Item 2.02. Results of Operations and Financial Condition

On February 13, 2008, Vonage Holdings Corp. (the Company) announced its financial results for the quarter and year ended December 31, 2007. The full text of the press release issued in connection with the announcement is furnished as Exhibit 99.1 to this Current Report on Form 8-K. In addition, on February 12, 2008, the Company determined that it was necessary to restate its consolidated financial statements for the quarters ended June 30, 2007 and September 30, 2007 in order to correct the amount of stock-based compensation expense recorded by the Company for those periods. Accordingly, the information contained in Item 4.02 of this Current Report on Form 8-K is incorporated herein by reference.

The information in this Item 2.02 (including Exhibit 99.1) shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as expressly set forth by specific reference in such a filing.

The Company is making references to non-GAAP financial information in both the press release and the conference call. A reconciliation of these non-GAAP financial measures to the comparable GAAP financial measures is contained in the attached press release.

Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review

On February 12, 2008, management of the Company, after discussions with the Audit Committee of the Board of Directors of the Company and the Company's independent registered public accounting firm, BDO Seidman LLP, determined that it was necessary to restate the Company's consolidated financial statements for the quarters ended June 30, 2007 and September 30, 2007 in order to correct the amount of stock-based compensation expense recorded by the Company for those periods. Accordingly, the Company's consolidated financial statements previously filed for those periods should no longer be relied upon. This restatement will not result in a change in the Company's previously reported revenues, cash flows from operations or total cash and cash equivalents shown in its consolidated financial statements for the quarters ended June 30, 2007 and September 30, 2007. An explanation of the nature of and reasons for the restatement is provided below.

Due to the departure of the Company's former Chief Executive Officer, certain senior executives and personnel impacted by the Company's reduction in force during the second and third quarters of 2007, there was a corresponding forfeiture of a large number of stock-based awards. The Company determined that actual forfeitures as a result of these actions exceeded previous estimates. As a result, non-cash stock compensation expense should have been adjusted concurrent with the resignation of these employees and an adjustment of stock-based compensation as required by Statement of Financial Accounting Standards No. 123R, *Share-Based Payment* should have been recorded at that time.

The decrease in non-cash stock-based compensation expense attributable to the restatement will result in a decrease of approximately \$10.4 million in the Company's net loss for the quarter and six months ended June 30, 2007 and a decrease of approximately \$3.8 million and \$14.2 million in the Company's net loss for the quarter and nine months ended September 30, 2007, respectively. The restatement will have no impact on the Company's consolidated operating results for any periods prior to the quarter ended June 30, 2007.

Edgar Filing: VONAGE HOLDINGS CORP - Form 8-K

The impact to the Company's statement of operations is as follows:

In light of the restatement, the Company believes that a material weakness existed in the design of its internal control procedures relating to recording its stock-based compensation expense. Although the Company's procedures did detect in the fourth quarter that stock-based compensation was overstated in the second and third quarters of 2007, the control was not designed in a manner to provide this conclusion in a timely manner. The Company has remediated this material weakness and prospectively will adjust its estimated forfeitures to actual forfeitures on a quarterly basis.
