**CGG signs exclusive agreement with Gabonese Ministry for  
vast offshore multi-client program**

**CGG will start first phase of 35,000 km<sup>2</sup> BroadSeis 3D program in Q4 2014**

*Paris, France September 29, 2014*

CGG announced today that it has signed an exclusive multi-client data agreement with the *Ministère du Pétrole et des Hydrocarbures* of the Republic of Gabon.

As a result of this agreement, CGG is launching a new multi-client survey program to acquire 35,000 km<sup>2</sup> of BroadSeis™ 3D data over the latest available and awarded deepwater blocks offshore Gabon and 9,900 km of 2D data over the country's ultra-deep water offshore area. The program, which has already received support from the industry, will be implemented in association with the Direction Générale des Hydrocarbures (DGH).

The first phase of the program covering almost 24,000 km<sup>2</sup> will start in the fourth quarter of 2014 and is scheduled to last seven months. Two high-end vessels will be assigned to the project to ensure timely delivery of the data. The depth imaging of the seismic data will be performed in CGG's Crawley center in the UK.

Jean-Georges Malcor, CEO, CGG, said: This exclusive agreement follows on from the support CGG gave the DGH back in 2009 to promote the potential of the deep water offshore Gabon. Now, with the low-frequency enhancement made possible by BroadSeis, our true broadband solution, this new survey program will enable better imaging of Gabon's highly prospective pre-salt plays; it will therefore allow oil companies to better de-risk this exciting new exploration arena and accelerate development of the country's resources.
