Delaware (State or other jurisdiction of

87-0528557 (IRS Employer

incorporation or organization)

Identification No.)

14870 Pony Express Road, Bluffdale, Utah 84065

(Address of principal executive offices and Zip Code)

(801) 320-3200

(Registrant s telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes x No "

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act.

Large accelerated filer " Accelerated filer " Non-accelerated filer x

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes "No x

Indicate the number of shares outstanding of each of the issuer s classes of common stock, as of the latest practicable date: 28,365,589 shares of common stock as of May 9, 2007.

Explanatory Note

The Audit Committee of the Board of Directors recently received the results of an independent investigation into certain accounting and financial reporting matters. The results of the investigation as well as results of additional reviews and procedures conducted by management were reported to the Board of Directors. As a result, the Board of Directors determined that our previously issued condensed consolidated financial statements filed with our quarterly reports on Form 10-Q for the quarters ended September 30, June 30, and March 31, 2007, and our consolidated financial statements for the year ended December 31, 2006, should no longer be relied upon because of certain accounting errors in the disclosures to the financial statements. Accordingly, we are restating our previously issued financial statements for those periods. The effects of the restatements of the condensed consolidated financial statements are limited to the footnote disclosure of operating segment results and do not affect our Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Operations, Condensed Consolidated Statements of Stockholders Equity, and Condensed Consolidated Statements of Cash Flows. Restated financial information is presented in this report, as well as in our amended reports on Form 10-Q for the periods ended June 30, 2007 and September 30, 2007. We do not intend to file an amendment to our Form 10-K for the year ended December 31, 2006; rather the restatement of 2006 segment disclosures will be presented in our Form 10-K for the year ended December 31, 2007. For a discussion of the accounting errors and the adjustments made as a result of the restatement, see Note 11 of Notes to Condensed Consolidated Financial Statements included in Part I Item 1 Financial Statements and Part I Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations Segment Reporting. This Form 10-Q/A does not reflect events that occurred after the May 14, 2007 filing date of the Quarterly Report on Form 10-Q that was originally filed, or modify or update the disclosures presented in the original Form 10-Q, except to reflect the matters described above. Other events occurring after the filing of the original Form 10-Q or other disclosures necessary to reflect subsequent events have been addressed in our reports filed with the Securities and Exchange Commission subsequent to the filing of the original Form 10-Q.

7

UCN, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

For the three months ended March 31, 2007 and 2006

(unaudited)

NOTE 1 BASIS OF PRESENTATION

These unaudited interim financial statements of UCN, Inc. and its subsidiaries (collectively UCN) have been prepared in accordance with the rules and regulations of the United States Securities and Exchange Commission (SEC). Such rules and regulations allow the omission of certain information and footnote disclosures normally included in the financial statements prepared in accordance with accounting principles generally accepted in the United States, so long as the statements are not misleading. In the opinion of management, these financial statements and accompanying notes contain all adjustments (consisting of normal recurring adjustments) necessary to present fairly the financial position and results of operations for the periods shown. These interim financial statements should be read in conjunction with the audited financial statements and notes thereto contained in the Annual Report on Form 10-K for the year ended December 31, 2006, as filed with the SEC on March 28, 2007. The results of operations for the three month period ended March 31, 2007 are not necessarily indicative of the results to be expected for the full year.

UCN experienced net losses of \$1.7 million and \$2.1 million for the three months ended March 31, 2007 and 2006, respectively. Included within the net loss during the first quarter of 2007 were: 1) \$1.8 million of depreciation and amortization and 2) \$196,000 of non-cash stock-based compensation expense (Note 9).

UCN s working capital surplus of \$1.6 million at December 31, 2006 decreased to \$887,000 at March 31, 2007. The primarily reason for the decrease was a \$1.2 million reduction in accounts payable that was offset by a \$500,000 increase in the current portion of long-term debt. However, the available borrowings under the revolving credit facility increased \$1.0 million to \$3.2 million at March 31, 2007 compared to only \$2.2 million available at December 31, 2006.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should UCN be unable to continue as a going concern. UCN s continuation as a going concern is dependent upon the ability to generate sufficient cash flow to meet obligations on a timely basis and ultimately to achieve successful operations.

UCN has taken the following steps to continue to meet its obligations:

In February 2007, UCN closed two acquisitions (Note 3), which improve the overall product offering suite that the Company can offer to existing and potential customers. With these new products, UCN provides customers the ability to monitor agent effectiveness through its customer survey tools and the ability to efficiently monitor their agent needs. These new service offerings provide UCN additional contact and service opportunities to potential customers as well as provide up-sale opportunities to existing customers. During the first quarter, these acquisitions added an additional \$535,000 of higher-margin inContact revenue.

The inContact segment increased to \$4.9 million during the quarter, a 67% increase from the same period in 2006. This increase was a result of the selling and promotion effort we have undertaken to bring these products to market. Excluding the \$535,000 in revenue from the acquisitions, the segment increased 49% compared to the first quarter of 2006. UCN expects to continue to see significant revenue growth in the inContact segment in 2007, which we believe will be enhanced through the BenchmarkPortal and ScheduleQ acquisitions.

For the three months ended March 31, 2007, the inContact segment revenue of \$4.9 million includes \$2.8 million of related long distance voice and data services and \$2.1 million of inContact technology services. For the three months ended March 31, 2006, the inContact segment revenue of \$2.9 million includes \$2.2 million of long distance voice and data services and \$.7 million of inContact technology services.

In addition, in April 2007, ComVest converted the entire \$3.4 million convertible note balance into UCN common shares. This conversion will save UCN an estimated \$468,000 in cash payments during 2007 and will significantly improve the current ratio in future periods by eliminating the associated current portion of long-term debt.

Management believes these actions will allow UCN to have sufficient cash flows available to meet short-term requirements and to enable UCN to continue as a going concern.

8

NOTE 2 ACCOUNTING POLICIES

Adoption of New Accounting Pronouncements

Adoption of FIN 48: In June 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement 109 (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing a recognition threshold for tax positions taken or expected to be taken in a tax return. FIN 48 requires that entities recognize in their financial statements the impact of a tax position if that position is more likely than not of being sustained on audit, based on the technical merits of the position. FIN 48 is effective for fiscal years beginning after December 15, 2006. Interest and penalties, if incurred, would be recognized as components of income tax expense. The Company s adoption of FIN 48 on January 1, 2007 had no impact on the Company s condensed consolidated financial statements as the Company does not have any uncertain income tax positions that would require adjustment.

Recent Accounting Pronouncements

<u>Fair Value Measurements</u>: In September 2006, the FASB issued Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements*, which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The adoption of SFAS No. 157 is not expected to have a material impact on our consolidated financial statements.

Fair Value Options: In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 allows entities to voluntarily choose, at specified election dates, to measure many financial assets and financial liabilities, as well as, certain nonfinancial instruments that are similar to financial instruments, at fair value (the fair value option). The election is made on an instrument-by-instrument basis and is irrevocable. If the fair value option is selected for an instrument, the Statement specifies that all subsequent changes in fair value for that instrument shall be reported in earnings. The Statement is effective as of the beginning of an entity s first fiscal year that begins after November 15, 2007. The Company is currently assessing the impact of SFAS 159, but does not expect it to have a material impact on its financial position, results of operations, cash flows or disclosures.

NOTE 3 ACQUISITIONS

BenchmarkPortal, Inc. Acquisition

On February 9, 2007, UCN closed the acquisition of BenchmarkPortal, Inc. to enhance and expand the services offered under the inContact suite of services. Through the acquisition of 100% of BenchmarkPortal s outstanding stock, UCN acquired a call center survey and analysis business, operated under the name of Echo TM . The Echo business includes: 1) a customer base; 2) automated survey and analysis software and related service offerings; and 3) the related sales, marketing and technical staff. As consideration for the agreement, UCN paid the following consideration:

\$500,000 in cash to or for the benefit of the BenchmarkPortal stockholders at closing; and

\$4,500,000 by issuing 1,535,836 shares of its restricted common stock to BenchmarkPortal stockholders. In addition to the amounts paid at closing, UCN agreed to pay contingent purchase price payments to BenchmarkPortal stock holders in the following amounts:

\$2.0 million of additional contingent purchase price cash payments to BenchmarkPortal stockholders in 36 equal monthly installments of \$55,556, subject to adjustment if monthly recurring revenue during the payout period from customers accounts acquired in the transaction do not remain at certain levels, which are adjusted for estimated attrition; and

An additional \$7.0 million maximum contingent quarterly earn out to BenchmarkPortal stockholders paid on a variable percentage of recurring revenue from the sale of Echo services during the four-year period after closing in excess of \$900,000 per quarter.

During the first quarter of 2007, UCN paid \$55,556 in contingent purchase price payments as described above to BenchmarkPortal stockholders. No earn out payments were made during the first quarter of 2007.

9

The following table summarizes the preliminary allocation of estimated fair values of the assets acquired and liabilities assumed at the date of acquisition (in thousands):

Current assets	\$ 623
Property, plant and equipment	255
Intangibles	3,743
Goodwill	1,300
Total assets acquired	5,921
Current liabilities	(203)
Accrued direct acquisition costs	(308)
Deferred revenue	(363)
Other long-term liabilities	(47)
Total liabilities assumed	(921)
Purchase price	\$ 5,000
Cash paid	\$ 500
UCN common stock issued	4,500
Purchase price	\$ 5,000

ScheduleQ, LLC Acquisition

On October 19, 2006, UCN entered into a Reseller License Agreement with ScheduleQ, LLC. Under the terms of the license agreement, UCN acquired a limited exclusive right and continuing non-exclusive right to market and distribute ScheduleQ software and services to end-users. ScheduleQ software and services consist primarily of a platform-based workforce management system for call centers, which can operate through the inContact service. At the same time UCN entered into a Purchase Option Agreement with ScheduleQ and the members of that limited liability company. On February 9, 2007, UCN exercised it option to purchase 100% of the outstanding ownership of ScheduleQ, LLC. The acquisition closed on February 15, 2007. To complete the transaction, UCN paid former members of ScheduleQ the following consideration:

\$360,676 in non-interest bearing promissory notes to be paid in 48 equal monthly installments that are secured by the software code and any improvements thereto;

\$330,000 by issuing 108,912 restricted common shares of UCN; and

\$256,324 in notes assumed and paid subsequently to closing.

In addition to the amounts paid at closing, UCN agreed to pay contingent purchase price to ScheduleQ stock holders in the following amounts:

An earn out to be paid over a term of 48 months based on the number of licenses sold by UCN with a minimum aggregate earn out payment of \$100,000 and a maximum of \$982,000.

The following table summarizes the preliminary allocation of estimated fair values of the assets acquired and liabilities assumed at the date of acquisition (in thousands):

Property, plant and equipment	\$	5
Intangibles		817
Goodwill		102
Total assets acquired		924
Accrued direct acquisition costs		(34)
Assumed notes payable	(256
Note payable issued	(304
Total liabilities assumed	((594)
Purchase price	\$	330
UCN common stock issued	\$	330

10

The Company has accounted for both the BenchmarkPortal and ScheduleQ transactions using the purchase method of accounting, and has included the operating results of each business in UCN s condensed consolidated statements of operations since the respective date of each acquisition. Management has allocated the purchase price to the acquired tangible and intangible assets and liabilities based on their respective fair values. The following unaudited pro forma financial information presents operating results as if both acquisitions had occurred at the beginning of the respective periods (in thousands except per share data):

	Three	e months end	Aarch 31,	
	2	2007		2006
Net revenue	\$	20,251	\$	23,270
Net loss		(1,702)		(2,227)
Basic and diluted net loss per share	\$	(0.06)	\$	(0.10)

These pro forma results have been prepared for comparative purposes only and include certain adjustments such as additional amortization expense as a result of intangible assets arising from the acquisition, additional interest expense as a result of issuing the promissory notes, and depreciation on certain items of equipment acquired. The results are not necessarily indicative either of the results of operations that actually would have resulted had the acquisition been in effect at the beginning of the respective years, or of results to be achieved in the future.

NOTE 4 INTANGIBLE ASSETS

Intangible assets consisted of the following (in thousands):

		March 31, 2007				December 31, 200												
	Gross A		Accumulated 1				Accumulated		Accumulated		Accumulated		tangible	Gross	Acc	umulated	Int	angible
	Assets	Am	sets, net	Assets			Assets Amortizatio		ass	sets, net								
Customer lists acquired	\$ 16,495	\$	13,438	\$	3,057	\$ 15,684	\$	12,777	\$	2,907								
Technology and patents	10,314		5,107		5,207	7,980		4,540		3,440								
Trade name and trade marks	1,213				1,213													
Goodwill	1,457				1,457													
Non-compete agreement	376		162		214	154		128		26								
	\$ 29,855	\$	18,707	\$	11,148	\$ 23,818	\$	17,445	\$	6,373								

In conjunction with the BenchmarkPortal acquisition (Note 3), UCN recorded the following intangibles (in thousands):

			Estimated	Amortization
*	Estin		Useful	26.0
Intangible asset	Fair	Value	Life	Method
Technology and patents	\$	1,634	5	Straight line
Goodwill		1,300	Indefinite	Impairment review
Trade name and trade marks		1,194	Indefinite	Impairment review
Customer lists acquired		736	10	Accelerated
Non-compete agreement		179	3	Straight line
Total	\$:	5,043		

Also, in conjunction with the BenchmarkPortal acquisition (Note 3), UCN agreed to pay BenchmarkPortal stockholders monthly installments of \$55,556 in contingent purchase price payments, subject to adjustment if monthly recurring revenue during the payout period from specified customer accounts acquired does not remain at certain levels, which are adjusted for estimated attrition. During the first quarter, UCN paid BenchmarkPortal stockholders a total of \$55,556 in contingent purchase price payments that was recorded to goodwill.

11

In conjunction with the ScheduleQ acquisition (Note 3), UCN recorded the following intangibles (in thousands):

Intangible asset	 timated ir Value	Estimated Useful Life	Amortization Method
Technology and patents	\$ 699	8	Straight line
Goodwill	102	Indefinite	Impairment review
Customer lists acquired	75	5	Accelerated
Non-compete agreement	43	2	Straight line
Total	\$ 919		

The goodwill recorded in conjunction with these acquisitions is not deductible for income tax purposes.

Amortization of intangibles for the fiscal years ended 2007, 2008, 2009, 2010 and 2011 is expected to be \$4.0 million, \$3.2 million, \$0.9 million, \$0.5 million and \$0.5 million respectively.

NOTE 5 ACCRUED LIABILITIES

Accrued liabilities consisted of the following (in thousands):

	March 31 2007	December 31, 2006
Accrued payroll and other compensation	\$ 1,089	\$ 656
Accrued payphone and carrier charges	789	782
Current portion of operating lease obligations	207	250
Accrued professional fees	128	164
Other	129	172
	\$ 2.342	\$ 2.024

NOTE 6 RELATED PARTY TRANSACTIONS

During the three months ended March 31, 2007, UCN paid the Chairman of the Board of Directors (Chairman), \$5,000 per month for consulting, marketing, and capital raising activities. The Chairman has also provided certain vendors with his personal guaranty in the amount of up to \$800,000, for which UCN has agreed to indemnify the Chairman for any losses for which he may become liable.

NOTE 7 LONG-TERM DEBT, NOTES PAYABLE AND CAPITAL LEASES

As of March 31, 2007. UCN is in compliance with all of its financial and non-financial covenants.

Long-term debt, notes payable and capital leases consist of the following (in thousands):

	March 31, 2007	December 31, 2006
Convertible term note to ComVest Capital, LLC of \$4.5 million, bearing interest at a fixed 9.0 per	ercent, there	
are no principal payments due through November 2007 after which the loan requires monthly prin	ncipal	
payments of \$125,000 with any unpaid amounts due on May 2010, outstanding principal amount	is	
convertible to common stock at \$3.00 per share	\$ 3,380	\$ 3,380

Revolving credit note with ComVest Capital, LLC, with maximum availability of \$7.5 million, bearing interest at a fixed 9.0 percent, there are no requirements to repay outstanding principal payments until May 3,833 3,258 2010 Promissory notes payable to former ScheduleQ, LLC shareholders, interest imputed at 9.0 percent, payable monthly, secured by the software code acquired and any improvements thereto. Principal payments due monthly, final principal payment due February 15, 2011 (Note 3) 298 1,042 Capital Leases 979 8,490 7,680 Current portion of long-term debt, net of debt discounts of \$149 and \$166, respectively (543)(84)Current portion of capital lease payments (693)(636)Debt discounts on convertible term note and revolving credit note (437)(427)\$ 6,827 \$ 6,523

NOTE 8 CAPITAL TRANSACTIONS

In January 2007, UCN amended the convertible term note and revolving credit note agreement. In conjunction with this amendment, UCN issued warrants to ComVest Capital, LLC to purchase 55,000 shares of common stock at \$2.90 per share. The fair market value of the warrants, using the Black-Scholes pricing model, was \$83,000 with an assumed expected volatility of 58.21%, a risk-free rate of return of 4.87%, no dividend yield, and an expected life of 4.3 years. These warrants were included in a registration statement filed with the SEC on Form S-1 to register for resale on April 6, 2007. The registration statement became effective on April 19, 2007.

In conjunction with the BenchmarkPortal acquisition, UCN entered a consulting agreement with the founder of BenchmarkPortal and issued warrants to purchase a total of 60,000 share of UCN common stock at \$2.95 per share. The fair market value of the warrants, using the Black-Scholes pricing model, was \$68,000 with an assumed expected volatility of 48.63%, a risk-free rate of return of 4.76%, no dividend yield, and an expected life of 3.0 years. This amount will be expensed as a consulting expense over the six month term of the agreement.

During the first quarter of 2007, former employees and two members of UCN s Board of Directors exercised options to purchase a total of 120,668 shares of common stock and UCN received total proceeds of \$302,000.

In March 2007, a warrant holder converted 164,125 warrants in a cashless exercise into 36,810 shares of UCN common stock.

In conjunction with the BenchmarkPortal acquisition that was closed in February 2007, UCN issued a total of 1,535,836 shares of its restricted common stock to BenchmarkPortal stockholders (Note 3).

In conjunction with the ScheduleQ acquisition that was closed in February 2007, UCN issued a total of 108,912 shares of its restricted common stock to ScheduleQ stockholders (Note 3).

NOTE 9 STOCK-BASED COMPENSATION

The Condensed Consolidated Financial Statements, for the three months ended March 31, 2007 and 2006, reflect the impact of SFAS 123(R). UCN has allocated the compensation to the respective departments based on location of where the employee s regular compensation is charged as follows (in thousands):

	For the	For the three months ended M					
	20	2007					
Costs of revenue	\$	1	\$	2			
Selling and promotion		74		59			
General and administrative		107		80			
Research and development		14		12			
Total	\$	196	\$	153			

UCN estimated the fair value of options granted under its employee stock-based compensation arrangements at the date of grant using the Black-Scholes model with the following weighted-average assumptions for the three months ended March 31, 2007 and 2006:

	March 31, 2007	Marcl	h 31, 2006
Dividend yield	None		None
Volatility	59%		79%
Risk-free interest rate	4.47%		4.64%
Expected life (years)	3.5		4.4
Weighted average fair value of option grants	\$ 1.63	\$	1.32
Forfeiture rate	5.3%		5.3%

13

The following tables summarize all stock option activity during the three months ended March 31, 2007 and 2006, respectively (in thousands, except per share data):

	Options	Price range (\$)	 d Average se Price	Intrinsic Value
Balance at January 1, 2007	3,163	\$ 2.00 - \$5.39	\$ 2.39	\$ 1,627
Granted	1,285	2.93 - 3.63	3.49	
Exercised	(120)	2.50	2.50	148
Cancelled or expired	(67)	2.50 - 3.17	2.62	
Balance at March 31, 2007	4,261	\$ 2.00 - \$5.39	\$ 2.72	\$ 4,390

	Options	Price range (\$)	Weight Exer	0			
Balance at January 1, 2006	3,526	\$ 2.00 -\$5.39	\$	2.37	\$	1,627

Balance at March 31, 2006	3,489	\$ 2.00 -\$5.39	\$	2.37	\$	717	

A summary of the options outstanding and options exercisable at March 31, 2007 is as follows (in thousands, except per share amounts):

		Options Outstandin	Option	s Exercisable			
		Average Remaining Weighted Average			Options	Weight	ed Average
Exercise price range	Options	Contractual Life	Exercise Price		Exercise Price Exercisable		ise Price
\$2.00-\$2.30	1,552	2.7 years	\$	2.04	1,011	\$	2.03
\$2.31-\$2.66	733	1.9 years		2.50	734		2.49
\$2.67-\$3.07	575	2.8 years		2.81	483		2.79
\$3.08-\$5.39	1,401	3.2 years		3.54	46		5.39
	4,261	2.5 years	\$	2.72	2,274	\$	2.41
Intrinsic Value	\$ 4,390				\$ 3,081		

A summary of the activity for non-vested share awards as of March 31, 2007 and changes during the three month period is as follows (in thousands, except per share amounts):

	Options	Opt	ed Average ion Fair Value
Balance at January 1, 2007	797	\$	1.10
Granted	1,285		1.63
Vested	(67)		1.37
Cancelled or expired	(28)		1.44
Balance at March 31, 2007	1,987	\$	1.43

As of March 31, 2007 and 2006, there was \$1,088 and \$652,000 of total unrecognized compensation cost related to non-vested share-based compensation awards granted under UCN s stock option plans. That cost is expected to be recognized over a weighted average period of 4.5 and 3.2 years, respectively. All shares are excluded from the EPS dilution calculation because they are anti-dilutive.

14

NOTE 10 MAJOR SUPPLIERS

Approximately 58% and 67% of UCN s cost of revenue for the three months ended March 31, 2007 and 2006, respectively, was generated from three of the largest U.S. telecommunication service providers. UCN owed \$2.9 million and \$4.8 million to these three providers as of March 31, 2007 and December 31, 2006, respectively.

NOTE 11 SEGMENTS

Effective January 1, 2006, UCN managed its business based on two customer segments: Telecom and inContact. The Telecom segment includes all voice and data long distance services provided to customers not utilizing any inContact services. The inContact segment includes revenues from customers using any inContact services as well as their long distance voice and data services. InContact services include automatic call distribution, interactive voice response, data storage, email, chat, computer telephony integration, call recording, conferencing and reporting. In mid February 2007, UCN closed two strategic acquisitions which have been added to the inContact segment. The BenchmarkPortal, Inc. acquisition allowed UCN to provide customers a hosted process for measuring the effectiveness of agent interactions with clients. The ScheduleQ, LLC acquisition allowed UCN to provide its customers a hosted solution for automating the scheduling, forecasting and alert notification functions common to most contact center/customer service type operations. These additions augment UCN s all-in-one hosted inContact solution.

Subsequent to the issuance of UCN s Form 10-Q for the period ended March 31, 2007, UCN has determined that the revenue and results of operations for a total of six user accounts previously included in the segment disclosure of UCN s inContact segment in prior periods should have been included in UCN s Telecom segment because, in substance, the revenue was substantially either long distance or still in a trial period for inContact. As a result, UCN has restated the accompanying disclosures in these condensed consolidated financial statements.

The effects of the restatement of the condensed consolidated financial statements are limited to the disclosure of segment results and do not affect the Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Operations, Condensed Consolidated Statements of Stockholders Equity, and Condensed Consolidated Statements of Cash Flows of UCN for the affected periods. The restatement includes the reallocation of the long distance charges, along with insignificant amounts of the inContact software and related service revenue, from the six identified accounts from the inContact segment to the Telecom segment.

The following summarizes the effect of the restatement on the segment results of operations previously reported for the three month periods ended March 31, 2007 and 2006:

15

UCN previously reported for the three months ended March 31, 2007, inContact revenue included \$3.9 million of related long distance and voice and data revenue and \$2.2 million of inContact technology services, and for the same period in 2006 included \$2.3 million of related long distance voice and data service revenue and \$0.7 million of inContact technology services. The restated inContact revenue for the three months ended March 31, 2007, includes \$2.8 million of related long distance voice and data service revenue and \$2.1 million of inContact technology services, and for the same period in 2006 includes \$2.2 million of related long distance voice and data service revenue and \$0.7 million of inContact technology services.

NOTE 12 SUBSEQUENT EVENTS

On April 18, 2007, ComVest Capital exercised its right to convert the term note to common stock. UCN issued 1,126,664 shares of common stock on conversion of approximately \$3.4 million in principal amount of the convertible term note and paid, in cash, \$15,210 of interest and \$2 on a fractional share to ComVest in complete payment and satisfaction of that note. The shares of common stock issued to ComVest Capital were previously registered for resale under a registration statement on Form S-1 filed with the Securities and Exchange Commission.

16

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following management discussion and analysis gives effect to the restatement discussed in Note 11 to the accompanying condensed consolidated financial statements.

Basis of presentation

The following discussion and analysis of financial condition and results of operations should be read in conjunction with the December 31, 2006 consolidated financial statements and notes thereto, along with the Management s Discussion and Analysis of Financial Condition and Results of Operations included in UCN s 2006 Annual Report on Form 10-K, filed separately with the U.S. Securities and Exchange Commission.

Overview

UCN, Inc. (UCN or the Company) offers a wide range of hosted contact handling and performance management software services, in addition to a variety of connectivity options for carrying an inbound call into its inContact—suite of services or linking agents to inContact, including dedicated T1s, IP connectivity, toll free and inbound local numbers. We sell telecom services unbundled from our inContact service offering, including, dedicated, switched, toll free, and data lines at competitive prices with superior service levels.

UCN is a Network Applications Provider that provides on-demand, hosted, contact handling software (through our inContact applications suite of services) and business telecommunication services delivered over our own, proprietary national Voice over Internet Protocol Network (VoIP Network). The inContact application suite includes an integrated package of advanced contact handling, reporting and administration applications and performance monitoring and management tools along with a unique rapid application development tool.

We offer a set of traditional connectivity products, which include the dedicated voice T1 product, the Intelligent-T , VoIP connectivity services and our switched 1+ services, that enable our customer sites to connect to UCN s VoIP Network and gain access to our inContact services. Our customers publish toll free and inbound local numbers to their customer base, enabling inbound callers to be handled through the inContact applications embedded in the VoIP Network. Our distribution channels pursue multiple marketing avenues, including using independent agents, value-added resellers and direct and inside sales forces.

Results of Operations

Revenue

Total revenues decreased \$2.8 million or 12% to \$19.8 million for the three months ended March 31, 2007 from \$22.6 million compared to the same period in 2006. The decrease is primarily due to UCN terminating its relationship with several large-volume low-margin customers during the second quarter of 2006. These losses were offset by increases in inContact segment revenue, which were \$4.9 million for the quarter compared to \$2.9 million during the same period in 2006. In mid February 2007, UCN closed two strategic acquisitions which added \$535,000 of additional revenue to our inContact segment. The BenchmarkPortal, Inc. acquisition allows us to provide customers a hosted process for measuring the effectiveness of agent interactions with clients. The ScheduleQ acquisition allows us to provide our customers a hosted solution for automating the scheduling, forecasting and alert notification functions common to most contact center/customer service type operations. These additions augment our all-in-one hosted inContact solution.

We continue focusing marketing efforts on providing on-demand contact center hosted solution and business telecommunications services delivered over our national VoIP network. We believe the opportunity to increase revenues through the sale of enhanced telecommunications services to business customers is much greater than through the sale of traditional long distance services to residential customers. We have developed a menu of enhanced communication services that we are marketing to our existing and potential customers through our multiple sales channels. As a result of these changes, we are experiencing a transition in sales mix, which will continue with the addition of new products and features.

Costs of revenue

Costs of revenue decreased \$3.9 million or 25% to \$11.5 million for the three months ended March 31, 2007 from \$15.5 million for the same period in 2006. Consistent with other telecommunication companies, we do not included amortization and depreciation in our calculation of costs of revenue. Costs of revenue as a percentage of revenue improved to 58.2% during the quarter compared to 68.4% in the same period in 2006. We have continued to improve our cost of revenue as a percentage of revenue percentage by implementing cost cutting measures, increasing higher margin inContact revenue, and terminating our relationship with large-volume low-margin customers.

As noted above, we continue to focus most of our marketing efforts on promoting our inContact technology services which carry significantly higher margins than the traditional long distance services. As a result, we expect continued improvements in margins from the sales of these technology services as we add higher gross margin inContact customers. We continue to support our telecom reseller channel that markets our telecom products to business users and encourage those resellers to refer inContact opportunities to us.

Selling and promotion

Selling and promotion expenses increased 6% or \$232,000 to \$3.9 million during the three months ended March 31, 2007, from \$3.6 million during the same period in 2006 primarily due to an overall increase in the number of sales and lead generation activities. Our sales force grew substantially through the addition of employees related to the BenchmarkPortal and ScheduleQ acquisitions closed during the quarter.

General and administrative

General and administrative expenses for the three months ended March 31, 2007 increased 14% or \$441,000 to \$3.7 million compared to \$3.3 million in the same period in 2006. The increase is primarily due to an overall increase in salaries and benefits during the year due to the growth of the company. Our general and administrative staff grew substantially through the addition of employees related to the BenchmarkPortal and ScheduleQ acquisitions closed during the quarter.

Segment Reporting

We manage our business based on two customer segments: Telecom and inContact. The Telecom customer segment includes all voice and data long distance services provided to customers not utilizing any inContact services. The inContact customer segment includes revenues from customers using any inContact services as well as their related long distance voice and data services. The inContact segment services include automatic call distribution, interactive voice response, data storage, email, chat, computer telephony integration, call recording, conferencing and reporting. In mid February 2007, UCN closed two strategic acquisitions which have been added to our inContact segment. The BenchmarkPortal, Inc. acquisition allows us to provide customers a hosted process for measuring the effectiveness of agent interactions with clients. The ScheduleQ, LLC acquisition allows us to provide our customers a hosted solution for automating the scheduling, forecasting and alert notification functions common to most contact center/customer service type operations. These additions augment our all-in-one hosted inContact solution. We will continue to evaluate the components of the inContact segment as future strategic initiatives are implemented.

Audit Committee Independent Investigation and Restatement

In January 2008, the Audit Committee of UCN received an allegation that its Executive Vice President of Global Alliances had engaged in improper sales activities that resulted in a misallocation of revenue between UCN s Telecom Segment and inContact Segment. Upon receipt of the allegation, the Audit Committee engaged outside counsel to investigate the allegations. Management also conducted its own review of matters related to the recognition and allocation of revenue between segments.

The independent investigators engaged by the Audit Committee have completed the investigation and management has completed its review of segment allocations and results. UCN has determined that the revenue and results of operations for a total of six user accounts previously included in the segment disclosure of UCN s inContact segment in prior periods should have been included in UCN s Telecom segment because, in substance, the revenue was substantially either long distance or still in a trial period for inContact. Accordingly, on March 10, 2008, the Board of Directors concluded that no further reliance should be placed on the condensed consolidated financial statements of UCN filed with its quarterly reports on Form 10-Q for the quarters ended September 30, June 30, and March 31, 2007, and its consolidated financial statements for the year ended December 31, 2006 filed with its annual report on Form 10-K for the year ended December 31, 2006. Accordingly, UCN is restating its previously issued financial statements for those periods.

The effects of the restatement of the consolidated financial statements are limited to the footnote disclosure of segment results and do not affect the Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Operations, Condensed Consolidated Statements of Stockholders Equity, and Consolidated Statements of Cash Flows of UCN for the affected periods. The restatement includes the reallocation of the long distance charges, along with insignificant amounts of the inContact software and related service revenue, from the six identified accounts from the inContact segment to the Telecom segment. The amounts set forth below for the inContact and Telecom segments have been adjusted to give effect to the restatement.

inContact Customer Segment

The inContact segment revenue increased to \$4.9 million during the quarter, which is a 67% increase from the same period in 2006 as a result of the selling and promotion effort we have undertaken to bring these products to market. The BenchmarkPortal and ScheduleQ acquisitions that were closed during mid February added an additional \$535,000 of revenue during the quarter. Excluding the \$535,000 in revenue from the acquisitions, the segment increased 49% compared to the first quarters of 2006.

For the three months ended March 31, 2007, the inContact segment revenue of \$4.9 million includes \$2.8 million of related long distance voice and data services and \$2.1 million of inContact technology services. For the three months ended March 31, 2006, the inContact segment revenue of \$2.9 million includes \$2.2 million of long distance voice and data services and \$.7 million of inContact technology services.

Costs of revenue as a percentage of revenue improved during the three months ended March 31, 2007 to 37.7% from 52.9% during the same period in 2006. These significant improvements are primarily due to closing higher margin inContact deals with new customers. We anticipate that margins will continue to improve as we add customers with more inContact technology services. We continue to focus a significant amount of resources related to bringing inContact to market. As a result, selling and promotion expenses in the segment increased 41.8% during the quarter compared to the same period in 2006. We also continue to develop the services provided in the segment by investments in research and development. During the quarter, we spent \$428,000 in research and development costs.

18

Telecom Customer Segment

We continue to see decreases in the Telecom segment; however the attrition rates are in line with our expectations. Overall segment revenue decreased 24% during the quarter compared to the same period in 2006. These decreases were primarily due to UCN terminating its relationship with several large-volume low-margin customers during the second quarter of 2006 as well as up selling inContact services to several legacy Telecom customers. When an existing Telecom customer turns up inContact services, all of their Telecom revenue is moved to the inContact segment. We expect that revenue from the Telecom Segment will continue to decrease due to normal attrition rates as well as movement of customers from the Telecom customer segment to the inContact customer segment.

With the decline in revenues from the segment, we have been able to reduce overall costs in the segment. Our costs of revenue decreased 30.4% during the quarter compared to the same period in 2006. Net loss from operations for the segment decreased 46.3% to \$219,000 from \$408,000 during the same period in 2006.

Liquidity and Capital Resources

Net cash used in operating activities for the three months ended March 31, 2007 was \$323,000 primarily due a significant decrease in trade accounts payable of \$1.3 million which was partially offset by a decrease in accrued liabilities. Our net loss of \$1.7 million includes: 1) \$1.8 million of depreciation and amortization; and 2) stock-based compensation expense of \$196,000 of non-cash stock-based compensation. Net cash used in investing activities was \$1.2 for the three months ended March 31, 2007, which was made up of: 1) \$686,000 paid in conjunction with the acquisition of BenchmarkPortal, and 2) \$438,000 in purchases of property and equipment. Net cash provided by financing activities was \$338,000 for the three months ended March 31, 2007 primarily due to: 1) \$500,000 draw on the revolving line of credit, 2) \$302,000 received from the exercise of stock options. The cash increases from financing activities were partially offset by: 1) \$256,000 paid in conjunction with debt assumed in the ScheduleQ acquisition, and \$158,000 of other payments on long-term debt.

In January 2007, UCN amended the convertible term note and revolving credit note agreement. In conjunction with this amendment, UCN issued warrants to ComVest Capital, LLC to purchase 55,000 shares of common stock at \$2.90 per share. The fair market value of the warrants, using the Black-Scholes pricing model, was \$83,000 with an assumed expected volatility of 58.21%, a risk-free rate of return of 4.87%, no dividend yield, and an expected life of 4.3 years. These warrants were included in a registration statement filed with the SEC on Form S-1 to register for resale on April 6, 2007. The registration statement became effective on April 19, 2007.

In conjunction with the BenchmarkPortal acquisition, UCN entered a consulting agreement with the founder of BenchmarkPortal and issued warrants to purchase a total of 60,000 share of UCN common stock at \$2.95 per share. The fair market value of the warrants, using the Black-Scholes pricing model, was \$68,000 with an assumed expected volatility of 48.63%, a risk-free rate of return of 4.76%, no dividend yield, and an expected life of 3.0 years.

During the first quarter of 2007, former employees and two members of UCN s Board of Directors exercised options to purchase a total of 120,668 shares of common stock and UCN received total proceeds of \$302,000.

In March 2007, a warrant holder converted 164,125 warrants in a cashless exercise into 36,810 shares of UCN common stock.

In conjunction with the BenchmarkPortal acquisition that was closed in February 2007, UCN issued a total of 1,535,836 shares of its restricted common stock to BenchmarkPortal stockholders.

In conjunction with the ScheduleQ acquisition that was closed in February 2007, UCN issued a total of 108,912 shares of its restricted common stock to ScheduleQ stockholders.

Our current ratio as of March 31, 2007 decreased slightly to 1.07:1 from 1.13:1 at December 31, 2006. The primarily reason for the decrease is due to a \$1.1 million in overall cash balances, These decreases in current assets were offset by a \$1.2 million decrease in accounts payable during the quarter offset a by an increase in current portion of long-term debt. At March 31, 2007, we had \$3.2 million of remaining available borrowing under the revolving credit facility compared to only \$2.2 million available at December 31, 2006. As noted above, in April 2007, ComVest converted the entire convertible note, which will save UCN approximately \$468,000 in cash payments during 2007 and will significantly improve the current ratio by eliminating the associated current portion of long-term debt.

We experienced net losses of \$1.7 million and \$2.1 million for the three months ended March 31, 2007 and 2006, respectively. The primary factors affecting operations during the first quarter of 2007 were: 1) continued investments in the promotion and development of inContact to bring these services to market; 2) \$1.8 million of depreciation and amortization; and 3) \$196,000 of non-cash stock-based compensation expense

(Note 9).

Our working capital surplus of \$1.6 million at December 31, 2006 decreased to \$887,000 at March 31, 2007. The primarily reason for the decrease was a \$1.2 million reduction in accounts payable that was offset by a \$516,000 increase in the current portion of long-term debt. However, the available borrowings under our revolving credit facility increased \$1.0 million to \$3.2 million at March 31, 2007 compared to only \$2.2 million available at December 31, 2006.

19

The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities that might be necessary should we be unable to continue as a going concern. Our continuation as a going concern is dependent upon the ability to generate sufficient cash flow to meet obligations on a timely basis and ultimately to achieve successful operations.

We have taken the following steps to continue to meet our obligations:

In February 2007, we closed two acquisitions (Note 3), which improve the overall product offering suite that the Company can offer to existing and potential customers. With these new products, we provide customers the ability to monitor agent effectiveness through its customer survey tools and the ability to efficiently monitor their agent needs. These new service offerings provide us additional contact and service opportunities to potential customers as well as provide up-sale opportunities to existing customers. During the first quarter, these acquisitions added an additional \$535,000 of higher-margin inContact revenue.

Our inContact segment revenue increased to \$4.9 million during the quarter, a 67% increase from the same period in 2006. This increase is a result of the selling and promotion effort we have undertaken to bring these products to market. Excluding the \$535,000 in revenue from the acquisitions, the segment increased 49% compared to the first quarter of 2006. We expect to continue to see significant revenue growth in the inContact segment in 2007, which we believe will be enhanced through the BenchmarkPortal and ScheduleQ acquisitions. For the three months ended March 31, 2007, the inContact segment revenue of \$4.9 million includes \$2.8 million of related long distance voice and data services and \$2.1 million of inContact technology services. For the three months ended March 31, 2006, the inContact segment revenue of \$2.9 million includes \$2.2 million of long distance voice and data services and \$.7 million of inContact technology services.

In addition, in April 2007, ComVest converted the entire \$3.4 million convertible note balance into UCN common shares. This conversion will save us an estimated \$468,000 in cash payments during 2007 and will significantly improve the current ratio in future periods by eliminating the associated current portion of long-term debt.

We believe these actions will allow us to have sufficient cash flows available to meet short-term requirements and to enable us to continue as a going concern.

Critical accounting policies and estimates

A summary of our significant accounting policies is discussed in Management s Discussion and Analysis of Financial Condition and Results of Operations and in Note 1 of our Annual Report on Form 10-K for the year ended December 31, 2006.

The preparation of the financial statements in accordance with U.S. generally accepted accounting principles requires us to make judgments, estimates and assumptions regarding uncertainties that affect the reported amounts of assets and liabilities. Significant areas of uncertainty that require judgments, estimates and assumptions include the accounting for derivatives, retirement plans, income taxes, environmental and other contingencies as well as asset impairment, inventory valuation and collectibility of accounts receivable. We use historical and other information that we consider to be relevant to make these judgments and estimates. However, actual results may differ from those estimates and assumptions that are used to prepare our financial statements.

Adoption of New Accounting Pronouncements

Adoption of FIN 48: In June 2006, the FASB issued Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement 109 (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing a recognition threshold for tax positions taken or expected to be taken in a tax return. FIN 48 requires that entities recognize in their financial statements the impact of a tax position if that position is more likely than not of being sustained on audit, based on the technical merits of the position. FIN 48 is effective for fiscal years beginning after December 15, 2006. Interest and penalties, if incurred, would be recognized as components of income tax expense. The Company s adoption of FIN 48 on January 1, 2007 had no impact on the Company s condensed consolidated financial statements as the Company does not have any uncertain income tax positions that would require adjustment.

20

Recent Accounting Pronouncements

Issuance of SFAS 157: In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements, which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The adoption of SFAS No. 157 is not expected to have a material impact on our consolidated financial statements.

Issuance of SFAS 159: In February 2007, the Financial Accounting Standards Board (FASB) issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (SFAS 159). SFAS 159 allows entities to voluntarily choose, at specified election dates, to measure many financial assets and financial liabilities, as well as, certain nonfinancial instruments that are similar to financial instruments, at fair value (the fair value option). The election is made on an instrument-by-instrument basis and is irrevocable. If the fair value option is selected for an instrument, the Statement specifies that all subsequent changes in fair value for that instrument shall be reported in earnings. The Statement is effective as of the beginning of an entity s first fiscal year that begins after November 15, 2007. The Company is currently assessing the impact of SFAS 159, but does not expect it to have a material impact on its financial position, results of operations, cash flows or disclosures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market risk is limited to interest rate sensitivity, which is affected by changes in the general level of U.S. interest rates. Our cash equivalents are invested with high quality issuers and limit the amount of credit exposure to any one issuer. Due to the short-term nature of the cash equivalents, we believe that we are not subject to any material interest rate risk as it relates to interest income. All outstanding debt instruments at March 31, 2007 have fixed interest rates and are therefore not subject to interest rate risk.

We did not have any foreign currency hedges or other derivative financial instruments as of March 31, 2007. We do not enter into financial instruments for trading or speculative purposes and do not currently utilize derivative financial instruments. Our operations are conducted in the United States and as such are not subject to foreign currency exchange rate risk.

ITEM 4. CONTROLS AND PROCEDURES

This Report includes the certifications of our Chief Executive Officer and Chief Financial Officer required by Rule 13a-14 of the Securities Exchange Act of 1934 (the Exchange Act). See Exhibits 31.1 and 31.2. This Item 4 includes information concerning the controls and control evaluations referred to in those certifications.

Background

The Audit Committee of the Board of Directors recently received the results of an independent investigation into certain accounting and financial reporting matters. The results of the investigation as well as issues identified in additional reviews and procedures conducted by management were reported to the Board of Directors. As a result, the Board of Directors determined that our previously issued condensed consolidated financial statements filed with our quarterly reports on Form 10-Q for the quarters ended September 30, June 30, and March 31, 2007, and our consolidated financial statements for the year ended December 31, 2006, should no longer be relied upon because of certain accounting errors in the footnotes to the financial statements. Accordingly, we are restating our previously issued financial statements for those periods. The effects of the restatements of the condensed consolidated financial statements are limited to the footnote disclosure of operating segment results and do not affect our Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Operations, Condensed Consolidated Statements of Stockholders Equity and Condensed Consolidated Statements of Cash Flows. For a discussion of the accounting errors and the adjustments made as a result of the restatement, see Note 11 of Notes to Condensed Consolidated Financial Statements included in Part I Item 1 Financial Statements and Part I Item 2 Management s Discussion and Analysis of Financial Condition and Results of Operations Segment Reporting.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in rules and forms adopted by the Securities and Exchange Commission (SEC), and that such information is accumulated and communicated to management, including the chief executive officer and the chief financial officer, to allow timely decisions regarding required disclosures.

In connection with the preparation of this amended report, UCN s management, under the supervision and with the participation of the Chief Executive Officer and Chief Financial Officer, reassessed the effectiveness of the design and operation of our disclosure controls and procedures. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as a result of the restatement of previously issued financial and the identification of certain material weaknesses in the internal controls over financial reporting described below, which we view as an integral part of our disclosure controls and procedures, our disclosure controls and procedures were not effective as of March 31, 2007.

Nevertheless, based on the completion of the Audit Committee s investigation, management s internal review of our processes and procedures, and the performance of additional procedures by management designed to ensure the reliability of our financial reporting for the interim period ended March 31, 2007, we believe that the consolidated condensed financial statements in this report fairly present, in all material respects, our financial position, results of operations and cash flows as of the dates, and for the periods, presented.

Changes in Internal Control over Financial Reporting

During the first quarter of 2007, there have been no significant changes (including corrective actions within regard to significant deficiencies or material weaknesses) in our internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Exchange Act) that has materially affected or is reasonably likely to materially affect our internal control over financial reporting.

Description of Material Weaknesses

A material weakness is defined under SEC rules as a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of a company s annual or interim financial statements will not be prevented or detected on a timely basis by the company s internal controls. As a result of management s review of the investigation issues and results, and other internal reviews and evaluations it was completing in the fourth quarter of 2007 and beginning of 2008 related to the preparation of management s first report on internal controls over financial reporting required for UCN 2007 annual report on Form 10-K, management concluded that UCN had material weaknesses in its control environment and financial reporting process.

Control Environment

We did not maintain an effective tone at the top that would have facilitated an effective control environment for internal control over financial reporting. This material weakness in our control environment was as result of the following control deficiencies:

We failed to establish a proper tone for internal control over financial reporting in 2006 and 2007 while we were transitioning from a traditional long distance reseller, which is our Telecom segment, to being a network applications provider that provides on-demand, hosted, contact handling software and related services, which is our inContact segment.

Members of senior management had the ability to override the proper functioning of our sales and provisioning process for our services, because we failed to recognize and segregate duties that are incompatible from the standpoint of establishing effective checks and balances between senior management.

We did not establish a tone and control consciousness in the Company that fostered effective operation of our open door policy for encouraging employees to communicate issues or concerns with any member of senior management or that instilled in our employees a belief that senior management respected and valued the silent whistleblower process as an important tool for receiving information about UCN and its operations.

Financial Reporting Process

We identified certain control deficiencies in the financial reporting process as it related to segment reporting, that gave rise to a material weakness. The control deficiencies include the following:

We did not design and maintain effective financial processes to report and verify at the end of each reporting period that for each inContact customer there was a substantive contract for purchase of inContact Services, inContact services were being used or delivered, and that an appropriate price was actually paid for those services after taking into consideration price adjustments or credits that were not reasonably related to other legitimate and customary sales practices, customer maintenance, or Telecom service.

We did not generate for senior management and persons with responsibility for accounting controls period-end financial reports on inContact service usage and total service price adjustments or credits on a comparative basis with inContact and Telecom revenue, so that senior management and persons with responsibility for accounting controls had the type of information that would enable them to reasonably be able to detect purported inContact service sales for which there was no or little service usage and/or inContact revenue that was completely or substantially offset by pricing adjustments or credits that were given to effect a spurious inContact sale.

Impact of Material Weaknesses

These material weaknesses resulted in the misallocation of Telecom and inContact revenue in 2006 and 2007, and the misreporting of Telecom segment and inContact segment revenue and results in our consolidated financial statements with respect to the footnote disclosure of segment results for the interim periods ended September 30, June 30, and March 31, 2007, and the year ended December 31, 2006. This is significant in light of the fact that UCN has focused its business strategy since the end of 2005 on transitioning from a traditional long distance reseller, which is our Telecom segment, to being a network applications provider that provides on-demand, hosted, contact handling software and related services, which is our inContact segment. We do not believe the material weaknesses described above had any impact on our consolidated revenues or results of operations for 2006 and 2007. We note, however, that the material weaknesses are in our control environment and financial reporting process and could negatively impact our revenue and operating controls and procedures in future periods if they remain unaddressed by management.

Management Plan to Remediate Material Weaknesses

In the first quarter of 2008, our management and the Audit Committee are pursuing the implementation of corrective measures to address the material weaknesses described above. These measures, outlined below, are intended both to address the identified material weaknesses and to enhance our overall financial control environment.

The material weaknesses create an environment where a person in a position of responsibility can take advantage of the circumstances to engage in misconduct, but there must actually be that person who acts improperly to create the result where segment revenue is misallocated. The Executive Vice President for Global Alliances who acted improperly was removed from his position in February 2008 and his employment with UCN terminated in March 2008.

We are restructuring responsibility for duties with respect to incompatible functions in the sales and provisioning processes so that these duties are not assigned to a single person. Under the restructuring and related internal policy, no one person will have authority to enter into contracts for the sale of our services, set the pricing for those services outside of established parameters, grant price adjustments or credits, and supervise the implementation and delivery of services. We will have a senior management person with the duty and authority to supervise sales activity who is responsible for ensuring all customer accounts have signed contracts that accurately specify the services purchased, state whether there is a trial or test period, state the price for each service, and lists any sales incentives given to obtain the customer. UCN s executive committee will establish, evaluate and approve standard pricing and allowable non-standard pricing ranges. A different senior management person will have the duty and authority to supervise and verify the implementation, pricing structures and delivery of services to the customer per the written contract for service.

We are reformatting monthly reports so that senior management and persons with responsibility for accounting controls receive information by customer on revenue for each service provided during the preceding three months, actual service usage for each month during the period and total service price adjustments or credits for each month during the period, so that they can reasonably determine whether any of these measures exceed parameters set by the executive committee or are otherwise unusual.

We will evaluate and implement training for our employees to enhance awareness and understanding of standards and principles for the way we will do business, contract with our customers, deliver our services, and account for the revenue we receive.

We will reemphasize to all our employees the importance of our silent whistleblower program and affirm to our employees that we believe it to be the duty of each employee as part of his or her employment to report questionable or suspicious conduct or activity, and that senior management encourages and approves of such reporting.

We believe the remediation measures described above will remediate the material weaknesses we have identified and strengthen our internal control over financial reporting. We are committed to continuing to improve our internal control processes and will continue to diligently and vigorously review our financial reporting controls and procedures. As we continue to evaluate and work to improve our internal control over financial reporting, we may determine to take additional measures to address control deficiencies or determine to modify, or in appropriate circumstances not to complete, certain of the remediation measures described above.

22

PART II

ITEM 1A. RISK FACTORS

The Private Securities Litigation Reform Act of 1985 provides a safe harbor for forward-looking statements made by UCN, except where such statements are made in connection with an initial public offering. All statements, other than statements of historical fact, which address activities, actions, goals, prospects, or new developments that we expect or anticipate will or may occur in the future, including such things as expansion and growth of our operations and other such matters are forward-looking statements. Any one or a combination of factors could materially affect our operations and financial condition. These factors include competitive pressures, success or failure of marketing programs, changes in pricing and availability of services and products offered to customers, legal and regulatory initiatives affecting customer marketing and rebate programs or long distance service, and conditions in the capital markets. Forward-looking statements made by us are based on knowledge of our business and the environment in which we operate as of the date of this report. Because of the factors discussed below, as well as other factors set forth under the Item 1A. Risk Factors in our Annual Report on Form 10-K for 2006, actual results may differ from those in the forward-looking statements.
