GENERAL INFORMATION

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors, or the Board, of Repligen Corporation, or Repligen or the Company, for use at the Annual Meeting of Stockholders, or the Annual Meeting, to be held on Thursday, May 15, 2014 at the time and place set forth in the Notice of Annual Meeting, and at any adjournment or postponement thereof.

Repligen's Annual Report to Stockholders, containing financial statements for the fiscal year ended December 31, 2013, is being provided together with this proxy statement to all stockholders entitled to vote at the Annual Meeting. It is anticipated that this proxy statement and the accompanying proxy will be first sent or given to stockholders on or about [], 2014.

Voting

Stockholders may vote in person or by proxy by completing, signing, dating and returning the accompanying proxy card or by voting by telephone or via the Internet in accordance with the instructions listed on the proxy card. Execution of a proxy will not in any way affect a stockholder's right to attend the Annual Meeting and vote in person.

Any proxy given pursuant to this solicitation may be revoked by the person giving it any time before the taking of the vote at the Annual Meeting. Proxies may be revoked by: (1) giving written notice of revocation to the Secretary of Repligen at any time before the taking of the vote at the Annual Meeting; (2) duly executing a later-dated proxy relating to the same shares and delivering it to the Secretary of Repligen or by telephone or the Internet, in accordance with the instructions listed on the proxy card, before the taking of the vote at the Annual Meeting; or (3) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy). For those stockholders who submit a proxy by telephone or the Internet, the date on which the proxy is submitted in accordance with the instructions listed on the proxy card is the date of the proxy. Any written notice of revocation or subsequent proxy should be sent so as to be delivered to Repligen Corporation, Attention: Secretary, 41 Seyon Street, Building #1, Suite 100, Waltham, Massachusetts 02453, at or before the taking of the vote at the Annual Meeting.

Each of the persons named as attorneys in the proxies is a director, officer and/or employee of Repligen. All properly executed proxies returned in time to be counted at the Annual Meeting will be voted as stated below under the heading "Voting Procedures." Any stockholder submitting a proxy has the right to withhold authority to vote for any individual nominee to the Board by writing that nominee's number on the space provided on the proxy card, checking the box next to the name of such individual if voting by proxy via the Internet or, if using the telephone to vote by proxy, by following the verbal instructions for entering the two digit number appearing on the proxy card immediately before the name of such individual. Where a choice has been specified on the proxy with respect to a matter, the shares represented by the proxy will be voted in accordance with the specifications. Where no specification is indicated on the proxy with respect to a matter, the shares represented by the proxy will be voted FOR proposals 1, 2, 3, 4 and 5, as permitted by applicable regulations and by Repligen's corporate documents.

Other than (i) the election of directors, (ii) the ratification of Ernst & Young LLP, (iii) the advisory vote regarding the compensation of our named executive officers, (iv) the vote to approve an amendment to the Certificate of Incorporation to increase the number of shares of authorized Common Stock and (v) the vote to approve an amendment and restatement of the Repligen Corporation 2012 Stock Option and Incentive Plan, the Board knows of no other matters to be presented at the Annual Meeting. If any other matter should be presented at the Annual Meeting upon which a vote properly may be taken, shares represented by all proxies received by the Board will be voted with respect thereto in accordance with the judgment of the persons named as attorneys in the proxies.

Important Notice Regarding the Availability of Proxy Materials for the Annual Meeting to be Held on May 15, 2014

The Company's Annual Report for the Fiscal Year Ended December 31, 2013 and this Proxy Statement will be available at www.proxyvote.com.

Voting Procedures

The representation, in person or by proxy, of at least a majority of the outstanding shares of Common Stock entitled to vote at the Annual Meeting is necessary to constitute a quorum for the transaction of business. Shares represented by proxies pursuant to which votes have been withheld from any nominee for director, or which contain one or more abstentions or broker non-votes, are counted as present or represented for purposes of determining the presence or absence of a quorum for the Annual Meeting. A non-vote occurs when a broker or other nominee holding shares for a beneficial owner votes on one proposal, but does not vote on another proposal because the broker does not have discretionary voting power and has not received instructions from the beneficial owner.

Election of Directors. Directors are elected by a plurality of the votes cast, in person or by proxy, at the Annual Meeting. The seven nominees who receive the highest number of affirmative votes of the shares present or represented and voting on the election of directors at the Annual Meeting will be elected to the Board. Shares present or represented and not so marked as to withhold authority to vote for a particular nominee will be voted in favor of a particular nominee and will be counted toward such nominee's achievement of a plurality. Shares present at the meeting or represented by proxy where the stockholder properly withholds authority to vote for such nominee in accordance with the proxy instructions and broker non-votes will not be counted toward such nominee's achievement of plurality.

Ratification of Independent Accountants. For the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2014, an affirmative vote of a majority of the shares present, in person or represented by proxy, and voting on such matter is required for approval. Shares voted to abstain are included in the number of shares present or represented and voting. Shares subject to broker non-votes are considered to be not entitled to vote for the particular matter and have the practical effect of reducing the number of affirmative votes required to achieve a majority by reducing the total number of shares from which the majority is calculated.

Advisory Vote on the Compensation of our Named Executive Officers. For the advisory vote on the compensation of our named executive officers, the affirmative vote of the majority of shares present, in person or represented by proxy, and voting on that matter is required for approval. Shares voted to abstain are included in the number of shares present or represented and voting on each matter. Shares subject to broker non-votes are considered to be not entitled to vote for the particular matter and have the practical effect of reducing the number of affirmative votes required to achieve a majority for such matter by reducing the total number of shares from which the majority is calculated.

Vote to Approve an Amendment to the Certificate of Incorporation to Increase the number of Shares of Authorized Common Stock. For the vote to approve an amendment to the Certificate of Incorporation, the affirmative vote of the majority of the outstanding shares and entitled to vote is required for approval. Shares voted to abstain are treated as votes cast against this proposal. Shares subject to broker non-votes are treated as votes cast for this proposal.

Vote to Approve Amendment and Restatement of the Repligen Corporation 2012 Stock Option and Incentive Plan. For the vote to approve an amendment and restatement of the Repligen Corporation 2012 Stock Option and Incentive Plan, the affirmative vote of the majority of shares present, in person or represented by proxy, and voting on that matter is required for approval. Shares voted to abstain are included in the number of shares

present or represented and voting on this proposal. Shares subject to broker non-votes are considered to be not entitled to vote for this proposal and have the practical effect of reducing the number of affirmative votes required to achieve a majority by reducing the total number of shares from which the majority is calculated.

Other Matters. The Board knows of no other matters to be presented at the Annual Meeting. If any other matter should be presented at the Annual Meeting upon which a vote properly may be taken, the persons named on the enclosed proxy will have discretionary authority to vote the shares represented by such proxies in accordance with their best judgment.

Solicitation of Proxies

The cost of solicitation will be borne by Repligen, and in addition to directly soliciting stockholders by mail, Repligen may request banks and brokers to solicit their customers who have stock of Repligen registered in the name of the nominee and, if so, will reimburse such banks and brokers for their reasonable out-of-pocket costs. Solicitation by officers and employees of Repligen may also be made of some stockholders in person or by mail or telephone following the original solicitation. Repligen may, if appropriate, retain any independent proxy solicitation firm to assist Repligen in soliciting proxies. If Repligen does retain a proxy solicitation firm, Repligen would pay such firm's customary fees and expenses.

Record Date and Voting Securities

Only stockholders of record as of [], 2014, or the Record Date, are entitled to notice of and to vote at the Annual Meeting and any adjournments or postponements thereof. As of the Record Date, the Company had [] shares of common stock with a par value of \$0.01, or the Common Stock, outstanding and entitled to vote. Each outstanding share of Common Stock entitles the record holder to one vote.

CORPORATE GOVERNANCE AND BOARD MATTERS

Independence of Members of the Board of Directors

The Board has determined that each of the directors who has served during the fiscal year ended December 31, 2013, with the exception of Mr. Herlihy, has no material relationship with the Company and is independent within the meaning of the Company's director independence standards and the director independence standards of The NASDAQ Stock Market LLC, or NASDAQ. Furthermore, the Board has determined that each member of the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee of the Board is independent within the meaning of the Company's and NASDAQ's director independence standards and that each member of the Audit Committee meets the heightened director independence standards for audit committee members of the SEC.

Board Leadership Structure

The Board is led by its Chairperson, Karen Dawes, who is an independent director. Ms. Dawes was appointed as Co-Chairperson in July 2011 and became the Chairperson in December 2011. The Board believes that separating the roles of Chief Executive Officer and Chairperson of the Board is the most appropriate structure for the Company at this time. Having an independent Chairperson is a means to ensure that the Chief Executive Officer is accountable for managing the Company in the best interests of stockholders while, at the same time, acknowledging that managing the Board is a separate and time intensive responsibility. The Board also believes that having an independent Chairperson can serve to curb conflicts of interests, promote oversight of risk and manage the relationship between the Board and the Chief Executive Officer.

In November 2013, the Nominating and Corporate Governance Committee, with Karen Dawes abstaining, approved an expanded chair focus for Karen Dawes, on a short-term basis, as part of the continued organizational re-alignment required for the company's shift of strategic focus to its bioprocessing business. In this expanded role, Ms. Dawes committed additional time to the company to assist with the development and implementation of strategy for this re-alignment, particularly in the areas of commercialization, licensing, and organizational structure in which Ms. Dawes provided high level advice and participated in recruiting key leadership positions at the Company which are critical to this re-alignment. Additionally, Ms. Dawes reviewed the development of the Company's budget and commercial organization plan for 2014.

In February 2013, the Nominating and Corporate Governance Committee reviewed the foregoing arrangements and agreed to continue its operations.

Executive Sessions

The Board intends to hold executive sessions of the independent Directors at least two times per year preceding or following regularly scheduled in-person meetings of the Board. Executive sessions do not include any employee Directors of the Company, and the Chairperson of the Board is responsible for chairing the executive sessions.

Policies Governing Director Nominations

Director Qualifications

The Nominating and Corporate Governance Committee is responsible for reviewing, from time to time, the appropriate qualities, skills and characteristics desired of Board members in the context of the current make-up of the Board and selecting or recommending nominees for election as Directors to the Board. This assessment includes consideration of the following minimum qualifications that the Nominating and Corporate Governance Committee believes must be met by all Directors:

Directors must be of high ethical character, have no conflict of interest and share the values of the Company as reflected in the Company's Code of Business Conduct and Ethics, or the Code of Business Conduct;

Table of Contents

Directors must have reputations, both personal and professional, consistent with the image and reputation of the Company;

Directors must have the ability to exercise sound business judgment;

Directors must have substantial business or professional experience and be able to offer advice and guidance to the Company's management based on that experience; and

A Director must have (at a minimum) a bachelor's degree or equivalent degree from an accredited college or university. The Nominating and Corporate Governance Committee also considers numerous other qualities, skills and characteristics when evaluating Director nominees, such as:

An understanding of and experience in biotechnology and pharmaceutical industries;

An understanding of and experience in accounting oversight and governance, finance and marketing; and

Leadership experience with public companies or other significant organizations.

These factors and others are considered useful by the Board and are reviewed in the context of an assessment of the perceived needs of the Board at a particular point in time.

Neither the Nominating and Corporate Governance Committee nor the Board of Directors has a specific policy with regard to the consideration of diversity in identifying director nominees although they may consider the diversity of background and experience of a director nominee in the context of the overall composition of the Board of Directors at that time. This consideration may focus on diversity of knowledge, skills, experience, geographic location, age, gender, and ethnicity. Generally, the Nominating and Corporate Governance Committee seeks director nominees with the talents and backgrounds that provide the Board of Directors with an appropriate mix of experience, knowledge and skills that will best serve the Company's needs and objectives.

Process for Identifying and Evaluating Director Nominees

The Board is responsible for selecting and nominating nominees for election as Directors but delegates the selection and nomination process to the Nominating and Corporate Governance Committee, with the expectation that other members of the Board or members of management will be requested to take part in the process as appropriate.

Generally, the Nominating and Corporate Governance Committee identifies candidates for Director nominees in consultation with management, through the use of search firms or other advisers, through the recommendations submitted by stockholders or through such other methods as the Nominating and Corporate Governance Committee deems to be helpful in identifying candidates. Once candidates have been identified, the Nominating and Corporate Governance Committee confirms that the candidates meet all of the minimum qualifications for Director nominees established by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee may gather information about the candidates through interviews, questionnaires, background checks, or any other means that the Nominating and Corporate Governance Committee deems to be helpful in the evaluation process. The Nominating and Corporate Governance Committee meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the Board. Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for the Board's approval as Director nominees for election to the Board. The Nominating and Corporate Governance Committee also recommends candidates for the Board's appointment to the committees of the Board.

Compensation Philosophy

The Company's compensation philosophy is based on a desire to motivate its executive officers to enhance stockholder value, to provide a fair reward for this effort and to stimulate its executive officers' professional and personal growth. The Company believes that the compensation of its executive officers should align the executive officers' interests with those of the stockholders and focus executive officer behavior on the achievement of near-term corporate goals, as well as long-term business objectives and strategies.

It is the responsibility of the Compensation Committee of the Board to administer the Company's compensation programs to ensure that they are competitive with other bioprocessing, healthcare supply and biotechnology companies and to include incentives that are designed to appropriately drive the Company's continued development. The Compensation Committee reviews and approves all components of the Company's executive officer compensation, including base salaries, annual cash incentive compensation and equity incentive compensation. The Compensation Committee recommends to the full Board for approval new equity-based plans and any material amendments thereto (including increases in the number of shares of Common Stock available for issuance thereunder) for which stockholder approval is required or desirable.

Objectives of the Compensation Programs

The Company's compensation programs for its executive officers are designed to provide the following:

annual cash and incentive compensation that motivates the executive officers to manage the business to meet the Company's short- and long-term objectives;

Edgar Filing: REPLIGEN CORP - Form PRE 14A

equity incentive compensation to ensure that its executive officers are motivated over the long-term to respond to the Company's business challenges and opportunities as owners and not just as employees, thereby aligning the executive officers' interests with those of stockholders; and

salaries that are competitive with other bioprocessing, healthcare supply and biotechnology companies with which the Company competes for talent, determined by comparing the Company's pay practices with these companies.

Compensation Evaluation Processes

The Company's executive officer compensation consists of three key components: base salary, annual cash incentive compensation and equity incentive compensation. Each of these components is intended to complement the other, and taken together, to satisfy the Company's compensation objectives. The Compensation Committee considers a number of factors in setting compensation for its executive officers, including Company performance, as well as the executive's performance, experience, responsibilities and the compensation of executive officers in similar positions in our peer group of companies.

In evaluating our executive compensation programs for the fiscal year ended December 31, 2013, the Compensation Committee considered the stockholder advisory vote on our executive compensation, or the say-on-pay vote, for the fiscal year ended December 31, 2012, which was approved by over 98% of the votes cast. The Compensation Committee believes that the stockholders, through this advisory vote, endorsed the compensation philosophies of our Company and, thus, the Compensation Committee maintained the basic structure and design of our executive compensation programs for fiscal year 2013 with an increased emphasis on awards of equity incentives to align the executive officers' financial interest with long-term stockholder value. The Compensation Committee will continue to align executive compensation programs with the interests of our stockholders and current market practice, including a continued emphasis on pay for performance. We will hold a say-on-pay vote on an annual basis until the next vote on the frequency of such stockholder advisory votes, which will occur no later than our 2017 Annual Meeting of Stockholders.

In establishing compensation levels for each executive officer, the Compensation Committee has the authority to engage the services of outside experts to assist it. Our finance and human resources departments support the Compensation Committee in its work and act in accordance with the direction given to them to administer our compensation programs. In addition, in the fiscal year ended December 31, 2013, the Compensation Committee retained Meridian Compensation Partners, LLC, an independent compensation consulting firm, or Meridian, to assess the competitiveness and effectiveness of the Company's executive compensation programs. The Compensation Committee has assessed any potential conflicts of interest raised by the work of Meridian, our compensation consultant, and has determined that no such conflict of interest exists.

During the fiscal year ended December 31, 2013, the Compensation Committee held meetings with management and representatives of Meridian to:

review our compensation objectives;

review the actual compensation of our executive officers for consistency with our objectives;

analyze trends in executive compensation;

assess our variable cash compensation structure, as well as incentive plan components and mechanics, to ensure an appropriate correlation between pay and performance with resulting compensation opportunities that balance returns to the Company and its stockholders;

assess our equity-based awards programs against our objectives of executive incentive, retention and alignment with stockholder interests;

review our peer group and consider appropriate changes related to the realignment of our business;

benchmark our executive cash compensation and equity-based awards programs, and assess our pay versus performance against our peer group; and

review recommendations for fiscal year 2014 compensation for appropriateness relative to our compensation objectives. In January 2014, Meridian provided the Compensation Committee with an analysis of base salary, target bonus, target total cash, long-term incentives value and design and target total compensation of comparable companies in the biotechnology and health care supplies industries. In performing this analysis, Meridian used a

peer group of 14 biotechnology and health care supply companies, which was reviewed and approved by the Compensation Committee. The peer group was revised from the one used in connection with fiscal year ending December 31, 2012 to reflect the Company's new strategic focus on its bioprocessing business. The companies included in the peer group had revenues with a median of \$63.0 million, as compared to the Company's total revenue of \$68.2 million in fiscal year 2013. The peer group used in the report presented for consideration of compensation decisions and approved by the Compensation Committee consisted of the following companies:

Affymetrix, Inc.	Halozyme Therapeutics, Inc.	Pacific Biosciences of Calif.
AMAG Pharmaceuticals, Inc.	Harvard Bioscience, Inc.	Sangamo Biosciences, Inc.
Anika Therapeutics, Inc.	Luminex Corp.	Sequenom, Inc.
Dyax Corp.	Merrimack Pharmaceuticals, Inc.	Vascular Solutions, Inc.
Fluidigm Corp.	NanoString Technologies, Inc.	

As summarized below, Meridian's review of peer companies revealed that the Company's base salaries and target bonus percentages and, in the aggregate, its long term incentives were below, the 50th percentile of peer group companies for the fiscal year ended December 31, 2013.

Long-Term Incentives as Compared to Peer Group

Historically, the Compensation Committee made periodic grants of stock options with time-based vesting to align the executive officers' financial interest with long-term stockholder value. However, such grants were not made every year. Based on Meridian's review of our peer group, most companies in the peer group made long term incentive awards on an annual basis. The Compensation Committee believes that equity incentives, in the form of stock options, restricted stock units and restricted stock awards subject to vesting over time or upon achievement of performance objectives, can be an effective vehicle for the long-term element of compensation, as these awards align individual and team performance with the achievement of the Company's strategic and financial goals over time, and with stockholders' interests. Stock options, which have exercise prices equal to at least fair market value of the Company's stock on the date of grant, reward executive officers only if the stock price increases from the date of grant. Restricted stock units and restricted stock awards are impacted by all stock price changes, so the value to the executive officers is affected by both increases and decreases in stock price from the market price at the date of grant. The Compensation Committee granted stock options subject to time-based vesting over four years to its named executive officers in February 2013. In February 2014, the Compensation Committee, based on Meridian's review of peer group data that our aggregate long term incentives were significantly below the 50th percentile of peer group companies, granted stock options and restricted stock units subject to time-based vesting over three years to its named executive officers. The size of these grants were based on long-term incentive levels for each of the executive officers that are a function of total cash compensation (base salary plus annual cash incentive compensation), as described in further detail under the section "Objectives for the Fiscal Year Ending December 31, 2014". The Compensation Committee expects to annually grant additional long term incentive awards, potentially including a mix of restricted stock units, restricted stock awards, and stock option awards in future years.

The Compensation Committee uses the peer group compensation data as one of several factors to determine appropriate compensation parameters for base salary, variable cash compensation and equity-based, long-term incentives. The Compensation Committee's executive compensation decisions are made on a case-by-case basis, and specific benchmark results do not, in and of themselves, determine individual targets.

The Compensation Committee anticipates that it will continue to conduct similar annual reviews of our executive compensation practices and use independent outside consultants for similar services in the future.

Executive Compensation

Each executive officer (except the Chief Executive Officer whose performance is reviewed directly by the Compensation Committee) has an annual performance review with the Chief Executive Officer, who makes recommendations on salary increases, promotions and equity and non-equity incentive awards to the Compensation Committee. The Compensation Committee believes its executive compensation programs for the fiscal year ended December 31, 2013, which rewarded the Company's accomplishments during the year, including the strong growth in product revenue and total revenue, the improvement in gross margins, the significant return to stockholders resulting from the increase in the price of the Company's common stock and the successful exit from all therapeutic drug development activities, encouraged sustained achievement of longer-term goals and initiatives and maintained a motivated and engaged leadership team.

Base Salary

Base salary represents the fixed portion of an executive officer's compensation and is intended to provide compensation for day-to-day performance. The Compensation Committee believes that a competitive base salary is a necessary element of any compensation program that is designed to attract and retain talented and experienced executives. Each executive officer's base salary is initially determined upon hire or promotion based on the executive officer's responsibilities, prior experience, individual compensation history and salary levels of other executives within the Company and similarly situated executives at our peer group. Base salary is typically reviewed annually. The Company believes that the base salaries paid to the executive officers during the fiscal year ended December 31, 2013 achieved its compensation objectives.

Table of Contents

For the fiscal year ending December 31, 2014, the Compensation Committee increased Mr. Herlihy's base salary by 3.2%, from \$475,000 to \$490,000, Mr. Rusche's base salary by 3.1% from \$293,000 to \$302,000, Mr. Witt's base salary by 3.1% from \$272,500 to \$281,000, Mr. Benjamin's base salary by 3.2% from \$262,500 to \$271,000 and Mr. Kelly's base salary by 3.1% from \$240,500 to \$248,000. The compensation report prepared by Meridian showed that the base salaries of these four executives all fell below the 50th percentile among the Company's peer group as disclosed above. These base salary increases were based on each executive officer's performance, qualifications, experience, responsibilities and Meridian's survey of the publicly disclosed compensation for similar positions at companies in the peer group. Jonathan I. Lieber's base salary was \$307,500 prior to his separation from the Company on August 23, 2013.

Annual Cash Incentive Compensation Plan

The Company's executive officers other than the Chief Executive Officer are eligible to receive annual cash incentive compensation based on both corporate results as measured against the goals set forth below, or the Company Objectives, and their own individual performance, pursuant to the Annual Cash Incentive Compensation Plan, or the Plan. Mr. Herlihy is eligible to receive annual cash compensation based on corporate results as measured against the Company Objectives pursuant to the Plan. The annual cash incentive compensation earned by each executive officer is determined by the Compensation Committee after the end of each fiscal year and calculated as a percentage of an executive officer's base salary.

The Company establishes the target amount of its annual cash incentive compensation at a level that represents a meaningful portion of the executive officers' current paid out cash compensation, and sets a threshold performance level for each executive. In establishing these levels, in addition to considering the incentives that the Company wants to provide to the executive officers, it also considers the annual cash incentive compensation levels for comparable positions within our peer group and our own historical practices.

The following were the overall Company Objectives for the fiscal year ended December 31, 2013, or the Performance Period:

1. Grow the bioprocessing business;
2. Achieve financial objectives and stock performance goals; and
3. Achieve organizational development objectives, including exiting all therapeutic drug development activities.

Plan Protocol

The Compensation Committee administers the Plan:

1. At the beginning of the fiscal year, the Chief Executive Officer, with assistance from senior management, proposes annual corporate goals, measurement criteria and weightings, subject to review and approval by the Compensation Committee.
2. At the end of the fiscal year, the Chief Executive Officer evaluates performance levels and the achievement of these annual corporate goals, which are subject to review and approval by the Compensation Committee. Specific bonus award recommendations for all participants (except the Chief Executive Officer) are submitted by the Chief Executive Officer to the Compensation Committee for review and approval.
3. The Compensation Committee determines the size of the overall bonus pool and the bonus awards for individual participants based on the target bonus figures, the Company's performance against the above Company Objectives and, in the case of executive officers other than the Chief Executive Officer, individual performance.

Table of Contents

Plan Payout

The Compensation Committee is responsible for evaluating actual performance against the performance goals and determining the actual bonus award earned. The Chief Executive Officer submits a documented evaluation of the performance of each of the other participants to the Compensation Committee for its consideration to assist the Compensation Committee in its review and proposed bonus awards. The Compensation Committee makes all final determinations regarding performance evaluations of participants and actual bonus awards. See the section titled *Performance Criteria* below for a discussion on the performance criteria and determinations for the fiscal year ended December 31, 2013.

Generally, the Company must attain a minimum of 60% achievement of its corporate goals for any payment to be made pursuant to the Plan, and the Compensation Committee may, at its discretion, elect not to pay bonuses. However, should the Company attain less than 60% achievement of its goals, the Compensation Committee may elect to pay the portion of the incentive award based on individual goals for exceptional personal achievement. A target bonus (as a percentage of base salary) and the weight assigned to corporate and individual results is determined for participants based upon their position. The final incentive payout is determined for each participant based on the achievement of corporate and individual goals defined for each organizational level and position and the target incentive percentage.

For the fiscal year ended December 31, 2013, the Company established a target annual cash incentive award for each of the executive officers, depending on their role, experience and objectives to be achieved as follows:

Individual Annual Cash Incentive Targets

	Bonus Target as % of Salary for the Fiscal Year ended December 31, 2013
Chief Executive Officer	60%
Other executive officers	40%

Individual Annual Cash Incentive Targets

	Portion Tied to Corporate Results	Portion Tied to Individual Results
Chief Executive Officer	100%	0%
Other executive officers	60%	40%

Performance Criteria

The incentive compensation of executive officers is based on the achievement of certain goals by the Company, as a whole, and, for executive officers other than the Chief Executive Officer, on the achievement of individual performance goals. Criteria and specific goals within each category are as follows:

Company Performance

The extent to which key product manufacturing, product sales, financial, research, clinical and partnering or collaboration objectives of the Company have been met during the preceding fiscal year.

Executive Performance

An executive officer's involvement in and responsibility for the attainment of key product manufacturing, product sales, financial, research, clinical and other strategic objectives of the Company;

Table of Contents

The involvement of an executive officer in personnel recruitment, retention and morale; and

The responsibility of the executive officer in working within budgets, controlling costs and other aspects of expense management.

Achievement of Corporate Objectives and Cash Incentive Determination

The portion of cash incentive tied to corporate results is determined based on evaluation of the percentage achievement of the established corporate objectives, which were determined at the beginning of the fiscal year. These objectives include product development or partnering objectives, financial performance objectives and corporate development objectives. The corporate objectives are designed to be difficult to achieve at 100%, and the Compensation Committee assesses the attainment of these objectives. The ultimate determination of achievement of the objectives is at the sole discretion of the Compensation Committee following discussions with management and is based both on quantitative, objective calculations such as the achievement of certain financial or clinical milestones, as well as a qualitative assessment, which takes into consideration the level of effort, end results, and other contributing internal and external factors that could reasonably be expected to impact performance. The Chief Executive Officer evaluated the actual performance of the other executive officers against the performance goals and submitted such evaluation to the Compensation Committee. The Compensation Committee, using its discretion, reviewed this evaluation and determined that the aggregate percentage achievement of the corporate objectives was 100% in recognition of the strong stock performance and significant achievements in the year ended December 31, 2013. The corporate portion of the cash incentive plan for all officers was therefore calculated at 100% for each officer.

The following is a summary of the corporate objectives for the fiscal year ended December 31, 2013 and the detailed calculation supporting the achievement of each such objective:

Company Objectives for the Fiscal Year ended December 31, 2013	Weight	Percent Score (achievement as determined by Compensation Committee)	Weighted Score
Bioprocessing Business			
Improve production efficiencies and output; secure long term agreements with key customers and ensure on-time delivery; develop or acquire new products	45%	100.0%	45.0%
Finance and Stock Performance			
Achieve \$46.8 million in product revenue, gross margin greater than 50%, operating expense less than \$18.5 million and net income greater than \$18.7 million; and out performance of the Company's stock against the Russell 2000 Index	45%	100.0%	45.0%
Corporate Development			
Complete transition out of therapeutic drug development and complete Waltham headquarters expansion to enhance product quality and manufacturing capabilities	10%	100.0%	10.0%
TOTAL CORPORATE PERFORMANCE	100.0%		100.0%

Achievement of Individual Objectives

In addition to the corporate objectives outlined above, executive officers with the exception of Mr. Herlihy, also have an individual objective component to their annual cash incentive compensation. The performance assessment for the individual objectives of the executive officers is not calculated on a line item basis, but rather represents an overall assessment as to how the executive officer contributed to the success of the Company

Table of Contents

within his or her area of responsibility. The individual objectives are designed to be difficult to achieve at 100%. The Compensation Committee has assessed the attainment of these individual objectives by each executive officer. When individual performance objectives are not fully met, as occurred in the fiscal year ended December 31, 2013, executive officers do not receive all of their at risk or performance-based compensation.

As President and Chief Executive Officer, Mr. Herlihy is responsible for overseeing all of our corporate functions, product development, clinical activities and partnering and marketing activities. Working in concert with our Board, Mr. Herlihy formulates current and long-term Company plans and objectives and represents Repligen throughout the market in the business and non-business communities. Because of his role and responsibilities, Mr. Herlihy's annual cash incentive is calculated based solely on corporate performance to closely align his compensation with the Company's performance. For the year ended December 31, 2013, the Compensation Committee determined that Mr. Herlihy would be awarded 100.0% of his target cash incentive compensation.

Mr. Rusche is ultimately responsible for providing leadership on all of Repligen's research and development activities. Specifically, his objectives included transitioning our therapeutic drug development activities to third parties, driving process and new product development work to assist with the growth of our bioprocessing business; supporting our business development initiatives; and representing Repligen to the scientific community as necessary. The overall evaluation of achievement of these factors involves both quantitative and qualitative analysis. The Chief Executive Officer evaluated Mr. Rusche's actual performance against his individual objectives and submitted such evaluation to the Compensation Committee, which determined that the aggregate achievement of the individual objectives for Mr. Rusche was 95.0%.

Mr. Witt is ultimately responsible for managing Repligen's contracts and intellectual property portfolio as well as all bioprocessing manufacturing operations. Specifically, his objectives included delivering on production and gross margin targets, overseeing the expansion of our Waltham facility, ensuring product quality and on-time delivery to customers and supporting our business development initiatives. The overall evaluation of achievement of these factors involves both quantitative and qualitative analysis. The Chief Executive Officer evaluated Mr. Witt's actual performance against his individual objectives and submitted such evaluation to the Compensation Committee, which determined that the aggregate achievement of the individual objectives for Mr. Witt was 95.0%.

Mr. Benjamin is ultimately responsible for Repligen's business development activities. Specifically, his objectives included out licensing our therapeutic development candidates to third parties as we exited this business and identifying new bioprocessing product acquisitions and other new business opportunities. The overall evaluation of achievement of these factors involves both quantitative and qualitative analysis. The Chief Executive Officer evaluated Mr. Benjamin's actual performance against his individual objectives and submitted such evaluation to the Compensation Committee, which determined that the aggregate achievement of the individual objectives for Mr. Benjamin was 100.0%.

Mr. Kelly is ultimately responsible for Repligen's accounting activities. Specifically, his objectives included supporting our financial reporting, compliance and financial planning and analysis activities; and supporting our business development initiatives. The overall evaluation of achievement in these factors is both quantitative and qualitative. The Chief Executive Officer evaluated Mr. Kelly's actual performance against his individual objectives and submitted such evaluation to the Compensation Committee, which determined that the aggregate achievement of the individual objectives for Mr. Kelly was 90.0%.

Prior to his departure, Mr. Lieber was responsible for Repligen's finance and administration activities. Specifically, his objectives during his tenure included leading our financial reporting, compliance and financial planning and analysis activities; maintaining and improving our human resource and information technology infrastructures; supporting our business development initiatives; and overseeing our facility and administrative

activities. The Chief Executive Officer did not evaluate Mr. Lieber's performance given his separation from the Company in August 2013 and Mr. Lieber did not receive any cash incentive payment for the fiscal year ended December 31, 2013.

For the fiscal year ended December 31, 2013:

Mr. Herlihy's cash incentive of \$285,000 was calculated based on an overall achievement of 100.0% as discussed above.

Mr. Rusche's cash incentive of \$114,856 was calculated based on an individual results achievement of 95.0% and corporate results achievement of 100.0% for an overall achievement of 98.0%.

Mr. Witt's cash incentive of \$106,820 was calculated based on an individual results achievement of 95.0% and corporate results achievement of 100.0% for an overall achievement of 98.0%.

Mr. Benjamin's cash incentive of \$105,000 was calculated based on an individual results achievement of 100.0% and corporate results achievement of 100.0% for an overall achievement of 100.0%.

Mr. Kelly's cash incentive of \$92,352 was calculated based on an individual results achievement of 90.0% and corporate results achievement of 100.0% for an overall achievement of 96.0%.

Objectives for the Fiscal Year Ending December 31, 2014

Our executive compensation programs for the fiscal year ending December 31, 2014 are consistent with our programs for the fiscal year ended December 31, 2013, which received strong support from our stockholders in the say on pay advisory vote conducted at our 2013 Annual Meeting of Stockholders. In February 2014, the Compensation Committee reviewed its compensation objectives and concluded that it would continue to base executive compensation on the elements utilized in the fiscal year ended December 31, 2013: base salary, annual cash incentive compensation and long term incentive compensation. For the year ended December 31, 2014, the Compensation committee established target long term incentive levels for each of the executive officers that are a function of total cash compensation, defined as base salary plus annual cash incentive compensation. The targets for each executive are as follows:

Long Term Incentive Targets

	Long term incentive compensation as % of Salary and Bonus for the Fiscal Year ended December 31, 2014
Chief Executive Officer	100%
Other executive officers	50% - 75%

The Compensation Committee granted stock options subject to vesting over four years to each of the named executive officers in February 2013. Long term incentive compensation awards for the year ending December 31, 2014 are split equally between restricted stock units and stock options, both of which vest over three years.

The Compensation Committee also established the Company Objectives for the Plan for the fiscal year ending December 31, 2014, which are similar in focus and structure to those established for the fiscal year ended December 31, 2013. The Company Objectives under the Plan for the fiscal year ending December 31, 2014 are the following:

Edgar Filing: REPLIGEN CORP - Form PRE 14A

Bioprocessing Business develop new products or prototypes; improve production efficiencies; fulfill customer orders on a timely basis; and ensure supply chain security.

Finance and Stock Price achieve sales targets; meet expense and profit targets.

Table of Contents

Sales and Marketing Expand and increase effectiveness of direct sales and marketing and manage partnerships.

Corporate Development expand new product partnerships and seek product/company acquisition.

Equity Incentive Compensation

Equity grants, which have historically generally been in the form of stock options that vest over a specified period, are awarded on a periodic, but not necessarily annual, basis. The Company has historically granted equity compensation in the form of stock options primarily because stock options are an effective tool for motivating executives in the long-term and to retain and reward the executive officers and to further align the executive officers' financial interest with long-term stockholder value. In 2014, the Compensation Committee also made grants of restricted stock units subject to time-based vesting to the executive officers. The Compensation Committee believes that equity incentives, in the form of stock options and restricted stock units subject to vesting over time, are an effective vehicle for the long-term element of compensation, as these align individual and team performance with the achievement of the Company's strategic and financial goals over time, and with stockholders' interests. The Compensation Committee expects to annually make additional long term incentive awards consistent with the 2014 awards, although the Compensation Committee could consider potentially making a portion of the annual awards subject to performance-based vesting criteria. Stock options reward executive officers only if the stock price increases from the date of grant over time and restricted stock units are impacted by all stock price changes, so the value to the executive officers is affected by both increases and decreases in stock price from the market price at the date of grant, while performance-based awards encourage and motivate executive officers to invest their time and efforts in the Company as the value of the award is dependent on the success of the Company or individual objectives.

In the fiscal year ended December 31, 2013, the Compensation Committee considered a number of factors in determining what, if any, equity incentive compensation to grant to the executive officers, including:

the performance of the Company during the fiscal year;

the number of shares subject to, and exercise price of, outstanding options, both vested and unvested, held by the executive officers;

the number of restricted shares held by the executive officers;

the vesting schedule of the unvested equity awards held by the executive officers;

the financial statement impact of any equity award;

the amount and percentage of the total equity on a diluted basis held by the executive officers; and

the available shares under the Company's equity incentive plan.

Other Compensation

All full-time employees, including the executive officers, may participate in the health and welfare benefit programs, including medical, dental and vision care coverage, disability and life insurance and the Company's 401(k) plan.

Separation Agreement with Mr. Lieber

On August 23, 2013, Jonathan I. Lieber's employment with the Company was terminated. In connection with his termination, the Company entered into a Separation Agreement with Mr. Lieber, or the Separation Agreement. Under the Separation Agreement, the Company agreed to provide, for a period of six months following his termination, (i) continuation of Mr. Lieber's base salary in effect on the date of termination and,

(ii) health insurance benefits with the cost of the regular premium for such benefits to be shared in the same

relative proportion by the Company and Mr. Lieber as in effect on the date of termination. In addition, the Company agreed to accelerate the vesting of a portion of Mr. Lieber's stock options equal to 22,000 shares underlying such stock options that would have vested on September 20, 2013. The Separation Agreement is subject to non-revocation of a general release by Mr. Lieber. Amounts paid to Mr. Lieber pursuant to the Separation Agreement are set forth below under the heading "Director and Executive Officer Compensation" Summary Compensation Table for the Fiscal Years ended December 31, 2013 and 2012, the Nine-Month Fiscal Year ended December 31, 2011, or 2011T, and the Fiscal Year ended March 31, 2011 .

Compensation Risk Assessment

The Compensation Committee considers and evaluates risks related to our cash and equity-based compensation programs and practices as well as evaluates whether our compensation plans encourage participants to take excessive risks that are reasonably likely to have a material adverse effect on the Company. Consistent with SEC disclosure requirements, the Compensation Committee has worked with management to assess compensation policies and practices for Company employees and has concluded that such policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company.

Potential Payments upon Termination or Change-in-Control*Employment Arrangements*

On March 14, 1996, Repligen entered into a letter of agreement with each of Messrs. Herlihy, Rusche and Witt in connection with Repligen's acquisition and merger with Glycan Pharmaceuticals, Inc. These agreements are intended to provide for continuity of management during a change in control and align the interest of our executives with those of our stockholders so as to maximize the value to stockholders from any such change in control. These agreements provide for certain benefits upon the termination of employment, with or without cause, or upon a change in control of the Company. Upon termination of employment, with or without cause, or upon a change in control of the Company, 50% of the unvested stock options held by such executive officers shall vest immediately. Upon termination of employment, with or without cause, Messrs. Herlihy, Rusche and Witt will be entitled to receive severance of base salary continuation at the rate then in effect, payable monthly in arrears, until such executive officer becomes employed, but for no longer than eight months for Mr. Herlihy and six months for each of Messrs. Rusche and Witt. Mr. Witt entered into a Transitional Services and Separation Agreement with Repligen on March 18, 2014, which supersedes his existing agreement and provides for his transition from his current role to a senior advisor commencing on August 1, 2014 through July 31, 2015. Pursuant to the Transition Services and Separation Agreement, if Repligen terminates Mr. Witt's employment with or without cause on or before July 31, 2014, Repligen shall pay Mr. Witt an amount equal to \$140,000 payable in equal monthly installments for six months following the date of termination, and 50% of Mr. Witt's remaining stock options will immediately vest. If Repligen terminates Mr. Witt's employment without cause after July 31, 2014 but before July 31, 2015, Repligen shall pay Mr. Witt an amount equal to his annual base salary at the rate then in effect, payable in equal monthly installments from the date of termination through July 31, 2015.

Table of Contents

Repligen entered into an offer letter for employment at will with Mr. Kelly on February 29, 2008. The offer letter for Mr. Kelly does not provide for benefits upon termination, with or without cause, or upon a change of control.

Repligen entered into an offer letter for employment at will with Mr. Benjamin on December 2, 2008. The offer letter for Mr. Benjamin does not provide for benefits upon termination, with or without cause, or upon a change of control.

Repligen entered into an offer letter for employment at will with Mr. Lieber on September 20, 2012. The offer letter for Mr. Lieber provides for certain benefits upon the termination of employment, without cause, including the continuation of Mr. Lieber's base salary at the rate then in effect for a period of six months following the date of termination and health insurance coverage through COBRA. In connection with Mr. Lieber's separation from the Company on August 23, 2013, Repligen and Mr. Lieber entered into the Separation Agreement pursuant to which the Company agreed to provide for a period of six months following his termination (i) continuation of Mr. Lieber's base salary in effect on the date of termination and (ii) health insurance plan benefits with the cost of the regular premium for such benefits to be shared in the same relative proportion by the Company and Mr. Lieber as in effect on the date of termination. In addition, the Company agreed to accelerate the vesting of a portion of Mr. Lieber's stock options equal to 22,000 shares that would have vested on September 20, 2013. The amounts paid to Mr. Lieber under the terms of the Separation Agreement are included in the Summary Compensation Table for the Fiscal Years ended December 31, 2013 and 2012, the Nine-Month Fiscal Year ended December 31, 2011, or 2011T, and the Fiscal Year ended March 31, 2011 above.

Equity Awards

The 2012 Stock Option and Incentive Plan, or the 2012 Stock Plan, provides that upon the effectiveness of a sale event, as defined in the 2012 Stock Plan, except as otherwise provided by the Compensation Committee in the award agreement, all outstanding awards will automatically terminate, unless the parties to the sale event agree that such awards will be assumed or continued by the successor entity. In addition, in the case of a sale event in which the Company's stockholders will receive cash consideration, the Company may make or provide for a cash payment to participants holding options equal to the difference between the per share cash consideration and the exercise price of the options.

Stock options granted and currently held by a named executive officer, which have been granted under the 2001 Stock Plan do not automatically accelerate upon termination of such named executive officer's employment or upon a change in control pursuant to the terms of the 2001 Stock Plan.

Assuming a change-in-control and qualifying termination were to have taken place on December 31, 2013, each of the named executive officers would have been entitled to the salary continuation set forth on the table below and the value of his awards that would be accelerated upon the change-in-control would have been that amount shown in the table below.

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or the Dodd-Frank Act, enables our stockholders to vote to approve, on an advisory basis, the compensation of our named executive officers as disclosed in this proxy statement in accordance with the SEC's rules.

As described in the sections entitled "Compensation Discussion and Analysis" and "Director and Executive Officer Compensation", our executive compensation programs are designed to motivate our executive officers to enhance stockholder value, to provide a fair reward for this effort and to stimulate its executive officers' professional and personal growth. The Company seeks to provide near-term and long-term financial incentives that align the executive officers' interest with those of the stockholders and focus executive officer behavior on the achievement of both near-term corporate goals, as well as long-term business objectives and strategies. We believe that this alignment between executive compensation and stockholder interests has driven corporate performance over time.

Our stockholders voted on September 27, 2011, to have advisory votes every year to approve the compensation paid to the Company's named executive officers, and we have adopted that approach. The Board of Directors and Compensation Committee make executive compensation decisions every year, and our directors will look to the annual advisory vote for information to be taken into account when they make decisions with respect to our compensation philosophy, policies and practices. The Compensation Committee and the Board of Directors note our stockholders' endorsement for the Company's executive compensation program for the fiscal year ended December 31, 2012, which was approved by over 98% of the votes cast. Consequently, the Compensation Committee has maintained the structure of its executive compensation programs for the fiscal year ended December 31, 2013. **Accordingly, we are asking our stockholders to vote FOR the following non-binding, advisory resolution on the approval of the compensation of the Company's named executive officers as disclosed in this proxy statement:**

RESOLVED, that the shareholders of the Company approve the compensation of the Company's named executive officers, as disclosed in this Proxy Statement, including the Compensation Discussion and Analysis, compensation tables and narrative discussion.

Before you vote, we urge you to read the Compensation Discussion and Analysis and Director and Executive Officer Compensation sections of this Proxy Statement for additional details on the Company's executive compensation, including its governance, framework, components, and the compensation decisions for the named executive officers for the fiscal year ended December 31, 2013.

As an advisory vote, the results of this vote will not be binding on the Board or the Company. However, the Board of Directors values the opinions of our stockholders, and will consider the outcome of the vote when making future decisions on the compensation of our named executive officers and the Company's executive compensation principles, policies and procedures.

The Board of Directors recommends that stockholders vote FOR approval, on an advisory basis, of the compensation of the Company's named executive officers, as disclosed in this proxy statement, including the Compensation Discussion and Analysis, compensation tables and narrative discussion.

ITEM 4

APPROVAL OF AMENDMENT TO CERTIFICATE OF INCORPORATION

TO INCREASE AUTHORIZED SHARES OF COMMON STOCK

Introduction

The Company's Certificate of Incorporation currently authorizes the issuance of 40,000,000 shares of common stock, par value \$0.01 per share. On March 20, 2014, the Board of Directors unanimously adopted a resolution approving, and recommending that the Company's stockholders approve, an amendment to Article FOURTH of the Company's Certificate of Incorporation to increase the number of shares of common stock that the Company is authorized to issue to 80,000,000 and also to increase the total number of shares of capital stock that the Company is authorized to issue to reflect such increase in the Company's authorized common stock. The Board of Directors believes that the proposed amendment to increase the number of authorized shares of common stock is necessary to give the Company flexibility to issue shares of common stock for future corporate needs. Accordingly, the Board of Directors has declared the proposed amendment to be advisable and in the best interests of the Company and its stockholders and is submitting the proposed amendment to a vote of the Company's stockholders.

As of March 11, 2014, there were 32,039,883 shares of common stock outstanding. In addition to these shares, as of March 11, 2014, there were (i) 2,000,000 shares of common stock reserved for issuance under the Company's 2012 Stock Option and Incentive Plan, and assuming approval of the Amended and Restated 2012 Stock Option and Incentive Plan by the stockholders, there will be 4,000,000 shares of common stock reserved for issuance thereunder, and (ii) 884,336 shares of common stock reserved for issuance for remaining outstanding issued options under the Company's prior plans. Accordingly, as of March 11, 2014, the Company had only 3,075,781 shares of common stock available for other corporate purposes.

Description of Common Stock

The holders of Repligen Common Stock are entitled to one vote for each share held of record on all matters voted upon by Repligen's stockholders and may not cumulate votes. Subject to the rights of holders of any future series of undesignated preferred stock which may be designated, each share of the outstanding common stock is entitled to participate ratably in any distribution of net assets made to the stockholders in the liquidation, dissolution or winding up of Repligen and is entitled to participate equally in dividends if and when declared by the Repligen board of directors. There are no redemption, sinking fund, conversion or preemptive rights with respect to shares of Repligen common stock. All shares of Repligen common stock have equal rights and preferences.

Text of the Proposed Amendment

The Company proposes to amend the first paragraph of Article FOURTH of the Company's Certification of Incorporation so that it would state in its entirety as follows:

FOURTH The total number of shares of stock which the Corporation shall have authority to issue is eighty-five million (85,000,000), of which eighty million (80,000,000) shares shall constitute Common Stock, \$0.01 par value per share (Common Stock), and five million (5,000,000) shares shall constitute Preferred Stock, \$0.01 par value per share (Preferred Stock).

The only substantive changes that would be made to the first paragraph of Article FOURTH of the Company's Certification of Incorporation, as currently in effect, would be to increase the number of shares of common stock that the Company may issue from 40,000,000 shares to 80,000,000 shares and to reflect a corresponding increase in the aggregate number of shares of capital stock that may be issued from 45,000,000 to 85,000,000 shares.

Table of Contents

Purpose of the Proposed Amendment

The Board of Directors is recommending the proposed amendment to increase the number of authorized shares of common stock to give the Company flexibility to issue shares of common stock for future corporate needs. The Board of Directors believes that additional authorized shares of common stock would give the Company the necessary flexibility to issue shares for various corporate purposes, including, but not limited to, potential strategic transactions, including mergers, acquisitions, and other business combinations; capital-raising or financing transactions; grants and awards under equity compensation plans; stock splits and stock dividends; and other general corporate purpose transactions. While the Company has no currently effective plans, arrangements, agreements or understandings to issue any of the additional shares that will become authorized pursuant to this proposed increase in the number of authorized shares, the Company and its Board of Directors regularly investigates strategic transactions for which such shares could be used. As a general matter, the Company would be able to issue the additional authorized shares of common stock in its discretion from time to time, subject to and as limited by, rules or listing requirements of the NASDAQ Stock Market or any other then applicable securities exchange, and without further action or approval of the Company's stockholders. The discretion of the Board of Directors, however, would be subject to any other applicable rules and regulations in the case of any particular issuance or reservation for issuance that might require the Company's stockholders to approve such transaction. The Board of Directors reviews and evaluates potential strategic transactions, capital raising activities, and other corporate actions on an on-going basis to determine if such actions would be in the best interests of the Company and its stockholders.

Potential Effects of the Proposed Amendment

If the proposed amendment is approved by the Company's stockholders, the additional authorized shares of common stock would have rights identical to the Company's currently outstanding common stock. The Company's Certificate of Incorporation also currently authorizes the issuance of 5,000,000 shares of preferred stock, none of which are issued or outstanding. The proposed amendment to the Certificate of Incorporation would not change the authorized number of the shares of preferred stock.

Future issuances of shares of common stock or securities convertible into shares of common stock could have a dilutive effect on the Company's earnings per share, book value per share and the voting interest and power of current stockholders since holders of common stock are not entitled to preemptive rights.

Securities and Exchange Commission rules require disclosure of the possible anti-takeover effects of an increase in authorized capital stock and other charter and bylaw provisions that could have an anti-takeover effect. Although the Company has not proposed the increase in the number of authorized shares of common stock with the intent of using the additional shares to prevent or discourage any actual or threatened takeover of the Company, under certain circumstances, such shares could have an anti-takeover effect. The additional shares could be issued to dilute the stock ownership or voting rights of persons seeking to obtain control of the Company or could be issued to persons allied with the Board of Directors or management and thereby have the effect of making it more difficult to remove directors or members of management by diluting the stock ownership or voting rights of persons seeking to effect such a removal. Accordingly, if the proposed amendment is approved, the additional shares of authorized common stock may render more difficult or discourage a merger, tender offer or proxy contest, the assumption of control by a holder of a large block of common stock, or the replacement or removal of the Board of Directors or management.

Timing of the Proposed Amendment

If the proposed amendment to increase the number of authorized shares of common stock is approved by the Company's stockholders, the amendment will become effective immediately upon the filing of a Certificate of Amendment to the Company's Certificate of Incorporation with the Secretary of State of the State of Delaware, which the Company expects to file promptly after the Annual Meeting. If the proposed amendment is not approved by the Company's stockholders, the number of authorized shares of common stock will remain unchanged.

ITEM 5 APPROVAL OF THE REPLIGEN CORPORATION

AMENDED AND RESTATED 2012 STOCK OPTION AND INCENTIVE PLAN

The Board believes that stock options and other stock-based incentive awards can play an important role in the success of the Company by encouraging and enabling the employees, officers, non-employee directors and other key persons of the Company and its subsidiaries upon whose judgment, initiative and efforts the Company largely depends for the successful conduct of its business, to acquire a proprietary interest in the Company. The Board anticipates that providing such persons with a direct stake in the Company will assure a closer identification of the interests of such individuals with those of the Company and its stockholders, thereby stimulating their efforts on the Company's behalf and strengthening their desire to remain with the Company.

On March 20, 2014, the Board approved an amendment and restatement of the Company's 2012 Stock Option and Incentive Plan, or the Amended and Restated 2012 Plan, subject to stockholder approval, to, among other things, increase the aggregate number of shares authorized for issuance under the Amended and Restated 2012 Plan by 2,000,000 shares to 4,000,000 shares of Common Stock. Adding additional shares to the Amended and Restated 2012 Plan is designed to enhance the flexibility of the Compensation Committee in granting stock options and other awards to our officers, employees, non-employee directors and other key persons and to ensure that the Company can continue to grant stock options and other awards to such persons at levels determined to be appropriate by the Compensation Committee. A copy of the Amended and Restated 2012 Plan is attached as Appendix C to this Proxy Statement and is incorporated herein by reference.

As of the Record Date, there were stock options to acquire 1,576,028 shares of Common Stock outstanding under the Company's equity compensation plans with a weighted average exercise price of \$6.138 and a weighted average remaining term of 6.88 years. In addition, as of the Record Date, there were 99,049 unvested full value awards outstanding under the Company's equity compensation plans. Other than the foregoing, no awards under the Company's equity compensation plans were outstanding as of the Record Date.

Vote Required and Recommendation

Only holders of record of the Company's Common Stock as of the close of business on the Record Date are entitled to vote on this proposal. The adoption of the Amended and Restated 2012 Plan requires the affirmative vote of the majority of shares present, in person or represented by proxy, and voting on the matter. Shares voted to abstain are included in the number of shares present or represented and voting. Shares subject to broker non-votes are considered to be not entitled to vote for the proposal and have the practical effect of reducing the number of affirmative votes required to achieve a majority for the proposal by reducing the total number of shares from which the majority is calculated.

The Board of Directors recommends that stockholders vote FOR the approval of the Amended and Restated 2012 Plan.

Summary of Material Features of the Amended and Restated 2012 Plan

The material features of the Amended and Restated 2012 Plan are:

The maximum number of shares of Common Stock to be issued under the Amended and Restated 2012 Plan is increased by 2,000,000 shares from 2,000,000 to 4,000,000 shares;

Grants of full value awards are deemed for purposes of determining the number of shares available for future grants under the Amended and Restated 2012 Plan as an award of two shares for each share of Common Stock subject to the award. Grants of stock options or stock appreciation rights are deemed to be an award of one share for each share of Common Stock subject to the award;

Shares tendered or held back for taxes will not be added back to the reserved pool under the Amended and Restated 2012 Plan. Upon the exercise of a stock appreciation right, the full number of shares

Table of Contents

underlying the award will be charged to the reserved pool. Additionally, shares reacquired by the Company on the open market will not be added to the reserved pool;

The award of stock options (both incentive and non-qualified options), stock appreciation rights, restricted stock, restricted stock units, unrestricted stock, cash-based awards and dividend equivalent rights is permitted;

Minimum vesting periods are required for grants of restricted stock and restricted stock units;

No dividends or dividend equivalents may be paid on full value shares subject to performance vesting until such shares are actually earned upon satisfaction of the performance criteria;

Without stockholder approval, the exercise price of stock options and stock appreciation rights will not be reduced and stock options and stock appreciation rights will not be otherwise repriced through cancellation in exchange for cash, other awards or stock options or stock appreciation rights with a lower exercise price;

Any material amendment to the Amended and Restated 2012 Plan is subject to approval by our stockholders; and

The term of the Amended and Restated 2012 Plan will expire on May 15, 2024.

Based solely on the closing price of our Common Stock as reported by the NASDAQ Global Select Market on March 11, 2014, and the maximum number of shares that would have been available for awards as of such date taking into account the proposed increase described herein, the maximum aggregate market value of the Common Stock that could potentially be issued under the Amended and Restated 2012 Plan is \$43,934,118. The shares we issue under the Amended and Restated 2012 Plan will be authorized but unissued shares or shares that we reacquire. The shares of Common Stock underlying any awards that are forfeited, canceled or otherwise terminated, other than by exercise, are added back to the shares of Common Stock available for issuance under the Amended and Restated 2012 Plan. Shares tendered or held back upon exercise of a stock option or settlement of an award under the Amended and Restated 2012 Plan to cover the exercise price or tax withholding and (ii) shares subject to a stock appreciation right that are not issued in connection with the stock settlement of the stock appreciation right upon exercise thereof are not added back to the shares of Common Stock available for issuance under the Amended and Restated 2012 Plan.

Qualified Performance-Based Compensation under Code Section 162(m)

To ensure that certain awards granted under the Amended and Restated 2012 Plan to a Covered Employee (as defined in the Internal Revenue Code of 1986, as amended, or the Code) qualify as performance-based compensation under Section 162(m) of the Code, the Amended and Restated 2012 Plan provides that the Compensation Committee may require that the vesting of such awards be conditioned on the satisfaction of performance criteria that may include any or all of the following: (1) earnings before interest, taxes, depreciation and amortization, (2) net income (loss) (either before or after interest, taxes, depreciation and/or amortization), (3) changes in the market price of Common Stock, (4) economic value-added, (5) sales or revenue, (6) acquisitions or strategic transactions (such as licensing arrangements or acquisitions of product candidates or technology), (7) operating income (loss), (8) cash flow (including, but not limited to, operating cash flow and free cash flow), (9) return on capital, assets, equity or investment, (10) stockholder returns, (11) return on sales, (12) gross or net profit levels, (13) productivity, (14) expense, (15) margins, (16) operating efficiency, (17) customer satisfaction, (18) working capital, (19) earnings (loss) per share of Common Stock, (20) sales or market shares and (21) number of customers, any of which may be measured either in absolute terms or as compared to any incremental increase or as compared to results of a peer group, (22) clinical development, (23) regulatory advancement, (24) product commercialization, (25) achievement of product or clinical development milestones, (26) development of intellectual property assets, (27) organizational development (including recruitment and retention of personnel), (28) achievement of research milestones, (29) product manufacturing, (30) entry into multiyear supply arrangements with customers and (31) facility development

Table of Contents

(including development of additional research, office, production or manufacturing facilities). The Compensation Committee will select the particular performance criteria within 90 days following the commencement of a performance cycle. Subject to adjustments for stock splits and similar events, the maximum award granted to any one individual that is intended to qualify as performance-based compensation under Section 162(m) of the Code will not exceed 500,000 shares of Common Stock for any performance cycle and options or stock appreciation rights with respect to no more than 500,000 shares of Common Stock may be granted to any one individual during any calendar year period. If a performance-based award is payable in cash, it cannot exceed \$1,000,000 for any performance cycle.

Rationale for Share Increase

The Amended and Restated 2012 Plan is critical to our ongoing effort to build stockholder value. Our equity incentive program is broad-based and equity incentive awards are also an important component of our executive and non-executive employees' compensation. Our Compensation Committee and the Board believe that the Company must continue to offer a competitive equity compensation program in order to attract, retain and motivate the talented and qualified employees necessary for our continued growth and success.

We manage our long-term stockholder dilution by limiting the number of equity incentive awards granted annually. The Compensation Committee carefully monitors our annual net burn rate, total dilution and equity expense in order to maximize stockholder value by granting only the appropriate number of equity incentive awards that it believes are necessary to attract, reward and retain employees. Our compensation philosophy reflects broad-based eligibility for equity incentive awards, and we grant awards to substantially all of our employees. By doing so, we link employee interests with stockholder interests throughout the organization and motivate our employees to act as owners of the business.

Burn Rate

The following table sets forth information regarding historical awards granted and earned for the 2011 through 2013 period, and the corresponding burn rate, which is defined as the number of shares subject to equity-based awards granted in a year divided by the weighted average number of shares of Common Stock outstanding for that year, for each of the last three fiscal years:

	2013	2012	2011(1)
Stock Options Granted	535,000	268,500	340,500
Time-Based Full-Value Awards Granted	32,052	85,190	10,000
Adjusted Full-Value Awards Granted(2)	64,104	170,380	20,000
Total Awards Granted(3)	599,104	438,880	360,500
Weighted average common shares outstanding during the fiscal year	31,667,015	30,914,424	30,774,467
Annual Burn Rate	1.89%	1.42%	1.17%
Three-Year Average Burn Rate (4)		1.49%	

- (1) Amounts in this column reflect awards granted in the nine-month fiscal year ended December 31, 2011.
- (2) In accordance with corporate governance policy updates published by Institutional Shareholder Services, or ISS, Adjusted Full-Value Awards Granted represents the sum of Time-Based Full-Value Awards Granted and subject to a multiplier based on our recent historic stock price volatility. Based on our recent historical stock price volatility and as required today under our 2012 Stock Option and Incentive Plan, we have utilized a full-value award multiplier of 2.0 for purposes of calculating the 2011-2013 average burn rate. Does not include the value of full value awards subject to performance-based vesting.
- (3) Total Awards Granted represents the sum of Stock Options Granted and Adjusted Full-Value Awards Granted.
- (4) As illustrated in the table above, our three-year average burn rate for the 2011-2013 period was 1.49%, which is below the ISS industry category burn rate threshold of 5.91%.

Table of Contents

If our request to increase the share reserve of the Amended and Restated 2012 Plan by an additional 2,000,000 shares is approved by stockholders, we will have approximately 2,944,646 shares available for grant after the Annual Meeting, which is based on 944,646 shares available for grant under the 2012 Stock Option and Incentive Plan on March 11, 2014 and the 2,000,000 shares subject to this proposal. Our Compensation Committee determined the size of the requested share increase based on projected equity awards to anticipated new hires, projected annual equity awards to existing employees, and an assessment of the magnitude of increase that our institutional investors and the firms that advise them would likely find acceptable. We anticipate that if our request to increase the share reserve is approved by stockholders, it will be sufficient to provide equity incentives to attract, retain, and motivate employees through the next thirty-six months.

Summary of the Amended and Restated 2012 Plan

The following description of certain features of the Amended and Restated 2012 Plan is intended to be a summary only. The summary is qualified in its entirety by the full text of the Amended and Restated 2012 Plan, which is attached hereto as Appendix C.

Plan Administration. The Amended and Restated 2012 Plan is administered by the Compensation Committee. The Compensation Committee has full power to select, from among the individuals eligible for awards, the individuals to whom awards will be granted, to make any combination of awards to participants, and to determine the specific terms and conditions of each award, subject to the provisions of the Amended and Restated 2012 Plan. The Compensation Committee may delegate to our chief executive officer the authority to grant stock options to employees who are not subject to the reporting and other provisions of Section 16 of the Securities Exchange Act of 1934, as amended, and not subject to Section 162(m) of the Code, subject to certain limitations and guidelines.

Eligibility. Persons eligible to participate in the Amended and Restated 2012 Plan will be those full or part-time officers, employees, non-employee directors and other key persons (including consultants) of the Company and its subsidiaries as selected from time to time by the Compensation Committee in its discretion. Approximately sixty-five individuals are currently eligible to participate in the Amended and Restated 2012 Plan, which includes five officers, fifty-four employees who are not officers, and six non-employee directors.

Plan Limits. The maximum award of stock options or stock appreciation rights granted to any one individual will not exceed 500,000 shares of Common Stock (subject to adjustment for stock splits and similar events) for any calendar year period. If any award of restricted stock, restricted stock units or performance shares granted to an individual is intended to qualify as performance-based compensation under Section 162(m) of the Code, then the maximum award shall not exceed 500,000 shares of Common Stock (subject to adjustment for stock splits and similar events) to any one such individual in any performance cycle. If any cash-based award is intended to qualify as performance-based compensation under Section 162(m) of the Code, then the maximum award to be paid in cash in any performance cycle may not exceed \$1,000,000. In addition, no more than the number of shares reserved and available for issuance under the Plan will be issued in the form of incentive stock options.

Effect of Awards. For purposes of determining the number of shares of Common Stock available for issuance under the Amended and Restated 2012 Plan, the grant of any full value award, such as a restricted stock award, restricted stock unit, unrestricted stock award or performance share will be counted as two shares for each share of Common Stock actually subject to the award. The grant of any stock option or stock appreciation right will be counted for this purpose as one share from each share of Common Stock actually subject to the award.

Stock Options. The Amended and Restated 2012 Plan permits the granting of (1) options to purchase Common Stock intended to qualify as incentive stock options under Section 422 of the Code, and (2) options that do not so qualify. Options granted under the Amended and Restated 2012 Plan will be non-qualified options if

Table of Contents

they fail to qualify as incentive options or exceed the annual limit on incentive stock options. Incentive stock options may only be granted to employees of the Company and its subsidiaries. Non-qualified options may be granted to any persons eligible to receive incentive options and to non-employee directors and key persons. The option exercise price of each option will be determined by the Compensation Committee but may not be less than 100% of the fair market value of the Common Stock on the date of grant. Fair market value for this purpose will be the last reported sale price of the shares of Common Stock on the NASDAQ Global Select Market on the date of grant. The exercise price of an option may not be reduced after the date of the option grant, other than to appropriately reflect changes in our capital structure.

The term of each option will be fixed by the Compensation Committee and may not exceed ten years from the date of grant. The Compensation Committee will determine at what time or times each option may be exercised. Options may be made exercisable in installments and the exercisability of options may be accelerated by the Compensation Committee. In general, unless otherwise permitted by the Compensation Committee, no option granted under the Amended and Restated 2012 Plan is transferable by the optionee other than by will or by the laws of descent and distribution, and options may be exercised during the optionee's lifetime only by the optionee, or by the optionee's legal representative or guardian in the case of the optionee's incapacity.

Upon exercise of options, the option exercise price must be paid in full either in cash, by certified or bank check or other instrument acceptable to the Compensation Committee or by delivery (or attestation to the ownership) of shares of Common Stock that are not then subject to any restrictions under any Company plan. Subject to applicable law, the exercise price may also be delivered to the Company by a broker pursuant to irrevocable instructions to the broker from the optionee. In addition, the Compensation Committee may permit non-qualified options to be exercised using a net exercise feature, which reduces the number of shares issued to the optionee by the number of shares with a fair market value equal to the exercise price.

To qualify as incentive options, options must meet additional federal tax requirements, including a \$100,000 limit on the value of shares subject to incentive options that first become exercisable by a participant in any one calendar year.

Stock Appreciation Rights. The Compensation Committee may award stock appreciation rights subject to such conditions and restrictions as the Compensation Committee may determine. Stock appreciation rights entitle the recipient to shares of Common Stock equal to the value of the appreciation in the stock price over the exercise price. The exercise price may not be less than the fair market value of the Common Stock on the date of grant. The maximum term of a stock appreciation right is ten years.

Restricted Stock. The Compensation Committee may award shares of Common Stock to participants subject to such conditions and restrictions as the Compensation Committee may determine. These conditions and restrictions may include the achievement of certain performance goals (as summarized above) and/or continued employment with us through a specified restricted period. However, in the event these awards granted to employees have a performance-based goal, the restriction period will be at least one year, and in the event these awards granted to employees have a time-based restriction, the restriction period will be at least three years, but vesting can occur incrementally over the three-year period.

Restricted Stock Units. The Compensation Committee may award restricted stock units to any participants. Restricted stock units are ultimately payable in the form of shares of Common Stock and may be subject to such conditions and restrictions as the Compensation Committee may determine. These conditions and restrictions may include the achievement of certain performance goals (as summarized above) and/or continued employment with the Company through a specified vesting period. However, in the event these awards granted to employees have a performance-based goal, the restriction period will be at least one year, and in the event these awards granted to employees have a time-based restriction, the restriction period will be at least three years, but vesting can occur incrementally over the three-year period. In the Compensation Committee's sole discretion, it may

Table of Contents

permit a participant to make an advance election to receive a portion of his or her future cash compensation otherwise due in the form of restricted stock units, subject to the participant's compliance with the procedures established by the Compensation Committee and requirements of Section 409A of the Code. During the deferral period, the restricted stock units may be credited with dividend equivalent rights.

Unrestricted Stock Awards. The Compensation Committee may also grant shares of Common Stock that are free from any restrictions under the Amended and Restated 2012 Plan. Unrestricted stock may be granted to any participant in recognition of past services or other valid consideration and may be issued in lieu of cash compensation due to such participant.

Performance Share Awards. The Compensation Committee may grant performance share awards to any participant that entitle the recipient to receive shares of Common Stock upon the achievement of certain performance goals (as summarized above) and such other conditions as the Compensation Committee shall determine.

Cash-Based Awards. The Compensation Committee may grant cash bonuses under the Amended and Restated 2012 Plan to participants. The cash bonuses may be subject to the achievement of certain performance goals (as summarized above).

Dividend Equivalent Rights. The Compensation Committee may grant dividend equivalent rights to participants, which entitle the recipient to receive credits for dividends that would be paid if the recipient had held specified shares of Common Stock. Dividend equivalent rights may be granted as a component of another award (other than a stock option or stock appreciation right) or as a freestanding award. Dividend equivalent rights may be settled in cash, shares of Common Stock or a combination thereof, in a single installment or installments, as specified in the award.

Sale Event Provisions. The Amended and Restated 2012 Plan provides that upon the effectiveness of a sale event, as defined in the Amended and Restated 2012 Plan, except as otherwise provided by the Compensation Committee in an award agreement, all awards under the Amended and Restated 2012 Plan will automatically terminate, unless the parties to the sale event agree that such awards will be assumed, continued or substituted by the successor entity. In the event of such termination, (i) the Company may make or provide for a cash payment to participants holding options and stock appreciation rights, in exchange for the cancellation thereof, equal to the difference between the per share cash consideration in the sale event and the exercise price of the options or stock appreciation rights or (ii) each participant shall be permitted, within a specified period of time prior to the consummation of the sale event, as determined by the Compensation Committee, to exercise all outstanding options and stock appreciation rights held by such participant.

Adjustments for Stock Dividends, Stock Splits, Etc. The Amended and Restated 2012 Plan requires the Compensation Committee to make appropriate adjustments to the number of shares of Common Stock that are subject to the Amended and Restated 2012 Plan, to certain limits in the Amended and Restated 2012 Plan, and to any outstanding awards to reflect stock dividends, stock splits, extraordinary cash dividends and similar events.

Tax Withholding. Participants in the Amended and Restated 2012 Plan are responsible for the payment of any federal, state or local taxes that the Company is required by law to withhold upon the exercise of options or stock appreciation rights or vesting of other awards. Subject to approval by the Compensation Committee, participants may elect to have the minimum tax withholding obligations satisfied by authorizing the Company to withhold shares of Common Stock to be issued pursuant to exercise or vesting. The Compensation Committee may also require awards to be subject to mandatory share withholding up to the required withholding amount.

Amendments and Termination. The Board may at any time amend or discontinue the Amended and Restated 2012 Plan and the Compensation Committee may at any time amend or cancel any outstanding award for the purpose of satisfying changes in the law or for any other lawful purpose. However, no such action may adversely affect any rights under any outstanding award without the holder's consent. To the extent required under

Table of Contents

NASDAQ rules, any amendments that materially change the terms of the Amended and Restated 2012 Plan will be subject to approval by our stockholders. Amendments shall also be subject to approval by our stockholders if and to the extent determined by the Compensation Committee to be required by the Code to preserve the qualified status of incentive options or to ensure that compensation earned under the Amended and Restated 2012 Plan qualifies as performance-based compensation under Section 162(m) of the Code.

Effective Date of Amended and Restated 2012 Plan. The Board adopted our existing 2012 Stock Option and Incentive Plan on April 9, 2012 and it was subsequently approved by our stockholders and became effective on May 24, 2012. The Board adopted the Amended and Restated 2012 Plan on March 20, 2014 and it will be effective upon approval by our stockholders. Awards of incentive options may be granted under the Amended and Restated 2012 Plan until March 20, 2024. No other awards may be granted under the Amended and Restated 2012 Plan after the date that is ten years from the date of stockholder approval. If the Amended and Restated 2012 Plan is not approved by stockholders, our existing 2012 Stock Option and Incentive Plan will continue in effect until it expires, and awards may be granted thereunder, in accordance with its terms.

Plan Benefits

Because the grant of awards under the Amended and Restated 2012 Plan is within the discretion of the Compensation Committee, the Company cannot determine the dollar value or number of shares of Common Stock that will in the future be received by or allocated to any participant in the Amended and Restated 2012 Plan. Accordingly, in lieu of providing information regarding benefits that will be received under the Amended and Restated 2012 Plan, the following table provides information concerning the benefits that were received by the following persons and groups during 2013: each named executive officer; all current executive officers, as a group; all current directors who are not executive officers, as a group; and all current employees who are not executive officers, as a group.

Tax Aspects under the Code

The following is a summary of the principal federal income tax consequences of certain transactions under the Amended and Restated 2012 Plan. It does not describe all federal tax consequences under the Amended and Restated 2012 Plan, nor does it describe state or local tax consequences.

Table of Contents

Incentive Options. No taxable income is generally realized by the optionee upon the grant or exercise of an incentive option. If shares of Common Stock issued to an optionee pursuant to the exercise of an incentive option are sold or transferred after two years from the date of grant and after one year from the date of exercise, then (i) upon sale of such shares, any amount realized in excess of the option price (the amount paid for the shares) will be taxed to the optionee as a long-term capital gain, and any loss sustained will be a long-term capital loss, and (ii) the Company will not be entitled to any deduction for federal income tax purposes. The exercise of an incentive option will give rise to an item of tax preference that may result in alternative minimum tax liability for the optionee.

If shares of Common Stock acquired upon the exercise of an incentive option are disposed of prior to the expiration of the two-year and one-year holding periods described above (a disqualifying disposition), generally (i) the optionee will realize ordinary income in the year of disposition in an amount equal to the excess (if any) of the fair market value of the shares of Common Stock at exercise (or, if less, the amount realized on a sale of such shares of Common Stock) over the option price thereof and (ii) the Company will be entitled to deduct such amount. Special rules apply where all or a portion of the exercise price of the incentive option is paid by tendering shares of Common Stock.

If an incentive option is exercised at a time when it no longer qualifies for the tax treatment described above, the option is treated as a non-qualified option. Generally, an incentive option will not be eligible for the tax treatment described above if it is exercised more than three months following termination of employment (or one year in the case of termination of employment by reason of disability). In the case of termination of employment by reason of death, the three-month rule does not apply.

Non-Qualified Options. No income is realized by the optionee at the time the option is granted. Generally (i) at exercise, ordinary income is realized by the optionee in an amount equal to the difference between the option price and the fair market value of the shares of Common Stock on the date of exercise, and the Company receives a tax deduction for the same amount and (ii) at disposition, appreciation or depreciation after the date of exercise is treated as either short-term or long-term capital gain or loss depending on how long the shares of Common Stock have been held. Special rules apply where all or a portion of the exercise price of the non-qualified option is paid by tendering shares of Common Stock. Upon exercise, the optionee will also be subject to Social Security taxes on the excess of the fair market value over the exercise price of the option.

Other Awards. The Company generally will be entitled to a tax deduction in connection with an award under the Amended and Restated 2012 Plan in an amount equal to the ordinary income realized by the participant at the time the participant recognizes such income. Participants typically are subject to income tax and recognize such tax at the time that an award is exercised, vests or becomes non-forfeitable, unless the award provides for a further deferral.

Parachute Payments. The vesting of any portion of an option or other award that is accelerated due to the occurrence of a change in control (such as a sale event) may cause a portion of the payments with respect to such accelerated awards to be treated as parachute payments as defined in the Code. Any such parachute payments may be non-deductible to the Company, in whole or in part, and may subject the recipient to a non-deductible 20% federal excise tax on all or a portion of such payment (in addition to other taxes ordinarily payable).

Limitation on Deductions. Under Section 162(m) of the Code, the Company's deduction for certain awards under the Amended and Restated 2012 Plan may be limited to the extent that the chief executive officer or other executive officer whose compensation is required to be reported in the summary compensation table (other than the principal financial officer) receives compensation in excess of \$1 million a year (other than performance-based compensation that otherwise meets the requirements of Section 162(m) of the Code). The Amended and Restated 2012 Plan is structured to allow certain awards to qualify as performance-based compensation.
