KEWAUNEE SCIENTIFIC CORPORATION

(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction of incorporation or organization)	38-0715562 (IRS Employer Identification No.)
2700 West Front Street	
Statesville, North Carolina (Address of principal executive offices)	28677-2927 (Zip Code)
Registrant's telephone number, including area code: (704) 873-7202	

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer <input type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company <input checked="" type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act). Yes No

As of December 7, 2015, the registrant had outstanding 2,683,713 shares of Common Stock.

Kewaunee Scientific Corporation

Notes to Consolidated Financial Statements

(unaudited)

A. Financial Information

The unaudited interim consolidated financial statements of Kewaunee Scientific Corporation (the Company) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the Commission). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted, although the Company believes that the disclosures are adequate to make the information presented not misleading.

These interim consolidated financial statements include all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of these financial statements and should be read in conjunction with the consolidated financial statements and notes included in the Company's 2015 Annual Report to Stockholders. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year. The consolidated balance sheet as of April 30, 2015 included in this interim period filing has been derived from the audited financial statements at that date, but does not include all of the information and related notes required by generally accepted accounting principles (GAAP) for complete financial statements.

The preparation of the interim consolidated financial statements requires management to make certain estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimates.

B. Earnings Per Share

Basic earnings per share is based on the weighted average number of common shares outstanding during the three and six month periods. Diluted earnings per share reflects the assumed exercise and conversion of outstanding options under the Company's stock option plans, except when options have an anti-dilutive effect. Options to purchase 113,000 shares were not included in the computation of diluted earnings per share for the three and six month periods ended October 31, 2015, because the option exercise prices were greater than the average market price of the common shares at that date, and accordingly, such options would have an antidilutive effect. Options to purchase 70,800 shares were not included in the computation of diluted earnings per share for the three and six month periods ended October 31, 2014, because the effect would be anti-dilutive.

C. Inventories

Inventories consisted of the following (in thousands):

	October 31, 2015	April 30, 2015
Finished products	\$ 3,082	\$ 2,936
Work in process	1,885	1,422
Raw materials	8,773	8,387

\$ 13,740 \$ 12,745

For interim reporting, LIFO inventories are computed based on year-to-date quantities and interim changes in price levels. Changes in quantities and price levels are reflected in the interim consolidated financial statements in the period in which they occur.

Table of Contents**D. Segment Information**

The following table provides financial information by business segments for the three and six months ended October 31, 2015 and 2014 (in thousands):

	Domestic Operations	International Operations	Corporate	Total
Three months ended October 31, 2015				
Revenues from external customers	\$ 26,279	\$ 4,758	\$	\$ 31,037

Earnings (loss) before income taxes	3,760	1,300	(2,373)	2,687
Six months ended October 31, 2014				
Revenues from external customers	\$ 47,877	\$ 12,915	\$	\$ 60,792
Intersegment revenues	906	906	(1,812)	
Earnings (loss) before income taxes	4,262	1,473	(1,995)	3,740

E. Defined Benefit Pension Plans

The Company has non-contributory defined benefit pension plans. These plans were amended as of April 30, 2005, no further benefits have been, or will be, earned under the plans, subsequent to the amendment date, and no additional participants will be added to the plans. Contributions of \$64,000 were paid to the plans during the six months ended October 31, 2015 and the Company does not expect any contributions to be paid to the plans during the remainder of the fiscal year. The Company did not make any contributions to the plans during the six months ended October 31, 2014.

Pension expense consisted of the following (in thousands):

	Three months ended October 31, 2015	Three months ended October 31, 2014
Service cost	\$ -0-	\$ -0-
Interest cost	230	225
Expected return on plan assets	(344)	(337)
Recognition of net loss	294	233

------------------------------	----	-----	----	-----

	Six months ended October 31, 2015		Six months ended October 31, 2014	
Service cost	\$	-0-	\$	-0-
Interest cost		460		447
Expected return on plan assets		(688)		(662)
Recognition of net loss		588		467
Net periodic pension expense	\$	360	\$	252

Table of Contents**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The Company's 2015 Annual Report to Stockholders contains management's discussion and analysis of financial condition and results of operations as of and for the year ended April 30, 2015. The following discussion and analysis describes material changes in the Company's financial condition since April 30, 2015. The analysis of results of operations compares the three and six months ended October 31, 2015 with the comparable periods of the prior year.

Results of Operations

Sales for the three months ended October 31, 2015 were \$31,037,000, an increase of 2.6% from sales of \$30,258,000 in the comparable period of the prior year. Sales from Domestic Operations were \$26,279,000, up from \$23,629,000 in the comparable period of the prior year. The increase in domestic sales reflects the increased demand for the Company's products across the country. Sales from International Operations were \$4,758,000, down 28.2% from \$6,629,000 in the comparable period of the prior year. The decrease in international sales is a result of several large orders that shipped in the comparable period of the prior year.

Sales for the six months ended October 31, 2015 were \$62,126,000, up 2.2% from sales of \$60,792,000 in the same period last year. Domestic Operations sales for the six-month period were \$50,594,000, up 5.7% from sales of \$47,877,000 in the same period last year. International Operations sales were \$11,532,000, down 10.7% from sales of \$12,915,000 in the same period last year.

The order backlog was \$92.4 million at October 31, 2015, as compared to \$86.7 million at July 31, 2015 and \$84.5 million at October 31, 2014.

The gross profit margin for the three months ended October 31, 2015 was 17.8% of sales, as compared to 19.2% of sales in the comparable quarter of the prior year. The decrease in the margin was the result of the competitiveness of the environment over the past year. The gross profit margin for the six months ended October 31, 2015 was 18.3% of sales, as compared to 19.7% in the same period last year.

Operating expenses for the three months ended October 31, 2015 were \$4,403,000, or 14.2% of sales, as compared to \$3,950,000, or 13.1% of sales, in the comparable period of the prior year. Operating expenses for the three months ended October 31, 2015 reflect non-recurring expenses of \$413,000 related to the retirement and replacement of a key executive, a \$59,000 increase in pension expense, and a \$46,000 increase in bad debt expense, partially offset by a \$48,000 decrease in sales and marketing expenses.

Operating expenses for the six months ended October 31, 2015 were \$8,722,000, or 14.0% of sales, as compared to \$8,298,000, or 13.6% of sales in the comparable period of the prior year. Operating expenses for the six months ended October 31, 2015 reflect non-recurring expenses of \$524,000 related to the retirement and replacement of a key executive, a \$108,000 increase in pension expense, and a \$20,000 increase in bad debt expense, partially offset by a \$250,000 decrease in sales and marketing expenses.

Interest expense was \$61,000 and \$153,000 for the three and six months ended October 31, 2015, respectively, as compared to \$102,000 and \$183,000 for the comparable periods of the prior year. The decreases for the current year periods resulted primarily from lower borrowing levels.

Income tax expense of \$446,000 was recorded for the three months ended October 31, 2015, as compared to income tax expense of \$667,000 recorded for the comparable period of the prior year. Income tax expense of \$1,017,000 was recorded for the six months ended October 31, 2015, as compared to income tax expense of \$1,252,000 recorded for the comparable period of the prior year. The effective tax rate was 38.7% and 35.2% for the three-month periods

ended October 31, 2015 and 2014, respectively. The effective tax rates were 37.8% and 33.5% for the six months ended October 31, 2015 and 2014, respectively. The higher effective tax rate for the current year periods resulted from a higher ratio of pretax earnings attributable to subsidiaries located in geographic locations with higher income tax rates as compared to the comparable periods of the prior year. Also, the effective tax rates in the prior year periods were reduced from statutory rates by the favorable impact of state and federal tax credits.

Noncontrolling interests related to the Company's subsidiary that is not 100% owned by the Company reduced net earnings by \$12,000 for the three months ended October 31, 2015, as compared to \$26,000 for the comparable period of the prior year. Net earnings were reduced by \$35,000 and \$52,000 for the six months ended October 31, 2015 and 2014, respectively. The changes in the amounts between each of these periods were directly attributable to changes in the amounts of net income reported for the Company's one subsidiary that is not 100% owned by the Company.

Net earnings of \$695,000, or \$0.26 per diluted share, were reported for the three months ended October 31, 2015, compared to net earnings of \$1,202,000, or \$0.45 per diluted share, in the prior year period. Net earnings of \$1,635,000, or \$0.61 per diluted share, were reported for the six months ended October 31, 2015, compared to net earnings of \$2,436,000, or \$0.92 per diluted share, for the same period last year.

Table of Contents**Liquidity and Capital Resources**

Historically, the Company's principal sources of liquidity have been funds generated from operations, supplemented as needed by short-term borrowings under the Company's revolving credit facility. Additionally, certain machinery and equipment are financed by non-cancellable operating leases or capital leases. The Company believes that these sources will be sufficient to support ongoing business requirements in the current fiscal year, including capital expenditures.

The Company had working capital of \$29,006,000 at October 31, 2015, compared to \$27,707,000 at April 30, 2015. The ratio of current assets to current liabilities was 2.4-to-1.0 at October 31, 2015, compared to 2.3-to-1.0 at April 30, 2015. At October 31, 2015, advances of \$4,476,000 were outstanding under the Company's bank revolving credit facility, compared to advances of \$4,583,000 outstanding as of April 30, 2015. The Company had standby letters of credit outstanding of \$4,210,000 at October 31, 2015 and April 30, 2015. Amounts available under the \$20 million revolving credit facility were \$11.3 million and \$11.2 million at October 31, 2015 and April 30, 2015, respectively. Outstanding short-term debt under credit arrangements with foreign banks at October 31, 2015 was \$869,000, compared to \$169,000 at April 30, 2015. Total bank borrowings were \$9,510,000 at October 31, 2015, compared to \$9,147,000 at April 30, 2015.

The Company's operations provided cash of \$1,861,000 during the six months ended October 31, 2015. Cash was primarily provided from earnings, a decrease in receivables of \$510,000, and an increase in deferred revenue of \$477,000, which was partially offset by an increase in inventories of \$995,000 and a decrease in accounts payable and other accrued expenses of \$817,000. The Company's operations provided cash of \$6,762,000 during the six months ended October 31, 2014. Cash was primarily provided from earnings and an increase in accounts payable and other accrued expenses of \$3,931,000, which was partially offset by an increase in receivables of \$605,000, and an increase in inventories of \$261,000. The large increase in accounts payable and accrued expenses in the prior year period was primarily attributable to the start-up of a large international project.

During the six months ended October 31, 2015, net cash of \$664,000 was used in investing activities for capital expenditures of \$1,261,000, partially offset by a decrease in restricted cash of \$597,000. This compares to the net use of cash of \$4,127,000 for investing activities in the comparable period of the prior year for capital expenditures of \$1,626,000, and an increase in restricted cash of \$2,501,000.

The Company's financing activities used cash of \$806,000 during the six months ended October 31, 2015 for the final payment of \$888,000 toward the purchase of the noncontrolling interest in a subsidiary, cash dividends of \$664,000 paid to stockholders, cash dividends of \$75,000 paid to minority interest holders, and payments of \$211,000 on long-term debt, partially offset by an increase in short-term borrowings of \$574,000. The Company's financing activities used cash of \$3,916,000 during the six months ended October 31, 2014 for the second installment payment of \$888,000 toward the purchase of the noncontrolling interest in a subsidiary, \$2,209,000 for repayment of short-term borrowings, cash dividends of \$603,000 paid to stockholders, cash dividends of \$38,000 paid to minority interest holders, and payments of \$210,000 on long-term debt.

Outlook

The Company's ability to predict future demand for its products continues to be limited given its role as subcontractor or supplier to dealers for subcontractors. Demand for the Company's products is also dependent upon the number of laboratory construction projects planned and/or current progress in projects already under construction. The Company's earnings are also impacted by fluctuations in prevailing pricing for projects in the laboratory construction marketplace and increased costs of raw materials, including stainless steel, wood, and epoxy resin, and whether the Company is able to increase product prices to customers in amounts that correspond to such increases without

materially and adversely affecting sales. Additionally, since prices are normally quoted on a firm basis in the industry, the Company bears the burden of possible increases in labor and material costs between the quotation of an order and delivery of a product. Looking forward, the Company expects fiscal year 2016 to be a profitable year for the Company.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

This report contains statements that the Company believes to be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact included in this report, including statements regarding the Company's future financial condition, results of operations, business operations and business prospects, are forward-looking statements. Words such as anticipate, estimate, expect, project, intend, plan, predict, believe and similar words, expressions and variations of these words and expressions are intended to identify forward-looking statements. All forward-looking statements are subject to important factors, risks, uncertainties and assumptions, including industry and economic conditions that could cause actual results to differ materially from those described in the forward-looking statements. Such factors, risks, uncertainties and assumptions include, but are not limited to, competitive and general economic conditions, both domestically and internationally; changes in customer demands; dependence on customers' required delivery schedules; risks related to fluctuations in the Company's operating results from quarter to quarter; risks related to international operations, including foreign currency fluctuations; changes in the legal and regulatory environment; changes in raw materials and commodity costs; and acts of terrorism, war, governmental action, natural disasters and other Force Majeure events. Many important factors that could cause such a difference are described under the caption Risk Factors in Item 1A in the Company's 2015 Annual Report on Form 10-K. These forward-looking statements speak only as of the date of this document. The Company assumes no obligation, and expressly disclaims any obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise.

REVIEW BY INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

A review of the interim consolidated financial information included in this Quarterly Report on Form 10-Q for each of the three and six month periods ended October 31, 2015 and October 31, 2014 has been performed by Cherry Bekaert LLP, the Company's independent registered public accounting firm. Their report on the interim consolidated financial information follows.

Table of Contents

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have reviewed the accompanying consolidated balance sheet of Kewaunee Scientific Corporation and its subsidiaries (the Company) as of October 31, 2015, the related consolidated statements of operations, and comprehensive income for the three-month and six-month periods ended October 31, 2015 and 2014, the related consolidated statement of stockholders' equity for the six-month period ended October 31, 2015, and the related consolidated statements of cash flows for the six-month periods ended October 31, 2015 and 2014. These interim consolidated financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the interim consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of April 30, 2015, and the related consolidated statements of operations, comprehensive income and stockholders' equity, and cash flows for the year then ended (not presented herein) and in our report dated July 20, 2015, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of April 30, 2015 is fairly stated in all material respects in relation to the consolidated financial statement from which it has been derived.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There are no material changes to the disclosures made on this matter in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2015.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures

An evaluation was performed under the supervision and the participation of the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of October 31, 2015. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that, as of October 31, 2015, the Company's disclosure controls and procedures were adequate and effective and designed to ensure that all material information required to be filed in this quarterly report is made known to them by others within the Company and its subsidiaries.

(b) Changes in internal controls

There was no significant change in the Company's internal control over financial reporting that occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
