#### Item 2.05 Costs Associated With Exit or Disposal Activities

On August 4, 2011, Knight Capital Group, Inc. ( "Knight" or the "Company" ) issued a press release announcing a corporate restructuring approved by its management on August 2, 2011 designed to lower operating expenses and improve financial performance. As part of the restructuring, which was commenced on August 3, 2011 and will be completed by the end of the third quarter, the Company will reduce its workforce by approximately 6% of staff worldwide, cancel more than 40 replacement hires and discontinue certain initiatives such as global program trading. Additionally, the Company has eliminated or reassigned all institutional equities staff in Hong Kong and will close its current office. Employees directly

affected by the immediate workforce reduction have received notification and will be provided with severance payments.

In connection with Knight's restructuring, Knight expects that it will incur during the third quarter of 2011 a total estimated pre-tax charge between \$21 and \$27 million (across both the Equities and FICC segments), broken down as follows:

Employee severance and other employee benefit costs between \$12 and \$16 million;

Hong Kong asset write-down, lease and contract termination costs between \$4 and \$6 million; and

Capitalized software and intangible asset write-down costs of approximately \$5 million.

Of the above amount, it is expected that cash expenditures will be between \$14 and \$19 million. It is not expected that there will be any further material future cash expenditures associated with the restructuring. Although Knight believes that these estimates are appropriate and reasonable based on available information, actual results could differ from these estimates.

Item 7.01 Regulation FD Disclosure

On August 4, 2011, Knight issued a press release announcing the restructuring described in Item 2.05 of this report. Knight also announced that the Company estimates that the restructuring and anticipated operating efficiencies will decrease annual operating expenses by approximately \$40 to \$50 million. A copy of the press release is filed herewith as Exhibit 99.1 and is incorporated herein by reference.
