Salient Midstream & MLP Fund

Shareholder Letter (Unaudited)

Dear Fellow Shareholders:¹

We are pleased to provide the annual report of the Salient Midstream & MLP Fund (the Fund) (NYSE: SMM) which contains updated data as of November 30, 2016.

As of November 30, 2016, the Fund had total consolidated assets of \$352.2 million, net asset value of \$14.37 per share and 17.7 million common shares outstanding. The Fund's price per share was \$13.40, which represents a 6.8% discount to its net asset value (NAV).

The Fund's investment allocation is shown in the pie chart below:

For illustrative purposes only.

Source: Salient Capital Advisors, LLC (Adviser), November 30, 2016.

Figures are based on the Fund's consolidated gross assets.

*General Partners that are structured as C-Corporations for US federal tax purposes.

¹ **Certain statements in this letter are forward-looking statements.** The forward-looking statements and other views expressed herein are those of the portfolio managers and the Fund as of the date of this letter. Actual future results or occurrences may differ significantly from those anticipated in any forward-looking statements, and there is no guarantee that any predictions will come to pass. The views expressed herein are subject to change at any time, due to numerous market and other factors. The Fund disclaims any obligation to update publicly or revise any forward-looking statements or views expressed herein. There can be no assurance that the Fund will achieve its investment objectives. The value of the Fund will fluctuate with the value of the underlying securities. Historically, closed-end funds often trade at a discount to their net asset value.

² Past performance is not indicative of future results. Current performance may be higher or lower than the data shown. The data shown are unaudited. Returns do not reflect the deduction of taxes that shareholders may have to pay on Fund distributions or upon the sale of Fund shares.

Table of Contents

The Fund's Top 10 consolidated holdings are shown below, as of November 30, 2016:

Company Name	Sector	% of Gross Assets
ONEOK, Inc.	General Partner	8.8%
Plains GP Holdings LP, Class A	MLP Affiliate	8.1%
Enbridge Energy Management, LLC	MLP Affiliate	7.9%
MarkWest Utica EMG, LLC*	MLP Affiliate	7.0%
Targa Resources Corp.	Midstream Company	6.4%
SemGroup Corp., Class A	Midstream Company	5.1%
EnLink Midstream LLC	General Partner	4.8%
The Williams Companies, Inc.	General Partner	4.7%
Energy Transfer Equity LP	MLP	4.5%
Macquarie Infrastructure Corp.	Other Energy & Infrastructure	4.5%
Total		61.8%

For illustrative purposes only.

*Held indirectly through the Fund's wholly owned interests of EMG Utica I Co-Investment, L.P.

Current and future holdings are subject to change and risk. Figures are based on the Fund's consolidated gross assets.

Source: Salient Capital Advisors, LLC (Adviser), November 30, 2016.

During the fiscal year (December 1, 2015 – November 30, 2016), the Fund's NAV and market price total return were 13.0% and 17.0%, respectively, compared to 9.3% for the Alerian MLP Index (AMZ), during the same period.^{2,3} Some of the top contributing investments held by the Fund during the fiscal year include ONEOK, Inc. (NYSE: OKE), Targa Resources Corp. (NYSE: TRGP) and Plains GP Holdings LP, Class A (NYSE: PAGP). Top detractors to Fund performance include Calumet Specialty Products Partners, LP (NASDAQ: CLMT), Teekay Offshore Partners, LP (NYSE: TOO) and Capital Products Partners, LP (NYSE: CPLP). The Fund recognized gains of \$885,251 and change in unrealized of (\$114,718) on its covered call option strategy.

Performance Snapshot

as of November 30, 2016 (unaudited)

Price Per Share	Fiscal YTD Total Return*	Since Inception* (Annualized)
\$14.37 (NAV)	13.0%	0.4%
\$13.40 (Market Price)	17.0%	(1.1%)

Market Review

As we close the book on our fiscal year, we felt it was appropriate to take a look back at what was one of the most challenging, but ultimately, most rewarding years of recent memory. One could argue that the tailwinds driving the sector currently appear as favorable as the headwinds the sector faced at the start of the year were negative.

Harkening back to the beginning of the fiscal year in December 2015, the US energy sector and Master Limited Partnerships (MLPs) were suffering through a decline not seen since the Financial Crisis of late 2008. Crude oil prices continued to slump to levels not seen in a decade. Overall domestic crude oil production and operating rig counts were plummeting and even natural gas prices remained below \$2.50 MMBtu.^{1,2} In short, the outlook for 2016 was bleak.

MLP investors' hopes for a January effect went in vain as renewed fears over a hard landing for the Chinese economy sent crude prices even lower.³ Not only was January not a positive month for MLPs, the -11.1% decline was the fourth worst month in the history of the AMZ.⁴ Crude oil finally bottomed on February 11th at \$26.21 per barrel/(bbl), a 13yr low.¹ At the February 11th closing low, the AMZ was down 28.2% in 2016, 30.7% since the beginning of the Fund's fiscal year (November 30), and 58.2% from its all-time high set back in August 2014.⁴

It is hard to pinpoint exactly what was the catalyst(s) that spurred the rally in the MLP sector. We believe it was a combination of several factors. For one, MLPs became inexpensive on a valuation basis as they approached financial crisis levels of 2008-2009 despite the industry being much larger in terms of overall market capitalization this time around with better access to capital. Rising crude oil prices certainly helped as well. Crude oil rallied to \$49/bbl by the end of May and has basically moved sideways ever since, trading in a +/- 10% band.¹ Given the relentless improvement in drilling efficiencies, a greater amount of drilling areas became economically viable in the \$45-\$55/bbl range and we have seen a steady uptick in the number of operating rigs since June.⁵ Higher rig count eventually leads to higher production and ultimately greater throughput and cash flows which assuaged the fear of potential widespread distribution cuts that had shaken many MLP investors. But perhaps the most important factor that turned the tide was that, operationally, MLPs themselves held up relatively well. The toll road model appears to have been vindicated.⁶ Take Kinder Morgan, Inc. (NYSE: KMI) as an example. KMI announced on December 8, 2015 that it intended to cut its dividend by 76%.⁷ KMI's drastic action was an attempt to avoid losing its prized investment grade status from the ratings agencies, it was not a reaction to rapidly deteriorating fundamentals.⁸ In fact, KMI's cash flow per share increased 7% in 2015 vs. 2014 despite the dramatic drop in commodity prices.^{9,10} As more and more MLPs reported similar operational results, we believe investors re-gained confidence in the MLP model and thereby re-gained confidence in MLPs.

¹ Bloomberg, November 30, 2016.

² **MMBTU or MBTU**, stands for one million British Thermal Units (BTU). A BTU is a measure of the energy content in fuel, and is used in the power, steam generation, heating and air conditioning industries. One BTU is equivalent to 1.06 Joules. Natural gas is usually measured in BTUs.

³ The **January Effect** is a seasonal increase in stock prices during the month of January. Analysts generally attribute this rally to an increase in buying, which follows the drop in price that typically happens in December when investors, engaging in tax-loss harvesting to offset realized capital gains, prompt a sell-off.

⁴ Alerian, November 30, 2016.

⁵ Rig Count Data retrieved here: <http://phx.corporate-ir.net/phoenix.zhtml?c=79687&p=irol-rigcountsoverview>.

⁶ **Toll Road Business Model** - Midstream MLPs typically do not own the energy commodity they transport and store, but collect revenue by acting as a toll road and charging fees for the processing or storage of the energy commodity.

⁷ Kinder Morgan, December 8, 2015. Kinder Morgan Announces 2016 Outlook. [Press release]. Retrieved here: <http://ir.kindermorgan.com/press-release/kinder-morgan-announces-2016-outlook>.

⁸ A **credit rating agency** (CRA, also called a **ratings** service) is a company that assigns **credit ratings**, which rate a debtor's ability to pay back debt by making timely interest payments and the likelihood of default. Major credit ratings agencies represented as Standard & Poor's Ratings Services, Moody's Investor Service and Fitch Ratings.

Edgar Filing: Salient Midstream & MLP Fund - Form N-CSR

⁹ Kinder Morgan, January 20, 2016. Kinder Generates \$4.7 Billion of Distributable Cash Flow for 2015. [Press release]. Retrieved here: <http://ir.kindermorgan.com/press-release/kindermorgan/kinder-morgan-generates-47-billion-distributable-cash-flow-2015>.

¹⁰ **Cash flow per share** is the after-tax earnings plus depreciation on a per-share basis that functions as a measure of a firm's financial strength.

Table of Contents

By September, energy credit spreads had returned to a more normal level. Comments from MLP management teams conveyed a more optimistic tone regarding 2017 and beyond. Further fueling our optimism were two major events that we believe may prove bullish for MLPs. The first occurred at the end of September when we got our first indication that it would be the Organization of Petroleum Exporting Countries (OPEC), and not North American producers, to blink in terms of crude oil production. The OPEC nations announced on September 28th that they had tentatively agreed to cut crude production by roughly 3%, or about 1 Million barrels of oil per day (MMbpd).² The details were hammered out at OPEC's semi-annual meeting in late November with the final number actually amounting to a larger cut of approximately 1.5 MMbpd. We view OPEC's announced production cuts as a tacit admission that its decision to let the market decide crude oil prices during its November 2014 meeting as unsuccessful. By reducing its own output, OPEC has effectively ceded market share to non-OPEC nations should global crude oil demand remain on its current 1-1.5 MMbpd annual growth trajectory.⁴

The second major event was Donald Trump's surprising victory in the US Presidential elections. While Trump will not be inaugurated until January 2017, and we do not know what sort of policies a Trump Administration may pursue, suffice it to say that we believe they may be more favorable to the domestic energy sector than what a Clinton Administration would have proposed. Since Election Day, Trump has nominated ex-ExxonMobil CEO Rex Tillerson to Secretary of State, former Texas Governor Rick Perry to head of the Department of Energy, and vocal Environmental Protection Agency (EPA) critic, Oklahoma Attorney General Scott Pruitt to head up the EPA.⁵ Add to the list Trump's recent appointment of investor Carl Icahn to a special advisory role regarding regulatory reform and from a policy standpoint the future appears brighter if you are in the business of hydrocarbons.⁶

Summary

Our long-term investment philosophy remains focused on MLPs and Midstream Companies that have the potential to achieve above average distribution growth which, we believe, leads to potentially higher long-term returns for investors. However, given the extreme volatility in the space over the past 18 months, we have seen investors place a premium on safety and predictability while underweighting growth potential. It is our opinion that successful MLPs achieve above average distribution growth in no small part because their operations allow them to outperform in both rising and falling commodity price environments. Being disciplined and sticking to our focus on choosing quality names using our bottom up stock selection approach will be more important than ever going forward. We believe the industry will continue its recovery off of the lows set last February and expect investor sentiment to once again favor growth as the sector appears to be entering into a new expansionary phase.

¹ A **credit spread** is the difference in yield between two bonds of similar maturity but different credit quality. For example, if the 10-year Treasury note is trading at a yield of 6% and a 10-year corporate bond is trading at a yield of 8%, the corporate bond is said to offer a 200-basis-point spread over the Treasury.

Table of Contents**Key Financial Data (unaudited)**

We supplement the reporting of our financial information determined under United States generally accepted accounting principles (GAAP) with certain non-GAAP financial measures: distributable cash flow and distributable cash flow coverage ratio. We believe these non-GAAP measures provide meaningful information to assist shareholders in understanding our financial results and assessing our performance. We pay distributions to our shareholders, funded in part by distributable cash flow generated from our portfolio investments. Distributable cash flow is the amount of income received by us from our portfolio investments less operating expenses, subject to certain adjustments as described below. Other companies with similar measures may calculate these measures differently, and as a result, it may not be possible to compare these financial measures with other companies non-GAAP financial measures having the same or similar names. These adjusted financial measures should not be considered in isolation or as a substitute for reported net investment income. These non-GAAP financial measures reflect an additional way of viewing an aspect of our operations that, when viewed with our GAAP results and the below reconciliation to the corresponding GAAP financial measures, provide a more complete understanding of our Fund. We strongly encourage shareholders to review our financial statements in their entirety and not rely on any single financial measure.

The table below reconciles the non-GAAP financial measures, distributable cash flow and distributable cash flow coverage ratio, by starting with the most directly comparable GAAP financial measure, net investment income.

	Year Ended November 30, 2016
Net investment Income	\$ 2,034,909
Reconciling items:	
Return of capital of distributions (a)	15,340,975
Dividends paid in stock (b)	2,432,360
Option premium earnings (c)	885,251
Deferred carried interest on investment in EMG Utica (d)	161,005
Distributable cash flow (non-GAAP)	\$ 20,854,500
Distributions paid on common stock	\$ 20,168,146
Distributable cash flow coverage ratio (non-GAAP)	1.03

Reconciliation of distributable cash flow to GAAP

(a) GAAP recognizes that a significant portion of the cash distributions received from MLPs is characterized as a return of capital and therefore excluded from net investment income, whereas the distributable cash flow calculation includes the return of capital portion of such distributions.

(b) Distributable cash flow includes the value of dividends paid-in-kind (i.e., stock dividends), whereas such amounts are not included in net investment income for GAAP purposes during the period received, but rather are recorded as unrealized gains upon receipt.

(c) We may sell covered call option contracts to generate income or to reduce our ownership of certain securities that we hold. In some cases, we are able to repurchase these call option contracts at a price less than the fee that we received, thereby generating a profit. The amount we received from selling call options, less the amount that we pay to repurchase such call option contracts is included in distributable cash flow. For GAAP purposes, income from call option contracts sold is not included in net investment income. See Note 2 Summary of Significant Accounting Policies and Practices for a full discussion of the GAAP treatment of option contracts.

(d) Deferred carried interest is a non-cash expense and represents a share of the profits of EMG Utica that will be realized at the time distributions are received.

Report of Independent Registered Public Accounting Firm

The Shareholders and Board of Trustees of

Salient Midstream & MLP Fund:

We have audited the accompanying consolidated statement of assets, liabilities and shareholders' equity of Salient Midstream & MLP Fund and Subsidiaries (the Fund), including the consolidated schedule of investments, as of November 30, 2016, and the related consolidated statements of operations and cash flows for the year then ended, the consolidated statements of changes in net assets for each of the years in the two-year period then ended, and the consolidated financial highlights for each of the years in the four-year period then ended and the period from May 24, 2012 (commencement of operations) through November 30, 2012. These consolidated financial statements and consolidated financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these consolidated financial statements and consolidated financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements and consolidated financial highlights are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of November 30, 2016, by correspondence with the custodian and brokers or by other appropriate auditing procedures. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements and consolidated financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of November 30, 2016, the results of its operations and cash flows for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the four-year period then ended and the period from May 24, 2012 through November 30, 2012 in conformity with U.S. generally accepted accounting principles.

(1) Commencement of operations.

(2) Information presented relates to a common share outstanding for periods indicated.

(3) Per share net investment income (loss) has been calculated using the average daily shares method.

(4) Represents the dilution per common share from underwriting and other offering costs for the period.

(5) Not annualized for periods less than one year.

(6) Total investment return is calculated assuming a purchase of common shares at the current market price on the first day of the period and a sale at the closing market price on the last day of the period reported (excluding brokerage commissions). Dividends and distributions are assumed for the purpose of this

Edgar Filing: Salient Midstream & MLP Fund - Form N-CSR

calculation to be reinvested at prices obtained under the DRIP.

- (7) Annualized for periods less than one year.
- (8) The amount includes an investment adviser waiver representing 0.13%, 0.30%, and 0.25% for the periods ended November 30, 2014, November 30, 2013, and November 30, 2012, respectively, to the expense ratios. Without this waiver, the expense ratios would be higher.
- (9) In connection with the reorganization of Salient MLP & Energy Infrastructure Fund into Salient Midstream & MLP Fund, no purchases or sales occurred in an effort to realign the combined fund's portfolio after the merger, and therefore none have been excluded from the portfolio turnover calculation. The value of investments acquired in the reorganization, which has been excluded from purchases in the portfolio turnover calculation, is \$337,519,725.
- (10) Calculated by subtracting the Fund's total liabilities (not including borrowings) from the Fund's total assets and dividing by the total number of senior indebtedness units, where one unit equals \$1,000 of senior indebtedness.

See accompanying Notes to Consolidated Financial Statements.

SALIENT MIDSTREAM & MLP FUND

Notes to Consolidated Financial Statements

November 30, 2016

(1) ORGANIZATION

Salient Midstream & MLP Fund (the Fund), a Delaware statutory trust registered under the Investment Company Act of 1940, as amended (the 1940 Act), commenced operations on May 24, 2012 as a non-diversified, closed-end management investment company. The Fund is authorized to issue an unlimited number of common shares of beneficial interest (Common Shares), which may be issued in more than one class or series. The Fund's Common Shares are listed on the New York Stock Exchange (NYSE) under the symbol SMM.

The Fund's objective is to provide a high level of total return with an emphasis on making quarterly cash distributions to its common shareholders. The Fund seeks to achieve its investment objective by investing at least 80% of its total assets in securities of midstream companies and master limited partnerships (MLPs).

The board of trustees (each member thereof a Trustee and, collectively the Board) is authorized to engage an investment advisor, and pursuant to an investment management agreement (the Investment Management Agreement), it has selected Salient Capital Advisors, LLC (the Advisor) to manage the Fund's portfolio and operations. The Advisor is a Texas limited liability company that is registered as an investment advisor under the Investment Advisors Act of 1940, as amended. Under the Investment Management Agreement, the Advisor is responsible for the establishment of an investment committee (the Investment Committee), which is responsible for developing, implementing, and supervising the Fund's investment program subject to the ultimate supervision of the Board.

Under the Fund's organizational documents, the Fund's Trustees and officers are indemnified against certain liabilities arising out of the performance of their duties with respect to the Fund. In addition, in the normal course of business, the Fund enters into contracts with vendors and others that provide general indemnification. The Fund's maximum exposure under these arrangements is unknown as this would involve any future potential claims that may be made against the Fund. However, based on experience, management expects that risk of loss to be remote.

Prior to September 30, 2016, the Fund invested up to 25% of its total assets in Salient Midstream & MLP Fund, Inc., a wholly owned subsidiary (the C-Corp Subsidiary). The C-Corp Subsidiary, which is organized under the laws of the state of Delaware, was controlled by the Fund, and is therefore consolidated in the Fund's consolidated financial statements through September 30, 2016. The Fund invested in the C-Corp Subsidiary in order to gain additional exposure to the investment returns of the MLP markets, within the limitations of the federal tax law requirements applicable to regulated investment companies (RIC). Where the context requires, the Fund includes both the Fund and the C-Corp Subsidiary. In December 2015, the Advisor recommended, and the Board approved, a plan of liquidation of the C-Corp Subsidiary (the Plan). As of January 21, 2016, all investments held by the C-Corp Subsidiary were sold and none were transferred to the Fund. Pursuant to the Plan, the C-Corp Subsidiary ceased operations and simultaneously transferred its other assets and liabilities to the Fund. The liquidation of the C-Corp Subsidiary was completed on September 30, 2016.

The Fund also owns 100% of the limited partnership interests of EMG Utica I Offshore Co-Investment, L.P. (EMG Utica). EMG Utica is considered a variable interest entity (VIE) as the Fund, as the limited partner, lacks the power to direct the activities of EMG Utica, as that resides with EMG Utica Co-Investment GP, LLC, the general partner for EMG Utica. For purposes of consolidation, management believes the Fund is the primary beneficiary as it owns 100% of EMG Utica. EMG Utica holds a non-controlling underlying interest in MarkWest Utica EMG, L.L.C., which is a joint venture between MarkWest Energy Partners, L.P. (MarkWest) and The Energy and Minerals Group (EMG). MarkWest is owned by MPLX LP (NYSE: MPLX), which is a U.S.

SALIENT MIDSTREAM & MLP FUND

Notes to Consolidated Financial Statements, continued

November 30, 2016

domiciled publicly traded master limited partnership that owns, operates, develops, and acquires midstream energy infrastructure assets. EMG is a private investment firm that targets equity investments in the energy and minerals sector. The Fund has a controlling financial interest in EMG Utica, and has therefore consolidated EMG Utica in the Fund's consolidated financial statements. Where the context requires, the Fund includes both the Fund and EMG Utica.

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND PRACTICES

(a) BASIS OF ACCOUNTING

The consolidated financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America (U.S. GAAP). The accompanying consolidated financial statements reflect the financial position of the Fund and its Subsidiaries and the results of their operations on a consolidated basis. All intercompany accounts and transactions have been eliminated in consolidation. The Fund and Subsidiaries are investment companies and follow the investment company accounting and reporting guidance under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 946, Financial Services-Investment Companies .

(b) CASH EQUIVALENTS

The Fund considers all unpledged temporary cash investments with a maturity date at the time of purchase of three months or less to be cash equivalents.

(c) PORTFOLIO SECURITIES TRANSACTIONS

Security transactions are accounted for on a trade date basis. Realized gains and losses are reported using the specific identification cost basis.

(d) INVESTMENT VALUATION

The valuation of the Fund's investments is determined each day based on the most recent close of regular session trading on the NYSE and reported by ALPS Fund Services, Inc., the Fund's independent administrator (the Administrator or ALPS).

The Board has formed a valuation committee (the Board Valuation Committee) that is responsible for overseeing the Fund's valuation policies, making recommendations to the Board on valuation-related matters, and overseeing implementation by the Advisor of the Fund's valuation policies.

The Board has authorized the Advisor to establish a valuation committee of the Advisor (the Advisor Valuation Committee). The Advisor Valuation Committee's function, subject to oversight of the Board Valuation Committee and the Board, is generally to review the Fund's valuation methodologies, valuation determinations, and any information provided to the Advisor Valuation Committee by the Advisor or the Administrator.

To the extent that the price of a security cannot be determined applying the methods described below, the Advisor Valuation Committee in conjunction with the Administrator will determine the price of the security pursuant to the fair value procedures approved by the Board.

Table of Contents

SALIENT MIDSTREAM & MLP FUND

Notes to Consolidated Financial Statements, continued

November 30, 2016

Investments held by the Fund are valued as follows:

SECURITIES LISTED ON A SECURITIES EXCHANGE OR OVER-THE-COUNTER EXCHANGES In general, the Fund values those securities at their last sales price on the exchange or over-the-counter market or a market's official closing price on the valuation date and are typically categorized as Level 1 in the fair value hierarchy. If the security is listed on more than one exchange, the Fund uses the price from the exchange that it considers to be the principal exchange on which the security is traded. If there have been no sales for that day on the exchange where the security is principally traded, then the price of the security will be valued at the mean between the closing bid and ask prices on the valuation date.

PUBLICLY-TRADED EQUITY SECURITIES ACQUIRED IN A DIRECT PLACEMENT TRANSACTION Such securities may be subject to restrictions on resale that can affect the security's liquidity and fair value. Such securities that are convertible or otherwise will become freely tradable will be valued based on the market value of the freely tradable security less an applicable restriction discount. Generally, the discount will initially be equal to the discount at which the Fund purchased the securities and thereafter will be periodically reassessed and likely reduced over the anticipated restricted period. Equity securities are typically categorized as Level 1 or Level 2 in the fair value hierarchy, based upon inputs utilized in determining the value of such securities.

DERIVATIVES Exchange traded futures contracts are valued using quoted final settlement prices from the national exchange on which they are principally traded and are typically categorized as Level 1 in the fair value hierarchy. If no such price is reported by such exchange on the valuation date, the Advisor Valuation Committee will determine the fair value in good faith using information that is available at such time. Such fair valued investments are typically categorized as Level 2 or Level 3 in the fair value hierarchy, based upon the inputs used to value the investments.

Options that are listed on a securities exchange are generally valued on the valuation date at the mean of the closing bid and ask prices of the posted market on the exchange on which they are listed and are typically categorized as Level 1 in the fair value hierarchy. If on the valuation date the primary exchange is closed, the prior day price will be used. If no such price is reported, the fair value of such options will be determined in good faith using industry standard pricing models utilizing publicly available input information on the valuation date. Such fair valued investments are typically categorized as Level 2 or Level 3 in the fair value hierarchy, based upon the inputs used to value the investments.

Options traded on an over-the-counter market are generally valued using the mean of the closing bid and ask prices provided by an independent pricing service. If a quotation is not available from the independent pricing service, the price is obtained from a broker (typically counterparty to the option) on the valuation date. If no such price is available on the valuation date, the Advisor Valuation Committee in conjunction with the Administrator will determine the fair value of such options in good faith using information that is available at such time. Such fair valued options are typically categorized as Level 2 or Level 3 in the fair value hierarchy, based upon the inputs used to value the investments.

Non exchange-traded derivatives, such as swap agreements, are valued based on procedures approved by the Board and are typically categorized as Level 2 in the fair value hierarchy. Credit default swaps and total return swaps are generally fair valued using evaluated quotes provided by

Table of Contents

SALIENT MIDSTREAM & MLP FUND

Notes to Consolidated Financial Statements, continued

November 30, 2016

an independent pricing service. If a quotation is not available from the independent pricing service, the price is obtained from a broker (typically the counterparty to the swap agreement) on the valuation date.

SECURITIES NOT ACTIVELY TRADED The value of securities, derivatives or synthetic securities that are not actively traded on an exchange are determined by obtaining quotes from brokers that normally deal in such securities or by an unaffiliated pricing service that may use actual trade data or procedures using market indices, matrices, yield curves, specific trading characteristics of certain groups of securities, pricing models or a combination of these procedures. In each of these situations, valuations are typically categorized as Level 2 in the fair value hierarchy. Securities for which independent pricing services are not available are valued pursuant to the valuation procedures approved by the Board and are typically categorized as Level 2 or Level 3 in the fair value hierarchy, based upon the inputs used to value the investments.

OTHER Investments in private placement securities and other securities for which market quotations are not readily available will be valued in good faith by using fair value procedures approved by the Board. Such fair value procedures may consider among other factors discounts to publicly traded issues, time until conversion date, securities with similar yields, quality, type of issue, coupon, duration and rating, and an analysis of the issuer's financial statements and reports. Valuation techniques such as the market approach and/or income approach may be used when sufficient and reliable data is available. If events occur that affect the value of the Fund's securities before the net asset value has been calculated, the securities so affected will generally be priced using fair value procedures. Such investments are typically categorized as Level 2 or Level 3 in the fair value hierarchy, based upon the inputs used to value the investments.

(e) FOREIGN CURRENCY

The accounting records of the Fund are maintained in U.S. dollars. Foreign currency amounts and investments denominated in a foreign currency, if any, are translated into U.S. dollar amounts at current exchange rates on the valuation date. Purchases and sales of investments denominated in foreign currencies are translated into U.S. dollar amounts at the exchange rate on the respective dates of such transactions. The Fund does not isolate the portion of the results of operations resulting from changes in foreign exchange rates on investments from fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized gain on investments.

(f) MASTER LIMITED PARTNERSHIPS

Entities commonly referred to as MLPs are generally organized under state law as limited partnerships or limited liability companies. The Fund and C-Corp Subsidiary invest in MLPs receiving partnership taxation treatment under the Internal Revenue Code of 1986, as amended (the Code), and whose interests or units are traded on securities exchanges like shares of corporate stock. To be treated as a partnership for U.S. federal income tax purposes, an MLP whose units are traded on a securities exchange must receive at least 90% of its income from qualifying sources such as interest, dividends, real property rents, gains on dispositions of real property, income and gains from mineral or natural resources activities, income and gains from the transportation or storage of certain fuels, and, in certain circumstances, income and gains from commodities or futures, forwards and options on commodities. Mineral or natural resources activities include exploration, development, production, processing, mining, refining, marketing and transportation (including pipelines) of oil and gas,

Table of Contents**SALIENT MIDSTREAM & MLP FUND****Notes to Consolidated Financial Statements, continued****November 30, 2016**

minerals, geothermal energy, fertilizer, timber or industrial source carbon dioxide. An MLP consists of a general partner and limited partners (or in the case of MLPs organized as limited liability companies, a managing member and members).

The general partner or managing member typically controls the operations and management of the MLP and has an ownership stake in the partnership or limited liability company. The limited partners or members, through their ownership of limited partner or member interests, provide capital to the entity, are intended to have no role in the operation and management of the entity and receive cash distributions. The Fund's investments in MLPs consist only of limited partner or member interest ownership. The MLPs themselves generally do not pay U.S. federal income taxes. Thus, unlike investors in corporate securities, direct MLP investors are generally not subject to double taxation (i.e., corporate level tax and tax on corporate dividends). Currently, most MLPs operate in the energy and/or natural resources sector.

(g) RESTRICTED AND ILLIQUID SECURITIES

The Fund may invest up to 30% of its total assets in unregistered or otherwise restricted securities of which up to 10% may be in securities of privately held companies. A restricted security is a security which has been purchased through a private offering and cannot be resold to the general public without prior registration under the Securities Act of 1933 (the "1933 Act") or pursuant to the resale limitations provided by Rule 144 under the 1933 Act, or an exemption from the registration requirements of the 1933 Act. Illiquid securities are securities that cannot be sold or disposed of within a reasonable amount of time in the ordinary course of business. Certain restricted securities may be resold in transactions exempt from registration, normally to qualified institutional buyers, and may be deemed liquid by the Advisor based on procedures approved by the Board. Therefore, not all restricted securities are considered illiquid.

The restricted securities held at November 30, 2016 are identified below and are also presented in the Fund's Consolidated Schedule of Investments.

Security	% of Net Assets	Acquisition Date [^]	Shares/Units	Cost	Fair Value
MarkWest Utica EMG, LLC*	9.7%	2/22/2013	16,000,000	\$ 16,000,000	\$ 24,762,000
Total Restricted Securities	9.7%			\$ 16,000,000	\$ 24,762,000

[^] The date the Fund acquired EMG Utica, which invested proceeds into MarkWest Utica EMG, LLC.

* EMG Utica has been deemed illiquid by the Advisor based on procedures approved by the Board. MarkWest Utica EMG, LLC is held by the Fund through EMG Utica.

(h) INVESTMENT INCOME

Interest income is recognized on the accrual basis. Distributions are recorded on the ex-dividend date. Distributions received from the Fund's investments in MLPs generally are composed of ordinary income, capital gains and return of capital from the MLPs.

(i) USE OF ESTIMATES

The consolidated financial statements have been prepared in conformity with U.S. GAAP, which requires management to make estimates and assumptions relating to the reported amounts of assets and liabilities and the

Table of Contents**SALIENT MIDSTREAM & MLP FUND****Notes to Consolidated Financial Statements, continued****November 30, 2016**

disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of income and expenses during the reporting period. Actual results may differ from those estimates and such differences may be significant.

(j) DERIVATIVE INSTRUMENTS

The Fund may invest in derivatives in order to meet its investment objectives. The risk in using derivatives varies depending upon the structure of the instruments. All open derivative positions at period end, if any, are presented in the Fund's Consolidated Schedule of Investments. The following is a description of the derivative instruments that the Fund has utilized as part of its investment strategy, including the primary underlying risk exposures related to each instrument type.

OPTIONS The Fund may write equity call options with the purpose of generating realized gains from premiums as a means to enhance distributions to the Fund's common shareholders. Options are secured by investments, as detailed in the Fund's Consolidated Schedule of Investments. A call option on a security is a contract that gives the holder of such call option the right to buy the security underlying the call option from the writer of such call option at a specified price at any time during the term of the option. At the time the call option is sold, the writer of a call option receives a premium from the buyer of such call option. If the Fund writes a call option, it will have the obligation upon exercise of such call option to deliver the underlying security upon payment of the exercise price. As the writer of a covered call option, during the option's life, the Fund gives up the opportunity to profit from increases in the market value of the security covering the call option above the sum of the premium and the strike price of the call, but the Fund retains the risk of loss should the price of the underlying security decline.

The Fund had the following transactions in written call options during the year ended November 30, 2016:

	Number of Contracts	Premiums
Written options outstanding at November 30, 2015	3,592	\$ 60,021
Options written	39,209	1,465,712
Options covered	(8,249)	(393,602)
Options exercised	(8,327)	(362,547)
Options expired	(22,780)	(620,481)
Written options outstanding at November 30, 2016	3,445	\$ 149,103

FUTURES CONTRACTS The Fund may invest in futures contracts as a part of its hedging strategy to manage exposure to interest rate, equity and market price movements, and commodity prices. A futures contract represents a commitment for the future purchase or sale of an asset at a specified price on a specified date. The underlying asset is not physically delivered. Futures contracts are valued at their quoted daily settlement prices. Upon entering into a futures contract, the Fund is required to segregate liquid assets in accordance with the initial margin requirements of the clearinghouse to secure the Fund's performance. The clearinghouse also requires daily settlement of variation margin representing changes in the value of each contract. Fluctuations in the value of the contracts are recorded as unrealized appreciation (depreciation) until the contracts are closed, when they are recorded as net realized gain (loss) on futures contracts. The primary risks associated with the use of futures contracts are imperfect correlation between changes in fair values of the underlying assets and the prices of futures contracts, and the possibility of an illiquid market. Counterparty risk involving futures is mitigated because a regulated clearinghouse is the counterparty.

Table of Contents**SALIENT MIDSTREAM & MLP FUND****Notes to Consolidated Financial Statements, continued****November 30, 2016**

SWAP AGREEMENTS The Fund may invest in swap agreements, primarily total return swap agreements, in connection with its hedging strategy to manage market risks.

A total return swap is a bilateral financial contract agreement where one party (the payer) agrees to pay the other (the receiver) the total return on a specified asset or index in exchange for a fixed or floating rate of return. A total return swap allows the receiver or payer to derive the economic benefit of owning or having short exposure to an asset without owning or shorting the underlying asset directly. The receiver is entitled to the amount, if any, by which the notional amount of the total return swap would have increased in value had it been invested in the particular instruments, plus an amount equal to any dividends or interest that would have been received on those instruments. In return, the payer is entitled to an amount equal to a fixed or floating rate of interest (e.g., a LIBOR based rate) on the notional amount of the swap plus the amount, if any, by which the notional amount would have decreased in value had it been invested in such instruments, less any dividends or interest. The amounts to which each party is entitled are normally netted against each other at periodic settlement dates, resulting in a single amount that is either due to or from each party.

A credit default swap gives one party (the buyer) the right to recoup the economic value of a decline in the value of debt securities of the reference issuer if a credit event (a downgrade, bankruptcy or default) occurs. This value is obtained by delivering a debt security of the reference issuer to the party in return for a previously agreed upon payment from the other party (frequently, the par value of the debt security) or receive a net amount equal to the par value of the defaulted reference entity less its recovery value. The Fund is usually a net buyer of credit default swap.

The Fund as a buyer of a credit default swap would have the right to deliver a referenced debt obligation and receive the par (or other agreed-upon) value of such debt obligation from the counterparty in the event of a default or other credit event by the reference issuer with respect to its debt obligations. In return, the Fund would pay the counterparty a periodic stream of payments over the term of the agreement provided that no event of default or other credit event has occurred. If no default or other credit event occurs, the counterparty would keep the stream of payments and would have no further obligations to the Fund.

In addition to being exposed to the credit risk of the underlying reference entity, swap agreements are subject to counterparty risk, market risk and interest rate risk. Swap agreements utilized by the Fund may not perform as expected. Risks may arise as a result of the failure of the counterparty to perform under the agreement. The loss incurred by the failure of a counterparty is generally limited to the market value and premium amounts recorded. The Fund considers the creditworthiness of each counterparty to a swap agreement in evaluating potential credit risk, and will not enter into any swap agreement unless the Advisor believes the counterparty to the transaction is creditworthy. Additionally, risks may arise from the unanticipated movements in interest rates or in the value of the underlying reference assets. The Fund may use various techniques to minimize credit risk including early termination or reset and payment. Collateral, in the form of cash, is held in broker segregated accounts for swap agreements.

The following is a summary of the fair value of derivative instruments held directly by the Fund as of November 30, 2016, and where such derivatives are recorded:

	Liabilities Written Options, at Fair Value
Equity Risk Exposure:	
Written Call Options	\$ 203,800

Table of Contents**SALIENT MIDSTREAM & MLP FUND****Notes to Consolidated Financial Statements, continued****November 30, 2016**

The following is a summary of the effect of derivative instruments on the Consolidated Statement of Operations for the year ended November 30, 2016.

	Net Realized Gain (Loss) on Derivatives	Change in Unrealized Appreciation/ Depreciation on Derivatives
Equity Risk Exposure:		
Written Call Options	\$ 885,251	\$ (114,718)

As described above, the Fund utilized derivative instruments to achieve its investment objective during the year ended November 30, 2016. The Fund may enter into International Swaps and Derivatives Association, Inc. Master Agreements (ISDA Master Agreement) or similar agreements with its derivative contract counterparties whereby the Fund may, under certain circumstances, offset with the counterparty certain derivative financial instruments payables and/or receivables with collateral held and/or posted and create one single net payment. Under the Institutional Listed Options Agreement in place with Morgan Stanley at November 30, 2016, the Fund is subject to master netting agreements that allow for amounts owed between the Fund and the counterparty to be netted. The party that has the larger net payable pays the excess of the larger amount over the smaller amount to the other party. The master netting agreements do not apply to amounts to or from different counterparties.

	Gross Amounts of Recognized Liabilities	Gross Amounts Available for Offset	Net Amounts of Liabilities*	Financial Instruments Pledged	Cash Collateral Pledged	Net Amount
Written Options	\$ 203,800	\$	\$ 203,800	\$ 203,800	\$	\$
Total Written Options	\$ 203,800	\$	\$ 203,800	\$ 203,800	\$	\$

* Amounts for written options are reflected in the Consolidated Statement of Assets, Liabilities and Shareholders' Equity as Written Options. The following is a summary of the average monthly notional value of written options during the year ended November 30, 2016.

	Average Monthly Notional Value	Notional Value Outstanding at November 30, 2016
Written Call Options	\$ 2,332,152	\$ 1,803,430

(k) DISTRIBUTIONS TO SHAREHOLDERS

The Fund intends to continue to comply with the requirements under Subchapter M of the Code in order to continue to qualify as a RIC. If so qualified, the Fund will not be subject to federal income tax to the extent it distributes substantially all of its net investment income and net capital gains to its shareholders.

Edgar Filing: Salient Midstream & MLP Fund - Form N-CSR

The Fund generally makes quarterly distributions to shareholders. Net realized capital gains, if any, are distributed annually. Distributions from net realized gains may include short-term capital gains. All net short-term capital gains are included in ordinary income for tax purposes. Distributions to shareholders are recorded on the ex-dividend date. The Fund may also pay, at the end of the calendar year, a special distribution to comply with requirements under the Code.

Table of Contents

SALIENT MIDSTREAM & MLP FUND

Notes to Consolidated Financial Statements, continued

November 30, 2016

Each shareholder will automatically be a participant under the Fund's Dividend Reinvestment Plan (the "DRIP") and have all income distributions and capital gains distributions automatically reinvested in Shares, unless a shareholder otherwise elects to receive distributions in cash. Generally, for U.S. federal income tax purposes, shareholders receiving Shares under the DRIP will be treated as having received a distribution equal to the amount of cash they would have received had the shareholder not participated in the DRIP.

The character of distributions made during the period from net investment income or net realized gains may differ from its ultimate characterization for federal income tax purposes. For the year ended November 30, 2016, 3% of the Fund's distributions are return of capital.

The amount of distributions from net investment income and net realized gains are determined in accordance with federal income tax regulations which may differ from U.S. GAAP. These book/tax differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature (e.g., return of capital, differing treatment on partnership investments and the liquidation of the C-Corp Subsidiary), such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment: temporary differences (e.g., wash sales, partnerships, late year ordinary loss deferrals and capital loss carryforwards) do not require a reclassification. Distributions which exceed net investment income and net realized gains for financial reporting purposes but not for tax purposes are reported as distributions in excess of net investment income or net realized gains. To the extent they exceed net investment income and net realized gains for tax purposes, they are reported as return of capital.

(l) CFTC REGULATION

The Commodity Futures Trading Commission ("CFTC") adopted rules to harmonize conflicting United States Securities and Exchange Commission (the "SEC") and CFTC disclosure, reporting and recordkeeping requirements for registered investment companies that do not meet an exemption from the definition of commodity pool. The harmonization rules provide that the CFTC will accept the SEC's disclosure, reporting, and recordkeeping regime as substituted compliance for substantially all of the otherwise applicable CFTC regulations as long as such investment companies meet the applicable SEC requirements.

With respect to the Fund, the Advisor has claimed an exemption from the definition of the term "commodity pool operator" under CFTC Regulation 4.5 of the Commodity Exchange Act ("CEA"). As such, the Fund is not currently subject to registration or regulation as a commodity pool under the CEA.

(m) IRS REGULATIONS

The Internal Revenue Service ("IRS") adopted final regulations, published September 15, 2015 ("Regulations"), which will have the effect of requiring the Fund to aggregate the investment holdings of the C-Corp Subsidiary with its direct investment holdings for purposes of determining whether more than 25% of its total assets are invested in the securities of one or more "qualified publicly traded partnerships." Such "QPTPs" include MLPs, in which the Fund invests and the C-Corp Subsidiary invested prior to liquidation. The Regulations do not impact Fund investments in affiliates of MLPs or other Midstream Companies structured as corporations, as those categories are applied in the Fund's investment strategies. The regulations are applicable to quarters that begin on or after December 15, 2015. As of November 30, 2016, the Advisor has reduced the Fund's overall investments in MLPs to no more than 25% of the Fund's total assets.

(n) RETURN OF CAPITAL ESTIMATES

Distributions received from the Fund's investments in MLPs generally are composed of income, capital gains and return of capital. The Fund records investment income and return of capital based on estimates made at

Table of Contents

SALIENT MIDSTREAM & MLP FUND

Notes to Consolidated Financial Statements, continued

November 30, 2016

the time such distributions are received. Such estimates are based on historical information available from each MLP and other industry sources. These estimates may subsequently be revised based on information received from MLPs after their tax reporting periods are concluded.

For the year ended November 30, 2016, the Fund estimated that approximately 100% of the MLP distributions received would be treated as a return of capital. The Fund recorded as return of capital the amount of \$15,340,975 of dividends and distributions received from its investments. Net realized gain was increased by \$34,474,753 and change in net unrealized appreciation/depreciation was decreased by \$19,133,778 in the accompanying Consolidated Statement of Operations, attributable to the recording of such dividends and distributions as a reduction in the cost basis of investments.

(o) FEDERAL AND OTHER TAXES

For the tax years ended November 30, 2014 through November 30, 2016, and for all major jurisdictions, management of the Fund has evaluated the tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions will more-likely-than-not be sustained by the Fund upon challenge by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold and that would result in a tax benefit or expense to the Fund would be recorded as a tax benefit or expense in the current period. For the year ended November 30, 2016, the Fund did not recognize any amounts for unrecognized tax benefit/expense. A reconciliation of unrecognized tax benefit/expense is not provided herein, as the beginning and ending amounts of unrecognized tax benefit/expense are zero, with no interim additions, reductions or settlements.

The C-Corp Subsidiary, as a corporation, is obligated to pay federal and state income tax on its taxable income. The C-Corp Subsidiary invested its assets primarily in MLPs, which generally are treated as partnerships for federal income tax purposes. As a limited partner in the MLPs, the C-Corp Subsidiary includes its allocable share of the MLP's taxable income in computing its own taxable income.

For the tax years ended November 30, 2014 through November 30, 2016, and for all major jurisdictions, management of the C-Corp Subsidiary has concluded that there are no significant uncertain tax positions that would require recognition in the consolidated financial statements.

The C-Corp Subsidiary may rely to some extent on information provided by the MLPs, which may not necessarily be timely, to estimate taxable income allocable to the MLP units held in the portfolio and to estimate the associated tax liability. Such estimates are made in good faith. From time to time, as new information becomes available, the C-Corp Subsidiary may modify its estimates or assumptions regarding the tax liability.

The C-Corp Subsidiary's policy is to classify interest and penalties associated with underpayment of federal and state income taxes, if any, as income tax expense on its Consolidated Statement of Operations. The tax years ended November 30, 2014 through November 30, 2016 remain open and subject to examination by tax jurisdictions.

Table of Contents

SALIENT MIDSTREAM & MLP FUND

Notes to Consolidated Financial Statements, continued

November 30, 2016

EMG Utica, as a partnership, does not directly pay federal income tax. EMG Utica's wholly owned subsidiary, EMG Utica I Blocker Inc. is a corporation and, as such, is obligated to pay federal and state income tax on its taxable income.

(p) SEC REGULATIONS

On October 13, 2016, the SEC amended Regulation S-X, which will require standardized, enhanced disclosure about derivatives in investment company financial statements, as well as other amendments. The compliance date for the amendments to Regulation S-X is August 1, 2017. Management is currently evaluating the impact to the financial statements and disclosures.

(3) FAIR VALUE MEASUREMENTS

The Fund defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions.

The valuation techniques employed by the Fund, as described below, maximize the use of observable inputs and minimize the use of unobservable inputs in determining fair value. The inputs used to determine the fair value of the Fund's investments are summarized in the three broad levels listed below:

Level 1 unadjusted quoted prices in active markets for identical investments

Level 2 investments with other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 investments with significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments) that are developed based on the best information available

Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. The Fund discloses transfers between levels based on valuations at the end of the reporting period. The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments.

Other assets and securities, which are generally not exchange-traded, or for which market quotations are not readily available, or are deemed unreliable are valued at fair value as determined in good faith by the Advisor Valuation Committee. Fair value pricing may be used for significant events such as securities for which trading has been suspended, prices have become stale or for which there is no currently available price at the close of the NYSE. When observable prices are not available, the Advisor Valuation Committee may use one or more valuation techniques such as the market approach, the income approach, or internal pricing models for which sufficient and reliable data is available. The market approach generally consists of using comparable market data and transactions. The income approach generally consists of estimating future cash flows from an investment to determine the net present value. A significant change in the unobservable inputs could result in a significantly lower or higher fair value measurement. Depending on the source and relative significance of valuation inputs, these investments may be classified as Level 2 or Level 3 in the fair value hierarchy.

The Fund establishes valuation processes and procedures to ensure that the valuation techniques for investments that are categorized within Level 3 of the fair value hierarchy are fair, consistent, and appropriate. The Advisor is responsible for developing the Fund's written valuation processes and procedures, conducting periodic reviews of the valuation policies, and evaluating the overall fairness and consistent application of the valuation policies. The Board Valuation Committee has authorized the Advisor to oversee the implementation of

Table of Contents**SALIENT MIDSTREAM & MLP FUND****Notes to Consolidated Financial Statements, continued****November 30, 2016**

the Board approved valuation procedures by the Administrator. The Advisor Valuation Committee is comprised of various Fund personnel, which include members from the Fund's portfolio management and operations groups. The Advisor Valuation Committee meets monthly or as needed, to determine the valuations of the Fund's Level 3 investments. Fund valuations are required to be supported by market data, industry accepted third-party valuation models, or other methods the Advisor Valuation Committee deems to be appropriate, including the use of internal proprietary valuation models.

The following is a summary categorization of the Fund's investments based upon the three levels defined above as of November 30, 2016. The breakdown by category of equity securities is disclosed in the Consolidated Schedule of Investments.

	LEVEL 1		LEVEL 2	LEVEL 3	TOTAL	
	Investment Securities	Other Financial Instruments [^]	Investment Securities	Investment Securities	Investment Securities	Other Financial Instruments [^]
Master Limited Partnerships and Related Companies						
Gathering & Processing	\$ 49,293,115	\$	\$	\$ 24,762,000	\$ 74,055,115	\$
Other	276,046,313				276,046,313	
Convertible Bond			739,208		739,208	
Written Options		(203,800)				(203,800)
Total	\$ 325,339,428	\$ (203,800)	\$ 739,208	\$ 24,762,000	\$ 350,840,636	\$ (203,800)

[^] Other financial instruments include any derivative instruments not reflected in the Consolidated Schedule of Investments as investment securities, such as written call options. These investments are generally presented in the Consolidated Schedule of Investments at the unrealized gain or loss on the investment.

The following table is a summary of quantitative information about significant unobservable valuation inputs for Level 3 fair value measurements for investments held as of November 30, 2016:

	Fair Value November 30, 2016	Valuation	Unobservable	Input
		Techniques	Inputs ⁽¹⁾	
Master Limited Partnerships and Related Companies				
MarkWest Utica EMG, LLC	\$ 24,762,000	Market comparable companies ⁽²⁾	Private Market Discount	10.0%
			Weighted Average Enterprise Value/EBITDA Multiple ⁽⁵⁾	8.9x
		Market comparable transactions ⁽³⁾	Private Market Discount	10.0%
			Weighted Average Enterprise Value/EBITDA	13.2x

Edgar Filing: Salient Midstream & MLP Fund - Form N-CSR

	Multiple ⁽⁶⁾	
Discounted cash flow ⁽⁴⁾	Equity Value/Distributable Cash Flow Exit Multiple	10x
	Discount Rate	11.1%

Table of Contents**SALIENT MIDSTREAM & MLP FUND****Notes to Consolidated Financial Statements, continued****November 30, 2016**

- (1) In determining certain of these inputs, management evaluates a variety of factors including economic conditions, industry and market developments, market valuations of comparable companies and company specific developments including exit strategies and realization opportunities. Management has determined that market participants would take these inputs into account when valuing the investments.
- (2) Weight ascribed to market comparable companies methodology was 16.7%.
- (3) Weight ascribed to market comparable transactions methodology was 16.7%.
- (4) Weight ascribed to discounted cash flows methodology was 66.6%.
- (5) Enterprise Value/EBITDA Multiple for market comparable companies methodology based on YR 1 and YR 2 weightings of 25% and 75%, respectively.
- (6) Enterprise Value/EBITDA Multiple for market comparable transactions methodology based on YR 1 and YR 2 weightings of 25% and 75%, respectively.

There were no transfers between Levels 1, 2, or 3 for the year ended November 30, 2016. The following is a reconciliation of Level 3 investments based on the inputs used to determine fair value:

	Balance as of November 30, 2015	Purchases	Sales Proceeds	Realized Gain/(Loss)	Change in Unrealized Appreciation/ Depreciation	Balance as of November 30, 2016
Investments in Securities Master Limited Partnerships and Related Companies						
Gathering & Processing	\$ 22,542,000	\$	\$	\$	\$ 2,220,000	\$ 24,762,000
Total	\$ 22,542,000	\$	\$	\$	\$ 2,220,000	\$ 24,762,000

(4) CREDIT FACILITY

The Fund maintains a line of credit agreement (the Agreement) with Bank of Nova Scotia (BNS) which provides a \$160,000,000 committed lending facility (prior to November 21, 2016, facility was \$225,000,000). Borrowings under the Agreement are secured by investments, as detailed in the Fund's Consolidated Schedule of Investments. The Agreement provides for a commitment fee of 0.10% per annum on undrawn amounts above a certain threshold plus interest accruing on outstanding borrowed amounts at the one month LIBOR plus 0.95% per annum. The average principal balance and weighted average interest rate for the year ended November 30, 2016, was approximately \$74,547,784 and 1.42%, respectively. At November 30, 2016, the principal balance outstanding was \$90,389,219 at an interest rate of 1.57%.

During the year ended November 30, 2016, the C-Corp Subsidiary maintained a line of credit agreement (the Sub Agreement) with BNS which provided a \$75,000,000 committed lending facility. The Sub Agreement provided for a commitment fee of 0.10% per annum on undrawn amounts above a certain threshold plus interest accruing on outstanding borrowed amounts at the one month LIBOR plus 0.95% per annum. For the year ended November 30, 2016, there were no borrowings under the Sub Agreement. In January 2016, the C-Corp Subsidiary terminated its Sub Agreement with BNS and effectively closed the committed lending facility.

(5) FEDERAL INCOME TAXES

The Fund intends to continue to comply with the requirements of the Code applicable to RICs and to distribute all of its taxable income to shareholders. Also, in order to avoid the payment of any federal excise taxes, the Fund will distribute substantially all of its net investment income and net realized gains on a calendar year basis.

Table of Contents**SALIENT MIDSTREAM & MLP FUND****Notes to Consolidated Financial Statements, continued****November 30, 2016**

In accordance with U.S. GAAP, the Fund has made reclassifications among its capital accounts, primarily attributable to partnership investments and differences in the book to tax treatment of the C-Corp Subsidiary liquidation. These reclassifications are intended to adjust the components of the Fund's net assets to reflect the tax character of permanent book/tax differences and have no impact on the net assets or the net asset value of the Fund. As of November 30, 2016, the Fund made reclassifications to increase or (decrease) the components of the net assets detailed below:

Paid-in Capital	Accumulated Net Investment Income (Loss)	Accumulated Net Realized Gain (Loss)
\$ 97,504,240	\$ 3,696,959	\$ (101,201,199)

The tax character of dividends paid to shareholders during the tax year ended in 2016 was as follows:

Ordinary Income	Net Long Term Capital Gains	Total Taxable Distributions	Tax Return of Capital	Total Distributions Paid
\$ 19,592,729	\$	\$ 19,592,729	\$ 575,417	\$ 20,168,146

The tax character of dividends paid to shareholders during the tax year ended in 2015 was as follows:

Ordinary Income	Net Long Term Capital Gains	Total Taxable Distributions	Tax Return of Capital	Total Distributions Paid
\$ 19,828,072	\$ 7,897,204	\$ 27,725,276	\$ 1,818,045	\$ 29,543,321

The following information is provided on a tax basis as of November 30, 2016:

Cost of investments	\$ 284,047,039
Gross unrealized appreciation	78,028,974
Gross unrealized depreciation	(13,170,074)
Net unrealized appreciation (depreciation) before tax	64,858,900
Net unrealized appreciation (depreciation) after tax	62,978,900
Undistributed investment income	
Undistributed long-term gains (losses)	(198,589,986)
Distributable earnings	
Other accumulated gains (losses)	(24,601,022)
Total accumulated earnings (losses)	\$ (158,332,108)

Edgar Filing: Salient Midstream & MLP Fund - Form N-CSR

The differences between book-basis and tax-basis unrealized appreciation (depreciation) are primarily due to differences in the timing of recognition of gains and losses on partnership investments and wash sales for tax and book purposes.

Table of Contents**SALIENT MIDSTREAM & MLP FUND****Notes to Consolidated Financial Statements, continued****November 30, 2016**

The Fund utilized net capital loss carryforwards (CLCFs) attributable to the C-Corp Subsidiary of \$6,635,006 during the year ended November 30, 2016. As a result of the liquidation of the C-Corp Subsidiary, the Fund is entitled to the remaining CLCF from the C-Corp Subsidiary. At November 30, 2016, the Fund has available for tax purposes unused CLCFs from the C-Corp Subsidiary as follows:

Expiring	Short-Term	Long-Term
11/30/2017	\$ 2,688,069	\$
11/30/2018	9,864,542	1,116,627
Total	\$ 12,552,611	\$ 1,116,627

As of the end of the tax year ended November 30, 2016, the Fund also has available for tax purposes unused CLCFs as follows:

Short-Term	Long-Term
\$ 128,101,342	\$ 56,819,406

Under current tax law, capital losses and specified ordinary losses realized after October 31st and non-specified ordinary losses incurred after December 31st (ordinary losses collectively known as qualified late year ordinary loss) may be deferred and treated as occurring on the first business day of the following fiscal year. The Fund elected to defer to the period ending November 30, 2017, ordinary losses in the amount of \$16,683,751.

As of November 30, 2016, the Fund has a tax liability of \$3,526,230 attributable to investments sold by the C-Corp Subsidiary.

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amount of assets and liabilities for financial reporting and tax purposes. Components of EMG Utica's deferred tax assets and liabilities as of November 30, 2016 are as follows:

Deferred tax assets:	
Interest expense deferral	\$ 1,178,000
Net operating loss carry forward	3,403,000
Total deferred tax assets	4,581,000
Less deferred tax liability:	
Equity method investments	(6,461,000)
Total deferred tax liability	(6,461,000)
Total net deferred tax liability	\$ (1,880,000)

EMG Utica has recorded a deferred tax asset of \$3,403,000 reflecting the benefit of \$9,723,000 in loss carry forwards. Such deferred tax assets expire between 2033 and 2036.

Table of Contents**SALIENT MIDSTREAM & MLP FUND****Notes to Consolidated Financial Statements, continued****November 30, 2016**

The following table reconciles the provision for income taxes to the US federal statutory rate for EMG Utica:

Statutory federal income tax	35.0%
Income passed through to partners	-56.3%
Effective income tax rate	-21.3%

Although the Subsidiaries currently have a net deferred tax liability, they periodically review the recoverability of their deferred tax assets based on the weight of available evidence. When assessing the recoverability of their deferred tax assets, significant weight is given to the effects of potential future realized and unrealized gains on investments and the period over which these deferred tax assets can be realized. Based on the Subsidiaries' assessment, they have determined that it is more likely than not that their deferred tax asset will be realized through future taxable income of the appropriate character. Accordingly, no valuation allowance has been established for the Subsidiaries' deferred tax asset. The Subsidiaries will continue to assess the need for a valuation allowance in the future.

Total income tax expense (benefit) (current and deferred) differs from the amount computed by applying the federal statutory income tax rate of 35% to the C-Corp Subsidiary's net investment income and realized gains (losses) on investments before taxes for the fiscal year ended November 30, 2016, as follows:

Application of statutory income tax rate	\$ (3,263,578)
State income taxes, net of federal tax benefit	(166,908)
Total income tax benefit	\$ (3,430,486)

(6) INVESTMENT TRANSACTIONS

For the year ended November 30, 2016, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were \$268,348,605 and \$290,060,668, respectively.

(7) SERVICE PROVIDERS

Prior to May 1, 2016, Citi Fund Services Ohio, Inc. (Citi) served as administrator to the Fund. In consideration for administrative, accounting, and recordkeeping services, the Fund paid Citi a monthly administration fee based on the greater of a minimum fee or fees based on the Fund's average net assets for the month. Citi also provided the Fund with legal, compliance, tax services and other investor-related services.

Citibank serves as the Fund's custodian and is paid monthly based on an annual fee of 0.004% on average daily market value, plus transaction costs.

Effective May 1, 2016, ALPS serves as administrator to the Fund. Under the administration agreement, ALPS is responsible for administrative, accounting and recordkeeping services of the Fund and receives a monthly fee based on the greater of a minimum fee or fees based on the average daily value of the Fund's net assets.

Edgar Filing: Salient Midstream & MLP Fund - Form N-CSR

Computershare, Inc. serves as the transfer agent, DRIP Plan Administrator agent and dividend paying agent for the Fund and receives a fixed annual fee.

Table of Contents

SALIENT MIDSTREAM & MLP FUND

Notes to Consolidated Financial Statements, continued

November 30, 2016

(8) RELATED PARTY TRANSACTIONS

INVESTMENT MANAGEMENT FEE

In consideration of the advisory and other services provided by the Advisor, under the terms of the Investment Management Agreement between the Advisor and the Fund, the Fund pays the Advisor a management fee at an annualized rate, based on the average monthly consolidated net assets (excluding any liabilities related to borrowings and taxes) of the Fund of 1.20%. The fee is accrued and payable monthly.

In connection with the investment in EMG Utica, the Fund pays a management fee (the Sub-advisory fee) to EMG MUH, LP, an affiliate of EMG Utica, calculated at 1.0% annually of the contributed capital. The fee is payable quarterly in advance.

Also in connection with the investment in EMG Utica, the Fund is entitled to distributions in accordance with the terms of the limited partnership agreement. The terms of the limited partnership agreement allow for a portion of certain distributions to be paid to EMG MUH, LP as carried interest and represents a share of the profits.

(9) RISK CONSIDERATIONS

The following summary of certain common principal risk factors is not meant to be comprehensive of all the Fund's risks.

(a) GENERAL MARKET RISK

An investment in the Fund's common shares represents an indirect investment in the securities owned by the Fund, some of which will be traded on a national securities exchange or in the over-the-counter markets. The value of the securities in which the Fund invests, like other market investments, may move up or down, sometimes rapidly and unpredictably. The value of the securities in which the Fund invests may affect the value of the Fund's common shares. An investment in the Fund's common shares at any point in time may be worth less than the original investment, even after taking into account the reinvestment of the Fund's distributions.

(b) CONCENTRATION RISK

The Fund's investment portfolio is concentrated in MLPs and midstream companies. The focus of the portfolio on a specific industry or industries within the midstream sector may present more risks than if the portfolio was broadly diversified over numerous sectors of the economy. A downturn in one or more industries within the midstream sector would have a larger impact on the Fund than on an investment company that does not concentrate solely in MLPs and midstream companies. To the extent that the Fund invests a relatively high percentage of the Fund's assets in the obligations of a limited number of issuers, the Fund may be more susceptible than more widely diversified investment companies to any single economic, political or regulatory occurrence.

(c) LEVERAGE RISK

Financial leverage represents the leveraging of the Fund's investment portfolio. The use of leverage can amplify losses. Unless the income and capital appreciation, if any, on securities acquired with the proceeds from financial leverage exceed the costs of such financial leverage, the use of leverage could cause the Fund's net

Table of Contents

SALIENT MIDSTREAM & MLP FUND

Notes to Consolidated Financial Statements, continued

November 30, 2016

asset value to decline. When financial leverage is used, the net asset value and market value of the Fund's common shares will be more volatile. There is no assurance that the Fund's use of financial leverage will be successful.

(d) DERIVATIVES RISK

The Fund may purchase and sell derivative instruments (including, but not limited to, options, futures contracts and swap agreements). The use of derivatives has risks, including high price volatility, government intervention, non-performance by the counterparty, the imperfect correlation between the value of such instruments and the underlying assets, the possible default of the other party to the transaction and the illiquidity of the derivative investments. Furthermore, the ability to successfully use these techniques depends on the Advisor's ability to predict pertinent market movements, which cannot be assured. The use of derivatives may result in losses greater than if they had not been used, may require the Fund to sell or purchase portfolio securities at inopportune times or for prices other than current market values, may limit the amount of appreciation the Fund can realize on an investment or may cause the Fund to hold a security that the Fund might otherwise sell. In addition, amounts paid by the Fund as premiums and cash or other assets held in margin accounts with respect to derivative transactions are not otherwise available to the Fund for investment purposes.

(e) COUNTERPARTY RISK

The Fund will be subject to the risk of the inability of counterparties to perform with respect to transactions, whether due to a contract dispute, insolvency, liquidity or other causes, which could subject the Fund to substantial losses. This risk increases and becomes more concentrated as the number of Fund counterparties decreases. Counterparty risk also increases with the Fund's use of certain over-the-counter derivatives, which lack some of the safeguards afforded on a regulated exchange. Counterparty defaults may have a negative impact beyond the value of the contract as it could lead to the encumbrance of Fund collateral.

(f) CURRENCY RISK

Currency risk refers to the possibility that changes in currency exchange rates will negatively affect securities denominated in, and/or receiving revenues in, foreign currencies. The liquidity and trading value of foreign currencies could be affected by global economic factors, such as inflation, interest rate levels, and trade balances among countries, as well as the actions of sovereign governments. Adverse changes in currency exchange rates (relative to the U.S. dollar) may erode or reverse any potential gains from the Fund's investments in securities denominated in a foreign currency or may widen existing losses. The Fund's net currency positions may expose it to risks independent of its securities positions.

(10) CAPITAL SHARE TRANSACTIONS

The Fund has an unlimited number of shares of capital stock authorized, \$0.01 par value per share, and 17,722,449 shares issued and outstanding at November 30, 2016. There was no capital share activity for the year ended November 30, 2016.

(11) SUBSEQUENT EVENTS

The Fund has evaluated the need for additional disclosures and/or adjustments resulting from subsequent events through the date the consolidated financial statements were issued. Based on this evaluation, no adjustments were required to the consolidated financial statements as of November 30, 2016.

(Unaudited)

Trustees and Officers

The Fund's operations are managed under the direction and oversight of the Board. Each Trustee serves for an indefinite term or until he or she reaches mandatory retirement as established by the Board. The Board appoints the officers of the Fund who are responsible for the Fund's day-to-day business decisions based on policies set by the Board. The officers serve at the pleasure of the Board.

Compensation for Trustees and Officers

The Fund pays each Trustee who is not an interested person of the Advisor, as defined in the 1940 Act (the Independent Trustees) an annual retainer of \$6,000, paid quarterly, an annual Board meeting fee of \$2,000, a fee of \$667 per informal Board meeting, a fee of \$333 per telephonic Board meeting, an annual fee of \$375 for membership on the audit committee and valuation committee, an annual fee of \$500 for membership on the compliance committee, an annual fee of \$2,000 for the audit committee chair and compliance committee chair, and an annual fee of \$2,400 for the valuation committee chair. The Lead Independent Trustee receives an annual fee of \$6,000, paid quarterly. There are currently six Independent Trustees. In the interest of retaining Independent Trustees of the highest quality, the Board intends to periodically review such compensation and may modify it as the Board deems appropriate. The Fund's Chief Compliance Officer (the CCO) is employed by the Advisor. The Fund has agreed to pay the Advisor approximately \$54,000 per year as (i) an allocated portion of the compensation of an officer or employee of the Advisor to serve as CCO for the Fund (plus the cost of reasonable expenses related to the performance of the CCO's duties, including travel expenses), and (ii) an allocation of the expenses of other officers or employees of the Advisor who serve in other compliance capacities for the Fund. The Board approves annually an allocation of such costs among such personnel.

The table below shows each Trustee and executive officer's full name, address, and age, the position held with the Trust, the length of time served in that position, his principal occupation during the past five years, and other directorships held by such Trustee. The address of each Trustee and officer is c/o Salient Midstream & MLP Fund, 4265 San Felipe, Suite 800, Houston, Texas 77027.

Form N-Q Filings

The Fund files a complete schedule of portfolio holdings with the Securities and Exchange Commission (SEC) for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available on the SEC website at <http://www.sec.gov>. The Fund's Form N-Q may be reviewed and copied at the SEC Public Reference Room in Washington, DC and information regarding operation of the Public Reference Room may be obtained by calling (800) SEC-0330.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934. By their nature, all forward-looking statements involve risks and uncertainties, and actual results could differ materially from those contemplated by the forward-looking statements. Several factors that could materially affect the Fund's actual results are the performance of the portfolio of investments held by it, the conditions in the U.S. and international financial, petroleum and other markets, the price at which shares of the Fund will trade in the public markets and other factors discussed in filings with the SEC.

Proxy Voting Policies

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request by calling (800) 809-0525; and (ii) on the SEC website at <http://www.sec.gov>.

Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 of any year will be made available on or around August 30 of that year (i) without charge, upon request by calling (800) 809-0525; and (ii) on the SEC website at <http://www.sec.gov>.

Certifications

The Fund s Chief Executive Officer has submitted to the NYSE the annual CEO certification as required by Section 303A.12(a) of the NYSE Listed Fund Manual.

Board Consideration of the Investment Management Agreement

At an in-person meeting of the Board held on October 19, 2016, the Board, including the Trustees who are not interested persons as that term is defined in the Investment Company Act of 1940, as amended (the Independent Trustees), considered and approved the continuation of the Investment Management Agreement (the Advisory Agreement) between the Fund and the Advisor. In preparation for review of this agreement, the Board requested the Advisor to provide detailed information which the Board determined to be reasonably necessary to evaluate the agreement. The Independent Trustees also met in-person among themselves prior to the October 19, 2016 meeting to review and discuss the responses of the Advisor in support of the consideration of the Advisory Agreement. At the request of the Independent Trustees, the Advisor made presentations regarding the materials and responded to questions from the Independent Trustees relating to, among other things, portfolio management, the Fund s investment program, Fund and Advisor compliance programs, Fund performance including benchmarks and comparisons to other funds, Fund fee levels, other portfolios (including fees) managed by the Advisor and its affiliates and the Advisor s profitability (including revenue of the Advisor across all its funds). The Board, including the Independent Trustees, also took into consideration information furnished for the Board s review and consideration throughout the year at regular Board meetings. The Independent Trustees were assisted at all times by independent counsel.

The Independent Trustees then met in Executive Session with independent counsel. Thereafter, the other attendees rejoined the meeting. The Independent Trustees reported that the extensive prior discussion among themselves and with independent counsel, based on their review of the materials, left them satisfied that the Advisor had responded fully to requests. The Independent Trustees further reported that they had concluded that the Advisory Agreement enables the Fund s shareholders to obtain high quality services at a cost that is appropriate, reasonable, and in the interests of investors. The Independent Trustees also reported that they took into account many factors, including overall markets, the Fund s leverage and fees, and believed management has taken the appropriate steps in managing the Fund following the prior year s difficult circumstances related to the energy markets. They stated that in light of the Advisor s efforts prudent exercise of judgment warranted renewal of the advisory fee. It also was noted that the Board s decision to renew the Advisory Agreement was not based on any single factor, but rather was based on a comprehensive consideration of all the information provided to the Board at its meetings throughout the year. Upon consideration of these and other factors, the Board also determined:

The nature, extent and quality of the advisory services provided. With respect to the Advisory Agreement, the Board considered: the specialized expertise required to manage the Fund s strategy, personnel and staffing at the Advisor, the background and experience of key investment personnel; the Adviser s focus on analysis of complex asset categories; the Advisor s disciplined investment approach and commitment to

Table of Contents

SALIENT MIDSTREAM & MLP FUND

Supplemental Information, continued

November 30, 2016

(Unaudited)

investment principles; the Advisor's significant investment in and commitment to personnel, including hiring and extensive training; the Advisor's significant compliance, risk oversight and tax reporting efforts; and, the Advisor's oversight of and interaction with service providers.

The Board concluded that the nature, extent and quality of the management and advisory service provided were appropriate and thus supported a decision to renew the Advisory Agreement. The Board also concluded that the Advisor would be able to provide during the coming year quality of investment management and related services, and that these services are appropriate in scope and extent in light of the Fund's operations, the competitive landscape and investor needs.

The investment performance of the Fund. The Board evaluated the comparative information provided by the Advisor regarding the Fund's investment performance, distributions and information on the performance of other investment funds and indices, including the relevance of various indices. The Board also considered the various performance reports received throughout the year. The Board noted the drawdown in the MLP markets and declines in energy prices continued during the first portion of the first quarter of 2016. On the basis of the Trustees' assessment, the Trustees concluded that the Adviser, although faced with significant prior declines in the Fund's area of investment focus, managed the Fund through a difficult period to strong returns, and was capable of generating a level of investment performance that is appropriate in light of the Fund's investment objective, policies and strategies and competitive with comparable funds.

The cost of advisory service provided and the level of profitability. In analyzing the cost of services and profitability of the Advisor, the Board considered the revenues earned and expenses incurred by the Advisor. The Board took into account the significant investment by and cost to the Advisor in appropriate personnel and service infrastructure to support the operations and management of the Fund. On the basis of the Board's review of the fees to be charged by the Advisor for investment advisory and related services, the specialized nature of the Fund's investment program, the Advisor's financial information and the costs associated with managing the Fund, the Board concluded that the level of investment management fees and the profitability is appropriate in light of the services provided, the management fees and overall expense ratios of comparable investment companies, and the anticipated profitability of the relationship between the Fund and the Advisor.

The extent to which economies of scale would be realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of Fund investors. While noting that the management fees will not decrease as the level of Fund assets increase, the Board concluded that as a closed-end fund of a relatively fixed-scale the management fees reflect the Fund's complex operations, the current markets for the MLP asset category, the economic environment for the Advisor, including its continued investment relating to support and monitoring of the Fund, and the competitive nature of the investment company market as relevant to the Fund. The Board noted that it would have the opportunity to periodically re-examine the matter of economies of scale, as well as the appropriateness of management fees payable to the Adviser.

Benefits (such as soft dollars) to the Advisor from its relationship with the Fund. The Board concluded that other benefits derived by the Advisor from its relationship with the Fund, to the extent such benefits are identifiable or determinable, are reasonable and fair, result from the provision of appropriate services to the Fund and investors therein, and are consistent with industry practice and the best interests of the Fund and its partners. In this regard, the Board noted that although the Adviser is currently contemplating its future use of soft dollars, it has not done so to date and has not realized soft dollar benefits from its relationship with the Fund.

Table of Contents

SALIENT MIDSTREAM & MLP FUND

Supplemental Information, continued

November 30, 2016

(Unaudited)

Other considerations. The Board determined that the Advisor has made a continuing and substantial commitment both to the recruitment of high quality personnel, monitoring and investment decision-making, and maintained and expanded the financial, compliance and operational resources reasonably necessary to manage the Fund in a professional manner that is consistent with the best interests of the Fund and its investors. The Trustees also concluded that the Advisor continues to make a significant entrepreneurial commitment to the management and success of the Fund.

SALIENT MIDSTREAM & MLP FUND

Privacy Policy

(Unaudited)

The Fund recognizes the importance of securing personal financial information. It is our policy to safeguard any personal and financial information that may be entrusted to us. The following is a description of the Fund's policy regarding disclosure of nonpublic personal information.

We collect nonpublic personal information as follows:

We collect information about our investors, including, but not limited to, the investor's name, address, telephone number, e-mail address, social security number and date of birth. We collect that information from subscription agreements, other forms of correspondence that we receive from investors, from personal conversations and from affiliated entities as permitted by law.

We receive information about investor transactions with us, including, but not limited to, account number, account balance, investment amounts, withdrawal amounts and other financial information.

We are permitted by law to disclose nonpublic information we collect, as described above, to the Fund's service providers, including the Fund's investment advisor, sub-advisors, servicing agent, independent administrator, custodian, legal counsel, accountant and auditor. We do not disclose any nonpublic information about our current or former investors to nonaffiliated third parties, except as required or permitted by law. We restrict access to investor nonpublic personal information to those persons who require such information to provide products or services to investors. We maintain physical, electronic and procedural safeguards that comply with federal standards to guard investors' nonpublic personal information.

If an investor's investment relationship with the Fund involves a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of such investor's financial intermediary would govern how any nonpublic personal information would be shared by them with nonaffiliated third parties.

Table of Contents**Item 2. Code of Ethics.**

(a) The Registrant has adopted a code of ethics that applies to the Registrant's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. This code of ethics is included as Exhibit 12(a)(1).

(b) During the period covered by the report, with respect to the registrant's code of ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions; there have been no amendments to, nor any waivers granted from, a provision that relates to any element of the code of ethics definition enumerated in paragraph (b) of this Item 2.

Item 3. Audit Committee Financial Expert.

The Registrant's board of trustees has determined that there is at least one audit committee financial expert serving on its audit committee. G. Edward Powell is the audit committee financial expert and is considered to be independent as each term is defined in Item 3 of Form N-CSR.

Item 4. Principal Accountant Fees and Services.

	2016	2015
Audit Fees	\$ 64,000	\$ 61,750
Audit-Related Fees	0	3,100
Tax Fees	0	0
All Other Fees	0	0

(e)(1) Disclose the audit committee's pre-approval policies and procedures described in paragraph (c)(7) of Rule 2-01 of Regulation S-X.

The audit committee may delegate its authority to pre-approve audit and permissible non-audit services to one or more members of the committee. Any decision of such members to pre-approve services shall be presented to the full audit committee at its next regularly scheduled meeting.

(2) Disclose the percentage of services described in each of paragraphs (b) through (d) of this item that were approved by the audit committee pursuant to paragraph (c) (7)(i)(c) of Rule 2-01 of Regulation S-X.

(h) Not applicable.

Item 5. Audit committee of Listed Registrants.

(a) The Registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934 (15 U.S.C 78c(a)(58)(A)), and is comprised of Jonathan P. Carroll, Dr. Bernard A. Harris, Jr., G. Edward Powell, and Scott E. Schwinger.

Item 6. Investments.

(a) Schedule of Investments as of the close of the reporting period is included in the report to the shareholders filed under item 1 of this form.

(b) Not applicable.

Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies.

A closed-end management investment company that is filing an annual report on this Form N-CSR must, unless it invests exclusively in non-voting securities, describe the policies and procedures that it uses to determine how to vote proxies relating to portfolio securities, including the procedures that the company uses when a vote presents a conflict between the interests of its shareholders, on the one hand, and those of the company's investment adviser; principal underwriter; or any affiliated person (as defined in section 2(a)(3) of the Investment Company Act of 1940 (15 U.S.C. 80a-2(a)(3)) and the rules thereunder) of the company, its investment adviser, or its principal underwriter, on the other. Include any policies and procedures of the company's investment adviser, or any other third party, that the company uses, or that are used on the company's behalf, to determine how to vote proxies relating to portfolio securities.

These policies are included as Exhibit 12(a)(4).

Item 8. Portfolio Managers of Closed-End Management Investment Companies.

Greg A. Reid and Frank T. Gardner III (the portfolio managers) are primarily responsible for the day-to-day management of the registrant's portfolio.

(a)(1) The following table provides biographical information about the registrant's portfolio managers as of the date of this filing:

2007-2010; Merrill Lynch Private Banking Group, 1997-2007.

Frank T. Gardner III Director and Portfolio Manager since 2012.

Portfolio Manager and Director of Research for Salient Capital Advisors, LLC from 2010 to 2011. Portfolio Manager for Telemus Capital Partners from 2007 to 2010.

Table of Contents

(a)(2) The following table provides information about the other accounts managed on a day-to-day basis by the portfolio managers as of November 30, 2016:

Name	Number of Accounts	Total Assets of Accounts	Number of Accounts Subject to a Performance Fee	Total Assets of Accounts Subject to a Performance Fee
Greg A. Reid				
Registered investment companies	1	\$ 1,530M	0	\$ 0
Other pooled investment companies	7	\$ 1,346M	2	\$ 230M
Other accounts	324	\$ 1,834M	2	\$ 55M
Frank T. Gardner III				
Registered investment companies	1	\$ 1,530M	0	\$ 0
Other pooled investment companies	7	\$ 1,346M	2	\$ 230M
Other accounts	324	\$ 1,834M	2	\$ 55M

Conflicts of Interest with the Investment Adviser

Conflicts of interest may arise because Salient Partners, LP (Salient) and its affiliates generally carry on substantial investment activities for other clients in which we will have no interest. Salient or its affiliates may have financial incentives to favor certain of such accounts over us. Any of their proprietary accounts and other customer accounts may compete with us for specific trades. Salient or its affiliates may buy or sell securities for us which differ from securities bought or sold for other accounts and customers, although their investment objectives and policies may be similar to ours. Situations may occur when we could be disadvantaged because of the investment activities conducted by Salient or its affiliates for their other accounts. Such situations may be based on, among other things, legal or internal restrictions on the combined size of positions that may be taken for us and the other accounts, thereby limiting the size of our position, or the difficulty of liquidating an investment for us and the other accounts where the market cannot absorb the sale of the combined position.

Our investment opportunities may be limited by affiliations of Salient or its affiliates with MLPs and Energy Infrastructure Companies. In addition, to the extent that Salient sources and structures private investments in MLPs and Energy Infrastructure Companies, certain employees of Salient may become aware of actions planned by these companies, such as acquisitions, that may not be announced to the public. Although Salient maintains procedures to ensure that any material non-public information available to certain Salient employees not be shared with those employees responsible for the purchase and sale of publicly traded securities, it is possible that we could be precluded from investing in a company about which Salient has material non-public information.

Table of Contents

The Advisor also manages other funds that invest primarily in MLPs (collectively "Affiliated Funds") and some of the Affiliated Funds have investment objectives that are similar to or overlap with ours. In particular, certain Affiliated Funds invest in MLPs and Midstream Energy Infrastructure Companies. Furthermore, the Advisor may at some time in the future, manage other investment funds with the same investment objective as ours.

Investment decisions for us are made independently from those of Salient's other clients; however, from time to time, the same investment decision may be made for more than one fund or account. When two or more clients advised by Salient or its affiliates seek to purchase or sell the same publicly traded securities, the securities actually purchased or sold are allocated among the clients on a good faith equitable basis by Salient in its discretion in accordance with the clients' various investment objectives and procedures adopted by Salient and approved by our Board of Trustees. In some cases, this system may adversely affect the price or size of the position that we may obtain. In other cases, however, our ability to participate in volume transactions may produce better execution for us.

We and our affiliates, including Affiliated Funds, may be precluded from co-investing in private placements of securities, including in any portfolio companies that we control. Except as permitted by law, Salient will not co-invest its other clients' assets in the private transactions in which we invest. Salient will allocate private investment opportunities among its clients, including us, based on allocation policies that take into account several suitability factors, including the size of the investment opportunity, the amount of funds that each client has available for investment and the client's investment objectives. These allocation policies may result in the allocation of investment opportunities to an Affiliated Fund rather than to us. The policies contemplate that Salient will exercise discretion, based on several factors relevant to the determination, in allocating the entirety, or a portion, of such investment opportunities to an Affiliated Fund, in priority to other prospectively interested advisory clients, including us. In this regard, when applied to specified investment opportunities that would normally be suitable for us, the allocation policies may result in certain Affiliated Funds having greater priority than us to participate in such opportunities depending on the totality of the considerations, including, among other things, our available capital for investment, our existing holdings, applicable tax and diversification standards to which we may then be subject and the ability to efficiently liquidate a portion of our existing portfolio in a timely and prudent fashion in the time period required to fund the transaction.

The investment management fee paid to our Adviser is based on the value of our assets, as periodically determined. A significant percentage of our assets may be illiquid securities acquired in private transactions for which market quotations will not be readily available. Although we will adopt valuation procedures designed to determine valuations of illiquid securities in a manner that reflects their fair value, there typically is a range of prices that may be established for each individual security. Senior management of our Adviser, our Board of Trustees and its Valuation Committee, and a third-party valuation firm might participate in the valuation of our securities.

(a)(3) As of November 30, 2016:

Compensation

Messrs. Gardner and Reid are compensated by the Adviser through partnership distributions from Salient based on the amount of assets they manage, and they receive a portion of the advisory fees applicable to those accounts, which, with respect to certain amounts, as noted above, are based in part on the performance of those accounts. Some of the other accounts managed by Messrs. Gardner and Reid have investment strategies that are similar to ours.

Table of Contents

However, Salient manages potential conflicts of interest by allocating investment opportunities in accordance with its allocation policies and procedures. Messrs. Gardner and Reid did not own any of the Fund's equity securities prior to this offering; however, through their limited partner interests in the parent company of the adviser, which owned all the Fund's outstanding shares as of April 23, 2012 (with a value of approximately \$100,000), Messrs. Gardner and Reid could be deemed to indirectly own a portion of the Fund's securities.

(a)(4) As of November 30, 2016:

Securities Beneficially Owned in the Registrant by Portfolio Managers

The following table provides information about the dollar range of equity securities in the registrant beneficially owned by the portfolio managers:

Portfolio Manager	Aggregate Dollar Range of Beneficial Ownership in the Registrant
Greg A. Reid	\$
Frank T. Gardner III	\$

Item 10. Submission of Matters to a Vote of Security Holders.

Not Applicable.

Item 11. Controls and Procedures.

The registrant's principal executive officer and principal financial officer have concluded, based on their evaluation of the registrant's disclosure controls and procedures as conducted within 90 days of the filing date of this report, that these disclosure controls and procedures are adequately designed and are operating effectively to ensure that information required to be disclosed by the registrant on Form N-CSR is (i) accumulated and communicated to the investment company's management, including its certifying officers, to allow timely decisions regarding required disclosure; and (ii) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d))) that occurred during the second fiscal quarter of the period covered by this report that have materially affected or are reasonably likely to materially affect the registrant's internal control over financial reporting.

Item 12. Exhibits.

- (a)(1) Code of ethics that is subject to Item 2 is attached hereto.
- (a)(2) Certifications pursuant to Rule 30a-2(a) are attached hereto.
- (a)(3) Not Applicable.
- (a)(4) Proxy voting policies and procedures pursuant to Item 7 are attached hereto.
- (b) Certifications pursuant to Rule 30a-2(b) are filed herewith.
