Additional Information

Additional Information and Where to Find It

In connection with the proposed transaction, Targa Resources Corp. (TRC) will file with the U.S. Securities and Exchange Commission a registration statement on Form S-4 that will include a joint proxy statement of Atlas Energy, L.P. (ATLS) and TRC and a prospectus of ATLS (ATLS prospectus statement/prospectus). In connection with the proposed transaction, TRC plans to mail the definitive TRC joint proxy statement/prospectus to its unitholders. ATLS plans to mail the definitive TRC joint proxy statement/prospectus to its unitholders.

Also in connection with the proposed transaction, Targa Resources Partners LP (TRP) will file with the SEC a registration statement on Form S-1.

proxy statement of Atlas Pipeline Partners, L.P. (APL) and a prospectus of TRP (the TRP proxy statement/prospectus). In this transaction, APL plans to mail the definitive TRP proxy statement/prospectus to its unitholders. INVESTORS, SHAREHOLDERS AND UNITHOLDERS ARE URGED TO READ THE TRC JOINT PROXY STATEMENT/PROSPECTUS AND OTHER RELEVANT DOCUMENTS FILED OR TO BE FILED WITH THE SEC CAREFULLY AND IN THEIR ENTIRETY WHEN THEY BECOME AVAILABLE BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION ABOUT TRC, TRP, APL AND THE TRANSACTION AND RELATED MATTERS.

This communication does not constitute an offer to sell or the solicitation of an offer to buy any securities or a solicitation of an offer to buy any securities.

The documents filed with the SEC by APL may be obtained free of charge by directing such request to: Atlas Pipeline Partners, L.P., Attn: Investor Relations, 1845 Walnut Street, Philadelphia, Pennsylvania 19103 or emailing IR@atlaspipeline.com. These documents may also be obtained for free from APL's investor relations website at www.atlaspipeline.com.

Participants in Solicitation Relating to the Merger

TRC, TRP, ATLS and APL and their respective directors, executive

officers and other persons may be deemed to be participants in the solicitation of proxies from

TRC, ATLS or APL shareholders or unitholders, as applicable, in respect of the proposed transaction that will be described in the

statement/prospectus and TRP proxy statement/prospectus. Information regarding TRC's directors and executive officers is contained in TRC's

statement dated April 7, 2014, which has been filed with the SEC. Information regarding directors and executive officers of TRP is contained in TRP's

TRP's Annual Report on Form 10-K for the year ended December 31, 2013, which has been filed with the SEC. Information regarding directors and executive officers of ATLS's general partner is contained in ATLS's definitive proxy statement dated March 21, 2014, which has been

filed with the SEC. Information regarding directors and executive officers of APL's general partner is contained in APL's Annual Report on Form 10-K for the year ended December 31, 2013, which has been

filed with the SEC.

A more complete description will be available in the registration statement and the joint proxy statement/prospectus.

Operating Margin

(1)

6
A Strong Footprint in
Active Basins
And a Leading Position at
Mont Belvieu
Drive Targa s
Long-Term Growth
Leadership position in oil

and liquids rich Permian Basin
Bakken position capitalizes on strong crude oil fundamentals and active drilling activity
Leadership position in the active portion of Barnett Shale - combo play
GOM and onshore Louisiana provide longer term upside potential for well positioned assets
Mont Belvieu is the NGL hub of North America
Increased domestic NGL production is driving capacity expansions into and at Mont Belvieu
Second largest fractionation ownership position at Mont Belvieu
One of only two operating commercial NGL export facilities on the Gulf Coast linked to Mont Belvieu
Position not easily replicated
Approximately \$2.6 billion in announced organic capex projects completed or underway
Increased capacity to support multiple U.S. shale / resource plays
Additional fractionation expansion to support increased NGL supply
Increased connectivity to U.S. end users of NGLs
Expansion of export services capacity for global LPG markets at Galena Park marine terminal

Positioning Pro Forma for
Targa/Atlas Transaction:
Expect to close Q1 2015
An even stronger footprint in
active
basins

modest
change
in fee based margin % and
G&P %
Additional NGL opportunities
Better growth prospects than
standalone

December 10th

Press Release:

Maintaining pro forma 2015
estimates of 11-13% distribution
growth at TRP and 35%
dividend growth at TRC

Expect distribution coverage
of 1.0 to 1.2 times

Commodity prices of
\$3.75/MMBtu for natural gas,
\$60/barrel for crude oil and
\$0.60/gallon for NGLs and
related volume expectations

Commodity prices of
\$4.00/MMBtu for natural gas,
\$80/barrel for crude oil and
\$0.80/gallon for NGLs and
related volume expectations

Well Positioned for 2014 and Beyond

7

2014 End of Year Challenges Continue into 2015

Beginning in Q4 2014, the significant drop and resulting uncertainty in commodity prices is impacting producers, and therefore Targa and other midstream companies

Resulting
difficulty
predicting,
planning

and
adjusting
for
producers
future
activity
and
volume
levels

Targa is focused on:

Cost management and flexibility

Capital expenditure efficiency and flexibility

Other opportunities in a challenging environment

2015 and beyond

Major Capital Projects Under Development

9

In current environment, Targa is focused on capital efficiency and flexibility

Over \$2 billion of additional opportunities are in various stages of development

Opportunities include additional infrastructure in both G&P and Downstream

Increasing NGL supplies across the country will continue to drive the need for more processing, fractionation and connectivity

Diversity and Scale Mitigate Commodity Price Changes

Growth has been driven by investing in the business,
not by changes in commodity prices

TRP benefits from multiple factors that help mitigate
commodity price volatility, including:

Scale

Business and geographic diversity

Increasing fee-based margin

Hedging

TRP's current hedges include:

Approximately 80% of 2014 natural gas and approximately 30% of 2014 combined NGL and condensate

Approximately 50% to 60% of natural gas equity volumes for 2015

(1)

and 20% to 30% for 2016

(1)

Approximately 45% to 55% of condensate equity volumes for 2015 and 25% to 35% for 2016

Given our hedge position and our large fee-based operating margin, we estimate the following sensitivities

for

Targa

Standalone

2015

EBITDA:

A \$5 drop in crude price would decrease EBITDA by ~\$3 million

A \$0.05 drop in the weighted average NGLS price would decrease EBITDA by ~\$12 million

A \$0.25 drop in natural gas price would result in an approximate \$5 million decrease in EBITDA

10

(1)

Will be towards bottom-end of range if there is significant ethane rejection in these years

\$120

\$100

\$80

\$60

11

Targa Leverage and Liquidity

(1)

Includes TRP's total availability under the revolver plus cash, less outstanding borrowings and letters of credit under the TRP

(2)

Adjusts EBITDA to provide credit for material capital projects that are in process, but have not started commercial operation, a

(2)

Compliance Leverage Ratio

Liquidity

Q3 2014 compliance leverage was
2.7x

12
Targa + Atlas: Transaction Overview
Targa Resources Partners LP (NYSE: NGLS; TRP
or the Partnership) has executed a definitive agreement to acquire
Atlas Pipeline Partners, L.P. (NYSE: APL) for \$5.8 billion
(1)
0.5846 NGLS common units plus a one-time cash payment of \$1.26 for each APL LP unit (implied premium
(1)

of 15%)

\$1.8 billion of debt at September 30, 2014

Targa Resources Corp. (NYSE: TRGP; TRC

or the Company) has executed a definitive agreement to acquire Atlas

Energy, L.P. (NYSE: ATLS), after its spin-off of non APL-related assets, for \$1.9 billion

(1)

Prior to TRGP's acquisition, all assets held by ATLS not associated with APL will be spun out to existing ATLS unitholders

10.35 million TRGP shares issued to ATLS unitholders

\$610 million of cash to ATLS

Each existing ATLS (after giving effect to ATLS

spin out) unit will receive 0.1809 TRGP shares and \$9.12 in cash

Accretive to NGLS and TRGP cash flow per unit and share, respectively, immediately and over the longer-term, while providing APL and ATLS unitholders increased value now and into the future

Post

closing

(2)

,

NGLS

plans

to

increase

its

quarterly

distribution

by

\$0.04

per

LP

unit

(\$0.16

per

LP

unit

annualized

rate)

NGLS expects 11-13% distribution growth in 2015 compared to 7-9% in 2014

Post closing

(2)

, TRGP plans to increase its quarterly dividend by \$0.10 per share (\$0.40 per share annualized rate)

TRGP

expects

approximately

35%

dividend

growth

(3)

in

2015

compared

to

25%+

in

2014

Transactions are cross-conditional and subject to shareholder and regulatory approvals

HSR clearance received

Continue to expect transaction to close in Q1 2015

(1) Based on market data as of October 10, 2014, excluding transaction fees and expenses

(2) Management intends to recommend this increase at the first regularly scheduled quarterly distribution declaration Board meeting

(3) Assumes NGLS distribution growth of 11-13%

Targa + Atlas: Current Commodity Price Environment

Despite the current and forward commodity price environment being weaker than when the Targa/Atlas transaction was announced on October 13, 2014, we maintain the pro forma distribution and dividend growth estimates originally provided:

2015 distribution growth for TRP of 11% to 13%

2015 dividend growth for TRC of 35%

TRP currently expects the above referenced pro forma distribution growth range for 2015, along with pro forma

distribution
coverage
of
approximately
1.0
to
1.2
times,
under
a
range
of
possible
scenarios:

(i) (a) commodity prices of \$3.75 per MMBtu for natural gas, \$60 per barrel for crude oil and \$0.60 per gallon for NGLs; (b) current expectations of activity levels at these prices, resulting in low single digit annual volume growth for pro forma TRP and APL field gathering and processing businesses compared to current estimated fourth quarter 2014

volumes;
and

(c)
only
LPG
export
volumes
that
are
currently
under
contract

(ii) (a) commodity prices of \$4.00 per MMBtu for natural gas, \$80 per barrel for crude oil and \$0.80 per gallon for NGLs; (b) volume growth in line with historical growth rates as expected at the time of announcement for pro forma TRP

and
APL
field
gathering
and
processing
businesses;

and
(c)
a
modest
level
of
export
volumes
above
those

currently under contract

Targa Investment Highlights
21

Well positioned in U.S.
shale / resource plays, with
an even stronger footprint in
active basins with close of
the Targa/Atlas transaction
Leadership position at Mont

Belvieu and associated LPG
export facility at Houston
Ship Channel
Increasing scale, diversity
and fee-based margin
Strong financial profile
Strong track record of
distribution and dividend
growth
Experienced management
team

Appendix

23

This presentation includes the non-GAAP financial measure of Adjusted EBITDA. The presentation provides a reconciliation of this non-GAAP financial measures to its most directly comparable financial measure calculated and presented in accordance with generally accepted accounting principles in the United States of America ("GAAP"). Our non-GAAP financial measures should not be considered as alternatives to GAAP measures such as net income, operating income, net cash flows provided by operating activities or any other GAAP measure of liquidity or financial performance.

Non-GAAP Measures Reconciliation

24

Adjusted EBITDA

The Partnership and Targa define Adjusted EBITDA as net income attributable to Targa

Resources Partners LP before: interest; income taxes; depreciation and amortization; gains or losses on debt repurchases and redemptions; early debt extinguishment and asset disposals; non-cash risk management activities

related to derivative instruments; changes in the fair value of the Badlands acquisition contingent consideration and the non-controlling interest portion of depreciation and amortization expenses. Adjusted EBITDA is used as a

supplemental financial measure by our management and by external users of our financial statements such as investors, commercial banks and others. The economic substance behind management's use of Adjusted EBITDA is to measure the ability of our assets to generate cash sufficient to pay interest costs, support our indebtedness and make distributions to our investors.

Adjusted EBITDA is a non-GAAP financial measure. The GAAP measures most directly comparable to Adjusted EBITDA are net cash provided by operating activities and net income (loss) attributable to Targa Resources Partners LP. Adjusted EBITDA should not be considered as an alternative to GAAP net cash provided by operating activities or GAAP net income. Adjusted EBITDA has important limitations as an analytical tool. Investors should not consider

Adjusted EBITDA in isolation or as a substitute for analysis of our results as reported under GAAP. Because Adjusted EBITDA excludes some, but not all, items that affect net income and net cash provided by operating activities and is defined differently by different companies in our industry, our definition of Adjusted EBITDA may not be comparable to similarly titled measures of other companies.

Management compensates for the limitations of Adjusted EBITDA as an analytical tool by reviewing the comparable

GAAP measures, understanding the differences between the measures and incorporating these insights into management's decision-making processes.

Non-GAAP Measures Reconciliation
