**FORWARD-LOOKING STATEMENTS**

The forward-looking statements contained herein are subject to known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. These forward-looking statements are based on various facts and were derived utilizing numerous important assumptions and other important factors that could cause actual results to differ materially from those in the forward-looking statements. Forward-looking statements include the information concerning our future financial performance, business strategy, projected plans and objectives. Statements preceded by, followed by or that otherwise include the words believes, expects, anticipates, intends, projects, estimates, plans, may increase, may fluctuate and similar expressions or future or conditional verbs such as will, should, would, may are generally forward-looking in nature and not historical facts. You should understand that the following important factors and assumptions could affect our future results and could cause actual results to differ materially from those expressed in such forward-looking statements:

the high level of competition in the vehicle rental industry and the impact such competition may have on pricing and rental volume;

an increase in our fleet costs as a result of an increase in the cost of new vehicles and/or a decrease in the price at which we dispose of used vehicles either in the used vehicle market or under repurchase or guaranteed depreciation programs;

the results of operations or financial condition of the manufacturers of our cars, which could impact their ability to perform their payment obligations under repurchase and/or guaranteed depreciation arrangements they have with us, and/or their willingness or ability to make cars available to us or the rental car industry as a whole on commercially reasonable terms or at all;

the downturn in airline passenger traffic in the United States and in the other international locations in which we operate;

an occurrence or threat of terrorism, pandemic disease, natural disasters or military conflict in the locations in which we operate;

the decline in general economic conditions and in the housing market;

our dependence on third-party distribution channels;

a disruption or decline in rental activity, particularly during our peak season or in key market segments;

a significant increase in interest rates or in borrowing costs or a fluctuation in interest rates, which can impact the valuation of our derivatives;

our ability to successfully implement our business strategy for growth;

our ability to accurately estimate our future results;

our ability to successfully integrate operations upon the acquisition of other businesses;

a major disruption in our communication or centralized information networks;

our exposure to uninsured claims in excess of historic levels;

our failure or inability to comply with regulations or any changes in regulations;

any impact on us from the actions of our licensees, dealers and independent contractors;

substantial increases in fuel costs or decreases in fuel supply;

our requirement for substantial capital and a disruption in our ability to obtain financing for our operations, including the funding of our vehicle fleet via the asset-backed securities and lending market;

risks related to our indebtedness, including our substantial amount of debt and our ability to incur substantially more debt;

**Table of Contents**

our ability to meet the financial covenants contained in our senior credit facility and certain asset-backed funding arrangements;

the terms of agreements among us and the former real estate, hospitality and travel distribution businesses following the separation of those businesses from us during third quarter 2006, when we were known as Cendant Corporation (the Separation ), particularly with respect to the allocation of assets and liabilities, including contingent liabilities and guarantees, commercial arrangements, the ability of each of the separated companies to perform its obligations, including its indemnification obligations, under these agreements, and the former real estate business right to control the process for resolving disputes related to contingent liabilities and assets;

the continuation of a low trading price of our stock, which could limit our access to capital, be an indicator that our goodwill or other intangible assets are impaired and/or result in a future charge to earnings for an impairment of our goodwill or other intangible assets; and

other business, economic, competitive, governmental, regulatory, political or technological factors affecting our operations, pricing or services.

Other factors and assumptions not identified above, including those described under Risk Factors set forth in Item 1A of our 2007 Annual Report on Form 10-K and Part II, Item 1A of this Quarterly Report on Form 10-Q, were also involved in the derivation of these forward-looking statements, and the failure of such other assumptions to be realized, as well as other factors, may also cause actual results to differ materially from those projected. Most of these factors are difficult to predict accurately and are generally beyond our control.

You should consider the areas of risk described above, as well as those described under Risk Factors set forth in Item 1A of our 2007 Annual Report on Form 10-K and Part II, Item 1A of this Quarterly Report on Form 10-Q, in connection with any forward-looking statements that may be made by us and our businesses generally. Except for our ongoing obligations to disclose material information under the federal securities laws, we undertake no obligation to release any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events unless required by law. For any forward-looking statements contained in any document, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

**Avis Budget Group, Inc.**

**NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (Unaudited)**

**(Unless otherwise noted, all amounts are in millions, except per share amounts)**

**1. Basis of Presentation and Recently Issued Accounting Pronouncements**

***Basis of Presentation***

Avis Budget Group, Inc. provides car and truck rentals and ancillary services to businesses and consumers in the United States and internationally. The accompanying unaudited Consolidated Condensed Financial Statements include the accounts and transactions of Avis Budget Group, Inc. and its subsidiaries ( *Avis Budget* ), as well as entities in which Avis Budget directly or indirectly has a controlling financial interest (collectively, the *Company* ) and have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission ( *SEC* ) for interim financial reporting.

The Company operates in the following business segments:

**Domestic Car Rental** provides car rentals and ancillary products and services in the United States.

**International Car Rental** provides car rentals and ancillary products and services primarily in Argentina, Australia, Canada, New Zealand, Puerto Rico and the U.S. Virgin Islands.

**Truck Rental** provides truck rentals and related services to consumers and light commercial users in the United States.

In presenting the Consolidated Condensed Financial Statements in accordance with accounting principles generally accepted in the United States of America ( *U.S. GAAP* ), management makes estimates and assumptions that affect the amounts reported and related disclosures. Estimates, by their nature, are based on judgments and available information. Accordingly, actual results could differ from those estimates. In management's opinion, the Consolidated Condensed Financial Statements contain all normal recurring adjustments necessary for a fair presentation of interim results reported. The results of operations reported for interim periods are not necessarily indicative of the results of operations for the entire year or any subsequent interim period. These financial statements should be read in conjunction with the Company's 2007 Annual Report on Form 10-K filed on February 29, 2008.

*Vehicle Programs.* The Company presents separately the financial data of its vehicle programs. These programs are distinct from the Company's other activities since the assets under vehicle programs are generally funded through the issuance of debt, asset-backed funding or other similar arrangements which are collateralized by such assets. The income generated by these assets is used, in part, to repay the principal and interest associated with the debt. Cash inflows and outflows relating to the generation or acquisition of such assets and the principal debt repayment or financing of such assets are classified as activities of the Company's vehicle programs. The Company believes it is appropriate to segregate the financial data of its vehicle programs because, ultimately, the source of repayment of such debt is the realization of such assets.

*Separation.* In connection with the separation of Cendant Corporation (as the Company was formerly known) into four independent companies (the *Separation* ), the Company completed the spin-offs of Realogy Corporation ( *Realogy* ) and Wyndham Worldwide Corporation ( *Wyndham* ) on July 31, 2006 and completed the sale of Travelport, Inc. ( *Travelport* ) on August 23, 2006. During the three months ended September 30, 2007, the Company incurred costs of \$3 million in connection with the Separation. During the nine months ended September 2008, the Company incurred costs of \$2 million in connection with the Separation. Such costs consisted primarily of professional and consulting fees. Separation expenses were insignificant in the nine months ended September 30, 2007, as they include a \$14 million credit related to tax-related receivables from Realogy and Wyndham recognized in connection with the adoption of Financial Accounting Standards Board ( *FASB* ) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* an interpretation of FASB Statement No. 109 .

*Impairment.* In connection with SFAS No. 142, *Goodwill and Other Intangible Assets* ( *SFAS No. 142* ), the Company is required to assess goodwill and other indefinite-lived intangible assets for impairment annually, or more frequently if circumstances indicate that an impairment

## Edgar Filing: AVIS BUDGET GROUP, INC. - Form 10-Q

may have occurred. The Company assesses goodwill for such impairment by comparing the carrying value of its reporting units to their fair values and reviewing the Company's market capitalization as compared to stockholders' equity.

The Company performed an assessment of the fair value of its goodwill, intangible assets and the Company's investment in Carey Holdings, Inc. ( Carey ) in third quarter 2008. The Company uses a discounted cash flow model and

**Table of Contents**

incorporates assumptions that it believes marketplace participants would utilize. The Company recorded a \$1,262 million (\$1,056 million, net of tax) charge during third quarter 2008 to reflect (i) the impairment of goodwill, (ii) the impairment of the Company's tradenames asset and (iii) the impairment of its investment in Carey. These charges reflect the decline in their fair value below their carrying value, primarily as a result of reduced market valuations for vehicle services and other companies, as well as reduced profit forecasts due to soft economic conditions and increased financing costs. Domestic Car Rental recorded \$882 million and International Car Rental recorded \$275 million for goodwill and tradename impairment, Truck Rental recorded \$87 million for goodwill impairment, and \$18 million was recorded within Corporate and Other for the charge related to Carey.

The total impairment charge for the three and nine months ended September 30, 2008 was recorded as follows:

Goodwill impairment	\$ 923
Tradename impairment	321
Investment impairment	18
	\$ 1,262

***Adoption of New Accounting Standards during 2008***

***Fair Value Measurements.*** In September 2006, the FASB issued Statement of Financial Accounting Standards ( SFAS ) No. 157, Fair Value Measurements ( SFAS No. 157 ), which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. In addition, SFAS No. 157 requires the Company to consider its own credit spreads when measuring the fair value of liabilities, including derivatives, and the credit spreads of the Company's counterparties when measuring the fair value of assets, including derivatives. The Company adopted SFAS No. 157 on January 1, 2008, as required, and it had no impact to the Company's financial statements at the time of adoption (see Note 7-Fair Value Measurements).

In October 2008, the FASB issued FSP SFAS 157-3, Determining the Fair Value of a Financial Asset When the Market for That Asset Is Not Active ( FSP SFAS 157-3 ). FSP SFAS 157-3 clarifies the application of SFAS No. 157, in a market that is not active and provides guidance on how to determine the fair value of financial assets when the market for that financial asset is not active. The provisions of FSP SFAS 157-3 were effective upon issuance, including prior periods for which financial statements have not been issued. The Company adopted FSP SFAS 157-3 on September 30, 2008, as required, and it did not have a significant impact to the Company's financial statements at the time of adoption.

***Fair Value Option.*** In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115 ( SFAS No. 159 ). SFAS No. 159 permits a company to irrevocably elect fair value as the initial and subsequent measurement attribute for certain financial assets and financial liabilities on a contract-by-contract basis, with changes in fair value recognized in earnings. The election to use the fair value option is available when an entity first recognizes a financial asset or a financial liability or upon entering into a firm commitment. Additionally, SFAS No. 159 allows for a one-time election for existing positions upon adoption, with the transition adjustment recorded to beginning retained earnings. The Company adopted SFAS No. 159 on January 1, 2008 and has elected not to apply the fair value option to measure any of its financial assets or liabilities.

***Recently Issued Accounting Pronouncements***

In December 2007, the FASB issued SFAS No. 141 (revised 2007), Business Combinations ( SFAS No. 141(R) ). SFAS No. 141(R) seeks to improve the relevance, representational faithfulness and comparability of the information that a reporting entity provides in its financial reports about a business combination and its effects. SFAS No. 141(R) requires an acquiror to recognize the assets acquired, the liabilities assumed and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date, with limited exceptions. SFAS No. 141(R) also requires the acquiror in a business combination achieved in stages to recognize the identifiable assets and liabilities, as well as the noncontrolling interest in the acquiree, at the full amounts of their fair values. SFAS No. 141(R) requires an acquiror to recognize adjustments made during the measurement period to the acquired assets and liabilities as if they had occurred on the acquisition date and to revise prior period financial statements in subsequent filings for changes. In addition, SFAS No. 141(R) requires that all acquisition related costs be expensed as incurred, rather than capitalized as part of the purchase price and those restructuring costs that an acquiror expected but was not obligated to incur to be recognized separately from the business combination. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company will adopt SFAS No. 141(R) on January 1, 2009, as required, and does not believe it will have a significant impact on its financial statements.

**Table of Contents**

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51 ( SFAS No. 160 )*. SFAS No. 160 amends Accounting Research Bulletin ( ARB ) No. 51 to establish accounting and reporting standards for the noncontrolling (minority) interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the Consolidated Financial Statements. SFAS No. 160 also requires consolidated net income to be reported at amounts that include the amounts attributable to both the parent and the noncontrolling interest on the face of the consolidated statement of income. Under SFAS No. 160, the accounting for changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation must be accounted for as equity transactions for the difference between the parent's carrying value and the cash exchanged in the transaction. In addition, SFAS No. 160 also requires that a parent recognize a gain or loss in net income when a subsidiary is deconsolidated (except in the case of a spin-off), and requires expanded disclosures in the Consolidated Financial Statements that clearly identify and distinguish between the interests of the parent's ownership interest and the interests of the noncontrolling owners of a subsidiary. SFAS No. 160 applies prospectively, except for the presentation and disclosure requirements which are applied retrospectively for all periods presented, and is effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2008. The Company will adopt SFAS No. 160 on January 1, 2009, as required, and is currently evaluating the impact of such adoption on its financial statements.

In February 2008, the FASB issued FASB Staff Position SFAS 157-1, *Application of SFAS No. 157 to SFAS No. 13 and Its Related Interpretative Accounting Pronouncements that Address Leasing Transactions ( FSP SFAS 157-1 )* and FASB Staff Position SFAS 157-2, *Effective Date of SFAS No. 157 ( FSP SFAS 157-2 )*. FSP SFAS 157-1 excludes SFAS No. 13 and its related interpretive accounting pronouncements that address leasing transactions from the requirements of SFAS No. 157, with the exception of fair value measurements of assets and liabilities recorded as a result of a lease transaction but measured pursuant to other pronouncements within the scope of SFAS No. 157. FSP SFAS 157-2 delays the effective date of SFAS No. 157 for all nonfinancial assets and nonfinancial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). FSP SFAS 157-1 and FSP SFAS 157-2 became effective for the Company upon adoption of SFAS No. 157 on January 1, 2008. The Company will provide the additional disclosures required relating to the fair value measurement of nonfinancial assets and nonfinancial liabilities when it fully implements SFAS No. 157 on January 1, 2009, as required, and does not believe they will have a significant impact on its financial statements.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*—an amendment of FASB Statement No. 133 ( SFAS No. 161 ). SFAS No. 161 requires entities to provide qualitative disclosures about the objectives and strategies for using derivatives, quantitative data about the fair value of and gains and losses on derivative contracts, and details of credit-risk-related contingent features in their hedged positions. SFAS No. 161 also asks entities to disclose more information about the location and amounts of derivative instruments in financial statements; how derivatives and related hedges are accounted for under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*; and how the hedges affect the entity's financial position, financial performance and cash flows. SFAS No. 161 applies prospectively for fiscal years, and interim periods within those fiscal years, beginning on or after November 15, 2008; however, comparative disclosures for earlier periods at initial adoption are encouraged. The Company will provide the additional disclosures required relating to its derivative instruments and hedging activities when it adopts SFAS No. 161 on January 1, 2009, as required, and does not believe they will have a significant impact on its financial statements.

In September 2008, the FASB issued FSP SFAS 133-1 and FIN 45-4, *Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161 ( FSP SFAS 133-1 and FIN 45-4 )*. FSP SFAS 133-1 and FIN 45-4 require additional disclosures by entities regarding credit derivatives, including the nature of the instrument, its purpose, performance requirements, potential future payments and its fair value, as well as requiring disclosure of the performance risk of certain guarantees. This FSP also clarifies the required adoption date of SFAS No. 161. The provisions of FSP SFAS 133-1 and FIN 45-4 regarding credit derivatives and guarantees apply prospectively for fiscal years, and interim periods within those fiscal years, ending after November 15, 2008; however, comparative disclosures for earlier periods at initial adoption are encouraged. The Company does not currently have credit derivatives but will provide the additional disclosures required relating to certain guarantees when it adopts FSP SFAS 133-1 and FIN 45-4 on December 31, 2008, as required, and is currently evaluating the impact of such adoption on its financial statements.

**2. Discontinued Operations**

The \$3 million loss from discontinued operations, net of tax for the three and nine months ended September 30, 2007, represents a tax charge due to an increase in non-deductible expenses on discontinued operations. The \$43 million and \$45 million gain on disposal of discontinued operations, net of tax for the three and nine months ended September 30, 2007, respectively, primarily represents a tax benefit realized as a result of certain elections made in connection with the Travelport disposition on the income tax returns filed during the third quarter 2007.

**Table of Contents**

**3. Restructuring Charges**

The Company has been reviewing, planning for and implementing various strategic initiatives targeted principally at reducing costs, enhancing organizational efficiency and consolidating and rationalizing existing processes and facilities. The restructuring charges related to these activities are being accounted for under SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. During third quarter 2008, as part of this process, the Company eliminated approximately 740 positions, resulting in the termination of approximately 600 employees within the Company's Domestic Car Rental and International Car Rental segments. The Company recorded a restructuring charge of \$6 million in third quarter 2008, all of which is anticipated to be cash and \$3 million of which has been paid as of September 30, 2008. This charge primarily represents severance, outplacement services and other costs associated with employee terminations. The Company is continuing to look at other initiatives expected to reduce costs and may incur further restructuring costs.

The initial recognition of the restructuring charges and the corresponding utilization from inception are summarized by category as follows:

	<b>Personnel Related (a)</b>
2008 Restructuring initial charge	\$ 6
Cash payments	3
Balance at September 30, 2008	\$ 3

(a) The initial charge primarily represents severance benefits resulting from the reductions in staff. The Company formally communicated the termination of employment to approximately 600 employees, representing a wide range of employee groups. As of September 30, 2008, the Company terminated substantially all of these employees.

The restructuring charges and corresponding utilization are recorded within the Company's segments as follows:

	<b>Domestic Car Rental</b>	<b>International Car Rental</b>	<b>Total</b>
2008 Restructuring initial charge	\$ 5	\$ 1	\$ 6
Cash payments	3		3
Balance at September 30, 2008	\$ 2	\$ 1	\$ 3

**Table of Contents****4. Earnings Per Share**

The following table sets forth the computation of basic and diluted earnings per share ( EPS ):

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>September 30,</b>		<b>September 30,</b>	
	<b>2008</b>	<b>2007</b>	<b>2008</b>	<b>2007</b>
Income (loss) from continuing operations	\$ (1,006)	\$ 63	\$ (1,003)	\$ 98
Loss from discontinued operations, net of tax		(3)		(3)
Gain on disposal of discontinued operations, net of tax		43		45
Net income (loss)	\$ (1,006)	\$ 103	\$ (1,003)	\$ 140
Basic weighted average shares outstanding	101.6	103.9	101.9	102.9
Stock options, warrants and restricted stock units <sup>(a)</sup>		1.1		1.2
Diluted weighted average shares outstanding <sup>(b)</sup>	101.6	105.0	101.9	104.1
<i>Earnings per share:</i>				
Basic				
Income (loss) from continuing operations	\$ (9.91)	\$ 0.60	\$ (9.84)	\$ 0.95
Loss from discontinued operations		(0.02)		(0.03)
Gain on disposal of discontinued operations		0.42		0.44
Net income (loss)	\$ (9.91)	\$ 1.00	\$ (9.84)	\$ 1.36
Diluted				
Income (loss) from continuing operations	\$ (9.91)	\$ 0.60	\$ (9.84)	\$ 0.94
Loss from discontinued operations		(0.02)		(0.03)
Gain on disposal of discontinued operations		0.41		0.43
Net income (loss)	\$ (9.91)	\$ 0.99	\$ (9.84)	\$ 1.34

(a) Excludes restricted stock units for which performance-based vesting criteria have not been achieved.

(b) The Company incurred a loss from continuing operations for the three and nine months ended September 30, 2008; therefore, all outstanding stock options and restricted stock units are anti-dilutive. Accordingly, basic and diluted weighted average shares outstanding are equal for such periods.

The following table summarizes the Company's outstanding common stock equivalents that were anti-dilutive and therefore excluded from the computation of diluted EPS:

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>September 30,</b>		<b>September 30,</b>	
	<b>2008</b>	<b>2007</b>	<b>2008</b>	<b>2007</b>
Options <sup>(a)</sup>	5.3	6.0	5.3	4.8
Warrants		0.2		0.2

(a) For the three and nine months ended September 30, 2008, all outstanding stock options were anti-dilutive, as the Company incurred a loss from continuing operations. The weighted average exercise price for anti-dilutive options for the three and nine months ended September 30, 2007 was \$32.97 and \$34.76, respectively.

**5. Acquisitions**

Assets acquired and liabilities assumed in business combinations were recorded on the Company's Consolidated Condensed Balance Sheets as of the respective acquisition dates based upon their estimated fair values at such dates. The results of operations of businesses acquired by the Company have been included in the Company's Consolidated Condensed Statements of Operations since their respective dates of acquisition. The excess of the purchase price over the estimated fair values of the underlying assets acquired and liabilities assumed is allocated to goodwill. In certain circumstances, the allocations of the excess purchase price are based upon preliminary estimates and assumptions. Accordingly, the allocations may be subject to revision when the Company receives final information, including appraisals and other analyses. Any revisions to the fair values, within the allocation period, will be recorded by the Company as further adjustments to the purchase price allocations.

During the nine months ended September 30, 2008, the Company acquired the exclusive rights to certain vehicle rental franchise territories and related assets, which included \$36 million of associated vehicles, for \$87 million in cash, resulting in \$50 million valued as trademark intangible assets. These acquisitions for 2008 relate to the Company's Domestic Car Rental and International Rental Car segments. These acquisitions were not significant individually or in the aggregate to the Company's results of operations, financial position or cash flows.

**Table of Contents****6. Intangible Assets**

Intangible assets consisted of:

	As of September 30, 2008			As of December 31, 2007		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
<i>Amortized Intangible Assets</i>						
Franchise agreements	\$ 73	\$ 20	\$ 53	\$ 75	\$ 18	\$ 57
Customer lists	19	7	12	19	7	12
Other	2	1	1	2	1	1
	\$ 94	\$ 28	\$ 66	\$ 96	\$ 26	\$ 70
<i>Unamortized Intangible Assets</i>						
Goodwill	\$ 76			\$ 1,000		
Trademarks	\$ 413			\$ 690		

During the three and nine months ended September 30, 2008, the Company assessed its goodwill and other intangible assets for impairment and determined that an impairment had occurred (see Note 1- Basis of Presentation and Recently Issued Accounting Pronouncements).

The changes to the carrying amount of goodwill during 2008 are as follows:

	Balance at January 1, 2008	Goodwill Impairment	Adjustments to Goodwill <sup>(a)</sup>	Balance at September 30, 2008
Domestic Car Rental	\$ 569	\$ (569)	\$	\$
International Car Rental	329	(267)	(1)	61
Truck Rental	102	(87)		15
	\$ 1,000	\$ (923)	\$ (1)	\$ 76

-

<sup>(a)</sup> The adjustments to goodwill are primarily due to fluctuations in foreign currency.

The changes to the carrying amount of trademarks during 2008 are as follows:

	Balance at January 1, 2008	Tradename Impairment	Adjustments to Trademarks <sup>(a)</sup>	Balance at September 30, 2008
Domestic Car Rental	\$ 594	\$ (313)	\$ 46	\$ 327
International Car Rental	95	(8)	(2)	85
Truck Rental	1			1
	\$ 690	\$ (321)	\$ 44	\$ 413

-

## Edgar Filing: AVIS BUDGET GROUP, INC. - Form 10-Q

- (a) The total adjustments to trademarks of \$44 million are primarily the result of business acquisitions that amounted to \$46 million within Domestic Car Rental and \$4 million within International Car Rental, respectively, offset by a \$6 million decrease within International Car Rental due to fluctuations in foreign currency.

Amortization expense relating to all intangible assets was approximately \$1 million during the third quarter of 2008 and 2007. For the nine month periods ended September 30, 2008 and 2007, amortization expense was approximately \$2 million.

Based on the Company's amortizable intangible assets at September 30, 2008, the Company expects amortization expense of approximately \$1 million for the remainder of 2008 and approximately \$3 million for each of the five fiscal years thereafter.

**Table of Contents****7. Fair Value Measurements**

SFAS No. 157 requires disclosures about the Company's assets and liabilities that are measured at fair value. The Company used significant observable inputs (Level 2 inputs), other than quoted unadjusted prices from active markets (Level 1 inputs), to determine the fair value of its derivative assets and liabilities.

*Valuation Techniques.* Derivatives entered into by the Company are typically executed over-the-counter and are valued using internal valuation techniques, as no quoted market prices exist for such instruments. The valuation technique and inputs depend on the type of derivative and the nature of the underlying exposure. The principal techniques used to value these instruments are discounted cash flows and Black-Scholes option valuation models. These models take into account a variety of factors including, where applicable, maturity, commodity prices, interest rate yield curves, credit curves, counterparty creditworthiness and currency exchange rates. These factors are applied on a consistent basis and are based upon observable inputs where available.

The following table presents information about the Company's assets and liabilities measured at fair value on a recurring basis:

	<b>As of September 30, 2008</b>
<b>Based on Significant Other Observable Inputs (Level 2):</b>	
<b>Assets:</b>	
Interest rate swaps and other derivatives	\$ 2
Interest rate swaps and other derivatives under vehicle programs	1
<b>Total</b>	<b>\$ 3</b>
<b>Liabilities:</b>	
Interest rate swaps and other derivatives	\$ 35
Interest rate swaps and other derivatives under vehicle programs	9
<b>Total</b>	<b>\$ 44</b>

**8. Vehicle Rental Activities**

The components of the Company's vehicles, net within assets under vehicle programs are as follows:

	<b>As of September 30, 2008</b>	<b>As of December 31, 2007</b>
Rental vehicles	\$ 8,571	\$ 7,947
Less: Accumulated depreciation	(1,195)	(1,022)
	7,376	6,925
Vehicles held for sale	653	549
Vehicles, net	\$ 8,029	\$ 7,474

The components of vehicle depreciation and lease charges, net are summarized below:

Edgar Filing: AVIS BUDGET GROUP, INC. - Form 10-Q

	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>September 30,</b>		<b>September 30,</b>	
	<b>2008</b>	<b>2007</b>	<b>2008</b>	<b>2007</b>
Depreciation expense	\$ 448	\$ 446	\$ 1,267	\$ 1,205
Lease charges	18	11	34	37
(Gain) loss on sales of vehicles, net and cost of vehicle disposition	7	(16)	(5)	(37)
Vehicle depreciation and lease charges, net	\$ 473	\$ 441	\$ 1,296	\$ 1,205

During the three months ended September 30, 2008 and 2007, vehicle interest, net on the accompanying Consolidated Condensed Statements of Operations excludes \$33 million and \$35 million, respectively, and for the nine months ended September 30, 2008 and 2007, excludes \$99 million and \$106 million, respectively, of interest expense related to the fixed and floating rate borrowings of the Company's Avis Budget Car Rental, LLC (Avis Budget Car Rental) subsidiary. Such interest is recorded within interest expense related to corporate debt, net on the accompanying Consolidated Condensed Statements of Operations.

**Table of Contents****9. Income Taxes**

The Company's effective tax rate from continuing operations for the nine months ended September 30, 2008 is a benefit of 14.9%. Such rate differs from the Federal statutory rate of 35.0% primarily due to the impact of the non-deductible portion of the impairment charges, state taxes and differences in the amount of stock-based compensation recorded for book and tax purposes.

The Company's effective tax rate from continuing operations for the nine months ended September 30, 2007 is a provision of 39.5%. Such rate differs from the Federal statutory rate of 35.0% primarily due to state taxes.

**10. Other Current Assets**

Other current assets consisted of:

	As of September 30, 2008	As of December 31, 2007
Receivables from Realogy <sup>(a)</sup>	\$ 132	\$ 169
Receivables from Wyndham <sup>(a)</sup>	87	122
Prepaid expenses	152	148
Other	68	131
	\$ 439	\$ 570

<sup>(a)</sup> Represents amounts due for certain contingent and other corporate liabilities assumed by Realogy and Wyndham in connection with the Separation and services performed under the Transition Services Agreement entered into in connection with the Separation. These amounts are due from Realogy and Wyndham on demand upon the Company's settlement of the related liability. At September 30, 2008 and December 31, 2007, there are corresponding liabilities recorded within accounts payable and other current liabilities.

**11. Equity Investment**

At September 30, 2008, the Company's equity-method investee and the Company's approximate ownership interest, based on outstanding shares, are as follows:

Company	Percentage Ownership
Carey Holdings, Inc.	47.9%

The Company's investment in Carey Holdings, Inc. (Carey) is recorded within other non-current assets on the Consolidated Condensed Balance Sheets and the Company's share of Carey's operating results is reported within operating expenses on the Consolidated Condensed Statements of Operations. During third quarter 2008, the Company recorded an \$18 million charge (\$11 million, net of tax) for an impairment to its investment in Carey to reflect the decline of the investment's fair value below its carrying value. The impairment relates to the Company's common equity investment in Carey and its option to acquire an additional ownership stake in Carey. At September 30, 2008, the Company's investment totaled \$44 million, including \$2 million of deferred acquisition costs and \$1 million of net income, representing the Company's share of Carey's operating results for the nine months ended September 30, 2008.

**12. Accounts Payable and Other Current Liabilities**

Accounts payable and other current liabilities consisted of:

	<b>As of September 30, 2008</b>	<b>As of December 31, 2007</b>
Accounts payable	\$ 179	\$ 210
Accrued payroll and related	149	171
Disposition related liabilities	108	125
Accrued legal settlements	108	121
Public liability and property damage insurance liabilities	108	109
Other	320	358
	<b>\$ 972</b>	<b>\$ 1,094</b>

**Table of Contents****13. Other Non-Current Liabilities**

Other non-current liabilities consisted of:

	As of September 30, 2008	As of December 31, 2007
Long-term income taxes payable	\$ 456	\$ 440
Public liability and property damage insurance liability	237	252
Other	352	306
	\$ 1,045	\$ 998

**14. Long-term Debt and Borrowing Arrangements**

Long-term debt consisted of:

	Maturity Date	As of September 30, 2008	As of December 31, 2007
Floating rate term loan <sup>(a)</sup>	April 2012	\$ 789	\$ 796
Floating rate notes	May 2014	250	250
7 <sup>5</sup> / <sub>8</sub> % notes	May 2014	375	375
7 <sup>3</sup> / <sub>4</sub> % notes	May 2016	375	375
		1,789	1,796
Other		2	1
Total long-term debt		1,791	1,797
Less: Current portion		9	10
<b>Long-term debt</b>		<b>\$ 1,782</b>	<b>\$ 1,787</b>

<sup>(a)</sup> The floating rate term loan and our revolving credit facility are secured by pledges of all of the capital stock of all of the Company's direct or indirect domestic subsidiaries and up to 66% of the capital stock of each direct foreign subsidiary, subject to certain exceptions, and liens on substantially all of the Company's intellectual property.

In February 2007, the Company agreed to guarantee (the "Guarantee") the payment of principal, premium, if any, and interest on the \$1.0 billion aggregate principal amount of senior notes issued by Avis Budget Car Rental in April 2006 (the "Notes"). The Notes consist of Avis Budget Car Rental's 7<sup>5</sup>/<sub>8</sub>% Senior Notes due 2014, 7<sup>3</sup>/<sub>4</sub>% Senior Notes due 2016 and Floating Rate Senior Notes due 2014. In consideration for providing the Guarantee, the Company received \$14 million, before fees and expenses, from certain institutional investors. The \$14 million consideration is being treated as deferred income and being amortized over the life of the debt.

**Committed Credit Facilities and Available Funding Arrangements**

At September 30, 2008, the committed credit facilities available to the Company and/or its subsidiaries at the corporate or Avis Budget Car Rental level were as follows:

Edgar Filing: AVIS BUDGET GROUP, INC. - Form 10-Q

	<b>Total Capacity</b>	<b>Outstanding Borrowings</b>	<b>Letters of Credit Issued</b>	<b>Available Capacity</b>
\$1.5 billion revolving credit facility <sup>(a)</sup>	\$ 1,500	\$	\$ 590	\$ 910
Letter of credit facility <sup>(b)</sup>	303		303	
-				

<sup>(a)</sup> This secured revolving credit facility was entered into by Avis Budget Car Rental in April 2006, has a five year term and as of September 30, 2008 bears interest at one month LIBOR plus 125 basis points. The floating rate term loan and the revolving credit facility are secured by pledges of all of the capital stock of all of the Company's direct or indirect domestic subsidiaries and up to 66% of the capital stock of each direct foreign subsidiary, subject to certain exceptions, and liens on substantially all of the Company's intellectual property.

<sup>(b)</sup> Final maturity date is July 2010.

The Company's debt agreements contain restrictive covenants, including restrictions on dividends paid to the Company by certain of its subsidiaries, the incurrence of indebtedness by the Company and certain of its subsidiaries, mergers, liquidations, and sale and leaseback transactions. The credit facility also requires the maintenance of certain financial ratios. As of September 30, 2008, the Company is not aware of any instances of non-compliance with such financial or restrictive covenants. Due to the reduced demand for travel services, rising borrowing costs and other factors, the Company may be unable to generate sufficient earnings in subsequent quarterly periods to enable it to satisfy the

**Table of Contents**

financial covenants contained in its senior credit facilities. Failure to comply with these covenants would cause an event of default under such facilities. The Company therefore intends to seek waivers of such covenants or amendments to such facilities.

**15. Debt Under Vehicle Programs and Borrowing Arrangements**

Debt under vehicle programs (including related party debt due to Avis Budget Rental Car Funding (AESOP) LLC (Avis Budget Rental Car Funding)) consisted of:

	As of September 30, 2008	As of December 31, 2007
Debt due to Avis Budget Rental Car Funding <sup>(a)</sup>	\$ 5,586	\$ 4,646
Budget Truck financing:		
Budget Truck Funding program <sup>(b)</sup>	335	246
Capital leases	165	204
Other <sup>(c)</sup>	762	500
	\$ 6,848	\$ 5,596

- (a) The increase principally reflects (i) \$597 million of incremental borrowings under the Company's various debt arrangements to support the acquisition of rental vehicles within the Company's Domestic Car Rental operations during the nine months ended September 30, 2008 and (ii) a \$343 million increase in the Company's investment in Avis Budget Rental Car Funding primarily reflecting the Company's decision to invest funds from vehicle sales into Avis Budget Rental Car Funding as equity rather than as a repayment of debt due to Avis Budget Rental Car Funding.
- (b) The increase primarily reflects incremental borrowings under the Company's conduit facility to support the acquisition of rental vehicles within the Company's Budget Truck rental fleet.
- (c) The increase primarily reflects incremental borrowings under the Company's conduit facilities to support the acquisition of vehicles in the Company's International Car Rental operations and additional fleet loans to support the acquisition of certain vehicles for the Company's Domestic Car Rental operations.

The following table provides the contractual maturities of the Company's debt under vehicle programs (including related party debt due to Avis Budget Rental Car Funding) at September 30, 2008:

	Vehicle- Backed Debt	Capital Leases	Total
Within 1 year	\$ 2,636	\$ 151	\$ 2,787
Between 1 and 2 years	1,216	14	1,230
Between 2 and 3 years	1,070		1,070
Between 3 and 4 years	1,150		1,150
Between 4 and 5 years			
Thereafter	611		611
	\$ 6,683	\$ 165	\$ 6,848

As of September 30, 2008, available funding under the Company's vehicle programs (including related party debt due to Avis Budget Rental Car Funding) consisted of:

Total Capacity <sup>(a)</sup>	Outstanding Borrowings	Available Capacity
----------------------------------	---------------------------	-----------------------

Edgar Filing: AVIS BUDGET GROUP, INC. - Form 10-Q

Debt due to Avis Budget Rental Car Funding <sup>(b)</sup>	\$ 6,711	\$ 5,586	\$ 1,125
Budget Truck financing:			
Budget Truck Funding program <sup>(c)</sup>	335	335	
Capital leases <sup>(d)</sup>	165	165	
Other <sup>(e)</sup>	1,044	762	282
	\$ 8,255	\$ 6,848	\$ 1,407

-

- (a) Capacity is subject to maintaining sufficient assets to collateralize debt.
- (b) The outstanding debt is collateralized by approximately \$7.3 billion of underlying vehicles and related assets.
- (c) The outstanding debt is collateralized by approximately \$344 million of underlying vehicles and related assets.
- (d) In connection with these capital leases, there are corresponding assets of approximately \$174 million within vehicles, net on the Company's Consolidated Condensed Balance Sheet as of September 30, 2008.
- (e) The outstanding debt is collateralized by approximately \$1.2 billion of underlying vehicles and related assets.

**Table of Contents**

Debt agreements under the Company's vehicle-backed funding programs contain restrictive covenants, including restrictions on dividends paid to the Company by certain of its subsidiaries and indebtedness of material subsidiaries, mergers, limitations on liens, liquidations, and sale and leaseback transactions. As of September 30, 2008, the Company is not aware of any instances of non-compliance with such covenants.

**16. Commitments and Contingencies*****Contingencies***

The Internal Revenue Service (IRS) is examining the Company's taxable years 2003 through 2006. Although the Company believes there is appropriate support for the positions taken on its tax returns, the Company has recorded liabilities for uncertain tax positions for all years for which the statute of limitations has not expired. The Company has \$456 million accrued for tax liabilities and believes these accruals to be adequate for all open years based on assessment of many factors including past experience and interpretations of tax law applied to the facts of each matter. Although the Company believes the recorded assets and liabilities are reasonable, tax regulations are subject to interpretation and tax litigation is inherently uncertain; therefore, the Company's assessments can involve both a series of complex judgments about future events and rely heavily on estimates and assumptions. While the Company believes that the estimates and assumptions supporting the assessments are reasonable, the final determination of tax audits and any other related litigation could be materially different than that which is reflected in historical income tax provisions and recorded assets and liabilities. The potential results of an audit or litigation related to these matters include a range of outcomes, which may involve material amounts. However, the Company is entitled to indemnification by Realogy and Wyndham for most pre-Separation tax matters and therefore does not expect such resolution to have a significant impact on its earnings, financial position or cash flows.

The Company is involved in litigation asserting claims associated with accounting irregularities discovered in 1998 at former CUC business units outside of the principal common stockholder class action litigation. The Company has accrued liabilities of approximately \$103 million regarding such litigation matters. The Company does not believe that it is feasible to predict or determine the final outcome or resolution of such unresolved proceedings. Pursuant to the Separation Agreement (described below), Realogy and Wyndham have assumed all liabilities related to this litigation, as described below, and therefore a corresponding receivable has been established for such amount. Changes in liabilities related to such legal matters for which the Company is entitled to indemnification, and corresponding changes in the Company's indemnification assets, are shown net within the separation costs, net line on the Consolidated Condensed Statements of Operations.

In connection with the spin-offs of Realogy and Wyndham, the Company entered into the Separation Agreement, pursuant to which Realogy assumed 62.5% and Wyndham assumed 37.5% of certain contingent and other corporate liabilities of the Company or its subsidiaries, which are not primarily related to any of the respective businesses of Realogy, Wyndham, Travelport and/or the Company's vehicle rental operations, in each case incurred or allegedly incurred on or prior to the separation of Travelport from the Company (Assumed Liabilities). Realogy is entitled to receive 62.5% and Wyndham is entitled to receive 37.5% of the proceeds from certain contingent corporate assets of the Company, which are not primarily related to any of the respective businesses of Realogy, Wyndham, Travelport and/or the Company's vehicle rental operations, arising or accrued on or prior to the separation of Travelport from the Company (Assumed Assets). Additionally, if Realogy or Wyndham were to default on its payment of costs or expenses to the Company related to any Assumed Liabilities the Company would be responsible for 50% of the defaulting party's obligation. In such event, the Company would be allowed to use the defaulting party's share of the proceeds of any Assumed Assets as a right of offset. Realogy and Wyndham have also agreed to guarantee each other's as well as the Company's obligation under each entity's deferred compensation plans for amounts deferred in respect of 2005 and earlier years.

The Company does not believe that the impact of any unresolved proceedings constituting Assumed Liabilities related to the CUC accounting irregularities should result in a material liability to the Company in relation to its consolidated financial position or liquidity, as Realogy and Wyndham each have agreed to assume responsibility for these liabilities as well as other liabilities related to the Company's litigation that are not related to its vehicle rental operations. Such litigation assumed by Realogy and Wyndham includes litigation which was retained by the Company in connection with the sale of its former Marketing Services division.

In April 2007, Realogy was acquired by an affiliate of Apollo Management VI, L.P. The acquisition does not affect Realogy's obligation to satisfy 62.5% of the contingent and other corporate liabilities of the Company or its subsidiaries pursuant to the terms of the Separation Agreement. As a result of the acquisition, Realogy has greater debt obligations and its ability to satisfy its portion of the contingent and other corporate liabilities may be adversely impacted. In accordance with the terms of the Separation Agreement, Realogy posted a letter of credit in April 2007 for the benefit of the Company to cover its estimated share of the Assumed Liabilities discussed above, subject to adjustment, although there can be no assurance that such letter of credit will be sufficient or effective to cover Realogy's actual obligations if and when they arise.

## **Table of Contents**

In addition to the matters discussed above, the Company is also involved in claims, legal proceedings and governmental inquiries related to its vehicle rental operations, including contract disputes, business practices, insurance claims, intellectual property, environmental issues and other commercial, employment and tax matters, including patent claims, wage and hour claims and breach of contract claims by licensees. The Company believes that it has adequately accrued for such matters as appropriate or, for matters not requiring accrual, believes that they will not have a material adverse impact on its results of operations, financial position or cash flows based on information currently available. However, litigation is inherently unpredictable and, although the Company believes that its accruals are adequate and/or that it has valid defenses in these matters, unfavorable resolutions could occur, which could adversely impact the Company's results of operations or cash flows in a particular reporting period.

### ***Commitments to Purchase Vehicles***

The Company maintains agreements with vehicle manufacturers which require the Company to purchase approximately \$2.7 billion of vehicles from manufacturers over the next twelve months. The majority of these commitments are subject to the vehicle manufacturers' satisfying their obligations under the repurchase and guaranteed depreciation agreements. The Company is in the process of finalizing its purchase commitments with manufacturers for 2009 model-year vehicles. The Company's featured suppliers for the Avis and Budget brands are General Motors Corporation and Ford Motor Company, respectively, although the Company purchases vehicles produced by numerous other manufacturers. The purchase of such vehicles is financed primarily through the issuance of vehicle-backed debt in addition to cash received upon the sale of vehicles in the used car market and under repurchase and guaranteed depreciation programs.

### ***Concentrations***

Concentrations of credit risk at September 30, 2008 include (i) risks related to the Company's repurchase and guaranteed depreciation agreements with General Motors Corporation and Ford Motor Company primarily with respect to receivables for program cars that have been returned to the car manufacturers and (ii) risks related to receivables from Realogy and Wyndham of \$571 million and \$351 million, respectively, related to certain contingent, income tax and other corporate liabilities assumed by Realogy and Wyndham in connection with the Separation.

### ***Other Guarantees***

The Company has provided certain guarantees to subsidiaries of Realogy, Wyndham and Travelport which, as previously discussed, were disposed during third quarter 2006. These guarantees relate primarily to various real estate leases. The maximum potential amount of future payments that the Company may be required to make under these guarantees is estimated to be approximately \$316 million. At September 30, 2008, the liability recorded by the Company in connection with these guarantees was approximately \$6 million. To the extent that the Company would be required to perform under any of these guarantees, the Company is entitled to indemnification from Realogy, Wyndham and/or Travelport; however, there can be no assurance that such entities will perform with respect to such indemnification obligations.

## **17. Stockholders' Equity**

### ***Dividends***

For the nine months ended September 30, 2008 and 2007, the Company did not pay cash dividends.

### ***Share Repurchases***

During the nine months ended September 30, 2008, the Company used approximately \$33 million of available cash to repurchase approximately 2.9 million shares of Avis Budget Group common stock under its common stock repurchase program. The Company did not repurchase any of its common stock during the nine months ended September 30, 2007.

**Table of Contents****Accumulated Other Comprehensive Income (Loss)**

The components of accumulated other comprehensive income (loss) are as follows:

	<b>Currency Translation Adjustments</b>	<b>Unrealized Losses on Cash Flow Hedges</b>	<b>Minimum Pension Liability Adjustment</b>	<b>Accumulated Other Comprehensive Income (Loss)</b>
Balance, January 1, 2008	\$ 117	\$ (63)	\$ (22)	\$ 32
Current period change	(49)	(4)		(53)
Balance, September 30, 2008	\$ 68	\$ (67)	\$ (22)	\$ (21)

All components of accumulated other comprehensive income (loss) are net of tax except currency translation adjustments, which exclude income taxes related to indefinite investments in foreign subsidiaries.

**Total Comprehensive Income (Loss)**

Comprehensive income (loss) consists of net income (loss) and other gains and losses affecting stockholders' equity that, under U.S. GAAP, are excluded from net income.

The components of other comprehensive income (loss) were as follows:

	<b>Three Months Ended September 30,</b>		<b>Nine Months Ended September 30,</b>	
	<b>2008</b>	<b>2007</b>	<b>2008</b>	<b>2007</b>
Net income (loss)	\$ (1,006)	\$ 103	\$ (1,003)	\$ 140
Other comprehensive income (loss):				
Currency translation adjustments	(74)	20	(49)	54
Losses on cash flow hedges, net of tax	(3)	(52)	(4)	(38)
	(77)	(32)	(53)	16
Total comprehensive income (loss)	\$ (1,083)	\$ 71	\$ (1,056)	\$ 156

During the nine months ended September 30, 2008, the Company recorded unrealized losses on cash flow hedges of \$4 million, net of tax in accumulated other comprehensive income (loss), which primarily related to the derivatives used to manage the interest-rate risk associated with the Company's vehicle-backed debt and the Company's floating rate debt. Such amount in the nine months ended September 30, 2008, included \$11 million, excluding tax, of unrealized losses on cash flow hedges related to the Company's vehicle-backed debt and is offset by a corresponding decrease in the Company's Investment in Avis Budget Rental Car Funding (AESOP) LLC on the Consolidated Condensed Balance Sheet.

**18. Stock-Based Compensation**

The Company records compensation expense for all outstanding employee stock awards. The Company recorded stock-based compensation expense of \$4 million and \$5 million (\$2 million and \$3 million, after tax) during third quarter 2008 and 2007, respectively, and \$11 million and

## Edgar Filing: AVIS BUDGET GROUP, INC. - Form 10-Q

\$13 million (\$6 million and \$8 million, after tax) during the nine months ended September 30, 2008 and 2007, respectively, related to employee stock awards that were granted by the Company.

The Company applies the direct method and tax law ordering approach to calculate the tax effects of stock-based compensation. In jurisdictions with net operating loss carryforwards, tax deductions for 2008 and 2007 exercises of stock-based awards did not generate a cash benefit. Approximately \$31 million of tax benefits will be recorded in additional paid-in capital when realized in these jurisdictions.

**Table of Contents**

The activity related to the Company's restricted stock units ( RSUs ) and stock option plans consisted of (in thousands of shares):

	Nine Months Ended September 30, 2008			
	RSUs		Options	Weighted Average Exercise Price
	Number of RSUs	Weighted Average Grant Price	Number of Options <sup>(b)</sup>	
Balance at January 1, 2008	2,330	\$ 25.03	5,963	\$ 26.16
Granted at fair market value	1,136	12.69		
Vested/exercised	(549)	24.85	(5)	10.68
Cancelled	(170)	21.01	(652)	36.25
Balance at September 30, 2008 <sup>(a)</sup>	2,747	20.20	5,306	24.94

(a) As of September 30, 2008, the Company's outstanding RSUs had aggregate intrinsic value of \$16 million. Aggregate unrecognized compensation expense related to RSUs amounted to \$46 million as of September 30, 2008. The balance of RSUs at September 30, 2008 consists of 1,759 related to time-based awards and 988 related to performance-based awards.

(b) All stock options outstanding as of September 30, 2008 are exercisable and have a weighted average remaining contractual life of 1.6 years.

The table below summarizes information regarding the Company's outstanding and exercisable stock options as of September 30, 2008 (in thousands of shares):

Range of Exercise Prices	Weighted Average Contractual Life	Number of Options
Less than \$15.00	1.9	873
\$15.01 to \$20.00	2.6	387
\$20.01 to \$25.00	1.7	214
\$25.01 to \$30.00	1.6	2,659
\$30.01 to \$35.00	1.2	1,152
\$35.01 and above	0.1	21
	1.6	5,306

As of September 30, 2008, the Company also had approximately 0.5 million outstanding stock appreciation rights with a weighted average exercise price of \$24.40, a weighted average remaining contractual life of 4.8 years and unrecognized compensation expense of \$2 million.

**19. Segment Information**

The reportable segments presented below represent the Company's operating segments for which separate financial information is available and is utilized on a regular basis by its chief operating decision maker to assess performance and to allocate resources. In identifying its reportable segments, the Company also considers the nature of services provided by its operating segments. Management evaluates the operating results of each of its reportable segments based upon revenue and EBITDA, which is defined as income from continuing operations before non-vehicle related depreciation and amortization, any impairment of goodwill, other intangible asset or equity investment, non-vehicle related interest and income taxes. The Company's presentation of EBITDA may not be comparable to similarly-titled measures used by other companies.

Impairment		1,262		
<b>Income (loss) before income taxes</b>		<b>\$ (1,179)</b>		<b>\$ 162</b>

<sup>(a)</sup> In the nine months ended September 30, 2007, EBITDA reflects Separation-related costs (credits) of \$4 million in Domestic Car Rental and \$(4) million within Corporate and Other, respectively.

<sup>(b)</sup> Includes unallocated corporate overhead and the elimination of transactions between segments.

During the three and nine months ended September 30, 2008, a \$1,262 million charge was recorded for the impairment of goodwill, intangible assets and investments (see Note 1-Basis of Presentation and Recently Issued Accounting Pronouncements).

During the nine months ended September 30, 2008, Domestic Car Rental assets under vehicle programs increased \$883 million to approximately \$7.3 billion at September 30, 2008, and Domestic Car Rental goodwill and intangible assets decreased \$839 million to \$387 million at September 30, 2008. International Car Rental goodwill and intangible assets decreased \$279 million to \$152 million at September 30, 2008. Truck Rental goodwill decreased \$87 million to \$15 million at September 30, 2008.

**20. Guarantor and Non-Guarantor Consolidating Condensed Financial Statements**

The following consolidating financial information presents Consolidating Condensed Balance Sheets as of September 30, 2008 and December 31, 2007, Consolidating Condensed Statements of Operations for the three months and nine months ended September 30, 2008 and 2007 and Consolidating Condensed Statements of Cash Flows for the nine months ended September 30, 2008 and 2007 for: (i) Avis Budget Group, Inc. (the Parent); (ii) Avis Budget Car Rental and Avis Budget Finance, Inc. (the Subsidiary Issuers); (iii) the guarantor subsidiaries; (iv) the non-guarantor subsidiaries; (v) elimination entries necessary to consolidate the Parent with the Subsidiary Issuers, the guarantor and non-guarantor subsidiaries; and (vi) the Company on a consolidated basis. The Subsidiary Issuers and the guarantor and non-guarantor subsidiaries are 100% owned by the Parent, either directly or indirectly. All guarantees are full and unconditional and joint and several. This financial information is being presented in relation to the Company's Guarantee of the Notes issued by Avis Budget Car Rental. See Note 14-Long-term Debt and Borrowing Arrangements for additional description of these Notes. The Notes have separate investors than the equity investors of the Company and the Notes are guaranteed by certain subsidiaries.

Investments in subsidiaries are accounted for using the equity method of accounting for purposes of the consolidating presentation. The principal elimination entries relate to investments in subsidiaries and intercompany balances and transactions. For purposes of the accompanying Consolidating Condensed Statements of Operations, certain expenses incurred by the Subsidiary Issuers are allocated to the guarantor and non-guarantor subsidiaries.

**21. Subsequent Event**

On October 27, 2008, the Company extended the maturity date of its principal asset-backed bank conduit facility to December 26, 2008, amended certain terms and decreased the maximum available amount of borrowings from \$1.50 billion to \$1.45 billion. The usage and other fees payable under the facility were increased by an anticipated 3% per annum. This facility purchases variable funding notes issued by the Company's Avis Budget Rental Car Funding (AESOP), LLC subsidiary and provides funds for the acquisition of rental cars in the United States. The Company also amended certain terms of its seasonal conduit facility, which matures in February 2009, to include similar pricing, fees and other terms as the principal asset-backed conduit facility, and decreased the maximum available amount of borrowings from \$1.1 billion to \$1.0 billion. Both conduit facilities were amended to include a new amortization event, which provides that a covenant default under our senior credit facilities permits the lenders under such conduit facilities to terminate their commitments and require principal under such conduit facility to be repaid from vehicle disposition proceeds and lease payments we make to our vehicle program subsidiaries.

**Table of Contents**

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*The following discussion should be read in conjunction with our Consolidated Condensed Financial Statements and accompanying Notes thereto included elsewhere herein and with our 2007 Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 29, 2008 (the "2007 Form 10-K"). Unless otherwise noted, all dollar amounts are in millions and those relating to our results of operations are presented before taxes.*

We operate two of the most recognized brands in the global vehicle rental industry through Avis Rent A Car System, LLC and Budget Rent A Car System, Inc. We provide car and truck rentals and ancillary services to businesses and consumers in the United States and internationally.

We operate in the following business segments:

**Domestic Car Rental** provides car rentals and ancillary products and services in the United States.

**International Car Rental** provides car rentals and ancillary products and services primarily in Argentina, Australia, Canada, New Zealand, Puerto Rico and the U.S. Virgin Islands.

**Truck Rental** provides truck rentals and related services to consumers and light commercial users in the United States.

Our revenues are derived principally from car and truck rentals in our Company-owned operations and include (i) time and mileage ( T&M ) fees charged to our customers for vehicle rentals, (ii) reimbursement from our customers for certain operating expenses we incur, including gasoline and vehicle licensing fees, as well as airport concession fees, which we pay in exchange for the right to operate at airports and other locations, and (iii) sales of loss damage waivers and insurance and rentals of navigation units and other items in conjunction with vehicle rentals. We also earn royalty revenue from our franchisees in conjunction with their vehicle rental transactions.

Car rental volumes are closely associated with the travel industry, particularly airline passenger volumes, or enplanements. Because we operate primarily in the United States and generate a significant portion of our revenue from our on-airport operations, we expect that our ability to generate revenue growth will be somewhat dependent on increases in domestic enplanements. We have also experienced significant per-unit fleet cost increases over the last three years, which have negatively impacted our margins. Accordingly, our ability to achieve profit margins consistent with prior periods remains dependent on our ability to successfully reflect corresponding changes in our pricing programs. Our vehicle rental operations are seasonal. Historically, the third quarter of the year has been our strongest quarter due to the increased level of leisure travel and household moving activity. Any occurrence that disrupts rental activity during the third quarter could have a disproportionate adverse effect on our results of operations. We have a predominantly variable cost structure and routinely adjust the size and, therefore, the cost of our rental fleet in response to fluctuations in demand. However, certain expenses, such as rent, are fixed and cannot be reduced in response to seasonal fluctuations in our operations.

We believe that the following trends, among others, may affect and/or have impacted our financial condition and results of operations:

Domestic enplanements, which are expected to decline in 2008 compared to 2007;

Rising per-unit car fleet costs, which we began to experience in 2005 and have continued with model-year 2008 vehicles;

Difficulty in achieving sustained pricing increases;

Our continued expansion in off-airport or local vehicle rentals, including insurance replacement rentals;

Increases in borrowing spreads for vehicle-related debt; and

Decreased demand for truck rentals, which has been impacted by household moving activity.

Many of these trends are the result of the current downturn in the U.S. economy and have caused our results of operations for the first nine months of 2008 to be lower than in the same period in 2007. We currently expect that results for our Domestic Car Rental segment for full-year 2008 will be significantly lower than in 2007, which could impact our ability to generate cash flows consistent with prior periods and our ability to generate sufficient earnings in subsequent quarterly periods to enable us to satisfy the financial covenants contained in our senior credit facilities. As a result, we intend to seek amendments or waivers for such covenants. Failure to comply with such covenants could significantly impact our liquidity if we were unable to obtain an amendment or waiver or we are unable to refinance or obtain a replacement for such facilities on reasonable terms. A covenant default under our senior credit facilities could also impact our ability to borrow under our asset-backed conduit facilities, with commitments totaling \$2.45 million, as such a default, if not waived by the lenders to such conduit facilities, could result in principal under such facility being required to be repaid from vehicle disposition proceeds and lease payments we make to our vehicle program subsidiaries.

We have also been impacted by, and may be further impacted by, the current financial market disruptions as we rely upon financing for our operations, particularly asset-backed financing. For example, we expect our cost of borrowing under our two asset-backed rental car conduit facilities to increase approximately 3% per annum as a result of recent amendments to such facilities. In connection with such amendments, we obtained a 60-day extension for the 364-day facility that matured in October 2008, and we continue to work with the lenders under that facility on a longer-term extension. We also expect that any amendment or waiver under our senior credit facilities, or any replacement or refinancing of such facilities, would likely also cause our borrowing cost to increase.

**Table of Contents****RESULTS OF OPERATIONS**

Discussed below are our consolidated results of operations and the results of operations for each of our reportable segments.

We measure performance using the following key operating statistics: (i) rental days, which represents the total number of days (or portion thereof) a vehicle was rented, and (ii) T&M revenue per rental day, which represents the average daily revenue we earned from rental and mileage fees charged to our customers. Our car rental operating statistics (rental days and T&M revenue per rental day) are all calculated based on the actual usage of the vehicle during a 24-hour period. We believe that this methodology, while conservative, provides our management with the most relevant statistics in order to manage the business. Our calculation may not be comparable to other companies' calculation of similarly-titled statistics.

The reportable segments presented below represent our operating segments for which separate financial information is available and is utilized on a regular basis by our chief operating decision maker to assess performance and to allocate resources. In identifying our reportable segments, we also consider the nature of services provided by our operating segments. Management evaluates the operating results of each of our reportable segments based upon revenue and EBITDA, which we define as income from continuing operations before non-vehicle related depreciation and amortization, any impairment of goodwill, other intangible asset or equity investment, non-vehicle related interest and income taxes. Our presentation of EBITDA may not be comparable to similarly-titled measures used by other companies.

**THREE MONTHS ENDED SEPTEMBER 30, 2008 VS. THREE MONTHS ENDED SEPTEMBER 30, 2007**

Our consolidated results of operations comprised the following:

	<b>Three Months Ended September 30,</b>		
	<b>2008</b>	<b>2007</b>	<b>Change</b>
Net revenues	\$ 1,701	\$ 1,719	\$ (18)
Total expenses	2,887	1,603	1,284
Income (loss) before income taxes	(1,186)	116	(1,302)
Provision (benefit) for income taxes	(180)	53	(233)
Income (loss) from continuing operations	(1,006)	63	(1,069)
Loss from discontinued operations		(3)	3
Gain on disposal of discontinued operations, net of tax		43	(43)
Net income (loss)	\$ (1,006)	\$ 103	\$ (1,109)

During third quarter 2008, our net revenues decreased \$18 million compared to third quarter 2007, principally resulting from a 3% decrease in T&M revenue experienced in our car rental operations, due primarily to a 3% decrease in rental days, offset by a 9% increase in ancillary revenues. The ancillary revenue growth was primarily driven by increases in airport concession and vehicle licensing revenues, rentals of GPS navigation units, and sales of insurance products and other items. In addition, the total revenue decrease for third quarter 2008 includes a \$4 million increase related to the effect of foreign currency exchange rate fluctuations on the translation of our international operations' results into U.S. dollars.

Total expenses increased \$1,284 million (80%) principally due to (i) a \$1,262 million charge recorded for the impairment of our goodwill, our tradenames asset and our investment in Carey Holdings, Inc. ( Carey ), primarily as a result of reduced market valuations for vehicle services and other companies, as well as reduced profit forecasts due to soft economic conditions and increased financing costs, (ii) a \$32 million (7%) increase in vehicle depreciation and lease charges resulting from an increase in per-unit fleet costs, (iii) a \$12 million (1%) increase in operating expenses, representing higher gasoline costs (which increased \$24 million), vehicle licensing expenses, and other items, partially offset by decreased vehicle maintenance and damage costs, and (iv) \$6 million in restructuring costs primarily related to headcount reductions. These year-over-year expense increases were partially offset by a decrease of \$22 million in vehicle interest expense, driven by lower average debt balances and lower effective interest rates for third quarter 2008. The increase in total expenses includes an adverse impact from foreign currency exchange rates of \$3 million, offset by a gain on foreign currency hedges of \$6 million. As a result of these items, offset by a \$233 million reduction in our provision for income taxes, our income from continuing operations decreased \$1,069 million.

## Edgar Filing: AVIS BUDGET GROUP, INC. - Form 10-Q

Our effective tax rate for continuing operations was a benefit of 15.2% for third quarter 2008 and a provision of 45.7% for third quarter 2007. The unusually low tax rate in third quarter 2008 resulted primarily from the non-deductible portion of the impairment charges, state taxes and difference in the stock-based compensation recorded for book and tax purposes.

**Table of Contents**

Following is a discussion of the results of each of our reportable segments during the three months ended September 30:

	Revenues			EBITDA		
	2008	2007	% Change	2008	2007	% Change
Domestic Car Rental	\$ 1,319	\$ 1,331	(1%)	\$ 67	\$ 105	(36%)
International Car Rental	265	256	4	60	51	18
Truck Rental	116	129	(10)	6	15	(60)
Corporate and Other <sup>(a)</sup>	1	3	*	(3)	(3)	*
<b>Total Company</b>	<b>\$ 1,701</b>	<b>\$ 1,719</b>		<b>130</b>	<b>168</b>	
Less: Non-vehicle related depreciation and amortization				23	21	
Interest expense related to corporate debt, net				31	31	
Impairment <sup>(b)</sup>				1,262		
<b>Income (loss) before income taxes</b>				<b>\$ (1,186)</b>	<b>\$ 116</b>	

(\*) Not meaningful.

(a) Includes unallocated corporate overhead and the elimination of transactions between segments.

(b) We recorded a charge of \$1,262 million for the impairment of goodwill, our tradenames asset and our investment in Carey during the three months ended September 30, 2008. Domestic Car Rental recorded \$882 million of the charge, International Car Rental recorded \$275 million, Truck Rental recorded \$87 million and Corporate and Other recorded \$18 million.

**Domestic Car Rental**

Revenues and EBITDA decreased \$12 million (1%) and \$38 million (36%), respectively, in third quarter 2008 compared with third quarter 2007, primarily due to a decrease in car rental volume, increased fleet costs and unusual items.

The \$12 million revenue decrease was comprised of a \$39 million (4%) decrease in T&M revenue offset by a \$27 million (10%) increase in ancillary revenues. The decrease in T&M revenue was principally driven by a 3% decrease in rental days and 1% decrease in T&M revenue per day. The \$27 million increase in ancillary revenues was due primarily to (i) a \$14 million increase in gasoline sales, which was more than offset in EBITDA by \$22 million of higher gasoline expense, and (ii) a \$13 million increase in rentals of GPS navigation units, sales of insurance products and other items.

The unfavorable effect of decreased revenues was amplified in EBITDA by \$36 million (10%) of increased fleet depreciation and lease charges resulting from a 13% increase in per-unit fleet costs and a 2% decrease in the average size of our domestic rental fleet. EBITDA also reflected \$10 million of restructuring and other expenses, primarily related to headcount reductions as well as the settlement of a litigation matter. In addition, EBITDA benefited from (i) a \$21 million decline in vehicle interest expense driven by lower average debt balances, lower effective interest rates and a \$3 million gain on interest rate hedges, (ii) an \$11 million reduction in maintenance and damage costs, (iii) a \$5 million decrease in operating expenses primarily related to the declines in rental days and our fleet size, and (iv) \$5 million in hurricane related insurance recoveries.

**International Car Rental**

Revenues and EBITDA increased \$9 million (4%) and \$9 million (18%), respectively, in third quarter 2008 compared with third quarter 2007, primarily due to growth in ancillary revenues and the impact of foreign currency exchange movements.

The revenue increase of \$9 million was comprised of an \$8 million (12%) increase in ancillary revenues and a \$1 million (0%) increase in car rental T&M revenue. The total growth in revenue includes a \$4 million increase related to foreign currency exchange rates, impacting T&M revenue by \$3 million and ancillary revenues by \$1 million, and was largely offset in EBITDA by the opposite impact of foreign exchange on

## Edgar Filing: AVIS BUDGET GROUP, INC. - Form 10-Q

expenses. The \$8 million increase in ancillary revenues was due primarily to (i) a \$4 million increase in airport concession and vehicle licensing revenues, which was partially offset in EBITDA by higher airport concession and vehicle licensing expense remitted to airport and other regulatory authorities, and (ii) a \$4 million increase in counter sales of insurance, GPS rentals and other items.

The favorable effect of incremental T&M revenues was partially offset in EBITDA by \$1 million (1%) of increased fleet depreciation and lease charges, reflecting a 2% increase in the average size of our international rental fleet and a 1% decrease in per unit-fleet costs. EBITDA also reflects a \$6 million gain on our foreign exchange hedges and a \$1 million of restructuring costs, primarily for severance related expenses.

**Table of Contents****Truck Rental**

Revenues and EBITDA declined \$13 million (10%) and \$9 million (60%), respectively, in third quarter 2008 compared with third quarter 2007 due to weaker rental volumes.

The revenue decrease was primarily due to a decline in T&M revenue, which reflected an 8% decrease in T&M revenue per day and a 3% decrease in rental days. EBITDA benefited from \$5 million (13%) less fleet depreciation and lease charges and vehicle interest, reflecting lower per-unit fleet costs.

**NINE MONTHS ENDED SEPTEMBER 30, 2008 VS. NINE MONTHS ENDED SEPTEMBER 30, 2007**

Our consolidated results of operations comprised the following:

	<b>Nine Months Ended September 30,</b>		
	<b>2008</b>	<b>2007</b>	<b>Change</b>
Net revenues	\$ 4,723	\$ 4,600	\$ 123
Total expenses	5,902	4,438	1,464
Income (loss) before income taxes	(1,179)	162	(1,341)
Provision (benefit) for income taxes	(176)	64	(240)
Income (loss) from continuing operations	(1,003)	98	(1,101)
Loss from discontinued operations		(3)	3
Gain on disposal of discontinued operations, net of tax		45	(45)
Net income (loss)	\$ (1,003)	\$ 140	\$ (1,143)

During the nine months ended September 30, 2008, our net revenues increased \$123 million principally due to a \$112 million (11%) increase in ancillary revenues such as counter sales of insurance products, GPS navigation unit rentals, and fees charged to customers, and an \$11 million (0%) increase in T&M revenue, reflecting a 1% increase in domestic and international car rental days and an 8% decrease in revenue within our Truck rental segment. In addition, the total revenue increase includes \$53 million related to the effect of foreign currency exchange rate fluctuations on the translation of our international operations results into U.S. dollars.

The total expense increase of \$1,464 million (33%) was principally due to (i) a \$1,262 million charge recorded for the impairment of goodwill, our tradenames asset and our equity investment in Carey, primarily as a result of reduced market valuation for vehicle services and other companies, as well as reduced profit forecasts due to soft economic conditions and increased financing costs, (ii) a \$104 million (4%) increase in operating expenses primarily resulting from the 1% increase in car rental days and inflationary pressures, particularly with respect to gasoline (which increased \$59 million), (iii) a \$91 million (8%) increase in vehicle depreciation and lease charges resulting from 1% growth in our average car rental fleet and higher per-unit vehicle costs, (iv) \$9 million (2%) in higher selling, general and administrative expenses primarily related to increases in marketing and commission expenditures, and (v) \$6 million in restructuring costs primarily related to headcount reductions. The increase in total expenses includes an adverse impact from foreign currency exchange rates of \$46 million, offset by a gain on foreign currency hedges of \$5 million. As a result of these items, offset by a \$240 million decrease in our provision for income taxes, our income from continuing operations decreased \$1,101 million.

Our effective tax rate for continuing operations was a benefit of 14.9% for the nine months ended September 30, 2008 and a provision of 39.5% for the nine months ended September 30, 2007. The unusually low tax rate for the first nine months of 2008 resulted primarily from the non-deductible portion of the impairment charges, state taxes and differences in the stock-based compensation recorded for book and tax purposes.

**Table of Contents**

Following is a discussion of the results of each of our reportable segments during the nine months ended September 30:

	Revenues			EBITDA		
	2008	2007	% Change	2008	2007	% Change
Domestic Car Rental	\$ 3,695	\$ 3,609	2%	\$ 128	\$ 215	(40%)
International Car Rental	725	649	12	116	96	21
Truck Rental	300	326	(8)	4	14	(71)
Corporate and Other <sup>(a)</sup>	3	16	*	(11)	(2)	*
<b>Total Company</b>	<b>\$ 4,723</b>	<b>\$ 4,600</b>		<b>237</b>	<b>323</b>	
Less: Non-vehicle related depreciation and amortization				62	64	
Interest expense related to corporate debt, net				92	97	
Impairment <sup>(b)</sup>				1,262		
<b>Income (loss) before income taxes</b>				<b>\$ (1,179)</b>	<b>\$ 162</b>	

(\*) Not meaningful.

(a) Includes unallocated corporate overhead and the elimination of transactions between segments. EBITDA for 2007 reflects separation-related costs of \$4 million in Domestic Car Rental and a \$4 million credit in Corporate and Other.

(b) We recorded a charge of \$1,262 million for the impairment of goodwill, our tradenames asset and our investment in Carey during the three months ended September 30, 2008. Domestic Car Rental recorded \$882 million of the charge, International Car Rental recorded \$275 million, Truck Rental recorded \$87 million and Corporate and Other recorded \$18 million.

**Domestic Car Rental**

Revenues increased \$86 million (2%) while EBITDA decreased \$87 million (40%) in the nine months ended September 30, 2008 compared with the same period in 2007. Revenue increased primarily due to an increase in ancillary revenues and increased car rental volume. EBITDA margins were negatively impacted year-over-year by lower car rental pricing and increased fleet costs.

The revenue increase of \$86 million was comprised of an \$89 million (12%) increase in ancillary revenues, offset by a \$3 million decrease in T&M revenue. The \$89 million increase in ancillary revenues was due primarily to (i) a \$39 million increase in rentals of GPS navigation units, sales of insurance products and other items, (ii) a \$37 million increase in gasoline sales, which was more than offset in EBITDA by \$54 million of higher gasoline expense, and (iii) a \$13 million increase in airport concession and vehicle licensing revenues, \$7 million of which was offset in EBITDA by higher airport concession and vehicle licensing expenses remitted to airport and other regulatory authorities. The decrease in T&M revenue was principally driven by a 1% decrease in T&M revenue per day while rental days increased 1% year-over-year.

The favorable effect of increased revenues was offset in EBITDA by \$89 million (9%) of increased fleet depreciation and lease charges resulting from an 8% increase in per-unit fleet costs and a 1% increase in the average size of our domestic rental fleet. EBITDA also reflected a \$24 million (1%) increase in operating and selling, general and administrative and other expenses including (i) a \$17 million increase in selling, general and administrative expense related primarily to increased commissions, (ii) a \$15 million increase in expenses associated with increased car rental volume and fleet size, primarily related to agency operator commissions, credit card fees and other items, (iii) \$14 million of incremental operating expenses primarily representing inflationary increases in salaries and wages, off-airport rental expense and other costs, and (iv) a \$5 million restructuring charge recorded in third quarter 2008, offset by a \$10 million reduction in insurance costs due to favorable experience, \$6 million in hurricane related insurance recoveries and a decrease of \$8 million in vehicle interest.

**International Car Rental**

Revenues and EBITDA increased \$76 million (12%) and \$20 million (21%), respectively, in the nine months ended September 30, 2008 compared with the same period in 2007, primarily due to growth in ancillary revenues and the impact of foreign currency exchange rate

movements.

The revenue increase of \$76 million was comprised of a \$40 million (9%) increase in car rental T&M revenue and a \$36 million (20%) increase in ancillary revenues. The total growth in revenue includes a \$53 million increase related to foreign currency exchange rates, impacting T&M revenue by \$37 million and ancillary revenues by \$16 million, and was largely offset in EBITDA by the opposite impact of foreign exchange on expenses of \$46 million. The increase in T&M revenue was principally driven by a 6% increase in T&M revenue per day and a 2% increase in rental days. The \$36 million increase in ancillary revenues was due primarily to (i) a \$19 million increase in counter sales of insurance, GPS rentals and other items, (ii) a \$13 million increase in airport concession and vehicle licensing revenues, \$12 million of which was offset in EBITDA by higher airport concession and vehicle licensing expense remitted to airport and other regulatory authorities, and (iii) a \$4 million increase in gasoline sales, which was more than offset in EBITDA by higher gasoline costs.

**Table of Contents**

The favorable effect of incremental T&M revenues was partially offset in EBITDA by \$13 million (8%) of increased fleet depreciation and lease charges, reflecting a 2% increase in the average size of our international rental fleet and a 6% increase in per-unit fleet costs. EBITDA also reflects a \$27 million (9%) increase in incremental operating expenses including (i) \$11 million in additional agency operator commissions and other vehicle costs, (ii) a \$10 million increase in salaries and wages, rents and other costs, and (iii) an \$8 million increase in selling, general and administrative expense related primarily to increased travel agency commissions, offset by a \$6 million reduction in insurance costs due to favorable experience. EBITDA also reflects a \$5 million gain on our foreign exchange hedges.

**Truck Rental**

Revenues and EBITDA declined \$26 million (8%) and \$10 million (71%), respectively, in the nine months ended September 30, 2008 compared with the same period in 2007.

The revenue decrease was due to a decline of \$26 million (10%) in T&M revenue, which reflected a 9% decrease in T&M revenue per day, while rental days remained essentially unchanged compared to nine months ended September 30, 2007. EBITDA benefited from \$9 million (10%) less fleet depreciation, lease charges and interest reflecting lower per-unit fleet costs, and also reflected a decrease of \$6 million in operating commission expense primarily as a result of the decrease in T&M revenue.

**FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES**

We present separately the financial data of our vehicle programs. These programs are distinct from our other activities as the assets are generally funded through the issuance of debt that is collateralized by such assets. Assets under vehicle programs are funded through borrowings under asset-backed funding or other similar arrangements. The income generated by these assets is used, in part, to repay the principal and interest associated with the debt. Cash inflows and outflows relating to the generation or acquisition of such assets and the principal debt repayment or financing of such assets are classified as activities of our vehicle programs. We believe it is appropriate to segregate the financial data of our vehicle programs because, ultimately, the source of repayment of such debt is the realization of such assets.

**FINANCIAL CONDITION**

	<b>September 30, 2008</b>	<b>December 31, 2007</b>	<b>Change</b>
Total assets exclusive of assets under vehicle programs	\$ 3,482	\$ 4,493	\$ (1,011)
Total liabilities exclusive of liabilities under vehicle programs	3,808	3,889	(81)
Assets under vehicle programs	8,922	7,981	941
Liabilities under vehicle programs	8,216	7,120	1,096
Stockholders' equity	380	1,465	(1,085)

Total assets exclusive of assets under vehicle programs decreased \$1.0 billion primarily due to (i) a charge of \$1,262 million recorded in third quarter 2008 for the impairment to our goodwill at our Domestic Car Rental, International Car Rental and Truck Rental reporting segments, our tradenames asset within other intangibles, net and our investment in Carey, (ii) an \$81 million decrease in accounts receivables, (iii) a \$72 million decrease in the receivables due from Realogy and Wyndham, (iv) a \$39 million decrease for income taxes receivable and (v) a \$36 million decrease of derivatives related to our vehicle debt. These decreases were offset by (i) a \$160 million increase in cash and cash equivalents (see Liquidity and Capital Resources-Cash Flows for a detailed discussion), (ii) a \$185 million increase in deferred taxes and (iii) an \$83 million increase in other non-current assets related to an increase to the tax indemnification receivables from Realogy and Wyndham.

Total liabilities exclusive of liabilities under vehicle programs decreased \$81 million primarily due to decreases of (i) \$31 million in accounts payable, (ii) \$31 million in tax liabilities for which we are entitled to indemnification from Realogy and Wyndham, (iii) \$23 million in advertising and marketing related liabilities, (iv) \$22 million in accrued payroll related liabilities, which related primarily to the payment of the 2007 annual incentives in first quarter 2008, (v) \$15 million in non-current insurance liabilities and (vi) \$13 million in accrued legal settlements. These decreases were partially offset by a net \$62 million increase in other non-current liabilities, primarily related to a \$67 million increase in tax liabilities for which we are entitled to indemnification from Realogy and Wyndham.

Assets under vehicle programs increased approximately \$941 million primarily due to (i) approximately \$555 million of net vehicle additions, principally due to our Domestic vehicle rental fleets to meet seasonal needs, (ii) a \$332 million increase in our Investment in Avis Budget Rental Car Funding (AESOP) LLC due mainly to a capital contribution principally reflecting our decision to invest funds from vehicle sales as equity rather than as a repayment of debt, and (iii) a \$55 million increase in receivables from vehicle manufacturers.

**Table of Contents**

Liabilities under vehicle programs increased approximately \$1.1 billion, reflecting \$1.3 billion of additional borrowings to support the growth in our vehicle rental fleet described above, offset by a \$130 million decrease in invoices from manufacturers for vehicles received. See Liquidity and Capital Resources-Debt and Financing Arrangements for a detailed account of the change in our debt related to vehicle programs.

Stockholders' equity decreased approximately \$1.1 billion, primarily due to (i) a net loss of \$1,003 million, (ii) a \$53 million decrease in accumulated other comprehensive income primarily as a result of currency translation adjustments, (iii) the repurchase of approximately \$33 million of our common stock, and (iv) a \$6 million decrease in additional paid-in capital for Separation-related adjustments. These decreases were offset by a \$10 million increase related to the amortization expense of restricted stock units.

**LIQUIDITY AND CAPITAL RESOURCES**

Our principal sources of liquidity are cash on hand and our ability to generate cash through operations and financing activities, as well as available funding arrangements and committed credit facilities, each of which is discussed below.

**CASH FLOWS**

At September 30, 2008, we had \$374 million of cash on hand, an increase of \$160 million from \$214 million at December 31, 2007. The following table summarizes such increase:

	<b>Nine Months Ended September 30,</b>		
	<b>2008</b>	<b>2007</b>	<b>Change</b>
Cash provided by (used in):			
Operating activities	\$ 1,418	\$ 1,372	\$ 46
Investing activities	(2,495)	(2,835)	340
Financing activities	1,249	1,587	(338)
Effect of exchange rate changes	(12)	6	(18)
Net change in cash and cash equivalents	\$ 160	\$ 130	\$ 30

During the nine months ended September 30, 2008, we generated \$46 million more cash from operating activities in comparison to the same period in 2007. This change principally reflected a reduced use of cash for our working capital requirements.

We used \$340 million less cash in investing activities during the nine months ended September 30, 2008 compared with the same period in 2007. This change primarily reflects the activities of our vehicle programs, which used (i) \$738 million less cash due to our fleet management decisions, including increasing the average hold period of our vehicle fleet and maintaining a slightly smaller fleet during our peak period and (ii) \$23 million less purchases of GPS navigation units and other items. These reduced cash outflows were offset by (i) a \$343 million capital contribution to Avis Budget Rental Car Funding (AESOP) LLC in the first quarter 2008, reflecting our decision to invest funds from vehicle sales as equity rather than as a repayment of debt, (ii) \$82 million of incremental spending for acquisitions of vehicle rental franchises and (iii) a net year-over-year decrease of \$9 million in transactions with our former operating businesses. Our capital expenditures in the first nine months of 2008 were \$5 million less than in the same period in 2007, and we anticipate aggregate capital expenditures will approximate \$90 million in 2008.

We generated \$338 million less cash from financing activities during the nine months ended September 30, 2008 in comparison with the same period in 2007. This change primarily reflects (i) a \$291 million net decrease in cash provided under our vehicle programs' financing activities primarily due to a decrease in proceeds from borrowings and (ii) an \$82 million increase in cash utilized for the net repurchases and issuances of common stock, partially offset by a \$35 million decrease in debt principal payments related to our corporate borrowings.

**Table of Contents**

**DEBT AND FINANCING ARRANGEMENTS**

At September 30, 2008, we had approximately \$8.6 billion of indebtedness (including corporate indebtedness of approximately \$1.8 billion and debt under vehicle programs of approximately \$6.8 billion).

Corporate indebtedness consisted of:

	<b>Maturity Date</b>	<b>As of September 30, 2008</b>	<b>As of December 31, 2007</b>	<b>Change</b>
Floating rate term loan <sup>(a) (b)</sup>	April 2012	\$ 789	\$ 796	\$ (7)
Floating rate notes <sup>(a)</sup>	May 2014	250	250	
7 <sup>5</sup> / <sub>8</sub> % notes <sup>(a)</sup>	May 2014	375	375	
7 <sup>3</sup> / <sub>4</sub> % notes <sup>(a)</sup>	May 2016	375	375	
		1,789	1,796	(7)
Other		2	1	1
		\$ 1,791	\$ 1,797	\$ (6)

<sup>(a)</sup> In connection with the Separation, Avis Budget Car Rental borrowed \$1,875 million in April 2006, which consisted of (i) \$1 billion of unsecured fixed and floating rate notes and (ii) an \$875 million secured floating rate term loan under a credit facility. As of September 30, 2008 the floating rate term loan and floating rate notes bear interest at three month LIBOR plus 125 basis points and three month LIBOR plus 250 basis points, respectively. We use various hedging strategies, including derivative instruments, to manage a portion of the risks associated with our floating rate debt.

<sup>(b)</sup> The floating rate term loan and our revolving credit facility are secured by pledges of all of the capital stock of substantially all of our direct or indirect domestic subsidiaries and up to 66% of the capital stock of each direct foreign subsidiary, subject to certain exceptions, and liens on substantially all of our intellectual property.

The following table summarizes the components of our debt under vehicle programs (including related party debt due to Avis Budget Rental Car Funding (AESOP) LLC ( Avis Budget Rental Car Funding )):

	<b>As of September 30, 2008</b>	<b>As of December 31, 2007</b>	<b>Change</b>
Debt due to Avis Budget Rental Car Funding <sup>(a)</sup>	\$ 5,586	\$ 4,646	\$ 940
Budget Truck financing:			
Budget Truck Funding program <sup>(b)</sup>	335	246	89
Capital leases	165	204	(39)
Other <sup>(c)</sup>	762	500	262
	\$ 6,848	\$ 5,596	\$ 1,252

<sup>(a)</sup> As of September 30, 2008, the principal sources of the \$5.6 billion of debt are \$5.0 billion of third party debt issued by Avis Budget Rental Car Funding, \$527 million of our equity investment in Avis Budget Rental Car Funding and \$84 million of interest rate derivative hedges. The increase principally reflects (i) \$597 million of incremental borrowings under our various debt arrangements to support the acquisition of rental vehicles within our Domestic Car Rental operations and (ii) a \$343 million increase in our Investment in Avis Budget Rental Car Funding reflecting our decision to invest funds from vehicle sales into Avis Budget Rental Car Funding as equity rather than as a repayment of debt due to Avis Budget Rental Car Funding.

<sup>(b)</sup>

## Edgar Filing: AVIS BUDGET GROUP, INC. - Form 10-Q

The increase primarily reflects incremental borrowings under our conduit facility to support the acquisition of rental vehicles within our Budget Truck rental fleet.

- (c) The increase primarily reflects incremental borrowings under our conduit facilities to support the acquisition of vehicles within our International Car Rental operations and additional fleet loans to support the acquisition of certain vehicles for our Domestic Car Rental operations.

**Table of Contents**

As of September 30, 2008, the committed credit facilities available to us and/or our subsidiaries at the corporate or Avis Budget Car Rental, LLC level were as follows:

	<b>Total Capacity</b>	<b>Outstanding Borrowings</b>	<b>Letters of Credit Issued</b>	<b>Available Capacity</b>
\$1.5 billion revolving credit facility <sup>(a)</sup>	\$ 1,500	\$	\$ 590	\$ 910
Letter of credit facility <sup>(b)</sup>	303		303	

(a) This secured revolving credit facility was entered into by Avis Budget Car Rental in April 2006, has a five year term and as of September 30, 2008 bears interest of LIBOR plus 125 basis points. The floating rate term loan and our revolving credit facility are secured by pledges of all of the capital stock of substantially all of our direct or indirect domestic subsidiaries and up to 66% of the capital stock of each direct foreign subsidiary, subject to certain exceptions, and liens on substantially all of our intellectual property.

(b) Final maturity date is July 2010.

The following table presents available funding under our debt arrangements related to our vehicle programs at September 30, 2008:

	<b>Total Capacity <sup>(a)</sup></b>	<b>Outstanding Borrowings</b>	<b>Available Capacity</b>
Debt due to Avis Budget Rental Car Funding <sup>(b)</sup>	\$ 6,711	\$ 5,586	\$ 1,125
Budget Truck financing:			
Budget Truck Funding program <sup>(c)</sup>	335	335	
Capital leases <sup>(d)</sup>	165	165	
Other <sup>(e)</sup>	1,044	762	282
	\$ 8,255	\$ 6,848	\$ 1,407

(a) Capacity is subject to maintaining sufficient assets to collateralize debt.

(b) The outstanding debt is collateralized by approximately \$7.3 billion of underlying vehicles and related assets.

(c) The outstanding debt is collateralized by approximately \$344 million of underlying vehicles and related assets.

(d) In connection with these capital leases, there are corresponding assets of approximately \$174 million classified within vehicles, net on our Consolidated Condensed Balance Sheet as of September 30, 2008.

(e) The outstanding debt is collateralized by approximately \$1.2 billion of vehicles and related assets.

**LIQUIDITY RISK**

Our primary liquidity needs include the payment of operating expenses, corporate and vehicle related debt and procurement of rental vehicles to be used in our operations. Our primary sources of funding are operating revenue, cash received upon sale of vehicles, borrowings under our vehicle-backed borrowing arrangements and our revolving credit facility.

Our liquidity position has been and may be further negatively affected by the current financial market disruptions and the current downturn in the U.S. economy, which have resulted in and may result in further unfavorable conditions in the vehicle rental industry, in the asset backed financing market, and in the credit markets generally. These factors have contributed to and could further contribute to changes in the debt ratings assigned to us by credit rating agencies.

Additionally, the downturn in the U.S. economy and the financial crisis could further impact our liquidity due to (i) decreased demand for vehicles in the used vehicle market, (ii) increased costs associated with the principal financing program for our vehicle rental subsidiaries, including such increased costs incurred in connection with recent amendments to our asset-backed conduit facilities, (iii) any of the vehicle manufacturers, including General Motors Corporation, Ford Motor Company or Chrysler LLC being unable or unwilling to honor its obligations to repurchase or guarantee the depreciation on the related vehicles, (iv) any disruption in our ability to obtain financing due to negative credit events specific to us or affecting the overall debt market, including our ability to obtain the amendment or waiver of the covenants contained in

## Edgar Filing: AVIS BUDGET GROUP, INC. - Form 10-Q

our senior credit facilities that we are currently seeking, (v) default by any of the financial-guarantee firms that have insured a portion of our outstanding vehicle-backed debt, and (vi) any of Realogy, Wyndham or Travelport being unable or unwilling to honor its obligations under the Separation Agreement. For additional information regarding our liquidity risks, please see Part II, Item 1A, Risk Factors and this Management's Discussion and Analysis of Financial Condition and Results of Operations herein and Part I, Item 1A, Risk Factors of our 2007 10-K.

As of September 30, 2008, we were not aware of any instances of non-compliance with the financial covenants under our credit facilities.

### **CONTRACTUAL OBLIGATIONS**

Our future contractual obligations have not changed significantly from the amounts reported within our 2007 Form 10-K with the exception of our commitment to purchase vehicles, which decreased by approximately \$2.2 billion from December 31, 2007 to approximately \$2.7 billion at September 30, 2008. We are in the process of finalizing our purchase commitments with manufacturers for model-year 2009 vehicles. Changes to our obligations related to corporate indebtedness and debt under vehicle programs are presented above within the section titled Liquidity and Capital Resources Debt and Financing Arrangements and also within Notes 14 and 15 to our Consolidated Condensed Financial Statements.

---

## **Table of Contents**

As of September 30, 2008, our unrecognized tax benefits totaled \$456 million. We are entitled to indemnification from Realogy and Wyndham for substantially all of such amount. A reduction in the unrecognized tax benefits may occur upon settlement with tax authorities, including the Internal Revenue Service ( IRS ). The IRS has begun to examine our taxable years 2003 through 2006. While the ultimate settlement date is uncertain, we believe it is reasonably possible that examination for the taxable years 2003 through 2006 will conclude in 2010.

## **ACCOUNTING POLICIES**

The results of the majority of our recurring operations are recorded in our financial statements using accounting policies that are not particularly subjective, nor complex. However, in presenting our financial statements in conformity with generally accepted accounting principles, we are required to make estimates and assumptions that affect the amounts reported therein. Several of the estimates and assumptions that we are required to make pertain to matters that are inherently uncertain as they relate to future events. Presented within the section titled Critical Accounting Policies of our 2007 Form 10-K are the accounting policies (related to goodwill and other indefinite-lived intangible assets, vehicles, income taxes, financial instruments and public liability, property damage and other insurance liabilities) that we believe require subjective and/or complex judgments that could potentially affect 2008 reported results. There have been no significant changes to those accounting policies or our assessment of which accounting policies we would consider to be critical accounting policies.

During third quarter 2008, we recorded an impairment charge of approximately \$1.3 billion based on an assessment of the fair value of our goodwill, our tradenames asset and our investment in Carey (see Note 1 to our Consolidated Condensed Financial Statements for more information). During fourth quarter 2007, we recorded a goodwill impairment charge of approximately \$1.2 billion based on our assessment at that date. We will continue to monitor our goodwill and other intangible assets for potential impairment and may be required to record an additional charge to earnings in the future if events indicate that further impairment exists.

We will adopt the following recently issued accounting pronouncements as required:

SFAS No. 141(R), Business Combinations

SFAS No. 160, Noncontrolling Interests in Consolidated Financial Statements-an amendment of ARB No. 51

SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities-an amendment of FASB Statement No. 133  
For detailed information regarding these pronouncements and the impact thereof on our business, see Note 1 to our Consolidated Condensed Financial Statements.

## **Item 3. Quantitative and Qualitative Disclosures about Market Risk**

We assess our market risk based on changes in interest and foreign currency exchange rates utilizing a sensitivity analysis that measures the potential impact in earnings, fair values and cash flows based on a hypothetical 10% change (increase and decrease) in interest and foreign currency rates. We used September 30, 2008 market rates to perform a sensitivity analysis separately for each of our market risk exposures. The estimates assume instantaneous, parallel shifts in interest rate yield curves and exchange rates. We have determined, through such analyses, that the impact of a 10% change in interest and foreign currency exchange rates on our earnings, fair values and cash flows would not be material.

## **Item 4. Controls and Procedures**

- (a) *Disclosure Controls and Procedures.* Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act )) as of the end of the period covered by this quarterly report. Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of such period, our

disclosure controls and procedures are effective.

- (b) *Internal Controls Over Financial Reporting.* There have been no changes in our internal control over financial reporting (as such term is defined in rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents****PART II OTHER INFORMATION****Item 1. Legal Proceeding**  
**Previously Reported Matters**

The following summarizes material developments that have occurred in our previously reported legal proceedings.

**Corporate Litigation**

With respect to CSI Investments et al. v. Cendant et al. (S.D.N.Y.) ( Credentials Litigation ), an action for breach of contract and fraud arising out of Cendant's acquisition of the Credentials business in 1998, the judgment entered in favor of plaintiffs in the amount of approximately \$94.3 million plus attorneys fees and accrued interest on the judgment was affirmed in May 2008 following the denial of our and plaintiffs' motions for reconsideration. We filed a notice of appeal on May 23, 2008 and plaintiffs filed a notice of cross appeal on June 2, 2008. Pursuant to the Separation Agreement, Realogy and Wyndham are responsible for 62.5% and 37.5%, respectively, of any liability related to the Credentials Litigation; therefore, we expect that any judgment or payment related to the Credentials Litigation will have no net impact on our financial statements or cash balances. The judgement included sanctions against Cendant in the amount of \$720,000 and Realogy and Wyndham have paid their proportional share of such sanctions plus post-judgment interest thereon. On September 12, 2008, we filed the initial appellate brief.

**Item 1A. Risk Factors**

***We recorded a charge for goodwill impairment in the fourth quarter of 2007 and third quarter 2008, and our goodwill may be further impaired in the future, which may require us to record an additional charge to earnings.***

Under generally accepted accounting principles, we perform a goodwill impairment assessment as required, which includes, among other things, a reconciliation of current equity market capitalization to stockholders' equity. In the fourth quarter of 2007 and the third quarter of 2008, our total stockholders' equity significantly exceeded our equity market capitalization and based on our goodwill impairment assessment, we recorded a charge of approximately \$1.2 billion and \$1.3 billion for goodwill impairment for fourth quarter 2007 and impairment of goodwill, intangible assets and the Company's investment in Carey Holdings, Inc. ( Carey ) in third quarter 2008, respectively. During October 2008, our stock price continued to decrease. We may be required to record an additional impairment in the future including as a result of continued reduction to our equity market capitalization, which would result in a negative impact on our results of operations.

***We have been adversely impacted by the downturn in the U.S. economy and may be further adversely impacted.***

The U.S. economy is currently experiencing a pronounced downturn and is likely in or headed for a recession, possibly a severe one. Historically, our results of operations have declined during periods of general economic weakness. The economic downturn has led to overall reduced business travel and could limit the pace of leisure travel. In 2007, we generated approximately 81% of our domestic car rental revenue from our corporate-owned on-airport locations; therefore, a decline in airline travel will typically have an adverse impact on our results of operations. The effects of economic factors have caused the results of our operations for the first nine months of 2008 to be lower than in the same period in 2007, and we currently expect that results for our Domestic Car Rental segment for full-year 2008 will be significantly lower than in 2007. If economic conditions in the United States do not improve or worsen, our results of operations could be adversely impacted beyond 2008.

***Our business requires substantial capital, and a disruption in our ability to obtain financing for our operations, an increase in the cost of our financing or our inability to meet the financial covenants contained in our senior credit facility could adversely impact our company.***

We rely upon financing for our operations, particularly asset-backed financing, through asset-backed securities and the lending market, for our vehicle fleet. The global economy is experiencing a financial crisis affecting the banking system and financial markets; therefore, we may be unable to obtain financing for our operations at current levels, and any new financing or refinancing of our existing financing is likely to increase our borrowing costs. For example, we expect our cost of borrowing under our two asset-backed rental car conduit facilities to increase approximately 3% per annum as a result of amendments to such facilities we entered into in October 2008. In connection with such amendments, we obtained a 60-day extension for the 364-day facility that matured in October 2008 while we continue to work with the lenders under that facility on a longer-term extension. There can be no assurance that we will be able to obtain such longer-term extension or an extension for our

other asset-backed rental car conduit facility, which matures in February 2009.

## **Table of Contents**

Due to reduced demand for travel services, rising borrowing costs and other factors, we may be unable to generate sufficient earnings to enable us to satisfy the financial covenants contained in our senior credit facilities. Failure to comply with these covenants would cause a default under such facilities. If such a default were to occur, there can be no assurance that we would be able to refinance or obtain a replacement for such facilities on reasonable terms. We intend to seek waivers of such covenants or amendments to such facilities, which, if obtained, would likely cause our borrowing costs to increase.

### ***We face risks related to the financial condition of automobile manufacturers and the used vehicle marketplace.***

Fleet costs represented approximately 29% of our aggregate expenses for 2007. Approximately 50% of the rental cars that comprise our domestic car fleet are subject to manufacturer repurchase or guaranteed depreciation programs. Residual values for both the cars and trucks in our vehicle rental fleet could be reduced, for a variety of reasons, including the current downturn in the U.S. economy, the effects of the financial credit crisis on demand for vehicles in the used vehicle marketplace, a manufacturer announcing the elimination of various models or brands, or the financial distress of a manufacturer. Such a reduction could cause us to sustain a loss on the ultimate sale of non-program cars and trucks or require us to depreciate those cars and trucks on a more rapid basis while we own them, effectively increasing our fleet costs and adversely impacting our profitability.

In addition, a default on any repurchase or guaranteed depreciation agreement could leave us with a substantial unpaid claim against the manufacturer with respect to program cars that were either (i) sold at an amount less than the amount guaranteed under the applicable agreement or (ii) returned to the manufacturer but for which we were not paid. Approximately 38%, 22% and 14% of our cars are manufactured by General Motors, Ford and Chrysler, respectively, and more than half of these cars, and a portion of our other cars, are subject to manufacturer repurchase or guaranteed depreciation agreements. We could incur additional expenses if, following a manufacturer default, the prices at which we were able to dispose of program cars are less than the specified prices under the repurchase or guaranteed depreciation program. This may occur particularly because we typically pay the manufacturer of a program car more than we would pay to buy the same car as a non-program vehicle and we depreciate a program car to the repurchase price or the guaranteed depreciation agreed to by the manufacturer, which does not take into consideration conditions in the used car marketplace.
