In the first four months of 2008 we posted **230% growth relative to 2007**

3 directives **changed the history** of Extra.com.br in the Grupo Pão de Açúcar:

1- Focus: understanding it as a "business" and no longer as a "store", structuring a dedicated Executive Board.

2 - Management Model: application of a "hybrid with identity" model, capable of exploiting all synergies with the Company while preserving the particularities of the dotcom business platform.

3- Specialization: people, systems and operation.

Main actions taken in 2008

- Technology

Modernization of the entire technological platform: front end and back office.

- Commercial

Management Model & Variable Compensation

Enéas Pestana

- **Meritocracy based model. The objective is to reward those that are truly responsible for producing results, singling out those that contribute the most**
 - **Aggressive Variable Compensation that expressly rewards executives who produce real results for the GPA**
-

A smaller pool of employees eligible for variable compensation. Reduction in that base from 3,200 (2007 level) to 843 (including sales and headquarters managers)

The base for bonuses will be GPA s EBITDA. This will bring everything in line with a focus on the Company s actual results

Bonus payments will be subject to a cut off (except the PLR):

The bonus will be equal to ZERO on EBITDA growth not surpassing 20%

The final amount of bonuses will be figured by using very few indicators (a maximum of 3), varying by group and always privileging the integration of the focus on results generated for the GPA

For Top Management, the indicators for 2008 will be:

40% EBITDA variation

30% same store sales evolution

10% value (target) of GPA shares

20% portion (discretionary) of the bonus that will be decided by the CEO to recognized merit

For the manager level (stores and headquarters), the bonus potential was defined by a factor of the salary level and weights defined in accordance with budgeting and specific goals

50% of the bonus will be paid through the stock option plan, with lock up date of three years
