

Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Bio-Rad Laboratories, Inc. (the “Company”) evaluated its current product lines and determined that tin, tungsten, tantalum and gold (“3TG”) are necessary to the functionality or production of certain products manufactured by the Company or contracted by the Company to be manufactured and are required to be reported in the calendar year covered by this specialized disclosure report. Accordingly, the Company conducted in good faith a reasonable country of origin inquiry regarding the 3TG in our products that was reasonably designed to determine whether any such 3TG originated in the Democratic Republic of the Congo or an adjoining country or were from recycled or scrap sources.

Conflict Minerals Disclosure

Based on our reasonable country of origin inquiry, we have filed a Conflict Minerals Report, which is attached hereto as Exhibit 1.01 and is publicly available at the Investor Relations section of our Web site, [www.bio-rad.com](http://www.bio-rad.com), under the heading “Corporate Governance”. The content of our Web site referred to in this Form SD is included for general information and is not incorporated by reference in this Form SD.

Item 1.02 - Exhibit

See Exhibit 1.01 attached hereto.

Section 2 - Exhibits

Exhibit 1.01 - Conflict Minerals Report as required by Items 1.01 and 1.02 of this Form SD.
