Great Lakes Dredge & Dock Corporation

OFFER TO EXCHANGE

\$325,000,000 aggregate principal amount of its 8.000% Senior Notes due 2022

that have been registered under the Securities Act of 1933

(which we refer to as the New Notes) for any and all of its outstanding unregistered

8.000% Senior Notes due 2022 (which we refer to as the Old Notes)

The exchange offer will expire at 5:00 p.m., New York City time, on September 15, 2017, unless extended.

On the following terms and conditions, we are offering to exchange up to \$325,000,000 aggregate principal amount of New Notes for all \$325,000,000 aggregate principal amount of our outstanding Old Notes that we sold on May 24, 2017 in a private offering:

We will exchange New Notes for all outstanding Old Notes that are validly tendered and not validly withdrawn prior to the expiration or termination of the exchange offer.

You may withdraw tenders of Old Notes at any time prior to the expiration or termination of the exchange offer.

The terms of the New Notes are substantially identical to those of the outstanding Old Notes, except that the New Notes are registered under the Securities Act of 1933, as amended (the Securities Act), and the transfer restrictions, registration rights and additional interest provisions applicable to the Old Notes do not apply to the New Notes. The New Notes will also have a separate CUSIP number from that of the Old Notes.

The New Notes will be our senior unsecured obligations and will rank equally in right of payment to all of our existing and future senior indebtedness and will rank senior to all of our existing and future subordinated indebtedness. Each of our existing and future domestic subsidiaries that guarantees our senior secured revolving credit facility will unconditionally guarantee the New Notes with guarantees that will rank equal in right of payment to all existing and future senior indebtedness of such guarantor and will rank senior to all of the future subordinated indebtedness of such guarantor. The New Notes will be effectively subordinated to all of our and the Guarantors' existing and future secured indebtedness, including amounts outstanding under our senior secured revolving credit facility, to the extent of the value of the assets securing such indebtedness.

We believe that the exchange of Old Notes for New Notes will not be a taxable transaction for U.S. federal income tax purposes. You should see the discussion under the caption "Principal U.S. Federal Income Tax Considerations" for more information.

We will not receive any proceeds from the exchange offer.

We issued the Old Notes in a transaction not requiring registration under the Securities Act, and, as a result, their transfer is restricted. We are making the exchange offer to satisfy your registration rights as a holder of the Old Notes.

Neither the New Notes nor the Old Notes (collectively, the "Notes") will be listed on any securities exchange.

Each broker-dealer that receives New Notes for its own account pursuant to the exchange offer will be deemed to have acknowledged and agreed that it will deliver a prospectus in connection with any resale of such New Notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of New Notes received in exchange for Old Notes where such Old Notes were acquired by such broker-dealer as a result of market-making activities or other trading activities. We have agreed that, starting on the expiration date (as defined herein) and ending on the close of business 180 days after the expiration date, we will make this prospectus available to any broker-dealer for use in connection with any such resale. See "Plan of Distribution."

Exchanging your outstanding Old Notes for New Notes involves risks. See the risk factors described under, and incorporated by reference into, Risk Factors beginning on page 12 of this prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

Ratio of Earnings to Fixed Charges

The following table contains our ratio of earnings to fixed charges for the periods indicated. For purposes of computing the ratio of earnings to fixed charges for the periods set forth below, earnings consist of pretax income (loss) from continuing operations (before adjustment for noncontrolling interests in consolidated subsidiaries and income (loss) from equity investees), plus fixed charges, minus capitalized interest. Fixed charges consist of interest expense, amortization of deferred financing costs and estimated interest expense relating to operating leases.

	Six Months Ended	Fiscal Year Ended December 31,				
	June 30, 2017	2016	2015	2014	2013	2012
Ratio of earnings to fixed charges ^{a, b}	0.3x ^c	0.4x ^d	0.8x ^e	1.2x	2.0x	1.4x

- a. The ratio of earnings to fixed charges should be read in conjunction with our financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations incorporated by reference in this prospectus from our annual report on Form 10-K for the year ended December 31, 2016 and subsequent quarterly reports on Form 10-Q.
- b. The Company had deficiencies of earnings to fixed charges of \$10.8 million, \$17.2 million, and \$5.9 million for the six months ended June 30, 2017 and for the years ended December 31, 2016 and 2015, respectively.

Edgar Filing: Great Lakes Dredge & Dock CORP - Form 424B3

- c. As a result of the loss recorded for the six months ended June 30, 2017, the ratio coverage was less than 1:1. GLDD would have needed to generate additional earnings of \$12.3 million to achieve coverage of 1:1 for such period.
- d. As a result of the loss recorded in 2016, the ratio coverage was less than 1:1. GLDD would have needed to generate additional earnings of \$20.3 million to achieve coverage of 1:1 in 2016.
- e. As a result of the loss recorded in 2015, the ratio coverage was less than 1:1. GLDD would have needed to generate additional earnings of \$9.0 million to achieve coverage of 1:1 in 2015.

If you do not exchange your Old Notes in the exchange offer, your Old Notes will continue to be subject to the restrictions on transfer described in the legend on the certificate for your Old Notes. In general, you may offer or sell your Old Notes only:

incurring additional indebtedness and issuing disqualified stock;

(1) Adjusted EBITDA from continuing operations, as provided herein, represents net income attributable to common stockholders of Great Lakes Dredge Dock Corporation, adjusted for net interest expense, income taxes, depreciation and amortization expense, accelerated maintenance expense for new international deployments, goodwill or asset impairments, gains on bargain purchase acquisitions and share-based compensation expense. Adjusted EBITDA from continuing operations is not a measure derived in accordance with accounting principles generally accepted in the United States of America (GAAP). The Company presents herein Adjusted EBITDA from continuing operations as an additional measure by which to evaluate the Company's operating trends. The Company has been advised that Adjusted EBITDA from continuing operations is a measure frequently used to evaluate the performance of companies with substantial leverage and that certain of the Company's primary stakeholders (including its stockholders, bondholders and banks) from time to time use Adjusted EBITDA from continuing operations, or a comparable metric, to evaluate the Company's period to period performance. Additionally, management believes that Adjusted EBITDA from continuing operations provides an additional measure of the Company's recurring operating performance and allows management to readily view operating trends and perform analytical comparisons regarding the Company's operating performance. For this reason, the Company uses a measure based upon Adjusted EBITDA from continuing operations to assess performance for purposes of determining compensation under the Company's incentive plan. Adjusted EBITDA from continuing

operations should not be considered an alternative to, or more meaningful than, amounts determined in accordance with GAAP including: (a) operating income as an indicator of operating performance or (b) cash provided by operating activities as a measure of liquidity. As such, you should be aware that the Company's use of Adjusted EBITDA from continuing operations, instead of a GAAP measure, has limitations as an analytical tool, including the inability to determine profitability or liquidity due to the exclusion of goodwill or asset impairments, gains on bargain purchase acquisitions, interest and income tax expense, share-based compensation and the significant cash requirements associated therewith and the exclusion of depreciation and amortization, accelerated maintenance expense for new international deployments, which represent significant and unavoidable operating costs given the level of indebtedness and capital expenditures needed to maintain the Company's business. For these reasons, the Company uses operating income to measure the Company's operating performance and uses Adjusted EBITDA from continuing operations only as a supplemental measure thereof. Adjusted EBITDA from continuing operations should not be considered as an alternative to, or more meaningful than, amounts determined in accordance with GAAP. The following is a reconciliation of Adjusted EBITDA from continuing operations to net income attributable to common stockholders of Great Lakes Dredge & Dock Corporation:

(2) Pro Forma Adjusted EBITDA from continuing operations, as presented herein, represents Adjusted EBITDA from continuing operations, as further adjusted to eliminate losses incurred by certain service lines of Terra Contracting Services, LLC (Terra) no longer owned by the Company. The Company acquired Terra in 2012 to augment its environmental & infrastructure segment, and sold assets related to certain of Terra's service lines in the fourth quarter of 2016. Pro Forma Adjusted EBITDA from continuing operations, which is presented herein as if the Terra asset sales occurred on January 1, 2016, is a measure that is neither derived in accordance with GAAP nor prepared in conformity with Regulation S-X promulgated by the SEC under the federal securities laws. The Company presents herein Pro Forma Adjusted EBITDA from continuing operations as an additional measure by which to evaluate the Company's operating trends. Management believes that Pro Forma Adjusted EBITDA from continuing operations provides an additional measure of the Company's recurring operating performance and allows management to readily view operating trends and perform analytical comparisons regarding the Company's operating performance. In addition, the lenders under the Company's senior secured revolving credit facility similarly adjust the Company's recent operating results to eliminate a portion of the losses incurred by the Terra service lines sold during the fourth quarter of 2016. As such, the presentation herein of Pro Forma Adjusted

EBITDA from continuing operations provides prospective purchasers of the Notes with adjusted pro forma financial information similar in certain respects to the information used by our secured lenders to measure our operating performance. Each of the limitations and qualifications expressed in Note 1 above regarding Adjusted EBITDA from continuing operations also applies with respect to Pro Forma Adjusted EBITDA from continuing operations. For these reasons, the Company uses operating income to measure the Company's operating performance and uses Pro Forma Adjusted EBITDA from continuing operations only as a supplemental measure thereof. For additional information on our use of Pro Forma Adjusted EBITDA from continuing operations, see Note 1 above. RISK FACTORS

Exchanging your Old Notes for New Notes involves risks. Before deciding whether to participate in the exchange offer, you should carefully consider all of the information included or incorporated by reference in this prospectus, including the risks described below, and under Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2016, which is incorporated by reference in this prospectus. See Where You Can Find More Information. The risks and uncertainties described are not the only ones that we face. Additional risks and uncertainties not known to us, that we deem immaterial, or that arise in the future may also adversely affect our business, operating results, cash flows and financial condition.

Risks Related to the Exchange Offer

If you choose not to exchange your Old Notes in the exchange offer, the transfer restrictions currently applicable to your Old Notes will remain in force, and the market price of your Old Notes could decline.

If you do not exchange your Old Notes for New Notes in the exchange offer, then you will continue to be subject to the transfer restrictions on the Old Notes as set forth in the offering memorandum distributed in connection with the private offering of the Old Notes. In general, the Old Notes may not be offered or sold unless they are registered or exempt from registration under the Securities Act and applicable state securities laws. We did not register the Old Notes and we do not intend to do so following the exchange offer. You should refer to The Exchange Offer for information about how to tender your Old Notes.

The tender of Old Notes under the exchange offer will reduce the principal amount of the Old Notes outstanding, which may have an adverse effect upon, and increase the volatility of, the market price of the Old Notes due to a reduction in the liquidity thereof.

You must follow the exchange offer procedures carefully in order to receive the New Notes.

If you do not follow the procedures described herein, you will not receive any New Notes. The New Notes will be issued to you in exchange for Old Notes only if you properly tender the Old Notes to the exchange agent prior to the expiration of the exchange offer or provide a satisfactory notice of guaranteed delivery. If you want to tender your Old Notes in exchange for New Notes, you should allow sufficient time to ensure timely completion of the procedures for tending your Old Notes for exchange. No one is under any obligation to give you notification of defects or irregularities with respect to tenders of Old Notes for exchange. If you are the beneficial holder of Old Notes that are held through your broker, dealer, commercial bank, trust company or other nominee, and you wish to tender such Old Notes in the exchange offer, you should promptly contact the person through whom your Old Notes are held and instruct that person to tender on your behalf. For additional information, see The Exchange Offer in this prospectus.

We may repurchase any Old Notes that are not tendered in the exchange offer on terms that are more or less favorable to the holders of the Old Notes than the terms of the exchange offer.

Although we do not currently intend to do so, we or our affiliates may, to the extent permitted by applicable law, after the expiration date of the exchange offer, acquire Old Notes that are not tendered and accepted in the exchange offer through open market purchases, privately negotiated transactions, tender offers, exchange offers, or otherwise, upon such terms and at such prices as we may determine, which with respect to the Old Notes may be more or less favorable to holders than the terms of the exchange offer. There can be no assurance as to which, if any, of these alternatives or combinations thereof we or our affiliates may choose to pursue in the future.

Risks Related to the Notes

We have a substantial amount of indebtedness which could adversely affect our financial position and prevent us from fulfilling our obligations under the Notes.

We currently have a substantial amount of indebtedness. As of June 30, 2017, had total debt of approximately \$428 million, \$325 million consisting of the Notes and \$103 million of other debt. We may also incur significant additional indebtedness in the future. Our substantial indebtedness may:

require us to dedicate a portion of our cash flow from operations to payments on our indebtedness, thereby reducing the availability of our cash flow to fund working capital and capital expenditures, to return capital to stockholders or for other general corporate purposes;

make it difficult for us to satisfy our financial obligations, including making scheduled principal and interest payments on the Notes and our other indebtedness;

limit our ability to borrow additional funds for working capital, capital expenditures, acquisitions or other general business purposes;

impact the trading value or liquidity of the Notes;

increase the risk that third parties will be unwilling or unable to engage in certain financial or commercial arrangements with us;

require us to use a substantial portion of our cash flow from operations to make debt service payments;

limit our flexibility to plan for, or react to, changes in our business and industry;

place us at a competitive disadvantage compared to our less leveraged competitors;

increase our vulnerability to the impact of adverse economic and industry conditions;

increase the risk that we will need to sell securities or assets, possibly on unfavorable terms, or take other unfavorable actions to meet payment obligations; or

increase the risk that we will not meet financial covenants contained in our current or future debt agreements or timely make all required debt payments, either of which could result in the acceleration of some or all of our outstanding indebtedness.

Despite our current level of indebtedness, we and our subsidiaries may still be able to incur substantially more indebtedness. This could exacerbate the risks associated with our substantial indebtedness.

We and our subsidiaries may be able to incur substantial additional indebtedness in the future. The terms of the senior secured revolving credit facility limit and the terms of the Indenture that govern the Notes limit, but not prohibit, us or our subsidiaries from incurring additional indebtedness. If we incur any additional indebtedness that ranks equally with the Notes and the guarantees, the holders of that indebtedness will be entitled to share ratably with the holders of the Notes and the guarantees in any proceeds distributed in connection with any insolvency, liquidation, reorganization, dissolution or other winding-up of us. This may have the effect of reducing the amount of proceeds paid to you. If new indebtedness is added to our current debt levels, the related risks that we and our subsidiaries now face could intensify.

If we default on our obligations to pay our other indebtedness, we may not be able to make payments on the Notes.

Any default under the agreements governing our indebtedness, including a default under the senior secured revolving credit facility that is not waived by the required lenders, and the remedies sought by the holders of such indebtedness could prohibit us from making payments of principal, premium, if any, or interest on the Notes and

Table of Contents

could substantially decrease the market value of the Notes. If we are unable to generate sufficient cash flow and are otherwise unable to obtain funds necessary to meet required payments of principal, premium, if any, or interest on our indebtedness, or if we otherwise fail to comply with the various covenants, including financial and operating covenants, in the instruments governing our indebtedness (including the senior secured revolving credit facility), we could be in default under the terms of the agreements governing such indebtedness. In the event of such default, the holders of such indebtedness could elect to declare all the funds borrowed thereunder to be due and payable, together with accrued and unpaid interest. More specifically, the lenders under the senior secured revolving credit facility could elect to terminate their commitments, cease making further loans and institute foreclosure proceedings against our assets, and we could be forced into bankruptcy, if applicable to us, or liquidation. If our operating performance declines, we may in the future need to seek waivers from the required lenders under the senior secured revolving credit facility to avoid being in default. If we breach covenants under the senior secured revolving credit facility and seek a waiver, we may not be able to obtain a waiver from the required lenders. If this occurs, we would be in default under the revolving credit facility, the lenders could exercise their rights as described above, and we could be forced into bankruptcy, to the extent applicable to us, or liquidation. No assurance can be given that, if we breach covenants under our revolving credit facility and our creditors seek to enforce their rights under the federal bankruptcy laws, that a forum will be available to creditors. See Description of the Notes.

The Notes and the guarantees are unsecured and effectively subordinated to our and the Guarantors existing and future secured indebtedness.

The Notes and the guarantees are general unsecured obligations ranking effectively junior to all of our existing and future secured indebtedness to the extent of the value of the assets securing such indebtedness and that of each Guarantor, including indebtedness under the senior secured revolving credit facility. Additionally, the Indenture governing the Notes will permit us to incur additional secured indebtedness in the future. In the event that we or a Guarantor is declared bankrupt, becomes insolvent or is liquidated or reorganized, any indebtedness that is effectively senior to the Notes and the guarantees will be entitled to be paid in full from our assets or the assets of the Guarantors, as applicable, securing such indebtedness before any payment may be made with respect to the Notes or the affected guarantees. Holders of the Notes will participate ratably with all holders of our unsecured indebtedness that is deemed to be of the same class as the Notes, and potentially with all of our other general creditors, based upon the respective amounts owed to each holder or creditor, in our remaining assets.

As of June 30, 2017, the Old Notes and the guarantees were (and the New Notes would have been) effectively subordinated to \$40 million of letters of credit outstanding under the senior secured revolving credit facility and we would have been able to incur an additional \$99 million of indebtedness under the senior secured revolving credit facility on such date, subject to compliance with financial covenants in the senior secured revolving credit facility, all of which would have also been effectively senior to the Notes and the guarantees.

Claims of noteholders will be structurally subordinate to claims of creditors of our subsidiaries that do not guarantee the Notes.

None of our foreign subsidiaries and only some of our domestic subsidiaries guarantee the Notes. Accordingly, claims of holders of the Notes will be structurally subordinated to the claims of creditors of these non-guarantor subsidiaries, including trade creditors. All obligations of our non-guarantor subsidiaries will have to be satisfied before any of the assets of these subsidiaries would be available for distribution, upon a liquidation or otherwise, to us or a Guarantor of the Notes. Although certain of our domestic subsidiaries guarantee the Notes, the guarantees are subject to release under certain circumstances and we may have subsidiaries that are not Guarantors. In the event of the liquidation, dissolution, reorganization, bankruptcy or similar proceeding of the business of a subsidiary that is not a Guarantor, creditors of that subsidiary would generally have the right to be paid in full before any distribution is made to us or the

holders of the Notes. In any of these events, we may not have sufficient assets to pay amounts due on the Notes with respect to the assets of that subsidiary.

Table of Contents

A subsidiary guarantee could be voided if it constitutes a fraudulent transfer under U.S. bankruptcy or similar state law, which would prevent the holders of the Notes from relying on that subsidiary to satisfy claims.

Under U.S. bankruptcy law and comparable provisions of state fraudulent transfer laws, a guarantee can be voided, or claims under the guarantee may be subordinated to all other debts of that guarantor if, among other things, the guarantor, at the time it incurred the indebtedness evidenced by its guarantee or, in some states, when payments become due under the guarantee, received less than reasonably equivalent value or fair consideration for the incurrence of the guarantee and:

was insolvent or rendered insolvent by reason of such incurrence;

was engaged in a business or transaction for which the guarantor's remaining assets constituted unreasonably small capital; or

intended to incur, or believed that it would incur, debts beyond its ability to pay those debts as they mature. A guarantee may also be voided, without regard to these factors, if a court finds that the guarantor entered into the guarantee with the actual intent to hinder, delay or defraud its creditors. A court would likely find that a guarantor did not receive reasonably equivalent value or fair consideration for its guarantee if the guarantor did not substantially benefit directly or indirectly from the issuance of the guarantees. If a court were to void a guarantee, you would no longer have a claim against the Guarantor. Sufficient funds to repay the Notes may not be available from other sources, including the remaining Guarantors, if any. In addition, the court might direct you to repay any amounts that you already received from the subsidiary Guarantor.

The measures of insolvency for purposes of fraudulent transfer laws vary depending upon the governing law. Generally, a guarantor would be considered insolvent if:

the sum of its debts, including contingent liabilities, were greater than the fair saleable value of all its assets;

the present fair saleable value of its assets is less than the amount that would be required to pay its probable liability on its existing debts, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

Each subsidiary guarantee will contain a provision intended to limit the Guarantor's liability to the maximum amount that it could incur without causing the incurrence of obligations under its subsidiary guarantee to be a fraudulent transfer. This provision may not be effective to protect the subsidiary guarantees from being voided under fraudulent transfer law.

Federal and state fraudulent transfer laws may permit a court to void the Notes and the guarantees, and, if that occurs, you may not receive any payments on the Notes.

The issuance of the Notes and the guarantees may be subject to review under federal and state fraudulent transfer and conveyance statutes. While the relevant laws may vary from state to state, under such laws the payment of consideration will be a fraudulent conveyance if (1) we paid the consideration with the intent of hindering, delaying or defrauding creditors or (2) we or any of our Guarantors, as applicable, received less than reasonably equivalent value or fair consideration in return for issuing either the Notes or a guarantee, and, in the case of (2) only, one of the following is also true:

we or any of our Guarantors were or was insolvent or rendered insolvent by reason of the incurrence of the indebtedness; or

payment of the consideration left us or any of our Guarantors with an unreasonably small amount of capital to carry on the business; or

Table of Contents

we or any of our Guarantors intended to, or believed that we or it would, incur debts beyond our or its ability to pay as they mature.

If a court were to find that the issuance of the Notes or a guarantee was a fraudulent conveyance, the court could void the payment obligations under the Notes or such guarantee or further subordinate the Notes or such guarantee to presently existing and future indebtedness of ours or such Guarantor, or require the holders of the Notes to repay any amounts received with respect to the Notes or such guarantee. In the event of a finding that a fraudulent conveyance occurred, you may not receive any repayment on the Notes. Further, the voidance of the Notes could result in an event of default with respect to our other debt and that of our subsidiaries that could result in acceleration of such debt.

Generally, an entity would be considered insolvent if, at the time it incurred indebtedness:

the sum of its debts, including contingent liabilities, were greater than the fair salable value of all its assets;
or

the present fair salable value of its assets were less than the amount that would be required to pay its probable liability on its existing debts and liabilities, including contingent liabilities, as they become absolute and mature; or

it could not pay its debts as they become due.

We cannot be certain as to the standards a court would use to determine whether or not we or the Guarantors were solvent at the relevant time, or regardless of the standard that a court uses, that the issuance of the Notes and the guarantees would not be subordinated to our or any Guarantor's other debt. If any other subsidiary of ours guarantees the Notes in the future, such guarantee will become subject to the same risks described above. If any of the guarantees were legally challenged, such challenged guarantee could also be subject to the claim that, since the guarantee was incurred for our benefit, and only indirectly for the benefit of the Guarantor, the obligations of the applicable Guarantor were incurred for less than fair consideration. A court could thus void the obligations under the guarantees, subordinate them to the applicable Guarantor's other debt or take other action detrimental to the holders of the Notes.

The provisions of the Notes relating to change of control transactions will not necessarily protect you in the event of a highly leveraged transaction, sale of assets or change in the composition of our board of directors.

The terms of the Notes will not necessarily afford you protection in the event of a highly leveraged transaction that may adversely affect you, including a reorganization, recapitalization, restructuring, merger or other similar transactions involving us. As a result, we might be able to enter into any such transaction even though the transaction could increase the total amount of our outstanding indebtedness, adversely affect our capital structure or credit ratings of our debt securities, or otherwise adversely affect the holders of the Notes. For a variety of reasons, these transactions may not necessarily constitute a change of control that affords you the potential protections described in this prospectus. See the definition of "change of control" under "Description of the Notes—Certain Definitions." Except as described under "Description of the Notes—Change of Control," the Indenture does not contain provisions that permit the holders of the Notes to require us to repurchase the Notes in the event of a takeover, recapitalization or similar transaction.

The definition of "change of control" includes a disposition to any person of all or substantially all of our properties and assets and the properties and assets of our subsidiaries taken as a whole. Although there is a limited body of case law

interpreting the phrase "all or substantially all," there is no precise established definition of the phrase under applicable law. Accordingly, in certain circumstances there may be a degree of uncertainty as to whether a particular transaction would involve a disposition of "all or substantially all" of the properties or assets of us and our subsidiaries taken as a whole. As a result, your ability to require us to offer to repurchase Notes as a result of a transfer of less than all of our assets to another person may be uncertain.

Table of Contents

In addition, courts in several recent decisions have raised the possibility that a change of control put right occurring as a result of a failure to have continuing directors comprising a majority of a board of directors might be unenforceable on public policy grounds under certain circumstances. Consequently, holders may not be entitled to require us to purchase their Notes in certain circumstances involving a significant change in the composition of our board of directors.

Upon a change of control, we may not have the ability to raise the funds necessary to finance the change of control offer required by the Indenture governing the Notes, which would violate the terms of the Notes.

Upon the occurrence of a change of control, holders of the Notes will have the right to require us to purchase all or any part of the Notes at a price equal to 101% of the principal amount, plus accrued and unpaid interest, if any, to the date of purchase. We may not have sufficient financial resources available to satisfy all of our obligations under the Notes in the event of a change in control. Our failure to purchase the Notes as required under the Indenture would result in a default under the Indenture and a cross-default under the senior secured revolving credit facility, each of which could have material adverse consequences for us and the holders of the Notes. In addition, the senior secured revolving credit facility provides that a change of control is a default that permits lenders to accelerate the maturity of borrowings under it. See Description of the Notes Repurchase at the Option of Holders Change of Control.

We may not be able to generate cash flow to meet our service obligations.

Our ability to make payments on our indebtedness, including the Notes, and to fund planned capital expenditures will depend on our ability to generate cash in the future. This is subject to conditions in the dredging industry, and to general economic and financial conditions, the impact of legislative and regulatory actions on how we conduct our business and other factors, most or all of which are beyond our control.

We cannot assure you that our business will generate sufficient cash flow from operations to service our outstanding indebtedness or to pay our obligations under operating leases, or that future borrowings will be available to us in an amount sufficient to enable us to pay our indebtedness or to fund our other capital needs. If our business does not generate sufficient cash flow from operations to service our outstanding indebtedness, we may have to undertake alternative financing plans, such as:

refinancing or restructuring our debt;

selling assets;

reducing or delaying acquisitions or capital investments; or

seeking to raise additional capital.

However, some or all of these actions may not be permitted under our debt agreements. We cannot assure you that we would be able to implement alternative financing plans, if necessary, on commercially reasonable terms or at all. Moreover, we cannot assure you that implementing any such alternative financing plans would allow us to meet our debt obligations and capital investment needs. Our inability to generate sufficient cash flow to satisfy our debt and operating lease obligations, including our obligations under the Notes, or to obtain alternative financings, could

materially and adversely affect our business, financial condition, results of operations and prospects.

Your ability to transfer the Notes may be limited by the absence of an active trading market.

The Notes constitute new issues of securities, for which there is no existing market. The New Notes will be registered under the Securities Act but we do not intend to apply for listing of the New Notes on any securities exchange. We cannot assure you whether trading markets for the New Notes will develop, the ability of holders of the Notes to sell their Notes or the price at which holders may be able to sell their Notes. If no active trading market develops, you may be unable to resell the Notes at any price or at their fair market value.

Table of Contents

Any market-making activity with respect to the Notes may be discontinued at any time without notice. In addition, any marker-making activity would be subject to the limits imposed by the Securities Act and the Exchange Act, and may be limited during the exchange offer. There can be no assurance that an active trading market will exist for the Notes or that the liquidity of any trading market for the Notes will provide adequate liquidity for you to sell your Notes in a timely manner or at all. The liquidity of any market for the Old Notes or New Notes will depend on a number of factors, including:

the number of holders of such Notes;

our operating performance and financial condition;

the market for similar securities, including market fluctuations or disturbances that from time to time can adversely impact the price and liquidity of securities similar to such Notes;

the interest of securities dealers in making a market in such Notes; and

prevailing interest rates.

Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of these securities. We cannot assure you that the market for the Notes will be free from similar disruptions. Any such disruptions could have an adverse effect on holders of the Notes.

The Notes will initially be held in book-entry form, and therefore holders must rely on the procedures of the relevant clearing systems to exercise their rights and remedies.

Unless and until certificated Notes are issued in exchange for book-entry interests in the Notes, owners of the book-entry interests will not be considered owners or holders of Notes. Instead, DTC, or its nominee, will be the sole holder of the Notes. Payments of principal, interest and other amounts owing on or in respect of the Notes in global form will be made to the paying agent, which will make payments to DTC. Thereafter, such payments will be credited to DTC participants' accounts that hold book-entry interests in the Notes in global form and credited by such participants to indirect participants. Unlike holders of the Notes themselves, owners of book-entry interests will not have the direct right to act upon our solicitations for consents or requests for waivers or other actions from holders of the Notes. Instead, if a holder owns a book-entry interest, such holder will be permitted to act only to the extent such holder has received appropriate proxies to do so from DTC or, if applicable, a participant. We cannot assure holders that the procedures implemented for the granting of such proxies will be sufficient to enable holders to vote on any requested actions on a timely basis.

Any downgrade in our credit ratings could limit our ability to obtain future financing, increase our borrowing costs and adversely affect the market price of our outstanding debt securities, including the Notes, or otherwise impair our business, financial condition, results of operations and prospects.

We expect that the Notes will be rated by at least one nationally recognized credit rating organization. A debt rating is not a recommendation to purchase, sell or hold the Notes. These ratings are not intended to correspond to market price

or suitability of the Notes for any particular investor.

Credit rating agencies continually review their ratings for the companies that they follow, including us. Credit rating agencies also evaluate the industries in which we and our affiliates operate as a whole and may change their credit rating for us based on their overall view of such industries. There can be no assurance that any rating assigned to any of our debt securities, including the Notes, will remain in effect for any given period of time or that any such ratings will not be lowered, suspended or withdrawn entirely by a rating agency if, in that rating agency's judgment, circumstances so warrant. Our ratings could be lowered under a wide range of circumstances impacting our financial condition or prospects, an acquisition or a joint venture, an increase in capital expenditures or employee benefit expenses, a decrease in operating margins or any adverse changes in competition, regulation, technology, taxes, operating expenses or litigation costs.

Table of Contents

A downgrade of our credit ratings could, among other things:

adversely affect the market price of our outstanding debt securities, including the Notes;

limit our access to the capital markets or otherwise adversely affect the availability of other new financing on favorable terms, if at all;

result in or trigger the application of new or more restrictive covenants in agreements governing the terms of any future debt that we may incur;

increase our cost of borrowing; and

impair our business, financial condition and results of operations.

There are state securities law restrictions on the resale of the Notes.

In order to comply with the securities laws of certain jurisdictions, the Notes may not be offered or resold by any holder, unless they have been registered or qualified for sale in such jurisdictions or an exemption from registration or qualification is available and the requirements of such exemption have been satisfied. We currently do not intend to register or qualify the resale of the Notes in any such jurisdictions. However, generally an exemption is available for sales to registered broker-dealers and certain institutional buyers. Other exemptions under applicable state securities laws also may be available.

Risks Relating to Our Business

We and our affiliates face a variety of risks, including an array of financial and operational risks and various competitive and regulatory risks. All of these risks are described in Item 1A of our annual report on Form 10-K for the year ended December 31, 2016, as may be updated and supplemented in our subsequent SEC reports, all of which are incorporated by reference herein. See [Where You Can Find More Information](#).

USE OF PROCEEDS

We will not receive any proceeds from the exchange offer. Any Old Notes that are properly tendered and exchanged pursuant to the exchange offer will be retired and cancelled.

THE EXCHANGE OFFER

Purpose of the Exchange Offer

On May 24, 2017, we privately placed \$325,000,000 aggregate principal amount of Old Notes in a transaction exempt from registration under the Securities Act. Accordingly, the Old Notes may not be reoffered, resold or otherwise transferred in the United States unless registered or unless an exemption from the Securities Act registration requirements is available. In the registration rights agreement, that we entered into on May 24, 2017, we agreed to file a registration statement with the SEC relating to the exchange offer and upon effectiveness such registration statement to promptly commence an exchange offer. In addition, we have agreed to keep the exchange offer open for at least 20 business days after the date on which we commence the exchange offer. The New Notes are being offered under this prospectus to satisfy our obligations under the registration rights agreement, which is described in more detail under Registration Rights Agreement .

Terms of the Exchange Offer; Period for Tendering Old Notes

Subject to terms and conditions detailed in this prospectus, we will accept for exchange Old Notes which are properly tendered on or prior to the expiration date and not withdrawn as permitted below. As used herein, the term expiration date means 5:00 p.m., New York City time, on September 15, 2017, the twenty-first business day following the date of this prospectus. We may, however, in our sole discretion, extend the period of time during which the exchange offer is open. If extended, the term expiration date means the latest time and date to which the exchange offer is extended.

As of the date of this prospectus, \$325,000,000 aggregate principal amount of Old Notes are outstanding. This prospectus, together with the letter of transmittal and related documentation, is first being sent on or about the date hereof to all holders of Old Notes known to us.

We expressly reserve the right, at any time, to extend the period of time during which the exchange offer is open, and delay acceptance for exchange of any Old Notes, by giving written notice thereof to the holders thereof as described below. During any such extension, all Old Notes previously tendered will remain subject to the exchange offer and may be accepted for exchange by us. Any Old Notes not accepted for exchange for any reason will be returned without expense to the tendering holder promptly after the expiration or termination of the exchange offer.

Old Notes tendered in the exchange offer must be in denominations of principal amount of \$2,000 or larger integral multiples of \$1,000.

Holders of Old Notes do not have any appraisal or dissenters' rights in connection with the exchange offer.

We expressly reserve the right to amend or terminate the exchange offer, and not to accept for exchange any Old Notes, upon the occurrence of any of the conditions of the exchange offer specified under Conditions to the Exchange Offer. We will give written notice of any extension, amendment, non-acceptance or termination to the holders of the Old Notes as promptly as practicable. We will endeavor to issue such notice of any such extension by means of a press release or other public announcement no later than 9:00 a.m., New York City time, on the next business day

after the previously scheduled expiration date.

Table of Contents

Participation in the exchange offer is completely voluntary. Holders of Old Notes are urged to carefully consider all of the information contained or incorporated into this prospectus, and to consult with their financial and tax advisors in connection with deciding whether to participate in the exchange offer.

Procedures for Tendering Old Notes

The tender to us of Old Notes by a holder pursuant to the procedures set forth below and our acceptance of the Old Notes will constitute the holder's acceptance of the terms and conditions of the exchange offer. Our acceptance of the Old Notes tendered pursuant to the procedures described below will constitute a binding agreement between such tendering holder and us in accordance with the terms and subject to the conditions of the exchange offer. Only a holder of record of Old Notes may tender Old Notes in the exchange offer. If you wish to tender your Old Notes for New Notes pursuant to the exchange offer, you must transmit to Wells Fargo Bank, N.A., as the exchange agent, on or before the expiration date, one of the following:

a properly completed and duly executed letter of transmittal, which accompanies this prospectus, with any required signature guarantees, together with the certificates for your Old Notes, in proper form for transfer, and any other required documentation, to the exchange agent at its address listed in this prospectus and on the front cover of the letter of transmittal;

a computer generated message transmitted through DTC's Automated Tender Offer Program (ATOP) system and received by the exchange agent and forming a part of a confirmation of book-entry transfer in which you acknowledge and agree to be bound by the terms of the letter of transmittal; or

a properly completed and properly tendered notice of guaranteed delivery through an eligible guarantor institution to the exchange agent by facsimile or mail, or a properly transmitted agent's message and notice of guaranteed delivery, to be followed by a properly completed and duly executed letter of transmittal, as well as all tendered Old Notes in proper form for transfer or a book-entry transfer confirmation, and all other related documents within three New York Stock Exchange trading days after expiration of the exchange offer.

All of these alternatives are described further below.

All of the Old Notes were issued in book-entry form, and all of the Old Notes are currently represented by global certificates registered in the name of Cede & Co., the nominee of DTC. Because the Old Notes were issued as global notes, this prospectus generally assumes that holders will tender outstanding Old Notes through book-entry transfers, although supplemental information regarding the delivery of certificated notes is also included in the unlikely event that the global notes are exchanged for certificated notes.

The tender by a holder that is not withdrawn before expiration of the exchange offer will constitute an agreement between that holder and us in accordance with the terms and subject to the conditions set forth in this prospectus and in the letter of transmittal. Only a registered holder of Old Notes may tender the Old Notes in the exchange offer. To tender effectively Old Notes that are held of record by a custodian bank, depository, broker, trust company or other nominee, the beneficial owner thereof must instruct such holder to tender the Old Notes on the beneficial owner's behalf. A letter of instructions from the record owner to the beneficial owner may be included in the materials provided along with this prospectus which may be used by the beneficial owner in this process to instruct the

registered holder of such owner's Old Notes to effect the tender in which case no letter of transmittal or Old Notes should be sent to us.

The method of delivery of Old Notes, letters of transmittal and all other required documents is at your election and risk. If such delivery is by mail, it is recommended that you use registered mail, properly insured, with return receipt requested. In all cases, you should allow sufficient time to assure timely delivery.

Table of Contents

We in our sole discretion will make a final and binding determination on all questions as to the validity, form, eligibility (including time of receipt) and acceptance of Old Notes tendered for exchange. We reserve the absolute right to reject any and all tenders of any particular Old Note not properly tendered or to not accept any particular Old Note which acceptance might, in our judgment or our counsel's, be unlawful. We also reserve the absolute right to waive any defects or irregularities or conditions of the exchange offer as to any particular Old Note either before or after the expiration date (including the right to waive the ineligibility of any holder who seeks to tender Old Notes in the exchange offer). Our interpretation of the terms and conditions of the exchange offer as to any particular Old Note either before or after the expiration date (including the letter of transmittal and the instructions thereto) will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of Old Notes for exchange must be cured within a reasonable period of time, as we determine. We are not, nor is the exchange agent or any other person, under any duty to notify you of any defect or irregularity with respect to your tender of Old Notes for exchange, and no one will be liable for failing to provide such notification.

If the letter of transmittal, notice of guaranteed delivery or any Old Notes or powers of attorney are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, such persons should so indicate when signing. Unless waived by us or the exchange agent, proper evidence satisfactory to us of their authority to so act must be submitted with the letter of transmittal.

By tendering Old Notes, you will be deemed to represent to us that, among other things, (i) the New Notes acquired pursuant to the exchange offer are being obtained in the ordinary course of business of the person receiving such New Notes, whether or not such person is the holder, (ii) neither the holder nor such other person has any arrangement or understanding with any person to participate in the distribution of the New Notes, (iii) neither you nor, to your knowledge, any other person who received New Notes from you is an affiliate (as defined under Rule 405 of the Securities Act), and (iv) if you are not a broker-dealer, neither you nor, to your knowledge, any other person receiving New Notes from you is engaging or intends to engage in a distribution of the New Notes.

If you are our affiliate, as defined under Rule 405 under the Securities Act, and engage in or intend to engage in or have an arrangement or understanding with any person to participate in a distribution of such New Notes to be acquired pursuant to the exchange offer, you or any such other person:

may not rely on the applicable interpretations of the staff of the SEC; and

must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker-dealer that receives New Notes for its own account in exchange for Old Notes, where such Old Notes were acquired by such broker-dealer as a result of market-making activities or other trading activities, must acknowledge that it will comply with the applicable provisions of the Securities Act (including, but not limited to, delivery of a prospectus in connection with any resale of such New Notes). See Plan of Distribution. The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

Physical Delivery of Old Notes and Letter of Transmittal

To be tendered effectively Old Notes that are certificated, the holder must complete, sign and date the letter of transmittal, or a facsimile of the letter of transmittal, have the signature on the letter of transmittal guaranteed if the

Edgar Filing: Great Lakes Dredge & Dock CORP - Form 424B3

letter of transmittal so requires and deliver the letter of transmittal or facsimile, together with the certificates representing the Old Notes specified therein, to the exchange agent on or prior to the expiration date at the address set forth below under Exchange Agent. To receive confirmation of valid tender of Old Notes, a holder should contact the exchange agent at the telephone number listed under Exchange Agent.

Table of Contents

If a holder completing a letter of transmittal tenders less than all of the Old Notes held by this holder, this tendering holder should fill in the applicable box of the letter of transmittal. The amount of Old Notes delivered to the exchange agent will be deemed to have been tendered unless otherwise indicated.

Signatures on a letter of transmittal or a notice of withdrawal, as the case may be, must be guaranteed unless the Old Notes surrendered for exchange are tendered:

by a holder of the Old Notes who has not completed the box entitled Special Issuance Instructions or Special Delivery Instructions on the letter of transmittal, or

for the account of an eligible institution (as defined herein).

In the event that signatures on a letter of transmittal or a notice of withdrawal are required to be guaranteed, such guarantees must be by a firm which is a member of the Securities Transfer Agent Medallion Program, the Stock Exchanges Medallion Program or the New York Stock Exchange Medallion Program (each such entity being hereinafter referred to as an eligible institution). If Old Notes are registered in the name of a person other than the signer of the letter of transmittal, the Old Notes surrendered for exchange must be endorsed by, or be accompanied by a written instrument or instruments of transfer or exchange, in satisfactory form as we or the exchange agent determine in our sole discretion, duly executed by the registered holders with the signature thereon guaranteed by an eligible institution.

Book-entry Delivery

Delivery of tendering Old Notes held through DTC must be made to the exchange agent pursuant to the book-entry delivery procedures. To tender effectively Old Notes that are held through DTC, DTC participants should transmit their acceptance through ATOP, for which the transaction will be eligible, and DTC will then edit and verify the acceptance and send an agent's message (described below) to the exchange agent for its acceptance. By using the ATOP procedures to exchange Old Notes, you will not be required to deliver a letter of transmittal to the exchange agent. However, you will be bound by its terms just as if you had signed it.

The exchange agent will establish accounts with respect to the Old Notes at DTC for purposes of the exchange offer within two business days after the date of this prospectus, and any financial institution that is a participant in DTC may make book-entry delivery of the Old Notes by causing DTC to transfer such Old Notes into the exchange agent's account in accordance with DTC's procedures for such transfer. The confirmation of a book-entry transfer into the exchange agent's account at DTC as described above is referred to herein as a book-entry confirmation.

The term agent's message means a message transmitted by DTC to, and received by, the exchange agent and forming a part of the book-entry confirmation, which states that DTC has received an express acknowledgment from each participant in DTC tendering the Old Notes and that such participant has received the letter of transmittal and agrees to be bound by the terms of the letter of transmittal, and we may enforce such agreement against such participant.

Notwithstanding any other provision hereof, delivery of New Notes by the exchange agent for Old Notes tendered and accepted for exchange pursuant to the exchange offer will, in all cases, be made only after timely receipt by the exchange agent of book-entry confirmation of the transfer of such Old Notes into the exchange agent's account at DTC as described above, and a properly transmitted agent's message.

Edgar Filing: Great Lakes Dredge & Dock CORP - Form 424B3

Except as provided below, unless the Old Notes being tendered are deposited with the exchange agent on or prior to the expiration date (accompanied by a properly transmitted agent's message), we may, at our option, reject such tender. Exchange of New Notes for Old Notes will be made only against deposit of the tendered Old Notes and delivery of all other required documents.

Guaranteed Delivery Procedures

Holders wishing to tender their Old Notes but whose Old Notes are not immediately available or who cannot deliver their Old Notes, the letter of transmittal or any other required documents to the exchange agent or cannot comply with the applicable procedures described above before expiration of the exchange offer may tender if:

the tender is made through an eligible guarantor institution, which is defined below;

before expiration of the exchange offer, the exchange agent receives from the eligible guarantor institution either a properly completed and duly executed notice of guaranteed delivery by facsimile transmission or mail, or a properly transmitted agent's message and notice of guaranteed delivery, in each case:

setting forth the name and address of the holder and the registered number(s) and the principal amount of Old Notes tendered;

stating that the tender is being made by guaranteed delivery; and

guaranteeing that, within three New York Stock Exchange trading days after expiration of the exchange offer, the letter of transmittal, together with the Old Notes or a book-entry transfer confirmation, and any other documents required by the letter of transmittal will be deposited by the eligible guarantor institution with the exchange agent; and

the exchange agent receives the properly completed and executed letter of transmittal, as well as all tendered Old Notes in proper form for transfer or a book-entry transfer confirmation, and all other documents required by the letter of transmittal, within three New York Stock Exchange trading days after expiration of the exchange offer.

Upon request to the exchange agent, a notice of guaranteed delivery will be sent to holders who wish to tender their Old Notes according to the guaranteed delivery procedures set forth above.

Eligible guarantor institutions include banks, brokers, dealers, municipal securities dealers, municipal securities brokers, government securities dealers, government securities brokers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations.

Acceptance of Old Notes for Exchange

Subject to our rights to modify or terminate the exchange offer, upon satisfaction or waiver of all of the conditions to the exchange offer, we will accept, promptly after the expiration date, all Old Notes properly tendered and not validly withdrawn and will issue the New Notes promptly after acceptance of the Old Notes. See *The Exchange Offer Conditions to the Exchange Offer*. For purposes of the exchange offer, we will be deemed to have accepted properly tendered Old Notes for exchange if and when we give oral (confirmed in writing) or written notice of acceptance to the exchange agent.

Edgar Filing: Great Lakes Dredge & Dock CORP - Form 424B3

The holder of each Old Note accepted for exchange will receive a New Note in the amount equal to the duly surrendered Old Note. Holders of New Notes on the relevant record date for the first interest payment date following the consummation of the exchange offer will receive interest accruing from the most recent date on which interest has been paid on the Old Notes, or if no interest has been paid on the Old Notes, the issue date of the Old Notes. Holders of New Notes will not receive any payment in respect of accrued interest on Old Notes otherwise payable on any interest payment date, the record date for which occurs on or after the consummation of the exchange offer.

In all cases, issuance of New Notes for Old Notes that are accepted for exchange will be made only after timely receipt by the exchange agent of:

certificates for such Old Notes or a timely book-entry confirmation of such Old Notes into the exchange agent's account at DTC;

Table of Contents

a properly completed and duly executed letter of transmittal or an agent's message in lieu thereof; and

all other required documents.

If any tendered Old Notes are not accepted for any reason set forth in the terms and conditions of the exchange offer or if Old Notes are submitted for a greater principal amount than the holder desires to exchange, such unaccepted or non-exchanged Old Notes will be returned without expense to the tendering holder or, in the case of Old Notes tendered by book entry transfer, such non-exchanged Old Notes will be credited to an account maintained with DTC promptly after the expiration or termination of the exchange offer.

Delivery of New Notes

Global Notes

The New Notes will be issued only in fully-registered form without interest coupons in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. At the time of their initial issuance, the New Notes will be (1) in global form, (2) represented by one or more global certificates in fully registered form, (3) deposited with the trustee as custodian for DTC, as depositary, and (4) registered in the name of Cede & Co., or another nominee designated by DTC, on behalf of other financial institutions that participate in DTC's book-entry system. Under such system, these participating financial institutions, in turn, hold beneficial interests in the New Notes on behalf of themselves or their customers represented through the participating financial institutions' book-entry accounts (the "Beneficial Owners"). All rights of Beneficial Owners with respect to the New Notes will be governed solely by the procedures of DTC and its participants.

A U.S. Beneficial Owner may elect to hold, directly or through a qualified financial intermediary, their interest through DTC. A non-U.S. Beneficial Owner may elect to hold, directly or through a qualified financial intermediary, their interest through DTC, Clearstream Banking, *société anonyme* ("Clearstream"), or Euroclear Bank S.A./N.V., as operator of the Euroclear System ("Euroclear"). Clearstream and Euroclear will hold interests on behalf of their participants through customers' securities accounts in Clearstream and Euroclear's names on the books of their respective U.S. depositaries, which in turn will hold such interests in their names on DTC's books.

Book-Entry Procedures for the Global Notes

All interests in the New Notes will be subject to the operations and procedures of DTC, Euroclear and Clearstream. We provide the following summaries of those operations and procedures solely for the convenience of investors. The operations and procedures of each settlement system are controlled by that settlement system and may be changed at any time. We are not responsible for those operations or procedures.

DTC has advised that it is:

- (1) a limited purpose trust company organized under the laws of the State of New York;
- (2) a banking organization within the meaning of the New York State Banking Law;

(3) a member of the Federal Reserve System;

(4) a clearing corporation within the meaning of the New York Uniform Commercial Code; and

(5) a clearing agency registered under Section 17A of the Exchange Act.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions between its participants through electronic book-entry changes to the accounts of its participants. DTC's participants include securities brokers and dealers, including the Initial Purchasers, banks and trust companies, clearing corporations and other organizations. Indirect access to DTC's system is also available to indirect participants, such as banks, brokers, dealers and trust companies, who clear trades through or

Table of Contents

maintain a custodial relationship with a DTC participant, either directly or indirectly. Investors who are not DTC participants may beneficially own securities held by or on behalf of DTC only through DTC participants or indirect participants in DTC.

So long as DTC's nominee is the registered owner of the global note, that nominee will be considered the sole owner or holder of the New Notes represented by the global note for all purposes under the Indenture. Except as provided below, Beneficial Owners:

- (1) will not be entitled to have New Notes represented by a global note registered in their names;
- (2) will not receive or be entitled to receive physical, certificated New Notes; and
- (3) will not be considered the owners or holders of the New Notes under the Indenture for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee under the Indenture.

As a result, each Beneficial Owner must rely on the procedures of DTC to exercise any rights of a holder of the New Notes under the Indenture (and, if the Beneficial Owner is not a participant or an indirect participant in DTC, on the procedures of the DTC participant through which the Beneficial Owner owns its interest).

Payments of principal, premium (if any) and interest with respect to the New Notes represented by the global notes will be made by the trustee to DTC's nominee as the registered holder of the global notes. Neither we nor the trustee will have any responsibility or liability for the payment of amounts to Beneficial Owners, for any aspect of the records relating to or payments made on account of those interests by DTC, or for maintaining, supervising or reviewing any records of DTC relating to those interests.

Payments by participants and indirect participants in DTC to the Beneficial Owners will be governed by standing instructions and customary industry practice and will be the responsibility of those participants or indirect participants and DTC.

Transfers between participants in DTC will be effected under DTC's procedures and will be settled in same-day funds. Transfers between participants in Euroclear or Clearstream will be effected in the ordinary way under the rules and operating procedures of those systems.

If you plan to hold your New Notes through Euroclear, Clearstream or any other similar system, we urge you to contract such system to obtain additional information on their rules and operating procedures.

Same-Day Settlement and Payment

Payments in respect of the New Notes represented by the global notes (including principal, premium, if any, and interest) will be made by wire transfer of immediately available funds to the accounts specified by the global note holder. With respect to any New Notes in certificated form, we will make all payments of principal, premium, if any, and interest, by wire transfer of immediately available funds to the accounts specified by the holders thereof or, if no such account is specified, by mailing a check to each such holder's registered address. The New Notes represented by the global notes are expected to be eligible to trade in DTC's Same-Day Funds Settlement System, and any permitted

secondary market trading activity in such Notes will, therefore, be required by DTC to be settled in immediately available funds.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant that purchases an interest in a global note from a DTC participant typically will be credited on the business day for Euroclear or Clearstream immediately following the DTC settlement date. Cash received in Euroclear or Clearstream from the sale of an interest in a global note to a DTC participant will be received with value on the DTC settlement date but typically will not be immediately available in the relevant Euroclear or Clearstream cash account.

Table of Contents

DTC, Euroclear and Clearstream have agreed to the above procedures to facilitate transfers of interests in a global note among participants in those settlement systems. However, none of the operators of these settlement systems are obligated to perform these procedures and each may discontinue or change these procedures at any time. Neither we nor the trustee nor any of our or their respective agents will have any responsibility for the performance by DTC, Euroclear or Clearstream or their participants or indirect participants of their obligations under the rules and procedures governing their operations.

Certificated Notes

New Notes in physical, certificated form will be issued and delivered to each person that DTC identifies as a Beneficial Owner of the New Notes only if:

- (1) DTC notifies us at any time that it is unwilling or unable to continue as depository for the global note representing the New Notes and a successor depository is not appointed within 120 days;
- (2) DTC ceases to be registered as a clearing agency under the Exchange Act and a successor depository is not appointed within 120 days;
- (3) we, at our option, notify the trustee that we elect to cause the issuance of certificated New Notes; or
- (4) there has occurred and is continuing an Event of Default under the Indenture and DTC shall have requested the issuance of certificated New Notes.

Withdrawal Rights

You may withdraw your tender of Old Notes at any time prior to 5:00 p.m., New York City time, on the expiration date. To be effective, the exchange agent must receive a computer-generated notice of withdrawal transmitted by DTC on behalf of the holder in accordance with the standard operating procedures of DTC, or a written or facsimile notice of withdrawal at one of the addresses set forth below under Exchange Agent. This notice must:

specify the name of the person having tendered the Old Notes to be withdrawn;

identify the Old Notes to be withdrawn (including the certificate number(s) of the outstanding Old Notes physically delivered) and aggregate principal amount of such Old Notes, or, in the case of Old Notes transferred by book-entry transfer, the name and number of the account at DTC;

be signed by the holder of those Old Notes in the same manner as the original letter of transmittal (if applicable), including any signature guarantees, or be accompanied by evidence satisfactory to us that the person withdrawing the tender has succeeded to the beneficial ownership of the Old Notes;

contain a statement that the holder is withdrawing his election to have the Old Notes exchanged; and

specify where certificates for Old Notes have been transmitted (if physically delivered), and the name in which such Old Notes are registered, if different from that of the withdrawing holder.

We will make a final and binding determination on all questions as to the validity, form and eligibility (including time of receipt) of such notices of withdraw. Any Old Notes so withdrawn will be deemed not to have been validly tendered for exchange for purposes of the exchange offer. Any Old Notes tendered for exchange but not exchanged for any reason will be returned to the holder without cost to such holder (or, in the case of Old Notes tendered by book-entry transfer into the exchange agent's account at DTC pursuant to the book-entry transfer procedures described above, such Old Notes will be credited to an account maintained with DTC for the Old Notes promptly after withdrawal, rejection of tender or termination of the exchange offer). Properly withdrawn Old Notes may be retendered by following one of the procedures described under Procedures for Tendering Old Notes above at any time on or prior to the expiration date. We are not, nor is the exchange agent or any other person, under any duty to notify you of any defect or irregularity with respect to your withdrawal of any tender of Old Notes for exchange, and no one will be liable for failing to provide such notification.

Conditions to the Exchange Offer

Notwithstanding any other term of the exchange offer, we will not be required to accept for exchange, or issue any New Notes for, any Old Notes, and may, among other things, terminate or amend the exchange offer before the acceptance of the Old Notes, if:

- (a) we determine that the exchange offer violates any applicable law or applicable interpretation of the staff of the SEC;
- (b) an action or proceeding has been instituted or threatened in any court or by any governmental agency which might materially impair our ability to proceed with the exchange offer, or a material adverse development has occurred in any existing action or proceeding with respect to the Company; or
- (c) we determine that we have not obtained all governmental approvals that we deem necessary for the consummation of the exchange offer.

The foregoing conditions are for our sole benefit and may be asserted by us regardless of the circumstances giving rise to any condition or may be waived by us in whole or in part at any time in our reasonable discretion. Our failure at any time to exercise any of the foregoing rights will not be deemed a waiver of any such right and each such right will be deemed an ongoing right which may be asserted at any time.

In addition, we will not accept for exchange any Old Notes tendered, and no New Notes will be issued in exchange for any such Old Notes, if at such time any stop order is threatened or in effect with respect to the registration statement of which this prospectus constitutes a part or the qualification of the Indenture governing the Notes under the Trust Indenture Act of 1939. In any such event, we must use commercially reasonable efforts to obtain the withdrawal of any stop order as soon as practicable.

DELIVERY TO AN ADDRESS OTHER THAN AS SET FORTH ABOVE OR TRANSMISSION OF INSTRUCTIONS VIA FACSIMILE OTHER THAN AS SET FORTH ABOVE DOES NOT CONSTITUTE A VALID DELIVERY.

The exchange agent and the trustee make no recommendation to any holder whether to tender Old Notes pursuant to the exchange offer or to take any other action. The exchange agent and the trustee are not responsible for and make no representation as to the validity, accuracy or adequacy of the prospectus and any of its contents (other than the information that they specifically provided to us for inclusion herein), and are not be responsible for any statement of the Company, the Guarantors, or any other person in the prospectus or in any document issued or used in connection with it or the exchange offer.

Fees and Expenses

We will pay the exchange agent customary fees for its services, reimburse the exchange agent for its reasonable out-of-pocket expenses incurred in connection with the provision of these services and pay other registration expenses, including fees and expenses of the trustee under the Indenture relating to the Notes, filing fees, blue sky fees and printing and distribution expenses. We will not make any payment to brokers, dealers or others soliciting acceptances of the exchange offer.

Additional solicitation may be made by telephone, facsimile or in person by our and our affiliates' officers and regular employees and by persons so engaged by us.

Accounting Treatment

We will record the New Notes at the same carrying value as the Old Notes, as reflected in our accounting records on the date of the exchange. Accordingly, we do not expect to recognize any gain or loss for accounting purposes in connection with the exchange offer. The expenses of the exchange offer will be amortized over the term of the Notes.

Consequences of Exchanging or Failing to Exchange Old Notes

If you do not exchange your Old Notes for New Notes in the exchange offer, your Old Notes will continue to be subject to the provisions of the Indenture relating to the Notes regarding transfer and exchange of the Old Notes and the restrictions on transfer of the Old Notes described in the legend on your certificates. These transfer restrictions are required because the Old Notes were issued under an exemption from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, the Old Notes may not be offered or sold unless registered under the Securities Act, except under an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. We do not plan to register the Old Notes under the Securities Act. Based on interpretations by the staff of the SEC, as set forth in no-action letters issued to third parties, we believe that the New Notes you receive in the exchange offer may be offered for resale, resold or otherwise transferred without compliance with the registration and prospectus delivery provisions of the Securities Act. However, you will not be able to freely transfer the New Notes if:

you are our affiliate, as defined in Rule 405 under the Securities Act;

you are not acquiring the New Notes in the exchange offer in the ordinary course of your business;

at the time of commencement of the exchange offer, you or anyone receiving New Notes from you, has any arrangement or understanding with any person to participate in the distribution, as defined in the Securities Act, of the New Notes in violation of the Securities Act; or

you are a broker-dealer that will receive the New Notes for your own account in exchange for Old Notes that were acquired by you as a result of your market-making or other trading activities. For further information regarding resales of the New Notes, see the discussion under the caption Plan of Distribution.

Table of Contents

We do not intend to request the SEC to consider, and the SEC has not considered, the exchange offer in the context of a similar no-action letter. As a result, we cannot guarantee that the staff of the SEC would make a similar determination with respect to the exchange offer as in the circumstances described in the no action letters discussed above. Each holder, other than a broker-dealer, must acknowledge that it is not engaged in, and does not intend to engage in, a distribution of New Notes and has no arrangement or understanding to participate in a distribution of New Notes. If you are our affiliate, are engaged in or intend to engage in a distribution of the New Notes or have any arrangement or understanding with respect to the distribution of the New Notes you will receive in the exchange offer, you may not rely on the applicable interpretations of the staff of the SEC and you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction involving the New Notes. If you are a participating broker-dealer, you must acknowledge that you will deliver a prospectus in connection with any resale of the New Notes. In addition, to comply with state securities laws, you may not offer or sell the New Notes in any state unless they have been registered or qualified for sale in that state or an exemption from registration or qualification is available and is complied with. The offer and sale of the New Notes to qualified institutional buyers (as defined in Rule 144A of the Securities Act) is generally exempt from registration or qualification under state securities laws. We do not plan to register or qualify the sale of the New Notes in any state where an exemption from registration or qualification is required and not available.

Registration Rights Agreement

When the Old Notes were issued, we entered into a registration rights agreement with the initial purchaser of the Old Notes. Under the terms of the registration rights agreement, we agreed to use our commercially reasonable efforts to file with the SEC and cause to become effective, a registration statement relating to an offer to exchange the Old Notes for the New Notes.

If:

- (a) we are not required to file the exchange offer registration statement or permitted to consummate the exchange offer because the exchange offer is not permitted by applicable law or SEC policy, or
- (b) any holder of Transfer Restricted Securities notifies us prior to the twentieth business day following consummation of the exchange offer that:
 - (1) it is prohibited by law or SEC policy from participating in the exchange offer,
 - (2) it may not resell the New Notes acquired by it in the exchange offer to the public without delivering a prospectus and the prospectus contained in the exchange offer registration statement is not available for such resales, or
 - (3) it is a broker-dealer and owns Old Notes acquired directly from the Company or an affiliate of the Company

we will be required to file with the SEC a shelf registration statement pursuant to Rule 415 under the Securities Act to cover resales of the Old Notes by the holders thereof who satisfy certain conditions relating to the provision of

information in connection with the shelf registration statement. We will use our commercially reasonable efforts to cause the applicable registration statement to be declared effective by the SEC. For purposes of the foregoing, Transfer Restricted Securities means each Old Note until the earliest to occur of:

- (a) the date on which such Old Note is exchanged by a person other than a broker-dealer in the exchange offer and entitled to be resold to the public by the holder thereof without complying with the prospectus delivery requirements of the Securities Act,
- (b) following the exchange by a broker-dealer in the exchange offer of Old Notes for a New Note, the date on which such New Note is sold to a purchaser who receives from such broker-dealer on or prior to the date of such sale a copy of the prospectus contained in the exchange offer registration statement,

Table of Contents

(c) the date on which such Old Note has been effectively registered under the Securities Act and disposed of in accordance with the shelf registration statement, and

(d) the date on which such Old Note is distributed to the public pursuant to Rule 144A under the Securities Act. The registration rights agreement provides that:

(a) the Company will use its commercially reasonable efforts to have an exchange offer registration statement declared effective by the SEC on or prior to May 24, 2018,

(b) unless the exchange offer would not be permitted by applicable law or SEC policy, the Company will commence the exchange offer and use its commercially reasonable efforts to consummate the exchange offer within thirty (30) business days after the effective date of the registration statement with respect to the exchange offer, and

(c) if obligated to file the shelf registration statement, the Company will file the shelf registration statement with the SEC on or prior to 45 days after such filing obligation arises and use its commercially reasonable efforts to cause the shelf registration statement to be declared effective by the SEC on or prior to 90 days after such filing.

If:

(a) any of such registration statement is not declared effective by the SEC on or prior to the date specified for such effectiveness (the Effectiveness Target Date),

(b) the Company fails to consummate the exchange offer within 30 business days after the Effectiveness Target Date with respect to the exchange offer registration statement, or

(c) the shelf registration statement or the exchange offer registration statement is declared effective but thereafter ceases to be effective or usable in connection with resales of Transfer Restricted Securities during the periods specified in the registration rights agreement,

(each such event referred to in clauses (a) through (c) above a Registration Default), then the Company will be required to pay liquidated damages to each holder of outstanding Old Notes (liquidated damages). Liquidated damages will accrue, at an annual rate of 0.25% of the aggregate principal amount of the outstanding Old Notes on the date of such Registration Default (which rate will be increased by an additional 0.25% per annum for each subsequent 90-day period that such liquidated damages continue to accrue, up to a maximum of 1.00% per annum), payable in cash semi-annually in arrears on each interest payment date, commencing on the date of such Registration Default. All accrued liquidated damages will be paid by the Company on each interest payment date to the outstanding global note holder of record for such interest payment date by wire transfer of immediately available funds and to holders of outstanding certificated notes by wire transfer to the accounts specified by them or by mailing checks to their registered addresses if no such accounts have been specified. Following the cure of all Registration Defaults, the

accrual of liquidated damages will cease.

Holders of outstanding Old Notes will be required to make certain representations to the Company (as described in the registration rights agreement) in order to participate in the exchange offer and will be required to deliver information to be used in connection with the shelf registration statement and to provide comments on the shelf registration statement within the time periods set forth in the registration rights agreement in order to have their Old Notes included in the shelf registration statement and benefit from the provisions regarding liquidated damages set forth above.

The registration rights agreement provides that the liquidated damages specified above will be the exclusive remedy available to holders of Transfer Restricted Securities for any failure by the Company to comply with the registration requirements of the registration rights agreement.

The foregoing description is a summary of material provisions of the registration rights agreement. It does not restate that agreement in its entirety. We urge you to read the registration rights agreement in its entirety because it, and not this description, defines your registration rights as holders of the Old Notes. DESCRIPTION OF THE NOTES

General

The New Notes will be and the Old Notes were issued by Great Lakes Dredge & Dock Corporation under the Indenture dated as of May 24, 2017, among itself, the Guarantors and Wells Fargo Bank, National Association, as trustee. The terms of the New Notes will include those expressly set forth in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended, or the Trust Indenture Act. The terms of the New Notes are substantially identical in all material respects to the terms of the Old Notes, except that (i) the New Notes have been registered under the Securities Act, and the transfer restrictions and registration rights relating to the Old Notes do not apply to the New Notes and (ii) the New Notes will have a separate CUSIP number from that of the Old Notes. The Indenture is unlimited in aggregate principal amount, although the New Notes offered hereby will be initially limited to \$325.0 million. We may issue an unlimited principal amount of additional notes having identical terms and conditions as the New Notes (other than the issue price, issue date and initial interest payment date). We will only be permitted to issue additional notes if, at the time of such issuance, we are in compliance with the covenants contained in the Indenture. Any additional notes will be part of the same issue as the Notes and will vote on all matters with the holders of the Notes.

You can find the definitions of certain terms used in this description under Certain Definitions. In this description, the words *we* and *Great Lakes* refer only to Great Lakes Dredge & Dock Corporation and not to any of its Subsidiaries.

Any Old Notes that remain outstanding after completion of the exchange offer, together with the New Notes issued in connection with the exchange offer, will be treated as a single class of securities under the Indenture (collectively, the Notes). The registered holder of a Note will be treated as its owner for all purposes. Only registered holders will have rights under the Indenture.

The following description is a summary of the provisions of the New Notes and the Indenture that we consider to be material. It does not restate the Indenture in its entirety. We urge you to read the Indenture because it, and not this description, defines your rights as a holder of the New Notes. A copy of the Indenture has been filed as Exhibit 4.1 to our current report on Form 8-K filed with the SEC on May 24, 2017, and is available from us upon request. See Where You Can Find More Information.

Brief Description of the New Notes and the Guarantees

The Notes

The Old Notes are and the New Notes will be:

general senior unsecured obligations of Great Lakes;

senior in right of payment to all future subordinated obligations of Great Lakes;

pari passu in right of payment with all existing and future senior obligations of Great Lakes;

effectively subordinated to all Secured Indebtedness of Great Lakes (including the Credit Agreement and the Bonding Agreement) to the extent of the value of the assets securing such Indebtedness; and

fully and unconditionally guaranteed by all of the Guarantors.

The Guarantees

Each Guarantee of the Old Notes is and the New Notes will be:

a general senior unsecured obligation of such Guarantor;

Table of Contents

senior in right of payment to all future subordinated obligations of such Guarantor;

pari passu in right of payment with all existing and future senior obligations of such Guarantor; and

effectively subordinated to all Secured Indebtedness of such Guarantor (including the Credit Agreement and the Bonding Agreement) to the extent of the value of the assets securing such Indebtedness.

As of June 30, 2017, Great Lakes and its Subsidiaries had total debt of approximately \$428 million, \$325 million consisting of the Notes and \$103 million of other debt (excluding (i) approximately \$40 million of undrawn letters of credit, (ii) \$99 million of additional borrowing capacity under our Credit Agreement, and (iii) contingent obligations, including \$1,084 million of performance bonds outstanding under the Bonding Agreement).

The operations of Great Lakes are conducted primarily through its Subsidiaries and, therefore, Great Lakes will be dependent upon the cash flow of these Subsidiaries to meet its obligations, including its obligations under the Notes. Other than the Excluded Subsidiaries, all of the existing domestic Wholly Owned Restricted Subsidiaries of Great Lakes are, and all future domestic Wholly Owned Restricted Subsidiaries of Great Lakes are expected to be, Guarantors. Claims of creditors of Subsidiaries that are not Guarantors will generally have priority with respect to the assets and earnings of these Subsidiaries over your claims.

As of the Issue Date, all of Great Lakes Subsidiaries were Restricted Subsidiaries. However, under specified circumstances, Great Lakes will be able to designate current or future Subsidiaries as Unrestricted Subsidiaries. Unrestricted Subsidiaries are not subject to many of the restrictive covenants set forth in the Indenture. Unrestricted Subsidiaries will not Guarantee the Notes. In addition, in the event of bankruptcy, liquidation or reorganization of any of Great Lakes Subsidiaries that are not Guarantors, such subsidiaries will be required to pay their trade creditors before they will be able to distribute any of their assets to Great Lakes. As of June 30, 2017, our Subsidiaries that are not Guarantors had no outstanding indebtedness (excluding trade payables, intercompany accounts and intercompany transactions). As of and for the last twelve months ended June 30, 2017, these non-guarantor subsidiaries held approximately 1% of the Company's consolidated assets (excluding intercompany transactions) and generated approximately 3% of the Company's consolidated net revenues. See Risk Factors Risks relating to the Notes. In addition, to the extent that the Company or any Restricted Subsidiary is a general partner in any Person, we are liable for our allocated percentage of such Person's liabilities, other than non-recourse liabilities.

Principal, Maturity and Interest

Great Lakes has agreed to issue \$325.0 million aggregate principal amount of New Notes in exchange for Old Notes. The New Notes will be issued in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof; provided that New Notes may be issued in denominations of less than \$2,000 solely to accommodate book-entry positions that have been created by a participant in The Depository Trust Company (*DTC*) in denominations of less than \$2,000. Interest on the Notes will accrue at the rate of 8.000% per annum and will be payable semi-annually in arrears on May 15 and November 15 of each year to holders of record on the immediately preceding May 1 and November 1 (whether or not a business day). The Notes will mature on May 15, 2022. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months. If any interest payment date, the maturity date or any earlier required redemption date or repurchase date falls on a day that is not a business day, the required payment will be made on the next succeeding business day and no interest on such payment will accrue in respect of the delay.

Guarantees

Great Lakes payment obligations under the Notes are fully and unconditionally guaranteed on a joint and several basis by the Guarantors. The Guarantee of each Guarantor is a general senior unsecured obligation of

Table of Contents

such Guarantor. The obligations of each Guarantor under its Guarantee will be limited so as not to constitute a fraudulent conveyance under applicable law. See, however, Risk Factors Risks Related to the Notes.

Each Guarantor that makes a payment or distribution under a Guarantee shall be entitled to a contribution from each other Guarantor and a right of reimbursement from Great Lakes.

A Guarantor shall be released from all of its obligations under its Guarantee if all or substantially all of its assets are sold or all of its capital stock is sold, in each case in a transaction as described under Repurchase at the Option of Holders Asset Sales, or the Guarantor merges with or into or consolidates with, or transfers all or substantially all of its assets to, Great Lakes or another Guarantor in a transaction in compliance with Certain Covenants Limitation on Mergers, Consolidations or Sales of Assets. In addition, the Indenture will provide that, in the event Great Lakes properly designates a Restricted Subsidiary as an Unrestricted Subsidiary in accordance with the Indenture, then the Restricted Subsidiary shall, in accordance with the Indenture, be released from its obligations under its Guarantee upon the effectiveness of the designation.

Optional Redemption

Except as described below, the Notes are not redeemable before May 15, 2020. At any time, from time to time, at our option, we may redeem the Notes, in whole or in part, upon not less than 15 nor more than 60 days notice, in cash at the following redemption prices (expressed as a percentage of principal amount) if redeemed during the twelve-month period beginning on May 15, of the years indicated below:

Year	Percentage
2020	104.000%
2021 and thereafter	100.000%

In addition, we must pay all accrued and unpaid interest on the Notes redeemed.

Notwithstanding the first paragraph of this section, on one or more occasions before May 15, 2020, we may use the net cash proceeds of one or more Equity Offerings to redeem up to 35% of the original principal amount of the Notes at a redemption price of 108.000% of their principal amount plus accrued and unpaid interest thereon; *provided that*:

(1) at least 65% of the original principal amount of the Notes remain outstanding immediately after the occurrence of any such redemption (excluding Notes held by Great Lakes and its Subsidiaries); and

(2) any such redemption occurs not more than 180 days following the closing of such Equity Offering.

Notwithstanding the first paragraph of this section, at any time, from time to time, prior to May 15, 2020, Great Lakes may redeem the Notes, in whole or in part, upon not less than 15 nor more than 60 days notice, in cash, at a redemption price equal to 100% of the principal amount of the Notes redeemed plus the Applicable Premium as of, and accrued and unpaid interest, if any, to the date of redemption (the Redemption Date), subject to the rights of the holders of record on the relevant record date to receive interest due on the relevant interest payment date.

Notwithstanding the preceding, Great Lakes may, from time to time, acquire the Notes in the open market or by undertaking a tender offer for the Notes at any time, subject to the terms of the Indenture and applicable securities laws.

Selection and Notice

In the event we choose to redeem less than all of the Notes at any time, selection of Notes for redemption or repurchase will be made by the trustee, subject to applicable DTC procedures, (1) in compliance with the

Table of Contents

requirements of the principal national securities exchange, if any, on which the Notes are listed, (2) on a pro rata basis, by lot or (3) by an alternative method as the trustee shall deem fair and appropriate. Notices of redemption shall be mailed by first class mail (or transmitted otherwise in accordance with the applicable procedures of DTC) at least 15 but not more than 60 days before the redemption date to each holder of Notes to be redeemed at its registered address. Notices of redemption may be conditioned upon the happening of an event, provided such event is described in the redemption notice, but otherwise shall be unconditional. If any such condition has not been satisfied, the Great Lakes shall provide written notice to the trustee prior to the close of business two business days prior to the redemption date (or such shorter period as may be acceptable to the trustee). Upon receipt of such notice, the notice of redemption shall be rescinded and the redemption of the Notes shall not occur. Upon receipt, the trustee shall provide such notice to each holder of the Notes in the same manner in which the notice of redemption was given. If any Note is to be redeemed in part only, the notice of redemption that relates to the Note shall state the portion of the principal amount to be redeemed. A new note in principal amount equal to the unredeemed portion will be issued in the name of the holder upon cancellation of the original Note (or transferred by book entry). No Notes of \$2,000 principal amount or less shall be redeemed in part. Notes called for redemption become due on the date fixed for redemption. On and after the redemption date, interest ceases to accrue on Notes or portions of them called for redemption or repurchase, unless the notice of redemption is rescinded or we fail to redeem or repurchase any such Note.

Mandatory Redemption

Except as set forth below under **Repurchase at the Option of Holders**, Great Lakes is not required to make mandatory redemption or sinking fund payments with respect to the Notes.

Repurchase at the Option of Holders

Change of Control

Upon the occurrence of a Change of Control, each holder of the Notes will have the right to require Great Lakes to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000) of the holder's Notes pursuant to the offer described below (the *Change of Control Offer*) at an offer price in cash equal to 101% of the aggregate principal amount plus accrued and unpaid interest to the date of purchase (the *Change of Control Payment*). Within 30 days following any Change of Control, Great Lakes will mail or send a notice to each holder and the trustee describing the transaction or transactions that constitute the Change of Control and offering to repurchase Notes on the date specified in the notice, which date shall be no earlier than 15 days and no later than 60 days from the date the notice is mailed or sent (the *Change of Control Payment Date*), pursuant to the procedures required by the Indenture and described in the notice.

On the Change of Control Payment Date, Great Lakes will, to the extent lawful,

- (1) accept for payment all Notes or portions of the Notes properly tendered pursuant to the Change of Control Offer;
- (2) deposit with the Paying Agent (as defined in the Indenture) an amount equal to the Change of Control Payment in respect of all Notes or portions of the Notes so tendered; and
- (3) deliver or cause to be delivered to the trustee the Notes so accepted together with an officers' certificate stating the aggregate principal amount of Notes or portions of the Notes being purchased by Great Lakes.

The Paying Agent will promptly mail to each holder of Notes so tendered the Change of Control Payment for the Notes, and the trustee will promptly authenticate and mail (or cause to be transferred by book entry) to each holder a

new note equal in principal amount to any unpurchased portion of the Notes surrendered, if any; *provided* that each new note will be in a principal amount of \$2,000 or an integral multiple of \$1,000 in excess thereof. Great Lakes will publicly announce the results of the Change of Control Offer on or as soon as practicable after the Change of Control Payment Date.

Table of Contents

The Change of Control provisions described above will be applicable whether or not any other provisions of the Indenture are applicable. Except as described above with respect to a Change of Control, the Indenture does not contain provisions that permit the holders of the Notes to require that Great Lakes repurchase or redeem the Notes in the event of a takeover, recapitalization or similar transaction. The Credit Agreement provides that change of control events with respect to Great Lakes would constitute a default thereunder. Any future credit agreements or other agreements relating to senior Indebtedness to which Great Lakes becomes a party may contain similar restrictions and provisions. In the event a Change of Control occurs at a time when Great Lakes is prohibited under the terms of the Credit Agreement or other Indebtedness from purchasing Notes, Great Lakes could seek the consent of its lenders to the purchase of Notes or could attempt to refinance the borrowings that contain the prohibition. If Great Lakes does not obtain the required consent or repay the borrowings, Great Lakes will remain prohibited from purchasing Notes. In that case, Great Lakes' failure to purchase tendered Notes would constitute an Event of Default under the Indenture, which would, in turn, constitute an additional default under the Credit Agreement or other future senior Indebtedness, including the Bonding Agreement. Finally, Great Lakes' ability to pay cash to the holders of Notes upon a repurchase may be limited by Great Lakes' then existing financial resources. For additional information on the limitations of the protections afforded to you under the Change of Control feature, see **Risk Factors** **Risks Related to the Notes**. The provisions of the Notes relating to change of control transactions will not necessarily protect you in the event of a highly leveraged transaction, sale of assets or change in the composition of our board of directors and **Risk Factors** **Risks Related to the Notes**. Upon a change of control, we may not have the ability to raise the funds necessary to finance the change of control offer required by the Indenture governing the Notes, which would violate the terms of the Notes in this prospectus.

Notwithstanding the preceding paragraphs, Great Lakes will not be required to make a Change of Control Offer upon a Change of Control if (1) a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by Great Lakes and purchases all Notes validly tendered and not withdrawn under its Change of Control Offer or (2) notice of redemption has been given pursuant to the Indenture as described herein under the caption **Optional Redemption**, unless and until there has been a default in payment of the applicable redemption price. At Great Lakes' option, a Change of Control Offer may be made in advance of a Change of Control, conditional upon the Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

The Change of Control feature of the Notes may in certain circumstances make more difficult or discourage a sale or takeover of us and, thus, the removal of incumbent management. The Change of Control feature was requested by the initial purchasers of the Notes as an inducement to their agreement to purchase the Notes, and was agreed to by us following our negotiations with the initial purchasers. We have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future.

Asset Sales

Great Lakes will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale unless:

- (1) Great Lakes (or the Restricted Subsidiary, as the case may be) receives consideration at the time of the Asset Sale at least equal to the Fair Market Value of the assets or Equity Interests issued or sold or otherwise disposed of; and
- (2) at least 75% of the consideration therefor received by Great Lakes or the Restricted Subsidiary is in the form of Qualified Proceeds.

Table of Contents

For the purposes of clause (2) above and no other provision, each of the following shall be deemed cash:

any liabilities (as shown on Great Lakes or the Restricted Subsidiary's most recent balance sheet), of Great Lakes or any Restricted Subsidiary (other than contingent liabilities and liabilities that are by their terms subordinated to the Notes or any Guarantee of the Notes) that are assumed by the transferee of any assets pursuant to a customary assumption or novation agreement or by operation of law that releases Great Lakes or the Restricted Subsidiary from further liability therefor;

any securities, Notes or other obligations received by Great Lakes or the Restricted Subsidiary from a transferee that are converted by Great Lakes or the Restricted Subsidiary into cash (to the extent of the cash received) within 180 days following the closing of the Asset Sale; and

any Designated Non-cash Consideration received by Great Lakes or any of its Restricted Subsidiaries in such Asset Sale having an aggregate Fair Market Value, taken together with all other Designated Non-cash Consideration received pursuant to this clause then outstanding, not to exceed the greater of (x) \$80.0 million and (y) 10% of Total Tangible Assets at the time of receipt of such Designated Non-cash Consideration with the Fair Market Value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value.

Within 360 days after the receipt of any Net Proceeds from an Asset Sale, Great Lakes or any Restricted Subsidiary may apply the Net Proceeds, at its option:

(1) to repay or otherwise retire amounts owing under the Credit Agreement in accordance with the Credit Agreement and to correspondingly reduce commitments with respect thereto;

(2) to repay or otherwise retire amounts owing under other Secured Indebtedness (other than subordinated obligations), which Secured Indebtedness is permitted by the Indenture, and to correspondingly reduce commitments with respect thereto;

(3) to the acquisition of a majority of the assets of, or a majority of the Voting Stock of, another Permitted Business, to making a capital expenditure for the construction, repair, improvement or acquisition of assets that are used or useful in a Permitted Business or commitment to do any of the foregoing provided that this commitment or its reasonable replacement is consummated substantially in accordance with its terms; and/or

(4) for a combination of uses described in clauses (1), (2) and (3).

Pending the final application of any Net Proceeds, Great Lakes and its Restricted Subsidiaries may temporarily reduce revolving credit borrowings or otherwise invest the Net Proceeds in any manner that is not prohibited by the Indenture. Any Net Proceeds from Asset Sales that are not applied or invested as provided in the immediately preceding paragraph will be deemed to constitute Excess Proceeds. When the aggregate amount of Excess Proceeds exceeds \$20.0 million, Great Lakes will be required to make an offer to all holders of Notes (an Asset Sale Offer) to purchase the maximum principal amount of Notes and, if Great Lakes is required to do so under the terms of any other Indebtedness that is *pari passu* with the Notes, such other Indebtedness on a pro rata basis with the Notes, that may be purchased out of the Excess Proceeds, at an offer price in cash in an amount equal to 100% of the principal amount of the Notes plus accrued and unpaid interest to the date of repurchase (the Asset Sale Payment Date), in accordance with

the procedures set forth in the Indenture. To the extent that any Excess Proceeds remain after consummation of an Asset Sale Offer, Great Lakes may use the Excess Proceeds for any general corporate purpose. If the aggregate principal amount of Notes and other *pari passu* Indebtedness tendered into such Asset Sale Offer exceeds the amount of Excess Proceeds, the trustee will select the Notes and Great Lakes will select such *pari passu* Indebtedness to be purchased on a pro rata basis based on the value or principal amount of the Notes or such *pari passu* Indebtedness tendered, subject to applicable DTC procedures with respect to global Notes. Upon completion of each Asset Sale Offer, the amount of Excess Proceeds shall be reset at zero.

Additional Terms

Great Lakes will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent these laws and regulations are applicable in connection with the repurchase of the Notes as a result of a Change of Control Offer or Asset Sale Offer. To the extent that the provisions of any securities laws or regulations directly conflict with the provisions of the Indenture relating to a Change of Control Offer or Asset Sale Offer, Great Lakes will comply with the applicable securities laws and regulations and shall not be deemed to have breached any of its obligations described in the Indenture by virtue of this compliance.

In connection with any Change of Control Offer or Asset Sale Offer, Great Lakes will determine whether Notes are properly tendered. Any Note properly tendered and accepted for payment in connection with any such offer will cease to accrue interest on or after the applicable Change of Control Payment Date or Asset Sale Payment Date.

Certain Covenants

The Indenture contains, among others, the following covenants.

Limitation on Restricted Payments

Great Lakes will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly make any Restricted Payment, unless:

- (1) at the time of and after giving effect to the Restricted Payment, no Default or Event of Default shall have occurred and is continuing or would occur as a consequence of the Restricted Payment;
- (2) Great Lakes would, at the time of the Restricted Payment and after giving it pro forma effect as if the Restricted Payment had been made at the beginning of the applicable four-quarter period, have been permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described below under the caption *Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock* ; and
- (3) the Restricted Payment, together with the aggregate amount of all other Restricted Payments made by Great Lakes and its Restricted Subsidiaries after January 1, 2017 (excluding Restricted Payments permitted by clauses (2), (3), (4), (7), (8), (10), (11), (12), (14) and (15) of the next succeeding paragraph), is less than the sum, without duplication, of:
 - (A) 50% of the Consolidated Net Income of Great Lakes for the period (taken as one accounting period) from the first day of the fiscal quarter of Great Lakes commencing on January 1, 2017 to the end of Great Lakes' most recently ended fiscal quarter for which internal financial statements are available at the time of the Restricted Payment (or, if Consolidated Net Income for the period is a deficit, less 100% of the deficit), plus
 - (B) 100% of the aggregate Fair Market Value of Qualified Proceeds received by Great Lakes since January 1, 2017 as a contribution to its equity capital or from the issue or sale of Equity Interests of Great Lakes (other than Disqualified Stock) or from the issue or sale of Disqualified Stock or debt securities of Great Lakes that have been converted into Equity Interests (other than Equity Interests (or Disqualified Stock or convertible debt securities) sold to a Subsidiary of Great Lakes), plus
 - (C) to the extent that any Restricted Investment that was made after January 1, 2017 is sold for cash or otherwise liquidated or repaid for cash, the cash return of capital received with respect to the Restricted Investment (less the cost

of disposition, if any), plus

(D) 50% of any dividends received by Great Lakes or a Wholly Owned Restricted Subsidiary after January 1, 2017 from an Unrestricted Subsidiary of Great Lakes, to the extent that the dividends were not otherwise included in Consolidated Net Income of Great Lakes for the period, plus

For purposes of making this determination, all outstanding Investments by Great Lakes and its Restricted Subsidiaries (except to the extent repaid in cash) in the Subsidiary so designated will be deemed to be Restricted Payments at the time of the designation and shall either reduce the amount available for Restricted Payments under the first paragraph of this covenant or reduce the amount available for future Investments under one or more clauses of the definition of Permitted Investments, as Great Lakes determines in its sole discretion. All outstanding Investments will be deemed to constitute Investments in an amount equal to the Fair Market Value of the Investments at the time of the designation. Such designation will only be permitted if a Restricted Payment in that amount would be permitted at that time and if the Restricted Subsidiary otherwise meets the definition of an Unrestricted Subsidiary.

For purposes of determining compliance with this covenant, in the event that Restricted Payment meets the criteria of more than one of the exceptions described in (1) through (17) above or is entitled to be made pursuant to the first paragraph of this covenant, Great Lakes shall, in its sole discretion, classify the Restricted Payment in any manner that complies with the covenant. Not later than the 30 days after the date of making any Restricted Payment, Great Lakes shall deliver to the trustee an Officers Certificate stating that the Restricted Payment is permitted and setting forth the basis upon which the calculations required by this covenant were computed, together with a copy of any fairness opinion or appraisal required by the Indenture.

Reports

Whether or not required by the rules and regulations of the SEC, so long as any Notes are outstanding, Great Lakes will file with the SEC (unless the SEC will not accept such filing) and furnish to the trustee and the holders of Notes:

(1) all quarterly and annual financial and other information that would be required to be contained in a filing with the SEC on Forms 10-Q and 10-K if Great Lakes was required to file these Forms, including a Management's Discussion and Analysis of Financial Condition and Results of Operations that describes the financial condition and results of operations of Great Lakes and its consolidated Subsidiaries (showing in reasonable detail, either on the face of the financial statements or in the footnotes, the financial condition and results of operations of Great Lakes and its Restricted Subsidiaries separate from the financial condition and results of operations of the Unrestricted Subsidiaries of Great Lakes) and, with respect to the annual information only, a report thereon by Great Lakes' certified independent accountants; and

(2) all current reports that would be required to be filed with the SEC on Form 8-K if Great Lakes was required to file these reports, in each case within the time periods specified in the SEC's rules and regulations;

provided, however, that Great Lakes will not be required to furnish such information to the trustee or the registered holders of the Notes to the extent such information is electronically filed with the SEC and is electronically available to the public free of cost.

In addition, (1) at all times the SEC does not accept the filings provided for in the preceding sentence or (2) the filings provided for in the preceding sentence do not contain the information required to be delivered upon request pursuant to Rule 144A(d)(4) under the Securities Act, then, in each case, Great Lakes has agreed that, for so long as any Notes remain outstanding, it will furnish to the holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act. Delivery of reports, information and documents to the trustee is for informational purposes only and its receipt of such reports shall not constitute constructive notice of any information contained therein or determinable from information contained therein, including our compliance with any of our covenants under the Indenture or the Notes (as to which the trustee is entitled to rely exclusively on certificates of officers). The trustee shall not be obligated to monitor or

confirm, on a continuing basis or otherwise, Great Lakes compliance with the covenants or with respect to any reports or other documents filed with the SEC or EDGAR or any website under the Indenture, or participate in any conference calls.

Events of Default and Remedies

The Indenture will provide that each of the following constitutes an Event of Default :

- (1) default for 30 days in the payment when due of interest on the Notes;
- (2) default in payment when due of the principal of or premium, if any, on the Notes;
- (3) failure by Great Lakes or any of its Restricted Subsidiaries to comply with the provisions described under the caption **Repurchase at the Option of Holders** **Change of Control** ;
- (4) failure by Great Lakes or any of its Restricted Subsidiaries for 60 days after notice by the trustee or by the holders of at least 25% in principal amount of Notes then outstanding to Great Lakes and the trustee to comply with any of its other agreements in the Indenture or the Notes;
- (5) default under any mortgage, indenture or instrument under which there may be issued or by which there may be secured or evidenced any Indebtedness for money borrowed by Great Lakes or any of its Restricted Subsidiaries (or the payment of which is guaranteed by Great Lakes or any of its Restricted Subsidiaries) whether the Indebtedness or guarantee now exists, or is created after the Issue Date, which default

is caused by a failure to pay principal on such Indebtedness at final stated maturity prior to the expiration of the grace period provided in the Indebtedness on the date of the default (a *Payment Default*) or

results in the acceleration of the Indebtedness prior to its stated maturity and, in each case, the principal amount of any Indebtedness, together with the principal amount of any other such Indebtedness under which there has been a Payment Default or the maturity of which has been so accelerated (after giving effect to any applicable grace period), aggregates \$20.0 million or more;

- (6) failure by Great Lakes or any of its Restricted Subsidiaries to pay final judgments aggregating in excess of \$20.0 million (net of any amount with respect to which a reputable insurance company with assets over \$100.0 million has acknowledged liability in writing), which judgments are not paid, discharged or stayed for a period of 60 days after their entry;
- (7) certain events of bankruptcy or insolvency with respect to Great Lakes or any of its Significant Subsidiaries; and
- (8) except as permitted by the Indenture, any Guarantee of any Significant Subsidiary (or group of Guarantors that, collectively, would be a Significant Subsidiary) shall be held in any judicial proceeding to be unenforceable or invalid or shall cease for any reason to be in full force and effect or any Guarantor that is a Significant Subsidiary (or group of Guarantors that, collectively, would be a Significant Subsidiary), or any Person acting on behalf of any Guarantor that is a Significant Subsidiary (or group of Guarantors that, collectively, would be a Significant Subsidiary), shall deny or disaffirm its obligations under its Guarantee.

If any Event of Default occurs and is continuing, the trustee or the holders of at least 25% in principal amount of the then outstanding Notes may declare all the Notes to be due and payable immediately. Notwithstanding the foregoing,

in the case of an Event of Default arising from certain events of bankruptcy or insolvency, with respect to Great Lakes, any Significant Subsidiary or any group of Subsidiaries that, taken together, would constitute a Significant Subsidiary, all outstanding Notes will become due and payable without further action or notice. Holders of the Notes may not enforce the Indenture or the Notes except as provided in the Indenture.

Subject to certain limitations, holders of a majority in principal amount of the then outstanding Notes may direct the trustee in its exercise of any trust or power. However, the trustee may refuse to follow any direction that conflicts with law or the Indenture, that may involve the trustee in personal liability, or that the trustee determines in good faith may be unduly prejudicial to the rights of holders of Notes not joining in the giving of

Table of Contents

such direction (it being understood that the trustee does not have an affirmative duty to ascertain whether or not any such directions are unduly prejudicial to such holders), and may take any other action it deems proper that is not inconsistent with any such direction received from holders of a majority in principal amount of Notes. The trustee may withhold from holders of the Notes notice of any continuing Default or Event of Default (except a Default or Event of Default relating to the payment of principal or interest) if it determines that withholding notice is in their interest.

In the event of a declaration of acceleration of the Notes because an Event of Default has occurred and is continuing as a result of the acceleration of any Indebtedness described in clause (5) of the first paragraph of this section (excluding any resulting payment default under the Indenture or the Notes), the declaration of acceleration of the Notes shall be automatically annulled if the holders of all Indebtedness described in such clause (5) have rescinded the declaration of acceleration in respect of such Indebtedness within 20 days of the date of such declaration, and if the annulment of the acceleration of the Notes would not conflict with any judgment or decree of a court of competent jurisdiction, and all existing Events of Default, except non-payment of principal or interest on the Notes that became due solely because of the acceleration of the Notes, have been cured or waived.

The holders of a majority in aggregate principal amount of the Notes then outstanding by notice to the trustee may on behalf of the holders of all of the Notes waive any existing Default or Event of Default and its consequences under the Indenture except a continuing Default or Event of Default in the payment of interest on, the principal of, or premium on the Notes. The holders of a majority in principal amount of the outstanding Notes by written notice to Great Lakes and to the trustee may waive all past defaults and rescind and annul a declaration of acceleration and its consequences if:

- (1) all existing Events of Default, other than the nonpayment of the principal of, premium and interest on the Notes that have become due solely by the declaration of acceleration, have been cured or waived; and
- (2) the rescission would not conflict with any judgment or decree of a court of competent jurisdiction and all amounts owing to the trustee have been paid.

A holder may not institute any proceeding, judicial or otherwise, with respect to the Indenture or the Notes, or for the appointment of a receiver or trustee, or for any other remedy under the Indenture or the Notes, unless:

- (1) the holder has previously given to the trustee written notice of a continuing Event of Default;
- (2) holders of at least 25% in aggregate principal amount of outstanding Notes have made written request to the trustee to institute proceedings in respect of the Event of Default in its own name as trustee under the Indenture;
- (3) holders have offered to the trustee security or indemnity satisfactory to the trustee against any costs, liabilities or expenses to be incurred in compliance with such request;
- (4) the trustee for 60 days after its receipt of such notice, request and offer of security or indemnity has failed to institute any such proceeding; and
- (5) during such 60-day period, the holders of a majority in aggregate principal amount of the outstanding Notes have not given the trustee a direction that is inconsistent with such written request.

Notwithstanding anything to the contrary, the right of a holder of a Note to receive payment of principal of or interest on its Note on or after the Stated Maturity thereof, or to bring suit for the enforcement of any such payment on or after such dates, may not be impaired or affected without the consent of that holder.

Great Lakes is required to deliver to the trustee annually a statement regarding compliance with the Indenture, and Great Lakes is required upon becoming aware of any Default or Event of Default, to deliver to the trustee a statement specifying the Default or Event of Default.

No Personal Liability of Directors, Officers, Employees and Stockholders

No director, officer, employee, incorporator or stockholder of Great Lakes shall have any liability for any obligations of Great Lakes under the Notes, the Indenture or the Guarantees or for any claim based on, in respect of, or by reason of, such obligations or their creation. Each holder of Notes by accepting a Note waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Such waiver may not be effective to waive liabilities under the federal securities laws and it is the view of the SEC that this type of waiver is against public policy.

Legal Defeasance and Covenant Defeasance

Great Lakes may, at its option and at any time, elect to have all of its obligations discharged with respect to the outstanding Notes and all obligations of the Guarantors discharged with respect to their Guarantees (*Legal Defeasance*) except for:

- (1) the rights of holders of outstanding Notes to receive payments in respect of the principal of, interest on or premium on such Notes when such payments are due from the trust referred to below;
- (2) Great Lakes' obligations with respect to the Notes concerning issuing temporary Notes, registration of Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;
- (3) the rights, powers, trusts, duties and immunities of the trustee, and Great Lakes' and the Guarantors' obligations in connection therewith; and
- (4) the Legal Defeasance provisions of the Indenture.

In addition, Great Lakes may, at its option and at any time, elect to have the obligations of Great Lakes and the Guarantors released with respect to certain covenants that are described in the Indenture (*Covenant Defeasance*) and thereafter any omission to comply with those covenants will not constitute a Default or Event of Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events (not including non-payment, bankruptcy, receivership, rehabilitation and insolvency events) described under *Events of Default and Remedies* will no longer constitute an Event of Default with respect to the Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance:

- (1) Great Lakes must irrevocably deposit with the trustee, in trust, for the benefit of the holders of the Notes, cash in U.S. dollars, non-callable Government Securities, or a combination of cash in U.S. dollars and non-callable Government Securities, in amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, expressed in a written certification thereof delivered to the trustee, to pay the principal of, interest on and premium on, the outstanding Notes on the stated maturity or on the applicable redemption date, as the case may be, and Great Lakes must specify whether the Notes are being defeased to maturity or to a particular redemption date;
- (2) in the case of Legal Defeasance, Great Lakes has delivered to the trustee an opinion of counsel reasonably acceptable to the trustee confirming that (a) Great Lakes has received from the Internal Revenue Service a ruling directed to it or (b) since the Issue Date, there has been a change in the applicable federal income tax law (including by reason of a published ruling from the Internal Revenue Service), in either case to the effect that, and based thereon

such opinion of counsel will confirm that, the holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Legal Defeasance and will be subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(3) in the case of Covenant Defeasance, Great Lakes has delivered to the trustee an opinion of counsel reasonably acceptable to the trustee confirming that the holders of the outstanding Notes will not recognize income, gain or loss for federal income tax purposes as a result of such Covenant Defeasance and will be

Table of Contents

subject to federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default or Event of Default has occurred and is continuing on the date of such deposit (other than a Default or Event of Default resulting from the borrowing of funds to be applied to such deposit);

(5) such Legal Defeasance or Covenant Defeasance will not result in a breach or violation of, or constitute a default under any material agreement or instrument (other than the Indenture) to which Great Lakes or any of its Subsidiaries is a party or by which Great Lakes or any of its Subsidiaries is bound;

(6) Great Lakes must deliver to the trustee an officers' certificate stating that the deposit was not made by Great Lakes with the intent of preferring the holders of Notes over the other creditors of Great Lakes with the intent of defeating, hindering, delaying or defrauding creditors of Great Lakes or others; and

(7) Great Lakes must deliver to the trustee an officers' certificate and an opinion of counsel, each stating that all conditions precedent relating to the Legal Defeasance or the Covenant Defeasance have been complied with.

Amendment, Supplement and Waiver

Except as provided in the next two succeeding paragraphs, the Indenture, the Guarantees or the Notes may be amended or supplemented with the consent of the holders of at least a majority in principal amount of the Notes then outstanding (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes), and any existing Default or compliance with any provision of the Indenture, the Notes or the Guarantees may be waived with the consent of the holders of a majority in principal amount of the then outstanding Notes (including, without limitation, consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes).

Without the consent of each holder affected, an amendment or waiver may not (with respect to any Notes held by a non-consenting holder):

(1) reduce the principal amount of Notes whose holders must consent to an amendment, supplement or waiver;

(2) reduce the principal of or change the fixed maturity of any Note or alter the provisions with respect to the redemption or repurchase of the Notes (other than provisions relating to the covenants described above under the caption "Repurchase at the Option of Holders");

(3) reduce the rate of or change the time for payment of interest on any Note;

(4) waive a Default or Event of Default in the payment of principal of, premium on or interest on the Notes (except a rescission of acceleration of the Notes by the holders of at least a majority in aggregate principal amount of the Notes and a waiver of the payment default that resulted from the acceleration);

(5) make any Note payable in money other than that stated in the Notes;

(6) make any change in the provisions of the Indenture relating to waivers of past Defaults or the rights of holders of Notes to receive payments of principal of or premium, if any, or interest on the Notes;

- (7) waive a redemption or repurchase payment with respect to any Note (other than a payment required by one of the covenants described above under the caption "Repurchase at the Option of Holders");
- (8) release any Guarantor from any of its obligations under its Guarantee or the Indenture, except in accordance with the terms of the Indenture;
- (9) expressly subordinate in right of payment the Notes or any Guarantee to any other Indebtedness of Great Lakes or any Guarantor; or
- (10) make any change in the foregoing amendment and waiver provisions.

Table of Contents

Notwithstanding the foregoing, without the consent of any holder of Notes, the Guarantors, Great Lakes and the trustee may amend or supplement the Indenture, the Guarantees or the Notes:

- (1) to cure any ambiguity, defect or inconsistency;
- (2) to provide for uncertificated Notes in addition to or in place of certificated Notes;
- (3) to provide for the assumption of Great Lakes or a Guarantor's obligations to holders of Notes in the case of a merger or consolidation or sale of all or substantially all of Great Lakes' assets that is permitted by the Indenture;
- (4) to provide for the issuance of additional Notes in accordance with the provisions set forth in the Indenture on the Issue Date;
- (5) to make any change that would provide any additional rights or benefits to the holders of Notes or that does not materially adversely affect the legal rights under the Indenture of any holder;
- (6) to comply with requirements of the SEC in order to effect or maintain the qualification of the Indenture under the Trust Indenture Act;
- (7) to allow any Guarantor to guarantee the Notes; or
- (8) to conform any provision of the Indenture to this Description of the Notes.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect as to all Notes issued thereunder, when:

- (1) either:
 - (a) all Notes that have been authenticated, except lost, stolen or destroyed Notes that have been replaced or paid and Notes for whose payment money has been deposited in trust and thereafter repaid to Great Lakes, have been delivered to the trustee for cancellation; or
 - (b) all Notes that have not been delivered to the trustee for cancellation have become due and payable by reason of the mailing or sending of a notice of redemption or otherwise or will become due and payable within one year, and Great Lakes has irrevocably deposited or caused to be deposited with the trustee as trust funds in trust solely for the benefit of the holders, cash in U.S. dollars, non-callable Government Securities, or a combination of cash in U.S. dollars and non-callable Government Securities, in such amounts as will be sufficient (in the opinion of a nationally recognized firm of independent public accountants delivered in writing to the trustee if Government Securities are deposited) without consideration of any reinvestment of interest, to pay and discharge the entire Indebtedness on the Notes not delivered to the trustee for cancellation for principal, premium and accrued interest to the date of maturity or redemption;
- (2) no Default or Event of Default has occurred and is continuing on the date of the deposit or will occur as a result of the deposit and the deposit will not result in a breach or violation of, or constitute a default under, any other instrument to which Great Lakes or any Guarantor is a party or by which Great Lakes or any Guarantor is bound;
- (3) Great Lakes has paid or caused to be paid all sums payable by it under the Indenture; and

(4) Great Lakes has delivered irrevocable instructions to the trustee under the Indenture to apply the deposited money toward the payment of the Notes at maturity or the redemption date, as the case may be.

In addition, Great Lakes must deliver an officers certificate and an opinion of counsel to the trustee stating that all conditions precedent to satisfaction and discharge have been satisfied.

Concerning the Trustee

The Indenture contains limitations on the rights of the trustee, should it become a creditor of Great Lakes, to obtain payment of claims in certain cases, or to realize on property received in respect of any claim as security or otherwise. The trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest as defined by the Trust Indenture Act, it must eliminate the conflict within 90 days, apply to the SEC for permission to continue or resign.

The holders of a majority in principal amount of the then outstanding Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the trustee, subject to exceptions defined in the Indenture. The Indenture provides that in case an Event of Default shall occur (which shall not be cured or waived), the trustee will be required, in the exercise of the rights and powers vested in it by the Indenture, to use the degree of care and skill in their exercise of a prudent man in the conduct of his own affairs under the circumstances. Subject to these provisions, the trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the direction or request of any holder of Notes, unless the holder shall have offered to the trustee security and indemnity satisfactory to it against any loss, liability or expense.

The trustee assumes no responsibility for the accuracy or completeness of the information concerning us or our affiliates or any other party contained in this document or the related documents or for any failure by us or any other party to disclose events that may have occurred and may affect the significance or accuracy of such information. The transferor of any Note shall provide or cause to be provided to the trustee all information necessary to allow the trustee to comply with any applicable tax reporting obligations, including without limitation any cost basis reporting obligations under Internal Revenue Code Section 6045. The trustee may rely on information provided to it and shall have no responsibility to verify or ensure the accuracy of such information. In connection with any proposed exchange of a certificated Note for a global Note, Great Lakes or DTC shall be required to provide or cause to be provided to the trustee all information necessary to allow the trustee to comply with any applicable tax reporting obligations, including without limitation any cost basis reporting obligations under Internal Revenue Code Section 6045. The trustee may rely on information provided to it and shall have no responsibility to verify or ensure the accuracy of such information.

Until otherwise designated by Great Lakes, Great Lakes office or agency will be the office of the trustee maintained for this purpose. Under the Indenture, Great Lakes and the trustee will treat the Person in whose name the Notes are registered as a holder for all purposes. Change of Control means the occurrence of any of the following:

(1) the sale, lease, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of the assets of Great Lakes and its Subsidiaries (determined on a consolidated basis), in each case, to any *person* (as that term is used in Section 13(d)(3) of the Exchange Act) other than Great Lakes or a Wholly Owned Restricted Subsidiary of Great Lakes;

(2) the adoption of a plan relating to the liquidation or dissolution of Great Lakes (other than in a transaction which complies with the provisions described under *Limitation on Mergers, Consolidations or Sales of Assets*);

(3) the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any *person* (as defined above) becomes the *beneficial owner* (as that term is defined in Rule 13d-3 and Rule 13d-5 under the Exchange Act, except that a person shall be deemed to have *beneficial ownership* of all securities that person has the right to acquire, whether the right is currently exercisable or is exercisable only upon the occurrence of a subsequent condition), directly or indirectly, of more than 50% of the Voting Stock of Great Lakes (measured by voting power rather than number of shares); or

The definition of Change of Control includes a phrase relating to the sale, lease, transfer, conveyance, or other disposition of all or substantially all of the assets of Great Lakes and its Subsidiaries (determined on a consolidated basis). Although there is a developing body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under New York law, which is the law governing the Indenture. Accordingly, the ability of a holder of Notes to require Great Lakes to repurchase Notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of the assets of Great Lakes and its Subsidiaries taken as a whole to another Person or group may be uncertain.

PRINCIPAL U.S. FEDERAL INCOME TAX CONSIDERATIONS

The following is a general discussion of the material U.S. federal income tax consequences to beneficial owners of Old Notes of the exchange of Old Notes for New Notes pursuant to the exchange offer. This summary is based upon the Internal Revenue Code of 1986, as amended, which we refer to as the Code, the Treasury Regulations promulgated thereunder and administrative and judicial interpretations thereof, all of as of the date hereof, and all of which are subject to change, possibly on a retroactive basis. We have not sought and will not seek any rulings from the Internal Revenue Service, which we refer to as the IRS, with respect to the statements made and the conclusions reached in the following summary, and accordingly, there can be no assurance that the IRS will not successfully challenge the tax consequences described below.

This discussion applies only to beneficial owners that acquired their Old Notes at original issuance at their original issue price and that hold such Old Notes as capital assets within the meaning of Section 1221 of the Code. This summary does not address the tax consequences to subsequent purchasers of the Old Notes or the New Notes. It also does not purport to discuss all U.S. federal income tax consequences that may be relevant to a particular holder in light of the holders particular circumstances, nor does it address considerations that may be relevant to a holder that is subject to special tax rules, such as a bank, thrift, real estate investment trust, regulated investment company, insurance company, dealer in securities or currencies, trader in securities or commodities that elects mark to market treatment; a person that will hold notes as a position in a straddle, conversion or other integrated transaction, tax-exempt organization, S-corporation, partnership or other pass-thru entity, or an investor in an S-corporation, partnership or other pass-thru entity; certain former citizens and residents; a person who is liable for the alternative minimum tax; or a person whose functional currency is not the U.S. dollar. If an entity that is treated as partnership for U.S. federal income tax purposes holds the Old Notes or the New Notes, the tax treatment of a partner generally will depend on the status of the partner and the activities of the partnership. If you own an interest in such an entity, you should consult your tax advisor. In addition, this discussion does not describe any tax consequences arising out of the tax laws of any state, local or foreign jurisdiction, or any possible applicability of U.S. federal gift or estate tax.

Subject to the foregoing qualifications, we do not believe that the exchange of the Old Notes for New Notes in the exchange offer will be a taxable event for U.S. federal income tax purposes. A holder will not realize any taxable gain or loss as a result of exchanging the Old Notes for New Notes, and, upon the exchange, the holder will have the same tax basis and holding period in the New Notes as the holder had in the Old Notes immediately before the exchange.

THIS DISCUSSION IS FOR GENERAL PURPOSES ONLY. HOLDERS SHOULD CONSULT THEIR OWN TAX ADVISORS REGARDING THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO THEIR PARTICULAR SITUATIONS AND THE CONSEQUENCES UNDER FEDERAL ESTATE OR GIFT TAX LAWS, AS WELL AS FOREIGN, STATE OR LOCAL LAWS AND TAX TREATIES, AND THE POSSIBLE EFFECTS OF CHANGES IN TAX LAWS.

PLAN OF DISTRIBUTION

Based on current interpretations by the staff of the SEC set forth in no-action letters issued to third parties, we believe that the New Notes issued pursuant to the exchange offer may be offered for resale, resold and otherwise transferred by holders thereof without compliance with the registration and prospectus delivery provisions of the Securities Act; provided, that such New Notes are acquired in the ordinary course of such holders' business and such holders are not engaged in, and do not intend to engage in, and have no arrangement or understanding with any person to participate in, a distribution of such New Notes; and provided further, that such holder is not (1) an affiliate of GLDD or the Guarantors within the meaning of the Securities Act, (2) a broker-dealer who acquired Old Notes directly from GLDD, or (3) except as provided below, a broker-dealer who acquired Old Notes as a result of market-making or other trading activities.

Based on such SEC interpretations, we believe that a broker-dealer who acquired Old Notes as a result of market-making or other trading activities may participate in the exchange offer with respect to such Old Notes and resell the New Notes received in exchange, provided that the following conditions are met: (1) in connection with any such resales, the broker-dealer delivers this prospectus (which contains a plan of distribution with respect to such resale transactions); (2) the broker-dealer has not entered into any arrangement with us or any of our affiliates to distribute the New Notes; (3) we make each person participating in the exchange offer aware that any such broker-dealer may be considered an underwriter under the Securities Act and must deliver such prospectus; and (4) we include in the letter of transmittal an acknowledgement by such broker-dealer that it will deliver this prospectus in connection with any resale of such New Notes. By so acknowledging and by delivering a prospectus, such broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

Each broker-dealer that receives New Notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such New Notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of New Notes received in exchange for Old Notes where such Old Notes were acquired as a result of market-making activities or other trading activities. We have agreed that, starting on the expiration date and ending on the close of business 180 days after the expiration date, we will make this prospectus, as amended or supplemented, available to any broker-dealer for use in connection with any such resale. In addition, all dealers effecting transactions in the New Notes, whether or not participating in the exchange offer, may be required to deliver a prospectus.

We will not receive any proceeds from any sale of New Notes by broker-dealers. New Notes received by broker-dealers for their own account pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the New Notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or at negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer or the purchasers of any such New Notes. Any broker-dealer that resells New Notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such New Notes may be deemed to be an underwriter within the meaning of the Securities Act and any profit on any such resale of New Notes and any commission or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that, by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an underwriter within the meaning of the Securities Act.

Furthermore, any holder using the exchange offer to participate in a distribution of the New Notes:

cannot rely on the SEC staff positions enunciated in Exxon Capital Holdings Corp., SEC no-action letter (April 13, 1988), Morgan, Stanley & Co. Inc., SEC no-action letter (June 5, 1991), and Shearman & Sterling, SEC no-action letter (July 2, 1983), or other similar letters; and

in the absence of an exemption, must comply with the registration and prospectus delivery requirements of the Securities Act in connection with a resale of New Notes; and, such a secondary resale transaction should be covered by an effective registration statement containing the selling securityholder information required by the Securities Act and rules promulgated thereunder.

We and the Guarantors have agreed to pay all expenses incident to the exchange offer (including the expenses of one counsel for the holders of the Old Notes in the event the Company is required to file and cause to become effective a shelf registration statement covering resales of the Old Notes) other than commissions or concessions of any broker-dealers and will indemnify the holders of the Old Notes (including any broker-dealers) against certain liabilities, including liabilities under the Securities Act.
