

Bank of New York Mellon CORP
Form 424B3
January 29, 2008
Table of Contents

Filed pursuant to Rule 424(b)(3). Based upon the registration of \$5 billion of Notes to be offered by means of an applicable pricing supplement, this prospectus supplement and the accompanying prospectus under the Registration Statement (File Nos. 333-144261 and 333-144261-01 through 333-144261-07) filed on July 2, 2007, a filing fee of \$196,500 has been calculated in accordance with Rule 457(r) and is being paid herewith. This paragraph shall be deemed to update the "Calculation of Registration Fee" table in the Registration Statement (File Nos. 333-144261 and 333-144261-01 through 333-144261-07) filed on July 2, 2007.

PROSPECTUS SUPPLEMENT

(To prospectus dated July 2, 2007)

\$5,000,000,000

The Bank of New York Mellon Corporation

Senior Medium-Term Notes Series G

Senior Subordinated Medium-Term Notes Series H

Due Nine Months or More from Date of Issue

We may offer from time to time up to an aggregate initial public offering price of \$5,000,000,000 (or the equivalent in one or more foreign currencies, including the Euro) of our medium-term notes as a class of our debt securities entitled either Senior Medium-Term Notes Series G (the Senior Notes) or Senior Subordinated Medium-Term Notes Series H (the Senior Subordinated Notes and, together with the Senior Notes, the Notes). Each Note will include the following terms, unless different terms are described in the applicable pricing supplement:

A stated maturity date nine months or longer from the date of issue.

Payment of principal of and interest on the Senior Notes will be senior to the Senior Subordinated Notes.

Payment of principal of the Senior Subordinated Notes may be accelerated only in the case of our bankruptcy, insolvency or reorganization, and there is no right of acceleration of this payment upon a payment default on these Notes or in the performance of any of our other covenants in the related indenture.

Interest payments on fixed rate Notes on the days during the term of the Notes specified in the applicable pricing supplement.

Interest payments on floating rate Notes on a monthly, quarterly, semi-annual or annual basis.

Edgar Filing: Bank of New York Mellon CORP - Form 424B3

Redemption or repayment provisions, whether mandatory, at our option, at the option of the holders or none at all.

Minimum denominations of \$1,000 or integral multiples of \$1,000.

Book-entry through The Depository Trust Company.

Interest at fixed or floating rates, or no interest at all. The floating interest rate may be based on one or more of the following indices plus or minus a spread or multiplied by a spread multiplier:

Commercial paper rate

CD Rate

LIBOR

Federal funds rate

Prime rate

Treasury rate

CMT rate

Eleventh district cost of funds rate

such other interest rate formula as may be specified in the applicable pricing supplement.

Whether a Floating Rate Note is a Regular Floating Rate Note, a Floating Rate/Fixed Rate Note or an Inverse Floating Rate Note.

See Risk Factors beginning on page S-2 to read about factors you should consider before investing in any Notes.

We will specify final terms for the Notes in the applicable pricing supplement, which may be different from the terms described in this prospectus supplement. If the Notes are to be denominated in a foreign currency, then certain provisions with respect thereto will be set forth in a foreign currency supplement and the applicable pricing supplement.

Table of Contents

The Notes are not deposits or other obligations of a bank and are not insured by the Federal Deposit Insurance Corporation or any other government agency.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy of this prospectus supplement or the accompanying prospectus. Any representation to the contrary is a criminal offense.

We may sell the Notes to the Agents referred to below as principals for resale at varying or fixed offering prices or through the Agents as agents using their best efforts on our behalf. Unless otherwise specified in the applicable pricing supplement, the price to the public for the Notes will be 100% of their principal amount. Commissions and discounts in respect of the Notes will be negotiated between the applicable Agent and us prior to the time of sale of such Notes and set forth in the applicable pricing supplement. We may also sell the Notes directly to investors and other purchasers on our own behalf where we are authorized to do so.

Banc of America Securities LLC

Citi

Credit Suisse

ABOUT THIS PROSPECTUS SUPPLEMENT,

THE ACCOMPANYING PROSPECTUS AND PRICING SUPPLEMENTS

This prospectus supplement sets forth certain terms of the Notes that we may offer and supplements the prospectus that is attached to the back of this prospectus supplement. This prospectus supplement supersedes the accompanying prospectus to the extent it contains information that is different from or additional to the information in that prospectus.

Each time we offer and sell Notes, we will furnish a pricing supplement with this prospectus supplement. The pricing supplement will contain the specific description of the Notes we are offering and the terms of the offering. The pricing supplement will supersede this prospectus supplement and the accompanying prospectus to the extent it contains information that is different from or additional to the information contained in this prospectus supplement or the accompanying prospectus.

It is important for you to read and consider all information contained in this prospectus supplement and the accompanying prospectus, as well as in the applicable pricing supplement relating to the particular offering of Notes, in making your decision to invest in the Notes.

You should rely only on the information contained or incorporated by reference in this prospectus supplement, the accompanying prospectus and any pricing supplement. Neither we nor the Agents have authorized any other person to provide you with different or additional information. If anyone provides you with different or additional information, you should not rely on it. Neither we nor the Agents are making an offer to sell the Notes in any jurisdiction where the offer or sale is not permitted. You should assume that the information contained or incorporated by reference in this prospectus supplement, the accompanying prospectus and any pricing supplement is accurate only as of its date.

References in this prospectus supplement to the Company, we, us or our are to The Bank of New York Mellon Corporation and references in the prospectus supplement to the Agents are to the agents named under Plan of Distribution of Medium-Term Notes. In addition, references in this prospectus supplement to the Senior Notes shall mean Senior Medium-Term Notes Series G, references in this prospectus supplement to the Senior Subordinated Notes shall mean Senior Subordinated Medium-Term Notes Series H, and references in this prospectus supplement to the Notes shall mean the Senior Notes and the Senior Subordinated Notes.

Table of Contents

RISK FACTORS

Your investment in the Notes involves certain risks, not all of which are described in this prospectus supplement, some of which relate to the Notes and others of which relate to us. We include a discussion of risk factors relating to our business and an investment in the Notes in our Quarterly Report on Form 10-Q for the third quarter of 2007 filed with the SEC (the "Quarterly Report") and we also provide references to documents containing additional discussion of risk factors in the Quarterly Report. We may include additional discussion of risk factors in reports subsequently filed with the SEC. The Quarterly Report is incorporated by reference into this prospectus supplement. See "Where You Can Find More Information" in the accompanying prospectus for an explanation of how to get a copy of the Quarterly Report. Additional risks related to the Notes are described below. In consultation with your own financial and legal advisers, you should carefully consider, among other matters, the following discussion of risks and the risk factors discussed in our periodic reports before deciding whether an investment in the Notes is suitable for you. The Notes are not an appropriate investment for you if you are unsophisticated with respect to their significant components and interrelationships. Although we discuss key risks in our risk factor descriptions, new risks may emerge in the future, which may prove to be important. Our subsequent filings with the SEC may contain amended and updated discussions of significant risks. We cannot predict future risks or estimate the extent to which they may affect our financial performance.

We are a holding company, and as a result we are dependent on dividends from our subsidiaries, including The Bank of New York and Mellon Bank, N.A. (collectively, the Banks), to meet our obligations, including with respect to the Notes.

We are a non-operating holding company, whose principal asset and source of income is our investment in our subsidiaries, including the Banks. We are a legal entity separate and distinct from the Banks and our other subsidiaries and, therefore, rely primarily on dividends from these subsidiaries to meet our obligations, including with respect to the Notes, and to provide funds for payment of dividends to our shareholders, to the extent declared by our board of directors. There are various legal limitations on the extent to which the Banks and our other subsidiaries can finance or otherwise supply funds to us (by dividend or otherwise) and certain of our affiliates. Although we maintain cash positions for liquidity at the holding company level, if the Banks or other of our subsidiaries were unable to supply us with cash over time, we could be unable to meet our obligations, including with respect to the Notes, or declare or pay dividends in respect of our capital stock. See "Certain Regulatory Considerations-Restrictions on Payment of Dividends" in the accompanying prospectus.

Because we are a holding company, our rights and the rights of our creditors, including the holders of the Notes, to a share of the assets of any subsidiary upon the liquidation or recapitalization of the subsidiary will be subject to the prior claims of the subsidiary's creditors (including, in the case of the Banks, their depositors), except to the extent that we may ourselves be a creditor with recognized claims against the subsidiary. Accordingly, the Notes will be effectively subordinated to all existing and future liabilities of our subsidiaries.

The Senior Subordinated Notes will be subordinated in right of payment to all of our Senior Indebtedness and noteholders will have limited acceleration rights under the Senior Subordinated Indenture.

The payment of the principal of and interest on the Senior Subordinated Notes will, to the extent set forth in the Senior Subordinated Indenture, be subordinated in right of payment to the prior payment in full of all Senior Indebtedness (as defined in the accompanying prospectus). If certain events of insolvency occur, the payment of the principal of and interest on the Senior Subordinated Notes will, to the extent set forth in the Senior Subordinated Indenture, also be effectively subordinated in right of payment to the prior payment in full of all Other Financial Obligations (as defined in the accompanying prospectus). The Senior Subordinated Indenture does not limit or prohibit us from incurring Senior Indebtedness.

Payment of principal of the Senior Subordinated Notes may be accelerated only in the case of our bankruptcy, insolvency or reorganization, and there is no right of acceleration of this payment upon a default in

Table of Contents

the payment of principal of or interest on the Senior Subordinated Notes or in the performance of any of our other covenants in the Senior Subordinated Indenture.

There may not be any trading market for the Notes; many factors affect the trading market and value of the Notes.

Upon issuance, your Notes will not have an established trading market. We cannot assure you that a trading market for your Notes will ever develop or be maintained if developed. In addition to our creditworthiness, many factors affect the trading market for, and trading value of, your Notes. These factors include:

the time remaining to the maturity of your Notes,

the outstanding amount of Notes with terms identical to your Notes,

the redemption or repayment features, if any, of your Notes, and

the level, direction and volatility of market interest rates generally.

You should also be aware that there may be a limited number of buyers when you decide to sell your Notes. This may affect the price you receive for your Notes or your ability to sell your Notes at all.

Redemption may adversely affect your return on the Notes.

If your Notes are redeemable at our option, we may choose to redeem your Notes at times when prevailing interest rates are relatively low. In addition, if your Notes are subject to mandatory redemption, we may be required to redeem your Notes also at times when prevailing interest rates are relatively low. As a result, you generally will not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as your Notes being redeemed.

Our credit ratings may not reflect all risks of an investment in the Notes.

Our credit ratings are an assessment of our ability to pay our obligations. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of your Notes. Our credit ratings, however, may not reflect the potential impact of risks related to market or other factors discussed above on the value of your Notes.

Changes in exchange rates and exchange controls could result in a substantial loss to you.

An investment in foreign currency Notes, which are Notes denominated in a currency other than U.S. dollars, entails significant risks that are not associated with a similar investment in a security denominated in U.S. dollars.

Such risks include, but are not limited to:

the possibility of significant market changes in rates of exchange between U.S. dollars and such specified currency;

the possibility of significant changes in rates of exchange between U.S. dollars and the specified currency resulting from official redenomination relating to such specified currency; and

the possibility of the imposition or modification of foreign exchange controls by either the United States or foreign governments.

S-3

Table of Contents

Such risks generally depend on factors over which we have no control and that cannot be readily foreseen. These include:

economic events;

political events; and

the supply of, and demand for, the relevant currencies.

In recent years, rates of exchange between the U.S. dollar and some foreign currencies in which the Notes may be denominated, and between these foreign currencies and other foreign currencies, have been volatile. This volatility may be expected in the future. Fluctuations that have occurred in any particular exchange rate in the past are not necessarily indicative of fluctuations that may occur in the rate during the term of any foreign currency Note. Depreciation of the specified currency of a foreign currency Note against U.S. dollars would result in a decrease in the effective yield of such foreign currency Note below its coupon rate and could result in a substantial loss to the investor on a U.S. dollar basis.

Governments have imposed from time to time, and may in the future impose, exchange controls that could affect exchange rates as well as the availability of a specified currency other than U.S. dollars at the time of payment of principal, any premium or interest on a foreign currency Note. Such exchange controls may restrict or prohibit payments of principal, any premium or interest denominated in any such specified currency.

Even if there are no actual exchange controls, it is possible that such specified currency would not be available to us when payments on such Notes are due because of circumstances beyond our control. In this event, we will make required payments in U.S. dollars on the basis described in this prospectus supplement. You should consult your own financial and legal advisors as to the risks of an investment in Notes denominated in a currency other than U.S. dollars.

The information set forth in this prospectus supplement is directed to prospective purchasers of Notes who are United States residents. We disclaim any responsibility to advise prospective purchasers who are residents of other countries regarding any matters that may affect the purchase or holding of, or receipt of payments of principal, premium or interest on, Notes.

Such persons should consult their advisors with regard to these matters. Any pricing supplement relating to Notes having a specified currency other than U.S. dollars will contain a description of any material exchange controls affecting such currency and any other required information concerning such currency.

The unavailability of currencies could result in a substantial loss to you.

Except as set forth below, if payment on a Note is required to be made in a specified currency other than U.S. dollars and such currency is

unavailable due to the imposition of exchange controls or other circumstances beyond our control;

no longer used by the government of the country issuing such currency; or

no longer used for the settlement of transactions by public institutions of the international banking community

then all payments on such Note shall be made in U.S. dollars until such currency is again available or so used. The amounts so payable on any date in such currency shall be converted into U.S. dollars on the basis of the most recently available market exchange rate for such currency or as otherwise indicated in the applicable pricing supplement. Any payment on such Note made under such circumstances in U.S. dollars will not constitute an event of default under the indenture under which such Note shall have been issued.

Table of Contents

If the specified currency of a Note is officially redenominated, other than as a result of conversion to the Euro, such as by an official redenomination of any such specified currency that is a composite currency, then our payment obligations on such Note will be the amount of redenominated currency that represents the amount of our obligations immediately before the redenomination. The Notes will not provide for any adjustment to any amount payable under such Notes as a result of:

any change in the value of the specified currency of such Notes relative to any other currency due solely to fluctuations in exchange rates; or

any redenomination of any component currency of any composite currency, unless such composite currency is itself officially redenominated.

Currently, there are limited facilities in the United States for conversion of U.S. dollars into foreign currencies, and vice versa. In addition, banks do not generally offer non-U.S. dollar-denominated checking or savings account facilities in the United States. Accordingly, payments on Notes made in a currency other than U.S. dollars may be made from an account at a bank located outside the United States, unless otherwise specified in the applicable pricing supplement.

Judgments in a foreign currency could result in a substantial loss to you.

The Notes will be governed by, and construed in accordance with, the law of the State of New York. Courts in the United States customarily have not rendered judgments for money damages denominated in any currency other than the U.S. dollar. A 1987 amendment to the Judiciary Law of New York State provides that a judgment or decree awarded in an action based upon an obligation denominated in a currency other than U.S. dollars will be rendered in the foreign currency of the underlying obligation. Any judgment or decree awarded in such an action will be converted into U.S. dollars at the rate of exchange prevailing on the date of the entry of the judgment or decree. There will be no provision for any further payments if exchange rates continue to change after the judgment is rendered.

There are risks associated with the implementation of the merger of The Bank of New York Company, Inc. and Mellon Financial Corporation into us.

On July 1, 2007, The Bank of New York Company, Inc. and Mellon Financial Corporation were merged into us, effecting a combination of the businesses of the two companies. The success of this transaction will depend, in part, on our ability to realize anticipated cost savings from combining these businesses. To realize the anticipated benefits from the transaction, we must successfully combine these businesses in a manner that permits these cost savings to be realized. If we are not able to achieve these objectives successfully, the anticipated benefits of the transaction may not be realized fully or at all or may take longer to realize than expected.

In addition, it is possible that the integration process could result in the loss of key employees, the disruption of each company's ongoing businesses or inconsistencies in standards, controls, procedures and policies, any of which could adversely affect our ability to maintain relationships with clients and employees or our ability to achieve the anticipated benefits of the transaction or could reduce our earnings.

Table of Contents

DESCRIPTION OF MEDIUM-TERM NOTES

General

The Company will issue the Senior Notes under an Indenture, dated as of July 18, 1991, as amended by a Supplemental Indenture dated as of June 29, 2007 (the Senior Indenture) between the Company (successor to The Bank of New York Company, Inc.) and Deutsche Bank Trust Company Americas (f/k/a Bankers Trust Company), as trustee (the Senior Trustee). The Company will issue the Senior Subordinated Notes under an Indenture, dated as of October 1, 1993, as amended by a Supplemental Indenture dated as of June 29, 2007 (the Senior Subordinated Indenture and, together with the Senior Indenture, the Indentures) between the Company (successor to The Bank of New York Company, Inc.) and Manufacturers and Traders Trust Company, successor to J.P. Morgan Trust Company, National Association (successor by merger to Chase Manhattan Trust Company, National Association), as trustee (the Senior Subordinated Trustee). The accompanying prospectus briefly outlines some of the provisions of the Indentures. If you would like more information about the Indentures, you should review them as filed with the SEC. See Where You Can Find More Information in the accompanying prospectus on how to locate the Indentures.

We provide information to you about the Notes in three separate documents. The first document is the accompanying prospectus, dated July 2, 2007, which provides general information concerning the Notes under Description of Senior Debt Securities and Senior Subordinated Debt Securities , some of which may not apply to a particular Note. The second document is this prospectus supplement, which also provides additional information about the Notes to supplement or replace, to the extent inconsistent, the description in the accompanying prospectus. The third document is the pricing supplement, which will provide final details about the terms of a specific Note and will be filed with the SEC about the time that the Note is sold.

This prospectus supplement includes (and the applicable pricing supplement will include) summaries of the Notes and the Indentures. If the information in this prospectus supplement or in the applicable pricing supplement differs from the terms and provisions of the Notes or the Indentures, you should in all cases rely on the terms and provisions of the Notes and the Indentures. The following description of the Notes will apply to each Note offered hereby unless otherwise specified in the applicable pricing supplement.

The Notes will be either Senior Notes or Senior Subordinated Notes (referred to in the accompanying prospectus as the Senior Debt Securities and the Senior Subordinated Debt Securities, respectively). The Senior Notes and the Senior Subordinated Notes are each a single series of debt securities under the Indenture pursuant to which they will be issued. The Notes are currently limited up to \$5,000,000,000 aggregate initial public offering price (or the equivalent in one or more foreign currencies, including the Euro). The Indentures do not limit the amount of Senior Notes, Senior Subordinated Notes or other debt securities that we may issue in the future under the Indentures.

Each Indenture provides that we may issue debt securities in one or more series up to the aggregate principal amount authorized by us from time to time. Each series of debt securities and each specific Note may differ as to its terms and Notes of a particular series of debt securities need not be issued at the same time. A series of debt securities may be reopened or further reopened in order to issue additional debt securities of that series without the consent of the holders of the applicable series of Notes.

The Company will issue Notes in denominations of \$1,000 and integral multiples of \$1,000.

Upon issuance, all Notes having the same issue price, Original Issue Date, Maturity Date, interest rate, redemption and repayment provisions, if any, and Interest Payment Dates will be represented by one global Note, which will be registered in the name of a nominee of The Depository Trust Company, as Depository under the Indentures (DTC). See Book-Entry Issuance in the accompanying prospectus for more information. Beneficial interests in the Notes will be reflected on the records of DTC; transfers of interests in the Notes can

Table of Contents

only be effected through these records. We will only issue definitive certificates for the Notes in limited circumstances, which include DTC ceasing to be registered as a clearing agency under the Securities Exchange Act of 1934. All references herein to registered holders or holders will be to DTC or its nominee and not to owners of beneficial interests in Notes, except as otherwise provided. See Book-Entry Issuance in the accompanying prospectus.

Ranking

The Senior Notes will be unsecured and unsubordinated obligations of the Company and will rank equally with other unsecured and unsubordinated indebtedness of the Company.

The Senior Subordinated Notes will be unsecured and subordinated to Senior Indebtedness of the Company as described in the accompanying prospectus under Description of Senior Debt Securities and Senior Subordinated Debt Securities-Debt Securities Issued by the Company under the BNY Senior Indenture or the BNY Senior Subordinated Indenture-Subordination of Senior Subordinated Debt Securities. The Indentures do not limit or prohibit the incurrence of additional Senior Indebtedness.

Because the Company is a holding company, its rights and the rights of its creditors, including the holders of any Notes, to a share of the assets of any subsidiary upon the liquidation or recapitalization of the subsidiary will be subject to the prior claims of the subsidiary's creditors (including, in the case of the Banks, their depositors), except to the extent that the Company may itself be a creditor with recognized claims against the subsidiary. Accordingly, the Notes will be effectively subordinated to existing and future liabilities of the Company's subsidiaries, and holders of Notes should look only to our assets for payments on the Notes.

Unless otherwise specified in the applicable pricing supplement, if the principal of any OID Note is declared to be due and payable immediately as described in the accompanying prospectus under Description of Senior Debt Securities and Senior Subordinated Debt Securities-Debt Securities Issued by the Company under the BNY Senior Indenture or the BNY Senior Subordinated Indenture-Subordination of Senior Subordinated Debt Securities, the amount of principal due and payable with respect to such Note shall be its Amortized Face Amount (as hereinafter defined). See Optional Redemption and Optional Repayment below.

Maturity

The Notes will mature on any day nine months or longer from the date of issue, as described in the applicable pricing supplement. Each Note will also be due and payable (in whole or in part) on any earlier date on which the principal or an installment of principal of a Note becomes due and payable, whether by a declaration of acceleration, a call for redemption at our option, repayment at the option of a holder or otherwise as agreed to by the purchaser and the Company and specified in the applicable pricing supplement. The date upon which a Note is due and payable, whether the stated maturity or such earlier date, will be referred to in this prospectus supplement as the Maturity.

Payment of the principal of the Senior Subordinated Notes may be accelerated only in case of the bankruptcy, insolvency or reorganization of the Company. As a holder of a Senior Subordinated Note, you do not have a right to accelerate the payment of principal on the Senior Subordinated Notes if there is a default in the payment of principal of or interest on such Senior Subordinated Notes or in our performance of any covenant contained in the Senior Subordinated Indenture. See Description of Senior Debt Securities and Senior Subordinated Debt Securities-Debt Securities Issued by the Company under the BNY Senior Indenture or the BNY Senior Subordinated Indenture Defaults The BNY Senior Subordinated Indenture in the accompanying prospectus.

Table of Contents

Interest

Unless otherwise indicated in the applicable pricing supplement, each Note will bear interest from the date of original issuance (the Original Issue Date) at a fixed rate (a Fixed Rate Note), or at a floating rate (a Floating Rate Note) determined by reference to the Commercial Paper Rate, the Certificate of Deposit (CD) Rate, the London Interbank Offered Rate (LIBOR), the Federal Funds Rate, the Prime Rate, the Treasury Rate, the CMT Rate or the Eleventh District Cost of Funds Rate, or another interest rate basis, plus or minus a Spread (as hereinafter defined) or multiplied by a Spread Multiplier (as hereinafter defined), which will be set forth in that pricing supplement. The Notes may also bear interest at any combination of fixed and floating rates until the principal thereof is paid or made available for payment. See Fixed Rate Notes and Floating Rate Notes below. We may also issue discounted securities (bearing no interest (Zero-Coupon Notes) or interest at rates that at the time of issuance are below market rates), at a discount from the principal amount payable at its stated maturity (including other Notes that for United States federal income tax purposes would be considered to have original issue discount, OID Notes). Zero-Coupon Notes will provide that upon redemption or acceleration of the maturity thereof an amount that is less than the stated principal amounts shall become due and payable.

Payment of Principal and Interest

Interest, if any, will be payable as specified in this prospectus supplement. Interest payable and punctually paid or duly provided for on any date on which interest is payable (an Interest Payment Date) and on the stated maturity date (or New Maturity Date or Extended Maturity Date, each as hereinafter defined) or upon earlier redemption or repayment (such stated maturity date, New Maturity Date, Extended Maturity Date or date of redemption or repayment, as the case may be, being collectively hereinafter referred to as the Maturity Date), or on a later date on which payment may be made hereunder in respect of such Interest Payment Date, will be paid to the person in whose name a Note is registered at the close of business on the Regular Record Date (as hereinafter defined) next preceding such Interest Payment Date; *provided, however*, that the first payment of interest on any Note with an Original Issue Date (as set forth in the applicable pricing supplement) between a Regular Record Date and an Interest Payment Date or on an Interest Payment Date will be made on an Interest Payment Date following the next succeeding Regular Record Date to the registered holder on such next succeeding Regular Record Date; *provided, further*, that interest payable at maturity or upon earlier redemption or repayment will be payable to the person to whom principal shall be payable.

We will make payments of principal, premium, if any, and interest with respect to the Notes in U.S. dollars unless otherwise stated in the applicable pricing supplement.

If the Notes are to be denominated in a foreign currency (including the Euro), then certain provisions with respect thereto will be set forth in the applicable pricing supplement. The foreign currencies in which Notes may be denominated or by which amounts due on the Notes may be calculated could be issued by member states of the European Union which have not yet replaced their currencies with the Euro but may do so in the future.

We will pay any administrative costs incurred by banks in connection with transmitting payments of principal, interest or premium by wire transfer. However, any tax, assessment or governmental charge imposed upon payments will be borne by owners of beneficial interests in Notes.

Paying Agent, Registrar and Transfer Agent

The initial Paying Agent, Registrar and Transfer Agent for the Notes is The Bank of New York, acting through its principal corporate trust offices in The City of New York. We may vary or terminate the appointment of the Paying Agent, Registrar and Transfer Agent and appoint additional Paying Agents, Registrars and Transfer Agents or approve any change in the office through which the Paying Agent, Registrar or Transfer Agent acts, provided that, so long as any Notes remain outstanding, there will at all times be a Paying Agent in The City of New York and we will maintain in The City of New York one or more offices or agencies where Notes may be presented for registration of transfer and exchange.

Table of Contents

Optional Redemption and Optional Repayment

The Notes will be redeemable at our option prior to stated maturity only if a Redemption Commencement Date and an Initial Redemption Percentage are specified in the applicable pricing supplement. If so specified, the Notes will be subject to redemption at our option on any date and after the applicable Redemption Commencement Date in whole or from time to time in increments of \$1,000 or such other minimum denominations specified in the applicable pricing supplement (provided that any remaining principal amount thereof shall be at least \$1,000 or such other minimum denomination), at the applicable Redemption Price (as defined below), together with unpaid interest accrued thereon to the date of redemption, on written notice given to the holders thereof not less than 30 nor more than 60 calendar days prior to the date of redemption and in accordance with the provisions of the applicable Indenture. Redemption Price with respect to a Note means an amount equal to the Initial Redemption Percentage specified in the applicable pricing supplement (as adjusted by the Annual Redemption Percentage Reduction, if applicable, specified in the applicable pricing supplement) multiplied by the unpaid principal amount to be redeemed. The Initial Redemption Percentage, if any, applicable to a Note shall decline at each anniversary of the Redemption Commencement Date by an amount equal to the Annual Redemption Percentage Reduction (if any) specified in the applicable pricing supplement, until the Redemption Price is equal to 100% of the unpaid principal amount to be redeemed. If any Note is redeemed in part, a new Note of like tenor for the unredeemed portion and otherwise having the same terms as the partially redeemed Note will be issued in the name of the holder upon presentation and surrender of the partially redeemed Note.

We will repay the Notes at the option of the holders thereof prior to their stated maturity only if one or more Optional Repayment Dates are specified in the applicable pricing supplement. If so specified, the Notes will be subject to repayment at the option of the holders thereof on any Optional Repayment Date in whole or from time to time in part in increments of \$1,000 or such other minimum denomination as is specified in the applicable pricing supplement (provided that any remaining principal amount thereof shall be at least \$1,000 or such other minimum denomination), at a repayment price equal to 100% of the unpaid principal amount to be repaid, together with unpaid interest accrued thereon to the Optional Repayment Date. For any Note to be repaid, such Note must be received, together with the notice of election form duly completed, by the Paying Agent at its office maintained for such purpose in the Borough of Manhattan in The City of New York, or in such other location as the Company selects in conformity with the applicable Indenture, not less than 30 nor more than 60 calendar days prior to the date of repayment. If any Note is repaid in part, a new Note of like tenor for the unpaid portion and otherwise having the same terms as the partially repaid Note will be issued in the name of the holder upon presentation and surrender of the partially repaid Note.

Only DTC may exercise a repayment option in respect of the global Note representing Notes issued in book-entry form. Accordingly, beneficial owners of Notes that desire to exercise their repayment option, if any, with respect to all or any portion of such Notes represented by the global Note, must instruct the participant through which they own their interest to direct DTC to exercise the repayment option on their behalf by delivering the global Note and duly completed election form to the applicable Trustee as aforesaid. In order to ensure that the global Note and election form are received by the applicable Trustee on a particular day, the applicable beneficial owner must so instruct the participant through which it owns its interest before such participant's deadline for accepting instructions for that day. Participants may have different deadlines for accepting instructions from their customers. Accordingly, a beneficial owner should consult the participant through which it owns its interest in the global Note for the participant's deadline for receiving payment instructions. In addition, at the time such instructions are given, each such beneficial owner will cause such participant to transfer such beneficial owner's interest in the global Note or securities representing Notes issued in book-entry form, on DTC's records, to the applicable Trustee.

If applicable, we will comply with the requirements of Section 14(e) of the Securities Exchange Act of 1934 and the rules promulgated thereunder, and any other securities laws or regulations, in connection with any such repayment.

Table of Contents

We may at any time purchase Notes at any price or prices in the open market or otherwise. If we decide to purchase the Notes, they may be held or resold or, at our discretion, may be surrendered to the applicable Trustee for cancellation.

Notwithstanding anything in this prospectus supplement to the contrary, the amount payable on an OID Note in the event of redemption or repayment prior to the stated maturity date shall be the Amortized Face Amount of such OID Note as of the date of redemption or the date of repayment, as the case may be. The Amortized Face Amount of an OID Note will be the amount equal to (i) the issue price set forth in the applicable pricing supplement plus (ii) that portion of the difference between the issue price and the principal amount of such Note that has accrued at the yield to maturity (computed in accordance with generally accepted United States bond yield computation principles) by such date of redemption or repayment, as calculated by the Calculation Agent (as hereinafter defined), but in no event shall the Amortized Face Amount of an OID Note exceed its principal amount.

Fixed Rate Notes

Interest on the Fixed Rate Notes will be payable on each Interest Payment Date therefor, which will be the days during the term of the Notes specified in the applicable pricing supplement, and on the Maturity Date with respect to the principal then maturing. Interest on Fixed Rate Notes will be computed on the basis of a 360-day year of twelve 30-day months.

Unless otherwise specified in the applicable pricing supplement, the Regular Record Date for any Fixed Rate Note will be the calendar day fifteen days preceding each Interest Payment Date whether or not such day is a Business Day (as hereinafter defined). If any Interest Payment Date or the Maturity Date on a Fixed Rate Note falls on a day that is not a Business Day, the applicable payments may be made on the next Business Day. In such case, no interest will accrue on the amount so payable for such period of delay.

Business Day means, with respect to Notes denominated in U.S. dollars, any day other than a Saturday, Sunday, legal holiday or other day on which banking institutions in The City of New York are authorized or required by law, regulation or executive order to close and, with respect to LIBOR Notes, is also a London Banking Day. As used herein, a London Banking Day is a day on which dealings in the applicable LIBOR currency are transacted in the London interbank market. For Notes having a specified currency other than U.S. dollars (other than Notes denominated in Euros), Business Day means any day that, in the Principal Financial Center (as defined below under heading Floating Rate Notes LIBOR Notes) of the country of the specified currency, is not a day on which banking institutions generally are authorized or obligated by law to close. For Notes denominated in Euros, Business Day means a day on which the Trans-European Automated Real-time Gross Settlement Express Transfer System is open.

Floating Rate Notes

Each Floating Rate Note will bear interest at a rate determined by reference to one or more interest rate bases (each a Base Rate), which may be adjusted by a Spread or Spread Multiplier (as described below). The applicable pricing supplement will designate one or more of the following Base Rates as applicable to each Floating Rate Note:

the Commercial Paper Rate (a Commercial Paper Rate Note)

the CD Rate (a CD Rate Note)

LIBOR (a LIBOR Note)

the Federal Funds Rate (a Federal Funds Rate Note)

the Prime Rate (a Prime Rate Note)

Table of Contents

the Treasury Rate (a Treasury Rate Note)

the CMT Rate (a CMT Rate Note)

the Eleventh District Cost of Funds Rate (an Eleventh District Cost of Funds Rate Note) and

such other Base Rate or Rates as may be set forth in the applicable pricing supplement.

The interest rate with respect to each Base Rate will be determined in accordance with the applicable provisions below.

Unless otherwise stated, a Floating Rate Note will be designated as a Regular Floating Rate Note. Except as described below or in the applicable pricing supplement, such Regular Floating Rate Note will bear interest at the rate determined by reference to the applicable Base Rate or Rates (a) plus or minus the applicable Spread, if any, or (b) multiplied by the applicable Spread Multiplier, if any. Commencing on the initial Interest Reset Date (as hereinafter defined), the interest rate for a Regular Floating Rate Note will be reset as of each Interest Reset Date. However, for the period of time from the date of issue of a Regular Floating Rate Note until the initial Interest Reset Date, the interest rate on such Note will be the Initial Interest Rate specified in the applicable pricing supplement.

If the Note is designated as a Floating Rate/Fixed Rate Note, then, except as described below or in the applicable pricing supplement, the interest rate will be determined by reference to the applicable Base Rate or Rates (a) plus or minus the applicable Spread, if any, or (b) multiplied by the applicable Spread Multiplier, if any. The interest rate for a Floating Rate/Fixed Rate Note will be reset as of each Interest Reset Date. However, from the Original Issue Date of such Floating Rate/Fixed Rate Note until the initial Interest Reset Date, the interest rate on such Note will be the Initial Interest Rate specified in the applicable pricing supplement. The interest rate for the period of time between and including the Fixed Rate Commencement Date specified in the applicable pricing supplement and the stated maturity will be the Fixed Interest Rate specified in the applicable pricing supplement, unless no such rate is so specified, in which case the interest rate will be the interest rate in effect on the date immediately preceding the Fixed Rate Commencement Date.

If the Note is designated as an Inverse Floating Rate Note, then, except as described below or in the applicable pricing supplement, the interest rate on the Inverse Floating Rate Note will be the Fixed Interest Rate minus the rate determined by reference to the applicable Base Rate or Rates (a) plus or minus the applicable Spread, if any, or (b) multiplied by the applicable Spread Multiplier, if any. Unless stated otherwise in the applicable pricing supplement, the interest rate on the Inverse Floating Rate Note will not be less than zero. The interest rate on such Inverse Floating Rate Note will be reset as of each Interest Reset Date. However, from the Original Issue Date of such Inverse Floating Rate Note until the Interest Reset Date, the interest rate on such Note will be the Initial Interest Rate specified in the applicable pricing supplement.

The Spread is the number of basis points (100 basis points equal one percentage point) to be added to or subtracted from the related Base Rate.

Rates applicable to such Floating Rate Note. The Spread Multiplier is the percentage of the related Base Rate or Rates applicable to such Floating Rate Note by which such Base Rate or Rates will be multiplied to determine the applicable interest rate on such Floating Rate Note. The Index Maturity is the period to maturity of the instrument or obligation with respect to which the related Base Rate or Rates will be calculated. We may change the Spread, the Spread Multiplier, the Index Maturity and other variable terms of the Floating Rate Notes from time to time, but, except as described below under Extendible Notes, no such change will affect any Floating Rate Note previously issued or any Floating Rate Note as to which an offer to purchase has been accepted by the Company.

Table of Contents

The applicable pricing supplement will specify for each Floating Rate Note the following terms:

whether such Note is a Regular Floating Rate Note, a Floating Rate/Fixed Rate Note or an Inverse Floating Rate Note ,

the Fixed Rate Commencement Date, if any; the Fixed Interest Rate, if any; the Original Issue Date; the Base Rate or Rates; the Initial Interest Rate; the Interest Payment Period (as hereinafter defined); the Interest Reset Date; the Interest Reset Period (as hereinafter defined); the Interest Payment Dates, the Index Maturity, the Maturity Date, the Maximum Interest Rate or the Minimum Interest Rate (each as hereinafter defined), if any; the Spread or the Spread Multiplier, if any; the Renewal Date (as hereinafter defined), if any; if such note is a Renewable Note or an Extendible Note (each as hereinafter defined), the initial maturity date and the Final Maturity Date (as hereinafter defined); the Redemption Commencement Date, if any; the Initial Redemption Percentage, if any; the Annual Redemption Percentage Reduction, if any; defeasance provisions, if any; and Optional Repayment Dates, if any, and

if one or more of the applicable Base Rates is LIBOR or the CMT Rate, the designated LIBOR Page or the Designated CMT Maturity Index and the Designated CMT Reuters Page, respectively, will be specified.

Unless otherwise specified in the applicable pricing supplement, the Regular Record Date for Floating Rate Notes with respect to any Interest Payment Date will be the fifteenth calendar day, whether or not a Business Day, prior to such Interest Payment Date.

Maximum and Minimum Interest Rates. The applicable pricing supplement applicable to a Floating Rate Note may provide that such Note has either or both of (a) a maximum limitation, or ceiling, on the rate of interest that may accrue during any interest period (a Maximum Interest Rate) and (b) a minimum limitation, or floor, on the rate of interest that may accrue during any interest period (a Minimum Interest Rate). In addition to any Maximum Interest Rate that may be applicable to any Floating Rate Note pursuant to the above provisions, the interest rate on the Floating Rate Notes will in no event be higher than the maximum rate permitted by applicable law, as the same may be modified by United States law of general application. Under current New York law, the maximum rate of interest (for any loan in the amount of \$250,000 or more) is 25% per annum on a simple interest basis. This limit may not apply to Notes in which \$2,500,000 or more has been invested.

Interest Reset Dates. The rate of interest on each Floating Rate Note will be reset daily, weekly, monthly, quarterly, semi-annually or annually (each, an Interest Reset Period and the first day of such Interest Reset Period, an Interest Reset Date), as specified in the applicable pricing supplement. The Interest Reset Date will be as follows:

Type of Floating Rate Note	Interest Reset Date
Notes that reset daily	Each Business Day
Notes (other than Treasury Notes) that reset weekly	Wednesday of each week
Treasury Notes that reset weekly	Tuesday of each week
Notes that reset monthly	The third Wednesday of each month
Notes that reset quarterly	The third Wednesday of January, April, July and October of each year
Notes that reset annually	The third Wednesday of the one month of each year specified in the applicable pricing supplement

Table of Contents

The rate of interest on a Floating Rate/Fixed Rate Note will not reset after the Fixed Rate Commencement Date. An Interest Reset Date that does not fall on a Business Day will be postponed to the next Business Day. In the case of a LIBOR Note, however, if such succeeding Business Day falls in the next calendar month, the Interest Reset Date will be the preceding Business Day.

Interest Determination Dates. The Interest Determination Date for Floating Rate Notes pertaining to an Interest Reset Date will be as follows:

Type of Floating Rate Note	Interest Determination Date
CD Rate Note	Second Business Day preceding such Interest Reset Date
Commercial Paper Rate Note	Second Business Day preceding such Interest Reset Date
Federal Funds Rate Note	The Business Day preceding such Interest Reset Date
Prime Rate Note	The Business Day preceding such Interest Reset Date
CMT Rate Note	Second Business Day preceding such Interest Reset Date
LIBOR Note	Second London Banking Day preceding such Interest Reset Date
Eleventh District Cost of Funds Rate Note	Last Business Day of the month immediately preceding such Interest Reset Date in which the Federal Home Loan Bank (FHLB) of San Francisco publishes the Index (as hereinafter defined)
Treasury Rate Note	Day of the week in which such Interest Reset Date falls on which Treasury bills would normally be auctioned by the U. S. Department of Treasury, as described below
Note with two or more Base Rates	Second Business Day next preceding such Interest Reset Date

Treasury bills are generally sold at auction on Monday of each week, unless that day is a legal holiday, in which case the auction is usually held on the following Tuesday, except that such auction day may be held on the preceding Friday. If, as a result of a legal holiday, an auction is so held on the preceding Friday, such Friday will be the Interest Determination Date for the Treasury Rate Note pertaining to the Interest Reset Date occurring in the next succeeding week. If an auction date with respect to a Treasury Rate Note shall fall on any Interest Reset Date, then such Interest Reset Date shall instead be the Business Day next succeeding such auction date.

Table of Contents

Interest Payment Dates. Except as provided below or in the applicable pricing supplement, interest on each Floating Rate Note will be payable on each Interest Payment Date, which will be daily, weekly, monthly, quarterly, semiannually or annually (each, an Interest Payment Period), and at Maturity with respect to the principal then maturing, as follows:

Type of Floating Rate Note	Interest Payment Date
Notes with a daily, weekly or monthly Interest Payment Period	The third Wednesday of each month
Notes with a quarterly Interest Payment Period	The third Wednesday of January, April, July and October
Notes with a semi-annual Interest Payment Period	The third Wednesday of the two months of each year specified in the applicable pricing supplement
Notes with an annual Interest Payment Period	The third Wednesday of the one month of each year specified in the applicable pricing supplement
All Notes	At Maturity with respect to the principal then maturing

If any Interest Payment Date other than the Maturity Date for any Floating Rate Note would otherwise be a day that is not a Business Day, such Interest Payment Date will be postponed to the next succeeding Business Day, except that in the case of a Floating Rate Note as to which LIBOR is an applicable Base Rate and that Business Day falls in the next succeeding calendar month, the particular Interest Payment Date will be the immediately preceding Business Day. If the Maturity Date of a Floating Rate Note falls on a day that is not a Business Day, we will make the required payment of principal, premium, if any, and interest on the next succeeding Business Day, and no additional interest will accrue in respect of the payment made on that next succeeding Business Day.

The amount of the interest payments on the Floating Rate Notes will equal the amount of interest accrued from and including the preceding Interest Payment Date, excluding, however, the next succeeding Interest Payment Date or Maturity Date.

Floating Rate Determinations and Calculations. Except as otherwise provided herein, all percentages resulting from any calculation on any Floating Rate Notes will be rounded to the nearest one hundred-thousandth of a percentage point (with five one-millionths of a percentage point being rounded up, e.g., 9.876545% (or .09876545) being rounded to 9.87655% (or .0987655)), and all dollar amounts used in or resulting from such calculation on any Floating Rate Notes will be rounded to the nearest cent (with one half cent being rounded up).

Accrued interest on a Floating Rate Note is calculated by multiplying the principal amount of such Floating Rate Note by an accrued interest factor. Such accrued interest factor is computed by adding the interest factors calculated for each day in the applicable Interest Rate Period. The interest factor (expressed as a decimal) for each such day is computed by dividing the interest rate (expressed as a decimal) applicable to such date by (i) the actual number of days in the year, in the case of Treasury Rate Notes or CMT Rate Notes, and (ii) 360, in the case of other Floating Rate Notes. The interest factor for Floating Rate Notes for which the interest rate is calculated with reference to two or more Base Rates will be calculated in each period in the same manner as if only the lowest, highest or average of the applicable Base Rate applied, as specified in the applicable pricing supplement.

We will appoint an agent to calculate interest rates on Floating Rate Notes (the Calculation Agent). The Bank of New York will serve as this agent unless otherwise specified in the applicable pricing supplement. Upon the request of the beneficial holder of any Floating Rate Note, the Calculation Agent will provide the interest rate

Table of Contents

then in effect and, if determined, the interest rate that will become effective on the next Interest Reset Date with respect to such Floating Rate Note. The Calculation Agent's determination of any interest rate will be final and binding in the absence of manifest error. The Calculation Date pertaining to any Interest Determination Date will be the earlier of (i) the tenth calendar day after such Interest Determination Date or, if such day is not a Business Day, the next succeeding Business Day and (ii) the Business Day next preceding the applicable Interest Payment Date or Maturity Date, as the case may be.

Unless otherwise specified in applicable pricing supplement, the Calculation Agent shall determine each Base Rate in accordance with the following provisions.

Commercial Paper Rate Notes. Commercial Paper Rate means:

(1) the Money Market Yield (as defined below) on the particular Interest Determination Date of the rate for commercial paper having the Index Maturity specified in the applicable pricing supplement as published in H.15(519) (as defined below) under the caption Commercial Paper-Nonfinancial, or

(2) if the rate referred to in clause (1) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the Money Market Yield of the rate on the particular Interest Determination Date for commercial paper having the particular Index Maturity as published in H.15 Daily Update (as defined below), or such other recognized electronic source used for the purpose of displaying the applicable rate, under the caption Commercial Paper-Nonfinancial, or

(3) if the rate referred to in clause (2) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date calculated by the Calculation Agent as the Money Market Yield of the arithmetic mean of the offered rates at approximately 11:00 A.M., New York City time, on that Interest Determination Date of three leading dealers of U. S. dollar commercial paper in The City of New York (which may include the Agents or their affiliates) selected by the Calculation Agent for commercial paper having the particular Index Maturity placed for industrial issuers whose bond rating is Aa, or the equivalent, from a nationally recognized statistical rating organization, or

(4) if the dealers so selected by the Calculation Agent are not quoting as mentioned in clause (3), the Commercial Paper Rate in effect on the particular Interest Determination Date.

Money Market Yield means a yield (expressed as a percentage) calculated in accordance with the following formula:

$$\text{Money Market Yield} = \frac{D \times 360}{360 - (D \times M)} \times 100$$

where D refers to the applicable per annum rate for commercial paper quoted on a bank discount basis and expressed as a decimal, and M refers to the actual number of days in the applicable Interest Reset Period.

H.15(519) means the weekly statistical release designated as H.15(519), or any successor publication, published by the Board of Governors of the Federal Reserve System.

H.15 Daily Update means the daily update of H.15(519), available through the world-wide-web site of the Board of Governors of the Federal Reserve System at <http://federalreserve.gov/releases/h15/update>, or any successor site or publication.

CD Rate Notes. CD Rate means:

(1) the rate on the particular Interest Determination Date for negotiable U. S. dollar certificates of deposit having the Index Maturity specified in the applicable pricing supplement as published in H.15(519) under the caption CDs (secondary market), or

Table of Contents

(2) if the rate referred to in clause (1) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date for negotiable U. S. dollar certificates of deposit of the particular Index Maturity as published in H.15 Daily Update, or other recognized electronic source used for the purpose of displaying the applicable rate, under the caption CDs (secondary market) , or

(3) if the rate referred to in clause (2) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date calculated by the Calculation Agent as the arithmetic mean of the secondary market offered rates as of 10:00 A.M., New York City time, on that Interest Determination Date, of three leading nonbank dealers in negotiable U.S. dollar certificates of deposit in The City of New York (which may include the Agents or their affiliates) selected by the Calculation Agent for negotiable U.S. dollar certificates of deposit of major United States money market banks for negotiable United States certificates of deposit with a remaining maturity closest to the particular Index Maturity in an amount that is representative for a single transaction in that market at that time, or

(4) if the dealers so selected by the Calculation Agent are not quoting as mentioned in clause (3), the CD Rate in effect on the particular Interest Determination Date.

LIBOR Notes. LIBOR means:

(1) the arithmetic mean of the offered rates, calculated by the Calculation Agent, or the offered rate, if the LIBOR Page by its terms provides only for a single rate, for deposits in the LIBOR Currency having the particular Index Maturity, commencing on the related Interest Reset Date, that appear or appears, as the case may be, on the LIBOR Page as of 11:00 A.M., London time, on the particular Interest Determination Date, or

(2) if no rate appears, on the particular Interest Determination Date on the LIBOR Page as specified in clause (1) the rate calculated by the Calculation Agent of at least two offered quotations obtained by the Calculation Agent after requesting the principal London offices of each of four major reference banks (which may include affiliates of the Agents), in the London interbank market to provide the Calculation Agent with its offered quotation for deposits in the LIBOR Currency for the period of the particular Index Maturity, commencing on the related Interest Reset Date, to prime banks in the London interbank market at approximately 11:00 A.M., London time, on that Interest Determination Date and in a principal amount that is representative for a single transaction in the LIBOR Currency in that market at that time, or

(3) if fewer than two offered quotations referred to in clause (2) are provided as requested, the rate calculated by the Calculation Agent as the arithmetic mean of the rates quoted at approximately 11:00 A.M., in the applicable Principal Financial Center (as defined below), on the particular Interest Determination Date by three major banks (which may include affiliates of the Agents), in that Principal Financial Center selected by the Calculation Agent for loans in the LIBOR Currency to leading European banks, having the particular Index Maturity and in a principal amount that is representative for a single transaction in the LIBOR Currency in that market at that time, or

(4) if the banks so selected by the Calculation Agent are not quoting as mentioned in clause (3), LIBOR in effect on the particular Interest Determination Date.

LIBOR Currency means the currency specified in the applicable pricing supplement as to which LIBOR shall be calculated or, if no currency is specified in the applicable pricing supplement, U. S. dollars.

LIBOR Page means the display on the Reuters Monitor Money Rates Service (or any successor service) on the page specified in the applicable pricing supplement (or any other page as may replace that page on that service) for the purpose of displaying the London interbank rates of major banks for the LIBOR Currency.

Table of Contents

Principal Financial Center means, as applicable:

the capital city of the country issuing the Specified Currency;

the capital city of the country to which the LIBOR Currency relates; or

London if the LIBOR Currency is the Euro;

provided, however, that with respect to U. S. dollars, Australian dollars, Canadian dollars, South African rand and Swiss francs, the Principal Financial Center shall be The City of New York, Sydney and (solely in the case of the Specified Currency) Melbourne, Toronto, Johannesburg and Zurich, respectively.

Federal Funds Rate Notes. Federal Funds Rate means:

(1) the rate as of the particular Interest Determination Date for U. S. dollar federal funds as published in H.15(519) under the caption Federal Funds (Effective) and displayed on Reuters Monitor Money Rates Service (or any successor service) on page FEDFUNDS 1 (or any other page as may replace the specified page on that service) (Reuters Page FEDFUNDS 1), or

(2) if the rate referred to in clause (1) does not so appear on Reuters Page FEDFUNDS 1 or is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate as of the particular Interest Determination Date for U. S. dollar federal funds as published in H.15 Daily Update, or such other recognized electronic source used for the purpose of displaying the applicable rate, under the caption Federal Funds (Effective) , or

(3) if the rate referred to in clause (2) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate with respect to the particular Interest Determination Date calculated by the Calculation Agent as the arithmetic mean of the rates for the last transaction in overnight U. S. dollar federal funds arranged by three leading brokers of U. S. dollar federal funds transactions in The City of New York (which may include the Agents or their affiliates), selected by the Calculation Agent prior to 9:00 A.M., New York City time, on the Business Day following that Interest Determination Date, or

(4) if the brokers so selected by the Calculation Agent are not quoting as mentioned in clause (3), the Federal Funds Rate in effect on the particular Interest Determination Date.

Prime Rate Notes. Prime Rate means:

(1) the rate on the particular Interest Determination Date as published in H.15(519) under the caption Bank Prime Loan , or

(2) if the rate referred to in clause (1) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date as published in H.15 Daily Update, or such other recognized electronic source used for the purpose of displaying the applicable rate, under the caption Bank Prime Loan , or

(3) if the rate referred to in clause (2) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date calculated by the Calculation Agent as the arithmetic mean of the rates of interest publicly announced by each bank that appears on the Reuters Screen US PRIME 1 Page (as defined below) as the applicable bank's prime rate or base lending rate as of 11:00 A.M., New York City time, on that Interest Determination Date, or

(4) if fewer than four rates referred to in clause (3) are so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date calculated by the Calculation Agent as the arithmetic mean of the prime rates or base lending rates quoted on the basis of the actual number of days in the year divided by a 360-day year as of the close of business on that Interest Determination Date by three major banks (which may include affiliates of the Agents) in The City of New York selected by the Calculation Agent, or

Table of Contents

(5) if the banks so selected by the Calculation Agent are not quoting as mentioned in clause (4), the Prime Rate in effect on the particular Interest Determination Date.

Reuters Screen US PRIME 1 Page means the display on the Reuters Monitor Money Rates Service (or any successor service) on the US PRIME 1 page (or any other page as may replace that page on that service) for the purpose of displaying prime rates or base lending rates of major United States banks.

Treasury Rate Notes. Treasury Rate means:

(1) the rate from the auction held on the Treasury Rate Note Interest Determination Date (the Auction) of direct obligations of the United States (Treasury Bills) having the Index Maturity specified in the applicable pricing supplement under the caption INVESTMENT RATE on the display on Reuters Monitor Money Rates Service (or any successor service) on page US Auction 10/11 (or any other page as may replace that page on that service), or

(2) if the rate referred to in clause (1) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the Bond Equivalent Yield (as defined below) of the rate for the applicable Treasury Bills as published in H.15 Daily Update, or another recognized electronic source used for the purpose of displaying the applicable rate, under the caption U.S. Government Securities/Treasury Bills/Auction High , or

(3) if the rate referred to in clause (2) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the Bond Equivalent Yield of the auction rate of the applicable Treasury Bills as announced by the United States Department of the Treasury, or

(4) if the rate referred to in clause (3) is not so announced by the United States Department of the Treasury, or if the Auction is not held, the Bond Equivalent Yield of the rate on the particular Interest Determination Date of the applicable Treasury Bills as published in H.15(519) under the caption U.S. Government Securities/Treasury Bills/Secondary Market , or

(5) if the rate referred to in clause (4) not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date of the applicable Treasury Bills as published in H.15 Daily Update, or another recognized electronic source used for the purpose of displaying the applicable rate, under the caption U.S. Government Securities/Treasury Bills/Secondary Market , or

(6) if the rate referred to in clause (5) is not so published by 3:00 P.M., New York City time, on the related Calculation Date, the rate on the particular Interest Determination Date calculated by the Calculation Agent as the Bond Equivalent Yield of the arithmetic mean of the secondary market bid rates, as of approximately 3:30 P.M., New York City time, on that Interest Determination Date, of three primary United States government securities dealers (which may include the Agents or their affiliates) selected by the Calculation Agent, for the issue of Treasury bills with a remaining maturity closest to the Index Maturity specified in the applicable pricing supplement, or

(7) if the dealers so selected by the Calculation Agent are not quoting as mentioned in clause (6), the Treasury Rate in effect on the particular Interest Determination Date.

Bond Equivalent Yield means a yield (expressed as a percentage) calculated in accordance with the following formula:

$$\text{Bond Equivalent Yield} = \frac{D \times N}{360 - (D \times M)} \times 100$$

where D refers to the applicable per annum rate for Treasury Bills quoted on a bank discount basis and expressed as a decimal, N refers to 365 or 366, as the case may be, and M refers to the actual number of days in the applicable Interest Reset Period.

Table of Contents

CMT Rate Notes. CMT Rate means:

(1) if CMT Reuters Page FRBCMT is specified in the applicable pricing supplement:

(a) the percentage equal to the yield for United States Treasury securities at constant maturity having the Index Maturity specified in the applicable pricing supplement as published in H.15(519) under the caption Treasury Constant Maturities, as the yield is displayed on Reuters Monitor Money Rates Service (or any successor service) on page FRBCMT (or any other page as may replace the specified page on that service) (Reuters Page FRBCMT), for the particular Interest Determination Date, or

(b) if the rate referred to in clause (a) does not so appear on Reuters Page FRBCMT, the percentage equal to the yield for United States Treasury securities at constant maturity having the particular Index Maturity and for the particular Interest Determination Date as published in H.15(519) under the caption Treasury Constant Maturities, or

(c) if the rate referred to in clause (b) does not so appear in H.15(519), the rate on the particular Interest Determination Date for the period of the particular Index Maturity as may then be published by either the Federal Reserve System Board of Governors or the United States Department of the Treasury that the Calculation Agent determines to be comparable to the rate which would otherwise have been published in H.15(519), or

(d) if the rate referred to in clause (c) is not so published, the rate on the particular Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices at approximately 3:30 P.M., New York City time, on that Interest Determination Date of three leading primary United States government securities dealers in The City of New York (which may include the Agents or their affiliates) (each, a Reference Dealer), selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation, or, in the event of equality, one of the highest, and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity equal to the particular Index Maturity, a remaining term to maturity no more than 1 year shorter than that Index Maturity and in a principal amount of at least \$100,000,000, or

(e) if fewer than five but more than two of the prices referred to in clause (d) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations shall be eliminated, or

(f) if fewer than three prices referred to in clause (d) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices as of approximately 3:30 P.M., New York City time, on that Interest Determination Date of three Reference Dealers selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation or, in the event of equality, one of the highest and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity greater than the particular Index Maturity, a remaining term to maturity closest to that Index Maturity and in a principal amount of at least \$100,000,000, or

(g) if fewer than five but more than two prices referred to in clause (f) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations will be eliminated, or

(h) if fewer than three prices referred to in clause (f) are provided as requested, the CMT Rate in effect on the particular Interest Determination Date.

Table of Contents

(2) if CMT Reuters Page FEDCMT is specified in the applicable pricing supplement:

(a) the percentage equal to the one-week or one-month, as specified in the applicable pricing supplement, average yield for United States Treasury securities at constant maturity having the Index Maturity specified in the applicable pricing supplement as published in H.15(519) opposite the caption Treasury Constant Maturities, as the yield is displayed on Reuters Monitor Money Rates Service (or any successor service) (on page FEDCMT or any other page as may replace the specified page on that service) (Reuters Page FEDCMT), for the week or month, as applicable, ended immediately preceding the week or month, as applicable, in which the particular Interest Determination Date falls, or

(b) if the rate referred to in clause (a) does not so appear on Reuters Page FEDCMT, the percentage equal to the one-week or one-month, as specified in the applicable pricing supplement, average yield for United States Treasury securities at constant maturity having the particular Index Maturity and for the week or month, as applicable, preceding the particular Interest Determination Date as published in H.15(519) opposite the caption Treasury Constant Maturities, or

(c) if the rate referred to in clause (b) does not so appear in H.15(519), the one-week or one-month, as specified in the applicable pricing supplement, average yield for United States Treasury securities at constant maturity having the particular Index Maturity as otherwise announced by the Federal Reserve Bank of New York for the week or month, as applicable, ended immediately preceding the week or month, as applicable, in which the particular Interest Determination Date falls, or

(d) if the rate referred to in clause (c) is not so published, the rate on the particular Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices at approximately 3:30 P.M., New York City time, on that Interest Determination Date of three Reference Dealers selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation, or, in the event of equality, one of the highest, and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity equal to the particular Index Maturity, a remaining term to maturity no more than 1 year shorter than that Index Maturity and in a principal amount of at least \$100,000,000, or

(e) if fewer than five but more than two of the prices referred to in clause (d) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest nor the lowest of the quotations shall be eliminated, or

(f) if fewer than three prices referred to in clause (d) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent as a yield to maturity based on the arithmetic mean of the secondary market bid prices as of approximately 3:30 P.M., New York City time, on that Interest Determination Date of three Reference Dealers selected by the Calculation Agent from five Reference Dealers selected by the Calculation Agent and eliminating the highest quotation or, in the event of equality, one of the highest and the lowest quotation or, in the event of equality, one of the lowest, for United States Treasury securities with an original maturity greater than the particular Index Maturity, a remaining term to maturity closest to that Index Maturity and in a principal amount of at least \$100,000,000, or

(g) if fewer than five but more than two prices referred to in clause (f) are provided as requested, the rate on the particular Interest Determination Date calculated by the Calculation Agent based on the arithmetic mean of the bid prices obtained and neither the highest or the lowest of the quotations will be eliminated, or

(h) if fewer than three prices referred to in clause (f) are provided as requested, the CMT Rate in effect on that Interest Determination Date.

Table of Contents

If two United States Treasury securities with an original maturity greater than the Index Maturity specified in the applicable pricing supplement have remaining terms to maturity equally close to the particular Index Maturity, the quotes for the United States Treasury security with the shorter original remaining term to maturity will be used.

Eleventh District Cost of Funds Rate.

Eleventh District Cost of Funds Rate means:

- (1) the rate equal to the monthly weighted average cost of funds for the calendar month immediately preceding the month in which the particular Interest Determination Date falls as set forth under the caption "11th District" on the display on Reuters Monitor Money Rates Service (or any successor service) on page FHLBCOFI11 (or any other page as may replace the specified page on that service) (Reuters Page FHLBCOFI11) as of 11:00 A.M., San Francisco time, on that Interest Determination Date, or
- (2) if the rate referred to in clause (1) does not so appear on Reuters Page FHLBCOFI11, the monthly weighted average cost of funds paid by member institutions of the Eleventh Federal Home Loan Bank District that was most recently announced (the "Index") by the Federal Home Loan Bank of San Francisco as the cost of funds for the calendar month immediately preceding that Interest Determination Date, or
- (3) if the Federal Home Loan Bank of San Francisco fails to announce the Index on or prior to the particular Interest Determination Date for the calendar month immediately preceding that Interest Determination Date, the Eleventh District Cost of Funds Rate in effect on the particular Interest Determination Date.

Renewable Notes

We may from time to time offer Notes that will mature on an Interest Payment Date as specified in the applicable pricing supplement unless the maturity of all (or, if so indicated in such pricing supplement, a portion of) the principal amount of such Note is renewed in accordance with the procedures described below (a "Renewable Note"). Renewable Notes will be issued in book-entry form only. If we issue any such Renewable Note, the following procedures will apply, unless otherwise specified in the applicable pricing supplement.

On the dates specified in the applicable pricing supplement (each such date, a "Renewal Date"), the maturity of such Renewable Note will be automatically extended to the next maturity date (each, a "New Maturity Date") specified in that pricing supplement. However, the holder of a Renewable Note may elect to terminate this automatic maturity renewal by delivering a notice to such effect to the applicable Trustee (or a duly appointed Paying Agent) not less than 15 nor more than 30 calendar days prior to the Renewal Date. If specified in the applicable pricing supplement, a holder of a Renewable Note may elect to terminate this automatic extension with respect to less than the entire principal amount of such Renewable Note. If the applicable pricing supplement allows for a partial termination, then such termination can only occur in such a principal amount, or integral multiple in excess thereof, as is specified in that pricing supplement. Notwithstanding the foregoing, the maturity of any Renewable Note may not be extended beyond the final maturity date (the "Final Maturity Date") specified in the applicable pricing supplement. If a holder elects to terminate the automatic extension of the maturity of any portion of the principal amount of a Renewable Note, then such portion will become due and payable on the stated maturity date or New Maturity Date then in effect with respect to such Note, as the case may be. An election to terminate the automatic extension of the maturity of a Renewable Note is irrevocable and binding on each holder of the Note. The renewal of the maturity of a Renewable Note will not affect the interest rate applicable to such Renewable Note.

Because Renewable Notes will be issued in book-entry form only, DTC or its nominee will be the holder of such Notes and therefore will be the only entity that can exercise a right to terminate the automatic extension of a

Table of Contents

Note. In order to ensure that DTC or its nominee will timely exercise a right to terminate the automatic extension with respect to a particular Note, the beneficial owner of such Note must instruct the broker or other DTC participant or indirect participant that holds its interest in such Note to notify DTC of its desire to terminate the automatic extension of such Note. Different firms have different cut-off times for accepting instructions from their customers and, accordingly, each beneficial owner should consult the broker or other DTC participant or indirect participant through which it holds an interest in a Note to ascertain the cut-off time for receipt of such an instruction.

Extendible Notes

The Company may from time to time offer Notes and retain the option of extending the stated maturity date (an Extendible Note). The extension period can be for one or more whole year periods (each an Extension Period) but the extension period may not extend beyond the Final Maturity Date stated in the applicable pricing supplement. If the Company issues any such Extendible Notes, the following procedures will apply, unless otherwise specified in the applicable pricing supplement.

To exercise the option to extend the maturity date, we must notify the applicable Trustee (or any duly appointed Paying Agent) at least 45 but not more than 60 calendar days prior to the stated maturity date originally in effect with respect to such Note or, if the stated maturity date of such Note has already been extended, prior to the stated maturity date then in effect (an Extended Maturity Date). Then, at least 40 calendar days prior to the initial maturity date or an Extended Maturity Date the applicable Trustee (or any duly appointed Paying Agent) will mail to the registered holder of such Extendible Note a notice (the Extension Notice) relating to such Extension Period, first class mail, postage prepaid. The Extension Notice will state the following:

our election to extend the maturity of such Note

the Extended Maturity Date

in the case of a Fixed Rate Note, the new interest rate applicable to such Extension Period and in the case of a Floating Rate Note, the Spread or Spread Multiplier applicable to such Extension Period and

the provisions, if any, for redemption during such Extension Period.

The maturity date on such Note will be extended upon the mailing of the Extension Notice by the applicable Trustee (or any duly appointed Paying Agent).

Notwithstanding the foregoing, no later than 20 calendar days before the Maturity Date for an Extendible Note (or, if such date is not a Business Day, on the immediately succeeding Business Day), we may choose to revoke the interest rate (for a Fixed Rate Note) or the Spread/Spread Multiplier (for a Floating Rate Note) stated in the Extension Notice and establish a higher interest rate or Spread/Spread Multiplier for the Extension Period. We will notify the applicable Trustee by mail of such higher interest rate or Spread/Spread Multiplier. Then notice of the higher interest rate or Spread/Spread Multiplier will be mailed to the holder of such Note by first class mail, postage pre-paid. This notice is irrevocable.

If we elect to extend the maturity of an Extendible Note, the holder may choose to have the Note repaid on the Maturity Date then in effect. The holder will receive repayment at a price equal to the principal amount of the Note plus any accrued and unpaid interest on the Note. If the holder of the Extendible Note elects to have the Note repaid, then such holder must send notice to us at least 15 calendar days (but no more than 30 calendar days) before the Maturity Date then in effect. We must receive this notice and:

the Note with the completed Option to Elect Repayment form on the back of the Note or

Edgar Filing: Bank of New York Mellon CORP - Form 424B3

a telegram, telefax, facsimile transmission or a letter from a member of a national securities exchange or the National Association of Securities Dealers, Inc. (the "NASD") or a commercial bank or trust company in the United States stating:

the name of the holder of the Note

S-22

Table of Contents

the principal amount of the Note

the principal amount of the Note to be repaid

the certificate number or a description of the tenor and terms of the Note

a statement that the option to elect repayment is being exercised and

a guarantee that the Note to be repaid, together with a completed Option to Elect Repayment form will be received by the applicable Trustee no later than the 5th Business Day after the date of such telegram, telefax, facsimile transmission or letter. This telegram, telefax, facsimile transmission or letter will only be effective if the Note and Option to Elect Repayment form are received by the applicable Trustee by the 5th Business Day. The holder of an Extendible Note may elect to have less than the aggregate principal amount of the Note repaid so long as the principal amount of the Note remaining outstanding is an authorized denomination.

Because Extendible Notes will be issued in book-entry form only, DTC or its nominee will be the holder of such Notes and therefore will be the only entity that can exercise the right of repayment. In order to ensure that DTC or its nominee will timely exercise a right to terminate the automatic extension with respect to a particular Note, the beneficial owner of such Note must instruct the broker or other DTC participant or indirect participant that holds its interest in such Note to notify DTC of its desire to terminate the automatic extension of such Note. Different firms have different cut-off times for accepting instructions from their customers and, accordingly, each beneficial owner should consult the broker or other DTC participant or indirect participant through which it holds an interest in a Note to ascertain the cut-off time for such an instruction.

Amortizing Notes

We may from time to time offer Notes (Amortizing Notes) with the amount of principal thereof and interest thereon payable in installments over the term of such Notes. Interest on each Amortizing Note will be computed on the basis of a 360-day year of twelve 30-day months. Payments with respect to Amortizing Notes will be applied first to interest due and payable thereon and then to the reduction of the unpaid principal amount thereof. Further information concerning additional terms and provisions of Amortizing Notes will be specified in the applicable pricing supplement, including a table setting forth repayment information for such Amortizing Notes.

Other Provisions; Addendum

Any provisions with respect to the Notes, including, but not limited to, the specification and determination of the Base Rate or Rates, the calculation of the interest rate applicable to a Floating Rate Note, the Interest Payment Dates or any other matter relating to the Notes, may be modified or supplemented as specified under Other Provisions on the face thereof or in an Addendum relating thereto, if so specified on the face of such Note and described in the applicable pricing supplement.

Governing Law

The Indentures and the Notes will be governed by, and construed in accordance with, the laws of the State of New York.

Table of Contents

UNITED STATES FEDERAL INCOME TAX CONSEQUENCES

The following is a discussion of the material United States federal income and estate tax consequences of the purchase, ownership and disposition of Notes. This discussion is based on laws, regulations, rulings and decisions now in effect, all of which are subject to change (possibly with retroactive effect) or possible differing interpretations. This discussion deals only with Notes held as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the Code), and does not purport to deal with persons in special tax situations, such as financial institutions, insurance companies, regulated investment companies, dealers in securities or currencies, former citizens or long-term residents of the United States, persons holding Notes as a hedge against currency risks or as a position in a straddle, hedge, constructive sale transaction or conversion transaction for tax purposes, or persons whose functional currency is not the U. S. dollar. It also does not deal with holders other than original purchasers except where otherwise specifically noted. If you are considering purchasing Notes you should consult your own tax advisor concerning the application of the United States federal tax laws to you in light of your particular situation, as well as any consequences to you of purchasing, owning and disposing of Notes under the laws of any other taxing jurisdiction.

For purposes of this discussion, the term U.S. holder means a beneficial owner of a Note that is, for United States federal income tax purposes,

an individual citizen or resident of the United States,

a corporation, or other entity treated as a corporation for United States federal income tax purposes, created or organized in or under the laws of the United States, any state thereof or the District of Columbia,

a trust (i) subject to the control of one or more United States persons and the primary supervision of a court in the United States or (ii) that has a valid election in effect to be treated as a U.S. person, or

an estate the income of which is subject to United States federal income taxation regardless of its source.

If a partnership holds Notes, the United States federal income tax treatment of a partner generally will depend upon the status of the partner and the activities of the partnership. Partners of partnerships holding Notes should consult their own tax advisors. The term non-U.S. holder means a beneficial owner of a Note that is not a U.S. holder.

U.S. Holders

Payments of Interest. Payments of interest on a Note generally will be taxable to a U.S. holder as ordinary interest income at the time they are accrued or received, in accordance with the U.S. holder's regular method of tax accounting.

Original Issue Discount. The following is a general discussion of the United States federal income tax consequences to U.S. holders of the purchase, ownership and disposition of Notes issued with original issue discount, or OID. Notes issued with OID are referred to in this discussion as OID Notes.

In general, a Note is an OID Note for United States federal income tax purposes if its stated redemption price at maturity exceeds its issue price by an amount that equals or exceeds 0.25% of the stated redemption price at maturity multiplied by the number of complete years to its maturity (OID less than this amount, de minimis OID). A Note's stated redemption price at maturity is the sum of all payments on the Note other than payments of qualified stated interest. Qualified stated interest generally means stated interest that is unconditionally payable in cash or property (other than debt instruments of the issuer) at least annually at a single fixed rate, provided that the rate appropriately takes into account the length of intervals between payments, or at certain variable rates of interest or certain combinations. The issue price of each Note in an issuance of Notes

Table of Contents

is the first price at which a substantial amount of the Notes in that issuance has been sold for cash, excluding sales to bond houses, brokers, or similar persons or organizations acting in the capacity of underwriters, placement agents, or wholesalers.

A U.S. holder of an OID Note that matures more than one year from the date of issuance must include OID in income as ordinary interest for United States federal income tax purposes as it accrues under a constant yield method in advance of the receipt of cash payments attributable to such income, regardless of the U.S. holder's regular method of tax accounting. In general, other than as reduced by acquisition premium as discussed below, the amount of OID included in income by a U.S. holder is the sum of the daily portions of OID with respect to the Note for each day during the taxable year (or portion of the taxable year) on which the U.S. holder held the Note. The daily portion of OID on an OID Note is determined by allocating to each day in any accrual period a ratable portion of the OID allocable to that accrual period. An accrual period may be of any length and accrual periods may vary in length over the term of the Note, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs either on the first or final day of an accrual period. The amount of OID allocable to each accrual period is generally equal to the difference between

the product of the OID Note's adjusted issue price at the beginning of the accrual period and its yield to maturity (determined on the basis of compounding at the close of each accrual period and appropriately adjusted to take into account the length of the particular accrual period), and

the amount of any qualified stated interest payments allocable to such accrual period.

The adjusted issue price of an OID Note at the beginning of any accrual period is the sum of the issue price of the OID Note plus the amount of OID allocable to all prior accrual periods, minus the amount of any prior payments on the OID Note other than payments of qualified stated interest. Under these rules, U.S. holders generally will have to include in income increasingly greater amounts of OID in successive accrual periods.

Floating Rate Notes are subject to special rules. Under those rules, a Floating Rate Note will qualify as a variable rate debt instrument if its issue price does not exceed the total noncontingent principal payments due under the Floating Rate Note by more than a specified de minimis amount, and it provides for stated interest, paid or compounded at least annually, at current values of

one or more qualified floating rates,

a single fixed rate and one or more qualified floating rates,

a single objective rate, or

a single fixed rate and a single objective rate that is a qualified inverse floating rate.

A qualified floating rate is any variable rate where variations in the value of such rate can reasonably be expected to measure contemporaneous variations in the cost of newly borrowed funds in the currency in which the Floating Rate Note is denominated. Although a multiple of a qualified floating rate will generally not itself constitute a qualified floating rate, a variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than 0.65 but not more than 1.35 will constitute a qualified floating rate. A variable rate equal to the product of a qualified floating rate and a fixed multiple that is greater than 0.65 but not more than 1.35, increased or decreased by a fixed rate, will also constitute a qualified floating rate. In addition, under applicable Treasury regulations, two or more qualified floating rates that can reasonably be expected to have approximately the same values throughout the term of the Floating Rate Note (e.g., two or more qualified floating rates with values within 25 basis points of each other as determined on the Floating Rate Note's issue date) will be treated as a single qualified floating rate. Notwithstanding the foregoing, a variable rate that would otherwise constitute a qualified floating rate but which is subject to a cap, floor or governor will fail to be treated as a qualified floating rate unless such device

is fixed throughout the term of the Note, or

is not reasonably expected as of the issue date to cause the yield of the Note to be significantly less or more, as the case may be, than the expected yield determined without such device.

S-25

Table of Contents

An objective rate is a rate that is not itself a qualified floating rate but is determined using a single fixed formula and is based upon objective financial or economic information outside of the issuer's control. This would include, for example,

one or more qualified floating rates, or

the yield of actively traded personal property other than stock or debt of the issuer or a related party.

Despite the foregoing, a variable rate of interest on a Floating Rate Note will not constitute an objective rate if it is reasonably expected that the average value of such rate during the first half of the Floating Rate Note's term will be either significantly less than or significantly greater than the average value of the rate during the final half of the Floating Rate Note's term. Applicable Treasury regulations also provide that other variable interest rates may be treated as objective rates if so designated by the IRS in the future.

A qualified inverse floating rate is any objective rate where the rate is equal to a fixed rate minus a qualified floating rate, as long as variations in the rate can reasonably be expected to inversely reflect contemporaneous variations in the qualified floating rate.

The regulations also provide that if a Floating Rate Note provides for stated interest at a fixed rate for an initial period of one year or less followed by a variable rate that is either a qualified floating rate or an objective rate, and if the variable rate on the Floating Rate Note's issue date is intended to approximate the fixed rate, then the fixed rate and the variable rate together will constitute either a single qualified floating rate or objective rate, as the case may be. The regulations establish a conclusive presumption that the variable rate on the Floating Rate Note's issue date is intended to approximate the fixed rate if the value of the variable rate on the issue date does not differ from the value of the fixed rate by more than 25 basis points.

If a Floating Rate Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout its term qualifies as a variable rate debt instrument under applicable Treasury regulations, then any stated interest on the Note that is unconditionally payable in cash or property, other than debt instruments of the issuer, at least annually during the term of the Note will constitute qualified stated interest and will be taxed accordingly. Thus, a Floating Rate Note that provides for stated interest at either a single qualified floating rate or a single objective rate throughout its term, and that qualifies as a variable rate debt instrument under the regulations, will generally not be treated as having been issued with OID unless the Floating Rate Note is issued at a true discount (*i.e.*, at a price such that the Note has more than de minimis OID. OID on such a Floating Rate Note arising from true discount is allocated to an accrual period using the constant yield method described above by assuming that the variable rate is a fixed rate equal to,

in the case of a qualified floating rate or qualified inverse floating rate, the value as of the issue date of the qualified floating rate or qualified inverse floating rate, or

in the case of an objective rate other than a qualified inverse floating rate, a fixed rate that reflects the yield that is reasonably expected for the Floating Rate Note.

In general, any other Floating Rate Note that qualifies as a variable rate debt instrument will be converted into an equivalent fixed rate debt instrument for purposes of determining the amount and accrual of OID and qualified stated interest on the Floating Rate Note. Applicable regulations generally require that such a Floating Rate Note be converted into an equivalent fixed rate debt instrument by substituting any qualified floating rate or qualified inverse floating rate provided for under the terms of the Floating Rate Note with a fixed rate equal to the value of the qualified floating rate or qualified inverse floating rate, as the case may be, as of the Floating Rate Note's issue date. Any objective rate, other than a qualified inverse floating rate, provided for under the terms of the Floating Rate Note is converted into a fixed rate that reflects the yield that is reasonably expected for the Floating Rate Note. In the case of a Floating Rate Note that qualifies as a variable rate debt instrument and provides for stated interest at a fixed rate in addition to either one or more qualified floating rates or a qualified inverse floating rate, the fixed rate is initially converted into a qualified floating rate or a qualified inverse

Table of Contents

floating rate, as the case may be. Under those circumstances, the qualified floating rate or qualified inverse floating rate that replaces the fixed rate must be such that the fair market value of the Floating Rate Note as of the Floating Rate Note's issue date is approximately the same as the fair market value of an otherwise identical debt instrument that provides for either the qualified floating rate or qualified inverse floating rate rather than the fixed rate. After converting the fixed rate into either a qualified floating rate or a qualified inverse floating rate, the Floating Rate Note is then converted into an equivalent fixed rate debt instrument in the manner described above.

Once the Floating Rate Note is converted into an equivalent fixed rate debt instrument under the rules described above, the amount of OID and qualified stated interest, if any, are determined for the equivalent fixed rate debt instrument by applying the general OID rules to the equivalent fixed rate debt instrument. A U.S. holder of the Floating Rate Note will account for the OID and qualified stated interest as if the U.S. holder held the equivalent fixed rate debt instrument. In each accrual period, appropriate adjustments will be made to the amount of qualified stated interest or OID assumed to have been accrued or paid with respect to the equivalent fixed rate debt instrument in the event that these amounts differ from the actual amount of interest accrued or paid on the Floating Rate Note during the accrual period.

If a Floating Rate Note does not qualify as a variable rate debt instrument under the regulations, then it will be treated as a contingent payment debt instrument. The regulations contain special rules for determining the timing and amount of OID to be accrued in respect of contingent payment debt instruments. Under applicable Treasury regulations, a U.S. holder generally is required to take contingent interest payments into income on a constant yield to maturity basis in accordance with a schedule of projected payments provided by the issuer and is required to make annual adjustments to income to account for the difference between actual payments received and projected payment amounts accrued. Additional disclosure will be provided in the applicable pricing supplement in connection with any offering of Notes that are contingent payment debt instruments. You should consult your own tax advisor regarding the consequences of acquiring, owning and disposing of a contingent payment debt instrument.

In certain cases, we may have the option to redeem Notes prior to their stated maturity or holders may have the option to require us to repay Notes prior to their stated maturity. Notes containing such features may be subject to rules that differ from the general rules discussed above. If you intend to purchase Notes with such features, you should consult your own tax advisor, since the OID consequences will depend, in part, on the particular terms and features of the purchased Notes.

Election to Treat All Interest as OID. Subject to certain limitations, a U.S. holder may elect to include in income all interest on a Note using a constant yield method. For this purpose, interest includes stated interest, unstated interest, OID, de minimis OID, and acquisition discount, market discount and de minimis market discount (each as described below), as adjusted by any amortizable bond premium or acquisition premium (each as described below). This election is made for the taxable year in which the U.S. holder acquired the Note, and may not be revoked without the consent of the IRS. U.S. holders should consult their tax advisors concerning the propriety and consequences of this election.

Short-Term Notes. Notes that have a fixed maturity of one year or less short-term notes will be treated as having been issued with OID. Absent an election, however, an individual or other cash method U.S. holder of a short-term note generally is not required to accrue OID on short-term notes. If the election is not made, any gain recognized by such a U.S. holder on the sale, exchange or maturity of the short-term note will be ordinary income to the extent of the accrued OID, and a portion of the deductions otherwise allowable to the U.S. holder for interest on borrowings allocable to the short-term note will be deferred until a corresponding amount of income is recognized. U.S. holders who report income for United States federal income tax purposes under the accrual method, and certain other holders, including banks and dealers in securities, are required to accrue OID on a short-term note on a straight-line basis or, if they so elect, under a constant yield method. Such holders will not be subject to the rule regarding the deferral of interest deductions described above. A U.S. holder (whether

Table of Contents

cash or accrual basis) of a short-term Note can elect to accrue acquisition discount, if any, with respect to the Note on a current basis. If such an election is made, the OID rules will not apply to the Note. Acquisition discount is the stated redemption price at maturity of the Note over the purchase price at the time of acquisition of the Note. Acquisition discount will be treated as accruing ratably or, at the election of the United States holder, under a constant-yield method based on daily compounding.

Market Discount. If a U.S. holder purchases a Note, other than an OID Note, for an amount that is less than its stated redemption price at maturity or, in the case of an OID Note, for an amount that is less than its adjusted issue price as of the purchase date, the U.S. holder will be treated as having purchased the Note at a market discount, unless the market discount is less than a specified de minimis amount (de minimis market discount), determined in the same manner as de minimis OID, using the number of complete years to maturity at the time of acquisition of the Note.

Under the market discount rules, a U.S. holder will be required to treat any partial principal payment (or, in the case of an OID Note, any payment that does not constitute qualified stated interest) on, or any gain realized on the sale, exchange, retirement or other disposition of, a Note as ordinary income to the extent of the lesser of

the amount of the payment or the realized gain, or

the market discount that has not previously been included in income and is treated as having accrued on the Note at the time of the payment or disposition.

Market discount will be considered to accrue ratably during the period from the date of acquisition to the maturity date of the Note, unless the U.S. holder elects to accrue market discount under a constant yield method. A U.S. holder may be required to defer the deduction of all or a portion of the interest paid or accrued on any indebtedness incurred or maintained to purchase or carry a Note with market discount until the maturity of the Note or certain earlier dispositions. A U.S. holder may elect to include market discount in income currently as it accrues, either ratably or under a constant yield method, in which case the rules described above regarding the treatment as ordinary income of gain upon the disposition of the Note and upon the receipt of certain cash payments and regarding the deferral of interest deductions will not apply. Currently included market discount generally is treated as ordinary interest for United States federal income tax purposes. The election will apply to all debt instruments acquired by the U.S. holder on or after the first day of the taxable year to which the election applies and may be revoked only with the consent of the IRS.

Acquisition Premium. A U.S. holder that purchases an OID Note for an amount that is greater than its adjusted issue price as of the purchase date and less than or equal to the Note's stated redemption price at maturity will be considered to have purchased the OID Note at an acquisition premium. Under the acquisition premium rules, the amount of OID that the U.S. holder must include in its gross income with respect to the OID Note for any taxable year, or the portion of any taxable year during which the U.S. holder holds the OID Note, will be reduced (but not below zero) by the portion of the acquisition premium properly allocable to the period.

Amortization Bond Premium. A U.S. holder that purchases a Note for an amount that is greater than the Note's stated redemption price at maturity, will be considered to have purchased the Note with amortizable bond premium equal to the excess. A U.S. holder may elect to amortize this premium under a constant yield method over the remaining term of the Note and may offset interest otherwise required to be included in respect of the Note during any taxable year by the amortized amount of such premium for the taxable year. However, if the Note may be redeemed at a price that is greater than its stated redemption price at maturity, special rules would apply that could result in a deferral of the amortization of a portion of the bond premium until later in the term of the Note. Any election to amortize bond premium applies to all taxable debt obligations then owned and thereafter acquired by the U.S. holder and may be revoked only with the consent of the IRS.

Disposition of a Note. Except as discussed above, upon the sale, exchange or retirement of a Note, a U.S. holder generally will recognize taxable gain or loss equal to the difference between the amount realized on the

Table of Contents

sale, exchange or retirement (excluding amounts representing accrued and unpaid interest, which will be treated as ordinary income) and the U.S. holder's adjusted tax basis in the Note. A U.S. holder's adjusted tax basis in a Note generally will equal the U.S. holder's initial investment in the Note increased by any OID included in income (and accrued market discount, if any, that the U.S. holder has included in income) and decreased by the amount of any payments received, other than qualified stated interest payments, and amortizable bond premium taken with respect to such Note. Except as described above under "Market Discount" gain or loss generally will be long-term capital gain or loss if the Note was held for more than one year. Generally, for U.S. holders who are individuals, long-term capital gains are subject to a preferential rate of United States federal income tax. The distinction between capital gain or loss and ordinary income or loss is also important in other contexts; for example, for purposes of the limitations on a U.S. holder's ability to offset capital losses against ordinary income.

Foreign Currency Denominated Notes. The tax treatment of Notes the interest or principal on which may be determined by reference to one or more foreign currencies will depend on the application of special rules to the particular terms of the Notes. The tax considerations relevant to such Notes will be described in an applicable pricing supplement, and each prospective purchaser should consult its tax advisor about such matters.

Renewable Notes, Extendible Notes, Amortizing Notes, etc. The tax considerations relevant to Renewable Notes, Extendible Notes, Amortizing Notes and other Notes with special terms will be described in an applicable pricing supplement, and each prospective purchaser should consult its tax advisor about such matters.

Non-U.S. Holders

A non-U.S. holder will not be subject to United States federal income taxes on payments of principal, premium (if any) or interest (including OID, if any) on a Note provided that

income on the Note is not effectively connected with the conduct by the non-U.S. holder of a trade or business within the United States,

the non-U.S. holder is not a controlled foreign corporation related to the Company through stock ownership,

in the case of interest income, the recipient is not a bank receiving interest described in Section 881(c)(3) of the Code,

the non-U.S. holder does not own (actually or constructively) 10% or more of the total combined voting power of all classes of stock of the Company, and

the non-U.S. holder provides a statement signed under penalties of perjury that includes its name and address and certifies that it is a non-U.S. holder in compliance with applicable requirements, or satisfies documentary evidence requirements for establishing that it is a non-U.S. holder.

A non-U.S. holder that is not exempt from tax under these rules generally will be subject to United States federal income tax withholding at a rate of 30% unless

the income is effectively connected with the conduct of a United States trade or business, in which case the interest will be subject to United States federal income tax at graduated tax rates on a net income basis as applicable to U.S. holders generally (unless an applicable income tax treaty provides otherwise), or

an applicable income tax treaty provides for a lower rate of, or exemption from, withholding tax.

Edgar Filing: Bank of New York Mellon CORP - Form 424B3

In the case of a non-U.S. holder that is a corporation and that receives income that is effectively connected with the conduct of a United States trade or business, such income may also be subject to a branch profits tax (which is generally imposed on a foreign corporation on the actual or deemed repatriation from the United States

S-29

Table of Contents

of earnings and profits attributable to a United States trade or business) at a 30% rate. The branch profits tax may not apply (or may apply at a reduced rate) if a recipient is a qualified resident of a country with which the United States has an income tax treaty.

To claim the benefit of an income tax treaty or to claim exemption from withholding because income is effectively connected with a United States trade or business, the non-U.S. holder must timely provide the appropriate, properly executed IRS forms. These forms may be required to be periodically updated. Also, a non-U.S. holder who is claiming the benefits of a treaty may be required to obtain a United States taxpayer identification number and to provide certain documentary evidence issued by foreign governmental authorities to prove residence in the foreign country.

Generally, a non-U.S. holder will not be subject to United States federal income or withholding taxes on any amount that constitutes capital gain upon retirement or disposition of a Note, provided the gain is not effectively connected with the conduct of a trade or business in the United States by the non-U.S. holder. Certain other exceptions may be applicable, and a non-U.S. holder should consult its tax advisor in this regard.

The Notes will not be includible in the estate of an individual who is not a citizen or resident (as specially defined for estate tax purposes) of the United States at the date of death unless the individual is a direct or indirect 10% or greater stockholder of the Company or, at the time of such individual's death, payments in respect of the Notes would have been effectively connected with the conduct by such individual of a United States trade or business.

Information Reporting and Backup Withholding

A U.S. holder (other than an exempt recipient, including a corporation and certain other persons who, when required, demonstrate their exempt status) may be subject to backup withholding at the applicable rate on, and to information reporting requirements with respect to, payments of principal or interest on, and to proceeds from the sale, exchange or retirement of, Notes. In general, if a non-corporate U.S. holder subject to information reporting fails to furnish a correct taxpayer identification number or otherwise fails to comply with applicable backup withholding requirements, backup withholding at the applicable rate may apply. Payments of interest to a non-U.S. holder generally will be reported to the IRS and to the non-U.S. holder. Copies of applicable IRS information returns may be made available under the provisions of a specific tax treaty or agreement to the tax authorities of the country in which the non-U.S. holder resides. Non-U.S. holders generally are exempt from backup withholding and additional information reporting provided, if necessary, they demonstrate their qualification for exemption.

Holders should consult their tax advisors regarding the qualification for an exemption from backup withholding and information reporting and the procedures for obtaining such an exemption, if applicable. Any amounts withheld under the backup withholding rules from a payment to a beneficial owner generally would be allowed as a refund or a credit against such beneficial owner's United States federal income tax provided the required information is furnished to the IRS.

Table of Contents

PLAN OF DISTRIBUTION OF MEDIUM-TERM NOTES

We are offering the Notes on a continuous basis for sale by us to or through Banc of America Securities LLC, Citigroup Global Markets Inc., Credit Suisse Securities (USA) LLC, Goldman, Sachs & Co., Lehman Brothers Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated, Morgan Stanley & Co. Incorporated, UBS Securities LLC, BNY Capital Markets, Inc., Barclays Capital Inc., Bear, Stearns & Co. Inc., Deutsche Bank Securities Inc., HSBC Securities (USA) Inc., J.P. Morgan Securities Inc., Wachovia Capital Markets, LLC or one or more other broker-dealers appointed by us from time to time pursuant to the terms of the distribution agreement relating to the offering of the Notes (the Agents). If we agree, an Agent will be allowed to use its best efforts, on an agency basis, to solicit offers to purchase the Notes at 100% of the principal amount thereof, unless otherwise specified in the applicable pricing supplement. Commissions and discounts in respect of the Notes will be negotiated between the applicable Agent and us prior to the time of sale of such Notes and set forth in the applicable pricing supplement. We may also sell Notes directly to investors and other purchasers on our own behalf in those jurisdictions where we are permitted to do so.

Any Note sold to an Agent as principal will be purchased by such Agent from the Company at a price equal to 100% of the principal amount thereof less a percentage of the principal amount equal to the commission applicable to an agency sale for a Note of an identical maturity. An Agent may resell the Notes it has purchased from us as principal to other dealers for resale to investors less a concession equal to all or any portion of the discount it received in connection with such purchase. After the initial public offering of Notes, the public offering price (in the case of Notes to be resold on a fixed public offering price basis), concession and discount may be changed.

We reserve the right to withdraw, cancel or modify any offer to sell Notes without notice and may reject orders in whole or in part (whether placed directly with us or through the Agents). Each Agent will have the right, in its discretion, reasonably exercised, to reject in whole or in part any offer to purchase Notes received by it on an agency basis.

Unless otherwise provided in the applicable pricing supplement, payment of the purchase price of the Notes will be required to be made in immediately available funds in The City of New York on the date of settlement.

Upon issuance, the Notes will not have an established trading market. The Notes will not be listed on any securities exchange. Each of the Agents may from time to time purchase and sell Notes in the secondary market, but no Agent is obligated to do so, and there can be no assurance that there will be a secondary market for the Notes or liquidity in the secondary market if one develops. From time to time, the Agents may make a market in the Notes, but no Agent is obligated to do so and may discontinue any market making at any time.

Each Agent, whether acting as agent or principal, may be deemed to be an underwriter within the meaning of the Securities Act of 1933, as amended. We have agreed to indemnify the Agents against certain liabilities, including liabilities under the Securities Act of 1933, as amended, or to contribute to payments that the Agents may be required to make in respect thereof. The Agents may engage in transactions with, or perform services for, us in the ordinary course of business.

In connection with an offering of Notes purchased by one or more Agents as principal on a fixed price basis, each such Agent will be permitted to engage in certain transactions that stabilize the prices of such Notes. Such transactions may consist of bids or purchases for the purpose of pegging, fixing or maintaining the price of such Notes. If an agent creates a short position in such Notes (*i.e.* if it sells Notes in an aggregate principal amount exceeding that set forth in the applicable pricing supplement), such Agent may reduce that short position by purchasing Notes in the open market.

In general, purchases of Notes for the purpose of stabilization or to reduce a short position could cause the price of Notes to be higher than it might be in the absence of such purchases.

Table of Contents

Neither the Company nor any of the Agents makes any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of the Notes. In addition, neither the Company nor any of the Agents makes any representation that the Agents will engage in any such transactions or that such transactions once commenced will not be discontinued without notice.

We estimate that our expenses that will be incurred in connection with the offering and sale of the Notes, including reimbursement of certain of the Agents' expenses, will total approximately \$350,000.

In the ordinary course of its business, the Agents and their affiliates have engaged, and may in the future engage, in investment and commercial banking transactions with us and certain of our affiliates. An affiliate of Deutsche Bank Securities Inc., one of the Agents, is the trustee under the Senior Indenture. BNY Capital Markets, Inc., one of the Agents, is an affiliate of ours. Accordingly, offerings of the Notes in which BNY Capital Markets, Inc. participates will conform with the requirements set forth in Rule 2720 of the Conduct Rules of the National Association of Securities Dealers, Inc.

From time to time, we may sell other securities referred to in the accompanying prospectus, and the amount of Notes offered hereby may be reduced as a result of these sales.

LEGAL MATTERS

The validity of the Notes is being passed upon for us by Arlie R. Nogay, Esq., our Chief Securities Counsel, and on behalf of the Agents by Cleary Gottlieb Steen & Hamilton LLP, New York, New York. Cleary Gottlieb Steen & Hamilton LLP regularly performs legal services for us and our affiliates.

The Bank of New York Mellon Corporation, a Delaware corporation (also referred to as the Company or we), and each of BNY Capital VI, BNY Capital VII, BNY Capital VIII, BNY Capital IX and BNY Capital X (each a BNY Trust), Mellon Capital V (Mellon Trust) and Mellon Funding Corporation, a Pennsylvania corporation (Mellon Funding), referred to above may offer and sell from time to time, in one or more series, the securities listed above. Any selling shareholder named in a prospectus supplement may offer and sell from time to time shares of the Common Stock, par value \$0.01 per share, of the Company that it acquires or acquired in transactions that were not, or will not be, registered under the Securities Act of 1933, as amended. The Company will not receive any proceeds from the sale of shares by a selling shareholder.

The Common Stock of the Company is listed on the New York Stock Exchange under the symbol BK. Unless otherwise indicated in the applicable prospectus supplement, the other securities offered hereby will not be listed on a national securities exchange.

This prospectus contains a general description of the securities which may be offered. The specific terms of the securities will be contained in one or more supplements to this prospectus. Read this prospectus and any supplement carefully before you invest. The supplement may also add

to, update or change information contained in this prospectus.

To read about certain important factors you should consider in making an investment decision, see Risk Factors on page 4 of this prospectus.

THE SECURITIES WILL BE EQUITY SECURITIES IN OR UNSECURED OBLIGATIONS OF THE COMPANY, ANY BNY TRUST, MELLON TRUST OR MELLON FUNDING AND WILL NOT BE SAVINGS ACCOUNTS, DEPOSITS OR OTHER OBLIGATIONS OF ANY BANK OR NONBANK SUBSIDIARY OF THE COMPANY AND ARE NOT INSURED BY THE FEDERAL DEPOSIT INSURANCE CORPORATION, THE BANK INSURANCE FUND OR ANY OTHER GOVERNMENT AGENCY.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION, ANY STATE SECURITIES COMMISSION, THE FEDERAL DEPOSIT INSURANCE CORPORATION, THE BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM NOR ANY OTHER REGULATORY BODY HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR PASSED UPON THE ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

This prospectus and the applicable prospectus supplement may be used in the initial sale of the securities. In addition, the Company, BNY Capital Markets, Inc., Mellon Financial Markets, LLC or any other affiliate controlled by the Company may use this prospectus and applicable prospectus supplement in a market-making transaction involving the securities after the initial sale. These transactions may be executed at negotiated prices that are related to market prices at the time of purchase or sale, or at other prices. The Company and its affiliates may act as principal or agent in these transactions.

The date of this prospectus is July 2, 2007.

ABOUT THIS PROSPECTUS

This document is called a prospectus. This summary highlights selected information from this prospectus and may not contain all of the information that is important to you. To understand the terms of the securities, you should carefully read this prospectus and any accompanying prospectus supplement. This prospectus and the prospectus supplement together give the specific terms of the securities being offered. You should also read the documents referred to under the heading "Where You Can Find More Information" for information on the Company, The Bank of New York Company, Inc. ("Bank of New York") and Mellon Financial Corporation ("Mellon Financial"), and their respective financial statements. The Company has its principal offices at One Wall Street, New York, New York 10286 (telephone: 212-495-1784). Certain capitalized terms used in this summary are defined elsewhere in this prospectus.

The Company, BNY Capital VI, BNY Capital VII, BNY Capital VIII, BNY Capital IX and BNY Capital X (each a "BNY Trust" and, together, the "BNY Trusts") and Mellon Capital V (the "Mellon Trust"), all statutory trusts formed under the laws of the State of Delaware, and Mellon Funding Corporation ("Mellon Funding"), a financing subsidiary of the Company, have filed a registration statement with the Securities and Exchange Commission (the "SEC") under a "shelf" registration procedure. Under this procedure the Company, the BNY Trusts, the Mellon Trust and Mellon Funding may offer and sell from time to time, in one or more series, any one or a combination of the following securities:

unsecured Debt Securities of the Company,

unsecured Debt Securities of Mellon Funding,

Guarantees of the Company of the Debt Securities of Mellon Funding,

shares of Preferred Stock, \$0.01 par value per share, of the Company ("Preferred Stock"),

depository shares representing Preferred Stock,

shares of Common Stock, \$0.01 par value per share, of the Company,

Trust Preferred Securities of a BNY Trust,

Trust Preferred Securities of the Mellon Trust,

Guarantees of the Company relating to the Trust Preferred Securities,

Stock Purchase Contracts of the Company,

Stock Purchase Units of the Company, and

Warrants of the Company.

Edgar Filing: Bank of New York Mellon CORP - Form 424B3

The securities may be sold for U.S. dollars, foreign denominated currency or currency units, including the euro. Amounts payable with respect to any such securities may be payable in U.S. dollars or foreign denominated currency or currency units.

This prospectus provides you with a general description of the securities we may offer. Each time we offer securities, we will provide you with a prospectus supplement that will describe the specific amounts, prices and terms of the securities being offered. The prospectus supplement may also add, update or change information contained in this prospectus.

Any of the securities described in this prospectus and in a prospectus supplement may be convertible or exchangeable into other securities that are described in this prospectus or will be described in a prospectus supplement or may be issued separately, together or as part of a unit consisting of two or more securities, which may or may not be separate from one another. These securities may include new or hybrid securities developed in the future that combine features of any of the securities described in this prospectus.

Table of Contents

The prospectus supplement may also contain information about certain United States federal income tax considerations relating to the securities covered by the prospectus supplement.

The Company, each BNY Trust, the Mellon Trust and Mellon Funding may sell securities to underwriters who will sell the securities to the public on terms fixed at the time of sale. In addition, the securities may be sold by the Company, each BNY Trust, the Mellon Trust and Mellon Funding directly or through dealers or agents designated from time to time, who may be affiliates of the Company, each BNY Trust, the Mellon Trust and Mellon Funding. If the Company, a BNY Trust, the Mellon Trust or Mellon Funding directly or through agents, solicits offers to purchase the securities, the Company, such BNY Trust, the Mellon Trust or Mellon Funding reserves the sole right to accept and, together with its agents, to reject, in whole or in part, any such offer.

For the securities being sold, the prospectus supplement will also include the names of the underwriters, dealers or agents, if any, their compensation, the terms of offering, and the net proceeds to the Company, each BNY Trust, the Mellon Trust and Mellon Funding.

Any underwriters, dealers or agents participating in the offering may be deemed underwriters within the meaning of the Securities Act of 1933, as amended (the Securities Act).

Additionally, shares of Common Stock may be offered and sold from time to time by any selling shareholder named in a prospectus supplement who has acquired, or will acquire, Common Stock from the Company in transactions that were not, or will not be, registered under the Securities Act, as described under Plan of Distribution. Specific information with respect to any offer and sale by any selling shareholder will be set forth in the prospectus supplement relating to that transaction.

THE COMPANY

The Company was formed on February 9, 2007. The Company began operations on July 2, 2007, when Bank of New York and Mellon Financial merged with and into the Company (the merger). The Company is headquartered in New York, New York. The businesses formerly conducted by Bank of New York and Mellon Financial are described below. Unaudited pro forma financial information of the Company for the period ended March 31, 2007 can be found in Form 8-K filings made by each of Bank of New York and Mellon Financial on May 11 and May 10, 2007, respectively. Additional information about the Company can be found in our Joint Proxy Statement/Prospectus dated April 17, 2007 filed with the SEC and incorporated herein by reference.

The Company is a financial holding company registered with the Board of Governors of the Federal Reserve System under the Bank Holding Company Act of 1956, as amended. As such, the Company and its subsidiaries are subject to the supervision, examination and reporting requirements of the Bank Holding Company Act and the regulations of the Federal Reserve.

Bank of New York

Bank of New York's businesses provide a broad array of banking and other financial services worldwide through its core competencies: securities servicing, treasury management and asset and wealth management. Bank of New York's extensive global client base includes a broad range of leading financial institutions, corporations, government entities, endowments and foundations. Bank of New York's principal wholly owned banking subsidiary, which was founded in 1784, was New York's first bank and is the nation's oldest bank. At March 31, 2007, Bank of New York had total assets of \$100 billion, shareholders' equity of \$11.5 billion, assets under management of approximately \$200 billion and assets under custody of \$14 trillion.

Table of Contents

Mellon Financial

Mellon Financial's businesses provide financial services for institutions, corporations and governmental bodies, as well as entities sponsored by them; and high net worth individuals and families, family offices and charitable endowments, consisting of asset management, wealth management, asset servicing, issuer services and treasury services. At March 31, 2007, Mellon Financial had total assets of \$40 billion, shareholders' equity of \$4.9 billion and assets under management, administration or custody of approximately \$5.8 trillion, including \$1.03 trillion under management. Mellon Financial was originally formed as a holding company for Mellon Bank, N.A., which has its executive offices in Pittsburgh, Pennsylvania. With its predecessors, Mellon Bank, N.A. has been in business since 1869.

MELLON FUNDING CORPORATION

Mellon Funding, a wholly owned subsidiary of the Company, is incorporated in Pennsylvania. It functioned as a financing entity for Mellon Financial and its subsidiaries prior to the merger by issuing commercial paper and other debt guaranteed by Mellon Financial and may continue to be used as a financing entity for the Company and its subsidiaries.

THE CAPITAL TRUSTS

The BNY Trusts

Each BNY Trust is a statutory trust created under Delaware law pursuant to:

a trust agreement executed by Bank of New York, as Depositor of the BNY Trust, and the Delaware Trustee of such BNY Trust, and

a certificate of trust filed with the Delaware Secretary of State.

Each trust agreement was assumed by operation of law in the merger by the Company. Each such trust agreement will be amended and restated in its entirety (each, as so amended and restated, a "Trust Agreement") substantially in the form filed as an exhibit to the registration statement of which this prospectus forms a part prior to the issuance of securities by the trust. Each Trust Agreement will be qualified as an indenture under the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act"). The principal executive office of each BNY Trust is One Wall Street, New York, New York 10286, and its telephone number is (212) 495-1784.

The Mellon Trust

The Mellon Trust is a statutory trust formed under Delaware law pursuant to a trust agreement between Mellon Financial, as depositor of the trust, and the Delaware trustee of the trust, and the filing of a certificate of trust with the Delaware Secretary of State. The trust agreement was assumed by operation of law in the merger by the Company. The trust agreement of the trust will be amended and restated in its entirety, substantially in the form of the Trust Agreement filed as an exhibit to the registration statement of which this prospectus is a part, prior to the issuance of securities by the trust. The Trust Agreement will be qualified as an indenture under the Trust Indenture Act. The principal executive office of the trust is One Mellon Center, 500 Grant Street, Pittsburgh, Pennsylvania 15258, Attention: Secretary, and its telephone number is (412) 234-5000.

The Trusts

Each BNY Trust and the Mellon Trust, each referred to as a "Capital Trust" and collectively, the "Capital Trusts," may offer to the public, from time to time, preferred securities (the "Trust Preferred Securities") representing preferred beneficial interests in the applicable Capital Trust. In addition to Trust Preferred Securities

Table of Contents

offered to the public, each Capital Trust will sell to the Company common securities representing common ownership interests in such Capital Trust (the Trust Common Securities). All of the Trust Common Securities of each Capital Trust will be owned by the Company. The Trust Common Securities and the Trust Preferred Securities together are also referred to as the Trust Securities.

The prospectus supplement relating to any Trust Preferred Securities will describe the terms of such securities and of any securities issued to, or agreements entered into with, the Capital Trust issuing the Trust Preferred Securities.

RISK FACTORS

Bank of New York and Mellon Financial have included discussions of cautionary factors describing risks relating to their respective businesses and an investment in their securities in their Annual Reports on Form 10-K and updates to such discussions in their Quarterly Reports on Form 10-Q filed with the SEC. These reports are incorporated by reference into this prospectus. See *Where You Can Find More Information* for an explanation of how to get a copy of any of these reports. The Company has also included risk factors relating to the merger and post-merger conditions in its Joint Proxy Statement/Prospectus dated April 17, 2007 filed with the SEC. Additional risks related to our securities may also be described in a prospectus supplement. Before purchasing our securities, you should carefully consider the risk factors we describe in those reports, the Joint Proxy Statement/Prospectus and in any prospectus supplement. Although we discuss key risks in those risk factor descriptions, additional risks not currently known to us or that we currently deem immaterial also may impair our business. Our subsequent filings with the SEC may contain amended and updated discussions of significant risks. We cannot predict future risks or estimate the extent to which they may affect our financial performance.

CERTAIN REGULATORY CONSIDERATIONS

General

As a bank holding company and a financial holding company, the Company is subject to the regulation, supervision and examination of the Federal Reserve Board under the Bank Holding Company Act of 1956 (the BHC Act). As a financial holding company, the Company may engage in a broader range of activities and is entitled to use a more streamlined regulatory approval framework than bank holding companies that are not financial holding companies. In order to continue its financial holding company status, the Company must remain well capitalized and well managed and must maintain at least a satisfactory rating under the Community Reinvestment Act, all as determined by the Federal Reserve Board.

For a discussion of the material elements of the regulatory framework applicable to financial holding companies and their subsidiaries and specific information relevant to the Company, please refer to each of Bank of New York's and Mellon Financial's Quarterly Report on Form 10-Q for the period ended March 31, 2007 and Annual Report on Form 10-K for the year ended December 31, 2006 and any subsequent reports filed with the SEC by the Company, which are incorporated by reference in this prospectus. This regulatory framework is intended primarily for the protection of depositors and the federal deposit insurance funds and not for the protection of investors.

The Company's earnings are affected by the legislative and governmental actions of various regulatory authorities, including the Federal Reserve Board. In addition, there are numerous governmental requirements and regulations which affect the Company's business activities. A change in the applicable statutes, regulations or regulatory policy may have a material effect on the Company's business. Depository institutions, such as our subsidiaries, The Bank of New York (the Bank) and Mellon Bank, N.A. (Mellon Bank), are also affected by

Table of Contents

various state and federal laws, including those related to consumer protection, privacy, anti-money laundering and similar matters.

The Bank and Mellon Bank are the major subsidiary depository institutions of the Company. The Bank is a New York chartered banking corporation, a member of the Federal Reserve and subject to regulation, supervision and examination by the Federal Reserve Board, the New York State Banking Department and the Federal Deposit Insurance Corporation, which insures, up to applicable limits, the deposits of the Bank, Mellon Bank and the Company's other insured bank subsidiaries. Mellon Bank is a national bank, a regulated entity permitted to engage only in banking and activities incidental to banking. Mellon Bank is primarily regulated by the Office of the Comptroller of the Currency, or OCC, which also examines its loan portfolios and reviews the sufficiency of its loan loss reserves. The OCC has the authority under the Financial Institutions Supervisory Act to prohibit national banks, such as Mellon Bank, from engaging in any act which, in the OCC's opinion, constitutes an unsafe or unsound practice.

The Company also has other financial service subsidiaries that are subject to regulation, supervision and examination by the Federal Reserve Board, as well as other applicable state and federal regulatory agencies and self regulatory organizations. For example, the Company's brokerage subsidiaries are subject to supervision and regulation by the SEC, the National Association of Securities Dealers, the New York Stock Exchange and state securities regulators.

Restrictions on Payment of Dividends

The Company is a legal entity separate and distinct from its subsidiaries (including the Bank and Mellon Bank). The Company relies primarily on dividends from such subsidiaries to meet its obligations and to declare and pay dividends on its Preferred Stock and Common Stock. There are various legal and regulatory limitations on the extent to which the Bank and Mellon Bank can finance or otherwise supply funds (by dividend or otherwise) to the Company and certain of its other affiliates.

The Bank is subject to dividend limitations under the Federal Reserve Act and the New York Banking Law. Under these statutes, prior regulatory approval is required for dividends in any year that would exceed the net income of the Bank for such year combined with retained net income for the prior two years. Also, the Bank is prohibited from paying a dividend in an amount greater than undivided profits then on hand. Under the first and currently most restrictive of these two standards, at March 31, 2007 the Bank could declare dividends of \$888 million.

In addition to these statutory tests, the Bank's primary federal regulator (the Federal Reserve Board) could prohibit a dividend if it determined that the payment would constitute an unsafe or unsound banking practice. The Federal Reserve Board has indicated that, generally, dividends should be paid by banks only to the extent of earnings from continuing operations.

Mellon Bank is a national bank. A national bank must obtain the prior approval of the OCC to pay a dividend if the total of all dividends declared by the national bank in any calendar year exceeds the bank's net profits for that year, combined with its retained net profits for the preceding two calendar years. Additionally, such bank may not declare dividends in excess of net profits on hand after deducting the amount by which the principal amount of all loans on which interest is past due for a period of six months or more exceeds the reserve for credit losses.

Under the first and currently most restrictive of the foregoing federal dividend limitations, Mellon Financial's national bank subsidiaries could, without prior regulatory approval, declare dividends subsequent to March 31, 2007 of approximately \$180 million of their retained earnings of approximately \$1.8 billion at

Table of Contents

March 31, 2007, less any dividends declared, plus or minus net profits or losses earned between April 1, 2007 and the date of any such dividend declaration.

The payment of dividends is also limited by minimum capital requirements imposed on banks. As of March 31, 2007, all bank subsidiaries now owned by the Company exceeded these requirements.

Consistent with its policy regarding bank holding companies serving as a source of financial strength for their subsidiary banks, the Federal Reserve Board has indicated that, as a matter of prudent banking, a bank holding company generally should not maintain a rate of cash dividends unless its net income available to common shareholders has been sufficient to fully fund the dividends, and the prospective rate of earnings retention appears consistent with the bank holding company's capital needs, asset quality and overall financial condition.

Transactions with Affiliates

The Federal Reserve Act limits and requires collateral for extensions of credit by the Company's insured subsidiary banks to the Company and, with certain exceptions, its non-bank affiliates. Also, there are restrictions on the amounts of investments by such banks in stock and other securities of the Company and such affiliates, and restrictions on the acceptance of their securities as collateral for loans by such banks. Extensions of credit by the banks to each of the Company and such affiliates are limited to 10% of such bank's regulatory capital, and in the aggregate for the Company and all such affiliates to 20%, and collateral must be between 100% and 130% of the amount of the credit, depending on the type of collateral.

Table of Contents**CONSOLIDATED RATIOS OF EARNINGS TO FIXED CHARGES AND EARNINGS TO COMBINED FIXED CHARGES AND PREFERRED STOCK DIVIDEND REQUIREMENTS**

For the three months ended March 31, 2007 and 2006 and for the five years ended December 31, 2006, the consolidated ratios of earnings to fixed charges of Bank of New York and Mellon Financial computed as set forth below, were as follows:

	Three Months		Year Ended December 31,				
	Ended March 31, 2007	2006	2006	2005	2004	2003	2002
Bank of New York Earnings to Fixed Charges(1):							
Excluding interest on deposits	4.06	3.76	3.50	4.60	6.86	6.61	4.12
Including interest on deposits	2.06	2.09	1.94	2.42	3.35	3.11	2.21
Mellon Financial (Parent Corporation)(2)	2.38	3.20	3.24	4.34	3.83	4.83	5.28
Mellon Financial and its subsidiaries:							
Excluding interest on deposits	4.21	4.26	4.25	5.24	6.13	5.66	4.94
Including interest on deposits	2.24	2.37	2.21	2.92	3.85	3.97	3.37

- (1) For purposes of computing the ratios of earnings to fixed charges, earnings represent continuing operations income (loss) before extraordinary items plus applicable income taxes and fixed charges. Fixed charges, excluding interest on deposits, include interest expense (other than on deposits) and the proportion deemed representative of the interest factor of rent expense, net of income from subleases. Fixed charges, including interest on deposits, include all interest expense and the proportion deemed representative of the interest factor of rent expense, net of income from subleases. For the periods presented, Bank of New York had an immaterial amount of preferred stock outstanding. Accordingly, the consolidated ratios of earnings to combined fixed charges and preferred stock dividend requirements are identical to the consolidated ratios of earnings to fixed charges for the periods presented.
- (2) Mellon Financial (Parent Corporation) ratios include the accounts of Mellon Financial, Mellon Funding, a wholly owned subsidiary of Mellon Financial that functions as a financing entity for Mellon and its subsidiaries by issuing commercial paper and other debt guaranteed by Mellon Financial; and MIPA, LLC, a single member limited liability company wholly owned by Mellon Financial, created to hold and administer corporate owned life insurance. Here, earnings represent income before taxes from continuing operations, plus the fixed charges from operations of Mellon Financial, but exclude equity in undistributed net income (loss) of subsidiaries. Consequently, these ratios vary with the payment of dividends by such subsidiaries. In the ratios for Mellon Financial and its subsidiaries, earnings represent continuing operations income before taxes and the cumulative effect of changes in accounting principles plus fixed charges from continuing operations. Fixed charges represent interest expense, one-third (the proportion deemed representative of the interest factor) of net rental expense and amortization of debt issuance costs. These ratios are presented both including and excluding interest on deposits in fixed charges from continuing operations. For the periods presented, Mellon Financial had no preferred stock outstanding. Accordingly, the consolidated ratios of earnings to combined fixed charges and preferred stock dividend requirements are identical to the consolidated ratios of earnings to fixed charges for the periods presented.

WHERE YOU CAN FIND MORE INFORMATION

The Company, the Capital Trusts and Mellon Funding have filed a registration statement with the SEC. This prospectus is part of the registration statement, but the registration statement also contains additional information and exhibits. Bank of New York and Mellon Financial have filed, and the Company has filed or will file, proxy statements, annual, quarterly and special reports, and other information with the SEC. You may read and copy the registration statement and any reports, proxy statements and other information at the public reference room maintained by the SEC at 100 F Street, N.E., Washington, D.C. 20549. You can call the SEC for further information about its public reference room at 1-800-732-0330. Such material is also available at the SEC's website at <http://www.sec.gov>.

The Company's Common Stock (\$0.01 par value) is listed on the New York Stock Exchange under the symbol BK. Reports and other information concerning the Company, Bank of New York and Mellon Financial can be inspected at the offices of the New York Stock Exchange, 20 Broad Street, New York, New York 10005.

The SEC allows the Company to incorporate documents by reference in this prospectus. This means that if we list or refer to a document which we, Bank of New York or Mellon Financial have filed with the SEC in this prospectus, that document is considered to be a part of this prospectus and should be read with the same care. Documents that we file with the SEC in the future will automatically update and supersede information incorporated by reference in this prospectus.

The documents listed below are incorporated by reference into this prospectus:

Joint Proxy Statement/Prospectus of Mellon Financial and Bank of New York dated April 17, 2007 (forming part of the Company's Registration Statement on Form S-4 (No. 333-140863));

Bank of New York's Annual Report on Form 10-K for the year ended December 31, 2006 (SEC File No. 001-06152);

Table of Contents

No separate financial statements of any Capital Trust are included in this prospectus. The Company and the Capital Trusts do not consider that such financial statements would be material to holders of the Trust Preferred Securities because each Capital Trust is a special purpose entity, has no operating history or independent operations and is not engaged in and does not propose to engage in any activity other than holding as trust assets the corresponding Junior Subordinated Debt Securities of the Company and issuing the Trust Securities. Furthermore, taken together, the Company's obligations under each series of corresponding Junior Subordinated Debt Securities, the Junior Indenture pursuant to which the corresponding Junior Subordinated Debt Securities will be issued, the related Trust Agreement, the related Expense Agreement and the related Guarantee provide, in the aggregate, a full, irrevocable and unconditional guarantee of payments of Distributions and other amounts due on the related Trust Preferred Securities of a Capital Trust. In addition, the Company does not expect that the Capital Trusts will be filing reports under the Exchange Act with the SEC. No separate financial statements of Mellon Funding are included in this prospectus because the Company and Mellon Funding do not consider that such financial statements would be material to holders of the Debt Securities because Mellon Funding is a subsidiary that only issues Senior and Senior Subordinated Debt Securities fully and unconditionally guaranteed by the Company.

You should only rely on the information contained in this prospectus or any prospectus supplement or incorporated by reference. Neither the Company nor any Capital Trust or Mellon Funding has authorized anyone to provide you with different information. Neither the Company nor any Capital Trust or Mellon Funding is making an offer of its securities in any state or country where the offer is not permitted. You should not assume that the information in this prospectus or any prospectus supplement is accurate as of a later date than the date of this prospectus or such prospectus supplement. The financial condition, results of operations or business prospects of the Company may have changed since those dates.

USE OF PROCEEDS

Except as may be set forth in a prospectus supplement, the Company will use the net proceeds from the sale of the securities offered hereby for general corporate purposes, including refinancing of existing debt, financing acquisitions or business expansion, investments in, or extensions of credit to, our bank subsidiaries and, to a lesser extent, other existing or future subsidiaries. Pending such use, the net proceeds may be temporarily invested in short-term obligations. The precise amounts and timing of the application of proceeds used for general corporate purposes will depend upon funding requirements of the Company and its subsidiaries and the availability of other funds. The Company expects, on a recurring basis, to engage in additional financing of a character and amount to be determined as the need arises.

Except as may be set forth in a prospectus supplement, each Capital Trust will invest all proceeds received from any sale of its Trust Securities in corresponding Junior Subordinated Debt Securities to be issued by the Company in connection with any issuance of Trust Securities. Except as may be set forth in a prospectus supplement, the Company will use the net proceeds from the sale of the corresponding Junior Subordinated Debt Securities to each Capital Trust or Mellon Trust for the purposes described above.

The Company will not receive any proceeds from the sale of any shares of Common Stock by any selling shareholder.

DESCRIPTION OF SENIOR DEBT SECURITIES AND

SENIOR SUBORDINATED DEBT SECURITIES

Summary

The following description of the terms of the Senior Debt Securities and the Senior Subordinated Debt Securities to be issued by the Company or Mellon Funding, as applicable, (sometimes referred to as the Debt

Table of Contents

Securities in this Description of Senior Debt Securities and Senior Subordinated Debt Securities only) sets forth certain general terms and provisions. The particular terms of any series of Debt Securities will be contained in a prospectus supplement. The prospectus supplement will describe the following terms of the Debt Securities:

the title of the series of Debt Securities;

whether the series of Debt Securities are Senior Debt Securities or Senior Subordinated Debt Securities;

any limit on the aggregate principal amount of the series of Debt Securities;

the price (expressed as a percentage of the aggregate principal amount thereof) at which the series of the Debt Securities will be issued;

the Person to whom any interest on a Debt Security of the series will be payable, if other than the Person in whose name that Debt Security (or one or more Predecessor Securities) is registered at the close of business on the Regular Record Date for such interest;

the date or dates on which the principal of the series of Debt Securities will be payable;

the rate or rates per annum at which the series of Debt Securities will bear interest, if any (or the formula pursuant to which such rate or rates will be determined);

if Debt Securities are sold bearing no interest or below market interest, known as original issue discount securities, the amount payable upon acceleration and special tax, accounting and other considerations;

the date or dates from which any such interest will accrue and the dates on which such payment of any such interest will be payable and the Regular Record Dates for such interest payment dates;

the place or places where the principal of (and premium, if any) and interest on the series of Debt Securities will be payable;

the period or periods within which, the price or prices at which, and the terms and conditions upon which, Debt Securities of the series may be redeemed, in whole or in part, at the option of the Company;

the obligation, if any, of the Company to redeem, repay or purchase Debt Securities of the series pursuant to any sinking fund or analogous provision or at the option of a holder thereof and the period or periods within which, the price or prices at which, and the terms and conditions upon which, such Debt Securities will be redeemed, repaid or purchased, in whole or in part, pursuant to such obligation;

Edgar Filing: Bank of New York Mellon CORP - Form 424B3

the denominations in which the series of Debt Securities will be issuable, if other than denominations of \$1,000 and any integral multiple thereof;

the currency or currencies in which payment of principal and premium, if any, and interest on the series of Debt Securities will be payable, if other than U. S. dollars;

if the principal of (and premium, if any) or interest, if any, on Debt Securities of the series is to be payable, at the election of the Company or a holder thereof, in a currency or currencies other than that in which such series of Debt Securities are stated to be payable, the currency or currencies in which payment of the principal of (and premium, if any) or interest, if any, on such Debt Securities as to which such election is made will be payable, and the period or periods within which, and the terms and conditions upon which, such election may be made;

the index, formula or other method, if any, with reference to which the amount of any payment of principal of (and premium, if any) or interest on the series of Debt Securities will be determined;

whether, and the terms and conditions relating to when, the Company may satisfy all or a part of its obligations with regard to payment upon maturity or any redemption or required repurchase or in connection with any exchange provisions by delivering to the holders of the Debt Securities, other securities, which may or may not be issued by or be obligations of the Company, or a combination of cash, other securities and/or property (Maturity Consideration);

Table of Contents

the portion of the principal amount of the series of Debt Securities that will be payable upon declaration of acceleration of the maturity thereof, if other than the principal amount thereof;

the terms, if any, upon which the Debt Securities of the series are convertible into Common Stock or other securities of the Company and the terms and conditions upon which any conversion may be effected, including the initial conversion price or rate, the conversion period and any other provisions in addition to or instead of those described in this Prospectus;

any additional Events of Default or, in the case of Senior Subordinated Debt Securities, Defaults, solely with respect to the series of Debt Securities;

whether either or both of the provisions of the Applicable Indenture (as defined below) described under Legal Defeasance and Covenant Defeasance will be applicable to the series of Debt Securities;

if Debt Securities are sold for one or more foreign currencies or foreign currency units, or principal, interest or premium are payable in foreign currencies or foreign currency units, the restrictions, elections, tax consequences and other information regarding the issue and currency or currency units;

if the series of Debt Securities are Senior Subordinated Debt Securities, whether the subordination provisions summarized below or other subordination provisions will be applicable to such Senior Subordinated Debt Securities; and

any additional restrictive covenants included for the benefit of the series of Debt Securities; and

any additional material terms of the series of Debt Securities not inconsistent with the provisions of the Applicable Indenture. Unless otherwise stated in a prospectus supplement, each series of Debt Securities will be represented by fully registered global certificates issued as global Debt Securities to be deposited with a depository with respect to that series, instead of paper certificates issued to each individual owner. The depository arrangements that will apply, including the manner in which principal of and premium, if any, and interest on any series of Debt Securities and other payments will be payable are discussed in more detail under the heading Book-Entry Issuance.

The Senior Debt Securities may be issued in one or more series under the Senior Indenture, dated as of July 18, 1991, between The Bank of New York Mellon Corporation (successor to The Bank of New York Company, Inc.) and Deutsche Bank Trust Company Americas (f/k/a Bankers Trust Company), as Trustee, as supplemented by the First Supplemental Indenture dated as of June 29, 2007, as further supplemented from time to time (the BNY Senior Indenture). The Senior Debt Securities issued by Mellon Funding and related Guarantees of the Company may be issued under an Indenture, dated as of May 2, 1988, among The Bank of New York Mellon Corporation (successor to Mellon Financial Corporation), Mellon Funding Corporation, and Manufacturers and Traders Trust Company (successor to The Bank of New York, as successor to JPMorgan Chase Bank, National Association, as successor to The Chase Manhattan Bank, National Association), as Trustee, as supplemented by the First Supplemental Indenture dated as of November 29, 1990, the Second Supplemental Indenture dated as of June 12, 2000 and the Third Supplemental Indenture dated as of June 29, 2007, as further supplemented from time to time (the Mellon Senior Indenture).

The Senior Subordinated Debt Securities may be issued in one or more series under an Indenture, dated as of October 1, 1993, between The Bank of New York Mellon Corporation (successor to The Bank of New York Company, Inc.) and Manufacturers and Traders Trust Company (successor to J.P. Morgan Trust Company, National Association, as successor by merger to Chase Manhattan Trust Company, National Association), as Trustee, as supplemented by the First Supplemental Indenture dated as of June 29, 2007, as further supplemented from time to time (the BNY Senior Subordinated Indenture). The Senior Subordinated Debt Securities issued by Mellon Funding and related Guarantees of the Company may be issued under an Indenture, dated as of June 12, 2000, among The Bank of New York Mellon Corporation (successor to Mellon Financial Corporation),

Table of Contents

Mellon Funding Corporation and Union Bank of California, National Association (successor to J.P.Morgan Trust Company, N.A. formerly known as Bank One Trust Company, N.A.), as Trustee, as supplemented by the First Supplemental Indenture dated as of April 30, 2001, the Second Supplemental Indenture dated as of March 5, 2004 and the Third Supplemental Indenture dated as of June 29, 2007, as further supplemented from time to time (the Mellon Senior Subordinated Indenture).

The BNY Senior Indenture and the BNY Senior Subordinated Indenture are sometimes referred to collectively as the BNY Indentures. The Mellon Senior Indenture and the Mellon Senior Subordinated Indenture are sometimes referred to collectively as the Mellon Indentures. The BNY Indentures and the Mellon Indentures are sometimes referred to collectively as the Indentures. The Indentures are qualified under the Trust Indenture Act. Each series of Debt Securities will be established under the applicable Indenture pursuant to a supplemental indenture, resolution of the Company's Board of Directors or a committee thereof or officers' certificate. The Trustee on the applicable Indenture is referred to as the Trustee.

The Indentures do not limit the aggregate principal amount of the Debt Securities or of any particular series of Debt Securities that may be issued thereunder and provide that Debt Securities may be issued from time to time in series. In addition, a series of Debt Securities may be reopened in order to issue additional Debt Securities of that series in the future without the consent of the holders of Debt Securities of that series.

The following summaries of certain provisions of the Senior Debt Securities, the Senior Subordinated Debt Securities and the Indentures are not complete. For a complete description of these Debt Securities you should read the Indenture applicable to a particular series of Debt Securities (the Applicable Indenture), including the definitions therein of certain terms. Each Indenture is incorporated by reference as an exhibit to the registration statement of which this prospectus is a part by reference to Bank of New York's or Mellon Financial's previous filings with the SEC.

Debt Securities Issued by the Company under the BNY Senior Indenture or the BNY Senior Subordinated Indenture

Wherever we refer to particular sections, articles or defined terms of the Applicable Indenture we are incorporating those sections, articles or defined terms into this prospectus by reference. Capitalized terms not otherwise defined herein shall have the meaning given to them in the Applicable Indenture.

General

The Senior Debt Securities issued by the Company will be unsecured obligations of the Company and will rank equally with all other unsecured and unsubordinated indebtedness of the Company. Indebtedness of the Company that would have ranked equally with the Senior Debt Securities totaled approximately \$6.0 billion as of May 31, 2007, based on the Bank of New York and Mellon amounts outstanding as of that date. The Senior Subordinated Debt Securities issued by the Company will be unsecured subordinated obligations of the Company.

Because the Company is a holding company, its rights and the rights of its creditors, including the holders of the Debt Securities, to a share of the assets of any subsidiary upon the liquidation or recapitalization of the subsidiary will be subject to the prior claims of the subsidiary's creditors (including, in the case of bank subsidiaries, their depositors), except to the extent that the Company may itself be a creditor with recognized claims against the subsidiary. Accordingly, the Debt Securities will be effectively subordinated to all existing and future liabilities of the Company's subsidiaries, and holders of Debt Securities should look only to the assets of the Company for payments on the Debt Securities.

Table of Contents

Unless otherwise provided in the prospectus supplement:

principal of (and premium, if any) or Maturity Consideration and interest on the Debt Securities issued by the Company will be payable, and the Debt Securities will be exchangeable and transfers thereof will be registerable, at the office or agency of The Bank of New York in the Borough of Manhattan, The City of New York, except that, at the option of the Company, interest may be paid by mailing a check to the address of the Person entitled thereto as it appears in the Security Register (Sections 202, 305 and 1002); and

the Debt Securities will be issued only in registered form without coupons and in denominations of \$1,000 and integral multiples thereof (Section 302).

No service charge will be made for any registration of transfer or exchange of the Debt Securities, but the Company may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection therewith. (Section 305).

Debt Securities may be issued as Original Issue Discount Debt Securities to be sold at a substantial discount below their principal amount. Special Federal income tax, accounting and other considerations applicable thereto will be described in the prospectus supplement relating thereto. Original Issue Discount Debt Security means any security that provides for an amount less than the principal amount thereof to be due and payable upon the declaration of acceleration of the maturity thereof upon the occurrence and continuance of an Event of Default. (Section 101).

If any index or formula is used to determine the amount of payments of principal of, premium, if any, or interest on any series of Debt Securities, special United States Federal income tax, accounting and other considerations applicable thereto will be described in the prospectus supplement relating thereto.

If the Debt Securities are denominated in whole or in part in any currency other than United States dollars, if the principal of (and premium, if any) or interest, if any, on the Debt Securities are to be payable at the election of the Company or a holder thereof, in a currency or currencies other than that in which such Debt Securities are to be payable, or if any index is used to determine the amount of payments of principal of, premium, if any, or interest on any series of the Debt Securities, special Federal income tax, accounting and other considerations applicable thereto will be described in the prospectus supplement relating thereto.

The BNY Indentures do not contain any provisions that would provide protection to holders of the Debt Securities against a sudden and dramatic decline in credit quality of the Company resulting from any highly leveraged transaction, takeover, merger, recapitalization or similar restructuring or change in control.

The BNY Indentures allow us to merge or consolidate with another company, or to sell all or substantially all of our assets to another company, provided that certain conditions are satisfied. If these events occur, the other company will be required to assume our responsibilities relating to the Debt Securities, and we will be released from all liabilities and obligations. See Consolidation, Merger and Sale of Assets for a more detailed discussion.

The BNY Indentures provide that holders of a majority of the total principal amount of outstanding Debt Securities of any series may vote to change certain of our obligations or certain of your rights concerning the Debt Securities of that series. However, to change the amount or timing of principal, interest or other payments under the Debt Securities, every holder in the series must consent. See Modification of the BNY Indentures for a more detailed discussion.

Subordination of Senior Subordinated Debt Securities

The payment of the principal of (and premium, if any) and interest on the Senior Subordinated Debt Securities will, to the extent set forth in the BNY Senior Subordinated Indenture, be subordinated in right of

Table of Contents

payment to the prior payment in full of all Senior Indebtedness (as defined in the BNY Senior Subordinated Indenture). In certain events of insolvency, the payment of the principal of (and premium, if any) and interest on the Senior Subordinated Debt Securities will, to the extent set forth in the BNY Senior Subordinated Indenture, also be effectively subordinated in right of payment to the prior payment in full of all Other Financial Obligations (as defined below). Upon any payment or distribution of assets to creditors upon any liquidation, dissolution, winding up, reorganization, assignment for the benefit of creditors, marshaling of assets or any bankruptcy, insolvency or similar proceedings of the Company, the holders of all Senior Indebtedness will first be entitled to receive payment in full of all amounts due or to become due thereon before the holders of the Senior Subordinated Debt Securities will be entitled to receive any payment in respect of the principal of (or premium, if any) or interest on the Senior Subordinated Debt Securities. If, upon any such payment or distribution of assets to creditors, after giving effect to such subordination provisions in favor of the holders of Senior Indebtedness, there remain any amounts of cash, property or securities available for payment or distribution in respect of Senior Subordinated Debt Securities (as defined in the BNY Senior Subordinated Indenture,

Excess Proceeds) and if, at such time, any Entitled Persons in respect of Other Financial Obligations have not received payment in full of all amounts due or to become due on or in respect of such Other Financial Obligations, then such Excess Proceeds shall first be applied to pay or provide for the payment in full of such Other Financial Obligations before any payment or distribution may be made in respect of the Senior Subordinated Debt Securities. In the event of the acceleration of the maturity of any Senior Subordinated Debt Securities, the holders of all Senior Indebtedness will first be entitled to receive payment in full of all amounts due thereon before the holders of the Senior Subordinated Debt Securities will be entitled to receive any payment upon the principal of (or premium, if any) or interest on the Senior Subordinated Debt Securities. No payments on account of principal of (or premium, if any) or interest on the Senior Subordinated Debt Securities or on account of the purchase or acquisition of Senior Subordinated Debt Securities may be made if there shall have occurred and be continuing a default in any payment with respect to Senior Indebtedness, or if any judicial proceeding shall be pending with respect to any such default. (Article Thirteen of the BNY Senior Subordinated Indenture).

By reason of such subordination in favor of the holders of Senior Indebtedness, in the event of insolvency, creditors of the Company who are not holders of Senior Indebtedness or of the Senior Subordinated Debt Securities may recover less, ratably, than holders of Senior Indebtedness and may recover more, ratably, than the holders of the Senior Subordinated Debt Securities. By reason of the obligation of the holders of Senior Subordinated Debt Securities to pay over any Excess Proceeds to Entitled Persons in respect of Other Financial Obligations, in the event of insolvency, holders of Senior Subordinated Debt Securities may recover less, ratably, than Entitled Persons in respect of Other Financial Obligations.

Unless otherwise specified in the prospectus supplement relating to the particular series of Senior Subordinated Debt Securities offered thereby, Senior Indebtedness is defined in the BNY Senior Subordinated Indenture as the principal of (and premium, if any) and interest on (a) all of the Company's indebtedness for money borrowed, whether outstanding on the date of execution of the BNY Senior Subordinated Indenture or thereafter created, assumed or incurred, except (i) such indebtedness as is by its terms expressly stated to be junior in right of payment to the Senior Subordinated Debt Securities and (ii) such indebtedness as is by its terms expressly stated to rank equally with the Senior Subordinated Debt Securities and (b) any deferrals, renewals or extensions of any such Senior Indebtedness. (Section 101 of the BNY Senior Subordinated Indenture). The term indebtedness for money borrowed when used with respect to the Company is defined to mean any obligation of, or any obligation guaranteed by, the Company for the repayment of borrowed money, whether or not evidenced by bonds, debentures, notes or other written instruments, and any deferred obligation of, or any such obligation guaranteed by, the Company for the payment of the purchase price of property or assets. (Section 101 of the BNY Senior Subordinated Indenture).

Unless otherwise specified in the prospectus supplement, the term Other Financial Obligations means all obligations of the Company to make payment pursuant to the terms of financial instruments, such as:

securities contracts and foreign currency exchange contracts,

Table of Contents

derivative instruments, such as swap agreements (including interest rate and foreign exchange rate swap agreements), cap agreements, floor agreements, collar agreements, interest rate agreements, foreign exchange rate agreements, options, commodity futures contracts, commodity option contracts and

in the case of both items above, similar financial instruments, other than (A) obligations on account of Senior Indebtedness and (B) obligations on account of indebtedness for money borrowed ranking on a parity with or subordinate to the Senior Subordinated Debt Securities. Unless otherwise specified in the prospectus supplement relating to the particular series of Senior Subordinated Debt Securities offered thereby, Entitled Persons means any person who is entitled to payment pursuant to the terms of Other Financial Obligations. (Section 101 of the BNY Senior Subordinated Indenture).

The Company's obligations under the Senior Subordinated Debt Securities shall rank equally in right of payment with each other, subject to the obligations of the holders of Senior Subordinated Debt Securities to pay over any Excess Proceeds to Entitled Persons in respect of Other Financial Obligations as provided in the BNY Senior Subordinated Indenture.

Indebtedness of the Company that would have been senior to the Senior Subordinated Debt Securities totaled approximately \$6.0 billion as of May 31, 2007, based on the Bank of New York and Mellon amounts outstanding as of that date.

The BNY Senior Subordinated Indenture does not limit or prohibit the incurrence of additional Senior Indebtedness, which may include indebtedness that is senior to the Senior Subordinated Debt Securities but subordinate to other obligations of the Company, including obligations of the Company in respect of Other Financial Obligations. When issued, the Senior Debt Securities will constitute Senior Indebtedness. Junior Subordinated Debt Securities issued by the Company pursuant to the junior subordinated indenture will be subordinate in right of payment to the Senior Subordinated Debt Securities.

The prospectus supplement may further describe the provisions, if any, applicable to the subordination of the Senior Subordinated Debt Securities of a particular series.

Conversion or Exchange

If and to the extent indicated in the applicable prospectus supplement, the Debt Securities of any series may be convertible or exchangeable into Common Stock or into other securities of the Company. The specific terms on which Debt Securities of any series may be so converted or exchanged will be set forth in the applicable prospectus supplement. Such terms may include provisions for conversion or exchange, either mandatory, at the option of the holder, or at the option of the Company, in which case the number or principal amount of such other securities to be received by the holders of Debt Securities would be calculated as of a time and in the manner stated in the applicable prospectus supplement.

Special Terms Relating to Convertible Debt Securities

The following provisions will apply to Debt Securities that will be convertible into Common Stock unless otherwise provided in the prospectus supplement relating to the specific issue of Debt Securities.

The holder of any convertible Debt Securities not previously redeemed will have the right, exercisable at any time during the time period specified in the applicable prospectus supplement to convert convertible Debt Securities into shares of Common Stock as specified in the applicable prospectus supplement, at the conversion rate per principal amount of convertible Debt Securities set forth in the applicable prospectus supplement. In the case of convertible Debt Securities called for redemption, conversion rights will expire at the close of business on the date fixed for the redemption specified in the applicable prospectus supplement, except that, in the case of redemption at the option of the holder, if applicable, the conversion right will terminate upon receipt of written notice of the exercise of the option.

Table of Contents

For each series of convertible Debt Securities, the conversion price or rate will be subject to adjustment as contemplated in the Applicable Indenture. Unless otherwise provided in the applicable prospectus supplement, these adjustments may occur as a result of:

the issuance of shares of Common Stock as a dividend;

subdivisions and combinations of Common Stock;

the issuance to all holders of Common Stock of rights or warrants entitling holders to subscribe for or purchase shares of Common Stock at a price per share less than the current market price per share; and

the distribution to all holders of Common Stock of:

shares of Company capital stock other than Common Stock;

evidences of indebtedness of the Company or assets other than cash dividends paid from retained earnings and dividends payable in Common Stock referred to above; or

subscription rights or warrants other than those referred to above.

In any case, no adjustment of the conversion price or rate will be required unless an adjustment would require a cumulative increase or decrease of at least 1% in such price or rate. The Company will not issue any fractional shares of Common Stock upon conversion, but, instead, the Company will pay a cash adjustment. If indicated in the applicable prospectus supplement, convertible Debt Securities convertible into Common Stock which are surrendered for conversion between the record date for an interest payment, if any, and the interest payment date, other than convertible Debt Securities called for redemption on a redemption date during that period, must be accompanied by payment of an amount equal to interest which the registered holder is entitled to receive.

The Company will determine the adjustment provisions for convertible Debt Securities at the time of issuance of each series of convertible Debt Securities. These adjustment provisions will be described in the applicable prospectus supplement.

Except as set forth in the applicable prospectus supplement, any convertible Debt Securities called for redemption, unless surrendered for conversion on or before the close of business on the redemption date, are subject to being purchased from the holder of the convertible Debt Securities by one or more investment banking firms or other purchasers who may agree with the Company to purchase convertible Debt Securities and convert them into Common Stock.

Legal Defeasance and Covenant Defeasance

If the Debt Securities of a series may be subject to legal defeasance or covenant defeasance or either type of defeasance under the Applicable Indenture, the prospectus supplement relating to that series will so indicate.

If applicable to the Debt Securities of a series, *legal defeasance* means that the Company elects to defease and be discharged from any and all obligations with respect to such Debt Securities (including, in the case of Senior Subordinated Debt Securities, the provisions described under

Subordination of Senior Subordinated Debt Securities), except for the obligations to register the transfer or exchange of such Debt Securities, to replace temporary or mutilated, destroyed, lost or stolen Debt Securities, to maintain an office or agency in respect of the Debt Securities and to hold moneys for payment in trust.

If applicable to the Debt Securities of a series, *covenant defeasance* means that the Company elects to be released from its obligations with respect to such Debt Securities under Section 1005 and Section 1006 of the BNY Senior Indenture and Section 1005 of the BNY Senior

Edgar Filing: Bank of New York Mellon CORP - Form 424B3

Subordinated Indenture (and any other sections applicable to such Debt Securities that are specified pursuant to the Applicable Indenture to be subject to covenant defeasance) and the consequences of the occurrence of an event of default specified in, in the case of

Senior Debt Securities, Section 501(4) of the BNY Senior Indenture, and in the case of Senior Subordinated Debt Securities, Section 503(C) of the BNY Senior Subordinated Indenture (with respect to Section 1005 and Section 1006 of the BNY Senior Indenture and Section 1005 of the BNY Senior Subordinated Indenture and any other sections applicable to such Debt Securities that are specified pursuant to the Applicable Indenture to be subject to covenant defeasance), or, in the case of Senior Debt Securities, Section 501(5) of the BNY Senior Indenture, and in the case of Senior Subordinated Debt Securities, Section 503(D) of the BNY Senior Subordinated Indenture (with respect to Section 1005 of the BNY Indentures containing the covenant to pay taxes and other claims, Section 1006 of the BNY Senior Indenture containing the restrictions described under Limitation on Disposition of Stock of the Bank) and Sections 501(4) and 501(5) of the BNY Senior Indenture and Sections 503(C) and 503(D) of the BNY Senior Subordinated Indenture containing the provisions described under Defaults relating to covenant defaults and cross-defaults, respectively, and, in the case of Subordinated Debt Securities, the provisions described under Subordination of Senior Subordinated Debt Securities.

Legal defeasance or covenant defeasance, as applicable, will only occur upon the deposit with the applicable Trustee (or other qualifying trustee), in trust for such purpose, of money and/or U.S. Government Obligations that, in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the applicable trustee, through the payment of principal and interest in accordance with their terms will provide money, in an amount sufficient, without reinvestment, to pay (a) the principal of (and premium, if any) and interest on such Debt Securities to maturity or redemption, as the case may be, and (b) any mandatory sinking fund or analogous payments thereon. As a condition to legal defeasance or covenant defeasance, the Company must deliver to the applicable Trustee an Opinion of Counsel (as specified in the Applicable Indenture) to the effect that the holders of such Debt Securities will not recognize income, gain or loss for Federal income tax purposes as a result of such legal defeasance or covenant defeasance and will be subject to Federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such legal defeasance or covenant defeasance had not occurred. In the case of legal defeasance, such opinion must refer to and be based upon a ruling of the Internal Revenue Service issued to the Company or published as a revenue ruling or upon a change in applicable Federal income tax law, in any such case after the date of the Applicable Indenture.

Under current Federal income tax law, legal defeasance would likely be treated as a taxable exchange of such Debt Securities for interests in the defeasance trust. As a consequence a holder would recognize gain or loss equal to the difference between the holder's cost or other tax basis for such Debt Securities and the value of the holder's proportionate interest in the defeasance trust, and thereafter would be required to include in income a proportionate share of the income, gain and loss of the defeasance trust. Under current Federal income tax law, covenant defeasance would ordinarily not be treated as a taxable exchange of such Debt Securities. Purchasers of such Debt Securities should consult their own advisors with respect to the tax consequences to them of such legal defeasance and covenant defeasance, including the applicability and effect of tax laws other than the Federal income tax law.

The Company may exercise its legal defeasance option with respect to such Debt Securities notwithstanding its prior exercise of its covenant defeasance option. If the Company exercises its legal defeasance option, payment of such Debt Securities may not be accelerated because of an Event of Default. If the Company exercises its covenant defeasance option, payment of such Debt Securities may not be accelerated by reference to the covenants noted in the description of covenant defeasance. However, if such an acceleration were to occur, the realizable value at the acceleration date of the money and U.S. Government Obligations in the defeasance trust could be less than the principal and interest then due on such Debt Securities, in that the required deposit in the defeasance trust is based upon scheduled cash flows rather than market value, which will vary depending upon interest rates and other factors. (Article 13 of the BNY Senior Indenture and Article 14 of the BNY Senior Subordinated Indenture).

The prospectus supplement may further describe the provisions, if any, applicable to legal defeasance or covenant defeasance with respect to the Debt Securities of a particular series.

Table of Contents

Limitation on Disposition of Stock of the Bank

The BNY Senior Indenture contains a covenant by the Company that, so long as any of the Senior Debt Securities are outstanding, but subject to the rights of the Company in connection with its consolidation with or merger into another Person or a sale of the Company's assets, neither the Company nor any Intermediate Subsidiary will sell, assign, transfer, grant a security interest in or otherwise dispose of any shares of, or securities convertible into, or options, warrants or rights to subscribe for or purchase shares of, Voting Stock of the Bank (except to the Company or an Intermediate Subsidiary) nor will the Company or any Intermediate Subsidiary permit the Bank to issue any shares of, or securities convertible into, or options, warrants or rights to subscribe for or purchase shares of, Voting Stock of the Bank, unless (a) any such sale, assignment, transfer, grant of a security interest or other disposition is made for fair market value, as determined by the Board of Directors of the Company or any Intermediate Subsidiary, as the case may be, and evidenced by a duly adopted resolution thereof and (b) the Company and any one or more Intermediate Subsidiaries will collectively own at least 80% of the issued and outstanding Voting Stock of the Bank (or any successor to the Bank) free and clear of any security interest after giving effect to such transaction. The foregoing, however, will not preclude the Bank from being consolidated with or merged into another banking corporation organized under the laws of the United States, any State thereof or the District of Columbia, if after such merger or consolidation the Company (or any successor thereto in a permissible merger) and any one or more Intermediate Subsidiaries own at least 80% of the Voting Stock of the resulting bank and immediately after giving effect thereto no Event of Default and no event which would become an Event of Default shall have occurred and be continuing. The Company further covenants that it will not permit any Intermediate Subsidiary that owns any shares of, or securities convertible into, or options, warrants or rights to subscribe for or purchase shares of, Voting Stock of the Bank to cease to be an Intermediate Subsidiary. Intermediate Subsidiary means a subsidiary (i) that is organized under the laws of the United States, any State thereof or the District of Columbia and (ii) of which all the shares of each class of capital stock issued and outstanding, and all securities convertible into, and options, warrants and rights to subscribe for or purchase shares of, such capital stock, are owned directly by the Company, free and clear of any security interest. (Section 1006 of the BNY Senior Indenture). Voting Stock means stock of the class or classes having a general voting power under ordinary circumstances to elect at least a majority of the board of directors, managers or trustees of a corporation (irrespective of whether or not at the time stock of any other class or classes shall have or might have voting power by reason of the happening of any contingency). (Section 101 of the BNY Senior Indenture).

Defaults

The BNY Senior Indenture

The BNY Senior Indenture defines an Event of Default with respect to any series of Senior Debt Securities as any one of the following events:

default for 30 days in payment of interest on any Senior Debt Security of that series;

default in payment of principal of (or premium, if any, on) any Senior Debt Security of that series at Maturity;

default in the deposit of any sinking fund payment, when and as due by the terms of a Senior Debt Security of that series;

default in the performance, or breach, of any covenant or warranty of the Company in the BNY Senior Indenture or any Senior Debt Security of that series (other than a covenant or warranty included in the BNY Senior Indenture solely for the benefit of another series of Senior Debt Securities) and continuance of such default or breach for 60 days after due notice;

(i) failure by the Company or the Bank to pay indebtedness for money borrowed (including Debt Securities of other series) in an aggregate principal amount exceeding \$25,000,000 at the later of final maturity or upon the expiration of any applicable period of grace with respect to such principal amount or (ii) acceleration of the maturity of any indebtedness of the Company or the Bank for borrowed

Table of Contents

money, in excess of \$25,000,000, if such failure to pay or acceleration results from a default under the instrument giving rise to, or securing, such indebtedness and is not annulled within 30 days after due notice, unless such default is contested in good faith by appr
