Item 8.01 Other Events.

As previously disclosed, on August 13, 2010, Dynegy Inc., a Delaware corporation (*Dynegy*), entered into an Agreement and Plan of Merger (the *Merger Agreement*) with Denali Parent Inc., a Delaware corporation (*Parent*), and Denali Merger Sub Inc., a Delaware corporation and a wholly owned subsidiary of Parent (*Merger Sub*), providing for the merger of Merger Sub with and into Dynegy (the *Merger*), with Dynegy surviving the Merger as a wholly owned subsidiary of Parent. Parent and Merger Sub are affiliates of The Blackstone Group L.P. Assuming receipt of required regulatory approvals and timely satisfaction of other closing conditions, including the approval by Dynegy stockholders of the proposal to adopt the Merger Agreement, Dynegy anticipates that the Merger will be completed by the end of November 2010.

As previously disclosed, concurrently with the execution of the Merger Agreement, Merger Sub entered into a Purchase and Sale Agreement with NRG Energy, Inc., a Delaware corporation (*NRG*), pursuant to which, upon the terms and subject to the terms set forth therein, simultaneously with the closing of the Merger, NRG will acquire four natural gas-fired power generating facilities from the surviving corporation the Casco Bay facility in Maine and the Moss Landing, Morro Bay and Oakland facilities in California for cash consideration of approximately \$1.36 billion (the *NRG Sale*). The NRG Sale will not occur if the Merger is not consummated.

On September 29, 2010, Dynegy Holdings Inc., a Delaware corporation and wholly owned subsidiary of Dynegy (*DHI*), filed Amendment No. 1 to its Registration Statement on Form S-4 (the *Registration Statement*) with the Securities and Exchange Commission (*SEC*). Attached hereto as Exhibit 99.1 is the unaudited pro forma condensed consolidated financial data included in the Registration Statement giving effect to the NRG Sale as described therein, all of which was derived from DHI's historical consolidated financial statements included in the Registration Statement. Capitalized terms used but not defined therein shall have the respective meanings ascribed to them in the Registration Statement. The DHI unaudited condensed consolidated financial statements as of June 30, 2010 and for the periods ended June 30, 2010 and 2009 referenced in the notes to DHI's unaudited pro forma condensed consolidated balance sheet and unaudited pro forma condensed consolidated statement of operations can also be found in Dynegy's Quarterly Report on Form 10-Q, filed with the SEC on August 6, 2010. The DHI audited consolidated financial statements for the fiscal year ended December 31, 2009 referenced in the notes to DHI's unaudited pro forma condensed consolidated statement of operations can also be found in Dynegy's Annual Report on Form 10-K, filed with the SEC on February 25, 2010.

In connection with the filing of the Registration Statement, DHI also updated DHI's disclosures regarding Dynegy's business strategy and certain risks related to Dynegy's operations and financial performance. Specifically, if the NRG Sale is completed, our portfolio of generation assets will become less diversified in terms of dispatch profile, fuel type and geography. Changes in our dispatch profile may reduce our ability to capitalize on market opportunities as power demand and pricing increase in the future. Increased dependence on our coal-fired generation facilities means our profitability will also become more dependent on our ability to procure coal at reasonable prices. We may also have greater exposure to certain business risks as weather patterns, regulatory regimes and commodity prices often differ by region and state. If we are less geographically diversified, individual risks in any one region may negatively impact our financial performance. Furthermore, our total net generating capacity will be reduced by approximately 3,884 MW, or 31.8%. These factors, individually and in the aggregate, could have a material negative effect on the level and consistency of our earnings and operating cash flows.
