FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2006

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from to
Commission File No. 001-31984

BRISTOL WEST HOLDINGS, INC.

(Exact name of registrant as specified in its charter)

Delaware

*(State or other jurisdiction
of incorporation or organization)*

5701 Stirling Road, Davie, Florida
(Address of principal executive offices)

13-3994449

*(I.R.S. Employer
Identification No.)*

33314
(Zip Code)

**Registrant's telephone number, including area code:
(954) 316-5200**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer
Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

At July 31, 2006, the registrant had issued and outstanding an aggregate of 29,759,976 shares of its common stock.

BRISTOL WEST HOLDINGS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
(dollars in thousands, except per share data)

1. Nature of Operations

Bristol West Holdings, Inc. (the Company) is a property and casualty insurer writing and distributing private passenger automobile insurance. Given the homogeneity of the product, the regulatory environments in which it operates, the type of customer and the method of distribution, the operations of the Company are one segment. As of June 30, 2006, the Company is licensed in 38 states and the District of Columbia. The Company consists of a holding company, four statutory insurance companies (Bristol West Casualty Insurance Company, Bristol West Insurance Company, Security National Insurance Company and Coast National Insurance Company), agencies and claims servicing companies.

2. Basis of Presentation

The unaudited condensed consolidated financial statements included herein have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. These unaudited condensed consolidated financial statements and the notes thereto should be read in conjunction with the Company's audited financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

3. Recent Accounting Pronouncement

In June 2006, the Financial Accounting Standards Board (FASB) issued interpretation of Statement of Financial Accounting Standard (SFAS) No. 109, *Accounting for Uncertainty in Income Taxes* (FIN 48). This Interpretation clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, *Accounting for Income Taxes*. This Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. This Interpretation is effective for fiscal years beginning after December 15, 2006. The Company is currently evaluating the impact, if any, that FIN 48 will have on its Consolidated Financial Statements.

4. Stock-based Compensation

Employee Stock Options

The Company has issued stock options to its employees under two plans: the 1998 Stock Option Plan (the 1998 Plan) of Bristol West Holdings, Inc. and its subsidiaries and the 2004 Stock Incentive Plan (the 2004 Plan) of Bristol West Holdings, Inc. and its subsidiaries. The options issued under these plans vest ratably over periods of two or five years, or earlier if there is an acceleration event. Options expire on and are no longer exercisable after the tenth anniversary of the grant date. The original amount of shares authorized for grant under the 1998 Plan and the 2004 Plan were 2,607,600 and 3,000,000, respectively. In the aggregate, there were 1,222,610 and 1,062,858 options exercisable under these plans at June 30, 2006 and December 31, 2005, respectively. The weighted average remaining contractual life of options outstanding under these plans was 2.77 years as of June 30, 2006.

Edgar Filing: BRISTOL WEST HOLDINGS INC - Form 10-Q

There were no employee option grants made during the six months ended June 30, 2006. Employee stock option activity under both the 1998 Plan and the 2004 Plan for the six months ended June 30, 2006 is detailed below:

Option shares	Number of Shares	Weighted Average Exercise Price
Outstanding December 31, 2005	1,352,818	\$ 4.77
Exercised during 2006	(16,396)	3.83
Expired during 2006	(508)	7.89
Outstanding June 30, 2006	1,335,914	\$ 4.78

Exercise Price	Options Outstanding			Options Exercisable	
	Shares	Weighted Average Price	Remaining Term (in years)	Shares	Weighted Average Price
\$3.83	1,180,599	\$ 3.83	2.23	1,124,273	\$ 3.83
\$7.67 - \$20.91	155,315	11.97	6.82	98,337	12.17
	1,335,914	\$ 4.78	2.77	1,222,610	\$ 4.50

Non-employee Options and Warrants

On July 24, 2002, the Company granted options to purchase 521,520 shares of the Company's common stock with an exercise price of \$3.83 per share to Firemark Partners LLC (Firemark) in exchange for providing development and implementation assistance to the Company with respect to the Company's OneStep® software. These options expire and are no longer exercisable on the tenth anniversary of the grant date. The Company capitalized \$256 of costs related to options to purchase 130,380 of these shares. The Company calculated the fair value of the options utilizing the Black-Scholes option pricing model and the following assumptions: dividend yield of 0%, expected volatility of 30%, risk-free interest rate of 4.65% and an average expected life of 10 years. The vesting of the remaining options to purchase 391,140 shares is subject to the satisfaction of certain performance criteria, which have not yet been met by Firemark.

On November 21, 2005, Firemark assigned 78,228 of these options (representing 15% of the total 521,520 option shares) to OneShield, Inc. (OneShield), the developer of the Company's OneStep® software and owner of 15% of the equity interest of Firemark.

On March 24, 2006, Firemark exercised options to purchase 110,823 shares of the Company's common stock. Firemark used 22,662 of the option shares to settle the exercise price of \$424 for these options. The number of option shares used to settle the exercise price was calculated using the per share market price of the Company's common stock on the date of exercise of \$18.73. As of June 30, 2006 and December 31, 2005, Firemark held options to purchase 332,469 and 443,292 shares, respectively, and OneShield held options to purchase 58,671 shares.

In addition, Inter-Ocean Reinsurance (Ireland) Limited held warrants to purchase 432,613 shares of the Company's common stock at June 30, 2006 and December 31, 2005. These warrants have an exercise price of \$3.83 per share and expire on July 1, 2016.

Restricted Shares

The Company began issuing restricted stock awards in 2004 pursuant to the 2004 Plan. The outstanding restricted stock awards were issued as time-based awards, which vest upon the lapse of a period of time, typically in two to five years, or earlier if there is an acceleration event. The restricted stock awards are expensed pro rata over the vesting period based on the market value of the awards at the time of grant.

Edgar Filing: BRISTOL WEST HOLDINGS INC - Form 10-Q

A summary of all employee restricted stock activity for the six months ended June 30, 2006 follows:

Shares outstanding, December 31, 2005	460,023
Shares granted	255,134
Shares forfeited	(8,801)
	<hr/>
Shares outstanding, June 30, 2006	706,356
	<hr/>

Recent Accounting Pronouncements

Effective January 1, 2006, the Company adopted FASB Statement of Financial Accounting Standards No. 123, *Share-Based Payments (revised 2004)*, (SFAS No. 123R). Among its provisions, SFAS No. 123R requires the Company to recognize compensation expense for equity awards over the vesting period based on their grant-date fair value. Prior to the adoption of SFAS No. 123R, the Company utilized the intrinsic-value based method of accounting under Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB No. 25), and related interpretations. Accordingly, compensation cost for the stock options awarded was measured as the excess, if any, of the fair value of the Company's stock at the date of the grant over the amount an employee was required to pay to acquire the stock.

The Company adopted SFAS No. 123R on January 1, 2006 using the modified prospective method. This transition method applies to new awards and awards modified, repurchased, or cancelled after the effective date of this statement. The Company recognized compensation costs of \$10 during the three and six months ended June 30, 2006, based on the fair value at grant date of its unvested awards and the remaining requisite service period. Results for prior periods have not been restated as provided for under the modified prospective approach. For equity awards granted after the date of adoption, the Company amortizes share-based compensation expense on a straight-line basis over the vesting term.

The Company receives a tax deduction for certain stock option exercises when the options are exercised, generally for the excess of the stock price when the options are exercised over the exercise price of the options. Prior to the adoption of SFAS No. 123R, the Company presented all tax benefits resulting from the exercise of stock options as operating cash inflows in the Consolidated Statements of Cash Flows. SFAS No. 123R requires the benefits of tax deductions in excess of the grant-date fair value for those options to be classified as financing cash inflows rather than operating cash inflows, on a prospective basis. Accordingly, the Company recognized tax benefits on the exercise of stock options within the Consolidated Statements of Cash Flows as a financing cash inflow of \$694 for the six months ended June 30, 2006 and as an operating cash inflow of \$174 for the six months ended June 30, 2005.

The following table shows the effect on net income and earnings per share for the three and six months ended June 30, 2005 had compensation expense been recognized based upon the estimated fair value on the grant date of the awards, in accordance with SFAS No. 123, *Accounting for Stock-Based Compensation*, as amended by SFAS No. 148, *Accounting for Stock-Based Compensation-Transition and Disclosure*:

5. Debt

The Company entered into a secured credit facility (Bank Agreement) in February 2004, consisting of: (1) a \$50,000 Secured Revolving Credit Facility, which included up to \$15,000 of letters of credit maturing in 2009, (2) a \$35,000 Term A Loan, maturing in 2010 and (3) a \$40,000 Term B Loan, maturing in 2011. The Company's interest rate on borrowings under this bank agreement (Bank Agreement) was London Interbank Offered Rate (LIBOR) plus a margin (1% to 2.25%), based on the Company's consolidated total debt to consolidated total capitalization ratio as defined in the Bank Agreement. The Company also paid certain commitment fees. The Bank Agreement was secured by a pledge of stock of certain of the Company's subsidiaries. The amount of debt outstanding at June 30, 2006 and December 31, 2005 was \$67,975 and \$69,925, respectively. The Company had no borrowings on the revolving credit line at June 30, 2006 and December 31, 2005.

The Bank Agreement required compliance with certain financial loan covenants relating to leverage and debt service coverage. As of, and for the twelve-month period ended June 30, 2006, the Company was in compliance with all such covenants.

On July 31, 2006, the Company completed a refinancing of this credit facility. See Note 8. Subsequent Events below.

6. Net Income per Share

The following table sets forth the computation of basic and diluted earnings per share for the three and six months ended June 30, 2006 and 2005:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
Net income applicable to common stockholders	\$ 10,346	\$ 13,121	\$ 21,536	\$ 29,942
Weighted average common shares - basic	29,304,163	30,971,987	29,517,577	31,243,792
Effect of dilutive securities:				
Options	1,077,739	1,136,259	1,123,523	1,159,646
Restricted stock	198,851	61,672	198,204	57,330
Warrants	219,463	211,886	222,136	214,942
Weighted average common shares - dilutive	30,800,216	32,381,804	31,061,440	32,675,710
Basic Earnings Per Share	\$ 0.35	\$ 0.42	\$ 0.73	\$ 0.96
Diluted Earnings Per Share	\$ 0.34	\$ 0.41	\$ 0.69	\$ 0.92

7. Commitments and Contingencies

On April 21, 2005, the Company received subpoenas from the Florida Office of Insurance Regulation (FOIR) requesting documents related to all reinsurance agreements to which the Company has been a party since January 1, 1998. On May 2, 2005, the Company received a subpoena from the SEC seeking documents relating to certain loss mitigation insurance products. On June 14, 2005, the Company received a grand jury subpoena from the United States Attorney for the Southern District of New York (the USAO) seeking information relating to the Company's finite reinsurance agreements. The Company has been informed that other insurance industry participants have received similar subpoenas. The Company is cooperating with the FOIR, the SEC and the USAO.

All of the material reinsurance agreements to which the Company has been a party have been terminated and settled, and the reinsurers have been released from all future liabilities under the agreements. Inasmuch as the governmental investigations are ongoing and the various regulatory authorities could reach conclusions different from the Company's concerning the treatment of these transactions that are reflected in the Company's financial statements, it would be premature to reach any conclusions as to the likely outcome of these matters and their potential impact upon the Company.

The Company is named as a defendant in a number of class action and individual lawsuits, the outcomes of which are uncertain at this time. These cases include those plaintiffs who are seeking restitution, damages and other remedies as a result of the Company's alleged failure to properly reimburse claimants for certain expenses and other cases challenging various aspects of the Company's business practices. The Company plans to contest all of the outstanding suits vigorously.

The Company accounts for such activity through the establishment of unpaid claim and claim adjustment expense reserves. The Company believes the current assumptions and other considerations the Company uses to estimate its potential liability for litigation are appropriate. While it is not possible to know with certainty the ultimate outcome of these claims or lawsuits, the Company believes it has adequately reserved for its existing known litigation and that such litigation will not have a material effect on its future financial condition or results of operations. In view of the uncertainties regarding the outcome of these claims or lawsuits, as well as the tax-deductibility of related payments, it is possible that the ultimate cost to the Company of these claims or lawsuits could exceed the reserves established by amounts that would have a material adverse effect on the Company's future financial condition or results of operations in a particular quarter or year.

8. Subsequent Events

On July 31, 2006, the Company completed a refinancing of the credit facility represented by the Bank Agreement and increased the amount of the term loan facility. The new secured credit facility (Senior Credit Facility) consists of: (1) a \$100,000 term loan and (2) a \$25,000 revolving credit facility, which includes up to \$15,000 of letters of credit. The Senior Credit Facility may be prepaid at any time and is scheduled to expire on July 31, 2011. Borrowings under the Senior Credit Facility bear interest based either upon (1) LIBOR plus an applicable margin ranging from 0.750% to 1.750% based on the then existing ratio of our consolidated total debt to our consolidated total capitalization, as defined in the Senior Credit Facility, or (2) the greater of (a) the applicable prime rate and (b) the Federal funds rate for Federal Reserve System overnight borrowing transactions plus 0.5%, plus an applicable margin ranging from 0.000% to 0.50% based on the then existing ratio of our consolidated total debt to our consolidated total capitalization. The Company also pays a commitment fee on the unused portion of the revolving credit facility. The Senior Credit Facility is secured by guarantees by, and a pledge of stock of, certain of the Company's subsidiaries.

On July 31, 2006, contemporaneously with the execution and delivery of the Senior Credit Facility, the Company terminated the Bank Agreement and paid the principal and all accrued interest and fees. See Note 5. Debt above. On July 31, 2006, the outstanding principal balance under the Bank Agreement was \$67,975. The Company incurred no early termination penalties in connection with the termination of the Bank Agreement. In connection with the prepayment of the refinanced debt, the Company will incur a one-time non-cash pre-tax charge of \$1,311 in the third quarter of 2006 due to the write-off of the unamortized portion of the deferred financing costs.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

We have derived the following discussion and analysis of the results of operations for the three and six months ended June 30, 2006 and June 30, 2005, respectively, and our financial condition as of each period, from the condensed consolidated financial statements included elsewhere in this document. You should read this discussion and analysis in conjunction with such financial statements in the Quarterly Report on Form 10-Q for the quarter ended March 31, 2006 filed with the SEC on May 10, 2006 (the First Quarter 2006 Form 10-Q), and our audited consolidated financial statements and notes thereto in our Annual Report on Form 10-K for the fiscal year ended December 31, 2005 filed with the SEC on March 14, 2006 (the Fiscal 2005 Form 10-K), as well as the information under the heading Management's Discussion and Analysis of Financial Condition and Results of Operations, that is part of our Fiscal 2005 Form 10-K and of our First Quarter 2006 Form 10-Q. When this report uses the words we, us, and our, these words refer to Bristol West Holdings, Inc. and its subsidiaries, unless the context otherwise requires.

General

We provide private passenger automobile insurance and related services in 21 states. Most of the business we write is non-standard automobile insurance. Non-standard automobile insurance provides coverage to drivers who find it difficult to purchase standard automobile insurance as a result of a number of factors, including their driving record, vehicle, age or claims history, or because they have limited financial resources. Many of these drivers purchase state-mandated minimum limits of coverage to comply with financial responsibility laws. Premium rates for non-standard automobile insurance policies are generally higher than for standard or preferred automobile insurance policies for comparable coverage.

The operating results of property and casualty insurance companies are subject to fluctuations from quarter-to-quarter and year-to-year due to a number of factors, including, but not limited to, general economic conditions, the regulatory climate in states where an insurer operates, state regulation of premium rates, changes in pricing and underwriting practices of the insurer and its competitors, the frequency and severity of losses, natural disasters and other factors. Historically, results of property and casualty insurance companies have been cyclical, with periods of high premium rates and strong profitability followed by periods of price competition, falling premium rates and reduced profitability.

We continue to direct our operations in view of the market conditions and anticipated changes to those conditions in each state in which we operate. The non-standard automobile insurance business is highly competitive, and we compete with both large national insurance providers and smaller regional companies. Some of our competitors have more capital, higher ratings and greater resources than we have, and they may offer a broader range of products and lower prices and down payments than we offer.

For a detailed description of our business, see *Item 1. Business* in our Fiscal 2005 Form 10-K.

Operating Results Key States

Market conditions in the states in which we operate are competitive to varying degrees. We monitor the rate and underwriting activity of the other market participants in each state in which we do business. During the second quarter of 2006, we tracked 222 rate revisions by companies we monitor. One hundred and four of these revisions were rate increases, 99 were rate reductions, and 19 were revenue neutral.

Some companies with which we compete, primarily in California, do not verify certain underwriting information, which has the effect of lowering the premium they charge, and thus attracting more business. In addition, in California and in other states, some companies with which we compete pay incentives to agents and brokers, such as contingent commissions. Also, some competitors spend significant sums on national and local advertising. In all of our markets, we have not relaxed our underwriting standards, we do not pay incentives to agents and brokers, and we do not spend significantly on consumer advertising.

Our gross written premium was \$143.2 million for the second quarter ended June 30, 2006 compared to \$157.8 million for the same quarter of 2005, a decline of \$14.6 million or 9%. Our gross written premium was \$300.4 million for the six months ended June 30, 2006 compared to \$328.1 million for the same period in 2005, a decline of \$27.7 million or 8%. These figures included a change in the provision for expected policy cancellations. The change in the provision for expected policy cancellations increased gross written premium by \$1.1 million for the second quarter of 2006 compared to an increase of \$8.5 million for the second quarter of 2005. The change in the provision in the second quarter of 2005 was principally the result of an improvement in the rate of expected cancellations. Most of the change in the provision in the second quarter of 2006 related to the decline in unearned premiums.

Edgar Filing: BRISTOL WEST HOLDINGS INC - Form 10-Q

For the six months ended June 30, 2006, the change in the provision for expected policy cancellations increased gross written premium by \$1.8 million compared to an increase of \$8.3 million during the same period of 2005. The purpose of the provision is to reduce installment premiums due in the future from our policyholders, as well as the related unearned premiums, to the amount we expect to ultimately collect and earn. We adjust the provision based upon observed changes in the cancellation rate of in force policies and changes in the balance of unearned premiums.

Gross written premium before and after the change in the provision for cancellations for the three and six months ended June 30, 2006 and 2005 is presented below.

State	Three months ended June 30,			Six months ended June 30,		
	2006	2005	% Change	2006	2005	% Change
	(\$ in millions)			(\$ in millions)		
California	\$ 60.2	\$ 72.2	-16.6%	\$ 128.9	\$ 155.8	-17.3%
Florida	22.7	22.8	-0.4%	48.0	48.0	0.0%
Michigan	17.6	20.3	-13.3%	37.1	42.8	-13.3%
Pennsylvania	7.2	4.1	75.6%	13.1	7.5	74.7%
Texas	5.9	5.6	5.4%	12.0	11.8	1.7%
South Carolina	5.4	4.0	35.0%	12.0	10.0	20.0%
New Hampshire	3.5	4.2	-16.7%	7.4	8.0	-7.5%
Maine	3.0	3.4	-11.8%	6.3	7.2	-12.5%
Virginia	3.0	2.1	42.9%	6.0	4.7	27.7%
Colorado	2.7	1.7	58.8%	4.8	3.4	41.2%
All Other (includes 11 states)	10.9	8.9	22.5%	23.0	20.6	11.7%
Gross written premium, before change in expected policy cancellation provision	\$ 142.1	\$ 149.3	-4.8%	\$ 298.6	\$ 319.8	-6.6%
Change in expected policy cancellation provision	1.1	8.5	n/m	1.8	8.3	n/m
Gross written premium	\$ 143.2	\$ 157.8	-9.3%	\$ 300.4	\$ 328.1	-8.4%

Our gross written premium in California for the three and six months ended June 30, 2006 was 17% below the comparable periods of 2005. Our gross written premium in our other states grew by 6% in the aggregate during the three months ended June 30, 2006 and by 3% in the aggregate during the six months ended June 30, 2006 compared to the same periods of 2005. New business production declined by less than 1% for the second quarter of 2006 compared to the second quarter of 2005, reflecting a decline of 15% in new business production in California offset by an aggregate increase of 11% in new business production for all other states. Changes in gross written premium, as enumerated above, vary significantly by state and are influenced by a variety of factors, including competitive conditions and regulatory environments within those states, and our strategies with respect to product pricing and changes in the number and location of producers.

Increasing the number of producers with which we do business is one important aspect of our growth strategy. We attempt to target producers in geographic areas where we are under-represented and where we believe we can write profitable business. During the second quarter of 2006, we increased our total number of producers to 8,458 and our total number of producer locations to 11,340. This compares to 6,963 producers and 9,340 producer locations as of June 30, 2005, and approximately 7,720 producers and 10,360 producer locations as of December 31, 2005. The following table displays our producer representation in our key states as of June 30, 2006 and June 30, 2005.

Edgar Filing: BRISTOL WEST HOLDINGS INC - Form 10-Q

State	Producers		Producer Locations	
	June 30, 2006	June 30, 2005	June 30, 2006	June 30, 2005
California	1,241	1,007	2,022	1,759
Florida	1,406	1,156	1,714	1,421
Michigan	643	563	905	726
Pennsylvania	864	699	986	798
Texas	845	723	1,343	1,152
All Other	3,459	2,815	4,370	3,484
Totals	8,458	6,963	11,340	9,340

Our gross written premium in California for the second quarter of 2006 declined by \$12.0 million to \$60.2 million from \$72.2 million in the comparable period of 2005, as a result of continued competitive market conditions in that state. While our competitors' rates, as filed, remain stable, some have relaxed underwriting standards by not verifying miles driven, driving experience, or other underwriting information, which can significantly affect policy premiums. This practice has resulted in lower policy premiums for some drivers, making it more difficult for companies not engaging in such practices to attract new customers and retain those that seek alternative quotes at renewal. While some of our competitors have relaxed underwriting standards, we have not observed increased relaxation of such standards during the second quarter of 2006 and thus believe market conditions have begun to stabilize. We have not relaxed our underwriting standards and do not intend to do so in the future. We are also monitoring proposed regulations introduced by the California Department of Insurance that would require all auto insurers to implement procedures to verify annual mileage.

New business application volume in California for the second quarter of 2006 was 15% below that of the second quarter of 2005. The rate of decline continued to slow in comparison to a 22% reduction in the first quarter of 2006 and a 42% reduction in the fourth quarter of 2005. We continue to believe this trend indicates that the California market is beginning to stabilize.

On March 1, 2006, we launched a new product in California that complements our existing product offering by providing additional coverage options. The new product employs greater pricing segmentation than does our existing product. We are pleased with the product's performance to date, and we will continue to monitor its performance very closely.

The California Office of Administrative Law has approved regulations proposed by the California Department of Insurance that would change the weighting of rating factors for private passenger auto insurance. If implemented, the regulations would lessen the impact of territory as a rating factor. Lawsuits have been filed challenging the legality of these regulations and seeking a preliminary injunction to prevent their implementation.

In Florida, our second largest state, gross written premium for the second quarter of 2006 was \$22.7 million compared to \$22.8 million for the comparable quarter of 2005. We continue to observe signs that the rates in Florida market are firming. During the second quarter of 2006, the competitors we monitor implemented 35 rate revisions: 18 increases, 10 decreases, and seven that were revenue neutral. These revisions continue the trend we noted during the fourth quarter of 2005 and the first quarter of 2006 of rate increases outnumbering rate decreases among competitors' rate filings.

The Florida Office of Insurance Regulation has proposed rules making it more difficult for insurers to use credit as a rating variable. We are monitoring litigation challenging the legality of this proposed rule.

On August 1, 2006, we launched our Select 2.0 product in Florida. We designed this product to be broadly competitive. We used advanced statistical techniques to create a new rating algorithm for this latest version of our Select product. Additionally, we are employing our own proprietary credit model and vehicle symbol set in the rating process.

In Michigan, our third largest state, gross written premium for the second quarter of 2006 declined by \$2.7 million to \$17.6 million from \$20.3 million for the second quarter of 2005. We attribute this decline in volume principally to rate increases that we implemented in January and April 2006 in response to increasing severity of personal injury protection (PIP) claims in Michigan. For the second quarter of 2006, we tracked 10 rate revisions by companies with which we compete in Michigan, of which seven were increases and three were decreases.

The Michigan legislature has not considered the legislation proposed by the governor of that state that would decrease automobile insurance rates by 20%, eliminate the use of credit as a rating variable, and seek changes in the law to make it easier for claimants to file tort claims.

At this time, we cannot determine the outcome of the regulatory developments in California, Florida, and Michigan discussed above, and their impact on the insurance industry and our business.

In Pennsylvania, our gross written premium for the second quarter of 2006 grew by \$3.1 million to \$7.2 million from \$4.1 million for the second quarter of 2005, an increase of 76%. New business application volume in Pennsylvania for the second quarter of 2006 was 127% higher than for the second quarter of 2005. Some of our key competitors raised rates during the second quarter of 2006 which we believe had a favorable effect on our new business production in this state. During the second quarter of 2006, we saw 24 rate revisions by competitors we monitor: six were increases, 11 were decreases, and seven were revenue neutral. As with each state in which we do business, we are closely monitoring and analyzing our business in Pennsylvania, and we are satisfied with the trends to date.

In Texas, our gross written premium for the second quarter of 2006 grew by \$0.3 million to \$5.9 million from \$5.6 million for the comparable quarter of 2005. For the second quarter of 2006, we observed four rate revisions in this state, three of which were increases and one a decrease. In June 2006, we introduced our Select 2.0 product in Texas. As noted above, this product employs increased pricing segmentation and makes use of our own proprietary credit model and vehicle rating factors. The new product has been well received. In the 17 days after the date of introduction to the end of the second quarter of 2006, we observed a 77% increase in our new business policy counts as compared to the preceding 17 days.

To date, we have now introduced the Select 2.0 product in four of the states in which we operate, and it appears to have been well received in each. We introduced Select 2.0 in the Colorado market in February 2006. For the second quarter of 2006, our gross written premium in Colorado grew by \$1.0 million, or 59%, to \$2.7 million from \$1.7 million for the second quarter of 2005. We also introduced the Select 2.0 product in the Oregon market in April 2006 and in the Florida market in August 2006. We plan to deploy this product in South Carolina, Wisconsin, Pennsylvania, Michigan, Maine, and Indiana by year-end, and expect to have introduced it in all of the states in which we operate by mid-2007, with the exception of any states where regulatory constraints would prohibit us from introducing the product. The preliminary results of the Select 2.0 product appear to be satisfactory; nevertheless, we will continue to monitor its performance closely.

One of our objectives is to increase our geographic diversification over time. Although California continues to be our largest state, our mix of premium writings has become more geographically diverse. For the second quarter of 2006, we derived 42% of our gross written premium from California, down from 48% for the second quarter of 2005. California, Florida and Michigan collectively accounted for 71% of our gross written premium for the second quarter of 2006, down from 77% for the second quarter of 2005.

The number of policies in force is a significant driver of our gross earned premium. The table below shows our average number of policies in force and gross earned premium for the three and six months ended June 30, 2006 and 2005.

	Three months ended June 30,			Six months ended June 30,		
	2006	2005	% Change	2006	2005	% Change
	(in thousands)			(in thousands)		
Average number of policies in force	407.1	459.3	-11.4%	408.8	467.3	-12.5%
Gross earned premium	\$ 147,775	\$ 166,228	-11.1%	\$ 294,554	\$ 335,977	-12.3%

For the second quarter of 2006, the average number of policies in force decreased by 11% compared to the same quarter of 2005, while gross earned premium similarly decreased by 11%. At June 30, 2006, we had 404,000 policies in force, a decrease of 10% compared to 451,000 at June 30, 2005 and a decrease of less than one-half of one percent compared to 406,000 at December 31, 2005.

Operations

We continue to emphasize productivity and efficiency by closely managing our staffing levels in relation to volume in our claims and policy service divisions. At June 30, 2006, our staff count was down to 1,181 compared to 1,263 at June 30, 2005 and 1,213 at December 31, 2005. We employ various metrics to evaluate service performance to ensure that service levels are meeting or exceeding our benchmarks. We have modified rates 33 times thus far in 2006. Nine such modifications were increases, 11 were revenue neutral, nine were decreases, and four were new product introductions. The overall effect of these modifications was to increase our overall rates by 0.6%. We continuously monitor in great detail the profitability of our business. We seek rate changes based on indicated profitability related to our targets. We believe we can continue to improve our product structure by filing class plan changes that lower rates for certain market segments that produce favorable results relative to our average in a given state and raise rates for other poorer performing segments.

In the aggregate, we have now deployed point-of-sale underwriting in 18 states, and we utilized point-of-sale underwriting to process over 99% of our new business applications in the first two quarters of 2006. We have fully deployed OneStep® in South Carolina, California, Ohio, Texas, Mississippi, Tennessee, Florida, Indiana, Pennsylvania, and Michigan for both new business and endorsements. Additionally, we are in the process of deploying OneStep in Arizona and Wisconsin. OneStep Raptor® has been deployed in all but three of our other states.

Reinsurance

We agreed with National Union Fire Insurance Company of Pittsburgh, PA, a subsidiary of American International Group, Inc. (AIG), to terminate our 2005 quota share reinsurance agreement on a cut-off basis and commute the balances effective January 1, 2006. The termination and commutation resulted in the reinsurer's release from all future liability and the settlement of the net balance due to us, including commission and profit commission receivable, ceded loss reserves, and ceded unearned premiums less amounts payable to the reinsurer. We received the net balance of \$11.0 million on January 31, 2006. The termination and commutation had no impact on reported net income or retained earnings. The termination and commutation resulted in the following increases/(decreases) to our balance sheet accounts in 2006:

Cash	\$	11,004
Reinsurance recoverable on paid and unpaid losses and loss adjustment expenses		(16,429)
Prepaid reinsurance		(18,287)
Ceding commission receivable		(8,928)
Reinsurance payables		(28,067)
Deferred policy acquisition costs		4,573

We have not purchased any voluntary reinsurance for 2006. However, we continue to cede premium to the Michigan Catastrophic Claims Association (MCCA), a mandatory facility that provides excess of loss coverage for personal injury protection in Michigan. Earned premium ceded to the MCCA was \$2.5 million for the second quarter of 2006 compared to \$2.3 million for the second quarter of 2005.

Results of Operations

The table below provides summary information about our operations:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
(dollars in thousands, except per share data)				
Statement of Operations Data:

(a) Per SEC Staff Accounting Bulletin 107, Topic 14.F, Classification of Compensation Expense Associated with Share-Based Payment Arrangements, stock-based compensation expense should be presented in the same lines as cash compensation. As such, stock-based compensation expense is no longer presented separately, and our expense ratio now includes this expense item. Prior period amounts have been reclassified to conform to the 2006 presentation.

Overview of Operating Results

Net income for the three months ended June 30, 2006 was \$10.3 million compared to \$13.1 million for the three months ended June 30, 2005, a decrease of 21%. During the most recent quarter, we incurred pre-tax losses of \$430,000 associated with an extra-contractual verdict in California and \$375,000 from hail storms in the Midwest. During the quarter ended June 30, 2005, we incurred pre-tax expenses of \$935,000 related to previously reported regulatory inquiries concerning our reinsurance agreements. Net income, excluding the after-tax effect of these items in the respective periods, was \$10.9 million for the quarter ended June 30, 2006 compared to \$13.7 million for the quarter ended June 30, 2005.

Net income for the six months ended June 30, 2006 was \$21.5 million compared to \$29.9 million for the six months ended June 30, 2005, a decrease of 28%. During the first six months of 2006, we incurred pre-tax losses of \$430,000 associated with an extra-contractual verdict in California, \$375,000 from hail storms in the Midwest, and \$168,000 related to Hurricane Wilma claims. Net income, excluding the after-tax effect of the aforementioned losses associated with an extra-contractual verdict in California, hail storms in the Midwest, and Hurricane Wilma, as well as expenses related to the regulatory inquiries in the respective periods, was \$22.1 million for the six months ended June 30, 2006 compared to \$30.5 million for the six months ended June 30, 2005.

The following table summarizes the after tax amounts of the items enumerated above that impacted our net income for the three and six months ended June 30, 2006 and 2005.

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
	(in thousands)		(in thousands)	
Loss due to extra-contractual verdict in California, net of related tax effects	\$ 283	\$ 283	\$ 283	\$ 283
Loss due to hail storms in the Midwest, net of related tax effects	246		246	
Hurricane losses, net of related tax effects			110	
Costs associated with regulatory inquiries, net of related tax effects		596		596
Total, net of related tax effects	\$ 529	\$ 596	\$ 639	\$ 596

Three Months and Six Months Ended June 30, 2006 compared to Three Months and Six Months Ended June 30, 2005**Revenues**

The following table shows gross, ceded, and net written and earned premium for the three and six months ended June 30, 2006 and 2005.

Edgar Filing: BRISTOL WEST HOLDINGS INC - Form 10-Q

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
	(dollars in thousands)		(dollars in thousands)	
Gross written premium	\$ 143,187	\$ 157,780	\$ 300,374	\$ 328,130
Ceded written premium:				
Other reinsurance	2,346	17,338	4,802	37,303
Effect of reinsurance commutation			(18,287)(1)	(106,310)(2)
Total ceded written premium	2,346	17,338	(13,485)	(69,007)
Net Written Premium	\$ 140,841	\$ 140,442	\$ 313,859	\$ 397,137
% Ceded, excluding effect of reinsurance commutation	1.6%	11.0%	1.6%	11.4%
Gross Earned Premium	\$ 147,775	\$ 166,228	\$ 294,554	\$ 335,977
Ceded Earned Premium	2,485	12,692	4,986	18,982
Net Earned Premium	\$ 145,290	\$ 153,536	\$ 289,568	\$ 316,995
% Ceded	1.7%	7.6%	1.7%	5.6%

(1) Amount represents the unearned premium previously ceded under our 2005 quota share reinsurance agreement, which we received as a result of the termination and commutation of this agreement.

(2) Amount represents the unearned premium previously ceded under our 2002-2004 quota share reinsurance agreement, which we received as a result of the termination and commutation of this agreement.

Gross Written Premium. Gross written premium was \$143.2 million for the three months ended June 30, 2006 compared to \$157.8 million for the same period of 2005, a decline of 9%. For the six months ended June 30, 2006, gross written premium was \$300.4 million compared to \$328.1 million for the same period of 2005, a decline of 8%. The decline in gross written premium emanated primarily from California and Michigan where written premium declined by a combined \$14.7 million and \$32.6 million, respectively, for the three and six months ended June 30, 2006 compared to the corresponding periods of 2005. Our gross written premium in the other states in which we do business grew in the aggregate by 13% and 9%, respectively, during the same periods. For a detailed discussion of market conditions, see *Operating Results - Key States*.

We provide for expected policy cancellations in order to adjust written premium to amounts we expect to ultimately collect and earn (see *Operating Results - Key States*). During the three months ended June 30, 2006, we reduced the provision by \$1.1 million, which added less than 1% to our reported gross written premium for the quarter. During the quarter ended June 30, 2005, we reduced the provision by \$8.5 million. The larger reduction in the second quarter of 2005 was principally the result of an improvement in the rate of expected cancellation to 23.1% as of June 30, 2005 compared to 24.7% as of March 31, 2005. Cancellation experience has continued to improve: The expected rate was 20.6% as of June 30, 2006. Because the cancellation rate was virtually unchanged compared to the rate as of March 31, 2006, most of the reduction in the provision during the second quarter of 2006 related to the decline in unearned premiums. For the six months ended June 30, 2006, we reduced the provision by \$1.8 million, which again represented less than 1% of our reported gross written premium for the six-month period.

Net Written Premium. Net written premium for the three months ended June 30, 2006 was \$140.8 million compared to \$140.4 million for the same period of 2005. Net written premium was essentially unchanged despite the decline in gross written premium because we had no voluntary quota share reinsurance in 2006. Net written premium for the three months ended June 30, 2005 was reduced by \$14.9 million ceded pursuant to a 10% quota share reinsurance agreement in place during that time. We had no similar agreement in 2006. We continued to cede premium to the MCCA, the amount and impact of which were not material to the change in net written premium for the second quarter of 2006 compared to the second quarter of 2005.

For the six months ended June 30, 2006, net written premium decreased to \$313.9 million compared to \$397.1 million for the comparable period of 2005, a decline of \$83.2 million. The decrease resulted primarily from the termination of quota share reinsurance agreements during the first quarters of both 2006 and 2005. Upon termination of the reinsurance agreements, we recaptured the previously ceded unearned premium, which added to our net written premium. We recaptured \$106.3 million in the first quarter of 2005 compared to \$18.3 million in the first quarter of 2006, a decrease of \$88.0 million. Our net written premium, exclusive of the effect of these terminations, was \$295.6 million for the first six months of 2006 compared to \$290.8 million for the first six months of 2005. Net written premium for the six months ended June 30, 2005 was reduced by \$32.4 million ceded pursuant to a 10% quota share reinsurance agreement in place during that time. We had no similar agreement in 2006.

Net Earned Premium. Net earned premium for the three months ended June 30, 2006 was \$145.3 million compared to \$153.5 million for the corresponding period of 2005, a decrease \$8.2 million, or 5%. Net earned premium for the three months ended June 30, 2005 was reduced by \$10.4 million ceded pursuant to a 10% quota share reinsurance agreement in place during that time. We had no similar agreement in 2006. Net earned premium, excluding the effect of the 2005 quota share reinsurance, decreased by \$18.6 million, or 11%, for the second quarter of 2006 compared to the second quarter of 2005. Net earned premium for the six months ended June 30, 2006 was \$289.6 million compared to \$317.0 for the same period of 2005, a decrease of \$27.4 million, or 9%. Net earned premium for the six months ended June 30, 2005 was reduced by \$14.5 million ceded pursuant to a 10% quota share reinsurance agreement in place during that time. We had no similar agreement in 2006. Net earned premium, excluding the effect of the 2005 quota share reinsurance, decreased by \$41.9 million, or 13%, for the first six months of 2006 compared to the first six months of 2005. We attribute these declines in net earned premium primarily to the competitive market conditions we observed in some of our key states (see *Operating Results - Key States*) which resulted in declines in gross earned premium of 11% and 12% for the three and six months ended June 30, 2006 compared to the corresponding periods of 2005.

Net Investment Income. Net investment income for the three months ended June 30, 2006 increased 16% to \$5.1 million compared to \$4.4 million for the same period of 2005. Net investment income for the six months ended June 30, 2006 increased 26% to \$10.1 million compared to \$8.0 million for the same period of 2005. The increases in net investment income were due to higher investment yields on the portfolio in the second quarter and first six months of 2006 compared to the corresponding periods of 2005. The pre-tax equivalent book yield of our fixed maturity portfolio increased to 4.73% at June 30, 2006 from 4.27% at June 30, 2005. The increase in net investment income for the first six-month period is also attributable to a larger invested asset base, which averaged \$455.5 million for the first six months of 2006 compared to \$357.6 million for the first six months of 2005.

Policy Service Fee Revenue. Policy service fee revenue was \$13.4 million for the three months ended June 30, 2006 as compared to \$16.5 million for the same period of 2005, a decrease of \$3.1 million or 19%. For the six months ended June 30, 2006, policy service fee revenue was \$27.3 million compared to \$34.3 million for the same period of 2005, a decline of \$7.0 million or 20%. These declines in fee income are primarily the result of reduced installment fees and the decline in our California business, where our fees are higher than for the rest of our business. A greater percentage of our customers are signing up for electronic funds transfer (EFT) payment plans, on which we charge lower installment fees. The EFT business is more persistent, produces a lower loss ratio and is less expensive to administer. The portion of our policyholders who utilize EFT increased to 15% for the second quarter of 2006 compared to 5% for the second quarter of 2005.

Costs and Expenses

Losses and Loss Adjustment Expenses. Net losses and loss adjustment expenses incurred for the three months ended June 30, 2006 were \$98.3 million compared to \$103.6 million for the same period of 2005. Net losses and loss adjustment expenses incurred for the six months ended June 30, 2006 were \$195.9 million compared to \$211.3 million for the same period in 2005.

The following table displays our net incurred losses and loss adjustment expenses (LAE) related to the current accident year (losses and LAE occurring in the current fiscal year) and prior accident years (losses and LAE recognized in the current fiscal year related to accidents which took place in a prior fiscal year).

Edgar Filing: BRISTOL WEST HOLDINGS INC - Form 10-Q

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
	(dollars in thousands)		(dollars in thousands)	
Losses and LAE incurred - current accident year	\$ 97,857	\$ 103,579	\$ 195,180	\$ 211,456
Losses and LAE incurred - prior accident years	420	(26)	755	(138)
Total losses and LAE incurred	\$ 98,277	\$ 103,553	\$ 195,935	\$ 211,318
Loss ratio - current accident year	67.3%	67.4%	67.4%	66.7%
Loss ratio - prior accident years	0.3%	0.0%	0.3%	0.0%
Total loss ratio	67.6%	67.4%	67.7%	66.7%

Our loss ratio was little changed at 67.6% for the three months ended June 30, 2006 compared to 67.4% for the comparable quarter of 2005. For the six months ended June 30, 2006, our loss ratio of 67.7% compared to 66.7% for the corresponding period of 2005, an increase of 1.0 point. Adverse development on prior years loss and LAE reserves, primarily attributed to an extra-contractual verdict in California and Hurricane Wilma claims, contributed \$0.8 million to net losses and LAE incurred for the six months ended June 30, 2006, or 0.3 points of the increase over the comparable period of 2005. Loss development occurs when reserves for losses and LAE established for prior accident years prove to be redundant or inadequate, and management adjusts those reserves to reflect the updated estimate of the ultimate losses and LAE related to such accident years. We record changes to reserves established in prior years in losses and LAE incurred in the period in which we make the change. During the second quarter of 2006, we also incurred \$0.4 million of losses related to hail storms in the Midwest, which contributed 0.1 points of the increase during the six months ended June 30, 2006 compared to the same period of 2005. The remainder of the increase in the loss ratio is attributed to an increase in our claims adjustment expense ratio. The ratio has increased as premium volume has declined because a portion of our costs are fixed or semi-fixed and cannot be adjusted readily in response to changes in volume.

Commissions and Other Underwriting Expenses. Commissions and other underwriting expenses for the three months ended June 30, 2006 were \$38.4 million compared to \$40.8 million for the same period of 2005. For the six months ended June 30, 2006, commission and other underwriting expenses were \$76.0 million as compared to \$81.6 million for the same period of 2005. Most of the decrease was the result of lower earned premium in the three and six months ended June 30, 2006 compared to the corresponding periods of 2005. The ratio of gross commission expense to gross earned premium for the six months ended June 30, 2006 was 14.7% compared to 14.8% for the same period of 2005, while the premium tax rate for the six months ended June 30, 2006 was also little changed from the comparable period of 2005.

The following table provides detail of our commissions and other underwriting expenses before and after the impact of our quota share reinsurance agreements.

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
	(in thousands)		(in thousands)	
Gross commissions	\$ 21,549	\$ 24,445	\$ 43,258	\$ 49,843
Premium tax expense	3,146	3,639	6,332	7,612
Other underwriting expenses	13,682	15,570	26,306	28,233
Gross expenses	38,377	43,654	75,896	85,688
Ceding commission (expense) income	(59)	2,858	(66)	4,077
Commissions and other underwriting expenses	\$ 38,436	\$ 40,796	\$ 75,962	\$ 81,611

Other Operating and General Expenses. Other operating and general expenses for the three months ended June 30, 2006 were \$10.9 million compared to \$9.1 million for the same period of 2005, an increase of \$1.8 million, or 20%. For the six months ended June 30, 2006, other operating and general expenses were \$21.3 million compared to \$18.8 million for the same period of 2005, an increase of \$2.5 million or 13%. For the three and six months ended June 30, 2005, we incurred pre-tax expenses of \$0.9 million related to previously reported regulatory inquiries concerning our reinsurance agreements, while we incurred an insignificant amount of such expenses in the corresponding periods of 2006. Stock-based compensation expense contributed \$0.3 million and \$0.6 million, respectively, of the increases noted for the three and six-month periods of 2006 compared to the same periods of 2005. Pursuant to Financial Accounting Standards Board (FASB) Statement of Financial Accounting Standards No. 123, *Share-Based Payments (revised 2004)*, (SFAS No. 124R), and SEC Staff Accounting Bulletin 107, Topic 14.F, Classification of Compensation Expense Associated with Share-Based Payment Arrangements, stock-based compensation is no longer presented as a separate financial statement line item. See *Recent Accounting Pronouncements* in this section below. Also contributing to the increases in other operating and general expenses was depreciation expense, primarily related to enterprise software, which was higher by \$0.2 million and \$0.3 million, respectively, for the three and six-month periods of 2006 compared to the same periods of 2005.

Interest Expense. Interest expense for the three months ended June 30, 2006 was \$1.3 million compared to \$1.0 million for the same period of 2005, an increase of \$0.3 million. Interest expense for the six months ended June 30, 2006 was \$2.5 million compared to \$2.0 million for the same period of 2005, an increase of \$0.5 million. The increases are attributable to increasing interest rates. The rate we pay on our credit facility debt is variable and is tied to the London Interbank Offered Rate (LIBOR). The average LIBOR rate was higher during the three and six months ended June 30, 2006 than in the comparable periods of 2005. The aggregate weighted average interest rate was 6.6% during the three months ended June 30, 2006 compared to 4.8% during the three months ended June 30, 2005, and 6.4% during the six months ended June 30, 2006 compared to 4.6% during the six months ended June 30, 2005. As of June 30, 2006, we had \$68.0 million of outstanding credit facility debt as compared to \$71.9 million at June 30, 2005.

Income Taxes. Income taxes for the three months ended June 30, 2006 were \$5.3 million compared to \$7.5 million for the comparable period of 2005. For the six months ended June 30, 2006, income taxes were \$11.2 million, representing an effective tax rate of 34.3%. The effective tax rate comprises 31.7% for federal income taxes and 2.6% for state income taxes. Income taxes for the six months ended June 30, 2005 were \$17.0 million, representing an effective tax rate of approximately 36.25%. The effective rate for the six months ended June 30, 2005 comprised 32.9% for federal income taxes and 3.35% for state income taxes.

Ratios. The table below displays the key components of the combined ratio:

	Three months ended June 30,		Six months ended June 30,	
	2006	2005	2006	2005
Loss ratio	67.6%	67.4%	67.7%	66.7%
Direct commission ratio	14.8%	15.9%	14.9%	15.7%
Ceding commission (income) ratio	0.0%	-1.9%	0.0%	-1.3%
Underwriting expense ratio	11.6%	12.5%	11.3%	11.3%
Other operating and general expense ratio	7.5%	6.0%	7.3%	5.9%
Fee (income) ratio	-9.7%	-11.2%	-9.9%	-11.2%
Net expense ratio	24.2%	21.3%	23.6%	20.4%
Combined ratio	91.8%	88.7%	91.3%	87.1%

Our combined ratio was 91.8% for the three months ended June 30, 2006, higher by 3.1 points compared to 88.7% for the same period of 2005. The increase is primarily attributable to the expense ratio, which increased 2.9 points to 24.2% for the three months ended June 30, 2006 compared to 21.3% for the same period of 2005. Lower fee and other income during the three months ended June 30, 2006 compared to the same period of 2005 contributed 1.4 points of the increase in the expense ratio. In addition, 1.9 points of the increase to the expense ratio was caused by the absence of ceding commission income in the three months ended June 30, 2006 compared to the same period of 2005 as a result of the termination of our voluntary quota share reinsurance.

Our combined ratio for the six months ended June 30, 2006 was 91.3% compared to 87.1% for the corresponding period of 2005, an increase of 4.2 points. The increase is attributable to a 1.0-point increase in the loss ratio and a 3.2-point increase in the expense ratio. The increased loss ratio was partially due to 0.3 points of adverse development on prior years' loss and LAE reserves, primarily attributed to an extra-contractual verdict in California and Hurricane Wilma claims. In addition, we also incurred \$0.4 million of losses related to hail storms in the Midwest during the six months ended June 30, 2006, which contributed 0.1 points of the increase. The increased expense ratio was partially due to lower fee and other income in the six months ended June 30, 2006 compared to the corresponding period of 2005, which accounted for 1.3 points of the increase. Lower ceding commission income for the six months ended June 30, 2006 compared to the same period of 2005, as a result of the termination of our voluntary quota share reinsurance agreements, accounted for an additional 1.3 points of the increase. Increased other operating and general company expenses in the six months ended June 30, 2006 compared to the same period of 2005 added 1.4 points to the expense ratio. For the six months ended June 30, 2006, we incurred an insignificant amount of expenses related to previously reported regulatory inquiries concerning our reinsurance agreements compared to \$0.9 million before taxes during the corresponding period of 2005, which mitigated the increase to the expense ratio by 0.3 points.

The table below displays our gross, ceded, and net underwriting results, as well as the related gross, ceded and net loss, expense and combined ratios.
