PROXY STATEMENT

This proxy statement is being furnished to shareholders of Itron, Inc. in connection with the solicitation by our Board of Directors of proxies for use at the 2009 Annual Meeting of Shareholders. The meeting will be held at the principal executive offices of Itron, Inc. (Itron, or the Company), in the Atrium, at 2111 N. Molter Road, Liberty Lake, Washington, at 8:00 a.m., local time, on Tuesday, May 5, 2009, for the purposes listed in the accompanying Notice of Annual Meeting of Shareholders. We expect to mail this proxy statement and accompanying proxy to certain of our shareholders on or about March 27, 2009. The majority of our shareholders were mailed a Notice of Internet Availability of Proxy Materials, as described below, on or about March 23, 2009.

Internet Availability of Annual Meeting Materials

Under new SEC rules, Itron has elected to make its proxy materials available over the Internet rather than mailing paper copies of those materials to every shareholder. On March 23, 2009, we mailed to the majority of our shareholders a Notice of Internet Availability of Proxy Materials directing shareholders to the web site noted below where they can access our proxy materials and view instructions on how to vote via the Internet or by phone.

The following proxy materials are available for you to review online at http://bnymellon.mobular.net/bnymellon/itri_beneficial:

- n The Company's 2009 Proxy Statement;

- n The Proxy Card;

- n The Company's Annual Report to Shareholders for the year ended December 31, 2008 (which is not deemed to be part of the official proxy soliciting materials); and

- n Any amendments to the foregoing materials that may be required to be furnished to the shareholders by the SEC.

Matters to Be Considered at the Annual Meeting

At the annual meeting, we will consider and vote on the following matters:

- (1) the election of three directors for terms of three years (until 2012);

- (2) the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the 2009 fiscal year; and

- (3) such other business that may properly come before the annual meeting.

Record Date and Outstanding Shares

Holders of record of our common stock at the close of business on February 27, 2009, are entitled to notice of, and to vote at, the annual meeting. On the record date, there were 36,776,197 shares of our common stock outstanding. Each outstanding share of our common stock will entitle its holder to one vote on each of the three directors to be elected and one vote on each other matter to be voted on at the annual meeting. Each of our directors and executive officers intends to vote or direct the vote of all shares of common stock over which he or she has voting control in favor of (i) the election of the nominees for director and (ii) the ratification of Ernst & Young LLP as the Company's independent

registered public accounting firm.

Table of Contents

Quorum and Voting

Each shareholder is entitled to one vote per share of common stock held on each matter to be voted on. The presence at the annual meeting, in person or by proxy, of holders of a majority of the outstanding common stock on the record date will constitute a quorum. Abstentions and broker non-votes (shares held by a broker or nominee who does not have the authority, express or discretionary, to vote on a particular matter) on any of the proposals to be voted on will be counted only for purposes of determining the presence of a quorum.

You may vote your shares in one of several ways, depending upon how you own your shares.

Registered Shareholders

Vote by Internet (by going to <http://www.proxyvoting.com/itri> and following the voting instructions); by toll-free telephone (1-866-540-5760); or by mail (by using the paper copy of the proxy materials sent to you) by marking, signing, dating, and mailing the enclosed proxy card in the postage-paid envelope.

Beneficial Shareholders

If your shares are held in the name of a broker, bank or other nominee, follow the voting instructions from the holder of record to vote your shares.

Proposal One: each nominee for director is elected by the vote of the majority of the votes cast with respect to that director's election. Holders of common stock are not entitled to cumulative votes in the election of directors. Abstentions from voting on this matter will not be counted. There will be no broker non-votes on the election of directors because brokers who hold shares for the accounts of their clients have discretionary authority to vote such shares in this matter.

Proposal Two: the appointment of the Company's independent registered public accounting firm for 2009 will be ratified if the majority of the votes cast are in favor of the proposal. Abstentions from voting will not be counted. There will be no broker non-votes on the ratification of the Company's independent registered public accounting firm because brokers who hold shares for the accounts of their clients have discretionary authority to vote such shares in this matter.

Unless contrary instructions are specified, if the proxy is completed and submitted (and not revoked) prior to the annual meeting, the shares represented by the proxy will be voted FOR proposal one and FOR proposal two, and in accordance with the best judgment of the named proxies on any other matters properly brought before the annual meeting.

Revocability of Proxies

Shares represented at the annual meeting by properly signed proxies will be voted at the annual meeting in accordance with the instructions given in the proxy. A shareholder may revoke a proxy at any time before the vote. Mere attendance at the annual meeting will not revoke a proxy. A proxy may be revoked by:

- n submitting a later-dated proxy for the same shares at any time before the proxy is voted;
- n delivering written notice of revocation to the Corporate Secretary of Itron at any time before the vote; or
- n attending the annual meeting *and* voting in person.

If you voted by telephone or the Internet and wish to change your vote, you may call the toll-free number or go to the Internet site, whichever is applicable to your earlier vote, and follow the directions for changing your vote. If the annual meeting is postponed or adjourned for any reason, at any subsequent reconvening of the annual meeting, all proxies will be voted in the same manner as the proxies would have been voted at the original convening of the annual meeting (except for any proxies that have at that time effectively been revoked or withdrawn).

Proxy Solicitation Costs

We have retained Georgeson, Inc., 199 Water Street, 26th Floor, New York, NY 10038, to aid in the solicitation of proxies. We will bear the cost of such solicitation of proxies, which we estimate will be approximately \$6,500 plus expenses. Proxies may be solicited by personal contact, mail, telephone, or facsimile. In addition, we may reimburse brokerage firms and other persons representing beneficial owners of our common stock for their reasonable expenses in forwarding solicitation materials to the beneficial owners. Our directors, officers, and employees may also solicit proxies personally or by telephone, without additional compensation.

Table of Contents**COMPENSATION OF DIRECTORS**

We use a combination of cash and stock-based incentive compensation to attract and retain qualified candidates to serve on our Board of Directors. In setting director compensation, we consider the significant amount of time that directors spend in fulfilling their duties as well as the skill level required of members of the Board.

During the 2008 fiscal year, directors who were not officers of the Company received an annual retainer of \$70,000, with \$40,000 paid in cash and \$30,000 paid in shares of our common stock. Members of the Audit/Finance Committee received an additional annual retainer of \$8,000, paid in cash, and each of our committee chairs received an additional annual retainer of \$10,000, paid half in cash and half in shares of our common stock.

New non-employee directors receive an initial option grant to purchase 5,000 shares of our common stock as of the date of the director's initial election or appointment to the Board, with vesting over a three-year period. Beginning in 2008, each non-employee director also receives an annual, non-qualified stock option to purchase 1,000 shares of our common stock, fully vested on the date of grant, on the first trading day of each January. These options have ten year terms. Shares of our common stock and options granted to non-employee directors that are issued as compensation are issued under our Amended and Restated 2000 Stock Incentive Plan. In December 2008, at the recommendation of our Compensation Committee, the Board elected to forego the January 2009 annual stock option grants.

We have adopted stock ownership guidelines for our non-employee directors. We expect these directors to purchase (or hold) shares equal to three times the annual cash retainer fee (currently \$40,000) within three years from their initial appointment or election as a director. All of the non-employee directors currently hold the number of shares set forth in the guidelines, with the exception of one director who has been on the Board for less than three years and who is making progress towards attaining the guideline goal. In addition, we require our non-employee directors to hold the initial stock options granted to them upon their election or appointment to the Board, until they are no longer active members of our Board.

The following table sets forth the annual compensation of our non-employee directors for 2008. Employee directors do not receive any separate compensation for their services as a director.

ITEM 2 RATIFICATION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors, upon the recommendation of its Audit/Finance Committee, has selected Ernst & Young LLP to serve as the Company's independent registered public accounting firm for 2009, subject to ratification by our shareholders. Although not required to do so, the Board is submitting the selection of this firm for ratification by the Company's shareholders for their views on the Company's independent registered public accounting firm and as a matter of good corporate practice. Ernst & Young LLP has advised the Company that it has no direct, nor any material indirect, financial interest in the Company or any of its subsidiaries. The Company has adopted Corporate Governance Principles, which are available on the Company's website, www.itron.com, by selecting the sections Investors and then Corporate Governance.

Board Matters

Our business, property, and affairs are managed under the direction of our Board of Directors. Members of our Board are kept informed of our business through discussions with our Chairman and Chief Executive Officer (CEO) and other officers, by reviewing materials provided to them, by visiting our offices, and by participating in meetings of the Board and its Committees.

In accordance with our Corporate Governance Principles, directors are expected to attend the Company's annual meeting of shareholders. All of our directors attended the 2008 annual meeting of shareholders. During 2008, the Board of Directors met six times. Each of the directors attended at least 75% of the meetings of the Board and of each committee of which he or she was a member during the periods in which they were directors or members of such committees.

Lead Independent Director

The Board has appointed Jon Eliassen as lead independent director. Candidates for lead independent director are chosen from the independent directors of the Board and elected by the independent directors. The lead independent director is the designated committee chair of the Corporate Governance Committee and chairs the sessions of the independent directors, which are typically held following each board meeting. In addition to corporate governance duties, the lead independent director is responsible for taking the lead role in annually reviewing the performance of the CEO, the search process for a new CEO should that become necessary, and the annual performance review of the Board and individual board members. Additional responsibilities include acting as an advisor to the CEO, as a mediator in disputes between the Board and the CEO, and as a mentor to new Board members.

Committees of the Board of Directors

We have three committees to assist the Board in fulfilling its responsibilities: Audit/Finance, Compensation, and Corporate Governance. Each of the three committees operates under a written charter that has been approved by the Board. The current charters of each of the three committees are available on our website, www.itron.com, by selecting Investors and then Corporate Governance. The committee charters are reviewed annually and are updated as necessary to reflect changes in regulatory requirements and evolving oversight practices.

Audit/Finance Committee

The Audit/Finance Committee monitors our accounting practices, internal accounting controls and financial results, and has sole authority to retain, compensate, and terminate our independent auditors. The Audit/Finance Committee members are Sharon Nelson, Jon Eliassen, Tom Glanville, and Graham Wilson, who serves as Chair. The Corporate Governance Committee has determined that all members of the Audit/Finance Committee are independent under SEC rules and the listing standards of the NASDAQ Global Select Market (NASDAQ). The Corporate Governance Committee has also determined that Messrs. Eliassen, Glanville, and Wilson are each an audit committee financial expert as defined in Item 407(d)(5) of Regulation S-K promulgated by the SEC under the Securities Exchange Act of 1934, as amended (the Exchange Act). The Audit/Finance Committee held nine meetings during 2008.

Compensation Committee

The Compensation Committee is responsible for making recommendations to the Board for our CEO's total annual and long-term incentive compensation and setting compensation levels for our other executive officers. It

Table of Contents

also oversees the administration of various incentive compensation and benefit plans, and performs any other functions regarding compensation that the Board may delegate. The members of the Compensation Committee are Charles Gaylord, Gary Pruitt, Mike Bracy, and Kirby Dyess, who serves as Chair. The Corporate Governance Committee has determined that all members of the Compensation Committee are independent under SEC rules and NASDAQ listing standards. The Compensation Committee held six meetings during 2008.

Under its charter, the Committee has complete discretion to invite other individuals to its meetings, including external advisors to provide information, analysis, and advice to assist in the fulfillment of the Committee's responsibilities. These external advisors do not have a vote. The Committee takes these recommendations into account, as well as the other considerations discussed in *EXECUTIVE COMPENSATION Compensation Discussion and Analysis*, in determining executive compensation. See also the *Overview* section of the *EXECUTIVE COMPENSATION Compensation Discussion and Analysis* in this proxy statement regarding the Committee's responsibilities.

Corporate Governance Committee

The Corporate Governance Committee is responsible for reviewing corporate governance issues, soliciting recommendations for candidates for the Board of Directors, determining the independence of the directors serving on the Board, making recommendations to the Board regarding such candidates, and reviewing and making recommendations to the Board with respect to candidates for directors proposed by shareholders. See *Director Nominations and Qualifications* below regarding our policies with regard to director candidates recommended by shareholders. The members of the Corporate Governance Committee are Graham Wilson, Gary Pruitt, Mike Bracy, and Jon Eliassen, who serves as Chair. The Corporate Governance Committee has determined that all of the non-employee directors of the Board are independent under SEC rules and NASDAQ listing standards. The Corporate Governance Committee held three meetings during 2008.

Director Nominations and Qualifications

In accordance with the Company's Amended and Restated Bylaws, to nominate a director for election to the Board at an annual meeting of shareholders, a shareholder must deliver written notice of such nomination to the Secretary of the Company at the Company's executive offices no fewer than 60 days nor more than 90 days prior to the date of the annual meeting (or if less than 60 days' notice or prior public disclosure of the date of such annual meeting is given or made to the shareholders, not later than the tenth day following the day on which notice of the date of the annual meeting was mailed or public disclosure was made). The notice of a shareholder's intention to nominate a director must include:

- n the name and address of the shareholder;
 - n a representation that the shareholder is entitled to vote at the meeting at which directors will be elected;
 - n a statement of the number of shares of the Company that are beneficially owned by the shareholder;
 - n a representation that the shareholder intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice;
- and the following information with respect to the person nominated by the shareholder:

- n name and address;
- n other information regarding such nominee as would be required in a proxy statement filed pursuant to applicable SEC rules;
- n a description of any arrangements or understandings between the shareholder and the nominee and any other persons (including their names), pursuant to which the nomination is made; and

n the consent of such nominee to serve as a director, if elected.

Other directors and senior management of the Company may also recommend director nominees for consideration by the Corporate Governance Committee. The Corporate Governance Committee evaluates director nominees, including nominees that are submitted to the Company by a shareholder, taking into consideration certain criteria including the nominee's understanding of the Company's financial objectives, strategies, risks, and growth opportunities in view of the nature of the Company, its stage of development, its future strategic vision, and its current business needs. In the event of a shareholder recommendation, the Corporate Governance Committee screens and evaluates the person recommended in the same manner as other candidates. In addition, the Committee determines if the proposed director nominee will have sufficient time available to carry out his or her Board duties and responsibilities effectively. The Corporate Governance Committee may then recommend the director candidate to the Board for its consideration, if deemed appropriate.

Code of Conduct

The Company has adopted a Code of Conduct that applies to all directors, officers, and employees of the Company or any subsidiary of the Company, including the chief executive officer and chief financial officer, and is available on the Company's website, www.itron.com, by selecting Investors and then Corporate Governance. In addition, we have adopted policies and procedures for reporting and investigating suspected violations of the Code of Conduct. The Company intends to satisfy any future disclosure requirement under Item 5.05 of Form 8-K regarding an amendment to or waiver from application of the code of ethics or provisions of the code of conduct, that applies to the chief executive officer or the chief financial officer, by posting such information on its website, www.itron.com.

Shareholder Communications with the Board

The Company's Board provides a process whereby shareholders may contact the Board or any committee as a group or any committee chair or individual director, by email addressed to boardofdirectors@itron.com. Shareholders should clearly specify in each communication the name of the directors to whom the communication is addressed. Shareholders may also write to the Board or any committee as a group or any committee chair or individual director by sending the communication to: Itron, Inc., Attn: Corporate Secretary, 2111 N. Molter Road, Liberty Lake, WA 99019. Communications may also be submitted through our website at www.itron.com by selecting Investors and then Corporate Governance and then Contact the Board.

Shareholder communications are delivered directly to the Secretary of the Company, who then determines whether to forward such communications to the specified director addressees. You can access a description of the process that the Corporate Secretary uses for determining whether to forward shareholders' communications to directors at our website, www.itron.com, by selecting Investors and then Corporate Governance and then Contact the Board.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

As the leading technology provider and critical source of knowledge to the global energy and water industries, we rely on our executives to lead the Company to success. As a result, our compensation policy is to align our executives' compensation directly with the success of our customers, the Company, and the interests of our shareholders.

The Compensation Committee (Committee) of our Board provides overall guidance for our executive compensation plans, policies and programs, and determines the components of compensation for each of our executive officers. Our goal is to attract, motivate, retain, and reward key executives by designing our executive compensation programs to be comparable to the compensation of a peer group of companies we have identified. We also align our executive compensation with the long-term interests of our shareholders.

Michael Bracy, Charles Gaylord, Jr., Kirby Dyess, and Gary Pruitt are members of the Committee. Ms. Dyess, the Committee Chair, has served on the Board since 2006 and was elected Chair of the Committee on May 5, 2008. Each member of the Committee qualifies as an independent director under SEC rules and NASDAQ listing standards, as well as the independence requirements established by the Board. In addition, each member is a non-employee director within the meaning of Rule 16b-3 under the Securities Exchange Act and an outside director within the meaning of Section 162(m) of the Internal Revenue Code.

The Committee approves the compensation of our named executive officers (executive(s) or NEOs), except for our Chief Executive Officer (CEO). The Committee recommends and submits the compensation of the CEO to the entire Board for its approval, and the CEO does not participate in that Board decision. The Committee has authority under its charter to retain, compensate, and terminate advisors, consultants, and agents as it deems necessary to assist in the fulfillment of its responsibilities. It also has authority under its charter to form and delegate its authority to subcommittees, and may delegate authority to one or more designated members of the Board or to Company officers. In designing the executive compensation programs, the Company and the Committee have each engaged the services of compensation consultants as needed. During 2008, the Company retained the services of Pearl Meyer & Partners, who assisted with the review of executive compensation. The Committee periodically requests executives to be present at Committee meetings where executive compensation, Company, and individual performances are discussed and evaluated. Executives are free to provide insight, suggestions, or recommendations regarding executive compensation during meetings or at other times; however, only the Committee members are allowed to vote on decisions regarding executive compensation. The Committee also receives recommendations from the CEO regarding the compensation of our other executive officers.

The Committee made no material changes in 2008 to our compensation structure or philosophy regarding our executives.

Compensation Philosophy & Structure

Our compensation philosophy is to provide compensation to our executives that:

- n is commensurate with the performance of the Company;
- n is competitive with the market in order to attract, retain, and motivate our executive team; and
- n provides long-term incentives through long-term equity appreciation.

Additionally, we are a leader in our industry in large part due to our executive management, so we compensate our executives at a competitive level that will ensure continued executive leadership and strong competitive position within our industry.

Table of Contents

We use three main components of compensation:

- n *Base Salary* base pay that takes into account an individual’s role and level of responsibilities, prior experience, breadth of knowledge, and levels of pay among executives in similar positions within the marketplace;
- n *Annual Incentives* variable pay that is designed to reward attainment of annual business and financial goals, with target award opportunities generally expressed as a percentage of base salary; and
- n *Long-Term Incentives* stock options and restricted stock units with time-based and performance-based features that are designed to reward executives for attaining financial goals, but also to encourage executive retention during the vesting period, which we believe helps preserve shareholder value.

We believe these three elements of compensation provide a well-proportioned mix of security-oriented compensation, retention value, equity interest, and variable compensation, all of which supports our short-term and long-term financial performance objectives. It is our belief that as much as 60% or more of an executive’s total compensation should be variable compensation which is tied to the Company’s financial performance. In addition, since equity awards increase in value with improvement in the Company’s stock price, our equity compensation plans are closely aligned with the interests of our shareholders.

The Committee has discretion to change all forms of incentive payouts (annual and long-term) based on the performance of the individual or the Company. This includes both decreasing payouts for significant shortfalls and approving special awards to individual executives for significant achievements, including superior financial performance, strategic accomplishments, or consummation of mergers, acquisitions, or dispositions. In August of 2008, the Committee granted an award of 6,000 RSUs to John Holleran, our Senior Vice President, General Counsel and Corporate Secretary, which RSUs vest incrementally in three years, 33 1/3% on each of August 26, 2009, 2010, and 2011. For 2008, the Committee did not change any payouts under existing annual or long-term incentive plans.

Peer Data

In determining compensation levels for our executives, all forms of compensation and benefits are considered and are used to evaluate an executive’s total compensation. Our Committee compares these levels with competitive market data, which is determined using a defined peer group of companies. Our peer group, for compensation comparative purposes, is comprised of 14 U. S. and international companies that are technology companies with a balance of both hardware and software components similar to ours, as well as other companies who may compete for our executives. Our peer group is structured to be similar to us in terms of revenue size, with revenues ranging from \$200 million to \$5.7 billion and a median of \$1.7 billion. In addition, the Committee considers our financial and stock performance in comparison with the companies in the peer group. The peer group used in determining 2008 compensation included the following companies:

Ametek, Inc.	Mueller Water Products, Inc.
Badger Meter, Inc.	National Instruments Corp.
Cooper Industries Ltd.	PerkinElmer, Inc.
Diebold Inc.	Quanta Services, Inc.
ESCO Technologies Inc.	Roper Industries, Inc.
Esterline Technologies Corp.	Tektronix, Inc.
Molex, Inc.	Valmont Industries, Inc.

The peer group information is supplemented with compensation survey data, which provides position-based compensation levels across broad industry segments. The surveys help us establish a range of salaries for our

Table of Contents

executives that are competitive within our peer group. Once we have determined a satisfactory salary range, we then look at individual performances, contributions, and responsibilities in order to determine the base salary for each of our executives. In 2008, to assist in determining general compensation practices, the Committee reviewed compensation surveys provided by our consultant, Pearl Meyer & Partners. These surveys were conducted by the consulting firms of Watson Wyatt, who covered approximately 1,500 companies, and by Mercer, who covered more than 2,500 companies.

The Committee generally targets base salaries at the 50th percentile of market competitive levels, and targets annual and long-term incentives between the 50th and 75th percentile of market competitive levels, assuming financial performance goals are achieved at target. We target our annual and long-term incentives at higher market percentiles than the base salaries to encourage performance that will result in long-term increases in shareholder value.

Base Salary

The base salaries for our executives are determined by reviewing competitive pay levels from market data for similar positions, level of responsibility, and prior experience. Salary levels and proposed increases for executives are reviewed annually by the Committee. Adjustments are based on several factors, including new roles or responsibilities within the Company, compensation of other executives within the Company, the executive's significant impact on strategic goals, competitive compensation, and Company performance. Our CEO's salary is determined by the full Board after recommendation from the Committee. Although salaries are generally targeted at the 50th percentile of peer group levels, the Committee may also take into account historical compensation, the potential impact the executive has on our performance, strategic goals, and special recruiting situations.

In December 2007, the Committee (and the Board for the CEO) established the following 2008 base salaries for our NEOs:

n	LeRoy Nosbaum	\$825,000
n	Steven Helmbrecht	\$400,000
n	Malcolm Unsworth	\$430,000 (Mr. Unsworth's salary was increased to \$520,000 on April 15, 2008, to reflect his new responsibilities as President and COO.)
n	Philip Mezey	\$400,000
n	John Holleran	\$350,000

The base salaries for Messrs. Nosbaum, Helmbrecht, and Holleran increased in 2008 by approximately 27%, 25% and 17%, respectively, due to an overall increase in responsibilities resulting from our acquisition of Actaris that substantially increased the size and global scope of the Company's business. Mr. Mezey, Senior Vice President and COO - Itron North America, did not receive an increase in his base salary, and Mr. Unsworth's increase of approximately 21% during the year was due to his promotion and resulting increase in responsibilities as President and COO of the Company. Base salaries for 2008 were generally at the 50th percentile target identified by the Committee.

Annual Incentives

The annual incentive component of compensation payable to our executives is based on a percentage of the executive's base salary at year end. If an executive changes position during the year, the annual incentive may be pro-rated to reflect changes in annual incentive target compensation due to changes in scope of responsibility. The percentage varies among executives and is determined based upon the individual's responsibilities and position. This annual incentive program provides the executives the opportunity to receive a cash incentive award that is contingent on our financial performance for the year. The length of each performance period is one calendar year. In the first quarter of each year, the Committee works with management to establish the annual

Table of Contents

performance targets for that calendar year or performance period for each of our executives, except our CEO. The CEO's targets are established and recommended by the Committee for approval by the entire Board.

In February 2008, the Committee and the Board (for the CEO) approved the annual performance measures and related award opportunities by position. Depending on the executive's position, the performance measures were based on the annual achievement of either non-GAAP operating income (as defined below) worldwide (the entire Company), non-GAAP operating income for Actaris, and/or non-GAAP operating income for Itron North America, less corporate unallocated expenses. The level of attainment for each performance measure is generally separated into these three levels: threshold, target, and maximum, and is based on a sliding scale. If the threshold level of performance for a particular year, or performance period, is not achieved, management is not entitled to any awards. The following represents the performance measures established for the 2008 performance period, along with the award opportunity for each NEO (expressed as a percentage of the NEO's base salary):

	Performance Target	Award Opportunity (% of Salary)
<u>Metric: non-GAAP Operating Income Worldwide</u>		
LeRoy Nosbaum CEO		
Threshold	\$ 240.0 million	75.0%
Target	\$ 256.0 million	100.0%
Maximum	\$ 276.0 million	200.0%
Malcolm Unsworth President & COO		
Threshold	\$ 240.0 million	75.0%
Target	\$ 256.0 million	100.0%
Maximum	\$ 276.0 million	200.0%
Steven Helmbrecht Senior Vice President & CFO		
Threshold	\$ 240.0 million	56.0%
Target	\$ 256.0 million	75.0%
Maximum	\$ 276.0 million	150.0%
John Holleran Senior Vice President, General Counsel & Corporate Secretary		
Threshold	\$ 240.0 million	56.0%
Target	\$ 256.0 million	75.0%
Maximum	\$ 276.0 million	150.0%
Philip Mezey Senior Vice President & COO North America (50%)		
Threshold	\$ 240.0 million	28.0%
Target	\$ 256.0 million	37.5%
Maximum	\$ 276.0 million	75.0%
<u>Metric: non-GAAP Operating Income North America, Less Corporate Unallocated Expense</u>		
Philip Mezey Senior Vice President & COO North America (50%)		
Threshold	\$ 70.2 million	28.0%
Target	\$ 77.1 million	37.5%
Maximum	\$ 88.2 million	75.0%

The Committee selected non-GAAP operating income as the performance measure for the annual incentive plan because we believe this metric is the best tool to reflect the performance of the Company in a manner that shareholders understand and consider important. Non-GAAP operating income is defined as GAAP operating income, adding back amortization of intangibles, in-process R&D and restructuring charges (if any). Although such events have occurred in the past and may recur in future periods, we believe they are driven by events (such as acquisitions and restructurings) that occur infrequently and are not directly related to our ongoing core operations. In April 2008, Mr. Unsworth was promoted to President and COO, from Senior Vice President and COO-Actaris. Therefore, for the first four months of 2008, his performance targets were based on non-GAAP

Table of Contents

operating income for Actaris. For the remaining eight months of 2008, Mr. Unsworth's performance targets were based on worldwide non-GAAP operating income and his opportunity at target was increased to 100% of his new base salary. The performance measures and award opportunities related to Actaris are not included in the table above, because none of them were attained.

Performance targets for 2008 were set to require performance significantly beyond that of the prior year. Achievement at the maximum level represents a superior performance outcome, which we believe is fully deserving of a maximum incentive payout.

The Committee and the Board (for the CEO) reviewed our 2008 performance with respect to non-GAAP operating income and determined that the results were less than the threshold level. Accordingly, no annual bonuses were earned by our NEOs for 2008.

Long-Term Incentives

We believe that equity compensation is an effective means of creating a long-term link between the compensation provided to our executives and the gains realized by our shareholders, by providing compensation that is at-risk and directly tied to the Company's performance. As a result, executives are eligible to receive stock options and performance-based restricted stock units (RSUs) under the Company's Amended and Restated 2000 Stock Incentive Plan and the annual Long-Term Performance Plan. The issuance of these awards under our equity-based plan supports our performance-based compensation philosophy, fosters executive stock ownership, and focuses our executive team on increasing value for our shareholders. Under the Amended and Restated 2000 Stock Incentive Plan, as amended and approved by our shareholders in 2007, the Committee has the authority to grant a variety of long-term incentive and equity awards. Such awards may include, but are not limited to, incentive stock options and nonqualified stock options, as well as stock awards, restricted stock awards, and restricted stock units. Presently, we are targeting a mix of options and restricted stock units.

We do not time equity grants (RSUs or stock options) to cause executives to benefit from the release of material non-public information, nor do we time those releases, either before or after fixed grant dates, to benefit our executives.

Stock Option and RSU Grants

The Committee continues to use options as a portion of long-term incentive compensation for our NEOs because it believes options encourage retention and align the executives' interests with those of our shareholders, since the options are only of value if our stock price increases over time. The number of options granted to an executive is determined by a number of factors, including current market conditions, the Company's financial performance, the executive's position, responsibility and performance, and retention. All outstanding options to executives incorporate the following features:

- n The term of the grant does not exceed 10 years;
- n The exercise price equals the fair market value of our common stock on the date of grant; and
- n The vesting period is generally three years (33 1/3% each year).

Historically, annual stock option grants to executives have been made in May at the time of our annual meeting of shareholders. From time to time the Committee may also grant options in connection with an acquisition, employee promotion, or to newly hired employees. When determining the number of options to be awarded, the Committee considers peer data compensation for the respective position, the make-up of the individual's other compensation, and the individual's specific job performance.

On May 5, 2008, the Committee and the Board (for the CEO) granted the following options to our NEOs with an exercise price of \$95.78 per share, representing the closing price of our common stock on that day:

- n LeRoy Nosbaum CEO 90,000

Table of Contents

n	Malcolm Unsworth	President and COO	30,000
n	Steven Helmbrecht	Senior VP and CFO	20,000

Long-Term Performance Plan 2008 (LTPP)

The Committee has also approved the LTPP, which is a performance-based plan that provides another opportunity for executives to earn equity awards. The LTPP provides for performance-based awards that are contingent on the attainment of certain performance goals determined each year by the Committee. The length of the performance period is one year, unless otherwise determined by the Committee. At the beginning of the performance period, goals are recommended by management and approved by the Committee and the Board (for the CEO). The performance goals are determined based on the expected financial performance of the Company. In determining the appropriate goals, we may also consider proposed acquisitions, financing, or other major projects that could potentially have a material impact on our financial performance. The Committee reviews performances at the end of the year and, depending on the level of performance, RSUs may be issued to executives. RSUs that are issued, if any, have a three year vesting period.

The level of attainment for each performance measure under the LTPP is generally separated into the following three levels: threshold, target, and maximum, and is based on a sliding scale. Awards to be earned are based on a percentage of the executive's base salary at the beginning of the performance period and are converted into RSUs by dividing the dollar amount of the award by the fair market value of our common stock on the first business day of the performance year. If the threshold level for the performance period is not achieved, executives will not be entitled to an award unless the Committee makes a special determination. To date, the Committee has not granted an LTPP award when performance for any given year has not met the threshold level required in the LTPP. The RSUs cliff vest three years following the date of grant and each RSU is the equivalent of one share of common stock.

At the end of the performance year, the Committee and the Board (for the CEO) review the actual results of the Company compared with the predetermined goals and approve the RSUs to be awarded, if any. We believe LTPP targets should require performance significantly beyond that of the prior year so that achievement will be commensurate with the investment returns of our shareholders. Achievement at the maximum level represents a superior performance outcome, which we believe is fully deserving of a maximum award payout.

In February 2008, the Committee and the Board (for the CEO) approved award opportunities for our CEO, LeRoy Nosbaum, our Senior VP and CFO, Steven Helmbrecht, and our Senior VP, General Counsel, and Corporate Secretary, John Holleran, that were equally weighted between the following two performance measures: worldwide (the entire Company) free cash flow, and worldwide non-GAAP net income. At the same time, the Committee approved for Malcolm Unsworth, who was at that time our Senior VP and COO-Actaris, and for Philip Mezey, our Senior VP and COO-Itron North America, award opportunities that were equally weighted between the following two performance measures: worldwide (the entire Company) free cash flow and revenue for their respective operating segment. Upon his promotion in April 2008 (effective for compensation purposes on May 1, 2008), Mr. Unsworth's award opportunity measurement was changed to be equally weighted between worldwide (the entire Company) free cash flow, and worldwide non-GAAP net income, and his performance at target was increased to 100% of base pay.

We use non-GAAP net income as a measurement because we believe shareholders prefer this form of comparative measurement and we use free cash flow because it relates to lower debt and represents a metric used by businesses worldwide. Free cash flow was calculated as GAAP cash flow from operations, less the acquisition of property, plant, and equipment. Non-GAAP net income was calculated as GAAP net income, excluding expenses for amortization of intangibles, in-process research and development, restructuring, and amortization of debt placement fees, which we believe are not indicative of our core business.

In February 2009, the Committee and the Board (for the CEO) reviewed our performance for 2008 and determined that awards were earned by our NEOs under the 2008 LTPP, as indicated below (expressed as a percentage of the executive's base salary at the beginning of the performance period and the respective number of RSUs earned):

		Metrics:			
		Worldwide Free Cash Flow	Non-GAAP Net Income	Award %	RSUs Earned
LeRoy Nosbaum CEO					
Results		\$ 129.7 million	\$ 117.6 million		
Award		36.9%	44.0%	80.90%	6,957
Malcolm Unsworth President & COO May 1 to December 31, 2008 *					
Results		\$ 129.7 million	\$ 117.6 million		
Award		36.9%	44.0%	80.90%	2,920
Steven Helmbrecht Senior Vice President & CFO

John Holleran Senior Vice President, General Counsel & Corporate Secretary					
Results		\$ 129.7 million	\$ 117.6 million		
Award		36.9%	44.0%	80.90%	2,217
Malcolm Unsworth Senior Vice President & COO Actaris Jan 1 to April 30, 2008 *					
Results		\$ 129.7 million	871.0 million		
Award		36.9%	34.1%	71.0%	795
Philip Mezey Senior Vice President & COO North America					
Results		\$ 129.7 million	\$ 628.2 million		
Award		36.9%	40.1%	77.0%	2,409

* **Note: The total RSUs awarded for Mr. Unsworth for 2008 equals 3,715.**

As indicated in the table above, worldwide free cash flow and worldwide non-GAAP net income results exceeded threshold, as did revenue for Actaris and revenue for Itron North America. Therefore, under the terms of the 2008 LTPP, the NEOs were eligible to receive a portion of their target award opportunity which was paid in RSUs, with three-year cliff vesting.

Perquisites and Other Benefits

The following details other compensation and perquisites offered to our executives. These perquisites and other benefits support our overall goal to attract, motivate, retain, and reward our key executives. You may refer to the *EXECUTIVE COMPENSATION TABLES Summary Compensation Table* in this proxy statement for specific amounts paid by us for perquisites to our NEOs in 2008.

Table of Contents

Executive Deferred Compensation Plan

Our executives are eligible to participate in the Company's Executive Deferred Compensation Plan. The plan allows executives to defer up to 50% of their base salary and 50% of their annual incentive into a nonqualified account. Executives are also permitted to elect to defer an additional portion of their base salary equal to the amount of any contributions returned to them during the year from the Company's 401(k) plan so that such plan could satisfy the nondiscrimination requirements applicable to it. For 2008, the Company made a matching contribution to the account of each participating executive at the rate of 50% of the first 6% of base salary and annual incentive deferred by the executive during the year. The executives' account balances are adjusted for hypothetical investment earnings or losses according to the returns of the specified measurement funds selected by the executives. The measurement funds correspond to the mutual funds available for investment under the 401(k) plan (but do not include a Company stock fund). In 2008, the plan was amended and restated to comply with the requirements of Section 409A of the Internal Revenue Code.

Flexible Benefit Plan

In lieu of providing extensive perquisites, our executives are provided with a total annual allowance up to a maximum of 3% of the executive's base salary. The allowance can be used for any of the following products or services:

- n Financial planning
- n Tax preparation
- n Legal counseling
- n Medical costs
- n Life insurance
- n Long-term disability insurance
- n Home office or security

Other Benefits

We do not maintain any defined benefit or supplemental retirement programs for our NEOs. Executives are eligible to participate in our 401(k) plan, which is generally available to all U.S. employees. The 401(k) plan provides our employees, including executives, with a 50% company match on the first 6% of compensation deferred, subject to qualified plan limits.

Our executives may also participate in other benefit plans on the same terms as other employees. These plans include medical and dental insurance, life insurance, disability insurance, and accidental death and dismemberment insurance.

Due to his participation in our International Assignment Program (Program) while he was living abroad in Belgium as our Senior Vice President and COO-Actaris, Mr. Unsworth was reimbursed under the terms of the Program for certain relocation and cost of living expenses, and for additional Belgium and U.S. income and social taxes incurred as a result of his assignment there. See *EXECUTIVE COMPENSATION TABLES Summary Compensation Table* in this proxy statement.

Employment Agreements

We do not have employment agreements with our NEOs. We are aware that such agreements are in place at many of our peer group companies for their executives. We also recognize that implementation of such agreements may positively affect our ability to attract and retain key executives in the future and therefore we have discussed implementing such agreements. However, to date no action has been taken by the Committee.

Table of Contents

Change in Control Agreements

We have entered into change in control agreements with each of our executives to encourage their full attention and dedication to the Company and to provide them with reasonable compensation and benefits in the event of a change in control. Under these agreements, we and each of our executives have agreed that, in the event the executive is terminated during one or two years after a change in control, depending on the executive, the executive will be entitled to certain payments and benefits, as described under *Potential Payments upon Change in Control Change in Control Agreements* in this proxy statement.

Compensation Policies

Stock Ownership Guidelines & Policies

In 2006, we adopted stock ownership guidelines to encourage our key executives to own our stock at least equal in value to two to four times each NEO's base salary. Common stock, restricted stock awards, restricted stock units, and stock held in the Executive Deferred Compensation Plan, 401(k) Plan, and Employee Stock Purchase Plan all count towards satisfaction of the guidelines; however, unexercised stock options do not. We annually review the level of stock ownership of each executive. The following provides the current guidelines for each of our NEOs:

n CEO four times base salary

n President and all Senior Vice Presidents three times base salary

Based on a 12-month rolling average of our stock value of \$84.27 per share (at January 2, 2009), our NEOs have either met this guideline or, in accordance with the terms of the policy, are making satisfactory progress towards meeting the guideline.

We also prohibit executives from holding Company securities in a margin account or pledging Company securities as collateral for a loan.

Financial Restatement

We do not have any plans, policies, or agreements that specifically require recoupment of awards if performance measures are not achieved. However, under Section 304 of Sarbanes-Oxley, if we are required to restate our financials due to material noncompliance with any financial reporting requirement as a result of misconduct, the CEO and CFO must reimburse the Company for (1) any bonus or other incentive-based or equity-based compensation received during the 12 months following the first public issuance of the non-complying document and (2) any profits realized from the sale of securities of the Company during those 12 months.

Impact of Tax and Accounting

We regularly consider the various tax and accounting implications of the compensation vehicles we use. When determining the amount of long-term incentives and equity grants to executives and employees, the compensation costs associated with the grants as required by Statement of Financial Accounting Standards No. 123(R) are reviewed.

We generally seek to maximize the tax deductibility for all elements of compensation. For example, Section 162(m) of the Internal Revenue Code (Code) generally prohibits any publicly held corporation from taking a federal income tax deduction for compensation paid in excess of \$1 million in any taxable year to the CEO and the next three highest compensated officers (other than the CFO). Under the current tax laws, exceptions are made for qualified performance-based compensation. Our stock options and LTPP awards are structured to meet the definition of performance-based compensation under Section 162(m). We intend to maximize the effective tax consequences of our executive compensation plans and consequently we are evaluating the implementation of a compensation process and plan for executives that would qualify for the

Table of Contents

favorable tax treatment under Section 162(m) of the Code and would replace our current annual incentive plan. Any such qualified plan would be submitted to the shareholders for their consideration and approval. In addition, the Committee retains the right to grant awards that do not qualify for the performance-based compensation exception if the Committee determines further compensation is appropriate in order to support our compensation philosophy with respect to our executives.

Compensation Planning for Fiscal Year 2009

This section describes certain compensation decisions and actions effective subsequent to the end of fiscal year 2008.

Base Salaries

In light of the cost containment initiatives we have implemented, management recommended, and the Committee and the Board (for the CEO) agreed, that there would be no increases in the base salaries for 2009 for our NEOs. See below *Election of New CEO* . Current base salaries for our NEOs are generally at the 50th percentile target identified by the Committee.

Long-Term Incentives LTPP Awards

To contain costs and expenses in light of the current economic conditions, the Committee (and the Board for the CEO) has deferred the consideration and implementation of any long-term incentive plan and awards for our executives in 2009. The Committee has the discretion to review executive compensation, including base salary, annual incentives, and long-term incentives at any time.

Election of New CEO

On February 12, 2009, our Board elected Malcolm Unsworth to succeed LeRoy Nosbaum as Chief Executive Officer, effective March 31, 2009. Mr. Nosbaum will remain on the Board and serve as its Executive Chairman until December 31, 2009.

In connection with his promotion to CEO (and President), Mr. Unsworth was granted an incentive stock option to purchase 50,000 shares of the Company's Common Stock at an exercise price of \$57.96 per share, the fair market value of our stock on February 13, 2009. The option vests 33 1/3% on each of February 13, 2010, 2011, and 2012, and expires on February 13, 2019.

Also in connection with his promotion, Mr. Unsworth's base salary was increased from \$520,000 to \$650,000, effective March 31, 2009. On the same date, Mr. Nosbaum's base salary will be reduced from \$825,000 to \$425,000.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with Itron's management. Based on the review and discussions, the Compensation Committee has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's 2009 Proxy Statement.

Table of Contents

The non-equity incentive awards included in this table and also set forth in the *Summary Compensation Table* under the column *Non-Equity Incentive Plan Compensation*, represent the annual incentive component of our executives' compensation. These potential payout awards are paid in cash as a percentage of each of the executive's salary, based upon achievement of certain pre-determined performance criteria. See *Annual Incentives* under the *Compensation Discussion and Analysis* section. As previously stated, none of these awards were issued for 2008 because none of the performance measures were attained.

The equity incentive plan awards represent awards under the Company's annual Long-Term Performance Plans (LTPP) for the 2008 performance cycle. The awards were paid out in 2009 in the form of restricted stock units (RSUs) that are subject to three-year cliff vesting. The number of RSUs granted is determined in accordance with the pre-determined performance criteria set forth in the LTPP for 2008. Each unit represents one share of our common stock. See *Long-Term Incentives* under the *Compensation and Discussion Analysis* section.

The RSUs granted to Mr. Holleran were granted under the Company's Amended and Restated 2000 Stock Incentive Plan. The awards vest in three equal annual installments beginning in August 2009. See *Long-Term Incentives - Stock Option and RSU Grants* under the *Compensation and Discussion Analysis* section.

Consistent with our compensation philosophy, over 60% of our executives' compensation is considered to be incentive-based. See *Compensation Philosophy and Structure* under the *Compensation Discussion and Analysis* section.

Our President and COO, Malcolm Unsworth, served as Senior VP and COO-Actaris until April 15, 2008 and was eligible to participate in our International Assignment Program (Program). Under this Program, for the time he was residing in Belgium, Mr. Unsworth was provided relocation assistance, cost of living adjustments, housing and utilities assistance, moving expense reimbursement, transportation allowance for vehicle leasing, and reimbursement for an international driver's license, income tax services, and tax equalization costs equal to any additional Belgium or U.S. income and social taxes incurred as a result of Mr. Unsworth's assignment in Belgium. See *EXECUTIVE COMPENSATION TABLES - Summary Compensation Table* under the *Compensation and Discussion Analysis* section.

Executive Deferred Compensation Plan

Our NEOs are eligible to participate in the Company's Executive Deferred Compensation Plan. Under this plan, participants may defer up to 50% of their base salary and 50% of their annual incentive to a non-qualified account. Participants may also defer an additional portion of their base salary equal to the amount of any contributions returned to them during the year from the Company's 401(k) plan so that the 401(k) plan can

Edgar Filing: ITRON INC /WA/ - Form DEF 14A

satisfy the nondiscrimination requirements applicable to it. Each year, the Company makes matching contributions to the account of each participating executive at the rate of 50% of the first 6% of base salary and annual incentive deferred by the executive during that year.

Table of Contents

Each participant's account is adjusted for hypothetical investment earnings or losses based on the performance of the measurement funds in which the account is deemed to be invested. Participants allocate their accounts among the measurement funds available under the plan and can change their allocation at any time. These measurement funds are the same as the mutual funds offered for investment purposes under the Company's 401(k) plan (but do not include a Company stock fund). Measurement funds are used solely to determine the amount of the hypothetical investment earnings or losses to be allocated to the participant's account. The Company is not obligated to invest any assets in these funds.

Accounts are distributed (or commence to be distributed) to participants upon termination of employment with the Company and its affiliates. Distribution will generally be made (or commence to be made) within 90 days after termination. However, distribution will be delayed until six months after termination to the extent necessary to comply with the requirements of Internal Revenue Code Section 409A. In-service distributions are not generally permitted. However, participants may elect to withdraw amounts from their accounts prior to termination to satisfy emergency needs in the event of an unforeseeable emergency (as determined by the plan administrator).

A participant's account will be distributed in a lump sum, unless the participant elects to have it distributed in substantially equal annual installments over a period of not more than 10 years. This election must be made at the time the participant is first eligible to participate in the plan.

Potential Payments upon Termination

Termination for Cause

Under these circumstances, the executive is entitled to receive any accrued and unpaid base salary through the date of termination. All options granted automatically expire when terminated for cause and any unvested awards under the Long-Term Performance Plan will be forfeited in the event of termination for cause.

Termination due to Death, Disability, or Retirement

Under these circumstances, the executive or his or her estate is entitled to any accrued and unpaid base salary through the date of termination and any vested stock options would remain exercisable for one year following the termination date, under the terms of the stock incentive plan. For awards under the Long-Term Performance Plan (a) if termination occurs for any reason during a performance period, the award will be forfeited, (b) if termination occurs for any reason during the three-year cliff vesting period of a restricted stock award granted in 2006 for 2005 performance and in 2007 for 2006 performance, the award will be forfeited, and (c) if termination occurs for any reason (other than cause) during the three-year cliff vesting period of a restricted stock unit award granted in 2008 for 2007 performance, the award will vest pro-rata based on the number of full calendar days of employment during the vesting period.

Awards under our annual incentive plan will be forfeited if the executive's employment is terminated during a performance period, unless the termination is due to retirement. In the case of retirement, the bonus will be prorated based on the number of full calendar days of employment during the year.

Voluntary Termination or Termination without Cause

Under these circumstances, the executive is entitled to any accrued and unpaid base salary through the date of termination and any vested options would remain exercisable for 90 days following termination. For awards under the Long-Term Performance Plan (a) if termination occurs for any reason during a performance period, the award will be forfeited, (b) if termination occurs for any reason during the three-year cliff vesting period of a restricted stock award granted in 2006 for 2005 performance and in 2007 for 2006 performance, the award will be forfeited, and (c) if termination occurs for any reason (other than cause) during the three-year cliff vesting period of a restricted stock unit award granted in 2008 for 2007 performance, the award will vest pro-rata based on the number of full calendar days of employment during the vesting period.

Potential Payments upon Change in Control

Change in Control Agreements

We have entered into change in control agreements with each of our executives to provide that during the one or two year period following a change in control, depending on the executive, the executive will be compensated with:

- n an annual salary at least equal to the annual salary established by the Compensation Committee or the Board for the fiscal year in which the change in control occurs or, if no annual salary has been established prior to the change in control, then the annual salary shall be at least equal to the annual salary for the prior fiscal year;
- n an annual bonus at least equal to the maximum annual bonus established for the executive for the fiscal year in which the change in control occurs or, if no annual bonus has been established prior to the change in control, then the annual bonus shall be at least equal to a specified percentage of the annual base salary;
- n payments at least equal to the Long-Term Performance Plan payout to that executive for the fiscal year in which the change in control occurs (distribution shall be made in shares of the successor company should our stock cease to be publicly traded on or after the change in control);
- n fringe benefits of the type provided by the successor company to similarly situated executives, such as paid vacation, participation in incentive, savings and retirement, and welfare plans, except that if such fringe benefits are of less value than the fringe benefits that the executive was eligible for immediately prior to the change in control, then the executive will be entitled to the fringe benefits provided immediately prior to the change in control or, at the election of the successor company, to cash payments equal to the difference in value; and

- n reimbursement of all reasonable employment expenses incurred in accordance with applicable policies, practices and procedures.

If we terminate an executive, other than for cause, or if an executive terminates employment for good reason during the employment period, or prior to a change in control if the executive can reasonably demonstrate that such termination was at the request of a third party who has taken steps reasonably calculated to effect the change in control, or demonstrates that such termination otherwise arose in connection with or in anticipation of a change in control, then the executive will receive:

- n any unpaid salary due to the executive as of the date of termination;
- n pro-rated annual bonus, based on the maximum bonus established for the fiscal year in which the change in control occurs;
- n any previously deferred compensation and accrued vacation pay;
- n payment or reimbursement of insurance premiums for COBRA continuation coverage for the executive and his or her family for eighteen months after the date of termination (except to the extent the COBRA continuation coverage ceases to be available);

n

Edgar Filing: ITRON INC /WA/ - Form DEF 14A

lump-sum severance pay equal to, depending on the executive, up to three times the sum of the executive's annual base salary, maximum bonus, and maximum Long-Term Performance Plan award payments for the fiscal year in which the change in control occurs; and

n payment or reimbursement of any life insurance premiums for any individual life insurance policy resulting from the conversion of coverage from our group-term life insurance plan for twenty-four months after the date of termination.
If the executive is terminated for cause or if the executive terminates his or her employment other than for good reason, the executive will only be entitled to receive any unpaid salary due to the executive as of the date of

termination and any amounts previously deferred by the executive. If the executive terminates because of death or disability, the executive will only be entitled to receive any unpaid salary and pro-rated bonus due to the executive as of the date of termination, any amounts previously deferred by the executive and any accrued vacation pay.

In the event that payments under the change in control agreement result in the imposition of excise taxes to the executive, we will pay the executive an additional amount equal to the excise tax and other related taxes, provided, however, that if reducing the amount of severance payable to the executive by up to five percent would not subject the executive to the excise tax, the amount of severance may be reduced by such amount, not to exceed five percent, as would not subject the executive to the excise tax.

A change in control for purposes of this agreement generally consists of any of the following (excluding certain related party transactions):

- n an acquisition of 20 percent or more of our voting securities;
- n the current Board of Directors (and their approved successors) ceasing to constitute a majority of the Board;
- n consummation of any merger or consolidation with or into another corporation; or
- n consummation of any sale, lease, exchange, or other transfer of all or substantially all of our outstanding securities or substantially all of our assets.

A termination by us for cause generally includes:

- n the executive's willful injury of us or breach of fiduciary duty to us involving personal profit;
- n conviction of a crime against us or felony;
- n habitual or repeated misuse by the executive of alcohol or controlled substances that materially impairs the executive's ability to perform his or her duties; or
- n any willful act involving moral turpitude which materially and adversely affects our business, goodwill, or reputation.

A termination for good reason by the named executive officer generally includes any of the following actions by us without the executive's written consent following the change in control:

- n a material reduction in the executive's authority, duties, responsibilities, or status;
- n failure to compensate the executives based on the provisions set forth in the change in control agreement as stipulated above;
- n changing the executive's office location so that he or she must commute more than 50 miles from the office where the executive was performing services as of the change in control date; or

- n failing to obtain a satisfactory agreement from any successor company to assume and agree to perform the obligations under the change in control agreement.

Amended and Restated 2000 Stock Incentive Plan Change in Control Provisions

Our 2000 Stock Incentive Plan contains certain provisions relating to corporate transactions. In the event of a corporate transaction that is not a related party transaction, the vesting of options and stock awards will accelerate and become 100% vested and exercisable. In the event of a corporate transaction that is a related party transaction, the vesting of options and stock awards will not accelerate, unless the successor company refuses to assume or substitute the awards. Under the terms of the 2000 Stock Incentive Plan, the following events are defined as corporate transactions:

- n consummation of any merger or consolidation with or into another corporation;

Table of Contents

n consummation of any sale, lease, exchange, or other transfer of all or substantially all of our outstanding securities or substantially all of our assets; or

n acquisition of a majority or more of our outstanding voting securities.

Long-Term Performance Plan (LTPP) Change in Control Provisions

All outstanding performance awards will be accelerated at the maximum level and immediately paid in fully vested shares of our common stock prior to a change in control. Furthermore, any outstanding unvested restricted stock or restricted stock units issued in connection with a prior performance period will accelerate in full immediately prior to a change in control. The definition of change in control for purposes of restricted stock awards granted under the 2005 LTPP and the 2006 LTPP will be consistent with the definition in the standard change in control agreements that we have in effect at the time of a transaction. The definition of change in control for purposes of restricted stock units granted under the 2007 LTPP and the 2008 LTPP performance periods includes (a) a corporate transaction (other than a related party transaction) as defined in the 2000 Stock Incentive Plan or (b) a change in control as defined in the standard change in control agreements that we have in effect at the time of a transaction, but in any event, the transaction must constitute a change in control event within the meaning of Section 409A of the Internal Revenue Code.

Termination Payment Tables for NEOs

The tables below reflect the estimated amount of incremental compensation payable to each of our NEOs in the event of termination of employment or change in control. The tables do not include benefits generally available to all employees on a non-discriminatory basis or payments and benefits that the NEOs would have already earned during their employment with us whether or not a termination or change in control event had occurred. The amounts shown assume that such termination or change in control was effective as of December 31, 2008. The actual amounts to be paid out can only be determined at the time of such executive's termination or upon a change in control, as applicable.

- n each of our directors;
- n each of our executive officers for whom compensation is reported in this proxy statement;
- n all of our directors and executive officers as a group; and
- n each person that we know beneficially owns more than 5% of our common stock.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our officers and directors and persons who own more than 10% of a registered class of our equity securities, to file reports of ownership and changes in ownership with the SEC. SEC regulations require our officers, directors, and greater-than-10% shareholders to provide us with copies of all Section 16(a) forms they file.

Based solely on our review of the copies of these forms we have received and written representations received from certain reporting persons, we believe that, during 2008 all of our executive officers, directors, and greater than 10% shareholders complied with all Section 16(a) filing requirements applicable to them, with the exception of one director, Kirby Dyess, who inadvertently filed one day late a Form 4 Statement of Change in Beneficial Ownership regarding one transaction.
