Mr. Jinsheng Ren, Chairman and Chief Executive Officer of Simcere Pharmaceutical Group, commented: We are pleased that Simcere achieved overall steady growth in 2008. While the sales growth of Endu has remained below our expectations, both Bicun and Yidasheng have continued to deliver strong sales growth despite the emergence of competitors in the edaravone market. We are also encouraged by the continued strong performance from our branded generics.

In 2009, we believe that our edaravone products and Sinofuan will be the key growth drivers for the Company. With Simcere's strong balance sheet and prudent approach to selecting acquisition targets, we will continue to pursue opportunities that enrich our product pipeline and support our long-term development.

The Company announced that it recently acquired the remaining 10% of Shandong Simcere Medgenn Bio-Pharmaceutical Co. Ltd, the manufacturer of Endu, that it did not already own, bringing Simcere's total ownership to 100%.

2008 Fourth Quarter and Full Year Financial Results

Table of Contents

Revenue from first-to-market edaravone injection products under the brand names Bicon and Yidasheng totaled RMB 192.8 million (US\$28.2 million) in the fourth quarter of 2008, an increase of 31.1% from RMB 147.0 million for the corresponding period in 2007. Research and development expenses for the fourth quarter of 2008 totaled RMB 34.0 million (US\$5.0 million), an increase of 113.5% from RMB 15.9 million for the corresponding period in 2007. The increase was primarily due to the expansion of the research and development team and the initiation of new research projects. As a percentage of total revenue, research and development expenses were 7.3% for the fourth quarter of 2008, compared to 4.0% for the corresponding period in 2007. General and administrative expenses were RMB 55.6 million (US\$8.2 million) for the fourth quarter of 2008, an increase of 21.5% from RMB 45.8 million for the corresponding period in 2007. The increase was primarily due to increased administrative headcount and higher professional service fees associated with the compliance requirements of Section 404 of the Sarbanes-Oxley Act of 2002. As a percentage of total revenue, general and administrative expenses increased to 11.9% for the fourth quarter of 2008 from 11.5% for the corresponding period in 2007. Company Outlook

Simcere expects that China's upcoming medical reform and increasing industry consolidation will benefit Simcere in the long-term. However, due to short-term uncertainties, including whether Endu and our edaravone products will be covered in the national insurance catalogue, the Company believes that the most prudent approach is not to provide full-year or quarterly guidance on revenue and income at this time.
