MESSAGE FROM THE PRESIDENT

Dear Shareholders:

I am delighted to present this convocation notice for the general shareholders meeting for the 23rd fiscal year (from April 1, 2013 to March 31, 2014).

In the mobile communications market, besides the intense competition that we engage in with other Japanese telecommunications carriers, we are also facing competition with new players that offer a wide range of Internet-based services. In this new competitive landscape, we have worked to thoroughly improve our offerings in our core mobile business and develop attractive services in new business fields with an aspiration to realize *smart life* that brings greater convenience and affluence to customers' everyday life. As a concrete step toward this goal, we have taken steps to reinforce our comprehensive strengths by addressing the four key areas of devices (handsets), network, services and billing plans and sales channels.

In the fiscal year ending March 31, 2015, we will continue to brush up our offerings in these four areas with the aim of establishing a new growth track. In April 2014, we unveiled a new billing plan, called *Kake-hodai & Pake-aeru*, which was developed based on the concept of allowing customers to use our services at affordable rates for a long period of time by selecting an option suited for the different stages of life. The new billing plan, which was developed in anticipation of future trends, can be applied to a wide variety of products including smartphones, feature phones, tablets and peripheral devices. We believe the new plan will help boost our smartphone sales and facilitate customers to utilize multiple mobile devices, thereby contributing to a new growth in our core mobile business.

As for our actions in the new business fields, we plan to expand the services that combine mobile with various physical services used for different purposes of life in an effort to strengthen our competitiveness through new value creation. As part of this undertaking, we launched *ddelivery* home food delivery service in May 2014. In addition, to enable stress-free access to our services, we will continue to expand our LTE network coverage and move ahead with its speed enhancements.

Going forward, we will implement measures that will bring greater *happiness* to the lives of our customers, their family and society, so we can be chosen by customers as a *partner* for a *smart life* and garner their usage for a long period of time.

As always, I ask for your continued goodwill and support.

May 2014

REFERENCE MATERIALS FOR THE ORDINARY GENERAL MEETING OF SHAREHOLDERS

Items of Business and Matters for Reference

First Item of Business: Appropriation of Retained Earnings

Items relating to year-end dividends

Taking into account the consolidated results of operations and consolidated dividend payout ratio, the Company distributes dividends with the aim of providing continuous stable dividends while trying to enhance its financial condition and secure internal reserves. The Company proposes to pay the year-end dividend for the 23rd fiscal year as follows:

(1) Type of Dividend Asset
Cash

(2) Proposed Appropriation of Dividend Assets to Shareholders and Total Amount of Dividend Payment
¥30 per share of common stock of the Company

Total Amount of Dividend Payment: ¥124,402,803,000

(The Company conducted a 1:100 stock split with an effective date of October 1, 2013. If adjusted to take into consideration of this stock split, the interim dividend of ¥3,000 paid in November 2013 would be equivalent to ¥30 per share. Accordingly, the aggregate amount of annual dividends for this fiscal year, i.e., the sum of interim and year-end dividends, will be ¥60 per share.)

(3) Effective Date of the Appropriation of Dividends from Retained Earnings
Friday, June 20, 2014

BUSINESS REPORT

(For the fiscal year from April 1, 2013 to March 31, 2014)

Note: The term FY2013 hereinafter refers to the fiscal year ended March 31, 2014, and other fiscal years are referred to in a corresponding manner. All non-consolidated figures regarding results of operations in this report were prepared in accordance with accounting principles generally accepted in Japan (Japanese GAAP), unless otherwise stated herein. Consolidated results contained herein were prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP), unless otherwise noted.

1. Business Matters of the Corporate Group

(1) Main Business Activities (As of March 31, 2014)

The main business activities of our Group are summarized in the table below.

Business Segment	Main Business Areas
Mobile phone business	Cellular (Xi and FOMA) services, international services, satellite mobile communications services, and sales of handsets and equipment for each service, etc.
All other businesses	Credit services, home shopping services, music software sales, Internet access service for hotel facilities, mobile advertisement business, etc.

(2) Developments and Results of Operations

<<Summary of the principal initiatives>>

In the mobile telecommunications market, besides the intense competition that we engage in with other Japanese telecommunications carriers due to active movement of subscribers using the Mobile Number Portability (MNP) system, we are also facing competition with new players offering a wide variety of Internet-based services that transcend the scope of traditional telecommunications businesses.

In this new competitive landscape, we have been taking steps to reinforce our competitiveness in the mobile business by thoroughly improving our offerings and developing attractive services in our new business fields, based on our medium-term business plan: Medium-Term Vision 2015: Shaping a Smart Life.

In the fiscal year ended March 31, 2014, we strived to boost our comprehensive strengths by focusing on the four key areas of devices (handsets), network, services and billing plans and sales channels, with the goal of being chosen by a large number of customers and garnering their usage over a long period of time.

Furthermore, in order to propel the expansion of our new businesses going forward, we pursued collaboration and alliances with external partners to provide new services in such fields as healthcare and learning.

Meanwhile, to accelerate the initiatives mentioned above, we endeavored to strengthen our managerial foundation through structural reforms, stepping up cost-cutting efforts and shifting management resources to new business domains.

Table of Contents

Furthermore, in April 2014, we unveiled a new billing plan called *Kake-hodai & Pake-aeru* that offers unlimited domestic voice calls for a flat monthly rate and enables users to share their packet-data quota among family members, and introduced a new discount for young customers up to the age of 25 and discounts according to the number of years of use, with the goal of enabling customers to utilize our services at affordable rates for a long period of time by selecting a plan appropriate for their individual needs in different stages of life.

Going forward, we will continue our efforts to bring greater happiness to the lives of our customers and their families, and to society, with the goal of becoming a *Partner for a Smart Life*, chosen and patronized by customers for a long period of time.

Operating income	837.2	819.2	-2.1%
Income before income taxes	833.3	833.0	-0.0%
Net income attributable to NTT DOCOMO, INC.	491.0	464.7	-5.4%

Notes: Results for the 22nd Fiscal Year have been revised due to the reinstatement of the equity method for an investee.

For the fiscal year ended March 31, 2014, operating revenues decreased by ¥8.9 billion from the previous fiscal year to ¥4,461.2 billion due mainly to a decrease in mobile communications services revenues by ¥212.7 billion as a result of the impacts of penetration of the *Monthly Support* discount program, despite increases in equipment sales and other operating revenues of ¥113.9 billion and ¥89.9 billion respectively, driven by our active sales promotion of smartphones and the expansion of profit in our new business fields.

Operating expenses increased by ¥9.1 billion from the previous fiscal year to ¥3,642.0 billion due mainly to the increase in depreciation expense related to our upgrade of equipment for our Xi network and an increase in cost related to our expansion of profit in new business fields, despite our efforts to promote cost reduction with the goal of further strengthening our management structure.

As a result of the foregoing, operating income was below ¥840.0 billion, the forecast for the fiscal year ended March 31, 2014, and decreased by ¥18.0 billion from the previous fiscal year to ¥819.2 billion. Net income attributable to NTT DOCOMO, INC. was ¥464.7 billion (a decrease of ¥26.3 billion from the previous fiscal year) due to the ¥39.5 billion decrease of equity in net income of affiliates.

<<Summary of the principal initiatives>>

<Devices>

We have made efforts to enhance the lineup of smartphones specific to DOCOMO that are available for customers to choose in order to respond to the diversified needs of customers.

Introduction of iPhone*1

We started carrying Apple Inc.'s iPhone to respond to the needs of our customers, and launched dmarket and various other DOCOMO-proprietary services on the iPhone in an attempt to allow our users to utilize these services.

Performance Enhancement of Android Smartphones

We endeavored to evolve our Android smartphones with enrichment of a number of features in order to realize further convenience of our customers, e.g., implementation of a quad-core CPU*2 that enables the smooth operation of applications and a large-capacity battery that enables more than 3-day continuous usage without recharging and improvement of various operability.

Smartphones Targeting Broader User Segments

We released smartphones equipped with designs and features for broad user segments, including the elderly and children, such as the Raku-Raku SMARTPHONE equipped with a large touch-panel and the Smartphone for Junior preinstalled with a rich set of safety/security functions for young users.

*2: A Central Processing Units, or CPUs, are embedded inside PCs, smartphones and other devices to perform complicated numerical calculations, information processing, mechanical control and other tasks.

<Network>

We aimed to provide a robust LTE*1 network that utilizes DOCOMO's technical strengths in pursuit of breadth, speed and convenience.

Expansion of Xi LTE Service Areas

We increased the total number of Xi LTE base stations to 55,300 stations across Japan as of March 31, 2014 (an increase of 30,900 stations compared to the number a year ago) and realized broader area coverage than before. We took meticulous efforts to expand the LTE service areas, to areas such as subway/Shinkansen bullet train stations, commercial facilities, schools and the Mt. Fuji*2 area, which was recently registered as a World Heritage site, so as our customers are able to use their mobile phones in various locales.

Xi LTE Speed Enhancement

We commenced high-speed service that offers a maximum download speed of 150Mbps*3 in Tokyo, Nagoya and Osaka metropolitan areas, while expanding the service areas of our maximum 112.5Mbps downlink speed service to all 47 prefectures of Japan.

Operation of Quad-Band LTE*4

We started operating Quad-Band LTE service that allows us to realize large-capacity transmission for comfortable access through efficient utilization of four different spectrum bands.

Installation of 6-Sector Base Stations*5

In order to improve the communication quality in urban centers and other areas of high usage, we moved ahead with the installation of 6-sector base stations that can handle the same capacity as six regular base stations with a single site.

*1: Abbreviation for Long Term Evolution. A mobile communications system specified by the international standard development organization, 3GPP (3rd Generation Partnership Project).

*2: Service provided during the climbing season in July-August 2013.

*3: A communications speed measurement unit that represents what volume of data can be transmitted in one second. The bigger the number, the faster the communications speed.

*4: The four spectrum bands of 800MHz, 1.5GHz, 1.7GHz and 2GHz are used for the provision of service. Service areas are constructed utilizing 2GHz and 800MHz bands for building coverage, the 1.5GHz band for delivering speed and the 1.7GHz for even faster transmission speeds in metropolitan areas.

<Services>

With a focus on our dmarket service, we provided more convenient services to entice even more customers to choose us.

Enrichment of dmarket Stores

Aiming to have broad segments of users enjoy our dmarket services, we launched a number of new stores on dmarket . In the fiscal year ended March 31, 2014, we launched dcreators (an online market where various handmade items can be put up for sale or purchased), d fashion (a fashion e-commerce site), dkids (an education content service targeting families with infants) and dtravel (a travel service that provides customers with comprehensive support).

Expansion of dmarket User Base

We took efforts to provide more attractive services for each store on dmarket. As of March 31, 2014, the cumulative subscriptions to dvideo, dhits, danime store and dkids services which deliver content for a fixed monthly subscription fee, grew to 7.69 million.

Table of Contents

Provision of docomo mail

We began providing a mail service which is easy to use for our smartphone customers, and commenced docomo mail cloud-based email service, after renovating the conventional sp-mode mail service for smartphones in pursuit of improved ease of use. We also added a function that allows users to access their mobile phone mail address from PCs or other devices.

Use of docomo ID

We enhanced the functionality of docomo ID, an account identification provided for user authentication, to enable the use of the same ID for services on multiple devices, and even enable customers who do not have a mobile phone subscription contract with DOCOMO to use dmarket and other services via various Internet-enabled devices.

Provision of Service Packages

Based on the concept of affordable and worry-free use, we introduced service packages to offer an assortment of services that enjoy good reviews by customers. As of March 31, 2014, the Osusume Pack, which bundles the Sugotoku-Contents and other recommended services that allow customers to utilize their smartphones in various convenient ways, garnered 2.92 million subscriptions, and the Anshin Pack, which combines the Mobile Phone Protection & Delivery and various other services designed to ensure worry-free use of smartphones, garnered 4.46 million subscriptions.

Introduction of Petfit

As part of our endeavors to enrich our M2M* offerings that can provide useful solutions for customers everyday activities, we started a new service called Petfit, which allows users to check their pet dog's health condition or location via smartphones or other devices using a tag with built-in communications capabilities.

Table of Contents

*: Abbreviation for Machine-to-Machine. A system that provides automatic communication between machines with built-in communications capability such as vehicles, vending machines and information appliances and the server or other network equipment.
<Billing Plans and Sales Channels>

In response to the proliferation of smartphones, we have endeavored to develop sales channels and provide rates reflective of changes in what customers desire and in how they use their smartphones.

Various Discount Services

We launched various discount programs and campaigns, such as the Arigato 10 Years Smartphone Discount program for customers who have used DOCOMO for over 10 years, and a student discount program that offers discounts on basic monthly charges and other privileges to students purchasing a new smartphone, as well as their families.

Reinforcement of Customer Contact Points

To ensure smooth customer service at docomo Shops, we increased the number of customer counters and introduced tablet devices that can accept changes to customers' contract details, etc., during the time before customers are guided to the counter. We also introduced a reservation service* which a customer can use when visiting My Shop, the docomo Shop which a customer has registered as their preferred DOCOMO store, increased the procedures that can be completed online and reinforced our call centers' capabilities for handling smartphone-related inquiries.

*: Some stores are not offering this service. Also, depending on how busy a store is on a particular day, service may not be offered in the normal timely manner that is expected.

Announcement of New Billing Plan

In April 2014, we announced the introduction of a new billing plan called *Kake-hodai & Pake-aeru* to allow customers to utilize our smartphones and feature phones at affordable rates for a long period of time by selecting plans appropriate to their needs in different stages of life.

<Overview of New Billing Plan>

Zutto DOCOMO Discount	A service that offers graduated discounts based on the length of subscription
	Offers discounts on data communication charges to all family members based on user with the longest subscription length in the family

U25 Ouen Discount	A service that offers helpful discounts not only to students but to all customers of age 25 or younger
	Provides a discount of ¥500/month on a user phone bill
	Also offers free bonus packets of 1GB

Kake-hodai	Unlimited domestic voice calling for a flat monthly rate to any destination, including to other DOCOMO phones or to users of other mobile/fixed-line networks, with no restrictions on the number of calls or their duration
------------	--

Pake-aeru	Allows packet data-quota sharing among family members or among multiple devices owned by a single user
	Allows waste-free data usage through the sharing of a data quota among family members after selecting a plan suited for the family's total packet consumption
	Additional packets can be purchased on an as-needed basis in months of heavy usage

<Initiatives for Corporate Marketing>

Through our smartphones and cloud services, we provide solutions that create new value for business users, addressing the unique challenges of our corporate clients. The following is a summary of the principal new initiatives undertaken during the fiscal year ended March 31, 2014:

Release of Business Smartphone

We released a smartphone for corporate users, the *F-04F*, equipped with easy-to-use basic communications features including telephone and email as well as advanced security functions.

Introduction of Business Plus

We started offering Business Plus, a package of cloud-based enterprise services including groupware*, network address book, attendance management and other features.

*: Software designed to help improve the productivity of business operations. Groupware generally comes with email/schedule-sharing and other capabilities.

<Global Business Expansion>

We have taken steps to ensure that customers are able to use our mobile phones worry-free in foreign countries and promoted global expansion of services in new business fields through investments and alliances. The following is a summary of the principal actions undertaken during the fiscal year ended March 31, 2014:

Launch of Global 1day Pake Service

We started offering a new one-day (24-hour) flat-rate data communications billing plan for customers traveling overseas, the Global 1day Pake service, which provides users with more inexpensive packet access defined for each country/region.

Launch of LTE-based International Roaming Service

We commenced LTE-based international roaming service that can be applied with Global 1day Pake and other billing plans, to enable high-speed data access using LTE connections even when traveling abroad.

Reinforcement of New Businesses in Europe

We acquired all of the shares of fine trade gmbh, an Austria-based e-commerce trading solution provider, making it a wholly-owned subsidiary with the aim of providing various payment options in the online retail market for consumer goods in Europe.

n All other businesses

Our undertakings in all other businesses also include efforts aimed at expanding new business fields through the rollout of new services in such fields as healthcare and learning or the making of investments and the formation of alliances. The principal actions undertaken in all other businesses during the fiscal year ended March 31, 2014, are summarized below:

docomo Healthcare, Inc.

We launched a new healthcare support service dubbed Watashi Move (WM). We also commenced services that provide users with advice based on acquired health data, Karada no Kimochi and Karada no Tokei WM, and released a wristband-type wearable device, Move Band.

Nihon Ultmarc Inc.

With the goal of creating new services that link customers with medical care, we made an investment in Nihon Ultmarc Inc., a company that operates Japan's largest medical database and possesses special resources in this field, making it into a subsidiary.

ABC HOLDINGS Co., Ltd.

With a focus on cuisine and dining, we transformed ABC HOLDINGS Co., Ltd. into a subsidiary with the goal of creating new lesson styles that enrich customers' lifestyles and provide convenience, and expanding the business of cooking classes in the future.

Table of Contents

MAGASseek Corporation

We commenced the d fashion fashion e-commerce site, in which users can make payments for purchased items together with their monthly phone bill or use docomo Points as a payment option.

Operating revenues and income (loss) in each business segment in the fiscal year ended March 31, 2014 are indicated in the table below.

- (3) Trend of Capital Expenditures

The principal capital investments made during the fiscal year ended March 31, 2014 are summarized below.

<Expansion of Telecommunications Facilities>

Expansion of Network Facilities

We increased significantly the installation of base stations to further improve the area coverage of our Xi LTE service. Also, in order to accommodate the growth of data traffic* resulting from the expanded uptake of smartphones, we worked on the capacity buildup of servers, switches and other equipment.

Actions for the Launch of New Services

We strived to reinforce our cloud infrastructure to ensure compatibility with docomo ID authentication and docomo mail service.

*: The total volume of transmissions which occurred by means of data communication.

Table of Contents

<Initiatives Aimed at Efficiency and Cost Reduction>

Efficient Use of Capital Expenditure

We pursued cost efficiency improvement toward the goal of further strengthening our management foundation through the integration and/or capacity expansion of equipment, the improvement of the efficiency of construction and the reduction of equipment procurement costs.

Efficient Service Area Construction

We also structured our service areas and achieved quality improvement in an efficient manner, choosing the best equipment among various options taking into consideration the surrounding environment and geography, data transmission volume and other factors when establishing base stations.

As a result of the above measures, the total capital expenditures for the fiscal year ended March 31, 2014, decreased by 6.7% from the previous fiscal year to ¥703.1 billion.

(4) Financing Activities

During the fiscal year ended March 31, 2014, we obtained long-term financing through the issuance of corporate bonds in the amount of ¥50 billion, to be used for the redemption of outstanding corporate bonds.

(5) Research and Development Activities

We have engaged in the development of technology that will make communication and services used via smartphones more convenient and in R&D directed at establishing communication standards for the future, from a long-term perspective.

<Development of the Handsets and Services>

High functioning Xi Handsets

With the Xi service, we began to offer smartphones and mobile Wi-Fi routers compatible with Quad band LTE that supports downlink transmission at 150Mbps.

Strengthening of Cloud Service

We began to offer a service that uses the cloud for docomo mail and the like. We developed and began to offer a docomo ID compatible service base and server management technology that shortens up to 50% the cloud service response time, with the aim of improving service usability.

Establishing an API providing site

While providing our own technologies used in our smartphones, such technology as text recognition and voice recognition as API*1, we also established docomo Developer support, an API providing site that widely supports service developers, including development support tools like SDK*2.

Table of Contents

*1: An abbreviation for Application Programming Interface. An interface required for calling up a function or database when applications are developed.

*2: An abbreviation for Software Development Kit. It facilitates easier programming by developers.
<Technical Developments to be Implemented>

Development of VoLTE*

We are engaged in the development of VoLTE, a voice service on the LTE network, which is 3GPP standardized.

Development of LTE-Advanced

Newly developed Smart Vertical MIMO, a wireless transmission technology aimed at LTE-Advanced, which is 4th generation mobile communications standard. The traveling transmission test was successful outdoors at an excess of 1.2Gbps with one base station antenna.

Development of Application for Wearable Device

We initiated the development of intelligent glass, an application for eyeglass-type terminals which displays counterpart information transmitted by others stored in the Internet and allows users to move virtual icons displayed in their field of vision as if they are moving actual physical objects.

*: An abbreviation for Voice over LTE. This is a voice IP service which leverages LTE technology.
<Future Technology Initiatives>

Next Generation Communications (5G)

With the goal of realizing ultra-high speed communications that exceed 10Gbps and ultra-high data transmission volumes that are at least 1,000 times greater than LTE, we conducted research and development related to next generation communications (5G).

Network Virtualization

We are engaged in research and development related to network virtualization that aims to increase the efficiency of network structure and operations. We have confirmed by experimentation that this technology can handle the complexity of larger scale traffic concentration both economically and rapidly.

As a result of the above, the total research and development costs for the fiscal year ended March 31, 2014, decreased by 8.3% from the previous fiscal year to ¥102.0 billion.

(6) CSR Activities

In accordance with our medium-term business plan, Medium-Term Vision 2015, we are working to provide a stable, high quality network and services and to engage in the persistent creation of new value as a Partner for a Smart Life for our customers.

We believe it is the corporate social responsibility CSR of DOCOMO to contribute to the realization of a society that enables people to lead abundant lives with comfort, safety, and security by resolving various social issues and surpassing the confines of countries, regions, and generations. Accordingly, we have positioned CSR at the core of our corporate management.

<Realizing a Safe, Secure Society>

Use of Safe, Secure Services by Young People

We have enhanced the Anshin-mode (safe-mode) function of our service for the safe and secure use of smartphones by young people and have enabled the application of our filtering service to Internet access via Wi-Fi provided by other companies as well as through the DOCOMO network. Approximately 6,900 sessions of the Mobile Safety Class were conducted for young people, guardians, and educators nationwide this period to explain precautionary items, manners and other facets of using mobile phones safely and securely.

Services that Seniors Can Use with Confidence

We began offering Tsunagari-Hotto Support , an application to reassure seniors, and enabled the status of smartphone use (pedometer, battery charge remaining, etc.) to be conveniently emailed to a family member designated in advance through normal use of the smartphone.

Services that are Easy for Anyone to Use

The eligibility of application for Hearty Discounts has been expanded to also enable people with disabilities or people who suffer from intractable diseases to use our services with assurance. 70 sessions of our Mobile Useful Class were also conducted this fiscal year to explain to people with disabilities how to use mobile phones conveniently.

Manners when Using a Smartphone

We produced a logo and animated video stressing the dangers of using a smartphone while walking and posted these in various advertisements and on the Internet. We also enhanced the features of the Anshin-mode function and provided a function that will prevent use of a smartphone while walking.

Table of Contents

<Initiatives in Global Environmental Protection>

Designing Environmentally Friendly Communications Equipment

We have made steady progress on steps to reduce electricity usage while working to enhance network equipment by developing and introducing energy-saving LTE compact base stations and Green base stations that use renewable energy.

Consideration for the Environment in docomo Shops

We have begun to install LED lighting in docomo Shops. We have also endeavored to provide a digital catalog in order to achieve a reduction of the use of paper resources for catalogs. In addition, we have developed and equipped docomo Shops with equipment for the safe and proper deletion of smartphone personal information no longer needed by customers as well as by crushing them for recycling.

Activities Directed at Preservation of the Natural Environment

We have rolled out activities to establish docomo Woods in 50 locations throughout the 47 prefectures nationwide as a locally rooted activity that will preserve the natural environment. This activity was held 50 times during this fiscal year, with roughly 2,600 employees participating alongside local volunteer groups and others.

<For the Recovery of Disaster-stricken Areas>

Activities to Provide Aid Along with Customers

A Disaster Charity Site enabling donations via DOCOMO cell phones was set up five times this period and approximately 35 million yen was donated for the restoration of the areas stricken by natural disasters. In addition, DOCOMO-original Goods made from timber from thinning forests were sold on dshopping and via other venues and a portion of the proceeds was used for forest conservation as one part of the initiative directed at assisting in the recovery of Minamisanriku in Miyagi Prefecture.

Employee Participation in Activities

Interested employees were solicited and dispatched to areas stricken by the Great East Japan Earthquake to participate in volunteer activities. A total of around 340 employees participated in 20 trips this period.

(8) Issues to be addressed by the Group

Under the slogan of becoming a Partner for a Smart Life, we have moved ahead with the initiatives aimed at improving our competitiveness in the mobile phone business and accelerating the expansion of new businesses.

In the fiscal year ended March 31, 2014, we enriched our dmarket portal that offers a wide variety of convenient content and pursued collaboration and alliances with external partners to provide new services in various sectors such as healthcare and learning. Also, to add momentum to these initiatives, we strived to strengthen our managerial foundation through structural reforms, stepping up cost-cutting efforts and shifting management resources to new business fields.

In the fiscal year ending March 31, 2015, we will work to enhance our comprehensive strengths by further accelerating our existing efforts primarily in the four areas of devices (handsets), networks, services and billing plans and sales channels.

As part of our actions for devices, we will endeavor to expand the number of smartphone users even further and promote the use of a second mobile device, e.g., a mobile phone plus a tablet, toward the goal of achieving further increase in packet revenues.

Table of Contents

In the area of networks, we will concentrate resources on LTE for the purpose of building the strongest area coverage through the deployment of Quad-Band LTE network, rolling out an additional 40,000 LTE base stations within the fiscal year ending March 31, 2015. We plan to launch VoLTE service in the summer of 2014 to offer enhanced voice quality. Furthermore, the verification trial of LTE-Advanced is also scheduled to begin in the fiscal year ending March 31, 2015, with the aim of commencing its commercial service at an early date.

As for services, while working to add more variety to market to make the market place even more attractive and to increase the volume of its business, we will aim to grow its subscriber base to 10 million as quickly as possible. Leveraging the relationship we have constructed with overseas carriers hitherto and our strengths we have cultivated in Japanese market, we will pursue revenue expansion opportunities abroad by deploying the services grown in Japan into overseas markets. Through these undertakings, we will work to achieve ¥1 trillion in new business revenues in the fiscal year ending March 31, 2016.

With respect to billing plans and sales channels, in June 2014, we will launch a new billing plan called Kake-hodai & Pake-aeru, which offers unlimited domestic voice calls for a flat monthly rate and enables users to share packet-data quota among family members and introduced a new discount for young customers up to the age of 25 and discounts according to the number of years of use. While brushing up our sales channel including call centers and other customer interfaces that are sources of strength for DOCOMO, we will work in unison to facilitate the uptake of the new billing plan.

Through these initiatives, we will strive to expand our smartphone user base, boost packet usage and lower the churn rate so as to put the mobile phone business on a path to new growth, while taking the lead in service differentiation in order to expand revenues and income from new businesses.

In order to establish a new path towards growth, we will also aim to achieve significant cost efficiency improvement by properly controlling the Monthly Support discounts, sales expenses, network costs and other expenditures.

Meanwhile, we will also work to reinforce our management foundation through structural reforms. In addition to actions aimed at improving our operational efficiency and speeding up our decision-making process, we will implement group structural reforms effective July 1, 2014, to further improve customer services by creating a specialist driven and community-based organization and shifting resources to strengthen certain areas of our business (new businesses and corporate sales fields) through the slimming of branch offices.

Considering shareholder returns as one of the most important issues in our corporate management, we will endeavor to continue stable dividend payments while taking into consideration our consolidated financial results and consolidated dividend payout ratio.

(2) Policies concerning, and total compensation of, directors and audit & supervisory board members

(a) Policies

Matters concerning compensation for directors are decided by the Board of Directors.

Compensation for directors (excluding outside directors) consists of a monthly salary and bonuses. Monthly salaries are paid based on the scope of roles and responsibilities of each director. Bonuses are paid taking into account the Company's business results for the current term. Also, directors make monthly contributions of at least a certain amount for the purchase of the Company's shares through the Director Shareholding Association to encourage a medium- to long-term perspective. Purchased shares are owned by the directors during their terms in office.

Compensation for audit & supervisory board members is determined by resolution of the Audit & Supervisory Board and, in order to maintain a high level of independence, consists only of a monthly salary that is not linked to financial performance.

(2) Audit fees paid to the independent auditor in the fiscal year ended March 31, 2014

Details	Amount (Millions of yen)
Audit fees for the independent auditor in the fiscal year ended March 31, 2014	681
Total monetary and other financial benefits payable by the Company and its subsidiaries	853

Notes:

- The audit contract between the Company and the independent auditor does not distinguish among audit fees paid for audits performed pursuant to the Companies Act, audit fees paid for audits performed pursuant to the Financial Instruments and Exchange Act and audit fees paid for audits performed pursuant to the U.S. Securities Exchange Act, and since it is not practically possible to make such a distinction, the amounts indicated in the audit fees paid to the independent auditor in the fiscal year ended March 31, 2014 above are totals.
- Consideration is paid to the independent auditor for services other than the services specified in Article 2, Paragraph 1 of the Certified Public Accountants Act (non-audit services). The non-audit services are advisory services and other service relating to international financial reporting standards.
- Policies concerning decisions to discharge or not reappoint independent auditors
In the event that the circumstances set forth in any of the items of Article 340, Section 1 of the Companies Act apply to the independent auditor, the independent auditor is to be discharged by a unanimous resolution of the Audit & Supervisory Board.

In addition, if the Company determines that it would be difficult for the independent auditor to perform proper audits, the Board of Directors may, with the agreement of the Audit & Supervisory Board or upon request from the Audit & Supervisory Board, propose to the general meeting of shareholders that the independent auditor be discharged or that the independent auditor not be reappointed.

5. Systems for Ensuring the Propriety of the Company's Business Activities

A summary of the Board of Directors resolutions concerning the development of systems to ensure the propriety of the Company's business activities (internal control systems) is set forth below.

(1) Basic stance on fortifying internal control systems

- a) In fortifying the internal control systems, the Company aims to achieve legal compliance, management of loss risk and appropriate and efficient business operations and consider various measures, including regulations, organizational and structural improvement, formulation of action plans and the monitoring of activities.
- b) An internal control committee will be formed as an entity overseeing efforts to have the internal control systems function more efficiently. The committee will aim to fortify internal control systems from the cross-departmental perspective; upon assessing efficacy, necessary improvements will be carried out.
- c) Appropriate efforts will be made with regard to ensuring the reliability of the internal control systems, which will be involved with the financial reporting based on the U.S. Sarbanes-Oxley Act and the Financial Instruments and Exchange Act.
- d) The Board of Directors will approve the basic policy on fortifying internal control systems (the Basic Policy), receive regular reports on the progress of the initiative to fortify internal control systems, and oversee and monitor the internal control systems of the Company.
- e) As chief executive officer, the president and representative director will oversee the efforts to build the internal control systems based on the Basic Policy approved by board members.

(2) Fortifying structure relating to internal control systems

- a) System to ensure that the performance of duties by directors and employees conform with laws and regulations and the Company's Articles of Incorporation

We institute the NTT DOCOMO Group Code of Ethics and compliance-related regulations and create requisite systems for ethical and legal compliance. In addition, when preparing financial statements, officers responsible for finance, audit & supervisory board members, and independent auditors hold preliminary discussions of significant accounting policies, and for disclosure of company information including financial statements in a manner that conforms with securities-related laws and regulations, matters are decided at meetings of the Board of Directors after the necessary internal procedures pursuant to in-house regulations have been completed. Also, internal audit staff conducts audits of the company's overall business activities to ensure conformity with laws and regulations and in-house regulations.

- b) System for storage and maintenance of information relating to the performance of duties by directors

Information relating to the performance of duties by directors is recorded and stored in accordance with rules stipulating the methods of storage and administration of documents and administrative information.

Edgar Filing: NTT DOCOMO INC - Form 6-K

c) Regulations and other systems relating to the management of loss risks

Executive directors responsible for risk management periodically summarize information relating to risks in their organizations in accordance with rules concerning risk management, and the internal control committee made up of directors, senior vice presidents, and others identifies risks as necessary for companywide risk management, and decide management policy for identified risks to prevent risks from occurring and to take rapid countermeasures in the event that risks do occur.

Table of Contents

- d) System to ensure that the performance of duties by directors is conducted efficiently

The efficiency of the performance by directors of their duties is ensured by such means as decision-making rules based on internal regulations and the specification of powers relating to their duties, the formulation of medium-term management policies and business plans by the Board of Directors, and the establishment of committees composed of directors, senior vice presidents, and others.

- e) System to ensure the propriety of the business activities of the corporate group consisting of the Company, its parent company, and its subsidiaries

Based on rules governing fundamental matters relating to the management of our Group companies, group companies discuss important business matters with the Company or report them to the Company. In addition, officers with responsibility for corporate ethics who are appointed at subsidiaries report to the Company in a timely manner on the state of problems involving senior management, and the Company provides necessary guidance. With respect to unusual transactions with the parent company, investigations are conducted by legal personnel and audits are conducted by audit & supervisory board members. Further, audits by internal audit personnel are directed to cover its subsidiaries, and whenever necessary they obtain and assess the results of the internal audits of those companies.

- f) Matters relating to employees who assist audit & supervisory board members in the performance of their duties and the independence of those employees from the directors

The Audit & Supervisory Board Member's Office is established as an organization dedicated to assisting the audit & supervisory board members with the performance of their duties, and specialist staff are assigned to it. We provide the Audit & Supervisory Board with advance explanations concerning matters such as appointments and transfers of these personnel and their job assignments, and pay respectful attention to the board's opinions before acting on such matters.

- g) System for reporting to audit & supervisory board members by directors and employees

Directors, senior vice presidents, and employees report promptly to the audit & supervisory board members and to the Audit & Supervisory Board concerning matters prescribed by laws and regulations as well as requested matters necessary for the performance by the audit & supervisory board members of their duties.

- h) Other systems for ensuring that auditing by audit & supervisory board members is conducted effectively

Representative directors and the Audit & Supervisory Board hold regular meetings and develop an auditing environment necessary for enabling the audit & supervisory board members to perform their duties. In addition, the internal audit staff and independent auditor hold regular/occasional meetings with audit & supervisory board members respectively.

Throughout this report, amounts prepared based on domestic accounting standards are rounded down to the nearest unit. Amounts prepared in accordance with U.S. accounting standards are rounded up or down to the nearest unit.

We have audited the consolidated financial statements, comprising the consolidated balance sheet, the consolidated statement of income, the consolidated statement of changes in equity and the related notes of NTT DOCOMO, INC. as at March 31, 2014 and for the year from April 1, 2013 to March 31, 2014 in accordance with Article 444-4 of the Companies Act.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the second sentence of Article 120-2-1 of the Ordinance of Companies Accounting that prescribes some omissions of disclosure items required under U.S. generally accepted accounting principles, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audit as independent auditor. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

Table of Contents

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, while the objective of the financial statement audit is not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above, which were prepared in accordance with the second sentence of Article 120-2-1 of the Ordinance of Companies Accounting that prescribes some omissions of disclosure items required under U.S. generally accepted accounting principles, present fairly, in all material respects, the financial position and the results of operations of NTT DOCOMO, INC. and its consolidated subsidiaries for the period, for which the consolidated financial statements were prepared.

Other Matter

Our firm and engagement partners have no interest in the Company which should be disclosed pursuant to the provisions of the Certified Public Accountants Law of Japan.

Audit Report of Audit & Supervisory Board

Based on audit reports from each audit & supervisory board member, and following due discussion at meetings, the Audit & Supervisory Board has prepared this audit report regarding the execution of the duties of the Board of Directors in the 23rd fiscal year from April 1, 2013 to March 31, 2014. The Board reports as follows.

1. Outline of Audit Methodology

The Audit & Supervisory Board established an auditing plan and received reports from each audit & supervisory board member on the status of the implementation of audits and the results thereof, as well as reports from the Board of Directors and the Independent Auditors regarding the status of execution of their duties, and requested explanations as necessary.

Also, on the basis of the Audit & Supervisory Board Rules established by the Audit & Supervisory Board, and in accordance with its auditing plan, the audit & supervisory board members sought mutual understanding with the Directors, the internal auditing department, other employees and the Independent Auditors in their efforts to collect information, and carried out the audit as follows:

- (1) attended meetings of the Board of Directors and other important meetings, and received reports from Directors and employees regarding performance of their duties, requested explanations as necessary, perused important documents regarding decisions and approvals made and investigated the status of operations and the financial position at the company's head office and major offices of business;
- (2) carried out an audit and verification of the particulars of Board of Directors resolutions relating to the establishment of structures necessary to ensure that the Board of Directors' performance of its duties is in conformity with laws and regulations and the Company's Articles of Incorporation and to otherwise ensure the appropriateness of the business of a *kabushiki kaisha*, as well as the structures established pursuant to such resolutions (internal control system);
- (3) regarding the subsidiaries, the Audit & Supervisory Board sought to achieve a mutual understanding and exchange of information with directors and other persons and audit & supervisory board members of the subsidiaries, and, where necessary, received business reports from the subsidiaries; and
- (4) audited and verified whether the Independent Auditors maintained their independence and carried out their audits appropriately, received reports from the Independent Auditors regarding the execution of their duties and, where necessary, requested explanations. Also, the Audit & Supervisory Board received notification from the Independent Auditors to the effect that the structure to ensure that duties are executed appropriately has been established and requested explanations as necessary.

Based on the above methodology, the Audit & Supervisory Board evaluated business reports, supplementary schedules, the non-consolidated financial statements related to the fiscal year ended March 31, 2014 (the non-consolidated balance sheet, the non-consolidated statement of income, the non-consolidated statement of changes in net assets, and the related notes), and the supplementary schedules as well as the consolidated financial statements (the consolidated balance sheet, the consolidated statement of income, the consolidated statement of changes in equity and the related notes).

2. Audit Results

- (1) Results of the audit of the Business Report

Edgar Filing: NTT DOCOMO INC - Form 6-K

- i. We find that the Business Report and its supplementary schedules accurately reflect the conditions of the company in accordance with laws and regulations and the Articles of Incorporation.
- ii. No inappropriate conduct concerning the execution of duties by Directors or material facts in violation of law or the Articles of Incorporation were found.
- iii. We find that the particulars of Board of Directors resolutions concerning the internal control systems are appropriate. Further, no matters requiring note on our part were found with respect to Directors execution of duties in regards to the internal control system.

(2) Results of the audit of performance of the duties by the Independent Auditors
No matters requiring note on our part were found with respect to the structure for ensuring the proper execution of duties by the Independent Auditor, KPMG AZSA LLC.

Table of Contents

(3) Results of the audit of the non-consolidated financial statements, supplementary schedules and the consolidated financial statements
We find that the methodology and results of the audit by the Independent Auditor, KPMG AZSA LLC, are appropriate.
