Item 1.01 Entry into a Material Definitive Agreement.

U.S. Concrete, Inc. (the Company) previously reported in a Current Report on Form 8-K that the Company and certain of its domestic subsidiaries (the Guarantors) had entered into a purchase agreement on May 23, 2016 (the Purchase Agreement) pursuant to which the Company agreed to sell \$400 million in aggregate principal amount of 6.375% Senior Notes due 2024 (the Notes) to certain initial purchasers named in the Purchase Agreement (collectively, the Initial Purchasers). The offering of the Notes closed on June 7, 2016. A description of the material terms of the Purchase Agreement is included in the Company's Current Report on Form 8-K filed with the Securities and Exchange Commission on May 23, 2016.

The Company used a portion of the net proceeds from the offering of the Notes to repay all of the outstanding borrowings under the Company's senior secured asset-based revolving credit facility (the Revolving Facility) and to make an irrevocable deposit that will be used to redeem all of its outstanding 8.500% Senior Secured Notes due 2018. The Company intends to use the remaining net proceeds from the offering for general corporate purposes, including funding the purchase price of future acquisitions to expand its current business.

The Notes are governed by an indenture (the Indenture) dated as of June 7, 2016, among the Company, the subsidiary guarantors party thereto, and U.S. Bank National Association, as trustee. Pursuant to the Indenture, interest on the Notes accrues at a rate of 6.375% per annum on the principal amount of the Notes from June 7, 2016. Interest is payable on June 1 and December 1 of each year, beginning on December 1, 2016. The Notes mature on June 1, 2024, unless redeemed sooner pursuant to the terms of the Indenture.

The Notes are unconditionally guaranteed on a senior unsecured basis by each of the Company's existing and future restricted subsidiaries that guarantees any obligations under the Revolving Facility or that guarantees certain of the Company's other indebtedness or certain indebtedness of the Company's restricted subsidiaries (other than foreign restricted subsidiaries that guarantee only indebtedness incurred by another foreign subsidiary).

The Notes and the guarantees will be the Company's and the Guarantors' senior unsecured obligations, as applicable. Accordingly, they will be: effectively subordinated to all of the Company's and the Guarantors' existing and future secured obligations, including obligations under the Revolving Facility, to the extent of the value of the collateral securing such obligations; senior in right of payment to any of the Company's and the Guarantors' future subordinated indebtedness; pari passu in right of payment with any of the Company's and the Guarantors' existing and future senior indebtedness, including the Company's and the Guarantors' obligations under the Revolving Facility; and structurally subordinated to all existing and future indebtedness and other liabilities, including trade payables and preferred stock, of any non-guarantor subsidiaries.

On and after June 1, 2019, the Company will be entitled at its option, on one or more occasions, to redeem all or a portion of the Notes, at the redemption prices (expressed in percentages of principal amount on the redemption date), plus accrued interest to the redemption date, if redeemed during the 12-month period commencing on June 1 of the years set forth below:

Period	Redemption Price
2019	104.781%
2020	103.188%
2021	101.594%
2022 and thereafter	100.000%

In addition, the Company may redeem all or a portion of the Notes at any time prior to June 1, 2019 at a redemption price equal to 100% of the principal amount thereof, plus the make-whole premium described in the Indenture, plus accrued and unpaid interest, if any, to the date of redemption. Furthermore, the Company may, on one or more occasions, redeem up to 35% of the aggregate principal amount of the Notes at any time prior to June 1, 2019 at a redemption price equal to 106.375% of the principal amount of such Notes, plus accrued and unpaid interest, if any, to the date of redemption, with cash in an amount equal to the net cash proceeds of certain equity offerings of the Company's common stock. If the Company experiences a change of control (as defined in the Indenture), it must offer to purchase the Notes at a purchase price equal to 101% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of repurchase. If the Company or its restricted subsidiaries engage in certain asset sales, the Company must offer to purchase Notes at a purchase price equal to 100% of the principal amount thereof, plus accrued and unpaid interest, if any, to the date of repurchase, with cash in an amount equal to the net cash proceeds of such asset sales.

The Indenture contains certain covenants that, among other things, limit the Company's ability and the ability of the Company's restricted subsidiaries to:

incur additional debt or issue disqualified stock or preferred stock;

pay dividends or make other distributions, repurchase or redeem the Company's stock or subordinated indebtedness or make certain investments;

sell assets and issue capital stock of the Company's restricted subsidiaries;

incur liens;

allow to exist certain restrictions on the ability of the Company's restricted subsidiaries to pay dividends or make other payments to the Company;

enter into transactions with affiliates;

consolidate, merge or sell all or substantially all of the Company's assets; and

designate the Company's subsidiaries as unrestricted subsidiaries.

These covenants are subject to a number of important exceptions, limitations and qualifications described in the Indenture.

Edgar Filing: US CONCRETE INC - Form 8-K

In connection with the issuance of the Notes, the Company, the Guarantors and the Initial Purchasers entered into a registration rights agreement, dated as of June 7, 2016 (the Registration Rights Agreement) obligating the Company to file a registration statement with the Securities and Exchange Commission so that holders of the Notes can exchange the Notes for registered notes having substantially the same terms as the Notes and evidencing the same indebtedness as the Notes.

The Company agreed to use commercially reasonable efforts to cause the exchange offer to be completed within 330 days after the issuance of the Notes. The Company also agreed to use commercially reasonable efforts to cause a shelf registration statement for the resale of the Notes to become effective if it cannot effect the exchange offer within the time period required by the Registration Rights Agreement and in certain other circumstances. If the Company fails to satisfy its exchange obligations under the Registration Rights Agreement, it has agreed to pay additional interest to the holders of the Notes under certain circumstances.

The preceding summary of the Indenture and the Registration Rights Agreement is qualified in its entirety by reference to the full text of such agreements, copies of which are attached hereto as Exhibits 4.1 and 4.2, respectively, and are incorporated herein by reference.
