Ally Financial Inc.

Ally (formerly GMAC Inc.) is a leading, independent, globally diversified, financial services firm with \$172 billion in assets and operations in 37 countries. Founded in 1919, we are a leading automotive financial services company with over 90 years experience providing a broad array of financial products and services to automotive dealers and their customers. We are also one of the largest residential mortgage companies in the United States. We became a bank holding company on December 24, 2008, under the Bank Holding Company Act of 1956, as amended (the BHC Act). Our banking subsidiary, Ally Bank, is an indirect wholly owned subsidiary of Ally and a leading franchise in the growing direct (online and telephonic) banking market, with \$33.9 billion of deposits at December 31, 2010. Our principal executive offices are located at 200 Renaissance Center, Detroit, Michigan 48265, and our telephone number is (866) 710-4623.

Our Business

Global Automotive Services and Mortgage are our primary lines of business. Our Global Automotive Services business serves over 20,000 dealers globally with a wide range of financial services and insurance products. We have a dealer-focused business model that we believe makes us the preferred automotive finance company for thousands of automotive dealers. We have specialized incentive programs that are designed to encourage dealers to direct more of their business to us. In addition, we believe our longstanding relationship with General Motors Company (GM) has resulted in particularly strong relationships between us and thousands of dealers and extensive operating experience relative to other automotive finance companies.

Our mortgage business is a leading originator and servicer of residential mortgage loans in the United States and Canada.

Ally Bank, our direct banking platform, provides our Automotive Finance and Mortgage operations with a stable, low-cost funding source and facilitates prudent asset growth. Our focus is on building a stable deposit base driven by our compelling brand and strong value proposition. Ally Bank raises deposits directly from customers through a direct banking channel over the internet and by telephone. Ally Bank offers a full spectrum of deposit product offerings including certificates of deposit, savings accounts and money market accounts, as well as an online checking product. Ally Bank's assets and operating results are divided between our North American Automotive Finance operations and Mortgage operations based on its underlying business activities.

Global Automotive Services

Our Global Automotive Services operations offer a wide range of financial services and insurance products to over 20,000 automotive dealerships and their retail customers. We have deep dealer relationships that

Table of Contents

have been built over our 90-year history and our dealer-focused business model encourages dealers to use our broad range of products through incentive programs like our Dealer Rewards program, which rewards individual dealers based on the depth and breadth of our relationship. Our automotive finance services include providing retail installment sales contracts, loans, and leases, offering term loans to dealers, financing dealer floorplans and other lines of credit to dealers, fleet leasing, and vehicle remarketing services. We also offer vehicle service contracts and commercial insurance primarily covering dealers' wholesale vehicle inventories in the United States and internationally. We are a leading provider of vehicle service contracts with mechanical breakdown and maintenance coverages.

A significant portion of our Global Automotive Services business is conducted with or through GM- and Chrysler Group LLC (Chrysler)-franchised dealers and their customers.

On November 30, 2006, we entered into an agreement with General Motors Corporation (GM) that, subject to certain conditions and limitations, whenever GM offers vehicle financing and leasing incentives to customers, it would do so exclusively through Ally. Most recently, this agreement was modified on May 22, 2009. As a result of these modifications: (1) through December 31, 2010, GM could offer retail financing incentive programs through a third-party financing source under certain specified circumstances and, in some cases, subject to the limitation that pricing offered by the third party meets certain restrictions, and after December 31, 2010, GM can offer any incentive programs on a graduated basis through third parties on a nonexclusive, side-by-side basis with Ally provided that the pricing of the third parties meets certain requirements; (2) Ally will have no obligation to provide operating lease financing products; and (3) Ally will have no targets against which it could be assessed penalties. The modified agreement will expire on December 31, 2013. A primary objective of Ally under the agreement continues to be supporting distribution and marketing of GM products.

On August 6, 2010, we entered into an agreement with Chrysler (which replaced a term sheet that was originally effective on April 30, 2009) to make available automotive financing products and services to Chrysler dealers and customers. We are Chrysler's preferred provider of new wholesale financing for dealer inventory in the United States, Canada, and Mexico, along with other international markets upon the mutual agreement of the parties. We provide dealer financing and services and retail financing to qualified Chrysler dealers and customers as we deem appropriate according to our credit policies and in our sole discretion. Chrysler is obligated to provide us with certain exclusivity privileges including the use of Ally for designated minimum threshold percentages of certain Chrysler retail financing subvention programs. The agreement extends through April 30, 2013, with automatic one-year renewals unless either we or Chrysler provides sufficient notice of nonrenewal. During 2010, Chrysler also selected Ally to be the preferred financing provider for Fiat vehicles in the United States. Under this agreement, our North American Automotive Finance operations will offer retail financing, leasing, wholesale financing, working capital and facility loans, and remarketing services for Fiat vehicles in the United States.

In 2010, we also further diversified our Global Automotive Services customer base by establishing agreements with other manufacturers. In March 2010, we were selected by Spyker Cars N.V., which purchased Saab Automobile from GM, as the preferred source of wholesale and retail financing for qualified Saab dealers and customers in North America and internationally. Additionally, in November 2010, we were selected as the recommended provider of finance and insurance products and services for Saab dealerships in the United States. In April 2010, we were selected by Thor Industries, Inc. (Thor) as the preferred financial provider for its recreational vehicles. Thor is the world's largest manufacturer of recreation vehicles, including brands such as Damon, Four Winds, Airstream, Dutchmen, Komfort, Breckenridge, CrossRoads, General Coach, and Keystone RV.

Our North American Automotive Finance operations consist of our automotive finance operations in the United States and Canada. Our International Automotive Finance operations are in Europe, Latin America, and Asia. Through our longstanding relationship with GM, we have extensive experience operating in international markets and broad global capabilities. We currently originate loans in 15 countries. During 2010 and 2009, we have

Table of Contents

significantly streamlined our international presence to focus on strategic operations in five core markets: Germany, the United Kingdom, Brazil, Mexico, and China through our joint venture, GMAC-SAIC Automotive Finance Company Limited (GMAC-SAIC). In China, GMAC-SAIC is a leading automotive finance company with broad geographic coverage and a full suite of products. We own 40% of GMAC-SAIC. The other joint venture partners include Shanghai Automotive Group Finance Company LTD and Shanghai General Motors Corporation Limited.

Our Insurance operations offer both consumer and commercial insurance products sold primarily through the automotive dealer channel. As part of our focus on offering dealers a broad range of products, we provide vehicle extended service contracts and mechanical breakdown coverages and underwrite selected commercial insurance coverages in the United States and internationally, primarily covering dealers' wholesale vehicle inventory, as well as personal automobile insurance in certain countries outside the United States.

Mortgage

Our Mortgage operations are now reported as two distinct segments: (1) Origination and Servicing operations and (2) Legacy Portfolio and Other operations. These operations are conducted through the mortgage operations of Ally Bank in the United States, ResMor Trust in Canada, and subsidiaries of ResCap in the United States.

Our Origination and Servicing operations is one of the leading originators of conforming and government-insured residential mortgage loans in the United States. We also originate and purchase high-quality government-insured residential mortgage loans in Canada. We are one of the largest residential mortgage loan servicers in the United States and we provide collateralized lines of credit to other mortgage originators, which we refer to as warehouse lending. We finance our mortgage loan originations primarily in Ally Bank in the United States and in ResMor Trust in Canada. We sell the conforming mortgages we originate or purchase in sales that take the form of securitizations guaranteed by the Federal National Mortgage Association (Fannie Mae) or the Federal Home Loan Mortgage Corporation (Freddie Mac), and sell government-insured mortgage loans we originate or purchase in securitizations guaranteed by the Government National Mortgage Association (Ginnie Mae) in the United States and sell the insured mortgages we originate in Canada as National Housing Act Mortgage-Backed Securities (NHA-MBS) issued under the Canada Mortgage and Housing Corporation's NHA-MBS program or through whole-loan sales.

Our Legacy Portfolio and Other operations primarily consists of loans originated prior to January 1, 2009, and includes noncore business activities including discontinued operations, portfolios in runoff, and cash held in ResCap. These activities, all of which we have discontinued, include, among other things: lending to real estate developers and homebuilders in the United States and the United Kingdom; purchasing, selling and securitizing nonconforming residential mortgage loans (with the exception of U.S. prime jumbo mortgage loans) in both the United States and internationally; certain conforming origination channels closed in 2008 and our mortgage reinsurance business. During 2009 and 2010, we performed a strategic review of our mortgage business. As a result of the review, we exited the European mortgage market through the sale of our United Kingdom and continental European operations. The sale of these operations was completed on October 1, 2010. We have substantially reduced the risk in our Mortgage operations since the onset of the housing crisis through a significant reduction in total assets, primarily through the runoff and divestiture of noncore businesses and assets.

Corporate and Other

Our Commercial Finance Group is included within our Corporate and Other segment. Our Commercial Finance Group provides senior secured commercial lending products to small and medium sized businesses primarily in the United States. Corporate and Other also includes certain equity investments, the amortization of the discount associated with new debt issuances and bond exchanges, most notably from the December 2008 bond exchange, as well as the residual impacts of our corporate funds-transfer-pricing (FTP) and treasury asset liability management (ALM) activities.

	Year ended December 31,				
	2010 (a)	2009 (a)	2008 (a)	2007 (a)	2006 (a)
Ratio of earnings to fixed charges (b)	1.16	0.03	1.53	0.90	1.14

(a) During 2009, we committed to sell certain operations of our International Automotive Finance operations, Insurance operations, Mortgage operations, and Commercial Finance Group. We report these businesses separately as discontinued operations in our consolidated financial statements, which are incorporated by reference into this prospectus supplement. Refer to note 2 to the consolidated financial statements for further discussion of our discontinued operations. All reported periods of the calculation of the ratio of earnings to fixed charges exclude discontinued operations.

(b) The ratio calculation indicates a less than one-to-one coverage for the years ended December 31, 2009 and 2007. Earnings available for fixed charges for the years ended December 31, 2009 and 2007, were inadequate to cover total fixed charges. The deficient amount for the ratio were \$6,968 million for 2009 and \$1,350 million for 2007.

RISK FACTORS

*Your decision whether to acquire the notes will involve risk. The risks described below are intended to highlight risks that are specific to the notes being offered and the related guarantees, but are not the only risks we face. You should be aware of, and carefully consider, the following risk factors, along with all of the risks and other information provided or referred to in this prospectus supplement and the accompanying prospectus and the documents incorporated by reference herein, including the discussion in our Annual Report on Form 10-K for the year ended December 31, 2010 including all of the risks discussed in the Risk Factors section thereof, before deciding whether to participate in the offering of the notes. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of those risks actually occurs, our business, financial condition and results of operations would suffer. The risks discussed below also include forward-looking statements and our actual results may differ substantially from those discussed in these forward-looking statements. See *Cautionary Statement Regarding Forward-Looking Statements* in this prospectus supplement.*

Risks Relating to The Notes

Our substantial level of indebtedness could materially adversely affect our ability to generate sufficient cash to fulfill our obligations under the notes, our ability to react to changes in our business and our ability to incur additional indebtedness to fund future needs.

We have a substantial amount of indebtedness, which requires significant interest and principal payments. As of December 31, 2010 we had approximately \$96.8 billion in principal amount of indebtedness outstanding. Our existing and future secured indebtedness will rank effectively senior to the notes offered hereby to the extent of the value of the assets securing such indebtedness. We may incur additional indebtedness from time to time. If we do so, the risks related to our high level of indebtedness could be increased.

Our substantial level of indebtedness could have important consequences to holders of the notes, including the following:

making it more difficult for us to satisfy our obligations with respect to our indebtedness, including the notes;

requiring us to dedicate a substantial portion of our cash flow from operations to payments on our indebtedness, thereby reducing funds available for other purposes;

increasing our vulnerability to adverse economic and industry conditions, which could place us at a competitive disadvantage compared to our competitors that have relatively less indebtedness;

limiting our flexibility in planning for, or reacting to, changes in our business and the industries in which we operate; and

limiting our ability to borrow additional funds, or to dispose of assets to raise funds, if needed, for working capital, capital expenditures, acquisitions, research and development and other corporate purposes.

In addition, a breach of any of the restrictions or covenants in our debt agreements could cause a cross-default under other debt agreements. A significant portion of our indebtedness then may become immediately due and payable. We are not certain whether we would have, or be able to obtain, sufficient funds to make these accelerated payments. If any of our indebtedness is accelerated, our assets may not be sufficient to repay in full such indebtedness and our other indebtedness.

Table of Contents

We may not be able to generate sufficient cash to service all of our indebtedness, including the notes.

Our ability to make scheduled payments of principal and interest or to satisfy our obligations in respect of our indebtedness, to refinance our indebtedness or to fund capital expenditures will depend on our future operating performance. Prevailing economic conditions (including interest rates), regulatory constraints, including, among other things, on distributions to us from our subsidiaries and required capital levels with respect to certain of our banking and insurance subsidiaries, and financial, business and other factors, many of which are beyond our control, will also affect our ability to meet these needs. We may not be able to generate sufficient cash flows from operations, or obtain future borrowings in an amount sufficient to enable us to pay our indebtedness, or to fund our other liquidity needs. We may need to refinance all or a portion of our indebtedness on or before maturity. We may not be able to refinance any of our indebtedness when needed on commercially reasonable terms or at all.

Our subsidiaries that are not note guarantors (including subsidiaries of the note guarantors that are not note guarantors) will not guarantee the notes and will not be restricted under the indenture for the notes. Your right to receive payments on the notes and the note guarantees are effectively subordinated to the indebtedness of our non-guarantor subsidiaries.

Our subsidiaries that are not note guarantors will not guarantee the notes and will not be restricted under the indenture for the notes. Accordingly, in the event of a bankruptcy or insolvency, the claims of creditors of those non-guarantor subsidiaries would also rank effectively senior to the notes, to the extent of the assets of those subsidiaries. None of the non-guarantor subsidiaries, or any of their respective subsidiaries, has any obligation to pay any amounts due on the notes or to provide us with funds for our payment obligations, whether by dividends, distributions, loans or other payments. In the event of a bankruptcy, liquidation or reorganization of any of our non-guarantor subsidiaries, holders of their liabilities, including trade creditors, will generally be entitled to payment of their claims from the assets of those non-guarantor subsidiaries before any assets are made available for distribution to us. The notes and the indenture and the guarantee agreement relating thereto will permit us to sell our interests in (through merger, consolidation or otherwise) the non-guarantor subsidiaries, or sell all or substantially all of the assets of any of the non-guarantor subsidiaries, in each case, without the consent of the holders of the notes in certain circumstances.

Our less than wholly owned subsidiaries may also be subject to restrictions on their ability to distribute cash to us in their financing or other agreements. As a result, we may not be able to access their cash flows to service our debt obligations, including obligations in respect of the notes.

The notes and the note guarantees will be effectively subordinated to our and the note guarantors' existing and future secured indebtedness which is secured by a lien on certain of our assets or certain assets of the note guarantors.

As of December 31, 2010, we had approximately \$42.4 billion in aggregate principal amount of secured indebtedness outstanding. The notes and the note guarantees will not be secured by any of our assets. As a result, our and the note guarantors' existing and future secured indebtedness will rank effectively senior to the indebtedness represented by the notes and the note guarantees, to the extent of the value of the assets securing such indebtedness. In the event of any distribution or payment of our or the note guarantors' assets in any foreclosure, dissolution, winding-up, liquidation or reorganization, or other bankruptcy proceeding, our or the note guarantors' secured creditors will have a superior claim to their collateral, as applicable. If any of the foregoing occurs, we cannot assure you that there will be sufficient assets to pay amounts due on the notes. The existing and future liabilities of our subsidiaries, excluding those subsidiaries that do guarantee the notes, will be structurally senior to the indebtedness represented by the notes to the extent of the value of the assets of such subsidiaries.

In addition, if we default under any of our existing or future secured indebtedness, the holders of such indebtedness could declare all of the funds borrowed thereunder, together with accrued interest, immediately due and payable. If we are unable to repay such indebtedness, the holders of such indebtedness could foreclose on the

Table of Contents

pledged assets to the exclusion of the holders of the notes, even if an event of default exists under the indenture governing the notes at such time. In any such event, because the notes will not be secured by any of our assets, it is possible that there would be no assets remaining from which your claims could be satisfied or, if any assets remained, they might be insufficient to satisfy your claims in full.

Your ability to transfer the notes may be limited by the absence of an active trading market, and there is no assurance that any active trading market will develop for the notes.

The notes are issues of securities for which there is no established public market. The underwriters have advised us that they intend to make a market in the notes, as permitted by applicable laws and regulations; however, the underwriters are not obligated to make a market in any of the notes and they may discontinue their market-making activities at any time without notice. Therefore, an active market for any of the notes may not develop or, if developed, it may not continue. The liquidity of any market for the notes will depend upon, among other things, the number of holders of the notes, our performance, the market for similar securities, the interest of securities dealers in making a market in the notes and other factors. A liquid trading market may not develop for the notes. If a market develops, the notes could trade at prices that may be lower than the initial offering price of the notes. If an active market does not develop or is not maintained, the price and liquidity of the notes may be adversely affected. Historically, the market for non-investment grade debt securities has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the notes. The market, if any, for any of the notes may not be free from similar disruptions and any such disruptions may adversely affect the prices at which you may sell your notes.

A court could deem the issuance of the notes to be a fraudulent conveyance and void all or a portion of the obligations represented by the notes.

In a bankruptcy proceeding, a trustee, debtor in possession, or someone else acting on behalf of the bankruptcy estate may seek to recover transfers made or void obligations incurred prior to the bankruptcy proceeding on the basis that such transfers and obligations constituted fraudulent conveyances. Fraudulent conveyances are generally defined to include transfers made or obligations incurred for less than reasonably equivalent value or fair consideration when the debtor was insolvent, inadequately capitalized or in similar financial distress or that rendered the debtor insolvent, inadequately capitalized or unable to pay its debts as they become due, or transfers made or obligations incurred with the intent of hindering, delaying or defrauding current or future creditors. A trustee or such other parties may recover such transfers and avoid such obligations made within two years prior to the commencement of a bankruptcy proceeding. Furthermore, under certain circumstances, creditors may generally recover transfers or void obligations outside of bankruptcy under applicable fraudulent transfer laws, within the applicable limitation period, which are typically longer than two years. In bankruptcy, a representative of the estate may also assert such claims. If a court were to find that Ally issued the notes under circumstances constituting a fraudulent conveyance, the court could void all or a portion of the obligations under the notes. In addition, under such circumstances, the value of any consideration holders received with respect to the notes could also be subject to recovery from such holders and possibly from subsequent transferees.

Therefore, a note could be voided, or claims in respect of a note could be subordinated to all other debts of Ally, if Ally at the time it incurred the indebtedness evidenced by the notes received less than reasonably equivalent value or fair consideration for the issuance of the notes, and:

was insolvent or rendered insolvent by reason of such issuance or incurrence;

was engaged in a business or transaction for which Ally's remaining assets constituted unreasonably small capital; or

intended to incur, or believed that it would incur, debts beyond its ability to pay those debts as they mature.

Table of Contents

The measures of insolvency for purposes of these fraudulent transfer laws will vary depending upon the law applied in any proceeding to determine whether a fraudulent transfer has occurred. Generally, however, a debtor would be considered insolvent if:

the sum of its debts, including contingent liabilities, was greater than all of its assets at fair valuation;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

We cannot assure you as to what standard a court would apply in determining whether Ally would be considered to be insolvent. If a court determined that Ally was insolvent after giving effect to the issuance of the new securities, it could void the notes, or potentially impose other forms of damages.

With respect to certain actions under the indenture governing the notes, holders of the notes will vote together as a single class with holders of all other debt securities issued under the indenture governing the notes that are adversely affected by such actions; therefore the voting interest of a holder of notes under the indenture with respect to such actions will be diluted.

For purposes of the indenture governing the notes, the notes offered hereby and all other debt securities issued thereunder will generally constitute a single class of debt securities. Therefore, any action under the indenture governing the notes other than those actions affecting only the notes will require the consent of the holders of not less than $66\frac{2}{3}\%$ in aggregate principal amount of the debt securities issued thereunder that are affected thereby. See Description of Notes Modification of the Indenture. Consequently, any action requiring the consent of holders of the notes under the indenture governing the notes may also require the consent of holders of a significant portion of the remaining debt securities issued thereunder, and the individual voting interest of each holder of the notes may be accordingly diluted with respect to such actions. In addition, holders of debt securities could vote in favor of certain actions under the indenture that holders of the notes vote against, and the requisite consent to such action could be received nonetheless. We also may, from time to time, issue additional debt securities under the indenture governing the notes which could further dilute the individual voting interest of each holder of the notes with respect to such actions.

In the event that a bankruptcy court orders the substantive consolidation of any of the note guarantors with Ally or any of its other subsidiaries, payments on the notes could be delayed or reduced.

We believe that Ally and the note guarantors have observed and will observe certain corporate and other formalities and operating procedures that are generally recognized requirements for maintaining the separate existence of the note guarantors and that the assets and liabilities of the note guarantors can be readily identified as distinct from those of Ally and its other subsidiaries. However, we cannot assure you that a bankruptcy court would agree in the event that Ally or any of its subsidiaries becomes a debtor under the United States Bankruptcy Code. If a bankruptcy court so orders the substantive consolidation of the note guarantors with Ally or any of its other subsidiaries, noteholders should expect payments on the notes to be delayed and/or reduced.

Risks Relating to The Note Guarantees

Because each note guarantor's liability under the note guarantees may be reduced, voided or released under certain circumstances, you may not receive any payments from some or all of the note guarantors.

The holders of the notes will have the benefit of the guarantees of the note guarantors. However, the guarantees by the note guarantors are limited to the maximum amount that the note guarantors are permitted to guarantee under applicable law. As a result, a note guarantor's liability under its note guarantee could be reduced

Table of Contents

depending on the amount of other obligations of such note guarantor. Further, under the circumstances discussed below, a court under Federal or applicable fraudulent conveyance and transfer statutes could void the obligations under a note guarantee or further subordinate it to all other obligations of the note guarantor. In addition, the holders of the notes will lose the benefit of a particular note guarantee if it is released under certain circumstances described under Description of Notes Note Guarantees.

A court could deem the note guarantees a fraudulent conveyance and void all or a portion of the obligations of the note guarantors.

If a court were to find that any of the note guarantors issued the note guarantees under circumstances constituting a fraudulent conveyance, the court could void all or a portion of the obligations under such note guarantee and, if payment had already been made under the relevant note guarantee, require that the recipient return the payment to the relevant note guarantor.

A note guarantee could be voided, or claims in respect of a note guarantee could be subordinated to all other debts of the applicable note guarantor if the note guarantor at the time it incurred the obligation evidenced by the note guarantee received less than reasonably equivalent value or fair consideration for the issuance of the note guarantee, and:

was insolvent or rendered insolvent by reason of such issuance or incurrence;

was engaged in a business or transaction for which such applicable note guarantor's remaining assets constituted unreasonably small capital; or

intended to incur, or believed that it would incur, debts beyond its ability to pay those debts as they mature.

We cannot assure you as to what standard a court would apply in determining whether a note guarantor would be considered to be insolvent. If a court decided any note guarantee provided by any note guarantor was a fraudulent conveyance and voided such note guarantee, or held it unenforceable for any other reason, you would cease to have any claim in respect of such note guarantor providing such voided note guarantee and would be a creditor solely of Ally as issuer of the notes and the remaining note guarantors.

The guarantee agreement relating to the notes will contain a provision intended to limit each note guarantor's liability to the maximum amount that it could incur without causing the incurrence of obligations under its note guarantee to be a fraudulent transfer. This provision may not be effective to protect the note guarantees from being voided under fraudulent transfer law, or may eliminate the note guarantor's obligations or reduce the note guarantor's obligations to an amount that effectively makes the note guarantee worthless. In a recent Florida bankruptcy case, a similar provision was found to be ineffective to protect the note guarantees.

If the note guarantees were legally challenged, any note guarantee could also be subject to the claim that, since the note guarantee was incurred for Ally's benefit, and only indirectly for the benefit of the applicable note guarantor, the obligations of the applicable note guarantor were incurred for less than fair consideration. A court could thus void the obligations under the note guarantees, subordinate them to the applicable note guarantor's other debt or take other action detrimental to the holders of the notes.

A court could deem the note guarantee of GMAC International Holdings a fraudulent conveyance or a violation of other laws and void all or a portion of the obligations of GMAC International Holdings under Dutch law.

To the extent that Dutch law applies, a guarantee granted by a legal entity may, under certain circumstances, be nullified by any of its creditors, if (i) the guarantee was granted without an obligation to do so (*onverplicht*), (ii) the creditor concerned was prejudiced as a consequence of the guarantee and (iii) at the time

Table of Contents

the guarantee was granted both the legal entity and, unless the guarantee was granted for no consideration (*om niet*), the beneficiary of the guarantee knew or should have known that one or more of the entities' creditors (existing or future) would be prejudiced. Also to the extent that Dutch insolvency law applies, a guarantee or security may be nullified by the receiver (*curator*) on behalf of and for the benefit of all creditors of the insolvent debtor.

In addition, if a Dutch company grants a guarantee and that guarantee is not in the company's corporate interest, the guarantee may be nullified by the Dutch company, its receiver and its administrator (*bewindvoerder*) and, as a consequence, not be valid, binding and enforceable against it. In determining whether the granting of such guarantee is in the interest of the relevant company, the Dutch courts would consider the text of the objects clause in the articles of association of the company and whether the company derives certain commercial benefits from the transaction in respect of which the guarantee was granted. In addition, if it is determined that there are no, or insufficient, commercial benefits from the transaction for the company that grants the guarantee, then such company (and any bankruptcy receiver) may contest the enforcement of the guarantee. It remains possible that even where strong financial and commercial interdependence exists, the transaction may be declared void if it appears that the granting of the guarantee cannot serve the realization of the relevant company's objectives.

If Dutch law applies, a guarantee or security governed by Dutch law may be voided by a court, if the document was executed through undue influence (*misbruik van omstandigheden*), fraud (*bedrog*), duress (*bedreiging*) or mistake (*dwaling*) of a party to the agreement contained in that document.

In addition, a guarantee issued by a Dutch company may be suspended or voided by the Enterprise Chamber of the Court of Appeal in Amsterdam (*Ondernemingskamer van het Gerechtshof te Amsterdam*) on the motion of a trade union and of other entities entitled thereto in the articles of association (*statuten*) of the relevant Dutch company. Likewise, the guarantee or security itself may be upheld by the Enterprise Chamber, yet actual payment under it may be suspended or avoided.

The notes, the indenture and guarantee agreement related thereto contain only limited restrictions on the business and activities of the note guarantors and our ability to sell the equity interests in note guarantors.

The notes, the guarantee agreement and the indenture relating thereto will permit the note guarantors to, among other things, transfer less than substantially all of their assets, pledge their assets or incur indebtedness or other obligations in each case without the consent of the holders of the notes and subject to certain limited exceptions. To the extent that the note guarantors engage in any such transactions, the amount of assets of such note guarantors available to satisfy their obligations under the note guarantees may be reduced or eliminated.

Although we will be required to use the proceeds of any sale, disposal or transfer of the equity interests of any note guarantor held by Ally in a transaction following which Ally ceases to own a majority of the equity interests of such note guarantor to reinvest in a note guarantor or a subsidiary of a note guarantor, upon such a sale, the note guarantee of such former subsidiary will be released and it will have no further obligation with respect to the notes.

Effective November 28, 2006, we, along with certain of our U.S. subsidiaries, converted to limited liability companies (LLCs) and became pass-through entities for U.S. federal income tax purposes. Our conversion to an LLC resulted in a change in tax status and the elimination of a \$791 million net deferred tax liability through income tax expense. DESCRIPTION OF NOTES

General

Ally will issue Floating Rate Senior Guaranteed Notes due (the notes) under the indenture dated as of July 1, 1982 (as amended by the first supplemental indenture dated as of April 1, 1986, the second supplemental indenture dated as of June 15, 1987, the third supplemental indenture dated as of September 30, 1996, the fourth supplemental indenture dated as of January 1, 1998, and the fifth supplemental indenture dated as of September 30, 1998, and together with such supplemental indentures, the Indenture) among Ally and The Bank of New York Mellon (successor to Morgan Guaranty Trust Company of New York), as trustee (the Trustee). The notes will constitute a separate series of notes from those series previously issued under such Indenture. Those terms of the notes that differ from or that are in addition to the terms of the Indenture will be set forth in the resolution or resolutions of the board of directors or the executive committee of Ally authorizing the issuance of the notes. For purposes of amending or modifying the Indenture, the holders of the notes will generally vote as a single class with the holders of debt securities of all other series at the time outstanding under the Indenture (together with the notes, the Debt Securities).

The following description is a summary of certain provisions of the Indenture, the notes, and the Guarantee Agreement (as defined below). It does not restate the Indenture, the notes, or the Guarantee Agreement in their entirety and is qualified in its entirety by reference to such documents. You may request copies of the Indenture at Ally s address set forth under Incorporation by Reference; Where You Can Find More Information.

The notes will be issued only in fully registered book-entry form without coupons only in minimum denominations of \$2,000 principal amount and integral multiples of \$1,000 above that amount. The notes will be issued in the form of global notes. Global notes will be registered in the name of a nominee of DTC, New York, New York, as described under Book-Entry, Delivery and Form of Notes.

Principal Amount; Maturity and Interest

Ally will issue the notes in an initial aggregate principal amount of \$. The notes will mature on .

The notes will be denominated in U.S. dollars and all payments of principal and interest thereon will be paid in U.S. dollars.

We will pay interest on the notes quarterly on , , and of each year, beginning (each an interest payment date). Interest on the notes will accrue from and including the date the notes are issued (the issue date) or from and including the most recent interest payment date. If any interest payment date would otherwise be a day that is not a business day, the interest payment date will be postponed to the immediately succeeding day that is a business day, except that if that business day is in the immediately succeeding calendar month, the interest payment date shall be the immediately preceding business day.

The regular record date for payments is the date 15 calendar days prior to each interest payment date.

The interest rate on the notes will be will be reset quarterly on , , and of each year, commencing , and at maturity (each an interest reset date). If any interest reset date would otherwise be a day that is not a business day, the interest reset date will be postponed to the immediately succeeding day that is a business day, except that if that business day is in the immediately succeeding calendar month, the interest reset date shall be the immediately preceding business day.

Table of Contents

The initial interest reset period (or initial interest period) will be the period from and including the settlement date to but excluding the first interest reset date. Thereafter, each interest reset period (or interest period) will be the period from and including an interest reset date to but excluding the immediately succeeding interest reset date; provided that the final interest reset period for the notes will be the period from and including the interest reset date immediately preceding the maturity date of such notes to but excluding the maturity date. Interest on the notes will be computed on the basis of the actual number of days elapsed over a 360-day year.

The interest rate for the first interest period (or initial interest reset period) will be the three-month U.S. dollar London Interbank Offered Rate (LIBOR), as determined on _____, plus a margin of ____%. Thereafter, the interest rate for any interest period will be U.S. dollar LIBOR, as determined on the applicable interest determination date (as defined below), plus a margin of ____%.

The interest rate applicable to each interest reset period commencing on the related interest reset date, or the settlement date in the case of the initial interest period, will be the rate determined as of the applicable interest determination date. The interest determination date will be the second London business day immediately preceding the settlement date, in the case of the initial interest reset period, or thereafter the applicable interest reset date. A London business day means a day on which dealings in deposits in U.S. dollars are transacted in the London interbank market.

The Bank of New York Mellon, or its successor appointed by us, will act as calculation agent. Three-month LIBOR will be determined by the calculation agent as of the applicable interest determination date in accordance with the following provisions:

(i) LIBOR is the rate for deposits in U.S. dollars for the three-month period which appears on Reuters LIBOR 01 (as defined below) at approximately 11:00 a.m., London time, on the applicable interest determination date. Reuters LIBOR 01 means the display designated on page LIBOR 01 on the Reuters Service (or such other page as may replace the LIBOR 01 page on that service, any successor service or such other service or services as may be nominated by the British Bankers' Association for the purpose of displaying London interbank offered rates for U.S. dollar deposits). If no rate appears on Reuters LIBOR 01, LIBOR for such interest determination date will be determined in accordance with the provisions of paragraph (ii) below.

(ii) With respect to an interest determination date on which no rate appears on Reuters LIBOR 01 as of approximately 11:00 a.m., London time, on such interest determination date, the calculation agent shall request the principal London offices of each of four major reference banks (which may include affiliates of the underwriters) in the London interbank market selected by the calculation agent (after consultation with the company) to provide the calculation agent with a quotation of the rate at which deposits of U.S. dollars having a three-month maturity, commencing on the second London business day immediately following such interest determination date, are offered by it to prime banks in the London interbank market as of approximately 11:00 a.m., London time, on such interest determination date in a principal amount equal to an amount of not less than U.S. \$1,000,000 that is representative for a single transaction in such market at such time. If at least two such quotations are provided, LIBOR for such interest determination date will be the arithmetic mean of such quotations as calculated by the calculation agent. If fewer than two quotations are provided, LIBOR for such interest determination date will be the arithmetic mean of the rates quoted as of approximately 11:00 a.m., New York City time, on such interest determination date by three major banks (which may include affiliates of the underwriters) selected by the calculation agent (after consultation with the company) for loans in U.S. dollars to leading European banks having a three-month maturity commencing on the second London business day immediately following such interest determination date and in a principal amount equal to an amount of not less than U.S. \$1,000,000 that is representative for a single transaction in such market at such time; provided, however, that if the banks selected as aforesaid by the calculation agent are not quoting such rates as mentioned in this sentence, LIBOR for such interest determination date will be LIBOR determined with respect to the immediately preceding interest determination date.

Note Guarantees

Each of Latin America LLC, GMAC International Holdings, Continental LLC, IB Finance and US LLC (each a subsidiary of Ally and each a note guarantor) will, pursuant to a guarantee agreement to be dated as of the issue date (the Guarantee Agreement) among Ally, each note guarantor and the Trustee, jointly and severally, irrevocably and unconditionally guarantee (the note guarantees) on an unsubordinated basis the performance and punctual payment when due, whether at maturity, by acceleration or otherwise, of all payment obligations of Ally in respect of the notes (pursuant to the terms thereof and of the Indenture), whether for payment of (w) principal of, or premium, if any, interest or additional interest on the notes, (x) expenses, (y) indemnification or (z) otherwise (all such obligations guaranteed by such note guarantors being herein called the guaranteed obligations).

Each note guarantee will be limited to an amount not to exceed the maximum amount that can be guaranteed by the applicable note guarantor without rendering the note guarantee, as it relates to such note guarantor, voidable under applicable law relating to fraudulent conveyance or fraudulent transfer or similar laws affecting the rights of creditors generally. See Risk Factors Risks Relating to the Note Guarantees.

Each note guarantee will be a continuing guarantee and shall:

- (1) subject to the next succeeding paragraph, remain in full force and effect until payment in full of all the guaranteed obligations;
- (2) subject to the next succeeding paragraph, be binding upon each such note guarantor and its successors; and
- (3) inure to the benefit of and be enforceable by the Trustee and the holders of the notes and their successors, transferees and assigns.

A note guarantee of a note guarantor will be automatically released upon:

- (1) the sale, disposition or other transfer (including through merger or consolidation) of a majority of the equity interests (including any sale, disposition or other transfer following which the applicable note guarantor is no longer a subsidiary of Ally), of the applicable note guarantor if such sale, disposition or other transfer is made in compliance with the Indenture; or
- (2) the discharge of Ally's obligations in respect of the notes in accordance with the terms of the Indenture and the notes.

Not all of Ally's subsidiaries will guarantee the notes. The notes will be effectively subordinated to all debt and other liabilities (including trade payables and lease obligations) of subsidiaries that do not provide note guarantees.

Ranking

The notes will rank equally in right of payment with all existing and future unsubordinated unsecured indebtedness of Ally, including all Debt Securities, and senior in right of payment to existing and future indebtedness of Ally that by its terms is expressly subordinated to the notes. The notes will be effectively subordinated to any secured indebtedness of Ally to the extent of the value of the assets securing such debt. As of December 31, 2010, we had approximately \$42.4 billion in aggregate principal amount of secured debt outstanding.

The notes will be structurally subordinated to all of the existing and future indebtedness and other liabilities (including trade payables) of subsidiaries of Ally that do not provide note guarantees to the extent of the value of the assets of such subsidiaries.

Each note guarantee will be effectively subordinated to any secured indebtedness of such note guarantor to the extent of the value of the assets securing such debt and will be structurally subordinated to all of the existing and future indebtedness and other liabilities (including trade payables) of any non-guarantor subsidiaries of such note guarantor.

Redemption

The notes are not subject to redemption prior to maturity, and there is no sinking fund for the notes.

Certain Covenants

Limitation on Liens

The Indenture provides that Ally will not pledge or otherwise subject to any lien any of its property or assets unless the notes are secured by such pledge or lien equally and ratably with any and all other obligations and indebtedness secured thereby so long as any such other obligations and indebtedness shall be so secured. This covenant does not apply to:

the pledge of any assets to secure any financing by Ally of the exporting of goods to or between, or the marketing thereof in, foreign countries (other than Canada), in connection with which Ally reserves the right, in accordance with customary and established banking practice, to deposit, or otherwise subject to a lien, cash, securities or receivables, for the purpose of securing banking accommodations or as the basis for the issuance of bankers' acceptances or in aid of other similar borrowing arrangements;

the pledge of receivables payable in foreign currencies (other than Canadian dollars) to secure borrowings in foreign countries (other than Canada);

any deposit of assets of Ally with any surety company or clerk of any court, or in escrow, as collateral in connection with, or in lieu of, any bond on appeal by Ally from any judgment or decree against it, or in connection with other proceedings in actions at law or in equity by or against Ally;

any lien or charge on any property, tangible or intangible, real or personal, existing at the time of acquisition of such property (including acquisition through merger or consolidation) or given to secure the payment of all or any part of the purchase price thereof or to secure any indebtedness incurred prior to, at the time of, or within 60 days after, the acquisition thereof for the purpose of financing all or any part of the purchase price thereof; and

any extension, renewal or replacement (or successive extensions, renewals or replacements), in whole or in part, of any lien, charge or pledge referred to in the foregoing four clauses of this paragraph; provided, however, that the amount of any and all obligations and indebtedness secured thereby shall not exceed the amount thereof so secured immediately prior to the time of such extension, renewal or replacement and that such extension, renewal or replacement shall be limited to all or a part of the property which secured the charge or lien so extended, renewed or replaced (plus improvements on such property).

Merger and Consolidation

The Indenture provides that Ally will not merge or consolidate with another corporation or sell or convey all or substantially all of Ally's assets to another person, firm or corporation unless either Ally is the continuing corporation or the new corporation shall expressly assume the interest and principal (and premium, if

any) due under the Debt Securities. In either case, the Indenture provides that neither Ally nor a successor corporation may be in default of performance immediately after such merger or consolidation or sale or conveyance. Additionally, the Indenture provides that in the case of any such merger or consolidation or sale or conveyance, the successor corporation may continue to issue securities under the Indenture.

The Guarantee Agreement will provide that no note guarantor will merge or consolidate with another corporation or sell or convey all or substantially all of its assets to another person, firm or corporation unless either it is the continuing corporation or the new corporation shall expressly assume the obligation to serve as a note guarantor of Ally's obligations under the notes. In either case, the Guarantee Agreement will provide that neither the note guarantor nor any successor corporation may be in default of performance immediately after such merger or consolidation or sale or conveyance.

SEC Reports and Reports to Holders

Ally will be required to file with the Trustee within fifteen days after Ally is required to file the same with the SEC, copies of the annual reports and of the information, documents and other reports (or copies of such portions of any of the foregoing as the SEC may from time to time by rules and regulations prescribe) which Ally may be required to file with the SEC pursuant to Section 13 or Section 15(d) of the Exchange Act; or, if Ally is not required to file information, documents or reports pursuant to either of such sections, then to file with the Trustee and the SEC, in accordance with the rules and regulations prescribed from time to time by the SEC, such of the supplementary and periodic information, documents and reports which may be required pursuant to Section 13 of the Exchange Act in respect of a security listed and registered on a national securities exchange as may be prescribed from time to time in such rules and regulations. In addition, Ally will be required to file with the Trustee and the SEC, in accordance with the rules and regulations prescribed from time to time by the SEC, such additional information, documents and reports with respect to compliance by Ally with the conditions and covenants provided for in the Indenture as may be required from time to time by such rules and regulations. Ally has also agreed that, for so long as any notes remain outstanding during any period when it is not subject to Section 13 or 15(d) of the Exchange Act, or otherwise permitted to furnish the SEC with certain information pursuant to Rule 12g3-2(b) of the Exchange Act, it will furnish to the holders of the notes and to prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act of 1933, as amended.

Limitation on Sale of Equity Interests of Note Guarantors

Ally will not be permitted to sell, dispose of or otherwise transfer any of the equity interests of any note guarantor held by Ally in a transaction following which Ally ceases to own a majority of the equity interests of such note guarantor (a note guarantor equity sale) unless the net sale proceeds of such note guarantor equity sale are used within five business days following the receipt by Ally of such net sale proceeds from such note guarantor equity sale to make an investment in one or more note guarantors or subsidiaries of note guarantors, including any subsidiary of Ally that becomes a note guarantor or a subsidiary of a note guarantor. For purposes of this description of notes, the term subsidiary when used in respect to any person shall include a direct or indirect subsidiary of such person.

Limitation on Liens on Assets of Note Guarantors

The Guarantee Agreement will provide that, so long as the notes remain outstanding, no note guarantor nor any subsidiary of a note guarantor will pledge or otherwise subject to any lien any of its property or assets to secure (a) any debt (as defined below) of Ally or any direct or indirect parent of Ally or ResCap or any subsidiary of ResCap or (b) any debt incurred to repay, retire, redeem, refund, refinance, replace, defease, cancel, repurchase or exchange any such debt described in the foregoing clause (a), in each case unless the notes are secured by such pledge or lien equally and ratably with such debt so long as any such other debt shall be so secured; provided, that financings, securitizations and hedging activities conducted by a subsidiary of Ally in the ordinary course of business and not incurred in contemplation of the payment of debt described in clause (a) prior to its stated maturity shall not be deemed to be covered by clause (b).

In the event that any subsidiary rendering a guarantee of the notes is released and discharged in full of the guarantee of all such other debt, then the guarantee of the notes shall be automatically and unconditionally released and discharged.

The Guarantee Agreement will provide that no note guarantor, nor any subsidiary of a note guarantor, will guarantee the payment of any debt of ResCap or any subsidiary of ResCap.

Limitation on Asset Sales by Note Guarantors

The Guarantee Agreement will provide that no note guarantor, nor any subsidiary of a note guarantor, will make an Asset Sale (as defined below) to Ally or any subsidiary or other affiliate of Ally that is not a note guarantor or a subsidiary of a note guarantor, other than:

Events of Default

An event of default with respect to the notes is defined in the Indenture as being (the Indenture Events of Default):

default in payment of any principal or premium, if any;

default for 30 days in payment of any interest;

default in the performance of any other covenant in the Indenture or the notes for 30 days after notice by the Trustee or holders of at least 25% in aggregate principal amount of Debt Securities at the time outstanding; or

certain events of bankruptcy, insolvency or reorganization with respect to Ally.

Furthermore, an event of default (the Guarantee Event of Default, and a Guarantee Event of Default or any Indenture Event of Default, an Event of Default) shall have occurred if at any time (a) any note guarantee of any note guarantor ceases to be in full force and effect (other than in accordance with the terms of such note guarantee and the Indenture), (b) any note guarantee of any note guarantor is declared null and void and unenforceable or found to be invalid or (c) any note guarantor asserts in writing that its note guarantee is not in effect or is not its legal, valid or binding obligation (other than by reason of release of a note guarantor from its note guarantee in accordance with the terms of the applicable Indenture and the note guarantee).

In case any of the first, second or third Indenture Events of Default above, or the Guarantee Event of Default, shall occur and be continuing with respect to the notes, the Trustee or the holders of not less than 25% in aggregate principal amount of the Debt Securities affected thereby then outstanding may declare the principal amount of all of the Debt Securities affected thereby to be due and payable. In case an event of default as set out in the fourth Indenture Event of Default above shall occur and be continuing, the Trustee or the holders of not less than 25% in aggregate principal amount of all the Debt Securities then outstanding, voting as one class, may declare the principal of all outstanding Debt Securities to be due and payable. Any Event of Default with respect to the notes may be waived and a declaration of acceleration of payment rescinded by the holders of a majority in aggregate principal amount of the notes, or of all the outstanding Debt Securities, as the case may be, if sums sufficient to pay all amounts due other than amounts due upon acceleration are provided to the Trustee and all

defaults are remedied. For such purposes, if the principal of all series of Debt Securities shall have been declared to be payable, all series will be treated as a single class. Ally is required to file with the Trustee annually an officers certificate as to the absence of certain defaults under the terms of the Indenture. The Indenture provides that the Trustee may withhold notice to the securityholders of any default, except in payment of principal, premium, if any, or interest, if it considers it in the interest of the securityholders to do so.

The holders of the notes shall vote as a separate class from the holders of the other Debt Securities with respect to any defaults or events of default or remedies relating thereto as a result of any covenants, obligations or provisions affecting only the notes, including the Additional Covenants.

Subject to the provisions of the Indenture relating to the duties of the Trustee in case an Event of Default shall occur and be continuing, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request, order or direction of any of the securityholders, unless such securityholders shall have offered to the Trustee reasonable indemnity satisfactory to it.

Subject to such provisions for the indemnification of the Trustee and to certain other limitations, the holders of a majority in principal amount of the Debt Securities shall have the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee.

Satisfaction and Discharge

The Indenture shall cease to be of further effect with respect to the notes if at any time (a) Ally shall have delivered to the Trustee for cancellation all notes theretofore authenticated (other than any notes which shall have been destroyed, lost or stolen and which shall have been replaced or paid), or (b) all such notes not theretofore delivered to the Trustee for cancellation shall have become due and payable, or are by their terms to become due and payable within one year or are to be called for redemption within one year under arrangements satisfactory to the Trustee for the giving of notice of redemption, and Ally shall deposit or cause to be deposited with the Trustee as trust funds the entire amount (other than moneys repaid by the Trustee or any paying agent to Ally) sufficient to pay at maturity or upon redemption all notes not theretofore delivered to the Trustee for cancellation, including principal (and premium, if any) and interest due or to become due to such date of maturity or date fixed for redemption, as the case may be, and if in either case Ally shall also pay or cause to be paid all other sums payable under the Indenture by Ally with respect to the notes.

All such moneys deposited with the Trustee shall be held in trust and applied by it to the payment, either directly or through any paying agent (including Ally acting as its own paying agent), to the holders of the notes for the payment or redemption of which such moneys have been deposited with the Trustee, of all sums due and to become due thereon for principal and interest (and premium, if any).

Further Issues

Ally may from time to time, without notice to or the consent of the registered holders of the notes, create and issue further notes ranking equally with the notes offered by this prospectus supplement in all respects, or in all respects except for the payment of interest accruing prior to the issue date of such further notes or except for the first payment of interest following the issue date of such further notes. Such further notes may be consolidated and form a single series with the notes offered by this prospectus supplement and have the same terms as to status, redemption or otherwise as the notes offered by this prospectus supplement.

Concerning the Trustee

The Trustee will be designated by Ally as the initial paying agent, transfer agent and registrar to the notes. The Corporate Trust Office of the Trustee is currently located at 101 Barclay Street, Floor 8W, New York, N.Y. 10286, U.S.A., Attention: Corporate Trust Administration.

The Indenture provides that the Trustee, prior to the occurrence of an Event of Default and after the curing of all such Events of Default which may have occurred, undertakes to perform such duties and only such duties as are specifically set forth in the Indenture. If any such Event of Default has occurred (which has not been cured), the Trustee will use the same degree of care and skill in its exercise of the rights and powers vested in it by the Indenture as a prudent man would exercise or use under the circumstances in the conduct of his own affairs. The Indenture also provides that the Trustee or any agent of Ally or the Trustee, in their individual or any other capacity, may become the owner or pledgee of notes with the same rights it would have if it were not the Trustee provided, however, that all moneys received by the Trustee or any paying agent shall, until used or applied as provided in the Indenture, be held in trust thereunder for the purposes for which they were received and need not be segregated from other funds except to the extent required by law.

Governing Law and Consent to Jurisdiction

The Indenture is and the notes will be governed by and will be construed in accordance with the laws of the State of New York.

BOOK-ENTRY, DELIVERY AND FORM OF NOTES

Except as set forth below, notes will be issued in registered global form (the Global Notes) without interest coupons in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. The Global Notes will be deposited upon issuance with the Trustee, as custodian for DTC, in New York, New York, and registered in the name of DTC or its nominee, in each case for credit to an account of a direct or indirect participant in DTC as described below.

Except as set forth below, the Global Notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the Global Notes may not be exchanged for notes in certificated form except in the limited circumstances described below. See Exchange of Book-Entry Notes for Certificated Notes. Except in the limited circumstances described below, owners of beneficial interests in the Global Notes will not be entitled to receive physical delivery of Certificated Notes (as defined below). Transfers of beneficial interests in the Global Notes will be subject to the applicable rules and procedures of DTC and its direct or indirect participants (including, if applicable, those of Euroclear and Clearstream), which may change from time to time.

Initially, the Trustee will act as paying agent and registrar. The notes may be presented for registration of transfer and exchange at the offices of the registrar.

Certain Procedures

The following description of the operations and procedures of DTC, Euroclear and Clearstream are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to changes by them from time to time. We take no responsibility for these operations and procedures and urge investors to contact the system or their participants directly to discuss these matters.

DTC has advised us that DTC is a limited-purpose trust company created to hold securities for its participating organizations (collectively, the Participants) and to facilitate the clearance and settlement of transactions in those securities between Participants through electronic book-entry changes in accounts of its Participants. The Participants include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. Access to DTC's system is also available to other entities such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Participant, either directly or indirectly (collectively, the Indirect Participants).

Persons who are not Participants may beneficially own securities held by or on behalf of DTC only through the Participants or the Indirect Participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the Participants and Indirect Participants.

DTC has also advised us that, pursuant to procedures established by it, ownership of interests in the Global Notes will be shown on, and the transfer of ownership thereof will be effected only through, records maintained by DTC (with respect to the Participants) or by the Participants and the Indirect Participants (with respect to other owners of beneficial interest in the Global Notes).

The laws of some states require that certain persons take physical delivery in definitive form of securities that they own. Consequently, the ability to transfer beneficial interests in a Global Note to such persons will be limited to that extent. Because DTC can act only on behalf of Participants, which in turn act on behalf of Indirect Participants and certain banks, the ability of a person having beneficial interests in a Global Note to pledge such interests to persons or entities that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Except as described below, owners of interests in the Global Notes will not have notes registered in their names, will not receive physical delivery of notes in certificated form and will not be considered the registered owners or holders thereof under the indenture governing the notes for any purpose.

Table of Contents

Payments in respect of the principal of, premium, if any, and interest on a Global Note registered in the name of DTC or its nominee will be payable to DTC in its capacity as the registered holder under the indenture governing the notes. Under the terms of the indenture governing the notes, we and the Trustee will treat the persons in whose names the notes, including the Global Notes, are registered as the owners thereof for the purpose of receiving such payments and for any and all other purposes whatsoever. Consequently, none of us, the Trustee or any of our or the Trustee's agents has or will have any responsibility or liability for (i) any aspect of DTC's records or any Participant's or Indirect Participant's records relating to or payments made on account of beneficial ownership interest in the Global Notes, or for maintaining, supervising or reviewing any of DTC's records or any Participant's or Indirect Participant's records relating to the beneficial ownership interests in the Global Notes or (ii) any other matter relating to the actions and practices of DTC or any of its Participants or Indirect Participants. DTC has advised us that its current practice, upon receipt of any payment in respect of securities such as the notes (including principal and interest), is to credit the accounts of the relevant Participants with the payment on the payment date, in amounts proportionate to their respective holdings in the principal amount of beneficial interest in the relevant security as shown on the records of DTC unless DTC has reason to believe it will not receive payment on such payment date. Payments by the Participants and the Indirect Participants to the beneficial owners of notes will be governed by standing instructions and customary practices and will be the responsibility of the Participants or the Indirect Participants and will not be the responsibility of DTC, the Trustee or us. Neither we nor the Trustee will be liable for any delay by DTC or any of its Participants in identifying the beneficial owners of the notes, and we and the Trustee may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Except for trades involving only Euroclear and Clearstream participants, interests in the Global Notes are expected to be eligible to trade in DTC's Same-Day Funds Settlement System, and secondary market trading activity in such interests will, therefore, settle in immediately available funds, subject in all cases to the rules and procedures of DTC and its Participants. See Same-Day Settlement and Payment. Subject to the transfer restrictions set forth under Transfer Restrictions, transfers between Participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds, and transfers between participants in Euroclear or Clearstream will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Crossmarket transfers between the Participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depository to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant Global Note in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream.

DTC has advised us that it will take any action permitted to be taken by a holder of notes only at the direction of one or more Participants to whose account DTC has credited the interests in the Global Notes and only in respect of such portion of the aggregate principal amount of the notes as to which such Participant or Participants has or have given such direction. However, if there is an Event of Default under the notes, DTC reserves the right to exchange the Global Notes for legended notes in certificated form and to distribute such notes to its Participants.

Neither we nor the Trustee nor any of our or their respective agents will have any responsibility for the performance by DTC or its Participants or Indirect Participants of their respective obligations under the rules and procedures governing their operations.

Exchange of Book-Entry Notes for Certificated Notes

A Global Note is exchangeable for definitive notes in registered certificated form (Certificated Notes) if (i) DTC notifies us that it is unwilling or unable to continue as depository for the Global Notes and we thereupon fail to appoint a successor depository within 90 days or (ii) we at any time determine not to have the notes represented by the Global Notes. In addition, beneficial interests in a Global Note may be exchanged for Certificated Notes upon request, but only upon prior written notice given to the Trustee by or on behalf of DTC in accordance with the indenture governing the notes, and in accordance with the certification requirements set forth in the indenture governing the notes. In all cases, Certificated Notes delivered in exchange for any Global Note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by or on behalf of DTC (in accordance with its customary procedures) and will bear the applicable restrictive legend referred to in Transfer Restrictions, unless we determine otherwise in compliance with applicable law.

Same-Day Settlement and Payment

Payments in respect of the notes represented by the Global Notes (including principal, premium, if any, and interest) will be made by wire transfer of immediately available funds to the accounts specified by the Global Note holder. With respect to notes in certificated form, we will make all payments of principal, premium, if any, and interest by wire transfer of immediately available funds to the accounts specified by the holders thereof or, if no such account is specified, by mailing a check to each such holder's registered address. The notes represented by the Global Notes are expected to trade in DTC's Same-Day Funds Settlement System, and any permitted secondary market trading activity in such notes will, therefore, be required by DTC to be settled in immediately available funds. We expect that secondary trading in any Certificated Notes will also be settled in immediately available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant purchasing an interest in a Global Note from a Participant in DTC will be credited, and any such crediting will be reported to the relevant Euroclear or Clearstream participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised us that cash received in Euroclear or Clearstream as a result of sales of interests in a Global Note by or through a Euroclear or Clearstream participant to a Participant in DTC will be received with value on the settlement date of DTC, but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

CERTAIN BENEFIT PLAN AND IRA CONSIDERATIONS

The following is a summary of certain considerations associated with the purchase of the notes, holding and, to the extent relevant, disposition of notes by an employee benefit plan subject to Title I of the Employee Retirement Income Security Act of 1974, as amended (ERISA), a plan described in Section 4975 of the Code, including an individual retirement account (IRA) or a Keogh plan, a plan subject to provisions under applicable federal, state, local, non-U.S. or other laws or regulations that are similar to the provisions of Title I of ERISA or Section 4975 of the Code (Similar Laws) and any entity whose underlying assets include plan assets by reason of any such employee benefit or retirement plan s investment in such entity (each of which we refer to as a Plan).

General Fiduciary Matters. ERISA and the Code impose certain duties on persons who are fiduciaries of a Plan subject to Title I of ERISA or Section 4975 of the Code (an ERISA Plan) and prohibit certain transactions involving the assets of an ERISA Plan with its fiduciaries or other interested parties. In general, under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of such an ERISA Plan or the management or disposition of the assets of such an ERISA Plan, or who renders investment advice for a fee or other compensation to such an ERISA Plan, is generally considered to be a fiduciary of the ERISA Plan. Employee benefit plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA or Section 4975(g)(3) of the Code) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) are not subject to the requirements of ERISA or Section 4975 of the Code (but may be subject to similar prohibitions under Similar Laws).

In considering the purchase, holding and, to the extent relevant, disposition of notes with a portion of the assets of a Plan, a fiduciary should determine whether the investment is in accordance with the documents and instruments governing the Plan and the applicable provisions of ERISA, the Code or any Similar Law relating to a fiduciary s duties to the Plan including, without limitation, the prudence, diversification, delegation of control and prohibited transaction provisions of ERISA, the Code and any other applicable Similar Laws.

Prohibited Transaction Issues. Section 406 of ERISA prohibits ERISA Plans from engaging in specified transactions involving plan assets with persons or entities who are parties in interest, within the meaning of Section 3(14) of ERISA, and Section 4975 of the Code imposes an excise tax on certain disqualified persons, within the meaning of Section 4975 of the Code, who engage in similar transactions, in each case unless an exemption is available. A party in interest or disqualified person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and the Code. In addition, the fiduciary of an ERISA Plan that engages in such a non-exempt prohibited transaction may be subject to penalties and liabilities under ERISA and the Code. In the case of an IRA, the occurrence of a prohibited transaction could cause the IRA to lose its tax-exempt status.

The purchase and/or holding of notes by an ERISA Plan with respect to which Ally, the underwriters or a note guarantor (or certain of our or their affiliates) is considered a party in interest or a disqualified person may constitute or result in a direct or indirect prohibited transaction under Section 406 of ERISA and/or Section 4975 of the Code, unless the investment is acquired and is held in accordance with an applicable statutory, class or individual prohibited transaction exemption. In this regard, the U.S. Department of Labor has issued prohibited transaction class exemptions, or PTCES, that may apply to the acquisition and holding of the notes. These class exemptions include, without limitation, PTCE 84-14 respecting transactions determined by independent qualified professional asset managers, PTCE 90-1 respecting insurance company pooled separate accounts, PTCE 91-38 respecting bank collective investment funds, PTCE 95-60 respecting life insurance company general accounts and PTCE 96-23 respecting transactions determined by in-house asset managers. In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code each provides a limited exemption, commonly referred to as the service provider exemption, from the prohibited transaction provisions of ERISA and Section 4975 of the Code for certain transactions between an ERISA Plan and a person that is a party in interest and/or a disqualified person (other than a fiduciary or an affiliate that, directly or indirectly, has or exercises any discretionary authority or control or renders any investment advice with respect to the assets of any ERISA Plan involved in

Table of Contents

the transaction) solely by reason of providing services to the Plan or by relationship to a service provider, provided that the ERISA Plan pays no more or receives no less than adequate consideration in connection with the transaction. There can be no assurance that all of the conditions of any such exemptions will be satisfied at the time that the notes are acquired by a purchaser, or thereafter, if the facts relied upon for utilizing a prohibited transaction exemption change.

Because of the foregoing, the notes should not be acquired or held by any person investing plan assets of any Plan, unless such acquisition and holding will not constitute a non-exempt prohibited transaction under ERISA or Section 4975 of the Code or similar violation of any applicable Similar Laws.

Representation. Each purchaser and holder of notes will be deemed to have represented and warranted that either (i) it is not a Plan, such as an IRA, and no portion of the assets used to acquire or hold the notes constitutes assets of any Plan or (ii) the purchase and holding of a note will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or any applicable Similar Laws.

The foregoing discussion is general in nature and is not intended to be all-inclusive. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is particularly important that fiduciaries or other persons considering purchasing notes on behalf of, or with the assets of, any Plan, consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Code and any Similar Laws to such investment and whether an exemption would be applicable to the purchase and holding of the notes. The sale of any notes to any Plan is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by such Plans generally or any particular plan, or that such an investment is appropriate for Plans generally or any particular Plan.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a summary of material U.S. federal income tax consequences of the acquisition, ownership and disposition of the notes, but does not purport to be a complete analysis of all the potential tax considerations. This summary is based upon the Internal Revenue Code of 1986, as amended (which we refer to as the Code), the Treasury Regulations promulgated or proposed thereunder (the Regulations) and administrative and judicial interpretations thereof, all as of the date hereof and all of which are subject to change, possibly on a retroactive basis. This summary is limited to the tax consequences of those persons who are U.S. Holders (as defined below) and Non-U.S. Holders (as defined below), who are original beneficial owners of the notes, who purchase notes at their initial issue price set forth on the cover of this prospectus supplement for cash and who hold such notes as capital assets within the meaning of Section 1221 of the Code. This summary does not purport to deal with all aspects of U.S. federal income taxation that might be relevant to particular holders in light of their particular investment circumstances or status, nor does it address specific tax consequences that may be relevant to particular persons (including, for example, financial institutions, broker-dealers, insurance companies, pass-through entities treated as partnerships for U.S. federal income tax purposes or investors in such entities, expatriates, tax-exempt organizations and U.S. Holders that have a functional currency other than the U.S. dollar or persons in special situations, such as those who have elected to mark securities to market or those who hold notes as part of a straddle, hedge or conversion transaction or other integrated investment). In addition, this summary does not address U.S. federal alternative minimum tax consequences or consequences under other federal tax laws such as estate or gift tax laws or the tax laws of any state, local or foreign jurisdiction. We have not sought any ruling from the Internal Revenue Service (the IRS) with respect to the statements made and the conclusions reached in this summary, and we cannot assure you that the IRS will agree with such statements and conclusions.

This summary is for general information only and is not tax advice. Prospective purchasers of the notes are urged to consult their independent tax advisors concerning the U.S. federal income taxation and other tax consequences (e.g., U.S. federal estate or gift tax) to them of acquiring, owning and disposing of the notes, as well as the application of state, local and foreign income and other tax laws.

For purposes of the following summary, a U.S. Holder is a beneficial owner of notes that is, for U.S. federal income tax purposes, (i) a citizen or individual resident of the United States; (ii) a corporation or other entity taxable as a corporation created or organized in or under the laws of the United States, any state thereof or the District of Columbia; (iii) an estate, the income of which is subject to U.S. federal income tax regardless of the source; or (iv) a trust, if a court within the United States is able to exercise primary supervision over the trust's administration and one or more U.S. persons have the authority to control all its substantial decisions or if a valid election to be treated as a U.S. person is in effect with respect to such trust. A Non-U.S. Holder is a beneficial owner of notes that is neither a U.S. Holder nor a partnership for U.S. federal income tax purposes.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds the notes, the tax treatment of a partner generally will depend on the status of the partner and the activities of the partnership. If you own an interest in such an entity, you should consult your own tax advisor.

U.S. Federal Income Taxation of U.S. Holders

Payments of Stated Interest

Payments of stated interest on the notes will generally be taxable as ordinary interest income at the time they accrue or are received by a U.S. Holder in accordance with the U.S. Holder's regular method of accounting for U.S. federal income tax purposes.

Table of Contents

Sale, Exchange, Retirement or Other Disposition of the Notes

When a U.S. Holder sells or exchanges a note, or if a note that a U.S. Holder holds is retired or otherwise disposed of, such U.S. Holder generally will recognize gain or loss equal to the difference between the amount realized on the transaction (excluding amounts attributable to accrued but unpaid interest, which will be taxable to such U.S. Holder as ordinary interest income to the extent not already included in income) and such U.S. Holder's tax basis in the note. A U.S. Holder's tax basis in a note generally will equal the cost of the note to such U.S. Holder.

The gain or loss that a U.S. Holder recognizes on the sale, exchange, retirement or other disposition of a note generally will be capital gain or loss. The capital gain or loss on the sale, exchange, retirement or other disposition of a note will be long-term capital gain or loss if such U.S. Holder has held the note for more than one year on the date of disposition. Net long-term capital gain recognized by certain non-corporate U.S. Holders generally is subject to tax at a lower rate than net short-term capital gain or ordinary income. The deductibility of capital losses is subject to limitations.

Information Reporting and Backup Withholding

Information returns will be filed with the IRS in connection with payments of stated interest on the notes and the proceeds from a sale or other disposition (including a retirement) of the notes. A U.S. Holder will be subject to United States backup withholding on these payments if the U.S. Holder fails to provide its taxpayer identification number and comply with certain certification procedures or otherwise establish an exemption from backup withholding. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against the U.S. Holder's U.S. federal income tax liability and may entitle the U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

U.S. Federal Income Taxation of Non-U.S. Holders

Payments of Interest

Subject to the discussion of backup withholding below, payments of interest on the notes by the Company or its paying agent to a Non-U.S. Holder will not be subject to U.S. federal withholding tax under the portfolio interest exemption, provided that:

- (1) such payments are not effectively connected with the conduct of a U.S. trade or business;
- (2) the Non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote;
- (3) the Non-U.S. Holder is not a controlled foreign corporation that, for U.S. federal income tax purposes, is related (within the meaning of Section 864(d)(4) of the Code) to us;
- (4) the Non-U.S. Holder is not a bank described in Section 881(c)(3)(A) of the Code; and
- (5) either (a) the beneficial owner of the notes certifies on an applicable IRS Form W-8 (or a suitable substitute form or successor form), under penalties of perjury, that it is not a U.S. person (as defined in the Code) and provides its name and address, or (b) a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business (a financial institution) and holds the notes on behalf of the beneficial owner certifies, under penalties of perjury, that such a certification has been received from the beneficial owner by it or by a financial institution between it and the beneficial owner and furnishes a copy thereof.

Table of Contents

If a Non-U.S. Holder cannot satisfy the requirements of the portfolio interest exemption, payments of interest made to such Non-U.S. Holder will be subject to a 30% U.S. federal withholding tax unless the beneficial owner of the note provides a properly executed:

- (1) IRS Form W-8BEN (or successor form) claiming, under penalties of perjury, an exemption from, or reduction in, withholding tax under an applicable income tax treaty, or
- (2) IRS Form W-8ECI (or successor form) stating that interest paid on the note is not subject to withholding tax because it is effectively connected with a U.S. trade or business of the beneficial owner (in which case such interest generally will be subject to regular graduated U.S. tax rates as described below).

Please consult your tax advisor about the specific methods for satisfying these requirements. A claim for exemption or a reduced withholding rate will not be valid if the person receiving the applicable form has actual knowledge or reason to know that the statements on the form are false.

If interest on the note is effectively connected with a U.S. trade or business of the beneficial owner (and if required by an applicable income tax treaty, attributable to a U.S. permanent establishment or, in the case of an individual, fixed base), the Non-U.S. Holder will be subject to U.S. federal income tax on such interest on a net income basis generally in the same manner as if it were a U.S. Holder. In addition, if such Non-U.S. Holder is a foreign corporation, it may be subject to a branch profits tax equal to 30% (or a lower applicable treaty rate) of its effectively connected earnings and profits attributable to such interest.

Sale, Exchange, Retirement or Other Disposition of the Notes

Subject to the discussion of backup withholding below, no withholding of U.S. federal income tax will generally be required with respect to any gain or income (except with respect to accrued and unpaid interest as described above under U.S. Federal Income Taxation of Non-U.S. Holders Payment of Interest) realized by a Non-U.S. Holder upon the sale, exchange or other disposition of a note.

A Non-U.S. Holder will not be subject to U.S. federal income tax on any gain realized on the sale, exchange, retirement or other disposition of a note unless (i) the Non-U.S. Holder is an individual who is present in the United States for a period or periods aggregating 183 or more days in the taxable year of the disposition and certain other conditions are met, in which case the Non-U.S. Holder will be subject to U.S. federal income tax on such gain (net of certain U.S.-source capital losses) at a rate of 30% (or a lower applicable treaty rate) or (ii) such gain is effectively connected with a U.S. trade or business (and, if required by an applicable treaty, is attributable to a U.S. permanent establishment or, in the case of an individual, fixed base), in which case the Non-U.S. Holder will be subject to U.S. federal income tax on such gain in the same manner as described above with respect to effectively connected interest.

Information Reporting and Backup Withholding

Information returns will be filed with the IRS in connection with interest payments on the notes. Unless the Non-U.S. Holder complies with certification procedures to establish that it is not a U.S. person, information returns may be filed with the IRS in connection with the proceeds from a sale or other disposition (including a retirement), and the Non-U.S. Holder may be subject to United States backup withholding on payments of interest on the notes or on the proceeds from a sale or other disposition of the notes. The certification procedures required to claim the exemption from withholding tax on interest described above will satisfy the certification requirements necessary to avoid backup withholding as well. The amount of any backup withholding from a payment to a Non-U.S. Holder will be allowed as a credit against the Non-U.S. Holder's U.S. federal income tax liability and may entitle the Non-U.S. Holder to a refund, provided that the required information is timely furnished to the IRS.

This prospectus supplement has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus supplement and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the notes may not be circulated or distributed, nor may the notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the SFA), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the notes are subscribed or purchased under Section 275 by a relevant person which is: (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for 6 months after that corporation or that trust has acquired the notes under Section 275 except: (1) to an institutional investor under Section 274 of the SFA or to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA; (2) where no consideration is given for the transfer; or (3) by operation of law.

The notes are a new issue of securities, and there is currently no established trading market for the notes. We do not intend to apply for listing of the notes on any national securities exchange or for inclusion of the notes on any automated dealer quotation system. The underwriters have advised us that they intend to make a market in the notes, but they are not obligated to do so. The underwriters may discontinue any market making in the notes at any time in their sole discretion. Accordingly, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that prices that you receive when you sell will be favorable.

You should be aware that the laws and practices of certain countries require investors to pay stamp taxes and other charges in connection with purchases of securities.

In connection with the offering of the notes, the underwriters may engage in overallotment, stabilizing transactions and syndicate covering transactions. Overallotment involves sales in excess of the offering size, which creates a short position for the underwriters. Stabilizing transactions involve bids to purchase the notes in the open market for the purpose of pegging, fixing or maintaining the price of the notes. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the notes to be higher than it would otherwise be in the absence of those transactions. If the underwriters engage in stabilizing or syndicate covering transactions, they may discontinue them at any time.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, lending,

Certain of the relationships involve transactions that are material to us or our affiliates and for which the underwriters and/or their respective affiliates have received significant fees. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and such investment and securities activities may involve securities and/or instruments of the issuer. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.
