XINYUAN REAL ESTATE CO., LTD. ANNOUNCES SECOND QUARTER

2010 FINANCIAL RESULTS

BEIJING, China, August 10, 2010 Xinyuan Real Estate Co., Ltd. (Xinyuan or the Company) (NYSE: XIN), a residential real estate developer with a focus on high growth, strategic Tier II cities in China, today announced its unaudited financial results for the second quarter of 2010.

Highlights for the Second Quarter 2010

Total second quarter revenues were US\$94.5 million, a 3% increase over US\$91.8 million reported in the same period of 2009 and a sequential decrease of 15% from the first quarter of 2010.

Contract sales totaled US\$97.0 million, a 3% decrease from US\$100.5 million recorded in the second quarter of 2009, and a 32% decrease from the first quarter of 2010.

Total gross floor area (GFA) sales were 86,200 square meters, a 33% decrease from 128,000 square meters sold in the same period of 2009 and 32% below GFA sales in the first quarter of 2010.

In the second quarter of 2010 the Company successfully launched presales activity on two new projects: Chengdu Splendid II and Modern City in Zhengzhou (formerly referred to as the Alcohol or Longhai Road project).

Selling, General, and Administrative (SG&A) expenses as a percent of total revenue increased to 8.9% compared to 8.1% in the second quarter of 2009 and 7.1% in the first quarter of 2010.

Net income was US\$9.6 million, a US\$5.7 million increase over US\$3.9 million reported in the second quarter of 2009 and US\$2.3 million below the first quarter of 2010.

Diluted net income per share attributable to ordinary shareholders was US\$0.06, equivalent to US\$0.12 per American Depositary Share (ADS), compared to diluted net income per share of US\$0.02, equivalent to US\$0.04 per ADS in the second quarter of 2009 and US\$0.07, equivalent to US\$0.14 per ADS in the first quarter of 2010.

Cash and cash equivalents, including restricted cash, decreased by US\$69.0 million to US\$222.7 million as of June 30, 2010 from US\$291.7 million as of March 31, 2010 as the Company made US\$138.1 million land use rights payments and US\$105.0 million debt retirements in the second quarter of 2010.

Table of Contents

The second quarter of 2010 was challenging for us. Like all residential developers in China, we were sharply impacted by the government's April 17th policy announcement on residential mortgage lending. Both revenue and GFA declined sequentially while the overall ASP stayed firm though we offered cheaper product mix in Chengdu projects which accounted for more than 20% of our total revenue in the quarter. The implementation of the new policies was inconsistent district by district. In Kunshan, where we have our previously highest selling project, mortgage lending was fully suspended for two months, thus no sales were recorded until the second half of June. In Zhengzhou, on the other hand, the policies were interpreted and implemented quickly and project sales rates were virtually unaffected. While we are seeing sales gradually come back in July for three major active projects in Kunshan, Suzhou and Chengdu, we are currently focusing on execution of 7 new projects in Zhengzhou (4 parcels), Chengdu, Jinan and Xuzhou. Among them, Chengdu Splendid II and Zhengzhou Modern City began presales in the second quarter as planned.

We repaid US\$75 million of floating rate notes and US\$30 million of convertible bond obligations in the quarter while simultaneously raising US\$40 million in new notes. In addition, we made final land use rights payments such that our land bank is fully paid for. We remain excited about our prospects for the future with a diversified project pipeline, a strong financial position and controlled operating expenses. We continue to focus on affordable developments targeting homeowners in Tier II and Tier III cities based on the solid demand from urbanization and migration patterns in China. Xinyuan is well-positioned for growth over the long term. said Mr. Yong Zhang, Xinyuan's Chairman and Chief Executive Officer.

Financial Results for the Second Quarter

For the quarter ended June 30, 2010 the Company's total revenue using the percentage of completion method was US\$94.5 million compared to US\$91.8 million in the quarter ended June 30, 2009. Revenue declined sequentially from US\$110.7 million in the quarter ended March 31, 2010.

The Company's GFA sales were 86,200 square meters in the second quarter of 2010 compared to 128,000 square meters in the second quarter of 2009 and 126,900 in the first quarter of 2010.

Contract sales totaled US\$97.0 million in the second quarter of 2010 compared to US\$100.5 million in the second quarter of 2009 and US\$143.4 million in the first quarter of 2010. The average selling price per square meter was RMB7,683 (US\$1,126) in the second quarter of 2010, an increase of 43.8% compared to RMB5,343(US\$782) in the second quarter of 2009 and approximately flat compared to RMB7,713 (US\$1,130) in the first quarter of 2010.

| Total | 128.5 | 5,343 | 126.9 | 7,713 | 86.2 | 7,683 | 817.4 |

Gross Profit

Gross profit for the second quarter of 2010 was US\$20.2 million, or 21.3% of revenue, compared to US\$15.5 million, or 16.8% of revenue, in the second quarter of 2009 and US\$24.7 million, or 22.3% of revenue, in the first quarter of 2010.

The Company revised total project cost and sales estimates for certain projects resulting in US\$1.5 million of cumulative gross profit being recognized in the second quarter of 2010 under the percentage of completion method. In the first quarter of 2010 a similar revision had a US\$3.4 million favorable impact on gross profit. The second quarter impact was primarily driven by two projects: Henan Colorful Garden and Chengdu Splendid I. Henan Colorful Garden, a project 82% sold and 99% complete, recognized both lower project costs and higher sustained ASP s. Offsetting this was Chengdu Splendid I which experienced lower than projected ASP s on a newly marketed building of small, commercially zoned apartments with 40 years land use rights, lower than residential zoned land use rights of 70 years. At the end of the second quarter of 2010, Chengdu Splendid I was 72% sold and 82% complete.

Selling, General, and Administrative Expenses

SG&A expenses were US\$8.4 million for the second quarter of 2010 compared to US\$7.5 million for the second quarter of 2009 and US\$7.9 million for the first quarter of 2010. As a percentage of total revenue, SG&A expenses were 8.9% compared to 8.1% in the second quarter of 2009 and 7.1% in the first quarter of 2010. The Company incurred over US\$1.0 million in legal, consulting, and accounting fees in the second quarter of 2010, the majority of which related to a cancelled secondary offering and the April 2010 retirement of floating rate notes and convertible bonds.

Table of Contents

Net Income

Net income for the second quarter of 2010 was US\$9.6 million compared to US\$3.9 million for the same period in 2009 and US\$11.9 million in the first quarter of 2010. Diluted earnings per share for the second quarter of 2010 was US\$0.06, equivalent to US\$0.12 per ADS compared to a profit of US\$0.02 per share, equivalent to US\$0.04 per ADS for the same period in 2009, and US\$0.07, equivalent to US\$0.14 per ADS in the first quarter of 2010.

Balance Sheet

As of June 30, 2010, the Company reported US\$222.7 million in cash and cash equivalents (including restricted cash) compared to US\$291.7 million as of March 31, 2010. Total debt outstanding was US\$327.2 million, an increase of US\$30.4 million compared to US\$296.8 million at the end of the first quarter of 2010. Final payments for land use rights and related taxes on the Jinan Splendid project totaled US\$138.1 million in the second quarter of 2010. Real estate property under development was US\$635.9 million at second quarter end compared to US\$655.4 million at the end of the first quarter of 2010.

Update on Share Transfer of Jiantou Xinyuan Joint Venture

On September 30, 2009, the Company announced that its wholly owned subsidiary, Henan Xinyuan Real Estate Co., Ltd. (Xinyuan China), signed an agreement to acquire the remaining 55% equity interest in Jiantou Xinyuan it does not already own, making Xinyuan China the sole owner of Jiantou Xinyuan. On June 8, 2010 the Company announced that it was not in its best interests to purchase the 55% of Jiantou Xinyuan and that it would not bid in the auction process and the auction process was cancelled. Since that time Jiantou Xinyuan with the assistance of Xinyuan China has received an official Land Value Added Tax notification from district tax authorities that addressed a key uncertainty from the transaction. Thus, the Company and its partner, Jiantou Xinyuan, have initiated an application for a new auction process. The government-mandated auction process is currently underway once again. As of June 30, 2010, Jiantou Xinyuan had one active project with approximately 16,500 square meters unsold GFA and one project under planning with a GFA of approximately 198,600 square meters.

2010 Outlook

While our second quarter results got off to a strong start in April, the government policies issued in mid-April resulted in a significant reduction in sales at many of our projects in May and June. While sales trends have improved modestly in late June and July, we are expecting that our third quarter results will generally be in line with our second quarter performance. However, we are anticipating trends to strengthen in the fourth quarter for several reasons. First, we will have another three new projects which will begin presales in the third and the fourth quarter, in addition to the two projects (Chengdu Splendid II and Zhengzhou Modern City) which began pre-sales in the second quarter and should add to our fourth quarter performance. We are focused on execution of construction milestones and acquisition of permits on these projects so that they will have a significant sales contribution in the third and fourth quarter 2010 and beyond. Second, we anticipate that, notwithstanding any potential future new government policies, buyers will gradually learn to cope with the April government policies, allowing sales to resume a moderate growth pattern by the fourth quarter. More importantly, we believe we are also very well positioned as we move into 2011, as we expect to have average 10 active projects next year, which are expected to result in a significant improvement in our sales and profit performance. With our land bank fully paid for, Xinyuan has a solid financial position with a strong pipeline for growth as we move into the fourth quarter and beyond, commented Mr. Zhang.

After a transition second quarter, third quarter 2010 GFA sales are expected to fall to approximately 80,000 square meters as the full quarter impact of new policies is only partially offset by a continuation of a slow recovery in Kunshan and Suzhou and by the contribution of new Zhengzhou Modern City and Xuzhou projects. Third quarter contract sales are expected to reach US\$80 million to US\$85 million while revenue under the percentage of completion method should total US\$95 million to US\$100 million. Net income is expected to fall in the range of US\$9 million to US\$11 million.

Full year GFA sales are expected to be approximately 420,000 to 430,000 square meters while full year contract sales are expected to range from US\$460 million to US\$470 million, both impacted favorably by fourth quarter pre-sales on the Jinan Splendid and Zhengzhou Royal Palace projects and continued contributions from Zhengzhou Modern City and Xuzhou Colorful Garden. Revenue under the percentage of completion method will likely range between US\$425 million and US\$435 million while net income is expected to range from US\$43 million to US\$47 million.

Percentage of Completion Accounting

Most of Xinyuan's projects recognize revenue under the percentage of completion method. This requires the Company to re-evaluate its estimates of future revenues and costs on a quarterly basis project by project.

Table of Contents

Cumulative revenue=Cumulative contract sales proceeds x Cumulative incurred cost

Total estimated project cost

Cumulative cost of sales=Cumulative contract sales x Cumulative incurred cost

Total estimated project contract sales

Whenever Xinyuan makes changes to expected total project life profit margins, a catch-up adjustment must be made in the quarter of change to account for the difference between profits previously recognized using the previous profit margin estimate and the comparable profit using the new profit margin estimates. Further, if the updated profit margin indicates that the Company will have to sell units at a price less than its costs to develop them, it must recognize the full expected gross loss over the life of the project at that time regardless of whether the units have been sold. Additionally for such unprofitable projects the Company must also determine whether an impairment exists, and, if so, write down the cost to the fair value of the project which, in turn, may be less than the basis after recognizing the effect of future losses. In the year ended 2009 and in each subsequent quarter, there were no unprofitable projects that were subject to recognition of total project gross loss and impairment reviews. Except as discussed above related to Henan Colorful Garden and Chengdu Splendid I projects, there were no material changes in estimates in the second quarter of 2010.
