#### **Explanatory Note**

This Form 10-Q/A amends the Company s quarterly report on Form 10-Q for the quarter ended June 30, 2006, which was filed on August 10, 2006. The amendment is a result of the restatement of the Company s condensed consolidated financial statements and related financial information for the quarterly periods ended June 30, 2006 and 2005.

The Company is restating its previously filed financial statements and other financial information for the above referenced periods to correct an error related to the Company s derivative accounting treatment under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities, as amended. This error and its effects are described in more detail in Note 2 to the Consolidated Condensed Financial Statements included in Item 1 - Financial Statements.

The Company is also filing an amended Quarterly Report on Form 10-Q for the quarter ended September 30, 2006 to correct the error described above

All of the information in this Form 10-Q/A is as of August 10, 2006, the date the Company originally filed its Form 10-Q with the Securities and Exchange Commission, and does not reflect any subsequent information or events other than the restatement discussed in Note 2 to the Consolidated Condensed Financial Statements appearing in this Form 10-Q/A. For more recent information, please see the Company s annual report on Form 10-K for the fiscal year ended December 31, 2006. For the convenience of the reader, this Form 10-Q/A sets forth the originally filed Form 10-Q in its entirety. However, the following items have been amended solely as a result of, and to reflect, the restatement, and no other information in the Form 10-Q/A is amended hereby as a result of the restatement:

Part I, Item 1 - Financial Statements

Part I, Item 2 - Management s Discussion and Analysis of Financial Condition and Results of Operations

Part I, Item 4 - Controls and Procedures

Part II, Item 6 - Exhibits

The Company is including currently dated Sarbanes-Oxley Act Section 302 and Section 906 certifications of the Chief Executive Officer and Chief Financial Officer that are attached to this Form 10-Q/A as Exhibits 31.1, 31.2 and 32.1.

#### Notes to Consolidated Condensed Financial Statements

#### Three and Six Months Ended June 30, 2006

(Unaudited)

#### 1. Basis of Presentation

The accompanying unaudited consolidated condensed financial statements of Goodman Global, Inc. (the Company), which owns all of the issued and outstanding stock of Goodman Global Holdings, Inc., a Delaware corporation, have been prepared in accordance with Rule 10-01 of Regulation S-X for interim financial statements required to be filed with the Securities and Exchange Commission and do not include all information and footnotes required by generally accepted accounting principles in the United States for complete financial statements. However, the information furnished herein reflects all normal recurring adjustments, which are, in the opinion of management, necessary for a fair statement of the results for the interim periods. The results of operations for the three and six months ended June 30, 2006 are not necessarily indicative of the results that may be expected for a full year.

The preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported. Actual results could differ from those estimated. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. These consolidated condensed financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2005.

The Company follows Statement of Financial Accounting Standards (SFAS) No. 131, *Disclosures about Segments of an Enterprise and Related Information*. As the Company s consolidated financial information is reviewed by the chief decision makers, and the business is managed under one operating and marketing strategy, the Company operates under one reportable segment. Long-lived assets outside the United States have not been significant.

On December 23, 2004, an affiliate of Apollo Management, L.P. (Apollo) acquired our business (the Acquisition). In connection with the Acquisition, affiliates of Apollo, Company senior management and certain trusts associated with members of the Goodman family (the Goodman Trusts) contributed approximately \$477.5 million in cash to the Company in exchange for common and preferred stock.

On April 11, 2006, the Company completed the initial public offering of the Company s common stock. The Company offered 20.9 million shares and selling shareholders sold an additional 6.1 million shares, which included 3.5 million shares sold by selling shareholders pursuant to the exercise of the underwriters—over-allotment option. Before expenses, the Company received proceeds of approximately \$354.5 million. These proceeds were used to redeem all of the Company—s outstanding Series A Preferred Stock including associated accrued dividends, to satisfy a \$16.0 million fee resulting from the termination of the Company—s management agreement with Apollo and to redeem \$70.7 million of the Company—s subsidiary—s floating rate notes.

Effective April 4, 2006, the Company s Board of Directors approved a 7.580345-for-1 stock split of the Company s common stock. All periods presented are reflective of the effected stock split.

#### 2. Restatement

In connection with the close for the year ended December 31, 2006, the Company determined that some of its commodity derivatives did not qualify for hedge accounting and, therefore, should be marked to market through the statement of income instead of through accumulated other comprehensive income on the Company s balance sheet. The Company s previously issued financial statements for the three and six months ended June 30, 2006 have been restated to reflect the changes in the fair value of those derivatives in other (income) expense, net.

The following tables summarized the effect of the restatement adjustments on the financial statements as of and for the three and six months ended June 30, 2006 (in thousands, except for per share data).

#### 3. Significant Balance Sheet Accounts

#### **Restricted Cash and Cash Equivalents**

Cash equivalents represent short-term investments with an original maturity of three months or less. At June 30, 2006 and December 31, 2005, the restricted cash pertains to the Company s extended warranty program.

#### **Inventories**

Inventory costs include material, labor, depreciation, logistics, and plant overhead. The Company s inventory is stated at the lower of cost or market using the first-in, first-out (FIFO) method. As a result of the Acquisition, the Company s 2004 inventory was increased by \$44.0 million to reflect the fair value to the extent of the new investors ownership of in-process and finished goods inventory. As of June 30, 2005, this fair market value adjustment has been effectively reversed as the related inventory was sold in the first quarter of 2005 and replaced by manufactured inventory valued at cost. The 2005 impact to our statement of income was an increase to our cost of goods sold of \$39.6 million, or \$(0.51) per share, for the six months ended June 30, 2005.

#### 4. Stock Compensation Plans

Subsequent to the Acquisition, the Company adopted the 2004 Stock Option Plan. Under this plan, as amended, 4,798,752 shares of the authorized but unissued shares of common stock of Goodman Global, Inc. have been reserved for issuance. The plan permits the grant of options to purchase shares of common stock to eligible employees, consultants, and directors. As of June 30, 2006, the Company has granted 4.7 million options that vest in installments through 2009. No additional options to purchase shares of common stock will be granted under the 2004 Stock Option Plan. During the first quarter of 2006, the Company amended certain options granted on December 23, 2004; March 1, 2005 and April 18, 2005 to provide that the installment, which would otherwise become vested with respect to the fiscal year 2009 upon attaining certain financial performance targets, became vested upon consummation of the initial public offering which occurred in April of 2006. The amendment also allows for the payment of the exercise price through the surrender of previously owned shares of common stock of Goodman Global, Inc. or by cashless exercise, which will be assisted by a broker.

On February 1, 2006, the Company adopted the 2006 Incentive Award Plan (2006 Plan). Under this plan, 1,895,086 shares of the authorized but unissued shares of common stock of the Company have been reserved for issuance. In addition, shares of common stock that remain available for future option grants under the 2004 Stock Option Plan and shares underlying any existing grants under the 2004 Stock Option Plan that are forfeited will be available for issuance under the 2006 Plan. The plan permits the grant of stock-based compensation awards to eligible employees, consultants and directors. The 2006 Plan provides for a variety of such awards, including non-qualified stock options, incentive stock options (within the meaning of Section 422 of the Internal Revenue Code), stock appreciation rights, restricted stock awards, restricted stock unit awards, deferred stock awards, dividend equivalents, performance share awards, performance stock unit awards, performance-based awards or stock payment awards. As of June 30, 2006, approximately 11,000 shares of restricted stock have been issued under the 2006 Plan. These restricted shares may not be sold or otherwise transferred until restrictions have lapsed, which will occur one year after the date of grant. The weighted average grant date fair value of the restricted shares granted as of June 30, 2006 is \$18.37. Recorded compensation costs for these shares for the three and six months ended June 30, 2006 is not material. As of June 30, 2006, 20,000 options also have been granted under this plan.

A summary of stock option activity for the six months ended June 30, 2006 follows:

Prior to January 1, 2006, the Company accounted for stock-based compensation under the recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations (APB No. 25) and had adopted the disclosure-only provisions of Statement of Financial Accounting Standards No. 123 (SFAS No. 123), *Accounting for Stock-Based Compensation*, as amended. Under APB No. 25, no stock-based compensation cost was reflected in net income for grants of stock options to employees because the Company grants stock options with an exercise price equal to the estimated market value of the stock on the date of grant. Effective January 1, 2006, the Company adopted the fair value recognition provisions of SFAS No. 123(R), *Share-Based Payment*, using the modified-prospective-transition method. Under this transition method, compensation cost recognized in 2006 includes:

(a) compensation costs for all share-based payments granted prior to, but not yet vested as of the date of adoption based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123, and (b) compensation cost for all share-based payments granted subsequent to the date of adoption will be based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123(R). In accordance with SFAS No. 123(R), results of prior periods have not been restated.

As a result of adopting SFAS No. 123(R), the Company recognized compensation expense of \$1.1 million, (\$0.7 million after tax) and \$1.7 million (\$1.1 million after tax), during the three month and six months ended June 30, 2006, respectively, which is included in selling, general and administrative expenses in the accompanying unaudited statement of income for the three and six months ended June 30, 2006. Included in compensation expense for the three and six months ended June 30, 2006 discussed above, is \$0.7 million related to the 381,331 stock options that vested at the consummation of the Company s initial public offering in April of 2006. The adoption had no net effect on the Company s statement of cash flows for the period ended June 30, 2006. The effect on earnings per share on both a basic and fully diluted basis was (\$0.01) and (\$0.02) for the three and six months ended June 30, 2006, respectively.

The effect on net income and earnings per share, if the Company had applied the fair value recognition provisions of SFAS No. 123 to the options granted under the Company s stock option plan for the three and six months ended June 30, 2005, would have been none and \$0.2 million, net of tax, respectively, and no effect on earnings per share for the three and six months ended June 30, 2005. As of January 1, 2006, the Company adopted SFAS No. 123(R) thereby eliminating pro-forma disclosure for the period subsequent to the adoption. For purposes of this disclosure, the value of the options is estimated using a Black-Scholes-Merton option valuation model and amortized to expense over the options vesting period.

13

The fair value of each option award is estimated on the date of grant using the Black-Scholes-Merton model using assumptions discussed below. The expected volatility of 20% is based mainly on the volatility of the Company s competitors. The expected term of the options granted of 8 years is based on the time period the options are expected to be outstanding. The risk-free interest rate of 4.5% is based on the U.S. Treasury rate of a note with the expected maturity of the expected term of the options. The Company has not considered a dividend payment in its calculation and believes that forfeitures will not be significant.

As of June 30, 2006, the total compensation cost related to nonvested awards not yet recognized in the statement of income of the Company is \$5.4 million. This amount will be recognized on a weighted average period of 2.7 years.

#### 6. Earnings Per Share

Basic earnings per share have been computed using the weighted-average number of common shares outstanding. The average number of outstanding common shares used in computing diluted earnings per share was equal to the average number of outstanding common shares used in computing basic earnings per share plus any incremental shares, primarily from the assumed exercise of stock options issued under the Company s stock option plans that were dilutive for the periods.

The following table sets forth the components used in the computation of basic and diluted earnings per share (in thousands except share data):
