**PROXY STATEMENT
FOR
ANNUAL MEETING OF SHAREHOLDERS**

The enclosed proxy is being solicited by and on behalf of Syniverse Holdings, Inc., and will be voted at the Annual Meeting of Shareholders on May 8, 2008. This statement and the accompanying proxy are first being sent or given to shareholders on or about April 7, 2008. Unless the context otherwise requires, all references to we, us or the Company refer to Syniverse Holdings, Inc. and its subsidiaries.

Solicitation and Revocation of Proxies and Voting

The execution and return of the enclosed proxy will not affect your right to attend the Annual Meeting of Shareholders and to vote in person. Even if you have given a proxy, you have the power to revoke it at any time before it is exercised. You may revoke the proxy prior to its exercise by delivering written notice of revocation to our Corporate Secretary, at 8125 Highwoods Palm Way, Tampa, Florida 33647, by executing a later-dated proxy, or by attending the Syniverse Holdings, Inc. Annual Meeting and voting in person. Properly executed proxies in the accompanying form, received in due time and not previously revoked, will be voted at the Annual Meeting or any adjournment thereof as specified therein by the person giving the proxy, but, if no specification is made, the shares represented by proxy will be voted as recommended by the Board of Directors.

Quorum; Abstentions; Broker Non-Votes

The presence, in person or by proxy, of the holders of shares of our outstanding common stock representing a majority of the total combined voting power of all of our outstanding shares of common stock entitled to vote at the Annual Meeting will constitute a quorum for the transaction of business. If a quorum is present, the election of directors will require a plurality of the votes cast by the shareholders entitled to vote thereon, present in person or represented by proxy.

You may, with respect to the election of directors:

vote for the election of all nominees named herein;

withhold authority to vote for all such nominees; or

vote for the election of all such nominees other than any nominees with respect to whom the vote is specifically withheld by indicating in the space provided on the proxy.

Edgar Filing: SYNIVERSE HOLDINGS INC - Form DEF 14A

Abstentions and broker non-votes will be treated as present at the Annual Meeting for the purpose of determining a quorum. A broker non-vote occurs when a record owner holding shares for a beneficial owner does not vote on a particular proposal because the record owner does not have discretionary voting power under the applicable rules of the New York Stock Exchange with respect to such shares, and the record owner has not received instructions from the beneficial owner. Because directors are elected by a plurality of the votes cast, abstentions and broker non-votes will not be counted in determining which nominees received the largest number of votes cast.

The ratification of the selection of Ernst & Young LLP requires the affirmative vote by holders of shares of our outstanding common stock representing a majority of the total combined voting power of the shares present or represented by proxy at the Annual Meeting and, therefore, abstentions will be counted in tabulating the votes cast and will have the same effect as a vote against the approval of Ernst & Young LLP as our independent registered public accounting firm. Broker non-votes will not be counted in tabulating the votes cast.

As a matter of policy, we maintain proxies and voting tabulations that identify individual shareholders on a confidential basis. We make such documents available only to those who process the proxy cards, tabulate the vote, and serve as inspectors of election and certain of our employees responsible for the Annual Meeting. We do not disclose your vote except as may be necessary to meet legal requirements.

Only the holders of outstanding shares of our common stock of record at the close of business on March 24, 2008, are entitled to receive notice of and to vote at the Annual Meeting. As of the March 24, 2008 record date, we had 68,309,253 outstanding shares (net of treasury shares) of our common stock. Each share of common stock is entitled to one vote on each matter to be voted upon at the Annual Meeting.

Voting Procedures

Because Delaware, the state in which we are incorporated, permits electronic submission of proxies through the Internet or by telephone, instead of submitting proxies by mail on the enclosed proxy card or voting instruction card, our shareholders will have the option to submit their proxies or voting instructions electronically through the Internet. Please note that there are separate arrangements for using the Internet depending on whether your shares are registered in our stock records in your name or in the name of the brokerage firm or bank. Shareholders should check their proxy card or the voting instruction card forwarded by their broker, bank or other holder of record to see which options are available.

You can find the results of the voting on the proposals in our Quarterly Report on Form 10-Q for the quarter ending June 30, 2008.

Cost of Proxy Solicitation

We are soliciting your proxy on behalf of our Board of Directors, and we will bear all of the related costs. We will reimburse brokers, fiduciaries and custodians for their costs in forwarding proxy materials to beneficial owners of common stock held in their names. Our employees also may communicate with you to solicit your proxy, but we will not pay them any additional compensation for doing so.

Householding

The Securities and Exchange Commission (SEC) rules permit us, with your permission (including, in certain circumstances, your implied permission), to send a single set of proxy statements and annual reports to any household at which two or more shareholders reside if we believe that they are members of the same family. Each shareholder will continue to receive a separate proxy card. This procedure, known as householding, reduces the volume of duplicate information you receive and helps to reduce our expenses. In order to take advantage of this opportunity, we have delivered only one proxy statement and annual report to multiple shareholders who share an address, unless we received contrary instructions from the impacted shareholders prior to the mailing date. We will deliver a separate copy of the proxy statement or annual report, as requested, to any shareholder at a shared address to which a single copy of those documents was delivered. If you prefer to receive separate copies of a proxy statement or annual report, either now or in the future, you can request a separate copy of the proxy statement or annual report by calling us at (813) 637-5000 or by writing to us at any time at the following address: Syniverse Holdings, Inc., 8125 Highwoods Palm Way, Tampa, Florida 33647, attn: Corporate Secretary.

Board Meetings and Committees

Prior to November 7, 2007, we were a controlled company under the rules of the New York Stock Exchange (NYSE), and qualified for, and relied on, the controlled company exception to the Board of Directors and committee composition requirements under the rules of the NYSE. Pursuant to this exception, we were exempt from the rule that requires that our Board of Directors be comprised of a majority of independent directors ; our Compensation Committee be comprised solely of independent directors ; and our Nominating and Corporate Governance Committee be comprised solely of independent directors as defined under the rules of the NYSE. On November 7, 2007 we ceased to be a controlled company for purposes of the NYSE corporate governance rules due to the sales of shares by our largest shareholder. Accordingly, in accordance with the NYSE rules, we have and will continue to phase in compliance with the NYSE independence requirements, including the requirements that (i) after November 7, 2007, we have at least one independent member on each of the nominating and corporate governance committee and the compensation committee, (ii) within 90 days thereafter, each of the nominating and corporate governance committee and the compensation committee must consist of a majority of independent directors, and within twelve months thereafter, the members of these committees must all be independent and a majority of our Board of Directors must be independent within the meaning of the NYSE listing requirements.

Our Board of Directors has an Audit Committee, a Compensation Committee and a Nominating and Corporate Governance Committee. The Board of Directors has adopted charters for the Audit, Compensation, and Nominating and Corporate Governance Committees. Copies of the Corporate Governance Guidelines and each of these committee charters are available on the Company's website, www.syniverse.com. Our website and the information contained or incorporated therein are not intended to be incorporated into this report. Shareholders can obtain copies of these documents upon written request to Corporate Secretary, Syniverse Holdings, Inc., 8125 Highwoods Palm Way Tampa, FL 33647.

Attendance at Board Meetings. There were 6 regularly scheduled meetings of the Board and 4 regularly scheduled meetings of each Committee held during fiscal 2007. Our Corporate Governance Guidelines set forth

the expectations that directors attend all meetings of the Board and any committees they serve as well as the Annual Meeting of the Shareholders. No Director, other than Messrs. Donnini and Lipham, attended fewer than 75% of the aggregate of the total number of meetings of the Board and the Committees of which he was a member held during fiscal 2007. Two of the then-incumbent directors attended the 2007 annual meeting of our shareholders.

Executive Sessions of Non-Management Directors. The non-management directors meet regularly without management present in conjunction with the Board meetings. After the executive session, a designated director will update our chief executive officer on the key items discussed. Non-management directors who are not independent under the NYSE rules will participate in these executive sessions.

Audit Committee. Messrs. James B. Lipham (Chairman), Timothy A. Samples and Jason Few are members of the Audit Committee. The Board has adopted a written charter for the Audit Committee. The Board of Directors has determined that all of the members of the Audit Committee are independent, as that term is used under applicable rules of the NYSE. The primary functions of the Audit Committee are to assist the Board in fulfilling its independent and objective oversight responsibilities of financial reporting and internal financial and accounting controls of the Company and to monitor the qualifications, independence and performance of the Company's independent accountants. The Board has determined that Mr. James B. Lipham is an audit committee financial expert as defined by Item 407 of Regulation S-K promulgated by the SEC. The Board of Directors has determined that all current members of the Audit Committee, as well as the proposed members of the Audit Committee, are independent and financially literate as those terms are used under the applicable rules of the NYSE. During the fiscal year ended December 31, 2007, the Audit Committee held 13 meetings.

Compensation Committee. Messrs. Robert J. Marino (Chairman), Jack Pearlstein and Collin E. Roche are members of the Compensation Committee. The Board has adopted a written charter for the Compensation Committee. The Board of Directors has determined that all of the members of the Compensation Committee, except Mr. Roche, are independent, as that term is used under applicable rules of the NYSE. The Board has adopted a written charter for the Compensation Committee. The primary functions of the Compensation Committee are to review and make decisions regarding compensation of the Company's executive officers and make recommendations regarding compensation of non-employee members of the Company's Board and to review and make recommendations or decisions regarding incentive compensation and equity-based compensation plans. During the fiscal year ended December 31, 2007, the Compensation Committee held 6 meetings. On April 1, 2008, Mr. Robert J. Gerrard, Jr. was appointed to the Compensation Committee.

Nominating and Corporate Governance Committee. Messrs. Timothy A. Samples (Chairman), David A. Donnini and Jason Few are members of the Nominating and Corporate Governance Committee. The Board has adopted a written charter for the Nominating Committee. The primary functions of the Committee are to identify and to recommend to the Board the selection of Director nominees for each Annual Meeting of Shareholders or for any vacancies on the Board and to make recommendations to the Board regarding the adoption or amendment of corporate governance principles applicable to the Company. The Board of Directors has determined that all current members of the Nominating and Corporate Governance Committee, except Mr. Donnini, are independent, as that term is used under applicable rules of the NYSE. During the fiscal year ended December 31, 2007, the Nominating and Corporate Governance Committee held 4 meetings.

Corporate Governance

The Board has adopted Corporate Governance Guidelines to address significant corporate governance issues. The guidelines, as well as all Board committee charters, the Company's Code of Business Conduct, the Company's Insider Trading Policy and the Code of Ethics for Senior Financial Employees are available on the Company's website, www.syniverse.com at the Investors tab, under Corporate Governance Highlights. The information on the Company's website is not incorporated by reference in this proxy statement. A printed copy of the above mentioned documents will be provided without charge upon written request to the Corporate Secretary of the Company at 8125 Highwoods Palm Way, Tampa, FL 33647.

Director Independence

The listing standards of the NYSE provide that a majority of the Board must meet the requirements for being an independent director, including the requirement that the Board affirmatively determine that the Director has no material relationship with the Company. Prior to November 7, 2007 the Company was exempt from this requirement pursuant to the controlled company exceptions to the NYSE rules. To guide the determination of whether a Director is independent, the NYSE has adopted the following categorical standards:

A Director will not be independent if, within the preceding three years: (i) the Director was employed by the Company or any of its direct or indirect subsidiaries or affiliates; (ii) an immediate family member of the Director was employed by the Company as an executive officer; (iii) the Director, or an immediate family member of the Director, received more than \$120,000 per year in direct compensation from the Company, other than Director and committee fees and pension or other forms of deferred compensation not contingent on continued service; (iv) the Director was employed by or affiliated with the Company's present or former internal auditors or independent auditors; (v) an immediate family member of the Director was affiliated with or employed in a professional capacity by the Company's present or former internal auditors or independent auditors; (vi) the Director was employed, or an immediate family member of the Director was employed, as an executive officer of another company where any of the Company's present executive officers served on such other company's Compensation Committee; or (vii) the Director of the Company was an executive officer or an employee, or an immediate family member of the Director was an executive officer, of another company that makes payments to, or receives payments from, the Company for property or services in an amount which, in any single fiscal year, exceeds the greater of (a) \$1,000,000, or (b) two percent (2%) of such other company's consolidated gross revenues.

After applying the standards set forth above, the Board determined that Messrs. Marino, Few, Lipham, Pearlstein, Samples and Gerrard have no material relationship with the Company and that each is independent under the categorical standards and the applicable requirements of the NYSE.

Additionally, a Director who is a member of the Company's Audit Committee will not be independent if such Director: (i) other than in his or her capacity as a member of the Audit Committee, the Board or any other Board committee, accepts directly or indirectly any consulting, advisory or other compensatory fee from the Company or any subsidiary (except for retirement benefits to the extent permitted by applicable SEC rules); or (ii) is an affiliated person (as defined by the SEC) of the Company or any subsidiary. Each of the members of the audit committee is independent under these additional standards.

Shareholder Recommendations

Shareholders wishing to recommend candidates to serve on the Company's Board may do so by sending a timely notice to the attention of the Chairman of the Nominating and Corporate Governance Committee in care of the Company's executive offices at 8125 Highwoods Palm Way, Tampa, Florida 33647. The notice must contain the following: the candidate's name, a detailed biography outlining the candidate's relevant background, professional and business experience and other significant accomplishments, an acknowledgement from the candidate that he or she would be willing to serve on the Board, if elected, a statement by the shareholder outlining the reasons why this candidate's skills, experience and background would make a valuable contribution to the Board and a minimum of two references who have either worked with the candidate, served on a Board of Directors or Board of Trustees with the candidate, or can otherwise provide relevant perspective on the candidate's capabilities as a potential Board member. For more information on consideration of nominees for our Board, see Shareholder Proposals for 2009 on page 41.

Candidates for Director who are properly recommended by the Company's shareholders will be evaluated in the same manner as any other candidate for Director. The Nominating and Corporate Governance Committee may require the candidate to furnish other information as the Committee may reasonably request to assist the Committee in determining the eligibility of the candidate to serve as a Director. The Committee (or the presiding officer at any meeting of the shareholders) may disregard the purported nomination of any person not made in compliance with these procedures.

Director Qualification Standards and Evaluation Process

The Nominating and Corporate Governance Committee seeks to align Board composition with the Company's strategic direction so that the Board members bring skills, experience and backgrounds that are relevant to the key strategic and operational issues that they will oversee and approve. Director candidates are typically selected based upon their character, track record of accomplishment in leadership roles, as well as their professional and corporate expertise, skills and experience. Criteria that are typically considered by the Board in the selection of directors include:

- (i) the independence, judgment, strength of character, reputation in the business community, ethics and integrity of the individual;
- (ii) the business or other relevant experience, skills and knowledge that the individual may have that will enable him/her to provide effective oversight of the Company's business;
- (iii) the fit of the individual's skill set and personality with those of the other Board members so as to build a Board that works together effectively and constructively; and
- (iv) the individual's ability to devote sufficient time to carry out his or her responsibilities as a director in light of his/her occupation and the number of boards of directors of other public companies on which he or she serves.

These are only threshold criteria, however, and the Nominating and Corporate Governance Committee will also consider the contributions that a candidate can be expected to make to the collective functioning of the Board based upon the totality of the candidate's credentials, experience and expertise, the composition of the Board at the time, and other relevant circumstances.

The Board of Directors selects new director candidates based on the recommendation of the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee identifies, screens and recruits potential candidates for membership on the Board of Directors, taking into account the needs of the Company and the Board at the time and using the criteria set forth above. The Nominating and Corporate Governance Committee identifies potential nominees through its network of contacts (including from our shareholders) or, from time to time, the Committee has engaged the services of a professional search firm to assist the Committee in identifying and evaluating potential director candidates.

In cases when a professional search firm is engaged, it will assist the Nominating and Corporate Governance Committee in identifying potential candidates that fit the Board's search criteria (using databases and other resources); obtaining candidate resumes and other biographic information; conducting initial interviews to assess candidates' qualifications, fit and interest in serving on the Board; scheduling interviews with the Chairman of the Nominating and Corporate Governance Committee and other members of the Board and management; performing reference checks; and assisting in finalizing arrangements with candidates who receive an offer to join the Board.

Mr. Gerrard was recommended as a nominee to serve on the Board through a professional search firm retained by the Nominating and Corporate Governance Committee. The recommendation was based on his credentials and extensive experience in legal and human resources at the executive level. Mr. Gerrard was interviewed by the Chairman of the Board, the Chairman of the Nominating and Corporate Governance Committee and each of its members, and the Company's Chief Executive Officer, all of which recommended that his candidacy be considered by the full Board.

Mr. Few was recommended as a nominee to serve on the Board through a professional search firm retained by the Nominating and Corporate Governance Committee. The recommendation was based on his credentials and extensive technology experience in the telecommunications industry. Mr. Few was interviewed by the Chairman of the Board, the Chairman of the Nominating and Corporate Governance Committee and each of its members, and the Company's Chief Executive Officer, all of which recommended that his candidacy be considered by the full Board.

Mr. Samples was recommended as a nominee to serve on the Board on the recommendation of GTCR Golder Rauner, L.L.C., a substantial shareholder of the Company. The recommendation was based on his credentials and extensive international experience and board experience for similarly situated companies. Mr. Samples was interviewed by the Chairman of the Board, the Chairman of the Nominating and Corporate Governance Committee and each of its members, and the Company's Chief Executive Officer, all of which recommended that his candidacy be considered by the full Board.

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Philosophy and Objectives

The Company's compensation program for its executive officers is designed to attract, motivate, reward and retain key executives and employees to enhance shareholder value by emphasizing performance-based compensation. The program is directed towards motivating executives to achieve the business objectives of the Company, to reward them for their achievement and to attract and retain executive officers that contribute to the long-term success of the Company. The Company believes that these compensation programs link performance to both annual and long-term goals and objectives.

Our policy for allocating between currently paid and long-term compensation is to provide adequate base compensation to attract and retain personnel, while offering incentives to maximize long-term value for our shareholders. Our policy provides us the flexibility to allocate between short-term and long-term compensation and between cash and equity-based compensation. We provide cash compensation in the form of a base salary to meet competitive salary norms. In addition, we provide annual cash bonuses which reward executive performance against short-term goals. We also believe that our compensation philosophy should not be based solely on short-term results, whether favorable or unfavorable, but rather on long-term operating results which truly reflect the ability of our executives to manage the Company. Long-term gains in shareholder value will be reflected in executive compensation through our 2006 Long-Term Equity Incentive Plan.

The primary objectives of our compensation program are:

to attract and retain the best possible executive talent;

to achieve accountability for performance by linking annual cash incentive compensation to the achievement of measurable performance objectives; and

to align executive officers' incentives with increases in shareholder value and the achievement of corporate objectives.

The amount of aggregate compensation is determined by the Compensation committee, which considers the following factors to determine the amount of compensation and combination of elements to pay each Named Executive Officer (NEO):

Performance against corporate objectives for the year;

Value of an individual's unique skills and capabilities to support our objectives;

Contribution as a member of the executive management team; and

Relevant market data for comparable positions in comparable companies.

Oversight of Compensation Program

The Compensation Committee of our Board of Directors designs, administers and oversees the compensation policies for the Company's executive officers and directors. The Compensation Committee is also responsible for approving the equity compensation of executive officers under the Company's long-term equity incentive plans. The Compensation Committee has reviewed all components of the CEO's and NEOs compensation, including salary, bonus, equity and long-term incentive compensation, the dollar value to the executive and cost to the Company of all perquisites and other personal benefits, and under several potential severance and change-in-control scenarios.

An important aspect of the Compensation Committee's responsibilities relates to the determination of compensation for company executives, including the Chief Executive Officer. The Compensation Committee has the authority to engage outside advisors to assist it in fulfilling these responsibilities. For the past several years,

the Committee has retained Mercer Human Resource Consulting (Mercer) as its third party advisor. In this capacity, Mercer reports directly to the Compensation Committee, and the Compensation Committee directs Mercer s work. In 2007, the Compensation Committee directed Mercer to provide assistance with certain aspects of the Company s executive compensation disclosure but did not request an updated market study given the limited amount of time which has passed since the 2006 study was completed and the limited extent of changes to the executive pay program being contemplated in 2007. Accordingly, the 2006 competitive market study continued to be used by the Compensation Committee as a basis for its 2007 decision making.

Determining Executive Compensation

Peer Group Analysis. In making compensation decisions with respect to the total compensation opportunity provided to the Company s NEOs, the Compensation Committee considers the competitive market for executives and compensation levels provided by comparable companies to similarly situated executives and seeks to provide compensation that is in the competitive range of compensation observed in the marketplace. In determining the total compensation package for the executive officers, the Compensation Committee, with the assistance of independent consultants in 2006, considered national and industry salary surveys giving consideration to a Peer Group. The Peer Group included the following companies: Transaction Systems Architects, RSA Security, Inc., Akamai Technologies, Verisign Inc., Total System Services Inc., Global Payments, Inc., Checkfree Corp, Ipayment, Inc., Efunds Corp, Verifone Holdings, Inc., Tibco Software, Inc., Openwave Systems, Inc., CSG Systems Intl. Inc., TNS, Inc., Digital Insight Corp., Open Solutions, Inc. and Intervoice, Inc. The 17 companies, referred to herein as the Peer Group, were selected based on a variety of criteria including industry focus, company size, and profitability. In terms of size, the peer companies ranged from approximately half to four times the size of the Company as measured by annual revenues, total assets, and market capitalization; with median Peer Group statistics that were close to the Company s size and profitability.

In addition to market pay data from peer companies, the Company utilized executive compensation surveys to obtain market pay data for comparable positions in similar companies. As further described below, we also used country or region specific surveys for certain of our executives who are not located in the United States.

Competitive and Pay-for-Performance Analysis. In 2006, the Compensation Committee instructed Mercer to provide competitive and pay-for-performance compensation analysis to the Compensation Committee for use in determining the pay of the CEO and other senior executive officers and to insure that our overall executive compensation program was aligned with shareholder interests. One of the initial forms of analysis Mercer conducted was to review the Company s use of competitive pay data related to setting salaries, targeting annual incentive award opportunities and targeting long-term incentive grants. This independent analysis confirmed that the Company s use of compensation data and its method of calculating equity values are both reasonable and generally consistent with the practices of other companies.

The Compensation Committee last conducted the Peer Group and Competitive and Pay-for-Performance analyses in 2006 with respect to compensation for the Company s executive officers, and did not do so in 2007 because the Compensation Committee believes it is not necessary to extensively review compensation practices of peer companies on an annual basis in order to maintain a competitively attractive compensation program.

Named Executive Officers Role in Determining Compensation. The compensation of our NEOs is reviewed and approved annually by the Board of Directors upon the recommendation of the Compensation Committee. The Compensation Committee considers the views and recommendations of our Chief Executive Officer and Chief Human Resources Officer in making compensation decisions affecting other executive officers. The Chief Executive Officer s and Chief Human Resources Officer s roles in recommending compensation programs is to develop and recommend appropriate performance measures and targets for individual compensation levels and compile competitive benchmark data as described above. For example, in 2007, our Chief Human Resources Officer presented benchmark data to the Compensation Committee as described below with respect to the compensation decisions for Messrs. Bergen Henegouwen, Cheung and Hitchcock. The Chief Executive Officer and Chief Human Resources Officer do not participate in the discussions or decisions regarding their compensation.

Performance Review. Key goals and objectives for each executive are established at the beginning of each year. These goals and objectives include specific quantitative measures as well as qualitative measures such as leadership, development of strategic and operational plans, development of new market opportunities and process improvements. The Compensation Committee, along with the Board of Directors, reviewed each executive's performance relative to the key goals and objectives at year end.

Executive Compensation Programs

Our executive officer compensation (which as more fully described below) consists of:

Base salary;

Annual incentive compensation; and

Long term equity incentive compensation.

In addition we have entered into an employment agreement with each of the NEOs that provides for severance upon certain termination events. Each of these elements is discussed in more detail below:

Base Salary. We provide a base salary to attract and retain executive officers and compensate them for their services during the year. The level of base salary paid to the executive officers of the Company is determined, in part, on market data provided in the 2006 competitive market study. Salary ranges and individual salaries for senior executives are reviewed annually. In determining individual salaries, the Compensation Committee considers the scope of job responsibilities, business performance, individual performance, subjective assessments, external labor market conditions, company performance and other factors when determining salary adjustments.

The Compensation Committee generally seeks to target base salaries for executive officers between the 50th and 75th percentile of the market data previously considered by the Company as provided in the 2006 competitive market study, taking into account the nature of the position, the responsibilities, skills and experience of the executive and his or her performance. Based on guidance from Mercer, the Compensation Committee considers compensation to be competitive and aligned with the Company's pay strategy if it falls within +/- 20% of the targeted positioning (i.e., if the Market Position Relative to the 50th Percentile is between 80% and 120% of the 50th percentile). Furthermore, the Compensation Committee considers the targeted positioning in aggregate for the group of NEOs. This allows the Compensation Committee necessary flexibility to make pay decisions reflecting factors beyond market data while adhering to the overall pay strategy.

During 2007, the Compensation Committee considered the base salary of the NEOs based on previously provided benchmark data provided in the 2006 competitive market study. Two of the five NEOs have a base salary aligned (based on the standard described above) with the target positioning between the 50th and 75th percentile of the benchmark data previously provided by Mercer in 2006, which was comprised of a blend of published executive compensation survey data and Peer Group data. The published survey data for U.S. positions was obtained from various compensation surveys, including Mercer's Americas Executive Remuneration Database (AERD), Watson Wyatt's Report on Top Management's Compensation and Radford's executive compensation survey data base, in each case as of 2006.

The following table provides the market positioning of each NEO's current salary relative to the 2006 competitive market survey results:

Named Executive Officer	Market Position Relative to 50th Percentile	Market Position Relative to 75th Percentile
Tony Holcombe	98%	82%
David Hitchcock	121%	107%
Paul Wilcock	109%	99%
Eugene Bergen Henegouwen	139%	123%
Raymond Cheung	139%	118%

Mr. Hitchcock was hired on June 4, 2007. Although the Compensation Committee reviewed and considered the competitive market when establishing his base salary, the Committee also considered other factors such as his salary level with his former employer, his experience, his ability to make an immediate contribution to Syniverse, and the need to successfully fill this position on a timely basis. Accordingly, the Compensation Committee determined that the approved salary level was necessary and appropriate to successfully recruit this highly-qualified candidate.

Mr. Bergen Henegouwen's salary is actually denominated in Euros and was increased from 250,000 to 300,000 in 2007. The Compensation Committee determined the level of Mr. Bergen Henegouwen's base salary was appropriate based upon his geographic location, the strategic importance of the markets in Europe, the Middle East, and Africa to the Company, the competitiveness of the local labor market, his depth and breadth of relevant experience, and the desirability of maintaining stability in a key overseas leadership position.

Mr. Cheung's salary is denominated in US Dollars and was increased from \$217,431 in 2006 to \$300,000 in 2007. Mr. Cheung was the principle executive at ITHL when it was acquired by the Company and had considerable equity in ITHL. The Compensation Committee thought it was imperative to provide Mr. Cheung with a very competitive salary to encourage him to stay with the Company and to recognize the increased role he would take in growing the strategically important Asia Pacific Region for the Company. Mr. Cheung was promoted to Executive Vice President recognizing the strategic importance of his leadership in the Asia Pacific Region for the Company.

Based on these factors, the following salary adjustments were approved by the Compensation Committee in 2007:

Name and Principal Position	December 31,		Percent Change
	2006 Salary	2007 Salary	
Tony G. Holcombe President & Chief Executive Officer	\$ 500,000	\$ 500,000	0.0%
David W. Hitchcock Executive Vice President & Chief Financial Officer	\$	\$ 350,000	N/A
Eugene Bergen Henegouwen ⁽¹⁾⁽²⁾ Executive Vice President and Managing Director, Europe, Middle East, and Africa	\$ 393,500	\$ 472,000	19.9%
Raymond Cheung ⁽³⁾ Executive Vice President, Chief Executive Officer, Asia Pacific	\$ 217,431	\$ 300,000	38.0%
Paul Wilcock Former Chief Technology Officer ⁽⁴⁾	\$ 300,000	\$ 300,000	0.0%

(1) Mr. Bergen's base salary was increased from 250,000 in 2006 to 300,000 at the February 22, 2007 Compensation Committee meeting due to his promotion to Executive Vice President and Managing Director, Europe, Middle East, and Africa.

(2) The conversion rate was \$1.574 dollars per Euro.

(3) Mr. Cheung's base salary was increased from \$217,431 in 2006 to \$300,000 at the February 22, 2007 Compensation Committee meeting due to his promotion to Executive Vice President, Chief Executive Officer, Asia Pacific.

(4) As of March 31, 2008, Mr. Wilcock was no longer with the Company.

Annual Incentive Compensation. The purpose of the annual incentive plan is to reinforce a results-oriented management culture by providing opportunities to earn cash incentive awards that vary according to performance. Bonuses under the plan are payable in cash and are significantly conditioned upon two corporate

financial measures. Eighty percent (80%) of each NEO's annual incentive plan compensation is conditioned upon the Company achieving net revenue and adjusted EBITDA performance targets more fully described below. The remaining twenty percent (20%) is based on the NEO achieving individual performance objectives. The Compensation Committee also may adjust annual incentive compensation based on individual performance ratings.

The Company's net revenue goal for 2007 was \$330 million and its adjusted EBITDA goal was \$127 million. The annual incentive plan allows for bonus payments if the Company achieved 98.5% of the net revenue goal and 98.4% of the adjusted EBITDA goal. For purposes of determining whether these targets have been achieved, the net revenue target is calculated in accordance with GAAP, and the adjusted EBITDA target is calculated by adding the following to net income (loss): net interest expense, provision for income taxes, depreciation, amortization, restructuring charges, loss on extinguishment of debt, headquarters facilities move expenses, the transition expenses of integrating the IOS North America business, loss from disposal of assets, SFAS 123R non-cash compensation, data processing contract termination fee, litigation settlement and less non-operating gains. Bonuses are a percentage of the executive's base salary. In 2007, bonus potential ranged from 0% to 100% of NEO base salaries.

The table below sets forth the percentage of each NEO's base salary payable upon the Company achieving the financial performance goals described above and assuming a full award for the portion based on individual strategic objectives.

	Threshold	Target	Maximum
Performance Range (\$ Millions)			
Net Revenue	\$ 325	\$ 330	\$ 335
Adjusted EBITDA	\$ 125	\$ 127	\$ 130
Payout Range (% of Base Salary)			
Tony Holcombe	45.0%	60.0%	100.0%
David Hitchcock	45.0%	60.0%	72.0%
Eugene Bergen Henegouwen	37.5%	50.0%	60.0%
Raymond Cheung	25.0%	50.0%	91.6%
Paul Wilcock	37.5%	50.0%	60.0%
Raymond Lawless	37.5%	50.0%	60.0%

of the integration of the Asia Pacific team, achieving employee stability, achieving expense controls, cross selling in Asia Pacific, and expanding into India and China.

Paul Wilcock Mr. Wilcock's individual objectives were comprised of: achieving improved service quality, achieving cost management objectives, implementation of new clients, developing an offshore technology plan, and developing a global support plan. As of March 31, 2008, Mr. Wilcock was no longer with the Company.

Raymond Lawless Mr. Lawless's individual objectives were comprised of: participating in the BSG Wireless acquisition, achieving forecasting accuracy, preparation of the 2007 budget, ensuring Sarbanes-Oxley compliance, resolution of billing issues, and implementation of a redesigned financial reporting presentation. As of May 31, 2007, Mr. Lawless was no longer with the Company.

If corporate financial performance thresholds are achieved, an individual's annual incentive award can be impacted by individual performance, subjective assessments and other factors. When the corporate financial performance thresholds are achieved, the Compensation Committee retains the flexibility to consider these factors to increase or decrease incentive amounts, if in its judgment, such adjustments would better align compensation and performance for a particular individual.

Individual performance targets are set at the beginning of each calendar year. The Chief Executive Officer qualitatively assesses each individual's performance against the relevant targets, presents and discusses those assessments with the Board of Directors, which subsequently engages in a further qualitative assessment of the individual performances. The Board of Directors qualitatively assesses the Chief Executive Officer's performance against the relevant targets. The Compensation Committee believes that the ability to use qualitative factors in this manner improves the correlation between an individual's compensation and performance.

The Company's policies and plan designs allow the Compensation Committee to exercise discretion when determining individual incentive compensation awards. Although discretion can be exercised under any circumstance to reduce award levels, the Compensation Committee exercises discretion to increase award levels only if threshold levels of corporate performance are achieved.

The Company performed extremely well in 2007. Total revenues for the year were \$377.5 million and adjusted EBITDA was \$155.9 million. These performance results exceeded the maximum performance goals for the Company in 2007. Individually and collectively the executives also performed at a very high level in 2007, achieving the maximum performance goals established for them at the beginning of the year under the annual incentive plan. As a result, payouts to the NEOs under the 2007 annual incentive plan were at maximum payout levels. This is in sharp contrast to 2006, when minimum performance goals were not achieved and no annual incentive compensation awards were provided to the NEOs.

In evaluating the incentive payout levels in relation to the Company's performance and each executive's contribution during the year, the Compensation Committee decided to apply its discretion under the plan design to increase incentive awards for certain participants. In exercising this discretion, the Compensation Committee considered each executive's overall performance rating under the Company's performance management system, which measures and assesses a broader array of performance factors and objectives than are typically included in the individual component of the annual incentive plan. The following table provides the breakdown between the payouts applicable to the annual incentive plan design and the payouts applicable to the Compensation Committee's discretion:

Named Executive Officer	Plan Design	Discretionary	Total
Tony Holcombe	\$ 360,000	\$ 65,000	\$ 425,000
David Hitchcock	\$ 252,000	\$ 63,000	\$ 315,000
Eugene Bergen Henegouwen	\$ 265,122	\$ 66,281	\$ 331,403
Paul Wilcock	\$ 123,750	\$ 0	\$ 123,750
Raymond Cheung	\$ 76,947	\$ 0	\$ 76,947

Long-Term Equity Incentive Plan. The Compensation Committee believes that long-term equity compensation performs an essential role in retaining executives and providing them long-term incentives to maximize shareholder value. The Company's 2006 Long-Term Equity Incentive Plan provides, among other things, that stock options and non-vested stock awards may be granted to the Chief Executive Officer, executive officers, and other key associates who contribute to the long-term success of the Company.

Development of the Plan. During 2006, our Chief Executive Officer recommended two alternative proposals for a long-term equity incentive plan, based on management levels, for executives and employees other than himself and the allocation between the form of awards (i.e. options and restricted stock) to the Compensation Committee. The Chief Executive Officer's recommendation was based on:

survey and market data for comparable positions in comparable companies;

the estimated grant date value of options and restricted shares;

the intended grant frequency of the restricted stock portion;

the performance of the Company;

internal equity among the executive positions;

accounting costs;

impact on annual grant rate and equity overhang; and

the impact on shares available for grant under the equity plan.

The two alternative proposals recommended by our Chief Executive Officer provided for a five (5) year equity award program. In addition, these proposals delineated the amount of long-term awards based upon a person's position in the Company (e.g. vice president, executive vice president, etc.) and did not take into account individual performance. One proposal provided for stock option grants and restricted stock to executive officers and restricted stock to lower level executives and directors, while a second plan provided for stock option grants and restricted stock to executive officers, lower level executives and directors. The Compensation Committee evaluated the Chief Executive Officer's proposals in light of the factors described above and data and analysis compiled by the Company and reviewed by outside consultants, including Mercer. Based on this evaluation, the Compensation Committee approved the first proposal, as modified by the Compensation Committee, which they determined appropriately addressed the goals of retaining executives and providing them long-term incentives to maximize shareholder value, and based in part to what was viewed as a more favorable anticipated burn rate, overhang and run rate of the proposal.

With respect to long-term equity awards to the Chief Executive Officer, the Compensation Committee, without the Chief Executive Officer's participation, considered analysis prepared by the Company and reviewed by outside consultants, survey and market data for comparable positions, that the award would be part of a five (5) year equity program, and the factors described above. Based on this information, the Compensation Committee made its determination of the appropriate long-term equity incentive award for the Chief Executive Officer.

Pursuant to the Company's 2006 Long-Term Equity Incentive Plan, targeted long-term incentive compensation for 2007 was delivered in the form of non-qualified stock options and non-vested stock grants and will also be delivered in this form in 2008. As described above, the Compensation Committee determines the number of incentive awards granted to our NEOs based on the executive's level at the Company. In respect to long-term incentives, individual performance and other subjective factors are not taken into consideration in granting these awards and they vest based on continued service over time with the company. For instance, while the Compensation Committee may exercise discretion with respect to base salary for the purpose of attracting executives to the Company, the Compensation Committee typically does not exercise discretion with respect to the number of incentive awards granted to a new executive.

The Company's long-term equity incentive program is structured to provide designated grants by executive level within the organization. This structured program consists of a fixed number of restricted shares granted once upon entering the program and a fixed number of stock options granted annually over five years (with the first grant occurring upon entering the program and each annual grant occurring over the next four years). The Compensation Committee believes this approach creates strong performance and retention incentives and is relatively simple to explain and administer.

When the program was established, the fixed grant levels were developed in part by consideration of competitive market data provided by the Human Resource department for long-term incentive award levels in similar size technology companies as reported in the Radford Compensation Survey. In the subsequent Mercer analysis, the annualized value of the fixed grant guidelines were compared to market using a blend of Peer Group and published survey data. In order to allow for appropriate comparisons to market, Mercer annualized the grant value by including 20% of the restricted stock grant value and 100% of the stock option grant value. This reflects the annualized value of the equity grant structure because the restricted stock awards are only granted once over the five year period and therefore need to be annualized over this period of time.

The Compensation Committee approves all long-term incentive awards. During 2007, the Compensation Committee approved awards of options, which vest ratably over three years, to purchase 686,700 shares of the Company's common stock and 334,000 shares of restricted stock, which vest ratably over five years. In terms of the NEO, Mr. Holcombe was granted 100,000 options. Mr. Wilcock was granted 40,000 options. Mr. Bergen Henegouwen was granted 15,000 restricted shares and 40,000 options. Mr. Cheung was granted 40,000 restricted shares and 40,000 options. Mr. Hitchcock was granted 60,000 restricted shares and 40,000 options.

The following table provides the market positioning of the Company's grant structure for each NEO using the methodology described above:

Named Executive Officer	Market Position	Market Position
	Relative to 50th Percentile	Relative to 75th Percentile
Tony Holcombe	94%	51%
David Hitchcock	107%	59%
Paul Wilcock	142%	83%
Eugene Bergen Henegouwen	125%	82%
Raymond Cheung	96%	62%

As the table above illustrates, the grant structure is generally positioned between the 50th and 75th percentile for the NEOs.

Mr. Holcombe's and Mr. Wilcock's grants were part of the Company's annual grant process. Mr. Bergen Henegouwen and Mr. Cheung were promoted to Executive Vice President in 2007 and were granted restricted shares and options consistent with an Executive Vice President level position. Mr. Hitchcock's restricted shares and options were granted as part of his employment agreement and were based on the 2006 market survey.

We make no attempt to influence executive compensation by timing the stock option grants in coordination with disclosure of material information to the public which may result in an increase or decrease of the stock price. The exercise price of stock options granted under the 2006 Long-Term Equity Incentive Plan is the closing price of the Company common stock on the grant date (in cases where they are being offered to a potential employee prior to his or her hire, the date of hire is the grant date). When an option is granted the exercise price may not be less than one hundred percent (100%) of the fair market value of the Company's common stock on the date of grant.

Perquisites. We do not currently provide a pension plan (except as described in footnote (1) under the Pension Benefit Table), deferred compensation program, post-retirement health coverage, or similar benefits for our executives or employees. The employee benefit plans provided in 2007 included the following:

We sponsor a 401(k) plan. All employees who participated in the 401(k) plan received a 2% core contribution and a 3% company match assuming they contribute at least 4% to the plan, up to the federal limit.

We maintain health, dental and insurance plans. All employees, including executives, pay a portion of premiums due for health coverage. We also provide basic employee life insurance and accidental death and dismemberment coverage of the lesser of 1 times base salary or \$350,000 as well as short-term disability coverage at no cost to the employee.

Post-Employment Compensation Arrangements Arising From a Change in Control

The Compensation Committee believes that change-in-control agreements should be provided only for executive positions that can materially affect the consummation of a change-in-control transaction and that are likely to be materially affected by a change-in-control. Included in the terms of certain of our NEOs employment agreements are provisions that provide benefits to such NEOs in the event of a change in control.

These agreements are consistent with the Compensation Committee's overall objective of aligning executive and shareholder interests in that they provide adequate protection to these individuals in the event of job loss following a transaction. Absent these protections, the executives may not pursue certain transactions that would benefit shareholders due to the negative personal consequences of job loss. In addition, these provisions enhance the Company's ability to retain a stable leadership team in an industry which has experienced consolidation in recent years.

The terms of these programs were based on prevailing practices at the time the agreements were entered into; as well as competitive pressures in securing the candidates' employment. There are no cash payouts under these change-in-control agreements other than the potential for a market-competitive severance payment following an involuntary termination of employment or a voluntary resignation for good reason within a specified time of a change-in-control. In addition to a potential severance payment upon separation from service, any remaining vesting period on outstanding equity-based compensation awards is accelerated by the change-in-control event itself.

The Compensation Committee considers each compensation decision in the context of total compensation. These change-in-control agreements are a component of total compensation and therefore are considered by the Compensation Committee in its decision making process. To date, the Compensation Committee has not made any positive or negative adjustment to another pay component in direct reflection of these agreements.

Change-in-control means any transaction or series of transactions pursuant to which any person or group of related persons, other than the certain specified investors or their affiliates, in the aggregate acquire(s):

beneficial ownership (within the meaning of Rule 13d-3 under the Securities Exchange Act of 1934) of equity securities of the Company or possessing the voting power (other than voting rights accruing only in the event of a default, breach or event of noncompliance that has not yet occurred) to elect a majority of the Board of Directors (whether by merger, consolidation, reorganization, combination, sale or transfer of the Company's equity, security holder or voting agreement, proxy, power of attorney or otherwise) or

all or substantially all of the Company's assets determined on a consolidated basis; provided that a public offering shall not constitute a Change-in-control.

The following table shows the estimated value of benefits to the NEOs under the employment agreements applicable to them if a change of control occurred on and a right to receive change in control benefits and severance were triggered as of December 31, 2007.

Chief Executive Officer Compensation

The chief executive officer's compensation package is determined using the Company's guiding principles as described above. Mr. Holcombe's initial annual base salary was set forth in his senior management agreement with the Company entered into in January 9, 2006. Mr. Holcombe's 2007 base salary of \$500,000 is within the median base salaries paid to individuals in similar positions in our Peer Group. Mr. Holcombe's total cash compensation (base salary, annual incentive) is within the 50th percentile in total cash compensation paid to individuals in similar positions in similar sized companies in our Peer Group. On March 24, 2008 Mr. Holcombe's salary was increased to \$535,000 based on his outstanding performance in 2007 as determined by the Compensation Committee.

Equity Compensation

Stock Option Plans. On May 16, 2002, our Board of Directors adopted a Founders' Stock Option Plan for non-employee directors, executives and other key employees of Syniverse Inc. In addition, the Board of Directors adopted a Directors' Stock Option Plan on August 2, 2002, which provides for grants to independent

directors to purchase 20,000 shares upon election to the board. The plans have a term of five years and provided for the granting of options to purchase shares of Syniverse Inc.'s non-voting Class B common stock. As part of our initial public offering, we reclassified the Class B common stock into our common stock and hence all of our options now provide for purchase of our common stock.

Under the plans, the options have or will have an initial exercise price based on the fair value of each share, as determined by the Board. The per share exercise price of each stock option will not be less than the fair market value of the stock on the date of the grant or, in the case of an equity holder owning more than 10% of the outstanding stock of Syniverse Inc., the price for incentive stock options is not less than 110% of such fair market value. The Board of Syniverse Inc. reserved 402,400 shares of common stock, par value \$.001 per share for issuance under the Founders' plan and 160,360 shares under the Directors' plan. We do not currently expect to repurchase shares from any source to satisfy such obligation under the Plan.

Both the Founder's Stock Option Plan and the Directors' Stock Option Plan have expired and the Board of Syniverse, Inc. no longer grants options for these plans. There were options to purchase 236,739 shares outstanding under the Founder's Stock Option Plan and options to purchase 100,240 shares outstanding under the Directors' Stock Option Plan at December 31, 2007.

All options issued under the plans are presumed to be nonqualified stock options unless otherwise indicated in the option agreement. Each option has an exercisable life of no more than 10 years from the date of grant for both nonqualified and incentive stock options in the case of grants under the Founders' Stock Option Plan and under the Directors' Stock Option Plan. Generally, the options under these plans vest 20% after the first year and 5% per quarter thereafter.

2006 Long-Term Equity Incentive Plan. We adopted the 2006 Long-Term Equity Incentive Plan in May 2006 (Equity Incentive Plan). The Equity Incentive Plan provides for grants of stock options, restricted stock, restricted stock units and performance awards. Directors, officers and employees of the Company and its subsidiaries, as well as others who engage in services for the Company and its subsidiaries, are eligible for grants under the plan.

The Equity Incentive Plan is intended to foster and promote our long-term financial success and increase shareholder value by strengthening our capabilities to develop and maintain a management team, motivating superior performance by linking long-term performance-related incentives to business performance, encouraging and providing for an ownership interest in the Company, attracting and maintaining qualified personnel by providing incentive compensation competitive with our peer companies and enabling officers and other key employees to participate in our long-term growth and financial success.

The Compensation Committee of our Board of Directors administers the Equity Incentive Plan. Our board also has the authority to administer the plan and to take all actions that the Compensation Committee is otherwise authorized to take under the plan. Grants will be awarded under the Equity Incentive Plan entirely at the discretion of the Compensation Committee.

The terms and conditions of each award made under the Equity Incentive Plan, including vesting requirements, will be set forth consistent with the plan in a written notice to the grantee. Except in limited circumstances, no award under the Equity Incentive Plan may vest and become exercisable within six months of the date of grant, unless the Compensation Committee determines otherwise. As of the year ended December 31, 2007, 867,700 options outstanding, which vest 33 1/3% per year, were granted to certain executive officers. As of the year ended December 31, 2007, 796,000 unvested restricted shares outstanding, which vest 20% per year, were granted to certain executive officers and other employees.

Pursuant to the terms of the Equity Incentive Plan, the Compensation Committee may not gross-up any grant under the Equity Incentive Plan for tax purposes or reprice any option or stock appreciation right (SAR), without prior shareholder approval, if the effect of such repricing would be to decrease the exercise price per

share applicable to such option or SAR. The Company is prohibited under the Equity Incentive Plan from loaning any funds to any grantee for the purpose of paying the exercise price or base price associated with any grant under the Equity Incentive Plan or for the purpose of paying any taxes associated with the exercise or vesting of any grant under the Equity Incentive Plan. In addition, the Compensation Committee may not grant to any one grantee in any one calendar year shares of restricted stock, restricted stock units or performance shares to purchase a number of shares of common stock in excess of 200,000 shares.

With the approval of the 2006 Long-Term Equity Incentive Plan, options are no longer granted from the Founders Stock Option Plan and the Non-Employer Directors Stock Option Plan.

(2) There are no unapproved equity compensation plans.

Tax Considerations. The Compensation Committee has considered the provisions of Section 162(m) of the Internal Revenue Code, which generally limits the annual tax deductibility of compensation paid to each NEO to \$1.0 million. To the extent possible, the Committee intends to preserve the federal income tax deductibility, but may choose to provide compensation that may not be deductible if it believes that such payments are in the best overall interests of the Company and its shareholders.

COMPENSATION COMMITTEE REPORT

Pension Benefits

The Company currently does not have a pension plan except in the case of Mr. Bergen Henegouwen, which is required by law. The table below shows the present value of accumulated benefits payable to each of the named executive officers, including the number of years of service credited to each such named executive officer, under each of the Retirement Plan and the Supplemental Retirement Plan determined using interest rate and mortality rate assumptions consistent with those used in the Company's financial statements.

Eugene Bergen Henegouwen Executive Vice President and Managing Director, Europe, Middle East and Africa	Collectief Pensioen (Unit linked collective pension plan) ⁽¹⁾	4	\$ 205,490	

- (1) The pension plan is a unit linked plan, meaning that the payments into the plan are invested in mutual funds during the participant's employment. At retirement, the mutual funds can only be used to buy an annuity. The retirement date under the pension plan is set at the age 62. Pursuant to Dutch tax law, the pension annuity is capped since the annuity at age 65 cannot be more than 100% of the salary at retirement. If the funds at retirement are higher than what is needed to buy such an annuity, the excess is either taxed at retirement or can be used to buy a fixed indexation of the pension annuity. Since the retirement date is set at age 62 instead of 65, the pension cap will need to be recalculated (reduced) actuarially at retirement. The plan qualifies as a qualified pension plan under Dutch tax law. The payments (pension premiums) are determined by the Ministry of Finance. Certain pension plan benefits will continue if Mr. Bergen Henegouwen becomes disabled.

2007 DIRECTOR COMPENSATION

Pursuant to the Syniverse Holdings, Inc. 2003 Non-Employee Director Compensation Plan, as amended and restated and in effect as of the date of this proxy statement, each non-employee and non-equity investor director receives \$50,000 as an annual retainer. The Chairman of the Board receives an additional \$50,000 annual retainer. In addition, the Chairmen of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee are entitled to additional annual retainers of \$20,000, \$15,000 and \$10,000, respectively. Each of the members of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee who are not chairmen of the committees is entitled to additional annual retainers of \$10,000, \$7,500 and \$5,000, respectively.

During 2006, until the 2003 Non-Employee Director Compensation Plan was amended as described below, a non-employee and non-equity investor director was entitled to \$40,000 as an annual retainer. In March 2006, the 2003 Non-Employee Director Compensation Plan was amended and restated to increase the annual retainer to \$50,000. Each of the members of the Audit Committee became entitled to an additional annual retainer of

\$5,000. In addition, the Chairmen of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee became entitled to additional annual retainers of \$15,000, \$10,000 and \$5,000, respectively. The Compensation Committee generally seeks to set director compensation between the 50th and 75th percentile of the Company's Peer Group of companies.

In late 2006, the Compensation Committee engaged Mercer to provide competitive pay data on outside director compensation levels and to recommend any changes that should be considered to the program design or pay levels. In conducting this analysis, Mercer relied on the same Peer Group that is used as part of the executive compensation review process. Based partly on Mercer's analysis and recommendations, the following changes were made to the outside director pay program in 2007:

Increasing the annual Audit Committee member retainer to \$10,000 (from \$5,000 previously);

Adding an annual Compensation Committee member retainer of \$7,500 ;

Adding an annual Nominating and Corporate Governance member retainer of \$5,000;

Increasing the annual Audit Committee Chairman retainer to \$20,000 (from \$15,000 previously);

Increasing the annual Compensation Committee Chairman retainer to \$15,000 (from \$10,000 previously); and,

Increasing the annual Nominating and Corporate Governance Committee Chairman retainer to \$10,000 (from \$5,000 previously). No changes were made to the annual base retainer for Board members.

Each non-employee and non-equity investor director receives an initial grant of 7,100 shares of restricted stock and 19,000 stock options. For new non-employee and non-equity investor directors, this grant of shares will be the earlier of election to the Board at an annual shareholders meeting or appointment to the Board. Thereafter, each non-employee and non-equity investor director will receive annual grants of 2,700 shares of restricted stock and 7,200 stock options upon election or re-election, as the case may be, at the annual shareholders meeting. In addition, the Chairman of the board will receive annual grants of 1,000 shares of restricted stock and 2,700 stock options upon election or re-election, as the case may be, at the annual shareholders meeting. During 2007, Mr. Marino received 8,100 restricted shares and 21,700 stock options as Chairman of the Board. During 2007, Messrs. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Registration Agreement

Under the registration agreement entered into in connection with our acquisition from Verizon, the holders of a majority of the GTCR investors registrable securities have the right at any time, subject to certain conditions, to require us, to register any or all of our securities under the Securities Act of 1933 on Form S-1, which we refer to as a long-form registration at our expense or on Form S-2 or Form S-3, which we refer to as a short-form registration at our expense. We are not required, however, to effect any such long-form registration within 90 days after the effective date of a previous long-form registration. In addition, all holders of registrable securities are entitled to request the inclusion of such securities in any registration statement at our expense whenever we propose to register any offering of our equity securities, other than pursuant to a registration on Form S-4 or Form S-8.

Stock Purchase Agreement

We are parties to a stock purchase agreement with Syniverse Holdings, LLC. In connection with our initial public offering and the dissolution of Syniverse Holdings, LLC, we amended the stock purchase agreement to provide that the rights of Syniverse Holdings, LLC under the stock purchase agreement will survive to the benefit of funds affiliated with GTCR.

Pursuant to the amended stock purchase agreement, the GTCR-affiliated funds are permitted to designate a representative to our Compensation and Nominating and Corporate Governance Committees so long as the funds affiliated with GTCR own at least 37.5% of the common stock that they owned immediately following our initial public offering and there is no prohibition against a GTCR designee serving on such committees under applicable law or under the rules of the New York Stock Exchange. The amended stock purchase agreement also requires us to obtain the consent of the GTCR-affiliated funds before issuing stock-based compensation to any of the executive officers with senior management agreements described below. The funds' rights under this provision will terminate when they cease to own at least 50% of the common stock they owned immediately following our initial public offering. Such termination of rights occurred on November 7, 2007 in connection with the secondary offering of common stock held by the GTCR-affiliated funds.

The amended stock purchase agreement also obligates us to deliver to the GTCR-affiliated funds financial statements, reports by accountants and an annual budget according to a specified schedule. The GTCR-affiliated funds may also inspect our properties, financial and corporate records as well as question our directors, officers, key employees and independent accountants regarding our finances and affairs. In each case, the GTCR-affiliated funds may suspend or terminate such obligations at their election from time to time by written notice.

Senior Management Agreements

Provisions Regarding Stock

In connection with our initial public offering, Syniverse Holdings, LLC was dissolved following the distribution to its members of our outstanding class A cumulative redeemable preferred stock and common stock.

Certain members of our management team, including Messrs. Wilcock, O'Brien, Nelson, Garcia and Bergen Henegouwen, entered into amended and restated senior management agreements on February 9, 2005 pursuant to which they acquired an aggregate of 989,891 shares of Carried Common in return for their common units of Syniverse Holdings, LLC. Their senior management agreements were amended and restated to add us as a party and to provide substantially the same rights, restrictions and vesting schedule as will apply to the shares of our common stock that they will receive under the amended agreements as apply to the Syniverse Holdings, LLC units that they surrendered upon the dissolution of Syniverse Holdings, LLC.

Under the terms of the amended and restated senior management agreements, we may be required to purchase a portion of the executive's unvested common stock in the event of his termination of employment. In the event of a termination, the purchase price for the unvested common stock will be the lesser of (i) the executive's original cost for such securities and (ii) the fair market value (each as defined in the amended and restated senior management agreements) of such securities as of the date of the repurchase notice.

Employment Provisions

Mr. Holcombe

Our senior management agreement with Mr. Holcombe also contains provisions relating to employment. See Executive Compensation and Other Information Employment and Severance Agreements for a description of the employment provisions of Mr. Holcombe's and other senior management team.

Related Party Approval Policy

The Corporate Governance and Nominating Committee of our Board of Directors is responsible for reviewing our Code of Business Conduct and other similar company codes and policies and for considering questions of possible conflicts of interest and related party transactions involving directors, executive officers, key employees and other related persons as defined by Item 404(a) of Regulation S-K. This obligation is set forth in writing in our Corporate Governance and Nominating Committee Charter, a copy of which is available on our Internet website at www.syniverse.com.

There were no relationships or related party transactions that occurred in the fiscal year ending December 31, 2007. We do not have a formal related party approval policy for transactions required to be disclosed pursuant to Item 404(a) of Regulation S-K. However, to identify related party transactions, each year, we require our directors and officers to complete Director and Officer Questionnaires identifying any transactions with us in which the officer or director or their family members have an interest. We review related party transactions due to the potential for a conflict of interest. A conflict of interest occurs when an individual's private interest interferes, or appears to interfere, in any way with our interests. Our Code of Business Conduct requires all directors, officers and employees who may have a potential or apparent conflict of interest to immediately notify our human resources department or our legal department.

We expect our directors, officers and employees to act and make decisions that are in our best interests and encourage them to avoid situations which present a conflict between our interests and their own personal interests. Our directors, officers and employees are prohibited from taking any action that may make it difficult for them to perform their duties, responsibilities and services to Syniverse in an objective and fair manner.

A copy of our Code of Business Conduct is available on our Internet website at www.syniverse.com.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our directors, executive officers, and persons who beneficially own more than 10% of our common stock to file certain reports with the SEC concerning their beneficial ownership of our equity securities. The SEC's regulations also require that a copy of all such Section 16(a) forms filed must be furnished to us by the executive officers, directors, and greater than 10% shareholders. To our knowledge, based solely on a review of the copies of such forms and amendments thereto received by us with respect to 2007, all Section 16(a) filing requirements were met, except for Ms. Leigh Hennen and Messrs. Garcia, Bergen Henegouwen, Wilcock who each filed one late Form 4 with respect to a tax withholding transaction; Ms. Leigh Hennen and Mr. Wilcock who each filed one late Form 4 with respect to the acquisition of options under our Long-Term Equity Incentive Plan; and Messrs. Lipham, Marino and Pearlstein who each filed one late Form 4 with respect to the acquisition of restricted stock and options under our Long-Term Equity Incentive Plan.

AVAILABILITY OF FORM 10-K AND ANNUAL REPORT TO SHAREHOLDERS

We are required to provide an Annual Report to shareholders who receive this proxy statement. We will also provide copies of the Annual Report to brokers, dealers, banks, voting trustees, and their nominees for the benefit of their beneficial owners of record. Additional copies of the Annual Report, along with copies of our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 (not including documents incorporated by reference), are available without charge to shareholders upon written request to our Corporate Secretary at 8125 Highwoods Palm Way Tampa, FL 33647. Our website and the information contained or incorporated therein are not intended to be incorporated into this report.

SHAREHOLDER PROPOSALS FOR 2009

Our 2009 Annual Meeting of Shareholders is expected to be held on or about May 8, 2009, and proxy materials in connection with that meeting are expected to be mailed on or about April 7, 2009. Pursuant to Rule 14a-8 under the Securities Exchange Act of 1934, as amended, some shareholder proposals may be eligible for inclusion in our 2009 proxy statement. These shareholder proposals must be submitted, along with proof of ownership of our stock in accordance with Rule 14a-8(b)(2), to our principal executive offices, in care of our Corporate Secretary. Failure to deliver a proposal by one of these means may result in it not being deemed timely received. In order to be included in our proxy materials for our 2009 Annual Meeting, we must receive shareholder proposals prepared in accordance with the proxy rules on or before December 11, 2008. Any such proposal should be addressed to the Corporate Secretary, Syniverse Holdings, Inc., 8125 Highwoods Palm Way, Tampa, Florida 33647. Upon receipt of any such proposal, we will determine whether or not to include such proposal in the proxy statement for our Annual Meeting of Shareholders to be held in 2009 in accordance with applicable law. It is suggested that such proposals be sent by certified mail, return receipt requested. Submitting a shareholder proposal does not guarantee that we will include it in our proxy statement.

Alternatively, under our Bylaws, if a shareholder does not want to submit a proposal for the 2009 annual meeting for inclusion in our proxy statement under Rule 14a-8, and intends to nominate a person as a candidate for election to the Board directly (rather than through our Corporate Governance and Nominating Committee), the shareholder must submit the proposal or nomination between January 10, 2009 and February 9, 2009. If the date of the 2009 annual meeting is scheduled to be held on a date more than 30 days prior to or delayed by more than 60 days after the anniversary date of the 2008 annual meeting, notice from a shareholder must be so received not later than the 10th day following the day on which notice of the date of the annual meeting was mailed or public disclosure of the date of the annual meeting was made, whichever occurs first. The shareholder's submission must be made by a registered shareholder on his or her behalf or on behalf of the beneficial owner of the shares, and must include information specified in our Bylaws concerning the proposal or nominee, as the case may be, and information as to the shareholder's ownership of our stock. We will not entertain any proposals or nominations at the annual meeting that do not meet these requirements. In addition, pursuant to Rule 14a-4 under the Securities Exchange Act of 1934, as amended, if we receive notice after February 24, 2009 of any proposal which a shareholder intends to raise at the 2009 Annual Meeting, the persons named in the proxy solicited by our Board of Directors for our 2009 Annual Meeting may exercise discretionary voting with respect to such proposal.

OTHER MATTERS

We know of no matters to be presented at the Annual Meeting other than those included in the Notice. Should any other matter requiring a vote of shareholders arise, including a question of adjourning the meeting, the persons named in the accompanying proxy will vote thereon according to their best judgment in what they consider our best interests. The enclosed proxy confers discretionary authority to take action with respect to any additional matters that may come before the meeting.

Discretionary Authority

In the event a quorum is present at the meeting but sufficient votes to approve any of the items proposed by the Board of Directors have not been received, the persons named as proxies may propose one or more adjournments of the meeting to permit further solicitation of proxies. A shareholder vote may be taken on one or more of the proposals in this proxy statement prior to such adjournment if sufficient proxies have been received and it is otherwise appropriate. Any adjournment will require the affirmative vote of the holders of a majority of those shares of common stock represented at the meeting in person or by proxy. If a quorum is present, the persons named as proxies will vote these proxies which they have been authorized to vote on any other business properly before the meeting in favor of such an adjournment.

It is important that your stock be represented at the meeting regardless of the number of shares you hold. Whether or not you plan to attend, please sign, date and return the enclosed proxy promptly. For your convenience, a return envelope is enclosed requiring no additional postage if mailed within the United States.

By Order of the Board of Directors
