DESCRIPTION OF THE NOTES

The following description of the terms of the notes supplements the description set forth in the prospectus and should be read in conjunction with Description of Debt Securities and Guarantee in the prospectus. In addition, such description is qualified in its entirety by reference to the Indenture under which the notes are to be issued, referred to in the prospectus. In this section only, Canadian Pacific Railway, us, we or our refer to Canadian Pacific Railway Company without any of its subsidiaries through which it operates.

General

CPRL will fully and unconditionally guarantee the payment of the principal (and premium, if any) and interest, on the notes, any sinking fund or analogous payments payable with respect to the notes and any additional amounts payable with respect to the notes, when they become due and payable, whether at the stated maturity thereof or by declaration of acceleration, call for redemption or otherwise. The notes and the related guarantee will be part of our and CPRL's respective unsecured obligations and will rank equally with all of our and CPRL's existing and future unsecured and unsubordinated indebtedness. The notes initially will be issued in an aggregate principal amount of US\$500 million. The notes will mature on June 1, 2028. The notes will bear interest at the fixed rate of 4.000% per year. Interest will be payable on the notes from May 16, 2018, or from the most recent date to which interest has been paid or provided for, payable semi-annually on June 1 and December 1 of each year, commencing December 1, 2018 (each an Interest Payment Date) to the persons in whose names the notes are registered at the close of business on the next preceding May 15 or November 15, respectively.

Interest will be calculated on the basis of a 360-day year consisting of twelve 30-day months.

Interest payments for the notes will include accrued interest from and including the date of issue or from and including the last date in respect of which interest has been paid, as the case may be, to, but excluding, the Interest Payment Date or the date of maturity, as the case may be. If any Interest Payment Date or the maturity date of the notes falls on a day that is not a business day, the related payment of principal, premium, if any, or interest will be postponed to the next succeeding business day, and no interest on such payment will accrue for the period from and after such Interest Payment Date or the maturity date, as the case may be as a result of such delay.

Payment of principal, premium, if any, and interest on the notes will be made in United States dollars.

The notes will constitute a separate series of Securities under the Indenture.

S-8

Table of Contents

We may, from time to time, without notice to or the consent of holders of the notes, create and issue additional notes under the Indenture in addition to the aggregate principal amount of notes offered hereby. Such additional notes will rank equally with the notes offered hereby in all respects (or in all respects except for the issue date, payment of interest accruing prior to the issue date of the new notes or except for the first payment of interest following the issue date of the new notes) so that the new notes may be consolidated and form a single series with the notes offered hereby, and have the same terms as to status, redemption and otherwise as the notes offered hereby. In the event that additional notes are issued, we will prepare a new prospectus supplement, provided that if the additional notes are not fungible with the notes for U.S. federal income tax purposes, the additional notes will have a new CUSIP number and a new ISIN number.

Other than the protections which may otherwise be afforded to holders of the notes as a result of the operation of the covenants described in this prospectus supplement and under *Description of Debt Securities and Guarantee* in the prospectus, there are no covenants or other provisions in the Indenture or the notes limiting our ability to seek additional sources of financing, pay dividends or otherwise engage in other capital transactions that might increase our leverage or decrease the amount of assets available to service our debt.

The provisions of the Indenture relating to the payment of additional amounts in respect of Canadian withholding taxes in certain circumstances (described under the caption *Description of Debt Securities and Guarantee Additional Amounts* in the prospectus) and the provisions of the Indenture relating to the redemption of debt securities in the event of specified changes in Canadian withholding tax law on or after the date of this prospectus supplement (described under the caption *Description of Debt Securities and Guarantee Tax Redemption* in the prospectus) will apply to the notes.

The notes will be subject to the provisions of the Indenture relating to the defeasance and covenant defeasance as described in the prospectus under the heading *Description of Debt Securities and Guarantee Defeasance*.

The notes will not be entitled to the benefits of any sinking fund.

Optional Redemption

Prior to March 1, 2028 (the date that is three months prior to the maturity date of the notes), we may redeem the notes in whole or in part, at our option, at any time or from time to time at a redemption price equal to the greater of: (i) 100% of the principal amount of the notes being redeemed; and (ii) the sum of the present values of the remaining scheduled payments of principal and interest thereon that would be due if the notes matured on March 1, 2028 (the date that is three months prior to the maturity date of the notes), (exclusive of any portion of the payments of interest accrued to the date of redemption), discounted to the redemption date on a semi-annual basis at the Treasury Yield plus 15 basis points, plus accrued and unpaid interest to, but excluding, the date of redemption.

On or after March 1, 2028 (the date that is three months prior to the maturity date of the notes) we may redeem the notes in whole or in part, at a redemption price equal to 100% of the principal amount of the notes to be redeemed, plus accrued and unpaid interest thereon to, but excluding, the date of redemption.

Holders of notes to be redeemed will receive notice of redemption delivered at least 30 and not more than 60 days prior to the date fixed for redemption.

Unless we default in the payment of the redemption price, on and after the redemption date, interest will cease to accrue on the notes or the portions of such notes called for redemption.

Comparable Treasury Issue means the United States Treasury security or securities selected by an Independent Investment Banker as having an actual or interpolated maturity comparable to the remaining term of

S-9

Table of Contents

the notes to be redeemed (assuming, for this purpose, that such notes matured on the Par Call Date) that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes.

Comparable Treasury Price means: (i) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest of such Reference Treasury Dealer Quotations; or (ii) if the Independent Investment Banker obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such Quotations.

Independent Investment Banker means one of the Reference Treasury Dealers selected by us or, if such firm is unwilling or unable to select the Comparable Treasury Issue, an independent investment banking institution of national standing in the United States appointed by us.

Par Call Date means March 1, 2028, the date that is three months prior to the maturity date of the notes.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and ask prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Trustee by such Reference Treasury Dealer at 3:30 p.m. New York time on the third business day preceding such redemption date.

Reference Treasury Dealers means each of (i) Morgan Stanley & Co. LLC, Barclays Capital Inc. and Wells Fargo Securities, LLC and/or their affiliates which are primary U.S. government securities dealers in New York City (each, a Primary Treasury Dealer), and their respective successors; and (ii) one other which is a primary U.S. Government securities dealer and its respective successors; provided, however, that if any of the foregoing ceases to be a Primary Treasury Dealer, we will substitute therefor another Primary Treasury Dealer.

Treasury Yield means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for that redemption date.

Change of Control

If a Change of Control Triggering Event (as defined below) occurs, unless we have exercised our right to redeem the notes as described above, holders of notes will have the right to require us to repurchase all or any part equal to US\$2,000 or an integral multiple of US\$1,000 in excess thereof of such notes pursuant to the offer described below (the Change of Control Offer). In the Change of Control Offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of notes repurchased plus accrued and unpaid interest, if any, on the notes repurchased, to the date of purchase (the Change of Control Payment). Within 30 days following any Change of Control Triggering Event, we will be required to mail a notice to holders of notes describing the transaction or transactions that constitute the Change of Control Triggering Event and offering to repurchase the notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed (the Change of Control Payment Date), pursuant to the procedures described in such notice. We must comply with the requirements of Rule 14e-1 under the U.S. Exchange Act, and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a Change of Control Triggering Event. To the extent that the provisions of any applicable securities laws or regulations conflict with the Change of Control provisions of the Indenture, we will be required to comply

with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the Change of Control provisions of the Indenture by virtue of such conflicts.

S-10

Table of Contents

On the Change of Control Payment Date, we will be required to:

- accept for payment all notes or portions of notes properly tendered pursuant to the Change of Control Offer;
- deposit with the paying agent an amount equal to the Change of Control Payment in respect of all notes or portions of notes properly tendered; and
- deliver or cause to be delivered to the Trustee the notes properly accepted together with an officers certificate stating the aggregate principal amount of notes or portions of notes being purchased.

For purposes of the foregoing discussion of a repurchase at the option of holders of notes, the following definitions are applicable:

Book-Entry System

The notes will be represented by fully registered global notes, without interest coupons and will be deposited upon issuance with the Trustee as custodian for DTC in New York, New York, and registered in the name of DTC or its nominee, in each case, for credit to an account of a direct or indirect participant as described below. The provisions set forth under Description of Debt Securities and Guarantee Debt Securities in Global Form in the prospectus will be applicable to the notes. Except as set forth below, the global notes may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Except as described under Description of Debt Securities and Guarantee Debt Securities in Global Form in the prospectus, owners of beneficial interests in the registered global notes will not be entitled to receive notes in definitive form and will not be considered holders of notes under the Indenture.

Transfers of beneficial interests in the global notes are subject to the applicable rules and procedures of DTC and its direct or indirect participants, which may change.

Certain Book-Entry Procedures for the Global Notes

All interests in global notes will be subject to the operations and procedures of DTC. The descriptions of the operations and procedures of DTC set forth below are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to change by them from time to time. We obtained the information in this section and elsewhere in this prospectus supplement concerning DTC and its respective book-entry systems from sources that we believe are reliable, but we take no responsibility for the accuracy of any of this information, and investors are urged to contact the relevant system or its participants directly to discuss these matters.

DTC is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the U.S. Exchange Act. DTC also facilitates the post-trade settlement among direct participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between direct participants' accounts. This eliminates the need for physical movement of securities certificates. Direct participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (DTCC). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly. The DTC Rules applicable to its participants are on file with the Securities and Exchange Commission.

Book-Entry Procedures. Purchases of notes under the DTC system must be made by or through direct participants, which will receive a credit for the notes on DTC's records. The ownership interest of each actual

purchaser of each note (beneficial owner) is in turn to be recorded on the direct and indirect participants' records. Beneficial owners will not receive written confirmation from DTC of their purchase. Beneficial owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participant through which the beneficial owner entered into the transaction. Transfers of ownership interests in the global notes are to be accomplished by entries made on the books of direct and indirect participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in the global notes, except in the event that use of the book-entry system for the notes is discontinued.

The deposit of the global notes with DTC and their registration in the name of Cede & Co. do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the global notes; DTC's records reflect only the identity of the direct participants to whose accounts such securities are credited, which may or may not be the beneficial owners. The direct and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to direct participants, by direct participants to indirect participants, and by direct and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

None of DTC, Cede & Co., or any other DTC nominee will consent or vote with respect to the global notes unless authorized by a direct participant in accordance with DTC's procedures. Under its usual procedures, DTC mails an omnibus proxy to us as soon as possible after the record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants to whose accounts the securities are credited on the record date. These participants are identified in a listing attached to the omnibus proxy.

Principal and interest payments on the global notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit direct participants' accounts upon DTC's receipt of funds and corresponding detail information from us, on the applicable payment date in accordance with their respective holdings shown on DTC's records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices, as is the case with notes held for the accounts of customers in bearer form or registered in street name. These payments will be the responsibility of these participants and not of DTC or its nominee, us, the Trustee, or any other agent or party, subject to any statutory or regulatory requirements that may be in effect from time to time. Payment of principal and interest to Cede & Co., or any other nominee as may be requested by an authorized representative of DTC, is our responsibility. Disbursement of the payments to direct participants is the responsibility of DTC, and disbursement of the payments to the beneficial owners is the responsibility of the direct or indirect participants.

We will send any redemption notices to DTC. If less than all of the notes are being redeemed, DTC's practice is to determine by lot the amount of the interest of each direct participant in the issue to be redeemed.

A beneficial owner must give any required notice of its election to have its notes repurchased through the participant through which it holds its beneficial interest in the global notes to the applicable trustee or tender agent. The beneficial owner shall effect delivery of its notes by causing the direct participant to transfer its interest in the securities on DTC's records. The requirement for physical delivery of notes in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the securities are transferred by the direct participant on DTC's records and followed by a book-entry credit of tendered notes to the applicable trustee or agent's DTC account.

Transfers between participants in DTC will be effected in accordance with DTC's procedures, and will be settled in same-day funds.

Same-Day Settlement and Payment

We will make payments in respect of the notes represented by the global notes (including principal and interest) by wire transfer of immediately available funds to the accounts specified by the global note holder. We will make all payments of principal and interest with respect to notes in definitive form by wire transfer of immediately available funds to the accounts specified by the holders of the notes in definitive form or, if no such account is specified, by mailing a check to each such holder's registered address. The notes represented by the global notes are expected to trade in DTC's Same-Day Funds Settlement System.

None of us, any underwriter or agent, the Trustee or any applicable paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial interests in a global note, or for maintaining, supervising or reviewing any records.

DTC may discontinue providing its services as securities depository with respect to the notes at any time by giving reasonable notice to us or the Trustee. Under such circumstances, in the event that a successor securities depository is not obtained, notes in definitive form are required to be printed and delivered to each holder.

We may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, notes in definitive form will be printed and delivered.
