PROXY STATEMENT

The board of directors of FreightCar America, Inc. is asking for your proxy for use at the annual meeting of our stockholders to be held at 10:00 a.m. (local time) on Tuesday, May 15, 2007 at the Union League Club of Chicago, 65 West Jackson Boulevard, Chicago, Illinois 60604, and at any postponements or adjournments of the meeting. We are initially mailing this proxy statement and the enclosed proxy card to our stockholders on or about April 10, 2007.

ABOUT THE MEETING

What is the purpose of the annual meeting?

At our annual meeting, stockholders will act upon the matters outlined in the accompanying notice of annual meeting, including (i) the election of two directors who have been nominated for election as Class II directors to three-year terms, (ii) the ratification of the appointment of our independent registered public accounting firm and (iii) any other business properly coming before the meeting.

What are our voting recommendations?

Our board of directors recommends that you vote your shares FOR the election of each of the nominees named below under Proposal 1 Election of Class II Directors and FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm discussed below under Proposal 2 Ratification of the Appointment of Independent Registered Public Accounting Firm.

Who is entitled to vote?

Only stockholders of record at the close of business on the record date, March 30, 2007, are entitled to receive notice of the annual meeting and to vote the shares of common stock that they held on the record date at the meeting and any postponements or adjournments of the meeting. Each outstanding share of common stock entitles its holder to cast one vote, without cumulation, on each matter to be voted on.

What constitutes a quorum?

If a majority of the shares outstanding on the record date are present at the annual meeting, either in person or by proxy, we will have a quorum at the meeting permitting the conduct of business at the meeting. As of the record date, we had 12,255,079 shares of common stock outstanding and entitled to vote. Any shares represented by proxies that are marked to abstain from voting on a proposal will be counted as present for purposes of determining whether we have a quorum. If a broker, bank, custodian, nominee or other record holder of our common stock indicates on a proxy that it does not have discretionary authority to vote certain shares on a particular matter, the shares held by that record holder (referred to as broker non-votes) will also be counted as present in determining whether we have a quorum.

How do I vote?

You may vote in person at the annual meeting or you may vote by proxy. You may vote by proxy by completing, signing, dating and mailing or faxing the enclosed proxy card. If you vote by proxy, the individuals named on the proxy card as proxy holders will vote your shares in the manner you indicate. If you sign and return the proxy card without indicating your instructions, your shares will be voted FOR:

Edgar Filing: FreightCar America, Inc. - Form DEF 14A

the election of the two nominees named below under Proposal 1 Election of Class II Directors to three-year terms; and

Table of Contents

the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for fiscal year 2007 discussed below under Proposal 2 Ratification of the Appointment of Independent Registered Public Accounting Firm.

Can I revoke my proxy or change my vote after I return my proxy card?

Yes. Even after you have submitted your proxy, you may revoke your proxy or change your vote at any time before the proxy is voted at the annual meeting by delivering to our Secretary a written notice of revocation or a properly signed proxy bearing a later date, or by attending the annual meeting and voting in person. Attendance at the meeting will not cause your previously granted proxy to be revoked unless you specifically so request or you vote in person at the meeting.

What vote is required to approve each matter that comes before the meeting?

Director nominees must receive the affirmative vote of a plurality of the votes cast at the meeting in person or by proxy by stockholders entitled to vote thereon, meaning that the two nominees for Class II director with the most votes will be elected. The ratification of appointment of our independent registered public accounting firm requires the affirmative vote of a majority of the votes represented at the meeting in person or by proxy. Broker non-votes will not be counted for purposes of determining whether an item has received the requisite number of votes for approval. Abstentions will have the effect of a vote against the ratification of the appointment of our independent registered public accounting firm but will not be taken into account in determining the outcome of the election of directors. However, each of our directors and director candidates has offered a contingent resignation that may be accepted by the board of directors in its discretion if a majority of the votes are not cast for such director in an uncontested election.

What happens if additional proposals are presented at the meeting?

If you vote by proxy, your proxy grants the persons named as proxy holders the discretion to vote your shares on any additional matters properly presented for a vote at the meeting.

Who will bear the costs of soliciting votes for the meeting?

Certain directors, officers and employees, who will not receive any additional compensation for such activities, may solicit proxies by personal interview, mail, telephone or electronic communication. We will also reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for forwarding proxy and solicitation materials to our stockholders. We will bear all costs of solicitation, including a base fee of \$7,500 to be paid to the proxy solicitation firm of Georgeson Shareholder Communications Inc.

PROPOSALS TO BE VOTED ON

Proposal 1 Election of Class II Directors

Our certificate of incorporation provides for a classified board of directors consisting of three classes of the same or nearly the same number of directors. The number of members of our board of directors is currently fixed at seven directors. The term of office of each current Class II director is scheduled to expire at our annual meeting of stockholders to be held this year. Currently, two of our directors John E. Carroll, Jr., and Christian Ragot are Class II directors. Mr. Carroll has agreed to resign as a director on April 30, 2007 and he is not a director nominee at this year's annual meeting of stockholders. At the recommendation of our nominating and corporate governance committee, our board of directors has determined to nominate Mr. Ragot and William D. Gehl for election to three-year terms as Class II directors at our annual meeting this year.

Table of Contents

Each nominee elected by our stockholders as a Class II director at our annual meeting this year will be elected to a term to expire at the annual meeting of stockholders in 2010.

Information about the director nominees, the continuing directors and our board of directors is contained in the section of this proxy statement entitled *Board of Directors Board Structure and Composition*.

In the event a nominee is not available to serve for any reason when the election occurs, it is intended that the proxies will be voted for the election of the other nominees and may be voted for any substitute nominee. Our board of directors has no reason to believe that any of the nominees will not be a candidate or, if elected, will be unable or unwilling to serve as a director.

Our board of directors recommends that you vote FOR the election of Christian Ragot and William D. Gehl as Class II directors.

Proposal 2 Ratification of the Appointment of Independent Registered Public Accounting Firm

Deloitte & Touche LLP audited our financial statements for our fiscal year ended December 31, 2006, and has been selected by the audit committee of our board of directors to audit our financial statements for the fiscal year ending December 31, 2007. A representative of Deloitte & Touche LLP is expected to attend our annual meeting, where he or she will have the opportunity to make a statement, if he or she desires, and will be available to respond to appropriate questions.

Stockholder ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm is not required by our by-laws or otherwise. However, we are submitting the appointment of Deloitte & Touche LLP to our stockholders for ratification as a matter of good corporate practice. If our stockholders fail to ratify the appointment, our audit committee will review its future selection of independent registered public accounting firms. Even if the appointment is ratified, the audit committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of our company and our stockholders.

For information regarding audit and other fees billed by Deloitte & Touche LLP for services rendered with respect to fiscal years 2006 and 2005, see the section of this proxy statement entitled *Fees of Independent Registered Public Accounting Firm and Audit Committee Report Fees Billed by Independent Registered Public Accounting Firm*.

Our board of directors recommends that you vote FOR the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm.

BOARD OF DIRECTORS

Board Structure and Composition

Our certificate of incorporation provides for a classified board of directors consisting of three classes of the same or nearly the same number of directors. The number of members of our board of directors is currently fixed at seven directors:

Robert N. Tidball, S. Carl Soderstrom, Jr. and James D. Cirar serve in Class I. Their terms will expire on the date of the annual meeting of stockholders to be held in 2009.

John E. Carroll, Jr. and Christian Ragot serve in Class II. Mr. Carroll has agreed to resign as a director on April 30, 2007. Mr. Ragot's term will expire on the date of the upcoming annual meeting of stockholders on May 15, 2007.

Table of Contents

Thomas M. Fitzpatrick and Thomas A. Madden serve in Class III. Their terms will expire on the date of the annual meeting of stockholders to be held in 2008.

Upon the expiration of the term of each class of directors, directors of that class generally may be re-elected for a three-year term at the annual meeting of stockholders in the year in which their term expires. A director elected by the board of directors is designated upon his or her election as a Class I, Class II or Class III director, and serves a term that expires at the next annual meeting of stockholders after such director's election. A director elected by the stockholders at an annual meeting of stockholders to succeed a director elected during the preceding year by the board of directors joins the same class as the replacement director whom he or she succeeds and serves a term that expires at the next annual meeting of stockholders at which the terms of the other directors of that director's class are or would be scheduled to expire. Each of our directors has signed a contingent resignation letter providing that if a majority of the votes of the shares in an uncontested election in which such director is a nominee are designated to be withheld from, or are voted against, the director's election and the board of directors accepts the contingent resignation letter following such election, the director's resignation will be effective upon the board's acceptance of the letter. Mr. Gehl has agreed that, if he is elected as a director, he will sign a contingent resignation letter upon his election.

Our certificate of incorporation provides that the authorized number of directors may be changed only by resolution of the board of directors. Any additional directorships resulting from an increase in the number of directors will be distributed among the three classes so that, as nearly as possible, each class will consist of one-third of the total number of directors. Our certificate of incorporation also provides that our board of directors may fill any vacancy created by the resignation of a director or an increase in the size of the board of directors.

Nominees for election at this meeting for terms expiring in 2010:

Our independent directors hold meetings in executive session, at which only independent directors are present. Table of Contents

Code of Business Conduct and Ethics

We have established a Code of Business Conduct and Ethics that applies to our officers, directors and employees, including our Chief Executive Officer and Chief Financial Officer. A copy of the Code of Business Conduct and Ethics is available on our website, www.freightcaramerica.com.

We intend to disclose any amendments to or waivers from our Code of Business Conduct and Ethics applicable to any of our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions on our website at www.freightcaramerica.com.

Criteria for Nominating Directors

The nominating and corporate governance committee of our board of directors considers candidates to fill new directorships created by expansion and vacancies that may occur and makes recommendations to the board of directors with respect to such candidates. The nominating and corporate governance committee considers all relevant qualifications of candidates for board membership, including factors such as industry knowledge and experience, international, public company, academic or regulatory experience, financial expertise, diversity, current employment and other board memberships, and whether the candidate will be independent under the listing standards of the Nasdaq National Market, Inc. In the case of incumbent directors whose terms of office are set to expire, the nominating and corporate governance committee will also review such director's overall service to us during his or her term and any relationships and transactions that might impair such director's independence.

In 2006, the nominating and corporate governance committee paid a fee to a third party to assist in the process of identifying or evaluating potential director candidates. In the future, we may pay a fee to a third party to identify or evaluate potential director nominees if the need arises.

Our by-laws provide that nominations for the election of directors at our annual meeting may be made by our board of directors or any stockholder entitled to vote for the election of directors generally who complies with the procedures set forth in the by-laws and who is a stockholder of record at the time notice is delivered to us. Any stockholder entitled to vote in the election of directors generally may nominate a person for election to the board of directors at our annual meeting only if timely notice of such stockholder's intent to make such nomination has been given in writing to our Secretary at our offices at Two North Riverside Plaza, Suite 1250, Chicago, Illinois 60606. Any recommendations received from stockholders will be evaluated by the nominating and corporate governance committee in the same manner that potential director nominees suggested by board members, management or other parties are evaluated.

To be timely, a stockholder's notice shall be delivered to or mailed and received at the principal executive offices of the Company not less than ninety (90) nor more than one hundred twenty (120) days prior to the first anniversary of the previous year's annual meeting; provided, however, that in the event less than thirty (30) days' notice or prior public disclosure of the date of the meeting is given or made to stockholders, notice by the stockholder to be timely must be so received not later than the close of business on the tenth (10th) day following the day on which such notice of the date of the meeting was mailed or such public disclosure was made.

We have not received director candidate recommendations from any of our stockholders for the annual meeting of stockholders to be held on May 15, 2007.

Director Compensation

We currently compensate each of our independent directors with an annual stipend of \$30,000 and an annual restricted stock award of \$45,000. Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended (the Exchange Act) requires our directors, executive officers and holders of more than 10% of our common stock to file with the SEC reports regarding their ownership and changes in ownership of our common stock. Based solely on our review of the reports furnished to us, we believe that all of our directors and executive officers have complied with all Section 16(a) filing requirements for 2006, except that a Form 3 for Mr. Bridges relating to his appointment as Senior Vice President, Operations, was inadvertently filed late.

COMPENSATION DISCUSSION AND ANALYSIS

The following sections discuss the material factors involved in the Company's decisions regarding the compensation of the Company's Named Executive Officers (as defined in the section of this proxy statement entitled Executive Compensation Summary Compensation Table) (the NEOs) during 2006. The specific amounts paid or payable to the NEOs are disclosed in the tables and narrative in the section of this proxy statement entitled Executive Compensation. The following discussion cross-references those specific tabular and narrative disclosures where appropriate.

Introduction

The compensation committee is comprised of at least three directors, each of whom must be determined by the board to meet the independence requirements of the SEC, Nasdaq and any other applicable governmental or regulatory authorities, each as in effect from time to time. Members of the compensation committee must also qualify as non-employee directors within the meaning of Rule 16b-3(b)(3) under the Exchange Act, and outside directors within the meaning of Section 162(m) of the Code and must satisfy any other necessary standards of independence under the federal securities and tax laws, as amended from time to time.

If a compensation committee chairperson is not designated by the board, members of the compensation committee designate a chairperson by majority vote.

The compensation committee meets quarterly or more frequently as circumstances require. A majority of the members of the compensation committee constitutes a quorum.

The compensation committee chairperson determines the agenda for each meeting. Materials related to agenda items are provided to the compensation committee members sufficiently in advance of the meeting where necessary to allow the members to prepare for discussion of the items at the meeting. The compensation committee maintains written minutes of its meetings, which are maintained with our books and records. The compensation committee reports its activities regularly and directly to the board of directors and makes recommendations that the compensation committee deems advisable.

The compensation committee may request that any of our directors, officers or employees or any other persons whose advice and counsel are sought by the compensation committee attend any meeting of the compensation committee to provide such pertinent information as it reasonably requests. Our Chief Executive Officer (CEO) may not be present during deliberations or voting concerning his own compensation.

Compensation Committee's Processes and Procedures for Consideration and Determination of Executive Compensation

General Authorities and Responsibilities

The compensation committee reviews the Compensation Discussion and Analysis (the CD&A) section of our proxy statement and recommends to the board of directors that the CD&A be included in our proxy statement. The compensation committee issues an annual report on executive compensation for inclusion in our proxy statement and reports to the board of directors its plan for succession of the CEO and other senior executives in the event that any of such officers retires, is disabled or is otherwise unable to fulfill his or her duties. The compensation committee has the authority to conduct or authorize investigations into any matter within its scope of responsibilities, and retain, at our expense, such independent counsel, compensation consultant or other consultants and advisers as it deems necessary. In 2006, the compensation committee engaged an independent compensation consulting firm, Hewitt Associates. The compensation committee has the sole authority to retain and terminate an independent compensation consultant to be used to assist in its evaluation of director and/or senior management compensation and has the sole authority to terminate the consultant and approve the consultant's fees and other retention terms. The compensation committee also has the authority to obtain advice and assistance from internal or external legal, accounting or other advisors as it deems appropriate or necessary. The compensation committee reviews and assesses at least annually the adequacy of the compensation committee charter and recommends any proposed changes to the board of directors for approval. The compensation committee also annually reviews its own performance.

Executive and Director Compensation

The compensation committee, in consultation with management, reviews and recommends for approval by the board of directors our general policies relating to senior management compensation and oversees the development and implementation of such compensation programs. The compensation committee, in consultation with management, reviews and approves, or recommends for ratification by the board of directors, senior management compensation, including, to the extent applicable, (a) salary, bonus and incentive compensation levels, (b) deferred compensation, (c) executive perquisites, (d) equity compensation (including awards to induce employment), (e) employment agreements, severance arrangements and change in control agreements/provisions, in each case as, when and if appropriate, and (f) other forms of senior management compensation. The compensation committee meets without the presence of senior management when approving or deliberating on CEO compensation but may, in its discretion, invite the CEO to be present during the approval of, or deliberations with respect to, other senior management compensation. The compensation committee periodically reviews and approves corporate goals and objectives relevant to senior management compensation, evaluates the CEO's performance in light of those goals and objectives, as a committee or together with the independent members of the board of directors, and recommends for ratification by the board of directors the CEO's compensation levels based on this evaluation. The compensation committee periodically reviews and makes recommendations to the board of directors with respect to director compensation for non-employee members of the board of directors and its committees. The compensation committee shall not time its release of material non-public information for the purpose of affecting the value of executive compensation, or set the grant date of its stock option grants to executives to anticipate the release of material non-public information, except in extraordinary circumstances and with full disclosure to the Company's stockholders and the public. The compensation committee adopts policies regarding the adjustment or recovery of incentive awards or payments if the relevant performance measures upon which such incentive awards or payments were based are restated or otherwise adjusted in a manner that would reduce the size of an award or payment. The compensation committee may consider the accounting and tax treatment to the Company and to senior management of each particular element of compensation.

Oversight of Benefit Plans

The compensation committee oversees, periodically reviews and makes recommendations to the board of directors with respect to employee benefit plans, including all pension and profit sharing plans, stock option plans, stock appreciation rights plans, incentive plans, stock bonus plans, stock purchase plans, bonus plans, deferred compensation plans and similar programs. The compensation committee has the power and authority to oversee these plans, establish guidelines, interpret plan documents, select participants, approve grants and awards, and

Table of Contents

exercise such other power and authority as may be permitted or required under such plans. The compensation committee may also undertake such additional activities within the scope of its primary function as the board of directors or the compensation committee may from time to time determine or as may otherwise be required by law, the board of directors or our charter or by-laws.

Compensation Committee Interlocks and Insider Participation

None of the members of our compensation committee at any time has been one of our officers or employees. None of our executive officers currently serves, or in the past year has served, as a member of the board of directors or compensation committee of any entity that has one or more executive officers who serve on our board or compensation committee.

Compensation Philosophy and Objectives

Our compensation program is designed to attract, motivate and retain the highly talented individuals that FreightCar America needs to drive business success. The program reflects the following principles:

FreightCar America employees should think like FreightCar America stockholders. We believe that FreightCar America employees should act in the interests of FreightCar America stockholders and the best way to encourage them to do so is through an equity stake in the Company. We pay a substantial portion of total compensation in the form of stock options and/or restricted stock. The Company's goal is to have compensation programs that encourage each employee to think and act like an owner of the business. Our industry is cyclical. Executives must manage this cycle by diversifying our product offerings, maintaining low costs, and other measures.

Compensation should be related to performance. The Company's compensation program endeavors to reinforce the Company's business and financial objectives. Employee compensation will vary based on objectively determinable Company performance. When the Company performs well based on financial measures, employees will receive greater incentive compensation. When the Company does not meet objectives or is facing financial challenges, incentive awards will be reduced. An employee's individual compensation also will vary based on the person's performance, contribution and overall value to the business. Employees with sustained high performance will be rewarded more than those in similar positions with lesser performance.

Incentive compensation should be a greater part of total compensation for employees with more senior positions. The proportion of an individual's total compensation that varies based on individual and Company performance objectives should increase as the individual's business responsibilities increase.

Other goals. The Company's compensation program is designed to balance short and long-term financial objectives. The Company's compensation program also is designed to be competitive with our peer group companies (described below). When the compensation committee determines compensation levels for executive officers, it reviews compensation survey data from independent sources in an attempt to ensure that our total compensation program is competitive and fair. The compensation committee looks at compensation data from companies in our industry as well as from companies in a broad cross-section of industries. The compensation committee targets overall compensation levels competitive with our industry comparison group.

Components of Executive Compensation

Total compensation for executives is comprised of base salaries, annual cash incentive awards, long-term equity awards, retirement and post-employment benefits, including severance protection, and other benefits and perquisites. The various components of executive compensation reflect the following policies:

Base Salary

Why this component is paid to executives

Base salary is provided to all salaried employees (including the NEOs) in order to provide employees with a degree of financial certainty. Competitive base salaries further the compensation program's objectives by allowing the Company to attract talented employees by providing a fixed portion of compensation on which employees can rely.

Table of Contents

How the amount of base salary is determined

The annual base salary for each executive officer (including the NEOs) generally is increased on the anniversary of his or her start date. In 2005, the compensation committee asked Hewitt Associates to study the overall compensation levels, including base salary, of the CEO and two other senior management employees. With respect to other senior management employees and other management employees, the Company uses the results of an annual study by the Economic Research Institute and sets annual base salaries at plus or minus 25% of the midpoint, depending on an assessment of the individual's sustained performance and the location of his or her position.

Relation of base salary to other components of compensation

The amount of an executive's base salary is the reference point for much of the other compensation. For example, the potential annual incentive awards for the NEOs other than Mr. Carroll, our current CEO, are based, in part, on the executives' respective base salaries. In 2007, the potential annual incentive award for Mr. Ragot, our current chief operating officer who will become our CEO on April 30, 2007, will be based, in part, on his annual base salary. In addition, base salary is one component of the formula for determining pension benefits under the Company's Pension Plan.

Annual Incentive Awards

Pursuant to the terms of his employment agreement, Mr. Carroll received an annual cash bonus equal to 1% of the Company's operating earnings before taxes, interest, depreciation and amortization (EBITDA) for the 2006 calendar year. Cash bonuses were paid to the other NEOs under the Company's Salaried Bonus Plan, which provides additional compensation to participants based on the Company's Return on Net Assets (RONA), which is defined as Operating Income divided by Average Net Assets. The Salaried Bonus Plan defines Operating Income for the Company as earnings computed under generally accepted accounting principles, after accrual for current year's salaried bonus expenses and before interest, taxes and other income and expenses excluded from operating income by generally accepted accounting principles. The Salaried Bonus Plan defines Average Net Assets as the sum of average annual (computed on a monthly basis) receivables, inventory and property, plant and equipments net of accumulated depreciation, less payables.

The Salaried Bonus Plan is open to all salaried personnel selected by the CEO and the compensation committee. Participants in the Salaried Bonus Plan typically must be actively employed by the Company on the payment date to receive a bonus award. Participants who are not actively employed by the Company on the payment date are entitled to receive a partial bonus award in certain circumstances. In 2007, Mr. Ragot, our current chief operating officer who will become our CEO on April 30, 2007, will participate in the Salaried Bonus Plan.

Why this component is paid to executives and how it furthers the program's objectives

The Company believes that a significant amount of compensation should be contingent on Company performance. As described above, the annual incentive payment to our current CEO, Mr. Carroll, the NEOs other than Mr. Carroll and the other senior management employees was based primarily on objectively determinable Company performance.

How the amount is determined

As noted above, the bonus for our CEO, Mr. Carroll, is calculated as 1% of EBITDA. The bonuses for the other NEOs and the senior management employees were based on (i) the annual salary of the officer or employee, (ii) the Company's RONA, (iii) the specified bonus

Table of Contents

rate from Bonus Rate Table under the Salaried Bonus Plan, and (iv) the NEO's or senior management employee's Bonus Group percentage specified under the Salaried Bonus Plan according to the following formula:

$$\begin{array}{ccccccc} \text{Base} & & \text{Bonus} & & \text{Bonus} & & \text{Bonus} \\ \text{Salary} & \times & \text{Rate} & \times & \text{Group \%} & = & \text{Award \$} \end{array}$$

The Bonus Rate can range from 0% (if RONA is below a percentage specified in the Salaried Bonus Plan) to 150% (if RONA equals or exceeds the maximum percentage specified under the Plan). The Bonus payment percentages are not prorated within a RONA range.

The Bonus Group percentage for NEOs and other senior management employees specified under the Salaried Bonus Plan is 40%. Other Bonus Group percentages range from 7% to 25%.

The Company's Human Resources Department identifies the applicable Bonus Group designation for each position. Bonus Group designations may be changed from time to time in connection with job promotions, demotions and other events determined by the Company's Human Resources Department in consultation with the CEO.

Relation of annual incentives to other components of compensation

The annual incentive is the component of executive compensation that has significant upside. Base salaries of our NEOs fall around the median level of executives at companies of comparable size within the general industry and the manufacturing industry. Annual incentive awards provide the potential for payment above the median level of such groups in return for comparable performance.

Long-Term Awards

Long-term awards are those awards that are designed to provide incentives to the Company's executives over a period of time in excess of one year. The Company has made long-term awards in the form of equity awards only. In 2006, we did not award long-term equity-based compensation of any kind to any NEOs or senior management employees. The awards made in 2005 were intended to cover both 2005 and 2006.

Stock Ownership Guidelines

The board of directors has requested that the Company's NEOs and certain senior management employees meet minimum stock ownership requirements that are consistent with industry standards. Accordingly, the following stock ownership guidelines apply to corporate officers:

Chief Executive Officer:	40,000 shares
Chief Financial Officer and Other Corporate Officers	10,000 shares

The guidelines also provide for each non-executive director to maintain Company stock holdings at least equal to the aggregate number of shares (including options or shares granted but not vested) that the Company has awarded to the non-executive director during the three-year period ending on any given date of determination. The director may reduce the amount of stock holdings by the number of shares the director has applied directly to the payments of taxes on such awards.

Company stockholdings that count towards meeting ownership requirements include: (a) shares owned outright or in trust; and (b) restricted stock or restricted stock units, including shares that have been granted but are unvested. Covered individuals employed by the Company on the 2006 effective date of the ownership guidelines, who do not comply with the ownership requirements, will have three years to meet the applicable ownership requirements. A covered individual hired by the Company or promoted into a position with ownership requirements (or higher ownership requirements), will have three years from date of hire or promotion to meet the applicable ownership requirements. Non-employee directors also will have three years to satisfy the requirements. The compensation committee reviews each covered individual's compliance with the ownership requirements annually.

Table of Contents

Retirement and Other Post-Employment Benefits

All NEOs participate in retirement savings plans and Messrs. Carroll, Whalen, Bagby and Karan participate in pension and post-retirement plans. In addition, as described in more detail in the section of this proxy entitled Potential Payments Upon Termination or Change in Control, each of the NEOs receives certain benefits in the event of termination of employment or a change in control of the Company.

Why these component are paid to executives and how they further the program s objectives

In general, retirement plans are designed to provide executives with financial security after their employment has terminated. The Company provides contributions under the retirement saving plan ranging from 4% to 6% of eligible compensation. The Company does not maintain an excess pension plan or non-qualified deferred compensation plan. Thus, the retirement plan benefits for our NEOs are no greater than those of other salaried employees. However, a certain amount of post-retirement compensation is necessary to attract and retain talented executives. Termination benefits and change in control benefits provide additional security and help minimize inherent conflicts of interest that may arise for executives in potential change in control transactions.

How the amount to be paid is determined

The Pension Plan benefits are calculated using formulas set forth in the section of this proxy entitled Pension Benefits.

The termination and change in control benefits for the NEOs were fixed by contract in 2004 and 2005 and are described in the section of this proxy entitled Potential Payments Upon Termination or Change in Control. In 2004, when the Company was preparing for its initial public offering, we negotiated the termination and change in control severance levels under each employment agreement to a level that we believed were at or below market for similarly situated executives under similar agreements. We continue to believe that the termination and change in control severance levels under each employment agreement are at or below market for similarly situated executives under similar agreements. The NEOs employment agreements generally provide for benefits equal to two times an executive s base salary and annual bonus. The employment agreements provide change in control benefits that are double trigger. This means that there must be both a change in control and a termination of the executive s employment before benefits are paid. In the event of a change in control, all outstanding stock awards under the Company s 2005 Long Term Incentive Plan become fully vested.

Perquisites and Other Benefits

The executive officers participate in a number of benefit plans that are available generally to all employees of the Company, including group health insurance, dental insurance, vision insurance, life insurance, paid vacation, accidental death and dismemberment insurance and long-term disability insurance plans. These benefits provide financial security and peace of mind for employees and executives and are seen as a standard part of basic employee benefits within the industry. Country club memberships are available to the NEOs. Messrs. Carroll, Bagby and Bridges also were entitled to use Company-rented housing and were reimbursed for the additional taxes imposed on them for using Company-rented housing. Mr. Ragot, who will be our CEO beginning on April 30, 2007, will be entitled to reimbursement for country club membership dues and the expenses of an automobile. Because of the Company s multiple locations, some of which are in relatively remote locations, and travel demands, the Company believes that the use of Company-rented housing is necessary to enable the NEOs to perform their duties.

CEO Compensation

Mr. Carroll's compensation for 2006 was governed by his employment agreement. We believe that Mr. Carroll's experience, dedication and industry knowledge were critical to the Company's successful IPO in April 2005, and have been important to our ongoing growth. For the year ended December 31, 2006, as the Company's President and Chief Executive Officer, Mr. Carroll received an annual salary of \$550,000, and an incentive bonus, based on a percentage of EBITDA, of \$2,045,033. Mr. Carroll did not receive a long-term compensation award in 2006. In addition, Mr. Carroll received other compensation in the form of our contributions to his pension and retirement savings plan, our payment of perquisites and other personal benefits, including reimbursement of his temporary living expenses and country club dues.

In October 2006, the Company and Mr. Carroll agreed to continue his employment as President and CEO until April 30, 2007, with the additional responsibility of assisting Mr. Ragot in a successful transition into the Company with the ultimate goal of Mr. Ragot becoming the Company's CEO on April 30, 2007. Until April 30, 2007, the Company will continue to pay Mr. Carroll an annual base salary of \$550,000 (pro-rated for his period of employment). The Company also will pay Mr. Carroll a bonus equal to the greater of (i) \$500,000 or (ii) 1% of the Company's EBITDA for the four months ending April 30, 2007. The Company also agreed to make a \$1,500,000 severance payment to Mr. Carroll on April 30, 2007, and to make him and his spouse eligible for lifetime coverage under the Company's medical insurance plan, to reflect his service to the Company and the forfeiture of his outstanding stock options. Mr. Carroll also agreed to make himself reasonably available for consultation with Mr. Ragot for 60 days after April 30, 2007, without additional compensation, and to not compete with the Company anywhere in North America for two years after April 30, 2007.

On January 3, 2007, the Company entered into an employment agreement with Mr. Ragot, under which Mr. Ragot has served as the Company's Chief Operating Officer beginning January 29, 2007 (the Effective Date), and will serve as President and Chief Executive Officer beginning on April 30, 2007. Mr. Ragot has served as a member of the Company's board of directors since the Effective Date. The terms of Mr. Ragot's employment agreement are described in the section of this proxy entitled Employment Agreement with Mr. Ragot.

Tax Treatment and Accounting

Section 162(m) of the Code limits the deductibility for federal income tax purposes of certain compensation paid in any year by a publicly held corporation to its chief executive officer and its four other highest compensated officers to \$1 million per executive (the \$1 million cap). The \$1 million cap does not apply to performance-based compensation as defined under Section 162(m) or to compensation paid pursuant to certain plans that existed prior to a corporation becoming publicly held. It is intended that awards made under the Company's 2005 Long Term Incentive Plan not be currently subject to the \$1 million cap due to the private-to-public transition rules under Section 162(m). Once the transition rules are no longer available, it is intended that awards made under the Company's 2005 Long Term Incentive Plan will qualify as performance-based compensation for purposes of Section 162(m). We believe we can continue to preserve related federal income tax deductions, although individual exceptions may occur. For example, the Company may decide to award Restricted Stock without performance conditions under certain circumstances.

In addition, the Code was recently amended to provide an excise tax under Section 409A with respect to various features of deferred compensation arrangements, mostly for compensation deferred on or after January 1, 2005. The Company will be making the appropriate changes to our employment agreements to help ensure that there are no adverse effects on the Company or our executive officers as a result of these Code amendments. We do not expect these changes to have a tax or financial consequence on the Company.

The Company has calculated and discussed with the compensation committee the accounting treatment and tax impact on the Company and the executives of each of its cash and equity compensation awards and agreements. As noted above, the Company has reconsidered its management incentive plan in light of Section 162(m) and has taken steps to ensure that bonuses to NEOs will be deductible in the future. The Company also calculates and monitors the SFAS 123(R) accounting expense related to equity compensation. To date, the SFAS 123(R) expense has not been a significant factor in setting or changing equity compensation grant practices.

Table of Contents

Timing of Awards

The compensation committee did not award stock options or other equity-based compensation in 2006. The Company's stock has been publicly traded since April 2005. During that time, the compensation committee has not timed the award of stock options or other equity-based compensation to coincide with the release of favorable or unfavorable information about the Company. The compensation committee has no intention of timing the award of stock options or other equity-based compensation to coincide with the release of favorable or unfavorable information about the Company in the future.

Adjustment of Awards under Certain Conditions

The CEO may change, subject to confirmation by the compensation committee, the financial target(s) applicable to NEOs and other senior management employees under the Salaried Bonus Plan at any time prior to the final determination of bonus awards for any year if, in his judgment, such changes are desirable in the interest of equitable treatment of one or more NEOs, other senior management employees or the Company as a result of extraordinary or nonrecurring events, change in applicable accounting rules or principles, changes in the Company's method of accounting, changes in applicable law, changes due to consolidation, acquisitions, reorganization, unusual circumstances or any other changes of a similar nature to any of the foregoing. No such changes were made in 2006.

Prior Compensation

The Company's stock has only been publicly traded since April 2005. The restricted stock and stock option awards made in 2005 were intended to cover two years. Therefore, the Committee did not award stock options or other equity-based compensation in 2006.

Benchmarking

In August 2005, the compensation committee asked Hewitt Associates to provide competitive market data for three senior executive officers: Chief Executive Officer, Chief Financial Officer and Senior Vice President, Marketing and Sales. Hewitt developed the market benchmarks from several published and private surveys including data from both general industry and the manufacturing industry. The data was calibrated to reflect an organization with approximately \$800 million in revenue and additional information on each position. Hewitt prepared a report for the Company analyzing the base salary, annual actual bonus, total cash compensation, long-term incentives, total direct compensation and target bonus levels for each of the executives, comparing them to the 25th, 50th and 75th percentiles of the benchmark group. The study indicated that the CEO's base salary falls short of the 50th percentile by 5.88%. However, since deviations of 10% above or below market benchmarks are nominal, the study concluded that the CEO's salary was at a market median level. The study also indicated that the CEO's total cash compensation and annual target bonus levels exceeded the 50th percentile but fell short of the 75th percentile, while his total direct compensation and annual long-term incentives fell below the 50th percentile. Only the CEO's actual annual bonus attained the 75th percentile. The Company has not increased any component of the current CEO's compensation since the study.

With respect to the CFO, the study indicated that his base salary, actual annual bonus, total cash compensation, annual target bonus and annual long-term incentives fell short of the 50th percentile. Employment Agreement with Mr. Ragot

On January 3, 2007, the Company entered into an employment agreement with Mr. Christian Ragot under which Mr. Ragot has served as the Company's Chief Operating Officer beginning on January 29, 2007 and will serve as President and Chief Executive Officer beginning on April 30, 2007. Mr. Ragot serves as a member of the board of directors beginning on January 29, 2007.

The agreement term commenced on January 29, 2007 and will expire on January 15, 2010, except that the agreement will remain in effect from year to year thereafter unless either party gives notice of its intention not to continue the agreement at least 90 days before the December 31 as of which the agreement would otherwise terminate. The Company will pay Mr. Ragot an initial base salary of \$500,000. On April 30, 2007, the Company will increase Mr. Ragot's base salary to \$550,000. Mr. Ragot will be eligible for an annual cash bonus based on performance and calculated as a percentage of his base salary. Initially, Mr. Ragot will have the opportunity to receive a bonus payout equal to 120% of his base salary. The Company will pay Mr. Ragot the bonus within 2 1/2 months of the close of the Company's fiscal year, but in no event later than the end of the Company's first fiscal quarter of the following year. Additionally, the Company paid Mr. Ragot a signing bonus of \$150,000 (the Signing Bonus) on January 29, 2007.

On January 29, 2007, the Company awarded Mr. Ragot 40,000 shares of restricted stock in accordance with and subject to the terms of the FreightCar America, Inc. 2005 Long Term Incentive Plan, vesting in three equal annual installments beginning on January 29, 2008. This restricted stock award would become fully vested upon a change in control. It was anticipated that as a result of Mr. Ragot terminating his employment with Terex Corporation (Terex), Terex would not pay Mr. Ragot an annual incentive bonus for the 2006 calendar year of \$320,000 (Foregone Bonus) and a long-term incentive award that otherwise would have been payable on March 15, 2007 of \$1,750,000 (Foregone LTIP). However, Mr. Ragot notified the chairman of the board's compensation committee in writing that he had received the Foregone LTIP and the Company was not required to make that payment. The Signing Bonus described above was treated as an advance against the Foregone Bonus and the remaining amount due was paid in accordance with the agreement.

The Company has reimbursed Mr. Ragot's reasonable moving expenses in relocating to Chicago, Illinois. The Company provides Mr. Ragot with the use of an automobile with lease payments of no more than \$750 per month throughout the term of his employment. Mr. Ragot is entitled to participate in any employee benefit plan made available by the Company to its executive employees at any time during his employment.

If Mr. Ragot's employment is terminated by the Company for Cause (as defined in his employment agreement) or by Mr. Ragot for other than Good Reason (as defined in his employment agreement), the Company will pay Mr. Ragot his base salary through the date of termination and any unreimbursed expenses. If the Company terminates Mr. Ragot's employment without Cause, or Mr. Ragot terminates his employment for Good Reason, or if the Company fails to renew the employment agreement, then the Company will provide the following payments and benefits: (i) base salary through the date of termination and all other unpaid amounts to which he is entitled as of the date of termination including unpaid but accrued vacation and benefits payable; (ii) base salary for 24 months (or 12 months in the case of a non-renewal of the employment agreement) following the date of termination; (iii) two payments to Mr. Ragot (one in the case of a non-renewal of the employment agreement), each equal to the greater of (a) Mr. Ragot's target bonus for the year of termination or (b) the bonus paid to Mr. Ragot for the year prior to the year of termination, with the first payment made on the first March 15 following Mr. Ragot's termination and the second payment made on the second March 15 following Mr. Ragot's termination; and (iv) continued participation in the Company's group health benefit plan by Mr. Ragot and such members of his family who participated in the group health plan at the time of his termination, for a period of 24 months.

In 2006, we replaced the Management Incentive Plan with the Salaried Bonus Plan. The Salaried Bonus Plan is intended to assist the Company in attracting and retaining highly qualified personnel, encourage and stimulate superior performance by such personnel on our behalf and recognize the level of an individual's position to influence company results. Bonus awards are based, in part, on the Company's return on average net assets, and the financial targets determined by the Chief Executive Officer and the board of directors. The Salaried Bonus Plan is open to all salaried personnel selected by the Chief Executive Officer. Participants in the Salaried Bonus Plan must be actively employed by the Company on the payment date to receive a bonus award. Participants are entitled to receive a partial bonus award in certain circumstances.

Supplemental Narrative

The Company maintains the Johnstown America Corporation Salaried Pension Plan (the Pension Plan) for the benefit of its eligible salaried employees. The Pension Plan is a tax-qualified defined benefit pension plan. Benefits provided under the Pension Plan are limited by Section 415 and Section 401(a)(17) of the Code. Section 415 limits the benefit amount payable from the plan based on the pensioner's service, pay, and a dollar amount cap that is indexed. Section 401(a)(17) limits the pensionable earnings that may be used to determine the pension benefit amount. All salaried employees of Johnstown America Corporation and JAC Operation, Inc. hired prior to January 1, 2005 who are not members of any collective bargaining unit and who have attained age 21 and completed at least one year of service with the Company are eligible to participate in the Pension Plan. A participant must complete at least five years of service with the Company to be vested. Eligibility for normal retirement is at age 65.

Subject to the Code limits noted above, the Pension Plan's normal retirement payment and benefit formula is the maximum of (a), (b), and (c) minus (d) and (e), as follows:

- (a) 1.35% times average monthly earnings times years of service (defined as: highest 60 consecutive months of earnings out of last 120 months divided by 60) (Earnings are defined as the participant's W-2 pay plus Section 401(k) and Section 125 deferrals, minus bonus, overtime, expense reimbursements, moving expenses, salary gross-up payments, and imputed income.) (Service is determined as elapsed time measured on years and months since last hiring date, and includes service with Bethlehem Steel Corporation. For active participants with 25 years of service on November 1, 1991, an extra month of service is credited for every month of service earned between November 1, 1991 and October 31, 1994.)
- (b) (\$40.00 times years of service before May 2005) plus (\$50.00 times years of service after April 2005).
- (c) 1.05 times (1.60% of average monthly earnings times years of service) minus (0.475% of Social Security covered compensation times years of service (maximum 35 years)). (Covered compensation offset begins at age 62.)
- (d) Accrued monthly benefit from Bethlehem Steel Corporation Pension Plans for service prior to October 28, 1991.
- (e) Accrued monthly benefit from Transportation Technologies Pension Plans for service prior to June 4, 1999.

The Pension Plan also provides a special payment for early and normal retirees with at least 10 years of service with the Company (and replaces the first 3 monthly pension benefit payments) as follows: 9 weeks of base pay plus remaining unused vacation in the year of retirement.

Eligibility for early unreduced retirement is at age 62 and 15 years of service, or at any age with 30 years of service. A participant can take early reduced retirement after age 60 with 15 years of service, subject to a reduction for early commencement of 16.18% at age 60 and 8.55% at age 61. Mr. Carroll became eligible for normal retirement in February 2007.

The normal form of benefit is a life annuity. If the participant is married and receives payments in form of a joint and survivor annuity, or otherwise elects another form of benefit under the Pension Plan, the amount of monthly benefits payable to the participant would be reduced to reflect the actuarially increased cost of providing such other benefit forms.

Nonqualified Deferred Compensation for the Year Ended December 31, 2006

The Company does not make available a non-qualified deferred compensation plan for its NEOs or other employees.

Potential Payments Upon Termination or Change in Control

The following tables quantify the potential payments that could be made to the individuals who were NEOs as of December 31, 2006 under various termination of employment and change in control scenarios under the terms of the employment agreements as summarized below, the terms of the 2005 Long Term Incentive Plan and the Company's other compensation and benefit plans.

These amounts are estimates only and do not necessarily reflect the actual amounts that would be paid to the NEOs, which would only be known at the time that they become eligible for payment and would only be payable if the event were to occur. The tables reflect the amounts that could be payable under the various arrangements if the event in question occurred at December 31, 2006.

Mr. Carroll's employment agreement with the Company terminated on December 31, 2006, and was replaced by a Termination Agreement providing for Mr. Carroll's continued employment through April 30, 2007. ¹ In the event of a Change in Control, termination by the Company without cause or in the event that Mr. Carroll terminates his employment for Good Reason (as defined in his stock option agreement), Mr. Carroll becomes fully vested in his outstanding stock options.

Mr. Whalen

Mr. Whalen's employment agreement, dated as of December 20, 2004, provides for his employment as the Company's Senior Vice President, Marketing and Sales for an initial term of three years, which automatically extends for one-year periods until terminated prior to the end of the term by either party upon 90 days' notice. Upon a Change in Control (as defined in his employment agreement), the agreement will automatically extend to until the later of the second anniversary of such Change in Control or, if such Change in Control was caused by the stockholder approval of a merger or consolidation, the second anniversary of such merger or consolidation. Under the terms of the 2005 Long-Term Incentive Plan and his stock option agreement, Mr. Whalen's outstanding options become fully vested upon a Change in Control, termination by the Company without Cause or in the event that Mr. Whalen terminates his employment for Good Reason (as defined in his stock option agreement).

Before or after a Change in Control, in the event that the Company terminates Mr. Whalen's employment in breach of the agreement or Mr. Whalen terminates his employment for Good Reason (as defined in his employment agreement), the Company will: (a) pay him a lump sum equal to three times the sum of (1) his annual base salary then in effect and (2) his annual bonus (calculated as the greatest of (i) the guaranteed annual bonus (if

any) with respect to the fiscal year in which termination occurs, (ii) the target annual bonus for the fiscal year in which termination occurs, (iii) the annual bonus for the fiscal year immediately prior to the fiscal year in which termination occurs, or (iv) the average of the annual bonus payments for the three fiscal years immediately prior to the fiscal year in which termination occurs); (b) pay a lump sum, in cash, a pro rated bonus amount based on the target annual bonus set for the fiscal year of termination; and (c) continue his participation in the Company's employee welfare benefit plans and programs for three years.

Unless the Company terminates Mr. Whalen's employment for Cause, the Company must continue to make available to Mr. Whalen coverage under its medical insurance plan until he is eligible for Medicare, so long as he pays the full cost of the coverage at the then applicable COBRA rate.

Mr. Whalen's employment agreement also provides for a tax gross-up for any amount that we pay or distribute to him, whether under the employment agreement or otherwise, that is determined to be an excess parachute payment under the Code.

The agreement requires Mr. Whalen to abide by perpetual restrictive covenants relating to non-disclosure, as well as restrictive covenants relating to non-competition and non-solicitation for one or two years following termination of employment, depending on the basis for the termination.

Summarized below are the potential payments and benefits payable by the Company to Mr. Whalen upon a termination or Change in Control as of December 31, 2006:

¹ In the event of a Change in Control, termination by the Company without cause or in the event that Mr. Whalen terminates his employment for Good Reason (as defined in his stock option agreement), Mr. Whalen becomes fully vested in his outstanding stock options. No other amounts would be paid upon a Change in Control absent a termination of employment.

² In the event that the Company terminates Mr. Whalen employment without Cause or if he terminates his employment for Good Reason, before or after a Change in Control, the Company will pay the severance and benefits described in the narrative above.

³ Mr. Whalen's employment agreement also provides for a tax gross-up for any amount that we pay or distribute to him, whether under the employment agreement or otherwise, that is determined to be an excess parachute payment under the Code. In determining whether an excess parachute payment would result that would require a gross-up payment, amounts were calculated in the manner provided by Section 280G of the Code based on conservative assumptions and ascribe no value to the restrictive covenants in the employment agreement, which otherwise could substantially reduce the amount of the parachute payments and the related gross-up payment.

⁴ In the event the Company terminates Mr. Whalen without Cause or if he terminates his employment agreement for Good Reason, the Company at its own cost will continue the participation of Mr. Whalen for three years in all medical, life and other welfare benefit plans and programs in which Mr. Whalen was entitled to participate in immediately prior to termination.

Table of Contents**Mr. Bagby**

Mr. Bagby's employment agreement, dated November 22, 2004, as amended, provides for his employment as the Company's Vice President, Finance, Chief Financial Officer, Treasurer and Secretary, without any employment term, as an at will employee. If we terminate Mr. Bagby's employment agreement without Cause (as defined in his employment agreement) at any time, he will be entitled to receive 24 months of his base salary and continuation of his employee benefits. Mr. Bagby's employment agreement does not provide for any additional benefits under any termination of employment other than termination without Cause, including any voluntary termination, a termination of employment due to retirement, for Cause termination or termination due to death or Change in Control.

Mr. Bagby's outstanding options would become fully vested upon a Change in Control (as defined in the 2005 Long-Term Incentive Plan) or termination by the Company without Cause.

Mr. Bagby has agreed to keep confidential certain information during the term of the agreement and thereafter, and has agreed to certain non-solicitation and non-disparagement restrictions that apply for one year following termination of employment.

Before or after a Change in Control, in the event that the Company terminates Mr. Karan's employment without Cause or Mr. Karan terminates his employment for Good Reason (as defined in his employment agreement), the Company will: (a) pay him a lump sum equal to three times the sum of (1) his annual base salary then in effect and (2) his annual bonus (calculated as the greatest of (i) the guaranteed annual bonus (if any) with respect to the fiscal year in which termination occurs, (ii) the target annual bonus for the fiscal year in which termination occurs, (iii) the annual bonus for the fiscal year immediately prior to the fiscal year in which termination occurs or (iv) the average of the annual bonus payments for the three fiscal years immediately prior to the fiscal year in which termination occurs); (b) pay as a lump sum, in cash, a pro-rated bonus amount based on the target annual bonus set for the fiscal year of termination; (c) continue his participation in the Company's employee welfare benefit plans and programs for three years; and (d) pay a cash amount equal to the present value of the additional pension benefit that Mr. Karan would have accrued under the qualified defined benefit Pension Plan had he remained an employee for an additional three years.

General Description of Director Compensation

Prior to December 16, 2006, we compensated each of our non-employee directors with an annual stipend of \$25,000 and an annual restricted stock award of \$25,000. In addition, the chairperson of the audit committee received annual compensation of \$15,000 and the chairperson of any other committee received annual compensation of \$3,000. Also, independent directors were paid \$1,000 for board meeting attendance and \$750 for committee meeting attendance. In addition, we have adopted customary expense reimbursement and related policies for all directors and we reimburse directors for expenses incurred in connection with attendance at board or committee meetings. The Company does not provide any incentive based non-equity compensation to directors and does not maintain a defined benefit or actuarial pension plan or a deferred compensation plan for directors.

On December 16, 2006, the board of directors approved several increases in director compensation. The annual retainer for each director increased from \$25,000 to \$30,000 per year. The annual restricted stock award increased from \$25,000 to \$45,000 per director. The annual fee for the non-executive chairman of the board was set at \$65,000. The annual fee for each committee chairperson (other than the audit committee chairperson) increased from \$3,000 to \$5,000 per year. Finally, the fee for attending each committee meeting increased from \$750 to \$1,000.

Stock Ownership Requirements

The board of directors expects that each non-executive director will maintain Company stock holdings at least equal to the aggregate number of shares (including options or shares granted but not vested) that the Company has awarded to the non-executive director during the three year period ending on any given date of determination. The director may reduce the amount of stock holdings by the number of shares the director has applied directly to the payments of taxes on such awards. Company stock holdings that count towards meeting ownership requirements include: (a) Shares owned outright or in trust, and (b) Stock Options, Restricted Stock or Restricted Stock Units, including options or shares granted but not vested. If a director consistently fails to comply with the Stock Ownership Requirements, the compensation committee will take such actions as it deems appropriate, including, but not limited to allocating an additional amount of the director's annual compensation to the purchase of stock in accordance with the program or reducing future equity compensation awards.

CERTAIN TRANSACTIONS

Registration Rights Agreement

We entered into a registration rights agreement, dated as of April 11, 2005, with substantially all of our stockholders as of immediately prior to the completion of our initial public offering. The stockholders that are party to the registration rights agreement had the right to require us, subject to certain terms and conditions, to register their shares of our common stock under the Securities Act of 1933, as amended, at any time. The selling stockholders in our secondary offering exercised their demand registration rights to require us, subject to certain terms and conditions, to register their shares of our common stock under the Securities Act of 1933, as amended. We and certain of our stockholders remain party to the registration rights agreement.

Consulting agreement with James D. Cirar

In June 1999, we and certain of our subsidiaries entered into a consulting agreement with James D. Cirar, one of our directors, which provides that Mr. Cirar will provide the Company with consulting services on all matters relating to our business and that of our subsidiaries and will serve as a member of our board of directors. The agreement provides for a consulting fee of \$50,000 per year. The amendment to the consulting agreement also provides that, upon any sale of the Company to a third party following the completion of our initial public offering, the agreement will terminate and we will be obligated to pay Mr. Cirar \$150,000, net of any amounts paid to him as consulting fees between the completion of the initial public offering and the termination date.

Report of the Audit Committee

The following report of the audit committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other of our filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent we specifically incorporate this report by reference therein.

The Audit Committee is currently comprised of Messrs. Soderstrom, Tidball and Madden. Our board of directors has determined that each member of the audit committee meets the independence requirements under the listing standards of the Nasdaq National Market, the Securities Exchange Act of 1934, as amended, and the rules and regulations of the Securities and Exchange Commission. The committee operates under a written charter that was adopted by our board of directors.

The committee oversees our accounting and financial reporting process on behalf of our board of directors. Management has the primary responsibility for the preparation of our financial statements and the disclosure and financial reporting process, including establishing a system of internal controls. In fulfilling its oversight responsibilities, the committee reviewed and discussed with management and Deloitte & Touche LLP, our independent registered public accounting firm, the audited financial statements as of and for the year ended December 31, 2006. Deloitte & Touche LLP is responsible for expressing an opinion on the conformity of these audited financial statements with generally accepted accounting principles.

Table of Contents

The committee has discussed and reviewed with Deloitte & Touche LLP the matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees), which includes, among other things, matters related to the conduct of the audit of our financial statements. The committee has also received from Deloitte & Touche LLP the written disclosures and letters describing the relationships between Deloitte & Touche LLP and us that might bear on the independence of Deloitte & Touche LLP consistent with and required by the Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committee) and has discussed with Deloitte & Touche LLP its independence.

In reliance on the reviews and discussions referred to above, the committee recommended to our board of directors that the audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2006 for filing with the Securities and Exchange Commission. The committee and our board of directors also have recommended, subject to stockholder approval, the ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm for 2007.

Respectfully submitted by the Audit Committee,

S. Carl Soderstrom, Jr., Chairman
Robert N. Tidball
Thomas A. Madden

2008 ANNUAL MEETING OF STOCKHOLDERS

We expect that our 2008 annual meeting of stockholders will be held within 30 days of May 15, 2008, which will be the first anniversary of the upcoming annual meeting. Subject to certain exceptions set forth in our by-laws, proposals of stockholders intended for inclusion in the proxy statement for our 2008 annual meeting of stockholders must be received by our Secretary at our principal executive offices (currently at Two North Riverside Plaza, Suite 1250, Chicago, Illinois 60606), by February 15, 2008. If a stockholder intends to present a proposal at the 2008 annual meeting of stockholders, such stockholder must comply with the advance notice provisions of our by-laws. Subject to certain exceptions set forth in our by-laws, these provisions require that such proposal must be received by our Secretary not earlier than January 16, 2008 and not later than February 15, 2008. Subject to certain exceptions set forth in our by-laws, such proposals must contain specific information concerning the person to be nominated or the matters to be brought before the meeting and concerning the stockholder submitting the proposal.

HOUSEHOLDING OF PROXY MATERIALS

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy statements with respect to two or more stockholders sharing the same address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as householding, potentially provides convenience for stockholders and cost savings for companies.

A number of brokers with accountholders who are stockholders will be householding our proxy materials. As indicated in the notice previously provided by these brokers to stockholders, a single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from an affected stockholder. Once you have received notice from your broker or us that they will be householding communications to your address, householding will continue until you are notified otherwise.

Stockholders who currently receive multiple copies of the proxy statement at their address and would like to request householding of their communications should contact their broker or, if a stockholder is a direct holder of shares of our common stock, they should submit a written request to our transfer agent, National City Bank, Corporate Trust Operations, Locator 5352, P.O. Box 92301, Cleveland, Ohio 44197-1200.
