On June 24, 2004, Odyssey Marine Exploration, Inc. (the "Company"), entered into a \$5 million revolving credit facility from The Bank of Tampa (the "Bank"). The credit line has a floating interest rate of the Bank's published prime rate. The line of credit requires the payment of interest only on a monthly basis during its term, and is due in full on June 24, 2005.

The line of credit is secured by a portion of the numismatically significant gold coins recovered by the Company from the SS Republic shipwreck, and by any of the Company's funds on deposit with the Bank. The coins used as collateral will be held by the Company's custodian until released by the Bank. The Borrowing Base of the line of credit will be 25% of the appraised value of the gold coins that serve as collateral. The initial Borrowing Base has not been determined.

The Company intends to use the line of credit as a means to fund ongoing operations and equipment acquisitions while allowing the Company to make coin sales using its strategy to take advantage of market conditions.
