SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

Form 6-K

REPORT OF FOREIGN PRIVATE ISSUER
PURSUANT TO RULE 13a-16 OR 15d-16 UNDER
THE SECURITIES EXCHANGE ACT OF 1934

For the month of November 2012

LG Display Co., Ltd.

(Translation of Registrant's name into English)

LG Twin Towers, 128 Yeoui-daero, Yeongdeungpo-gu, Seoul 150-721, Republic of Korea

(Address of principal executive offices)

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submission to furnish a report or other document that the registration foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's home country), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether by furnishing the information contained in this Form, the registrant is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

QUARTERLY REPORT

(From January 1, 2012 to September 30, 2012)

THIS IS A TRANSLATION OF THE QUARTERLY REPORT ORIGINALLY PREPARED IN KOREAN AND IS IN SUCH FORM AS REQUIRED BY THE KOREAN FINANCIAL SUPERVISORY COMMISSION.

IN THE TRANSLATION PROCESS, SOME PARTS OF THE REPORT WERE REFORMATTED, REARRANGED OR SUMMARIZED AND CERTAIN NUMBERS WERE ROUNDED FOR THE CONVENIENCE OF READERS. REFERENCES TO Q1 , Q2 AND Q3 OF A FISCAL YEAR ARE REFERENCES TO THE THREE-MONTH PERIODS ENDED MARCH 31, JUNE 30 AND SEPTEMBER 30, RESPECTIVELY, OF SUCH FISCAL YEAR. REFERENCES TO Q1~Q3 OF A FISCAL YEAR ARE REFERENCES TO THE NINE-MONTH PERIOD ENDED SEPTEMBER 30 OF SUCH FISCAL YEAR.

UNLESS EXPRESSLY STATED OTHERWISE, ALL INFORMATION CONTAINED HEREIN IS PRESENTED ON A CONSOLIDATED BASIS IN ACCORDANCE WITH KOREAN INTERNATIONAL FINANCIAL REPORTING STANDARDS, OR K-IFRS, WHICH DIFFER IN CERTAIN RESPECTS FROM GENERALLY ACCEPTED ACCOUNTING PRINCIPLES IN CERTAIN OTHER COUNTRIES, INCLUDING THE UNITED STATES. WE HAVE MADE NO ATTEMPT TO IDENTIFY OR QUANTIFY THE IMPACT OF THESE DIFFERENCES IN THIS DOCUMENT.

C. Capitalization

(1) Change in capital stock (as of September 30, 2012)

(Unit: Won, Share)

Date	Description	Change in number of common shares	Face amount per share
July 23, 2004	Offering ⁽¹⁾	33,600,000	5,000
September 8, 2004	Follow-on offering ⁽²⁾	1,715,700	5,000
July 27, 2005	Follow-on offering ⁽³⁾	32,500,000	5,000

- (1) ADSs offering: 24,960,000 shares (US\$30 per share, US\$15 per ADS) / Initial public offering in Korea: 8,640,000 shares (34,500 per share)
- (2) ADSs offering: 1,715,700 shares (34,500 per share) pursuant to the exercise of greenshoe option by the underwriters
- (3) ADSs offering: 32,500,000 shares (US\$42.64 per share, US\$21.32 per ADS)

Table of Contents

(2) Convertible bonds (as of September 30, 2012)

(Unit: In millions of Won, Share)

Issue date:	April 18, 2007
Maturity:	April 18, 2012 ⁽³⁾
Face amount: ⁽¹⁾	513,480
Conversion shares:	Registered common shares
Conversion period:	Convertible into shares of common stock during the period from April 19, 2008 to April 3, 2012
Conversion price: ⁽²⁾	47,892 per share
Outstanding ⁽³⁾ Face amount:	
Number of convertible shares: ⁽²⁾	
Remarks:	- Registered form - Listed on Singapore Exchange

- (1) Face amount translated from US\$550 million at the noon buying rate of the Federal Reserve Bank of New York in effect on April 10, 2007 (which was the date the convertible bond purchase agreement was entered into), which was 933.6 = US\$1.00.
- (2) Conversion price was adjusted from 49,070 to 48,760 and the number of convertible shares was adjusted from 10,464,234 to 10,530,762 following the approval by the shareholders of a cash dividend of 750 per share at the annual general meeting of shareholders on February 29, 2008. Conversion price was further adjusted from 48,760 to 48,251 and the number of shares issuable upon conversion was adjusted from 10,530,762 to 10,641,851 following the approval by the shareholders of a cash dividend of 500 per share at the annual general meeting of shareholders on March 13, 2009. Conversion price was further adjusted from 48,251 to 48,075 and the number of shares issuable upon conversion was adjusted from 10,641,851 to 10,680,811 following the approval by the shareholders of a cash dividend of 500 per share at the annual general meeting of shareholders on March 12, 2010. In April 2010, certain holders of our US\$550 million convertible bonds due 2012 exercised their put option for an aggregate principal amount of US\$484 million and were repaid at 109.75% of their principal amount. Accordingly, the number of shares issuable upon conversion changed from 10,680,811 to 1,281,697. Conversion price was further adjusted from 48,075 to 47,892 and the number of shares issuable upon conversion was adjusted from 1,281,697 to 1,286,594 following the approval by the shareholders of a cash dividend of 500 per share at the annual general meeting of shareholders on March 11, 2011.
- (3) The remaining US\$66 million of these convertible bonds were repaid in full upon their maturity on April 18, 2012 at 116.77% of their principal amount.

D. Voting rights (as of September 30, 2012)

Table of Contents

E. Dividends

At the annual general meeting of shareholders on March 9, 2012, we did not declare a cash dividend to our shareholders.

Dividends during the recent three fiscal years

Description (unit)	2011	2010	2009
Par value (Won)	5,000	5,000	5,000
Profit (loss) for the period / Net income (million Won)	(991,032) ⁽³⁾	1,002,648 ⁽³⁾	1,067,947 ⁽⁴⁾
Earnings per share (Won) ⁽¹⁾	(2,770)	2,802	2,985
Total cash dividend amount (million Won)		178,908	178,908
Total stock dividend amount (million Won)			
Cash dividend payout ratio (%)		17.8	16.8
Cash dividend yield (%) ⁽²⁾		1.3	1.3
Stock dividend yield (%)			
Cash dividend per share (Won)		500	500
Stock dividend per share (share)			

- (1) Earnings per share is based on par value of W5,000 per share and is calculated by dividing net income by weighted average number of common stock.
- (2) Cash dividend yield is the percentage that is derived by dividing cash dividend by the arithmetic average of the daily closing prices of our common stock during the one-week period ending two trading days prior to the closing of the register of shareholders for the purpose of determining the shareholders entitled to receive annual dividends.
- (3) Profit for the period based on separate K-IFRS.
- (4) Net income based on non-consolidated Korean GAAP.

2. Business

A. Business overview

We were incorporated in February 1985 under the laws of the Republic of Korea. LG Electronics and LG Semicon transferred their respective LCD business to us in 1998, and since then, our business has been focused on the research, development, manufacture and sale of display panels, applying technologies such as TFT-LCD, LTPS-LCD and OLED.

As of September 30, 2012, we operated TFT-LCD and OLED production facilities in Paju and Gumi, Korea and a LCD research center in Paju, Korea. We have also established subsidiaries in the Americas, Europe and Asia.

As of September 30, 2012, our business consisted of the manufacture and sale of LCD and OLED panels and monitor products. Because our non-LCD business represented an extremely small portion of our assets and revenues as of and for the nine months ended September 30, 2012, we have included them as part of our LCD reporting business segment.

Table of Contents2012 (Q1~Q3) Financial highlights by business (based on K-IFRS)

(Unit: In billions of Won)

2012 (Q1~Q3)	LCD business
Sales Revenue	20,687
Gross Profit	1,899
Operating Profit (Loss)	50

B. Industry

(1) Industry characteristics and growth potential

TFT-LCD technology is one of the widely used technologies in the manufacture of flat panel displays, and the demand for flat panel displays is growing. The flat panel display industry is characterized by entry barriers due to rapidly evolving technology, capital-intensive characteristics, and the significant investments required to achieve economies of scale, among other factors. There is intense competition among the players in the industry, and the industry as a whole has experienced continued growth in its production capacity in response to growth in demand for flat panel displays.

The demand for LCD panels for notebook computers and monitors has stagnated due to market maturation. The demand for LCD panels for television sets has been growing as digital broadcasting is becoming more common and as LCD television has come to play an important role in the digital display market. In addition, the demand for LCD panels for tablets, smartphones, industrial products and automobile navigation systems, among others, has shown continued growth.

The average selling prices of LCD panels may continue to decline with time irrespective of general business cycles as a result of, among other factors, technology advancements and cost reductions.

(2) Cyclicalities

The TFT-LCD business is highly cyclical. In spite of the increased demand for products, this industry has experienced periodic volatility caused by imbalances between supply and demand due to capacity expansion within the industry.

Macroeconomic factors and other causes of business cycles can affect the rate of growth in demand for display panels. Accordingly, if supply exceeds demand, average selling prices of display panels may decrease. Conversely, if growth in demand outpaces growth in supply, average selling prices may increase.

(3) Market conditions

Since 2011, due to a general overcapacity in the TFT-LCD industry, TFT-LCD panel makers have slowed their respective rates of production capacity growth, while a number of them are pursuing other strategic alternatives such as mergers or formation of new alliances.

Most TFT-LCD panel makers are located in Asia.

- a. Korea: LG Display, Samsung Display, Hydis Technologies, etc.
- b. Taiwan: AU Optronics, Chimei Innolux, CPT, HannStar, etc.
- c. Japan: Japan Display, Sharp, Panasonic LCD, etc.
- d. China: BOE, CSOT, etc.

Table of Contents

(4) Market shares

Our worldwide market share of large-sized TFT-LCD panels (i.e., TFT-LCD panels that are 9 inches or larger) based on revenue is as follows:

	2012 (Q1-Q3) (1)	2011 ⁽²⁾	2010 ⁽³⁾
Panels for Notebook Computers ⁽⁴⁾	32.4%	34.9%	33.2%
Panels for Monitors	30.9%	28.3%	26.5%
Panels for Televisions	25.1%	24.7%	23.4%
Total	27.8%	27.3%	25.4%

- (1) Source: 2012 Q3 DisplaySearch Quarterly Large-Area TFT LCD Shipment Report.
(2) Source: 2011 Q4 DisplaySearch Quarterly Large-Area TFT LCD Shipment Report (advanced version with LED backlight).
(3) Source: 2010 Q4 DisplaySearch Large-Area TFT LCD Shipment Report (advanced version with LED backlight).
(4) Includes panels for netbooks and tablets.

(5) Competitiveness

Our ability to compete successfully depends on factors both within and outside our control, including product pricing, our relationship with customers, successful and timely investment and product development, cost competitiveness, success in marketing to our end-brand customers, component and raw material supply costs, foreign exchange rates and general economic and industry conditions.

In order to compete effectively, it is critical to be cost competitive and maintain stable and long-term relationships with customers which will enable us to be profitable even in a buyer's market.

A substantial portion of our sales is attributable to a limited number of end-brand customers and their designated system integrators. The loss of these end-brand customers, as a result of customers entering into strategic supplier arrangements with our competitors or otherwise, would result in reduced sales.

Developing new products and technologies that can be differentiated from those of our competitors is critical to the success of our business. It is important that we take active measures to protect our intellectual property internationally by obtaining patents and undertaking monitoring activities in our major markets. It is also necessary to recruit and retain experienced key managerial personnel and skilled line operators.

As a leading technology innovator in the display industry, we continue to focus on delivering differentiated value to our customers by developing new technologies and products, including in the categories of 3D, touch screens and next generation displays. With respect to 3D technology, we have commenced mass production of high definition 3D panels with reduced degrees of crosstalk, or the degree of 3D image overlapping, of less than 1% (which is less than what the human eye can perceive). We have also acquired the technical skills and have established a supply chain management system that enables us to provide one-stop solutions to our customers with respect to touch module products. In addition, we have shown that we are technologically a step ahead of the competition by developing products such as 10.1-inch flexible LCDs, 2.6 mm thin televisions (the thinnest in the world at the time) and 19-inch flexible e-papers. We are a leader in large OLED panel display technology, as demonstrated by our 55-inch OLED display panel unveiled at the Consumer Electronics Show in Las Vegas in January 2012, which was the largest OLED panel at the

time.

Moreover, we entered into long-term sales contracts with major global firms to secure customers and expand partnerships for technology development.

Table of Contents

C. New businesses

In order to meet the rapidly increasing market demand for large TFT-LCD panels, we commenced mass production at P83, an eighth generation fabrication line located in our P8 facility, and P98, a new eighth generation production facility, in March 2011 and June 2012, respectively.

We also plan to strengthen our market position in future display technologies by strengthening our OLED business, accelerating the development of flexible display technologies and maintaining our leadership position in the LED backlight LCD market.

We are making an effort to increase our competitiveness, including in the LCD component parts market, by forming cooperative relationships with suppliers and purchasers of our products. As part of this effort, in March 2005, we established a joint venture company, Paju Electric Glass Co., Ltd., with Nippon Electric Glass Co., Ltd. We invested 14.4 billion in return for a 40% interest in Paju Electric Glass Co., Ltd. In November 2010 and April 2011, we invested an additional 14.8 billion and 4.4 billion, respectively, in Paju Electric Glass Co., Ltd. but the additional investments did not change our percentage interest in Paju Electric Glass Co., Ltd. In July 2008, we purchased 6,850,000 shares of common stock of New Optics Ltd. at a purchase price of 9.7 billion, and in February 2010, we purchased an additional 1,000,000 shares of common stock of New Optics at a purchase price of 2.5 billion. In January 2010, we purchased 10.8 million shares of Can Yang Investment Limited representing a 15% interest at a purchase price of US\$10.8 million. In October 2010, we invested an additional US\$4.5 million and acquired 4.8 million additional shares of Can Yang Investment Limited.

In October 2008, we established a joint venture company, Suzhou Raken Technology Ltd., with AmTRAN Technology Co., Ltd., a Taiwan corporation. We invested US\$10.4 million in return for a 51% interest in Suzhou Raken Technology Ltd. Suzhou Raken Technology Ltd. will supply both parties with TFT-LCD modules and TFT-LCD televisions. Through the establishment of this joint venture, we are able to further expand our customer base by securing a stable long-term panel dealer. In 2009 and 2010, we invested an additional US\$58.7 million and US\$14.5 million, respectively, in Suzhou Raken Technology Ltd., but the additional investments did not change our percentage interest in Suzhou Raken Technology Ltd.

As part of our strategy to expand our production capacity overseas, we signed an investment agreement and a joint venture agreement in November 2009 with the City of Guangzhou, China, to build an eighth-generation panel fabrication facility in China and held a groundbreaking ceremony in May 2012.

In December 2009, certain LG affiliates and we entered into a joint venture investment agreement and established a joint venture company, Global OLED Technology LLC, for purposes of managing the patent assets relating to OLED technology that we acquired from Eastman Kodak Company in December 2009. As of December 31, 2009, we had invested 72.3 billion in return for a 49% equity interest in the joint venture company. In June 2010, we sold 19.0 billion worth of our equity interest in the joint venture company. After such sale, our equity interest was reduced to 32.73%.

In December 2009, we acquired a 30.6% limited partnership interest in LB Gemini New Growth Fund No. 16. Under the limited partnership agreement, we agreed to invest a total amount of 30 billion in the fund, and as of December 31, 2010, we had invested 8.3 billion in the fund. By becoming a limited partner of this fund, our aim is to seek direct investment opportunities as well as to receive benefits from the investment. In February 2011, we received a distribution of 1.4 billion from the fund, and in March and April 2011, we invested an additional 1.9 billion and 3.1 billion, respectively, in the fund. In June 2011, we received a further distribution of 0.7 billion as return of principal and 0.9 billion as dividends and we invested an additional 1.2 billion in the fund. In December 2011, we invested an additional 2.0 billion in the fund. In April, July and September 2012, we received distributions of 1.0 billion, 0.8 billion and 1.8 billion from the fund, respectively. In September 2012, we invested an additional 1.5 billion in the fund. The additional investments did not change our investment commitment amount of 30 billion or our limited partnership interest in the fund, which remained at 30.6%.

Table of Contents

In order to establish a production base for LCD modules, LCD television sets and LCD monitors, we entered into a joint investment agreement with Top Victory Investment Ltd. in January 2010 and established L&T Display Technology (Xiamen) Ltd. and L&T Display Technology (Fujian) Ltd. in Xiamen and Fujian, China, respectively. We invested (i) 7.1 billion and acquired a 51% equity interest in L&T Display Technology (Xiamen) Ltd. and (ii) 10.1 billion and acquired a 51% equity interest in L&T Display Technology (Fujian) Ltd.

In May 2010, we completed the acquisition of the LCD module division of LG Innotek Co., Ltd. Through this acquisition, we expect to improve our module manufacturing process and simplify our supply chain which will increase our efficiency and competitiveness.

In August 2010, in order to strengthen our competitiveness in the LED backlight LCD market, we entered into a joint venture with Everlight Electronics Co., Ltd. and AmTRAN Technology Co., Ltd. and established Eralite Optoelectronics (Jiangsu) Co., Ltd., a company that specializes in LED packaging and manufacturing, in Suzhou, China. We invested US\$4 million and acquired a 20% equity interest in Eralite Optoelectronics (Jiangsu) Co., Ltd.

In September 2010, in order to strengthen our OLED business, we acquired a 20% equity interest in YAS Co., Ltd., which develops and manufactures OLED deposition equipment components, at a purchase price of 10 billion.

In November 2010, in order to strengthen our e-book business, we acquired a 100% equity interest in Image & Materials, Inc., a company that develops and manufactures e-book deposition equipment components, at a purchase price of 35 billion. In each of June 2011, September 2011 and February 2012, we invested an additional 3.0 billion in Image & Materials, Inc.

In October 2010, in order to strengthen our competitiveness in the e-book market, we entered into a joint venture with Iriver Ltd. and established L&I Electronics Technology (Dongguan) Limited, a company that specializes in e-book manufacturing, in Dongguan, China. We invested US\$2.6 million and acquired a 51% equity interest in L&I Electronics Technology (Dongguan) Limited.

In November 2010, in order to build Backlight-Module-System (BMS) lines that would help differentiate our technical skills from those of our competitors and increase our cost competitiveness, we entered into a joint venture with Compal Electronics, Inc., a Taiwanese company, and established LUCOM Display Technology (Kunshan) Ltd. in Kunshan, China. We invested US\$2.3 million and acquired a 51% equity interest in LUCOM Display Technology (Kunshan) Ltd. In February and April 2011, we invested an additional US\$ 3.1 million and US\$2.3 million, respectively, in LUCOM Display Technology (Kunshan) Ltd., but the additional investments did not change our percentage interest in LUCOM Display Technology (Kunshan) Ltd.

In April 2011, in order to enhance the product quality and assist the local development of coaters, a component used in our TFT-LCD products, we invested 20 billion and acquired a 16.6% interest in Narae Nanotech Corporation, a Korean equipment manufacturer. In June 2011, we invested an additional 10.0 billion and acquired a further 7.7% interest in Narae Nanotech Corporation. As of June 30, 2012, we held a 23% equity interest in Narae Nanotech Corporation.

In December 2011, in order to improve our cost competitiveness with respect to the glass substrate etching stage of our TFT-LCD panel manufacturing process, we invested 10.6 billion and acquired a 20.3% interest in Avatec Co., Ltd., a third party glass substrate etching processor. Avatec Co., Ltd. completed its initial public offering in November 2012. We did not subscribe to any of the new shares issued in the offering and, accordingly, our equity interest in Avatec Co., Ltd. was diluted to 16.6%.

In December 2011, in order to expand our module production capacity, we established LG Display U.S.A. Inc. in Texas, United States, and LG Display Reynosa S.A. de C.V. in Reynosa, Mexico. We invested in the form of paid-in capital 12.4 billion and 9.2 billion in LG Display U.S.A. Inc. and LG Display Reynosa S.A. de C.V., respectively. We currently own a 100% interest in LG

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Display U.S.A. Inc. and a 99% interest in LG Display Reynosa S.A. de C.V. LG Display U.S.A. Inc. owns the remaining 1% interest in LG Display Reynosa S.A. de C.V.

Table of Contents

In April 2012, in order to improve our cost competitiveness with respect to tempered glass used for touch screens, we invested 2.0 billion and acquired a 19.8% interest in Glonix Co., Ltd.

In June 2012, in order to ensure a stable supply of driver integrated circuits and other component parts and to jointly develop new technologies, we invested 52.5 billion and acquired a 13% interest in Silicon Works Co., Ltd.

3. Major Products and Raw Materials

A. Major products

We manufacture TFT-LCD panels, of which a significant majority is exported overseas.

(Unit: In billions of Won, except percentages)

Business area	Sales Type	Items (Market)	Usage	Major trademark	Sales in 2012 Q1~Q3 (%)
TFT-LCD	Product/ Service/		Panels for Notebook Computer, Monitor, Television, etc	LG Display	19,147 (92.6%)
	Other Sales	TFT-LCD (Overseas ⁽¹⁾)	Panels for Notebook Computer, Monitor, Television, etc	LG Display	1,540 (7.4%)
		TFT-LCD (Korea ⁽¹⁾)			
Total					20,687 (100.0%)

(1) Based on ship-to-party.

B. Average selling price trend of major products

The average selling price of LCD panels per square meter of net display area shipped in the third quarter of 2012 increased by approximately 5% from the second quarter of 2012. There is no assurance that the average selling prices of LCD panels will not fluctuate in the future due to changes in supply and demand.

(Unit: US\$ / m²)

Description	2012 Q3	2012 Q2	2012 Q1	2011 Q4
TFT-LCD panel ⁽¹⁾⁽²⁾	733	701	669	684

(1) Quarterly average selling price per square meter of net display area shipped.

(2) Excludes semi-finished products in the cell process.

C. Major raw materials

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Prices of major raw materials depend on fluctuations in supply and demand in the market as well as on change in size and quantity of raw materials due to the increased production of large-sized panels.

Table of Contents

(Units: In billions of Won, except percentages)

Business	Purchase		Usage	Cost ⁽¹⁾	Ratio (%)	Suppliers
Area	type	Items				
TFT-LCD	Raw Materials	Glass	LCD panel	2,612	19.6%	Samsung Corning Precision
			manufacturing			Glass Co., Ltd., Nippon Electric Glass Co., Ltd., etc.
		Backlight		4,149	31.1%	Heesung Electronics Ltd., etc.
		Polarizer		2,047	15.3%	LG Chem, etc.
		Others		4,543	34.0%	
Total				13,351	100.0%	

Period: January 1, 2012 ~ September 30, 2012.

- (1) Based on total cost for purchase of raw materials which includes manufacturing and development costs, etc.

4. Production and Equipment

A. Production capacity and output

(1) Production capacity

The table below sets forth the production capacity of our Gumi and Paju facilities in the periods indicated.

(Unit: 1,000 Glass sheets)

Business area	Items	Location of facilities	2012 (Q1-Q3) ⁽¹⁾	2011 ⁽²⁾	2010 ⁽²⁾
TFT-LCD	TFT-LCD	Gumi, Paju	6,589	8,376	7,509

- (1) Calculated based on the maximum monthly input capacity (based on glass input substrate size for eighth generation glass sheets) during the period multiplied by the number of months in the period (i.e., 9 months).
- (2) Calculated based on the maximum monthly input capacity (based on glass input substrate size for eighth generation glass sheets) during the year multiplied by the number of months in a year (i.e., 12 months).

(2) Production output

The table below sets forth the production output of our Gumi and Paju facilities in the periods indicated.

(Unit: 1,000 Glass sheets)

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Business area	Items	Location of facilities	2012 (Q1~Q3)	2011	2010
TFT-LCD	TFT-LCD	Gumi, Paju	5,777	6,850	6,490

Based on glass input substrate size for eighth generation glass sheets.

Table of Contents

B. Production performance and utilization ratio

(Unit: Hours, except percentages)

Business place (area)	Available working hours of 2012 (Q1~Q3)	Actual working hours of 2012 (Q1~Q3)	Average utilization ratio
Gumi	6,576 ⁽¹⁾	6,439 ⁽¹⁾	
(TFT-LCD)	(274 days) ⁽²⁾	(268 days) ⁽²⁾	97.9%
Paju ⁽³⁾	5,827 ⁽¹⁾	5,827 ⁽¹⁾	
(TFT-LCD)	(243 days) ⁽²⁾	(243 days) ⁽²⁾	100.0%

- (1) Based on the assumption that all 24 hours in a day have been fully utilized.
(2) Number of days is calculated by averaging the number of working days for each facility.
(3) Includes P98, which commenced mass production in June 2012.

C. Investment plan

In connection with our strategy to expand our TFT-LCD production capacity, we estimate that we will incur capital expenditures on a cash out basis of approximately 4 trillion in 2012. Such amount is subject to change depending on business conditions and market environment.

5. Sales

A. Sales performance

(Unit: In billions of Won)

Business area	Sales types	Items (Market)	2012 (Q1~Q3)	2011	2010
TFT-LCD	Products, etc.	TFT-LCD			
		Overseas ⁽¹⁾	19,147	22,328	23,806
		Korea ⁽¹⁾	1,540	1,963	1,706
		Total	20,687	24,291	25,512

- (1) Based on ship-to-party.

B. Sales route and sales method

- (1) Sales organization

Edgar Filing: LG Display Co., Ltd. - Form 6-K

As of September 30, 2012, each of our Television Business Unit and IT/Mobile Business Unit had individual sales and customer support functions.

Sales subsidiaries in the United States, Germany, Japan, Taiwan, China and Singapore perform sales activities and provide local technical support to customers.

(2) Sales route

Sales of our products take place through one of the following two routes:

LG Display HQ and overseas manufacturing subsidiaries g Overseas sales subsidiaries (USA/Germany/Japan/Taiwan/China/Singapore), etc. g System integrators and end-brand customers g End users

LG Display HQ and overseas manufacturing subsidiaries g System integrators and end-brand customers g End users

(3) Sales methods and sales terms

Direct sales and sales through overseas subsidiaries, etc. Sales terms are subject to change depending on the fluctuation in the supply and demand of LCD panels.

Table of Contents

(4) Sales strategy

Our strategy is to secure stable sales to major personal computer makers and leading consumer electronics makers globally, strengthen sales of high-resolution, IPS, slim, narrow bezel and other high-end display panels in the tablet, notebook computer and monitor markets, maintain our position as market leader in the market for large and wide television panels including LED television panels and, in the 3D television market, continually increase the market share of our panels that utilize film patterned retarder technology.

In the smartphone, industrial products (including aviation and medical equipment) and automobile navigation systems segment, our strategy is to continue to build a strong and diversified business portfolio by expanding our business with customers with a global reach on the strength of our high-end products applying IPS technology.

(5) Purchase orders

Customers generally place purchase orders with us one month prior to delivery. Our customary practice for procuring orders from our customers and delivering our products to such customers is as follows:

Receive order from customer (overseas sales subsidiaries, etc.) g Headquarter is notified g Manufacture product g Ship product (overseas sales subsidiaries, etc.) g Sell product (overseas sales subsidiaries, etc.)

6. Market Risks and Risk Management

A. Market risks

Our industry continues to experience continued declines in the average selling prices of display panels irrespective of cyclical fluctuations in the industry, and our margins would be adversely impacted if prices decrease faster than we are able to reduce our costs.

The TFT-LCD industry is highly competitive. We have experienced pressure on the prices and margins of our major products due largely to additional industry capacity from panel makers in Korea, Taiwan, China and Japan. Our main competitors in the industry include Samsung Display, Hydis Technologies, AU Optronics, Chimei Innolux, CPT, HannStar, Japan Display, Sharp, Panasonic LCD, BOE and CSOT.

Our ability to compete successfully depends on factors both within and outside our control, including product pricing, performance and reliability, successful and timely investment and product development, success or failure of our end-brand customers in marketing their brands and products, component and raw material supply costs, and general economic and industry conditions. We cannot provide assurance that we will be able to compete successfully with our competitors on these fronts and, as a result, we may be unable to sustain our current market position.

Our results of operations are subject to exchange rate fluctuations. To the extent that we incur costs in one currency and generate sales in a different currency, our profit margins may be affected by changes in the exchange rates between the two currencies. Our sales of display panels are denominated mainly in U.S. dollars, whereas our purchases of raw materials are denominated mainly in U.S. dollars and Japanese Yen. Our risk management policy regarding foreign currency risk is to minimize the impact of foreign currency fluctuations on our foreign currency denominated assets and liabilities. For additional information, see Note 10 of the notes to our unaudited consolidated interim financial statements as of and for the nine months ended September 30, 2012 attached hereto.

Table of Contents

B. Risk management

The average selling prices of display panels have declined in general and could continue to decline with time irrespective of industry-wide cyclical fluctuations. Certain contributing factors for this decline will be beyond our ability to control and manage. However, in anticipation of such price decline we have continued to develop new technologies and have implemented various cost reduction measures. In addition, in order to manage our risk against foreign currency fluctuations, we may from time to time enter into cross-currency interest rate swap contracts and foreign currency forward contracts. For additional information, see Note 10 of the notes to our unaudited consolidated interim financial statements as of and for the nine months ended September 30, 2012 attached hereto.

7. Derivative Contracts

A. Currency risks

We are exposed to currency risks on sales, purchases and borrowings that are denominated in currencies other than in Won, our functional currency. These currencies are primarily the U.S. dollar, the Euro, the Japanese Yen and the Chinese Renminbi.

We generally use forward exchange contracts with a maturity of less than one year to hedge against currency risks.

Interest on borrowings is denominated in the currency of the borrowing. Generally, borrowings are denominated in currencies that match the cash flows generated by our underlying operations, primarily in Won, the U.S. dollar, the Japanese Yen and the Chinese Renminbi.

In respect of other monetary assets and liabilities denominated in foreign currencies, we ensure that our net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates, when necessary, to address short-term imbalances. In addition, we also adjust the factoring volumes of foreign currency denominated receivables and utilize usances as means of settling accounts payable relating to capital expenditures for our facilities, in response to currency fluctuations.

B. Interest rate risks

Our exposure to interest rate risks relates primarily to our long term debt obligations. As of September 30, 2012, we had no interest swap contracts outstanding.

8. Major contracts

Our material contracts, other than contracts entered into in the ordinary course of business, are set forth below:

Type of agreement	Name of party	Term	Content
Technology licensing agreement	Semiconductor Energy Laboratory	October 2005 ~	Patent licensing of LCD and OLED related technology
	Ferguson Patent Properties	October 2007 ~	Patent licensing of LCD driving technology

Edgar Filing: LG Display Co., Ltd. - Form 6-K

	Hewlett-Packard	January 2011 ~	Patent licensing of semi-conductor device technology
Technology licensing/supply agreement	Chunghwa Picture Tubes	November 2007 ~	Patent cross-licensing of LCD technology
	HannStar Display Corporation	November 2009 ~	Patent cross-licensing of LCD technology
	AU Optronics Corporation	August 2011~	Patent cross-licensing of LCD technology
	Chimei Innolux Corporation	July 2012 ~	Patent cross-licensing of LCD technology, etc.

Table of Contents**9. Research & Development**

A. Summary of R&D-related expenditures

(Unit: In millions of Won, except percentages)

Items	2012 (Q1-Q3)	2011	2010	
Material Cost	358,468	550,200	616,072	
Labor Cost	313,707	365,375	285,212	
Depreciation Expense	183,697	217,874	93,365	
Others	147,013	180,582	122,619	
Total R&D-Related Expenditures	1,002,885	1,314,031	1,117,268	
Accounting Treatment	Selling & Administrative			
	Expenses	220,352	248,328	264,073
	Manufacturing Cost	608,140	942,015	717,848
	Development Cost (Intangible Assets)	174,393	123,688	135,347
R&D-Related Expenditures / Revenue Ratio (Total R&D-Related Expenditures ÷ Revenue for the period × 100)	4.8%	5.4%	4.4%	

B. R&D achievements

Achievements in 2010

- 1) Development of 9.7-inch AH-IPS model for iPads.

Development of the world's first IPS tablet

Achieving the following viewing angles by applying AH-IPS: top (80°) / bottom (80°) / left (80°) / right (80°)

- 2) Development of second Green PC products (13.3-inch, 14.0-inch and 15.6-inch in high-definition (HD))

Thin and light; low electricity consumption thereby increasing battery life

Development of Company-led flat product market

- 3) Development of world's first TruMotion 480Hz product (47-inch and 55-inch in full high-definition (FHD))

Edgar Filing: LG Display Co., Ltd. - Form 6-K

World's first application of 240hz driving technology and scanning technology to achieve TruMotion 480Hz.

50% reduction in source driver integrated circuits (from 16ea to 8ea) by applying 1 gate 1 drain technology

Table of Contents

- 4) World's first FHD 47-inch three-dimensional (3D) display panels using Glass Patterned Retarder (GPR) technology

Achieving FHD for 3D display panels using GPR technology

- 5) Development of our first large-sized display panels viewable in 3D using shutter glasses (42-inch, 47-inch, 55-inch in FHD)

Achieving high aperture ratio by applying S-IPS V technology

Removal of gate driver integrated circuits by applying GIP technology

Reduction in the number of integrated circuits (from 8ea to 6ea) by applying 960Ch source driver integrated circuits

- 6) World's first LCD product which uses the LCD monitor's bottom cover as the back cover of a television set (32-inch, 37-inch and 42-inch in FHD)

Removal of the television set back cover by replacing it with the LCD monitor's bottom cover. Co-designed with a third party

- 7) Development of 42-inch and 47-inch FHD display panels for television to be sold in emerging markets

Focusing on basic functions and removing functions that are costly

Achieving cost reduction by applying GIP technology

- 8) Development of intra interface technology for large-sized, high resolution, high frequency display panels

Improved data transmission rate (from 660Mbps to 1.6Gbps)

Developing slim PCBs by decreasing the number of transmission lines

- 9) Development of our first 21.5-inch and 26-inch FHD Edge LED products

Application of 21.5-inch, 26-inch FHD TV LED BL and mid-sized FHD model Slim TCON (176Pin g 88Pin)

- 10) Development of our first 32 HD Edge LED product

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Application of 32-inch HD TV Edge LED BL

- 11) Development of our first 37-inch FHD M240Hz product

Development of 37-inch FHD 240Hz panel. Development and mass production of MEMC 240Hz with TCON model.

- 12) Development of 240Hz panel for LG Electronics Borderless TV

Development of Narrow Bezel 240Hz panel (Bezel 14mm g 7mm) for LG Electronics Borderless TV

- 13) Development of the world's first slim 23W FHD monitor in IPS mode

Slim design by applying slim-type LED backlight (thickness: 14.5t g 11.5t)

Cost saving by applying low voltage liquid crystal

Removal of gate driver integrated circuits by applying GIP technology

- 14) Development of the world's first slim 185W HD monitor in TN mode

Slim design by applying slim-type LED backlight (thickness: 11.5t g 9.7t)

50% reduction in source driver integrated circuits by applying DRD (Double Rate Driving) technology

Table of Contents

Elimination of optical sheet by applying new TFT structure technology (I-VCOM)

Removal of gate driver integrated circuits by applying GIP technology

- 15) Development of 42-inch, 47-inch and 55-inch FHD monitors applying low cell gap (3.1 g 2.8um) technology

Enhanced 3D performance (3D CrossTalk 10.x% g 5.x%)

World's first application of this technology in 42-inch, 47 inch and 55-inch FHD products

- 16) Development of ultra slim 0.2t glass 12.1-inch notebook computer

Realization of ultra slim product by applying 0.2t glass and flat screen backlight structure

- 17) Development of world's first ultra slim 19SX TN monitor

Slim design by applying slim type LED backlight (thickness: 15.5 g 9.9t)

50% reduction (6ea to 3ea) in the number of source driver integrated circuits by applying DRD technology

Elimination of gate driver integrated circuits by applying GIP technology

- 18) Development of 215FHD e-IPS monitor products applying LED PKG

Reduction in the number of LED and LED array cost through optimization of LED PKG's beam and size

Realization of 2 sheet structure by adopting I-VCOM resulting in increased transmittance and backlight luminance

Elimination of gate driver integrated circuits by applying GIP technology

Minimization of LCM thickness by applying thin LED array structure (14.5t g 10.2t)

- 19) Development and application of LED PKG in 215FHD TN monitor products

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Reduction in the number of LED and LED array cost through optimization of LED PKG's beam and size

Elimination of DBEF sheet by adopting I-VCOM resulting in increased transmittance and backlight luminance

Elimination of gate driver integrated circuits by applying GIP technology

Minimization of LCM thickness by applying thin LED array structure (14.5t g 10.2t)

67) Development of world's first slim TN monitor (185W HD, 20W HD+, 215W/23W FHD)

Developing ultra slim monitor by cooperating with set makers in the design process (SET standard: over 20t g 12.9t)

Minimization of LCM thickness by applying thin LED array structure (11.5t g 8.2t)

Simplification of circuit by developing T-con + Scaler 1chip

20) Development of world's first ultra slim 215W FHD TN monitor

Developing ultra slim monitor by cooperating with set makers in the design process (SET standard: 12.9t g 7.2t)

Minimization of LCM thickness by applying thin LED array structure (8.2t g 6t)

21) Development of the world's first 3D FPR type 42-inch, 47-inch and 55-inch FHD panels

Improved 3D performance (cross talk 1.0% i, 3D luminance 170 nit)

22) Development of our first 42-inch, 47-inch and 55-inch FHD panels with built-in 3D formatters

Development of our first products with built-in MEMC and 3D formatters

Table of Contents

- 23) Development of the world's first real 240Hz applying GIP driving technology

First to develop real 240Hz applying GIP driving technology

Reduced the number of driver integrated circuits by applying 960ch Source Driver: 8ea/g/6ea

- 24) Development of panels for Macbook Air

Development and mass production of 116HD, 133 WXGA+ panels

Application of Z-inversion technology for low energy consumption

- 25) Introduction of the world's first HD shutter glasses type 3D notebook product (17.3 inch FHD)

Development of 172Hz high recharging speed notebook LCD panel

Development of Timing Controller (TC) driving technology

- 26) The first all-in-one touch panel notebook from an LCD panel manufacturer (15.6 inch HD add-on touch notebook)

The world's first large size (15.6-inch) notebook panel to receive Win7 Touch certification (received on July 23, 2010)

The world's first LCD and touch panel integrated add-on touch module developed by an LCD panel manufacturer

- 27) Introduction of the world's first Micro Film 3D notebook (15.6-inch FHD)

The world's first 3D FPR type notebook (developed timely to win market share in the 3D market)

- 28) Development of the world's first 240Hz 23W IPS monitor

The world's first to realize 240Hz by application of 120Hz panel driving and scanning technologies

Achievement of Motion Picture Response Time (MPRT) of 8ms

Edgar Filing: LG Display Co., Ltd. - Form 6-K

- 29) Development of the world's first add-on infrared camera type 215W IPS monitor

Realization of thin LCM (20.5t) by application of the world's first add-on infrared camera

Improved touch capabilities (dead zone free and multi-touch) and the first in the world to receive Win 7 Logo certification

Touch location auto correction by applying auto calibration

- 30) Development of 20-inch HD and 23-inch FHD e-IPS monitor products applying widescreen LED PKG

Reduction in the number of LED and LED array cost through optimization of LED PKG's beam and size

Elimination of gate driver integrated circuits by applying GIP technology

Cost reduction and lower power consumption (20% reduction for driver integrated circuits) by using low voltage driver integrated circuits

Minimization of LCM thickness by applying thin LED array structure (for 20-inch HD panels: 14.5t g 10.2t)

- 31) Development of 20-inch HD and 23-inch FHD TN monitor products applying widescreen LED PKG

Reduction in the number of LED and LED array cost through optimization of LED PKG's beam and size

Elimination of DBEF sheet by adopting I-VCOM resulting in increased transmittance and backlight luminance (for 20-inch HD monitors)

Table of Contents

50% reduction in the number of source driver integrated circuits by applying DRD technology (for 23-inch FHD panels)

Elimination of gate driver integrated circuits by applying GIP technology

Minimization of LCM thickness by applying thin LED array structure (11.5t g 10.2t)

Achievements in 2011

- 1) Introduction of glass-free mobile 3D product (4.3-inch WVGA)

Development and preparation for mass production of our first glass-free 3D product (utilizing barrier cell)

- 2) Introduction of the world's first 12.5-inch AH-IPS notebook product

Development of the world's first 12.5-inch notebook utilizing AH-IPS technology

Achievement of a maximum circuit logic power of 1.0W

Development of a slim and light AH-IPS model (development of a model that utilizes IPS and flat PCB)

- 3) Introduction of an integrated 14.0-inch touch panel notebook product

Development of a 14.0-inch touch panel notebook product as part of our plan to develop and expand our integrated touch panel products portfolio

- 4) Introduction of our 15.6-inch dream color IPS notebook product

Development of a notebook utilizing H-IPS technology

Realization of a 100% color reproduction rate by applying RGB LED technology

Realization of 1.073G color by applying 10-bit color depth technology

- 5) Development and mass production of 9.7-inch LCD panels for iPad 2

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Application of AH-IPS and slim LCD technology

Decreased thickness by 20% and weight by 7% compared to LCD panel for iPad 1

- 6) Development of the world's first 3D FPR 23-inch FHD TN monitor product

Minimization of flicker / crosstalk by applying FPR technology

Minimization of cost increase by applying one layer 3D film

Realization of high luminance 3D images (two times the luminance compared to images from monitors utilizing shutter glass technology)

- 7) Introduction of our first 50-inch Cinema TV product

Application of 21:9 screen display ratio (2560 x 1080 resolution)

Application of 960ch + EPI source driver integrated circuits for optimal high-resolution

Application of scanning technology under the Horizontal 2Edge structure

- 8) Development of the world's first 3D FPR 23-inch IPS FHD monitor product

Minimization of flicker / crosstalk by applying FPR technology

Minimization of cost increase by applying one layer 3D film

Realization of high luminance 3D images (two times the luminance compared to images from monitors utilizing shutter glass technology)

Table of Contents

- 9) Development and introduction of the world's first 15.6-inch HD FPR 3D notebook product

Realization of the world's first 15.6-inch HD FPR 3D product

Realization of high luminance 3D images (two times the luminance compared to images from notebooks utilizing shutter glass technology)

Minimization of cost increase by applying one layer 3D film

- 10) Development and introduction of the world's first 17.3-inch Dream Color AH-IPS notebook product

Development of the world's first 17.3-inch notebook computer applying AH-IPS

Realization of Dream Color (100% color reproduction rate) by applying RGB LED

Realization of 1.073G color by applying Color Depth 10-bit technology

Realization of 89 degrees viewing angle (up/down/left/right) by applying IPS technology

- 11) Development and introduction of a 15.6-inch HD product with the world's lowest (at the time) power consumption from logic circuit (0.5W).

Application of DRD Z-inversion, HVDD and low voltage process

Application of high intensity LED (2.3cd) and Vcut light guide plate

Increase in battery life due to logic circuit power consumption reduction

- 12) Development of the world's smallest (at the time) Narrow Bezel Notebook Model

The first in the world to apply 4.5 mm narrow bezel

Formation of camera hole by B/M mask patterning

- 13) Development of a new 10.1-inch WX smartbook LCD

Development of the our first 10.1-inch WXGA LCD following in the footsteps of our 9.7-inch XGA model

Realization of reduced power consumption, high permeability and increased viewing angle by application of IPS technology.

- 14) Development of a 42-inch FHD product applying COT technology

Simplifying panel production process by applying COT (Color Filter on TFT) technology

Luminance increased by 10%

- 15) Development of 42-inch, 47-inch and 55-inch direct slim LCD TV

Development of the world's first direct-mounted 11.0 mm depth ultra-slim LCM model

Application of 96 block local dimming and M240Hz technology

- 16) Development of a 47-inch super narrow public display panel

Development of our first super narrow bezel (seam 6.9mm) product for application in public display panels

- 17) Introduction of the world's first 15.6-inch FHD AH-IPS notebook product

Development of the world's first 15.6-inch FHD model applying AH-IPS technology

Development of slim & light AH-IPS model (thickness: 3.4mm; weight: 330g)

Achieving the following viewing angles by applying IPS technology; 178° from top to bottom; 178° from left to right

- 18) Development of a 15.6-inch FHD notebook applying a new backlight arrangement

Optimization of light placement by application of New Concept LED Backlight

Table of Contents

Reduction in the number of LED integrated circuits (78ea g 10ea) by application of mid-power LED

Reduced energy consumption pursuant to a reduction in the number of LED integrated circuits (7.4W g 5.9W)

- 19) Development of the world's first 215/25/27 FHD TN and 215 FHD IPS 3D monitor

Minimization of flicker/crosstalk by application of FPR technology

Minimization of cost increase by applying one-layered 3D film

Realization of high luminance 3D images (two times the luminance compared to images from monitors utilizing shutter glass technology)

- 20) Development of a 4.5-inch true HD AH-IPS display smartphone product

For 4G LTE smartphones (introduced by LG Electronics in September 2011)

Application of true HD720 resolution and AH-IPS technology

- 21) Development of the world's first 14.0-inch HD 3D FPR notebook product

Realization of the world's first 14.0-inch 3D FPR display

Realization of high luminance 3D images (two times the luminance compared to images from notebook panels utilizing shutter glass technology)

- 22) Development of the world's first AH-IPS GIP / DRD column inversion technology

Development of AH-IPS GIP / DRD by application of shrink GIP technology

Realization of TN-equivalent panel size through reduced panel load

Achieved TN-equivalent logic energy consumption levels

Achievements in 2012

Edgar Filing: LG Display Co., Ltd. - Form 6-K

- 1) Introduction of the world's first 13.3-inch high definition plus (HD+) AH-IPS notebook product

Development of the world's first 13.3-inch HD+ model applying AH-IPS technology

- 2) Development and introduction of a 14.0-inch HD product with the world's lowest (at the time) rate of logic circuit energy consumption (0.4W)

Application of DRD Z-inversion, HVDD and low voltage process

Application of high intensity LED (2.3cd) and Vcut light guiding plate

Increase in battery life due to reduced logic circuit energy consumption

- 3) Introduction of a 14.0-inch HD+ notebook product with a high color reproduction rate

Development of a 14.0-inch HD+ 72% color reproduction rate model

Development of a slim model applying 0.3 mm glass etching

- 4) Introduction of a 15.6-inch FHD glasses-free 3D notebook product

Development of the first notebook product applying switchable barrier type 3D technology that does not require the use of glasses

- 5) Development of the world's first 23-inch FHD monitor product applying AH-IPS 4Mask technology

Increased display panel luminance by application of AH-IPS technology (20% more luminance compared to display panels applying conventional IPS technology)

Simplified panel production process by application of AH-IPS 4Mask technology

Table of Contents

30% reduction in energy consumption resulting from increased efficiency of LED and circuit components

Increased productivity in the manufacture of circuit and mechanical components resulting from increased standardization

- 6) Development of TN monitor products (20-inch HD+, 21.5-inch FHD and 23-inch FHD) applying new LED

20% reduction in energy consumption resulting from increased efficiency of LED and circuit components (based on 23W power consumption models)

Increased productivity in the manufacture of circuit and mechanical components resulting from increased standardization

- 7) Development of products with new edge backlight unit (32-inch, 37-inch and 42-inch FHD)

Vertical 2Bar LED backlight unit g Vertical 1Bar LED backlight unit

Reduced energy consumption by 25% resulting from a reduction in the number of LED integrated (based on 32-inch display panel)

- 8) Development of 42-inch FHD product with new direct backlight unit

Development of LED Lens through the improvement of LED Beam spread angle (72ea based on 42-inch display panel)

Same thickness as conventional edge LED lighting lamp (35.5 mm)

- 9) Development of products with the world's narrowest bezels of 3.5 mm (47-inch and 55-inch FHD)

Narrow set design possible using 3.5 mm bezel

- 10) Development of the world's first panel products without borders on three sides (32-inch, 42-inch, 47-inch and 55-inch FHD)

Made possible by removing the forward-facing case top, resulting in zero bezel on three sides

- 11) Development of monitor products without borders on three sides (21.5-inch, 23-inch and 27-inch FHD)

Made possible by removing the forward-facing case top, resulting in zero bezel on three sides, and application of double-sided adhesive to secure the position of the panel and backlight

Used double guide panels to reduce light leakage issues in IPS panels

- 12) Development of 12.5-inch HD AH-IPS slim and light notebook display panels

Achieved thickness of 2.85t

Reduced the number of LEDs required by using high intensity LEDs (2.5cd)

- 13) The world's first GF2 Touch Tablet Product Development (10.1WXGA LCM + Touch)

Touch Concept: GF2, Touch IC In-House

Reduced cost by applying TMIC

Reduced power consumption by applying 6 in 1 (Buck version) PMIC

Reduced cost and power consumption by applying AH-IPS + DRD-Z

Reduced cost by applying Taper LGP

- 14) Development of Automotive 9.2WV product that applies wide temperature AH5-IPS technology

For use in Center Information Displays and Rear Seat Entertainment Displays mounted on K9 model Kia cars

Wide temperature materials/components used and AH5-IPS technology applied

Table of Contents

- 15) Application and introduction of the world's first large multi-model on a glass (MMG) type product (60-inch FHD and 32-inch HD)

Increased glass efficiency by successfully applying large MMG technology for the first time in the industry

Developed three sided and six sided chamfers for eighth generation 60-inch FHD panels and 32-inch HD panels, respectively

- 16) Development of the world's first 84-inch ultra definition (UD) display panel product

a-Si based 1G 1D UD panel with steady charging

Developed extra-large edge LED with rigid heat resistant structure

- 17) Development of 2000 nit bright public display panel for outdoor use (47-inch FHD)

Use of optimal-temperature panel prevents any blackening effect when exposed to direct sunlight

Use of quarter-wave plate (applying FPR technology) allows viewers wearing polarized sunglasses to view the public display panel with ease

Applied heat resistant structure without heat sink

Improved bright room contrast ratio by applying Shine Out ARC POL technology

- 18) Development of seam (AtA) 5.6 mm super-narrow bezel (SNB) public display panel (55-inch FHD)

Bezel thickness minimized (2.9 mm for pad, 1.6 mm for non-pad)

Developed SNB structure technology

- 19) Development of 47-inch and 55-inch display panel products applying vertical 1Bar structure

Our first 47-inch and 55-inch display panel products applying vertical 1Bar LED backlight units

Reduced number of LEDs needed, resulting in reduced energy consumption (for example, energy consumption for the 47-inch display panel was reduced from 65.5W to 55.8W)

- 20) Development of the world's first 29-inch 21:9 ratio three-side borderless monitor product

Made possible by removing the forward-facing case top, resulting in zero bezel on three sides

Double-sided adhesive used to secure the position of the panel and backlight

Double guide panels used to resolve light leakage issues in IPS panels

- 21) Development of the world's first 12.9-inch high-resolution slim AH-IPS display panel

Ultra-high resolution WQSXGA+ (239 PPI)

Achieved 400 nit brightness by improving panel luminance and applying high intensity LED PKG and new IBar structure

Developed 2.95 mm slim model through glass etching and application of rigid PCB

- 22) Development of the world's first ultra-slim all-in-one product applying G2 Touch technology (4.67WXGA, LGE Optimus G)

320 PPI high resolution AH-IPS display panel

Ultra-slim LCM by applying G2 Touch and OCR Direct Bonding technologies

Table of Contents**10. Intellectual Property**

As of September 30, 2012, our cumulative patent portfolio (including patents that have already expired) included a total of 18,944 patents, consisting of 8,554 in Korea and 10,390 in other countries.

11. Environmental Matters

We are subject to a variety of environmental regulations and we may be subject to fines or restrictions that could cause our operations to be interrupted. Our manufacturing processes generate worksite waste, including water and air pollutants, at various stages in the manufacturing process, and we are subject to a variety of laws and regulations relating to the use, storage, discharge and disposal of such chemical by-products and waste substances. We have installed various types of anti-pollution equipment, consistent with environmental standards, for the treatment of chemical waste and equipment for the recycling of treated waste water at our various facilities. However, we cannot provide assurance that environmental claims will not be brought against us or that the local or national governments will not take steps toward adopting more stringent environmental standards. Any failure on our part to comply with any present or future environmental regulations could result in the assessment of damages or imposition of fines against us, suspension of production or a cessation of operations. In addition, environmental regulations could require us to acquire costly equipment or to incur other significant compliance expenses that may materially and negatively affect our financial condition and results of operations.

We have also voluntarily agreed to reduce emission of greenhouse gases, such as trifluoride oxide and perfluoro compounds, or PFCs, including sulfur hexafluoride, or SF₆, gases, by installing abatement systems to meet voluntary emissions targets for the TFT-LCD industry for 2010. As part of our voluntary activities to reduce emission of greenhouse gases, we installed trifluoride oxide abatement systems at all of our production lines.

We also installed an SF₆ abatement system in P1 in April 2005, and have taken steps to install additional SF₆ abatement systems through the use of Clean Development Mechanism, or CDM, projects. We manage our CDM projects jointly with LG International Corp. On July 10, 2010, after becoming the first TFT-LCD company to receive the UNFCCC CDM Executive Board's approval of our CDM project, we installed an SF₆ abatement system in P6. We received a total of 343,971 tonnes of CO₂ equivalent of certified emission reduction credits, or CERs, from the UN for the reduction of greenhouse gas emissions during the period from August 1, 2010 to December 31, 2010, all of which was sold in December 2011. We also received a total of 337,745 tonnes of CO₂ equivalent of CERs for the reduction of greenhouse gas emissions during the period from January 1, 2011 to August 31, 2011. We were the first TFT-LCD manufacturer to receive CERs pursuant to an SF₆ decomposition CDM project. We intend to ask a third party accreditation agency to examine the reduction of our greenhouse gas emissions in P1 and P6 since September 1, 2011 as part of our application for receiving CERs from the UN. In August 2011, we commenced the installation of an SF₆ abatement system in P7 through the implementation of CDM projects which became operational in February 2012, which further reduced our greenhouse gas emissions. We intend to ask a third party accreditation agency to examine the reduction of our greenhouse gas emissions in P7 since February 1, 2012 as part of our application for receiving CERs from the UN.

Under the Framework Act on Low Carbon, Green Growth, the Korean government has designated us as one of the companies subject to greenhouse gas emission and energy consumption targets. As a result, we may need to invest in additional equipment and there may be other costs associated with meeting the reduction target for 2012, which may have a negative effect on our profitability or production activities. In addition, if we fail to meet our reduction target and are unable to comply with the government's subsequent enforcement notice relating to such failure, we may be subject to fines.

In connection with the greenhouse gas emission reduction target system, we submitted a statement of our domestic emissions and energy usage for the years 2007 through 2010 to the Korean government (i.e., the Ministry of Environment and the Ministry of Knowledge Economy), which was certified by DNV Certification Co., Ltd., a government-designated certification agency. We are currently preparing a statement of our domestic emissions and energy usage for the year 2011, which we submitted to the Ministry of Environment and the Ministry of Knowledge Economy in March 2012 after certification by Lloyd's Register Quality Assurance, another government-designated certification agency. The table below sets forth yearly levels of our greenhouse gases emissions and energy usage in the statement submitted to the Korean government:

(Unit: thousand tonnes of CO₂ equivalent; Tetra Joules)

Category	2011	2010	2009
Greenhouse gases	5,926	5,576	4,755
Energy	55,234	45,850	37,075

Table of Contents

In addition, in order to improve the efficiency and reliability of measuring our greenhouse gas emission reduction activities, we have begun implementing improvements in our electronic greenhouse gas inventory system and plan to complete such improvements sometime in 2012.

Operations at our manufacturing plants are subject to regulation and periodic monitoring by the Korean Ministry of Environment and local environmental protection authorities. We believe that we have adopted adequate anti-pollution measures and have minimized our impact on the environment by improving existing and developing new technologies for the effective maintenance of environmental protection standards consistent with local industry practice. In addition, we have continually monitored, and we believe that we are in compliance in all material respects with, the applicable environmental laws and regulations in Korea. Expenditures related to such compliance may be substantial. Such expenditures are generally included in capital expenditures. As required by Korean law, we employ licensed environmental specialists for each environmental area, including air quality, water quality, toxic materials and radiation. We currently have ISO 14001 certifications with respect to the environmental record for P1 through P8, our OLED production facility in Gumi, Korea, our Gumi module production plant and our Paju module production plant, as well as our module production plants in Nanjing and Guangzhou, China.

In addition, with respect to P1 through P8 and our module production plants in Gumi and Paju, we have established and are currently operating a new green management system, which was certified by BSI Group Korea in November 2011. Furthermore, we have been certified by the Korean Ministry of Environment as a Green Company, with respect to our environmental record for P1 and our module production plant in Gumi since 1997, with respect to our operations at P2 and P3 since 2006, and with respect to our operations at P4, P5 and P6 since 2008, and received commendations from the Prime Minister and the Minister of Environment of Korea for our efforts to promote recycling. In addition, with respect to our recently constructed P98 and Gumi module 5 production plant, we applied for ISO 14001 and green management system certifications in October 2012, and we also intend to renew the relevant certifications for our other facilities in Gumi and Paju.

We also have an internal monitoring system to control the use of hazardous substances in the manufacture of our products as we are committed to compliance with all applicable environmental laws and regulations, including European Union Restriction of Hazardous Substances (RoHS) Directive 2002/95/EC, which took effect in July 2006, and restricts the use of certain hazardous substances in the manufacture of electrical and electronic equipment.

In addition, as part of our commitment to purchase environment-friendly raw materials, we have implemented a green purchasing system that prevents the introduction of hazardous materials at the purchasing stage. The green purchasing system has been a key component in our efforts to comply with RoHS and other applicable environmental laws and regulation.

In October 2005, we became the first TFT-LCD company to receive accreditation as an International Accredited Testing Laboratory by the Korea Laboratory Accreditation Scheme, which is operated by the Korean Ministry of Knowledge Economy. In September 2006, we received international accreditation from TUV SUD, EU's German accreditation agency, as a RoHS testing laboratory. Our efforts to keep pace with the increasingly stringent accreditation standards and to receive and maintain such accreditations are part of our on-going efforts to systematically monitor environmentally controlled substances in our component parts inventory. Moreover, we participated in reforming IEC 62321 by 2012, a RoHS international testing standard, by including a halogen-free combustion ion chromatography method in our committee draft that we submitted in June 2010.

Time required	8,704	16,154	16,646

(1) Compensation amount is the contracted amount for the full fiscal year.

(2) Compensation amount in () is for Form 20-F filing and SOX 404 audit.

(3) Compensation amount in () is for K-IFRS audit of 2009 financial statements, Form 20-F filing and SOX 404 audit.

B. Non-audit service

Not applicable.

14. Board of Directors

A. Independence of directors

Outside director: Independent

Non-outside director: Not independent

Each of our outside directors meets the applicable independence standards set forth under the applicable laws and regulations. Each of our outside directors was nominated by the Outside Director Nomination and Corporate Governance Committee, was approved by the board of directors and was appointed at the general meeting of shareholders. None of our outside directors has or had any business transaction or any related party transactions with us. As of September 30, 2012, our outside directors are comprised of four persons, three of whom are also members of our audit committee, and our non-outside directors are comprised of three persons: the chief executive officer, the chief financial officer and a non-standing director.

Table of Contents

B. Members of the board of directors

(as of September 30, 2012)

Name	Date of birth	Position	Business experience	First elected
Sang Beom Han	June 18, 1955	Representative Director, Chief Executive Officer and Executive Vice President	Head of LG Display TV Business Division	March 9, 2012
James (Hoyoung) Jeong	November 2, 1961	Director and Chief Financial Officer	Executive Vice President and Chief Financial Officer of LG Electronics	February 29, 2008
Yu Sig Kang	November 3, 1948	Director	Vice Chairman, Representative Director, LG Corp.	March 11, 2011
Tae Sik Ahn	March 21, 1956	Outside Director	Professor, College of Business Administration and Graduate School of Business, Seoul National University	March 12, 2010
William Y. Kim	June 6, 1956	Outside Director	Partner, Ropes & Gray LLP	February 29, 2008
Jin Jang	November 28, 1954	Outside Director	Chair Professor, Department of Information Display, Kyung Hee University	March 11, 2011
Dong Il Kwon	February 5, 1957	Outside Director	Professor, Department of Materials Science and Engineering, Seoul National University	March 9, 2012

C. Committees of the board of directors

(as of September 30, 2012)

Committee	Composition	Member
Audit Committee	3 outside directors	Tae Sik Ahn, William Y. Kim, Jin Jang
Outside Director Nomination and Corporate Governance Committee	1 non-outside director and 2 outside directors	James (Hoyoung) Jeong, Dong Il Kwon, Jin Jang
Remuneration Committee	1 non-outside director and 2 outside directors	William Y. Kim, James (Hoyoung) Jeong, Tae Sik Ahn
Management Committee	2 non-outside directors	Sang Beom Han, James (Hoyoung) Jeong

15. Information Regarding Shares

A. Total number of shares

(1) Total number of shares authorized to be issued (as of September 30, 2012): 500,000,000 shares.

(2) Total shares issued and outstanding (as of September 30, 2012): 357,815,700 shares.

Table of Contents

B. Shareholder list

(1) Largest shareholder and related parties as of September 30, 2012:

Name	Relationship	Number of Shares of Common Stock	Equity Interest
LG Electronics	Largest Shareholder	135,625,000	37.9%
Sang Beom Han	Related Party	930	0.0%

(2) Shareholders who are known to us to own 5% or more of our shares as of September 30, 2012:

Beneficial Owner	Number of Shares of Common Stock	Equity Interest
LG Electronics	135,625,000	37.9%
National Pension Service	21,633,625	6.1%

16. Directors and Employees

A. Directors

(1) Remuneration for directors in 2012 (Q1~Q3)

(Unit: person, in millions of Won)

Classification	No. of directors ⁽¹⁾	Amount paid ⁽²⁾	Per capita average remuneration paid ⁽⁵⁾	Remarks
Non-outside directors	3	738 ⁽³⁾⁽⁴⁾	246	
Outside directors who are not audit committee members	1	39	39	
Outside directors who are audit committee members	3	126	42	
Total	7	903		

(1) Number of directors as at September 30, 2012.

(2) Amount paid is calculated on the basis of amount of cash actually paid.

(3) Among the non-outside directors, Yu Sig Kang does not receive any remuneration.

(4) Includes remuneration for Young Soo Kwon whose term as CEO ended on March 9, 2012.

(5) Per capita average remuneration paid is calculated by dividing total amount paid by the average number of directors for the nine months ended September 30, 2012.

(2) Stock option

Table of Contents

The following table sets forth certain information regarding our stock options as of September 30, 2012.

(Unit: Won, Stock)

Executive Officers (including Former Officers)	Grant Date	Exercise Period ⁽²⁾		Exercise Price	Number of Granted Options	Number of Exercised Options	Number of Cancelled Options ⁽¹⁾	Number of Exercisable Options ⁽¹⁾
		From	To					
Ron H. Wirahadiraksa	April 7, 2005	April 8, 2008	April 7, 2012	44,050	100,000	0	50,000	50,000
Duke M. Koo	April 7, 2005	April 8, 2008	April 7, 2012	44,050	40,000	0	20,000	20,000
Sang Deog Yeo	April 7, 2005	April 8, 2008	April 7, 2012	44,050	40,000	0	20,000	20,000
Jae Geol Ju	April 7, 2005	April 8, 2008	April 7, 2012	44,050	40,000	0	20,000	20,000
Total					220,000		110,000	110,000

- (1) When the increase rate of our share price is the same or less than the increase rate of the Korea Composite Stock Price Index (KOSPI) over the three-year period following the grant date, only 50% of the initially granted shares are exercisable. Since the increase rate of our share price was lower than the increase rate of KOSPI during the period from April 7, 2005 to April 7, 2008, only 50% of the 220,000 initially granted shares are exercisable.
- (2) On April 7, 2012, all outstanding stock options expired unexercised.

B. Employees

As of September 30, 2012, we had 34,634 employees (excluding our executive officers). The total amount of salary paid to our employees for the nine months ended September 30, 2012 based on income tax statements submitted to the Korean tax authority in accordance with Article 20 of the Income Tax Act was 1,173,078 million. The following table provides details of our employees as of September 30, 2012:

(Unit: person, in millions of Won, year)

	Number of Employees ⁽¹⁾	Total Salary in 2012 (Q1~Q3) ^{(2) (3) (4)}	Per Capita Salary ⁽⁵⁾	Average Years of Service
Male	23,969	895,575	37	5.2
Female	10,665	227,503	26	3.2
Total	34,634	1,173,078	34	4.6

- (1) Includes part-time employees.
- (2) Welfare benefits and retirement expenses have been excluded. Total welfare benefit provided to our employees for the nine months ended September 30, 2012 was 229,891 million and the per capita welfare benefit provided was 6.6 million.
- (3) Based on income tax statements, which are submitted to the Korean tax authority in accordance with Article 20 of the Income Tax Act.
- (4) Includes incentive payments to employees who have transferred from our affiliated companies.
- (5) Per Capita Salary is calculated using the average number of employees (total: 34,919, male: 24,259, female: 10,660) for the nine months ended September 30, 2012.

Independent Auditors' Review Report

Based on a report originally issued in Korean

To the Board of Directors and Shareholders

LG Display Co., Ltd.:

Reviewed Financial Statements

We have reviewed the accompanying condensed consolidated interim financial statements of LG Display Co., Ltd. and subsidiaries (the Group) which comprise the condensed consolidated interim statement of financial position as of September 30, 2012, the condensed consolidated statements of comprehensive income (loss) for each of the three-month and nine-month periods ended September 30, 2012 and 2011, and statements of changes in equity and cash flows for the nine-month periods ended September 30, 2012 and 2011, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Condensed Consolidated Interim Financial Statements

Management is responsible for the preparation and fair presentation of these condensed consolidated interim financial statements in accordance with Korean International Financial Reporting Standards No. 1034, *Interim Financial Reporting*, and for such internal controls as management determines necessary to enable the preparation of condensed consolidated interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express a conclusion on these condensed consolidated interim financial statements based on our reviews.

We conducted our reviews in accordance with the Review Standards for Quarterly and Semiannual Financial Statements established by the Security and Futures Commission of the Republic of Korea. A review of interim financial information consists principally of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of Korea and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the condensed consolidated interim financial statements referred to above are not presented fairly, in all material respects, in accordance with Korean International Financial Reporting Standards No. 1034, *Interim Financial Reporting*.

Emphasis of Matter

As discussed in note 18 to the condensed consolidated interim financial statements, LG Display Co., Ltd., along with its subsidiaries, has been named as defendants in a number of individual lawsuits and class actions in the United States and Canada, respectively, in connection with the alleged antitrust violations concerning the sale of LCD panels. The Group estimated and recognized losses related to these legal proceedings. However, actual losses are subject to change in the future based on new developments in each matter, or changes in circumstances, which could be materially different from those estimated and recognized by the Group.

Table of Contents

Other Matters

The procedures and practices utilized in the Republic of Korea to review such condensed consolidated interim financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying condensed consolidated interim financial statements are for use by those knowledgeable about Korean review standards and their application in practice.

We audited the consolidated statement of financial position as of December 31, 2011 and the related consolidated statements of comprehensive loss, changes in equity and cash flows for the year then ended, which are not accompanying this review report, in accordance with auditing standards generally accepted in the Republic of Korea, and our report thereon, dated February 22, 2012, expressed an unqualified opinion. The accompanying condensed consolidated statement of financial position of the Group as of December 31, 2011, presented for comparative purposes, is not different from that audited by us in all material respects.

/s/ KPMG Samjong Accounting Corp.

Seoul, Korea

October 31, 2012

This report is effective as of October 31, 2012, the review report date. Certain subsequent events or circumstances, which may occur between the review report date and the time of reading this report, could have a material impact on the accompanying condensed consolidated interim financial statements and notes thereto. Accordingly, the readers of the review report should understand that the above review report has not been updated to reflect the impact of such subsequent events or circumstances, if any.

Table of Contents

1. Reporting Entity

(a) Description of the Controlling Company

LG Display Co., Ltd. (the Controlling Company) was incorporated in February 1985 under its original name of LG Soft, Ltd. as a wholly owned subsidiary of LG Electronics Inc. In 1998, LG Electronics Inc. and LG Semicon Co., Ltd. transferred their respective Thin Film Transistor-Liquid Crystal Display (TFT-LCD) related business to the Controlling Company. The main business of the Controlling Company and its subsidiaries is to manufacture and sell TFT-LCD panels. The Controlling Company is a stock company (Jusikhoesa) domiciled in the Republic of Korea with its address at 128 Yeouidae-ro, Yeongdeungpo-gu, Seoul, the Republic of Korea. In July 1999, LG Electronics Inc. and Koninklijke Philips Electronics N.V. (Philips) entered into a joint venture agreement. Pursuant to the agreement, the Controlling Company changed its name to LG.Philips LCD Co., Ltd. However, on February 29, 2008, the Controlling Company changed its name to LG Display Co., Ltd. based upon the approval of shareholders at the general shareholders meeting on the same date as a result of the decrease in Philips's share interest in the Controlling Company and the possibility of its business expansion to Organic Light Emitting Diode (OLED) and Flexible Display products. As of September 30, 2012, LG Electronics Inc. owns 37.9% (135,625,000 shares) of the Controlling Company's common shares.

As of September 30, 2012, the Controlling Company has its TFT-LCD manufacturing plants, OLED manufacturing plant and LCD Research & Development Center in Paju and TFT-LCD manufacturing plants and OLED manufacturing plant in Gumi. The Controlling Company has overseas subsidiaries located in the Americas, Europe and Asia.

The Controlling Company's common stock is listed on the Korea Exchange under the identifying code 034220. As of September 30, 2012, there are 357,815,700 shares of common stock outstanding. The Controlling Company's common stock is also listed on the New York Stock Exchange in the form of American Depositary Shares (ADSs) under the symbol LPL. One ADS represents one-half of one share of common stock. As of September 30, 2012, there are 22,431,838 ADSs outstanding.

1. Reporting Entity, Continued

- (*3) In February 2012, the Controlling Company invested 3,000 million in cash for the capital increase of Image & Materials, Inc. (I&M .) There were no changes in the Controlling Company s ownership percentage in I&M, as a result of this additional investment.
- (*4) In March 2012, the Controlling Company established Nanumnuri Co., Ltd., a wholly owned subsidiary of the Controlling Company was established as a Standard Workplace for the Disabled under Act on Employment Promotion and Vocational Rehabilitation for Disabled Persons, with investment of 800 million in cash.

2. Basis of Presenting Financial Statements

(a) Statement of Compliance

The condensed consolidated interim financial statements have been prepared in accordance with Korean International Financial Reporting Standards (K-IFRSs) No.1034, *Interim Financial Reporting*. They do not include all of the information required for full annual consolidated financial statements and should be read in conjunction with the consolidated financial statements of the Group as of and for the year ended December 31, 2011.

The condensed consolidated interim financial statements were authorized for issuance by the Board of Directors on October 25, 2012.

(b) Basis of Measurement

The condensed consolidated interim financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position:

derivative financial instruments measured at fair value;

financial instruments at fair value through profit or loss measured at fair value;

available-for-sale financial assets measured at fair value; and

liabilities for defined benefit plans recognized at the net total of the present value of defined benefit obligation less the fair value of plan assets

(c) Functional and Presentation Currency

The condensed consolidated interim financial statements are presented in Korean won, which is the Controlling Company s functional currency. All amounts in Korean won are in millions unless otherwise stated.

Table of Contents

2. Basis of Presenting Financial Statements, Continued

(d) Use of Estimates and Judgments

The preparation of the condensed consolidated interim financial statements in conformity with K-IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed consolidated interim financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied in its financial statements as of and for the year ended December 31, 2011.

3. Summary of Significant Accounting Policies

The significant accounting policies followed by the Group in the preparation of its condensed consolidated interim financial statements are the same as those followed by the Group in its preparation of the consolidated financial statements as of and for the year ended December 31, 2011, except for the application of K-IFRS No. 1034, *Interim Financial Reporting* and the amendments to K-IFRS No. 1107, *Financial Instruments: Disclosures*, as explained below:

Changes to the Significant Accounting Policies

K-IFRS No. 1107, *Financial Instruments: Disclosures*

The Group has applied the amendments to K-IFRS No. 1107, *Financial Instruments: Disclosures*, effective January 1, 2012, by prospectively disclosing the nature of transferred assets, their carrying amount, and the description of risks and rewards for each class of transferred financial assets that are not derecognized in their entirety.

4. New Standards and Interpretations Not Yet Adopted

(a) Amendments to K-IFRS No. 1019, *Employee Benefits*:

The revised standard requires an entity to calculate the net interest income on plan assets based on the discount rate that is used to measure the present value of defined benefit obligation. The effective date for the amendments is interim and annual periods beginning on or after January 1, 2013 and the revised standard has not been applied in preparing these financial statements for nine-month period ended September 30, 2012.

(b) Amendments to K-IFRS No. 1001, *Presentation of Financial Statements*:

The revised standard requires an entity to present operating profit or loss as an amount of sales less cost of sales and selling and administrative expense including research and development expenses on the face of the statement of comprehensive income. The effective date for the amendments is interim and annual periods ending on or after December 31, 2012 and the revised standard has not been applied in preparing these financial statements for nine-month period ended September 30, 2012.

Table of Contents4. New Standards and Interpretations Not Yet Adopted, Continued

Management is in the process of evaluating the impact, if any, of applying these standards on its financial position and results of operations.

5. Financial Risk Management

The objectives and policies on financial risk management followed by the Group are consistent with those disclosed in the consolidated financial statements as of and for the year ended December 31, 2011.

6. Inventories

Inventories as of September 30, 2012 and December 31, 2011 are as follows:

7. **Investments in Equity Accounted Investees, Continued**

- (*1) In 2012, the Controlling Company's ownership in AVACO Co., Ltd. was reduced from 20% to 16% because the Controlling Company did not participate in AVACO Co., Ltd.'s capital increase. Despite the decrease in ownership, the Controlling Company is still able to exercise significant influence through its right to assign a director to the board of directors of AVACO Co. Ltd.
- (*2) In 2012, the Controlling Company is a member of limited partnership in the LB Gemini New Growth Fund No.16 (the Fund). In 2012, the Controlling Company received 3,571 million, from the Fund as capital distribution and made additional cash investment of 1,533 million in the Fund during the nine-month period ended September 30, 2012. Despite the payment from the Fund and additional investment, there were no changes in the Controlling Company's ownership percentage in the Fund and the Controlling Company is committed to make investment of up to an aggregate of 30,000 million.
- (*3) In 2012, the Controlling Company's ownership in Can Yang Investments Limited was reduced from 12% to 9% because the Controlling Company did not participate in Can Yang Investments Limited's capital increase. Despite the decrease in ownership, the Controlling Company is still able to exercise significant influence through its right to assign a director to the board of directors of Can Yang Investments Limited.
- (*4) In April 2012, the Controlling Company acquired 4,000,000 common shares (20%) of GLONIX Co., Ltd., which manufactures liquid crystal display, at 2,000 million. As of September 30, 2012, 20% of GLONIX Co., Ltd. is owned by the Controlling Company and the Controlling Company has the right to assign a director in the board of directors of GLONIX Co., Ltd.

The dividends received from equity accounted investees for the nine-month periods ended September 30, 2012 and 2011 amounted to 204 million and 6,130 million, respectively.

8. **Property, Plant and Equipment**

For the nine-month periods ended September 30, 2012 and 2011, the Group purchased property, plant and equipment of 2,293,716 million and 4,552,247 million, respectively. The capitalized borrowing costs and annualized capitalization rate are 22,353 million and 3.23%, and 24,279 million and 5.17% for the nine-month periods ended September 30, 2012 and 2011, respectively. Also for the nine-month periods ended September 30, 2012 and 2011, the Group disposed of property, plant and equipment with carrying amounts of 12,339 million and 682 million, respectively, and recognized 4,343 million and 3,168 million as gain and loss, respectively, on disposal of property, plant and equipment for the nine-month period ended September 30, 2012 (gain and loss for the nine-month period ended on September 30, 2011: 597 million and 472 million, respectively).

9. **Intangible Assets**

The Group capitalizes the expenditures related to development activities, such as expenditures incurred on designing, manufacturing and testing of products that are ultimately selected for production. The balances of capitalized development costs as of September 30, 2012 and December 31, 2011 are 184,189 million and 144,211 million, respectively.

During 2012, the Group recognized full impairment loss of 36,612 million for the difference between the carrying amount and the recoverable amount (determined based on value in use) of goodwill and in-process research and development because the economic benefit from these assets are estimated to be less than previously expected.

Table of Contents10. Financial Instruments

(a) Credit risk

(i) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk as of September 30, 2012 and December 31, 2011 is as follows:

(In millions of won)

	2012	2011
Cash and cash equivalents	1,947,057	1,517,977
Deposits in banks	553,339	815,000
Trade accounts and notes receivable, net	2,891,524	2,740,107
Other accounts receivable, net	214,027	212,870
Available-for-sale financial assets	2,838	2,838
Other non-current assets	11,303	
Guarantee deposits	70,542	73,468
Derivatives	596	
Others	695	695
	5,691,921	5,362,955

The maximum exposure to credit risk for trade accounts and notes receivable as of September 30, 2012 and December 31, 2011 by geographic region is as follows:

(In millions of won)

	2012	2011
Domestic	139,908	56,200
Euro-zone countries	543,472	478,650
Japan	55,483	60,598
United States	833,732	777,292
China	884,046	1,003,650
Taiwan	158,510	279,919
Others	276,373	83,798
	2,891,524	2,740,107

			CNY	TWD	EUR			
Cash and cash equivalents	822	14,286	439	4,543	40	7		
Trade accounts and notes receivable	2,064	645	1,054		42			
Other accounts receivable	80	111	134	222	10			
Available-for-sale financial assets	5			49				
Other assets denominated in foreign currencies	1	182	20	14			1	
Trade accounts and notes payable	(1,921)	(39,932)	(1,629)		(25)			
Other accounts payable	(64)	(26,169)	(401)	(166)	(84)	(10)		
Other non-current accounts payable	(13)				(26)			
Debts	(1,044)	(6,000)	(142)		(27)			
Bonds	(347)	(9,987)						
Financial liabilities at fair value through profit or loss	(76)							
Gross statement of financial position exposure	(493)	(66,864)	(525)	4,662	(70)	(3)	1	
Forward exchange contracts	(160)							
Net exposure	(653)	(66,864)	(525)	4,662	(70)	(3)	1	

Average exchange rates applied for the nine-month periods ended September 30, 2012 and 2011, and the exchange rates at September 30, 2012 and December 31, 2011 are as follows:

(In won)

	Average rate		Spot rate	
	2012	2011	September 30, 2012	December 31, 2011
USD	1,138.99	1,095.31	1,118.60	1,153.30
JPY	14.36	13.60	14.41	14.85
CNY	179.90	168.51	177.49	182.51
TWD	38.33	37.65	38.10	38.13
EUR	1,459.88	1,540.66	1,444.28	1,494.10
PLN	347.14	383.92	350.15	338.65
SGD	904.97	878.06	912.51	886.44

Table of Contents10. Financial Instruments, Continued

(ii) Sensitivity analysis

A weakening of the won, as indicated below, against the following currencies which comprise the Group's financial assets or liabilities denominated in foreign currency as of September 30, 2012 and December 31, 2011 would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group considered to be reasonably possible at the end of each reporting period. The analysis assumes that all other variables, in particular interest rates, remain constant. The changes in equity and profit or loss are as follows:

(In millions of won)

	September 30, 2012		December 31, 2011	
	Equity	Profit or loss	Equity	Profit or loss
USD (5 percent weakening)	(11,752)	(1,550)	(29,623)	(28,032)
JPY (5 percent weakening)	(18,429)	(14,154)	(40,040)	(35,494)
CNY (5 percent weakening)	(3,466)		(4,830)	
TWD (5 percent weakening)	(333)	(82)	8,974	162
EUR (5 percent weakening)	1,794	1,974	(4,900)	(1,957)
PLN (5 percent weakening)	167	(585)	(85)	128
SGD (5 percent weakening)	232		4	

A strengthening of the won against the above currencies as of September 30, 2012 and December 31, 2011 would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

Table of Contents10. Financial Instruments, Continued

(d) Interest rate risk

(i) Profile

The interest rate profile of the Group's interest-bearing financial instruments as of September 30, 2012 and December 31, 2011 are as follows:

(In millions of won)

	2012	2011
Fixed rate instruments		
Financial assets	2,503,234	2,335,815
Financial liabilities	(3,142,550)	(2,685,175)
	(639,316)	(349,360)
Variable rate instruments		
Financial assets	600	600
Financial liabilities	(1,510,516)	(1,925,192)
	(1,509,916)	(1,924,592)

(ii) Cash flow sensitivity analysis for variable rate instruments

As of September 30, 2012 and December 31, 2011, a change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below for each 12-month period following the reporting dates. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

(In millions of won)

	Equity		Profit or loss	
	1%p increase	1%p decrease	1%p increase	1%p decrease
September 30, 2012				
Variable rate instruments	(10,598)	10,598	(10,598)	10,598
December 31, 2011				
Variable rate instruments	(14,588)	14,588	(14,588)	14,588

Table of Contents10. Financial Instruments, Continued

(e) Fair values

(i) Fair values versus carrying amounts

The fair values of financial assets and liabilities, together with the carrying amounts shown in the condensed consolidated interim statements of financial position, are as follows:

(In millions of won)

	September 30, 2012		December 31, 2011	
	Carrying amounts	Fair values	Carrying amounts	Fair values
Assets carried at fair value				
Available-for-sale financial assets	72,185	72,185	11,009	11,009
Derivatives	596	596		
	72,781	72,781	11,009	11,009
Assets carried at amortized cost				
Cash and cash equivalents	1,947,057	1,947,057	1,517,977	1,517,977
Deposits in banks	553,339	553,339	815,000	815,000
Trade accounts and notes receivable	2,891,524	2,891,524	2,740,107	2,740,107
Other accounts receivable	214,027	214,027	212,870	212,870
Other non-current assets	11,303	11,303		
Deposits	70,542	70,542	73,468	73,468
Others	695	695	695	695
	5,688,487	5,688,487	5,360,117	5,360,117
Liabilities carried at fair value				
Financial liabilities at fair value through profit or loss			87,339	87,339
Derivatives			6,969	6,969
			94,308	94,308
Liabilities carried at amortized cost				
Secured bank loans	55,930	55,930	57,665	57,665
Unsecured bank loans	1,961,939	2,014,808	1,673,387	1,620,010
Unsecured bond issues	2,635,197	2,721,381	2,791,976	2,829,206
Trade accounts and notes payable	4,537,404	4,537,404	3,782,627	3,782,627
Other accounts payable	2,990,288	2,990,542	3,905,496	3,905,496
Other non-current liabilities	39	39	53,457	53,379
	12,180,797	12,320,104	12,264,608	12,248,383

The basis for determining fair values above by the Group are consistent with those disclosed in the financial statements as of and for the year ended December 31, 2011.

Table of Contents10. Financial Instruments, Continued

(ii) Interest rates used for determining fair value

The significant interest rates applied for determination of the above fair value as of September 30, 2012 and December 31, 2011 are as follows:

	2012	2011
Derivatives	3.10%	3.90%
Debentures, loans and borrowings	3.20%	4.19%

(iii) Fair value hierarchy

The table below analyzes financial instruments carried at fair value, by valuation method. The different levels have been defined as follows: "

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: inputs for the asset or liability that are not based on observable market data

(In millions of won)

	September 30, 2012			Total
	Level 1	Level 2	Level 3	
Assets				
Available-for-sale financial assets	72,185			72,185
Derivatives		596		596
	72,185	596		72,781

(In millions of won)

	December 31, 2011			Total
	Level 1	Level 2	Level 3	
Assets				
Available-for-sale financial assets	11,009			11,009
Liabilities				
Financial liabilities at fair value through profit or loss	(87,339)			(87,339)
Derivatives		(6,969)		(6,969)
	(87,339)	(6,969)		(94,308)

The derivative financial assets and liabilities are classified as Level 2 since all significant inputs to compute the fair value of the over-the-counter derivatives were observable.

Table of Contents10. Financial Instruments, Continued

(f) Capital Management

Management's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Liabilities to equity ratio, net borrowing to equity ratio and other financial ratios are used by management to achieve an optimal capital structure. Management also monitors the level of dividends to ordinary shareholders. Equity, defined by K-IFRS, is identical to the definition of capital, managed by management.

(In millions of won)

	September 30, 2012	December 31, 2011
Total liabilities	15,339,673	15,031,903
Total equity	9,976,847	10,131,028
Cash and deposits in banks (*1)	2,500,396	2,332,977
Borrowings	4,653,066	4,610,367
Total liabilities to equity ratio	154%	148%
Net borrowing to equity ratio (*2)	22%	22%

(*1) Cash and deposits in banks consist of cash and cash equivalents and deposits in banks.

(*2) Net borrowing is computed as borrowings less cash and deposits in banks.

11. Financial Liabilities

(a) Financial liabilities as of September 30, 2012 and December 31, 2011 are as follows:

(In millions of won)

	2012	2011
Current		
Short-term borrowings	166,078	22,200
Current portion of long-term debt	1,240,457	778,464
Current portion of financial liabilities at fair value through profits or loss		87,339
Derivatives		6,969
	1,406,535	894,972
Non-current		
Won denominated borrowings	857,867	366,629
Foreign currency denominated borrowings	643,452	1,011,734
Debentures	1,745,212	2,344,001
	3,246,531	3,722,364

Above financial liabilities, except for financial liabilities designated as financial liabilities at fair value through profit or loss and derivative liabilities, are measured at amortized cost.

Table of Contents11. Financial Liabilities, Continued

(b) Short-term borrowings as of September 30, 2012 and December 31, 2011 are as follows:

(In millions of won, USD)

Lender	Annual interest rate	2012		2011	
	as of September 30, 2012(*)				
Foreign currency short-term borrowings					
Korea Development Bank	1ML+0.40%		111,728		
Bank of China and others	3ML+1.30%, 1.68% ~ 6.56%		54,350		21,489
Foreign currency equivalent					
		USD	143	USD	19
		CNY	31		
Local currency short-term borrowings					
Shinhan Bank and others					711
			166,078		22,200

(*) ML represents Month LIBOR (London Inter-Bank Offered Rates).

The Group recognized 3,709 million and 1,501 million as interest expense in relation to the short-term borrowings that resulted from the sale of accounts receivable during the nine-month periods ended September 30, 2012 and 2011, respectively.

Table of Contents11. Financial Liabilities, Continued

(c) Local currency denominated long-term debt as of September 30, 2012 and December 31, 2011 is as follows:

<i>(In millions of won)</i>	Annual interest rate		
	as of	2012	2011
Lender	September 30, 2012(*)		
Shinhan Bank and others	3-year Korean Treasury Bond rate less 1.25%, 2.75%	17,775	20,817
National Agricultural Cooperative Federation and others	4.51%~5.21%, CD-1.43%, CD+1.52%	844,979	350,300
Less current portion of long-term debt		(4,887)	(4,488)
		857,867	366,629

(*) CD represents certificate of deposit.

(d) Foreign currency denominated long-term debt as of September 30, 2012 and December 31, 2011 is as follows:

<i>(In millions of won, USD, JPY, CNY and EUR)</i>	Annual interest rate				
	as of	2012		2011	
Lender	September 30, 2012				
The Export-Import Bank of Korea	6ML+0.69%	27,965		40,366	
Kookmin Bank and others	6ML+1.78%, 3ML+1.70%~2.25%	961,072		1,225,110	
China Communication Bank and others	3M EURIBOR+0.60, 90% of the Basic Rate published by the People's Bank of China			72,259	
Foreign currency equivalent		USD 870	USD 1,025	CNY 142	
		CNY 2	EUR 27	JPY 6,000	
		EUR 11			
Less current portion of long-term debt		(345,585)		(326,001)	
		643,452		1,011,734	

Table of Contents11. Financial Liabilities, Continued

- (e) Details of the Controlling Company's debentures issued and outstanding as of September 30, 2012 and December 31, 2011 are as follows:

(In millions of won, JPY and USD)

	Maturity	Annual interest rate as of September 30, 2012	2012	2011
Local currency Debentures(*1)				
Publicly issued debentures	November 2012~			
	October 2016	4.24%~5.89%	2,250,000	2,250,000
Less discount on debentures			(4,959)	(6,721)
Less current portion			(499,829)	(299,658)
			1,745,212	1,943,621
Foreign currency Debentures(*1)				
Floating-rate notes	April 2013	3ML+1.80%	391,510	552,171
Foreign currency equivalent			USD 350	USD 350
				JPY 10,000
Less discount on bonds			(1,354)	(3,474)
Less current portion			(390,156)	(148,317)
				400,380
Financial liabilities at fair value through profit or loss(*2)				
Convertible bonds				87,339
Foreign currency equivalent				USD 76
Less current portion				(87,339)
			1,745,212	2,344,001

(*1) Principal of the local and foreign currency debentures is to be repaid at maturity and interests are paid quarterly in arrears.

(*2) The convertible bonds which were recognized as financial liabilities at fair value through profit or loss as of December 31, 2011 were repaid at 116.77% of the principal amount on April 18, 2012 upon maturity.

Table of Contents12. The Nature of Expenses

The nature of expenses for the three-month and nine-month periods ended September 30, 2012 and 2011 are as follows:

<i>(In millions of won)</i>	For the three-month periods ended September 30,		For the nine-month periods ended September 30,	
	2012	2011	2012	2011
Changes in inventories	(177,848)	453,143	(429,440)	(153,587)
Purchase of raw material and merchandise and others	4,755,769	3,806,522	13,039,768	11,403,527
Depreciation and amortization	1,188,082	947,892	3,242,539	2,657,299
Labor costs	740,275	481,326	120,946	1,651,016
Supplies and others	199,954	218,646	1,884,932	820,289
Utility expense	110,427	155,655	628,579	419,144
Fees and commissions	106,063	106,562	492,824	321,824
Shipping costs	101,323	65,665	330,460	227,872
Outsourcing fee	49,751	32,943	338,202	100,418
After-sale service expenses	26,572	15,968	79,533	56,090
Others	270,932	365,347	985,814	893,031
	7,371,300	6,649,669	20,714,157	18,396,923

Total expenses consist of cost of sales, selling, administrative, research and development expenses and others (except foreign exchange difference).

For the nine-month period ended September 30, 2012, other income and other expenses included foreign currency gain and loss amounting to 745,402 million and 690,865 million, respectively (nine-month period ended September 30, 2011 : 978,068 million and 1,064,186 million, respectively).

Table of Contents13. Selling and Administrative Expenses

Details of selling and administrative expenses for the three-month and nine-month periods ended September 30, 2012 and 2011 are as follows:

<i>(In millions of won)</i>	For the three-month periods ended September 30,		For the nine-month periods ended September 30,	
	2012	2011	2012	2011
Salaries	56,473	39,213	173,873	153,832
Expenses related to defined benefit plan	5,352	4,702	16,135	14,032
Other employee benefit	13,646	14,682	43,111	48,734
Shipping costs	82,216	57,889	281,116	193,118
Fees and commissions	47,629	45,293	146,848	129,193
Depreciation and amortization	27,571	13,661	81,007	40,042
Taxes and dues	8,463	2,371	20,003	23,696
Advertising	21,796	26,608	73,361	89,138
After-sale service expenses	26,572	15,968	79,533	56,090
Others	39,807	30,169	106,650	102,098
	329,525	250,556	1,021,637	849,973

Some of the sales and administrative expenses for the nine-month period ended September 30, 2011 were reclassified as research and development expenses to conform to the classification for the nine-month period ended September 30, 2012.

Table of Contents14. Other Income and Other Expenses

(a) Details of other income for the three-month and nine-month periods ended September 30, 2012 and 2011 are as follows:

(In millions of won)

	For the three-month periods ended September 30,		For the nine-month periods ended September 30,	
	2012	2011	2012	2011
Rental income	1,904	1,565	5,288	4,679
Foreign currency gain	276,374	409,082	745,402	978,068
Gain on disposal of property, plant and equipment	1,612	172	4,343	597
Reversal of impairment loss on assets	3		3	
Reversal of allowance for doubtful accounts for other receivables	213	5	508	306
Reversal of stock compensation cost		42	3	463
Commission earned	1,683	1,565	3,098	3,634
Others	1,959	7,884	8,983	12,450
	283,748	420,315	767,628	1,000,197

(b) Details of other expenses for the three-month and nine-month periods ended September 30, 2012 and 2011 are as follows:

(In millions of won)

	For the three-month periods ended September 30,		For the nine-month periods ended September 30,	
	2012	2011	2012	2011
Other bad debt expense		241		1,216
Foreign currency loss	252,086	531,432	690,865	1,064,186
Loss on disposal of property, plant and equipment	1,262	10	3,168	472
Loss on disposal of intangible assets	94		704	
Impairment loss on intangible assets	37		37,720	
Expenses related to legal proceedings and others	74,001	104,225	310,556	104,344
	327,480	635,908	1,043,013	1,170,218

Table of Contents15. Employee Benefits

The Group's primary defined benefit plan provides a lump-sum payment to an employee based on final salary rates and length of service at the time the employee leaves the Group.

- (a) Recognized liabilities for defined benefit obligations as of September 30, 2012 and December 31, 2011 are as follows:

(In millions of won)

	2012	2011
Present value of partially funded defined benefit obligations	636,042	486,891
Fair value of plan assets	(343,818)	(340,253)
	292,224	146,638

- (b) Expenses recognized in profit or loss for the three-month and nine-month periods ended September 30, 2012 and 2011 are as follows:

(In millions of won)

	For the three-month periods ended September 30,		For the nine-month periods ended September 30,	
	2012	2011	2012	2011
Current service cost	32,456	26,819	97,470	80,448
Interest cost	5,727	4,746	17,182	14,238
Expected return on plan assets	(3,548)	(3,088)	(10,643)	(9,265)
	34,635	28,477	104,009	85,421

- (c) Plan assets as of September 30, 2012 and December 31, 2011 are as follows:

(In millions of won)

	2012	2011
Deposits with financial institutions	343,818	340,253

As of September 30, 2012, plan assets mainly consist of deposits in banks and others, which guarantee the payment of their principal and interest.

- (d) Actuarial gain and loss recognized in other comprehensive income (loss) for the three-month and nine-month periods ended September 30, 2012 and 2011 is as follows:

(In millions of won)

	For the three-month periods ended September 30,		For the nine-month periods ended September 30,	
	2012	2011	2012	2011
Defined benefit plan actuarial gain or loss	(71,076)	425	(70,825)	1,497
Income tax	17,207	(93)	17,101	(329)

Edgar Filing: LG Display Co., Ltd. - Form 6-K

Defined benefit plan actuarial gain or loss, net of income tax	(53,869)	332	(53,724)	1,168
--	----------	-----	----------	-------

Table of Contents16. Finance income and costs

- (a) Finance income and costs recognized in profit and loss for the three-month and nine-month periods ended September 30, 2012 and 2011 are as follows:

(In millions of won)

	For the three-month periods ended September 30,		For the nine-month periods ended September 30,	
	2012	2011	2012	2011
Finance income				
Interest income	6,612	11,903	21,305	42,993
Dividend income	482	131	482	131
Foreign currency gain	97,223	44,697	179,793	124,237
Gain on valuation of financial assets at fair value through profit or loss				4

17. CommitmentsFactoring and securitization of accounts receivable

The Controlling Company has agreements with Korea Development Bank and several other banks for accounts receivable sales negotiating facilities of up to an aggregate of USD 1,633 million (1,827,211 million) and JPY 5,000 million (72,056 million) in connection with the Controlling Company's export sales transactions with the subsidiary. As of September 30, 2012, accounts and notes receivable amounting to USD 100 million (111,728 million) were sold but are not past due. In connection with all of the contracts in this paragraph, the Controlling Company has sold its accounts receivable with recourse.

In June 2009 and January 2011, LG Display Singapore Pte. Ltd., the Controlling Company's subsidiary, entered into agreements with Standard Chartered Bank and Citibank for accounts receivable sales negotiating facilities of up to an aggregate of USD 250 million (279,650 million) and USD 100 million (111,860 million), respectively, and as of September 30, 2012, accounts and notes receivable amounting to USD 194 million (216,735 million) were sold, with none of the underlying accounts and notes receivable being past due under the agreement with Standard Chartered Bank. In June 2009, June 2011 and July 2011, LG Display Taiwan Co., Ltd. entered into agreements with Taishin International Bank, BNP Paribas and Chinatrust Commercial Bank for accounts receivable sales negotiating facilities of up to an aggregate of USD 968 million (1,082,805 million), USD 65 million (72,709 million) and USD 138 million (154,367 million), respectively, and, as of September 30, 2012, accounts and notes receivable amounting to USD 310 million (346,747 million) and USD 69 million (77,090 million) were sold, with none of the underlying accounts and notes receivable being past due under the agreements with Taishin International Bank and Chinatrust Commercial Bank, respectively. In addition, in December 2010, LG Display Taiwan Co., Ltd. entered into agreements with Citibank and Standard Chartered Bank for accounts receivable sales negotiating facilities of up to an aggregate of USD 214 million (239,380 million) and USD 200 million (223,720 million), respectively, and, as of September 30, 2012, accounts and notes receivable amounting to USD 125 million (139,753 million) and USD 114 million (127,078 million) were sold, with none of the underlying accounts and notes receivable being past due. In December 2010, LG Display Shanghai Co., Ltd. entered into an agreement with BNP Paribas for accounts receivable sales negotiating facilities of up to an aggregate of USD 125 million (139,825 million), and, as of September 30, 2012, accounts and notes receivable amounting to USD 115 million (128,110 million) were sold, with none of the underlying accounts and notes receivable being past due. In July 2009, LG Display Shenzhen Co., Ltd. and LG Display Shanghai Co., Ltd. entered into agreements with Bank of China Limited, and, as of September 30, 2012, accounts and notes receivable amounting to USD 221 million (247,705 million) were sold, with none of the underlying accounts and notes receivable being past due.

Table of Contents17. Commitments, Continued

In June 2010, LG Display Germany GmbH entered into an agreement with Citibank for accounts receivable sales negotiating facilities of up to an aggregate of USD 307 million (343,410 million), and, as of September 30, 2012, accounts and notes receivable amounting to USD 130 million (145,344 million) were sold, with none of the underlying accounts and notes receivable being past due. In addition, LG Display Germany GmbH started forfaiting and accounts and notes receivable amounting to USD 10 million (10,803 million) were sold, with none of the underlying accounts and notes receivable being past due. In March 2011, LG Display America, Inc. entered into agreements with Australia and New Zealand Banking Group Limited and Standard Chartered Bank for accounts receivable sales negotiating facilities of up to an aggregate of USD 110 million (123,046 million) and USD 50 million (55,930 million), respectively, and, as of September 30, 2012, the amount of accounts and notes receivable amounting to USD 110 million (122,789 million) and USD 42 million (46,981 million) were sold but not past due, respectively. In addition, in June 2011, LG Display America, Inc. entered into an agreement with Citibank for accounts receivable sales negotiating facilities of up to an aggregate of USD 300 million (335,580 million) and as of September 30, 2012, accounts and notes receivable amounting to USD 300 million (335,350 million) were sold, with none of the underlying accounts and notes receivable being past due. In August 2011, LG Display Japan Co., Ltd. entered into an agreement with Sumitomo Mitsui Bank for accounts receivable sales negotiating facilities of up to an aggregate of USD 90 million (100,674 million) and, as of September 30, 2012, the amount of accounts and notes receivable amounting to USD 3 million (3,206 million) were sold, with none of the underlying accounts and notes receivable being past due. The Controlling Company has a credit facility agreement with Shinhan Bank pursuant to which the Controlling Company could sell its accounts and notes receivable up to an aggregate of 50,000 million in connection with its domestic sales transactions and as of September 30, 2012, there is no outstanding balance of accounts and notes receivable held by the bank. In addition, in April 2011, the Controlling Company entered into an agreement with Standard Chartered Bank for accounts receivable sales negotiating facilities of up to USD 50 million (55,930 million) and as of September 30, 2012, accounts and notes receivable amounting to USD 16 million (17,473 million) were sold to Standard Chartered Bank, with none of the underlying accounts and notes receivable being past due. In connection with all of the contracts in this paragraph, the Group has sold its accounts receivable without recourse.

Letters of credit

As of September 30, 2012, the Controlling Company has agreements with Korea Exchange Bank in relation to the opening of letters of credit up to USD 50 million (55,930 million), USD 15 million (16,779 million) with China Construction Bank, JPY 2,000 million (28,822 million) with Woori Bank, USD 70 million (78,302 million) with Bank of China, USD 60 million (67,116 million) with Sumitomo Mitsui Banking Corporation and USD 30 million (33,558 million) with Shinhan Bank.

Payment guarantees

The Controlling Company obtained payment guarantees amounting to USD 8.5 million (9,508 million) and EUR 215 million (310,520 million) from Royal Bank of Scotland and other various banks for a number of occasions including value added tax payments in Poland. As of September 30, 2012, the Controlling Company is providing a payment guarantee to a syndicate of banks including Kookmin Bank and Societe Generale in connection with a EUR 11 million (15,554 million) term loan credit facility of LG Display Poland Sp. zo.o. In addition, the Controlling Company provides a payment guarantee in connection with the term loan credit facilities of LG Display America Inc. with an aggregate amount of USD 7 million (7,830 million) for principals and related interests.

LG Display Japan Co., Ltd. and other subsidiaries are provided with payment guarantees from the Bank of Tokyo-Mitsubishi UFJ and other various banks amounting to USD 5 million (5,593 million), JPY 1,300 million (18,735 million), CNY 1,200 million (212,988 million) and PLN 0.2 million (70 million) respectively, for their local tax payments.

Table of Contents

17. Commitments, Continued

Credit facility

LG Display Japan Co., Ltd. and other subsidiaries have entered into short-term credit facility agreements of up to USD 40 million (¥44,744 million) and JPY 8,000 million (¥115,290 million), respectively, with Mizuho Corporate Bank and other various banks.

License agreements

As of September 30, 2012, in relation to its TFT-LCD business, the Controlling Company has technical license agreements with Hitachi Display, Ltd. and others and has a trademark license agreement with LG Corp.

Long-term supply agreement

In connection with long-term supply agreements, as of September 30, 2012, the Controlling Company's balance of advances received from customers amount to USD 1,480 million (¥1,655,528 million) in the aggregate. The advances received will be offset against outstanding accounts receivable balances after a given period of time, as well as those arising from the supply of products thereafter. The Controlling Company received a payment guarantee amounting to USD 300 million (¥335,580 million) from the Industrial Bank of Korea relating to advances received from certain customers that have signed long-term supply agreements.

Pledged Assets

Regarding the line of credit up to USD 50 million (¥55,930 million), the Controlling Company provided part of its OLED machinery as pledged assets to the Export-Import Bank of Korea.

18. Contingencies

Patent infringement lawsuit against Chimei Innolux Corp. and others

In 2006, the Group filed a complaint in the United States District Court for the District of Delaware against Chimei Innolux Corp. (formerly, Chi Mei Optoelectronics Corp.) and AU Optronics Corp. claiming infringement of patents related to liquid crystal displays and the manufacturing processes for TFT-LCDs. Both AU Optronics Corp. and Chimei Innolux Corp. filed counter-claims against the Group claiming the Group's infringement of their patents. The Court bifurcated the Group's trial against AU Optronics Corp., from the trial against Chimei Innolux Corp., holding the first trial against AU Optronics Corp. in June 2009. In September 2011, the Group and AU Optronics Corp. filed a stipulation for dismissal of the Delaware case and amicably settled the claims and counterclaims between the two parties. The stay of the Chi Mei Optoelectronics case was lifted in January 2012, and the charge was dropped after two parties amicably settled the claims in May 2012.

Table of Contents18. Contingencies, ContinuedAnvik Corporation's lawsuit for infringement of patent

In 2007, Anvik Corporation filed a patent infringement case against the Group, along with other LCD manufacturing companies in the United States District Court for the Southern District of New York, in connection with the usage of photo-masking equipment manufactured by Nikon Corporation. The court granted Nikon Corporation's motion for summary judgment of invalidity of the patents-in-suit and entered a judgment in favor of Nikon Corporation, the Controlling Company and LG Display America, Inc. and other TFT-LCD manufacturing companies, dismissing the case in April 2012. In April 2012, Anvik Corporation appealed the court's decision to the United States Court of Appeals for the Federal Circuit.

Industrial Technology Research Institute of Taiwan's action for patent infringement

In 2012, the United States International Trade Commission, or USITC, granted a motion by Industrial Technology Research Institute of Taiwan, or ITRI, to add the Controlling Company and LG Display America as additional respondents in a Section 337 investigation pending before the USITC. ITRI is seeking an exclusion order prohibiting the importation of televisions and monitors incorporating the Group's products into the United States for alleged patent infringement. On October 22, 2012, USITC issued a Notice of Initial Determination finding that LG Display Co., Ltd. and LG Display America, Inc. did not infringe the asserted patent of complainants Industrial Technology Research Institute (ITRI). The Final Determination is schedule to be issued on February 28, 2013.

Antitrust investigations and litigations

In December 2006, the Controlling Company received notices of investigation by the Korea Fair Trade Commission, the Japan Fair Trade Commission, the U.S. Department of Justice, and the European Commission with respect to possible anti-competitive activities in the TFT-LCD industry. The Controlling Company subsequently received similar notices from the Canadian Bureau of Competition Policy, the Federal Competition Commission of Mexico, the Secretariat of Economic Law of Brazil and the Taiwan Fair Trade Commission.

In November 2008, the Controlling Company executed an agreement with the U.S. Department of Justice (DOJ) whereby the Controlling Company and its U.S. subsidiary, LG Display America, Inc. (LGDUS), pleaded guilty to a Sherman Antitrust Act violation and agreed to pay a single total fine of USD 400 million. In December 2008, the U.S. District Court for the Northern District of California accepted the terms of the plea agreement and entered a judgment against the Controlling Company and LGDUS and ordered the payment of USD 400 million. The agreement resolved all federal criminal charges against the Controlling Company and LGDUS in the United States in connection with this matter.

In December 2010, the European Commission (the EC) issued a decision finding that the Controlling Company engaged in anti-competitive activities in the LCD industry in violation of European competition laws and imposed a fine of EUR 215 million. In February 2011, the Controlling Company filed with the European Union General Court an application for partial annulment and reduction of the fine imposed by the EC. The European Union General Court has not ruled on the Controlling Company's application. In November 2011, the Controlling Company received an additional Request for Information from the EC relating to the alleged anti-competitive activities in the LCD industry and is responding to the request.

Table of Contents18. Contingencies, Continued

In November 2009, the Taiwan Fair Trade Commission terminated its investigation without any finding of violations or levying of fines. Also, in February 2012, the Competition Bureau of Canada terminated its investigation against the Controlling Company without any finding of violations or levying of fines. To date no decision has been issued by the Japan Fair Trade Commission, and we believe the statutory time period by which the Commission was required to have issued a decision has already lapsed. To date investigations by the Federal Competition Commission of Mexico and the Secretariat of Economic Law of Brazil are ongoing.

In August 2011, the Korea Fair Trade Commission issued an Examination Report finding that the Controlling Company engaged in anti-competitive activities in violation of Korean fair trade laws and a hearing was held in October 2011. In December 2011, the Korea Fair Trade Commission imposed a fine on the Controlling Company and certain of its subsidiaries of approximately 31,378 million, and the Controlling Company filed an appeal of the decision with the Seoul High Court in December 2011. To date the Seoul High Court has not ruled on the Controlling Company's appeal.

Subsequent to the commencement of the DOJ investigation, a number of class action complaints were filed against the Controlling Company and other TFT-LCD panel manufacturers in the U.S. and Canada alleging violation of respective antitrust laws and related laws. The class action lawsuits in the U.S. were transferred to the Northern District of California for pretrial proceedings (MDL Proceedings). In March 2010, the court certified the class action complaints filed by direct purchasers and indirect purchasers. 78 entities (including groups of affiliated entities) submitted requests for exclusion from the direct purchaser class. The time period for submitting requests for exclusion from the indirect purchaser class expired on April 13, 2012. 10 entities (including groups and affiliated entities) submitted requests for exclusion from the indirect purchaser class. In addition, since 2010, the attorneys general of Arkansas, California, Florida, Illinois, Michigan, Mississippi, Missouri, New York, Oklahoma, Oregon, South Carolina, Washington, West Virginia and Wisconsin filed complaints against the Controlling Company, alleging similar antitrust violations as alleged in the MDL Proceedings. In June 2011, the Controlling Company reached a settlement with the direct purchaser class, which the federal district court approved in December 2011. In July 2012, the Controlling Company reached a settlement with the indirect purchaser class and with the state attorneys general of Arkansas, California, Florida, Michigan, Missouri, New York, West Virginia, and Wisconsin, which is subject to court approval.

Apart from the direct and indirect purchaser class actions, 50 complaints have been filed by individual plaintiffs in various state or federal courts in the United States (Direct Action Plaintiffs or DAP) alleging violation of the respective antitrust laws and related laws by various LCD panel manufacturers. To date 2012, the Controlling Company has settled, been dismissed, or otherwise resolved from 6 DAP actions, and is currently defending against 36 Direct Action Plaintiffs including: AT&T Corp. and affiliates, Motorola Mobility, Inc., Electrograph Technologies Corp. and their respective related entities, Tracfone Wireless Inc., Best Buy Co., Inc. and its affiliates, Target Corp., Sears, Roebuck and Co., Kmart Corp., Old Comp Inc., Good Guys, Inc., RadioShack Corp., Newegg Inc., Costco Wholesale Corp., Sony Electronics, Inc. and its affiliates, SB Liquidation Trust, Office Depot, Inc. T-Mobile U.S.A., Inc., Interbond Corp. of America (BrandsMart), Jaco Electronics, Inc., P.C. Richard & Son Long Island Corp., MARTA Cooperative of America, Inc., ABC Appliance (ABC Warehouse), Schultze Agency Services, LLC (Tweeter), Tech Data Corp. and its affiliate, AASI Creditor Liquidating Trust for All American Semiconductor Inc., CompuCom Systems, Inc. ViewSonic Corp., NECO Alliance LLC, Rockwell Automation Inc., Proview Technology, Inc. and its affiliates, Illinois, Washington, Oregon, South Carolina, Mississippi, and Oklahoma.

In Canada, the Ontario Superior Court of Justice certified the class action complaints filed by the direct and indirect purchasers in May 2011. The Controlling Company is pursuing an appeal of the decision as well as defending the on-going class actions in Quebec and British Columbia.

Table of Contents

18. Contingencies, Continued

While the Group continues its vigorous defense of the various pending proceedings described above, there is a possibility that one or more proceedings may result in an unfavorable outcome to the Group. For some cases, management is not able to estimate the amount of potential loss resulting from a possible unfavorable outcome since the cases are in their early stage and sufficient information is not available. For other cases, the Group has established an estimated loss to reflect a possible unfavorable outcome. However, depending on the progress of the cases, the Group's actual liability may be materially different from the established estimated loss.

19. Capital and Reserves

(a) Share capital

The Controlling Company is authorized to issue 500,000,000 shares of capital stock (par value = 5,000), and as of September 30, 2012 and December 31, 2011, the number of issued common shares is 357,815,700. There have been no changes in the capital stock for the nine-month period ended September 30, 2012.

(b) Reserves

Translation reserve

The translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations.

Fair value reserve

The fair value reserve comprises the cumulative net change in the fair value of available-for-sale financial assets until the investments are derecognized or impaired.

Independent Auditors' Review Report

Based on a report originally issued in Korean

To the Board of Directors and Shareholders

LG Display Co., Ltd.:

Reviewed Financial Statements

We have reviewed the accompanying condensed separate interim financial statements of LG Display Co., Ltd. (the Company) which comprise the condensed separate interim statement of financial position as of September 30, 2012, the condensed separate interim statements of comprehensive income (loss) for each of the three-month and nine-month periods ended September 30, 2012 and 2011, and statements of changes in equity and cash flows for the nine-month periods ended September 30, 2012 and 2011, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Condensed Separate Interim Financial Statements

Management is responsible for the preparation and fair presentation of these condensed separate interim financial statements in accordance with Korean International Financial Reporting Standards No. 1034, *Interim Financial Reporting*, and for such internal controls as management determines necessary to enable the preparation of condensed separate interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express a conclusion on these condensed separate interim financial statements based on our reviews.

We conducted our reviews in accordance with the Review Standards for Quarterly and Semiannual Financial Statements established by the Security and Futures Commission of the Republic of Korea. A review of interim financial information consists principally of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of Korea and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that causes us to believe that the condensed separate interim financial statements referred to above are not presented fairly, in all material respects, in accordance with Korean International Financial Reporting Standards No. 1034, *Interim Financial Reporting*.

Emphasis of Matter

As discussed in note 18 to the condensed separate interim financial statements, LG Display Co., Ltd. has been named as defendants in a number of individual lawsuits and class actions in the United States and Canada, respectively, in connection with the alleged antitrust violations concerning the sale of LCD panels. The Company estimated and recognized losses related to these legal proceedings. However, actual losses are subject to change in the future based on new developments in each matter, or changes in circumstances, which could be materially different from those estimated and recognized by the Company.

Table of Contents

Other Matters

The procedures and practices utilized in the Republic of Korea to review such condensed separate interim financial statements may differ from those generally accepted and applied in other countries. Accordingly, this report and the accompanying condensed separate interim financial statements are for use by those knowledgeable about Korean review standards and their application in practice.

We audited the separate statement of financial position as of December 31, 2011, and the related separate statements of comprehensive loss, changes in equity and cash flows for the year then ended, which are not accompanying this review report, in accordance with auditing standards generally accepted in the Republic of Korea, and our report thereon, dated February 22, 2012, expressed an unqualified opinion. The accompanying condensed separate statement of financial position of the Company as of December 31, 2011, presented for comparative purposes, is not different from that audited by us in all material respects.

Table of Contents

1. **Organization and Description of Business**

LG Display Co., Ltd. (the Company) was incorporated in February 1985 under its original name of LG Soft, Ltd. as a wholly owned subsidiary of LG Electronics Inc. In 1998, LG Electronics Inc. and LG Semicon Co., Ltd. transferred their respective Thin Film Transistor-Liquid Crystal Display (TFT-LCD) related business to the Company. The main business of the Company is to manufacture and sell TFT-LCD panels. The Company is a stock company (Jusikhoesa) domiciled in the Republic of Korea with its address at 128 Yeouidae-ro, Yeongdeungpo-gu, Seoul, the Republic of Korea. In July 1999, LG Electronics Inc. and Koninklijke Philips Electronics N.V. (Philips) entered into a joint venture agreement. Pursuant to the agreement, the Company changed its name to LG.Philips LCD Co., Ltd. However, on February 29, 2008, the Company changed its name to LG Display Co., Ltd. based upon the approval of shareholders at the general shareholders meeting on the same date as a result of the decrease in Philips' share interest in the Company and the possibility of its business expansion to Organic Light Emitting Diode (OLED) and Flexible Display products. As of September 30, 2012, LG Electronics Inc. owns 37.9% (135,625,000 shares) of the Company's common shares.

As of September 30, 2012, the Company has its TFT-LCD manufacturing plants, OLED manufacturing plant and LCD Research & Development Center in Paju and TFT-LCD manufacturing plants and OLED manufacturing plant in Gumi. The Company has overseas subsidiaries located in the Americas, Europe and Asia.

The Company's common stock is listed on the Korea Exchange under the identifying code 034220. As of September 30, 2012, there are 357,815,700 shares of common stock outstanding. The Company's common stock is also listed on the New York Stock Exchange in the form of American Depositary Shares (ADSs) under the symbol LPL. One ADS represents one-half of one share of common stock. As of September 30, 2012, there are 22,431,838 ADSs outstanding.

2. **Basis of Presenting Financial Statements**

(a) **Statement of Compliance**

The condensed separate interim financial statements have been prepared in accordance with Korean International Financial Reporting Standards (K-IFRSs) No.1034 *Interim Financial Reporting*. They do not include all of the information required for full annual financial statements and should be read in conjunction with the financial statements of the Company as of and for the year ended December 31, 2011.

These condensed interim financial statements are separate interim financial statements prepared in accordance with K-IFRS No.1027 *Consolidated and Separate Financial Statements* presented by a parent, an investor in an associate or a venturer in a jointly controlled entity, in which the investments are accounted for on the basis of the direct equity interest rather than on the basis of the reported results and net assets of the investees.

The condensed separate interim financial statements were authorized for issuance by the Board of Directors on October 25, 2012.

Table of Contents

2. Basis of Presenting Financial Statements, Continued

(b) Basis of Measurement

The condensed separate interim financial statements have been prepared on the historical cost basis except for the following material items in the statement of financial position:

derivative financial instruments measured at fair value;

financial instruments at fair value through profit or loss measured at fair value;

available-for-sale financial assets measured at fair value; and

liabilities for defined benefit plans recognized at the net total of the present value of defined benefit obligation less the fair value of plan assets

(c) Functional and Presentation Currency

The condensed separate interim financial statements are presented in Korean won, which is the Company's functional currency. All amounts in Korean won are in millions unless otherwise stated.

(d) Use of Estimates and Judgments

The preparation of the condensed separate interim financial statements in conformity with K-IFRSs requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these condensed separate interim financial statements, the significant judgments made by management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those applied in its financial statements as of and for the year ended December 31, 2011.

3. Summary of Significant Accounting Policies

The significant accounting policies followed by the Company in the preparation of its condensed separate interim financial statements are the same as those followed by the Company in its preparation of the financial statements as of and for the year ended December 31, 2011, except for the application of K-IFRS No. 1034, *Interim Financial Reporting*, and the amendments to K-IFRS No. 1107, *Financial Instruments: Disclosures*, as explained below:

Changes to the Significant Accounting Policies

K-IFRS No. 1107, *Financial Instruments: Disclosures*

The Company has applied the amendments to K-IFRS No. 1107, *Financial Instruments: Disclosures*, effective January 1, 2012, by prospectively disclosing the nature of transferred assets, their carrying amount, and the description of risks and rewards for each class of transferred financial assets that are not derecognized in their entirety.

Table of Contents4. New Standards and Interpretations Not Yet Adopted(a) Amendments to K-IFRS No. 1019, Employee Benefits:

The revised standard requires an entity to calculate the net interest income on plan assets based on the discount rate that is used to measure the present value of defined benefit obligation. The effective date for the amendments is interim and annual periods beginning on or after January 1, 2013 and the revised standard has not been applied in preparing these financial statements for nine-month period ended September 30, 2012.

(b) Amendments to K-IFRS No. 1001, Presentation of Financial Statements:

The revised standard requires an entity to present operating profit or loss as an amount of sales less cost of sales and selling and administrative expense including research and development expenses on the face of the statement of comprehensive income. The effective date for the amendments is interim and annual periods ending on or after December 31, 2012 and the revised standard has not been applied in preparing these financial statements for nine-month period ended September 30, 2012.

Management is in the process of evaluating the impact, if any, of applying these standards on its financial position and results of operations.

5. Financial Risk Management

The objectives and policies on financial risk management followed by the Company are consistent with those disclosed in the financial statements as of and for the year ended December 31, 2011.

6. Inventories

Inventories as of September 30, 2012 and December 31, 2011 are as follows:

(In millions of won)

	2012			2011		
	Acquisition cost	Inventory reserve	Book value	Acquisition cost	Inventory reserve	Book value

7. Investments

(a) Investments in subsidiaries

In February 2012, the Company invested 3,000 million in cash for the capital increase of Image & Materials, Inc. (I&M), which is wholly owned by the Company. There were no changes in the Company's ownership percentage in I&M as a result of this additional investment.

In March 2012, the Company established Nanumnuri Co., Ltd., a wholly owned subsidiary of the Company founded as a Standard Workplace for the Disabled under Act on Employment Promotion and Vocational Rehabilitation for Disabled Persons, with investment of 800 million in cash.

In May 2012, the Company invested 52,358 million in cash for the capital increase of LG Display Nanjing Co., Ltd. (LGDNJ). There were no changes in the Company's ownership percentage in LGDNJ as a result of this additional investment.

In June 2012, the Company invested 88,380 million in cash for the capital increase of LG Display America, Inc. (LGDUS). There were no changes in the Company's ownership percentage in LGDUS as a result of this additional investment.

However, the Company recognized an impairment loss of 42,433 million as finance costs for the difference between the carrying amount and the recoverable amount of investments in subsidiaries in 2012.

(b) Investments in associates

In 2012, the Company recognized an impairment loss of 379 million for the difference between the carrying amount of and the recoverable amount of the investment in Dynamic Solar Design Co., Ltd., which was acquired to develop equipment, manufacture and sell solar battery and flat-panel display in 2009.

In April 2012, the Company acquired 4,000,000 common shares (20%) of GLONIX Co., Ltd., which manufactures liquid crystal display, at 2,000 million. As of September 30, 2012, 20% of GLONIX Co., Ltd. is owned by the Company and the Company has the right to assign a director in the board of directors of GLONIX Co., Ltd.

In 2012, the Company's ownership in Can Yang Investments Limited was reduced from 12% to 9% because the Company did not participate in Can Yang Investments Limited's capital increase. The Company has the right to assign a director in the board of directors of Can Yang Investments Limited.

In 2012, the Company's ownership in AVACO Co., Ltd. was reduced from 20% to 16% because the Company did not participate in AVACO Co., Ltd.'s capital increase. The Company has the right to assign a director in the board of directors of AVACO Co. Ltd.

The Company is a member of limited partnership in the LB Gemini New Growth Fund No.16 (the Fund).

In 2012, the Company received 3,571 million from the Fund as capital distribution and made additional cash investment of 1,533 million in the Fund during the nine-month period ended September 30, 2012. Despite the payment from the fund and additional investment, there were no changes in the Company's ownership percentage in the Fund and the Company is committed to make investment of up to an aggregate of 30,000 million.

The dividends received from associates for the nine-month periods ended September 30, 2012 and 2011 amounted to 55,318 million and 42,620 million, respectively.

Table of Contents

8. Property, Plant and Equipment

For the nine-month periods ended September 30, 2012 and 2011, the Company purchased property, plant and equipment of 2,087,365 million and 4,337,173 million, respectively. The capitalized borrowing costs and annualized capitalization rate are 22,353 million and 3.23%, and 23,554 million and 5.17% for the nine-month periods ended September 30, 2012 and 2011, respectively. Also for the nine-month periods ended September 30, 2012 and 2011, the Company disposed of property, plant and equipment with carrying amounts of 15,716 million and 222 million, respectively. The Company recognized 4,395 million and 1,166 million, respectively, as gain and loss on disposal of property, plant and equipment for the nine-month period ended September 30, 2012 (gain for the nine-month period ended on September 30, 2011: 585 million).

9. Intangible Assets

The Company capitalizes the expenditures related to development activities, such as expenditures incurred on designing, manufacturing and testing of products that are ultimately selected for production. The balances of capitalized development costs as of September 30, 2012 and December 31, 2011 are 184,189 million and 113,002 million respectively.

Table of Contents10. Financial Instruments

(a) Credit risk

(i) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk as of September 30, 2012 and December 31, 2011 is as follows:

(In millions of won)

	2012	2011
Cash and cash equivalents	1,144,511	604,890
Deposits in banks	215,000	815,000
Trade accounts and notes receivable, net	4,505,730	3,789,332
Other accounts receivable, net	91,341	102,097
Available-for-sale financial assets	2,838	2,838
Other non-current assets	11,303	
Guarantee deposits	62,948	65,613
Derivatives	596	
Others	613	613
	6,034,880	5,380,383

In addition to the financial assets above, as of September 30, 2012 and December 31, 2011, the Company provides payment guarantees of 23,384 million and 50,606 million, respectively, for its subsidiaries' loans.

The maximum exposure to credit risk for trade accounts and notes receivable as of September 30, 2012 and December 31, 2011 by geographic region is as follows:

(In millions of won)

	2012	2011
Domestic	139,908	56,200
Euro-zone countries	751,002	612,236
Japan	135,305	138,265
United States	1,569,186	828,959
China	1,264,911	1,195,899
Taiwan	310,398	829,171
Others	335,020	128,602
	4,505,730	3,789,332

Table of Contents10. Financial Instruments, Continued

(ii) Impairment loss

The aging of trade accounts and notes receivable and the related allowance for impairment losses as of September 30, 2012 and December 31, 2011 are as follows:

(In millions of won)	2012		2011	
	Book Value	Allowance for Impairment Losses	Book Value	Allowance for Impairment Losses
Not past due	4,467,714	(236)	3,777,383	(49)
Past due 1-15 days	26,157	(5)	953	(1)
Past due 16-30 days	8,158	(4)	4,885	(1)
Past due 31-60 days	3,190	(11)	5,762	(1)
More than 60 days	770	(3)	403	(2)
	4,505,989	(259)	3,789,386	(54)

The movement in the allowance for impairment in respect of receivables during the nine-month period ended September 30, 2012 and the year ended December 31, 2011 are as follows:

<i>(In millions of won)</i>	2012	2011
Balance at the beginning of the period	54	24
Bad debt expense	205	30
Balance at the reporting date	259	54

Table of Contents10. Financial Instruments, Continued

(b) Liquidity risk

- (i) The following are the contractual maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements as of September 30, 2012:

(In millions of won)

	Carrying amount	Contractual cash flows	6 months or less	6-12 months	1-2 years	2-5 years	More than 5 years
Secured bank loan	55,930	58,390	703	703	56,984		
Unsecured bank loans	1,891,434	2,078,610	173,603	334,147	337,565	1,231,104	2,191
Unsecured bond issues	2,635,197	2,905,247	555,308	435,671	380,592	1,533,676	
Trade accounts and notes payable	4,650,876	4,650,876	4,650,876				
Other accounts payable	2,820,383	2,820,383	2,820,383				
Payment guarantee		23,454	23,454				
	12,053,820	12,536,960	8,224,327	770,521	775,141	2,764,780	2,191

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

- (ii) As of September 30, 2012, there is no derivative designated as cash flow hedge.

Table of Contents10. Financial Instruments, Continued

(c) Currency risk

(i) Exposure to currency risk

The Company's exposure to foreign currency risk based on notional amounts as of September 30, 2012 and December 31, 2011 is as follows:

(In millions)

	USD	2012 JPY	EUR
Cash and cash equivalents	562	8,935	15
Trade accounts and notes receivable	3,830	5,969	46
Other accounts receivable	20	1	
Available-for-sale financial assets	5		
Other assets denominated in foreign currencies		51	
Trade accounts and notes payable	(2,834)	(31,076)	(1)
Other accounts payable	(272)	(9,771)	(6)
Debts	(970)		
Bonds	(349)		
Gross statement of financial position exposure	(8)	(25,891)	54
Derivatives	10		
Net exposure	2	(25,891)	54

Table of Contents10. Financial Instruments, Continued*(In millions)*

	USD	JPY	2011 TWD	PLN	EUR
Cash and cash equivalents	284	14,269		5	14
Trade accounts and notes receivable	3,080	6,493			31
Other accounts receivable	2		159		
Available-for-sale financial assets	5				
Other assets denominated in foreign currencies		51			
Trade accounts and notes payable	(2,263)	(33,375)			(5)
Other accounts payable	(55)	(25,815)			(7)
Debts	(1,020)	(6,000)			
Bonds	(347)	(9,987)			
Financial liabilities at fair value through profit or loss	(76)				
Gross statement of financial position exposure	(390)	(54,364)	159	5	33
Forward exchange contracts	(160)				
Net exposure	(550)	(54,364)	159	5	33

Average exchange rates applied for the nine-month periods ended September 30, 2012 and 2011 and the exchange rates at September 30, 2012 and December 31, 2011 are as follows:

(In won)

	Average rate		Spot rate	
	2012	2011	September 30, 2012	December 31, 2011
USD	1,138.99	1,095.31	1,118.60	1,153.30
JPY	14.36	13.60	14.41	14.85
TWD	38.33	37.65	38.10	38.13
PLN	347.14	383.92	350.15	338.65
EUR	1,459.88	1,540.66	1,444.28	1,494.10

Table of Contents10. Financial Instruments, Continued

(ii) Sensitivity analysis

A weakening of the won, as indicated below, against the following currencies which comprise the Company's financial assets or liabilities denominated in foreign currency as of September 30, 2012 and December 31, 2011, would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Company considered to be reasonably possible at the end of each reporting period. The analysis assumes that all other variables, in particular interest rates, remain constant. The changes in equity and profit or loss are as follows:

<i>(In millions of won)</i>	September 30, 2012		December 31, 2011	
	Equity	Profit or loss	Equity	Profit or loss
USD (5 percent weakening)	85	(110)	(24,041)	(24,280)
JPY (5 percent weakening)	(14,141)	(14,141)	(30,601)	(30,601)
TWD (5 percent weakening)			230	230
PLN (5 percent weakening)			64	64
EUR (5 percent weakening)	2,956	2,956	1,869	1,869

A strengthening of the won against the above currencies as of September 30, 2012 and December 31, 2011 would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

(d) Interest rate risk

(i) Profile

The interest rate profile of the Company's interest-bearing financial instruments as of September 30, 2012 and December 31, 2011 are as follows:

<i>(In millions of won)</i>	2012	2011
Fixed rate instruments		
Financial assets	1,362,349	1,422,728
Financial liabilities	(3,094,278)	(2,685,174)
	(1,731,929)	(1,262,446)
Variable rate instruments		
Financial assets	600	600
Financial liabilities	(1,488,283)	(1,830,434)
	(1,487,683)	(1,829,834)

Table of Contents10. Financial Instruments, Continued

(ii) Cash flow sensitivity analysis for variable rate instruments

As of September 30, 2012 and December 31, 2011, a change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below for each 12-month period following the reporting dates. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

(In millions of won)

	Equity		Profit or loss	
	1%p increase	1%p decrease	1%p increase	1%p decrease
September 30, 2012				
Variable rate instruments	(10,430)	10,430	(10,430)	10,430
December 31, 2011				
Variable rate instruments	(13,870)	13,870	(13,870)	13,870

Table of Contents10. Financial Instruments, Continued

(e) Fair values

(i) Fair values versus carrying amounts

The fair values of financial assets and liabilities, together with the carrying amounts shown in the condensed separate interim statements of financial position, are as follows:

<i>(In millions of won)</i>	September 30, 2012		December 31, 2011	
	Carrying amounts	Fair values	Carrying amounts	Fair values
Assets carried at fair value				
Available-for-sale financial assets	70,025	70,025	9,157	9,157
Derivatives	596	596		
	70,621	70,621	9,157	9,157
Assets carried at amortized cost				
Cash and cash equivalents	1,144,511	1,144,511	604,890	604,890
Deposits in banks	215,000	215,000	815,000	815,000
Trade accounts and notes receivable	4,505,730	4,505,730	3,789,332	3,789,332
Other accounts receivable	91,341	91,341	102,097	102,097
Other non-current assets	11,303	11,303		
Deposits	62,948	62,948	65,613	65,613
Others	613	613	613	613
	6,031,446	6,031,446	5,377,545	5,377,545
Liabilities carried at fair value				
Financial liabilities at fair value through profit or loss			87,339	87,339
Derivatives			6,969	6,969
			94,308	94,308
Liabilities carried at amortized cost				
Secured bank loans	55,930	55,930	57,665	57,665
Unsecured bank loans	1,891,434	1,944,264	1,578,628	1,525,251
Unsecured bond issues	2,635,197	2,721,381	2,791,976	2,829,206
Trade accounts and notes payable	4,650,876	4,650,876	3,752,724	3,752,724
Other accounts payable	2,820,383	2,820,383	3,690,913	3,690,913
	12,053,820	12,192,834	11,871,906	11,855,759

The basis for determining fair values above by the Company are consistent with those disclosed in the financial statements as of and for the year ended December 31, 2011.

Table of Contents10. Financial Instruments, Continued

(ii) Interest rates used for determining fair value

The significant interest rates applied for determination of the above fair value as of September 30, 2012 and December 31, 2011 are as follows:

	2012	2011
Derivatives	3.10%	3.90%
Debentures, loans and borrowings	3.20%	4.19%

(iii) Fair value hierarchy

The table below analyzes financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3: inputs for the asset or liability that are not based on observable market data

(In millions of won)

	September 30, 2012			Total
	Level 1	Level 2	Level 3	
Assets				
Available-for-sale financial assets	70,025			70,025
Derivatives		596		596
	70,025	596		70,621

(In millions of won)

	December 31, 2011			Total
	Level 1	Level 2	Level 3	
Assets				
Available-for-sale financial assets	9,157			9,157
Liabilities				
Financial liabilities at fair value through profit or loss	(87,339)			(87,339)
Derivatives		(6,969)		(6,969)
	(87,339)	(6,969)		(94,308)

The derivative financial assets and liabilities are classified as Level 2 since all significant inputs to compute the fair value of the over-the-counter derivatives were observable.

Table of Contents10. Financial Instruments, Continued

(f) Capital Management

Management's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Liabilities to equity ratio, net borrowing to equity ratio and other financial ratios are used by management to achieve an optimal capital structure. Management also monitors the level of dividends to ordinary shareholders. Equity, defined by K-IFRS, is identical to the definition of capital, managed by management.

(In millions of won)

	September 30, 2012	December 31, 2011
Total liabilities	15,150,872	14,587,047
Total equity	9,485,870	9,686,917
Cash and deposits in banks(*1)	1,359,511	1,419,890
Borrowings	4,582,561	4,515,608
Total liabilities to equity ratio	160%	151%
Net borrowing to equity ratio(*2)	34%	32%

(*1) Cash and deposits in banks consist of cash and cash equivalents and deposits in banks.

(*2) Net borrowing is computed as borrowings less cash and deposits in banks.

(g) Transfers of financial assets

Details of transferred financial assets as of September 30, 2012 that are not derecognized are as follows:

(In millions of won)

	Trade accounts and notes receivable	
	Carrying amount	Fair value
Assets	111,728	111,728
Associated liabilities	(111,728)	(111,728)

The transferred financial assets, which are outstanding accounts receivable from the Company's subsidiaries in relation to the Company's export sales to its subsidiaries, are not derecognized since the Company bears the obligation to pay the scheduled cash flows of the financial assets to financial institutions unless the financial institutions collect the cash flows from the financial assets due.

Table of Contents11. Financial Liabilities

(a) Financial liabilities as of September 30, 2012 and December 31, 2011 are as follows:

<i>(In millions of won)</i>	2012	2011
Current		
Short-term borrowings	111,728	
Current portion of long-term debt	1,224,559	714,268
Current portion of financial liabilities at fair value through profits or loss		87,339
Derivatives		6,969
	1,336,287	808,576
Non-current		
Won denominated borrowings	857,867	366,629
Foreign currency denominated borrowings	643,195	1,003,371
Debentures	1,745,212	2,344,001
	3,246,274	3,714,001

Above financial liabilities, except for the financial liabilities designated as financial liabilities at fair value through profit or loss and derivative liabilities, are measured at amortized cost.

(b) Short-term borrowings as of September 30, 2012 and December 31, 2011 are as follows:

(In millions of won and USD)

Lender	Annual interest rate as of September 30, 2012(*1)	2012	2011
Korea Development Bank (*2)	1ML+0.40%	111,728	
Foreign currency equivalent		USD 100	
		111,728	

(*1) ML represents Month LIBOR (London Inter-Bank Offered Rates).

(*2) The Company accounts for proceeds from sale of accounts receivables that are current and outstanding, which were arose from export sales to the Company's subsidiaries, to this financial institutions as short term borrowings. The Company recognized 3,709 million and 1,501 million as interest expense in relation to the short-term borrowings resulted from the sale of accounts receivable from the subsidiaries during the nine-month periods ended September 30, 2012 and 2011, respectively.

Table of Contents11. Financial Liabilities, Continued

(c) Local currency denominated long-term debt as of September 30, 2012 and December 31, 2011 is as follows:

(In millions of won)

Lender	Annual interest rate as of September 30, 2012	2012	2011
Shinhan Bank and others	3-year Korean Treasury Bond rate less 1.25%, 2.75%	17,775	20,817
National Agricultural Cooperative Federation and others	4.51%~5.21%	844,679	350,000
Less current portion of long-term debt		(4,587)	(4,188)
		857,867	366,629

(d) Foreign currency denominated long-term debt as of September 30, 2012 and December 31, 2011 is as follows:

(In millions of won, USD and JPY)

Lender	Annual interest rate as of September 30, 2012	2012	2011
The Export-Import Bank of Korea	6ML+0.69%	27,965	40,366
Kookmin Bank and others	6ML+1.78%, 3ML+1.70%~2.25%	945,217	1,225,110
Foreign currency equivalent		USD 870	USD 1,020 JPY 6,000
Less current portion of long-term debt		(329,987)	(262,105)
		643,195	1,003,371

Table of Contents11. Financial Liabilities, Continued

(e) Details of the Company's debentures issued and outstanding as of September 30, 2012 and December 31, 2011 are as follows:

(In millions of won, JPY and USD)

	Maturity	Annual interest rate as of September 30, 2012	2012	2011
Local currency Debentures(*1)				
Publicly issued debentures	November 2012	4.24%		
	~October 2016	~5.89%	2,250,000	2,250,000
Less discount on debentures			(4,959)	(6,721)
Less current portion			(499,829)	(299,658)
			1,745,212	1,943,621
Foreign currency Debentures(*1)				
Floating-rate notes	April 2013	3ML+1.80%	391,510	552,171
Foreign currency equivalent			USD 350	USD 350
				JPY 10,000
Less discount on bonds			(1,354)	(3,474)
Less current portion			(390,156)	(148,317)
				400,380
Financial liabilities at fair value through profit or loss(*2)				
Convertible bonds				87,339
Foreign currency equivalent				USD 76
Less current portion convertible bonds				(87,339)
			1,745,212	2,344,001

(*1) Principal of the local and foreign currency debentures is to be repaid at maturity and interests are paid quarterly in arrears.

(*2) The convertible bonds which were recognized as financial liabilities at fair value through profit or loss as of December 31, 2011 were repaid at 116.77% of the principal amount on April 18, 2012 upon maturity.

Table of Contents12. The Nature of Expenses

The nature of expenses for the three-month and nine-month periods ended September 30, 2012 and 2011 are as follows:

(In millions of won)

	For the three-month periods ended September 30,		For the nine-month periods ended September 30,	
	2012	2011	2012	2011
Changes in inventories	(123,127)	459,292	(357,977)	(205,483)

Table of Contents**17. Commitments****Factoring and securitization of accounts receivable**

The Company has agreements with Korea Development Bank and several other banks for accounts receivable sales negotiating facilities of up to an aggregate of USD 1,633 million (1,827,211 million) and JPY 5,000 million (72,056 million) in connection with the Company's export sales transactions with the subsidiaries. As of September 30, 2012, accounts and notes receivable amounting to USD 100 million (111,728 million) were sold but are not past due. In connection with all of the contracts in this paragraph, the Company has sold its accounts receivable with recourse.

The Company has a credit facility agreement with Shinhan Bank pursuant to which the Company could sell its accounts and notes receivables up to an aggregate of 50,000 million in connection with its domestic sales transactions and as of September 30, 2012, no accounts and notes receivable were sold but are not past due. In addition, in April 2011, the Company entered into an agreement with Standard Chartered Bank for accounts receivable sales negotiating facilities of up to USD 50 million (55,930 million) and as of September 30, 2012, accounts and notes receivable amounting to USD 16 million (17,473 million) were sold to Standard Chartered Bank, with none of the underlying accounts and notes receivable being past due. In connection with all of the contracts in this paragraph, the Company has sold its accounts receivable without recourse.

Letters of credit

As of September 30, 2012, the Company has agreements with Korea Exchange Bank in relation to the opening of letters of credit up to USD 50 million (55,930 million), USD 15 million (16,779 million) with China Construction Bank, JPY 2,000 million (28,822 million) with Woori Bank, USD 70 million (78,302 million) with Bank of China, USD 60 million (67,116 million) with Sumitomo Mitsui Banking Corporation and USD 30 million (33,558 million) with Shinhan Bank.

Payment guarantees

The Company obtained payment guarantees amounting to USD 8.5 million (9,508 million) and EUR 215 million (310,520) from Royal Bank of Scotland and other various banks for a number of occasions including value added tax payments in Poland. As of September 30, 2012, the Company is providing a payment guarantee to a syndicate of banks including Kookmin Bank and Societe Generale in connection with a EUR 11 million (15,554 million) term loan credit facility of LG Display Poland Sp. z o. o. In addition, the Company provides a payment guarantee in connection with the term loan credit facilities of LG Display America, Inc. with an aggregate amount of USD 7 million (7,830 million) for principals and related interests.

License agreements

As of September 30, 2012, in relation to its TFT-LCD business, the Company has technical license agreements with Hitachi Display, Ltd. and others and has a trademark license agreement with LG Corp.

Table of Contents17. Commitments, ContinuedLong-term supply agreement

In connection with long-term supply agreements, as of September 30, 2012, the Company's balance of advances received from customer amount to USD 1,480 million (1,655,528 million) in the aggregate. The advances received will be offset against outstanding accounts receivable balances after a given period of time, as well as those arising from the supply of products thereafter. The Company received a payment guarantee amounting to USD 300 million (335,580 million) from the Industrial Bank of Korea relating to advances received from certain customers that have signed long-term supply agreements.

Pledged Assets

Regarding the line of credit up to USD 50 million (55,930 million), the Company provided part of its OLED machinery as pledged assets to the Export-Import Bank of Korea.

18. ContingenciesPatent infringement lawsuit against Chimei Innolux Corp., and others

In 2006, the Company filed a complaint in the United States District Court for the District of Delaware against Chimei Innolux Corp. (formerly, Chi Mei Optoelectronics Corp.) and AU Optronics Corp. claiming infringement of patents related to liquid crystal displays and the manufacturing processes for TFT-LCDs. Both AU Optronics Corp. and Chimei Innolux Corp. filed counter-claims against the Company claiming the Company's infringement of their patents. The Court bifurcated the Company's trial against AU Optronics Corp., from the trial against Chimei Innolux Corp., holding the first trial against AU Optronics Corp. in June, 2009. In September 2011, the Company and AU Optronics Corp. filed a stipulation for dismissal of the Delaware case and amicably settled the claims and counterclaims between the two parties. The stay of the Chi Mei Optoelectronics case was lifted in January 2012, and the charge was dropped after two parties amicably settled the claims in May 2012.

Anvik Corporation's lawsuit for infringement of patent

In 2007, Anvik Corporation filed a patent infringement case against the Company, along with other LCD manufacturing companies in the United States District Court for the Southern District of New York, in connection with the usage of photo-masking equipment manufactured by Nikon Corporation. The court granted Nikon Corporation's motion for summary judgment of invalidity of the patents-in-suit and entered a judgment in favor of Nikon Corporation, the Company and LG Display America, Inc. and other TFT-LCD manufacturing companies, dismissing the case in April 2012. In April 2012, Anvik Corporation appealed the court's decision to the United States Court of Appeals for the Federal Circuit.

Industrial Technology Research Institute of Taiwan's action for patent infringement

In 2012, the United States International Trade Commission, or USITC, granted a motion by Industrial Technology Research Institute of Taiwan, or ITRI, to add the Company and LG Display America as additional respondents in a Section 337 investigation pending before the USITC. ITRI is seeking an exclusion order prohibiting the importation of televisions and monitors incorporating the Company's products into the United States for alleged patent infringement. On October 22, 2012, USITC issued a Notice of Initial Determination finding that LG Display Co., Ltd. and LG Display America, Inc. did not infringe the asserted patent of complainants Industrial Technology Research Institute (ITRI). The Final Determination is schedule to be issued on February 28, 2013.

Table of Contents18. Contingencies, ContinuedAnti-trust investigations and litigations

In December 2006, the Company received notices of investigation by the Korea Fair Trade Commission, the Japan Fair Trade Commission, the U.S. Department of Justice, and the European Commission with respect to possible anti-competitive activities in the TFT-LCD industry. The Company subsequently received similar notices from the Canadian Bureau of Competition Policy, the Federal Competition Commission of Mexico, the Secretariat of Economic Law of Brazil and the Taiwan Fair Trade Commission.

In November 2008, the Company executed an agreement with the U.S. Department of Justice (DOJ) whereby the Company and its U.S. subsidiary, LG Display America, Inc. (LGDUS), pleaded guilty to a Sherman Antitrust Act violation and agreed to pay a single total fine of USD 400 million. In December 2008, the U.S. District Court for the Northern District of California accepted the terms of the plea agreement and entered a judgment against the Company and LGDUS and ordered the payment of USD 400 million. The agreement resolved all federal criminal charges against the Company and LGDUS in the United States in connection with this matter.

In December 2010, the European Commission (the EC) issued a decision finding that the Company engaged in anti-competitive activities in the LCD industry in violation of European competition laws and imposed a fine of EUR 215 million. In February 2011, the Company filed with the European Union General Court an application for partial annulment and reduction of the fine imposed by the EC. The European Union General Court has not ruled on the Company's application. In November 2011, the Company received an additional Request for Information from the EC relating to the alleged anti-competitive activities in the LCD industry and is responding to the request.

In November 2009, the Taiwan Fair Trade Commission terminated its investigation without any finding of violations or levying of fines. Also, in February 2012, the Competition Bureau of Canada terminated its investigation against the Company without any finding of violations or levying of fines. To date no decision has been issued by the Japan Fair Trade Commission, and we believe the statutory time period by which the Commission was required to have issued a decision has already lapsed. To date investigations by the Federal Competition Commission of Mexico and the Secretariat of Economic Law of Brazil are ongoing.

In August 2011, the Korea Fair Trade Commission issued an Examination Report finding that the Company engaged in anti-competitive activities in violation of Korean fair trade laws and a hearing was held in October 2011. In December 2011, the Korea Fair Trade Commission imposed a fine on the Company and certain of its subsidiaries of approximately 31,378 million, and the Company filed an appeal of the decision with the Seoul High Court in December 2011. To date the Seoul High Court has not ruled on the Company's appeal.

Subsequent to the commencement of the DOJ investigation, a number of class action complaints were filed against the Company and other TFT-LCD panel manufacturers in the U.S. and Canada alleging violation of respective antitrust laws and related laws. The class action lawsuits in the U.S. were transferred to the Northern District of California for pretrial proceedings (MDL Proceedings). In March 2010, the court certified the class action complaints filed by direct purchasers and indirect purchasers. 78 entities (including groups of affiliated entities) submitted requests for exclusion from the direct purchaser class. The time period for submitting requests for exclusion from the indirect purchaser class expired on April 13, 2012. 10 entities (including groups and affiliated entities) submitted requests for exclusion from the indirect purchaser class. In addition, since 2010, the attorneys general of Arkansas, California, Florida, Illinois, Michigan, Mississippi, Missouri, New York, Oklahoma, Oregon, South Carolina, Washington, West Virginia and Wisconsin filed complaints against the Company, alleging similar antitrust violations as alleged in the MDL Proceedings. In June 2011, the Company reached a settlement with the direct purchaser class, which the federal district court approved in December 2011. In July 2012, the Company reached a settlement with the indirect purchaser class and with the state attorneys general of Arkansas, California, Florida, Michigan, Missouri, New York, West Virginia and Wisconsin which is subject to court approval.

Table of Contents

18. Contingencies, Continued

Apart from the direct and indirect purchaser class actions, 50 complaints have been filed by individual plaintiffs in various state or federal courts in the United States (Direct Action Plaintiffs or DAP) alleging violation of the respective antitrust laws and related laws by various LCD panel manufacturers. To date 2012, the Company has settled, been dismissed, or otherwise resolved from 6 DAP actions, and is currently defending against 36 Direct Action Plaintiffs including: AT&T Corp. and affiliates, Motorola Mobility, Inc., Electrograph Technologies Corp. and their respective related entities, Tracfone Wireless Inc., Best Buy Co., Inc. and its affiliates, Target Corp., Sears, Roebuck and Co., Kmart Corp., Old Comp Inc., Good Guys, Inc., RadioShack Corp., Newegg Inc., Costco Wholesale Corp., Sony Electronics, Inc. and its affiliates, SB Liquidation Trust, Office Depot, Inc. T-Mobile U.S.A., Inc., Interbond Corp. of America (BrandsMart), Jaco Electronics, Inc., P.C. Richard & Son Long Island Corp., MARTA Cooperative of America, Inc., ABC Appliance (ABC Warehouse), Schultze Agency Services, LLC (Tweeter), Tech Data Corp. and its affiliate, AASI Creditor Liquidating Trust for All American Semiconductor Inc., CompuCom Systems, Inc. ViewSonic Corp., NECO Alliance LLC, Rockwell Automation Inc., Proview Technology, Inc. and its affiliates, Illinois, Washington, Oregon, South Carolina, Mississippi, and Oklahoma.

In Canada, the Ontario Superior Court of Justice certified the class action complaints filed by the direct and indirect purchasers in May 2011. The Company is pursuing an appeal of the decision as well as defending the on-going class actions in Quebec and British Columbia.

While the Company continues its vigorous defense of the various pending proceedings described above, there is a possibility that one or more proceedings may result in an unfavorable outcome to the Company. For some cases, management is not able to estimate the amount of potential loss resulting from a possible unfavorable outcome since the cases are in their early stage and sufficient information is not available. For other cases, the Company has established an estimated loss to reflect a possible unfavorable outcome. However, depending on the progress of the cases, the Company's actual liability may be materially different from the established estimated loss.

19. Capital and Reserves

(a) Share capital

The Company is authorized to issue 500,000,000 shares of capital stock (par value 5,000), and as of September 30, 2012 and December 31, 2011, the number of issued common shares is 357,815,700. There have been no changes in the capital stock for the the nine-month period ended September 30, 2012.

(b) Reserve

Reserve is comprised of the fair value reserve which is the cumulative net change in the fair value of available-for-sale financial assets until the investments are derecognized or impaired.
