Q3 commentary

Orthopaedic Reconstruction delivers above market global growth driven by hip revenues

Orthopaedic Trauma performance benefiting from excellent volume growth

Endoscopy generates strong growth led by revenues outside the US which grew by 17%

Advanced Wound Management sustains revenue growth momentum with improved performance both inside and outside the US

Earnings Improvement Programme on target for continued margin improvement

Integration of Plus Orthopedics and BlueSky progressing well

Commenting on the third quarter, David Illingworth, Chief Executive of Smith & Nephew, said:

Despite market pressures in some areas, the third quarter has seen us deliver continued good revenue growth across the business, through our innovative product portfolio and the increased effectiveness of our sales force. Our focus on the high growth segments in our markets is bearing fruit and generating profitable growth.

Edgar Filing: SMITH & NEPHEW PLC - Form 6-K

We continue to identify good quality opportunities both internally and externally. We are changing our internal structure to increase our customer focus and operating effectiveness for the long term. The ongoing work on our Earnings Improvement Programme is building a solid platform for sustained margin improvement.

Notes

- ¹ Unless otherwise specified as reported, all revenue increases throughout this document are underlying increases after adjusting for the effects of currency translation and acquisitions. See note 3 to the financial statements for a reconciliation of these measures to results reported under IFRS.
- ² Underlying increase in trading profit is the increase in trading profit after adjusting for the effects of currency translation and acquisitions.
- ³ The EPS for the nine months in the comparable period included 35.3 cents from the gain on sale of BSN Medical.
- ⁴ EPSA growth is reported, not underlying, and is stated before restructuring and rationalisation costs, acquisition related costs, the legal settlement with the US Department of Justice, amortisation of acquisition intangibles and taxation thereon, and in 2006 the gain on the disposal of the joint venture and the related fair value adjustment. See note 2 to the financial statements.
- ⁵ Percentage of new products to revenues is based on products launched within the last three years.
- ⁶ Comparisons are against restated numbers, see note 1 to the financial statements.

Introduction

Trading conditions across the business continue to be characterised by good volume growth tempered by a tight pricing environment in some geographies. Our innovative products which enable good outcomes for patients, medical professionals and healthcare providers alike are expected to generate continued growth. Our unchanged strategy is to operate in high growth segments, focus on our customers, manage our balance sheet and acquire businesses which fit within this strategy.

The third quarter has seen Group revenues increase by 10% to \$845m. In this quarter particularly strong growth was achieved in Reconstruction where hip resurfacing drove worldwide hip revenue growth to 20%, internal fixation in Trauma, international growth in Endoscopy and US revenues in Advanced Wound Management.

The reported Group trading margin of 20% in the quarter reflected the positive benefits from the Earnings Improvement Programme (EIP) in all businesses, an increase of 160 basis points before including acquisitions and 60 basis points after acquisitions.

We reached a settlement, as part of an industry wide agreement, with the US Department of Justice (the legal settlement) in the quarter. The cost in this quarter, of this settlement and associated legal costs was \$30m. We have, in common with the majority of our competitors, received notification of an informal investigation by the Securities and Exchange Commission (SEC) into our relationships with surgeons in some European countries. We are co-operating fully with the SEC.

The share buy-back programme announced on 8 February 2007 progressed with 20 million shares bought back in the quarter at a cost of \$247million.

Third Quarter Results

Revenue in the quarter increased by 24% on a reported basis to \$845 million, including a full quarter of Plus revenues of \$74 million. This represents underlying growth of 10% on the same period last year after adjusting for movements in currency of 3% and acquisitions of 11%.

Trading profit in the quarter was \$169 million, representing underlying growth of 19%. Trading margin of 20% was 60 basis points above the comparable period last year, net of 100 basis points of dilution from Plus and BlueSky. The net interest and finance charges were \$14 million, reflecting the borrowings following the Plus acquisition and the share repurchases. \$67m was charged in the quarter in respect of the Plus integration and amortisation of inventory revaluation and \$4m in respect of EIP costs.

The tax charge reflects the estimated effective rate for the full year of 30% on profit before restructuring costs, acquisition related costs, the legal settlement and amortisation of acquisition intangibles. Adjusted attributable profit which is before the costs of restructuring, acquisition related costs, the legal settlement and amortisation of acquisition intangibles and taxation thereon was \$108 million.

Adjusted earnings per share (EPSA) increased by 16% to 11.8¢ (59.0¢ per American Depositary Share, ADS). Basic earnings per share was 1.6¢ (8.0¢ per ADS) compared with 9.8¢ (49.0¢ per ADS) in 2006.

Trading cash flow of \$155 million in the quarter, (defined as cash generated from operations less capital expenditure but before the macrotaxed settlements, acquisition related costs, the legal settlement and restructuring costs), reflects a higher trading profit to cash conversion rate of 92%, compared with 43% a year ago.

Orthopaedic Reconstruction

Reconstruction revenues at \$313 million grew by 11% compared to the third quarter last year, ahead of the global market which grew by an estimated 9%. Reconstruction revenues in the US grew by 15% in the quarter benefiting from continued BIRMINGHAM HIP[®] Resurfacing System (BHR[®]) procedure adoption. Outside the US revenue grew by 4% as a result of some disruption from salesforce integration. New products generated 20% of revenues with a continuing contribution from product launches in the last two years.

Hip revenue growth remained strong at 20% for the quarter. In the US hip revenues grew by 35% as BHR[®] enjoyed a continuing high level of acceptance and had its first anniversary in the US market. Revenues from hip products other than BHR[®] in the US grew by 2%.

Worldwide knee revenue growth was 5%. Outside the US revenues grew 7%. In the US knee revenue growth improved to 4% in line with our expectations. The FDA granted approval in the quarter for the marketing of several of our knee systems (JOURNEY[®], GENESIS[®] II and LEGION[®]) as gender specific.

The integration of Plus Orthopedics has progressed well. Plus had a seasonally lower quarter for revenue growth and a lower margin in consequence. Some revenue dis-synergies have also occurred earlier than expected before the start of cross selling of both product ranges. Product licence applications for additional geographies are in progress.

The trading margin of 25.3% excluding Plus represents an improvement of over two percent arising mainly from EIP. The trading margin including Plus is 23.3%.

Orthopaedic Trauma and Clinical Therapies

Trauma and Clinical Therapies revenues at \$156 million grew by 11%, with growth in the US of 10% and 14% outside the US. New products generated 35% of revenues.

Fixation product revenues grew by 9% worldwide, just under estimated market growth of 10%, and by 11% in the US, and 7% outside the US. The quarter's revenue growth was driven by a combination of sales force effectiveness and the wider full service product range becoming better established.

Clinical Therapies revenue growth was 15% in the quarter as we built on our market leading position in the bone stimulation market; gaining market share with a strong contribution from the EXOGEN 4000+[®] product. The joint fluid therapies market is becoming impacted by some reimbursement pressure which is in turn creating pricing pressure and a slowing of growth in this market.

Trading margin at 19.2% excluding Plus (17.9% including Plus) is an increase of 60 basis points over the same quarter last year driven by our salesforce effectiveness programme as the benefits of the EIP driven reorganisation are realised.

Endoscopy

Endoscopy continued its revenue momentum in the third quarter with revenues up 9% to \$176 million driven by revenues outside the US, which grew very strongly at 17%, as the focus and effectiveness of the sales force strengthened. Revenues earned outside the US now exceed US revenues. In the US revenues grew by 2%, against a comparator of 14% and lower than recent quarters, primarily due to slower growth in Visualisation and Digital Operating Room (DOR) sales, and also the voluntary withdrawal of CALAX[®] Interference Screw during the quarter.

Arthroscopy revenues grew in the quarter by 11%, with strong growth in all segments, slightly behind our current estimate of market growth. Repair revenues at approaching 20% continue to outpace resection growth where revenues grew by mid single digits this quarter. New product revenues were 21% in the quarter.

The trading margin of 19.3% earned in the third quarter is a more than two percent improvement on the same quarter last year, reflecting the enduring benefit of the successful manufacturing reorganisation completed earlier this year.

Advanced Wound Management

Revenues grew by 8% to \$200 million as momentum builds in this business. US revenue growth was 9%. Outside the US revenues grew by 8% up from the 5% growth achieved last quarter as European markets recovered somewhat. New product revenues were 29% in the quarter.

The integration of BlueSky, which we acquired in the second quarter, is making good progress and is nearing completion ahead of the planned launch in early 2008. The distribution agreement with Universal Hospital Services, Inc., signed just after the end of the quarter, accesses the acute market for the negative pressure wound therapy business in the US.

The changes made to our ACTICOAT[®] licensing agreement, as part of the EIP, enabled the launch of a new silver product in the quarter as well as achieving an improvement in longer term earnings. The closure of the manufacturing facility in Largo, scheduled for 2009, was announced this quarter.

The trading margin of 18.7%, before the impact of BlueSky, is an improvement of 90 basis points and is the result of continuing activities as part of the EIP. Trading margin including Bluesky is 17.0%.

Year to Date Results

Reported revenues increased by 20% to \$2,402 million compared to the same period last year, with underlying growth at 11%.

Trading profit for the first three quarters was up 25% to \$484 million with trading margin higher at 20.1%. Net interest and finance charges were \$11 million. The tax charge of \$143 million reflects the estimated effective rate for the year of 30% on profit before restructuring costs, acquisition related costs, the legal settlement and amortisation of acquisition intangibles. Adjusted attributable profit of \$330 million is before the costs of restructuring, acquisition related costs, the legal settlement and amortisation of acquisition intangibles and taxation thereon. Attributable profit was \$215 million.

EPSA rose by 18% to 35.4¢ (177.0¢ per ADS). Reported basic earnings per share were 23.1¢ (115.5¢ per ADS). A reconciliation of EPSA to reported earnings per share is provided in note 2 to the financial statements.

Trading cash flow was \$402 million compared with \$186 million a year ago. This is a trading profit to cash conversion ratio of 83% compared with 48% a year ago.

Outlook

Global market conditions continue to be driven favourably by underlying demographic trends which are creating strong demand for our innovative products. The revenue outlook for the year for the individual businesses and for the business as a whole continues to be favourable and is unchanged from the half year.

EIP is progressing well and we continue to expect to achieve, on average, at least a 1% improvement in margin, before the impact of acquisitions, to the end of 2010. The margin improvement for the year to date is ahead of the anticipated run rate and is expected to be moderated by the impact of a strong comparator for the fourth quarter. The integration of Plus Orthopedics and BlueSky is on track.

The underlying growth in the business, coupled with the EIP and the Plus and BlueSky acquisitions, means that Smith & Nephew is well positioned for strong revenue performance and trading margin improvement for 2007 and beyond.

NOTES

1. The financial information for the three months and nine months has been prepared on the basis of the accounting policies set out in the full annual accounts of the Group for the year ended 31 December 2006.

The 2006 full annual accounts were restated to correct for a change in the method of calculating the elimination of intra-group profit carried in inventory, reclassification of certain indirect production overhead expenses from selling, general and administrative expenses to cost of goods sold and a voluntary change in accounting policy for death-in-service benefits. These restatements have been reflected in the 2006 three month and nine month Unaudited Group Income Statement, Unaudited Group Statement of Recognised Income and Expense, Unaudited Group Balance Sheet and Unaudited Condensed Group Cash Flow Statement.

The financial information contained in this document does not constitute statutory accounts as defined in section 240 of the Companies Act 1985. The auditors have issued an unqualified opinion on the Group's statutory financial statements for the year ended 31 December 2006, which have been delivered to the Registrar of Companies.

2. On 8 February 2007, the Group announced its intention to undertake a share buy back programme of up to \$1.5 billion over the next two years. This followed an assessment of the medium term capital needs of the Group both internally and for acquisitions in which management determined that shareholder value and balance sheet efficiency would be enhanced by returning capital to shareholders. As at 29 September 2007, 38,688,000 ordinary shares had been purchased at a cost of \$476 million.

Adjusted earnings per ordinary share (EPISA) is a trend measure which presents the long-term profitability of the Group excluding the impact of specific transactions that management considers as affect the Group's short-term profitability. The Group presents this measure to assist investors in their understanding of trends. Adjusted attributable profit is the numerator used for this measure.

EPISA has been calculated by dividing adjusted attributable profit by the weighted (basic) average number of ordinary shares in issue of 931 million (2006 941 million). The diluted weighted average number of ordinary shares in issue is 935 million (2006 944 million).

5. Restructuring and rationalisation costs comprise \$30 million relating to the earnings improvement programme, mainly redundancy and consultancy costs less \$3 million relating to the write back of prior year's provisions.
6. On 31 May 2007 the Group completed the acquisition of Plus Orthopedics Holding AG ('Plus'), a private Swiss orthopaedic company for a total of CHF 1,091 million (\$889 million) in cash, including assumed debt. This is being integrated into the Group's Reconstruction and Trauma and Clinical Therapies business segments. Plus reported revenues of CHF 380 million (\$305 million) in 2006 and profit before interest and taxation of CHF 44 million (\$35 million). Revenue and trading profit since acquisition were \$102 million and \$14 million respectively. The cost of the acquisition has been allocated on a provisional basis to the assets acquired and liabilities assumed on acquisition. Further fair value adjustments are expected to be made before the year end.

7. Acquisition related costs comprise \$24 million for Plus integration, \$45 million relating to the amortisation of the step-up of Plus inventory to fair value on acquisition less a release of \$3 million relating to an over provision of bid related costs from 2006.
8. The legal settlement of \$30 million in 2007 relates to the civil settlement agreement with the US Department of Justice following an industry wide investigation.
9. On 10 May 2007 Smith & Nephew acquired BlueSky Medical Group Inc. for an initial payment of \$15 million with further milestone payments of up to \$95 million related to revenues and other events. The cost is assessed as \$60 million, being the fair value of probable consideration of \$59 million and \$1 million of acquisition costs. The difference between the purchase consideration and the book value of net assets (\$60 million) has been allocated to goodwill.
10. The cumulative number of revisions of the macrotextured knee product was 1,026 on 29 September 2007 compared with 1,017 at the end of Quarter Two 2007. This represents 35% of the total implanted. Settlements with patients have been achieved in respect of 958 revisions (Quarter Two 2007 940 settlements). The provision increased in Quarter Two by \$22 million, offset in the income statement by a recovery of \$22 million. \$47 million of provision remains to cover future settlement costs.
11. Taxation of \$143 million (2006 \$117 million) for the nine months on the profit before restructuring and rationalisation costs, acquisition related costs, legal settlement, the loss on hedge of the sale proceeds of the joint venture, discontinued operations and amortisation of acquisition intangibles is at the full year estimated effective rate. Of the \$113 million (2006 \$116 million) taxation charge for the nine months \$85 million (2006 \$93 million) relates to overseas taxation.
12. On 23 February 2006 the Group sold its 50% interest in the BSN Medical joint venture for cash consideration of \$562 million. The net profit of \$332 million on the disposal of the joint venture is after a credit of \$14 million for cumulative translation adjustments and \$26 million of transaction costs. A further \$1 million of transaction costs, \$3 million of indemnity provision and a \$23 million release of taxation provisions relating to this transaction was recorded in the year ended 31 December 2006. The Group's discontinued operations earnings per share for the nine months in 2006 was basic 35.3¢ and diluted 35.2¢.

INDEPENDENT REVIEW REPORT TO SMITH & NEPHEW plc

Introduction

We have been engaged by the Company to review the interim financial information in the interim financial report for the three and nine months ended 29 September 2007 which comprises the Group Income Statement, Group Statement of Recognised Income and Expense, Group Balance Sheet, Condensed Group Cash Flow Statement and the related notes 1 to 15. We have read the other information contained in the interim financial report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

This report is made solely to the Company in accordance with guidance contained in ISRE 2410 (UK and Ireland) *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* issued by the Auditing Practices Board. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company, for our work, for this report, or for the conclusions we have formed.

Directors' Responsibilities

The interim financial report, is the responsibility of, and has been approved by, the directors. The directors are responsible for preparing the interim financial report in accordance with the Listing Rules of the United Kingdom's Financial Services Authority, which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

The annual financial statements of the Group are prepared in accordance with International Financial Reporting Standards as adopted by the European Union. The financial information included in this interim financial report has been prepared in accordance within the Listing Rules of the United Kingdom's Financial Services Authority.

Our Responsibility

Our responsibility is to express to the Company a conclusion on the interim financial information for the three and nine months ended 29 September 2007 based on our review.

Scope of Review

We conducted our review in accordance with ISRE 2410 (UK and Ireland) *Review of Interim Financial Information Performed by the Independent Auditor of the Entity* issued by the Auditing Practices Board for use in the United Kingdom. A review of interim financial information, consists of making enquires primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (UK and Ireland) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Review Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information for the three and nine months ended 29 September 2007 is not prepared, in all material aspects, in accordance with the International Financial Reporting Standards as adopted by the European Union and which the Group intends to apply in its accounts for the period ended 31 December 2007, and in accordance with the Listing Rules of the United Kingdom's Financial Services Authority.
