SUMMARY

This summary does not include all information you should consider before investing in our common stock offered hereby. For a more complete understanding of our business and our common stock, we urge you to carefully read this prospectus supplement, the accompanying prospectus and the information incorporated by reference herein and therein in its entirety, including the sections entitled Risk Factors, Forward-Looking Statements and the financial statements and the related notes incorporated by reference herein.

Business Overview

Our primary operations include eight steelmaking and finishing plants, two coke plants and two tube manufacturing operations across six states—Indiana, Kentucky, Michigan, Ohio, Pennsylvania and West Virginia. These operations produce flat-rolled carbon, including premium-quality coated, cold-rolled and hot-rolled carbon steel products, and specialty stainless and electrical steels that we sell in sheet and strip form, as well as carbon and stainless steel that we finish into welded steel tubing. We also produce metallurgical coal through our AK Coal Resources, Inc. subsidiary. In addition, we operate Mexican and European trading companies that buy and sell steel and steel products and other materials. In the third quarter of 2016, we began operating a new tube manufacturing facility in Mexico.

We sell flat-rolled carbon steel products, consisting of coated, cold-rolled and hot-rolled carbon steel products, primarily to automotive manufacturers and their suppliers, as well as to customers in the infrastructure and manufacturing market. The infrastructure and manufacturing market primarily includes electrical transmission, heating, ventilation and air conditioning equipment, and appliances. We also sell carbon steel products to distributors, service centers and converters, who may further process these products before reselling them. We sell our stainless steel products to manufacturers and their suppliers in the automotive industry, to manufacturers of food handling, chemical processing, pollution control and medical and health equipment and to distributors and service centers. We sell our electrical steel products in the infrastructure and manufacturing market primarily to manufacturers of power transmission and distribution transformers, both for new and replacement installation. We also sell electrical steel products to manufacturers of electrical motors and generators. We sell our carbon steel products principally to customers in the United States. We sell our electrical and stainless steel products both domestically and internationally. Our customer base is geographically diverse and there is no single country outside the United States where our sales are material compared to our total net sales.

For the twelve months ended September 30, 2016, we shipped approximately 6.3 million tons of steel products, and generated revenue of approximately \$6.0 billion, net income (loss) attributable to AK Holding of \$(90.8) million and adjusted EBITDA of \$505.3 million. For the nine months ended September 30, 2016, we shipped approximately 4.6 million tons of steel products, and generated revenue of approximately \$4.5 billion, net income attributable to AK Holding of \$54.6 million and adjusted EBITDA of \$337.0 million. See Summary Historical Financial and Operating Data for a reconciliation of adjusted EBITDA to net income (loss).

For additional information, including information with respect to our customers, markets, properties and raw material needs, please refer to our Annual Report on Form 10-K for the year ended December 31, 2015 and subsequently filed Quarterly Reports on Form 10-Q, which are incorporated by reference herein.

(1) Our balance sheet data as of December 31, 2013 and 2014 and as of September 30, 2015 have been conformed to the presentation for the classification of deferred tax assets as of December 31, 2015 of \$69.6 million, \$67.7 million and \$50.4 million, and debt issuance costs of \$26.6 million, \$30.5 million and \$26.4 million.

(2) Amortization excludes amounts that are included in interest expense.

(3) In certain of our disclosures in this prospectus supplement, we have presented adjusted EBITDA to exclude the effects of noncontrolling interests, pension and other postretirement employee benefit (OPEB) net corridor charges, impairment charges for our investments in Magnetation LLC (Magnetation) and AFSG Holdings, Inc. (AFSG), charges for temporarily idling facilities and acquisition-related expenses of Dearborn. We have made these adjustments because we believe that they enhance the understanding of our financial results. We believe that reporting adjusted EBITDA with these items excluded more clearly reflects our current operating results and provides investors with a better understanding of our overall financial performance.

Table of Contents

EBITDA is an acronym for earnings before interest, taxes, depreciation and amortization. It is a metric that is sometimes used to compare the results of different companies by removing the effects of different factors that might otherwise make comparisons inaccurate or inappropriate. For purposes of this prospectus supplement, we have made adjustments to EBITDA to exclude the effect of noncontrolling interests, pension and OPEB net corridor charges, impairment charges for our investments in Magnetation and AFSG, charges for temporarily idling facilities and the acquisition-related expenses of Dearborn. The adjusted results, although not financial measures under generally accepted accounting principles in the United States (GAAP) and not identically applied by other companies, facilitate the ability to analyze our financial results in relation to those of our competitors and to our prior financial performance by excluding items that otherwise would distort the comparison. Adjusted EBITDA is not, however, intended as an alternative measure of operating results or cash flow from operations as determined in accordance with GAAP and is not necessarily comparable to similarly titled measures used by other companies.

We recognize in our results of operations, as a corridor adjustment, any unrecognized actuarial net gains or losses that exceed 10% of the larger of projected benefit obligations or plan assets. Amounts inside this 10% corridor are amortized over the plan participants' life expectancy. The need for a corridor charge is considered at any remeasurement date, but has historically only been recorded in the fourth quarter at the time of the annual remeasurement. After excluding the corridor charge, the remaining pension and OPEB expenses included in the non-GAAP measure are comparable to the accounting for pension and OPEB expenses on a GAAP basis in the first three quarters of the year and we believe this is useful to investors in analyzing our results on a quarter-to-quarter basis, as well as analyzing our results on a year-to-year basis. As a result of the corridor method of accounting, our subsequent financial results on both a GAAP and a non-GAAP basis do not contain any amortization of prior period actuarial gains or losses that exceeded the corridor threshold because those amounts were immediately recognized as a corridor adjustment in the period incurred. Actuarial net gains and losses occur when actual experience differs from any of the many assumptions used to value the benefit plans, or when the assumptions change, as they may each year when we perform a valuation. The two most significant of those assumptions are the discount rate we use to value projected plan obligations and the rate of return on plan assets. In addition, changes in other actuarial assumptions and the degree by which the unrealized gains or losses are within the corridor threshold before remeasurement will affect the corridor adjustment calculation. The effect of prevailing interest rates on the discount rate as of the December 31 measurement date and actual return on plan assets compared to the expected return will have a significant impact on our year-end liability, corridor adjustment and following year's expense for these benefit plans. For example, the pension/OPEB net corridor charge for 2015 was driven by actuarial losses caused primarily by (i) the net effect of the difference between the expected return on assets of 7.25% (\$198.4 million) and the actual loss on assets of 3.4% (\$93.6 million) (netting to a loss of \$292.0 million), partially offset by (ii) an increase in the discount rate assumption used to determine the current year pension liabilities from 3.82% at December 31, 2014 to 4.15% at December 31, 2015 (an actuarial gain of approximately \$96.0 million) and (iii) changes in mortality assumptions (an actuarial gain of approximately \$65.0 million). Also for example, the pension corridor charge for 2014 was driven by actuarial losses caused primarily by (i) a decrease in the discount rate assumption used to determine the current year pension liabilities from 4.53% at December 31, 2013 to 3.82% at December 31, 2014 (an actuarial loss of approximately \$219.0 million) and (ii) changes in mortality assumptions (an actuarial loss of approximately \$245.5 million), partially offset by (iii) the net effect of the difference between the expected return on assets of 7.25% (\$202.8 million) and the actual return on assets of 9.3% (\$257.8 million) (netting to a gain of \$55.0 million).

We believe that the corridor method of accounting for pension and other postretirement obligations is rarely used by other publicly traded companies. However, because other companies use different approaches to recognize actuarial gains and losses, our resulting pension expense on a GAAP basis or a non-GAAP basis may not be comparable to other companies' pension expense on a GAAP basis. Although the corridor charge reduces reported operating and net income, it does not affect our cash flows in the current period. However, we expect to ultimately settle the pension obligation in cash.

We believe that the above non-GAAP measures, when analyzed in conjunction with our GAAP results and the accompanying reconciliations, provide additional insight into the financial trends of our business versus the GAAP results alone. You should not rely on adjusted EBITDA as a substitute for any GAAP financial measure and we encourage you to review the following reconciliation of net income (loss) attributable to AK Holding to adjusted EBITDA.

RISK FACTORS

An investment in our common stock offered hereby involves significant risks. Prior to making a decision about investing in our common stock, and in consultation with your own financial and legal advisors, you should carefully consider, among other matters, the following risk factors, as well as those contained in our Quarterly Reports on Form 10-Q and Annual Report on Form 10-K, as well as other risks and uncertainties described in the other documents incorporated by reference in this prospectus supplement and the accompanying prospectus.

Risks Relating to Our Common Stock and this Offering

The price of our common stock historically has been volatile. This volatility may affect the price at which you could sell our common stock, and the sale of substantial amounts of our common stock could adversely affect the price of our common stock. The market price for our common stock has varied in the twelve-month period ending on October 25, 2016 between a high of \$7.09 on July 27, 2016 and a low of \$1.64 on January 20, 2016. The market price of our common stock is likely to continue to be volatile and subject to significant price and volume fluctuations in response to market and other factors, including the variations in our quarterly operating results from our expectations or those of securities analysts or investors; downward revisions in securities analysts' estimates; and announcement by us or our competitors of significant acquisitions, strategic partnerships, joint ventures or capital commitments.

In addition, the sale of substantial amounts of our common stock could adversely impact its price. As of October 24, 2016, we had outstanding approximately 238.3 million shares of our common stock and options to purchase approximately 3.6 million shares of our common stock (of which approximately 2.3 million were exercisable as of that date). We also had outstanding approximately 1.4 million performance shares as of October 24, 2016, which could result in the issuance of a maximum of approximately 2.1 million shares if certain performance criteria are achieved, and approximately 0.8 million restricted stock units outstanding. Additionally, 37.5 million shares of our common stock have been reserved for issuance upon conversion of the Exchangeable Notes. The sale or the availability for sale of a large number of shares of our common stock in the public market could cause the price of our common stock to decline.

Delaware law and our charter documents may impede or discourage a takeover, which could cause the market price of our common stock to decline. AK Holding is a Delaware corporation, and the anti-takeover provisions of Delaware law impose various impediments to the ability of a third party to acquire control of us, even if a change in control would be beneficial to our existing stockholders. In addition, AK Holding's Board of Directors (our Board of Directors), or a committee thereof, has the power, without stockholder approval, to designate the terms of one or more series of preferred stock and issue shares of preferred stock. The ability of our Board of Directors, or a committee thereof, to create and issue a new series of preferred stock and certain provisions of Delaware law and AK Holding's restated certificate of incorporation (our Certificate of Incorporation) and by-laws (our Bylaws) could impede a merger, takeover or other business combination involving us or discourage a potential acquirer from making a tender offer for our common stock, which, under certain circumstances, could reduce the market price of our common stock. See Description of Capital Stock Anti-takeover Effects of Provisions of our Certificate of Incorporation and Bylaws

Our Board of Directors has decided to suspend dividends on our common stock until further notice. In July 2012, our Board of Directors decided to suspend the payment of dividends on our common stock to enhance our financial flexibility and further support capital needs for the business. We cannot assure you when, whether or at what level we will resume paying dividends on our common stock.

Risks associated with our ability to pay dividends on our common stock. AK Steel's Credit Facility contains certain restrictive covenants with respect to our payment of dividends, which could affect our ability to pay dividends on our common stock.

If securities or industry research analysts do not publish or cease publishing research or reports about our business or if they issue unfavorable commentary or downgrade our common stock, our share price and trading volume could decline. The trading market for our common stock relies in part on the research and reports that securities and industry research analysts publish about us, our industry, our competitors and our business. We do not have any control over these analysts. Our share price and trading volumes could decline if one or more securities or industry analysts downgrade our common stock, issue unfavorable commentary about us, our industry or our business, cease to cover our company or fail to regularly publish reports about us, our industry or our business.

For risks related to our business, please see Item 1A to our Annual Report on Form 10-K, incorporated by reference herein.

USE OF PROCEEDS

We estimate that the proceeds from this offering will be approximately \$322.9 million (or \$371.4 million if the underwriters exercise their option to purchase additional shares in full), after deducting fees and estimated expenses (assuming an offering price of \$5.19 per share, the closing price for our shares on October 24, 2016). We intend to use the net proceeds from this offering to repay outstanding borrowings under the Credit Facility and for general corporate purposes.

An affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated serves as agent under the Credit Facility and each of the underwriters or their affiliates are lenders under the Credit Facility and will receive a portion of the proceeds from this offering as a result of such repayment. Because Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC and Wells Fargo Securities, LLC or their affiliates are lenders under the Credit Facility who may each receive 5% or more of the net proceeds of the offering, each such underwriter is deemed to have a conflict of interest under FINRA Rule 5121. Accordingly, this offering will be conducted in accordance with FINRA Rule 5121. See Underwriting (Conflicts of Interest) Conflicts of Interest.

Borrowings under the Credit Facility, which expires in March 2019, bear interest at the Base Rate (as defined herein) or, at AK Steel's option, LIBOR (as defined herein), plus an additional interest rate margin that is determined by the average daily availability of borrowings under the Credit Facility. The additional interest rate margin for borrowings under the Tranche A Facility ranges from 0.50% to 1.00% per annum in the case of Base Rate borrowings and from 1.50% to 2.00% per annum in the case of LIBOR borrowings. For borrowings under the Tranche B Facility, the additional interest rate margin ranges from 1.75% to 2.25% per annum in the case of Base Rate borrowings and from 2.75% to 3.25% per annum in the case of LIBOR borrowings. In addition, AK Steel pays a commitment fee on the undrawn commitments under the Credit Facility from time to time according to the average daily balance of borrowings (which balance also includes outstanding letters of credit) under the Credit Facility during any month. This commitment fee on undrawn commitments applies at a rate of 0.375% per annum. See Description of Certain Indebtedness AK Steel's Credit Facility.

The last reported sale price of our common stock on the New York Stock Exchange on October 24, 2016 was \$5.19 per share. As of October 24, 2016, there were 238,269,620 shares of our common stock outstanding.

As of October 21, 2016, we had 3,814 holders of record of our common stock.

In July 2012, we elected to suspend our dividend program to enhance our financial flexibility and further support the capital needs of our business.

AK Steel's Credit Facility contains certain restrictive covenants with respect to our and our restricted subsidiaries payments of dividends. Under these covenants, dividends are permitted provided no default or event of default is continuing and (i) availability under the Credit Facility exceeds \$337.5 million or (ii) availability exceeds \$262.5 million and AK Steel meets a fixed charge coverage ratio of 1.00 to 1.00 as of the most recently ended fiscal quarter. If AK Steel cannot meet either of these thresholds, dividends would be limited to \$12.0 million annually. Currently, the availability under the Credit Facility exceeds \$337.5 million. Accordingly, although we have elected to suspend our dividend program, currently we are permitted to declare and pay a dividend to our stockholders under the terms of the Credit Facility.

DESCRIPTION OF CAPITAL STOCK

AK Holding's authorized capital stock consists of 450,000,000 shares of common stock, par value \$.01 per share and 25,000,000 shares of preferred stock, par value \$1.00 per share. The following is a summary of all the material provisions of the common stock and the preferred stock, which we refer to as our common stock and preferred stock, respectively. This summary is subject to, and qualified in its entirety by, the provisions of our Certificate of Incorporation and our Bylaws and by applicable law. Our Certificate of Incorporation and our Bylaws have been incorporated by reference as exhibits to the registration statement of which this prospectus supplement forms a part, and we refer to them in this prospectus supplement as our Certificate of Incorporation and Bylaws, respectively. The summaries of these documents are qualified in their entirety by reference to the full text of the documents. AK Holding is a Delaware corporation and is subject to the Delaware General Corporation Law (the "DGCL").

Common Stock

The holders of our common stock are entitled to one vote for each share on all matters voted on by the stockholders. The holders of our common stock do not have any conversion, redemption or preemptive rights. The holders of our common stock are entitled to dividends as declared by our Board of Directors. On liquidation, holders are entitled to receive, on a pro rata basis, all of our assets available for distribution to the holders of common stock. The rights and dividends upon liquidation may be junior to the rights of holders of any preferred stock.

Preferred Stock

As of the date hereof, there are no shares of our preferred stock outstanding. Our Board of Directors is authorized to provide for the issuance of an aggregate of 25,000,000 shares of preferred stock, in one or more series, and to fix for each series:

the designation and number of shares;

the dividend rights;

the dividend rate;

the voting rights;

the rights and terms of redemption (including sinking fund provisions);

the redemption price;

the liquidation preferences of any wholly unissued series of shares of preferred stock, or any or all of them;

whether the shares will be made convertible into, or exchangeable for, shares of any other class or classes or of any other series of the same class of our stock, and if made so, on what terms;

whether the issue of any additional shares of this series or any future series or any other class of stock will have any restrictions and, if so, the nature of these restrictions;

any other designations, powers, preferences, rights, qualifications, limitations and restrictions as are permitted by the DGCL;

the rights and terms of redemption (including sinking fund provisions); and

the redemption price.

Dividend Rights

Under Delaware law, a corporation may pay dividends out of surplus or, if no surplus exists, out of net profits for the fiscal year in which the dividends are declared and/or of its preceding fiscal year. However,

Table of Contents

dividends may not be paid out of these net profits if the capital of the corporation is less than the aggregate amount of capital represented by the outstanding stock of all classes having a preference upon the distribution of assets. Dividends may be paid in cash, property or in shares of capital stock. Before declaring dividends, our Board of Directors can set aside funds for a reserve to meet contingencies, subject to the rights of preferred stockholders, if any. The holders of our common stock are entitled to dividends as declared by our Board of Directors.

Cumulative Voting and Other Rights

Cumulative voting permits a stockholder to cast as many votes in the election of directors for each share of stock held by him as there are directors to be elected and each stockholder may cast all his votes for a single candidate or distribute his votes among two or more candidates, as he chooses. Under Delaware law, cumulative voting is not permitted unless provided for by a specific provision in the certificate of incorporation. Our Certificate of Incorporation does not provide for cumulative voting.

Delaware law requires voting by separate classes only with respect to amendments to the certificate of incorporation that adversely affect the holders of those classes or that increase or decrease the aggregate number of authorized shares or the par value of the shares of any of those classes.

Repurchase of Stock

Under Delaware law, a corporation may repurchase or redeem its own stock only out of surplus and only if the capital of the corporation is not impaired or when such redemption would not impair capital. However, a corporation may redeem preferred stock out of capital if those shares will be retired upon redemption and the stated capital of the corporation is reduced pursuant to a resolution of its board of directors by the amount of capital represented by those shares.

Anti-takeover Effects of Provisions of our Certificate of Incorporation and Bylaws

We are a Delaware corporation, and the anti-takeover provisions of Delaware law impose various impediments to the ability of a third party to acquire control of us, even if a change in control would be beneficial to our existing stockholders. In addition, our Board of Directors, or a committee thereof, has the power, without stockholder approval, to designate the terms of one or more series of preferred stock and issue shares of preferred stock. The ability of our Board of Directors, or a committee thereof, to create and issue a new series of preferred stock and certain provisions of Delaware law and our Certificate of Incorporation and Bylaws could impede a merger, takeover or other business combination involving us or discourage a potential acquirer from making a tender offer for our common stock, which, under certain circumstances, could reduce the market price of our common stock.

Charter Amendments

Delaware law provides that the certificate of incorporation of a corporation may be amended upon adoption by the board of directors of a resolution setting forth the proposed amendment and declaring its advisability, followed by the favorable vote of the holders of a majority of the outstanding stock entitled to vote on the amendment. It also provides that a certificate of incorporation may require a greater vote for amendment than would otherwise be required under Delaware law. Subject to the requirements of Delaware law, the provisions of our Certificate of Incorporation may be amended by the affirmative vote of the holders of a majority of our outstanding common stock.

Bylaws and Regulations

Under Delaware law, the power to adopt, amend or repeal the bylaws is vested in the stockholders unless the certificate of incorporation vests this power in the directors. Vesting this power in the directors does not divest

S-13

Table of Contents

the stockholders of the power to adopt, alter or repeal the bylaws. Our Certificate of Incorporation expressly authorizes the adoption, amendment or repeal of our Bylaws by the affirmative vote of a majority of the whole Board of Directors at any regular or special meeting of our Board of Directors, or by unanimous written consent of the directors, or by the affirmative vote of the holders of record of a majority of the issued and outstanding shares of stock of the Corporation entitled to vote in respect thereof, given at an annual meeting or at any special meeting.

Board of Directors

Under our Bylaws, any director may resign at any time upon written notice and any or all of the directors may be removed with or without cause, by the holders of a majority of the shares of stock outstanding and entitled to vote for the election of directors. Board vacancies, whether caused by resignation, death, disqualification, removal, an increase in the authorized number of directors or otherwise, may be filled by the affirmative vote of a majority of the remaining directors or at a special meeting of the stockholders by the holders of shares entitled to vote for the election of directors.

Action without a Meeting; Right to Call Special Meeting of Stockholders

Delaware law provides that any action that may be taken at a meeting of stockholders may be taken without a meeting, without prior notice and without a vote, if the holders of stock having not less than the minimum number of votes otherwise required to approve the action consent in writing, unless otherwise provided in the certificate of incorporation. Our Bylaws do not alter the vote required.

Under Delaware law, special meetings of the stockholders may be called by a corporation's board of directors or by those persons who are authorized by the corporation's certificate of incorporation or bylaws. Our Bylaws provide that special meetings may be called by our Board of Directors or the Chief Executive Officer or upon the written request delivered to the Chief Executive Officer by stockholders holding together at least a majority of all of our shares entitled to vote at the meeting. No business other than that stated in the notice will be transacted at any special meeting; provided, however, that matters given by or at the direction of the Board of Directors or otherwise presented at the meeting by or at the direction of the Board of Directors may be presented. In addition, our Chairman, in his or her sole discretion, may present, or accept for presentation, procedural matters.

These provisions may have the effect of delaying consideration of a stockholder proposal until the next annual meeting unless a special meeting is called by our board or our stockholders as described above.

Advance Notice Requirements for Nominations

Our Bylaws contain advance notice procedures with regard to stockholder proposals related to the nomination of candidates for election as directors. These procedures provide that notice of stockholder proposals related to stockholder nominations for the election of directors must be received by our corporate secretary, in the case of an annual meeting, by close of business on a date that is not less than 60 days nor more than 90 days prior to the first anniversary of the preceding year's annual meeting of stockholders. However, if the annual meeting is called for a date that is more than 30 days before or after that anniversary date, or where no annual meeting has been held within the past year, notice by the stockholder in order to be timely must be received not later than the close of business on the tenth day following the day on which notice of the date of the meeting was mailed or public disclosure of the date of the meeting was made, whichever occurs first.

No special meeting of stockholders shall be called for the purpose of removing or electing a director or directors or amending our Bylaws; provided, however, that a special meeting may be called for the purpose of removing a director

for cause, as such term is defined under Delaware law, and, provided further that the cause alleged must be set forth in the request for the meeting.

S-14

Table of Contents

A stockholder's notice to our corporate secretary must be in proper written form and must set forth information related to the stockholder giving the notice and the beneficial owner (if any) on whose behalf the nomination is made, including:

a representation that such stockholder is a holder of record or beneficial owner of our stock entitled to vote at the meeting and the name and address, as they appear on our books, of such stockholder and any stockholder of record of the stockholder's shares;

the class and number of shares of our stock that are owned of record and beneficially by such stockholder and owned by any stockholder of record of such stockholder's shares, as of the date of the stockholder's notice, and a representation that such stockholder shall notify us in writing of the number of such shares owned of record and beneficially as of the record date for the meeting promptly following the record date;

a description of any agreement, arrangement or understanding with respect to the nomination between or among such stockholder and any of its affiliates or associates, and any other person or persons (including their names), and a representation that the stockholder shall notify us in writing of any such agreement, arrangement or understanding in effect as of the record date for the meeting promptly following the record date;

a description of any agreement, arrangement or understanding (including any derivative or short positions, profit interests, options, hedging transactions, and borrowed or loaned shares) that has been entered into as of the date of the notice by, or on behalf of, such shareholder, the effect or intent of which is to mitigate loss to, manage risk or benefit of share price changes for, or increase or decrease the voting power of such shareholder with respect to shares of our stock, and a representation that such shareholder shall notify us in writing of any such agreement, arrangement or understanding in effect as of the record date for the meeting promptly following the record date;

a representation that such shareholder intends to appear in person or by proxy at the meeting to propose the nomination; and

a representation whether such shareholder intends or is part of a group that intends to deliver a proxy statement and/or form of proxy to holders of at least the percentage of our outstanding capital stock required to elect the proposed nominee, and/or otherwise to solicit proxies from stockholders in support of the nomination.

As to each person whom the stockholder proposes to nominate for election as a director:

all information relating to the person that would be required to be disclosed in a proxy statement or other filings required to be made in connection with solicitations of proxies for election of directors pursuant to the Securities Exchange Act of 1934, as amended (the Exchange Act); and

the nominee's written consent to being named in the proxy statement as a nominee and to serving as a director if elected.

Advance Notice Requirements for Stockholder Proposals

Our Bylaws contain advance notice procedures with regard to stockholder proposals not related to director nominations. These notice procedures, in the case of an annual meeting of stockholders, are the same as the notice requirements for stockholder proposals related to director nominations discussed above insofar as they relate to the timing of receipt of notice by our corporate secretary.

A stockholder's notice to our corporate secretary must be in proper written form and must set forth, as to each matter the stockholder and the beneficial owner (if any) proposes to bring before the meeting:

the business desired to be brought before the meeting;

the reasons for conducting such business at the meeting;

any material interest in such business of the stockholder and the beneficial owner, if any, on whose behalf the proposal is made; and

all agreements, arrangements and understandings between or among the stockholder and beneficial owner, if any, and its or their affiliates or associates, and any other person or persons (including their names) in connection with the proposal of such business, and a representation that the stockholder shall notify us in writing of any such agreement, arrangement or understanding in effect as of the record date for the meeting promptly following the record date.

As to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the proposal is made:

the class and number of shares of stock which are, directly or indirectly, owned beneficially and of record by such stockholder and such beneficial owner or stockholder of record of the shares owned by such stockholder, if any, as of the date of the stockholder's notice, and a representation that the stockholder shall notify us in writing of the number of such shares owned of record and beneficially as of the record date for the meeting promptly following the record date;

any agreement, arrangement or understanding (including any derivative or short positions, profit interests, options, hedging transactions, and borrowed or loaned shares) that has been entered into as of the date the notice by, or on behalf of, such shareholder, the effect or intent of which is to mitigate loss to, manage risk or benefit of share price changes for, or increase or decrease the voting power of such shareholder with respect to shares of our stock, and a representation that such shareholder shall notify us in writing of any such agreement, arrangement or understanding in effect as of the record date for the meeting promptly following the record date;

a representation that the stockholder giving the notice intends to appear in person or by proxy at the meeting to propose the matter; and

a representation as to whether the stockholder giving the notice intends or is part of a group that intends to deliver a proxy statement and/or form of proxy to holders of at least the percentage of our outstanding capital stock required to approve or adopt the matter, and/or otherwise to solicit proxies from stockholders in support of such stockholder's proposal or position.

Mergers and Consolidations

Under Delaware law, mergers or consolidations, other than so-called parent-subsidary mergers, must be approved by the directors of each constituent corporation and adopted by the affirmative vote of the holders of a majority of the outstanding shares entitled to vote on the agreement, or by a greater vote if provided in the certificate of incorporation. Our Certificate of Incorporation does not alter the vote required. Under Delaware law, the separate vote of any class of

shares is not required. Additionally, Delaware law provides that, unless its certificate of incorporation provides otherwise, no vote of the stockholders of the surviving corporation is required to approve the merger if:

the agreement of merger does not amend in any respect the corporation's certificate of incorporation;

each share outstanding immediately prior to the effective date is to be an identical outstanding or treasury share of the surviving corporation after the effective date; and

the number of shares of the surviving corporation's common stock to be issued in the merger plus the number of shares of common stock into which any other securities to be issued in the merger are initially convertible does not exceed 20% of its common stock outstanding immediately prior to the effective date of the merger.

Other Corporate Transactions

Delaware law requires a majority vote on disposition of all or substantially all of a corporation's assets and on dissolutions, unless a greater vote is provided for in the certificate of incorporation. Our Certificate of Incorporation does not alter the vote required.

Loans to Officers and Directors

Delaware law permits a corporation to lend money to, or to guarantee an obligation of, an officer or other employee of the corporation or any subsidiary of the corporation, including an officer or employee who is also a director of the corporation or of its subsidiaries, whenever that loan or guarantee may, in the judgment of the directors, reasonably be expected to benefit the corporation. Delaware law generally does not impose liability on the directors who vote for or assent to the making of a loan to an officer, director, or stockholder.

Fiduciary Duties of Directors

Under Delaware law, the business and affairs of a corporation are managed by or under the direction of its boards of directors. In exercising their powers, directors are charged with the fiduciary duties of loyalty and care. A party challenging the decision of a board of directors generally bears the burden of rebutting the applicability of the so-called business judgment rule, a presumption that, in making a business decision, directors acted on an informed basis, in good faith and in the honest belief that the action was taken in the best interests of the corporation, by demonstrating that, in reaching their decision, the directors breached one or more of their fiduciary duties. Unless this presumption is rebutted, the business judgment exercised by directors in making their decisions is not subject to judicial review. Where, however, the presumption is rebutted, and in some other circumstances, the directors bear the burden of demonstrating the entire fairness of the relevant transaction. In spite of the business judgment rule, Delaware courts may subject directors' conduct to enhanced scrutiny in taking defensive actions in response to a threat to corporate control or approving a transaction resulting in a sale of control.

Liability of Directors

Subsection (b)(7) of Section 102 of the DGCL enables a corporation in its original certificate of incorporation or an amendment thereto to eliminate or limit the personal liability of a director to the corporation or its stockholders for monetary damages for violations of the director's fiduciary duty, except (i) for any breach of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) pursuant to Section 174 of the DGCL (providing for liability of directors for unlawful payment of dividends or unlawful stock purchases or redemptions) or (iv) for any transaction from which a director derived an improper personal benefit. Our Certificate of Incorporation has eliminated the personal liability of our directors to the fullest extent permitted by law.

Indemnification of Directors and Officers

Subsection (a) of Section 145 of the DGCL (Section 145) empowers a corporation to indemnify any current or former director, officer, employee or agent of the corporation who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that such person is or was a director or officer of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys fees), judgments, fines and amounts paid in settlement actually and reasonably incurred in connection with such

action, suit or proceeding provided that such director or officer acted in good faith in a manner reasonably believed to be in, or not opposed to, the best interests of the corporation, and, with respect to any criminal action or proceeding, provided further that such director or officer had no reasonable cause to believe his conduct was unlawful.

Subsection (b) of Section 145 empowers a corporation to indemnify any director or officer, or former director or officer, who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person acted in any of the capacities set forth above, against expenses (including attorneys' fees) actually and reasonably incurred in connection with the defense or settlement of such action or suit provided that such director or officer acted in good faith and in a manner he reasonably believed to be in, or not opposed to, the best interests of the corporation, except that no indemnification may be made in respect of any claim, issue or matter as to which such director or officer shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all of the circumstances of the case, such director or officer is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Section 145 further provides that to the extent a director or officer of a corporation has been successful in the defense of any action, suit or proceeding referred to in subsections (a) or (b) or in the defense of any claim, issue or matter therein, he or she shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith; that indemnification and advancement of expenses provided by, or granted pursuant to, Section 145 shall not be deemed exclusive of any other rights to which the indemnified party may be entitled; and empowers the corporation to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against him or incurred by him in any such capacity, or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liabilities under Section 145.

Article Seven of our Certificate of Incorporation states that we shall indemnify any person who was or is a party or is threatened to be made a party to, or testifies in, any threatened, pending, or completed action, suit or proceeding, whether civil, criminal, administrative or investigative in nature, by reason of the fact that such person is or was our director, officer or employee, or is or was serving at our request as a director, officer or employee of another corporation, partnership, joint venture, employee benefit plan, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines, penalties amounts paid in settlement and other liabilities actually and reasonably incurred by such person in connection with such action, suit or proceeding to the fullest extent permitted by law, and we may adopt by-laws or enter into agreements with any such person for the purpose of providing such indemnification. We also enter into Indemnification Agreements with each Director, a form of which is incorporated by reference to our Annual Report on Form 10-K for the year ended December 31, 2015.

Delaware Business Combination Statute

Under Section 203 of the DGCL (Section 203), a corporation is prohibited from engaging in any business combination with a person who, together with his affiliates or associates, owns, or within a three-year period did own, 15% or more of the corporation's voting stock, an interested stockholder, unless:

prior to the date on which the person became an interested stockholder, the board of directors approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;

the interested stockholder acquired 85% of the voting stock of the corporation, excluding specified shares, upon consummation of the transaction; or

on or after the date on which the person became an interested stockholder, the business combination is approved by the board of directors of the corporation and the affirmative vote, at an annual or special meeting and not by written consent, of at least two-thirds of the outstanding voting stock of the corporation, excluding shares held by the interested stockholder.

S-18

Table of Contents

A business combination includes:

mergers, consolidations and sales or other dispositions of 10% or more of the assets of a corporation to or with an interested stockholder;

particular transactions resulting in the issuance or transfer to an interested stockholder of any stock of the corporation or its subsidiaries; and

other transactions resulting in a disproportionate financial benefit to an interested stockholder.

Except as otherwise set forth in Section 203, an interested stockholder is defined to include:

any person that is the owner of 15% or more of the outstanding voting stock of the corporation; and

any person that is an affiliate or associate of the corporation and was the owner of 15% or more of the outstanding voting stock of the corporation at any time within three years immediately prior to the date of determination, or the affiliates and associates of any such person.

Our Certificate of Incorporation does not contain a provision by which we expressly elect not to be governed by Section 203. Our election to be subject to Section 203 may have positive or negative consequences, depending on the circumstances. Being subject to Section 203 may make it more difficult for a person who would be an interested stockholder to effect various business combinations with us for a three-year period. Section 203 also may have the effect of preventing changes in our management. Section 203 also could make it more difficult to accomplish transactions which our stockholders may otherwise deem to be in their best interests. The provisions of Section 203 may cause persons interested in acquiring us to negotiate in advance with our Board of Directors.

AK Steel's Credit Facility

AK Steel is the borrower under a \$1.5 billion asset-based revolving credit facility with a group of lenders (the Credit Facility) that expires in March 2019 and is guaranteed by AK Steel's direct parent company, AK Holding, and by AK Steel's direct or indirect subsidiaries, AK Tube LLC, AK Steel Properties, Inc. and Mountain State Carbon LLC. The Credit Facility consists of a \$1.435 billion asset-based revolving credit facility (the Tranche A Facility) and a \$65.0 million first-in, last-out asset-based revolving credit facility (the Tranche B Facility), which Credit Facility is provided pursuant to that certain Amended and Restated Loan and Security Agreement, dated as of March 17, 2014 (as amended by that certain First Amendment to Amended and Restated Loan and Security Agreement, dated as of September 16, 2014, and that certain Second Amendment to Amended and Restated Loan and Security Agreement, dated as of July 27, 2016, collectively, the Credit Agreement). The Tranche A Facility includes a \$100 million swingline subfacility and a \$400 million letter of credit subfacility. The Tranche B Facility allows AK Steel to maximize its eligible collateral at higher advance rates. The commitments under the Credit Facility may be increased by up to \$200 million at AK Steel's request, subject to the terms and conditions set forth in the Credit Agreement. The Credit Facility contains affirmative and negative covenants including, without limitation, restrictions on, among other things, distributions and dividends, acquisitions and investments, indebtedness, liens and affiliate transactions. Availability is calculated as the lesser of the total commitments under the Credit Facility and eligible collateral after advance rates, less outstanding revolver borrowings and letters of credit.

The obligations under the Credit Facility are secured by the inventory and accounts receivable of AK Steel, AK Tube LLC and Mountain State Carbon LLC, and availability under the Credit Facility fluctuates monthly based on the varying levels of eligible collateral. The Credit Facility requires maintenance of a minimum fixed charge coverage ratio of 1.00 to 1.00 at any time that an event of default exists or during any period commencing on the day that availability under the Credit Facility is less than the greater of 10.0% of the aggregate amount of commitments or \$150.0 million and continuing until availability under the Credit Facility has been greater than the greater of 10.0% of the aggregate amount of commitments or \$150.0 million for the preceding 30 consecutive days.

Borrowings under the Credit Facility bear interest at the Base Rate (as defined below) or, at AK Steel's option, LIBOR (as defined below), plus an additional interest rate margin that is determined by the average daily availability of borrowings under the Credit Facility. The additional interest rate margin for borrowings under the Tranche A Facility ranges from 0.50% to 1.00% per annum in the case of Base Rate borrowings and from 1.50% to 2.00% per annum in the case of LIBOR borrowings. For borrowings under the Tranche B Facility, the additional interest rate margin ranges from 1.75% to 2.25% per annum in the case of Base Rate borrowings and from 2.75% to 3.25% per annum in the case of LIBOR borrowings. In addition, AK Steel pays a commitment fee on the undrawn commitments under the Credit Facility from time to time according to the average daily balance of borrowings (which balance also includes outstanding letters of credit) under the Credit Facility during any month. This commitment fee on undrawn commitments applies at a rate of 0.375% per annum. AK Steel uses the Credit Facility for working capital and other general corporate purposes and does not expect the Credit Facility's restrictions to affect or limit its ability to conduct its business in the ordinary course. Base Rate means, for any day, a per annum rate equal to the greater of (a) the

prime rate for such day; (b) the federal funds rate for such

S-20

day, plus 0.50%; or (c) LIBOR for a 30-day interest period as determined on such day, plus 1.0%. LIBOR means, for any interest period, the per annum rate of interest determined two business days prior to commencement of such interest period, for a term equivalent to such interest period, equal to the London Interbank Offered Rate, or comparable or successor rate, as published on the applicable Reuters screen page (or other equivalent commercially available source); provided that if LIBOR shall be less than zero, such rate shall be deemed to be zero. If the Board of Governors of the Federal Reserve System imposes a reserve percentage with respect to LIBOR deposits, then LIBOR shall be the foregoing rate, divided by 1 minus the reserve percentage.

Senior Secured Notes

In June 2016, as part of a transaction to refinance all of AK Steel's 8.75% Senior Secured Notes due 2018 (the Old Notes) through a tender offer, AK Steel sold \$380.0 million aggregate principal amount of 7.50% Senior Secured Notes due July 2023 (the Refi Notes) which generated net proceeds of \$373.4 million after the underwriting discount. AK Steel used the net proceeds and cash on hand to redeem the Old Notes in June and July 2016. The Refi Notes are fully and unconditionally, jointly and severally, guaranteed by AK Holding, AK Steel's direct parent, and by AK Tube LLC, AK Steel Properties, Inc. and Mountain State Carbon LLC (together with AK Tube LLC and AK Steel Properties, Inc., the Subsidiary Guarantors), three wholly-owned subsidiaries of AK Steel. The Refi Notes are secured by first priority liens on the plant, property and equipment (other than certain excluded property, and subject to permitted liens) of AK Steel and the Subsidiary Guarantors and any proceeds of the foregoing. The book value of such collateral as of September 30, 2016 was approximately \$1.59 billion.

The indenture governing the Refi Notes (the Refi Notes Indenture) includes covenants with customary restrictions on (a) the incurrence of additional debt by certain AK Steel subsidiaries, (b) the incurrence of certain liens by AK Steel and AK Holding's other subsidiaries, (c) the incurrence of sale/leaseback transactions, (d) the use of proceeds from the sale of collateral, and (e) the ability of AK Holding and AK Steel to merge or consolidate with other entities or to sell, lease or transfer all or substantially all of AK Holding's and AK Steel's assets to another entity. The Refi Notes Indenture also contains customary events of default. Prior to July 15, 2019, AK Steel may redeem the Refi Notes at a price equal to par plus a make-whole premium together with all accrued and unpaid interest to the date of redemption. Subsequent to that date, they are redeemable at 103.750% until July 15, 2020, 101.875% thereafter until July 15, 2021 and 100.000% thereafter, together with all accrued and unpaid interest to the date of redemption. The Refi Notes Indenture also provides that upon a change of control, as defined in the Refi Notes Indenture, AK Steel is required to make an offer to purchase such notes at a price equal to 101% of the principal amount of the notes on the date of purchase, plus accrued and unpaid interest.

Senior Unsecured Notes***Exchangeable Notes***

AK Steel has outstanding \$150.0 million aggregate principal amount of 5.00% Exchangeable Senior Notes due November 2019 (the Exchangeable Notes). AK Steel may not redeem the Exchangeable Notes prior to their maturity date. The indenture governing the Exchangeable Notes (the Exchangeable Notes Indenture) provides noteholders with an exchange right at their option before August 15, 2019, if the closing price of our common stock is greater than or equal to \$7.02 per share (130% of the exchange price of the Exchangeable Notes) for at least 20 trading days during the last 30 consecutive trading days of a calendar quarter.

After August 15, 2019, holders may exchange their Exchangeable Notes at any time. Upon exchange, AK Steel will be obligated to (i) pay an amount in cash equal to the aggregate principal amount of the Exchangeable Notes to be exchanged and (ii) pay cash, deliver shares of our common stock or a combination thereof, at AK Steel's election, for

the remainder, if any, of the exchange obligation in excess of the aggregate

S-21

Table of Contents

principal amount of the Exchangeable Notes being exchanged. Holders may exchange their Exchangeable Notes into shares of our common stock at their option at an initial exchange rate of 185.1852 shares of our common stock per \$1,000 principal amount of Exchangeable Notes. The initial exchange rate is equivalent to a conversion price of approximately \$5.40 per share of common stock, which equates to 27.8 million shares to be used to determine the aggregate equity consideration to be delivered upon exchange, subject to adjustment for certain dilutive effects from potential future events. Holders may exchange their Exchangeable Notes prior to August 15, 2019 only under certain circumstances.

The Exchangeable Notes Indenture does not contain any financial or operating covenants or restrictions on the payments of dividends, the incurrence of indebtedness or the issuance or repurchase of securities by us or any of our subsidiaries. If we undergo a fundamental change, as defined in the Exchangeable Notes Indenture (which, for example, would include various transactions pursuant to which the we would undergo a change of control), holders may require AK Steel to repurchase the Exchangeable Notes, in whole or in part, for cash at a price equal to par plus any accrued and unpaid interest. In addition, in the event we undergo a make-whole fundamental change, as defined in the Exchangeable Notes Indenture, prior to the maturity date, in addition to requiring AK Steel to repurchase the Exchangeable Notes in whole or in part for cash at a price equal to par plus any accrued and unpaid interest, the exchange rate will be increased in certain circumstances for a holder who elects to exchange its notes in connection with such event.

Based on the initial exchange rate, the Exchangeable Notes are exchangeable into a maximum of 37.5 million shares of our common stock. However, such maximum amount of shares would be exchanged only if, as a result of the occurrence of a make-whole fundamental change described above, AK Steel elects to satisfy the higher exchange rate by delivering to the holders shares of our common stock in consideration therefor.

Other Senior Unsecured Notes

AK Steel has outstanding \$529.8 million aggregate principal amount of 7.625% Senior Notes due May 2020 (the 2020 Notes). AK Steel may redeem the 2020 Notes at a price equal to 102.542% of par until May 15, 2017, 101.271% thereafter until May 15, 2018, and 100.0% thereafter, together with all accrued and unpaid interest to the date of redemption.

AK Steel has outstanding \$406.2 million aggregate principal amount of 7.625% Senior Notes due October 2021 (the 2021 Notes). Before October 1, 2017, AK Steel may redeem the 2021 Notes at a price equal to par plus a make-whole premium and all accrued and unpaid interest to the date of redemption. After that date, the 2021 Notes are redeemable at 103.813% until October 1, 2018, 101.906% thereafter until October 1, 2019, and 100.0% thereafter, together with all accrued and unpaid interest to the date of redemption.

AK Steel has outstanding \$279.8 million aggregate principal amount of 8.375% Senior Notes due April 2022 (the 2022 Notes). Prior to April 1, 2017, AK Steel may redeem the 2022 Notes at a price equal to par plus a make-whole premium and all accrued and unpaid interest to the date of redemption. Subsequent to that date, they are redeemable at 104.188% until April 1, 2018, 102.792% thereafter until April 1, 2019, 101.396% thereafter until April 1, 2020, and 100.0% thereafter, together with all accrued and unpaid interest to the date of redemption.

The Exchangeable Notes, the 2020 Notes, the 2021 Notes, the 2022 Notes and the unsecured IRBs discussed below (collectively, the Senior Unsecured Notes) are equal in right of payment. AK Holding and the Subsidiary Guarantors (other than with respect to the Exchangeable Notes) fully and unconditionally, jointly and severally, guarantee the payment of interest, principal and premium, if any, on the Senior Unsecured Notes. The indentures governing the 2020 Notes, the 2021 Notes, the 2022 Notes and the IRBs include covenants with customary restrictions on (a) the

incurrence of additional debt by certain AK Steel subsidiaries, (b) the incurrence of liens by AK Steel and AK Holding's other subsidiaries, (c) the amount of sale/leaseback transactions and

(d) the ability of AK Holding and AK Steel to merge or consolidate with other entities or to sell, lease or transfer all or substantially all of AK Holding's and AK Steel's assets to another entity. The indentures governing the 2020 Notes, the 2021 Notes and the 2022 Notes provide that upon a change of control repurchase event, as defined in such indentures, and subject to certain conditions, AK Steel is required to make an offer to purchase such notes at a price equal to 101% of the principal amount of the notes, plus accrued and unpaid interest to the date of the purchase. The indentures governing the Senior Unsecured Notes also contain customary events of default. The Senior Unsecured Notes rank junior in priority to the Refi Notes to the extent of the value of the assets securing the Refi Notes.

Revenue Bonds***Taxable Tax Increment Revenue Bonds***

In 1997, in conjunction with construction of our Rockport Works facility, the Spencer County (IN) Redevelopment District (the District) issued \$23.0 million in taxable tax increment revenue bonds. Proceeds from the bond issue were used for the acquisition of land and site improvements at the facility. The source of the District's scheduled principal and interest payments through maturity in 2017 is a designated portion of our real and personal property tax payments. AK Steel is obligated to pay any deficiency in the event its annual tax payments are insufficient to enable the District to make principal and interest payments when due. In 2015, AK Steel made deficiency payments totaling \$1.3 million. At December 31, 2015, the remaining semiannual payments of principal and interest due through the year 2017 total \$10.4 million. AK Steel includes potential payments due in the coming year under this agreement in its annual property tax accrual.

Tax-Exempt Industrial Revenue Bonds

AK Steel has outstanding \$73.3 million aggregate principal amount of fixed-rate tax-exempt industrial revenue bonds (the IRBs) consisting of: (i) \$36.0 million aggregate principal amount of 6.75% tax-exempt IRBs due June 1, 2024, issued by the Ohio Air Quality Development Authority (the OAQDA); (ii) \$30.0 million aggregate principal amount of 7.0% tax-exempt IRBs due June 1, 2028, issued by the City of Rockport, Indiana (the City of Rockport); and (iii) \$7.3 million aggregate principal amount of 6.25% tax-exempt IRBs due June 1, 2020, issued by the Butler County Industrial Development Authority in Butler County, Pennsylvania (the BCIDA), and collectively with the OAQDA and the City of Rockport, the Tax-Exempt Issuers). The weighted-average fixed interest rate of the IRBs is 6.8%. The IRBs are unsecured senior debt obligations of AK Steel that are equal in ranking with the Senior Unsecured Notes.

The IRBs were issued by the Tax-Exempt Issuers, who loaned the net proceeds of the respective issuances to us pursuant to the terms of loan agreements between us and each of the Tax-Exempt Issuers (the Loan Agreements). The Loan Agreements include covenants with customary restrictions on (a) the incurrence of additional debt by certain AK Steel subsidiaries, (b) the incurrence of liens, (c) the amount of sale/leaseback transactions and (d) the ability of AK Holding and AK Steel to merge or consolidate with other entities or to sell, lease or transfer all or substantially all of AK Holding's and AK Steel's assets to another entity. The Loan Agreements also contain customary events of default. In addition, the IRBs are subject to special mandatory redemption, at any time, at 100% of the principal amount plus accrued interest thereon, in the event that a final determination is made that interest payments on the IRBs are not excludable from holders' gross income for federal income tax purposes. We and the Subsidiary Guarantors guarantee AK Steel's obligations in connection with the IRBs.

In addition, AK Steel has outstanding \$26.0 million aggregate principal amount of variable-rate taxable industrial revenue bonds that are backed by letters of credit.

**MATERIAL U.S. FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS FOR
NON-U.S. HOLDERS**

The following is a discussion of the material U.S. federal income and estate tax consequences to non-U.S. holders of the ownership and disposition of our common stock acquired in this offering, but does not purport to provide a complete analysis of all potential U.S. federal income tax and estate tax considerations relating thereto.

A non-U.S. holder is a beneficial owner of our common stock that is, for U.S. federal income tax purposes:

a non-resident alien individual, other than certain former citizens and residents of the United States subject to U.S. tax as expatriates;

a foreign corporation; or

a foreign estate or trust

but does not include an individual who is present in the United States for 183 days or more in the taxable year of disposition of our common stock. If you are such an individual, you should consult your tax advisor regarding the U.S. federal income tax consequences of the sale or other disposition of our common stock.

If you are a partnership for U.S. federal income tax purposes, the U.S. federal income tax treatment of your partners will generally depend on the status of the partners and your activities.

This discussion is based on the Internal Revenue Code of 1986, as amended (the Code), and administrative pronouncements, judicial decisions and final, temporary and proposed Treasury regulations as of the date hereof, changes to any of which subsequent to the date hereof may affect the tax consequences described herein. This discussion does not address all aspects of U.S. federal income and estate taxation that may be relevant to non-U.S. holders in light of their particular circumstances and does not address any tax consequences arising under the laws of any state, local or foreign jurisdiction. Prospective purchasers should consult their tax advisors with respect to the particular tax consequences to them of owning and disposing of our common stock, including the consequences under the laws of any state, local or foreign jurisdiction.

Distributions on Common Stock

We do not expect to make any distributions on our common stock in the foreseeable future. If we do make distributions of cash or other property, those distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of our current and accumulated earnings and profits will constitute a non-taxable return of capital that is applied against and reduces, but not below zero, your adjusted tax basis in shares of our common stock. Any remaining excess will be treated as gain realized on the sale or other disposition of our common stock. See Dispositions of Common Stock.

Dividends paid to you on our common stock will generally be subject to U.S. federal withholding tax at a 30% rate or a reduced rate specified by an applicable tax treaty. In order to obtain a reduced rate of withholding, you will be

required to provide a properly executed Internal Revenue Service (IRS) Form W-8BEN or W-8BEN-E (or other applicable form) claiming a reduction of or an exemption from withholding tax under an applicable tax treaty.

The withholding tax does not apply to dividends paid to you if you provide a properly executed IRS Form W-8ECI, certifying that the dividends are effectively connected with your conduct of a trade or business within the United States. Instead, the effectively connected dividends will be generally subject to regular U.S. income tax as if you were a United States person, subject to an applicable tax treaty providing otherwise. In addition, in certain circumstances, if you are a foreign corporation you may be subject to a 30% (or, if a tax treaty applies, such lower rate as provided) branch profits tax.

Table of Contents

Dispositions of Common Stock

Subject to the discussion below concerning backup withholding and FATCA, gain realized by you on a sale, exchange or other disposition of our common stock generally will not be subject to U.S. federal income or withholding tax, unless:

the gain is effectively connected with your conduct of a trade or business within the United States, in which case the gain will be subject to U.S. federal income tax generally in the same manner as effectively connected dividend income as described above, subject to an applicable treaty providing otherwise; or

we are or have been a U.S. real property holding corporation (USRPHC) at any time within the five-year period preceding the disposition or your holding period, whichever period is shorter, and either (i) our common stock has ceased to be regularly traded on an established securities market prior to the beginning of the calendar year in which the sale or other disposition occurs or (ii) you own, or have owned, at any time during the five-year period preceding the disposition or your holding period, whichever is shorter, actually or constructively, more than 5% of our common stock.

We believe that we are not, and we do not anticipate becoming, a USRPHC.

Backup Withholding and Information Reporting

Any dividends that are paid to you must be reported annually to the IRS and to you. Copies of the information returns reporting such dividend payments and any withholding may also be made available to the tax authorities in the country in which you reside under the provisions of an applicable tax treaty or other intergovernmental agreement.

Unless you comply with certification procedures to establish that you are not a United States person as defined under the Code, information returns may be filed with the IRS in connection with the proceeds from a sale or other disposition of our common stock and you may be subject to backup withholding on payments on our common stock or on the proceeds from a sale or other disposition of our common stock. Provision of any properly completed IRS Form W-8 appropriate to your circumstances will generally satisfy the certification requirements necessary to avoid backup withholding.

The amount of any backup withholding from a payment to you will be allowed as a credit against your U.S. federal income tax liability and may entitle you to a refund, provided that the required information is timely furnished to the IRS.

FATCA Withholding Taxes

Provisions commonly referred to as FATCA impose withholding of 30% on payments of dividends on our common stock, and, beginning in 2019, on sales or other disposition proceeds from our common stock paid to foreign financial institutions (which is broadly defined for this purpose and in general includes investment vehicles) and certain other non-U.S. entities unless various U.S. information reporting and due diligence requirements (generally relating to ownership by U.S. persons of interests in or accounts with those entities) have been satisfied, or an exemption applies which is typically evidenced by delivery of a properly executed IRS Form W-8BEN-E. If FATCA withholding is imposed, a beneficial owner that is not a foreign financial institution generally will be entitled to a refund of any amounts withheld by filing a U.S. federal income tax return (which may entail significant administrative burden).

Foreign financial institutions located in jurisdictions that have an intergovernmental agreement with the United States governing FATCA may be subject to different rules. You should consult your tax advisor regarding the effects of FATCA on your investment in our common stock.

U.S. Federal Estate Tax

The estates of nonresident alien individuals generally are subject to U.S. federal estate tax on property with a U.S. situs. Because we are a U.S. corporation, our common stock will be U.S.-situs property and therefore will be included in the taxable estate of a nonresident alien decedent, unless an applicable estate tax treaty between the United States and the decedent's country of residence provides otherwise.

pursuant to a will, other testamentary document or applicable laws of descent, (E) transfers to such directors and executive officers affiliates or to any investment fund or other entity controlled or managed by such directors and executive officers, (F) transactions relating to shares of our common stock or other securities acquired in open market transactions after the completion of this offering, and (G) the transfer of any shares of our common stock upon the exercise of options to purchase shares of our common stock or the vesting, delivery or settlement of restricted shares, restricted stock units or other awards to provide for any withholding taxes on the exercise, vesting, delivery or settlement thereof or to pay the exercise price thereof; provided that in the case of any transfer or distribution pursuant to clauses (A) through (E), each donee or distributee shall execute and deliver to the representatives a lock-up letter in the form of this paragraph; and provided, further, that in the case of any transfer or distribution pursuant to clauses (A) through (G), no filing by any party (donor, donee, transferor or transferee) under the Exchange Act or other public announcement shall be required or shall be made voluntarily in connection with such transfer or distribution (other than a filing on a Form 5 made after the expiration of the 90-day period referred to above). In addition, the restrictions set forth above shall not apply to the establishment of a trading plan by such directors and executive officers pursuant to Rule 10b5-1 under the Exchange Act for the transfer of shares of our common stock, provided that such plan does not provide for the transfer of shares of our common stock during the 90-day period referred to above and no filing under the Exchange Act, or other public announcement (other than a filing on a Form 5 made after the expiration of the 90-day period referred to above), shall be required or shall be made voluntarily in connection with the establishment of such plan until after the expiration of the 90-day period referred to above.

The shares are listed on the New York Stock Exchange under the symbol AKS.

In connection with the offering the underwriters may engage in stabilizing transactions, syndicate covering transactions, and penalty bids in accordance with Regulation M under the Exchange Act.

Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.

Options to purchase additional shares of common stock relate to sales by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short position, the number of shares sold by the underwriters is not greater than the number of shares that they may purchase in the option to purchase additional shares of common stock. In a naked short position, the number of shares involved is greater than the number of shares in the option. The underwriters may close out any covered short position by either exercising their option and/or purchasing shares in the open market.

Syndicate covering transactions involve purchases of the common stock in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase shares through their option to purchase additional shares. If the underwriters sell more shares than could be covered by their option, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the common stock originally sold by the syndicate member is purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our common stock or preventing or retarding a decline in the market price of the common stock. As a result the price of our common stock may be higher than the price that might

otherwise exist in the open market. These transactions may be effected on the New York Stock Exchange or otherwise and, if commenced, may be discontinued at any time.

A prospectus in electronic format will be made available on the web sites maintained by one or more of the underwriters, or selling group members, if any, participating in this offering and one or more of the underwriters participating in this offering may distribute prospectuses electronically. The representatives may agree to allocate a number of shares to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

Conflicts of Interest

As described in Use of Proceeds, we will use the net proceeds of this offering to repay outstanding borrowings under the Credit Facility and for general corporate purposes.

An affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated serves as agent under the Credit Facility and each of the underwriters or their affiliates are lenders under the Credit Facility and will receive a portion of the proceeds from this offering as a result of such repayment. Because Merrill Lynch, Pierce, Fenner & Smith Incorporated, J.P. Morgan Securities LLC and Wells Fargo Securities, LLC or their affiliates are lenders under the Credit Facility who may each receive 5% or more of the net proceeds of the offering, each such underwriter is deemed to have a conflict of interest under FINRA Rule 5121. Accordingly, this offering will be conducted in accordance with FINRA Rule 5121. No underwriter with a conflict of interest under FINRA Rule 5121 will confirm sales to any discretionary accounts without receiving specific written approval from the account holder.

In addition, the underwriters and their respective affiliates are full-service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses. In addition, one of the members of our Board of Directors, Mr. Michael, is also the Executive Vice President and Group Regional President, Fifth Third Bancorp and Regional President of Fifth Third Bank, Greater Cincinnati, affiliates of one of the underwriters. Furthermore, Ms. Yocum, elected as a member of our Board of Directors effective January 9, 2017, is also Executive Vice President and Managing Executive of Client Services for PNC Asset Management, an affiliate of one of the underwriters.

In addition, in the ordinary course of their business activities, the underwriters and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

BUSINESS

We operate eight steelmaking and finishing plants, two coke plants and two tube manufacturing plants across six states—Indiana, Kentucky, Michigan, Ohio, Pennsylvania and West Virginia. These operations produce flat-rolled carbon, specialty stainless and electrical steels that we sell in sheet and strip form, and carbon and stainless steel that we finish into welded steel tubing. We also produce metallurgical coal through our AK Coal Resources, Inc. (AK Coal) subsidiary. In addition, we operate trading companies in Mexico and Europe that buy and sell steel and steel products and other materials.

In 2014, we acquired Severstal Dearborn, LLC. The assets acquired include the integrated steelmaking assets located in Dearborn, Michigan, the Mountain State Carbon, LLC cokemaking facility located in Follansbee, West Virginia, and interests in joint ventures that process flat-rolled steel products.

The registered and principal executive offices of AK Holding and AK Steel are located at 9227 Centre Pointe Drive, West Chester, Ohio 45069, and their telephone number at that address is (513) 425-5000. For administrative convenience, each of the Additional Guarantors utilizes the offices of AK Holding and AK Steel as their principal executive offices.
