REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To The Plan Administrator and Members of

The Hartford Investment and Savings Plan

Hartford, Connecticut

We have audited the accompanying statements of net assets available for benefits of The Hartford Investment and Savings Plan (the Plan) as of December 31, 2012 and 2011, and the related statement of changes in net assets available for benefits for the year ended December 31, 2012. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the year ended December 31, 2012 in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2012 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan s management. Such schedule has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

THE HARTFORD INVESTMENT AND SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2012 AND 2011

AND FOR THE YEAR ENDED DECEMBER 31, 2012

(\$ IN THOUSANDS)

Note 1. Description of the Plan

The following description of The Hartford Investment and Savings Plan (the Plan or ISP) as of December 31, 2012 is provided for general information purposes only. Members should refer to the Plan Document for more complete information. Members refers to eligible participants of the Plan.

The Hartford Financial Services Group, Inc. (HFSG and together with its subsidiaries, The Hartford, the Company) is an insurance and financial services company. The Hartford, headquartered in Connecticut, is among the largest providers of investment products and life, property, and casualty insurance to both individual and business customers in the United States of America. Also, The Hartford continues to administer business previously sold in Japan and the United Kingdom. The Plan Sponsor, Hartford Fire Insurance Company, is a wholly owned subsidiary of The Hartford.

Information with regard to eligibility, contributions, distributions, vesting, trustees, withdrawals, loans, fund redistribution and certain definitions are contained in the Plan Document. A Summary Plan Description setting forth the highlights of the Plan is available to Members on the Fidelity NetBenefits website. Fidelity Investments Institutional Operations Company, Inc. serves as the record keeper of the Plan.

Plan Changes

See Note 11 for a general description of amendments made to the Plan Document during the years ended December 31, 2012 and 2011.

General

The Plan is a defined contribution plan covering substantially all full-time and part-time employees of the Company. The Pension Administration Committee of the Company controls and manages the operation and administration of the Plan, subject to certain exemptions that are specified in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Trust, as defined in the Plan Document, is the aggregate funds held by the trustee, State Street Bank and Trust Company (the Trustee), under the trust agreement established for the purposes of this Plan.

Contributions

Members may elect to save a percentage of their base salary and may designate their savings as before-tax, Roth 401(k), after-tax or a combination thereof. Generally, savings may be elected based on 1% to 30% of base salary. Members who are highly compensated employees may have contribution limits of less than 30% due to the operation of certain tests required under the Internal Revenue Code of 1986, as amended (the Code).

Basic Savings are contributions which are not in excess of the first 6% of a Member s base salary. For Members who have completed at least six months of service, an amount equal to 50% of a Member s Basic Savings is matched by the Company (Matching Company contribution). Members savings in excess of 6% of base salary are Supplemental Savings that are not matched by the Company. In addition, in 2012, the Company contributed 0.5% of highly compensated eligible employees base salary and 1.5% of all other eligible employees base salary (Floor Company contribution) to each employee s Floor Company contribution account. An employee became eligible in 2012 for Floor Company contributions after completing six months of service, regardless of whether the employee elects to participate in the Plan.

Administrative Costs

The Trust pays certain administrative expenses of the Plan out of the assets of the Trust. Expenses not paid by the Trust are borne by the Company.

F-4

Note 1. Description of the Plan (continued)

Member Accounts

Individual accounts are maintained for each Member. Each Member s account is credited with that Member s contributions and allocations of (a) the Matching Company contributions and Floor Company contributions and (b) Plan earnings, and is charged with withdrawals and an allocation of administrative expenses and Plan losses. Allocations are based on Member account balances, as defined in the Plan Document. The benefit to which a Member is entitled is the benefit that can be provided from that Member s vested account balance.

Vesting

Members are 100% vested at all times with respect to Member and Floor Company contributions and earnings thereon. Vesting in Matching Company contributions begins after one year of service at which time Members are 20% vested. The vesting increases 20% each consecutive year until the fifth anniversary of service at which time the Members are 100% vested. Notwithstanding the foregoing statement, a Member becomes fully vested in such Member s Matching Company contribution account upon retirement (for retirement eligible Members), disability, death, reaching age 65, or upon the complete discontinuance of Company contributions or termination of the Plan.

Investment Options

As of December 31, 2012, contributions of Member savings and Company contributions may be invested in any of the twenty-six investment options of the Plan in multiples of 1%, as elected by the Member (Member directed investments).

Certain investment options are parties-in-interest with The Hartford. See Notes 3 and 10 for further discussion.

Member Loans

Members may borrow from their accounts a minimum of \$0.5 to a maximum equal to the lesser of \$50 or 50% of their vested account balance. Loan transactions are treated as transfers between the investment funds and the loan fund. Loan terms range from one to five years, or up to 15 years for the purchase of a primary residence. The loan is secured by the balance in the Member s account. The interest rate on a loan in a calendar quarter is set on the last business day of the prior February, May, August or November based on the prime rate provided by Thomson Reuters on that date plus one percentage point and is fixed for the term of the loan. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement, or certain other reasons, Members or their designated beneficiaries may elect to receive either a lump sum amount equal to the value of their vested account balance, annual installments over a period not greater than thirty years (subject to certain conditions), or annual installments over the recipient s life expectancy. Distributions may be paid in cash or, with respect to The Hartford Stock Fund, in stock distributions. Members or their designated beneficiaries may also elect to defer distributions subject to certain conditions.

Forfeitures

At December 31, 2012 and 2011, forfeited non-vested account balances totaled \$34 and \$5, respectively. These forfeitures are applied to reduce future Matching Company contributions. During the year ended December 31, 2012, Matching Company contributions were reduced by \$2,130 from forfeitures.

Note 2. Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) and the Department of Labor s Rules and Regulations for Reporting and Disclosure under ERISA.

Note 2. Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management of the Plan to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Adoption of New Accounting Standards

In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS*, which amends ASC 820. ASU 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The guidance is effective for reporting periods beginning after December 15, 2011. The effect of the adoption of ASU 2011-04 had no impact on the Plan s statements of net assets available for benefits and statement of changes in nets assets available for benefits.

Investment Valuation and Income Recognition

The Plan s investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (See Note 5). The fair value of the common stock of HFSG is based on quoted market prices. The Hartford Index Fund, separately managed account, mutual funds, collective investment trusts and pooled temporary investment funds are valued at the net asset value of shares, which represent the fair value of the underlying securities, held by the Plan at year end. The group annuity contracts (the Stable Value Fund) include synthetic guaranteed investment contracts (GICs) whose underlying securities are stated at fair value. Fair value of the underlying securities in the GICs is determined based on the discounted replacement cost methodology, which incorporates the difference between current market level rates for the wrapper contract and the wrapper fee presently being charged. The GICs are stated at fair value and then adjusted to contract value as described in Note 4.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities, which are reflected in the statement of changes in Net Assets Available for Benefit, may occur in the near term and such changes could materially affect the amounts reported in the financial statements.

Investment expenses charged to the Plan for investments in the mutual funds and collective investment trusts are charged directly against the assets of the fund and are not separately reflected. Consequently, investment expenses are reflected as a reduction of investment return for such investments. As of December 31, 2012 there were no unfunded commitments or redemption restrictions on collective investment trusts.

Payment of Benefits

Benefits paid to Members are recorded when distributed.

Contributions

Employee and employer contributions are recorded in the period during which the Company makes payroll deductions from Members compensation.

Notes Receivable from Members

Notes receivable from Members are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent Member loans are recorded as distributions based on the terms of the Plan Document.

F-6

Note 3. Investments

The following investments represented 5% or more of the Plan s net assets available for benefits at the end of the Plan year:

	December 31,	
	2012	2011
* The Hartford Stock Fund, common stock (6,928,096 and 7,580,603		
shares at December 31, 2012 and 2011, respectively)	\$ 155,466	\$ **
* The Hartford Index Fund	229,496	196,460

Prudential, Contract #GA62433	160,861	155,392

^{*} Indicates party-in-interest

For the year ended December 31, 2012, the Plan s investments had appreciated, including gains and losses on investments bought and sold, as well as held during the year, as follows:

	Decen	nber 31, 2012
The Hartford Stock Fund	\$	45,454
The Hartford Index Fund		31,282
Separately managed account		6,710
Group annuity contracts		21,892
Mutual funds		
Bond Investments		6,187
Large-Cap Equities		59,561
Mid-Cap Equities		39,849
Small-Cap Equities		20,208
International Equities		24,402
Vanguard Retirement Funds (through 1/31/2012)		(6,902)
Collective investment trusts		
Vanguard Target Retirement Funds		66,635
SSGA Real Asset		5
Net appreciation in fair value of investments	\$	315,283

^{**} Investment did not represent 5% or more of the fair value of the Plan s net assets available for benefits at December 31, 2012 or December 31, 2011

Note 4. Investments in Group Annuity Contracts

The Plan has entered into numerous synthetic group annuity contracts with unaffiliated insurance carriers within the Stable Value Fund. A synthetic group annuity contract is an investment contract through an issuer s guarantee of a specific interest rate (the wrapper contract) and a fixed income portfolio of financial instruments that are owned by the Plan. The synthetic GIC contracts include underlying securities which are held in a trust owned by the Plan and utilize a benefit-responsive wrapper contract managed by The Dreyfus Corporation through its Bank of New York (BNY) Mellon Stable Value Group. The fair value of the benefit-responsive wrapper contracts was \$30 at December 31, 2012 and \$(148) at December 31, 2011. The contract provides that Members execute Plan transactions at contract value. These contracts are fully benefit-responsive and are included in the financial statements at fair value (see Note 2). Fully benefit-responsive contracts provide for a stated return on principal invested over a specified period and permit withdrawals at contract value for benefit payments, loans, or transfers. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. Certain events, such as a Plan termination, divestiture or reduction in force may limit the ability of the Plan to transact at contract value or may allow for the termination of the wrapper contract at less than contract value. The Plan Sponsor does not believe that it is probable that any such events would limit the ability of the Plan to transact at contract value.

The relationship of future crediting rates and the adjustments to contract value reported on the statements of net assets available for benefits are provided through the mechanism of the crediting rate formula. The crediting rate is based on the current yield-to-maturity, the duration of the portfolio, and the amortization of gains and losses, defined as the difference between the market value and contract value of the wrapper. Key factors that could influence future crediting rates include, but are not limited to, Plan cash flows, changes in interest rates, total return performance of the fair market value bond strategies underlying each synthetic GIC contract, default or credit failures of any of the securities, investment contracts, or other investments held in the fund and the initiation of an extended termination of one or more synthetic GIC contracts by the manager or the contract issuer. The rate of return earned on a synthetic GIC is generally reset quarterly by the issuer based on market rates of other similar investments, the current yield of the underlying investments and the spread between the market value and contract value, but the rate can not be less than zero.

The contract issuer is not allowed to terminate any of the synthetic GICs and settle at an amount different from contract value unless there is a breach of the contract which is not corrected within the applicable cure period. Actions that will result in a breach include, but are not limited to, material misrepresentation, failure to pay synthetic GIC fees, or any other payment due under the contract, and failure to adhere to investment guidelines. The Plan did not breach any contracts in 2012 or 2011.

Average yields:	2012	2011
Based on annualized earnings (1)	2.80%	3.31%
Based on interest rate credited to participants (2)	3.00%	3.55%

- (1) Calculated by taking the fair value sum of the funds holdings multiplied by their respective yields, divided by the total sum of the holdings as of December 31, 2012 and 2011, respectively.
- (2) Calculated by taking the sum of the book value holdings multiplied by the crediting rate, divided by the fair value of the funds as of December 31, 2012 and 2011, respectively.

The following table represents the adjustment from fair value to contract value for each of the contracts as of December 31, 2012:

Carrier Name	Contract Number	Major Credit Ratings	Investments at Contract Value	Investments at Fair Value	Adjustment from Fair Value to Contract Value
Monumental Life Insurance Company	MDA01097TR	AA+/Aa3	\$ 122,959	\$ 137,854	\$ (14,895)
Monumental Life Insurance Company	MDA01098TR	AA-/Aa2	139,267	145,690	(6,423)

Total			\$ 654,842	\$ 697,521	\$ (42,679)

Note 5. Fair Value Measurements

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Generally, the Plan determines the estimated fair value of its fixed income securities, equity securities and short-term investments using the market approach. The income approach is used for securities priced using a pricing matrix, as well as for derivative instruments. The stable value fund and collective investment trust assets are measured at fair value using a NAV as a practical expedient. For Level 1 investments, which are comprised primarily of exchange-traded equity securities, valuations are based on observable inputs that reflect quoted prices for identical assets in active markets that the Plan has the ability to access at the measurement date.

For most of the Plan s debt securities, the following inputs are typically used in the Plan s pricing methods: reported trades, benchmark yields, bids and/or estimated cash flows. For securities except U.S. Treasuries, inputs also include issuer spreads, which may consider credit default swaps.

ABS, CMBS and RMBS Primary inputs also include monthly payment information, collateral performance, which varies by vintage year and includes delinquency rates, collateral valuation loss severity rates, collateral refinancing assumptions and, for ABS and RMBS, estimated prepayment rates.

Corporates Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote, if available. Inputs also include observations of credit default swap curves related to the issuer.

Municipals Primary inputs also include Municipal Securities Rulemaking Board reported trades and material event notices, and issuer financial statements.

Short-term investments Primary inputs also include material event notices and new issue money market rates.

F-9

Note 5. Fair Value Measurements (continued)

Mutual Funds Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Fund Valued at the net asset value of the underlying investments of a separate managed account within the Plan s trust, which consists of units of collective investment trusts and a separate account guaranteed investment contract (GIC). The GIC primary inputs include market-corroborated discount rates. The net asset value as provided by the trustee is used as a practical expedient to estimate fair value.

Collective Investment Trusts The fair value of the collective trust investments are valued at the net asset value per unit as reported by the sponsor of the collective trust funds derived from the exchange where the underlying securities are primarily traded and are redeemable daily.

The following tables set forth by level within the fair value hierarchy a summary of the Plan s investments measured at fair value on a recurring basis at December 31, 2012 and 2011.

The tables below include the major categorization for debt and equity securities on the basis of the nature and risk of the investments at December 31, 2012 and 2011.

	Investment Assets at Fair Value as of December 31, 2012			
	Active Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

[1] Excludes \$711 of dividend receivable and \$1,780 of interest receivable recorded at fair value.

Note 5. Fair Value Measurements (continued)

Investment Assets at Fair Value as of December 31, 2011 Active Markets for Other Significant **Identical** Observable Unobservable Assets Inputs **Inputs** (Level 1) (Level 2) (Level 3) **Total** Short Term Investments 132,810 \$ \$ 132,810 Fixed Income Securities: Group annuity contracts 17,047 17,047 **Short Term Investments Guaranteed Investment Contract** 86,784 86,784 Debt Securities including U.S. Government Securities 969 592,281 440 593,690 **Bond Investments** 163,337 163,337 **Equity Securities:** Company Stock 123,185 123,185 Large-Cap Equities 422,923 196,460 619,383 Mid-Cap Equities 221,666 221,666 **Small-Cap Equities** 136,872 136,872 International Equities 148,227 148,227 Vanguard Retirement Funds 413,608 413,608 Total investments at fair value [2] \$1,630,787 \$ 1,025,382 440 \$ 2,656,609

[2] Excludes \$764 of dividend receivable and \$2,100 of interest receivable recorded at fair value.

Transfers Between Levels The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits.

In February of 2012, the Plan s investment in the Vanguard Funds changed in structure from Mutual funds to Collective investment trusts (CIT) and the corresponding assets are now classified as Level 2 as opposed to Level 1. As of December 31, 2012 there were \$577,462 Level 2 CIT investments. As of December 31, 2011 there were \$413,608 Level 1 Vanguard Retirement Fund investments.

Note 5. Fair Value Measurements (continued)

Rollforward of Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

The tables below set forth a summary of changes in the fair value of the Plan s Level 3 investments for the years ended December 31, 2012 and 2011. As reflected in the table below, the net unrealized gain/(loss) on Level 3 investment assets was \$206 and \$(2,446) as of December 31, 2012 and 2011, respectively.

	Level 3 Investment Assets and Investment Liabilities Year Ended December 31, 2012		
	Group Annuity Contracts	Bond Investments	Total
Balance, beginning of year	\$ 440	\$	\$ 440
Realized gains/(losses), net			
Unrealized gains/(losses), net	184	22	206
Purchases		1,107	1,107
Issuances			
Settlements			
Sales	(54)	(2)	(56)
Transfers in to Level 3			
Transfers out of Level 3			
Balance, end of year	\$ 570	\$ 1,127	\$ 1,697

	Level 3 Investment Assets and Investment Liabilitie Year Ended December 31, 2011	
	-	Annuity ntracts
Balance, beginning of year	\$	6,115
Realized gains/(losses), net		91
Unrealized gains/(losses), net		(2,446)
Purchases		
Issuances		
Settlements		
Sales		(2,486)
Transfers in to Level 3		639
Transfers out of Level 3		(1,473)
Balance, end of year	\$	440

The change in unrealized gains/(losses) included in the statement of changes in net assets available for benefits related to assets still held at the reporting date totaled \$180 and \$(2,367) as of December 31, 2012 and 2011, respectively.

The valuation methods described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

F-12

Note 6. Derivative Financial Instruments

Futures Contracts The Plan enters into futures contracts as part of the Stable Value Fund in the normal course of its investing activities to manage market risk associated with the Plan s fixed-income investments and to achieve overall investment portfolio objectives. These contracts involve elements of market risk in excess of amounts recognized in the statements of net assets available for benefits. The credit risk associated with these contracts is minimal, as they are traded on organized exchanges and settled daily. The current day s gains and losses are classified as derivatives receivable/payable for the investment portfolio, with a value of \$0 and \$(5) at December 31, 2012 and December 31, 2011, respectively.

During 2012 and 2011, the Plan was a party to futures contracts held for trading purposes for U.S. Treasury bonds. Upon entering into a futures contract, the Plan is required to deposit either in cash or securities an amount (initial margin) equal to a certain percentage of the nominal value of the contract. Subsequent payments are then made or received by the Plan, depending on the daily fluctuation in the value of the underlying contracts. U.S. Treasury bills owned and included in the investments of the Plan, with a value of \$899 and \$1,212 at December 31, 2012 and 2011, respectively, were held by the Plan s brokers as performance security on futures contracts.

At December 31, 2012 and 2011, the Plan had futures contracts to purchase or sell U.S. Treasury bonds contracts.

The fair value of futures contracts in the statements of net assets available for benefits is zero at December 31, 2012 and 2011, as cash settlements are done daily. Changes in fair value are accounted for as net depreciation in fair value of investments. For the years ended December 31, 2012 and 2011, the net loss related to future contracts was \$(1,986) and \$(1,349), respectively.

Note 7. Federal Income Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated March 23, 2004 that the Plan and related Trust are designed in accordance with applicable sections of the Code. The Plan has been amended since receiving the determination letter. However, the Company and the Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and the Plan and related Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan s financial statements.

U.S. GAAP requires that Plan management evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to audit by the IRS; however there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 8. Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to suspend, reduce, or partially or completely discontinue its contributions at any time and to terminate the Plan, the Trust agreement and the Trust hereunder, subject to the provisions of ERISA. In the event of termination or partial termination of the Plan or complete discontinuance of contributions, the interests of affected Members automatically become fully-vested.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits between the accompanying financial statements and the amounts reflected in Form 5500 as of December 31, 2012 and 2011:

	2012	2011
Net assets available for benefits per accompanying financial		
statements	\$ 2,929,137	\$ 2,671,991
Adjustment from contract value to fair value for fully benefit-responsive investment contracts	48,772	42,679
Net assets per Form 5500	\$ 2,977,909	\$ 2,714,670

F-13

Note 9. Reconciliation of Financial Statements to Form 5500 (continued)

The following is a reconciliation of total investment loss and contributions on the accompanying financial statements and the amount reflected in Form 5500 for the year ended December 31, 2012:

Total investment gain and contributions per accompanying financial statements	\$ 538,954
Adjustment from contract value to fair value for fully benefit-responsive	
investment contracts at beginning of the year	(42,679)
Adjustment from contract value to fair value for fully benefit-responsive	
investment contracts at the end of the year	48,772
Total income per Form 5500	\$ 545,047

The following is a reconciliation of benefits paid to Members between the accompanying financial statements and the amount reflected in Form 5500 for the year ended December 31, 2012:

Benefits paid to Members per accompanying financial statements	\$ 279,872
Add amounts allocated to withdrawing Members current year	
Deduct amounts allocated to withdrawing Members prior year	
Deduct corrective distributions	31
Deduct amounts allocated to deemed loan distributions	149
Benefits paid to Members per Form 5500	\$ 279,692

Note 10. Party-in-Interest Transactions

Certain plan investments are in funds managed by the Trustee, certain subsidiaries of the Company and BNY Mellon. Fees paid by the Plan for trustee, custodial and investment management services amounted to \$314 for the year ended December 31, 2012.

Fees paid by the Plan to a subsidiary of the Company pursuant to a group annuity contract issued by a subsidiary amounted to \$62 for the year ended December 31, 2012. In addition, certain Plan investments are shares of mutual funds that are sponsored by The Hartford and shares of HFSG s common stock. At December 31, 2012 and 2011, the Plan held 6,928,096 shares and 7,580,603 shares of common stock of HFSG with a cost basis of \$231,071 and \$254,229, respectively. During the year ended December 31, 2012, the Plan recorded dividend income from HFSG s common stock and The Hartford s mutual funds of \$20,233.

Note 11. Plan Amendments and Other Changes

Effective January 1, 2012, the Plan was amended to make certain technical changes to clarify that: (1) returned excess contributions are adjusted for investment gains and losses through plan year end, and (2) the common stock of HFSG, of which The Hartford Stock Fund is largely comprised, is publicly traded.

Effective February 1, 2012, in the first step of a two-step process, the Plan transitioned its default funds from Vanguard Target Retirement mutual funds to collective investment trusts (the Vanguard Target Retirement Trusts II series of funds), and was amended to reflect this change. Technical changes were also made in the amendment to reflect the Plan s account structure on the recordkeeping system.

Effective April 2, 2012, the Plan was amended to allow Members to appoint an investment manager (made available for this purpose by The Hartford Pension Administration Committee) to invest his or her Plan account.

Effective June 1, 2012, the Plan completed the transition of its default funds to the Vanguard Target Retirement Trusts I. Two new target date funds, the Vanguard Target Retirement 2055 Trust I and Vanguard Target Retirement 2060 Trust I, were also added to the Plan, and the Hartford

High Yield HLS Fund was replaced with the ISP High Yield Bond Fund. The Plan was amended to reflect these changes, as well as for technical changes to reflect the Plan s receipt of settlement proceeds in connection with the settlement of In re. Hartford Financial Services Group, Inc. ERISA Litigation, No. 3:08-cv-01708 (D. Conn.).

Effective August 1, 2012, the Plan was amended to provide that, in the event of the removal of an investment fund, existing balances and subsequent new contributions will be invested in a fund designated by the Hartford Fire Insurance Company Investment and Savings Plan Investment Committee in the absence of a Member s investment election.

Effective September 1, 2012, the Hartford Global Growth HLS Fund was no longer available under the Plan.

F-14

Note 11. Plan Amendments and Other Changes (continued)

Effective November 1, 2012, the Plan was amended to provide the Executive Vice President, Human Resources with the authority to adopt any Plan amendment that does not involve a material cost to The Hartford Financial Services Group, Inc., Hartford Fire Insurance Company or the Plan

Also by Plan amendment effective November 1, 2012, certain Plan design changes were implemented, effective as of January 1, 2013, including:

the one-time automatic enrollment, at a 3% before-tax contribution rate, of any Member not currently contributing at least 3% of his or her eligible earnings to the Plan unless he or she provided a subsequent election,

the adoption of a safe harbor plan design in order to avoid certain annual non-discrimination testing,

an increase in the matching contribution amount from 50% to 100% of employee contributions of up to 6% of eligible earnings each pay period,

the replacement of the existing floor company contribution with a new non-elective company contribution of 2% of eligible earnings,

a shorter, 2-year vesting period for employer matching contributions and non-elective company contributions made after January 1, 2013.

an expansion of the definition of eligible earnings to include annual bonuses and overtime,

the accelerated eligibility to receive matching and non-elective company contributions, from 6 months to 90 days of service, for newly hired employees hired on or after January 1, 2013, and

a 90-day delay in eligibility to make employee contributions for newly hired employees hired on or after January 1, 2013 (previously, newly hired employees were immediately eligible to make employee contributions).

Effective December 1, 2012, the State Street Global Advisors (SSGA) Real Asset Fund was added to the Plan.

Effective December 1, 2012, the State Street Global Navisors (BSO1) Real Assect and was added to the Falli.

Effective December 31, 2011, the Plan was amended so that in the event that a proper Investment Fund election is not on file for a Member, legal settlement proceeds resulting from the settlement of In re. Hartford Financial Services Group, Inc. ERISA Litigation, No. 3:08-cv-01708 (D. Conn.) shall be invested in the Stable Value Fund.

The definition of Salary in the Plan was amended to cease the inclusion of rehabilitation pay after December 31, 2011.

Effective October 1, 2011, the Plan was amended to allow the conversion of eligible amounts to Roth 401(k) contributions under the Plan.

Effective June 1, 2011, The Dreyfus Corporation through its BNY Mellon Stable Value Group, assumed manager responsibilities for the Stable Value Fund

Note 12. Subsequent Events

For the year ended December 31, 2012, subsequent events were evaluated through the date the financial statements were issued.

Effective January 1, 2013, the Company will pay certain plan recordkeeping fees, administrative expenses and trustee fees previously paid by Members.

Effective July 1, 2013, three new multi-manager equity funds will be added to the plan: a large-cap equity fund, a small/mid-cap equity fund and an international equity fund. The new multi-manager funds will be comprised of several underlying funds (the Hartford Capital Appreciation HLS Fund, the Hartford Dividend and Growth HLS Fund, the Columbus Circle Large Cap Growth Fund, the Hartford Small Company HLS Fund, the Hartford Mid Cap HLS Fund and the Hartford International Opportunities HLS Fund), which will no longer be available as stand-alone options under the Plan. The RS Partners Y Fund will no longer be available under the Plan. All existing balances in, and future contributions to, those funds will be transferred to the corresponding new investment funds.
