1 - GENERAL BUSINESS DESCRIPTION

Intertape Polymer Group Inc. (the Parent Company), incorporated under the *Canada Business Corporations Act*, has its principal administrative offices in Montreal, Québec, Canada and in Sarasota, Florida, U.S.A. The address of the Parent Company's registered office is 800 Place Victoria, Suite 3700, Montreal, Québec H4Z 1E9, c/o Fasken Martineau. The Parent Company's common shares are listed on the Toronto Stock Exchange (TSX) in Canada.

The Parent Company and its subsidiaries (together referred to as the Company), develop, manufacture and sell a variety of paper and film based pressure sensitive and water activated tapes, polyethylene and specialized polyolefin films, woven coated fabrics and complementary packaging systems for industrial and retail use.

Intertape Polymer Group Inc. is the Company's ultimate parent.

2 - ACCOUNTING POLICIES

Basis of Presentation and Statement of Compliance

The unaudited interim condensed consolidated financial statements (financial statements) present the Company's consolidated balance sheets as of September 30, 2014 and December 31, 2013, as well as its consolidated earnings, comprehensive income and cash flows for the three and nine months ended September 30, 2014 and 2013, and the changes in shareholders' equity for the nine months ended September 30, 2014 and 2013. These financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 *Interim Financial Reporting* and are expressed in United States (US) dollars. Accordingly, certain information and footnote disclosures normally included in annual audited consolidated financial statements prepared in accordance with International Financial Reporting Standards (IFRS), as issued by the International Accounting Standards Board (IASB), have been omitted or condensed.

These financial statements reflect all adjustments which are, in the opinion of management, necessary to present a fair statement of the results for these interim periods. These adjustments are of a normal recurring nature.

These financial statements were authorized for issuance by the Company's Board of Directors on November 4, 2014.

Critical Accounting Judgments, Estimates and Assumptions

The preparation of the financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Significant changes in the underlying assumptions could result in significant changes to these estimates. Consequently, management reviews these estimates on a regular basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. The judgments, estimates and assumptions applied in the financial statements were the same as those applied in the Company's most recent annual audited consolidated financial statements. The only exceptions are (i) the estimate of the provision for income taxes which is determined in the financial statements using the estimated weighted average annual effective income tax rate applied to the earnings before income tax expense (benefit) of the interim

Table of Contents

9

period and (ii) the re-measurement of the defined benefit liability which is required at year-end and if triggered by plan amendment or settlement during interim periods. These financial statements and notes should be read in conjunction with the Company's most recent annual audited consolidated financial statements.

New Standards and Interpretations Issued But Not Yet Effective

Certain new standards, amendments and interpretations, and improvements to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the Company. Management anticipates that all of the relevant pronouncements will be adopted in the first reporting period following the date of application. Information on new standards, amendments and interpretations, and improvements to existing standards, which could potentially impact the Company's consolidated financial statements, are detailed as follows:

Amended IAS 16 Property, Plant and Equipment and Amended IAS 38 Intangible Assets: Amended IAS 16 and IAS 38 were issued to clarify acceptable methods of depreciation and amortization. The new requirements are effective for annual periods beginning on or after January 1, 2016. Management has yet to assess the impact of these amendments on the Company's consolidated financial statements.

IFRS 15 Revenue from Contracts with Customers: IFRS 15 replaces IAS 18 *Revenue*, IAS 11 *Construction Contracts* and some revenue related interpretations. IFRS 15 establishes a new control-based revenue recognition model, changes the basis for deciding when revenue is recognized at a point in time or over time, provides new and more detailed guidance on specific topics and expands and improves disclosures about revenue. IFRS 15 is effective for annual reporting periods beginning on or after January 1, 2017. Management has yet to assess the impact of this new standard on the Company's consolidated financial statements.

IFRS 9 (2014) Financial Instruments: IFRS 9 (2014) replaces IAS 39 *Financial Instruments: Recognition and Measurement*. IFRS 9 (2014) addresses accounting for financial assets and financial liabilities, classification and measurement, recognition and derecognition, hedge accounting and impairment. IFRS 9 is effective for annual reporting periods beginning on or after January 1, 2018. Management has yet to assess the impact of this new standard on the Company's consolidated financial statements.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Company's financial statements.

As of September 30, 2014 and December 31, 2013, the Company had commitments to purchase machines and equipment totaling \$8.6 million and \$12.9 million, respectively.

During both the three and nine months ended September 30, 2014, the Company recorded impairments on idle assets of less than \$0.1 million (less than \$0.1 million and \$0.2 million for the three and nine months ended September 30, 2013, respectively) that were included in the statement of consolidated earnings under the caption cost of sales and the statement of consolidated cash flows under the caption other adjustments for non-cash items. There were no reversals of impairments, other than those disclosed in Note 4 and included in the statement of consolidated earnings under the caption manufacturing facility closures, restructuring and other related charges.

7 - INCOME TAXES

Income tax expense (benefit) is recognized in each interim period based on the best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense (benefit) in one interim period may have to be adjusted in a subsequent interim period of the financial year if the estimate of the annual income tax rate changes.

On October 30, 2014, the Company completed the final steps of a multi-step plan to reorganize the capital structure of several of its legal entities (Legal Entity Reorganization) in order to more efficiently manage its intercompany debt. The Company incurred \$2.5 million of upfront income tax expense in the third quarter of 2014 as a result of the completion of various steps within the Legal Entity Reorganization plan. On October 30, 2014, the Company incurred an additional \$0.3 million of upfront income tax expense upon the completion of the final steps of the Legal Entity Reorganization plan.

The effective tax rate for the three and nine months ended September 30, 2014 was 53.3% and 42.2%, respectively (6.1% and 20.3% for the three and nine months ended September 30, 2013, respectively). The increase in effective tax rate between the three months ended September 30, 2014 and 2013 was primarily due to the utilization of US deferred tax assets that were previously derecognized until the fourth quarter of 2013 and the \$2.5 million upfront income tax expense related to the Legal Entity Reorganization.

The increase in effective tax rate between the nine months ended September 30, 2014 and 2013 was primarily due to the utilization of US deferred tax assets that were previously derecognized until the fourth quarter of 2013 and the \$2.5 million upfront income tax expense related to the Legal Entity Reorganization. These increases were partially offset by the income tax effect of stock options exercised during the first nine months of 2013.

As of September 30, 2014 and December 31, 2013, the effective interest rate on borrowings under the ABL facility was 2.97% and 2.89%, respectively.

The Company's unused availability under the ABL facility as of September 30, 2014 and December 31, 2013 was \$53.2 million and \$47.8 million, respectively.

The ABL facility has one financial covenant, a fixed charge ratio of greater than or equal to 1.0 to 1.0. The financial covenant becomes effective only when unused availability drops below \$25.0 million. A default under the ABL facility would be deemed a default under the Real Estate Loan, the secured debt equipment finance agreement noted below and the mortgage loan entered into in connection with the Company's real estate purchase in Blythewood, South Carolina.

On August 14, 2012, the Company entered into a secured debt equipment finance agreement (the Equipment Finance Agreement). The Company entered into the final schedule on March 26, 2014. In 2013, the Company began the process to relocate the Langley, British Columbia manufacturing facility to a new nearby location due to the expiration of the non-renewable lease in April 2014. As a result, in 2014, the Company recorded an additional restoration provision for the new location where the Company is obligated to restore the leased property to the same condition that existed at the time of the lease commencement date. In addition, the Company reversed a portion of the outstanding restoration provision of the existing facility based on actual costs incurred. The reversal is included in the statement of consolidated earnings under the caption cost of sales and reduced depreciation and amortization. The carrying amounts of these obligations are based on management's best estimate of the costs of the permanent removal of the Company's manufacturing equipment used in these facilities.

A portion of the provision recorded in severance and other provisions primarily relates to the Columbia, South Carolina manufacturing facility closure. Refer to Note 4 for more information.

On July 3, 2014, the Company's prior Chief Financial Officer filed a complaint with the Occupational Safety and Health Administration of the U.S. Department of Labor (OSHA) alleging certain violations by the Company related to the terms of his employment and his termination. The Company has filed its response to the complaint with OSHA. The Company believes that these allegations and claims are without merit and intends to vigorously defend them. Because the proceeding is currently in its initial stages, the Company is not currently able to predict the probability of a favorable or unfavorable outcome, or the amount of any possible loss in the event of an unfavorable outcome. Consequently, no material provision or liability has been recorded for these allegations and claims as of September 30, 2014. Approximately \$0.4 million of the additional provision recorded in the first quarter of 2014 in severance and other provisions is for an estimated amount relating to the prior Chief Financial Officer based on the employment letter agreements entered into on October 30, 2009 and November 17, 2009.

The Company is also engaged from time-to-time in various legal proceedings and claims that have arisen in the ordinary course of business. The outcome of all of the proceedings and claims against the Company is subject to future resolution, including the uncertainties of litigation. Based on information currently known to the Company and after consultation with outside legal counsel, management believes that the probable ultimate resolution of any such proceedings and claims, individually or in the aggregate, will not have a material adverse effect on the financial condition of the Company, taken as a whole, and accordingly, no amounts have been recorded as of September 30, 2014.

PSUs granted during the period ending September 30, 2014 did meet the performance conditions as of September 30, 2014 and were included in the calculation of weighted average diluted common shares outstanding.

Common shares repurchased under the NCIB are deducted in the calculation of basic and diluted average number of common shares based on the trade settlement date.

Performance Share Unit Plan

On June 11, 2014, the Board of Directors of the Company adopted the PSU Plan. The purpose of the PSU Plan is to provide participants with a proprietary interest in the Company to (a) increase the incentives of those participants who share primary responsibility for the management, growth and protection of the business of the Company, (b) furnish an incentive to such participants to continue their services for the Company and (c) provide a means through which the Company may attract potential employees. The PSU Plan is administered by the Compensation Committee of the Board of Directors of the Company and authorizes the Company to award PSUs to eligible persons. A PSU, as defined by the Company's PSU Plan, represents the right of a participant, once such PSU is earned and has vested in accordance with the PSU Plan, to receive the number of common shares of the Company underlying the PSU. Furthermore, a participant will receive a cash payment from the Company upon PSU settlement that is equivalent to the number of shares issued or delivered to the participant multiplied by the amount of cash dividends per share

declared by the Company between the date of grant and the third anniversary of the grant date. PSUs are net-settled to satisfy minimum statutory tax withholding requirements.

PSUs are expensed straight-line over their vesting period. The fair value of the PSU is based on the close price for the common shares of the Company on the TSX on the date of the grant adjusted for market-based performance conditions.

The DSU Plan is administered by the Compensation Committee of the Board of Directors of the Company and authorizes the Company to award DSUs to any member of the Board of Directors of the Company that is not an executive officer or employee of the Company. A DSU, as defined by the Company's DSU Plan, represents the right of a participant to receive a common share of the Company. Under the DSU Plan, each director is entitled to receive DSUs as a result of a grant and/or in lieu of cash for semi-annual directors' fees. DSUs are settled when the director ceases to be a member of the Board of Directors of the Company. DSUs are net-settled to satisfy minimum statutory tax withholding requirements.

DSUs received as a result of a grant are expensed immediately. The fair value of DSUs is based on the close price for the common shares of the Company on the Toronto Stock Exchange on the date of the grant.

DSUs received in lieu of cash for directors' fees are expensed as earned over the service period. The fair value of DSUs is based on the fair value of services rendered.

During the three and nine months ended September 30, 2014, there were 15,901 and 36,901 DSUs granted, respectively.

In the event of early termination the Company is required to pay the utility suppliers the difference between the contracted amount and the current market value of the energy, adjusted for present value, of any future agreed upon minimum usage. During the three and nine months ended September 30, 2014, the Company recognized settlement losses of \$1.3 million for both periods resulting from the difference between the accounting liability and the cost to settle the obligations. The settlement losses were included in the statement of consolidated earnings under the caption cost of sales. The Company was required to re-measure the plan's assets and liabilities as of the settlement date resulting in a decrease of \$1.5 million under the pension and other post-retirement benefits in the consolidated balance sheet with the offset flowing through other comprehensive income, net of income tax expense, and in deficit.

The remaining obligations are expected to be settled during the fourth quarter of 2014 and are expected to result in an additional settlement loss of up to approximately \$0.7 million. The Company expects a minimal impact on its cash flows as a result of the settlement.
