP Morgan Chase & Co. and any indirect benefit she may have derived was immaterial and incidental.

The Company, as is common for major global consumer products companies, regularly advertises through various media, including television and magazines. Some of these advertisements may appear from time to time on television stations owned by or associated with Granite Broadcasting Corp., of which Mr. Cornwell is Chairman and Chief Executive Officer, or in magazines owned by Time, Inc., of which Mrs. Moore is Chairman and Chief Executive Officer. In 2004, the aggregate cost of advertisements appearing on such television stations or in such magazines was not material to Avon nor was the associated revenue material to either Granite Broadcasting Corp. or Time, Inc.

Based on the materiality standard described above, none of the relationships between the Company and Ms. Lagomasino, Mrs. Moore or Mr. Cornwell, respectively, or any of the other non-management directors was material during 2004. The Board of Directors has concluded that each non-management director is independent of the Company.

Director Nomination Process & Shareholder Nominations

As noted above, the Board of Directors has determined that each member of the Nominating and Corporate Governance Committee is independent as defined by the listing standards of the New York Stock Exchange and the Company's Corporate Governance Guidelines.

The Committee's process for considering all candidates for election as directors, including shareholder-recommended candidates, is designed to ensure that the Committee fulfills its responsibility to recommend candidates that are properly qualified and are not serving any special interest groups, but rather the best interest of all of the shareholders.

Our Corporate Governance Guidelines and the charter of the Nominating and Corporate Governance Committee require that our directors possess the highest standards of personal and professional ethics, character and integrity and meet the standards set forth in our Corporate Governance Guidelines. In identifying candidates for membership on the Board, the Committee takes into account all factors it considers appropriate, consistent with criteria approved by the Board, which may include professional experience, knowledge, independence, diversity of backgrounds and the extent to which the candidate would fill a present or evolving need on the Board.

If there is a need for a new director because of an open position on the Board or because the Board has determined to increase the total number of directors, the Committee may retain a third-party search firm to locate candidates that meet the needs of the Board at that time. When a search firm is used, the firm typically provides information on a number of candidates, for review and discussion by the Committee. If appropriate, the Committee chair and some or all of the members of the Committee may interview potential candidates. If in these circumstances, the Committee determines that a potential candidate meets the needs of the Board, has the relevant qualifications, and meets the standards set forth in the Company's Corporate Governance Guidelines, the Committee will vote to recommend to the Board the election of the candidate as a director.

The Nominating and Corporate Governance Committee will consider director candidates recommended by shareholders if properly submitted to the Committee. Shareholders wishing to recommend persons for consideration by the Committee as nominees for election to the Board of Directors can do so by writing to the Nominating and Corporate Governance Committee, c/o Corporate Secretary, Avon Products, Inc., 1345 Avenue of the Americas, New York, New York 10105. Recommendations must include the proposed nominee's name, detailed biographical data, work history, qualifications and corporate and charitable affiliations, as well as a written statement from the proposed nominee consenting to be named as a nominee and, if nominated and elected, to serve as a director. The Committee will then consider the candidate and the candidate's qualifications using the criteria as set forth above. The Committee may discuss with the shareholder making the nomination the reasons for making the nomination and the qualifications of the candidate. The Committee may then interview the candidate and may also use the services of a search firm to provide additional information about the candidate prior to making a recommendation to the Board.

In addition, shareholders of record may nominate candidates for election to the Board by following the procedures set forth in our By-Laws. Information regarding these procedures for nominations by shareholders will be provided upon request to the Corporate Secretary of the Company.

Director Compensation

Directors who are officers or employees of the Company or any subsidiary of the Company receive no remuneration for services as a director. Each non-management director receives an annual retainer consisting of \$35,000 plus an annual grant of shares of the Company's Common Stock having a market value as of the date of grant of approximately \$35,000, based on the average mean price of Common Stock as reported on the New York Stock Exchange for the preceding ten trading days. Such grants are made immediately after the Annual Meeting. All shares so granted to a non-management director are restricted as to transfer until he or she retires from the Board, but will immediately be entitled to regular dividends and the same voting rights as all other outstanding shares of Common Stock.

In addition to the annual retainer, each non-management director receives a retainer of \$10,000 for membership on the Audit Committee and \$5,000 for membership on each other Committee of the Board of Directors on which he or she serves. Non-management directors appointed to chair a Committee are paid an additional fee of \$10,000 for the Audit Committee and \$5,000 for all other Committees. The Company has adopted a compensation plan for its non-management directors permitting them by individual election to defer all or a portion of their fees. The value of such deferred fees, depending upon elections made by such director, may increase or decrease proportionately with the price of the Common Stock or earn interest at a rate based on the prime rate.

Each non-management director receives an annual grant of options to purchase 8,000 shares of the Company's Common Stock, at an exercise price based on the price of a share of Common Stock as reported on the New York Stock Exchange on the date of grant. Grants are made coincident with the annual grant of options to employees of the Company. Each grant of options will become fully exercisable one year after the date of such grant and will expire at the end of ten years.

In September 2001, the Board of Directors adopted a stock ownership guideline that non-management directors should own Common Stock of the Company having a value equal to or greater than five times the annual retainer for directors within five years or, in the case of new directors, within five years from the date of their election to the Board.

EXECUTIVE COMPENSATION

COMPENSATION COMMITTEE REPORT

The Compensation Committee is made up of non-management independent members of the Board of Directors whose names are listed at the end of this report. The Committee reviews compensation levels of senior officers of the Company, approves the policies that govern the compensation programs of the Company's senior management, evaluates the performance of the Chief Executive Officer (CEO), and together with the other independent members of the Board of Directors, determines the compensation levels of the CEO and Chief Operating Officer (COO).

Executive Compensation Guiding Principles

The Company's executive compensation program is designed to attract, retain, motivate and reward the key talent responsible for the Company's long-term success, to reward executives for achieving both financial and strategic Company goals and to support the Company's overall business strategy. The guiding principles used in the design of the program are:

Total compensation levels must be competitive with the compensation practices of other leading beauty, direct selling and consumer products companies and commensurate with relative shareholder returns and financial performance.

Compensation philosophy is pay-for-performance such that individual compensation awards are tied to Company, operating business unit and individual performance.

Compensation programs must be designed to balance short-term and long-term financial and strategic objectives that build shareholder value and reward for team and overall Company performance.

Compensation programs should focus executives on key performance indicators (financial and strategic) that directly translate into increased long-term shareholder value.

Working with an independent compensation consulting firm, the Committee annually evaluates the compensation of key executives against general industry surveys plus a Compensation Peer Group consisting of 13 beauty and consumer goods companies to ensure that the total compensation program is competitive. The Compensation Peer Group differs from the Industry Composite that is included in the Comparison of Five Year Cumulative Total Return Graph on page 20 as the Compensation Committee believes that the Compensation Peer Group better represents the market in which the Company competes for executive talent. This Compensation Peer Group includes Procter & Gamble, Sara Lee, Kimberly Clark, General Mills, Colgate-Palmolive, Gillette, Kellogg, H.J. Heinz, Campbell Soup, Estée Lauder, Clorox, Hershey Foods and Revlon. For select positions, the Committee evaluates compensation against companies that better represent the market for the executive talent in specialty functions in which the Company competes. For the CEO, COO and Chief Financial Officer (CFO), a proxy analysis of the Compensation Peer Group is conducted to determine the competitiveness of their compensation packages. The target for base salary, annual incentive and long-term incentive compensation for executive officers is positioned at the median rate of the Compensation Peer Group, with a target close to the 75th percentile of the Peer Group for consistent top performers.

Base Salary

The midpoints of salary ranges for executives are set at the median of the Compensation Peer Group companies. With the Company's pay-for-performance philosophy, sustained exceptional performers receive salaries above the median of the Peer Group whereas salaries for those who meet performance expectations are targeted at the median of the Peer Group companies. Annual salary increases are based on individual performance,

job responsibilities, competitive data of the Compensation Peer Group, and the Company's overall salary budget guidelines. Base salaries of senior executives are reviewed annually by the Committee. In 2004, salaries for executives overall were slightly ahead of the median of the Peer Group for similar positions.

Annual Incentive Plans

In 2003, the shareholders approved an Executive Incentive Plan (EIP) intended to comply with Section 162(m) of the Internal Revenue Code, which allows the Company to take a tax deduction for incentive bonus payments made pursuant to the EIP to certain officers earning in excess of \$1 million. The CEO and each other employee who is considered a Section 16 Officer for purposes of the Securities Exchange Act of 1934, as amended, whom the Committee selects for participation, is eligible to participate under the Plan. For 2004, the CEO, COO, CFO, General Counsel (GC) and two Executive Vice Presidents (EVPs) were participants of the Plan.

The Company also has a Management Incentive Plan (MIP) for all other officers and key employees. Both the EIP and MIP provide incentive compensation aligned with the annual performance of the Company. Target awards under each of the two plans are set as a percentage of base salary by management level. Incentives under the EIP may be paid in cash, restricted stock or restricted stock units, whereas incentives under the MIP may be paid in cash, restricted stock, restricted stock units or stock options. Incentives under both plans are payable based on the degree of attainment of pre-established performance measures set by the Compensation Committee.

For 2004, performance measures for executives participating in the EIP and MIP were the achievement of Global Net Sales, Earnings Per Share (EPS), Cash Flow and Operating Margin objectives established by the Compensation Committee. The chart below illustrates the weighting of performance objectives for executive officers participating in the EIP and MIP in 2004:

	Global Operating Margin & Net Sales (Local Currency (LC))	Global Cash Flow & EPS
Executive Incentive Plan	70%	30%
Management Incentive Plan	70%	30%

While the Compensation Committee established the same performance and weighting measures for executives participating in the EIP and MIP, awards under the EIP are calculated differently than under the MIP. In addition, under the EIP the Committee has discretion to adjust awards downward only. For 2004, based on the Compensation Committee's view of the Company's overall operating performance, the Compensation Committee used its discretion to reduce the awards under the EIP to correspond with awards paid out under the MIP. Based on the Compensation Committee's determination of the Company's overall operating performance in 2004, the Compensation Committee granted awards to executive officers ranging from 93.24% to 104.61% of the individuals' targeted awards.

Long-Term Incentive Compensation

Pursuant to the shareholder-approved Year 2000 Stock Incentive Plan, awards may be made in the form of non-qualified stock options, incentive stock options, stock appreciation rights, performance units, restricted stock units, and shares of restricted stock. The principal purpose of the Plan is to provide competitive incentive compensation to management of the Company that is linked to increases in shareholder value derived from appreciation in the Company's stock price.

Under the Year 2000 Stock Incentive Plan, non-qualified stock options are granted annually for a term of ten years at 100% of the market price on the date of grant. Generally, a grant of options under the Year 2000 Stock Incentive Plan vests in equal one-third portions over three years, with the first third becoming exercisable on the first anniversary of the grant date. Restricted stock and restricted stock units are also granted under the Plan and

vest in one or more installments over two to three years after the grant date. Dividends and dividend equivalents on these shares and units are paid to the same extent as those paid on the Company's unrestricted stock.

The Committee has recommended the adoption of the 2005 Stock Incentive Plan which will replace the Year 2000 Stock Incentive Plan and which will provide for future awards of stock options, restricted stock units and other awards. (See Proposal 4)

In May 2002, the Committee approved a Transformation Long-Term Incentive Plan (TLTIP). This new plan was designed to provide additional long-term compensation to key executives driving the Company's business transformation initiatives. Under the TLTIP, cash awards were set at 200% of base salary and were payable at the end of a three-year period (February 2005), provided the Company achieved certain financial objectives tied to the transformation objectives. The Company achieved a significant portion, but not all, of the goals established by the plan. As a result, the Committee has used its discretion and determined that a modest partial payout from this plan equal to 12.5% of target was appropriate. This payout includes all executive officers other than the CEO, who has declined to be considered for any payment from this Plan.

In January 2005, the Committee approved the 2005-2007 Performance Cash Plan. This new component of long-term incentive compensation was designed to continue to focus key executives on financial objectives over the performance period 2005-2007. The plan covers the CEO, all other executive officers, and other key executives. Awards were set with the objective of payouts ranging from 30% of target for the achievement of threshold financial objectives aligned with the Company's long-term business plan to 200% percent of target if maximum performance objectives are achieved. Target awards range from one to two times base salary to enable the Committee to exercise discretion to raise or lower, or in the case of EIP participants only lower, payouts based on individual performance. The Committee has designated revenues and operating margin as the key performance measures under the Plan.

Senior Executive Pay-for-Performance Compensation Programs

The Committee strongly believes that the Company's overall incentive compensation system focuses the Company's senior officers on maintaining the long-term success of the Company. As indicated above, the performance-based senior executive compensation system principally consists of the annual incentive plans and long-term incentive plans. Not only are the incentive plan awards strongly linked to the ongoing achievement of growth performance objectives, but the value of stock options are wholly dependent upon stock price appreciation that generally can be attained only by long-term growth in sales and EPS. The Company has announced long-term growth objectives based on sales growth and EPS growth. Most securities analysts who follow the Company's performance place a high degree of importance on the Company's achievement of such objectives. Achievement of these objectives contributes to the performance of the Company's stock price.

Determination of CEO Compensation

The Compensation Committee conducts a CEO Assessment each year whereby the Committee establishes performance objectives in December for the upcoming year, enabling the most senior-level goals to be shared throughout the organization. The attainment of these performance objectives is then evaluated at year-end. The corporate objectives set for 2004 included the achievement of the Company's 2004 operating objectives including a commitment to business transformation; an increased focus on accelerating expansion in high-potential emerging markets and pursuing strategic opportunities to reach new consumers via new brands and channels; and the strengthening of organizational leadership and corporate governance.

Ms. Jung's salary was set at \$1,375,000 per annum effective March 2004. Her annual incentive bonus target pay-out for 2004 was increased from 125% to 175% of base salary effective March 2004 and was linked to the performance objectives described above under Executive Incentive

Edgar Filing: AVON PRODUCTS INC - Form DEF 14A

Plan . The Committee approved an award of 104.61% of her overall bonus target pay-out under the EIP, resulting in an award to her of \$2,305,028.

In March 2004, a stock option grant of 500,000 shares (split adjusted) was awarded to Ms. Jung, which options are subject to and will vest according to the terms of the Year 2000 Stock Incentive Plan described above under Long-Term Incentive Compensation .

The Compensation Committee had granted to Ms. Jung an award of 360,000 (split adjusted) restricted stock units effective January 2, 2004.

Executive Stock Ownership Guidelines

To further support the Company's goal of achieving a strong link between shareholder and executive interests, the Company adopted in 2000 stock ownership guidelines for the Company's senior executives to underscore and encourage executive share ownership. Senior executives are required to own Company stock equal to one to five times their base salary, with ownership targets increasing with the level of responsibility, and have five years to achieve that target. Stock options are not counted for purposes of meeting the ownership guidelines.

Limitations on the Deductibility of Compensation

Section 162(m) of the Internal Revenue Code places a limit of \$1 million on the amount of compensation that the Company may deduct in any one year with respect to each of its five most highly paid executive officers. Certain performance-based compensation approved by shareholders is not subject to the deduction limit. The Company's shareholder approved EIP qualifies so that awards granted under it constitute performance-based compensation not subject to the Section 162(m) limit. In order to maintain flexibility in compensating executive officers in a manner designed to promote corporate goals, the Committee has not adopted a policy that all compensation must be tax deductible. Payments made pursuant to the TLTIIP were not eligible for exclusion from the deduction limit.

- (3) Restricted stock units were granted in 2004 and 2003 and shares of restricted stock were granted in 2002. The dollar amount shown equals the number of shares of restricted stock granted and shares underlying restricted stock units, multiplied by the stock price on the grant date. Dividends or dividend equivalents on these shares and units are paid to the same extent as those paid on the Company's unrestricted stock. Restricted stock and restricted stock unit awards vest in one or more installments over two to three years after the grant date. The grant of 360,000 restricted stock units, however, made to Ms. Jung on January 2, 2004 will vest in two installments: 50% on January 31, 2007 and 50% on January 31, 2008. In the event of a change of control, all shares of restricted stock and restricted stock units held by executives with employment contracts (see Contracts with Executives) would be cashed out. The following table shows aggregate holdings of restricted stock and restricted stock units at December 31, 2004 for the named executive officers.

- (1) The indicated options have a term of 10 years and were granted pursuant to the Company's Year 2000 Stock Incentive Plan. The options vest in equal one-third portions over three years.
 - (2) Based on 5,328,740 options granted in fiscal 2004.
 - (3) To calculate the value of option grants in 2004, the Company used a valuation of 35% of the average of the high and low prices of the Company's Common Stock on the date on which management recommended the proposed grants to the Compensation Committee of the Board of Directors. In 2004, this valuation (split adjusted) equaled \$11.46 per share for the 3/11/04 grants. In establishing this valuation, the Company worked with a consultant and reviewed historic Black-Scholes valuations of options on the Company's

stock, measuring volatility and the other variables in the model over multi-year periods, and concluded that a valuation of 35% was appropriate. This figure had been set at 40% in 2003. The Company's use of this valuation methodology should not be construed as an endorsement of its accuracy at valuing options. In the future, the Company may change its method for determining the valuation of its options. All stock option valuation models and methodologies require a prediction about the future movement of the stock price. The real value of options in this table depends on the actual performance of the Company's stock during the applicable period and on the date of exercise.

Option Exercises and Values

(2) Value of Unexercised, In-the-Money Options at December 31, 2004 is calculated as follows: (Per Share Closing Sale Price on December 31, 2004 - Per Share Exercise Price) x Number of Shares Subject to Unexercised Options. The per-share closing price on December 31, 2004 was \$38.70.

RETIREMENT BENEFITS

Avon has a Supplemental Executive Retirement Plan (the Supplemental Plan) which covers a select group of senior officers of the Company. Four of the named executive officers accrue retirement benefits under the Supplemental Plan, namely Ms. Jung, Ms. Kropf, Mr. Corti and Mr. Toth. Benefits under the Supplemental Plan are based on the average of a participant's three highest years of compensation during the ten years of service prior to retirement and the number of years of creditable service. Such compensation includes base salary and annual incentive bonuses. Benefits payable under the Supplemental Plan are reduced by benefits payable to the participant under the Company's Regular Retirement Program (the Retirement Plan). Participants in the Retirement Plan who were hired prior to July 1, 1998 have their benefits based on the average of their five highest years of compensation during the ten years of service prior to retirement and the number of years of creditable service. Participants in the Retirement Plan who were hired on or after July 1, 1998 and are not covered by the Supplemental Plan have their benefits calculated under a cash balance formula. The following table shows the estimated annual retirement benefits for a life annuity under the Supplemental Plan (including benefits payable by the Retirement Plan but excluding Social Security benefits) for participants retiring at age 65 whose average three-year compensation and years of service at retirement would be in the classification shown. If retirement occurs prior to age 65, but after the executive's age and years of service total at least 85, the executive would be entitled to the benefit described in the table commencing upon retirement (rather than waiting until age 65 for the benefit to start). As of December 31, 2004, Ms. Kropf's age and years of service total at least 85. Each of the other named executive officers' age and years of service total less than 85. During 2005, however, Mr. Corti's age and years of service will total 85.

As of December 31, 2004, Ms. Jung had an average three-year compensation of \$2,512,472 and 11 years of creditable service; Ms. Kropf had an average three-year compensation of \$1,441,073 and 34 years of creditable service; Mr. Corti had an average three-year compensation of \$889,075 and 28 years of creditable service; and Mr. Toth had an average three-year compensation of \$814,255 and 26 years of creditable service. Mr. Klemann is not covered by the Supplemental Plan; instead Mr. Klemann accrues benefits under the cash balance formula, which will not vest until 2006. As of December 31, 2004, the value of Mr. Klemann's cash balance account was \$196,180, which equated to an annual annuity, payable at age 65 for his lifetime, of \$27,968.

CONTRACTS WITH EXECUTIVES

The Company has employment contracts (Employment Contracts) with four of the named executive officers, namely Ms. Jung, Mrs. Kropf, Mr. Corti and Mr. Klemann.

The Employment Contracts provide that if the executive's employment is terminated without cause, the executive generally shall receive a payment equal to the sum of: (i) the present value of the executive's base salary for a period equal to two years (Mrs. Kropf and Messrs. Corti and Klemann) or three years (Ms. Jung); (ii) continuation of benefits for two years; and (iii) a bonus payment in an amount equal to the executive's target annual bonus for the year of termination plus a pro-rated portion of such bonus if such termination occurs after August 1 in any year.

The Employment Contracts also provide that upon the executive's actual or constructive termination of employment in connection with the occurrence of certain change of control or potential change of control events (as defined in the Employment Contracts), the executive will receive payment of an amount equal to the sum of: (a) three years' salary and bonus, (b) the present value of three years' insurance and fringe benefits, and (c) the cash-out value of all then-outstanding stock options, restricted shares and restricted stock units. Assuming an actual or potential change of control had occurred on January 1, 2005, with termination of the executives immediately thereafter, Ms. Jung would have received \$11,040,083; Mrs. Kropf would have received \$4,872,987; Mr. Corti would have received \$2,934,343; and Mr. Klemann would have received \$2,405,984; plus the amounts referred to in (b) and (c) above.

The Employment Contracts also provide for reimbursement by the Company of any excise taxes incurred under Section 4999 of the Internal Revenue Code by reason of a change of control, and of any income and excise taxes incurred in connection with such reimbursement.

AUDIT COMMITTEE REPORT

The Company has a separately designated standing Audit Committee established in accordance with the Securities Exchange Act of 1934. The Audit Committee is composed of three directors whom the Board of Directors has determined meet the independence and financial literacy and expertise standards of the New York Stock Exchange, the Sarbanes-Oxley Act of 2002, the Securities and Exchange Commission and the Company's Corporate Governance Guidelines. The Board has also determined that Lawrence A. Weinbach, the Committee's Chair, is qualified to be the Audit Committee Financial Expert, under the rules of the Securities and Exchange Commission. The Audit Committee has a written charter that has been approved by the Board of Directors and is attached as Appendix A to this Proxy Statement and is available on the Company's website (www.avoninvestor.com).

The basic function of the Audit Committee is oversight. The Company's management is responsible for preparing the Company's financial statements and its independent registered public accounting firm is responsible for providing an integrated report regarding its audit of Avon's consolidated financial statements and internal control over financial reporting. Management is responsible for the fair presentation of the information set forth in such financial statements in conformity with generally accepted accounting principles, and for maintaining effective disclosure controls and procedures. Management is also responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of the Company's internal control over financial reporting. The independent accountants' responsibility is to provide their opinions, based on their audit, as to whether the financial statements fairly present, in all material respects, the financial position, results of operations and cash flows of the Company in conformity with generally accepted accounting principles and whether management's assessment regarding whether the company maintained effective internal control over financial reporting is fairly stated in all material respects and whether the Company maintained effective internal control over financial reporting as of December 31, 2004. The independent accountants' responsibility is also to design and perform their audit to provide reasonable assurance that the Company's financial statements are free of material misstatements and whether effective internal control over financial reporting was maintained in all material respects. It is not the duty of the Audit Committee, or of any of its members, to conduct separate auditing or accounting reviews or provide independent assurance of the Company's compliance with applicable laws and regulations.

In the performance of its oversight function, the Committee has reviewed and discussed the audited financial statements with management and the independent accountants. The Committee has also discussed with the independent accountants and with management the matters required to be discussed by the rules of the New York Stock Exchange, the Securities and Exchange Commission and the Charter of the Audit Committee (including, among other standards, Statement on Auditing Standards No. 61, Communication with Audit Committees) relating, for example, to the conduct of the audit and the quality of the Company's accounting principles and the estimates underlying the financial statements.

The Committee also has received the written disclosures and the letter from the independent accountants required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees (which relates to the accountants' independence from the Company and its related entities), has considered whether the provision of non-audit services by the independent accountants to the Company is compatible with maintaining the accountants' independence and has discussed with the accountants the accountants' independence, including any relationships that may impact their objectivity and independence.

In 2003, the Company amended its previous policy regarding the provision by the Company's independent accountants of audit and non-audit services and the corresponding fees, and the procedures for approval of such services and fees, to: (i) strictly disallow any service that would be a prohibited service; (ii) allow audit, audit-related and tax services only if the particular type of service is on the list of types of services that have been pre-approved by the Audit Committee, specific procedures are followed to ensure appropriate management assessment of such service, the proposed fee is within the overall limit set by the Audit Committee for that category of service, and the Audit Committee is informed on a timely basis of each such service; and (iii) allow other services not within any of the foregoing categories only if each such service and the corresponding fee is approved in advance by the Audit Committee or by one or more members of the Audit Committee.

Based upon the review and discussions described in this report, the members of the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2004 filed with the Securities and Exchange Commission.

PROPOSAL 2 RATIFICATION OF APPOINTMENT OF INDEPENDENT ACCOUNTANTS

Unless otherwise directed by the Shareholders, proxies will be voted for ratification of the appointment by the Audit Committee of the Board of Directors of PricewaterhouseCoopers LLP, Independent Registered Accounting Firm, as independent accountants for the year 2005. PricewaterhouseCoopers LLP began auditing the accounts of the Company in 1989. If the appointment of PricewaterhouseCoopers LLP is not ratified by the Shareholders, the Audit Committee will reconsider its appointment. A member of the firm will be present at the Annual Meeting to answer appropriate questions and to make a statement if he or she desires.

In 2003, the Company amended its previous policy regarding the provision by the Company's independent accountants of audit and non-audit services and the corresponding fees, and the procedures for approval of such services and fees, to: (i) strictly disallow any service that would be a prohibited service; (ii) allow audit, audit-related and tax services only if the particular type of service is on the list of types of services that have been pre-approved by the Audit Committee, specific procedures are followed to ensure appropriate management assessment of such service, the proposed fee is within the overall limit set by the Audit Committee for that category of service, and the Audit Committee is informed on a timely basis of each such service; and (iii) allow other services not within any of the foregoing categories only if each such service and the corresponding fee is approved in advance by the Audit Committee or by one or more members of the Audit Committee.

The tax services provided by PricewaterhouseCoopers during those years included such services as expatriate tax services, tax advice regarding possible transactions and projects, domestic and international tax planning and tax compliance.

All Other Fees

The aggregate fees, including out-of-pocket expenses, for other services, not included in any of the foregoing categories, rendered by PricewaterhouseCoopers LLP during the fiscal years 2004 and 2003 were approximately \$.03 and \$.02 million, respectively. These other services provided by PricewaterhouseCoopers during 2004 and 2003 included such services as certifications and other reviews of information required by local regulations outside the United States or by contracts to which Avon is a party, official transmission of financial information to government authorities outside the United States, and a subscription to on-line accounting reference material.

Your Board of Directors recommends that you vote FOR the ratification of the appointment of PricewaterhouseCoopers LLP as independent accountants for the year 2005.

PROPOSAL 3 AMENDMENTS TO RESTATED CERTIFICATE OF INCORPORATION AND BY-LAWS ELIMINATING THE CLASSIFICATION OF THE BOARD OF DIRECTORS

Article V of the Company's Restated Certificate of Incorporation and Article III, Section 1 of the Company's By-Laws provide for the classification of the Board of Directors into three classes, with members of each class serving three-year terms, and contain provisions relating to such classification concerning the filling of director vacancies and the removal of directors. The Board of Directors has determined that the Restated Certificate of Incorporation and the By-Laws should be amended to repeal these provisions and has unanimously adopted a resolution approving the amendments, declaring their advisability and recommending such amendments to the Company's shareholders. (See Appendices E and F.)

If the proposed amendments are approved by the shareholders, the classified Board will be eliminated, and each director who was elected at the 2004 Annual Meeting to serve until the 2007 Annual Meeting and each nominee for director at this Annual Meeting (whose terms would otherwise expire at the 2008 Annual Meeting) has agreed to tender his or her resignation at the 2006 Annual Meeting. Beginning with the 2006 Annual Meeting, all directors would be elected for one-year terms at each annual meeting. Furthermore, any director chosen as a result of the newly created directorships or to fill a vacancy on the Board of Directors will hold office until the next Annual Meeting of Shareholders.

Classified boards have been widely adopted and have a long history in corporate law. Proponents of classified boards assert they promote the independence of directors because directors elected for multi-year terms are less subject to outside influence. Proponents of a classified system for the election of directors also believe it provides continuity and stability in the management of the business and affairs of a company because a majority of directors always have prior experience as directors of the company. Proponents further assert that classified boards may enhance shareholder value by forcing an entity seeking control of a target company to initiate arms-length discussions with the board of the target company because the entity is unable to replace the entire board in a single election.

On the other hand, some investors view classified boards as having the effect of reducing the accountability of directors to shareholders because classified boards limit the ability of shareholders to evaluate and elect all directors on an annual basis. The election of directors is a primary means for shareholders to influence corporate governance policies and to hold management accountable for implementing those policies. In addition, opponents of classified boards assert that a classified structure for the election of directors may discourage proxy contests in which shareholders have an opportunity to vote for a competing slate of nominees and therefore may erode shareholder value.

A shareholder proposal requesting the declassification of the Board of Directors had been presented to shareholders in 2003 and in 2004, although the latter proposal was withdrawn. The non-binding 2003 proposal received support from a substantial majority of the shareholders, but less than the affirmative vote of 80% of the outstanding shares that would have been required to effect a declassification of the Board. Prior to the 2004 Annual Meeting, the Board determined that it was in the best interests of the Company to propose to the shareholders at the 2005 Annual Meeting that the classification of the Board be eliminated. As a result, the 2004 shareholder proposal to declassify the Board was withdrawn by shareholder proponents.

In 2003 and again in 2004, the Company's Nominating and Corporate Governance Committee and full Board of Directors considered carefully the advantages and disadvantages of maintaining a classified board structure. In 2004, the Board gave due consideration to the various arguments for and against a classified board, including consultation with internal and outside advisors, and listened to the views of a number of the Company's shareholders. After this review, the Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, decided that it was appropriate to propose declassifying the Board. The Board is committed to principles of corporate democracy and is mindful that a majority of shareholders voting at the Annual Meeting had voted for declassification in 2003 and that a shareholder proposal to declassify the Board was initially submitted again in 2004.

The affirmative vote of the holders of at least 80% of the voting power of the Company's outstanding common stock is required to approve the proposed amendments to the Restated Certificate of Incorporation and the By-Laws. Abstentions and broker non-votes will have the same effect as a vote against this proposal.

Your Board of Directors recommends that you vote FOR the proposal to amend the Restated Certificate of Incorporation and the By-Laws to eliminate the classification of the Board of Directors.

PROPOSAL 4 APPROVAL OF THE AVON PRODUCTS, INC. 2005 STOCK INCENTIVE PLAN

The Board of Directors has approved and recommends the approval of the Avon Products, Inc. 2005 Stock Incentive Plan (the 2005 Plan), which is attached as Appendix G to this Proxy Statement. The 2005 Plan would replace the Avon Products, Inc. 2000 Stock Incentive Plan (the 2000 Plan) approved by the Company's Shareholders in 2000.

The following is a summary of certain material features of the 2005 Plan. Please refer to Appendix G for a more complete description of the terms of the 2005 Plan.

Purpose

The purpose of the 2005 Plan is to (i) provide competitive incentive compensation to key employees and directors of the Company to stimulate their efforts toward the continued success, long-term growth and profitability of the Company and its subsidiaries; (ii) encourage Share ownership by providing key employees and directors of the Company with a means to obtain a proprietary interest in the Company or to receive compensation which is based upon appreciation in the value of Shares; and (iii) provide a means of obtaining and retaining key employees and directors of the Company.

Eligible Participants

The 2005 Plan will be administered by a committee (the Committee) appointed by the Board of Directors to administer the 2005 Plan, each member of which must be an outside director for purposes of Section 162(m) of the Internal Revenue Code (the Code), a non employee director for purposes of Rule 16b-3 under the Securities Exchange Act of 1934 and independent for purposes of the rules of the New York Stock Exchange. It is anticipated that the Compensation Committee will serve as the Committee. The Committee in its sole discretion will select from time to time from among key employees and directors of the Company and its subsidiaries the persons to whom grants are made under the 2005 Plan (the Participants). A key employee is any person employed by the Company or any of its subsidiaries who is responsible for the management, growth or protection of some aspect of the business of the Company and its subsidiaries or who makes a contribution to the Company and its subsidiaries.

Since it is within the discretion of the Committee to determine which key employees will receive grants under the 2005 Plan and the type and amount thereof, these matters cannot be specified at present. In 2004, however, 1,200 key employees, including the executive officers of the Company, received awards under the 2000 Plan. In addition, under the 2005 Plan, all non-employee directors of the Company will be eligible to participate. The benefits that will be received by or allocated to key employees and directors under the 2005 Plan are not yet determinable. The Committee may, under certain circumstances, delegate to an officer the authority to designate certain key employees to receive grants and the amount thereof.

Available Shares

Under the 2005 Plan, the number of Shares that may be made subject to awards under the Plan may not exceed 31 million Shares, provided that (i) the total number of Shares that may be issued for awards of stock or stock units, including awards of restricted stock and restricted stock units, may not exceed an aggregate of 8 million Shares and (ii) the total number of Shares that may be issued for awards of options may not

Edgar Filing: AVON PRODUCTS INC - Form DEF 14A

exceed an aggregate of 23 million Shares. In addition, no single Participant may receive awards in respect of more than 4.5 million Shares under the Plan. Shares to be delivered under the 2005 Plan may be either authorized, but unissued, shares of Common Stock or treasury shares. Effective upon Shareholder approval of the 2005 Plan, no further awards will be made under the 2000 Plan. On March 16, 2005, the closing sale price of the Common Stock as reported in the New York Stock Exchange composite tape was \$41.69. Shares covered by the unexercised or undistributed portion of any terminated, expired or forfeited award are not available again for further awards under the 2005 Plan nor are Shares withheld or delivered for tax withholding or as the exercise price of a stock option. No awards may be made under the 2005 Plan after the tenth anniversary of the date that it is approved by Shareholders.

Awards

The 2005 Plan authorizes grants to Participants of stock options, which may be either incentive stock options eligible for special tax treatment or non-qualified stock options, stock appreciation rights (SARs), restricted stock, stock units and other stock-based awards. The 2005 Plan permits the Committee to prescribe in an award agreement or award program for each award any other terms and conditions of that award.

The 2005 Plan authorizes the Committee to provide for such special terms for awards to Participants who are foreign nationals, or who are employed outside of the United States, as the Committee may consider necessary or appropriate to accommodate differences in local law, tax policy or custom.

Stock Options. Under the provisions of the 2005 Plan authorizing the grant of stock options, (i) the option price may not be less than the fair market value of the Shares at the date of grant, (ii) stock options may not be exercised after ten years from the date of grant, (iii) the aggregate fair market value (determined as of the date the option is granted) of the Shares for which any employee may be granted incentive stock options which are exercisable for the first time in any calendar year may not exceed the maximum permitted under the Code (presently \$100,000), and (iv) at the time of exercise of a stock option, the option price must be paid in full in cash or, if the award agreement or award program provides, by delivery of Shares or in a cashless exercise through a broker or similar arrangement. Generally, options vest in three substantially equal annual installments beginning one year from the grant date. Unless otherwise provided by the Committee, upon a Participant's death, stock options granted to such Participant shall become immediately exercisable and shall continue to be exercisable for a period of two years from such date (one year in the case of incentive stock options) or until the expiration of the stated term of such stock options, whichever period is shorter. Unless otherwise provided by the Committee, upon a Participant's termination of employment by reason of retirement or becoming disabled (both as defined in the 2005 Plan), stock options granted to such Participant shall continue to vest in accordance with their vesting schedule and shall continue to be exercisable until the expiration of the stated term of such stock options. Unless otherwise provided by the Committee, in the event of termination of employment for other reasons, such stock options shall continue to be exercisable for a period of 90 days from such date or until the expiration of the stated term of such options, whichever period is shorter (except that in the case of termination of employment for cause, such stock options shall immediately expire).

Stock Appreciation Rights. The 2005 Plan permits the grant of SARs, which permit the Participant to receive a payment measured by the increase in the fair market value of a specified number of Shares from the date of grant to the date of exercise. The Committee may grant a SAR that is related to a stock option (a tandem SAR), either at the time of the option grant or thereafter during the term of the option, or a SAR that is separate and apart from the grant of an option (a freestanding SAR). Payments upon exercise of SARs may be made in Shares (valued on the basis of the fair market value of the Shares on the date of exercise), or in cash or partly in cash and partly in Shares, as the Committee may determine.

Restricted Stock. Under the 2005 Plan, the Committee may also grant Shares, subject to specified restrictions, including but not limited to continued employment of the Participant with the Company or a subsidiary or the achievement of one or more specific goals related to the performance of the Company, a business unit or the Participant over a specified period of time. Grants of restricted stock are subject to forfeiture if the prescribed conditions are not met. During the restricted period, Shares of restricted stock have all the attributes of outstanding Shares, but the Committee may provide that dividends and any other distributions on the Shares be accumulated, with or without interest, or reinvested in additional Shares during the restricted period. As and to the extent that Shares of restricted stock are no longer subject to forfeiture, certificates therefor and any dividends withheld by the Company will be delivered to the grantee.

Stock Units. The 2005 Plan authorizes the Committee to grant stock units, which permit Participants to receive at a specified future date, payment of an amount equal to all or a portion of the fair market value of a specified number of Shares at the end of a specified period. At the time of the grant, the Committee determines the factors which will govern the portion of the rights so payable, including, at the discretion of the Committee, any performance criteria that must be satisfied as a condition to payment. Stock units containing performance criteria, or other restrictions, including but not limited to the continued employment or service of the Participant with the Company or any of its subsidiaries, may be designated as restricted stock units. Payments in respect of stock units may be made in Shares (valued on the basis of the fair market value of the Shares on the date of exercise), or in cash or partly in cash and partly in Shares, as the Committee may determine.

Other Stock-Based Awards. The 2005 Plan authorizes the Committee to grant other stock-based awards pursuant to which Shares (which may, but need not, be Shares of restricted stock) are or may in the future be acquired by the Participant. Such other stock-based awards may be granted alone, in addition to or in tandem with any other award granted under the 2005 Plan and must be consistent with the purpose of the 2005 Plan.

Tax Matters

The following is a brief summary of the principal United States federal income tax consequences of awards under the 2005 Plan. This summary is not intended to be exhaustive and does not describe state, local or foreign tax laws.

Incentive Stock Options. The grant of an incentive stock option will not result in any immediate tax consequences to the Company or the optionee. In addition, an optionee will not recognize taxable income, and the Company will not be entitled to any deduction, upon the timely exercise of an incentive stock option, but the excess of the fair market value of the Shares acquired over the option price will be includible in the optionee's alternative minimum taxable income for the year of exercise for purposes of the alternative minimum tax. If the optionee does not dispose of the Shares acquired within one year after their receipt (and within two years after the option was granted), gain or loss recognized on the subsequent disposition of the Shares will be treated as long-term capital gain or loss. Capital losses of individuals are deductible only against capital gains and a limited amount of taxable ordinary income. In the event of an earlier disposition, the optionee will recognize taxable ordinary income in an amount equal to the lesser of (i) the excess of the fair market value of the Shares on the date of exercise over the option price; or (ii) if the disposition is a taxable sale or exchange, the amount of any gain realized. Upon such a disqualifying disposition, the Company will be entitled to a deduction in the same amount and at the same time as the optionee recognizes such taxable ordinary income.

Non-Qualified Stock Options. The grant of a non-qualified stock option will not result in any immediate tax consequences to the Company or the optionee. Upon the exercise of a non-qualified stock option, the optionee will recognize taxable ordinary income, and the Company will be entitled to a deduction, equal to the difference between the option price and the fair market value of the Shares acquired at the time of exercise.

Stock Appreciation Rights. The grant of either a tandem SAR or a freestanding SAR will not result in any immediate tax consequences to the Company or the grantee. Upon the exercise of either a tandem SAR or a freestanding SAR, any cash received and the fair market value on the exercise date of any Shares received will constitute taxable ordinary income to the grantee. The Company will be entitled to a deduction in the same amount and at the same time, subject to the limitations of Code Section 162(m).

Restricted Stock. An employee normally will not recognize taxable income upon an award of restricted stock, and the Company will not be entitled to a deduction, until the termination of the restrictions. Upon such termination, the employee will recognize taxable ordinary income in an amount equal to the fair market value of the Shares at that time, plus the amount of the dividends and interest thereon to which the employee then becomes entitled. However, an employee may elect to recognize taxable ordinary income in the year the restricted stock is awarded in an amount equal to its fair market value at that time, determined without regard to the restrictions. The Company will be entitled to a deduction in the same amount and at the same time as the employee realizes income, subject to the limitations of Code Section 162(m).

Stock Units. Any cash and the fair market value of any Shares received in connection with the grant of a stock unit under the 2005 Plan will constitute taxable ordinary income to the employee in the year in which paid, and the Company will be entitled to a deduction in the same amount, subject to the limitations of Code Section 162(m).

Other Stock-Based Awards. The grant of any other stock-based award will generally constitute taxable ordinary income to the employee in the year in which paid, and the Company will generally be entitled to a deduction in the same amount, subject to the limitations of Code Section 162(m).

Applicable taxes required by law will be withheld from all amounts paid in satisfaction of an award. The amount of the withholding will generally be determined with reference to the average of the high and low sale prices of the Shares as reported in the New York Stock Exchange composite tape on the date of determination. Under the 2005 Plan, the amount of withholding to be paid in respect of non-qualified options exercised through the cashless method in which all Shares are sold immediately after exercise will be determined by reference to the price at which the Shares are sold.

Other

In the event any change in or affecting Shares occurs, the Board of Directors may make appropriate amendments to or adjustments in the 2005 Plan or awards made thereunder, including changes in the number of Shares then remaining to be awarded thereunder, the number of Shares then remaining subject to outstanding awards of stock and stock units or subject to outstanding awards of stock options under the 2005 Plan, and the maximum number of shares that may be granted or delivered to any single Participant pursuant to the 2005 Plan, and may accelerate the vesting of outstanding awards.

In the event of a change in control (as defined in Section 2(e) of the 2005 Plan) of the Company, the 2005 Plan provides that all outstanding stock options would become fully exercisable. Alternatively, the Committee may provide in an award agreement or an award program or at any time prior to the change in control that outstanding awards (including stock options) be cashed out upon a change in control of the Company. The Company may instead enter into an agreement or agreements with the prospective new owner of the Company, or the surviving entity of any merger or other business combination, which would cause such new owner or surviving entity, as the case may be, to agree to adopt and maintain the 2005 Plan and, with respect to all outstanding awards, to adopt outstanding award agreements and award programs, and continue them for their respective terms with equitable adjustments to maintain their value prior to and following the change in control. Alternatively, such agreement or agreements could cause the new owner or the surviving entity, as the case may be, to grant new stock-based awards in substitution for unexercised awards granted by the 2005 Plan with a value not less than the value as of the time of the change in control of the outstanding awards being replaced.

The Board of Directors may at any time amend, suspend or terminate the 2005 Plan or grants made thereunder. It may not, however (except in making amendments and adjustments in the event of changes in or affecting Shares) (i) without the consent of the person affected, impair the rights of the holder of any award other than as provided for or contemplated in the award agreement or award program or (ii) without the approval of Shareholders, increase the number of Shares available for awards under the 2005 Plan, change the class of eligible participants to other than key employees and directors, reduce the basis upon which the minimum stock option exercise price is determined, extend the period within which options may be granted under the 2005 Plan beyond the tenth anniversary of the date that the 2005 Plan is approved by Shareholders or provide for a stock option exercisable more than ten years from the date of grant, except in the event of death. In no event may the Board or the Committee reprice stock options or SARs by reducing the option or SAR exercise price, canceling the options or SARs and granting replacement awards or otherwise.

PROPOSAL 5 RESOLUTION REQUESTING REPORT ON BREAST CANCER FUNDRAISING AND GRANT DISTRIBUTION

The Company is informed that Trillium Asset Management, whose address and share ownership will be furnished promptly upon receipt of any oral or written request therefor, intends to introduce at the Annual Meeting the following resolution:

RESOLVED

Shareholders request that Avon Products report annually to shareholders (at reasonable cost and omitting proprietary information) on the following, beginning in 2005:

Total contributions (itemized by in-kind contributions, product donations and staff time) of Avon Products to the Avon Foundation,

Fundraising and administrative costs, separately stating those incurred in connection with each Avon 2-Day Walk for Breast Cancer,

Criteria for awarding research grants, including the extent to which criteria include the role of environmental factors and the role of genetic factors,

Geographical distribution of grants awarded for screening, treatment, patient care and support services,

Description of the purpose of each research grant awarded, including the scientific question addressed by the grant, and,

Description of the mission, function, and qualifications for serving on the Avon Foundation's community advisory board.

The proponent has furnished the following statement in support of the resolution:

Through philanthropy and product tie-ins, Avon Products has enhanced its brand reputation by becoming the largest corporate fundraiser for the breast cancer cause. The Avon Foundation's Breast Cancer Crusade has raised more than \$300 million worldwide since 1992, and 92% of the foundation's programs and service expenditures were directed toward the breast cancer cause in 2003. Avon merchandise benefiting breast cancer charities includes numerous pink ribbon products such as stuffed bears, apparel, jewelry, cosmetics, umbrellas, candles, water bottles and Christmas ornaments.

Breast cancer cause-related marketing has been subject to much scrutiny in the media (*Business 2.0*, 02/03; *PR Week*, 10/25/04; *The Guardian*, 10/11/04; *Harpers*, 11/01; *Agence France Press*, 10/08/04; *St. Louis Post-Dispatch*, 10/03/04; *Montreal Gazette*, 10/26/04; *Arizona Republic*, 10/09/04; numerous others). Avon has been criticized for a lack of transparency and accountability in key aspects of its fundraising and grantmaking. Specifically:

Edgar Filing: AVON PRODUCTS INC - Form DEF 14A

Basic information about the Avon Foundation's research grants are unavailable, such as the scientific question they address, their purpose and duration, and the scientists to whom they are awarded. For example, although research currently suggests that hereditary factors account for only 5-10% of all breast cancer cases, it is impossible to discern whether any of the Foundation's grants are directed toward researching the potential contribution of man-made environmental toxins.

The Foundation has yet to disclose, on a city-by-city basis, how much money is raised by the multi-city *Avon 2-Day Walk[s] for Breast Cancer* (which collectively raised more than \$31 million in 2003), the overhead expenses associated with each walk, and the grants dispatched to local areas from which the money is raised (the predecessor 3 Day Walks did disclose this information).

Avon's 2003 annual report states, "Our dream is to create the world's largest-ever foundation for women. In the proponent's view, this obligates our company to adhere to the highest standards of transparency and accountability."

Board of Directors Statement on Proposal 5

The Avon Products Foundation, Inc. (the Foundation), an accredited 501(c)(3) not-for-profit charity, was founded in 1955 to improve the lives of women and their families. The Foundation brings this mission to life through two key areas of focus: the fight against breast cancer and support for women's empowerment programs, including economic advancement and the issue of domestic violence. The Avon Breast Cancer Crusade, which is the principal focus of this proposal, was launched in 1992 and now supports breast cancer programs in 50 countries. The Avon Breast Cancer Crusade has raised and awarded more than \$350 million worldwide for access to care and finding a cure for breast cancer with a focus on supporting the medically underserved. Funding supports five areas of the breast cancer cause: awareness and education; screening and diagnosis; treatment; support services; and scientific research. Beneficiaries range from leading cancer centers to community based non-profit breast health programs, creating a powerful international network of research, medical, social service and community based organizations focused on defeating breast cancer and ensuring access to care.

The proponent asserts that Avon Products, Inc. and the Foundation do not provide sufficient information regarding key aspects of the fundraising and grant distribution associated with the Foundation and they seek specific information on contributions, fundraising and administrative costs, criteria for awarding grants, the geographic distribution of grants, the purpose of grants and the mission and qualifications for serving on the Foundation's community advisory board. The Board of Directors believes that the Company and the Foundation already provide extensive information on fundraising, grant distribution and other activities of the Foundation and that the proponent's request is burdensome and unnecessary.

The Foundation appoints independent auditors to prepare annual financial statements regarding its financial position and activities. Those financial statements are publicly filed with many states and available on the Foundation's public website. Those independently audited financial statements set forth the amounts and sources of Foundation revenues, including total special event income (predominantly the Avon Walks for Breast Cancer), general in-kind support, Breast Cancer Crusade items such as the Company's Pink Ribbon products, women's economic empowerment programs, the Yellow Ribbon Fund, and the Heart of America Children's Charity. These same financials also include the amounts expended for program services by category, including the Breast Cancer Crusade, women's economic empowerment programs, the Yellow Ribbon Fund and the Heart of America Children's Charity. Further information is provided on support services, including management services, general expenses and fundraising. In the notes to the Foundation's financial statements, there is a description of each of the major program activities of the Foundation and a description of transactions involving Avon Products, Inc., including pledges from and in-kind contributions by the Company. The notes to the financials also include information regarding all special event income (predominantly the Avon Walks for Breast Cancer), with data on the total income raised, total expenses and net proceeds from the Walks returned to Breast Cancer programs. This information is not broken out on a walk by walk basis, as it is not required for purposes of the financial statements or the Better Business Bureau Guidelines for charitable organizations. The Foundation manages the walks on an aggregate basis and, while some walks are more successful than others, believes that the geographical diversity of its walks helps to foster the mission of the Foundation through outreach, education and awareness.

The public website of the Foundation (www.avonfoundation.org) provides substantial additional detail regarding the Foundation and its initiatives. The website includes a detailed listing of all programs funded by the Foundation in 2004. It lists dozens of funded Breast Cancer programs categorized by Education, Outreach and Support Services, Screening, Diagnostic and Treatment Services and Medical Research and Clinical Care. There is a similarly extensive list of women's empowerment programs and each listing includes a brief description of the purpose of the grant as well as an internet link to the website of the organization supported, so that additional information can be obtained.

The Avon Foundation Breast Cancer Fund provides grants in all 50 states to community-based programs interested in providing local outreach, breast health education, linkage to screening services and follow-up care in partnership with local medical providers in the neighborhoods they serve. While the Foundation does not have

a Community Advisory Board as the proponent asserts, the Fund issues grants on a competitive basis using geographically diverse peer Reviewers selected annually from a broad range of breast cancer and related backgrounds including medical professionals, public health experts and directors of community health programs. The public website of the Avon Foundation (www.avonbreastcare.org) provides Applications for Avon Foundation Breast Cancer Fund grants and Reviewers.

The Company and the Foundation are very proud of the Foundation's efforts to raise money in support of the breast cancer cause and women's empowerment programs. The Board believes that there is extensive information publicly available regarding the contributions to, grants from and operations of the Foundation and believes that the request for additional information sought by the proponent is unnecessary and would divert valuable Foundation resources.

Your Board of Directors recommends that you vote AGAINST Proposal 5.

PROPOSAL 6 RESOLUTION REQUESTING GLOBAL REFORMULATION OF AVON PRODUCTS TO EU STANDARDS

The Company is informed that Domini Social Investments LLC, whose address and share ownership will be furnished promptly upon receipt of any oral or written request therefor, intends to introduce at the Annual Meeting the following resolution:

Whereas:

In February 2003, European Union Directive 2003/15/EC (the Directive) banned the sale in Europe of cosmetics or personal care products containing any ingredients on a list of chemicals known or suspected of causing cancer, genetic mutation, or birth defects.

In 2004, Avon announced it would remove DBP and DEHP, two chemicals banned by the Directive and currently used in some nail products, from its European products, and would try to remove them from products it sells elsewhere. Avon also indicated it would remove from its European products any other chemicals the Directive bans.

However, Avon did not pledge to reformulate its products globally. Scores of Avon products sold in the US, for example, still contain petrolatum, isobutene or hydroquinone, chemicals the EU Directive bans as probable or possible carcinogens, mutagens, or reproductive toxins.

Avon should have one global product safety standard. Having multiple standards may damage Avon's reputation and expose Avon to liability.

Formulation to EU standards would elevate the safety standards of Avon's products. The US FDA, for example, does not require cosmetics manufacturers to test their products for safety. They can use any raw ingredient without approval except for color additives and a few prohibited ingredients.

Concern about safe cosmetics is growing among consumers and Avon's competitors. Nearly fifty cosmetics companies have informed the Campaign for Safe Cosmetics, a coalition of health, consumer, and advocacy groups, that they will inventory their products for ingredients that are suspected carcinogens, mutagens, and reproductive toxins, as well as for chemicals that affect the endocrine system, accumulate in the body or persist in the environment. These companies will proactively seek safe alternatives for these chemicals, and publicly report on their progress.

The reformulation process to comply with the Directive offers companies an opportunity to begin exploring safe alternatives to all chemicals of concern. Avon should demonstrate its commitment to the highest standards of product safety by reformulating its products worldwide to EU standards.

Resolved: Shareholders request that Avon reformulate, in a reasonable time frame and as legally permitted, all its products worldwide to be free of chemicals banned by European Union Directive 2003/15/EC, and that the Board of Directors produce a report to shareholders on the implementation of the reformulation plan by November 1, 2005. The report should be prepared at reasonable cost and omit proprietary information.

The proponent has furnished the following statement in support of the resolution:

Edgar Filing: AVON PRODUCTS INC - Form DEF 14A

Known as the company for women, Avon deserves praise for its global leadership in the fight against breast cancer. This resolution seeks to protect Avon's good name by resolving any doubts that Avon applies a higher safety standard for its European consumers than for others. The Directive identifies the mutagens, reproductive toxins and carcinogens including breast carcinogens currently posing the greatest risks to public health. Without a global reformulation policy, Avon risks losing non-European customers who are concerned about cosmetic safety. The Directive offers Avon the opportunity to respond to growing concerns about the risks cosmetics may pose to human health.

Board of Directors Statement on Proposal 6

Consumer safety is Avon's number one priority. Avon is committed to using only safe and approved ingredients in its products and we comply with the national cosmetics laws in every country in which Avon products are sold. Avon closely monitors all relevant scientific information and adheres to the regulations governing the sale of cosmetics and personal care products in each jurisdiction to ensure that the Company is

fully informed and in compliance with the law. Toxicologists at Avon thoroughly evaluate safety data for all ingredients before they are approved for use in any of our products. Also, the Company's scientists participate in industry-wide and professional scientific organizations in order to access and evaluate the latest information to ensure the continued safe use of all our product ingredients.

In accordance with recent European Union directives (the EU Directives), Avon has already reformulated its products to meet EU regulatory requirements by eliminating the use of dibutyl phthalate (DBP) in its European products. While the EU Directives have prohibited the use of over 1,000 Category 1 and 2 substances, the only impact on Avon has been with DBP (where its use was limited to nail products).

Moreover, excepting DBP, Avon does not use any other Category 1 or 2 substance anywhere else in the world:

Avon has never used DEHP in nail or any other cosmetic products.

Although hydroquinone is not a prohibited substance in the EU², it is subject to restrictions on its use. Nonetheless, Avon does not currently use hydroquinone in its European products and complies with local regulatory requirements in all other jurisdictions in which it is used.

Petrolatum is a permissible substance under the EU Directives if the full refining history is known and it can be shown that the substance from which it is produced complies with certain restrictions. Avon uses petrolatum but has taken measures to ensure that the raw ingredient supplied to Avon complies with these requirements (including appropriate documentation of processing conditions and source/composition of raw materials).

Isobutane is a permissible substance under the EU Directives if it contains less than a maximum permissible concentration of butadiene. Avon uses isobutane but has taken measures to ensure that our raw material suppliers comply with the restriction.

Consistent with the EU Directives, Avon uses only Category 3 substances (both within and outside of the EU) for which there is sufficient evidence to support their safe use in cosmetic products.

Notwithstanding the EU Directives, the Cosmetic Ingredient Review (CIR) recently reaffirmed its position that DBP may be used safely in cosmetic products.³

Nonetheless, in addition to eliminating the use of DBP in European products Avon has instituted a program to determine the feasibility of re-formulating without DBP in other markets (including the United States) where re-formulation is not required by regulation. This program is driven solely by a wish to allay public concern rather than any safety consideration. In connection with this initiative, Avon has requested that each of its suppliers develop formulations without DBP. Since instituting this program we have accomplished the following:

All of Avon's nail product brands sold in the United States and Europe are now formulated without DBP.

¹ Directive 2003/15/EC of the European Parliament and of the Council of 27 February 2003, amending Council Directive 76/768/EEC; and Commission Directive 2004/93/EC, amending Council Directive 76/768/EEC for the purposes of adapting its Annexes II and III to technical progress. Includes in Annex II (prohibited substances), certain substances classified as Category 1 or 2 pursuant to Council Directive 67/548/EEC of 27 June 1967 (as amended). Substances

Edgar Filing: AVON PRODUCTS INC - Form DEF 14A

classified as Category 3 pursuant to Directive 67/548/EEC are permissible for use in cosmetics provided such substances have been evaluated by the EU Scientific Committee on Cosmetic Products and Non-Food Products (SCCNFP) and found acceptable for such use.

² Permissible use of hydroquinone is governed by Annex III of Council Directive 76/768/EEC, as amended.

³ Cosmetic Ingredient Review (CIR), 2004. Annual Review of Cosmetic Ingredient Safety Assessments - 2002/2003. p.37-47. Washington, DC: CIR. Although CIR is funded by the Cosmetic, Toiletry and Fragrance Association (CTFA), both the CIR review process and the CIR Expert Panel (comprised of internationally recognized medical and scientific experts in safety evaluation) are independent from CTFA and the cosmetic industry.

No new bases containing DBP have been developed since May 2004 (a base constitutes the core chemical composition of the product and various color shades are typically formulated from a single base).

Seven new DBP-free nail product bases have been developed since May, 2003.

Nail products sold under Avon's flagship brand (Avon Color Nailwear) have now been formulated without DBP in Brazil, our largest market in Latin America.

We are working with our third party manufacturers in other markets to develop products without DBP under the Nailwear brand.

The Company has a strong commitment to women's health and the safety of our products is of primary concern to Avon. While Avon has not re-formulated its products globally to meet EU regulatory requirements, the Company has only a single global product safety standard:

Avon requires that all products are safe, irrespective of the country in which they are sold. Avon conducts its own safety assessment on every ingredient used and every product sold. In many cases the Company imposes its own restrictions on the use of particular ingredients since not all ingredients have been reviewed for safety by regulatory agencies and Avon is able to respond more quickly to new safety data than are regulatory agencies.

In summary, the Company will continue to monitor and evaluate the scientific data as it is developed, to ensure that all ingredients in Avon's cosmetic products are safe for use by its consumers and that Avon remains in full compliance with all applicable laws and regulations pertaining to cosmetic ingredients. In view of Avon's compliance with the current regulations and its constant monitoring of the safety of ingredients used in Avon's products, we do not believe that the requested report or reformulation is necessary or appropriate.

Your Board of Directors recommends that you vote AGAINST Proposal 6.

SOLICITATION OF PROXIES

The cost of the solicitation of proxies on behalf of Avon will be borne by Avon. Directors, officers and other employees of Avon may, without additional compensation except reimbursement for actual expenses, solicit proxies by mail, in person or by telecommunication. (ii) individuals who, as of March 10, 2005, constitute the Board of Directors (the *Incumbent Board*) cease for any reason to constitute at least a majority of the Board of Directors; *provided, however*, that any individual becoming a director subsequent to March 10, 2005 whose election, or nomination for election by the Corporation's shareholders, was approved by a vote of at least two-thirds of the directors then comprising the Incumbent Board shall be considered as though such individual were a member of the Incumbent Board, but excluding, for this purpose, any such individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board of Directors;

Section 3. Eligibility.

The Committee may grant one or more Awards to any Eligible Person designated by it to receive an Award. Any other provisions of the Plan to the contrary notwithstanding, non-management directors shall be eligible to receive Awards in substantially similar amounts, subject to terms and conditions set forth in a separate Award Program applicable only to non-management directors, approved by the Committee.

Section 4. Awards.

The Committee may grant any one or more of the following types of Awards, and any such Award may be granted by itself, together with another Award that is linked and alternative to the Award with which it is granted or together with another Award that is independent of the Award with which it is granted:

a. *Options.* An Option is an option to purchase a specific number of shares of Stock exercisable at such time or times and subject to such terms and conditions as the Committee may determine consistent with the provisions of the Plan, including the following:

(i) The exercise price of an Option shall not be less than 100% of the Fair Market Value of the Stock on the date the Option is granted, and no Option may be exercisable more than 10 years after the date the Option is granted.

(ii) The exercise price of an Option shall be paid in full upon exercise in any form or manner authorized by the Committee in an Award Agreement or Award Program, including, but not limited to, cash or, if the Award Agreement or Award Program provides, (A) by delivery to the Corporation of shares of Stock which have been owned by the holder for at least 6 months prior to the date of exercise; or (B) in a cashless exercise through a broker or similar arrangement. Any Stock accepted in payment of the exercise price of an Option shall be valued at its Fair Market Value on the date of exercise.

(iii) No fractional shares of Stock will be issued or accepted. The Committee may impose such other conditions, restrictions and contingencies with respect to shares of Stock delivered pursuant to the exercise of an Option as it deems desirable.

(iv) Incentive Stock Options shall be subject to the following additional provisions:

A. No grant of Incentive Stock Options to any one Eligible Person shall cover a number of shares of Stock whose aggregate Fair Market Value (determined on the date the Option is granted), together with the aggregate Fair Market Value (determined on the respective date of grant of any Incentive Stock Option) of the shares of Stock covered by any Incentive Stock Options which have been previously granted under the Plan or any other plan of the Corporation or any Subsidiary and which are exercisable for the first time during the same calendar year, exceeds \$100,000 (or such other amount as may be fixed as the maximum amount permitted by Code Section 422(d)); *provided, however*, that if the limitation is exceeded, the Incentive Stock Options in excess of such limitation shall be treated as Non-Qualified Stock Options.

B. No Incentive Stock Option may be granted to an Eligible Person who on the date of grant is not an employee of the Corporation or a corporation that is a subsidiary of the Corporation within the meaning of Code Section 424(f).

C. Incentive Stock Options granted to an Eligible Person who is an Over 10% Owner shall have an exercise price that is at least 110% of the Fair Market Value on the date the Option is granted and shall not be exercisable more than 5 years after the date the Incentive Stock Options are granted.

Edgar Filing: AVON PRODUCTS INC - Form DEF 14A

(v) Notwithstanding anything to the contrary in this Section 4(a), any Option issued in substitution for an option previously issued by another entity, which substitution occurs in connection with a transaction to which Code Section 424(a) is applicable, may provide for an exercise price computed in accordance with such Code Section and the regulations thereunder and may contain such other terms and conditions as the Committee may prescribe to cause such substitute Option to contain as nearly as possible the same terms and conditions (including the applicable vesting and termination provisions) as those contained in the previously issued option being replaced thereby.

(vi) Unless otherwise determined by the Committee or provided for in the Award Agreement or Award Program, if a Participant's employment or service with the Corporation or a Subsidiary terminates by reason of: (A) such Participant's death, any Option granted to such Participant shall

G-4

become immediately exercisable by the Participant and nonforfeitable (whether or not the Option was exercisable in accordance with its terms) and shall continue to be exercisable for a period of two years from the date of such termination of employment (one year in the case of Incentive Stock Options) or until the expiration of the stated term of such Option, whichever period is the shorter; and (B) such Participant's Disability or Retirement, any Option granted to such Participant shall continue to vest in accordance with the vesting schedule set forth in any Award Agreement or Award Program and shall continue to be exercisable in accordance with its provisions until the expiration of the stated term of such Option.

b. *Stock Appreciation Rights (SARs)*. A SAR is the right to receive a payment measured by the increase in the Fair Market Value of a specified number of shares of Stock from the date of grant of the SAR to the date on which the Participant exercises the SAR. SARs may be (i) freestanding SARs or (ii) tandem SARs granted in conjunction with an Option, either at the time of grant of the Option or at a later date, and exercisable at the Participant's election instead of all or any part of the related Option. To the extent an Option is exercised in whole or in part, any tandem SAR granted in conjunction with such Option (or part thereof) shall terminate and cease to be exercisable. To the extent a tandem SAR is exercised in whole or in part, the Option (or part thereof) in conjunction with which such tandem SAR was granted shall terminate and cease to be exercisable. The payment to which the Participant is entitled on exercise of a SAR may be in cash, in Stock valued at Fair Market Value on the date of exercise or partly in cash and partly in Stock, as provided in the Award Agreement or Award Program or, in the absence of such provision, as the Committee may determine.

c. *Restricted Stock*.

(i) Restricted Stock is an Award of Stock that is issued to a Participant subject to restrictions on transfer and such other restrictions on incidents of ownership as the Committee may determine, including but not limited to the continued employment or service of the Participant with the Corporation or a Subsidiary during a period set forth in the Award Agreement, or the achievement of one or more specific goals with respect to performance of the Corporation, a business unit (which may but need not be a Subsidiary) of the Corporation or with respect to performance of that Participant over a specified period of time. Subject to the specified restrictions, the Participant as owner of those shares of Restricted Stock shall have the rights of the holder thereof, except that the Committee may provide at the time of the Award that any dividends or other distributions paid with respect to that Stock while subject to those restrictions shall be accumulated, with or without interest, or reinvested in Stock and held subject to the same restrictions as the Restricted Stock and such other terms and conditions as the Committee shall determine. Shares of Restricted Stock shall be registered in the name of the Participant and, at the Corporation's sole discretion, shall be held in book entry form subject to the Corporation's instructions or shall be evidenced by a certificate, which shall bear an appropriate restrictive legend, shall be subject to appropriate stop-transfer orders and shall be held in custody by the Corporation until the restrictions on those shares of Restricted Stock lapse.

(ii) Unless otherwise provided in an Award Agreement or Award Program, upon termination of a Participant's employment or service with the Corporation for any reason during the applicable restriction period, all shares of Restricted Stock shall be forfeited by the Participant.

d. *Stock Units*.

(i) A Stock Unit is an Award that entitles the Participant to receive at a specified future date, payment of an amount equal to all or a portion of the Fair Market Value of a specified number of shares of Stock at the end of a specified period. At the time of the grant, the Committee shall determine the factors which will govern the portion of the rights so payable, including, at the discretion of the Committee, any performance criteria that must be satisfied as a condition to payment. Stock Units containing performance criteria, or other restrictions, including but not limited to the continued employment or service of the Participant with the Corporation or a Subsidiary during a period set forth in the Award Agreement, may be designated as Restricted Stock Units.

(ii) Payment in respect of Stock Units may be made by the Corporation in cash, in Stock valued at Fair Market Value on the date of exercise or partly in cash and partly in Stock, as provided in the applicable Award Agreement or Award Program, or, in the absence of such provision, as the Committee may determine.

(iii) Unless otherwise provided in an Award Agreement or Award Program, upon termination of a Participant's employment or service with the Corporation for any reason during the applicable restriction period, all Restricted Stock Units shall be forfeited by the Participant.

e. *Other Stock-Based Awards.* The Committee may grant other Awards under the Plan pursuant to which shares of Stock (which may, but need not, be shares of Restricted Stock pursuant to Section 4(c)) are or may in the future be acquired. Such other Awards may be granted alone, in addition to or in tandem with any Award of any type granted under the Plan and must be consistent with the purpose of the Plan.

f. *Dividend Equivalents.* Any Awards (other than Awards of Options, SARs or Restricted Stock) under the Plan may, in the discretion of the Committee, earn dividend equivalents. In respect of any such Award which is outstanding on a dividend record date for Stock, the Participant may be credited with an amount equal to the cash or stock dividends or other distributions that would have been paid on the shares of Stock covered by such Award had such covered shares been issued and outstanding on such dividend record date. The Committee shall establish such rules and procedures governing the crediting of dividend equivalents, including the timing, form of payment and payment contingencies of such dividend equivalents, as it deems are appropriate or necessary.

g. *Treatment of Awards upon Termination of Employment.* Except as otherwise provided by Sections 4(a)(vi), 4(c)(ii) and 4(d)(iii), any Award held by a Participant who has terminated employment or service with the Corporation or a Subsidiary may be cancelled, accelerated, paid or continued, as provided in the applicable Award Agreement or Award Program, or, in the absence of such provision, as the Committee may determine. The portion of any Award exercisable in the event of continuation or the amount of any payment due under a continued Award may be adjusted by the Committee to reflect the Participant's period of service from the date of grant through the date of the Participant's termination of employment or such other factors as the Committee determines are relevant to its decision to continue the Award.

h. *Forfeiture of Shares.* Notwithstanding any vesting schedule set forth in any Award Agreement or Award Program, in the event that the Committee determines that a Participant violated a noncompetition agreement as set forth in the Award Agreement or Award Program, all Awards and shares of Stock issued to the Participant pursuant to the Plan shall be forfeited; *provided, however*, that the Corporation shall return to the Participant the lesser of any consideration paid by the Participant in exchange for Stock issued to the Participant pursuant to the Plan or the then Fair Market Value of the Stock forfeited hereunder; and *provided, further*, that if the Participant no longer holds shares of Stock issued to such Participant pursuant to the Plan, the Participant shall pay to the Corporation the excess of the Fair Market Value of any such shares of Stock on the date such shares of Stock were issued to the Participant pursuant to the Plan over any consideration paid by the Participant in exchange for such shares of Stock.

i. *Repricing.* Repricing of Options and SARs shall not be permitted. For this purpose, a repricing means any of the following (or any other action that has the same effect as any of the following): (A) changing the terms of an Option or SAR to lower its exercise price; (B) any other action that is treated as a repricing under generally accepted accounting principles; and (C) canceling an Option or SAR at a time when its price is equal to or less than the fair market value of the underlying stock in exchange for another Option, SAR, Restricted Stock or other equity award, unless the cancellation and exchange occurs in connection with an event set forth in Section 9. Such cancellation and exchange would be considered a repricing regardless of whether it is treated as a repricing under generally accepted accounting principles and regardless of whether it is voluntary on the part of the Participant.

Section 5. Stock Available under Plan.

a. Subject to the adjustment provisions of Section 9, the total number of shares of Stock that may be made subject to Awards under the Plan is 31,000,000 shares, of which (i) no more than 8,000,000 shares may be issued

G-6

in respect of Awards of Stock and Stock Units, including Awards of Restricted Stock and Restricted Stock Units, (ii) no more than 23,000,000 shares may be issued in respect of Awards of Options and (iii) no more than 4,500,000 shares may be made subject to Awards, including Options and SARs, to any Eligible Person.

b. Any shares of Stock (i) attributable to the nonvested, unpaid, unexercised, unconverted or otherwise unsettled portion of any Award granted under this Plan that is forfeited or cancelled or expires or terminates for any reason without becoming vested, paid, exercised, converted or otherwise settled in full and (ii) delivered to, or withheld by, the Corporation in payment of the exercise price of an Option or in respect of taxes required to be withheld by the Corporation upon exercise or settlement of an Option or other Award, shall not become available again for purposes of the Plan.

c. In the event that the Corporation or its Subsidiaries makes an acquisition or is a party to a merger or consolidation and the Corporation assumes the options or other awards consistent with the purpose of this Plan of the corporation acquired, merged or consolidated which are administered pursuant to this Plan, shares of Stock subject to the assumed options or other awards shall not count as part of the total number of shares of Stock that may be made subject to Awards under this Plan.

Section 6. Award Agreements and Award Programs.

Each Award under the Plan shall be evidenced by an Award Agreement or Award Program. Each Award Agreement or Award Program shall set forth the terms and conditions applicable to the Award, including but not limited to provisions for (i) the time at which the Award becomes exercisable or otherwise becomes nonforfeitable; (ii) the treatment of the Award in the event of the termination of a Participant's status as an Eligible Person; and (iii) any special provisions applicable in the event of an occurrence of a Change in Control, as determined by the Committee consistent with the provisions of the Plan.

Section 7. Amendment and Termination.

a. The Board of Directors shall have the power to amend the Plan, including the power to change the amount of the aggregate Fair Market Value of the shares of Stock subject to Incentive Stock Options first exercisable in any calendar year under Section 4(a)(iv)(A) to the extent provided in Code Section 422, or any successor provision. It shall not, however, except as otherwise provided in the Plan, without approval of the shareholders of the Corporation, increase the maximum number of shares of Stock available for Awards under the Plan, nor change the class of Eligible Persons, nor reduce the basis upon which the minimum Option exercise price is determined, nor amend Section 4(i), nor extend the period within which Awards under the Plan may be granted, nor provide for an Option that is exercisable more than ten years from the date it is granted. The Board of Directors shall have no power to change the terms of any Award theretofore granted under the Plan so as to impair the rights of a Participant without the consent of the Participant whose rights would be affected by such change except to the extent, if any, provided in the Plan or in the Award Agreement or Award Program.

b. The Board of Directors may suspend or terminate the Plan at any time. No such suspension or termination shall affect Awards then in effect.

Section 8. Administration.

Edgar Filing: AVON PRODUCTS INC - Form DEF 14A

a. The Plan and all Awards shall be administered by the Committee. The Committee shall have full and complete authority, in its sole and absolute discretion, (i) to exercise all of the powers granted to it under the Plan, (ii) to construe, interpret and implement the Plan and any related document, (iii) to prescribe, amend and rescind rules relating to the Plan, (iv) to make all determinations necessary or advisable in administering the Plan, and (v) to correct any defect, supply any omission and reconcile any inconsistency in the Plan. The actions and determinations of the Committee on all matters relating to the Plan and any Awards will be final and conclusive. The Committee's determinations under the Plan need not be uniform and may be made by it selectively among Eligible Persons who receive, or who are eligible to receive, Awards under the Plan, whether or not such persons are similarly situated.

G-7

b. The Committee and others to whom the Committee has delegated such duties shall keep a record of all their proceedings and actions and shall maintain all such books of account, records and other data as shall be necessary for the proper administration of the Plan.

c. The Corporation shall pay all reasonable expenses of administering the Plan, including but not limited to the payment of professional fees.

d. It is the intent of the Corporation that this Plan and Awards hereunder satisfy, and be interpreted in a manner that satisfy, in the case of Participants who are or may be officers or directors of the Corporation subject to Section 16 of the Exchange Act, the applicable requirements of Rule 16b-3 under the Exchange Act, so that such persons will be entitled to the benefits of Rule 16b-3, or other exemptive rules under Section 16 of the Exchange Act, and will not be subjected to avoidable liability under Section 16(b) of the Exchange Act. If any provision of this Plan, any Award Agreement or any Award Program would otherwise frustrate or conflict with the intent expressed in this Section 8(d), that provision to the extent possible shall be interpreted and deemed amended so as to avoid such conflict. To the extent of any remaining irreconcilable conflict with such intent, such provision shall be deemed void as to such officers, directors or Covered Employees, as applicable.

e. The Committee may appoint such accountants, counsel, and other experts as it deems necessary or desirable in connection with the administration of the Plan.

f. The Committee may delegate to an officer the right to designate Key Employees (other than the delegate and officers of the Corporation subject to Section 16 of the Exchange Act) to be granted Awards and the number of shares of Stock or other amount subject to Awards granted to each such Key Employee, subject to the terms and conditions of this Plan and such other terms and conditions that may be determined by the Committee.

Section 9. *Adjustment Provisions.*

a. In the event of any change in or affecting the outstanding shares of Stock by reason of a stock dividend or split, merger or consolidation (whether or not the Corporation is a surviving corporation), recapitalization, reorganization, combination or exchange of shares or other similar corporate changes or an extraordinary dividend in cash, securities or other property, the Board of Directors shall make such amendments to the Plan, outstanding Awards, Award Agreements and Award Programs and make such adjustments and take actions thereunder as it deems appropriate, in its sole discretion, under the circumstances. Such amendments, adjustments and actions may include, but are not limited to, changes in the number of shares of Stock then remaining subject to the Plan, the number of shares of Stock then remaining subject to Awards of Stock and Stock Units (including Restricted Stock and Restricted Stock Units) or subject to Awards of Options under the Plan, and the maximum number of shares that may be granted or delivered to any single Participant pursuant to the Plan, including those that are then covered by outstanding Awards, or accelerating the vesting of outstanding Awards.

b. The existence of the Plan and the Awards granted hereunder shall not affect or restrict in any way the right or power of the Board of Directors or the shareholders of the Corporation to make or authorize any adjustment, recapitalization, reorganization or other change in its capital or business structure, any merger or consolidation of the Corporation, any issue of bonds, debentures, preferred or prior preference stock ahead of or affecting the Stock or the rights thereof, the dissolution or liquidation of the Corporation or any sale or transfer of all or any part of its assets or business, or any other corporate act or proceeding.

c. In the case of Options, in the event of a Change in Control, each outstanding Option shall automatically become fully exercisable. The Committee may provide in an Award Agreement or Award Program, or at any time prior to the occurrence of a Change in Control, that in the event of a Change in Control the Award shall be cashed out on the basis of the highest price paid for a share of Stock in any transaction reported

Edgar Filing: AVON PRODUCTS INC - Form DEF 14A

by the New York Stock Exchange or any national securities exchange selected by the Committee on which the shares of Stock are

G-8

then actively traded during the 60-day period immediately preceding or ending on the date of the Change in Control or offered for a share of Stock in any tender offer occurring during the 60-day period immediately preceding or ending on the date the tender offer commences (the Change in Control Price). For purposes of this Section 9(c), the cash-out of an Award shall be determined as follows:

(i) Options and SARs shall be cashed out on the basis of the excess, if any, of the Change in Control Price (but not more than the Fair Market Value of the Stock on the date of the cash-out in the case of Incentive Stock Options) over the exercise price of the Option or the Fair Market Value on the grant date of the SAR; and

(ii) Stock and Stock Units shall be cashed out in an amount equal to the Change in Control Price, with or without regard to any conditions or restrictions otherwise applicable to any such Award.

d. Section 9(c) above notwithstanding, the Board of Directors may, in lieu of any cash-out of Awards, approve an agreement or agreements with the prospective new owner of the Corporation, or the surviving entity of any merger or other business combination, the binding effect of which would be to cause such new owner or surviving entity, as the case may be, to agree to adopt the Plan and maintain it, with respect to all outstanding Awards, to adopt outstanding Award Agreements and Award Programs, and continue in effect their respective terms; *provided, however,* that equitable adjustments shall be made to reflect the relative value of the Stock prior to and following the Change in Control. Alternatively, such agreement or agreements could cause the new owner of the Corporation or the surviving entity of any merger or other business combination, to grant new stock-based awards in substitution for unexercised Awards granted by the Plan; *provided, however,* that such substituted awards shall have a value not less than the value as of the time of the Change in Control of the Awards that they are replacing.

Section 10. Miscellaneous.

a. *Transferability.* Except as otherwise provided by the Committee, no Award shall be transferable or assignable except (i) by will or by the laws of descent and distribution or (ii) with respect to Non-Qualified Stock Options, pursuant to a domestic relations order or by gift to a family member of the Participant to the extent permitted in the applicable Award Agreement or Award Program, or as approved by the Committee. During the lifetime of the Participant, an Option shall be exercisable only by the Participant unless it has been transferred pursuant to a domestic relations order or by gift to a family member of the Participant, in which case it shall be exercisable only by such transferee. For the purpose of this provision, a family member shall have the meaning set forth in the General Instructions to Form S-8 Registration Statement under the Securities Act of 1933, as amended.

b. *Other Payments or Awards.* Nothing contained in the Plan shall be deemed in any way to limit or restrict the Corporation or a Subsidiary from making any award or payment to any person under any other plan, arrangement or understanding, whether now existing or hereafter in effect.

c. *Payments to Other Persons.* If payments are legally required to be made to any person other than the person to whom any amount is made available under the Plan, payments shall be made accordingly. Any such payment shall be a complete discharge of the liability of the Corporation and its Subsidiaries hereunder.

d. *Unfunded Plan.* The Plan shall be unfunded. No provision of the Plan, any Award Agreement or any Award Program shall require the Corporation or a Subsidiary, for the purpose of satisfying any obligations under the Plan, to purchase assets or place any assets in a trust or other entity to which contributions are made or otherwise to segregate any assets, nor shall the Corporation or a Subsidiary maintain separate bank accounts, books, records or other evidence of the existence of a segregated or separately maintained or administered fund for such purposes. Participants shall have no rights under the Plan other than as unsecured general creditors of the Corporation or a Subsidiary, except that insofar

as they may have become entitled to payment of additional compensation by performance of services, they shall have the same rights as other employees under generally applicable law.

G-9

e. *Limits of Liability.* Any liability of the Corporation or a Subsidiary to any Participant with respect to an Award shall be based solely upon contractual obligations created by the Plan and the Award Agreement or Award Program applicable to such Award. Neither the Corporation or its Subsidiaries, nor any member of the Board of Directors or of the Committee, nor any other person participating in any determination of any question under the Plan, or in the interpretation, administration or application of the Plan, shall have any liability to any party for any action taken, or not taken, in good faith under the Plan.

f. *Rights of Eligible Persons.* Status as an Eligible Person shall not be construed as a commitment that any Award shall be made under the Plan to such Eligible Person or to Eligible Persons generally. Nothing contained in the Plan, in any Award Agreement or in any Award Program shall confer upon any Eligible Person or Participant any right to continue in the employ or other service of the Corporation or a Subsidiary or constitute any contract or limit in any way the right of the Corporation or a Subsidiary to change such person's compensation or other benefits or to terminate the employment or other service of such person with or without cause. A transfer of an Eligible Person from the Corporation to a Subsidiary, or vice versa, or from one Subsidiary to another, duly authorized by the Corporation, shall not be deemed a termination of employment or other service.

g. *Rights as a Shareholder.* A Participant shall have no rights as a shareholder with respect to any Stock covered by an Award until the date the Participant becomes the holder of record thereof.
