On May 3, 2007, Hornbeck Offshore Services, Inc., a Delaware corporation (the Company), announced the results of its operations for the three months ended March 31, 2007. Additional information is included in the Company's press release dated May 3, 2007, which is attached hereto as Exhibit 99.1.

Item 8.01 Other Events

On May 3, 2007, the Company announced that it has expanded its multi-purpose supply vessel (MPSV) program to include one 430-ft. new generation DP-3 MPSV to be constructed at a European shipyard with an anticipated third quarter 2009 delivery. The new DP-3 vessel to be constructed will be included in the Company's MPSV program, which currently consists of two U.S.-flagged coastwise sulfur tankers that are being converted into 370-ft. new generation DP-2 MPSVs. Based on current internal estimates, the aggregate total project budget for these three vessels, before construction period interest, is now expected to be in the \$250.0 million to \$270.0 million range, depending on final vessel configurations. The Company plans to fund the incremental cost of this DP-3 newbuild MPSV from current cash on-hand and projected free cash flow. The Company also has an exclusive four-year option to construct two additional sister vessels based on the same DP-3 MPSV design at a U.S. shipyard of its choice, which, if built, would qualify for domestic coastwise trade under the Jones Act. Additional information is included in the Company's press release dated May 3, 2007, which is attached hereto as Exhibit 99.2.
