The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

Subject to Completion, dated July 9, 2013

PRELIMINARY PROSPECTUS

15,000,000 Shares

Berry Plastics Group, Inc.

Common Stock

This is a public offering of shares of common stock of Berry Plastics Group, Inc. The selling stockholders identified in this prospectus are selling 15,000,000 shares. Berry Plastics Group, Inc. will not receive any of the proceeds from the sale of shares in this offering. Our common stock is listed on the New York Stock Exchange (the NYSE) under the symbol BERY. The last reported closing sale price of our common stock on July 8, 2013 was \$22.87 per share.

Investing in our common stock involves risks that are described in the Risk Factors section beginning on page 13 of this prospectus.

	Per Share	Total
Public offering price	\$	\$
Underwriting discount	\$	\$
Proceeds, before expenses, to the selling stockholders	\$	\$

The underwriters may also purchase up to an additional 2,250,000 shares from the selling stockholders, at the public offering price less the underwriting discount, within 30 days of the day of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The underwriters expect to deliver the shares of common stock against payment on or about , 2013.

INDUSTRY AND MARKET DATA

This prospectus includes industry and trade association data, forecasts and information that we have prepared based, in part, upon data, forecasts and information obtained from independent trade associations, industry publications and surveys and other information available to us. Some data are also based on our good-faith estimates, which are derived from management's knowledge of the industry and independent sources. Industry publications and surveys and forecasts generally state that the information contained therein has been obtained from sources believed to be reliable. Although we believe these sources are reliable, we have not independently verified the information. In certain of the markets in which we operate, it may be difficult to directly ascertain industry or market data. Unless otherwise noted, statements as to our market share and market position are approximated and based on management experience and estimates using the above-mentioned third-party data combined with our internal analysis and estimates. While we are not aware of any misstatements regarding our industry data presented herein, our estimates involve risks and uncertainties and are subject to change based on various factors, including those discussed under the heading "Risk Factors" in this prospectus. Similarly, while we believe our internal research is reliable, such research has not been verified by any independent sources.

Table of Contents

NON-GAAP FINANCIAL MEASURES

Adjusted EBITDA and Adjusted Free Cash Flow, as presented in this prospectus, are supplemental financial measures that are not required by, or presented in accordance with, accounting principles generally accepted in the United States (GAAP). Adjusted EBITDA and Adjusted Free Cash Flow are not GAAP financial measures and should not be considered as an alternative to operating or net income or cash flows from operating activities, in each case determined in accordance with GAAP.

We define Adjusted Free Cash Flow as cash flow from operating activities less additions to property, plant and equipment. We use Adjusted Free Cash Flow as a measure of liquidity because it assists us in assessing our company's ability to fund its growth through its generation of cash. We believe Adjusted Free Cash Flow is useful to an investor in evaluating our liquidity because Adjusted Free Cash Flow and similar measures are widely used by investors, securities analysts and other interested parties in our industry to measure a company's liquidity without regard to revenue and expense recognition, which can vary depending upon accounting methods. Although we use Adjusted Free Cash Flow as a liquidity measure to assess our ability to generate cash, the use of Adjusted Free Cash Flow has important limitations, including that: (1) Adjusted Free Cash Flow does not reflect the cash requirements necessary to service principal payments on our indebtedness; and (2) Adjusted Free Cash Flow removes the impact of accrual basis accounting on asset accounts and non-debt liability accounts.

We define Adjusted EBITDA as net income (loss) before depreciation and amortization, income tax expense (benefit), interest expense (net) and certain restructuring and business optimization charges and as adjusted for unrealized cost reductions and acquired businesses, including unrealized synergies, which are more particularly defined in our credit documents and the indentures governing our notes. Adjusted EBITDA is used by our lenders for debt covenant compliance purposes and by our management as one of several measures to evaluate management performance. Adjusted EBITDA eliminates certain charges that we believe do not reflect operations and underlying operational performance. Although we use Adjusted EBITDA as a financial measure to assess the performance of our business, the use of Adjusted EBITDA has important limitations, including that (1) Adjusted EBITDA does not represent funds available for dividends, reinvestment or other discretionary uses, or account for one-time expenses and charges; (2) Adjusted EBITDA does not reflect cash outlays for capital expenditures or contractual commitments; (3) Adjusted EBITDA does not reflect changes in, or cash requirements for, working capital; (4) Adjusted EBITDA does not reflect the interest expense or the cash requirements necessary to service interest or principal payments on indebtedness; (5) Adjusted EBITDA does not reflect income tax expense or the cash necessary to pay income taxes; (6) Adjusted EBITDA excludes depreciation and amortization and, although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect cash requirements for such replacements; and (7) Adjusted EBITDA does not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations.

Adjusted EBITDA and Adjusted Free Cash Flow may be calculated differently by other companies, including other companies in our industry, limiting their usefulness as comparative measures. Because of these limitations, you should consider Adjusted EBITDA and Adjusted Free Cash Flow alongside other performance measures and liquidity measures, including operating income, various cash flow metrics, net income and our other GAAP results.

Table of Contents

PROSPECTUS SUMMARY

The following summary highlights information contained elsewhere in this prospectus and is qualified in its entirety by the more detailed information and consolidated financial statements included elsewhere in this prospectus. This summary is not complete and may not contain all of the information that may be important to you. You should carefully read the entire prospectus, including the Risk Factors section and our consolidated financial statements and notes to those statements, before making an investment decision. As used in this prospectus, Berry, the company, we, our and us mean Berry Plastics Group, Inc. and its subsidiaries on a consolidated basis.

Our Company

We are a leading provider of value-added plastic consumer packaging and engineered materials with a 30-year track record of delivering high-quality customized solutions to our customers. Our products utilize our proprietary research and development platform, which includes a continually evolving library of Berry-owned molds, patents, manufacturing techniques and technologies. We sell our solutions predominantly into consumer-oriented end markets, such as food and beverage, healthcare and personal care, which together represented approximately 76% of our sales in the 12 months ended March 30, 2013. We believe our customers look to us for solutions that have high consumer impact in terms of form, function and branding. Representative examples of our products include thermoform drink cups, thin-wall containers, blow-molded bottles, specialty closures, prescription vials, specialty plastic films, adhesives and corrosion protection materials. We have also been one of the most active acquirers of plastic packaging businesses globally, having acquired more than 30 businesses since 1988, including 13 acquisitions completed in the past seven years. We believe our focus on delivering unique and customized solutions to our customers and our ability to successfully integrate strategic acquisitions have enabled us to grow at rates in excess of our industry peers, having achieved a compound annual net sales growth rate over the last 12 years of 22%.

We believe that we have created one of the largest product libraries in our industry, allowing us to be a comprehensive solution provider to our customers. We have more than 13,000 customers, which consist of a diverse mix of leading national, mid-sized regional and local specialty businesses. The size and scope of our customer network allow us to introduce new products we develop or acquire to a vast audience that is familiar with, and we believe partial to, our brand. In fiscal year 2012, no single customer represented more than 3% of net sales and our top ten customers represented less than 17% of net sales. We currently supply our customers through 84 strategically located manufacturing facilities throughout the United States (70 locations) and select international locations (14 locations). We believe our manufacturing processes and our ability to leverage our scale to reduce expenses on items, such as raw materials, position us as a low-cost manufacturer relative to our competitors. For example, we believe based on management estimates that we are one of the largest global purchasers of plastic resins, at approximately 2.5 billion pounds per year, which gives us both unique insight into this market as well as scale purchasing savings.

We enjoy market leadership positions in many of our markets, with approximately 76% of net sales during the 12 months ended March 30, 2013 in markets in which management estimates we held the #1 or #2 market position. We look to build leadership in markets where we have a strategic angle and can achieve attractive profit margins through technology and design leadership and a competitive cost position such as highly decorated plastic packaging. We believe that our product and technology development capabilities are best-in-class, supported by a newly built research and design facility located in Evansville, Indiana (which we refer to in this prospectus as the Berry Research and Design Center) and a network of more than 200 engineers and material scientists. We seek to have our product and technology development efforts provide a meaningful impact on sales. An example of our focused new product development is our thermoform plastic drink cup technology. We

Table of Contents

identified an unfulfilled need in the market with an opportunity for significant return on invested capital and ultimately introduced the technology to the market in 2001. This product line has grown steadily since introduction and generated \$382 million of net sales during the 12 months ended March 30, 2013.

Our success is driven by our more than 15,000 employees. Over the past 30 years, we have developed a culture that incorporates both loyalty to best practices and acceptance of new perspectives, which we have often identified from the companies we have acquired. Our employees hold themselves accountable to exceed the expectations of our customers and to create value for our stakeholders.

We believe the successful execution of our business strategy has enabled us to outperform the growth of our industry over the past decade with Adjusted EBITDA increasing from \$80 million in December 2000 to \$810 million for the 12 months ended March 30, 2013, representing a compound annual growth rate (which we refer to in this prospectus as a CAGR) of 21%. For the 12 months ended March 30, 2013, Berry had net sales of \$4.7 billion, Adjusted EBITDA of \$810 million, net income of \$22 million and Adjusted Free Cash Flow of \$283 million. For a reconciliation of Adjusted EBITDA and Adjusted Free Cash Flow to the nearest GAAP measures, see Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources.

Our Businesses

We organize our business into: Rigid Packaging, Engineered Materials and Flexible Packaging. We strive to leverage the talents, technologies and resources of each segment for the benefit of Berry as a whole. We believe this practice has enabled us to cross-fertilize technologies, materials and manufacturing processes across our entire platform to create unique solutions for our customers, developing a partnership approach and strong long-term relationships.

The table below is a summary of our business and some of our key product lines:

(\$ in millions)	Rigid Packaging	Engineered Materials	Flexible Packaging
Adjusted EBITDA for			
the 12 months ended March 30, 2013			
Operating Income for	\$267	\$104	\$13
the 12 months ended March 30, 2013			
Product Examples	Foodservice Items	Tapes	Personal Care Films
	Containers	CPG	Barrier/ Sealant Films
	Tubes	FIBC	Medical Films
	Overcaps	Food Wrap	Printed Films
	Closures	Shrink Films	Coated and Laminated Packaging
	Bottles	Trash Bags	
	Prescription Vials	Stretch Film	
		Home and Party	
Rigid Packaging (66% of Adjusted EBITDA for 12 months ended March 30, 2013)			

Edgar Filing: BERRY PLASTICS GROUP INC - Form S-1

Our Rigid Packaging business primarily consists of containers, foodservice items, housewares, closures, overcaps, bottles, prescription vials, and tubes. The largest end uses for these products are consumer-oriented end

-2-

Table of Contents

markets such as food and beverage, retail mass marketers, healthcare, personal care and household chemical. We believe that we offer the broadest line of rigid packaging products among industry participants and, according to management estimates, we maintained the #1 or #2 market positions in markets representing approximately 78% of the Rigid Packaging business net sales for the 12 months ended March 30, 2013. Many of our products are manufactured from proprietary molds that we develop and own, which we believe would result in significant costs to our customers to switch to a different supplier. In addition to a complete product line, we have sophisticated decorating capabilities and in-house graphic arts and tooling departments, which allow us to integrate ourselves into, and, we believe, add significant value to, our customers packaging design processes. For the 12 months ended March 30, 2013, our Rigid Packaging business had net sales and Adjusted EBITDA of \$2.6 billion and \$533 million, respectively.

Engineered Materials (24% of Adjusted EBITDA for 12 months ended March 30, 2013)

Our Engineered Materials business primarily consists of pipeline corrosion protection solutions, specialty tapes and adhesives, polyethylene-based film products, and can liners served to a variety of end markets including oil, water and gas infrastructure, industrial and consumer-oriented end markets. We believe that we offer one of the broadest product lines among industry participants and, according to management estimates, we maintained the #1 or #2 market position in markets representing approximately 67% of Engineered Materials net sales for the 12 months ended March 30, 2013. For the 12 months ended March 30, 2013, our Engineered Materials business had net sales and Adjusted EBITDA of \$1.4 billion and \$199 million, respectively.

Flexible Packaging (10% of Adjusted EBITDA for 12 months ended March 30, 2013)

Our Flexible Packaging business consists of high barrier, multilayer film products as well as finished flexible packages such as printed bags and pouches. The largest end uses for our flexible products are consumer-oriented end markets such as food and beverage, medical and personal care. We believe that we offer one of the broadest product lines among industry participants and, according to management estimates, we maintained the #1 or #2 market position in markets representing approximately 88% of Flexible Packaging business net sales for the 12 months ended March 30, 2013. For the 12 months ended March 30, 2013, our Flexible Packaging segment had net sales and Adjusted EBITDA of \$737 million and \$78 million, respectively.

Our Strengths

We believe our strong financial performance is the direct result of the following competitive strengths:

Leading market positions in profitable product lines. Our profitability is enhanced by what we believe are our market-leading positions in high value-added product lines, such as thermoform drink cups, pharmaceutical packaging and thin-wall containers, among others. We have focused on achieving #1 or #2 positions in product lines in which we can realize attractive margins through (1) product innovation, differentiated technology and quality manufacturing processes; (2) leveraging our broad customer network; (3) our low-cost manufacturing platform; and (4) superior customer service. For the 12 months ended March 30, 2013, approximately 76% of our net sales were derived from products in which management estimates we held a #1 or #2 market position.

Leader in developing and commercializing new technologies. We believe our product and technology development capabilities are best-in-class. Our research efforts focus on projects with the potential to deliver unique performance characteristics that add value for our customers, command a sustainable premium price, develop customer loyalty and support the overall profitability of our company. We believe we have a track record of commercializing new products that generate incremental organic profitability well in excess of our company and industry averages. Our thermoformed plastic drink cups are an example of a successful commercialization of a new technology that we internally developed to address an unfilled need of our customers. Since introducing this technology to the market, we have developed the product line into a business which delivered \$382 million of net sales for the 12 months ended March 30, 2013.

Table of Contents

Large and diversified customer base in attractive end markets. We sell our packaging solutions to more than 13,000 customers spanning a diverse mix of leading national, mid-sized regional and local specialty businesses. In fiscal year 2012, no single customer represented more than 3% of net sales and our top ten customers in total represented less than 17% of net sales. We believe the size and diversity of our customer network gives us a competitive advantage as we are able to market new products we develop or acquire seamlessly to a large customer base. Furthermore, our customer network is primarily involved in consumer-oriented end markets, such as food and beverage, healthcare and personal care, which we believe are growth end markets.

Scale and low-cost operations drive profitability. We believe that our proprietary tools and technologies, manufacturing capabilities, operating expertise and purchasing scale provide us with a competitive advantage in the marketplace. Our competitive success is due, in part, to our having capitalized on economies of scale to lower costs in a number of critical functions:

Our large, high-volume equipment, longer production runs and flexible, cross-facility manufacturing capabilities result in lower unit-production costs than many of our competitors;

Our position as one of the largest purchasers of packaging-grade resins globally at approximately 2.5 billion pounds per year provides considerable purchasing power and enhances the reliability of our supply of resins; and

Our global network of 84 strategically located manufacturing facilities provides increased opportunities to optimize transportation costs and realize distribution efficiencies and allows for quick turnaround times to our customers.

Track record in mergers and acquisitions. We have successfully integrated over 30 acquisitions since 1988, including 13 over the past seven years. These acquisitions have enabled us to (1) develop new business platforms; (2) add products to market to our customer network; (3) create incremental profitability by achieving synergies; (4) acquire manufacturing processes and technologies; and (5) capitalize on the best practices of acquired companies. Our management team seeks to acquire companies at attractive, value-enhancing multiples, utilizing what we believe is our flexible, low-cost capital structure to fund the transactions.

Outsized earnings growth, attractive margins and strong free cash flow generation. We believe our earnings growth has exceeded the growth of our industry, with Adjusted EBITDA growing from \$80 million in December 2000 to \$810 million for the 12 months ended March 30, 2013, representing a CAGR of 21%. We also believe we maintain attractive profit margins and generate significant Adjusted Free Cash Flow for our stockholders relative to our peers. For the 12 months ended March 30, 2013, our Adjusted EBITDA margin was 17%, and we generated Adjusted Free Cash Flow of \$283 million. We believe our profit margins and Adjusted Free Cash Flow generation are stable and increasing, driven by new product launches, market share gains, stable input cost pass-through, cost improvement actions, disciplined capital spending, prudent working capital management, minimal contingent liabilities and strategic investments in new projects and acquisitions with synergies.

Proven management and employee culture with significant equity ownership. We believe that our management team is among the deepest and most experienced in the packaging industry. Our management team has been responsible for developing and executing our strategy that has generated consistent year-over-year sales growth and the successful integration of more than 30 acquisitions. We believe our employees have developed a unique culture in which each employee throughout the entire company is aligned, focused and holds each other accountable to achieve goals that drive value creation for our stakeholders.

Table of Contents

Our Strategy

We intend to capitalize on our market-leading position in high value-added plastic consumer packaging and highly engineered materials to increase revenues and profits and maximize cash flow. We seek to achieve this objective by executing on the following strategies:

Develop and commercialize new product technologies. We intend to continue to focus our product and technology development efforts on projects that we believe have significant profit potential. We have several projects in various stages of development that we believe can be commercialized into attractive organic growth and profit opportunities. Certain projects in development involve leveraging what we believe is our unique expertise in both rigid and flexible packaging technologies and manufacturing processes to create unique hybrid packaging solutions that address a need in the market that is not addressable by either technology on its own. We also have certain projects underway that we are developing in close collaboration with specific customers, which upon successful commercialization would allow us to enter into a new market backed by the strength of both our products and our broad existing customer base.

Continue to make acquisitions in our industry. Given the breadth of our product offering, multiple business platforms in rigid and flexible packaging and scale of our customer network, we believe we have the broadest opportunity set for acquisitions in our industry. Furthermore, we believe we have a competitive advantage over our peers in mergers and acquisitions due to our (1) historical acquisition track record; (2) flexibility to utilize purchase price funding sources with attractive cost of capital; and (3) ability to leverage our scale to generate incremental synergies versus our peers. We intend to continue to apply a selective and disciplined acquisition strategy, focused on enhancing our scale, product diversity and geographic reach, while bolstering our financial performance through synergies and additional cash generation. We continue to evaluate acquisition opportunities on an ongoing basis and may at any time be in preliminary discussions with third parties.

Continue to drive Adjusted Free Cash Flow generation. We continually focus on ways to increase our Adjusted Free Cash Flow through new business generation and also disciplined capital and cost management strategies. We intend to further increase profitability and Adjusted Free Cash Flow generation with a continued emphasis on operational excellence, including (1) leveraging our scale to reduce material costs; (2) efficiently reinvesting capital into our manufacturing processes to enhance technological leadership and achieve productivity gains; (3) focusing on ways to streamline operations through overhead rationalization; and (4) working with our engineering and research and development teams to replace existing materials with lower cost alternatives. Furthermore, we believe there are significant incremental opportunities to improve Adjusted EBITDA margins in our Engineered Materials and Flexible Packaging businesses through increased focus on utilizing our asset base on more value-added products.

Increase sales to existing customers. We believe we have significant opportunities to increase our share of packaging sales made to our network of more than 13,000 existing customers. We believe our ability to offer our customers a comprehensive solution through our breadth of product offering yields economic benefits to our customers that cannot be matched by many of our competitors. We will also continue to develop and acquire new products that we can distribute through our customer network, which we believe will allow these products to gain instant scale and traction. We are also working with several customers to expand internationally.

Realize value from recent capital investments and acquisitions. In fiscal 2012, we invested \$160 million of capital in new growth projects. In fiscal 2012, we also undertook a number of cost saving actions including three plant consolidations and the implementation of numerous cost-reduction initiatives.

Table of Contents**Recent Developments***Estimated June 2013 Quarter Results*

For the June 2013 quarter, we estimate that net sales to approximately \$ million from \$1,242 million in the June 2012 quarter. This of % to % is primarily related to . Also, we estimate that Adjusted EBITDA will be \$ to \$ million for the June 2013 quarter compared to \$203 million in the June 2012 quarter. This of % to % is primarily related to . Estimated net debt at June 29, 2013 was \$ million. Assuming our initial public offering and 2013 debt refinancing occurred at the beginning of the period, our interest expense for the four quarter period ended June 29, 2013 would be approximately \$ million lower. Adjusted EBITDA is a non-GAAP measure. The following tables reconcile the company's estimated net income (loss) to the company's estimate of Adjusted EBITDA for the June 2013 quarter and four quarter period ended June 29, 2013:

<i>(in millions) (Unaudited)</i>	Quarter Ended June 29, 2013		Four Quarters Ended June 29, 2013	
	Low	High	Low	High
Adjusted EBITDA^(a)	\$	\$	\$	\$
Pro forma acquisitions				
Unrealized cost reductions				
Operating EBITDA^(a)	\$	\$	\$	\$
Net interest expense				
Depreciation and amortization				
Income taxes				
Restructuring, business optimization and other				
Debt extinguishment				
Net income (loss)	\$	\$	\$	\$

(a) Adjusted EBITDA and Operating EBITDA should not be considered in isolation or construed as an alternative to our net income (loss) or other measures as determined in accordance with GAAP. In addition, other companies in our industry or across different industries may calculate Adjusted EBITDA and Operating EBITDA and the related definitions differently than we do, limiting the usefulness of our calculation of Adjusted EBITDA and Operating EBITDA as comparative measures. Operating EBITDA and Adjusted EBITDA are among the indicators used by the company's management to measure the performance of the company's operations and thus the company's management believes such information may be useful to investors. Such measures are also among the criteria upon which performance-based compensation may be based.

The preliminary financial and operating results for the June 2013 quarter are forward-looking statements based on preliminary estimates and reflect the best judgment of our management but involve a number of risks and uncertainties which could cause actual results to differ materially from those set forth in our estimates and from past results, performance or achievements. Such preliminary results are subject to finalization of our quarterly financial and accounting procedures and should not be viewed as a substitute for full interim financial statements prepared in accordance with GAAP and reviewed by our auditors. Consequently, there can be no assurances that the actual financial and operating results for the third quarter ended June 29, 2013 will be identical to the preliminary estimates set forth above, and any variation between our actual results and the estimates set forth above may be material. In addition, such results do not purport to indicate our results of operations for any future period beyond the quarter ended June 29, 2013. Ernst & Young LLP has not audited, reviewed, compiled or performed any procedures with respect to the accompanying preliminary financial data. Accordingly, Ernst & Young LLP does not express an opinion or any other form of assurance with respect thereto.

Table of Contents

Interest Rate Swap

In February 2013, the company entered into an interest rate swap transaction to protect \$1 billion of outstanding variable rate term loan debt from future interest rate volatility. The agreement swaps the greater of a three-month variable LIBOR contract or 1.00% for a fixed three-year rate of 2.355%, with an effective date in May 2016 and expiration in May 2019. In June 2013, the company elected to settle this derivative instrument and received \$16 million as a result of this settlement. The offset will be included in Accumulated Other Comprehensive Loss and will be amortized to Interest Expense beginning in May 2016 through May 2019.

Secondary Public Offering

In April 2013, we completed a secondary public offering (the April 2013 public offering) in which the Apollo Funds and the Graham Fund (each as defined in Prospectus Summary Principal Stockholders) sold 18,975,000 shares of common stock at \$17.00 per share, which included 2,475,000 shares purchased by the underwriters upon the exercise in full of their option to purchase additional shares. The selling stockholders received all of the proceeds from the April 2013 public offering, which, net of underwriting fees, totaled \$311 million. The Company received no proceeds and incurred fees of approximately \$1 million related to the April 2013 public offering.

Risk Factors

Participating in this offering involves substantial risk. Our ability to execute our strategy also is subject to certain risks. The risks described under the heading Risk Factors immediately following this summary may cause us not to realize the full benefits of our strengths or may cause us to be unable to successfully execute all or part of our strategy. Some of the more significant challenges and risks include the following:

our substantial indebtedness;

the risk of increases in prices or unavailability of key inputs, such as plastic resins, for our products;

the intense competition we face in the sale of our products;

the risks associated with potential acquisitions that we have completed and that we may pursue as part of our growth strategy;

our reliance on patent and trademark rights and unpatented proprietary know-how and trade secrets; and

the impact of current and future environmental and other governmental requirements and regulations.

Before you participate in this offering, you should carefully consider all of the information in this prospectus, including matters set forth under the heading Risk Factors.

Table of Contents

Principal Stockholders

Our principal stockholders are Apollo Investment Fund VI, L.P., Apollo Investment Fund V, L.P. and their parallel investment funds (collectively, the Apollo Funds), as well as investment funds affiliated with or managed by Graham Partners, Inc. and investment entities affiliated with Donald C. Graham (collectively, the Graham Fund).

The Apollo Funds are affiliated with or indirectly managed by Apollo Global Management, LLC, which, together with its subsidiaries, we refer to in this prospectus as Apollo. Founded in 1990, Apollo is one of the world's largest alternative investment managers, with total assets under management of \$114.3 billion as of March 31, 2013, and a team of 252 investment professionals located in ten offices around the world.

The committed capital of the Graham Partners private investment funds and Graham led co-investments totals approximately \$1.7 billion. Graham Partners is a member of The Graham Group, an alliance of independently owned and operated industrial and investment management businesses, which all share in the common legacy of entrepreneur Donald C. Graham. We refer to Graham Partners, Inc. and The Graham Group in this prospectus as Graham Partners.

Additional Information

Berry Plastics Group, Inc. was incorporated in Delaware on November 18, 2005. The principal executive offices of Berry Plastics Group, Inc. are located at 101 Oakley Street, Evansville, Indiana 47710, and the telephone number there is (812) 424-2904. We also maintain an Internet site at <http://www.berryplastics.com>. Our website and the information contained therein or connected thereto shall not be deemed to be incorporated into this prospectus or registration statement of which this prospectus forms a part and you should not rely on any such information in making your decision whether to purchase our securities.

Table of Contents

The Offering

Common stock offered by the selling stockholders	15,000,000 shares.
Option to Purchase Additional Shares	The selling stockholders have agreed to allow the underwriters to purchase up to an additional 2,250,000 shares, at the public offering price less the underwriting discount, within 30 days from the date of this prospectus.
Common stock to be outstanding after this offering	115,079,207 shares.
Listing	Our common stock is listed on the NYSE under the symbol BERY.
Use of proceeds	We will not receive any of the proceeds from the sale of shares in this offering. The selling stockholders will receive all of the net proceeds and bear all commissions and discounts, if any, from the sale of our common stock pursuant to this prospectus. See Use of Proceeds and Principal and Selling Stockholders.
Dividends	We historically have not paid dividends on our common stock and do not currently anticipate paying dividends on our common stock following this offering. Any declaration and payment of future dividends to holders of our common stock may be limited by restrictive covenants in our debt agreements, and will be at the sole discretion of our Board of Directors and will depend on many factors, including our financial condition, earnings, capital requirements, level of indebtedness, statutory and contractual restrictions applying to the payment of dividends and other considerations that our Board of Directors deems relevant. See Dividend Policy, Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources, and Description of Capital Stock Common Stock.
Conflicts of Interest	Apollo Global Securities, LLC, an underwriter of this offering, is an affiliate of Apollo, our controlling stockholder. Since Apollo beneficially owns more than 10% of our outstanding common stock, a conflict of interest is deemed to exist under Rule 5121(f)(5)(B) of the Conduct Rules of the Financial Industry Regulatory Authority, or FINRA. In addition, because Apollo, as a selling stockholder, will receive more than 5% of the net proceeds of this offering, a conflict of interest also exists under Rule 5121(f)(5)(C)(ii). Accordingly, this offering will be made in compliance with the applicable provisions of Rule 5121. Since Apollo is not primarily responsible for managing this offering and the securities have a bona fide public market, as defined in FINRA Rule 5121(f)(3), the appointment of a qualified independent underwriter is not required pursuant to Rule 5121(a)(1). As such, any underwriter that has a conflict of interest pursuant to Rule 5121 will not confirm sales to accounts in which it exercises

Table of Contents

discretionary authority without the prior written consent of the customer. See Underwriting (Conflicts of Interest).

Risk Factors

You should carefully read and consider the information set forth under Risk Factors beginning on page 13 of this prospectus and all the other information set forth in this prospectus before investing in our stock.

Except as otherwise indicated, all information in this prospectus:

assumes no exercise of the underwriters' option to purchase additional shares to buy up to 2,250,000 additional shares from the selling stockholders;

assumes a public offering price of \$22.87 per share, the closing price of our common stock on the NYSE on July 8, 2013; and

does not give effect to the exercise of outstanding options or shares reserved for issuance under the 2006 Equity Incentive Plan or the 2012 Long-Term Incentive Plan.

Table of Contents**SUMMARY HISTORICAL CONSOLIDATED FINANCIAL DATA**

The following table sets forth certain historical financial data for Berry Plastics Group, Inc. Our fiscal year is the 52- or 53-week period ending generally on the Saturday closest to September 30. Fiscal 2010 represents a 53-week period. The summary historical financial data as of and for the fiscal years ended September 29, 2012, October 1, 2011 and October 2, 2010 have been derived from our audited consolidated financial statements and related notes included in this prospectus. The summary historical financial data set forth below should be read in conjunction with and is qualified in its entirety by reference to the audited consolidated financial statements and the related notes included in this prospectus.

The summary historical financial data as of and for the two quarterly periods ended March 30, 2013 and March 31, 2012 have been derived from our unaudited financial statements included in this prospectus. The unaudited interim consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and reflect all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the financial information set forth in those statements.

The unaudited financial data for the last twelve months ending March 30, 2013 has been calculated by subtracting the data for the two quarterly periods ended March 31, 2012 from the data for the year ended September 29, 2012, and adding the data for the two quarterly periods ended March 30, 2013.

Our historical results are not necessarily indicative of results to be expected in any future period, and results for the quarterly periods ended March 30, 2013, are not necessarily indicative of results to be expected for the full year.

The following financial information should be read in conjunction with Selected Historical Consolidated Financial Data, Management's Discussion and Analysis of Financial Condition and Results of Operations, and our historical consolidated financial statements and the related notes included in this prospectus.

(a) Year ended October 1, 2011 includes a \$165 non-cash goodwill impairment.

(b) Represents total current assets less total current liabilities.

(c) Represents pro forma interest expense assuming the following occurred at the beginning of the respective periods: (i) Berry Plastics Corporation's incurrence of \$1.4 billion of additional incremental term loans and (ii) repayment of Berry Plastics Corporation's (a) Second Priority Senior Secured Floating Rate Notes due 2014, (b) First Priority Senior Secured Floating Rate Notes due 2015, (c) 10 1/4% Senior Subordinated Notes due 2016, (d) 8 1/4% First Priority Senior Secured Notes due 2015 and (e) 11% Senior Subordinated Notes due 2016. See Management's Discussion and Analysis of Financial Condition and Results of Operations - Recent Developments.

(d) Year ended September 29, 2012 represents the pro forma income (loss) per share and weighted average shares outstanding assuming our initial public offering and the 2013 debt refinancing occurred at the beginning of the period.

Table of Contents

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should carefully consider the risk factors set forth below as well as the other information contained in this prospectus before investing in our common stock. Any of the following risks could materially and adversely affect our business, financial condition or results of operations. In such a case, you may lose part or all of your original investment.

Risks Related to Our Business

Our substantial indebtedness could affect our ability to meet our obligations and may otherwise restrict our activities.

We have a significant amount of indebtedness. As of March 30, 2013, we had total indebtedness (including current portion) of \$3,999 million, with cash and cash equivalents totaling \$16 million. We would have been able to borrow a further \$518 million under the revolving portion of our senior secured credit facilities, subject to the solvency of our lenders to fund their obligations and our borrowing base calculations. We are permitted by the terms of our debt instruments to incur substantial additional indebtedness, subject to the restrictions therein. Our inability to generate sufficient cash flow to satisfy our debt obligations, or to refinance our obligations on commercially reasonable terms, would have a material adverse effect on our business, financial condition and results of operations.

Our substantial indebtedness could have important consequences. For example, it could:

limit our ability to borrow money for our working capital, capital expenditures, debt service requirements or other corporate purposes;

require us to dedicate a substantial portion of our cash flow to payments on our indebtedness, which would reduce the amount of cash flow available to fund working capital, capital expenditures, product development and other corporate requirements;

increase our vulnerability to general adverse economic and industry conditions; and

limit our ability to respond to business opportunities, including growing our business through acquisitions.

In addition, the credit agreements and indentures governing our current indebtedness contain, and any future debt instruments would likely contain, financial and other restrictive covenants, which will impose significant operating and financial restrictions on us, including restrictions on our ability to, among other things:

incur or guarantee additional debt;

pay dividends and make other restricted payments;

create or incur certain liens;

make certain investments;

engage in sales of assets and subsidiary stock;

Edgar Filing: BERRY PLASTICS GROUP INC - Form S-1

enter into transactions with affiliates;

transfer all or substantially all of our assets or enter into merger or consolidation transactions; and

make capital expenditures.

As a result of these covenants, we will be limited in the manner in which we conduct our business, and we may be unable to engage in favorable business activities or finance future operations or capital needs. Furthermore, a failure to comply with these covenants could result in an event of default, which, if not cured or waived, could have a material adverse effect on our business, financial condition, and results of operations.

Table of Contents

Increases in resin prices or a shortage of available resin could harm our financial condition and results of operations.

To produce our products, we use large quantities of plastic resins. Plastic resins are subject to price fluctuations, including those arising from supply shortages and changes in the prices of natural gas, crude oil and other petrochemical intermediates from which resins are produced. Over the past several years, we have at times experienced rapidly increasing resin prices. If rapid increases in resin prices continue, our revenue and profitability may be materially and adversely affected, both in the short term as we attempt to pass through changes in the price of resin to customers under current agreements and in the long term as we negotiate new agreements or if our customers seek product substitution.

We source plastic resin primarily from major industry suppliers. We have long-standing relationships with certain of these suppliers but have not entered into a firm supply contract with any of them. We may not be able to arrange for other sources of resin in the event of an industry-wide general shortage of resins used by us, or a shortage or discontinuation of certain types of grades of resin purchased from one or more of our suppliers. In addition, the largest supplier of the company's total resin material requirements represented approximately 20% of purchases for the twelve months ended March 30, 2013. Any such shortage may materially negatively impact our competitive position versus companies that are able to better or more cheaply source resin.

We may not be able to compete successfully and our customers may not continue to purchase our products.

We face intense competition in the sale of our products and compete with multiple companies in each of our product lines. We compete on the basis of a number of considerations, including price, service, quality, product characteristics and the ability to supply products to customers in a timely manner. Our products also compete with metal, glass, paper and other packaging materials as well as plastic packaging materials made through different manufacturing processes. Some of these competitive products are not subject to the impact of changes in resin prices which may have a significant and negative impact on our competitive position versus substitute products. Our competitors may have financial and other resources that are substantially greater than ours and may be better able than us to withstand higher costs. In addition, our success may depend on our ability to adapt to technological changes, and if we fail to enhance existing products and develop and introduce new products and new production technologies in a timely fashion in response to changing market conditions and customer demands, our competitive position could be materially and adversely affected. Furthermore, some of our customers do and could in the future choose to manufacture the products they require for themselves. Each of our product lines faces a different competitive landscape. Competition could result in our products losing market share or our having to reduce our prices, either of which would have a material adverse effect on our business and results of operations and financial condition. In addition, since we do not have long-term arrangements with many of our customers, these competitive factors could cause our customers to shift suppliers and/or packaging material quickly.

We may pursue and execute acquisitions, which could adversely affect our business.

As part of our growth strategy, we plan to consider the acquisition of other companies, assets and product lines that either complement or expand our existing business and create economic value. We cannot assure you that we will be able to consummate any such transactions or that any future acquisitions will be consummated at acceptable prices and terms.

We continually evaluate potential acquisition opportunities in the ordinary course of business, including those that could be material in size and scope. Acquisitions involve a number of special risks, including:

the diversion of management's attention and resources to the assimilation of the acquired companies and their employees and to the management of expanding operations;

the incorporation of acquired products into our product line;

Table of Contents

problems associated with maintaining relationships with employees and customers of acquired businesses;

the increasing demands on our operational systems;

ability to integrate and implement effective disclosure controls and procedures and internal controls for financial reporting within the allowable time frame as permitted by Sarbanes-Oxley Act;

possible adverse effects on our reported operating results, particularly during the first several reporting periods after such acquisitions are completed; and

the loss of key employees and the difficulty of presenting a unified corporate image.

We may become responsible for unexpected liabilities that we failed or were unable to discover in the course of performing due diligence in connection with historical acquisitions and any future acquisitions. We have typically required selling stockholders to indemnify us against certain undisclosed liabilities. However, we cannot assure you that indemnification rights we have obtained, or will in the future obtain, will be enforceable, collectible or sufficient in amount, scope or duration to fully offset the possible liabilities associated with the business or property acquired. Any of these liabilities, individually or in the aggregate, could have a material adverse effect on our business, financial condition and results of operations.

In addition, we may not be able to successfully integrate future acquisitions without substantial costs, delays or other problems. The costs of such integration could have a material adverse effect on our operating results and financial condition. Although we conduct what we believe to be a prudent level of investigation regarding the businesses we purchase, in light of the circumstances of each transaction, an unavoidable level of risk remains regarding the actual condition of these businesses. Until we actually assume operating control of such businesses and their assets and operations, we may not be able to ascertain the actual value or understand the potential liabilities of the acquired entities and their operations. Furthermore, we may not realize all of the cost savings and synergies we expect to achieve from our current strategic initiatives due to a variety of risks, including, but not limited to, difficulties in integrating shared services with our business, higher than expected employee severance or retention costs, higher than expected overhead expenses, delays in the anticipated timing of activities related to our cost-saving plans and other unexpected costs associated with operating our business. If we are unable to achieve the cost savings or synergies that we expect to achieve from our strategic initiatives, it could adversely affect our business, financial condition and results of operations.

We may not be successful in protecting our intellectual property rights, including our unpatented proprietary know-how and trade secrets, or in avoiding claims that we infringed on the intellectual property rights of others.

In addition to relying on patent and trademark rights, we rely on unpatented proprietary know-how and trade secrets, and employ various methods, including confidentiality agreements with employees and consultants, customers and suppliers to protect our know-how and trade secrets. However, these methods and our patents and trademarks may not afford complete protection and there can be no assurance that others will not independently develop the know-how and trade secrets or develop better production methods than us. Further, we may not be able to deter current and former employees, contractors and other parties from breaching confidentiality agreements and misappropriating proprietary information and it is possible that third parties may copy or otherwise obtain and use our information and proprietary technology without authorization or otherwise infringe on our intellectual property rights. Additionally, we have licensed, and may license in the future, patents, trademarks, trade secrets, and similar proprietary rights to third parties. While we attempt to ensure that our intellectual property and similar proprietary rights are protected when entering into business relationships, third parties may take actions that could materially and adversely affect our rights or the value of our intellectual property, similar proprietary rights or reputation. In the future, we may also rely on litigation to enforce our intellectual property rights and contractual rights, and, if not successful, we may not be able to protect the value of our intellectual property. Any litigation could be protracted and costly and could have a material adverse effect on our business and results of operations regardless of its outcome.

Table of Contents

Our success depends in part on our ability to obtain, or license from third parties, patents, trademarks, trade secrets and similar proprietary rights without infringing on the proprietary rights of third parties. Although we believe our intellectual property rights are sufficient to allow us to conduct our business without incurring liability to third parties, our products may infringe on the intellectual property rights of such persons. Furthermore, no assurance can be given that we will not be subject to claims asserting the infringement of the intellectual property rights of third parties seeking damages, the payment of royalties or licensing fees and/or injunctions against the sale of our products. Any such litigation could be protracted and costly and could have a material adverse effect on our business, financial condition and results of operations.

Current and future environmental and other governmental requirements could adversely affect our financial condition and our ability to conduct our business.

Our operations are subject to federal, state, local, and foreign environmental laws and regulations that impose limitations on the discharge of pollutants into the air and water, establish standards for the treatment, storage and disposal of solid and hazardous wastes and require cleanup of contaminated sites. While we have not been required historically to make significant capital expenditures in order to comply with applicable environmental laws and regulations, we cannot predict with any certainty our future capital expenditure requirements because of continually changing compliance standards and environmental technology. Furthermore, violations or contaminated sites that we do not know about (including contamination caused by prior owners and operators of such sites or newly discovered information) could result in additional compliance or remediation costs or other liabilities, which could be material. We have limited insurance coverage for potential environmental liabilities associated with historic and current operations and we do not anticipate increasing such coverage in the future. We may also assume significant environmental liabilities in acquisitions. In addition, federal, state, local, and foreign governments could enact laws or regulations concerning environmental matters that increase the cost of producing, or otherwise adversely affect the demand for, plastic products. Legislation that would prohibit, tax or restrict the sale or use of certain types of plastic and other containers, and would require diversion of solid wastes such as packaging materials from disposal in landfills, has been or may be introduced in the U.S. Congress, state legislatures, and other legislative bodies. While container legislation has been adopted in a few jurisdictions, similar legislation has been defeated in public referenda in several states, local elections and many state and local legislative sessions. Although we believe that the laws promulgated to date have not had a material adverse effect on us, there can be no assurance that future legislation or regulation would not have a material adverse effect on us. Furthermore, a decline in consumer preference for plastic products due to environmental considerations could have a negative effect on our business.

The Food and Drug Administration, which we refer to as the FDA, regulates the material content of direct-contact food and drug packages we manufacture pursuant to the Federal Food, Drug and Cosmetic Act. Furthermore, some of our products are regulated by the Consumer Product Safety Commission, which we refer to as the CPSC, pursuant to various federal laws, including the Consumer Product Safety Act and the Poison Prevention Packaging Act. Both the FDA and the CPSC can require the manufacturer of defective products to repurchase or recall these products and may also impose fines or penalties on the manufacturer. Similar laws exist in some states, cities and other countries in which we sell products. In addition, laws exist in certain states restricting the sale of packaging with certain levels of heavy metals and imposing fines and penalties for noncompliance. Although we use FDA-approved resins and pigments in our products that directly contact food and drug products and we believe our products are in material compliance with all applicable requirements, we remain subject to the risk that our products could be found not to be in compliance with these and other requirements. A recall of any of our products or any fines and penalties imposed in connection with noncompliance could have a materially adverse effect on us. See Business Environmental Matters and Government Regulation.

Table of Contents

In the event of a catastrophic loss of one of our key manufacturing facilities, our business would be adversely affected.

While we manufacture our products in a large number of diversified facilities and maintain insurance covering our facilities, including business interruption insurance, a catastrophic loss of the use of all or a portion of one of our key manufacturing facilities due to accident, labor issues, weather conditions, natural disaster or otherwise, whether short or long-term, could have a material adverse effect on us.

Goodwill and other intangibles represent a significant amount of our net worth, and a future write-off could result in lower reported net income and a reduction of our net worth.

As of March 30, 2013, the net value of our goodwill and other intangibles was \$2,579 million. We are no longer required or permitted to amortize goodwill reflected on our balance sheet. We are, however, required to evaluate goodwill reflected on our balance sheet when circumstances indicate a potential impairment, or at least annually, under the impairment testing guidelines outlined in the standard. Future changes in the cost of capital, expected cash flows, or other factors may cause our goodwill to be impaired, resulting in a non-cash charge against results of operations to write off goodwill for the amount of impairment. If a future write-off is required, the charge could have a material adverse effect on our reported results of operations and net worth in the period of any such write-off.

Disruptions in the overall economy and the financial markets may adversely impact our business.

Our industry is affected by current economic factors, including the deterioration of national, regional, and local economic conditions, declines in employment levels, and shifts in consumer spending patterns. Disruptions in the overall economy and volatility in the financial markets could reduce consumer confidence in the economy, negatively affecting consumer spending, which could be harmful to our financial position and results of operations. As a result, decreased cash flow generated from our business may adversely affect our financial position and our ability to fund our operations. In addition, macroeconomic disruptions, as well as the restructuring of various commercial and investment banking organizations, could adversely affect our ability to access the credit markets. The disruption in the credit markets may also adversely affect the availability of financing for our operations. There can be no assurance that government responses to the disruptions in the financial markets will restore consumer confidence, stabilize the markets, or increase liquidity and the availability of credit.

The requirements of having a class of publicly traded equity securities may strain our resources and distract management.

Upon completion of our initial public offering in October 2012, we became subject to reporting requirements of the Securities Exchange Act of 1934, as amended, and the Sarbanes-Oxley Act of 2002, which we refer to as the Sarbanes-Oxley Act. The Sarbanes-Oxley Act requires that we maintain effective disclosure controls and procedures and internal control for financial reporting. Under Section 404 of the Sarbanes-Oxley Act, our independent public accountants auditing our financial statements must attest to the effectiveness of our internal control over financial reporting. In order to continue to maintain the effectiveness of our disclosure controls and procedures and internal control over financial reporting, significant resources and management oversight have been, and will continue to be, required. Furthermore, if we are unable to conclude that our disclosure controls and procedures and internal control over financial reporting are effective, or if our independent public accounting firm is unable to provide us with an unqualified report as to management's assessment of the effectiveness of our internal control over financial reporting in future years, investors may lose confidence in our financial reports and our stock price may decline.

In addition, the Dodd-Frank Wall Street Reform and Consumer Protection Act, which we refer to as Dodd-Frank and which amended the Sarbanes-Oxley Act and other federal laws, has created uncertainty for

Table of Contents

public companies, and we cannot predict with any certainty the requirements of the regulations that will ultimately be adopted under Dodd-Frank or how such regulations will affect the cost of compliance for a company with publicly traded common stock. There is likely to be continuing uncertainty regarding compliance matters because the application of these laws and regulations, which are subject to varying interpretations, may evolve over time as new guidance is provided by regulatory and governing bodies. Our investment of resources to comply with these evolving laws and regulations may result in increased general and administrative expenses and divert management's time and attention from other business concerns. Furthermore, if our compliance efforts differ from the activities that regulatory and governing bodies expect or intend due to ambiguities related to interpretation or practice, we may face legal proceedings initiated by such regulatory or governing bodies and our business may be harmed. In addition, new rules and regulations may make it more difficult for us to attract and retain qualified directors and officers and may make it more expensive for us to obtain director and officer liability insurance.

We are required to pay our existing owners for certain tax benefits, which amounts are expected to be material.

We have entered into an income tax receivable agreement with our pre-initial public offering stockholders, option holders and holders of our stock appreciation rights that provides for the payment by us to such stockholders of 85% of the amount of cash savings, if any, in U.S. federal, foreign, state and local income tax that we and our subsidiaries actually realize as a result of the utilization of our net operating losses attributable to periods prior to our initial public offering.

These payment obligations are our obligations and not obligations of any of our subsidiaries. The actual utilization of net operating losses as well as the timing of any payments under the income tax receivable agreement will vary depending upon a number of factors, including the amount, character and timing of our and our subsidiaries' taxable income in the future.

We expect that the payments we make under this income tax receivable agreement will be material. Assuming no material changes in the relevant tax law, and that we and our subsidiaries earn sufficient income to realize the full tax benefits subject to the income tax receivable agreement, we expect that future payments under the income tax receivable agreement will aggregate to between \$300 and \$350 million over the next five years.

Upon the effective date of the income tax receivable agreement, the company recorded an initial obligation of \$300 million, which is recognized as a reduction of Paid-in capital on the Consolidated Balance Sheet.

Any future changes in the realizability of our net operating loss carry forwards that were generated prior to our initial public offering will impact the amount of the liability that will be paid to our pre-initial public offering shareholders, option holders or holders of our stock appreciation rights. Changes in the realizability of these tax assets are recorded in income tax expense (benefit) and any changes in the obligation under the income tax receivable agreement is recorded in other income (expense). Based on our current taxable income estimates, we expect to repay the majority of this obligation by the end of our 2016 fiscal year.

In addition, the income tax receivable agreement provides that upon certain mergers, stock and asset sales, other forms of business combinations or other changes of control, the income tax receivable agreement will terminate and we will be required to make a payment equal to the present value of future payments under the income tax receivable agreement, which payment would be based on certain assumptions, including those relating to our and our subsidiaries' future taxable income. In these situations, our obligations under the income tax receivable agreement could have a substantial negative impact on our liquidity and could have the effect of delaying, deferring or preventing certain mergers, asset sales, other forms of business combinations or other changes of control.

Table of Contents

For tax reasons, special timing rules will apply to payments associated with stock options and stock appreciation rights. Such payments will generally be deemed invested in a notional account rather than made on the scheduled payment dates, and the account will be distributed on the fifth anniversary of the initial public offering.

Our counterparties under this agreement will not reimburse us for any payments previously made under the income tax receivable agreement if such benefits are subsequently disallowed (although future payments would be adjusted to the extent possible to reflect the result of such disallowance). As a result, in certain circumstances, payments could be made under the income tax receivable agreement in excess of our cash tax savings.

Our operating subsidiary Berry Plastics Corporation identified a prior deficiency in its disclosure controls and procedures.

Under applicable SEC regulations, management of a reporting company, with the participation of the principal executive officer and principal financial officer, must periodically evaluate the company's disclosure controls and procedures, which are defined generally as controls and other procedures of a reporting company designed to ensure that information required to be disclosed by the reporting company in its periodic reports filed with the SEC is recorded, processed, summarized, and reported on a timely basis. In conjunction with a review of the SEC of our wholly owned subsidiary Berry Plastics Corporation's fiscal year 2011 annual report, our Chief Executive Officer and Chief Financial Officer concluded that the design and operation of Berry Plastics Corporation's disclosure controls and procedures were not effective to ensure that information required to be disclosed was reported at the acceptable level of detail for the period covered by the fiscal year 2011 annual report. We identified deficient disclosure in the section Critical Accounting Policy and Estimates: Goodwill and Other Indefinite Lived Intangible Assets. In that disclosure, we did not provide readers with sufficient information explaining the factors that led to the recognition of the goodwill impairment charge, along with the future implications to our business. We also identified deficient disclosure in the section Management's Discussion and Analysis of Financial Condition and Results of Operations. In that disclosure, we did not provide readers with sufficient informative narrative explanations of our financial statements. In addition, we identified deficient disclosure in our condensed consolidating financial statements, in which we did not provide appropriate disclosure and presentation of certain intercompany activity. To remediate these deficiencies, in addition to our historical disclosure controls and procedures, we have begun a more comprehensive review and approval procedure of disclosures related to our Critical Accounting Policies and Estimates and Management's Discussion and Analysis to ensure the level of information we disclose provides readers with a sufficient level of detail to understand these policies and estimates. We believe that these actions remediated the weakness in our disclosure controls and procedures; however, we cannot assure you that additional deficiencies in our disclosure controls and procedures will not occur in the future.

Our international sales and operations are subject to applicable laws relating to trade, export controls, and foreign corrupt practices, the violation of which could adversely affect our operations.

We must comply with all applicable international trade, export and import laws and regulations of the United States and other countries. We are subject to export controls and economic sanctions laws and embargoes imposed by the U.S. Government. Changes in trade sanctions laws may restrict our business practices, including cessation of business activities in sanctioned countries or with sanctioned entities, and may result in modifications to compliance programs. We are also subject to the Foreign Corrupt Practices Act and other anti-bribery laws that generally bar bribes or unreasonable gifts to foreign governments or officials. We have implemented safeguards and policies to discourage these practices by our employees and agents. However, our existing safeguards and policies to assure compliance and any future improvements may prove to be less than effective and our employees or agents may engage in conduct for which we might be held responsible. If employees violate our policies, we may be subject to regulatory sanctions. Violations of these laws or regulations could result in sanctions including fines, debarment from export privileges and penalties and could adversely affect our business, financial condition and results of operations.

Table of Contents

Risks Related to an Investment in our Common Stock and this Offering

The price of our common stock may fluctuate significantly and you could lose all or part of your investment.

Volatility in the market price of our common stock may prevent you from being able to sell your shares of common stock at or above the price you paid for them. The market price for our common stock may be volatile, in part because our shares have only been traded publicly since October 2012, and such volatility may be exacerbated by our relatively small public float. The market price for our common stock could fluctuate significantly for a number of other reasons, including:

our operating and financial performance and prospects;

our quarterly or annual earnings or those of other companies in our industry;

conditions that impact demand for our products and services;

future announcements concerning our business or our competitors' businesses;

the public's reaction to our press releases, other public announcements and filings with the SEC;

changes in earnings estimates or recommendations by securities analysts who track our common stock;

market and industry perception of our success, or lack thereof, in pursuing our growth strategy;

strategic actions by us or our competitors, such as acquisitions or restructurings;

changes in government and environmental regulation;

general market, economic and political conditions;

changes in accounting standards, policies, guidance, interpretations or principles;

arrival and departure of key personnel;

the number of shares to be publicly traded after this offering;

sales of common stock by us, the Apollo Funds, the Graham Fund or members of our management team;

adverse resolution of new or pending litigation against us;

changes in general market, economic and political conditions in the United States and global economies or financial markets, including those resulting from natural disasters, terrorist attacks, acts of war and responses to such events; and

material weakness in our internal costs over financial reporting.

In addition, in recent years, the stock market has experienced significant price and volume fluctuations. This volatility has had a significant impact on the market price of securities issued by many companies. The changes frequently appear to occur without regard to the operating performance of the affected companies. Hence, the price of our common stock could fluctuate based upon factors that have little or nothing to do with the company, and these fluctuations could materially reduce our share price.

We had net losses in recent years and we may not be profitable in the future.

We generated net income in only two of our last five fiscal years. We may not generate net income from operations in the future, and continuing net losses may limit our ability to execute our strategy. Factors contributing to our financial performance include non-cash impairment charges, depreciation/amortization on our long lived tangible and intangible assets, interest expense on our debt obligations as well as other factors more fully disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Table of Contents

Apollo controls us, and its interests may conflict with or differ from your interests as a stockholder.

After the consummation of this offering, the Apollo Funds will indirectly beneficially own approximately 31.1% of our common stock, assuming the underwriters do not exercise their option to purchase additional shares. If the underwriters exercise in full their option to purchase additional shares, the Apollo Funds will indirectly beneficially own approximately 29.3% of our common stock.

The amended and restated stockholders agreement that we entered into in connection with our initial public offering provides that, except as otherwise required by applicable law, if the Apollo Funds hold (a) at least 50% of our outstanding common stock, it will have the right to designate no fewer than that number of directors that would constitute a majority of our Board of Directors, (b) at least 30% but less than 50% of our outstanding common stock, it will have the right to designate up to five director nominees, (c) at least 20% but less than 30% of our outstanding common stock, it will have the right to designate up to four director nominees, and (d) at least 10% but less than 20% of our outstanding common stock, the Apollo Funds will have the right to designate up to three director nominees. The agreement also provides that if the size of the Board of Directors is increased or decreased at any time, Apollo's nomination rights will be proportionately increased or decreased, respectively, rounded up to the nearest whole number. In addition, the agreement requires the approval of a majority of the directors nominated by the Apollo Funds voting on the matter for certain important matters, including certain mergers and acquisitions, issuance of equity and incurrence of debt, so long as the Apollo Funds beneficially own at least 25% of our outstanding common stock. Therefore, Apollo will, following this offering, continue to be able to significantly influence or effectively control our decisions. See *Certain Relationships and Related Party Transactions*, *Stockholders Agreement*, *Management Apollo Approval of Certain Matters* and *Description of Capital Stock*, *Composition of Board of Directors*; *Election and Removal of Directors*.

The interests of Apollo could conflict with or differ from your interests as a holder of our common stock. For example, the concentration of ownership held by the Apollo Funds and Apollo's rights under the amended and restated stockholders agreement could delay, defer or prevent a change of control of the company or impede a merger, takeover or other business combination that you as a stockholder may otherwise view favorably. In addition, a sale of a substantial number of shares of stock in the future by the Apollo Funds or the Graham Fund could cause our stock price to decline.

Additionally, Apollo and Graham Partners are in the business of making or advising on investments in companies and hold (and may from time to time in the future acquire) interests in or provide advice to businesses that directly or indirectly compete with certain portions of our business or are suppliers or customers of ours. Apollo and Graham Partners may also pursue acquisitions that may be complementary to our business and, as a result, those acquisition opportunities may not be available to us.

Although we are no longer a controlled company within the meaning of the NYSE rules, we may continue to rely on exemptions from certain corporate governance requirements during a one-year transition period.

After the consummation of our April 2013 public offering, the Apollo Funds no longer controlled a majority of our voting common stock. As a result, following our April 2013 public offering, we no longer qualified as a controlled company within the meaning of the NYSE corporate governance standards. The NYSE rules require that we appoint a majority of independent directors to the Board of Directors by April 24, 2014, which is one year after the date we no longer qualified as a controlled company. The NYSE rules also require that we appoint at least a majority of independent members to each of the compensation and nominating and governance committees by July 23, 2013, which is 90 days after the date we no longer qualified as a controlled company, and compensation and nominating and governance committees composed entirely of independent directors by April 24, 2014. During these transition periods, we may elect not to comply with certain NYSE corporate governance requirements, including:

the requirement that a majority of the Board of Directors consists of independent directors;

Table of Contents

the requirement that we have a nominating and corporate governance committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities; and

the requirement that we have a compensation committee that is composed entirely of independent directors with a written charter addressing the committee's purpose and responsibilities.

Accordingly, during these transition periods, stockholders will not have the same protections afforded to stockholders of companies that are subject to such corporate governance requirements. In addition, although we are no longer a controlled company within the meaning of the NYSE rules, Apollo continues and, following this offering, will continue, to be able to significantly influence or effectively control our decisions. See Certain Relationships and Related Party Transactions Stockholders Agreement, Management Apollo Approval of Certain Matters and Description of Capital Stock Composition of Board of Directors; Election and Removal of Directors.

We have no plans to pay regular dividends on our common stock, so you may not receive funds without selling your common stock.

We have no plans to pay regular dividends on our common stock. Any declaration and payment of future dividends to holders of our common stock may be limited by restrictive covenants of our debt agreements, will be at the sole discretion of our Board of Directors and will depend on many factors, including our financial condition, earnings, capital requirements, level of indebtedness, statutory and contractual restrictions applying to the payment of dividends and other considerations that our Board of Directors deems relevant.

The terms of our senior secured credit facilities and the indentures governing our notes may restrict our ability to pay cash dividends on our common stock. Our debt instruments contain covenants that restrict our ability to pay dividends on our common stock, as well as the ability of our subsidiaries to pay dividends to us. See Description of Certain Indebtedness and Description of Capital Stock Common Stock. Furthermore, we will be permitted under the terms of our debt instrument to incur additional indebtedness, which may restrict or prevent us from paying dividends on our common stock. Agreements governing any future indebtedness, in addition to those governing our current indebtedness, may not permit us to pay dividends on our common stock.

Future sales or the possibility of future sales of a substantial amount of our common stock may depress the price of shares of our common stock.

Future sales or the availability for sale of substantial amounts of our common stock in the public market could adversely affect the prevailing market price of our common stock and could impair our ability to raise capital through future sales of equity securities.

Our amended and restated certificate of incorporation provides for 450 million authorized shares, of which 400 million shares, par value \$0.01, are designated as common stock and 50 million shares, par value \$0.01, are designated as preferred stock. Upon completion of this offering, we will have an aggregate of 115,079,207 shares of our common stock outstanding. Of these shares, all of the 29,411,764 shares of our common stock sold in our initial public offering, the 18,975,000 shares of our common stock sold in our April 2013 public offering and the 15,000,000 shares of our common stock sold in this offering, as well as any shares of our common stock that have been sold or had their legends removed pursuant to Rule 144 under the Securities Act since our initial public offering, will be freely tradable without restriction or further registration under the Securities Act, except for any shares which may be acquired by any of our affiliates as that term is defined in Rule 144, which will be subject to the resale limitations of Rule 144, and subject to any applicable lock-up agreements. The 39,065,476 shares of our common stock beneficially owned by the Apollo Funds and the Graham Fund following this offering, as well as any remaining shares of our common stock that were issued and outstanding prior to our initial public offering that have not been sold or had their legends removed pursuant to Rule 144, will be restricted securities, as that term is defined in Rule 144, and may in the future be sold without restriction under the Securities Act to the extent permitted by Rule 144 or any applicable exemption under the Securities Act and subject to any applicable

Table of Contents

lock-up agreements. In addition, we have granted Apollo and Graham Partners demand and incidental registration rights, and we have also granted certain employees and others who own equity in the company incidental registration rights. See [Shares Eligible for Future Sale](#), [Underwriting \(Conflicts of Interest\)](#) and [Certain Relationships and Related Party Transactions](#) [Stockholders Agreement](#).

We may issue shares of our common stock or other securities from time to time as consideration for future acquisitions and investments. If any such acquisition or investment is significant, the number of shares of our common stock, or the number or aggregate principal amount, as the case may be, of other securities that we may issue may in turn be substantial. We may also grant registration rights covering those shares of our common stock or other securities in connection with any such acquisitions and investments.

We cannot predict the size of future issuances of our common stock or the effect, if any, that future issuances and sales of our common stock will have on the market price of our common stock. Sales of substantial amounts of our common stock (including shares of our common stock issued in connection with an acquisition), or the perception that such sales could occur, including such sales by the Apollo Funds and the Graham Fund, may adversely affect prevailing market prices for our common stock.

Delaware law and our organizational documents may impede or discourage a takeover, which could deprive our investors of the opportunity to receive a premium for their shares.

We are a Delaware corporation, and the anti-takeover provisions of Delaware law impose various impediments to the ability of a third party to acquire control of us, even if a change of control would be beneficial to our existing stockholders. In addition, provisions of our amended and restated certificate of incorporation and bylaws may make it more difficult for, or prevent a third party from, acquiring control of us without the approval of our Board of Directors. Among other things, these provisions:

classify our Board of Directors so that only some of our directors are elected each year;

do not permit cumulative voting in the election of directors, which would otherwise allow less than a majority of stockholders to elect director candidates;

delegate the sole power of a majority of the Board of Directors to fix the number of directors;

provide the power of our Board of Directors to fill any vacancy on our board, whether such vacancy occurs as a result of an increase in the number of directors or otherwise;

authorize the issuance of blank check preferred stock without any need for action by stockholders;

eliminate the ability of stockholders to call special meetings of stockholders;

prohibit stockholders from acting by written consent if less than 50.1% of our outstanding common stock is controlled by the Apollo Funds; and

establish advance notice requirements for nominations for election to our Board of Directors or for proposing matters that can be acted on by stockholders at stockholder meetings.

In addition, under the amended and restated stockholders agreement, until such time as the Apollo Funds no longer beneficially own at least 25% of the total number of shares of our common stock outstanding at any time, the approval of a majority of the members of our Board of Directors, which must include the approval of a majority of the directors nominated by the Apollo Funds voting on the matter, is required for certain business combinations and to approve certain other matters. See [Management](#) [Apollo Approval of Certain Matters and Rights to Nominate](#)

Edgar Filing: BERRY PLASTICS GROUP INC - Form S-1

Certain Directors, Certain Relationships and Related Party Transactions Stockholders Agreement and Description of Capital Stock Composition of Board of Directors; Election and Removal of Directors.

The foregoing factors, as well as the significant common stock ownership by our equity sponsor, could impede a merger, takeover or other business combination or discourage a potential investor from making a tender offer for

Table of Contents

our common stock, which, under certain circumstances, could reduce the market value of our common stock. See Description of Capital Stock and Certain Relationships and Related Party Transactions Stockholders Agreement.

We may issue shares of preferred stock in the future, which could make it difficult for another company to acquire us or could otherwise adversely affect holders of our common stock, which could depress the price of our common stock.

Our amended and restated certificate of incorporation authorizes us to issue one or more series of preferred stock. Our Board of Directors has the authority to determine the preferences, limitations and relative rights of shares of preferred stock and to fix the number of shares constituting any series and the designation of such series, without any further vote or action by our stockholders. Our preferred stock could be issued with voting, liquidation, dividend and other rights superior to the rights of our common stock. The potential issuance of preferred stock may delay or prevent a change in control of us, discouraging bids for our common stock at a premium to the market price, and materially and adversely affect the market price and the voting and other rights of the holders of our common stock.

We are a holding company and rely on dividends and other payments, advances and transfers of funds from our subsidiaries to meet our obligations and pay dividends.

Berry Plastics Group, Inc. has no direct operations and no significant assets other than ownership of 100% of the stock of Berry Plastics Corporation. Because Berry Plastics Group, Inc. conducts its operations through its subsidiaries, it depends on those entities for dividends and other payments to generate the funds necessary to meet its financial obligations, and to pay any dividends with respect to our common stock. Legal and contractual restrictions in the agreements governing current and future indebtedness of Berry Plastics Group, Inc.'s subsidiaries, as well as the financial condition and operating requirements of Berry Plastics Group, Inc.'s subsidiaries, may limit Berry Plastics Group, Inc.'s ability to obtain cash from its subsidiaries. The earnings from, or other available assets of, Berry Plastics Group, Inc.'s subsidiaries may not be sufficient to pay dividends or make distributions or loans to enable Berry Plastics Group, Inc. to pay dividends going forward.

If securities analysts do not publish research or reports about our company, or if they issue unfavorable commentary about us or our industry or downgrade our common stock, the price of our common stock could decline.

The trading market for our common stock depends in part on the research and reports that third-party securities analysts publish about our company and our industry. One or more analysts could downgrade our common stock or issue other negative commentary about our company or our industry. In addition, we may be unable or slow to attract research coverage. Alternatively, if one or more of these analysts cease coverage of our company, we could lose visibility in the market. As a result of one or more of these factors, the trading price of our common stock could decline.

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements which involve risks and uncertainties. You can identify forward-looking statements because they contain words such as believes, expects, may, will, should, would, could, seeks, approximately, intends, anticipates or similar expressions that relate to our strategy, plans or intentions. All statements we make relating to our estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results or to our expectations regarding future industry trends are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. These forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and it is impossible for us to anticipate all factors that could affect our actual results. All forward-looking statements are based upon information available to us on the date of this prospectus.

Important factors that could cause actual results to differ materially from our expectations, which we refer to as cautionary statements, are disclosed under Risk Factors and elsewhere in this prospectus, including, without limitation, in conjunction with the forward-looking statements included in this prospectus. All forward-looking information in this prospectus and subsequent written and oral forward-looking statements attributable to us, or to persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results include:

risks associated with our substantial indebtedness and debt service;

changes in prices and availability of resin and other raw materials and our ability to pass on changes in raw material prices on a timely basis;

performance of our business and future operating results;

risks related to our acquisition strategy and integration of acquired businesses;

reliance on unpatented know-how and trade secrets;

increases in the cost of compliance with laws and regulations, including environmental, safety, production and product laws and regulations;

risks related to disruptions in the overall economy and the financial markets may adversely impact our business;

catastrophic loss of one of our key manufacturing facilities, natural disasters and other unplanned business interruptions;

risks of competition, including foreign competition, in our existing and future markets;

general business and economic conditions, particularly an economic downturn;

the ability of our insurance to cover fully our potential exposures; and

the other factors discussed in the section of this prospectus titled Risk Factors.

We caution you that the foregoing list of important factors may not contain all of the material factors that are important to you. In addition, in light of these risks and uncertainties, the matters referred to in the forward-looking statements contained in this prospectus may not in fact occur. Accordingly, investors should not place undue reliance on those statements. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as otherwise required by law.

Table of Contents

USE OF PROCEEDS

The selling stockholders will receive all of the net proceeds from the sales of shares of our common stock offered by them pursuant to this prospectus. We will not receive any proceeds from the sale of these shares of our common stock, but we will bear the costs associated with this registration in accordance with the amended and restated stockholders agreement. The selling stockholders will bear any underwriting commissions and discounts attributable to their sale of our common stock and the company will bear the remaining expenses. See Principal and Selling Stockholders.

Table of Contents

DIVIDEND POLICY

We historically have not paid dividends on our common stock and we do not currently anticipate paying dividends on our common stock. Any declaration and payment of future dividends to holders of our common stock will be at the discretion of our Board of Directors and will depend on many factors, including our financial condition, earnings, capital requirements, level of indebtedness, statutory and contractual restrictions applying to the payment of dividends and other considerations that our Board of Directors deems relevant. Because we are a holding company and have no direct operations, we will only be able to pay dividends from our available cash on hand and any funds we receive from our subsidiaries. The terms of our indebtedness may restrict us from paying dividends, or may restrict our subsidiaries from paying dividends to us. Under Delaware law, dividends may be payable only out of surplus, which is our net assets minus our liabilities and our capital, or, if we have no surplus, out of our net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year. See Description of Certain Indebtedness, and Description of Capital Stock Common Stock.

Table of Contents**PRICE RANGE OF COMMON STOCK**

Our common stock began trading on the NYSE under the symbol BERY on October 4, 2012. Prior to that, there was no public market for our common stock. The following table sets forth, for the periods indicated, the high and low sale prices per share of our common stock as reported on the NYSE since October 4, 2012:

2013	High	Low
First Quarter (beginning October 4, 2012)	\$ 16.05	\$ 13.12
Second Quarter	\$ 20.21	\$ 15.91
Third Quarter	\$ 24.27	\$ 16.37
Fourth Quarter (through July 8, 2013)	\$ 23.03	\$ 21.95

On July 8, 2013, the closing price for our common stock as reported on the NYSE was \$22.87 per share. As of July 3, 2013, we had approximately 194 holders of record of our common stock.

Table of Contents**CAPITALIZATION**

The following table sets forth cash and cash equivalents and capitalization as of March 30, 2013 on a historical basis.

This table should be read together with Use of Proceeds, Selected Historical Consolidated Financial Data, Risk Factors, Management's Discussion and Analysis of Financial Condition and Results of Operations, and the combined financial statements and notes to those statements included elsewhere in this prospectus. The following table does not include any proceeds from this offering, as the selling stockholders will receive all of the net proceeds from the sales of shares of our common stock pursuant to this prospectus.

(\$ in millions)	(Unaudited) As of March 30, 2013
Cash and cash equivalents	\$ 16
Long-term debt, including current portion:	
Term loan	2,528
Revolving line of credit	51
9 1/2% Second Priority Notes	500
9 3/4% Second Priority Notes	800
Senior Unsecured Term Loan	18
Debt discount, net	(8)
Capital leases and other	110
Total debt	3,999
Stockholders' deficit:	
Common stock; \$0.01 par value; 400,000,000 shares authorized; 113,164,457 shares issued and 113,093,973 shares outstanding as of March 30, 2013	1
Paid-in capital	301
Notes receivable - common stock	(1)
Noncontrolling interest	3
Accumulated deficit	(570)
Accumulated other comprehensive loss	(49)
Total stockholders' deficit	(315)
Total capitalization	\$ 3,684

Table of Contents**SELECTED HISTORICAL CONSOLIDATED FINANCIAL DATA**

The following table presents our selected historical consolidated financial data. This information should be read in conjunction with, and is qualified by reference to, the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the audited and unaudited consolidated financial statements of Berry Plastics Group, Inc. and their notes included elsewhere in this prospectus, as well as the other financial information included in this prospectus. We derived the consolidated statement of operations data for fiscal 2010, 2011 and 2012 as well as the consolidated balance sheet data at September 29, 2012 and October 1, 2011 from our audited consolidated financial statements included elsewhere in this prospectus. We derived the audited consolidated statement of operations data for fiscal 2008 and 2009 as well as the audited consolidated balance sheet data at October 2, 2010, September 26, 2009 and September 27, 2008 from our audited consolidated financial statements not included in this prospectus. We derived the unaudited consolidated statement of operations data for the two quarterly periods ended March 30, 2013 and March 31, 2012, as well as the unaudited consolidated balance sheet data at March 30, 2013 unaudited interim consolidated financial statements included elsewhere in this prospectus. We derived the unaudited interim consolidated balance sheet data at March 31, 2012 from our unaudited interim consolidated financial statements not included in this prospectus. The unaudited interim consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and reflect all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the financial information set forth in those statements. Our historical results are not necessarily indicative of results to be expected in any future period, and results for the two quarterly periods ended March 30, 2013 are not necessarily indicative of results to be expected for the full year.

(\$ in millions)	Two Quarterly Periods Ended				Year Ended		
	March 30, 2013	March 31, 2012	September 29, 2012	October 1, 2011	October 2, 2010	September 26, 2009	September 27, 2008

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

You should read the following discussion in conjunction with the consolidated financial statements of Berry Plastics Group, Inc. and its subsidiaries and the accompanying notes thereto, which information is included elsewhere herein. This discussion contains forward-looking statements and involves numerous risks and uncertainties, including, but not limited to, those described in the Risk Factors section. Our actual results may differ materially from those contained in any forward-looking statements.

Overview

We are a leading provider of value-added plastic consumer packaging and engineered materials with a 30-year track record of delivering high-quality customized solutions to our customers. Our products utilize our proprietary research and development platform, which includes a continually evolving library of Berry-owned molds, patents, manufacturing techniques and technologies. We sell our solutions predominantly into consumer-oriented end markets, such as food and beverage, healthcare and personal care, which together represented 76% of our sales in the 12 months ended March 30, 2013. We believe our customers look to us for solutions that have high consumer impact in terms of form, function and branding. Representative examples of our products include thermoform drink cups, thin-wall containers, blow-molded bottles, specialty closures, prescription vials, specialty plastic films, adhesives and corrosion protection materials. We have also been one of the most active acquirers of plastic packaging businesses globally, having acquired more than 30 businesses since 1988, including 13 acquisitions completed in the past seven years. We believe our focus on delivering unique and customized solutions to our customers and our ability to successfully integrate strategic acquisitions have enabled us to grow at rates in excess of our industry peers, having achieved a compound annual net sales growth rate over the last 12 years of 22%.

We believe that we have created one of the largest product libraries in our industry, allowing us to be a comprehensive solution provider to our customers. We have more than 13,000 customers, which consist of a diverse mix of leading national, mid-sized regional and local specialty businesses. The size and scope of our customer network allow us to introduce new products we develop or acquire to a vast audience that is familiar with, and we believe partial to, our brand. In fiscal year 2012, no single customer represented more than 3% of net sales and our top ten customers represented less than 17% of net sales. We currently supply our customers through 84 strategically located manufacturing facilities throughout the United States (70 locations) and select international locations (14 locations). We believe our manufacturing processes and our ability to leverage our scale to reduce expenses on items, such as raw materials, position us as a low-cost manufacturer relative to our competitors. For example, we believe based on management estimates that we are one of the largest global purchasers of plastic resins, at approximately 2.5 billion pounds per year, which gives us both unique insight into this market as well as scale purchasing savings.

We enjoy market leadership positions in many of our markets, with approximately 76% of net sales during the 12 months ended March 30, 2013 in markets in which management estimates we held the #1 or #2 market position. We look to build leadership in markets where we have a strategic angle and can achieve attractive profit margins through technology and design leadership and a competitive cost position such as highly decorated plastic packaging. We believe that our product and technology development capabilities are best-in-class, supported by the newly built Berry Research and Design Center and a network of more than 200 engineers and material scientists. We seek to have our product and technology development efforts provide a meaningful impact on sales. An example of our focused new product development is our thermoform plastic drink cup technology. We identified an unfulfilled need in the market with an opportunity for significant return on invested capital and ultimately introduced the technology to the market in 2001. This product line has grown steadily since introduction and generated \$382 million of net sales during the 12 months ended March 30, 2013.

Table of Contents

Our success is driven by our more than 15,000 employees. Over the past 30 years, we have developed a culture that incorporates both loyalty to best practices and acceptance of new perspectives, which we have often identified from the companies we have acquired. Our employees hold themselves accountable to exceed the expectations of our customers and to create value for our stakeholders.

We believe the successful execution of our business strategy has enabled us to outperform the growth of our industry over the past decade with Adjusted EBITDA increasing from \$80 million in 2000 to \$810 million for the 12 months ended March 30, 2013, representing a CAGR of 21%. For the 12 months ended March 30, 2013, Berry had net sales of \$4.7 billion, Adjusted EBITDA of \$810 million, net income of \$22 million and Adjusted Free Cash Flow of \$283 million. For a reconciliation of Adjusted EBITDA and Adjusted Free Cash Flow to the nearest GAAP measures, see Liquidity and Capital Resources.

Executive Summary

Business. We operate in the following four segments: Rigid Open Top, Rigid Closed Top (together our Rigid Packaging business), Engineered Materials, and Flexible Packaging. The Rigid Packaging business sells primarily containers, foodservice items, housewares, closures, overcaps, bottles, prescription containers, and tubes. Our Engineered Materials segment sells specialty tapes, adhesives, pipeline corrosive protection solutions, polyethylene based film products, and waste bags. The Flexible Packaging segment sells primarily high barrier, multilayer film products as well as printed bags and pouches.

Raw Material Trends. Our primary raw material is plastic resin. Polypropylene and polyethylene account for approximately 90% of our plastic resin purchases based on the pounds purchased. Plastic resins are subject to price fluctuations, including those arising from supply shortages and changes in the prices of natural gas, crude oil and other petrochemical intermediates from which resins are produced. The average industry prices, as published in Chem Data, per pound were as follows by fiscal year:

	Polyethylene Butene Film			Polypropylene		
	2013	2012	2011	2013	2012	2011
1st quarter	\$.69	\$.70	\$.68	\$.76	\$.79	\$.78
2nd quarter	.74	.76	.72	.96	.88	.95
3rd quarter		.72	.79		.85	1.08
4th quarter		.68	.73		.71	.98

Due to differences in the timing of passing through resin cost changes to our customers on escalator/de-escalator programs, segments are negatively impacted in the short term when plastic resin costs increase and are positively impacted when plastic resin costs decrease. Recently, the company has made progress towards shortening these timing lags, but we still have a number of customers whose prices adjust quarterly or less frequently based on various index prices. This timing lag in passing through raw material cost changes could affect our results as plastic resin costs fluctuate.

Outlook. The company is impacted by general economic and industrial growth, plastic resin availability and affordability, and general industrial production. Our business has both geographic and end market diversity, which reduces the effect of any one of these factors on our overall performance. Our results are affected by our ability pass through raw material cost changes to our customers, improve manufacturing productivity and adapt to volume changes of our customers. We seek to improve our overall profitability by implementing cost reduction programs for our manufacturing, selling and general and administrative expenses.

Table of Contents

Recent Developments

Interest Rate Swap

In February 2013, the company entered into an interest rate swap transaction to protect \$1 billion of outstanding variable rate term loan debt from future interest rate volatility. The agreement swaps the greater of a three-month variable LIBOR contract or 1.00% for a fixed three-year rate of 2.355%, with an effective date in May 2016 and expiration in May 2019. In June 2013, the company elected to settle this derivative instrument and received \$16 million as a result of this settlement. The offset will be included in Accumulated Other Comprehensive Loss and will be amortized to Interest Expense beginning in May 2016 through May 2019.

Secondary Public Offering

In our April 2013 public offering, the Apollo Funds and the Graham Fund sold 18,975,000 shares of common stock at \$17.00 per share, which included 2,475,000 shares purchased by the underwriters upon the exercise in full of their option to purchase additional shares. The selling stockholders received all of the proceeds from the April 2013 public offering, which, net of underwriting fees, totaled \$311 million. The Company received no proceeds and incurred fees of approximately \$1 million related to the April 2013 public offering.

Acquisitions

We have a long history of acquiring and integrating companies. We maintain an opportunistic acquisition strategy, which is focused on improving our long-term financial performance, enhancing our market positions and expanding our product lines or, in some cases, providing us with a new or complementary product line. In our acquisitions, we seek to obtain businesses for attractive post-synergy multiples, creating value for our stockholders from synergy realization, leveraging the acquired products across our customer base, creating new platforms for future growth, and assuming best practices from the businesses we acquire.

The company has included the expected benefits of acquisition integrations within our unrealized synergies, which are in turn recognized in earnings after an acquisition has been fully integrated. While the expected benefits on earnings is estimated at the commencement of each transaction, once the execution of the plan and integration occur, we are generally unable to accurately estimate or track what the ultimate effects have been due to system integrations and movements of activities to multiple facilities. As historical business combinations have not allowed us to accurately separate realized synergies compared to what was initially identified, we measure the synergy realization based on the overall segment profitability post integration. In connection with our acquisitions, we have in the past and may in the future incur charges related to reductions and rationalizations.

We also include the expected impact of our restructuring plans within our unrealized synergies which are in turn recognized in earnings after the restructuring plans are completed. While the expected benefits on earnings is estimated at the commencement of each plan, due to the nature of the matters we are generally unable to accurately estimate or track what the ultimate effects have been due to movements of activities to multiple facilities.

Financial Statement Presentation

The following paragraphs provide a brief description of certain items and accounting policies that appear in our financial statements and general factors that impact these items.

Net Sales

Net sales represent gross sales less deductions taken for sales returns and allowances, sales term discounts and incentive rebates programs.

Table of Contents

Cost of Sales

Cost of sales includes all costs of manufacturing to bring a product to its sale condition. Such costs include direct and indirect materials, direct and indirect labor costs, including fringe benefits, supplies, utilities, depreciation, insurance, pension and postretirement benefits, and other manufacturing related costs. The largest component of our costs of sales is the cost of materials, and the most significant component of this is plastic resin.

Selling, general and administrative expenses

Selling, general and administrative expenses primarily include sales and marketing, finance and administration, research and development and information technology costs. Our major cost elements include salary and wages, fringe benefits, travel and information technology costs.

Amortization expense

Amortization expense includes the amortization of the company's definite lived intangible assets.

Restructuring and impairment charges

Restructuring and impairment charges include severance, non-cash impairment charges and other expenses associated with the company's facility rationalization programs and also includes non-cash impairment charges for goodwill impairments.

Other operating expenses

Other operating expenses primarily consists of management fees to our sponsors, acquisition integration expenses and transaction costs associated with acquisitions.

Other expense (income)

Other expense (income) primarily consists of gains or losses on the extinguishment of debt and the changes in the fair value of any derivative instruments.

Interest expense

Interest expense represents the cash and non-cash interest for all of the company's outstanding indebtedness.

Comparison of the Two Quarterly Periods Ended March 30, 2013 (the YTD) and the Two Quarterly Periods Ended March 31, 2012 (the Prior YTD)

Net Sales. Net sales decreased from \$2,320 million in the Prior YTD to \$2,222 million in the YTD. This decrease is primarily attributed to lower selling prices of 3% as a result of lower plastic resin costs and a volume decline of 1% related to the year-over-year adverse change in weather and reductions in raw material content partially offset by volume gains in certain of our product lines. The following discussion in this section provides a comparison of net sales by business segment.

Table of Contents

	March 30, 2013	Two Quarterly Periods Ended March 31, 2012	\$Change	% Change
Net sales:				
Rigid Open Top	\$ 516	\$ 583	\$ (67)	(11%)
Rigid Closed Top	666	711	(45)	(6%)
Rigid Packaging	\$ 1,182	\$ 1,294	\$ (112)	(9%)
Engineered Materials	679	665	14	2%
Flexible Packaging	361	361		%
Total net sales	\$ 2,222	\$ 2,320	\$ (98)	(4%)

Net sales in the Rigid Open Top business decreased from \$583 million in the Prior YTD to \$516 million in the YTD as a result of net selling price decreases of 7% due to lower resin costs, a volume decline of 2% and product realignment of 2%. The volume decline is primarily attributed to the year-over-year adverse change in weather discussed above. Net sales in the Rigid Closed Top business decreased from \$711 million in the Prior YTD to \$666 million in the YTD as a result of net selling price decreases of 3% due to lower resin costs and a volume decline of 3%. The volume decline is primarily attributed to general market softness and a reduction in raw material content discussed above. The Engineered Materials business net sales increased from \$665 million in the Prior YTD to \$679 million in the YTD. The Engineered Material volume gains in our tapes and stretch films products and product realignment of 2% were partially offset by volume declines attributed to factors discussed above. Net sales in the Flexible Packaging business was \$361 million in the Prior YTD and the YTD as a result of a modest volume decline attributed to factors discussed above offset by acquisition volume related to our Prime Label acquisition.

Operating Income. Operating income increased from \$120 million (5% of net sales) in the Prior YTD to \$179 million (8% of net sales) in the YTD. This increase is primarily attributed to \$10 million from the relationship of net selling price to raw material costs, \$5 million decrease in depreciation expense, \$4 million decrease in amortization expense, \$23 million decrease in business integration, \$3 million of improved manufacturing efficiencies, \$1 million from acquisitions and a non-cash impairment charge of \$17 million in the Prior YTD partially offset by \$5 million from volume declines described above and \$1 million of increased selling, general and administrative expenses. The following discussion in this section provides a comparison of operating income by business segment.

	March 30, 2013	Two Quarterly Periods Ended March 31, 2012	\$Change	% Change
Operating income (loss):				
Rigid Open Top	\$ 60	\$ 72	\$ (12)	(17%)
Rigid Closed Top	54	29	25	86%
Rigid Packaging	\$ 114	\$ 101	\$ 13	13%
Engineered Materials	57	23	34	148%
Flexible Packaging	8	(4)	12	300%
Total operating income	\$ 179	\$ 120	\$ 59	49%

Operating income for the Rigid Open Top business decreased from \$72 million (12% of net sales) in the Prior YTD to \$60 million (12% of net sales) in the YTD. This decrease is primarily attributed to a \$5 million decline in the relationship of net selling price to raw material costs, \$2 million from volume declines described above, \$1 million decline in operating performance in manufacturing, \$3 million increase of selling, general and administrative expenses primarily attributed to costs associated with new product innovation and \$1 million increase in depreciation and amortization expense. Operating income for the Rigid Closed Top business increased from \$29 million (4% of net sales) in the Prior YTD to \$54 million (8% of net sales) in the YTD. This increase is primarily attributed to a \$18 million decline in business integration expenses, \$4 million improvement

Table of Contents

in the relationship of net selling price to raw material costs, \$3 million reduction of depreciation and amortization expense, \$2 million of improved operating performance in manufacturing and by \$1 million decrease in selling, general and administrative expenses partially offset \$3 million from volume declines described above. Operating income for the Engineered Materials business improved from \$23 million (3% of net sales) in the Prior YTD to \$57 million (8% of net sales) in the YTD. This increase is primarily attributed to a \$17 million non-cash impairment in the Prior YTD, \$1 million from acquisitions, \$9 million improvement in the relationship of net selling price to raw material costs, \$6 million of improved operating performance in manufacturing, \$3 million decrease in selling, general and administrative expenses and \$3 million decrease in depreciation and amortization expense partially offset by \$4 million increase in business integration. Operating loss for the Flexible Packaging business improved from \$4 million loss (-1% of net sales) in the Prior YTD to operating income of \$8 million (2% of net sales) in the YTD. This improvement is primarily attributed to a \$8 million reduction of business integration expense, \$3 million reduction of depreciation and amortization expense, and a \$2 million improvement in the relationship of net selling price to raw material costs partially offset by \$1 million increase of selling, general and administrative expenses.

Debt Extinguishment. Debt extinguishment was \$64 million during the YTD as a result of loss on extinguishment of debt attributed to \$37 million of call premium and penalties, \$19 million of deferred financing fees and \$8 million of debt discount related to the debt extinguishment that resulted from our incremental term loan capital restructuring and the use of the proceeds from our initial public offering.

Other Income. Other income increased from \$2 million in the Prior YTD to \$4 million in the YTD. The change is primarily related to the change in the fair value of derivative instruments.

Interest Expense. Interest expense decreased from \$166 million in the Prior YTD to \$131 million in the YTD primarily as the result of the interest savings that resulted from our incremental term loan capital restructure and initial public offering.

Income Tax Benefit. For the YTD, we recorded an income tax benefit of \$3 million or an effective tax rate of 27% compared to an income tax benefit of \$15 million or an effective tax rate of 34% in the Prior YTD. The effective tax rate for the YTD is impacted by the relative impact of discrete items and certain international entities for which a full valuation allowance is recognized.

Discussion of Results of Operations for Fiscal 2012 Compared to Fiscal 2011

Net Sales. Net sales increased from \$4,561 million in fiscal 2011 to \$4,766 million in fiscal 2012. This increase is primarily attributed to net sales from acquired businesses of 10% partially offset by a volume decline of 6%. The following discussion in this section provides a comparison of net sales by business segment.

	Fiscal Year		\$ Change	% Change
	2012	2011		
Net sales:				
Rigid Open Top	\$ 1,229	\$ 1,261	\$ (32)	(3%)
Rigid Closed Top	1,438	1,053	385	37%
Rigid Packaging	\$ 2,667	\$ 2,314	\$ 353	15%
Engineered Materials	1,362	1,451	(89)	(6%)
Flexible Packaging	737	796	(59)	(7%)
Total net sales	\$ 4,766	\$ 4,561	\$ 205	4%

Net sales in the Rigid Open Top business decreased from \$1,261 million in fiscal 2011 to \$1,229 million in fiscal 2012 as a result of a volume decline of 4% partially offset by a net selling price increases of 1%. The volume decline is primarily attributed to the company pursuing a strategy to improve profitability in products

Table of Contents

with historically lower margins. Net sales in the Rigid Closed Top business increased from \$1,053 million in fiscal 2011 to \$1,438 million in fiscal 2012 primarily as a result of net sales attributed to the Rexam SBC acquisition of 41% partially offset by a volume decline of 4%. The volume decline is primarily attributed to general market softness. The Engineered Materials business net sales decreased from \$1,451 million in fiscal 2011 to \$1,362 million in fiscal 2012 as a result of a volume decline of 8% partially offset by net selling price increases of 1% and net sales from acquired businesses of 1%. The volume decline is primarily attributed to a decrease in sales volumes due to the strategy we implemented in fiscal 2011 to improve profitability in products with historically lower margins. Net sales in the Flexible Packaging business decreased from \$796 million in fiscal 2011 to \$737 million in fiscal 2012 as a result of a volume decline of 10% partially offset by 3% net selling price increases. The volume decline is primarily due to a decrease in sales volumes due to the strategy implemented in fiscal 2011 discussed above.

Operating Income. Operating income increased from \$42 million (1% of net sales) in fiscal 2011 to \$325 million (7% of net sales) in fiscal 2012. This increase, excluding the impact from acquisitions, is primarily attributed to \$59 million from the relationship of net selling price to raw material costs, \$29 million decrease of depreciation expense, \$11 million decrease in amortization expense, \$188 million decrease in business integration and impairment charges, and \$35 million of improved manufacturing efficiencies partially offset by \$27 million from volume declines described above, \$4 million of increased selling, general and administrative expenses and \$8 million of operating loss from acquisitions. The operating income from acquisitions for periods without comparable prior year activity was negative \$8 million which includes \$29 million of selling, general and administrative expenses, \$28 million of business integration expenses, \$37 million of depreciation expense and \$14 million of amortization expense. The following discussion in this section provides a comparison of operating income by business segment.

	Fiscal Year		\$ Change	% Change
	2012	2011		
Operating income (loss):				
Rigid Open Top	\$ 159	\$ 155	\$ 4	3%
Rigid Closed Top	95	77	18	23%
Rigid Packaging	\$ 254	\$ 232	\$ 22	9%
Engineered Materials	70	(71)	141	199%
Flexible Packaging	1	(119)	120	101%
Total operating income	\$ 325	\$ 42	\$ 283	674%

Operating income for the Rigid Open Top business increased from \$155 million (12% of net sales) in fiscal 2011 to \$159 million (13% of net sales) in fiscal 2012. This increase is primarily attributed to a \$26 million improvement in the relationship of net selling price to raw material costs and \$12 million reduction of depreciation and amortization expense partially offset by a decline in manufacturing efficiencies of \$6 million, \$17 million increase in business integration expenses, volume declines described above of \$7 million and \$4 million increase of selling, general and administrative expenses. Operating income for the Rigid Closed Top business increased from \$77 million (7% of net sales) in fiscal 2011 to \$95 million (7% of net sales) in fiscal 2012. This increase is primarily attributed to a \$28 million increase of manufacturing efficiencies, \$5 million reduction of selling, general and administrative expense, \$4 million from acquisition volume and \$9 million reduction of depreciation and amortization expense partially offset by \$2 million decrease in the relationship of net selling price to raw material costs, \$9 million from the volume decline described above and \$17 million of increased business integration expense. Operating income for the Engineered Materials business improved from a loss of \$71 million (-5% of net sales) in fiscal 2011 to \$70 million (5% of net sales) in fiscal 2012. This increase is primarily attributed to a \$18 million improvement in the relationship of net selling price to raw material costs, \$14 million of improved operating performance in manufacturing, \$4 million reduction of depreciation and amortization expense and \$127 million decrease in business integration and impairment charges partially offset by \$8 million of volume decline described above, \$12 million loss from acquisition volume and \$2 million increase in selling, general and administrative expenses. Operating loss for the Flexible Packaging business

Table of Contents

improved from a loss of \$119 million (-15% of net sales) in fiscal 2011 to \$1 million (0% of net sales) in fiscal 2012. This improvement is primarily attributed to a \$17 million improvement in the relationship of net selling price to raw material costs, \$96 million reduction of business integration and impairment charges and \$16 million reduction of depreciation and amortization expense partially offset by \$4 million from the volume decline described above, \$4 million increase of selling, general and administrative expense, and a \$1 million decline in manufacturing efficiencies.

Other Expense (Income) Net. Other expense (income) improved from expense of \$61 million in fiscal 2011 to income of \$7 million in fiscal 2012. Fiscal 2011 other expense is primarily related to the loss on extinguishment of debt of \$68 million attributed to the write-off of deferred fees, debt discount and the premiums paid related to the debt extinguishment of the company's 8% Second Priority Senior Secured Notes partially offset by a gain attributed to the fair value adjustment for our interest rate swaps. The fiscal 2012 other income is primarily a contract settlement.

Interest Expense, Net. Interest expense increased slightly from \$327 million in fiscal 2011 to \$328 million in fiscal 2012.

Income Tax Expense (Benefit). Fiscal 2012, we recorded an income tax expense of \$2 million or an effective tax rate of 50% compared to an income tax benefit of \$47 million or an effective tax rate of 14% in fiscal 2011 due to the relative impact of permanent items on the pre-tax income and establishment of valuation allowance for certain foreign losses where benefits are not expected to be realized.

Net Income (Loss). Net income (loss) improved from a net loss of \$299 million in fiscal 2011 to net income of \$2 million in fiscal 2012 for the reasons discussed above.

Discussion of Results of Operations for Fiscal 2011 Compared to Fiscal 2010

Net Sales. Net sales increased to \$4,561 million for fiscal 2011 from \$4,257 million for fiscal 2010. This increase is primarily attributed to (1) increased selling prices of 9% as a result of higher plastic resin costs as noted in the Raw Material Trends section above and the company pursuing a strategy to improve product profitability in markets with historically lower margins and (2) acquisition volume growth of 5% partially offset by a base volume decline of 7%. The following discussion in this section provides a comparison of net sales by business segment.

(in millions)	Fiscal Year		\$ Change	% Change
	2011	2010		
Net sales:				
Rigid Open Top	\$ 1,261	\$ 1,160	\$ 101	9%
Rigid Closed Top	1,053	970	83	9%
Rigid Packaging	\$ 2,314	\$ 2,130	\$ 184	9%
Engineered Materials	1,451	1,457	(6)	0%
Flexible Packaging	796	670	126	19%
Total net sales	\$ 4,561	\$ 4,257	\$ 304	7%

Net sales in the Rigid Open Top business increased from \$1,160 million in fiscal 2010 to \$1,261 million in fiscal 2011 as a result of net selling price increases of 10% due to the factors noted above and acquisition growth attributed to Superfos Packaging, Inc. of 1% partially offset by a base volume decline. The base volume decline is primarily attributed to a decrease in sales volumes in various container products due to market softness partially offset by continued volume growth in thermoforming drink cups as capital investments from prior periods provided additional capacity. Net sales in the Rigid Closed Top business increased from \$970 million in fiscal 2010 to \$1,053 million in fiscal 2011 as a result of net selling price increases of 6% due to the factors noted above and acquisition volume growth attributed to Rexam SBC of 4% partially offset by a base volume decline.

Table of Contents

The base volume decline is primarily attributed to a decrease in sales volumes in closures and tubes due to softness in the personal care market. Net sales in the Engineered Materials business decreased from \$1,457 million in fiscal 2010 to \$1,451 million in fiscal 2011 as a result of a base volume decline of 11% partially offset by acquisition volume growth attributed to Pliant Corporation (Pliant) and Filmco of 3% and net selling price increases of 8% due to the factors listed above. The base volume decline is primarily attributed to a decrease in sales volumes in bags, sheeting, institutional can liners and stretch film. The bags and sheeting decreases were primarily due to the loss of the private label Wal-Mart waste bag business and our decision to exit certain sheeting businesses during fiscal 2010. The declines in institutional can liners and stretch film were primarily attributed to the company strategically addressing products with profitability that was lower than the value we believed our product provided to our customers. Net sales in the Flexible Packaging business increased from \$670 million in fiscal 2010 to \$796 million in fiscal 2011 primarily as a result of net selling price increases of 13% due to the factors listed above and acquisition growth attributed to Pliant of 19% partially offset by a base volume decline of 13%. The base volume decline is primarily attributed to a decrease in sales volumes in personal care films and barrier films. These declines were primarily attributed to the company strategically addressing products with profitability that was lower than the value we believed our products provided to our customers.

Operating Income. Operating income decreased from \$124 million in fiscal 2010 to \$42 million in fiscal 2011. This decrease is primarily attributed to a \$165 million non-cash goodwill impairment, \$11 million increase integration and business optimization expenses excluding acquisition activity for periods without comparable prior year activity, \$15 million increase in depreciation expense excluding acquisition activity for periods without comparable prior year activity and \$13 million from base volume decline described above partially offset by \$61 million from the relationship of net selling price to raw material costs, \$5 million decrease in amortization expense excluding acquisition activity for periods without comparable prior year activity, \$9 million of operating income from acquisitions for periods without comparable prior year activity and \$48 million of improved operating performance. The operating income from acquisition for periods without comparable prior year activity includes \$2 million of selling, general and administrative expenses and \$4 million of amortization expense. The following discussion in this section provides a comparison of operating income by business segment.

(in millions)	Fiscal Year			
	2011	2010	\$ Change	% Change
Operating income (loss):				
Rigid Open Top	\$ 155	\$ 124	\$ 31	25%
Rigid Closed Top	77	73	4	5%
Rigid Packaging	\$ 232	\$ 197	\$ 35	18%
Engineered Materials	(71)	4	(75)	(1,875%)
Flexible Packaging	(119)	(77)	(42)	(55%)
Total operating income	\$ 42	\$ 124	\$ (82)	(66%)

Operating income for the Rigid Open Top business increased from \$124 million (11% of net sales) for fiscal 2010 to \$155 (12% of net sales) million in fiscal 2011. This increase is primarily attributed to \$19 million of improved operating performance in manufacturing, \$22 million from the relationship of net selling price to raw material costs and \$4 million reduction of business optimization expense partially offset by \$9 million of higher selling, general and administrative expenses and \$9 million of higher depreciation and amortization expense. Operating income for the Rigid Closed Top business increased from \$73 million (8% of net sales) for fiscal 2010 to \$77 million (7% of net sales) in fiscal 2011. This increase is primarily attributed to \$16 million of improved operating performance in manufacturing partially offset by a \$2 million negative relationship of net selling price to raw material costs, \$3 million of higher selling, general and administrative costs, \$5 million increase in restructuring costs and \$4 million decline from base volume partially offset by \$4 million of operating income from acquisitions. Engineered Materials operating income declined from \$4 million (0% of net sales) of operating income for fiscal 2010 to \$71 million (negative 5% of net sales) of operating loss in fiscal 2011. This decline is primarily attributed to an \$88 million non-cash goodwill impairment charge in fiscal 2011, \$11 million

Table of Contents

increase of integration and business optimization costs and \$2 million from base volume decline described above as the majority of the segment's costs are variable partially offset by \$12 million of improved operating performance, \$9 million improvement from the relationship of net selling price to raw material costs, \$6 million of lower selling, general and administrative expenses. Operating loss for the Flexible Packaging business increased from \$77 million (negative 11% of net sales) for fiscal 2010 to \$119 million (negative 15% of net sales) in fiscal 2011. This increase is primarily attributed to a \$77 million non-cash goodwill impairment charge in fiscal 2011 and \$7 million from base volume decline partially offset by \$1 million of improved operating performance, \$32 million improvement in the relationship of net selling price to raw material costs, \$5 million from acquisitions and \$4 million of lower selling, general and administrative expenses.

Other Expense (Income), Net. Other expense of \$61 million recorded in fiscal 2011 is primarily attributed to a \$68 million loss on extinguishment of debt attributed to the write-off of \$14 million of deferred financing fees, \$17 million of non-cash debt discount and \$37 million of premiums paid related to the debt extinguishment of the company's 8¹/₈% Second Priority Senior Secured Notes. Other income recorded in fiscal 2010 is primarily attributed to a \$13 million gain related to the repurchase of debt and a \$13 million gain attributed to the fair value adjustment for our interest rate swaps. See footnote 3 to the Consolidated Financial Statements for further discussion on debt repurchases and footnote 4 to the Consolidated Financial Statements for further discussion of financial instruments and fair value measurements.

Interest Expense. Interest expense increased from \$313 million in fiscal 2010 to \$327 million in fiscal 2011 primarily as a result of increased borrowings to fund acquisitions.

Income Tax Benefit. For fiscal 2011, we recorded an income tax benefit of \$47 million or an effective tax rate of 14% compared to an income tax benefit of \$49 million or an effective tax rate of 30% in fiscal 2010. The effective tax rate is less than the statutory rate primarily attributed to the non-cash goodwill impairment charge in fiscal 2011 which is not tax deductible and the establishment of a valuation allowance for certain foreign operating losses where the benefits are not expected to be realized.

Net Loss. Net loss was \$299 million for fiscal 2011 compared to \$113 million for fiscal 2010 for the reasons discussed above.

Income Tax Matters

The company had unused United States federal operating loss carryforwards to offset future taxable income of \$911 million which begin to expire in 2026 through 2031. As of fiscal year end 2012, the company had foreign net operating loss carryforwards of \$129 million, which will be available to offset future taxable income. Alternative minimum tax credit carryforwards of \$9 million are available to the company indefinitely to reduce future years' U.S. federal income taxes. The net operating losses are subject to an annual limitation under guidance from the Internal Revenue Code, however the annual limitation is in excess of the net operating loss, so effectively no limitation exists. As part of the effective tax rate calculation, if we determine that a deferred tax asset arising from temporary differences is not likely to be utilized, we will establish a valuation allowance against that asset to record it at its expected realizable value. The company has not provided a valuation allowance on its net federal net operating loss carryforwards in the United States because it has determined that future reversals of its temporary taxable differences will occur in the same periods and are of the same nature as the temporary differences giving rise to the deferred tax assets. Our valuation allowance against deferred tax assets was \$51 million and \$43 million at the end of fiscal 2012 and 2011, respectively, related to certain foreign and state operating loss carryforwards.

Liquidity and Capital Resources

Senior Secured Credit Facility

The Company's senior secured credit facilities consist of \$2.5 billion term loan and \$650 million asset based revolving line of credit (Credit Facility). \$1.1 billion of the term loan matures in April 2015, \$1.4 billion of the

Table of Contents

term loan matures in February 2020 and the revolving line of credit matures in June 2016, subject to certain conditions. The availability under the revolving line of credit is the lesser of \$650 million or based on a defined borrowing base which is calculated based on available accounts receivable and inventory. The revolving line of credit allows up to \$130 million of letters of credit to be issued instead of borrowings under the revolving line of credit. At March 30, 2013, the Company had \$51 million outstanding on the revolving credit facility, \$43 million outstanding letters of credit and a \$38 million borrowing base reserve providing unused borrowing capacity of \$518 million under the revolving line of credit. The Company was in compliance with all covenants as of March 30, 2013.

Our fixed charge coverage ratio, as defined in the revolving credit facility, is calculated based on a numerator consisting of adjusted EBITDA less pro forma adjustments, income taxes paid in cash and capital expenditures, and a denominator consisting of scheduled principal payments in respect of indebtedness for borrowed money, interest expense and certain distributions. We are obligated to sustain a minimum fixed charge coverage ratio of 1.0 to 1.0 under the revolving credit facility at any time when the aggregate unused capacity under the revolving credit facility is less than 10% of the lesser of the revolving credit facility commitments and the borrowing base (and for 10 business days following the date upon which availability exceeds such threshold) or during the continuation of an event of default. At March 30, 2013, the Company had unused borrowing capacity of \$518 million under the revolving credit facility and thus was not subject to the minimum fixed charge coverage ratio covenant. Our fixed charge ratio was 1.9 to 1.0 at March 30, 2013.

Despite not having financial maintenance covenants, our debt agreements contain certain negative covenants. The failure to comply with these negative covenants could restrict our ability to incur additional indebtedness, effect acquisitions, enter into certain significant business combinations, make distributions or redeem indebtedness. The term loan facility contains a negative covenant first lien secured leverage ratio covenant of 4.0 to 1.0 on a pro forma basis for a proposed transaction, such as an acquisition or incurrence of additional first lien debt. Our first lien secured leverage ratio was 3.3 to 1.0 at March 30, 2013.

A key financial metric utilized in the calculation of the first lien leverage ratio is Adjusted EBITDA as defined in the Company's senior secured credit facilities. The following table reconciles our Adjusted EBITDA for the four quarters and quarterly period ended March 30, 2013 to net income:

	Fiscal 2012	March 30, 2013	
		Four Quarters Ended	Quarterly Period Ended
Adjusted EBITDA	\$ 803	\$ 810	\$ 202
Net interest expense	(328)	(294)	(61)
Depreciation and amortization	(355)	(351)	(85)
Income tax expense	(2)	(14)	(2)
Business optimization and other expense	(53)	(27)	(2)
Restructuring and impairment	(31)	(11)	(1)
Extinguishment of debt		(64)	(48)
Pro forma acquisitions	(6)	(4)	
Unrealized cost savings	(26)	(22)	(2)
Net income	\$ 2	\$ 23	\$ 1
Cash flow from operating activities	\$ 479	\$ 490	\$ 78
Net additions to property, plant, and equipment	(200)	(207)	(62)
Adjusted free cash flow	\$ 279	\$ 283	\$ 16
Cash flow from investing activities	(255)	(285)	(62)
Cash flow from financing activities	(179)	(221)	(32)

While the determination of appropriate adjustments in the calculation of Adjusted EBITDA is subject to interpretation under the terms of the Credit Facility, management believes the adjustments described above are in

Table of Contents

accordance with the covenants in the Credit Facility. Adjusted EBITDA should not be considered in isolation or construed as an alternative to our net income (loss) or other measures as determined in accordance with GAAP. In addition, other companies in our industry or across different industries may calculate bank covenants and related definitions differently than we do, limiting the usefulness of our calculation of Adjusted EBITDA as a comparative measure.

Tax Receivable Agreement

The Company expects to pay between \$300 million and \$350 million in related to the TRA over the next five years. The payment range is based on the Company's assumptions using various items, including valuation analysis and current tax law. Payments under the TRA are not conditioned upon the parties' continued ownership of the Company. The Company had made \$5 million of payments related to the TRA as of March 30, 2013.

Contractual Obligations and Off Balance Sheet Transactions

Our contractual cash obligations at the end of fiscal 2012, giving effect to our initial public offering in October 2012 and the debt restructuring we completed in February 2013, are summarized in the following table.

	Payments due by period as of the end of fiscal 2012				
	Total	< 1 year	1-3 years	4-5 years	> 5 years
Long-term debt, excluding capital leases	\$ 3,964	\$ 23	\$ 1,189	\$ 115	\$ 2,637
Capital leases ^(a)	104	30	50	17	7
Fixed interest rate payments ^(b)	1,109	170	256	319	364
Variable interest rate payments ^(c)	293	52	136	47	58
Operating leases	289	46	68	56	119
Funding of pension and other postretirement obligations ^(d)	8	8			
Total contractual cash obligations	\$ 5,767	\$ 329	\$ 1,699	\$ 554	\$ 3,185

(a) Includes anticipated interest of \$17 million over the life of the capital leases.

(b) Includes variable rate debt subject to interest rate swap agreements.

(c) Based on applicable interest rates in effect end of fiscal 2012.

(d) Pension and other postretirement contributions have been included in the above table for the next year. The amount is the estimated contributions to our defined benefit plans. The assumptions used by the actuary in calculating the projection includes weighted average return on pension assets of approximately 8% for 2012. The estimation may vary based on the actual return on our plan assets. See Note 9 to the Consolidated or Combined Financial Statements including in this prospectus under [Index to Consolidated Financial Statements](#) for more information on these obligations.

Cash Flows from Operating Activities

Net cash provided by operating activities increased from \$155 million in the Prior YTD to \$165 million in the YTD. The change is primarily attributed to improved operating performance partially offset by additional working capital.

Net cash from operating activities was \$479 million for fiscal 2012 compared to \$327 million of cash flows provided by operating activities for fiscal 2011. The change is primarily the result of improved profitability, excluding non-cash charges.

Net cash provided by operating activities was \$327 million for fiscal 2011 compared to \$112 million of cash flows provided by operating activities for fiscal 2010. The change is primarily the result of an improvement in working capital and improved profitability, excluding non-cash charges.

Table of Contents

Cash Flows from Investing Activities

Net cash used in investing activities increased from \$91 million in the Prior YTD to \$125 million in the YTD primarily as a result of acquisition of Prime Label. Our capital expenditures are forecasted at \$230 million for fiscal 2013 and will be funded from cash flows from operating activities and existing liquidity.

Net cash used for investing activities was \$255 million for fiscal 2012 compared to net cash used of \$523 million for fiscal 2011. The change is primarily a result of the acquisitions in fiscal 2011 partially offset by higher capital expenditures fiscal 2012.

Net cash used for investing activities was \$523 million for fiscal 2011 compared to net cash used of \$852 million for fiscal 2010. The change is primarily a result of the acquisitions and higher capital spending in fiscal 2010 partially offset by the acquisitions of Rexam SBC and Filmco in fiscal 2011.

Cash Flows from Financing Activities

Net cash used in financing activities was \$74 million in the Prior YTD compared to \$111 million in the YTD. The YTD change is primarily attributed to proceeds we raised in our initial public offering and incremental term loan capital restructure, which we utilized to repurchase the 11% Senior Subordinated Notes, Second Priority Senior Secured Floating Rate Notes, First Priority Senior Secured Floating Rate Notes, 10¹/₄% Senior Subordinated and 8¹/₄% First Priority Senior Secured Notes.

Net cash used for financing activities was \$179 million for fiscal 2012 compared to \$90 million of cash provided by financing activities for fiscal 2011. This change is primarily attributed to the net cash used for repayment of the revolving line of credit in fiscal 2012.

Net cash provided by financing activities was \$90 million for fiscal 2011 compared to net cash provided by financing activities of \$878 million for fiscal 2010. This change is primarily attributed to the issuance of the 9³/₄% Second Priority Notes in fiscal 2010 partially offset by borrowing on the existing line of credit to fund the Rexam SBC acquisition in fiscal 2011.

In connection with the initial public offering, we entered into an income tax receivable agreement that will provide for the payment by us to our existing stockholders, option holders and holders of our stock appreciation rights of 85% of the amount of cash savings, if any, in U.S. federal, foreign, state and local income tax that we actually realize (or are deemed to realize in the case of a change of control) as a result of the utilization of our and our subsidiaries' net operating losses attributable to periods prior to this offering. We expect to pay between \$300 and \$350 million in cash related to this agreement over the next five years, based on our current taxable income estimates, and will record a liability on our consolidated balance sheet for 85% of our net operating losses. We do not expect material payments related to this agreement to occur during fiscal 2013.

Based on our current level of operations, we believe that cash flow from operations and available cash, together with available borrowings under our senior secured credit facilities, will be adequate to meet our short-term liquidity needs over the next twelve months. We base such belief on historical experience and the funds available under the revolving credit facility. In addition we believe that we have the business strategy and resources to generate free cash flow from operations in the long term. We do not expect this free cash flow to be sufficient to cover all long-term debt obligations and intend to refinance these obligations prior to maturity. However, we cannot predict our future results of operations and our ability to meet our obligations involves numerous risks and uncertainties, including, but not limited to, those described under Risk Factors. In particular, increases in the cost of resin which we are unable to pass through to our customers on a timely basis or significant acquisitions could severely impact our liquidity. At the end of fiscal 2012, our cash balance was \$87 million, and we had unused borrowing capacity of \$426 million under our revolving line of credit.

Table of Contents

Critical Accounting Policies and Estimates

We disclose those accounting policies that we consider to be significant in determining the amounts to be utilized for communicating our consolidated financial position, results of operations and cash flows in the first note to our consolidated financial statements included elsewhere herein. Our discussion and analysis of our financial condition and results of operations are based on our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of financial statements in conformity with these principles requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Actual results are likely to differ from these estimates, but management does not believe such differences will materially affect our financial position or results of operations. We believe that the following accounting policies are the most critical because they have the greatest impact on the presentation of our financial condition and results of operations.

Revenue Recognition. Revenue from the sales of products is recognized at the time title and risks and rewards of ownership pass to the customer (either when the products reach the free-on-board shipping point or destination depending on the contractual terms), there is persuasive evidence of an arrangement, the sales price is fixed and determinable and collection is reasonably assured.

Accrued Rebates. We offer various rebates to our customers in exchange for their purchases. These rebate programs are individually negotiated with our customers and contain a variety of different terms and conditions. Certain rebates are calculated as flat percentages of purchases, while others include tiered volume incentives. These rebates may be payable monthly, quarterly, or annually. The calculation of the accrued rebate balance involves significant management estimates, especially where the terms of the rebate involve tiered volume levels that require estimates of expected annual sales. These provisions are based on estimates derived from current program requirements and historical experience. We use all available information when calculating these reserves. Our accrual for customer rebates was \$68 and \$60 as of the end of fiscal 2012 and 2011, respectively.

Impairments of Long-Lived Assets. In accordance with the guidance from the FASB for the impairment or disposal of long-lived assets we review long-lived assets for impairment whenever events or changes in circumstances indicate the carrying amount of such assets may not be recoverable. Impairment losses are recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. The impairment loss is measured by comparing the fair value of the asset to its carrying amount. We recognized non-cash asset impairment of long-lived assets of \$20 million, \$35 million and \$19 million in fiscal 2012, 2011 and 2010, respectively.

Goodwill and Other Indefinite Lived Intangible Assets. We are required to perform a review for impairment of goodwill and other indefinite lived intangibles to evaluate whether events and circumstances have occurred that may indicate a potential impairment, or on an annual basis. Goodwill is measured to determine if the carrying value of the reporting unit exceeds its fair value on an annual basis, and if any potential impairment is warranted at a Step 2 test level. Other indefinite lived intangibles are considered to be impaired if the carrying value exceeds the fair value.

In accordance with our policy, we completed our most recent annual evaluation for impairment of goodwill as of the first day of the fourth fiscal quarter of 2012. We utilized a six year discounted cash flow analysis with a terminal year in combination with a comparable company market approach to determine the fair value of our reporting units. At the end of fiscal 2012, we had four operating segments, Rigid Open Top, Rigid Closed Top (collectively Rigid Packaging), Engineered Materials and Flexible Packaging. For purposes of conducting our annual goodwill impairment test, we have determined that we have five reporting units, Rigid Open Top, Rigid Closed Top, Engineered Films, Flexible Packaging and Tapes. Engineered Films and Tapes operations comprise the Engineered Materials operating segment. We determined that each of the components within our respective reporting units have similar economic characteristics and therefore should be aggregated and tested at the

Table of Contents

respective level as one reporting unit. We reached this conclusion because within each of our reporting units, we have similar products and production processes which allow us to share assets and resources across the product lines. We regularly re-align our production equipment and manufacturing facilities in order to take advantage of cost savings opportunities, obtain synergies and create manufacturing efficiencies. In addition, we utilize our research and development centers, design center, tool shops, and graphics center which all provide benefits to each of the reporting units and work on new products that can not only benefit one product line, but can benefit multiple product lines. We also believe that the goodwill is recoverable from the overall operations of the unit given the similarity in production processes, synergies from leveraging the combined resources, common raw materials, common research and development, similar margins and similar distribution methodologies. Our Tapes reporting unit did not have any goodwill until it completed its acquisition of Stopaq in the fourth quarter of fiscal 2012. There were no indicators of impairment in the fourth quarter that required us to perform a test for the recoverability of goodwill.

The company's goodwill, fair value and carrying value of our reporting units are as follows:

	Fair Value July 1, 2012	Carrying Value July 1, 2012	Goodwill as of September 29, 2012
Rigid Open Top	\$ 2,140	\$ 1,535	\$ 681
Rigid Closed Top	2,485	1,628	832
Engineered Materials	785	354	55
Tapes	345	240	18
Flexible Packaging	580	356	40
			\$ 1,626

In fiscal 2011, we recorded an impairment charge of approximately \$165 million related to our operations that are now included in our Engineered Materials and Flexible Packaging reporting units. This impairment was driven by volume declines that we were experiencing in our Flexible Packaging and Engineered Materials operations driven by softness in volumes and strategic decisions by the company to exit non-profitable products across these reporting units along with other products across our entire company. In fiscal 2011, we experienced a base volume declines in our Flexible Packaging and Engineered Materials segments. These volume declines occurred because of a pricing strategy that we implemented in our second fiscal quarter and continued throughout the remainder of fiscal 2011. These price increases drove declines in our overall volumes when comparing fiscal 2011 to fiscal 2010. These declines in net sales volume resulted in an assumed lower sales volume base to grow future earnings during year one through year six of our discounted cash flow model, which resulted in a lower estimated carrying value and ultimately an impairment charge being recognized.

We have completed our annual impairment test for our Open Top, Closed Top, Flexible Packaging and Engineered Materials reporting units, noting no impairment in any of the four reporting units. Our forecasts include overall growth of 3-5% through and including the terminal year, which is 3%. Growth by reporting unit varies from year-to-year between segments. Our Engineered Materials and Flexible Packaging segments both experienced significant growth in 2012. This strong growth in earnings provided significant improvement in our cash flows, was higher than our anticipated results in our prior year impairment tests and will provide a higher base to grow our future operating cash flows. Our Open Top and Closed Top reporting units experienced overall growth rates were higher than our prior year forecasts driven by the successful integration of the Rexam operations in the Closed Top reporting unit and continued operational success in the Open Top reporting unit. Our capital expenditure levels are consistent with the levels that we forecasted in the prior year in the current year. All of our reporting units fair values substantially exceed the carrying value, which we define as the fair value exceeding the carrying value by at least 30%. A significant decline in our revenue and earnings or a significant decline in the price of common stock could result in an impairment charge in the future. We also performed our annual impairment test for fiscal 2012 of our indefinite lived intangible assets, which primarily relate to our Rigid Packaging business. The cash flow assumptions, growth rates and risks to these cash flows are

Table of Contents

similar to those used in our analysis to determine the fair value of our combined Rigid Packaging businesses. The annual impairment test did not result in any impairment as the fair value exceeded the carrying value.

Given the uncertainty in economic trends, revenue and earnings growth, the cost of capital and other risk factors discussed under the heading Risk Factors , there can be no assurance that when we complete our future annual or other periodic reviews for impairment of goodwill that an additional material impairment charge will not be recorded as a result. In addition, historically we have grown our business by acquiring and integrating companies into our existing operations. We may not, however, achieve the expected benefits of integrating such acquisitions into our business that we anticipated at the time of the transaction or at the time that we performed our annual impairment tests, which may impact the overall recoverability of our goodwill and indefinite lived intangible assets in future periods. We believe based on our current forecasts and estimates that we will not recognize any future impairment charge, but given the current uncertainty in the economic trends, our forecasts and estimates could change quickly and materially in future periods and differ substantially from actual results.

Deferred Taxes and Effective Tax Rates. We estimate the effective tax rates (ETR) and associated liabilities or assets for each legal entity of ours in accordance with authoritative guidance. We use tax planning to minimize or defer tax liabilities to future periods. In recording ETRs and related liabilities and assets, we rely upon estimates, which are based upon our interpretation of United States and local tax laws as they apply to our legal entities and our overall tax structure. Audits by local tax jurisdictions, including the United States Government, could yield different interpretations from our own and cause the company to owe more taxes than originally recorded. For interim periods, we accrue our tax provision at the ETR that we expect for the full year. As the actual results from our various businesses vary from our estimates earlier in the year, we adjust the succeeding interim periods' ETRs to reflect our best estimate for the year-to-date results and for the full year. As part of the ETR, if we determine that a deferred tax asset arising from temporary differences is not likely to be utilized, we will establish a valuation allowance against that asset to record it at its expected realizable value. In multiple foreign jurisdictions, the company believes that it will not generate sufficient future taxable income to realize the related tax benefits. The company has provided a full valuation allowance against its foreign net operating losses included within the deferred tax assets in multiple foreign jurisdictions. The company has not provided a valuation allowance on its federal net operating losses in the United States because it has determined that future reversals of its temporary taxable differences will occur in the same periods and are of the same nature as the temporary differences giving rise to the deferred tax assets. Our valuation allowance against deferred tax assets was \$51 million and \$43 million as of the end of fiscal 2012 and 2011, respectively.

Based on a critical assessment of our accounting policies and the underlying judgments and uncertainties affecting the application of those policies, we believe that our consolidated financial statements provide a meaningful and fair perspective of the company and its consolidated subsidiaries. This is not to suggest that other risk factors such as changes in economic conditions, changes in material costs, our ability to pass through changes in material costs, and others could not materially adversely impact our consolidated financial position, results of operations and cash flows in future periods.

Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Sensitivity

We are exposed to market risk from changes in interest rates primarily through our senior secured credit facilities, senior secured first priority notes and second priority senior secured notes. Our senior secured credit facilities are comprised of (i) a \$2.6 billion term loan and (ii) a \$650 million revolving credit facility. At March 30, 2013, the Company had \$51 million outstanding on the revolving credit facility. The net outstanding balance of the term loan was \$2.5 billion at March 30, 2013. Borrowings under our senior secured credit facilities bear interest, at our option, at either an alternate base rate or an adjusted LIBOR rate for a one-, two-, three- or six- month interest period, or a nine- or twelve-month period, if available to all relevant lenders, in each case, plus an applicable margin. The alternate base rate is the mean the greater of (i) in the case of our term loan, Credit Suisse's prime rate or, in the case of our revolving credit facility, Bank of America's prime rate and (ii) one-half

Table of Contents

of 1.0% over the weighted average of rates on overnight Federal Funds as published by the Federal Reserve Bank of New York. At March 30, 2013, the LIBOR rate of 0.28% was applicable to the term loan and second priority senior secured floating rate notes. A 0.25% change in LIBOR would not have a material impact on our interest expense.

In November 2010, the Company entered into two separate interest rate swap transactions to protect \$1 billion of the outstanding variable rate term loan debt from future interest rate volatility. The first agreement had a notional amount of \$500 and became effective in November 2010. The agreement swaps three month variable LIBOR contracts for a fixed three year rate of 0.8925% and expires in November 2013. The second agreement had a notional amount of \$500 and became effective in December 2010. The agreement swaps three month variable LIBOR contracts for a fixed three year rate of 1.0235% and expires in November 2013. The counterparties to these agreements are with global financial institutions. In August 2011, the Company began utilizing 1-month LIBOR contracts for the underlying senior secured credit facility. The Company's change in interest rate selection caused the Company to lose hedge accounting on both of the interest rate swaps. The Company recorded subsequent changes in fair value in the Consolidated Statement of Operations and will amortize the unrealized losses to Interest expense through the end of the respective swap agreements. A 0.25% change in LIBOR would not have a material impact on the fair value of the interest rate swaps.

Resin Cost Sensitivity

We are exposed to market risk from changes in plastic resin prices that could impact our results of operations and financial condition. Our plastic resin purchasing strategy is to deal with only high-quality, dependable suppliers. We believe that we have maintained strong relationships with these key suppliers and expect that such relationships will continue into the foreseeable future. The resin market is a global market and, based on our experience, we believe that adequate quantities of plastic resins will be available at market prices, but we can give you no assurances as to such availability or the prices thereof. If the price of resin increased or decreased by 5% it would result in a material change to our cost of goods sold.

Table of Contents

BUSINESS

General

We are a leading provider of value-added plastic consumer packaging and engineered materials with a 30-year track record of delivering high-quality customized solutions to our customers. Our products utilize our proprietary research and development platform, which includes a continually evolving library of Berry-owned molds, patents, manufacturing techniques and technologies. We sell our solutions predominantly into consumer-oriented end markets, such as food and beverage, healthcare and personal care, which together represented 76% of our sales in the 12 months ended March 30, 2013. We believe our customers look to us for solutions that have high consumer impact in terms of form, function and branding. Representative examples of our products include thermoform drink cups, thin-wall containers, blow-molded bottles, specialty closures, prescription vials, specialty plastic films, adhesives and corrosion protection materials. We have also been one of the most active acquirers of plastic packaging businesses globally, having acquired more than 30 businesses since 1988, including 13 acquisitions completed in the past seven years. We believe our focus on delivering unique and customized solutions to our customers and our ability to successfully integrate strategic acquisitions have enabled us to grow at rates in excess of our industry peers, having achieved a compound annual net sales growth rate over the last 12 years of 22%.

We believe that we have created one of the largest product libraries in our industry, allowing us to be a comprehensive solution provider to our customers. We have more than 13,000 customers, which consist of a diverse mix of leading national, mid-sized regional and local specialty businesses. The size and scope of our customer network allow us to introduce new products we develop or acquire to a vast audience that is familiar with, and we believe partial to, our brand. In fiscal year 2012, no single customer represented more than 3% of net sales and our top ten customers represented less than 17% of net sales. We currently supply our customers through 84 strategically located manufacturing facilities throughout the United States (70 locations) and select international locations (14 locations). We believe our manufacturing processes and our ability to leverage our scale to reduce expenses on items, such as raw materials, position us as a low-cost manufacturer relative to our competitors. For example, we believe based on management estimates that we are one of the largest global purchasers of plastic resins, at approximately 2.5 billion pounds per year, which gives us both unique insight into this market as well as scale purchasing savings.

We enjoy market leadership positions in many of our markets, with approximately 76% of net sales during the 12 months ended March 30, 2013 in markets in which management estimates we held the #1 or #2 market position. We look to build leadership in markets where we have a strategic angle and can achieve attractive profit margins through technology and design leadership and a competitive cost position such as highly decorated plastic packaging. We believe that our product and technology development capabilities are best-in-class, supported by the newly built Berry Research and Design Center and a network of more than 200 engineers and material scientists. We seek to have our product and technology development efforts provide a meaningful impact on sales. An example of our focused new product development is our thermoform plastic drink cup technology. We identified an unfulfilled need in the market with an opportunity for significant return on invested capital and ultimately introduced the technology to the market in 2001. This product line has grown steadily since introduction and generated \$382 million of net sales during the 12 months ended March 30, 2013.

Our success is driven by our more than 15,000 employees. Over the past 30 years, we have developed a culture that incorporates both loyalty to best practices and acceptance of new perspectives, which we have often identified from the companies we have acquired. Our employees hold themselves accountable to exceed the expectations of our customers and to create value for our stakeholders.

We believe the successful execution of our business strategy has enabled us to outperform the growth of our industry over the past decade with Adjusted EBITDA increasing from \$80 million in 2000 to \$810 million for the 12 months ended March 30, 2013, representing a CAGR of 21%. For the 12 months ended March 30, 2013,

Table of Contents

Berry had net sales of \$4.7 billion, Adjusted EBITDA of \$810 million, net income of \$22 million and Adjusted Free Cash Flow of \$283 million. For a reconciliation of Adjusted EBITDA and Adjusted Free Cash Flow to the nearest GAAP measures, see Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources.

Acquisitions

STOPAQ®

In June 2012, the company acquired 100% of the shares of Frans Nooren Beheer B.V. and its operating companies (Stopaq) for a purchase price of \$65 million (\$62 million, net of cash acquired). Stopaq is the inventor and manufacturer of patented visco-elastic technologies for use in corrosion prevention, sealing and insulation applications ranging from pipelines to subsea piles to rail and cable joints. The newly added business is operated in our Engineered Materials segment. To finance the purchase, the company used cash on hand and existing credit facilities. The Stopaq acquisition has been accounted for under the purchase method of accounting, and accordingly, the preliminary purchase price has been allocated to the identifiable assets and liabilities based on estimated fair values at the acquisition date.

Prime Label

In October 2012, the company acquired 100% of the shares of Prime Label and Screen Incorporated (Prime Label) for a purchase price of \$20 million. Prime Label is a leader in specialty re-sealable labels, including a patented rigid lens closure system. The newly added business is operated in the company's Flexible Packaging reporting segment. To finance the purchase, the company used cash on hand and existing credit facilities. The Prime Label acquisition has been accounted for under the purchase method of accounting, and accordingly, the preliminary purchase price has been allocated to the identifiable assets and liabilities based on estimated fair values at the acquisition date. The company has not finalized the purchase price allocation to the fair value on fixed assets, deferred income taxes, intangibles and is reviewing all the working capital acquired. The company has recognized goodwill on this transaction as a result of expected synergies. A portion of the goodwill will not be deductible for tax purposes.

Recent Developments

Interest Rate Swap

In February 2013, the company entered into an interest rate swap transaction to protect \$1 billion of outstanding variable rate term loan debt from future interest rate volatility. The agreement swaps the greater of a three-month variable LIBOR contract or 1.00% for a fixed three-year rate of 2.355%, with an effective date in May 2016 and expiration in May 2019. In June 2013, the company elected to settle this derivative instrument and received \$16 million as a result of this settlement. The offset will be included in Accumulated Other Comprehensive Loss and will be amortized to Interest Expense beginning in May 2016 through May 2019.

Secondary Public Offering

In our April 2013 public offering, the Apollo Funds and the Graham Fund sold 18,975,000 shares of common stock at \$17.00 per share, which included 2,475,000 shares purchased by the underwriters upon the exercise in full of their option to purchase additional shares. The selling stockholders received all of the proceeds from the April 2013 public offering, which, net of underwriting fees, totaled \$311 million. The Company received no proceeds and incurred fees of approximately \$1 million related to the April 2013 public offering.

Table of Contents

Product Overview

Rigid Packaging

Our Rigid Packaging business primarily consists of containers, foodservice items, housewares, closures, overcaps, bottles, prescription vials, and tubes. The largest end uses for our packages are consumer-oriented end markets such as food and beverage, retail mass marketers, healthcare, personal care and household chemical. We believe that we offer one of the broadest rigid packaging product line among industry participants and, according to management estimates, we maintained the #1 or #2 market positions in markets representing approximately 78% of rigid plastics sales for the 12 months ended March 30, 2013. Many of our products are manufactured from proprietary molds that we develop and own, which we believe would result in significant costs to our customers to switch to a different supplier. In addition to a complete product line, we have sophisticated decorating capabilities and in-house graphic arts and tooling departments, which allow us to integrate ourselves into, and, we believe, add significant value to, our customers' packaging design processes. For the 12 months ended March 30, 2013, our Rigid Plastics business had net sales, operating income and Adjusted EBITDA of \$2.6 billion, \$267 million and \$533 million, respectively. Our primary competitors include Airlite, Letica, Polyainers, Silgan, Aptar Group, and Reynolds. These competitors individually only compete on certain of our products, whereas we offer the entire selection of rigid products described below.

Containers. We manufacture a collection of nationally branded container products and also seek to develop customized container products for niche applications by leveraging of our state-of-the-art design, decoration and graphic arts capabilities. We believe this mix allows us to both achieve significant economies of scale, while also maintaining an attractive portfolio of specialty products. Our container capacities range from four ounces to five gallons and are offered in various styles with accompanying lids, bails and handles, some of which we produce, as well as a wide array of decorating options. We have long-standing supply relationships with many of the nation's leading food and consumer products companies, including Dannon, Dean Foods, Conagra, Kraft, Kroger, and Unilever.

Foodservice. We believe that we are one of the largest providers of large size thermoformed polypropylene (PP) and injection-molded plastic drink cups in the United States. We believe we are the leading producer of 30 ounce or larger thermoformed PP drink cups and offer a product line with sizes ranging from 12 to 52 ounces. Our thermoform process uses PP instead of more expensive polystyrene (PS) or polyethylene terephthalate (PET) in producing deep draw drink cups to generate a cup with a competitive cost advantage versus thermoformed PS or PET drink cups. Additionally, we produce injection-molded plastic cups that range in size from 12 to 64 ounces. Primary markets for our plastic drink cups are quick service and family dining restaurants, convenience stores, stadiums and retail stores. Many of our cups are decorated, often as promotional items, and we believe we have a reputation in the industry for innovative, state-of-the-art graphics. Selected drink cup customers and end users include Hardee's, McDonald's, Quik Trip, Starbucks, Subway, Wendy's, and Yum! Brands.

Closures and Overcaps. We believe we are a leading producer of closures and overcaps across several of our product lines, including continuous-thread and child-resistant closures, as well as aerosol overcaps. We currently sell our closures into numerous end markets, including vitamin/nutritional, chemical, healthcare, food/beverage, specialty and personal care. In addition to traditional closures, we are a provider of a wide selection of custom closure solutions including fitments and plugs for medical applications, cups and spouts for liquid laundry detergent, and dropper bulb assemblies for medical and personal care applications. Further, we believe that we are the leading domestic producer of injection-molded aerosol overcaps. Our aerosol overcaps are used in a wide variety of consumer goods including spray paints, household and personal care products, insecticides and numerous other commercial and consumer products. We believe our technical expertise and manufacturing capabilities provide us a low-cost position that has allowed us to become a leading provider of high-quality closures and overcaps to a diverse set of leading companies. We believe our manufacturing advantage is driven by our position on the forefront of various technologies, including the latest in single- and bi-injection

Table of Contents

processes, precise reproduction of colors, automation and vision technology, and proprietary packing technology that minimizes freight cost and warehouse space. A majority of our overcaps and closures are manufactured from proprietary molds, which we design, develop, and own. In addition to these molds, we utilize state-of-the art lining, assembly, and decorating equipment to enhance the value and performance of our products in the market. Our closure and aerosol overcap customers include McCormick, Bayer, Coca-Cola, Diageo, Shell Oil, Johnson and Johnson, Pepsico, Wyeth, Kraft, Sherwin-Williams, and S.C. Johnson.

Bottles and Prescription Containers. Our bottle and prescription container businesses target markets similar to our closure business. We believe, based on management estimates, that we are the leading supplier of spice containers in the United States and have a leadership position in various food and beverage, vitamin and nutritional markets, as well as selling bottles into prescription and pharmaceutical applications. Additionally, we believe we are a leading supplier in the prescription container market, supplying a complete line of amber containers with both one-piece and two-piece child-resistant closures. We offer an extensive line of stock polyethylene (PE) and PET bottles for the vitamin and nutritional markets. Our design capabilities, along with internal engineering strength give us the ability to compete on customized designs to provide desired differentiation from traditional packages. We also offer our customers decorated bottles with hot stamping, silk screening and labeling. We sell these products to personal care, pharmaceutical, food and consumer product customers, including McCormick, Pepsico, Carriage House, Perrigo, CVS, NBTY, Target Stores, John Paul Mitchell, and Novartis.

Tubes. We believe that we are one of the largest suppliers of extruded plastic squeeze tubes in the United States. We offer a complete line of tubes in a wide variety of sizes. We have also introduced laminate tubes to complement our extruded tube business. Our focus and investments are made to ensure that we are able to meet the increasing trend towards large diameter tubes with high-end decoration. We have several proprietary designs in this market that combine tube and closure that we believe are viewed as very innovative both in appearance and functionality, as well as from a sustainability standpoint. The majority of our tubes are sold in the personal care market, focusing on products like facial/cold creams, shampoos, conditioners, bath/shower gels, lotions, sun care, hair gels, and anti-aging creams. We also sell our tubes into the pharmaceutical and household chemical markets. We believe that our ability to provide creative package designs, combined with a complementary line of closures, makes us a preferred supplier for many customers in our target markets including Kao Brands, L Oreal, Avon, and Procter & Gamble.

Engineered Materials

Our Engineered Materials business primarily consists of pipeline corrosion protection solutions, specialty tapes and adhesives, polyethylene based film products and can liners. We believe that we offer one of the broadest product lines among industry participants and, according to management estimates, we maintained the #1 or #2 market position in markets representing approximately 67% of divisional sales for the 12 months ended March 30, 2013. For the 12 months ended March 30, 2013, our Engineered Materials division had revenue, operating income and Adjusted EBITDA of \$1.4 billion, \$104 million and \$199 million, respectively. Our primary competitors include AEP, Sigma and 3M. The Engineered Materials business primarily includes the following product groups:

Corrosion Protection Products. We believe we are a leading global producer of anti-corrosion products to infrastructure, rehabilitation and new pipeline projects throughout the world. We believe our products deliver superior performance across all climates and terrains for the purpose of sealing, coupling, and rehabilitation and corrosion protection of pipelines. Products include heat-shrinkable coatings, single- and multi-layer sleeves, pipeline coating tapes, anode systems for cathodic protection, visco-elastic, and epoxy coatings. These products are used in oil, gas, and water supply and construction applications. Our customers primarily include contractors managing discrete construction

Table of Contents

projects around the world as well as distributors and applicators. Our corrosion protection products customers include Tyco Electronics, Northwest Pipe, Stopaq, and Midwestern Pipeline Products.

Tape Products. We believe we are a leading North American manufacturer of cloth and foil tape products. Other tape products include high-quality, high-performance liners of splicing and laminating tapes, flame-retardant tapes, vinyl-coated and carton sealing tapes, electrical, double-faced cloth, masking, mounting, OEM, and medical and specialty tapes. These products are sold under the National, Nashua[®], and Polyken[®] brands in the United States. Tape products are sold primarily through distributors and directly to end users and are used predominantly in industrial, HVAC, automotive, construction, and retail market applications. In addition to serving our core tape end markets, we believe we are also a leading producer of tapes in the niche aerospace, construction and medical end markets. We believe that our success in serving these additional markets is principally due to a combination of technical and manufacturing expertise leveraged in favor of customized applications. Our tape products customers include Home Depot and RH Elliott.

Retail Bags. We manufacture and sell a diversified portfolio of PE-based film products to end users in the retail markets. These products are sold under leading brands such as Ruffies[®] and Film-Gard[®]. Our products include drop cloths and retail trash bags. These products are sold primarily through wholesale outlets, hardware stores and home centers, paint stores, and mass merchandisers. Our retail trash bag customers include, Walmart, True Value, and ACE.

FIBC. We manufacture customized PP-based, woven and sewn containers for the transportation and storage of raw materials such as seeds, titanium dioxide, clay, and resin pellets. Our FIBC customers include Texene LLC and Pioneer Hi-Bred Intl.

PVC Films. We believe, based on management estimates, that we are a world leader in PVC films offering a broad array of PVC meat film. Our products are used primarily to wrap fresh meats, poultry, and produce for supermarket applications. In addition, we offer a line of boxed products for food service and retail sales. We service many of the leading supermarket chains, club stores, and wholesalers including Kroger, Publix, Walmart/Sams, Costco, and SuperValu. We believe we are a leading innovator and specialize in lighter gauge sustainable solutions like our recent Revolution product line offering.

Institutional Can Liners. We sell trash-can liners and food bags for offices, restaurants, schools, hospitals, hotels, municipalities, and manufacturing facilities. We also sell products under the Big City[®], Hospi-Tuff[®], Plas-Tuff[®], Rhino-X[®], and Steel-Flex[®] brands. Our institutional customers include Unisource and Gordon Food Service.

Stretch Films. We produce both hand and machine-wrap stretch films, which are used by end users to wrap products and packages for storage and shipping. We sell stretch film products to distributors and retail and industrial end users under the MaxTech[®] and PalleTech[®] brands. Our stretch films customers include XPEDX and Unisource.

Home and Party. Our participation in the housewares market is focused on producing semi-disposable plastic home and party and plastic garden products. Examples of our products include plates, bowls, pitchers, tumblers and outdoor flowerpots. We sell virtually all of our products in this market through major national retail marketers and national chain stores, such as Walmart. PackerWare is our recognized brand name in these markets and PackerWare branded products are often co-branded by our customers. Our strategy in this market has been to provide high value to consumers at a relatively modest price, consistent with the key price points of the retail marketers. We believe outstanding service and the ability to deliver products with timely combination of color and design further enhance our position in this market.

Table of Contents

Flexible Packaging

Our Flexible Packaging division consists of high barrier, multilayer film products as well as finished flexible packages such as printed bags and pouches. The largest end uses for our flexible products are consumer-oriented end markets such as food and beverage, medical, and personal care. We believe that we offer one of the broadest product lines among industry participants and, according to management estimates, we maintained the #1 or #2 market position in markets representing approximately 88% of divisional sales for the 12 months ended March 30, 2013. For the 12 months ended March 30, 2013, our Flexible Packaging division had pro forma net sales, operating income and Adjusted EBITDA of \$737 million, \$13 million and \$78 million, respectively. Our primary competitors include Printpak, Tredegar, and Bemis. The Flexible Packaging division includes the following product groups:

Barrier/Sealant Films. We manufacture and sell a wide range of highly specialized, made-to-order film products ranging from mono layer to coextruded films having up to nine layers, lamination films sold primarily to flexible packaging converters and used for peelable lid stock, stand-up pouches, pillow pouches, and other flexible packaging formats. We also manufacture barrier films used for cereal, cookie, cracker, and dry mix packages that are sold directly to food manufacturers like Kraft and Ralcorp. We also manufacture films for specialized industrial applications ranging from lamination film for carpet padding to films used in solar panel construction.

Personal Care Films. We believe we are a major supplier of component and packaging films used for personal care hygiene applications predominantly sold in North America and Latin America. The end use applications include disposable baby diapers, feminine care, adult incontinence, hospital and tissue, and towel products. Our personal care customers include Kimberly Clark, SCA, Johnson and Johnson, First Quality, and other leading private label manufacturers. Our Lifetime of Solutions approach promotes an innovation pipeline that seeks to integrate both product and equipment design into leading edge customer and consumer solutions.

Printed Products. We are a converter of printed bags, pouches, and rollstock. Our manufacturing base includes integrated extrusion that combines with printing, laminating, bagmaking, Innolok[®], and laser-score converting processes. We believe we are a leading supplier of printed film products for the fresh bakery, tortilla, and frozen vegetable markets with brands such as SteamQuick[®] Film, Freshview bags, and Billboard SUPs. Our customers include Mission Foods and Kellogg s.

Coated and Laminated Packaging. We manufacture specialty coated and laminated products for a wide variety of packaging applications. The key end markets and applications for our products include food, consumer, healthcare, industrial and military pouches, roll wrap, multi-wall bags, and fiber drum packaging. Our products are sold under the MarvelGuard and MarvelSeal brands and are predominately sold to converters who transform them into finished goods. Our coated and laminated packaging customers include Covidien and Morton Salt.

Marketing and Sales

We reach our large and diversified base of over 13,000 customers through our direct field sales force of dedicated professionals and the strategic use of distributors. Our field sales, production and support staff meet with customers to understand their needs and improve our product offerings and services. Our scale enables us to dedicate certain sales and marketing efforts to particular products, customers or geographic regions, when applicable, which enables us to develop expertise that we believe is valued by our customers. In addition, because we serve common customers across segments, we have the ability to efficiently utilize our sales and marketing resources to minimize costs. Highly skilled customer service representatives are strategically located throughout our facilities to support the national field sales force. In addition, telemarketing representatives, marketing managers and sales/marketing executives oversee the marketing and sales efforts. Manufacturing and engineering personnel work closely with field sales personnel and customer service representatives to satisfy customers' needs through the production of high-quality, value-added products and on-time deliveries.

Table of Contents

We believe that we have differentiated ourselves from competitors by building a reputation for high-quality products, customer service and innovation. Our sales team monitors customer service in an effort to ensure that we remain the primary supplier for our key accounts. This strategy requires us to develop and maintain strong relationships with our customers, including end users as well as distributors and converters. We have a technical sales team with significant knowledge of our products and processes, particularly in specialized products. This knowledge enables our sales and marketing team to work closely with our research and development organization and our customers to co-develop products and formulations to meet specific performance requirements. This partnership approach enables us to further expand our relationships with our existing customer base, develop relationships with new customers and increase sales of new products.

Research, Product Development and Design

We believe our technology base and research and development support are among the best in the plastics packaging industry. Using three-dimensional computer-aided design technologies, our full-time product designers develop innovative product designs and models for the packaging market. We can simulate the molding environment by running unit-cavity prototype molds in small injection-molding, thermoform, compression and blow molding machines for research and development of new products. Production molds are then designed and outsourced for production by various companies with which we have extensive experience and established relationships or built by our in-house tooling division located in Evansville, Indiana. Our engineers oversee the mold-building process from start to finish. Many of our customers work in partnership with our technical representatives to develop new, more competitive products. We have enhanced our relationships with these customers by providing the technical service needed to develop products combined with our internal graphic arts support. We also utilize our in-house graphic design department to develop color and styles for new rigid products. Our design professionals work directly with our customers to develop new styles and use computer-generated graphics to enable our customers to visualize the finished product.

Additionally, at our major technical centers, including the Berry Research and Design Center in Evansville, Indiana, as well as facilities in Lancaster, Pennsylvania; Homer, Louisiana; and Chippewa Falls, Wisconsin; we prototype new ideas, conduct research and development of new products and processes, and qualify production systems that go directly to our facilities and into production. We also have a technical center, complete product testing and quality laboratories at our Lancaster, Pennsylvania facility. At our pilot plant in Homer, Louisiana, we are able to experiment with new compositions and processes with a focus on minimizing waste and improving productivity. With this combination of manufacturing simulation and quality systems support we are able to improve time to market and reduce cost. We spent \$25 million, \$20 million, and \$21 million on research and development in fiscal years 2012, 2011 and 2010, respectively.

Sources and Availability of Raw Materials

The most important raw material purchased by us is plastic resin. Our plastic resin purchasing strategy is to conduct business with only high-quality, dependable suppliers. We believe that we have maintained strong relationships with our key suppliers and expect that such relationships will continue into the foreseeable future. The resin market is a global market and, based on our experience, we believe that adequate quantities of plastic resins will be available at market prices, but we can give you no assurances as to such availability or the prices thereof.

We also purchase various other materials, including natural and butyl rubber, tackifying resins, chemicals and adhesives, paper and packaging materials, polyester staple, raw cotton, linerboard and kraft, woven and non-woven cloth, and foil. These materials are generally available from a number of suppliers.

Employees

As of March 30, 2013, we employed over 15,000 employees. Approximately 11% of our employees are covered by collective bargaining agreements. Four of our 10 agreements, covering approximately 1,200

Table of Contents

employees, were scheduled for renegotiation in the 2013 calendar year, and three of them have been renegotiated as of June 30, 2013. The remaining agreements expire after the 2013 calendar year. Our relations with employees remain satisfactory and there have been no significant work stoppages or other labor disputes during the past three years.

Patents, Trademarks and Other Intellectual Property

We rely on a combination of patents, trade secrets, unpatented know-how, trademarks, copyrights and other intellectual property rights, nondisclosure agreements and other protective measures to protect our proprietary rights. While we consider our intellectual property to be important to our business in the aggregate, we do not believe that any individual item of our intellectual property portfolio is material to our current business. The remaining duration of our patents ranges from one to approximately 20 years (generally, the expiration date of a patent is 20 years from the filing date of the patent application from which such patent issues).

We employ various methods, including confidentiality and non-disclosure agreements with third parties, employees and consultants, to protect our trade secrets and know-how. We have licensed, and may license in the future, patents, trademarks, trade secrets, and similar proprietary rights to and from third parties.

Environmental Matters and Government Regulation

Our past and present operations and our past and present ownership and operations of real property are subject to extensive and changing federal, state, local and foreign environmental laws and regulations pertaining to the discharge of materials into the environment, handling and disposition of wastes, and cleanup of contaminated soil and ground water, or otherwise relating to the protection of the environment. We believe that we are in substantial compliance with applicable environmental laws and regulations. However, we cannot predict with any certainty that we will not in the future incur liability, which could be significant under environmental statutes and regulations with respect to noncompliance with environmental laws, contamination of sites formerly or currently owned or operated by us (including contamination caused by prior owners and operators of such sites) or the off-site disposal of regulated materials, which could be material.

We may from time to time be required to conduct remediation of releases of regulated materials at our owned or operated facilities. None of our pending remediation projects are expected to result in material costs. Like any manufacturer, we are also subject to the possibility that we may receive notices of potential liability in connection with materials that were sent to third-party recycling, treatment, and/or disposal facilities under the Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended (CERCLA), and comparable state statutes, which impose liability for investigation and remediation of contamination without regard to fault or the legality of the conduct that contributed to the contamination, and for damages to natural resources. Liability under CERCLA is retroactive, and, under certain circumstances, liability for the entire cost of a cleanup can be imposed on any responsible party. No such notices are currently pending which are expected to result in material costs.

The Food and Drug Administration (FDA) regulates the material content of direct-contact food and drug packages, including certain packages we manufacture pursuant to the Federal Food, Drug and Cosmetics Act. Certain of our products are also regulated by the Consumer Product Safety Commission (CPSC) pursuant to various federal laws, including the Consumer Product Safety Act and the Poison Prevention Packaging Act. Both the FDA and the CPSC can require the manufacturer of defective products to repurchase or recall such products and may also impose fines or penalties on the manufacturer. Similar laws exist in some states, cities and other countries in which we sell our products. In addition, laws exist in certain states restricting the sale of packaging with certain levels of heavy metals, imposing fines and penalties for noncompliance. Although we use FDA approved resins and pigments in our products that directly contact food and drug products and believe they are in material compliance with all such applicable FDA regulations, and we believe our products are in material compliance with all applicable requirements, we remain subject to the risk that our products could be found not to be in compliance with such requirements.

Table of Contents

The plastics industry, including us, is subject to existing and potential federal, state, local and foreign legislation designed to reduce solid wastes by requiring, among other things, plastics to be degradable in landfills, minimum levels of recycled content, various recycling requirements, disposal fees and limits on the use of plastic products. In particular, certain states have enacted legislation requiring products packaged in plastic containers to comply with standards intended to encourage recycling and increased use of recycled materials. In addition, various consumer and special interest groups have lobbied from time to time for the implementation of these and other similar measures. We believe that the legislation promulgated to date and such initiatives to date have not had a material adverse effect on us. There can be no assurance that any such future legislative or regulatory efforts or future initiatives would not have a material adverse effect on us.

Properties

We lease or own our principal offices and manufacturing facilities. We believe that our property and equipment is well-maintained, in good operating condition and adequate for our present needs. The locations of our principal manufacturing facilities, by country, are as follows: United States 70 locations (39 Rigid Packaging, 19 Engineered Materials, 12 Flexible Packaging); Canada 4 locations (1 Rigid Packaging, 2 Engineered Materials, 1 Flexible Packaging); Mexico 3 locations (2 Engineered Materials, 1 Flexible Packaging); India, The Netherlands and Belgium (Engineered Materials); Germany and Australia (Engineered Materials); and Brazil and Malaysia (Rigid Packaging). The Evansville, Indiana facility serves as our world headquarters.

We lease our facilities in the following locations: Evansville, IN; Louisville, KY; Lawrence, KS; Peosta, IA; Phoenix, AZ; Quad Cities, IA; Phillipsburg, NJ; Bloomington, IN; Chicago, IL; Bowling Green, KY; Syracuse, NY; Jackson, TN; Anaheim, CA; Pewaukee, WI; Aurora, IL; Cranbury, NJ; Easthampton, MA; Lathrop, CA; Hanover, MD; Tacoma, WA; Baltimore, MD; Chippewa Falls, WI; Atlanta, GA; Mexico City, Mexico; and Dunkirk, NY.

Legal Proceedings

We are party to various legal proceedings involving routine claims that are incidental to our business. Although our legal and financial liability with respect to such proceedings cannot be estimated with certainty, we believe that any ultimate liability would not be material to the business, financial condition, results of operations or cash flows.

Table of Contents**MANAGEMENT****Directors and Executive Officers**

The following table provides information regarding the executive officers and members of the Board of Directors of Berry Plastics Group, Inc.

Name	Age	Class	Title
Jonathan D. Rich ⁽³⁾⁽⁴⁾	57	2015	Chairman, Chief Executive Officer and Director
James M. Kratochvil	56		Chief Financial Officer
Lawrence A. Goldstein	51		President, Flexible Packaging Division
Jason K. Greene	43		Executive Vice President and General Counsel
Jeffrey D. Thompson	42		Executive Vice President, International Business Development
G. Adam Unfried	42		President, Rigid Open Top Division
Mark W. Miles	42		Executive Vice President, Controller and Treasurer
Curtis L. Begle	37		President, Rigid Closed Top Division
Thomas E. Salmon	50		President, Engineered Materials Division
B. Evan Bayh	57	2014	Director
Anthony M. Civale	38	2014	Director
Donald C. Graham ⁽¹⁾	80	2016	Director
Steven C. Graham	54	2014	Director
Joshua J. Harris	48	2015	Director
David B. Heller ⁽²⁾⁽⁴⁾	46	2016	Director
Carl J. (Rick) Rickertsen ⁽¹⁾⁽²⁾	53	2016	Director
Robert V. Seminar ⁽¹⁾⁽²⁾⁽³⁾⁽⁴⁾	41	2015	Director

(1) Member of the Compensation Committee.

(2) Member of the Audit Committee.

(3) Member of the Executive Committee.

(4) Member of Nominating and Governance Committee.

Jonathan D. Rich assumed the role of Chairman and Chief Executive Officer of Berry Plastics Group, Inc. in October 2010. Prior to becoming CEO, Dr. Rich served as President and Chief Executive Officer of Momentive Performance Materials, Inc. from June 2007 until October 2010. Prior to Momentive, Dr. Rich held executive positions at Goodyear Tire and Rubber from 2000 until 2007, including President of Goodyear North American Tire and President of Goodyear Chemical. Dr. Rich began his career at General Electric in 1982, where he was employed for 18 years in a variety of R&D, operational and executive roles. Dr. Rich's position as Chief Executive Officer, his extensive management experience and his skills in business leadership and strategy qualify him to serve as a director of the company.

James M. Kratochvil has been Chief Financial Officer of Berry Plastics Group, Inc. since 1991. Mr. Kratochvil was formerly employed by our predecessor company from 1985 to 1991 as Controller.

Curtis L. Begle has been President of Berry's Rigid Closed Top Division since December 2009. Mr. Begle has spent his entire 14 year career with Berry, during which he has held multiple positions of increasing responsibility in Sales and Marketing with the Rigid Open Top and Rigid Closed Top Divisions.

Lawrence A. Goldstein has been President of Berry's Flexible Packaging Division since January 1, 2012. Mr. Goldstein joined Berry in 1997 as the East Coast Regional Sales Manager for the container division. Since then he has held a number of positions of increasing responsibility.

Jason K. Greene was named Executive Vice President and General Counsel of Berry Plastics Group, Inc. on January 1, 2013. He was hired in December 2010 as the company's Deputy General Counsel.

Table of Contents

Mark W. Miles has been Executive Vice President, Controller and Treasurer since 2005. Mr. Miles is a Certified Public Accountant and started with the Company as Corporate Controller in 1997.

Thomas E. Salmon has been President of Berry's Engineered Materials Division since 2003. Mr. Salmon previously served as General Manager for Honeywell Plastics for the two years prior thereto. He was the Global Sales Director for Allied Signal's Engineering Plastics and Films business from 1999 to 2001. Prior to joining Honeywell/Allied Signal, Mr. Salmon held several positions at GE Plastics and GE Lighting, divisions within General Electric.

Jeffrey D. Thompson was named Executive Vice President, International Business Development of Berry Plastics Group, Inc. on January 1, 2013. He started as Berry's first in-house General Counsel on December 1, 2003 and served in that capacity until January 1, 2013.

G. Adam Unfried has been President of Berry's Rigid Open Top Division since 2005. Mr. Unfried has spent his entire 20 year career with Berry, during which he has held multiple positions of increasing responsibility in Sales and Marketing.

B. Evan Bayh has been a member of our Board of Directors since 2011. Mr. Bayh is a former U.S. Senator and Indiana Governor. He was a member of the U.S. Senate from the state of Indiana from 1998 until his retirement in 2011. While in the Senate, he served on a variety of committees, including the Banking, Housing and Urban Affairs Committee, and the Committee on Small Business and Entrepreneurship. Prior to serving in the Senate, Mr. Bayh served as Indiana Governor from 1988 to 1997. Mr. Bayh's many years of service in elected office, including as the chief executive of a large Midwestern state, qualifies him to serve as a director of the company.

Anthony M. Civale has been a member of our Board of Directors since 2006. Mr. Civale is the Lead Partner and Chief Operating Officer of Apollo Capital Management, LLC and co-founded Apollo's senior credit and structured credit businesses. He joined Apollo in 1999. Prior to that time, Mr. Civale was employed by Deutsche Bank Securities, Inc. in the Financial Sponsors Group within its Corporate Finance Division. Mr. Civale also serves on the Board of Directors of HFA Holdings Limited, a multi-billion hedge fund of funds operator. In addition to these corporate boards, Mr. Civale also serves on the Board of Directors of Youth INC, a non-profit organization serving New York City children, and is a member of the Board of Trustees of Middlebury College. Mr. Civale has previously served on the boards of directors of Harrah's Entertainment, Goodman Global, Inc. and Prestige Cruises. Mr. Civale graduated from Middlebury College with a B.A. in Political Science. Mr. Civale's extensive financial and business experience qualify him to serve as a director of the company.

Donald C. Graham founded The Graham Group, an alliance of independently owned and operated industrial businesses and investment management firms, and has been a member of our Board of Directors since 2006. Over nearly half a century, Mr. Graham built a substantial family industrial concern founding consumer packaging, capital equipment and building products businesses, and investing in companies serving a wide range of consumer and industrial sectors. Mr. Graham founded Graham Packaging Company, in which he sold a controlling interest in 1998 and retained a minority ownership position until the company was sold in 2011; as of that point, The Graham Group's three legacy industrial businesses operated in more than 90 locations worldwide. Mr. Graham participates on several advisory boards of The Graham Group's independently owned and managed investment concerns and continues to provide guidance as an active board member of, and investor in, many underlying portfolio companies. Mr. Graham is Steven C. Graham's father. Mr. Graham's leadership of The Graham Group and his extensive financial and business experience, including in the packaging industry, qualify him to serve as a director of the company.

Steven C. Graham serves as Senior Managing Principal of Graham Partners and has been a member of our Board of Directors since 2006. Graham Partners is an independent private investment firm focused on investing

Table of Contents

in businesses with proprietary technologies, advanced manufacturing know-how, innovative product development capabilities, and strong growth potential. Prior to founding Graham Partners in 1988, Mr. Graham worked in the Investment Banking Division of Goldman, Sachs & Co. in New York and as an Acquisition Officer for the RAF Group, a private investment firm headquartered in Philadelphia, Pennsylvania. Mr. Graham serves on the boards of numerous portfolio companies of Graham Partners and on the firm's Investment Committee; he also serves on the Advisory Board of certain unaffiliated private investment funds managed by other general partners. Mr. Graham also serves on the Board of Advisors for the Center for Private Equity and Entrepreneurship at the Tuck School of Business at Dartmouth College, Williams College Endowment's Non-marketable Assets Advisory Committee, and other charitable and for-profit advisory boards. Mr. Graham earned his B.A. with a double major in Philosophy and English from Williams College in 1982 and his M.B.A. from Dartmouth College's Amos Tuck School of Business in 1986. Mr. Graham is Donald C. Graham's son. Mr. Graham's extensive financial and business experience qualify him to serve as a director of the company.

Joshua J. Harris has been a member of our Board of Directors since 2006. Mr. Harris is a Co-Founder, Senior Managing Director and Chief Investment Officer of Apollo. Prior to 1990, Mr. Harris was a member of the Mergers and Acquisitions Group of Drexel Burnham Lambert Incorporated. Mr. Harris currently serves on the boards of directors of Apollo Global Management, LLC, Momentive Performance Materials and EP Energy. Mr. Harris is a member of The Federal Reserve Bank of New York Investors Advisory Committee on Financial Markets. He is a member of the Council on Foreign Relations. Mr. Harris serves as Chairman of the Department of Medicine Advisory Board for The Mount Sinai Medical Center and is on the Board of Trustees of the Mount Sinai Medical Center. He is a member of The University of Pennsylvania's Wharton Undergraduate Executive Board and is on the Board of Trustees for The Allen-Stevenson School and Harvard Business School. Mr. Harris is on the Board of Trustees for the United States Olympic Committee. He is also the Managing Partner of the Philadelphia 76ers. Mr. Harris has previously served on the boards of directors of CEVA Group plc, Constellium, LyondellBasell Industries, Metals USA, Momentive Specialty Chemicals, Inc., Noranda Aluminum, Verso Paper and the general partner of AP Alternative Assets, L.P. Mr. Harris graduated summa cum laude and Beta Gamma Sigma from the University of Pennsylvania's Wharton School of Business with a Bachelor of Science in Economics and received his M.B.A. from the Harvard Business School, where he graduated as a Baker and Loeb Scholar. Mr. Harris' leadership of Apollo and his extensive financial and business experience qualify him to serve as a director of the company.

Robert V. Seminara has been a member of our Board of Directors since 2006. Mr. Seminara joined Apollo in 2003. Prior to that time, Mr. Seminara was a member of the Private Equity Group at Evercore Partners from 1996 to 2003. Prior to his tenure at Evercore, Mr. Seminara was employed by Lazard Frères & Co. in the firm's Media & Communications Group. Mr. Seminara also serves on the board of directors of Momentive Specialty Chemicals, Inc. and is a member of the Board of Managers of Momentive Performance Materials Holdings, LLC. Mr. Seminara has previously served on the board of directors of Skylink Aviation. Mr. Seminara graduated summa cum laude with a B.S. in Economics from the University of Pennsylvania's Wharton School of Business. Mr. Seminara's extensive financial and business experience qualify him to serve as a director of the company.

David B. Heller became a member of our Board of Directors in October 2012. Mr. Heller is the former Global Co-Head of the Securities Division at Goldman, Sachs & Co., where he also served on the Management Committee. He joined Goldman Sachs in 1989 in New York and also spent significant time living and working in Tokyo and London during his career with the firm. He retired from Goldman in March of 2012. Currently he serves as a Trustee for the Acumen Fund, the New Museum of Contemporary Art, Project Morry, and Third Way. He earned a B.A. from Harvard College and continues to be involved with the university as Co-Chair of his class fundraising efforts. Mr. Heller's extensive financial experience qualifies him to serve as a director of the company.

Carl J. (Rick) Rickertsen became a member of our Board of Directors in January 2013. Mr. Rickertsen is currently managing partner of Pine Creek Partners, a private equity investment firm, a position he has held since January 2004. From January 1998 to January 2004, Mr. Rickertsen was chief operating officer and partner of Thayer Capital Partners, a private equity investment firm. From September 1994 to January 1998, Mr. Rickertsen

Table of Contents

was a managing partner at Thayer. Mr. Rickertsen was a founding partner of three Thayer investment funds totaling over \$1.4 billion and is a published author. Mr. Rickertsen has been a member of the Board of Directors of MicroStrategy, a publicly-traded software firm, since October 2002; Apollo Senior Floating Rate Fund, a closed-end senior bank debt fund since 2011; Apollo Tactical Income Fund, a closed-end senior and mezzanine bank debt fund; Noranda Aluminum, a U.S.-based aluminum producer, since 2012, and Berry Plastics, a large packaging manufacturer, since 2013. Mr. Rickertsen was formerly a board member of publicly-traded companies Convera Corporation, a search-engine software company, UAP Holding Corp., a distributor of agriculture products, and Homeland Security Capital Corporation, a specialized technology provider to government and commercial customers. Mr. Rickertsen received a BS from Stanford University and an MBA from Harvard Business School. Mr. Rickertsen's extensive financial experience qualifies him to serve as a director of the company.

Composition of Board of Directors

The company currently has nine directors. We currently avail ourselves of a transition period because we previously qualified for the controlled company exception under applicable stock exchange rules, which eliminates the requirements that we have a majority of independent directors on our Board of Directors and that we have compensation and nominating and governance committees composed entirely of independent directors until April 24, 2014. In addition, we are currently subject to a transition period that does not require us to have an audit committee composed entirely of independent directors until October 3, 2013.

Following our April 2013 public offering, we no longer qualified as a controlled company under NYSE rules. The Board of Directors has taken, and will continue to take, all action necessary to comply with the applicable stock exchange rules, including appointing a majority of independent directors to the Board of Directors by April 24, 2014, which is one year of the date we no longer qualified as a controlled company, and appointing at least a majority of independent members to each of the compensation and nominating and governance committees by July 23, 2013, which is 90 days after the date we no longer qualified as a controlled company, and compensation and nominating and governance committees composed entirely of independent directors by April 24, 2014.

Our Board of Directors is divided into three classes. The members of each class serve staggered, three-year terms (other than with respect to the current terms of the Class II directors, which will be two years). Upon the expiration of the term of a class of directors, directors in that class will be elected for three-year terms at the annual meeting of stockholders in the year in which their term expires. Currently:

Mr. Donald C. Graham, Mr. Heller and Carl J. (Rick) Rickertsen serve as Class I directors, whose current terms will expire at the 2016 annual meeting of stockholders;

Mr. Bayh, Mr. Civale and Mr. Steven C. Graham serve as Class II directors, whose terms expire at the 2014 annual meeting of stockholders; and

Mr. Rich, Mr. Harris and Mr. Seminara serve as Class III directors, whose terms will expire at the 2015 annual meeting of stockholders.

Any additional directorships resulting from an increase in the number of directors will be distributed among the three classes so that, as nearly as possible, each class will consist of one-third of our directors. This classification of our Board of Directors may have the effect of delaying or preventing changes in control.

At each annual meeting, our stockholders elect the successors to our directors. Our executive officers and key employees serve at the discretion of our Board of Directors. Directors may be removed for cause by the affirmative vote of the holders of a majority of our common stock.

Apollo Approval of Certain Matters

Under the amended and restated stockholders agreement that we entered into with the Apollo Funds and certain stockholders in connection with our initial public offering, until such time as the Apollo Funds no longer

Table of Contents

beneficially own at least 25% of the total number of shares of our common stock outstanding at any time, the approval of a majority of the members of our Board of Directors, which must include the approval of a majority of the directors nominated by the Apollo Funds voting on the matter, is required for amendments to our certificate of incorporation and bylaws, certain business combinations, the incurrence of certain indebtedness, certain capital expenditures, the declaration of dividends or other distributions other than intra-company dividends or distributions, changes in the size of the Board of Directors and to approve certain other matters. See Certain Relationships and Related Party Transactions Stockholders Agreement and Description of Capital Stock Composition of Board of Directors; Election and Removal of Directors.

Director Independence

Our Board of Directors has determined that Messrs. Heller and Rickertsen satisfy the independence standards established by the Securities and Exchange Commission and the rules of the NYSE. Dr. Rich is not considered independent under any general listing standards due to his current and past employment relationship with us, and Messrs. Civale, Donald C. Graham, Steven C. Graham, Harris, Bayh and Seminara are not considered independent under any general listing standards due to their relationships with the Apollo Funds, our largest stockholder, and the Graham Fund, one of our largest stockholders.

Board Committees

Our Board of Directors comprises a Compensation Committee, an Audit Committee, an Executive Committee, and a Nominating and Governance Committee. The charter for each Board committee is available on our website at www.berryplastics.com.

Audit Committee

Our Audit Committee currently consists of Messrs. Seminara, Heller (Chair) and Rickertsen. Our Board of Directors has determined that Messrs. Heller and Rickertsen satisfy the requirements for independence and financial literacy under the rules and regulations of the NYSE and the Securities and Exchange Commission, qualify as audit committee financial experts as defined under Securities and Exchange Commission rules and regulations, and satisfy the financial sophistication requirements of the NYSE. Under the rules of the NYSE, a listed company must have at least one independent member of the audit committee at the time of listing, a majority of independent members within 90 days of its registration statement being declared effective and a fully independent audit committee within one year of its registration statement being declared effective. The Board of Directors will take all action necessary to comply with the applicable stock exchange rules, including appointing an audit committee composed entirely of independent directors, subject to the above-described transition period.

The principal duties and responsibilities of our Audit Committee are to oversee and monitor the following:

the annual appointment of auditors, including the independence, qualifications and performance of our auditors and the scope of audit and non-audit assignments and related fees;

the accounting principles we use in financial reporting;

our financial reporting process and internal auditing and control procedures;

our risk management policies;

the integrity of our financial statements; and

our compliance with legal, ethical and regulatory matters.

Table of Contents

Compensation Committee

Our Compensation Committee consists of Messrs. Donald C. Graham, Rickertsen and Seminara (Chair).

The principal duties and responsibilities of our Compensation Committee are the following:

approval and recommendation to our Board of Directors of all compensation plans for the CEO of the company, all employees of the company and its subsidiaries who report directly to the CEO, and other members of the Senior Management Group, as well as all compensation for our Board of Directors;

approval of short-term compensation of the Senior Management Group and recommendation of short-term compensation for members of our Board of Directors;

approval and authorization of grants under the company's or its subsidiaries' incentive plans, including all equity plans and long-term incentive plans; and

the preparation of any report on executive compensation required by SEC rules and regulations, if any.

Nominating and Governance Committee

Our Nominating and Governance Committee consists of Messrs. Heller, Rich and Seminara (Chair). The Committee was formed in connection with our initial public offering, after the end of fiscal year 2012. The principal duties and responsibilities of our Nominating and Governance Committee are the following:

implementation and review of criteria for membership on our Board of Directors and its committees;

recommendation of proposed nominees for election to our Board of Directors and membership on its committees; and

recommendations to our Board of Directors regarding governance and related matters.

Executive Committee

Our Executive Committee consists of Messrs. Rich and Seminara. The principal duties and responsibilities of our Executive Committee are the following:

the exercise of the powers and duties of the Board of Directors between board meetings and while the Board is not in session, subject to applicable law and our organizational documents; and

the implementation of the policy decisions of our Board of Directors.

Code of Ethics

We have a Code of Business Ethics that applies to all employees, including our Chief Executive Officer and senior financial officers. These standards are designed to deter wrongdoing and to promote the highest ethical, moral and legal conduct of all employees. Our Code of Business

Ethics can be obtained on our website.

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

The Compensation Committee makes all final compensation decisions for our executive officers (which we collectively refer to as the Senior Management Group), including each of our named executive officers identified in our Summary Compensation Table, and established the annual salaries and bonuses paid to vice presidents and above for fiscal 2012. Below is a discussion of the principles outlining our executive compensation program.

Compensation Philosophy and Analysis

Our goal as an employer is to ensure that our pay practices are equitable as compared to market practice, facilitate appropriate retention, and reward exceptional performance. We have conducted studies to better understand compensation programs of other manufacturing companies similar in size to the company. Our studies have reviewed base salary, bonus, and a time based option value for one year, and based on such studies, we believe that our compensation levels generally fall at the lower end of other comparable companies.

The company believes that executive compensation should be designed to align closely the interests of its executive officers and stockholders and to attract, motivate, reward and retain superior management talent. The company utilizes the following guidelines pertaining to executive compensation:

pay compensation that is competitive with the practices of other manufacturing businesses that are similar in size to the company;

wage enhancements aligned with the performance of the company;

pay for performance by:

setting performance goals determined by our CEO and the Board of Directors for our officers and providing a short-term incentive award opportunity through a bonus plan that is based upon achievement of these goals; and

providing long-term incentive opportunities in the form of stock options, in order to retain those individuals with the leadership abilities necessary for increasing long-term stockholder value while aligning their interests with those of our investors and stockholders.

Role of Compensation Committee

The Compensation Committee's specific roles are to:

approve and recommend to our Board of Directors all compensation plans for (1) the CEO of the company, (2) all employees of the company and its subsidiaries who report directly to the CEO, and (3) other members of the Senior Management Group, as well as all compensation for our Board of Directors;

approve the short-term compensation of the Senior Management Group and to recommend short-term compensation for members of our Board of Directors;

approve and authorize grants under the company's or its subsidiaries' incentive plans, including all equity plans and long-term incentive plans; and

prepare any report on executive compensation required by Securities and Exchange Commission rules and regulations for inclusion in our annual proxy statement, if any.

Role of Executive Officers

The performance goals of each of our executive officers are reviewed annually. This information, along with the performance of the company and market data, determines the wage adjustment recommendation presented to

Table of Contents

the Compensation Committee. All other compensation recommendations with respect to executive officers of the company are made by the CEO pursuant to policies established in consultation with the Compensation Committee and recommendations from the Human Resource Department.

The Compensation Committee evaluates the performance of the CEO and determines the CEO's compensation in light of the goals and objectives of the compensation program. The Compensation Committee expects to review, on at least an annual basis, the performance of the CEO as compared with the achievement of the company's goals and any individual goals. The CEO, together with the Human Resource Department, will assess the performance and compensation of the other named executive officers annually. The CEO, together with the Human Resource Department, will review annually the performance of each member of the Senior Management Group as compared with the achievement of the company or operating division goals, as the case may be, together with each executive's individual goals and make compensation recommendations to the Compensation Committee. The Compensation Committee can exercise its discretion in modifying any recommended adjustments or awards to the executives. Both performance and compensation are evaluated to ensure that the company is able to attract and retain high quality executives in vital positions and that their compensation, taken as a whole, is competitive and appropriate compared to that of similarly situated executives in other corporations within the company's industry.

Executive Compensation Program

The compensation of our executive officers is generally classified into the following three categories: (1) base salary, (2) annual bonus, and (3) long-term equity awards in the form of company stock options. The company has selected these elements because each is considered useful and/or necessary to meet one or more of the principal objectives of the company's business. Base salary and bonus targets are set with the goal of motivating our named executive officers and adequately compensating and rewarding them on a day-to-day basis for the time spent and the services they perform. Our equity programs are geared toward providing an incentive and reward for the achievement of long-term business objectives, retaining key talent and more closely aligning the interests of management with our stockholders.

The compensation program for our named executive officers is reviewed on an annual basis. In setting individual compensation levels for a particular executive, the total compensation package is considered, along with the executive's past and expected future contributions to our business.

Base Salary

Our executive officers' base salaries depend on their position within the company and its subsidiaries, the scope of their responsibilities, the period during which they have been performing those responsibilities and their overall performance. Base salaries are reviewed annually and are generally adjusted from time to time to realign salaries with market levels after taking into account individual responsibilities, performance and experience.

Annual Bonus

The company has a long history of sharing profits with employees. This philosophy is embedded in our corporate culture and is one of many practices that has enabled the company to continually focus on improvement and be successful.

Our named executive officers participate in our Executive Profit Sharing Bonus Program, which is subject to approval by our Board of Directors every year. Depending on our overall business performance, which for calendar year 2012 was specifically related to our attainment of Adjusted EBITDA (excluding the impact of current-year acquisitions and dispositions) and our growth, each named executive officer was eligible to receive a bonus ranging from zero to 108% of his or her annual base salary. These target ranges were the same for all

Table of Contents

members of the Senior Management Group and were subject to change at the discretion of the Compensation Committee. Performance objectives are generally set on an annual basis. The applicable performance period is the calendar year in which the bonus award opportunity is granted.

In determining the amount each named executive officer earned under the Executive Profit Sharing Bonus Program, 75% of the target value of the award was earned based on attaining 100% of the applicable annual Adjusted EBITDA target, and 25% was based on attaining a pre-established level of growth in the equity value of the company. By meeting both targets, named executive officers qualified to earn 68.5% of their annual base salary. Bonus payments were thus directly tied to the performance of the company. Upon approval by our Board of Directors, bonuses were, to the extent earned, generally paid on an annual basis on a date determined by the Compensation Committee.

In connection with our initial public offering, we adopted the Berry Plastics Group, Inc. Executive Bonus Plan. The Executive Bonus Plan is intended to provide an incentive for superior work and to motivate covered key executives toward even greater achievement and business results, to tie their goals and interests to those of ours and our stockholders and to enable us to attract and retain highly qualified executives. Under the Executive Bonus Plan, we may pay bonuses (including, without limitation, discretionary bonuses) to key executives, including executive officers, based upon such terms and conditions as our Board of Directors or Compensation Committee may in its discretion determine. The Executive Bonus Plan is administered by our Board of Directors and/or Compensation Committee.

Beginning in calendar year 2013, in determining the amount each covered executive officer earns under the Executive Bonus Plan, each covered executive officer, other than Dr. Rich, is eligible to receive a bonus ranging from zero to 137% of his or her annual base salary. Dr. Rich is eligible to receive a bonus ranging from zero to 200% of his annual base salary. The determination of the target values under the Executive Bonus Plan is consistent with the determination of such target values under the Executive Profit Sharing Bonus Program. By meeting both targets, covered executive officers, other than Dr. Rich, qualify to earn 68.5% of their annual base salary. By meeting both targets, Dr. Rich qualifies to earn 100% of his annual base salary. Bonus payments under the Executive Bonus Plan thus continue to be directly tied to the performance of the company. Upon approval by our Board of Directors, bonuses are, to the extent earned, generally paid on an annual basis on a date determined by the Compensation Committee.

Equity Compensation Plans

In 2006, we adopted the 2006 Equity Incentive Plan. The 2006 Equity Incentive Plan permits us to grant stock options, stock appreciation rights, and rights to purchase shares to employees, directors or consultants of the company or any of its subsidiaries. The 2006 Equity Incentive Plan is administered by our Board of Directors or, if designated by our Board of Directors, by the Compensation Committee. Approximately 12.3 million shares of our common stock are reserved for issuance under the 2006 Equity Incentive Plan, after giving effect to the 12.25-for-one stock split that we executed in October 2012.

As discussed below, we have awarded stock options to members of our management, including our named executive officers. However, the Compensation Committee has not established a formal program or practice regarding the amount or timing of equity award grants to our employees. We do not have a program, plan or practice for selecting grant dates for awards under the 2006 Equity Incentive Plan in coordination with the release of material nonpublic information. Under the 2006 Equity Incentive Plan, the exercise price for option awards is the fair market value of our common stock on the date of grant. Historically, the fair market value of a share of our common stock was determined by the Board of Directors by applying industry-appropriate multiples to our then-current Adjusted EBITDA. This valuation took into account a level of net debt that excluded cash required for working capital purposes. Going forward, we expect that the fair market value of a share of our common stock will be determined for this purpose by reference to the public trading price of a share of our common stock on the date of grant of the option (e.g., using a weighted average or closing price). The

Table of Contents

Compensation Committee is not prohibited from granting awards at times when it is in possession of material nonpublic information. However, no inside information was taken into account in determining the number of options previously awarded or the exercise price for those awards, and we did not time the release of any material nonpublic information to affect the value of those awards.

From time to time, we have granted management participants stock options or stock appreciation rights under the 2006 Equity Incentive Plan. In connection with the grants, we have entered into stock option or stock appreciation right award agreements with management participants. The Compensation Committee believes that the granting of awards under the 2006 Equity Incentive Plan promotes, on a short- and long-term basis, an enhanced personal interest for our executives and an alignment of those interests with the goals and strategies of the company and the interests of our stockholders. The Compensation Committee also believes that the equity grants provide not only financial rewards to such executives for achieving company goals but also provide additional incentives for executives to remain with the company.

Generally, options granted under the 2006 Equity Incentive Plan and the Berry Plastics Group, Inc. 2012 Long-Term Incentive Plan (which we refer to as the 2012 Plan), become vested and exercisable over a five-year period. Unless set forth otherwise in the applicable award agreement, time-based options generally vest in 20% increments on each of the first five anniversaries of the grant date. Performance-based options generally vest upon achievement of certain EBITDA or IRR targets, and all options granted and outstanding under the 2006 Equity Incentive Plan vest on the ninth anniversary of the date of grant regardless of the achieving of the defined targets. In each case, the vesting of options is generally subject to the grantee's continued employment at the company or at one of its subsidiaries as of the applicable vesting date (subject to certain exceptions, as described below).

The 2006 Equity Incentive Plan (as supplemented by a side letter) provides for payment to holders of vested outstanding stock options and stock appreciation rights of special dividends and a pro rata share of transaction fees that may be paid to Apollo and Graham Partners in connection with certain extraordinary transactions. Absent an agreement otherwise, dividends and transaction fees in respect of unvested options and stock appreciation rights are credited to an account (and funded through the use of a rabbi trust) and paid to the option or stock appreciation right holder upon the earlier of the second anniversary of the date of payment of dividends or transaction fees generally (as the case may be), the holder's death, disability, retirement, termination without cause or resignation for good reason or a change of control of us (as such terms are defined in the 2006 Equity Incentive Plan). The above terms and conditions regarding payments and credits in the event of special dividends expired upon the consummation of our initial public offering.

The maximum term of options granted under the 2006 Equity Incentive Plan and options granted under the 2012 Plan is ten years. Subject to certain exceptions set forth in the applicable stock option award agreement, unvested options granted under the 2006 Equity Incentive Plan will automatically be forfeited upon termination. With respect to options granted under the 2012 Plan, upon a termination for any reason other than for cause, the death or disability of the participant, or a voluntary termination of employment by the participant, an additional 5% of the participant's options will vest for each full three-month period lapsed from the prior vesting date or, in the case of such a termination prior to the first anniversary of the grant date, the grant date. In the case of a termination for cause, vested options are forfeited. All vested options held by the participant upon a termination of employment (other than for cause) will expire 90 days after termination (or one year after termination in the case of termination due to death or disability). In the case of a termination of employment due to death or disability, an additional 20% of a participant's options will vest and, with respect to options granted under the 2012 Plan, an additional 5% of the participant's options will vest for each full three-month period lapsed from the prior vesting date or, in the case of such a termination prior to the first anniversary of the grant date, the grant date.

With respect to options granted under the 2006 Equity Incentive Plan, 20% of each grantee's option grants become vested upon a change in control of us, and 40% of each grantee's option grants become vested if such

Table of Contents

change in control results in the achievement of a targeted internal rate of return. In the case of Dr. Jonathan Rich, our Chief Executive Officer, different vesting terms and conditions apply to his unvested stock options in the event his employment is terminated under certain circumstances or there is a change of control of us. With respect to options granted under the 2012 Plan, if the employment of the participant is terminated at any time following a change in control of us for any reason other than for cause, the death or disability of the participant, or the voluntary termination of employment by the participant, 40% of each grantee's options become vested.

The 2012 Plan permits us to grant stock options, stock appreciation rights, restricted stock, restricted stock units, and other stock-based awards to employees, directors and consultants of the company or any of its subsidiaries. The 2012 Plan is administered by our Board of Directors or, if designated by our Board of Directors, by the Compensation Committee. Subject to adjustment, the 2012 Plan authorizes the issuance of up to 9,297,750 shares of common stock pursuant to the grant or exercise of nonqualified stock options, incentive stock options, stock appreciation rights, restricted stock, restricted stock units and other equity-based awards. The maximum number of shares of common stock issued pursuant to incentive stock options will be 929,775 shares of common stock.

In connection with our initial public offering, we granted under the 2012 Plan stock option awards with respect to approximately 2.72 million shares in the aggregate to non-employee directors, employees and officers, including our named executive officers as follows: Dr. Rich 720,000 options, Mr. Kratochvil 180,000 options, Mr. Unfried 100,000 options, Mr. Salmon 100,000 options and Mr. Becker 45,000 options. Such options granted to our named executive officers have a per-share exercise price equal to our initial public offering price of \$16 and are subject to the time-based vesting conditions described above.

Compensation Programs and Risk Management

We have determined that any risks arising from our compensation programs and policies are not reasonably likely to have a material adverse effect on the company. Our compensation programs and policies mitigate risk by combining performance-based, long-term compensation elements with payouts that are highly correlated to the value delivered to the company and its stockholders. The combination of performance measures applicable to annual bonuses and equity compensation awards granted to our executive officers and the multi-year vesting schedules applicable to equity awards granted to our executives encourages our executives to maintain both a short- and long-term view with respect to company performance.

Post-Employment Compensation

We provide post-employment compensation to our employees, including our named executive officers, as a continuance of the post-retirement programs sponsored by prior owners of the company. The Compensation Committee believes that offering such compensation allows us to attract and retain qualified employees and executives in a highly competitive marketplace and rewards our employees and executives for their contribution to the company during their employment.

A principal component of our post-employment executive officer compensation program is a qualified defined contribution 401(k) plan and a retirement health plan, which plans apply to all of our employees generally. Additionally, as described in more detail below, certain of our named executive officers are party to employment agreements with us that provide for termination rights and benefits. Under the 401(k) plan, the company awards a \$200 lump sum contribution annually for participating in the plan and matches dollar-for-dollar the first \$300 contributed by participants, with an additional match equal to 10% of the applicable participant's elective deferrals made during the plan year (subject to the limits set forth under the Internal Revenue Code). Participants who contribute at least \$1,000 will also receive an additional \$150 lump sum deposit at the end of the year. Company matching contributions are immediately vested upon contribution.

Table of Contents**Perquisites and Other Personal Benefits**

The Compensation Committee periodically reviews the perquisites provided to our executive officers to ensure that they are reasonable, competitive and consistent with the overall compensation program. Such perquisites include for certain of our executive officers (as set forth in more detail in the Summary Compensation Table and accompanying footnotes) use of a company-provided car and financial planning and tax assistance.

Section 162(m) of the Internal Revenue Code

From and after the time that our compensation programs become subject to Section 162(m) of the Internal Revenue Code, we intend to consider the structure of base salary, annual bonus and equity award compensation in order to maintain the deductibility of compensation under Section 162(m), to the extent we believe it is in the best interests of our stockholders to do so. However, the Board of Directors will take into consideration other factors, together with Section 162(m) considerations, in making executive compensation decisions and could, in certain circumstances, approve and authorize compensation that is not fully tax deductible. Transition provisions under Section 162(m) may apply for a period of approximately three to four years to certain compensation arrangements that were entered into by us prior to being publicly traded.

Summary Compensation Table

The following table sets forth the compensation awarded to, earned by, or paid to the chief executive officer, chief financial officer and the other three most highly compensated executive officers (collectively, the Named Executive Officers) during fiscal years 2012, 2011 and 2010.

Name and Principal Position	Fiscal Year	Salary	Bonus	Stock Awards	All Other Compensation	Total
Jonathan D. Rich Chairman and Chief Executive Officer	2012	\$ 864,716	\$ 776,687	\$	\$ 5,560	\$ 1,646,963
	2011	834,329	30,740	733,239 ⁽¹⁾	25,993	1,624,301

	2011	357,032	51,176		2,333	410,541
	2010	312,609	204,705		2,185	519,499

- (1) Equals the aggregate grant date fair value, as computed in accordance with FASB ASC Topic 718, of the grants of nonqualified stock options to Dr. Rich under the 2006 Equity Incentive Plan. For a description of the assumptions used to value these options, please refer to Note 1 to the Notes to Consolidated Financial Statements.
- (2) Equals the sum of (1) \$13,163 in costs incurred by the company for the executive's use of a company-provided vehicle, (2) \$1,871 in costs of group life insurance coverage provided to the executive, (3) \$4,430 in costs incurred by the company for the executive's tax return preparation, (4) \$229 in costs of individual disability coverage provided to the executive and (5) \$2,820 in matching contributions made by the company to the executive's account under the company 401(k) plan.
- (3) Equals the sum of (1) \$10,585 in costs incurred by the company for the executive's use of a company provided vehicle, (2) \$543 in costs of group life insurance coverage provided to the executive, and (3) \$2,302 in matching contributions made by the company to the executive's account under the company 401(k) plan.

Table of Contents

Employment and Consulting Agreements

Messrs. Becker and Kratochvil were party to employment agreements with the company that expired in December 2011 (although the severance provisions of such agreements remain in effect, as described below), and Messrs. Unfried and Salmon are party to agreements that remain in effect unless terminated according to the agreements' terms. The employment agreements provide for base salary as disclosed in the Summary Compensation Table above. Salaries are subject in each case to annual adjustment at the discretion of the company. The employment agreements generally entitle each executive to participate in all incentive compensation and welfare plans established by the company for executive officers.

The company may terminate the employment agreements for cause or due to a disability (as such terms are defined in the agreements). Specifically, if Mr. Salmon or Mr. Unfried is terminated by the company without cause (as such term is defined in their respective agreements), each is entitled to: (1) a pro rata portion of the annual bonus awarded to the executive for the year in which termination occurs, and (2) (A) if terminated prior to January 1, 2015, continuation of base salary for one year after termination, and (B) if terminated on or after January 1, 2015, severance benefits pursuant to the provisions of the Berry Plastics Corporation Severance Pay Plan in effect on the date of termination. Notwithstanding the termination of their employment agreements on December 31, 2011, if Mr. Kratochvil or Mr. Becker is terminated without cause, which, in the case of Mr. Kratochvil, includes a termination by reason of death or disability (as such terms are defined in their respective agreements), each is entitled to: (1) the greater of (A) continuation of base salary for one year after termination or (B) 1/12 of one year's base salary for each year of employment (subject to a maximum of 30 years) with the company and its predecessors, and (2) a pro rata portion of the annual bonus awarded to him for the year in which termination occurs. Each employment agreement also includes customary noncompetition, nondisclosure and nonsolicitation provisions.

Mr. Becker retired as President and Chief Operating Officer effective July 1, 2013. He did not receive any severance or equity award payments as a result of his retirement.

In October 2010, the company and Dr. Rich entered into an employment agreement. The employment agreement provides for base salary as disclosed in the Summary Compensation Table above. Salary is subject to annual adjustment at the discretion of the Compensation Committee of the Board of Directors. The agreement generally entitles Dr. Rich to an annual performance-based target bonus determined based on a defined percentage of his then-current annual base salary and to participate in all welfare plans established for executive officers. If Dr. Rich's employment is terminated by the company without cause, if Dr. Rich resigns for good reason, or if his employment is terminated by reason of death or disability, in each case (other than death) subject to his execution of a release of claims and compliance with the restrictive covenants set forth in his agreement, he is entitled to (1) cash severance equal to 18 months' base salary, payable in monthly installments, (2) a prorated bonus based on actual performance for the year in which termination occurs and (3) for the severance continuation period, a monthly amount equal to the amount by which the monthly COBRA continuation coverage premium exceeds the active employee monthly premium under the company's group medical plans. The employment agreement also includes customary noncompetition, nondisclosure and nonsolicitation provisions.

Table of Contents**Outstanding Equity Awards at Fiscal Year-End Table**

The following table shows the number of outstanding equity awards held by each of our named executive officers as of September 29, 2012.

Name	Number of Securities Underlying Unexercised Options (#) Exercisable	Number of Securities Underlying Unexercised Options (#) Unexercisable	Option Exercise Price (\$/sh)	Option Expiration Date
Jonathan D. Rich	102,085	1,122,914 ⁽¹⁾	6.12	10/04/20
James M. Kratochvil	255,558		8.16	9/20/16
Randall J. Becker	127,779		8.16	9/20/16
Randall J. Becker	23,951	39,919 ⁽²⁾	6.18	1/01/20
G. Adam Unfried	167,580		8.16	9/20/16
Thomas E. Salmon	26,814	6,702 ⁽³⁾	8.16	6/04/17
Thomas E. Salmon	62,215	29,953 ⁽⁴⁾	9.21	1/01/18

- (1) The executive's unvested options vest as follows: (i) with respect to 306,256 options, 25% vest on October 4 of each of 2012, 2013, 2014 and 2015, and (ii) 816,658 options vest upon the attainment of certain performance criteria.
- (2) The executive's unvested options vest as follows: (i) with respect to 14,371 options, approximately 1,597 vest at the end of each calendar quarter beginning with the calendar quarter ending December 31, 2012, (ii) with respect to 19,161 options, approximately 6,387 vest at the end of each calendar year beginning with the 2012 calendar year based on the attainment of performance criteria, and (iii) approximately 6,387 options vest on January 1, 2019.
- (3) The executive's unvested options vest on June 4, 2016.
- (4) The executive's unvested options vest as follows: (i) approximately 2,303 options vest at the end of the calendar quarter ending December 31, 2012, (ii) 9,216 options vest at the end of calendar year 2012 based on the attainment of performance criteria, and (iii) approximately 18,434 options vest on January 1, 2017.

Option Exercises for the 2012 Fiscal Year

No options were exercised by our named executive officers in fiscal 2012.

Potential Payments Upon Termination or Change-in-Control

As discussed above, Messrs. Unfried, Salmon and Dr. Rich are party to employment agreements with the company. Messrs. Becker and Kratochvil were party to employment agreements with the company that expired in December 2011 that, notwithstanding their termination, provide the severance benefits described below. If Mr. Becker or Mr. Kratochvil is terminated without cause, which, in the case of Mr. Kratochvil, includes a termination by reason of death or disability (as such terms are defined in their respective agreements), each is entitled to: (1) the greater of (A) continuation of base salary for one year after termination and (B) 1/12 of one year's base salary for each year of employment (subject to a maximum of 30 years) with the company and its predecessors, and (2) a pro rata portion of the annual bonus awarded to him for the year in which termination occurs. If Mr. Salmon or Mr. Unfried is terminated by the company without cause (as such term is defined in their respective agreements), the executive is entitled to: (1) a pro rata portion of the annual bonus awarded to the executive for the year in which termination occurs, and (2) (A) if terminated prior to January 1, 2015, continuation of base salary for one year after termination, and (B) if terminated on or after January 1, 2015, severance benefits pursuant to the provisions of the Berry Plastics Corporation Severance Pay Plan in effect on the date of termination. If Dr. Rich is terminated by the company without cause, he resigns for good reason or if his employment is terminated by reason of death or disability, in each case (other than death) subject to his execution of a release of claims and compliance with the restrictive covenants set forth in his agreement, he is entitled to (1) cash severance equal to 18 months' base salary, payable in monthly installments, (2) a prorated

Table of Contents

bonus based on actual performance for the year in which termination occurs, and (3) for the severance continuation period, a monthly amount equal to the amount by which the monthly COBRA continuation coverage premium exceeds the active employee monthly premium under the company's group medical plans.

Under the company's form of option award agreements under the 2006 Equity Incentive Plan, as described above, unvested options will automatically be forfeited upon a termination without cause (in the case of a termination for cause, vested options are also forfeited). In the case of a termination of employment due to death or disability, an additional 20% of an executive's options will vest. Twenty percent of each executive's option grants becomes vested upon a change in control of us, and 40% becomes vested if such change in control results in the achievement of a targeted internal rate of return. In the case of Dr. Rich, different vesting terms and conditions apply to his unvested stock options in the event his employment is terminated under certain circumstances or there is a change of control of us. Assuming the initial public offering price of \$16.00 per share, and that the employment of each of our named executive officers had been terminated without cause on September 29, 2012, the in the money value of any vested options held by Messrs. Kratochvil, Becker, Salmon, Unfried and Dr. Rich as of such date would have been approximately \$2,259,133, \$1,388,716, \$721,691, \$1,481,407 and \$1,110,685, respectively. (These figures do not reflect values attributable to option awards granted to such officers under the 2012 Plan after September 29, 2012, in connection with our offering because such officers did not hold such options as of such date.)

If each of our named executive officers had been terminated without cause on September 29, 2012, Messrs. Kratochvil, Becker, Salmon, Unfried and Dr. Rich would have received cash severance amounts of approximately \$1,392,000, \$1,254,000, \$650,000, \$542,000 and \$1,741,000, respectively.

Compensation Committee Interlocks and Insider Participation

During fiscal 2012, no officer or employee served as a member of the Compensation Committee. Messrs. Seminara, Donald Graham and Civale, members of our Compensation Committee, have relationships with our equity sponsors, Apollo and Graham Partners. We paid fees during fiscal 2012 to our equity sponsors for providing management, consulting, or other advisory services. As such, Messrs. Seminara, Donald Graham and Civale may be indirect beneficiaries of the relationship between our equity sponsors and us.

Compensation for Directors

For fiscal 2012, non-employee directors received \$12,500 per quarter plus \$2,000 for each meeting they attended. Effective October 3, 2012, non-employee directors receive \$21,250 per quarter plus \$10,000 annually for serving as Chair of a Board committee. Non-employee directors are also reimbursed for out-of-pocket expenses incurred in connection with their duties as directors. For fiscal 2012, we paid non-employee directors' fees on a combined basis as shown in the following table.

Name	Fees Earned or Paid	Option Awards	Total
Anthony M. Civale	\$ 60,000	\$	\$ 60,000
Patrick J. Dalton ⁽¹⁾	52,000		52,000
Donald C. Graham	58,000		58,000
Steven C. Graham	64,000		64,000
B. Evan Bayh	58,000		58,000
Joshua J. Harris	56,000		56,000
Robert V. Seminara	68,000		68,000

(1) Mr. Dalton resigned from the Board of Directors effective February 8, 2012.

Table of Contents**Equity Compensation Plan Information**

The following table provides information as of the end of our 2012 fiscal year regarding shares of common stock of Berry Plastics Group, Inc. that may be issued under our existing equity compensation plan, the 2006 Equity Incentive Plan, which is the only plan under which equity awards have been granted.

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights (a)	Weighted average exercise price of outstanding options, warrants and rights (b)	Number of securities remaining available for future issuance under equity compensation plan (excluding securities referenced in column (a)) (c)
Equity compensation plans not approved by security holders ⁽¹⁾⁽²⁾	10,741,090	7.76	1,597,240
Total	10,741,090	7.76	1,597,240

(1) Includes the 2006 Equity Incentive Plan, which our Board of Directors adopted in September 2006, and for which there were 7,327,612 options exercisable at the end of our 2012 fiscal year.

(2) Does not include shares of Berry Plastics Group, Inc. Common Stock already purchased as such shares are already reflected in the company's outstanding shares.

2006 Equity Incentive Plan

In 2006, we adopted the 2006 Equity Incentive Plan. The purpose of the 2006 Equity Incentive Plan is to further our growth and success, to enable our directors, executive officers and employees to acquire shares of our common stock, thereby increasing their personal interest in our growth and success, and to provide a means of rewarding outstanding performance by such persons. Options granted under the 2006 Equity Incentive Plan may not be assigned or transferred, except to us or by will or the laws of descent or distribution. The 2006 Equity Incentive Plan terminates ten years after adoption and no options may be granted under the plan thereafter. The 2006 Equity Incentive Plan allows for the issuance of non-qualified options, options intended to qualify as incentive stock options within the meaning of the Internal Revenue Code, stock appreciation rights and other rights to purchase shares of our common stock.

The employees participating in the 2006 Equity Incentive Plan receive options and stock appreciation rights under the 2006 Equity Incentive Plan pursuant to individual option and stock appreciation rights agreements, the terms and conditions of which (subject to certain exceptions) are substantially identical. Each option agreement provides for the issuance of options to purchase common stock of the company.

At the end of the 2012 fiscal year, there were outstanding options to purchase 10,697,823 shares of our common stock and stock appreciation rights with respect to 43,267 shares of our common stock.

Table of Contents**PRINCIPAL AND SELLING STOCKHOLDERS****Principal Stockholders**

The following table sets forth certain information, as of July 1, 2013, regarding the beneficial ownership of the common stock of Berry Plastics Group, Inc. with respect to:

each person that is a beneficial owner of more than 5% of its outstanding common stock;

each director and each executive officer named in the Summary Compensation Table; and

all directors and executive officers as a group.

Upon the completion of this offering, investment funds affiliated with Apollo will own, in the aggregate, approximately 31.1% of our common stock, assuming the underwriters do not exercise their option to purchase additional shares of our common stock from the selling stockholders.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

Stockholders Agreement

Apollo, Graham Partners and certain of our employees who invested in Berry Plastics Group, Inc. entered into a stockholders agreement in 2007 that was amended and restated upon completion of our initial public offering in October 2012. The amended and restated stockholders agreement provides for, among other things, a restriction on the transferability of the equity ownership of the company of each employee and certain other stockholders that are parties thereto, piggyback registration rights, repurchase rights by the company and Apollo in certain circumstances, demand registration rights for Apollo and Graham Partners and board and information rights for Apollo.

In addition, the amended and restated stockholders agreement provides that, except as otherwise required by applicable law, if the Apollo Funds hold (a) at least 50% of our outstanding common stock, it will have the right to designate no fewer than that number of directors that would constitute a majority of our Board of Directors, (b) at least 30% but less than 50% of our outstanding common stock, it will have the right to designate up to five director nominees, (c) at least 20% but less than 30% of our outstanding common stock, it will have the right to designate up to four director nominees, and (d) at least 10% but less than 20% of our outstanding common stock, the Apollo Funds will have the right to designate up to three director nominees. The agreement provides that if the size of the Board of Directors is increased or decreased at any time, the Apollo Funds' nomination rights will be proportionately increased or decreased, respectively, rounded up to the nearest whole number. The amended and restated stockholders agreement provides that, except as otherwise required by applicable law, the company must take all action within its power to cause all persons nominated by the Apollo Funds pursuant to the provisions described above to be included in the slate of nominees recommended by the Board of Directors to our stockholders for election as directors at each annual meeting of our stockholders and must use all reasonable efforts to cause the election of each such nominee, including soliciting proxies in favor of the election of such nominees. In addition, except as otherwise required by applicable law, the Apollo Funds have the right to designate a replacement to fill a vacancy on our Board of Directors that was designated by the Apollo Funds and we are required to take all action within our power to cause such vacancy to be filled by the replacement designated by the Apollo Funds (including by promptly appointing such designee to the Board of Directors). Once the Apollo Funds own less than 10% of our outstanding common stock, they will have no right to designate director nominees under the amended and restated stockholders agreement.

Under the amended and restated stockholders agreement, the approval of a majority of the members of our Board of Directors, which must include the approval of a majority of the directors nominated by the Apollo Funds voting on the matter, is required under certain circumstances. These include, as to us and, to the extent applicable, each of our subsidiaries:

the amendment, modification or repeal of any provision of our certificate of incorporation and bylaws or similar organizational documents in a manner that adversely affects Apollo;

the issuance of additional shares of any class of our capital stock (other than any award under any stockholder approved equity compensation plan or any intra-company issuance among us and our subsidiaries);

a merger or consolidation of us with or into any other entity, or transfer (by lease, assignment, sale or otherwise) of all or substantially all of our and our subsidiaries' assets, taken as a whole, to another entity, the entry into or agreement to undertake any transaction that would constitute a Change of Control as defined in our or our subsidiaries' principal credit facilities or note indentures;

the consummation of any acquisition of the stock or assets of any other entity (other than any of our subsidiaries), in a single transaction or a series of related transactions, involving consideration in excess of \$75 million in the aggregate, or the entry into any joint venture requiring a capital contribution in excess of \$75 million;

Table of Contents

the incurrence of indebtedness, in a single transaction or a series of related transactions, aggregating to more than \$75 million, except for borrowings under a revolving credit facility that has previously been approved or is in existence (with no increase in maximum availability);

making a single or series of related capital expenditures in excess of \$25 million in any fiscal year;

the declaration of any dividends or other distributions (other than intra-company dividends or distributions of any of our subsidiaries);

the termination of the Chief Executive Officer or designation of a new Chief Executive Officer;

a change in the size of the Board of Directors; and

the creation of any non-wholly owned subsidiary of us or any of our subsidiaries.

These approval rights terminate at such time as the Apollo Funds no longer beneficially own at least 25% of our outstanding common stock. See Management Apollo Approval of Certain Matters and Rights to Nominate Certain Directors and Description of Capital Stock Composition of Board of Directors; Election and Removal of Directors.

The amended and restated stockholders agreement provides that Apollo may make one or more written demands of us to require us to register the shares of our common stock owned by the Apollo Funds, and Graham Partners may make up to three such demands with respect to the shares of common stock owned by the Graham Fund. In addition, the Apollo Funds, the Graham Fund and the stockholders that are parties to the agreement have piggyback rights entitling them to require us to register shares of our common stock owned by them in connection with any registration statements filed by us, subject to certain exceptions. We have agreed to indemnify the Apollo Funds and such stockholders (to the extent they are selling stockholders in any such registration) against losses suffered by them in connection with any untrue or alleged untrue statement of a material fact contained in any registration statement, prospectus or preliminary prospectus or any omission or alleged omission to state therein a material fact required to be stated therein or necessary to make the statement therein not misleading, except insofar as the same may be caused by or contained in any information furnished in writing to us by such selling stockholder for use therein.

Management and Transaction Fees

Prior to our initial public offering on October 3, 2012, the company was charged a management fee by Apollo and Graham Partners, for the provision of management consulting and advisory services provided each year. The management fee was the greater of \$3 million or 1.25% of Adjusted EBITDA per year. The company paid \$9 million of total management fees to Apollo and Graham Partners in fiscal 2012.

As a result of our initial public offering, the management services agreement with Apollo and Graham Partners was terminated.

Income Tax Receivable Agreement

Following our initial public offering, we expect to be able to utilize net operating losses that arose prior to the initial public offering and are therefore attributable to our existing stockholders, option holders and holders of stock appreciation rights (i.e., the Apollo Funds, management and other investors). These net operating loss carryforwards will reduce the amount of tax that we and our subsidiaries would otherwise be required to pay in the future.

We have entered into an income tax receivable agreement and thereby distributed to our existing stockholders, option holders and holders of our stock appreciation rights the right to receive payment by us of 85% of the amount of cash savings, if any, in U.S. federal, state, local, and foreign income tax that we and our

Table of Contents

subsidiaries actually realize (or are deemed to realize in the case of a change of control and certain subsidiary dispositions, as discussed below) as a result of the utilization of our and our subsidiaries' net operating losses attributable to periods prior to this offering.

For purposes of the income tax receivable agreement, cash savings in income tax are computed by reference to the reduction in the liability for income taxes resulting from the utilization of the tax benefits subject to the income tax receivable agreement. The term of the income tax receivable agreement commenced upon consummation of our initial public offering in October 2012 and will continue until all relevant tax benefits have been utilized or have expired.

Our counterparties under the income tax receivable agreement will not reimburse us for any payments previously made if such tax benefits are subsequently disallowed (although future payments would be adjusted to the extent possible to reflect the result of such disallowance). As a result, in such circumstances we could make payments under the income tax receivable agreement that are greater than our actual cash tax savings.

While the actual amount and timing of any payments under the income tax receivable agreement will vary depending upon a number of factors, including the amount and timing of the taxable income we and our subsidiaries generate in the future, and our and our subsidiaries' use of net operating loss carryforwards, we expect that during the term of the income tax receivable agreement, the payments that we may make could be material. Assuming no material changes in the relevant tax law and that we and our subsidiaries earn sufficient taxable income to realize the full tax benefits subject to the income tax receivable agreement, we would expect that payments under the income tax receivable agreement will aggregate to approximately \$300 million to \$350 million over the next five years.

Upon the effective date of the income tax receivable agreement, the company recorded an initial obligation of \$300 million, which is recognized as a reduction of Paid-in capital on the Consolidated Balance Sheet. Any future changes in the realizability of our net operating loss carry forwards that were generated prior to our initial public offering, will impact the amount of the liability that will be paid to our shareholders, option holders and holders of our stock appreciation rights. Changes in the realizability of these tax assets will be recorded in income tax expense (benefit) and any changes in the obligation under the income tax receivable agreement will be recorded in other income (expense). Based on our current taxable income estimates, we expect to repay the majority of this obligation by the end of our 2016 fiscal year. We expect to pay between \$300 million and \$350 million in cash related to this agreement over the next five years, based on our current taxable income estimates. We plan to use cash flow from operations and availability under our line of credit to fund this obligation. The Company had made \$5 million of payments related to the income tax receivable agreement as of March 31, 2013.

If we undergo a change of control, the income tax receivable agreement will terminate and we will be required to make a payment equal to the present value of future payments under the income tax receivable agreement, which payment would be based on certain assumptions, including those relating to our and our subsidiaries' future taxable income. Additionally, if we sell or otherwise dispose of any of our subsidiaries in a transaction that is not a change of control, we will be required to make a payment equal to the present value of future payments under the income tax receivable agreement attributable to the tax benefits of such subsidiary that is sold or disposed of, applying the assumptions described above. Under limited circumstances, payments in connection with stock options and stock appreciation rights may, for tax reasons, need to be deferred following a change of control until the fifth anniversary of this offering.

The income tax receivable agreement provides that in the event that we breach any of our material obligations under it, whether as a result of our failure to make any payment when due (subject to a specified cure period), failure to honor any other material obligation under it or by operation of law as a result of the rejection of it in a case commenced under the United States Bankruptcy Code or otherwise, then all our payment and other obligations under the income tax receivable agreement will be accelerated and will become due and payable.

Table of Contents

applying the same assumptions described above. Such payments could be substantial and could exceed our actual cash tax savings under the income tax receivable agreement.

Because we are a holding company with no operations of our own, our ability to make payments under the income tax receivable agreement is dependent on the ability of our subsidiaries to make distributions to us. Our credit agreement and Berry Plastics Corporation's outstanding notes restrict the ability of our subsidiaries to make distributions to us, which could affect our ability to make payments under the income tax receivable agreement. To the extent that we are unable to make payments under the income tax receivable agreement for any reason, such payments will be deferred and will accrue interest at a rate of LIBOR plus 5.00% per annum until paid.

Other Related Party Transactions

Certain of our management, stockholders and related parties and their affiliates have independently acquired and held financial debt instruments of the company. During fiscal 2012, interest expense included \$2 million related to this debt.

BP Parallel, a non-guarantor subsidiary of the Company, invested \$21 million to purchase assignments of \$21 million of unsecured term loan during the quarter ended December 29, 2012. Of the \$21 million assignments purchased, \$14 million were purchased from third parties affiliated with Apollo.

In connection with our initial public offering in October 2012, we paid a \$1 million underwriting fee to Apollo Global Securities, LLC, an affiliate of Apollo that served as a manager of the offering.

In connection with the incremental assumption agreement Berry Plastics Corporation entered into in February 2013, we paid a \$1 million underwriting fee to Apollo Global Securities, LLC, an affiliate of Apollo that served as a manager of the offering.

In connection with our April 2013 public offering, the selling stockholders, the Apollo Fund and the Graham Fund, paid a \$0.5 million underwriting fee to Apollo Global Securities, LLC, an affiliate of Apollo that served as a manager of the offering, reflecting its pro rata portion of the aggregate underwriting fee.

Review and Approval of Related Party Transactions

In connection with our initial public offering, our Board of Directors adopted a written policy for the review and approval or ratification of any transaction with any related party where the aggregate amount involved is expected to exceed \$120,000 and any related party had, has or will have a direct or indirect material interest, with the exception of (i) certain transactions involving another company in which the related party's only relationship is as a non-executive employee, director or less-than-10% equity owner or limited partner and (ii) certain additional exemptions. Under the policy, the Audit Committee shall review such related party transactions and may approve or ratify them only if it is determined that they are fair as to, and not inconsistent with the best interests of, the company, considering all relevant facts and circumstances. When reviewing a related party transaction, the Audit Committee may take into consideration all of the relevant facts and circumstances available to it, including, to the extent relevant and feasibly provided: (a) the material terms and conditions of the transaction; (b) the related party's relationship to the company; (c) the related party's interest in the transaction; (d) the approximate dollar value of the transaction and of the related party's interest in the transaction; (e) the aggregate amount of all payments or installments to be made, in the case of a transaction providing for periodic payments or installments; (f) the aggregate amount of principal to be outstanding and interest rate payable, in the case of indebtedness; and (g) any other material information.

The policy requires any officer, director or employee of the company or its subsidiaries who becomes aware of a potential related party transaction to notify the Chief Financial Officer or an Executive Vice President of the company, who shall then review the proposed transaction and, if it is expected to fall within the policy, present it

Table of Contents

to the Audit Committee for review. Under the policy, the Audit Committee must approve any related party transaction by the affirmative vote of a majority of its disinterested members. If advance approval is not feasible, then the Audit Committee must ratify the related party transaction at its next regularly scheduled meeting or the transaction must be rescinded. In addition, the Chair of the Audit Committee may pre-approve or ratify any related party transaction in which the aggregate amount involved is reasonably expected to be less than \$100,000.

Other than as described above, the company has not entered into any related party transactions required to be disclosed under SEC rules during fiscal 2012.

Table of Contents

DESCRIPTION OF CERTAIN INDEBTEDNESS

Senior Secured Credit Facilities

Berry Plastics Corporation is a party to senior secured credit facilities that include a term loan in the principal amount of \$1,200 million (the original term loan), a term loan in the principal amount of \$1,400 million (the additional term loan) and a revolving credit facility which provides borrowing availability equal to the lesser of (a) \$650 million or (b) the borrowing base, which is a function, among other things, of Berry Plastics Corporation's and certain of its subsidiaries' accounts receivable and inventory. The original term loan matures on April 3, 2015, the additional term loan matures on February 8, 2020 and the revolving credit facility matures on the earlier of June 28, 2016 and the date that is 45 days prior to the earliest scheduled maturity of Berry Plastics Corporation's first lien notes, second lien notes (other than the second priority floating rate notes in certain circumstances) or term loan, except to the extent such debt is refinanced according to certain requirements.

The borrowing base is, at any time of determination, an amount (net of reserves) equal to the sum of:

85% of the net amount of eligible accounts receivable; and

85% of the net orderly liquidation value of eligible inventory.

The revolving credit facility includes borrowing capacity available for letters of credit and for borrowings on same-day notice, referred to as swingline loans.

At March 30, 2013, we had unused borrowing capacity of \$518 million under the revolving credit facility after giving effect to outstanding letters of credit and borrowing base reserve.

The borrowings under the senior secured credit facilities bear interest at a rate equal to an applicable margin plus, as determined at our option, either (a) a base rate (Base Rate) determined by reference to the higher of (1) the prime rate of Credit Suisse, Cayman Islands Branch, as administrative agent, in the case of the original term loan or additional term loan or Bank of America, N.A., as administrative agent, in the case of the revolving credit facility, (2) the U.S. federal funds rate plus $\frac{1}{2}$ of 1% and (3) in the case of the additional term loan, 2.00% or (b) a eurodollar rate (LIBOR) determined by reference to the costs of funds for eurodollar deposits in dollars in the London interbank market for the interest period relevant to such borrowing adjusted for certain additional costs (or, in the case of the additional term loan, 1.00%, if higher). The initial applicable margin for LIBOR rate borrowings under the revolving credit facility as amended on June 28, 2011 was 1.75% to 2.25%, under the original term loan is 2.00%, and under the additional term loan is 2.50%. The initial applicable margin for base rate borrowings under the revolving credit facility as amended was 0.00%, under the original term loan was 1.00% and under the additional term loan was 1.50%. The applicable margin for such borrowings under the revolving credit facility is adjusted depending on quarterly average daily unused borrowing capacity under the revolving credit facility.

The original term loan requires minimum quarterly principal payments of \$3 million for the first eight years, commencing in June 2007, with the remaining amount payable on April 3, 2015. The additional term loan requires minimum quarterly principal payments of \$3.5 million, commencing in June 2013 through December 2019, with the remaining amount payable on February 8, 2020. In addition, Berry Plastics Corporation must prepay the outstanding original term loans and additional term loans, subject to certain exceptions, with:

50% (which percentage is (a) subject to a minimum of 0% upon the achievement of certain leverage ratios and (b) will automatically be reduced to 0% as and from the date upon which no amounts of principal or interest with respect to the original term loan is outstanding) of excess cash flow (as defined in the term loan credit agreement); and

100% of the net cash proceeds of all non-ordinary course asset sales and casualty and condemnation events, if Berry Plastics Corporation does not reinvest or commit to reinvest those proceeds in assets to be used in its business or to make certain other permitted investments within 15 months, subject to certain limitations.

Table of Contents

In addition to paying interest on outstanding principal under the senior secured credit facilities, Berry Plastics Corporation is required to pay a commitment fee to the lenders under the revolving credit facilities in respect of the unutilized commitments thereunder at a rate equal to 0.375% to 0.50% per annum depending on the average daily available unused borrowing capacity. Berry Plastics Corporation also pays a customary letter of credit fee, including a fronting fee of 0.125% per annum of the stated amount of each outstanding letter of credit, and customary agency fees.

Berry Plastics Corporation may voluntarily repay outstanding loans under the senior secured credit facilities at any time without premium or penalty, other than customary breakage costs with respect to eurodollar loans, except that Berry Plastics Corporation would be required to pay a 1.0% premium on any principal amount of the additional term loan prepaid on or prior to February 8, 2014 in connection with certain repricing transactions (as described in greater detail in the credit agreement relating to the original term loan and the additional term loan).

The senior secured credit facilities contain a number of covenants that, among other things, restrict, subject to certain exceptions, Berry Plastics Corporation's ability and the ability of its subsidiaries to:

sell assets;

incur additional indebtedness;

repay other indebtedness;

pay dividends and distributions or repurchase our capital stock;

create liens on assets;

make investments, loans, guarantees or advances;

make certain acquisitions;

engage in mergers or consolidations;

enter into sale leaseback transactions;

engage in certain transactions with affiliates;

amend certain material agreements governing our indebtedness;

amend organizational documents;

Edgar Filing: BERRY PLASTICS GROUP INC - Form S-1

change the business conducted by Berry Plastics Corporation and its subsidiaries;

change Berry Plastics Corporation's fiscal year end; and

enter into agreements that restrict dividends from subsidiaries.

In addition, the revolving credit facility requires Berry Plastics Corporation to maintain a minimum fixed charge coverage ratio at any time when the aggregate unused revolver capacity falls below either 10% of the lesser of the revolving credit facility commitments and the borrowing base (and for ten consecutive days following the date upon which availability exceeds such threshold) or during the continuation of an event of default. In that event, Berry Plastics Corporation must satisfy a minimum fixed charge coverage ratio requirement of 1.0:1.0. The term loan facility also requires Berry Plastics Corporation to use commercially reasonable efforts to maintain corporate ratings from each of Moody's and S&P for the term loan facility. The senior secured credit facilities also contain certain other customary affirmative covenants and events of default.

All obligations under the senior secured credit facilities are unconditionally guaranteed by Berry Plastics Group, Inc. and, subject to certain exceptions, each of Berry Plastics Corporation's existing and future direct and indirect domestic subsidiaries. The guarantees of those obligations are secured by substantially all of Berry Plastics Corporation's assets and those of each domestic subsidiary guarantor as well as the equity interests in Berry Plastics Corporation held by Berry Plastics Group, Inc.

Table of Contents

Second Priority Senior Secured Notes

In connection with the issuance of \$800 million of second priority notes (the November 2010 second priority notes) in November 2010, Berry Plastics Corporation conducted tender offers to purchase for cash any and all of the outstanding 2006 second priority fixed rate notes and 2009 second priority fixed rate notes. Berry Plastics Corporation also redeemed all such notes not validly tendered in the tender offers, and satisfied and discharged the indenture relating to the 2009 second priority fixed rate notes. Berry Plastics Corporation used the proceeds from the issuance of the November 2010 second priority notes along with cash on hand to fund the repurchase of the 2006 second priority fixed rate notes and the 2009 second priority fixed rate notes pursuant to the tender offers and subsequent redemption of such notes.

In April 2010, Berry Plastics Corporation issued \$500 million in aggregate principal amount of 9¹/₂% second priority senior secured notes due 2018 (the April 2010 second priority fixed rate notes), and in November 2010, Berry Plastics Corporation issued \$800 million of second priority notes due 2018 (the November 2010 second priority notes, and together with the April 2010 second priority notes, the existing second priority senior secured notes). The April 2010 second priority fixed rate notes will mature on May 15, 2018, and the November 2010 second priority notes will mature on January 15, 2021. All of Berry Plastics Corporation's existing second priority senior secured notes are secured, senior obligations and are guaranteed on a second priority secured, senior basis by each of Berry Plastics Corporation's subsidiaries that guarantees its senior secured credit facilities. The existing second priority senior secured notes are also guaranteed on an unsecured basis by Berry Plastics Group, Inc. No principal payments are required with respect to the existing second priority senior secured notes prior to maturity.

The April 2010 second priority fixed rate notes may be redeemed, at Berry Plastics Corporation's option, prior to May 15, 2014, at a price equal to 100% of the principal amount of the April 2010 second priority fixed rate notes redeemed, plus accrued and unpaid interest and additional interest, if any, to the redemption date, plus an applicable premium. On or after May 15, 2014, Berry Plastics Corporation may redeem some or all of the April 2010 second priority fixed rate notes at redemption prices set forth in the indenture relating to the April 2010 second priority fixed rate notes. The November 2010 second priority notes may be redeemed, at Berry Plastics Corporation's option, prior to January 15, 2016, at a price equal to 100% of the principal amount of the 2010 second priority fixed rate notes redeemed, plus accrued and unpaid interest and additional interest, if any, to the redemption date, plus an applicable premium. On or after January 15, 2016, Berry Plastics Corporation may redeem some or all of the November 2010 second priority notes at redemption prices set forth in the indenture relating to the November 2010 second priority notes. If a change of control occurs, Berry Plastics Corporation must give holders of the existing second priority senior secured notes an opportunity to sell their notes at a purchase price of 101% of the principal amount plus accrued and unpaid interest.

The indentures relating to the existing second priority senior secured notes contain a number of covenants that, among other things and subject to certain exceptions, restrict the ability of Berry Plastics Corporation and its restricted subsidiaries to incur indebtedness or issue disqualified stock or preferred stock, pay dividends or redeem or repurchase stock, make certain types of investments, sell assets, incur certain liens, enter into agreements restricting dividends or other payments from subsidiaries, enter into certain transactions with affiliates and consolidate, merge or sell all or substantially all of its assets.

The indentures relating to the existing second priority senior secured notes provide that Berry Plastics Corporation may not, directly or indirectly, consolidate, amalgamate or merge with or into or wind up or convert into (whether or not Berry Plastics Corporation is the surviving person), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets in one or more related transactions to, any person unless certain requirements in the applicable indenture are met.

Each indenture relating to the existing second priority senior secured notes also provides for events of default, which, if any of them occurs, would permit or require the principal, premium, if any, interest and any other monetary obligations on all the then-outstanding existing second priority senior secured notes under such indenture to be due and payable immediately.

Table of Contents

Covenant Compliance

Berry Plastics Corporation's fixed charge coverage ratio, as defined in the revolving credit facility, is calculated based on a numerator consisting of Adjusted EBITDA less income taxes paid in cash and capital expenditures, and a denominator consisting of scheduled principal payments in respect of indebtedness for borrowed money, interest expense and certain distributions. Berry Plastics Corporation's fixed charge coverage ratio, as defined in the indentures relating to the existing first priority senior secured notes, existing second priority senior secured notes and senior subordinated notes, is calculated based on a numerator consisting of Adjusted EBITDA, and a denominator consisting of interest expense and certain distributions. Berry Plastics Corporation is required, under its debt incurrence covenant, to use a rolling four quarter Adjusted EBITDA in its calculations.

Berry Plastics Corporation is required to maintain a minimum fixed charge coverage ratio of 1.0:1.0 under the revolving credit facility at any time when the aggregate unused capacity under the revolving credit facility is less than either 10% of the lesser of the revolving credit facility commitments and the borrowing base (and for 10 consecutive days following the date upon which availability exceeds such threshold) or during the continuation of an event of default. At March 30, 2013, Berry Plastics Corporation had unused borrowing capacity of \$518 million under the revolving credit facility subject to a borrowing base.

Failure to maintain a first lien secured indebtedness ratio of 4.0 to 1.0 under the credit facility relating to the original term loan and the additional term loan, a fixed charge coverage ratio of 2.0:1.0 under the indentures relating to the existing second priority senior secured notes, and unused borrowing capacity under the revolving credit facility of at least 15% of the lesser of the borrowing base and the aggregate revolving commitments (the minimum amount), or, if between \$45 million and such minimum amount, a fixed charge coverage ratio of 1.0:1.0 under the revolving credit facility, can result in limiting our long-term growth prospects by hindering Berry Plastics Corporation's ability to incur additional indebtedness, effect acquisitions, enter into certain significant business combinations, make distributions or redeem indebtedness.

Berry Plastics Group, Inc. Term Loan Credit Agreement

Berry Plastics Group, Inc. entered into a term loan credit facility on June 5, 2007, providing for term loans of \$500 million in original principal amount. The term loans mature on June 5, 2014, are unsecured senior obligations of Berry Plastics Group, Inc. and are not guaranteed by any of its subsidiaries.

The borrowings under the Berry Plastics Group, Inc. term loan facility bear interest at a rate equal to an applicable margin plus, as determined at Berry Plastics Group, Inc.'s option, either (a) a base rate (Base Rate) determined by reference to the higher of (1) the prime rate of Credit Suisse, Cayman Islands Branch, as administrative agent, and (2) the U.S. federal funds rate plus 1/2 of 1% or (b) a eurodollar rate (LIBOR) determined by reference to the costs of funds for eurodollar deposits in dollars in the London interbank market for a three-month interest period, adjusted for certain additional costs. The initial applicable margin for LIBOR borrowings under the Berry Plastics Group, Inc. term loan facility was 6.25% per annum, and the initial applicable margin for base rate borrowings was 5.25% per annum.

For any interest period ending on or prior to June 5, 2012, Berry Plastics Group, Inc. may have, at its option, elected to pay interest on the term loans (a) in cash, (b) by increasing the outstanding principal amount of the term loans by the amount of interest accrued during such interest period (a PIK Election) or (c) by paying 50% of the interest accrued during such period in cash and 50% by PIK Election. Any portion of interest subject to a PIK Election was payable at LIBOR plus the applicable margin plus an additional 0.75% per annum. With respect to any interest period ending after June 5, 2012, interest is payable in cash.

If the term loans would otherwise constitute applicable high yield discount obligations within the meaning of Section 163(i)(1) of the Internal Revenue Code of 1986, as amended (the Code) from time to time and the

Table of Contents

regulations promulgated and the rulings issued thereunder, then at the end of each interest period ending after June 5, 2012, Berry Plastics Group, Inc. must repay in cash a portion of each term loan then outstanding equal to the portion of a term loan required to be repaid to prevent such term loan from being treated as an applicable high yield discount obligation.

Berry Plastics Group, Inc. may repay some or all of the term loans, at its option, at 100% of the principal amount of the term loans repaid, plus accrued and unpaid interest.

Upon the occurrence of a change of control of Berry Plastics Group, Inc., lenders of Berry Plastics Group, Inc. term loans have the right to have their loans repaid at 101% of the principal amount thereof plus accrued and unpaid interest.

The credit agreement relating to the Berry Plastics Group, Inc. term loans contains a number of covenants that, among other things and subject to certain exceptions, restrict the ability of Berry Plastics Group, Inc. and its restricted subsidiaries to incur indebtedness or issue disqualified stock or preferred stock, pay dividends or redeem or repurchase stock, make certain types of investments, sell assets, incur certain liens, enter into agreements restricting dividends or other payments from subsidiaries, enter into certain transactions with affiliates and consolidate, merge or sell all or substantially all of their assets. The outstanding balance of the Senior Unsecured Term Loan was \$18 million as of March 30, 2013.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

The following is a description of the material terms of our amended and restated certificate of incorporation and amended and restated bylaws, and of specific provisions of Delaware law.

General

Our capital stock consists of a total of 450 million authorized shares, of which 400 million shares, par value \$0.01 per share, are designated as common stock and 50 million shares, par value \$0.01, are designated as preferred stock. Immediately following the completion of this offering, we will have 113,093,973 shares of common stock outstanding. There will be no shares of preferred stock outstanding immediately following this offering.

Common Stock

Voting Rights. Holders of common stock are entitled to one vote per share on all matters to be voted upon by the stockholders. The holders of common stock do not have cumulative voting rights in the election of directors.

Dividend Rights. Holders of common stock are entitled to receive ratably dividends if, as and when dividends are declared from time to time by our Board of Directors out of funds legally available for that purpose, after payment of dividends required to be paid on outstanding preferred stock, as described below, if any. Under Delaware law, we can only pay dividends either out of surplus or out of the current or the immediately preceding year's net profits. Surplus is defined as the excess, if any, at any given time, of the total assets of a corporation over its total liabilities and statutory capital. The value of a corporation's assets can be measured in a number of ways and may not necessarily equal their book value.

Liquidation Rights. Upon liquidation, dissolution or winding up, the holders of common stock are entitled to receive ratably the assets available for distribution to the stockholders after payment of liabilities and accrued but unpaid dividends and liquidation preferences on any outstanding preferred stock.

Other Matters. The common stock has no preemptive or conversion rights. There are no redemption or sinking fund provisions applicable to the common stock. All outstanding shares of our common stock are fully paid and non-assessable, and the shares of our common stock offered in this offering, upon payment and delivery in accordance with the underwriting agreement, will be fully paid and non-assessable.

Preferred Stock

Pursuant to our amended and restated certificate of incorporation, shares of preferred stock are issuable from time to time, in one or more series, with the designations of the series, the voting rights of the shares of the series (if any), the powers, preferences and relative participation, optional or other special rights (if any), and any qualifications, limitations or restrictions thereof as our Board of Directors from time to time may adopt by resolution (and without further stockholder approval), subject to certain limitations. Each series will consist of that number of shares as will be stated and expressed in the certificate of designations providing for the issuance of the stock of the series.

Composition of Board of Directors; Election and Removal of Directors

In accordance with our amended and restated certificate of incorporation and our amended and restated bylaws, the number of directors comprising our Board of Directors is determined from time to time by our Board of Directors, and only a majority of the Board of Directors may fix the number of directors. We currently avail ourselves of a transition period because we previously qualified for the controlled company exception under applicable national securities exchange corporate governance rules, which exempts us from certain requirements,

Table of Contents

including the requirements that we have a majority of independent directors on our Board of Directors and that we have compensation and nominating and corporate governance committees composed entirely of independent directors. The Board of Directors has taken, and will continue to take, all action necessary to comply with the applicable stock exchange rules, including appointing a majority of independent directors to the Board of Directors by April 24, 2014, which is one year after the date we no longer qualified as a controlled company, and appointing at least a majority of independent members to each of the compensation and nominating and governance committees by July 23, 2013, which is 90 days after the date we no longer qualified as a controlled company, and compensation and nominating and governance committees composed entirely of independent directors by April 24, 2014.

We currently have nine directors. Our amended and restated bylaws provide that our Board of Directors is divided into three classes of directors, with the classes to be as nearly equal in number as possible. As a result, approximately one-third of our Board of Directors is elected at the annual meeting of stockholders, with such elections decided by plurality vote, each year, except as provided in the amended and restated stockholders agreement. The classification of directors has the effect of making it more difficult for stockholders to change the composition of our Board. Each director holds office until his successor is duly elected and qualified or until his earlier death, resignation or removal. Any vacancies on our Board of Directors may be filled only by the affirmative vote of a majority of the remaining directors, although less than a quorum, except as provided in the amended and restated stockholders agreement, as described below. Our amended and restated certificate of incorporation provides that stockholders do not have the right to cumulative votes in the election of directors. At any meeting of our Board of Directors, except as otherwise required by law, a majority of the total number of directors that the company would have if there were no vacancies constitutes a quorum for all purposes.

The amended and restated stockholders agreement the company entered into with the Apollo Funds and certain stockholders in connection with our initial public offering provides that, except as otherwise required by applicable law, if the Apollo Funds hold (a) at least 50% of our outstanding common stock, it will have the right to designate no fewer than that number of directors that would constitute a majority of our Board of Directors, (b) at least 30% but less than 50% of our outstanding common stock, it will have the right to designate up to five director nominees, (c) at least 20% but less than 30% of our outstanding common stock, it will have the right to designate up to four director nominees, and (d) at least 10% but less than 20% of our outstanding common stock, the Apollo Funds will have the right to designate up to three director nominees. The agreement provides that if the size of the Board of Directors is increased or decreased at any time, the Apollo Funds' nomination rights will be proportionately increased or decreased, respectively, rounded up to the nearest whole number. The amended and restated stockholders agreement provides that, except as otherwise required by applicable law, the company must take all action within its power to cause all persons nominated by the Apollo Funds pursuant to the provisions described above to be included in the slate of nominees recommended by the Board of Directors to our stockholders for election as directors at each annual meeting of our stockholders and must use all reasonable efforts to cause the election of each such nominee, including soliciting proxies in favor of the election of such nominees. In addition, except as otherwise required by applicable law, the Apollo Funds have the right to designate a replacement to fill a vacancy on our Board of Directors that was designated by the Apollo Funds and we are required to take all action within our power to cause such vacancy to be filled by the replacement designated by the Apollo Funds (including by promptly appointing such designee to the Board of Directors). If the Apollo Funds no longer own at least 10% of our outstanding common stock, they will have no right to designate director nominees under the amended and restated stockholders agreement. See "Certain Relationships and Related Party Transactions" Stockholders Agreement.

In addition, the amended and restated stockholders agreement provides that until such time as the Apollo Funds no longer beneficially own at least 25% of the total number of shares of our common stock outstanding at any time, the approval of a majority of the members of our Board of Directors, which must include the approval of a majority of the directors nominated by the Apollo Funds voting on the matter, is required for amendments to our certificate of incorporation and bylaws, certain business combinations, the incurrence of certain indebtedness, certain capital expenditures, the declaration of dividends or other distributions other than intra-company

Table of Contents

dividends or distributions, changes in the size of the Board of Directors and to approve certain other matters. See Management Apollo Approval of Certain Matters and Rights to Nominate Certain Directors and Certain Relationships and Related Party Transactions Stockholders Agreement.

Special Meetings of Stockholders

Our amended and restated bylaws provide that special meetings of the stockholders may be called only by the Board of Directors or chairman, and only proposals included in the company's notice or otherwise brought before the meeting by or at the direction of the Board may be considered at such special meetings.

Section 203 of the DGCL

In our amended and restated certificate of incorporation, we have elected not to be subject to Section 203 of the General Corporation Law of the State of Delaware (the "DGCL"). In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a business combination with an interested stockholder for a three-year period following the time that this stockholder becomes an interested stockholder, unless the business combination is approved in the manner prescribed therein. A business combination includes a merger, asset sale or other transaction resulting in a financial benefit to the interested stockholder. An interested stockholder is a person who, together with affiliates and associates, owns (or, in some cases, within three years prior, did own) 15% or more of the corporation's voting stock.

Certain Corporate Anti-Takeover Provisions

Certain provisions in our amended and restated certificate of incorporation and amended and restated bylaws summarized below may be deemed to have an anti-takeover effect and may delay, deter or prevent a tender offer or takeover attempt that a stockholder might consider to be in its best interests, including attempts that might result in a premium being paid over the market price for the shares held by stockholders.

Preferred Stock

Our amended and restated certificate of incorporation contains provisions that permit our Board of Directors to issue, without any further vote or action by the stockholders, shares of preferred stock in one or more series and, with respect to each such series, to fix the number of shares constituting the series and the designation of the series, the voting rights (if any) of the shares of the series, and the powers, preferences and relative, participation, optional and other special rights, if any, and any qualifications, limitations or restrictions, of the shares of such series. See Preferred Stock.

Classified Board; Number of Directors

Our amended and restated certificate of incorporation and amended and restated bylaws provide that our Board of Directors is divided into three classes of directors, with the classes to be as nearly equal in number as possible, and the number of directors on our Board of Directors may be fixed only by the majority of our Board of Directors, as described above in Composition of Board of Directors; Election and Removal of Directors.

Removal of Directors, Vacancies

Our amended and restated certificate of incorporation provides that stockholders will be able to remove directors only by the affirmative vote of the holders of a majority of the voting power entitled to vote for the election of directors and only for cause. Vacancies on our Board of Directors may be filled only by a majority of our Board of Directors then in office, although less than a quorum, except as provided in the amended and restated stockholders agreement, which provides that except as otherwise required by applicable law, the Apollo Funds have the right to designate a replacement to fill a vacancy on our Board of Directors that was designated by them. See Certain Relationships and Related Party Transactions Stockholders Agreement.

Table of Contents

No Cumulative Voting

Our amended and restated certificate of incorporation provides that stockholders do not have the right to cumulative votes in the election of directors. Cumulative voting rights would be available to the holders of our common stock if our amended and restated certificate of incorporation did not negate cumulative voting.

No Stockholder Action by Written Consent; Calling of Special Meetings of Stockholders

Our amended and restated certificate of incorporation does not permit stockholder action without a meeting by consent if less than 50.1% of our outstanding common stock is owned by the Apollo Funds. Our amended and restated bylaws also provide that special meetings of the stockholders may be called only by the Board or chairman, and only proposals included in the company's notice or otherwise brought before the meeting by or at the direction of the Board may be considered at such special meetings.

Advance Notice Requirements for Stockholders Proposals and Director Nominations

Our amended and restated bylaws provides that stockholders seeking to bring business before an annual meeting of stockholders, or to nominate candidates for election as directors at an annual meeting of stockholders, must provide timely notice thereof in writing. To be timely, a stockholder's notice generally has to be delivered to and received at our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary of the preceding year's annual meeting; provided, that in the event that the date of such meeting is advanced more than 30 days prior to, or delayed by more than 60 days after, the anniversary of the preceding year's annual meeting of our stockholders, a stockholder's notice to be timely has to be so delivered not earlier than the close of business on the 120th day prior to such meeting and not later than the close of business on the later of the 90th day prior to such meeting or, if the first public announcement of the date of such meeting is less than 100 days prior to the date of such meeting, the 10th day following the day on which public announcement of the date of such meeting is first made. Our amended and restated bylaws also specify certain requirements as to the form and content of a stockholder's notice. These provisions may preclude stockholders from bringing matters before an annual meeting of stockholders or from making nominations for directors at an annual meeting of stockholders.

Delaware Takeover Statute

In our amended and restated certificate of incorporation, we have elected not to be subject to Section 203 of the DGCL, which would have imposed additional requirements regarding certain mergers and other business combinations.

All the foregoing proposed provisions of our amended and restated certificate of incorporation and amended and restated bylaws could discourage potential acquisition proposals and could delay or prevent a change in control. In addition, under the amended and restated stockholders agreement, until such time as the Apollo Funds no longer beneficially own at least 25% of the total number of shares of our common stock outstanding at any time, the approval of a majority of the members of our Board of Directors, which must include the approval of a majority of the directors nominated by the Apollo Funds voting on the matter, is required for certain business combinations and to approve certain other matters. See Management Apollo Approval of Certain Matters and Rights to Nominate Certain Directors and Certain Relationships and Related Party Transactions Stockholders Agreement.

These provisions are intended to enhance the likelihood of continuity and stability in the composition of the Board of Directors and in the policies formulated by the Board of Directors and to discourage certain types of transactions that may involve an actual or threatened change of control. These same provisions may delay, deter or prevent a tender offer or takeover attempt that a stockholder might consider to be in its best interest. In addition, such provisions could have the effect of discouraging others from making tender offers for our shares

Table of Contents

and, as a consequence, they also may inhibit fluctuations in the market price of our common stock that could result from actual or rumored takeover attempts. Such provisions also may have the effect of preventing changes in our management.

Corporate Opportunity

Our amended and restated certificate of incorporation provides that no officer or director of us who is also an officer, director, employee, managing director or other affiliate of Apollo or Graham Partners will be liable to us or our stockholders for breach of any fiduciary duty by reason of the fact that any such individual directs a corporate opportunity to Apollo or Graham Partners, as applicable, instead of us, or does not communicate information regarding a corporate opportunity to us that the officer, director, employee, managing director or other affiliate has directed to Apollo or Graham Partners, as applicable.

Amendment of Our Certificate of Incorporation

Under Delaware law, our amended and restated certificate of incorporation provides that it may be amended only with the affirmative vote of a majority of the outstanding stock entitled to vote in the election of directors; provided that Apollo's prior written consent is required for any amendment, modification or repeal of the provisions discussed above regarding the ability of Apollo-related directors to direct or communicate corporate opportunities to Apollo.

Amendment of Our Bylaws

Our amended and restated bylaws provide that except as provided in the amended and restated stockholders agreement, they can be amended by the vote of a majority of the shares present in person or represented by proxy at a meeting of the stockholders and entitled to vote or by the vote of a majority of the Board.

Limitation of Liability and Indemnification

Our amended and restated certificate of incorporation limits the liability of our directors to the maximum extent permitted by Delaware law. Delaware law provides that directors will not be personally liable for monetary damages for breach of their fiduciary duties as directors, except with respect to liability:

for any breach of the director's duty of loyalty to us or our stockholders;

for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;

under Section 174 of the DGCL (governing distributions to stockholders); or

for any transaction from which the director derived any improper personal benefit.

However, if the DGCL is amended to authorize corporate action further eliminating or limiting the personal liability of directors, then the liability of our directors will be eliminated or limited to the fullest extent permitted by the DGCL, as so amended. The modification or repeal of this provision of our amended and restated certificate of incorporation will not adversely affect any right or protection of a director existing at the time of such modification or repeal.

Our amended and restated certificate of incorporation provides that we will, to the fullest extent from time to time permitted by law, indemnify our directors and officers against all liabilities and expenses in any suit or proceeding, arising out of their status as an officer or director or their activities in these capacities. We will also indemnify any person who, at our request, is or was serving as a director, officer or employee of another corporation, partnership, joint venture, trust or other enterprise. We may, by action of our Board of Directors, provide indemnification to our employees and agents within the same scope and effect as the foregoing indemnification of directors and officers.

Table of Contents

The right to be indemnified will include the right of an officer or a director to be paid expenses in advance of the final disposition of any proceeding, provided that, if required by law, we receive an undertaking to repay such amount if it will be determined that he or she is not entitled to be indemnified.

Our Board of Directors may take such action as it deems necessary to carry out these indemnification provisions, including adopting procedures for determining and enforcing indemnification rights and purchasing insurance policies. Our Board of Directors may also adopt bylaws, resolutions or contracts implementing indemnification arrangements as may be permitted by law. Neither the amendment nor the repeal of these indemnification provisions, nor the adoption of any provision of our amended and restated certificate of incorporation inconsistent with these indemnification provisions, will eliminate or reduce any rights to indemnification relating to their status or any activities prior to such amendment, repeal or adoption.

We believe these provisions assist in attracting and retaining qualified individuals to serve as directors.

Listing

Shares of common stock are listed on the NYSE under the symbol BERY.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is Computershare Trust Company, N.A.

Table of Contents

SHARES ELIGIBLE FOR FUTURE SALE

No predictions can be made about the effect, if any, that market sales of shares of our common stock or the availability of such shares for sale will have on the market price prevailing from time to time. Nevertheless, the actual sale of, or the perceived potential for the sale of, our common stock in the public market may have an adverse effect on the market price for the common stock and could impair our ability to raise capital through future sales of our securities. See Risk Factors Risks Related to an Investment in our Common Stock and this Offering Future sales or the possibility of future sales of a substantial amount of our common stock may depress the price of shares of our common stock.

Sale of Restricted Shares

Upon completion of this offering, we will have an aggregate of 115,079,207 shares of our common stock outstanding. Of these shares, all of the 29,411,764 shares of our common stock sold in our initial public offering, the 16,500,000 shares of our common stock sold in our April 2013 public offering and all of the 15,000,000 shares of our common stock sold in this offering, as well as any shares of our common stock that have been sold or had their legends removed pursuant to Rule 144 under the Securities Act since our initial public offering, will be freely tradable without restriction or further registration under the Securities Act, except for any shares which may be acquired by any of our affiliates as that term is defined in Rule 144, which will be subject to the resale limitations of Rule 144, and subject to any applicable lock-up agreements. The 39,065,476 shares of our common stock beneficially owned by the Apollo Funds and the Graham Fund following this offering, as well as any remaining shares of our common stock that were issued and outstanding prior to our initial public offering that have not been sold or had their legends removed pursuant to Rule 144, will be restricted securities, as that term is defined in Rule 144, and may in the future be sold without restriction under the Securities Act to the extent permitted by Rule 144 or any applicable exemption under the Securities Act.

We have granted Apollo and Graham Partners demand and incidental registration rights with respect to the shares of our common stock owned by the Apollo Funds and the Graham Fund, respectively, and we have also granted certain employees and others who own equity in the company incidental registration rights with respect to the shares of our common stock owned by them. See Certain Relationships and Related Party Transactions Stockholders Agreement.

Equity Incentive Plan

We have registered on a registration statement on Form S-8 under the Securities Act 9,297,750 shares of common stock issuable pursuant to the 2012 Plan and 12,338,837 shares of common stock issuable pursuant to the 2006 Equity Incentive Plan. Shares of our common stock issuable upon the exercise of options grants or to be granted under the 2012 Plan and the 2006 Equity Incentive Plan will be freely tradeable without restriction under the Securities Act, subject to any applicable lock-up agreements and to Rule 144 limitations applicable to affiliates.

Lock-up Agreements

We, our directors and executive officers and the selling stockholders have agreed not to directly or indirectly, sell or dispose of any shares of our common stock for a period of 90 days from the date of this prospectus, subject to certain exceptions, including an exception for 15% of the shares held by each executive officer who is not a director, without the prior written consent of Citigroup Global Markets Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated. See Underwriting for a description of these lock-up provisions.

Rule 144

In general, under Rule 144 under the Securities Act, a person (or persons whose shares are aggregated) who is not deemed to have been an affiliate of ours at any time during the three months preceding a sale, and who has

Table of Contents

beneficially owned restricted securities within the meaning of Rule 144 for at least six months (including any period of consecutive ownership of preceding non-affiliated holders), will be entitled to sell those shares, subject only to the availability of current public information about us. A non-affiliated person who has beneficially owned restricted securities within the meaning of Rule 144 for at least one year will be entitled to sell those shares without regard to the provisions of Rule 144.

A person (or persons whose shares are aggregated) who is deemed to be an affiliate of ours and who has beneficially owned restricted securities within the meaning of Rule 144 for at least six months would be entitled to sell within any three-month period a number of shares that does not exceed the greater of one percent of the then-outstanding shares of our common stock or the average weekly trading volume of our common stock during the four calendar weeks preceding such sale. Such sales are also subject to certain manner of sales provisions, notice requirements and the availability of current public information about us.

Rule 701

In general, under Rule 701 under the Securities Act, an employee, consultant or advisor who purchased shares of our common stock from us in connection with a compensatory stock or option plan or other written agreement prior to the effective date of our initial public offering, and who is not deemed to have been our affiliate during the immediately preceding 90 days, will be entitled to sell these shares in reliance upon Rule 144, but without compliance with some of the restrictions, including the holding period restriction, contained in Rule 144. The shares that may be sold in compliance with Rule 701 that are subject to lock-up agreements as described above and under the section titled Underwriters will not become eligible for sale until expiration or waiver of the restrictions set forth in those agreements.

Table of Contents

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

FOR NON-U.S. HOLDERS

The following is a general discussion of material U.S. federal income tax considerations with respect to the ownership and disposition of our common stock applicable to non-U.S. holders who acquire such shares in this offering. This discussion is based on current provisions of the Internal Revenue Code of 1986, as amended (the Code), U.S. Treasury regulations promulgated thereunder, and administrative rulings and court decisions in effect as of the date hereof, all of which are subject to change at any time, possibly with retroactive effect.

For purposes of this discussion, the term non-U.S. holder means a beneficial owner of our common stock that is not, for U.S. federal income tax purposes, a partnership or any of the following:

a citizen or resident of the United States;

a corporation, or other entity taxable as a corporation for U.S. federal income tax purposes, created or organized in the United States or under the laws of the United States, any state thereof or the District of Columbia;

an estate, the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or

a trust if (1) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (2) it has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person for U.S. federal income tax purposes.

If an entity or arrangement treated as a partnership for U.S. federal income tax purposes holds shares of our common stock, the tax treatment of a person treated as a partner generally will depend on the status of the partner and the activities of the partnership. Persons that for U.S. federal income tax purposes are treated as a partner in a partnership holding shares of our common stock should consult their tax advisors.

This discussion assumes that a non-U.S. holder holds shares of our common stock as a capital asset within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all aspects of U.S. federal income taxation that may be important to a non-U.S. holder in light of that holder's particular circumstances or that may be applicable to holders subject to special treatment under U.S. federal income tax law (including, for example, financial institutions, dealers in securities, traders in securities that elect mark-to-market treatment, insurance companies, tax-exempt entities, holders who acquired our common stock pursuant to the exercise of employee stock options or otherwise as compensation, entities or arrangements treated as partnerships for U.S. federal income tax purposes, holders liable for the alternative minimum tax, certain former citizens or former long-term residents of the United States, and holders who hold our common stock as part of a hedge, straddle, constructive sale or conversion transaction). In addition, this discussion does not address U.S. federal tax laws other than those pertaining to the U.S. federal income tax, nor does it address any aspects of the unearned income Medicare contribution tax pursuant to the Health Care and Education Reconciliation Act of 2010, or U.S. state, local or non-U.S. taxes. Accordingly, prospective investors should consult with their own tax advisors regarding the U.S. federal, state, local, non-U.S. income and other tax considerations of acquiring, holding and disposing of shares of our common stock.

THIS SUMMARY IS NOT INTENDED TO CONSTITUTE A COMPLETE DESCRIPTION OF ALL TAX CONSEQUENCES RELATING TO THE OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK. WE RECOMMEND THAT PROSPECTIVE HOLDERS OF OUR COMMON STOCK CONSULT WITH THEIR TAX ADVISORS REGARDING THE TAX CONSEQUENCES TO THEM (INCLUDING THE APPLICATION AND EFFECT OF ANY STATE, LOCAL, NON-U.S. INCOME AND OTHER TAX LAWS) OF THE OWNERSHIP AND DISPOSITION OF OUR COMMON STOCK.

Table of Contents

Dividends

In general, any distributions we make to a non-U.S. holder with respect to its shares of our common stock that constitute dividends for U.S. federal income tax purposes will be subject to U.S. withholding tax at a rate of 30% of the gross amount (or a reduced rate prescribed by an applicable income tax treaty) unless the dividends are effectively connected with a trade or business carried on by the non-U.S. holder within the United States (and, if an income tax treaty applies, are attributable to a permanent establishment of the non-U.S. holder within the United States). A distribution will constitute a dividend for U.S. federal income tax purposes to the extent of our current or accumulated earnings and profits as determined for U.S. federal income tax purposes. Any distribution not constituting a dividend will be treated as first reducing the adjusted basis in the non-U.S. holder's shares of our common stock and, to the extent it exceeds the adjusted basis in the non-U.S. holder's shares of our common stock, as gain from the sale or exchange of such shares.

Dividends effectively connected with a U.S. trade or business (and, if an income tax treaty applies, attributable to a U.S. permanent establishment) of a non-U.S. holder generally will not be subject to U.S. withholding tax if the non-U.S. holder complies with applicable certification and disclosure requirements. Instead, such dividends generally will be subject to U.S. federal income tax on a net income basis, in the same manner as if the non-U.S. holder were a resident of the United States. A non-U.S. holder that is a corporation may be subject to an additional branch profits tax at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty) on its effectively connected earnings and profits, subject to certain adjustments.

Gain on Sale or Other Disposition of our Common Stock

In general, a non-U.S. holder will not be subject to U.S. federal income or, subject to the discussion below under the heading **Information Reporting and Backup Withholding**, withholding tax on any gain realized upon the sale or other disposition of our common stock unless:

the gain is effectively connected with a trade or business carried on by the non-U.S. holder within the United States and, if required by an applicable income tax treaty, is attributable to a U.S. permanent establishment of the non-U.S. holder;

the non-U.S. holder is an individual and is present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are satisfied; or

we are or have been a U.S. real property holding corporation (a USRPHC) for U.S. federal income tax purposes at any time within the shorter of the five-year period ending on the date of the disposition and the non-U.S. holder's holding period and certain other conditions are satisfied. We believe that we currently are not, and we do not anticipate becoming, a USRPHC.

Gain that is effectively connected with the conduct of a trade or business in the United States generally will be subject to U.S. federal income tax, net of certain deductions, at regular U.S. federal income tax rates. If the non-U.S. holder is a foreign corporation, the branch profits tax described above also may apply to such effectively connected gain. An individual non-U.S. holder who is subject to U.S. federal income tax because the non-U.S. holder was present in the United States for 183 days or more during the year of sale or other disposition of our common stock will be subject to a flat 30% tax on the gain derived from such sale or other disposition, which may be offset by U.S. source capital losses.

Information Reporting and Backup Withholding

We must report annually to the Internal Revenue Service and to each non-U.S. holder the amount of dividends paid to, and the tax withheld with respect to, each non-U.S. holder. These reporting requirements apply regardless of whether withholding was reduced or eliminated by an applicable tax treaty. Copies of this information also may be made available under the provisions of a specific treaty or agreement with the tax authorities in the country in which the non-U.S. holder resides or is established.

Table of Contents

U.S. backup withholding tax (currently, at a rate of 28%) is imposed on certain payments to persons that fail to furnish the information required under the U.S. information reporting rules. Dividends paid to a non-U.S. holder generally will be exempt from backup withholding if the non-U.S. holder provides a properly executed IRS Form W-8BEN or otherwise establishes an exemption.

Under U.S. Treasury regulations, the payment of proceeds from the disposition of our common stock by a non-U.S. holder effected at a U.S. office of a broker generally will be subject to information reporting and backup withholding, unless the beneficial owner, under penalties of perjury, certifies, among other things, its status as a non-U.S. holder or otherwise establishes an exemption. The payment of proceeds from the disposition of our common stock by a non-U.S. holder effected at a non-U.S. office of a broker generally will not be subject to backup withholding and information reporting, except as noted below. In the case of proceeds from a disposition of our common stock by a non-U.S. holder effected at a non-U.S. office of a broker that is:

a U.S. person;

a controlled foreign corporation for U.S. federal income tax purposes;

a foreign person 50% or more of whose gross income from certain periods is effectively connected with a U.S. trade or business; or

a foreign partnership if at any time during its tax year (a) one or more of its partners are U.S. persons who, in the aggregate, hold more than 50% of the income or capital interests of the partnership or (b) the foreign partnership is engaged in a U.S. trade or business;

information reporting will apply unless the broker has documentary evidence in its files that the owner is a non-U.S. holder and certain other conditions are satisfied, or the beneficial owner otherwise establishes an exemption (and the broker has no knowledge or reason to know to the contrary). Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder can be refunded or credited against the non-U.S. holder's U.S. federal income tax liability, if any, provided that the required information is furnished to the Internal Revenue Service in a timely manner.

New Legislation

Under recently enacted legislation and administrative guidance, a United States federal withholding tax of 30% generally will be imposed on certain payments made to a foreign financial institution (as specifically defined under these rules) unless such institution enters into an agreement with the U.S. tax authorities to withhold on certain payments and to collect and provide to the U.S. tax authorities substantial information regarding U.S. account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are foreign entities with U.S. owners). Under the legislation and administrative guidance, a U.S. federal withholding tax of 30% generally also will be imposed on certain payments made to a non-financial foreign entity unless such entity provides the withholding agent with a certification identifying its direct and indirect U.S. owners. Under certain circumstances, a non-U.S. holder might be eligible for refunds or credits of such taxes. These withholding taxes would be imposed on dividends paid with respect to our common stock after December 31, 2013 to, and on gross proceeds from sales or other dispositions of our common stock after December 31, 2016 by, foreign financial institutions or non-financial entities (including in their capacity as agents or custodians for beneficial owners of our common stock) that fail to satisfy the above requirements. Prospective non-U.S. holders should consult with their tax advisors regarding the possible implications of this legislation on their investment in our common stock.

Table of Contents**UNDERWRITING (CONFLICTS OF INTEREST)**

Citigroup Global Markets Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated are acting as representatives of each of the underwriters named below. Subject to the terms and conditions set forth in an underwriting agreement among us, the selling stockholders and the underwriters, the selling stockholders have agreed to sell to the underwriters, and each of the underwriters has agreed, severally and not jointly, to purchase from the selling stockholders, the number of shares of common stock set forth opposite its name below.

<u>Underwriter</u>	<u>Number of Shares</u>
Citigroup Global Markets Inc.	
Merrill Lynch, Pierce, Fenner & Smith Incorporated	
Deutsche Bank Securities Inc.	
Goldman, Sachs & Co.	
Credit Suisse Securities (USA) LLC	
Robert W. Baird & Co. Incorporated	
Barclays Capital Inc.	
SunTrust Robinson Humphrey, Inc.	
Wells Fargo Securities, LLC	
Apollo Global Securities, LLC	
Total	15,000,000

The underwriting agreement provides that the underwriters' obligation to purchase shares of common stock depends on the satisfaction of the conditions contained in the underwriting agreement including:

the obligation to purchase all of the shares of common stock offered hereby (other than those shares of common stock covered by their option to purchase additional shares as described below), if any of the shares are purchased;

the representations and warranties made by us to the underwriters are true;

the representations and warranties made by the selling stockholders are true;

there is no material change in our business or the financial markets; and

we and the selling stockholders deliver customary closing documents to the underwriters.

We and the selling stockholders have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

It is possible that the shares will not trade at or above the offering price following the offering.

The underwriters do not expect to sell more than 5% of the shares in the aggregate to accounts over which they exercise discretionary authority.

Commissions and Discounts

The representatives have advised us that the underwriters propose initially to offer the shares to the public at the public offering price set forth on the cover page of this prospectus and to dealers at that price less a concession not in excess of \$ _____ per share. After the offering, the public

Edgar Filing: BERRY PLASTICS GROUP INC - Form S-1

offering price, concession or any other term of the offering may be changed. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part.

-98-

Table of Contents

The following table shows the underwriting discounts and expenses the selling stockholders will pay to the underwriters. The information assumes either no exercise or full exercise by the underwriters of their option to purchase additional shares.

	Per Share	Without Option	With Option
Public offering price	\$	\$	\$
Underwriting discounts and commissions	\$	\$	\$
Proceeds, before expenses, to the selling stockholders	\$	\$	\$

The expenses of the offering, not including the underwriting discount, are estimated at approximately \$ million and are payable by us.

Option to Purchase Additional Shares

The selling stockholders have granted an option to the underwriters to purchase up to 2,250,000 additional shares at the public offering price, less the underwriting discount. The underwriters may exercise this option for 30 days from the date of this prospectus. If the underwriters exercise this option, each will be obligated, subject to conditions contained in the purchase agreement, to purchase a number of additional shares proportionate to that underwriter's initial amount reflected in the above table.

Lock-up Agreements

We, our directors and executive officers and the selling stockholders have agreed that, subject to certain exceptions, including an exception for 15% of the shares held by each executive officer who is not a director, for 90 days after the date of this prospectus, without the prior written consent of Citigroup Global Markets Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated, we and they will not directly or indirectly, (1) offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase or otherwise transfer or dispose of any shares of our common stock or any securities convertible into or exercisable or exchangeable for shares of our common stock or file any registration statement under the 1933 Act with respect to any of the foregoing or (2) enter into any swap or any other agreement or any transaction that transfers, in whole or in part, directly or indirectly, the economic consequence of ownership of shares of our common stock, whether any such swap or transaction described in clause (1) or (2) above is to be settled by delivery of our common stock or such other securities, in cash or otherwise.

The 90-day restricted period described in the preceding paragraph will be extended if:

during the last 17 days of the restricted period referred to above we issue an earnings release or material news or a material event relating to us occurs; or

prior to the expiration of the restricted period referred to above, we announce that we will issue an earnings release or we become aware that material news or a material event relating to us will occur during the 16-day period beginning on the last day of the restricted period, in which case the restrictions described in the preceding paragraph will continue to apply until the expiration of the 18-day restricted period beginning on the issuance of the earnings release or the announcement of the material news or material event, unless such extension is waived in writing by Citigroup Global Markets Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated.

Citigroup Global Markets Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated, in their sole discretion, may release our common stock and other securities subject to the lock-up agreements described above in whole or in part at any time with or without notice. When determining whether or not to release our common stock and other securities from the lock-up agreements, Citigroup Global Markets Inc. and Merrill Lynch, Pierce, Fenner & Smith Incorporated will consider, among other factors, the holder's reasons for requesting the release, the number of shares of our common stock and other securities for which the release is being requested and market conditions at the time.

Table of Contents

Listing

Our common stock is listed on the NYSE under the symbol BERY.

Determination of Offering Price

The offering price will be determined through negotiations among Apollo and Graham Partners and the representatives of the underwriters. In addition to prevailing market conditions, among the factors to be considered in determining the offering price are:

our financial information;

the history of, and the prospects for, our company and the industry in which we compete;

an assessment of our management, its past and present operations, and the prospects for, and timing of, our future revenues;

the present state of our development; and

the above factors in relation to market values and various valuation measures of other companies engaged in activities similar to ours.

Price Stabilization, Short Positions and Penalty Bids

Until the distribution of the shares is completed, SEC rules may limit underwriters and selling group members from bidding for and purchasing our common stock. However, the representative may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

In connection with the offering, the underwriters may purchase and sell our common stock in the open market. These transactions may include short sales, purchases on the open market to cover positions created by short sales and stabilizing transactions. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. Covered short sales are sales made in an amount not greater than the underwriters' option to purchase additional shares described above. The underwriters may close out any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through the option to purchase additional shares. Naked short sales are sales in excess of the option to purchase additional shares. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of shares of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representative has repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Similar to other purchase transactions, the underwriters' purchases to cover the syndicate short sales may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than the price that might otherwise exist in the open market. The underwriters may conduct these transactions on the NYSE, in the over-the-counter market or otherwise.

Table of Contents

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we nor any of the underwriters make any representation that the representative will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

Electronic Distribution

In connection with the offering, certain of the underwriters or securities dealers may distribute prospectuses by electronic means, such as e-mail.

Other Relationships

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. Certain of the underwriters and their respective affiliates have provided, and may in the future provide, a variety of these services to the issuer and to persons and entities with relationships with the issuer, for which they received or will receive customary fees and expenses. Certain underwriters or their respective affiliates act as lenders or agents under, and as consideration therefor received customary fees and expenses in connection with, our credit facilities and certain underwriters or their respective affiliates are holders of certain of our outstanding notes.

In the ordinary course of their various business activities, the underwriters and their respective affiliates, officers, directors and employees may purchase, sell or hold a broad array of investments including serving as counterparties to certain derivative and hedging arrangements and actively trade securities, derivatives, loans, commodities, currencies, credit default swaps and other financial instruments for their own account and for the accounts of their customers, and such investment and trading activities may involve or relate to assets, securities and/or instruments of the issuer (directly, as collateral securing other obligations or otherwise) and/or persons and entities with relationships with the issuer. The underwriters and their respective affiliates may also communicate independent investment recommendations, market color or trading ideas and/or publish or express independent research views in respect of such assets, securities or instruments and may at any time hold, or recommend to clients that they should acquire, long and/or short positions in such assets, securities and instruments.

Conflicts of Interest

Apollo Global Securities, LLC, an underwriter of this offering, is an affiliate of Apollo, our controlling stockholder. Since Apollo beneficially owns more than 10% of our outstanding common stock, a conflict of interest is deemed to exist under Rule 5121(f)(5)(B) of the Conduct Rules of the Financial Industry Regulatory Authority, or FINRA. In addition, because Apollo, as a selling stockholder, will receive more than 5% of the net proceeds of this offering, a conflict of interest also exists under Rule 5121(f)(5)(c)(ii). Accordingly, this offering will be made in compliance with the applicable provisions of Rule 5121. Since Apollo is not primarily responsible for managing this offering and the securities have a bona fide public market, as defined in FINRA Rule 5121(f)(3), the appointment of a qualified independent underwriter is not required pursuant to Rule 5121(a)(1). As such, any underwriter that has a conflict of interest pursuant to Rule 5121 will not confirm sales to accounts in which it exercises discretionary authority without the prior written consent of the customer.

Table of Contents

Notice to Prospective Investors in the European Economic Area

In relation to each Member State of the European Economic Area (each, a Relevant Member State), no offer of shares may be made to the public in that Relevant Member State other than:

- A. to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- B. to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives; or
- C. in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of shares shall require the Company or the representatives to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person in a Relevant Member State who initially acquires any shares or to whom any offer is made will be deemed to have represented, acknowledged and agreed that it is a qualified investor within the meaning of the law in that Relevant Member State implementing Article 2(1)(e) of the Prospectus Directive. In the case of any shares being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the shares acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any shares to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the representatives has been obtained to each such proposed offer or resale.

The Company, the representatives and their affiliates will rely upon the truth and accuracy of the foregoing representations, acknowledgements and agreements.

This prospectus has been prepared on the basis that any offer of shares in any Relevant Member State will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of shares. Accordingly any person making or intending to make an offer in that Relevant Member State of shares which are the subject of the offering contemplated in this prospectus may only do so in circumstances in which no obligation arises for the Company or any of the underwriters to publish a prospectus pursuant to Article 3 of the Prospectus Directive in relation to such offer. Neither the Company nor the underwriters have authorized, nor do they authorize, the making of any offer of shares in circumstances in which an obligation arises for the Company or the underwriters to publish a prospectus for such offer.

For the purpose of the above provisions, the expression an offer to the public in relation to any shares in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the shares to be offered so as to enable an investor to decide to purchase or subscribe the shares, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC (including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member States) and includes any relevant implementing measure in the Relevant Member State and the expression 2010 PD Amending Directive means Directive 2010/73/EU.

Notice to Prospective Investors in the United Kingdom

In addition, in the United Kingdom, this document is being distributed only to, and is directed only at, and any offer subsequently made may only be directed at persons who are qualified investors (as defined in the Prospectus Directive) (i) who have professional experience in matters relating to investments falling within

Table of Contents

Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005, as amended (the *Order*) and/or (ii) who are high net worth companies (or persons to whom it may otherwise be lawfully communicated) falling within Article 49(2)(a) to (d) of the Order (all such persons together being referred to as *relevant persons*). This document must not be acted on or relied on in the United Kingdom by persons who are not relevant persons. In the United Kingdom, any investment or investment activity to which this document relates is only available to, and will be engaged in with, relevant persons.

Notice to Prospective Investors in Switzerland

The shares may not be publicly offered in Switzerland and will not be listed on the SIX Swiss Exchange (*SIX*) or on any other stock exchange or regulated trading facility in Switzerland. This document has been prepared without regard to the disclosure standards for issuance prospectuses under art. 652a or art. 1156 of the Swiss Code of Obligations or the disclosure standards for listing prospectuses under art. 27 ff. of the SIX Listing Rules or the listing rules of any other stock exchange or regulated trading facility in Switzerland. Neither this document nor any other offering or marketing material relating to the shares or the offering may be publicly distributed or otherwise made publicly available in Switzerland.

Neither this document nor any other offering or marketing material relating to the offering, the Company, the shares have been or will be filed with or approved by any Swiss regulatory authority. In particular, this document will not be filed with, and the offer of shares will not be supervised by, the Swiss Financial Market Supervisory Authority FINMA (FINMA), and the offer of shares has not been and will not be authorized under the Swiss Federal Act on Collective Investment Schemes (*CISA*). The investor protection afforded to acquirers of interests in collective investment schemes under the CISA does not extend to acquirers of shares.

Notice to Prospective Investors in the Dubai International Financial Centre

This prospectus supplement relates to an Exempt Offer in accordance with the Offered Securities Rules of the Dubai Financial Services Authority (*DFSA*). This prospectus supplement is intended for distribution only to persons of a type specified in the Offered Securities Rules of the DFSA. It must not be delivered to, or relied on by, any other person. The DFSA has no responsibility for reviewing or verifying any documents in connection with Exempt Offers. The DFSA has not approved this prospectus supplement nor taken steps to verify the information set forth herein and has no responsibility for the prospectus supplement. The shares to which this prospectus supplement relates may be illiquid and/or subject to restrictions on their resale. Prospective purchasers of the shares offered should conduct their own due diligence on the shares. If you do not understand the contents of this prospectus supplement you should consult an authorized financial advisor.

Notice to Prospective Investors in Australia

No placement document, prospectus, product disclosure statement or other disclosure document has been lodged with the Australian Securities and Investments Commission (*ASIC*), in relation to the offering. This prospectus does not constitute a prospectus, product disclosure statement or other disclosure document under the Corporations Act 2001 (the *Corporations Act*), and does not purport to include the information required for a prospectus, product disclosure statement or other disclosure document under the Corporations Act.

Any offer in Australia of the shares may only be made to persons (the *Exempt Investors*) who are sophisticated investors (within the meaning of section 708(8) of the Corporations Act), professional investors (within the meaning of section 708(11) of the Corporations Act) or otherwise pursuant to one or more exemptions contained in section 708 of the Corporations Act so that it is lawful to offer the shares without disclosure to investors under Chapter 6D of the Corporations Act.

The shares applied for by Exempt Investors in Australia must not be offered for sale in Australia in the period of 12 months after the date of allotment under the offering, except in circumstances where disclosure to

Table of Contents

investors under Chapter 6D of the Corporations Act would not be required pursuant to an exemption under section 708 of the Corporations Act or otherwise or where the offer is pursuant to a disclosure document which complies with Chapter 6D of the Corporations Act. Any person acquiring shares must observe such Australian on-sale restrictions.

This prospectus contains general information only and does not take account of the investment objectives, financial situation or particular needs of any particular person. It does not contain any securities recommendations or financial product advice. Before making an investment decision, investors need to consider whether the information in this prospectus is appropriate to their needs, objectives and circumstances, and, if necessary, seek expert advice on those matters.

Notice to Prospective Investors in Hong Kong

The shares have not been offered or sold and will not be offered or sold in Hong Kong, by means of any document, other than (a) to professional investors as defined in the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made under that Ordinance; or (b) in other circumstances which do not result in the document being a prospectus as defined in the Companies Ordinance (Cap. 32) of Hong Kong or which do not constitute an offer to the public within the meaning of that Ordinance. No advertisement, invitation or document relating to the shares has been or may be issued or has been or may be in the possession of any person for the purposes of issue, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to shares which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors as defined in the Securities and Futures Ordinance and any rules made under that Ordinance.

Notice to Prospective Investors in Japan

The shares have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) and, accordingly, will not be offered or sold, directly or indirectly, in Japan, or for the benefit of any Japanese Person or to others for re-offering or resale, directly or indirectly, in Japan or to any Japanese Person, except in compliance with all applicable laws, regulations and ministerial guidelines promulgated by relevant Japanese governmental or regulatory authorities in effect at the relevant time. For the purposes of this paragraph, Japanese Person shall mean any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

Notice to Prospective Investors in Singapore

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of shares may not be circulated or distributed, nor may the shares be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the SFA), (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in accordance with the conditions specified in Section 275, of the SFA, or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Where the shares are subscribed or purchased under Section 275 of the SFA by a relevant person which is:

- (a) a corporation (which is not an accredited investor (as defined in Section 4A of the SFA)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or

Table of Contents

(b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary of the trust is an individual who is an accredited investor, securities (as defined in Section 239(1) of the SFA) of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the shares pursuant to an offer made under Section 275 of the SFA except:

- (a) to an institutional investor or to a relevant person defined in Section 275(2) of the SFA, or to any person arising from an offer referred to in Section 275(1A) or Section 276(4)(i)(B) of the SFA;
- (b) where no consideration is or will be given for the transfer;
- (c) where the transfer is by operation of law;
- (d) as specified in Section 276(7) of the SFA; or
- (e) as specified in Regulation 32 of the Securities and Futures (Offers of Investments) (Shares and Debentures) Regulations 2005 of Singapore.

Berry Plastics Group, Inc.

Notes to Consolidated Financial Statements

(Unaudited)

(tables in millions of dollars, except per share data)

1. Background

Berry Plastics Group, Inc. (Berry or the Company) is a leading provider of value-added plastic consumer packaging and engineered materials with a track record of delivering high-quality customized solutions to our customers. Representative examples of our products include thermoform drink cups, thin-wall containers, blow-molded bottles, specialty closures, prescription vials, specialty plastic films, adhesives and corrosion protection materials. We sell our solutions predominantly into consumer-oriented end-markets, such as food and beverage, healthcare and personal care.

2. Basis of Presentation

As of March 30, 2013, Berry was majority owned by affiliates of Apollo Management, L.P. (Apollo) and Graham Partners (Graham). Berry, through its wholly-owned subsidiaries operates in four primary segments: Rigid Open Top, Rigid Closed Top, Engineered Materials, and Flexible Packaging. The Company s customers are located principally throughout the United States, without significant concentration in any one region or with any one customer. The accompanying unaudited Consolidated Financial Statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) pursuant to the rules and regulations of the Securities and Exchange Commission for interim reporting. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. Operating results for the periods presented are not necessarily indicative of the results that may be expected for the full fiscal year. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company s Form 10-K filed with the Securities and Exchange Commission for the fiscal year end September 29, 2012. All intercompany transactions have been eliminated. The Company issued financial statements by filing with the Securities and Exchange Commission and has evaluated subsequent events up to the time of the filing.

Reclassification Adjustments

Certain amounts in the prior year financial statements have been reclassified to conform to the current year presentation. The Company historically presented Other operating expenses in its Consolidated Statements of Operations, which consisted predominately of business optimization costs and management fees to affiliates of Apollo and Graham. The Company has eliminated separate presentation of Other operating expenses from its Consolidated Statements of Operations to better align with the way the Company is reviewing its operating results. For the quarterly periods and two quarterly periods ended March 30, 2013 and March 31, 2012 business optimization costs were \$2 million and \$7 million and \$11 million and \$20 million, respectively and are included in Cost of goods sold. The Company recorded management fees of \$3 million and \$5 million for the quarterly period and two quarterly periods ended March 31, 2012, respectively and are included in Selling, general and administrative expense. The Company s management fee agreement with Apollo and other investors terminated upon completion of the initial public offering.

Initial Public Offering

In October 2012, the Company filed an initial public offering and sold 29,411,764 shares of common stock at \$16.00 per share. In conjunction with the initial public offering the Company executed a 12.25 for one stock split of the Company s common stock. The effect of the stock split on outstanding shares and earnings per share has been retroactively applied to all periods presented. Transaction fees totaling \$33 million were included in Paid-in capital on the Consolidated Balance Sheets. Proceeds, net of transaction fees, of \$438 million and cash from

Table of Contents

operations were used to repurchase \$455 million of 11% Senior Subordinated Notes due September 2016. As part of the repurchase the Company paid premiums of \$13 million and wrote-off \$3 million of deferred financing fees.

Tax Receivable Agreement

In connection with the initial public offering, the Company entered into an income tax receivable agreement (TRA) that provides for the payment to pre-initial public offering stockholders, option holders and holders of our stock appreciation rights, 85% of the amount of cash savings, if any, in U.S. federal, foreign, state and local income tax that are actually realized (or are deemed to be realized in the case of a change of control) as a result of the utilization of our and our subsidiaries' net operating losses attributable to periods prior to the initial public offering. The Company expects to pay between \$300 million and \$350 million in cash related to this agreement. This range is based on the Company's assumptions using various items, including valuation analysis and current tax law. Upon the effective date of the TRA, the Company recorded an initial obligation of \$300 million which is recognized as a reduction of Paid-in capital on the Consolidated Balance Sheet as of March 30, 2013. Changes in the recorded net deferred income tax assets will result in changes in the TRA obligation, and such changes will be recorded as Other expense (income) in the Consolidated Statement of Operations. Payments under the TRA are not conditioned upon the parties' continued ownership of the Company.

Redeemable Common Stock

As of September 29, 2012, the Company had entered into agreements with former employees that required the Company to redeem this common stock at pre-determined dates. Historical redemption of this stock was based on the fair value of the stock on the fixed redemption date. This redeemable common stock was recorded at its fair value in temporary equity and changes in the fair value were recorded in additional paid in capital each period. Upon completion of the initial public offering, the redemption requirement terminated resulting in the Company reclassifying the shares into equity on the Consolidated Balance Sheets.

Other Related Party Transactions

The Company recorded management fees of \$3 million and \$5 million for the quarterly period and two quarterly periods ended March 31, 2012, respectively, charged by Apollo and other investors to the Company. The Company's management fee agreement with Apollo and other investors terminated upon completion of the initial public offering.

BP Parallel LLC, a non-guarantor subsidiary of the Company, invested \$21 million to purchase assignments of \$21 million of unsecured term loan during the quarter ended December 29, 2012. Of the \$21 million assignments purchased, \$14 million were purchased from third parties affiliated with Apollo.

In connection with our initial public offering in October 2012, the Company paid a \$1 million underwriting fee to Apollo Global Securities, LLC, an affiliate of Apollo that served as a manager of the offering.

In connection with the incremental term loan Berry Plastics Corporation entered into in February 2013, the Company paid a \$1 million underwriting fee to Apollo Global Securities, LLC, an affiliate of Apollo that served as a manager of the offering.

3. Acquisitions

Stopaq®

In June 2012, the Company acquired 100% of the shares of Frans Nooren Beheer B.V. and its operating companies (Stopaq) for a purchase price of \$65 million (\$62 million, net of cash acquired). Stopaq is the inventor and manufacturer of patented visco-elastic technologies for use in corrosion prevention, sealing and

Table of Contents

insulation applications ranging from pipelines to subsea piles to rail and cable joints. The newly added business is operated in the Company's Engineered Materials reporting segment. To finance the purchase, the Company used cash on hand and existing credit facilities. The Stopaq acquisition has been accounted for under the purchase method of accounting, and accordingly, the preliminary purchase price has been allocated to the identifiable assets and liabilities based on estimated fair values at the acquisition date. The Company has not finalized the purchase price allocation to the fair value on fixed assets, deferred income taxes and intangibles. The Company has recognized goodwill on this transaction as a result of expected synergies. A portion of the goodwill will not be deductible for tax purposes.

Prime Label

In October 2012, the Company acquired 100% of the shares of Prime Label and Screen Incorporated (Prime Label) for a purchase price of \$20 million. Prime Label is a leader in specialty re-sealable labels, including a patented rigid lens closure system. The newly added business is operated in the Company's Flexible Packaging reporting segment. To finance the purchase, the Company used cash on hand and existing credit facilities. The Prime Label acquisition has been accounted for under the purchase method of accounting, and accordingly, the preliminary purchase price has been allocated to the identifiable assets and liabilities based on estimated fair values at the acquisition date. The Company has not finalized the purchase price allocation to the fair value on deferred income taxes and intangibles. The Company has recognized goodwill on this transaction as a result of expected synergies. A portion of the goodwill will not be deductible for tax purposes.

4. Restructuring and Impairment Charges

The Company incurred restructuring costs related to severance, asset impairment and facility exit costs of \$1 million and \$3 million for the quarterly period ended and \$6 million and \$26 million for the two quarterly periods ended March 30, 2013 and March 31, 2012, respectively. The tables below set forth the significant components of the restructuring charges recognized for the quarterly period ended March 30, 2013 and March 31, 2012, by segment:

	Quarterly Period Ended		Two Quarterly Periods Ended	
	March 30, 2013	March 31, 2012	March 30, 2013	March 31, 2012

5. Accrued Expenses, Other Current Liabilities and Other Long-Term Liabilities

The following table sets forth the totals included in Accrued expenses and other current liabilities on the Consolidated Balance Sheets.

	March 30, 2013	September 29, 2012
Employee compensation, payroll and other taxes	\$ 79	\$ 95
Interest	42	60
Rebates	59	68
TRA obligation	63	
Other	55	77
	\$ 300	\$ 300

The following table sets forth the totals included in Other long-term liabilities on the Consolidated Balance Sheets.

	March 30, 2013	September 29, 2012
Lease retirement obligation	\$ 21	\$ 20
Sale-lease back deferred gain	33	34
Pension liability	82	84
TRA obligation	232	
Other	25	28
	\$ 393	\$ 166

Table of Contents**6. Long-Term Debt**

Long-term debt consists of the following:

	Maturity Date	March 30, 2013	September 29, 2012
Term loan	April 2015	\$ 1,128	\$ 1,134
Term loan	February 2020	1,400	
Revolving line of credit	June 2016	51	73
9 1/2% Second Priority Senior Secured Notes	May 2018	500	500
9 3/4% Second Priority Senior Secured Notes	January 2021	800	800
Senior Unsecured Term Loan	June 2014	18	39
Retired debt			1,845
Debt discount, net		(8)	(11)
Capital leases and other	Various	110	91
		3,999	4,471
Less current portion of long-term debt		(57)	(40)
		\$ 3,942	\$ 4,431

The Company's senior secured credit facilities consist of \$2.5 billion term loan and \$650 million asset based revolving line of credit. The availability under the revolving line of credit is the lesser of \$650 million or based on a defined borrowing base which is calculated based on available accounts receivable and inventory. The revolving line of credit allows up to \$130 million of letters of credit to be issued instead of borrowings under the revolving line of credit. At March 30, 2013, the Company had \$51 million outstanding on the revolving credit facility, \$43 million outstanding letters of credit and a \$38 million borrowing base reserve providing unused borrowing capacity of \$518 million under the revolving line of credit. The Company was in compliance with all covenants as of March 30, 2013.

In October 2012, the Company filed an initial public offering and sold 29,411,764 shares of common stock at \$16.00 per share. Proceeds, net of transaction fees, of \$438 million and cash from operations were used to repurchase \$455 million of 11% Senior Subordinated Notes.

In December 2012, BP Parallel LLC, invested \$21 million to purchase assignments at then-prevailing market prices of \$21 million of principal of the Senior Unsecured Term Loan.

In February 2013, the Company entered into an incremental assumption agreement to increase the commitments under Berry Plastics Corporation's existing term loan credit agreement by \$1.4 billion. Berry Plastics Corporation borrowed loans in an aggregate principal amount equal to the full amount of the commitments on such date. The incremental term loans bear interest at LIBOR plus 2.50% per annum with a LIBOR floor of 1.00%, mature in February 2020 and are subject to customary amortization. The proceeds from the incremental term loan, in addition to borrowings under the revolving credit facility, were used to (a) satisfy and discharge all of Berry Plastics Corporation's outstanding (i) Second Priority Senior Secured Floating Rate Notes due 2014, (ii) First Priority Senior Secured Floating Rate Notes due 2015, (iii) 10 1/4% Senior Subordinated Notes due 2016 and (iv) 8 1/4% First Priority Senior Secured Notes due 2015, which, in each case, were called for redemption in February 2013 and the related indentures and (b) pay related fees and expenses. The Company recognized a \$48 million loss on extinguishment of debt related to this debt refinancing.

7. Financial Instruments and Fair Value Measurements

As part of the overall risk management, the Company uses derivative instruments to reduce exposure to changes in interest rates attributed to the Company's floating-rate borrowings. For those derivative instruments that are designated and qualify as hedging instruments, the Company must designate the hedging instrument, based upon

Table of Contents

the exposure being hedged, as a fair value hedge, cash flow hedge, or a hedge of a net investment in a foreign operation. To the extent hedging relationships are found to be effective, as determined by FASB guidance, changes in fair value of the derivatives are offset by changes in the fair value of the related hedged item are recorded to Accumulated other comprehensive loss. Management believes hedge effectiveness is evaluated properly in preparation of the financial statements.

Cash Flow Hedging Strategy

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative instrument is reported as a component of Accumulated other comprehensive loss and reclassified into earnings in the same line item associated with the forecasted transaction and in the same period or periods during which the hedged transaction affects earnings.

In November 2010, the Company entered into two separate interest rate swap transactions to manage cash flow variability associated with \$1 billion of the outstanding variable rate term loan debt (the 2010 Swaps). The first agreement had a notional amount of \$500 million and became effective in November 2010. The agreement swaps three month variable LIBOR contracts for a fixed three year rate of 0.8925% and expires in November 2013. The second agreement had a notional amount of \$500 million and became effective in December 2010. The agreement swaps three month variable LIBOR contracts for a fixed three year rate of 1.0235% and expires in November 2013. In August 2011, the Company began utilizing 1-month LIBOR contracts for the underlying senior secured credit facility. The Company's change in interest rate selection caused the Company to lose hedge accounting on both of the interest rate swaps. The Company recorded subsequent changes in fair value in the Consolidated Statement of Operations and will amortize the unrealized losses to Interest expense through the end of the respective swap agreements.

In February 2013, the Company entered into an interest rate swap transaction to manage cash flow variability associated with \$1 billion of outstanding variable rate term loan debt (the 2013 Swaps). The agreement swaps the greater of a three-month variable LIBOR contract or 1.00% for a fixed three-year rate of 2.355%, with an effective date in May 2016 and expiration in May 2019. The counterparty to the agreement is a financial institution. The company will record changes in fair value in Accumulated other comprehensive income. A 0.25% change in LIBOR would not have a material impact on the fair value of the interest rate swaps.

Derivatives instruments	Balance Sheet Location	Liability Derivatives	
		March 30, 2013	September 29, 2012
Interest rate swaps 2010 Swaps	Other long-term liabilities	\$ 4	\$ 7
Interest rate swaps 2013 Swaps	Other long-term liabilities	\$ 3	

The effect of the derivative instruments on the Consolidated Statement of Operations is as follows:

Derivatives not designated as hedging instruments under FASB guidance	Statement of Operations Location	Quarterly Period Ended		Two Quarterly Period Ended	
		March 30, 2013	March 31, 2012	March 30, 2013	March 31, 2012
Interest rate swaps 2010 Swaps	Other expense (income)	\$ (2)	\$ 2	\$ (3)	\$ (1)
Interest expense		\$ 1	\$ 1	\$ 2	\$ 2

The Fair Value Measurements and Disclosures section of the Accounting Standards Codification (Codification or ASC) defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, and establishes a framework for measuring fair value. This section also establishes a three-level hierarchy (Level 1, 2 or 3) for fair value measurements based upon the observability of inputs to the valuation of an asset or liability as of the measurement date. This section also requires the consideration of the counterparty's or the Company's nonperformance risk when assessing fair value.

Table of Contents

The Company's interest rate swap fair values were determined using Level 2 inputs as other significant observable inputs were not available.

The Company's financial instruments consist primarily of cash and cash equivalents, long-term debt, interest rate swap agreements and capital lease obligations. The fair value of the Company's long-term debt was determined using Level 2 inputs, which include using quoted prices in inactive markets or significant other observable inputs for identical or comparable assets or liabilities. The following table summarizes our long-term indebtedness for which the book value was in excess of the fair value:

	March 30, 2013	September 29, 2012
Second Priority Senior Secured Floating Rate Notes	\$	\$ 1
Senior Unsecured Term Loan		6

Non-recurring Fair Value Measurements

The Company has certain assets that are measured at fair value on a non-recurring basis when impairment indicators are present. The assets are adjusted to fair value only when the carrying values exceed the fair values. The categorization of the framework used to price the assets is considered a Level 3, due to the subjective nature of the unobservable inputs used to determine the fair value. These assets include primarily our definite lived and indefinite lived intangible assets, including Goodwill and our property plant and equipment. The Company conducted our annual step one evaluation of goodwill and other intangibles as of the first date of the fourth quarter and preliminarily determined no impairment existed for any of our reporting units. The Company has experienced volume declines in certain of our reporting units, however our cost reduction initiatives and profitability in these reporting units have been consistent with our estimated operating plan and previous cash flow estimates and we believe that our long term forecasts are still appropriate. We have utilized a consistent methodology with prior years, which leverages a six year discounted cash flow analysis with a terminal year in combination with a comparable company market approach to determine the fair value of our reporting units.

Included in the following table are the major categories of assets measured at fair value on a non-recurring basis as of March 30, 2013 and March 31, 2012, along with the impairment loss recognized on the fair value measurement during the period:

	As of March 30, 2013				Quarterly Period Ended March 30, 2013 Impairment Loss	Two Quarterly Periods Ended March 30, 2013 Impairment Loss
	Level 1 Quoted Prices in Active Markets for Identical Assets or Liabilities	Level 2 Significant Other Observable Inputs	Level 3 Significant Unobservable Inputs	Total		
Indefinite-lived trademarks	\$	\$	\$ 207	\$ 207	\$	\$
Goodwill			1,633	1,633		
Definite lived intangible assets			739	739		
Property, plant, and equipment			1,242	1,242		
Total	\$	\$	\$ 3,821	\$ 3,821	\$	\$

Table of Contents

	As of March 31, 2012					
	Level 1 Quoted Prices in Active Markets for Identical Assets or Liabilities	Level 2 Significant Other Observable Inputs	Level 3 Significant Unobservable Inputs	Total	Quarterly Period Ended March 31, 2012 Impairment Loss	Two Quarterly Periods Ended March 31, 2012 Impairment Loss
Indefinite-lived trademarks	\$	\$	\$ 220	\$ 220	\$	\$
Goodwill			1,587	1,587		
Definite lived intangible assets			814	814		17
Property, plant, and equipment			1,213	1,213	1	3
Total	\$	\$	\$ 3,834	\$ 3,834	\$ 1	\$ 20

Valuation of Property, Plant and Equipment and Definite Lived Intangible Assets

The Company periodically realigns their manufacturing operations which results in facilities being closed and shut down and equipment transferred to other facilities or equipment being scrapped. The Company utilizes appraised values to corroborate the fair value of the facilities and has utilized a scrap value based on prior facility shut downs to estimate the fair value of the equipment, which has approximated the actual value that was received. When impairment indicators exist, the Company will also perform an undiscounted cash flow analysis to determine the recoverability of the Company's long lived assets.

8. Income Taxes

The effective tax rate was 27% and 34% for the two quarterly periods ended March 30, 2013 and March 31, 2012, respectively. A reconciliation of income tax benefit, computed at the federal statutory rate, to income tax benefit, as provided for in the financial statements, is as follows:

	Quarterly Period Ended		Two Quarterly Periods Ended	
	March 30, 2013	March 31, 2012	March 30, 2013	March 31, 2012
Income tax benefit computed at statutory rate	\$ 1	\$ 3	\$ (4)	\$ (15)
State income tax benefit, net of federal taxes		1		(1)
Change in valuation allowance	1		1	1
Other				
Income tax expense (benefit)	\$ 2	\$ 4	\$ (3)	\$ (15)

Table of Contents**9. Operating Segments**

Berry's operations are organized into four reportable segments: Rigid Open Top, Rigid Closed Top, Engineered Materials, and Flexible Packaging. The Company has manufacturing and distribution centers in the United States, Canada, Mexico, Belgium, Australia, Germany, Brazil, Malaysia, and India. The North American operation represents 96% of the Company's net sales, 98% of total long-lived assets, and 98% of the total assets. Selected information by reportable segment is presented in the following table:

	Quarterly Period Ended		Quarterly Period Ended	
	March 30, 2013	March 31, 2012	March 30, 2013	March 31, 2012
Net sales:

10. Guarantor and Non-Guarantor Financial Information

Berry Plastics Corporation (Issuer) has notes outstanding which are fully, jointly, severally, and unconditionally guaranteed by the parent company and substantially all of Berry 's domestic subsidiaries. Separate narrative information or financial statements of the guarantor subsidiaries have not been included because they are 100% owned by the parent company and the guarantor subsidiaries unconditionally guarantee such debt on a joint and several basis. A guarantee of a guarantor of the securities will terminate upon the following customary circumstances: the sale of the capital stock of such guarantor if such sale complies with the indenture, the designation of such guarantor as an unrestricted subsidiary, the defeasance or discharge of the indenture, as a result of the holders of certain other indebtedness foreclosing on a pledge of the shares of a guarantor subsidiary or if such guarantor no longer guarantees certain other indebtedness of the issuer. The guarantees are also limited as necessary to prevent them from constituting a fraudulent conveyance under applicable law and guarantees guaranteeing subordinated debt are subordinated to certain other of the Company 's debts. Presented below is condensed consolidating financial information for the parent, issuer, guarantor subsidiaries and non-guarantor subsidiaries. Our issuer and guarantor financial information includes all of our domestic operating subsidiaries, our non-guarantor subsidiaries include our foreign subsidiaries and BP Parallel, LLC. BP Parallel, LLC is the entity that we established to buyback debt securities of Berry Plastics Group, Inc. and Berry Plastics Corporation. Berry Plastics Group, Inc. uses the equity method to account for its ownership in Berry Plastics Corporation in the Condensed Consolidating Supplemental Financial Statements. Berry Plastics Corporation uses the equity method to account for its ownership in the guarantor and non-guarantor subsidiaries. All consolidating entries are included in the eliminations column along with the elimination of intercompany balances.

Table of Contents**Condensed Supplemental Consolidated Balance Sheet**

	March 30, 2013
