You are being asked to vote on the election of nineteen Equity director nominees to hold office until the 2016 annual meeting.

OUR BOARD RECOMMENDS THAT SHAREHOLDERS VOTE FOR THE EQUITY DIRECTOR NOMINEES.

DIRECTORS ELECTED ANNUALLY

Our directors are elected each year. Each director's term will last until the 2016 annual meeting and until his or her successor is duly elected and qualified.

We have implemented a majority vote standard, except in the event of a contested election.

Nineteen individuals are nominated for election by our Class A and Class B shareholders voting together (**Equity directors**) under **Item 1**. All Equity director nominees are presently CME Group directors with the exception of Ms. Dutra. An additional six directors will be elected by our Class B shareholders (**Class B directors**) under **Item 5**. We have no reason to believe that any of the nominees will be unable or unwilling to serve if elected.

The biographies for the Equity director nominees begin on **page 5** and for the Class B director nominees on **page 26**. References to terms of our board of directors in their biographies include service on the board of CME Group (f/k/a Chicago Mercantile Exchange Holdings Inc.) from its formation in 2001 and service on the board of its wholly-owned subsidiary, Chicago Mercantile Exchange Inc. (**CME**). CME Group became a public company in December 2002. The boards of our other exchange subsidiaries: Board of Trade of the City of Chicago, Inc. (**CBOT**), New York Mercantile Exchange, Inc. (**NYMEX**) and Commodity Exchange, Inc. (**COMEX**) also are composed of the same members as the CME Group board of directors. Ages are as of March 24, 2015. Information on public directorships is for the past five years.

DIRECTOR NOMINATIONS

Our board and its nominating committee seek candidates with a variety of talents and expertise to ensure that the board is operating effectively and is focused on creating long-term value for our shareholders. We believe our board should be composed of individuals from diverse professional backgrounds who combine a broad spectrum of experience and expertise with a reputation for integrity and who exercise their good judgment to provide practical insights and different perspectives. In selecting candidates, the board endeavors to find individuals who have a solid record of accomplishment in their chosen fields and who display the independence of mind and strength of character to effectively represent the best interests of our shareholders.

The nominating committee solicits candidates from its current directors and, if deemed appropriate, retains for a fee recruiting professionals to identify and evaluate candidates. The nominating committee also considers Equity director nominees recommended by shareholders if the recommendations are submitted in writing, accompanied by a description of the proposed nominee's qualifications, and other relevant biographical information and evidence of consent of the proposed nominee to serve as a director if elected. Recommendations should be addressed to the nominating committee, Attention: Corporate Secretary, CME Group Inc., 20 South Wacker Drive, Chicago, Illinois 60606. In considering a shareholder recommendation, the nominating committee may seek input from an independent advisor, legal counsel and/or other directors, as appropriate, and will reach a conclusion using its standard criteria. A copy of our nominating committee's charter is available on our website.

Ms. Dutra was identified to our nominating committee by one of our non-executive directors.

The holders of the Class B-1, Class B-2 and Class B-3 common stock elect members of nominating committees for their respective class, which are responsible for nominating candidates for election by their class. See **Item 6** beginning on **page 28** for more information. Our certificate of incorporation requires that director candidates for election by a class of Class B common stock own, or be recognized under our rules as the owner of, at least one share of that class.

DIRECTOR QUALIFICATIONS

The nominating committee believes it is essential that board members represent diverse viewpoints. However, it has not adopted a specific policy on the role of diversity in assessing director candidates. In considering candidates for the board, the nominating

Table of Contents

committee considers the entirety of each candidate's credentials. With respect to the nomination of continuing directors for re-election, the individual's contributions to the board are also considered. In assessing new candidates for the board, we have not adopted a set of firm criteria that an individual must meet to be considered. The nominating committee, composed entirely of directors who are independent under applicable listing standards, reviews the qualifications and backgrounds of potential Equity directors in light of the needs of the board and CME Group at the time and nominates a slate of Equity director nominees to be nominated for election at the annual meeting of shareholders.

In making their nominations, the nominating committee and the board take into consideration applicable board of directors composition requirements of the Commodity Futures Trading Commission (CFTC) and the applicable listing standards. In addition, board members should have the characteristics essential for effectiveness as a member of the board, including but not limited to:

Integrity, objectivity, sound judgment and leadership;

The relevant expertise and experience required to offer advice and guidance to the Executive Chairman & President; the Chief Executive Officer, and other members of senior management;

The ability to make independent analytical inquiries;

A commitment to enhancing long-term shareholder value;

An understanding of the Company's business, strategy and challenges; and

The willingness and ability to devote adequate time and effort to board responsibilities and to serve on committees at the request of the board.

For more information concerning our directors' qualifications, see the **Director Attributes** on **page 10**.

DIRECTOR ATTENDANCE

The board held eight meetings during 2014. All directors attended at least 75% of the combined total meetings of the full board and the committees on which he or she served.

We strongly encourage, but do not require, our directors to attend the annual meeting. Last year, 22 of the 29 directors on the board at that time attended the annual meeting of shareholders.

DIRECTOR INDEPENDENCE

The experience and diversity of our directors has been, and continues to be, critical to our success. Our corporate governance principles require that the board be composed of at least a majority of independent directors. Additionally, in accordance with applicable listing standards, the members of our audit, compensation, governance and nominating committees must be independent. For a director to be considered independent, the board must affirmatively determine that the director has no direct or indirect material relationship with CME Group. The board has adopted **categorical independence standards**, which are attached to this proxy statement as **Appendix A**, to assist the board in making its determinations regarding independence. These standards conform to and exceed the independence criteria specified in the listing standards of the NASDAQ. They specify the criteria by which the independence of our directors will be determined, including relationships and transactions between each director, director nominee, any member of his or her immediate family, his or her affiliates, charitable organizations with which he or she is affiliated, and us.

The board believes that all of its non-executive directors act independently of, and effectively monitor and oversee the actions of, management. Based on our categorical independence standards, at its meeting held in February 2015, the governance committee made a preliminary assessment of the independence of the directors and director nominees and based on such assessment made a recommendation to our board regarding their independence. Some of our directors are members of our exchanges, which provides them with access to our open outcry trading floors, lower trading fees, the ability to vote on certain matters relating to the operation of our trading floors and, for members of CME, the ability to elect six of our directors. Directors who are members of our exchanges may make payments directly to us or indirectly to us through our clearing firms in connection with their trading activity on an exchange. To ensure that such payments did not exceed the monetary thresholds set forth in the listing standards of the NASDAQ, the governance committee reviewed the directors and their affiliated clearing firms trading activities and relationships with our exchanges as part of its independence determination. The governance committee and the board noted that all payments relating to trading fees were made in the ordinary course of our business, were on terms consistent with those prevailing at the time for corresponding transactions by similarly situated unrelated third parties and were not in excess of the applicable payment thresholds.

Mr. Pankau has a family member who is employed by the CME Group organization. Because the family member is not employed as an officer of the organization, the governance committee and the board do not believe it impacts his independence.

After considering information provided by the directors and director nominees in their annual questionnaires, the payments made to us relating to trading activities of directors and director nominees who are members of an exchange, as well as additional information gathered by our Office of the Secretary, the governance committee recommended and the board determined which directors and nominees should be classified as independent. All of our directors and director nominees with the exception of the following have been classified as independent.

Employment Relationships: Messrs. Duffy and Gill are employees of CME Group.

Consulting Arrangements: Mr. Melamed has a consulting relationship with CME Group. Messrs. Carey and Sandner had consulting relationships with us during the last three years. Mr. Carey's consulting agreement expired as of our 2012 annual meeting of shareholders held in June. We, therefore, expect Mr. Carey to be considered independent in June 2015 three years after the expiration of the consulting arrangement. Mr. Sandner's agreement expired as of December 31, 2013 and we would expect him to be considered independent as of the third anniversary of such expiration.

Edgar Filing: CME GROUP INC. - Form PRE 14A

Strategic Partnership and Cross-Investment: Mr. Pinto serves as the director representative of BM&FBOVESPA. BM&FBOVESPA owns approximately 5% of our outstanding Class A shares and we own approximately 5% of its shares. We have a cross-investment agreement with BM&FBOVESPA and have agreed to work together as global

preferred strategic partners to advance our mutual interests in globalizing our respective businesses through jointly identifying and pursuing opportunities for strategic investments and partnerships with other international exchanges. The list of our independent directors and director nominees is set forth on **page 10**.

PUBLIC DIRECTORS

As the parent company of four self-regulatory organizations, we are required to ensure we meet the core principles of the CFTC which, among other things, require that we have processes and procedures to address potential conflicts of interest that may arise in connection with the operation of our exchanges. Significant representation of individuals who do not have relationships with our exchanges, referred to as **public directors** in the CFTC regulations, play an important role in our processes to address potential conflicts of interest. The board has assessed which directors would be considered public directors based upon their lack of relationship with our exchanges and the industry per the CFTC regulations. The list of our public directors is set forth on **page 10**. Additionally, our market regulation oversight committee is composed solely of public directors.

BOARD LEADERSHIP STRUCTURE

Our board leadership structure consists of an Executive Chairman (who is also our President), a CEO, a lead director and our active board members of which more than a majority are considered independent. Mr. Duffy serves as our Executive Chairman & President. Mr. Gill is our Chief Executive Officer reporting to Mr. Duffy. Mr. Glickman currently holds our lead director position. The lead director is appointed by the board based on the recommendation of the governance committee for a one-year term and has the following responsibilities:

Presides at meetings of the board if the Chairman is unavailable and at executive sessions of the board's independent directors.

Presides at the board's annual evaluation of the Chairman's achievement of his goals and objectives.

Communicates to the Chairman the results of meetings at which he presides.

Receives direct communications from directors and/or shareholders in cases where the Chairman is unavailable or where direct communication with the Chairman may not be appropriate.

Confers with the Chairman, in the Chairman's discretion, in regard to board agendas, scheduling and information distribution. Our governance documents provide the board with the flexibility to select the appropriate leadership structure for CME Group. In making leadership determinations, the board considers many factors, including the specific needs of the business and what is in the best interests of our shareholders.

The board believes its current structure allows it to effectively operate, represent the rights of our shareholders and create long-term value and provides a well-functioning and effective balance between strong management leadership and appropriate safeguards and oversight by non-employee board members. The board reserves the right to make changes to its governance structure in the future as it deems appropriate.

BOARD'S ROLE IN RISK OVERSIGHT

The board oversees the business of the Company, including senior management performance and risk management, to assure that the long-term interests of the shareholders are being served. The board has an active role, as a whole and also at the committee level, in overseeing management of our risks, with its focus on the top risks facing the Company. CME Group has established an enterprise risk management (**ERM**)

Edgar Filing: CME GROUP INC. - Form PRE 14A

program to promote and facilitate the process to evolve, align and sustain sound risk management practices at CME Group. Through the ERM program, top enterprise risks are identified, assessed, measured, prioritized and updated. We manage risks in four broad categories: strategic, financial, operational and reputational. Legal and compliance risks are managed as sub-risks within operational and reputational.

[Notice of Annual Meeting of Shareholders and 2015 Proxy Statement](#) 13

Table of Contents

Top risks are assigned ratings, tracked and reported to the board and senior management on a quarterly basis and along with updates of any developments that could affect our risk profile or other aspects of our business. As appropriate, action plans are developed to mitigate risks as part of our strategic planning and budget process.

During 2014, the Company implemented the following enhancements to its ERM program:

Creation of a new board level risk committee to oversee top risks not otherwise overseen by another committee. The charter for the risk committee is available on www.cmegroup.com. Among its areas of focus are risks relating to information technology, information security, business continuity and compliance. In addition to the risk committee, the board also assigns risks to multiple committees. This oversight structure increases the effectiveness of our board's oversight by taking into account the background and experience of the various board committees, including their ability to interact with management. Each committee reports on its activities to the full board. The appendix to the charter of the risk committee provides additional detail on the allocation of risk oversight responsibilities to the various committees. Prior to the establishment of the risk committee, the ERM program was overseen by our audit committee.

Advancing the governance structure of the ERM program with a more senior-level risk management team, led by our Senior Director, Enterprise Risk Management, along with more transparent reporting to the board and the risk committee on our top risks and risk profile.

Our ultimate objective is to help preserve and protect our enterprise value and to help increase the likelihood of achieving our financial, operational and strategic objectives while maintaining or enhancing our reputation. In doing so, the board understands it may not be practicable or cost-effective to eliminate or mitigate certain risks, that it may be necessary to bear certain risks to achieve the Company's goals and objectives and that the processes, procedures and controls employed to address certain risks may be limited in their effectiveness.

EXECUTIVE SESSIONS

Our corporate governance principles require our independent directors to meet in executive session (without management and non-independent directors) on a quarterly basis. These sessions are chaired by the lead director. The chair of the executive session may, at his or her discretion, invite our Executive Chairman & President, CEO, other non-independent directors or other members of management to participate in a portion of such executive session, as appropriate.

ANNUAL ASSESSMENT OF BOARD, COMMITTEE AND INDIVIDUAL DIRECTOR PERFORMANCE

As provided in our corporate governance principles, the board annually reviews its own performance, structure and processes in order to assess how effectively it is functioning. The assessment is implemented and administered by the governance committee through an annual board self-evaluation survey. Beginning in 2014, we incorporated individual peer director evaluations. In addition, the audit, compensation, finance, governance, market regulation oversight and nominating committees each conducted an annual self-assessment in 2014. Beginning in 2015, the risk committee will also complete a self-evaluation.

REPORTING CONCERNS TO THE AUDIT COMMITTEE

We have engaged an independent, third party, EthicsPoint, for the purpose of receiving complaints, including complaints relating to accounting, internal control over financial reporting or auditing matters. Concerns relating to financial matters are automatically referred to the chairman of the audit committee and will be handled in accordance with the procedures adopted by the audit committee. A copy of these procedures is available on our website.

Any director may review any such communication or response thereto.

SHAREHOLDER ENGAGEMENT

As owners of our company, you are encouraged to contact us through our provided communication channels to provide your feedback.

In early 2015, we engaged with our largest shareholders to discuss their views on exclusive forum bylaw provisions. The feedback received was summarized and presented to the governance committee. As a result, we are asking our shareholders to approve, on an advisory basis, a proposal to adopt an exclusive forum bylaw provision at the 2015 annual meeting of shareholders under **Item 4** beginning on **page 24**.

Shareholder engagement through participation in our annual meeting is important to us. In 2014, the quorum at our meeting was approximately 86% of our total Class A and Class B shares outstanding.

We will continue to promote greater communication with our shareholders to better understand their views on current and trending corporate governance practices.

BOARD COMMITTEES

You are being asked to vote on the ratification of the appointment of Ernst & Young to serve as our independent registered public accounting firm for 2015. Ernst & Young served as our accounting firm in 2014.

OUR BOARD RECOMMENDS THAT YOU VOTE FOR THE RATIFICATION OF THE APPOINTMENT OF ERNST & YOUNG AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2015.

The audit committee has appointed Ernst & Young as CME Group's independent registered public accounting firm for 2015. We are not required to have the shareholders ratify the selection of Ernst & Young as our independent auditor. We nonetheless are doing so because we believe it is a matter of good corporate practice. If the shareholders do not ratify the selection, the audit committee will reconsider whether or not to retain Ernst & Young, but may choose to retain such independent auditor. Even if the selection is ratified, the audit committee, in its discretion, may change the appointment at any time during the year if it determines that such a change would be in the best interests of CME Group and its shareholders. Representatives of Ernst & Young will be present at the annual meeting and will have the opportunity to make a statement and be available to respond to appropriate questions by shareholders. In connection with the audit of our 2014 financial statements, we entered into an engagement letter with Ernst & Young which set forth the terms by which Ernst & Young would perform audit services for us and which did not include any limitations of liability for punitive damages. We expect to enter into a similar engagement letter with Ernst & Young for 2015.

AUDIT COMMITTEE POLICY FOR APPROVAL OF AUDIT AND PERMITTED NON-AUDIT SERVICES

The audit committee is responsible for the appointment, retention, compensation and oversight of our independent registered public accounting firm. The audit committee has adopted policies and procedures for pre-approving all services (audit and non-audit) performed by our independent registered public accounting firm. In accordance with such policies and procedures, the audit committee is required to pre-approve all audit and non-audit services to be performed by the independent registered public accounting firm in order to ensure that the provision of such services is in accordance with the rules and regulations of the SEC and does not impair the registered public accounting firm's independence. Under the policy, pre-approval is generally provided for up to one year, any pre-approval is detailed as to the particular service or category of services and is subject to a specific budget. In addition, the audit committee may pre-approve additional services on a case-by-case basis. The audit committee has delegated specific pre-approval to the chairperson of the audit committee provided the estimated fee of the proposed service does not exceed \$100,000. The chairperson must report any decisions to the audit committee at its next scheduled meeting. Periodically, but not less than quarterly, our controller provides the audit committee with a report of audit and non-audit services provided and expected to be provided by the independent registered public accounting firm. A copy of our audit and non-audit services policy is available on our website.

As set forth in more detail in the audit committee charter, the primary responsibilities of the audit committee fall into three broad categories:

To provide an open avenue of communication among the independent registered public accounting firm, financial and senior management, the internal audit function and the board of directors.

The audit committee, during the course of each fiscal year, devotes the attention that it deems necessary and appropriate to each of the matters assigned to it under the audit committee charter. To carry out its responsibilities, the audit committee met 10 times during fiscal year 2014 and two times during 2015 with regard to fiscal year 2014.

In the course of fulfilling its responsibilities, the audit committee has:

You are being asked to vote on a non-binding advisory proposal on our executive compensation program for our named executive officers as described in our **Compensation Discussion and Analysis** beginning on **page 34** and **Executive Compensation** tables beginning on **page 50**.

***OUR BOARD RECOMMENDS THAT SHAREHOLDERS VOTE **FOR** THE ADVISORY VOTE ON
THE COMPENSATION OF OUR NAMED EXECUTIVE OFFICERS.***

The board and the compensation committee are committed to sound governance practices and recognize the interest our shareholders have expressed on CME Group's executive compensation program. As part of that commitment, and pursuant to Section 14A of the Exchange Act, our shareholders are being asked to approve an advisory resolution on the compensation of the named executive officers, as reported in this proxy statement. We plan to include these advisory resolutions on an annual basis.

This proposal, commonly known as the "say on pay" proposal, gives you the opportunity to endorse our 2014 executive compensation program and policies for the named executive officers through a vote "FOR" the approval of the following resolution:

RESOLVED, that the shareholders of CME Group approve, on an advisory basis, the compensation of CME Group's named executive officers, as disclosed pursuant to the compensation disclosure rules of the SEC in the proxy statement for the CME Group 2015 annual shareholders meeting (which disclosure includes the Compensation Discussion and Analysis, the Executive Compensation tables and any related material).

This vote is not intended to address any specific item of compensation, but rather our overall compensation policies and procedures relating to the named executive officers. Accordingly, your vote will not directly affect or otherwise limit any existing compensation or award arrangement of any of the named executive officers. Because your vote is advisory, it will not be binding on the board. The board and the compensation committee, however, will take into account the outcome of the "say on pay" vote when considering future compensation arrangements.

REQUIRED VOTE

Must receive a "FOR" vote from the holders of a majority of the shares of our Class A and Class B common stock present in person or represented by proxy and entitled to vote on this matter at the annual meeting voting together as a single class to be deemed approved.

You are being asked to vote on a non-binding advisory proposal to adopt an amendment to our Tenth Amended and Restated Bylaws (**Current Bylaws**) to add a new Article IX to provide that, with certain exceptions, Delaware will be the exclusive forum for certain legal actions (**Bylaw Amendment**).

OUR BOARD RECOMMENDS THAT SHAREHOLDERS VOTE FOR THE APPROVAL OF THE AMENDMENT.

The form of the proposed Bylaw Amendment is as follows:

ARTICLE IX

Forum for Adjudication of Certain Disputes

Section 9.1. Forum for Adjudication of Certain Disputes. Unless the Corporation consents in writing to the selection of an alternative forum (*an Alternative Forum Consent*), the Court of Chancery of the State of Delaware shall be the sole and exclusive forum for (i) any derivative action or proceeding brought on behalf of the Corporation, (ii) any action asserting a claim of breach of a fiduciary duty owed by any Director, officer, shareholder, employee or agent of the Corporation to the Corporation or the Corporation's shareholders, (iii) any action asserting a claim against the Corporation or any Director, officer, shareholder, employee or agent of the Corporation arising out of or relating to any provision of the General Corporation Law of Delaware or the Certificate of Incorporation or these Bylaws, or (iv) any action asserting a claim against the Corporation or any Director, officer, shareholder, employee or agent of the Corporation governed by the internal affairs doctrine of the State of Delaware; provided, however, that, in the event that the Court of Chancery of the State of Delaware lacks subject matter jurisdiction over any such action or proceeding described in clauses (i) through (iv), the sole and exclusive forum for such action or proceeding shall be another state or federal court located within the State of Delaware, in each such case, unless the Court of Chancery (or such other state or federal court located within the State of Delaware, as applicable) has dismissed a prior action by the same plaintiff asserting the same claims because such court lacked personal jurisdiction over an indispensable party named as a defendant therein. Failure to enforce the foregoing provisions would cause the Corporation irreparable harm and the Corporation shall be entitled to equitable relief, including injunctive relief and specific performance, to enforce the foregoing provisions. The existence of any prior Alternative Forum Consent shall not act as a waiver of the Corporation's ongoing consent right as set forth above in this Section 9.1 with respect to any current or future actions or claims. For the avoidance of doubt, this Section 9.1 does not supersede any of the rules of any of the Corporation's exchanges or the bylaws or charters of any of the Corporation's subsidiaries, including, but not limited to, with respect to the jurisdiction and venue provisions of such rules, bylaws or charters applicable to claims brought by members of such exchanges or shareholders of such subsidiaries.

The Current Bylaws, as proposed to be amended and marked to show the Bylaw Amendment, are attached as **Appendix B** to this proxy statement.

BACKGROUND

The Bylaw Amendment is intended to assist the Company in avoiding multiple lawsuits in multiple jurisdictions regarding similar matters related to Delaware corporate law, our state of incorporation, by generally requiring the types of claims specified in the Bylaw Amendment (**Covered Claims**) be brought in a Delaware court. By adopting such a requirement, the Company seeks to assure the application of a relatively familiar body of case law and level of judicial expertise and to promote efficiency and cost savings in the resolution of any such claims. The Bylaw Amendment would provide the Company and its shareholders with greater predictability regarding the outcome of Covered Claims and would also mitigate the risks of wasteful, duplicative suits, the outcomes of which could be inconsistent (notwithstanding that each forum purports to follow Delaware law). The board believes that Delaware courts are best suited to address such claims given that the Company is

Edgar Filing: CME GROUP INC. - Form PRE 14A

incorporated in Delaware and that Delaware courts have a reputation for expertise in corporate law matters. Moreover, Delaware courts have in particular developed streamlined procedures and processes that help provide relatively quick, consistent decisions for litigating parties.

24 [Notice of Annual Meeting of Shareholders](#) and 2015 Proxy Statement

Table of Contents

At the same time, the board believes that the Company should retain the ability to consent to an alternative forum on a case-by-case basis where the board determines that the Company's interests and those of its shareholders would best be served by permitting such a claim to proceed in a forum other than the courts designated in the Bylaw Amendment.

Although some plaintiffs might prefer to litigate matters in a forum outside of Delaware because another court may be more convenient for them or more favorable for their claims (among other reasons), the board believes that the Bylaw Amendment would provide substantial benefits to the Company and its shareholders as a whole, as discussed above, that outweigh these concerns. Further, the Bylaw Amendment would only regulate the forum where shareholders may file Covered Claims. The Bylaw Amendment does not restrict the ability of our shareholders to bring such claims or the remedies available if such claims are ultimately successful.

The board is aware that certain proxy advisors, and even some institutional holders, take the view that they will not support an exclusive forum clause such as the Bylaw Amendment until the company requesting support can show it already has suffered material harm as a result of multiple shareholder suits filed in different jurisdictions regarding the same matter. The board believes that it is more prudent and in the best interest of shareholders to take preventive measures before the Company and the interests of most of its shareholders are materially harmed by the increasing practice of the plaintiff's bar to file claims in multiple jurisdictions. It is important to note that this proposed action by the board is not being taken in reaction to any specific litigation confronting the Company; rather, this action is being taken on a prospective basis to prevent potential future harm to the Company and its shareholders.

The Bylaw Amendment requires that a court in which a Covered Claim is initiated in contravention of the Bylaw Amendment be willing to enforce its terms. It cannot be assured that all courts will determine that such a provision is enforceable or that courts will be willing to force the transfer of such proceedings to a Delaware court. However, the Company believes that if shareholders approve the Bylaw Amendment, a court would be more likely to enforce it.

Further, before approving the Bylaw Amendment, the governance committee and the board was informed of and considered, our shareholders views on this topic based on management discussions with certain shareholders in early 2015, which indicated they would support such a proposal submitted by management.

For the foregoing reasons, the board believes that generally providing for Delaware as the exclusive forum for Covered Claims is advisable to, and in the best interests of, the Company and its shareholders.

VOTE REQUIRED

Shareholder approval is not required for our board to amend the Current Bylaws; however, the board believes that shareholder approval of the Bylaw Amendment is important. To receive such approval, the Bylaw Amendment must receive a FOR vote from holders of a majority of the shares of our Class A and Class B common stock present in person or represented by proxy and entitled to vote on this matter at the annual meeting voting together as a single class. If the Bylaw Amendment is approved by our shareholders, the board intends to adopt the amendment as soon as practicable following the receipt of such approval. If the proposal is not approved, the board will reconsider whether the Bylaw Amendment is in the best interests of the Company and its shareholders.

Table of Contents

This section provides an overview of the role and responsibility of our compensation committee. We have an executive compensation program that is designed to tie pay to performance, balance rewards with prudent business decisions and risk management, and focus on both annual and long-term performance for the benefit of our shareholders. In designing our program, we also take into consideration our unique role in the financial services industry.

OUR COMPENSATION COMMITTEE PROVIDES OVERSIGHT OF OUR COMPENSATION PROGRAM FOR OUR SENIOR MANAGEMENT GROUP

The compensation committee is comprised of seven independent directors. The primary responsibilities of the compensation committee are to review and approve compensation arrangements for our senior management group (our Executive Chairman & President, CEO and the other members of our executive team), to review and recommend compensation arrangements for the board of directors, to adopt incentive compensation plans in which senior management is eligible to participate and to oversee matters relating to employee compensation, employee benefit plans and employee incentive programs. A complete description of the committee's responsibilities may be found in its charter, a copy of which is on our website.

There were seven meetings of the committee in 2014. The committee typically meets in executive session for a portion of each regular committee meeting and may include members of management as appropriate. The committee provides regular reports to the board of directors on its activities.

THE COMMITTEE CONSIDERS THE RECOMMENDATIONS OF OUR EXECUTIVE CHAIRMAN & PRESIDENT AND CEO IN APPROVING COMPENSATION FOR OUR SENIOR MANAGEMENT GROUP

The committee is solely responsible for approving the compensation of our senior management group. The committee, however, takes into consideration the recommendations of our Executive Chairman & President and CEO in approving compensation for other members of our senior management group.

THE COMMITTEE DELEGATES AUTHORITY TO OUR CEO ON A LIMITED BASIS SUBJECT TO PRE-ESTABLISHED CRITERIA

Subject to pre-established guidelines for individual awards and aggregate value limitations, the committee delegates authority to the CEO to approve equity awards and annual cash bonus awards for employees other than the Executive Chairman & President, members of our executive team and our chief accounting officer. The committee reviews annual reports on the use of such delegation.

OUR PROGRAM IS DESIGNED TO CREATE LONG-TERM SHAREHOLDER VALUE WHILE DISCOURAGING EXCESSIVE RISK TAKING

We realize that it is not possible to grow and enhance long-term shareholder value without assuming some level of risk. This is true whether we decide to make an acquisition, introduce a new product or change our corporate strategy. Our compensation program is designed to create appropriate incentive for creating long-term shareholder value and delivering on our financial and strategic goals while discouraging excessive risk taking.

Several elements of our program, which are discussed in more detail in the **Compensation Discussion and Analysis** section beginning on **page 34**, are designed to promote the creation of long-term value and thereby discourage behavior that leads to excessive risk taking. The following are the key elements of our program designed to address compensation risk:

We utilize a mix of both fixed and variable compensation. Our fixed base pay is intended to provide a steady income.

A significant portion of our senior management group compensation is composed of long-term equity incentives and the senior management group is also subject to company stock ownership guidelines based on their level of responsibility.

Our annual cash bonus plan for our senior management group and other senior employees will not pay out in the event we fail to achieve cash earnings at or above the threshold level of performance.

Table of Contents

We set maximum guidelines for annual incentive and long-term incentive awards, thereby establishing and communicating potential payouts.

All compensation of our senior management group is subject to the approval of the compensation committee, which includes the ability to decrease an award for failure to perform or inappropriate risk-taking.

We have adopted a recoupment policy, whereby employees at the level of managing director and above may be required to repay any previously granted annual bonus awards to the extent that all or a portion of such individual's award was not actually earned due to a restatement of our financial results with the outcome being the achievement of the related performance metric was less than previously reported.

We prohibit all of our employees and board members from engaging in any derivative transactions in our securities (hedging the economic risk of their ownership of our stock) and have adopted a policy restricting the pledging of our Class A shares by our board members and executive officers.

OUR COMPENSATION COMMITTEE HAS ITS OWN INDEPENDENT COMPENSATION CONSULTANT

The committee has engaged Meridian Compensation Partners, LLC to serve as its independent advisor. During 2014, Meridian advised the committee regarding the revised employment agreements with our Executive Chairman & President and CEO. Meridian also provided information on trends in executive compensation as well as general executive compensation advice. In early 2014, Skadden, Arps, Slate, Meagher & Flom LLP & Affiliates also provided legal counsel to the committee regarding the revised employment agreements.

Management also engages its own consultants to provide advice on the design of various compensation programs. Specifically in 2014, management engaged Exequity LLC to provide advice on both short- and long-term incentive design and other more general executive compensation matters.

Such consultants may attend compensation committee meetings and provide advice to the compensation committee. The committee at its discretion may also include its independent advisor in such reviews and decision-making processes, meeting either jointly or separately from management and management's consultant.

The committee has assessed the independence of the advisors it engaged in 2014 relative to the six factors identified by the SEC and NASDAQ and determined they are independent and without conflict of interest.

OUR COMMITTEE IS COMPOSED OF INDEPENDENT MEMBERS WITH LIMITED RELATIONSHIPS WITH THE COMPANY

During 2014, none of the members of the committee served at any time as an officer or employee of CME Group or received any compensation from us other than in his capacity as a member of the board or a committee thereof or compensation for service on the board of one of our wholly-owned subsidiaries. Except as described below regarding Mr. Shepard, none of the members of the compensation committee has any relationship with us other than service as a director or member of one of our exchanges or as an employee of one of our clearing or member firms. Mr. Shepard owns a minority interest in one of our clearing firms, which made payments to us of approximately \$89 million in 2014 in connection with trading activity conducted on our exchanges. Such fees are consistent with those prevailing at the time for corresponding activity by other similarly situated unrelated third parties. None of our executive officers served as a director or member of the compensation committee of another entity, one of whose executive officers served on our compensation committee during 2014.

Opportunity for shareholder feedback

The compensation committee carefully considers feedback from our shareholders regarding the compensation program for our senior management group. We believe the changes made in recent years to enhance the performance orientation of our program have been well received by shareholders, as evidenced by our say on pay vote results.

At our 2014 annual meeting of shareholders, approximately 97% of shareholders voted FOR the approval of our non-binding advisory vote on the compensation of our named executive officers. We plan to continue to hold annual advisory votes on executive compensation, which is consistent with the outcome of the shareholder advisory vote in 2011 on the frequency of such votes.

Shareholders who wish to directly communicate with members of the compensation committee may do so using *directors@cmegroup.com* as discussed on **page 14** of this proxy statement.

You should read this section in conjunction with the advisory vote we are conducting on the compensation of our named executive officers under **Item 3** on **page 23** as it contains information that is relevant to your voting decision.

2014 compensation highlights for our named executive officers

The compensation committee took the following compensation actions with respect to our named executive officers during 2014 or related to 2014 performance:

Entered into revised employment agreements with Messrs. Duffy and Gill in early 2014. The details of the revised employment agreements for Messrs. Duffy and Gill can be found beginning on **page 58**.

Entered into a retention agreement with Mr. Parisi to assist with the orderly transition of the chief financial officer duties to Mr. Pietrowicz, the details of which can be found on **page 38**.

Base pay increases were awarded to Mr. Pietrowicz, Mr. Parisi, Ms. Taylor and Mr. Durkin in 2014, and Mr. Pietrowicz in early 2015, as described on **page 42**.

Awarded bonuses to our named executive officers based on our achievement of 2014 cash earnings at 103.5% of the target goal as described beginning on **page 43**. For 2014, we continued to set a cash earnings goal that required significant effort on behalf of our management in the continued challenging environment.

Increased the annual equity award target opportunity for our named executive officers from 175% to 200% of base salary to better align with market levels.

Replaced the three-year cash earnings growth per share metric used in the performance share design with three-year growth in net income margin measured on a relative basis to increase the focus on expense management and to better diversify the metrics used in our incentive design.

Awarded performance shares to our senior management group in September 2014 with goals tied to our growth in net income margin as compared to the diversified financial services index of the S&P 500 and total shareholder return as compared to the S&P 500 measured over a three-year period (2015-2017), as described on **page 45**.

Awarded performance-granted restricted shares in March 2014 to Messrs. Duffy and Gill which were earned based on the company's 2013 relative total shareholder return performance achievement at the 80th percentile of the S&P 500. The performance-granted restricted shares are described on **page 46**.

In 2014, 50% of target total compensation for our named executive officers was considered performance-based, as it was directly tied to cash earnings, relative net income margin growth or relative stock performance goals.

Key elements of the program are designed to ensure pay for performance

Our overall goals and philosophy are complemented by several specific elements that are designed to align the compensation for our senior management group with performance and position the Company for creating long-term shareholder value including:

Our annual bonus is tied to our generation of cash earnings. To the extent we fail to achieve cash earnings at the threshold level, representing 25% below the target, no bonuses would be paid to our senior management group. The bonus opportunities for our named executive officers are set forth on **page 43**. We believe the cash earnings metric is a key component to measuring our growth and contributes directly to deriving value for our shareholders as it is the metric used for determining our regular quarterly dividend payments.

The aggregate amount of our bonus pool is subject to an overall cap when we achieve cash earnings at the maximum level, representing 20% above the established target. We believe this cap provides transparency to our investors as to our compensation exposure and the expected expense is accrued on a quarterly basis based on actual cash earnings performance.

In addition to verifying the annual achievement of cash earnings for purposes of our bonus program, our compensation committee also considers other elements of our performance, such as our net income, total shareholder return, earnings per share and return on equity, as appropriate.

Our annual long-term incentive awards for our senior management group are comprised of 50% time-vested restricted shares and 50% performance shares. The performance shares have a three-year performance period

Table of Contents

with growth in net income margin relative to the diversified financial services index of the S&P 500 and total shareholder return relative to the S&P 500 as the performance metrics. We also use performance shares for key longer-term growth initiatives to focus select leaders on the achievement of financial metrics and/or operational milestones associated with our most critical growth initiatives. The annual equity award opportunities for our named executive officers are set forth on **page 45**.

Our senior management group is subject to stock ownership guidelines as discussed on **page 48**.

To ensure alignment with our shareholders, we have a policy that prohibits all employees and board members from engaging in any hedging or other derivative transactions with respect to CME Group stock as well as a policy which restricts pledging of our Class A common stock by our board members and executive officers.

Overview of pay and performance alignment

One of the guiding principles of our compensation program is to focus on achievement that benefits us and our shareholders. In support of that objective, a significant portion of the pay package for our CEO, Mr. Gill, and each of the other named executive officers is delivered in the form of stock-based compensation, the value of which rises and falls in alignment with our stock performance.

The following graphic depicts the alignment of the total pay of the individual serving as CEO at the end of the applicable year with our total shareholder return and cash earnings achievement for each of the last five years. Total shareholder return (**TSR**) is shown on a year-over-year, indexed basis. Specifically, an investment of \$100 (with reinvestment of all dividends) is assumed to have been made in our Class A common stock on December 31, 2010 and its performance is tracked through December 31, 2014.

CEO pay, as depicted in the following graphic, is the sum of reported pay elements set forth in the **Summary Compensation Table** for each of the last five years except for the values of stock option, restricted stock, and performance share awards which are included as follows:

The value of stock option awards is shown as (1) the value realized at exercise for any options exercised during the year as reported in the **Option Exercises and Stock Vested** table, and (2) the value of all outstanding, in-the-money stock options at year end measured as the difference between our stock price at year end minus the option exercise price.

The value of restricted stock awards is shown as (1) the value realized on vesting for any shares that vested during the year as reported in the **Option Exercises and Stock Vested** table, and (2) the value of all outstanding restricted shares at year end measured using our stock price at year end.

The value of performance share awards is shown as (1) the value realized on vesting for any earned shares that vested during the year as reported in the **Option Exercises and Stock Vested** table, and (2) the market value of the shares actually earned at the completion of the performance period but have not yet vested, as reported in the **Outstanding Equity Awards at Fiscal Year End** table, and as certified by the committee based on achievement of the performance goals.

While the **Summary Compensation Table** discloses the fair value of stock option, restricted stock and performance share awards on the grant date in the manner required by the SEC (for purposes of allocating the accounting expense over the requisite service period), we feel those values do not reflect the value actually received as a result of actual stock and financial performance. We believe the value of stock option, restricted stock and performance share awards as shown in this section better reflects the true alignment of our CEO's pay with our stock performance. As the graphic shows, our CEO's total actual pay plus the unrealized value of his outstanding equity awards at year end has been aligned with TSR over the last five years, which accords with the primary objectives of our executive compensation program.

Table of Contents

On balance, CEO pay shows alignment with both stock performance and cash earnings given the focus on these measures in our incentive opportunities.

CFO TRANSITION

In August 2014, Mr. Parisi, our CFO since 2004, informed the company that he intended to retire from his position as CFO. As part of our succession plan, the board appointed Mr. Pietrowicz, who had been serving as Senior Managing Director, Corporate Development & Finance, to the position of CFO effective upon Mr. Parisi's retirement from the position. Messrs. Parisi and Pietrowicz worked together to effectuate an orderly transition, which was completed on December 10, 2014. Mr. Parisi remained employed with the organization through December 31, 2014.

PARISI RETENTION AGREEMENT

In connection with his retirement, we entered into a retention agreement with Mr. Parisi in September 2014. Under the terms of the agreement, in exchange for a release of claims against the Company and as consideration for agreeing to remain employed through December 31, 2014 to assist with the transition of duties, Mr. Parisi remained eligible for a bonus under the Annual Incentive Plan for the 2014 plan year, subject to the attainment by the Company of the applicable performance goals. The committee subsequently approved a bonus reflective of the Company's achievement of 103.5% of target level performance. In addition, upon his termination from the Company, all of his outstanding time-vesting equity grants that would have otherwise vested if he had remained employed through December 31, 2015 became vested within five business days of his retirement date. Mr. Parisi forfeited other outstanding time-vesting equity awards and all outstanding performance-based equity awards.

Mr. Parisi remains subject to a confidentiality, non-competition and non-solicitation agreement that prohibits him for one year post-termination from being employed in an executive or managerial capacity by, or providing, whether as an employee, partner or independent contractor, consultant or otherwise, any services of an executive or managerial nature, or any services similar to those provided by Mr. Parisi to the Company, to a competing business.

PHILOSOPHY AND OBJECTIVES OF OUR COMPENSATION PROGRAM

The elements of our executive compensation program are designed to:

Pay for performance. Focus on company and individual achievement for the benefit of CME Group and its shareholders through the incorporation of a significant portion of annual compensation for our senior management group that varies based on company and individual performance.

Reward growth and profitability without undue risk. Motivate and reward our employees to achieve results in support of our strategic initiatives and to encourage profitability and growth while discouraging excessive risk taking.

Hire and retain top caliber executives. Our compensation and benefits program is competitively designed to attract and retain the best talent.

Align with shareholder value. The interests of our senior management group are linked to those of our shareholders through the risks and rewards of the ownership of our stock. The overall design of the program, while competitive, should also be at a reasonable cost to our shareholders.

Our program is designed to be consistent with best practices

The compensation committee designs our compensation program to motivate our senior management group to lead our entire company toward achieving short- and long-term financial and strategic goals, in addition to increasing shareholder value, all without encouraging excessive risk

taking. The committee continually evaluates what it considers to be best practices in executive compensation, and modifies our program to support our strategies and provide an appropriate balance of risk and reward. The following highlights our current compensation practices that we believe drive performance and focus our senior management group on the creation of long-term value:

We tie pay to performance. In 2014, approximately 50% of the target total compensation opportunity for our named executive officers was tied to specific cash earnings, relative net income margin growth or relative total shareholder return performance goals.

We set objective targets tied to company performance for our cash bonus that must be met at the threshold level in order to fund the bonus pool.

Table of Contents

We mitigate undue risk, including utilizing caps on potential payouts and clawback provisions.

We have reasonable post-employment and change of control provisions.

We use employment contracts on a limited basis. Contracts are generally structured to include a three- to five-year term, do not provide for excessive severance payments or include golden parachute tax gross ups.

We have adopted stock ownership guidelines and restrictions on hedging and pledging transactions to ensure our executives interests are linked to those of our shareholders.

We provide only modest perquisites.

Our compensation committee reviews the reasonableness of our compensation by reviewing tally sheets and wealth accumulation reports.

USE OF COMPETITIVE DATA AND COMPARISON PRACTICES

Benchmarking practices

We are a complex organization that seeks to attract talent from a broad group of companies primarily located in the financial services industry and within the technology sector. Because no individual company or single group of companies is exactly comparable to CME Group, when reviewing competitive data, we consider a broad set of data from a number of sources. We believe that reviewing a combination of published survey compensation data in addition to publicly available compensation data (e.g. proxy statements) provides a valid reference point for the range of pay among companies with whom we compete for executive talent.

We broadly target compensation opportunities at the median (50th percentile) of the market, in total and for each component of pay for target performance levels. However, we believe that benchmarking does not provide a complete basis for establishing compensation. Therefore, we do not use the market statistics rigidly, nor do we apply any specific formula to the data. We also review the range of values around the median, including the 25th and 75th percentiles.

We use the competitive compensation data for several purposes as it relates to the named executive officers and other employees. We use it to assess the competitiveness of total compensation for individual members of senior management and other employees on an annual basis and we use it to develop and evaluate total compensation programs and guidelines for senior management and other employees on a more ad hoc basis. When making decisions about senior management pay, we analyze compensation relative to the market median levels, and may make adjustments for market conditions and special considerations as appropriate in the context of our pay for performance philosophy. The compensation committee within its discretion may make alterations based on its evaluation of the benchmarking data as it deems appropriate to ensure that our senior management compensation is performance-based and competitive in nature.

Table of Contents

In early 2014, the committee conducted a review of our peer group companies with the goal of ensuring the peers remain relevant and comparable in terms of size. The committee approved changes to the peer group, including the removal of Automatic Data Processing Inc. and eBay Inc. and the addition of McGraw Hill Financial Inc. and Equifax Inc. In addition, NYSE Euronext ceased to be considered a separate peer company as it was acquired by IntercontinentalExchange Inc.

In selecting the peer group for executive compensation purposes, we targeted the following industries: exchanges, financial services, technology, transaction services and other technology-driven financial companies. We selected companies within these sectors of similar size as measured by revenue and market capitalization. The companies within the peer group are generally between 0.5 and 2.5 times CME Group in terms of revenues or market capitalization. At the time of review in 2014, CME Group was positioned at the 35th percentile of the peer group on revenue and at the 91st percentile on market capitalization.

Comparison of CEO pay to other named executive officers

The differences between the allocation of compensation of our CEO and the other named executive officers are primarily the result of the differences in the role and responsibilities of the individual within the organization, the level of competitive demand for the individual's talent in the industry and the results of our benchmarking studies for similarly situated positions in the marketplace. We have not adopted a policy whereby the compensation of the CEO or any other named executive officer must be a certain multiple higher or lower than any of the other named executive officers. As previously discussed, we broadly target total compensation levels at the median (50th percentile) of our peer group.

Role of individual performance in the program

While consideration of benchmarking data to ensure that our compensation is competitive is a critical component of compensation decisions, individual performance is factored into setting compensation in the following ways:

Base salary adjustments are based on an assessment of the individual's performance in the preceding year, changes in his or her responsibilities as well as a comparison with market data for comparable positions in our peer group and within the industry.

Our incentive targets for annual bonus and equity opportunities are based on the individual's role and responsibilities in the organization in achieving our annual goals as well as the competitive market data for similarly situated positions in the marketplace.

Individual performance and the achievement of specific goals is taken into consideration by the compensation committee in determining whether to use its discretion in approving annual bonuses and equity awards at, above or below the target level.

continuity of
management during that
event.

We do not maintain formal targets for the allocation of total compensation through each of the foregoing elements. We believe that members of our senior management group, who have more direct responsibility for the performance of CME Group, should have a greater percentage of their compensation tied to the performance of CME Group. In accordance with this philosophy:

Base salary should decrease as a percentage of overall compensation as employees gain more responsibility with more direct influence over our performance.

Employees in positions that most directly influence performance should have a larger percentage of their compensation tied to CME Group's performance through equity awards with a portion of the equity awards tied to corporate performance goals.

Actual awards of incentive compensation should be closely aligned with the performance of CME Group.

(2) Note the annual equity value shown in the **Summary Compensation Table** includes the restricted stock award made in September 2014, the performance shares awarded in September 2013 based on 2014-2016 cash earnings growth achievement, and the performance shares awarded in September 2014 based on 2015-2017 net income margin growth relative to the diversified financial services index of the S&P 500 and 2015-2017 total shareholder return relative to the S&P 500.

(3) Other compensation is composed of amounts listed in the **Summary Compensation Table** under Change in Pension Value and Non-Qualified Deferred Compensation Earnings and All Other Compensation columns.

Description of each element of compensation

Base pay

We generally target base pay at the 50th percentile of the competitive market relative to each position's duties and level of responsibility. Each year the compensation committee reviews the base salaries of the senior management group taking into consideration their total compensation. In general, the evaluation of base salaries involves a review of a variety of factors:

The nature and responsibility of the position.

The impact, contribution, expertise and experience of the individual.

Competitive market information regarding salaries to the extent available and relevant.

The importance of retaining the individual along with the competitiveness of the market for the individual's talent and services.

Recommendations of the Executive Chairman & President and CEO (except in the case of their own compensation).

In general, the compensation committee considers salary increases for the senior management group on an annual basis. In early 2014, the committee approved a base salary increase for Ms. Taylor from \$600,000 to \$700,000, for Mr. Durkin from \$600,000 to \$700,000, and for Mr. Parisi from \$500,000 to \$550,000 to recognize their contributions and expanding responsibilities and to better align with competitive market levels. In March 2014, Mr. Pietrowicz received a base salary increase from \$350,000 to \$400,000 in recognition of his contributions. In early 2015, the committee approved a base salary increase for Mr. Pietrowicz from \$400,000 to \$450,000, in recognition of his increasing responsibilities associated with his promotion to CFO.

Bonus

Edgar Filing: CME GROUP INC. - Form PRE 14A

Our annual bonus program is designed to focus the named executive officers and other members of senior management on the accomplishment of specific goals. In support of our philosophy, the performance-based bonus awards only pay out when we achieve cash earnings at or above the threshold level. We use this metric because we believe it provides a transparent view of CME Group's performance during the year. Cash earnings is also the metric used in our dividend policy. Our current dividend policy provides that our dividend target for our regular quarterly dividends will be based on approximately 50% of the prior year's cash earnings.

The cash earnings target is approved by our board of directors as part of our annual planning process and is also approved by the compensation committee as the performance metric for annual bonus opportunities (adjusted to eliminate the impact of certain non-operating items). During the annual planning process, members of our senior management group undergo a detailed process to develop our annual operating budget and our revenue and growth expectations which are used to formulate the projected cash earnings target for the following year. In setting the goals for the upcoming year, it is expected that such goals will be set at levels that require significant achievement on the part of our senior management group taking into consideration CME Group's current circumstances and the overall state of the industry. The 2014 cash earnings target was set at \$1.25 billion.

Annual bonuses will only be paid to our senior management group to the extent we achieve cash earnings at or above the threshold level, which was set at 75% of the target performance goal for 2014. The annual bonus pool is subject to a cap when we achieve cash earnings at the maximum level, which is set at 120% of the established target goal.

Our cash earnings are calculated using the following formula for purpose of the annual bonus.

The following shows our cash earnings goals and actual achievement for 2014 for purposes of our annual bonus program:

Threshold	Target	Maximum	Actual
\$938 million	\$1.25 billion	\$1.5 billion	\$1.29 billion

The compensation committee has discretion to make equitable adjustments to the cash earnings performance calculation to reflect effects of external events outside the control of our senior management group, such as unforeseen litigation or changes in accounting or taxation standards. Such adjustments may also reflect effects of unusual or significant strategic events that are within the control of our senior management that were not contemplated at the time the goal was established and that were undertaken with an expectation of improving our long-term financial performance, such as acquisitions or strategic relationships. In 2014, the committee approved adjustments for certain non-performance items, such as deferred tax and foreign exchange fluctuation impacts, consistent with prior practice.

2014 bonus awards

Annual bonus opportunities are based upon CME Group's achievement of cash earnings and are awarded in consideration of the individual's performance during the year. The committee approved the bonuses for the named executive officers for 2014 based on our achievement of cash earnings and in recognition of the previously discussed accomplishments set forth on **page 1**.

The table below shows the payout opportunities and actual bonus payments for 2014 as well as a comparison to actual 2013 cash bonuses for the named executive officers.

Our 2014 actual annual cash earnings results were 103.5% of the target level performance. As such, bonuses for the named executive officers were approved by the committee at approximately 117.6% of their individual bonus target opportunities. The bonuses for all named executive officers were delivered at the level determined by cash earnings performance, without any additional discretion applied by the committee.

Other members of our senior management group have target bonus opportunities ranging from 75% to 100% of their base earnings.

Equity

Long-term grants of equity are important to reflect an alignment with shareholder value creation and a competitive mix of long- and short-term incentives. Our equity program is designed to reward and encourage the success and contributions of our employees, including our named executive officers, which leads to value creation for CME Group and our shareholders.

Prior to 2011, we used stock options and time-vested restricted stock as the primary long-term incentive vehicles. In 2011, we enhanced our compensation program by introducing performance shares to our annual equity grant program for our senior management group. Since 2012, the annual equity awards for members of our senior management group have been delivered in the form of performance shares and time-vested restricted stock. This mix of equity vehicles enables us to focus employees on stock performance, provides for employee retention and directly aligns employee interests with shareholder value creation.

Equity grant practices

The following is a summary of our equity grant practices and the role of the committee in approving awards:

Our annual equity awards are granted on September 15th or in the event the 15th is not a business day, the closest business day thereto.

At a meeting prior to the annual grant date, the committee approves the awards for the senior management group based upon the target equity opportunities and recommendations from the Executive Chairman & President and CEO using a pre-set calculation of a percentage of base salary and a recent closing price. Actual awards are granted based on the previously approved calculation and the closing price on the actual grant date. The committee receives a report of the actual awards at a subsequent meeting.

The committee has delegated authority to the CEO to approve annual, sign-on, retention and initiative-based equity awards to employees below our senior management group other than our chief accounting officer, within parameters set by the committee. The CEO provides the committee with an annual report on awards granted under such delegated authority.

Our Omnibus Stock Plan and our Director Stock Plan prohibit the granting of options or stock appreciation rights below the market value on the date of grant, the repricing of existing awards, and payment of dividends on performance based shares prior to the achievement of performance goals. Beginning with the 2010 annual equity grant, dividends relating to outstanding shares of unvested time-based restricted stock are accrued and paid out at vesting.

In September 2014, the annual grants for our senior management group were comprised of 50% performance shares and 50% time-vested restricted stock. The equity targets for our named executive officers were established based upon a review of the nature of the responsibility of the position of the executive within CME Group, the competitive market data derived through our benchmarking practices and the ability of the employee to impact the overall growth and performance of CME Group based upon his or her role within the company. As discussed in more detail on **page 39**, we generally target total compensation in the 50th percentile of our peer group. Through our benchmarking process, we compare equity compensation on a standalone basis as well as part of an executive's overall total compensation. In early 2014, the committee approved an increase in the annual equity award target opportunity for the named executive officers from 175% to 200% of base salary to better align with competitive market levels.

The committee has the discretion to adjust the annual equity awards for the Executive Chairman & President and CEO in a range of 15% above or below the target opportunity listed in the table below to distinguish for individual performance. The committee has the discretion to adjust equity awards for the other members of our senior management group from 0.5 to 1.5 times the target opportunities listed in the following table to distinguish for individual performance. The annual equity awards for the named executive officers were generally made at the target levels for 2014.

The table below shows the annual equity award opportunities for our named executive officers and actual awards made in 2014.

(2)Mr. Pietrowicz received an award in September 2014 based on his role at the time of grant, which had an annual equity target of 125% of base salary. As CFO, his annual equity award target is 200% of salary. Under the terms of our equity program, he received a pro rata equity award in March 2015 in connection with his promotion to CFO, the value of which is included in the above table. The blended target would have been approximately 183% of base salary, which is reflected above.

Mr. Parisi did not receive an annual equity award in September 2014, due to his impending retirement.

Performance shares tied to 2015-2017 performance

The September 2014 performance share award criteria were divided with 50% based on growth in net income margin relative to the diversified financial services index of the S&P 500 and 50% based on total shareholder return relative to the S&P 500, measured over 2015 through 2017. Following the three-year performance period, the award will be settled in unrestricted shares of stock, based upon achievement of the following performance metrics:

Relative Net Income Margin Growth Performance % of Target Award Earned				Relative TSR Performance % of Target Award Earned			
Below 25th Percentile	25th Percentile	50th Percentile	75th Percentile	Below 25th Percentile	25th Percentile	50th Percentile	75th Percentile

Table of Contents**Initiative-based performance shares**

In addition to annual equity awards, certain members of our senior management group are eligible to receive performance share awards based upon their contributions to select key corporate initiatives. Participation in such awards is at the recommendation of the Executive Chairman & President and CEO, subject to approval by the compensation committee. Under this program, awards are earned based on performance against initiative-specific operational milestones or financial goals as certified by the committee.

We did not grant any such initiative-based performance shares to members of our senior management group in 2014, but previous awards made to members of our senior management group were tied to 2014 performance goals. Mr. Pietrowicz received an award in 2011 tied to his responsibility to one of our strategic initiatives which had a goal tied to 2014 performance. Ms. Taylor received an award in 2012 tied to her responsibility to a key strategic initiative which also had a goal tied to 2014 performance.

The following table shows total payout opportunities of the previously granted initiative-based performance shares tied to 2014 performance based on the range of performance against the established metrics, and actual shares earned when performance was certified by the committee in early 2015.

Initiative-Based Performance Share Opportunity Tied to 2014 Performance						
Name	Award Date	Performance Metric	Threshold	Performance Share Payout Opportunity (in Shares)		Actual Shares Earned

Kimberly S. Taylor ⁽¹⁾	12/14/2012	2014 Key Strategic Initiative	718	1,435	2,870	2,870

(1) The committee certified performance results associated with the initiative-based awards tied to 2014 performance goals on February 23, 2015. Based on the committee's certification, the pre-established goal associated with Mr. Pietrowicz's award was achieved above the target level, resulting in 113% of the target shares to be paid. For Ms. Taylor's award, the committee certified that the pre-established goal was achieved at the maximum level, resulting in 200% of the target shares to be paid. These shares became vested on March 15, 2015.

Performance-based grant of restricted stock

In lieu of participation in our initiative-based performance share program, Messrs. Duffy and Gill are entitled to receive an annual grant of time-vested restricted stock with a value of up to 100% of their base salary based upon the achievement of outstanding performance as measured based on cash earnings and total shareholder return measured over the prior year:

Outstanding Cash Earnings Performance Award			Outstanding TSR Performance Award		
	For each 0.1% Above 120% of Goal	At or Above 130% of Goal		For each 0.1% Above 75th Percentile	At or Above 85th Percentile
Value of Performance Award as % of base salary	0.5%	50%	Value of Performance Award as % of base salary	0.5%	50%
Shares were granted in March 2014 associated with the achievement of total shareholder return performance at the 80th percentile of the S&P 500 in 2013. The committee certified the performance and approved awards of time-vested restricted shares for Messrs. Duffy and Gill which were granted on March 14, 2014 with a value equal to 25% of their respective salaries. Mr. Gill received 3,316 restricted shares and Mr. Duffy received 4,148 restricted shares in connection with this award. These shares vest over a four-year period with 25% vesting each year.					

For 2014, our actual cash earnings performance was 103.5% of the target goal and our total shareholder return performance was at the 48th percentile of the S&P 500. As a result, no shares were granted to Messrs. Duffy and Gill under this program based on 2014 performance.

Special retention award of restricted stock

In March 2014, we granted a special retention award to Mr. Pietrowicz with a value of \$525,000, comprised of 6,968 restricted shares, vesting over a two-year period, with 50% vesting in March 2015 and 50% vesting in March 2016, subject to continued employment. No other special awards were granted to our named executive officers in 2014.

Table of Contents

Health and Welfare Plans and Retirement Plans

All eligible employees, including the named executive officers, participate in our benefit programs. We provide health and wellness benefits, including medical and dental coverage, disability insurance benefits based on two-thirds of base pay and life insurance benefits based on three times base pay. In addition, employees are eligible to participate in our qualified retirement plans, which consist of our 401(k) savings plan and our cash balance pension plan.

In addition to the qualified retirement plans, employees whose pay exceeds the compensation limits for qualified benefit plans set by the Internal Revenue Service participate in a non-qualified deferred compensation plan which provides for make-whole contributions. For more information on our deferred compensation plans, see **Non-Qualified Deferred Compensation Plans** beginning on **page 57**.

Qualified and non-qualified retirement benefits provided to the named executive officers are set forth in the following tables: **Pension Benefits** and the **Non-Qualified Deferred Compensation Plans** on **pages 56 and 57**, respectively.

PERQUISITES AND OTHER PERSONAL BENEFITS

We provide limited perquisites and other personal benefits to our senior management that we believe are moderate and consistent with our overall compensation program. We provide monthly parking benefits to a subset of our senior management group, including Messrs. Duffy and Gill. Additionally, all of our senior level employees are entitled to an annual physical examination. The aggregate value of all perquisites received by each named executive officer in 2014 did not exceed \$10,000. To the extent that perquisites result in imputed income to the individual, we do not provide gross-up payments to cover the personal income tax due on such imputed income.

POST-EMPLOYMENT COMPENSATION

Our employment contracts contain reasonable provisions and ensure continuity of leadership

Our philosophy is to enter into employment contracts and retention agreements on a very selective basis in light of the particular facts and circumstances involved in the individual employment relationship, such as whether the employment arrangement would be necessary to recruit and/or retain necessary talent with compensation terms that we believe are in accordance with our overall compensation program. Our employment agreements typically are for a period of three to five years, include non-compete and non-solicitation provisions, do not provide for cash severance payments in excess of three times annual base salary, do not provide for gross-up payments (except in connection with certain self-insured supplemental life insurance payments that would be paid to Mr. Duffy's beneficiaries under his agreement) and include a requirement that the executive execute a release agreement before becoming entitled to receive severance payments. All contractual compensation terms within the employment agreements for our senior management group are reviewed and approved by the compensation committee. We believe that our existing employment contracts contain compensation terms in line with our overall compensation program and philosophy. A description of the employment agreements we have with Messrs. Duffy and Gill is set forth in the section entitled **Potential Payments Upon Termination or Change-in-Control Employment Agreements and other Compensation Arrangements with Named Executive Officers** beginning on **page 58**.

We have reasonable change-in-control and other termination provisions

Change-in-control provisions assist us with retention during rumored and actual change of control activity when management continuity is key to preserving the value of the business. We also provide other severance benefits in connection with terminations other than for misconduct. We believe these benefits allow us to facilitate changes with key employees, as needed, and to ensure minimal disruption to the business in exchange for non-competition and non-solicitation benefits for CME Group along with a general release.

A description of our severance policies and practices and the estimated amounts that would be payable to our named executive officers under certain circumstances are set forth under the section entitled **Potential Payments Upon Termination or Change-in-Control** beginning on **page 58**.

OTHER COMPENSATION POLICIES

We have established stock ownership guidelines to ensure alignment of interests with our shareholders

The committee has established the following stock ownership guidelines for the members of our senior management group:

The Executive Chairman & President and CEO: shares with a value equal to at least a multiple of five times base pay.

Other members of the senior management group: shares with a value equal to at least a multiple of three times their respective base pay.

Each individual has five years from the date of hire or promotion to achieve their ownership guideline. As of the 2014 review, all of our named executive officers had satisfied the guidelines.

The compensation committee monitors compliance with these stock ownership guidelines on an annual basis. Generally shares that are deemed owned for purposes of Section 16 of the SEC regulations are counted towards satisfaction of these guidelines. Shares are valued based upon the greater of (i) the fair market value at the time of the assessment and (ii) the actual value at the time of acquisition or, in the case of restricted stock or performance shares, at the time of vesting.

We prohibit derivative transactions and hedging of ownership risk of our securities and have adopted a policy restricting the pledging of our Class A shares

To ensure alignment of interests between our employees and board members and our shareholders and to further ensure that such individuals share in the risks and rewards of the ownership of our stock, we prohibit our employees and members of the board from engaging in any derivative or hedging transactions relative to their ownership of our stock. The board also has adopted a policy prohibiting pledging of our Class A shares. In connection with the adoption of the policy, the board elected to grandfather in the existing pledging arrangements of Messrs. Gepsman, Johnson and Melamed based on the fact that:

The number of shares pledged were approximately 128,000 shares, which is significantly less than 0.1% of our outstanding Class A common stock.

The secured parties have each undertaken not to sell such pledged shares during any period in which our board members are restricted from trading under our compliance policies.

These board members have agreed to own shares not subject to any pledging arrangement with a value that meets their applicable stock ownership guidelines.

The pledging arrangements were related to such individual's derivatives trading activities at CME Group.

Our compensation committee and board annually review the total compensation of our senior management

To ensure the committee members are informed of the potential compensation levels of our senior management group, the committee reviews on an annual basis all components of their compensation package and total compensation. This review includes annual base pay, annual cash bonus,

value of annual equity awards, in-the-money value of all historic equity grants including monetized gains, the value of retirement contributions under our qualified and non-qualified plans, and potential change-in-control payments. The committee provides an annual report on the results of this review to the board during an executive session. No changes to our program were made as a result of the most recent annual review. For more information on the operation of our compensation committee see **page 32**.

We have implemented a recoupment policy

In furtherance of our philosophy to ensure the interests of our senior management are aligned with those of our shareholders, effective as of 2010, the compensation committee recommended and the board approved a recoupment policy. This policy provides the board with the discretion to recoup annual bonus payments to our employees at the level of managing director and above in the event of a financial restatement, the effect of which is that such incentive payments were not otherwise earned by an individual under our bonus programs based upon the restated calculation of our cash earnings or any other performance metric in effect at the time. We plan to continue to monitor the requirements to amend our recoupment policy for compliance with the provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act once implemented by regulation.

(1) The amounts reflected in the *Stock Awards* column reflect the aggregate grant date fair value computed in accordance with Financial Accounting Standards Board ASC Topic 718 without giving effect to estimated forfeitures. The fair value of the 2014 restricted stock grants was calculated using the closing price on March 14, 2014 of \$75.36 and September 15, 2014 of \$79.82. The fair value of performance shares based on cash earnings shown in 2014 was calculated using the closing price on May 20, 2014 of \$68.52. The fair value of performance shares based on TSR relative to the S&P 500 shown in 2014 was calculated using a value of \$115.42 for December 31, 2014, which was derived from a Monte-Carlo simulation. The fair value of performance shares based on growth in net income margin relative to the diversified financial services index within the S&P 500 shown in 2014 was calculated using the closing price on December 31, 2014 of \$88.65.

(2) The amounts included in the *Non-Equity Incentive Plan Compensation* column reflect awards to the named executive officers under our bonus plans, which are discussed on **page 42** under the *Bonus* heading. No other bonuses were paid.

Edgar Filing: CME GROUP INC. - Form PRE 14A

(3) The amounts reflected in the *Change in Pension Value and Non-Qualified Deferred Compensation Earnings* column reflect only the change in the pension value during the particular year. Under our non-qualified deferred compensation plans, participants may invest in one or more market investments that are available from time to time. This is the only return that they receive and, therefore, no above-market earnings are reflected in this table. For more information on our deferred compensation plans, see the section entitled **Non-Qualified Deferred Compensation Plans** on **page 58**.

(4) Amounts included in the *All Other Compensation* column for 2014 are as follows:

	401(k) Company Contribution	Supplemental Plan(8)	Other(9)	Total
Phupinder S. Gill	\$ 7,650	\$ 144,541	\$ 22,912	\$ 175,103
John W. Pietrowicz	7,650	28,671	1,210	37,531
Terrence A. Duffy	7,650	208,673	1,260	217,583

Bryan T. Durkin	4,708	83,746	2,016	90,470
James E. Parisi	7,650	55,037	1,663	64,350

(5) Mr. Gill received an increase in his annual base salary from \$800,000 to \$1,000,000 effective as of May 1, 2012 in connection with our leadership transition. The amount set forth in the *Salary* column for 2012 reflects the actual salary earned during the period.

(6) Mr. Pietrowicz received an increase in his annual base salary from \$350,000 to \$400,000 effective as of March 10, 2014. The amount set forth in the *Salary* column for 2014 reflects the actual salary earned during the period. Mr. Pietrowicz was not a named executive officer prior to 2014.

Table of Contents

(7) Mr. Duffy received an increase in his annual base salary from \$1,000,000 to \$1,250,000 effective as of May 1, 2012 in connection with our leadership transition. The amount set forth in the Salary column for 2012 reflects the actual salary earned during the period. As discussed under the section entitled **Potential Payments upon Termination or Change-in-Control Employment Agreements and other Compensation Arrangements with Named Executive Officers** on page 58, we have agreed to self-insure supplemental life and long-term disability coverage for Mr. Duffy and to gross up his beneficiaries for any additional taxes incurred as a result of the supplemental life coverage. Because no actual payments were made or liabilities incurred as a result of this coverage, no amounts have been included in Mr. Duffy's compensation in respect of such coverage.

(8) The items included under the Supplemental Plan column are 401(k) make-whole and pension make-whole contributions. Make-whole contributions are company contributions for individuals whose compensation has exceeded the statutory compensation limit identified in Section 401(a)(17) of the Internal Revenue Code and thus must be excluded from consideration in qualified retirement plans.

(9) The items included in the Other column include life insurance premiums paid by us for the benefit of the named executive officer as well as tax equalization payments made for business-related travel as applicable. Mr. Gill received a tax equalization payment of \$20,896 related to business travel that occurred over 2011-2013 and Ms. Taylor received a tax equalization payment of \$7,411 for business travel that occurred over 2009-2012. The Company provides such tax equalization payments for business-related travel to all impacted employees regardless of level.

PENSION BENEFITS

We maintain a non-contributory defined benefit cash balance pension plan for eligible employees. To be eligible, an employee must have completed a continuous 12-month period of employment with us and have reached the age of 21. Our funding goal is to have the pension plan 100% funded on a projected benefit obligation basis, while also satisfying any minimum required contributions and maximizing tax deductible contribution requirements. Participants are fully vested in their accounts after three years of service. Once an employee becomes a participant in the pension plan, their notional pension account is credited with an amount equal to an age-based percentage of that individual's earnings plus the greater of 4% interest or the December yield on one-year constant maturity yield for U.S. Treasury notes. During 2014, the pension plan interest rate was 4%. The pension account is portable and vested balances may be paid out when participants end their employment with us. Alternatively, upon retirement, a participant may elect to receive the balance in the account in the form of one of various monthly annuities.

The following is the schedule of employer contributions based on age and percentage of pensionable pay (including base pay, regular annual bonuses and merit lump sum payments) under our pension plan. Pensionable pay is limited by the Internal Revenue Service Code, which imposed a limit of \$260,000 in 2014:

Age	Employer Contribution Percentage
Under 30	3%
30 34	4
35 39	5
40 44	6
45 49	7
50 54	8
55 or greater	9

Table of Contents

The following table below sets forth the estimated payments under our pension plan for our named executive officers upon retirement based upon the present value of the benefits expected to be paid in the future.

Name	Number of Years Credited Service	Present Value of		Payments During Last Fiscal Year
		Accumulated Benefit(1)		
Phupinder S. Gill	25	\$	403,327	\$
John W. Pietrowicz	10		188,681	
Terrence A. Duffy	7		163,079	
Kimberly S. Taylor	25		372,479	
Bryan T. Durkin	32 ⁽²⁾		616,375	
James E. Parisi	25		315,585	

(1) In calculating the present value of the accumulated benefit, the following assumptions were used: assumed retirement age of 65; discount rate of 4.2% as of December 31, 2014; and projected future investment crediting rate assumption of 4% as of December 31, 2014. The retirement age is the earliest unreduced retirement age as defined in our pension plan. Under the terms of our pension plan, years of service for purposes of the plan are credited beginning on the first day of the calendar quarter on or after attaining one year of service with CME Group. Therefore, years of credited service under the plan are less than an employee's actual period of service with CME Group.

(2) Includes Mr. Durkin's prior service with CBOT and benefits previously accrued under the legacy CBOT pension plan.

NON-QUALIFIED DEFERRED COMPENSATION PLANS

All of our senior level employees, including our named executive officers, are eligible to defer up to 55% of their annual base salary and up to 100% of their bonus into our Senior Management Supplemental Deferred Savings Plan. The contributions made by our named executive officers under this plan in 2014 are shown in the table below under Executive Contributions. Deferrals may be invested in one or more market-based investments offered by the plan from time to time at the choice of the individual. The return on their investment choice is the only return they will receive on the contributions under the plan. We do not provide any guaranteed rate of return. There is no limitation on their ability to change investments. Distributions will be on a fixed date, at termination or six months after termination depending upon the time of the distribution election and the requirements of applicable law. The deferred savings plan also includes 401(k) make-whole and pension make-whole contributions. Make-whole contributions are company contributions for individuals whose compensation has exceeded the statutory compensation limit identified in the Internal Revenue Service code and thus must be excluded from consideration in qualified retirement plans. These amounts are included in the table below under Registrant Contributions. In addition to the Senior Management Supplemental Deferred Savings Plan, some named executive officers below may have a balance in the Supplemental Executive Retirement Plan, which is a legacy CME Group nonqualified plan that was frozen on January 1, 2006. Though no further contributions were made to this plan since that time, there are still returns on investments within this plan that are included in the table below. The aggregate balance at year-end in the table below includes any balance the named executive officer may have in this plan as well as the Senior Management Supplemental Deferred Savings Plan.

- (2) The amounts included under the **Registrant Contributions** column consist of: 401(k) make-whole and pension make-whole contributions and are included in the **All Other Compensation** column of the **Summary Compensation Table**.
- (3) **Aggregate Earnings** are based on the investment selection of the individuals from one or more market-based investments that the plan offers from time to time and are the only return on contributions made by the named executive officer and CME Group. **Aggregate Earnings** represent amounts earned on contributions made in 2014 as well as prior contributions. Such earnings are not included in the **Summary Compensation Table** because they were not above market.

Table of Contents**POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE-IN-CONTROL**

We have existing employment agreements with two of our named executive officers: Messrs. Duffy and Gill. These contractual commitments are summarized below. For Mr. Pietrowicz, Mr. Durkin, Ms. Taylor and Mr. Parisi, their employment relationships are governed by our policies and practices that we have in place for other employees from time to time, including members of senior management. In addition, we entered into a retirement agreement with Mr. Parisi in order to ensure an orderly transition of the CFO duties, as described on **page 38**. Estimated termination payments to our named executive officers other than Mr. Parisi under our employment agreements and general policies are shown in the table beginning on **page 60**. For Mr. Parisi, this table reflects the actual payments received in connection with his retirement from the company on December 31, 2014.

Employment Agreements and other Compensation Arrangements with Named Executive Officers

As discussed in the **Compensation Discussion and Analysis** section, our philosophy is to enter into employment contracts and retention agreements on a very selective basis in light of the particular facts and circumstances involved in the individual employment relationship. The following is a summary of the key terms of our current executed employment agreements with Messrs. Duffy and Gill, which were most recently amended and restated effective as of February 5, 2014.

Agreement Term. Mr. Duffy's contract expires on December 31, 2017 and Mr. Gill's contract expires on December 31, 2016.

Minimum Base Salary. Mr. Duffy's minimum base salary is \$1,250,000 and Mr. Gill's minimum base salary is \$1,000,000.

Annual Bonus and Equity Compensation. Messrs. Duffy and Gill participate in our bonus incentive plan and equity incentive plan on terms similar to those of our other most senior executives as approved by the compensation committee.

Termination Provisions. In the event of a termination of employment by the Company without cause, as defined in the agreement, in addition to his accrued benefits, the executive is entitled to a one time lump sum severance payment equal to the greater of (i) one times his then current base salary and (ii) the remaining base salary payable to the executive during the agreement term but in no event more than two times his then current base salary, which payments are subject to the executive's timely execution and delivery of a general release. Additionally, upon such a termination all outstanding unvested time-vesting equity awards that were granted after November 4, 2010 for Mr. Duffy and after August 5, 2009 for Mr. Gill will automatically vest and in the case of stock options and stock appreciation rights will remain exercisable for a period of four years from the date of termination (but not beyond the maximum term of the award). Also upon such a termination, all outstanding performance-based equity awards shall become vested or be forfeited solely based on actual performance measured over the full performance term.

In the event of executive's death or disability, as defined in the agreement, all unvested time-vesting equity awards granted after November 4, 2010 for Mr. Duffy and after August 5, 2009 for Mr. Gill will vest and in the case of stock options and stock appreciation rights will remain exercisable for a period of four years from the date of the event (but not beyond the maximum term of the award) and all performance-based equity awards shall become vested or be forfeited solely based on actual performance measured over the full performance term.

Change of Control. In the event of a change of control, as defined in the agreement, prior to termination of employment, all of the executive's unvested time-vesting equity awards shall become vested and all of the executive's performance-based equity awards shall become vested or be forfeited solely based on actual performance measured over the full performance term (unless a more favorable treatment is provided in the agreement evidencing the particular award or applies to the award pursuant to the operation of the applicable plan under which the award was granted, in which case such more favorable treatment will apply). If executive is involuntarily terminated without cause within 60 days prior to a change of control, all of his unvested time-vesting equity awards that would have been outstanding had he been employed on the date of the change of control will become vested and all performance-based equity awards shall become vested or be forfeited solely based on actual performance measured over the full performance term (unless a more favorable treatment is provided in the agreement evidencing the particular award or applies to the award pursuant to the operation of the applicable plan under which the award was granted, in which case such more favorable treatment will apply).

Non-Compete Provision. The agreements also contain provisions prohibiting the executive during the term of his employment, and for one year thereafter, from being employed in an executive or managerial capacity by, or providing, whether as an employee, partner, independent

Edgar Filing: CME GROUP INC. - Form PRE 14A

contractor, consultant or otherwise, any services of an executive or managerial nature, or any services similar to those provided by him to the Company, to a competing business.

Treatment of Equity at Expiration. At the expiration of the term of the agreement, if the executive is employed by the Company, all outstanding unvested time-vesting equity awards granted to the executive after November 4, 2010 for Mr. Duffy and after August 5, 2009 for Mr. Gill will vest and all of performance-based equity awards shall become vested or be forfeited solely based on actual performance measured over the full performance term, which vesting is subject to executive's timely execution and delivery of a general release.

Additional Benefits. In the event of executive's disability or following any termination of employment by him voluntarily or by the Company without cause, executive will also be entitled to receive insurance and health benefits until the earlier to occur of (i) the fourth anniversary of the expiration or termination, as applicable, or (ii) the date the executive is covered by comparable insurance and health benefits.

In the event that life insurance coverage for Mr. Duffy results in taxable income to his beneficiaries, CME Group will provide a gross up.

Other CME Policies and Practices

The following is a summary of our other plans in place that provide for benefits upon termination of employment and/or in the event of a change of control.

Annual Performance Bonuses. In accordance with the terms of our bonus plans, in the event an employee dies or becomes disabled, he or she or his or her beneficiaries will be entitled to receive a pro rata bonus.

Severance Plans. The compensation committee has adopted a written severance policy for termination due to job elimination, reduction in force, or in limited circumstances, performance.

Severance Pay for Senior Employees	2 weeks per year of service, 6 week minimum, up to 39 weeks
Severance Pay for Other Exempt Employees	2 weeks per year of service, 4 week minimum, up to 26 weeks
Severance Pay for Non-Exempt Employees	1 week per year of service, 4 week minimum, up to 26 weeks

Additionally, the plan provides for COBRA coverage and outplacement services as well as acceleration of any outstanding unvested stock options and restricted shares that would have otherwise vested during the severance pay period.

Equity Plans. As a result of our mergers with CBOT Holdings and NYMEX Holdings, we have three employee equity plans: the Omnibus Stock Plan, the CBOT equity plan and the NYMEX equity plan. With the exception of Messrs. Duffy and Durkin, all grants to the named executive officers as employees were made under the Omnibus Stock Plan. Mr. Duffy received grants under the Director Stock Plan prior to his hiring as an executive. Prior to our merger with CBOT, Mr. Durkin received equity awards under the terms and conditions of the CBOT equity plan. In connection with the receipt of shareholder approval of certain amendments to our Omnibus Stock Plan in 2009, we agreed to freeze future grants of shares under the CBOT equity plan and the NYMEX equity plan. The terms of the Omnibus Stock Plan provide that in the event of death, the employee's beneficiaries would vest in any outstanding equity awards. In the event of termination due to disability, restricted stock awards become vested. Awards granted under the Omnibus Stock Plan automatically vest upon a change of control, with performance shares granted prior to May 23, 2012 vesting at the maximum level and performance shares granted after May 23, 2012 vesting at the greater of actual performance at the time of the change of control or the target level.

All of our equity plans contain provisions relating to the vesting of outstanding awards at the time of a change of control (as defined in the plans). In general, a change of control will be deemed to have occurred if:

Another entity owns more than 50% of the voting power of our common stock (all equity plans).

A transaction occurs in which any person is deemed to be the beneficial owner of at least 20% of our voting securities except for certain passive investors or as a result of a reorganization (CBOT equity plan).

Individuals who previously comprised our board or who were nominated by our board's nominating committee cease to constitute at least a majority of our board (all equity plans).

The sale, transfer or disposition of substantially all of our assets (CBOT equity plan and NYMEX equity plan).

The approval of our complete liquidation or dissolution (Omnibus Plan).

Table of Contents**POTENTIAL PAYMENTS TO NAMED EXECUTIVE OFFICERS**

The following table sets forth the estimated benefits and payments upon termination of our named executive officers as of year-end, under various circumstances. Except for Mr. Parisi, these payments assume a termination or change of control effective upon December 31, 2014 in accordance with their contractual provisions in effect at such time. Unless otherwise specified, payments and benefits that would be generally available to all employees, including accrued benefits, are not included in the amounts below. Additional amounts may be paid in respect of pension and defined compensation benefits. See the previous sections entitled **Pension Benefits** and **Non-Qualified Deferred Compensation Plans**.

(1) Cash severance amounts represent contractual amounts for Messrs. Duffy and Gill in accordance with their contracts in effect at the end of 2014. Estimated cash severance amounts for Mr. Pietrowicz, Ms. Taylor and Mr. Durkin are based upon our severance policy for senior leaders of CME Group. As of

Edgar Filing: CME GROUP INC. - Form PRE 14A

December 31, 2014, Mr. Pietrowicz had 11 years of service, Ms. Taylor had 26 year of service and Mr. Durkin had 32 years of service for purposes of the policy.

- (2) Amounts shown for the Value of Equity Subject to Accelerated Vesting are based on the applicable stock plan, severance plan and contractual provisions in place and include accelerated vesting of outstanding options, restricted stock and performance shares as applicable. For purposes of this analysis, for Messrs. Duffy and Gill, for performance awards tied to 2012 performance that were settled in time-vesting restricted shares, the actual number of shares earned were used in the calculations; for outstanding performance awards tied to performance beyond 2012, the target number of shares were used in the calculations. For Mr. Pietrowicz, Ms. Taylor and Mr. Durkin, for performance awards tied to 2012 performance that were settled in time-vesting restricted shares, the actual number of shares earned were used for all applicable scenarios (given the performance had been certified by the compensation committee prior to December 31, 2014, however accelerated vesting would be subject to approval by the compensation committee); for outstanding performance awards where performance was

not certified by the committee before December 31, 2014, the target number of shares was used in all applicable scenarios other than in the case of change in control for performance awards granted prior to May 2012, in which case the maximum number of shares was used. Unless specifically provided for in contractual agreements, outstanding performance awards do not receive accelerated vesting in the case of involuntary termination. Our stock plan was amended in 2012 to provide for performance awards to vest at the greater of actual or target performance in the case of a change in control. The values were determined using the closing price on December 31, 2014 of \$88.65.

- (3) Amounts shown for the **Continuation of Health and Welfare Benefits** reflect our contractual agreements with Messrs. Duffy and Gill in effect during 2014 to provide them with certain continuing benefits, and include the amount of COBRA coverage under our severance policy for Mr. Pietrowicz, Ms. Taylor and Mr. Durkin, which is available to all employees. Mr. Duffy's continuing benefits do not reflect the additional amounts that CME Group may incur in connection with the self-insurance of certain benefits as previously described because such amounts were granted for the purposes of providing Mr. Duffy with the disability insurance benefits based on two-thirds of base pay and life insurance benefits based on three times base pay consistent with benefits provided to other employees on a broad basis.
- (4) Amounts shown for the **Other Accrued Pay and Benefits** in event of death or disability include accrued bonus payments pursuant to our bonus plans based on actual bonus amounts for 2014.
- (5) Mr. Parisi retired from the Company on December 31, 2014. Amounts received in connection with his retention agreement are included above and discussed in detail under the sections entitled **CFO Transition** and **Parisi Retention Agreement** beginning on **page 38**.

Our directors play a critical role in guiding our strategic direction and overseeing management. Developments in corporate governance and financial reporting have resulted in an increased demand for highly qualified directors. We provide compensation commensurate with our directors' workload, risk and opportunity costs. In addition, to satisfy our self-regulatory responsibilities, we have established a number of functional committees of which certain of our directors are members. Our compensation program for our non-executive directors is designed to compensate our directors based on their respective levels of board participation and responsibilities, including service on board committees and functional committees. Our non-executive directors who serve on the boards of certain of our regulated subsidiaries also receive compensation for such service.

Similar to our philosophy on management pay, we generally target the 50th percentile of the competitive market for compensation of the board of directors. We also review the range of values around the median, including the 25th and 75th percentiles. The primary components of our board member compensation package consist of an annual cash stipend, committee meeting fees, an annual equity stipend, committee chairperson retainers for our audit, compensation, finance, governance, market regulation oversight, nominating and risk committees and a stipend for our lead director. Non-executive board members are eligible to participate in our Director Deferred Compensation Plan.

Our most recent review showed that the median of our total for our individual non-executive directors fell below the 50th percentile of our peer group. (See **page 39** for the companies within our peer group.) As a result of this review, the compensation committee recommended and the board approved changes to the non-executive director compensation structure that included: an increase in annual cash stipend from \$25,000 to \$60,000, the elimination of board meeting fees, and an increase in the annual equity stipend from \$75,000 to \$100,000. The changes were designed to bring our non-executive director compensation more aligned with market levels and were made effective with the 2014-2015 board term, beginning in June 2014.

The compensation of our board members is set forth in the table entitled **Director Compensation Table** on **page 63**.

(2) Shares received are granted under our Director Stock Plan and are not subject to any vesting restrictions.

(3) The fee for telephonic participation in a regularly scheduled CME Group board committee meeting is 50% of that for in-person participation. However, it is within the discretion of the Executive Chairman & President for executive committee meetings and within the discretion of the particular chairman of our other committees to determine if it is appropriate to pay the full meeting fee, taking into consideration the member's ability to participate based upon the particular circumstances. It is within the discretion of a committee to create a subcommittee to address a specific issue and to determine whether members of such subcommittee should receive fees up to the amount of the regular committee meeting fee for their participation in such subcommittee. Fees for board meetings were eliminated from our program effective with the 2014-2015 board term.

Non-executive directors may participate in our Director Deferred Compensation Plan in the market investments that the plan offers from time to time. The return on the investments selected by the directors is the only return they will receive on their deferred compensation. We do not provide any pension, health benefit or other benefit programs to our non-executive directors.

The following table provides information regarding the compensation earned during the year ended December 31, 2014 by each of our directors, except for Messrs. Duffy and Gill. The compensation for Messrs. Duffy and Gill as our named executive officers is set forth in the **Summary Compensation Table** on **page 50**.
