04.01 - NOTES TO FINANCIAL STATEMENTS

NOTES TO THE QUARTERLY INFORMATION

(In thousand of Brazilian Reais)

1. OPERATIONS

Brasil Telecom Participações S.A. (the Company) is a joint stock publicly-held company, incorporated according to article 189 of Law 9,472/97 - Telecommunications General Law, as part of TELEBRÁS spin-off process, whose protocol and justification was approved on May 22, 1998.

The Company has as purpose to control companies developing fixed telephony public services in Region II of the General Concession Plan (PGO), approved by Decree 2,534 of April 2, 1998. Such control is exercised through Brasil Telecom S.A., which is a concessionaire responsible for the Switched Fixed Telephone Service (STFC) in Region II of PGO. In addition, the Company may participate in the capital of other companies.

The Company is registered at the Brazilian Securities and Exchange Commission (CVM) and at the U.S. Securities and Exchange Commission SEC. Its shares are traded on the São Paulo Stock Exchange (BOVESPA), where it also integrates Level 1 of Corporate Governance, and trades its American Depositary Receipts (ADRs) on the New York Stock Exchange (NYSE).

The control of the Company is exercised by SOLPART Participações S.A. (SOLPART), corresponding, at the quarter closing date, to 51.00% of the voting capital and 18.78% of the total capital.

Subsidiaries

a. Brasil Telecom S.A.

Brasil Telecom S.A. is a concessionaire of the Switched Fixed Telephone Service (STFC) and operates in Region II of the General Concession Plan, covering the Brazilian states of Acre, Rondônia, Mato Grosso, Mato Grosso do Sul, Tocantins, Goiás, Paraná, Santa Catarina and Rio Grande do Sul, besides the Federal District. In this area, Brasil Telecom S.A. renders since July 1998 the STFC in the modalities of local and intra-regional long distance. As of January 22, 2004 Brasil Telecom S.A. has started exploiting domestic and international long distance call services in all Regions. Under the local modality, the service outside Region II has started to be offered as of January 19, 2005.

The concession agreements in force, under the modalities of local and long distance services, came into force as of January 1, 2006, effective until December 31, 2025. Additional information about these agreements is mentioned in Note 4.i.

Information related to the quality and universalization targets of the Switched Fixed Telephone Service of its Subsidiary are available to interested parties on ANATEL's homepage, on the website *www.anatel.gov.br*.

b. Nova Tarrafa Participações Ltda. and Nova Tarrafa Inc.

The Company also holds the control of Nova Tarrafa Participações Ltda. (NTP) and Nova Tarrafa Inc. ("NTI"). The purpose of these subsidiaries is the capital interest in Internet Group (Cayman) Limited (iG Cayman), which is focused on Internet access provision. iG Cayman is subsidiary of Brasil Telecom Serviços de Internet S.A, a company that is also an indirect subsidiary and operates in the internet segment.

NTP s and NTI s interest in iG Cayman on the quarter closing date represented 9.25% and 0.16%, respectively, and together with Brasil Telecom Serviços de Internet S.A. the total interest was 98.2% .

Indirect Subsidiaries

In the second semester of 2006, the process for restructuring Brasil Telecom S.A. subsidiaries has started, since approved by the Company s administration council. Such restructuring aims at optimizing the control structure with reduction of companies, concentration of similar activities, simplification of equity among companies. The corporate alterations already performed, carried out based on the book values, did not have material effects in the cost structure. The alterations occurred in the quarters or fiscal years referred to in the present quarterly information are mentioned in the comments of the companies below, when attributed to them.

The subsidiary Brasil Telecom S.A. holds the control of the following companies:

a. 14 Brasil Telecom Celular S.A.

14 Brasil Telecom Celular S.A. (BrT Celular) is a wholly-owned subsidiary which operates since the fourth quarter of 2004 to provide Personal Mobile Service (SMP), with authorization to render such services to the Region II of the PGO.

b. BrT Serviços de Internet S.A.

BrT Serviços de Internet S.A. (BrT Celular) is a wholly-owned subsidiary whose main product is internet broadband services. It also provides both residential and corporate clients with a series of value-added services, among which wireless internet access.

BrTI, on the other hand, has the control of the following companies:

(i) iBest Group

iBest has its operations concentrated in providing dialup connection to the Internet, sale of advertising space for disclosure in its portal and value-added service, and one of its main services is its internet connection speedup device. iBest activities are totally represented by Freelance S.A., established in Brazil. It also has the iBest Holding Corporation, constituted in Cayman Islands, which is not operating and does not have investments in other companies.

(ii) iG Group

iG operates as an internet access provider, both dialup and broadband. It also provides value added services focused on the residential and corporate markets. In addition, iG also sells advertising space in its portal.

BrTI's control over the iG Companies is attributed to its 88.81% share in the capital stock of Internet Group (Cayman) Limited (iG Cayman), located in the Cayman Islands.

iG Cayman is a holding which, in its turn, has the control of the companies iG Participações S.A. (iG Part), Internet Group do Brasil S.A. (iG Brasil) and Central de Serviços Internet Ltda. (CSI), subsidiaries established in Brazil.

Agência O Jornal da Internet Ltda. ("Jornal Internet")

BrTI holds thirty percent interest in the capital stock of Jornal Internet, which aims at the commercialization of goods and services through the Internet, edition of daily newspapers or magazines, as well as the obtainment, generation and publication of news on selected facts. Seventy per cent of the capital stock of Jornal Internet is held by Caio Túlio Vieira Costa, executive vice-president of the Company's subsidiaries related to internet businesses.

c. Brasil Telecom Cabos Submarinos Ltda.

Brasil Telecom Cabos Submarinos Ltda. BrT CS, jointly with its subsidiaries, operates through a system of submarine fiber optics cables, with connection points in the United States, Bermudas Islands, Venezuela and Brazil, allowing data traffic through packages of integrated services, offered to local and international corporate clients.

BrT CS is holds 100% of the capital stock of Brasil Telecom Subsea Cable Systems (Bermuda) Ltd. (BrT SCS Bermuda), which, on its turn, holds the total shares of Brasil Telecom of America Inc. (BrT of America) and of Brasil Telecom de Venezuela, S.A. (BrT Venezuela).

d. BrT Comunicação Multimídia Ltda.

Brasil Telecom S.A. held until April 10, 2007, 100% of the MTH Ventures do Brasil Ltda. (MTH) capital, a holding company that controlled the capital of Brasil Telecom Comunicação Multimídia Ltda, with Brasil Telecom S.A. and BrTI holding the remaining equities. On the aforementioned date, the Extraordinary General Meeting deliberated the incorporation of MTH by Brasil Telecom S.A. Today, Brasil Telecom S.A. has equities corresponding to 89.8% of the BrT Multimídia capital stock, with the remaining 10.2% held by BrTI.

BrT Multimídia is a service provider of private telecommunications network through optical fiber digital networks, of local scope in São Paulo, Rio de Janeiro and Belo Horizonte, and long distance network connecting these major metropolitan commercial centers. It performs nationwide through commercial agreements with other telecommunication companies to offer services to other regions in Brazil. It also has Internet solution center in São Paulo, Brasília, Curitiba, Porto Alegre, Rio de Janeiro and Fortaleza, which offer co-location and hosting services, and other value added services.

e. Vant Telecomunicações S.A. ("VANT"):

Company whose capital stock is practically totally held by Brasil Telecom S.A. BrTI has only one share in VANT's capital stock, representing less than 0.01% interest.

VANT aims at the rendering of multimedia communication services, acquisition and onerous assignment of capabilities and other means, operating in the main Brazilian state capitals.

f. Brasil Telecom Call Center S.A. ("BrT Call Center")

Previously named Santa Bárbara dos Pinhais S.A, BrT Call Center, together with the change of its company name, decided in the shareholders meeting carried out on August 21, 2007, its social object has also been changed, and became call center service provisioning to third parties, including client services, active and receptive telemarketing, training, support, consulting services and similar activities, among others. Its operations started on November, 2007, upon rendering call center services to Brasil Telecom S.A. and its subsidiaries that need that service. Previously, the call center services were outsourced.

Change in the Management

During the third quarter of 2005, there were changes to the management of the Company and Brasil Telecom S.A.. The process of replacing the former managers, formerly related to the manager Opportunity, was litigious, according to various material facts published by the Companies during the 2005 and various lawsuits still in progress, filed by the former manager, aiming at retaking the Companies' management.

2. PRESENTATION OF THE ACCOUNTING STATEMENTS

Preparation Criteria

The accounting statements have been prepared in accordance with accounting practices adopted in Brazil, in compliance with the Brazilian corporate law, rules of the CVM - Comissão de Valores Imobiliários (Securities Commission) and rules applicable to telephony service concessionaires.

As the Company is registered with the SEC, it is subject to SEC's standards, and it must prepare accounting statements and other information by using criteria that comply with that agency's requirements. To comply with these requirements and aiming at meeting the market's information needs, the Company adopts, as a principle, the disclosure of information in both markets in their respective languages.

The notes to the accounting statements are presented in thousands of reais, unless otherwise demonstrated. According to each situation, they present information related to the Company and the consolidated statements, identified as COMPANY and CONSOLIDATED, respectively. When the information is common to both situations, it is identified as COMPANY AND CONSOLIDATED.

The amounts of judicial deposits bound to the provisions for contingencies are presented in a deductive way from the liabilities established.

The accounting estimates were based on objective and subjective factors, based on management's judgment to determine the appropriate amount to be recorded in the accounting statements. Significant items subject to these estimates and assumptions include the residual amount of the fixed assets, provisions for doubtful accounts, inventories and deferred income tax and social contribution, provision for contingencies, valuation of derivative instruments, and assets and liabilities related to benefits to employees. The settlement of transactions involving these estimates may result in different amounts due to the inaccuracy inherent to the process of determining these amounts. Management reviews its estimates and assumptions at least quarterly.

LAW 11.638/07 AMENDMENTS TO THE JOINT STOCK COMPANIES ACT

On December 28th, 2007 Law No. 11.638 was published, which changed the provisions of the Joint Stock Companies Act - Law No. 6.404/76. The aforementioned law sets forth several changes on accounting subjects and on the elaboration of financial statements, aiming at aligning them with the International Financial Reporting Standards - IFRS and attributes to the Securities Commission (Comissão de Valores Mobiliários - CVM) the power to issue rules for publicly traded companies. The main changes introduced by the Law are effective from 2008 and refer to:

- Substitution of the Statement of Sources and Investment of Resources - DOAR by the Statement of Cash Flow - DFC;
- Obligatoriness of preparation of Statement of Value Added - DVA;
- Possibility of inclusion of tax bookkeeping in the trading bookkeeping, with segregation between trading and tax statements;
- Creation of a subgroup Patrimonial Evaluation Adjustments, on the equity and the Intangible Assets, on fixed assets;
- Regulation of evaluation criteria and classification of financial instruments, including derivatives;
- Restatement at present value (AVP) for long term active and passive operations and for short term relevant ones;
- Obligatoriness of assessment of the recovery level of non-current assets;
- Alteration of parameters of evaluation of associated companies by the equity method; Possibility of creation of Tax Incentives Reserve;
- Obligatoriness of accounting new assets at market price, in cases of incorporation, merger or spin-off; and
- Elimination of the reassessment reserve.

The Company has already adopted the segregation of Intangible Assets from fixed assets and the publication of the DFC and DVA, the latter together with the annual accounting statements. Concerning the other items related, what is deemed to be relevant is bound to the market value of financial instruments, published in comparison to the accounting value in the note 4. b and c. Due to the need for certain alterations that still depend on regulation by the competent authority, the Company will wait for the definitions required for assessment, measurement and acknowledgement of effects resulting from such Law.

Consolidated Accounting Statements

The consolidation was made in accordance with CVM Instruction 247/96 and includes the companies listed in Note 1.

Some of the main consolidation procedures are:

Elimination of balances of the asset and liability accounts among the consolidated companies, as well as revenue and expenses of transactions among them.

Elimination of the balances of the investment accounts and corresponding investor's shareholdings, reserves and accumulated results in the consolidated companies; and.

Segregation of the portions of shareholders' equity and income belonging to minority shareholders, indicated in specific items.

The conciliation of the net income belonging to the Parent Company and the Consolidated is shown below:

	NET INCOME	
	03/31/08	03/31/07
COMPANY	255,364	169,288
Registrations carried out in the Subsidiary's Shareholders' Equity		
Capitalized Interest in the Subsidiary	-	582
CONSOLIDATED	255,364	169,870

Related Parties Transactions

During the quarters presented, no transactions with related parties occurred, besides those eliminated in the consolidation process.

Other Information

The Company is presenting as supplementary information the statement of cash flows, which was prepared in accordance with Accounting Rules and Procedures - NPC 20 of the Brazilian Institute of Independent Auditors - IBRACON. For a better presentation and maintenance of comparison to the first quarter of 2008, reclassifications regarding the first quarter of 2007 have been made, basically related to legal deposits, which started to be presented in investment activities. In order to comprise such balances, the legal deposits bound to contingencies were reclassified note No. 6, indirect duties - note No. 33 and accounts payable and provisioned expenses.

Report per Segment

The Company is presenting, supplementarily to note 42, the report per business segment. A segment is an identifiable component of the company, intended for service rendering (business segment), or provision of products and services which are subject to risks and compensations which are different among themselves.

3. SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

The criteria mentioned in this note refer to the practices adopted by the Company and its subsidiaries that are included in the consolidated accounting statements.

a. Cash, Bank Accounts and High-Liquidity Investments: Financial investments are temporary high-liquidity investments, with immediate maturity. They are recorded at cost, plus income registered until the closing dates of the quarters presented, and do not exceed market value. Investment funds quotas are appreciated considering the quota values on the quarter dates.

Trade Accounts Receivable: Receivables from users of telecommunications services are recorded at the amount of the fee or the service on the date the service is rendered. Accounts receivable from services include credits for services rendered and not billed until the quarters date. Receivables resulting from sales of cell phones and accessories are recorded by the amount of sales made, at the moment in which the goods are delivered and accepted by the client. The criterion adopted for making the provisions for doubtful accounts takes into account the calculation of the actual percentage of losses incurred on each range of accounts receivable. Future losses on the current receivables balance are estimated based on these historic percentages, which include accounts coming due and also the portion of services rendered yet to be billed, thus composing the amount that could become a future loss, which is recorded as a provision.

c. Material Inventories: Stated at average acquisition cost, not exceeding replacement cost. Inventories are segregated into inventories for plant expansion and maintenance and goods inventories for resale, mainly composed of cell phones, accessories and electronic cards - chips. The inventories to be used in expansion are classified in property, plant and equipment (construction in progress), and inventories to be used in maintenance are classified as current and long-term assets, in accordance with the period in which they will be used, and the resale inventories are classified as current assets. Obsolete inventories are recorded as provisions for losses. With regard to cell phones and accessories, the subsidiary BrT Celular records adjustments, in the cases in which the acquisitions presented higher values conforming them to the realization value.

d. Investments Investments in subsidiaries are assessed using the equity method of accounting. Goodwill is calculated based on the expectation of future results and its amortization is based on the expected realization/timing over an estimated period of not more than ten years. Other investments are recorded at acquisition cost, less provisions for losses, when applicable. The investments resulting from income tax incentives are recognized on the date of investment, and result in shares of companies with tax incentives or investment fund quotas. In the period between the investment date and receipt of shares or quotas of funds, they remain recognized in long-term assets. These investments are periodically valued and the result of the comparison between its original and market costs, when the latter is lower, results in the constitution of provisions for probable losses.

e. Property, plant and equipment Stated at cost of acquisition and/or construction, less accumulated depreciation. Financial charges resulting from obligations for financing assets and construction in progress are capitalized.

The expenditures incurred, when they represent improvements (increase in installed capacity or useful life) are capitalized. Maintenance and repair expenditures are charged to the profit and losses accounts, on an accrual basis.

Depreciation is calculated under the straight-line method. Depreciation rates used are based on expected useful lives of the assets and in accordance with the standards of the Public Telecommunications Service.

f. Intangible assets These mainly refer to licenses and rights to use software and regulatory licenses. The amortization of rights to use software is calculated by the straight-line method, for a five-year period and the regulatory licenses according to the terms determined by the regulatory agency. When benefits are not expected from a license or right connected to such asset, it is written off against the non-operating income.

g. Deferred Charges: Mainly refer to implementation and reorganization expenses. Amortization is calculated under the straight-line method, for a five-year term. When benefits are not expected from an asset, it is written off against non-operating income.

h. Income and Social Contribution Taxes: Corporate income and social contribution taxes are accounted for on an accrual basis. These taxes levied on temporary differences, tax losses and the social contribution negative basis are recorded under assets or liabilities, as applicable, according to the assumption of realization or future demand, within the parameters set forth in CVM Instruction No. 371/02.

i. Loans and Financing: These are restated by monetary and/or exchange variations and interest incurred until the quarter closing date. Equal restatement is applied to the guarantee contracts to hedge the debt.

j. Provisions for Contingencies: The contingency provisions are made based on a survey of the respective risks and they are quantified according to economic grounds and legal opinions on the contingency proceedings and facts known on the quarter closing date, according to the parameters of Deliberation CVM No. 489/05. The provisions basis and nature are described in note No. 6.

k. Revenue Recognition: Revenues from services rendered are recognized when provided. Local and long distance calls are charged based on time measurement according to the legislation in force. Revenues from sales of payphone cards (Public Use Telephony - TUP), cell phones and accessories are recorded when delivered and accepted by the clients. For prepaid services linked to mobile telephony, the revenue is recognized in accordance with the utilization of services. Revenue is not recognized if there is a significant uncertainty in its realization.

l. Recognition of Expenses: Expenses are recognized on an accrual basis, considering their relation with revenue realization. Expenses related to future periods are deferred.

m. Financial Income (Expenses), Net: Financial income is recognized on an accrual basis and comprises interest earned on overdue accounts settled after the term, gains on financial investments and hedges. Financial expenses comprise interest incurred and other charges on loans, financing and other financial transactions.

Interest on shareholders' equity, when credited, is included in the financial expenses balance, and for financial statement presentation purposes, the amounts are reversed to profit and loss accounts and reclassified as a deduction of retained earnings, in the shareholders' equity.

n. Benefits to Employees: Private pension plans and other retirement benefits sponsored by the Company and its subsidiaries for their employees are managed under three Foundations. Contributions are actuarially determined, whenever applicable, and recorded against the result according to the accrual basis. Additional information on private pension plans is described in note No. 5.

o. Profit Sharing: The provision for employees and management profit sharing is recognized on an accrual basis, being accounted as operating expense. The calculation of the amount, which is paid in the subsequent year after the provision is recognized, is based on the target program established with the labor union, by means of collective labor agreement, in accordance with Law 10.101/00 and the Company's Bylaws.

p. Profit per share: Earnings per share are calculated with basis on the quantity of outstanding shares existing on the quarter closing date. The outstanding shares are represented by the totality of shares issued, minus the treasury stocks.

4. MARKET VALUE OF FINANCIAL ASSETS AND LIABILITIES (FINANCIAL INSTRUMENTS) AND RISK ANALISYS

The Company and its subsidiaries assessed the book value of its assets and liabilities as compared to market or realizable values (fair value), based on information available and evaluation methodologies applicable to each case. The interpretation of market data regarding the choice of methodologies requires considerable judgment and determination of estimates to achieve an amount considered adequate for each case. Accordingly, the estimates presented may not necessarily indicate the amounts, which can be obtained in the current market. The use of different assumptions for calculation of market value or fair value may have material effect on the obtained amounts. The selection of assets and liabilities presented in this note took place based on their materiality. Instruments whose values approximate their fair values, for example, cash, bank accounts and high-liquid investments, accounts receivable, assets and liabilities of taxes, pension funds, among others, and whose risk assessment is not significant, are not mentioned.

In accordance with their natures, the financial instruments may involve known or unknown risks, and the potential of such risks is important for the best judgment. Thus, there may be risks with or without guarantees, depending on circumstantial or legal aspects. Among the principal market risk factors which can affect the Company's and the subsidiaries' business are the following:

a. Credit Risk

The majority of services provided by the subsidiary Brasil Telecom S.A. are related to the Concession Agreement, and a significant portion of these services is subject to the determination of fees by the regulatory agency. The credit policy, in its turn, in case of telecommunications public services, is subject to legal standards established by the concession authority. The risk exists since Brasil Telecom S.A. and its subsidiaries may be subject to losses arising from the difficulty in receiving amounts billed to its clients. The consolidated default in the quarter was 2.97% (2.46% in 2007), taking into account the accounts receivable total losses in relation to gross revenue. By means of internal controls, the level of accounts receivable is constantly monitored, thus limiting the risk of past due accounts by cutting the access to the service (out phone traffic) if the bill is overdue for over 30 days. Exceptions are made for telephone services, which should be maintained for national security or defense.

The subsidiary Brasil Telecom S.A. operates in co-billing, concerning long distance calls with the use of its CSP (Operator Selection Code) originated by subscribers of other fixed and mobile telephony operators. The co-billing accounts receivable are managed by these operators, based on the operational agreements entered into with them and according to the rules set forth by ANATEL. The blocking rules set forth by the regulating agency are the same for the fixed and mobile telephony companies, which are co-billing suppliers. The Subsidiary separately controls receivables of this nature and maintains an allowance for losses that may occur, due to the risks of not receiving such amounts.

Regarding mobile telephony, the credit risk in cell phones sales and service rendering in the post-paid category is minimized with the adopt on of a credit pre-analysis. Still regarding to post-paid service, whose client base at the end of the quarter was 18.1% of the total portfolio (20.1% in 2007), the accounts receivable are also monitored in order to limit the default rate and blocking the service (of phone traffic) when the bill is overdue for more than 15 days.

b. Exchange Rate Risk

Liabilities

The subsidiary Brasil Telecom S.A. has loans and financing contracted in foreign currency. The risk related to these liabilities arises from possible exchange rate fluctuations, which may increase these liabilities balances. The loans subject to this risk represent approximately 15.0% (16.0% on 12.31.07) of the total liabilities of consolidated loans and financing, minus the contracted hedge balances. In order to minimize this kind of risk, the Company has been entering into exchange hedge agreements with financial institutions. Of the debt installment consolidated in foreign currency, 61.1% (92.6% on 12.31.07) is covered by hedge operations in the exchange rate swap and dollar options mode and financial investments in foreign currency. The positive or adverse effects not paid up in hedge operations, under exchange rate swap modality and dollar options, are recorded in the result as earnings or losses, according to the situation of each instrument.

Net exposure as per book and market values at the exchange rate risk prevailing is as follows:

	CONSOLIDATED			
	03/31/08		12/31/07	
	Book Value	Market Value	Book Value	Market Value
Liabilities				
Loans and Financing	603,591	630,515	636,912	655,533
Hedge Contracts	326,205	326,497	398,112	397,832
Total	929,796	957,012	1,035,024	1,053,365
Current	201,744	201,894	213,050	213,528
Long-term	728,052	755,118	821,974	839,837

The method used for calculating the market value (fair value) of swap instruments was future cash flows associated to each instrument contracted, discounted at market rates in force on the closing date of the quarter. For securities negotiable in organized markets, the market (fair) value is equivalent to the value of the last closing quotation available on the closing date of the quarter multiplied by the number of securities in circulation. For contracts in which the current contracting conditions are similar to those in which they have been originated, or that do not present parameters for quotation or contracting, market values are equal to accounting values.

In the case of American dollar options; the fair value adopted for accounting recognition has been calculated based on the Black&Scholes model adapted by Garman Kohlhagen for considering specific features of exchange options. Such operations, which have been contracted with maturity up to February, 2009, registered, on the quarter closing date, net loss of R\$ 5,383 (R\$ 2,465 on 12.31.07) represented by R\$ 2,973 for call options and R\$ 2,410 for put options (R\$ 761 and R\$ 1,704 on 12.31.07, respectively).

c. Interest Rate RiskAssets

The consolidated assets results from loans granted to the phone directory company, with interest indexed to the IGP-DI (a national index price), as well as loans resulting from the sale of property, plant and equipment to other telephony companies, remunerated by IPA-OG/Industrial Products of Column 27 (FGV). The Company also has Bank Deposit Certificates (CDBs) with Banco de Brasília S.A. related to the guarantee to credit benefit granted by the Federal District Government under a program called *Programa de Promoção do Desenvolvimento Econômico e Sustentável do Distrito Federal* PRO-DF, (Program to Promote the Economic and Sustained Development of the Federal District), and the remuneration of these securities is equivalent from 94% to 97% of the SELIC rate.

These assets are represented in the balance sheet as follows:

	CONSOLIDATED	
	Book and Market Value	
	03/31/08	12/31/07
Assets		
Loans subject to:		
IGP-DI	7,459	7,778
IPA-OG Column 27 (FGV)	175	195
Securities subject to:		
SELIC rate	3,969	3,709
Total	11,603	11,682
Current	1,655	1,797
Long-term	9,948	9,885

The book values are equal to market values, as the current contracting conditions for these types of financial instruments are similar to the ones in which those come from or do not present parameters for quotation or contracting.

Liabilities

The subsidiary Brasil Telecom S.A. has loans and financing contracted in local currency subject to interest rates bound to indexing units: TJLP, UMBNDES, CDI and IGP-DI. The inherent risk in these liabilities arises from possible variations in these rates. The market rates are continually monitored to evaluate the need to contract instruments to protect against the variation of these rates.

In addition to loans and financing, the Controlled Company issued public debentures, non-convertible or exchangeable with shares. This liability has been contracted at interest rate bound to CDI and the risk arises in function of eventual rate increase.

These liabilities are represented in the balance sheet as follows:

CONSOLIDATED				
	03/31/08		12/31/07	
	Book Value	Market Value	Book Value	Market Value
Liabilities				
Loans subject to TJLP	2,159,809	2,205,863	2,112,204	2,123,308
Debentures - CDI	1,118,158	1,117,711	1,088,956	1,088,956
Loans subject to UMBNDES	87,029	87,029	94,713	94,713
Hedge agreements on UMBNDES	-	-	-	-
Loans subject to IGP-DI	26,138	26,138	26,599	26,599
Other Loans (Fixed Rate)	23,333	23,333	25,907	25,907
Total	3,414,467	3,460,074	3,348,379	3,359,483
Current	312,419	318,260	283,725	287,264
Long-term	3,102,048	3,141,814	3,064,654	3,072,219

The method used for calculating the market value (fair value) of swap instruments was future cash flows associated to each instrument contracted, discounted at market rates in force on the closing date of the quarter. For securities negotiable in organized markets, the market (fair) value is equivalent to the value of the last closing quotation available on the closing date of the quarter multiplied by the number of securities in circulation. For contracts in which the current contracting conditions are similar to those in which they have been originated, or that do not present parameters for quotation or contracting, market values are equal to accounting values.

d. Risk of Not Binding Monetary Restatement Indexes of Loans and Financing to Accounts Receivable

Loan and financing rates contracted by the subsidiary Brasil Telecom S.A. are not bound to amounts of accounts receivable. Thus, a risk exists, since telephony fees adjustments do not necessarily follow increases in local interest rates, which affect the Subsidiary's debts.

e. Contingency Risks

Contingency risks are assessed according to loss hypotheses, as probable, possible or remote. Contingencies considered probable risks are recorded as liabilities. Details of these risks are presented in Note 6.

f. Risks Related to Investments

The Company has investments, which are assessed through the equity method of accounting and the acquisition cost. Brasil Telecom S.A., Nova Tarrafa Participações Ltd. And Nova Tarrafa Inc. are subsidiaries, whose investments are assessed by the equity accounting.

Investments assessed at cost are immaterial in relation to total assets. Their associated risks would not cause significant impacts on the results of the Company in case of substantial loss.

The amounts related to the investments are as follows:

	03/31/08		12/31/07	
	Book Value	Market Value	Book Value	Market Value
Investments	3,826,200	12,248,950	3,779,118	9,925,609
Interests in Subsidiaries	3,820,501	12,243,251	3,771,114	9,917,605
Stock Exchange Quotation	3,803,520	12,226,270	3,751,699	9,898,190
Without Stock Exchange Quotation	16,981	16,981	19,415	19,415
Other Investments	5,699	5,699	8,004	8,004

The Stock Exchange quotation investment refers to the interest in Brasil Telecom S.A. and its market value was evaluated based on the market quotation used in the negotiation between minority shareholders.

g. Financial Investment Risks

The company has temporary high-liquidity investments, in domestic currency, in financial investment funds (FIFs), and investments in its own portfolio of (based on post-fixed rates) private securities issued by first-tier financial institutions (CDBs). The FIFs portfolios are comprised of federal bonds (based on post-fixed, pre-fixed and foreign exchange rates) and CDBs issued by first-tier financial institutions (based on post-fixed rates). Funds may carry out non-leveraged derivative operations, aiming at protecting their portfolios and complying with the purposes established in their respective investment policies. The exposure to market risks is monitored everyday by the VaR (Value at Risk) methodology, which expresses the loss risk quantification in these investments.

The temporary high-liquidity investments, in foreign currency, are represented by overnight operations backed by securities issued by foreign financial institutions, with low credit risk.

Short-term investments, classified as temporary investments, are represented by investments in securities issued by Austrian Republic, with remuneration subject to CDI and by the Official Credit Institute (ICO), public Spanish entity, with pre-fixed remuneration.

BrT Celular holds short-term investments in federal bonds, aiming at ensuring its participation at bidding procedures at ANATEL. Such investments are represented by National Treasury Bills LTN, compensated according to a fixed interest rate. Aiming at getting protection against fluctuation on the market rates concerning such bonds, the Company has contracted hedge operations under the exchange rate swap modality, binding the remuneration of bonds to the CDI variation.

The investments carried out in CDBs and overnight operations are subject to the credit risk of financial institutions, and the foreign currency investments are subject to the exchange rate risk.

The balances of financial investments and short-term investments temporary investments and public securities - are shown in Notes 16, 17 and 18, respectively.

h. Risk of Early Maturity of Loans and Financing

Liabilities resulting from financing, mentioned in note 36, concerning agreements of BNDES, public debentures and most of them referring to financial institutions, have clauses that estimate the early maturity of liabilities or retention of amounts pegged to debt covenants, in the cases in which certain levels for certain indicators are not reached, such as ratios of indebtedness and leverage (financial covenants).

For the financing agreements maintained with BNDES, the subsidiary Brasil Telecom S.A. must comply with a set of financial ratios and in the event of non-compliance with some of these ratios, the Bank is allowed to request the temporary block of transitory values in collection accounts bound to the agreements.

All indicators set forth in agreements are being complied with, thus there are no sanctions or penalties set forth in the agreement clauses entered into upon the Company.

i. Regulatory Risks

Concession Agreements

New local and domestic long distance concession agreements were entered into by Brasil Telecom S.A. with Anatel, which took effect between January 1, 2006 and December 31, 2025. These new concession agreements, which provide for reviews on a five-year basis, in general have a higher intervention level in the management of the businesses and several provisions defending the consumer's interest, as noticed by the regulation body. The main highlights are:

The burden of the concession defined as 2% of the net revenue from taxes, calculated every two years, started in 2006 fiscal year, whose initial payment occurred on April 30, 2007. This will successively occur until the end of the concession. This calculation method, concerning accrual, corresponds to 1% for each fiscal year;

The definition of new universalization targets, particularly AICE - Special Class Individual Access, of mandatory and progressive offer and the Telecommunications Service Centers - PST, with full burden for the Concessionaire;

The possibility of the Regulating Agency imposing alternative plans of mandatory offer;

The introduction of Regulating Agency's right to intervene and modify agreements of the concessionaire with third parties;

The inclusion of assets of the parent company, subsidiary, affiliated companies and third parties, indispensable to the concession, as reversible assets;

The creation of the users' board in each concession.

Interconnection tariffs are defined as a percentage public local and domestic long distance tariff until the effective implementation of cost model by service/modality, estimated for 2009, according to the models defined in the Regulation for Separation and Accounting Allocation (Resolution 396/05).

The amendment to the tariff method applicable to the STFC Basic Plan in the Local Modality Rendered under Public Scheme (PBS) - Conversion from Pulses to Minutes, and the implementation of the Alternative Service Plan of the Mandatory Offer (PASOO) shall be concluded in all areas of operations of the Company up to July 31, 2007, in compliance with the regulatory requirements defined by ANATEL set forth in Rules No. 423/05, 432/06 and 450/06. This change enables the clients selecting one of two service plans of mandatory offer (PBS and PASOO), as well as exercising the right of requesting details on their local calls in the telephone bills.

Authorizations for Third Generation Personal Mobile Services 3G

14 Brasil Telecom was classified in the bidding procedure organized by ANATEL in December 2007, relatively to the authorizations for exploitation of Personal Mobile Service SMP, concomitantly to the grant of authorization for use of radio frequency, which allows acquiring authorizations and operating in sub-bands that will allow offering products related to the third generation mobile services network 3G in its services area. The amount of these authorizations, valid for a period of fifteen years, likely to be extended for the same period, under onerous title, is R\$ 488,235. The execution of the Authorization Terms is expected to happen by the end of May, 2008 in compliance with the definition of date to be established by ANATEL. The new SMP authorizations and those already existing will be unified within the maximum period of eighteen months as of the publication in the Federal Official Gazette, of the extract of the Authorization Terms for Use of Radio Frequencies, and keeping the differentiation of the radio frequencies blocks according to the respective original contracts and their validity terms.

The deployment of the new 3G network will allow providing SMP clients with, besides the mobile voice services, data communication services at speeds higher than those made available by the current network 2.5G. In addition, the 3G network will operate complementarily to the 2.5G network, allowing the extension and update of the coverage network of BrT Celular and assisting the clients base growth.

5. BENEFITS TO EMPLOYEES

The benefits described herein are offered to employees of the Company and its direct or indirect subsidiaries, except for BrT Call Center, in connection with supplementary social security. These companies are better described jointly, and can be referred to as Brasil Telecom Companies and for the purpose of the supplementary pension plan mentioned in this note, are also denominated Sponsor or Sponsors .

a. Supplementary Pension Plan

The Company sponsors supplementary pension plans related to retirement for its employees and assisted members, and, in the case of the latter, medical assistance in some cases. These plans are managed by the following foundations: (i) Fundação 14 de Previdência Privada (Fundação 14); (ii) Fundação BrTPREV (FBrTPREV) former CRT, a company merged by Brasil Telecom S.A. on 12/28/00; and (iii) Fundação SISTEL de Seguridade Social (SISTEL), originated from certain companies of the former Telebrás System.

The Bylaws stipulate approval of the supplementary pension plan policy, and the joint liability attributed to the defined benefit plans is bound to the acts signed with the foundations, with the agreement of the Secretaria de Previdência Complementar - SPC, where applicable to the specific plans.

The plans sponsored are valued by independent actuaries on the fiscal year closing date. For benefit plans defined and identified in this noite, the prompt recognition of actuarial earnings and losses is adopted, therefore constituting the total liabilities for the plans that are in a deficit situation, according to the rules of the Resolution CVM no. 371/00. For those plans that present a positive actuarial status, assets are constituted in the cases of express authorization for compensation with future employer dues.

The characteristics of supplementary pension plans sponsored are reported below:

FUNDAÇÃO 14

Private Pension Fundação 14 was created in 2004 and since 3.10.05 has been in charge of the management and operation of the TCSPREV pension plan. On such a date, it entered into an administration agreement with SISTEL, so that the latter would provide management and operating services to the TCSPREV and PAMEC-BrT plans up to 9.30.06. From this date on, Fundação 14 took over the management and operation services of its plans. As of the reference date of October 31, 2007, Fundação 14 gave up administrating the assistance plan PAMEC-BrT, once it is a private pension plans administration-oriented entity. In November, 2007, the assets and liabilities of PAMEC-BrT were transferred to the Company that, besides holding the attribution of sponsor, started in the position of administrator of that plan.

Plans

TCSPREV (Defined Contribution, Settled Benefit and Defined Benefit)

This defined contribution and settled benefit plan was introduced on 2/28/00. On 12/31/01, all pension plans sponsored by the Company with SISTEL were merged, being exceptionally and provisionally approved by the Secretaria de Previdência Complementar - SPC of document sent to that Agency, due to the need for adjustments to the regulations. Thus, TCSPREV is comprised of defined contribution groups with settled and defined benefits. The plans that were merged into the TCSPREV were the PBS-TCS, PBT-BrT, BrT Management Agreement, and the Unusual Contractual Relation Instrument, and the conditions established in the original plans were maintained. In March 2003, this plan was no longer offered to the sponsors - new contracted ones. However, concerning the defined contribution group, this plan started being offered as of March 2005. TCSPREV currently provides assistance to nearly 65.6% of the staff.

Contributions to this plan, by group of participants, are established based on actuarial studies prepared by independent actuaries according to regulations in force in Brazil, using the capitalization system to determine the costs. Currently, contributions are made by the participants and the sponsor only for the internal groups PBS-TCS (defined benefit) and TCSPREV (defined contribution). In the TCSPREV group, the contributions are credited in individual accounts of each participant, equally by employee and sponsor, and the basic contribution percentages vary between 3% and 8% of the participant's salary, according to participant's age and limited to R\$ 21,104.40 for 2008. Participants have the option to make additional contributions to the plan but without parity of the Company. In the case of the PBS-TCS group, the sponsor's contribution corresponds to 12% of the payroll of the participants; while the employees contribution varies according to the age, service time and salary. An entry fee may also be payable depending on the age of joining the plan. The sponsors are responsible for the cost of all administrative expenses and risk benefits.

Assets Constituted for Compensation of Future Employer Dues

In view of the approvals from the decision-making body of Fundação 14, which established the deliberation of surpluses, directing them to the formation of reserves for contingencies, special reserve in favor of participants, both assisted and participant, and sponsor's contributions balance, assets amounting to R\$ 81,209 were constituted in order to be used in the compensation of employer dues. In that sense, Fundação 14 also promoted alterations in the Regulation of TCSPREV pension plan, whose protocol at SPC was recorded on October 24, 2007.

The balance of such assets, recorded in other assets, is presented below:

CONSOLIDATED

	03/31/08	12/31/07
Future Contributions to be Compensated TCSPREV Pension Plan	71,476	74,476
Total	71,476	74,476
Current	15,208	18,743
Long-term	56,268	55,733

FUNDAÇÃO SISTEL DE SEGURIDADE SOCIAL

The supplementary pension plan PBS-A, which remains under SISTEL's management, comes from the period before the Telebrás Spin-off and assists participants who had the status of beneficiaries in January 2000. SISTEL also manages the PAMA/PAMA-PCE pension plan, formed by participants assisted by the PBS-A Plan, the PBS's plans segregated by sponsor in January 2000 and PBS-TCS Internal Group, merged into the TCSPREV plan in December 2001.

Plans

PBS-A (Defined Benefit)

Maintained jointly with other sponsors subject to the provision of telecommunications services and destined for participants that had the status of beneficiaries on 1.31.00.

Contributions may occur in case of accumulated deficit. On 12.31.07, the actuarial appraisal date, the plan presented a surplus.

PAMA - Health Care Plan for Retirees / PCE Special Coverage Plan (Defined Contribution)

Maintained jointly with other sponsors subject to the provision of telecommunications services and destined for participants that had the status of beneficiaries on 01.31.00, for the beneficiaries of the PBS-TCS Group, merged on 12/31/01 into TCSPREV (plan currently managed by Fundação 14) and for the participants of PBS's defined benefit plans sponsored by other companies, together with SISTEL and other foundations. According to a legal and actuarial appraisal, the Sponsor's responsibility is exclusively limited to future contributions. From March to July 2004 and from December 2005 to April 2006, an incentive optional migration of retirees and pensioners of PAMA took place for new coverage conditions (PCE). The participants who opted for the migration began to contribute to PAMA/PCE.

The contributions for this plan corresponding to 1.5% on payroll of active participants subject to PBS plans, segregated and sponsored by several sponsors company. In the case of Brasil Telecom, the PBS-TCS was merged into the TCSPREV plan on 12.31.01, and began to constitute an internal group of the plan. Due to the utilization of PAMA, the participants share a portion of its individual costs used in the plan. Contributions by retirees and pensioners who migrated to PAMA/PCE are also carried out.

FUNDAÇÃO BrTPREV

It is the manager originated from the plans sponsored by former CRT, company incorporated by Brasil Telecom S.A. at the end of 2000. The main purpose of the Company sponsoring FBrTPREV is to maintain the supplementary retirement, pension and other provisions in addition to those provided by the official social security system to participants.

Plans

BrTPREV

Defined contribution plan and settled benefits, launched in October 2002, destined for the concession of pension plan benefits supplementary to those of the official pension plan and that initially assisted only employees subject to the Subsidiary Rio Grande do Sul. This pension plan remained open to new employees of the Company and its subsidiaries from March 2003 to February 2005, when its offering was suspended. Currently, BrTPREV provides assistance to nearly 22.8% of the staff.

Contributions to this plan are established based on actuarial studies prepared by independent actuaries according to the regulations in force in Brazil, using the capitalization system to determine costs. Contributions are credited in individual accounts of each participant, the employee's and Company's contributions being equal, the basic percentage contribution varying between 3% and 8% of the participation salary, according to the participant's age and limited to R\$21,831.00 for 2008. Participants have the option to make additional contributions to the plan but without parity of the sponsor. The sponsor is responsible for the administrative expenses and risk benefits.

Fundador - Brasil Telecom e Alternativo - Brasil Telecom

Defined benefits plans destined to provide supplementary social security benefits in addition to those of the official social security, closed to the entry of new participants. Currently, these plans assist approximately 0.16% of the staff.

The regular contribution by the sponsor is equal to the regular contribution of the participant, rates of which are variable rates according to age, service time and salary. With the Alternativo Plan - Brasil Telecom, the contributions are limited to three times the ceiling benefit of INSS and the participant also pays an entry fee depending on the age of joining the plan.

Actuarial Insufficiency of the Plans

The mathematical reserve to amortize, corresponding to the current value of the Company's supplementary contribution, as a result of the actuarial deficit of the plans managed by FBrTPREV, have the settlement within the maximum established period of twenty years, as from January 2002, according to Circular 66/SPC/GAB/COA from the Supplementary Pension Department dated 1/25/02. From this maximum term, remains thirteen years and nine months for total liquidation, and in the current period to the quarter closing, an amount of R\$ 101,350 (R\$ 28,760 in 2007) has been already amortized.

ASSISTENCE PLAN ADMINISTERED BY BRASIL TELECOM S.A.PAMEC-BrT Health Care Plan for Supplementary Pension Beneficiaries (Defined Benefit)

Directed to the health care of retired employees and social security recipients linked to PBT-BrT Group, pension plan administered by Fundação 14.

The contributions for PAMEC-BrT were fully paid in July 1998, through a single payment. However, as that plan is now administered by Brasil Telecom S.A. the transfer of administration by Fundação 14 in November 2007, there are no assets and liabilities constituted to cover the current expenses, and the actuarial obligation is fully recognized in the consolidated liabilities, in the amount of R\$ 2,183 (R\$ 2,077 on 12.31.07) .

b. Stock Call Option Plan for Management and Employees

The Extraordinary General Meeting of Brasil Telecom S.A. that took place on November 6, 2007, approved a new general plan for grant of stock call options for officers and employees of the Company and its subsidiaries; therefore, the plans described below being valid on the quarter closing date, in accordance to the respective approval dates.

Plan Approved on April, 28th 2000

The rights acquired via stock call options grant instruments during the validity of this plan previously approved, remain valid and effective according to the respective terms agreed, and no new grants through this plan are allowed.

On the quarter closing date, there were options for circulation as described in the program below:

Program B

The exercise price is established by the management committee based on the market price of the shares on the date of the grant of option and will be monetarily restated by the IGP-M between the date of signing the contracts and the payment date of the option selected.

In the first quarter of 2008, 105,577 options were exercised through this program, which were liquidated by means of transfer of shares kept in treasury by Brasil Telecom S.A.

The movements occurred in the balance of options related with this plan are summarized below:

	03/31/08	
	Preferred Share Options	Average Exercise Price R\$
Initial balance in the quarter	256,855	16.88
Options Exercised	(105,577)	16.53
Extinguished Options	(11,458)	17.30
Final balance in the quarter	139,820	17.71

The right to exercise the option is given in the way and terms presented as follows:

Grant				Updated Price for the Fiscal Year (in Reais)	Options (In shares)	
Concession	Lot	Fiscal year as of	Deadline for the Fiscal Year			
3 rd	12/22/04	33%	12/22/05	12/31/11	17.71	46,607
		33%	12/22/06	12/31/11	17.71	46,607
		34%	12/22/07	12/31/11	17.71	46,607

The representativity of the options balance in view of the total outstanding shares of the subsidiary Brasil Telecom S.A. is 0.03% (0.05% on 12.31.07) .

Considering the hypothesis that the options will be fully exercised, the premium of the respective options, calculated based on the Black&Scholes method, for the Subsidiary would be R\$ 1,047 (R\$ 1,761 in 12.31.07) .

Plan Approved on November, 6th 2007

The new plan authorizes granting options, providing the participants, under certain conditions, with the opportunity to acquire or subscribe, in the future, shares that integrate a basket of shares defined as Performance Unity UP, at a pre-established price. The amount corresponding to the number of UPs granted shall not exceed the maximum amount of 10% of the book value of shares of each type of share of the Controlled Company.

Shares derived from exercising options guarantee the beneficiaries the same rights granted to other Subsidiary shareholders.

According to the Plan, the Company is forced to repurchase the shares acquired by the employees and officers through the exercise of the option, at the weighed closing average market price in the last thirty floors.

The administration of that plan has been attributed to the board of executive officers, which holds wide powers for establishing options programs, and may be delegated to a remuneration committee formed by up to three members of the board.

At Meeting of December 14, 2007 the Administration Council of Brasil Telecom S.A. ratified the approval of both programs related with the new call option plan, which is effective as of July 1, 2007 and consists in the following:

Program 1

The grant has been established under the form of one-time concession, and does not allow new concessions for the period comprised by four years. The exercising price of the UP has been set up by the board of executive officers under the terms defined in the plan, and it is subject to indexation by IGP-M, added by 6% p.a., to be discounted from the amounts paid in the form of dividends and or JSCP in the period.

Program 2

This program establishes annual grant of options, on July 1 of each year, with its first grant having occurred on July 1, 2007. The UP exercise price was fixed by the administration council, under the terms defined in the plan and will be discounted from the amounts paid as dividends and or JSCP (interest on the shareholders' equity) in the period.

The right to exercise the option included in the programs 1 and 2 is given in the way and terms presented as follows:

Program	Grant				Updated Price for the Fiscal Year (in Reais)	Options (In UP's)
	Concession	Lot	Fiscal year as of	Deadline for the Fiscal Year		
1	07/01/07	25%	07/01/08	06/30/11	29.20	704,329
		25%	07/01/09	06/30/12	29.20	704,329
		25%	07/01/10	06/30/13	29.20	704,329
		25%	07/01/11	06/30/14	29.20	704,337
2	07/01/07	25%	07/01/08	06/30/11	26.70	219,121
		25%	07/01/09	06/30/12	26.70	219,121
		25%	07/01/10	06/30/13	26.70	219,121
		25%	07/01/11	06/30/14	26.70	219,132

The terms established in programs 1 and 2 may be anticipated due to the occurrence of any special events or conditions established in the grant agreement, particularly due to the alteration in the direct or indirect control of the Brasil Telecom S.A. and of Company.

The movements occurred in the balance of options related with this plan are summarized below:

	03/31/08	
	Preferred Share Options	Average Exercise Price R\$
Initial balance in the quarter	4,036,440	28.37
Extinguished Options	(342,621)	28.37
Final balance in the quarter	3,693,819	29.47

The representativity of the options balance (UPs) in view of the shareholder's equity of Brasil Telecom S.A. on 03.31.08 is 2.20% (2.23% on 12.31.07).

Considering the hypothesis that the options included in programs 1 and 2 will be fully exercised, the amount of the premiums of the respective options, calculated according to the Binomial options pricing mode, for the Subsidiary would be R\$ 49,488 (R\$ 53,462 on 12.31.07).

c. Other Benefits to Employees

Other benefits are granted to employees, such as: health/dental care, meal allowance, group life insurance, occupational accident allowance, sickness allowance, transportation allowance, and others.

6. PROVISIONS FOR CONTINGENCIES

a. Contingencies Liabilities

The Company and its subsidiaries periodically assess their contingency risks, and also review their lawsuits taking into consideration the legal, economic, tax and accounting aspects. The assessment of these risks aims to classifying them according to the chances of unfavorable outcome among the alternatives of probable, possible or remote, taking into account, as applicable, the opinion of the legal advisors.

For those contingencies, which the risks are classified as probable, provisions are recognized. Contingencies classified as possible or remote are discussed in this note. These proceedings are under discussion in the administrative or judicial spheres, in all the jurisdictions, from the initial to the extraordinary ones.

In a number of situations, due to legal requirement or as a caution measure, judicial deposits are made to assure the continuity of the proceedings in discussion. Judicial deposits related to risk contingencies of possible and remote loss are shown in Note 24.

We emphasize that, in some cases, similar subjects may be ranked in different risk degree rates, and this is justified by the facts and the peculiar status related to each proceeding.

Labor Claims

The provisions for labor claims include an estimate by the Company's management, supported by the opinion of its legal advisors, of the probable losses related to lawsuits filed by employees, former employees of the Company, and of service providers related to the labor matter.

Tax Suits

Provisions for contingencies of tax nature, specially refers to those questions related to the collection of taxes arisen from divergences between the best knowledge of the administration, supported by the opinion of the Company's legal advisors, and the Tax Authorities, as for the interpretation, application, legality and constitutionality of the tax legislation.

Civil Suits

The provisions for civil contingencies refers to an estimate of lawsuits related to contractual adjustments arising from Federal Government economic plans, and other cases related to community telephony plans and suit for damages and consumer lawsuits.

Classification by Risk LevelContingencies for Probable Risk

Contingencies for probable risk of loss, for which provisions are recorded under liabilities, have the following balances:

Nature	COMPANY		CONSOLIDATED	
	03/31/08	12/31/07	03/31/08	12/31/07
Provisions	5,262	5,026	1,297,158	1,193,554
Labor	-	-	420,044	421,759
Tax	5,210	4,974	408,103	372,896
Civil	52	52	469,011	398,899
Bound Escrow Deposits	-	-	(389,220)	(295,843)
Labor	-	-	(221,163)	(220,679)
Tax	-	-	(22,139)	(22,046)
Civil	-	-	(145,918)	(53,118)
Total Provisions, Net of Escrow Deposits	5,262	5,026	907,938	897,711
Current	15	15	201,323	197,472
Long-term	5,247	5,011	706,615	700,239

Labor

Variations occurred in 2008:

CONSOLIDATED	
Provisions on 12.31.07	421,759
Variations to the Result	15,643
Monetary Restatement	12,153
Revaluation of Contingent Risks	1,654
Provision of New Shares	1,836
Payments	(17,358)
Subtotal I (Provisions)	420,044
Escrow Deposits Bound on 12.31.07	(220,679)
Variations of Escrow Deposits	(484)
Subtotal II (Escrow Deposits)	(221,163)
Balance on 03.31.08 Net of Escrow Deposits	198,881

The main objects affecting the provisioned labor contingencies are:

- (i) Risk Premium - related to the claim of additional payment for hazardous activities, based on Law 7,369/85, regulated by Decree 93,412/86, due to the supposed risk of contact by the employee with the electric power system;
- (ii) Salary Differences and Consequences - related, mainly, to requests for salary increases due to supposedly unfulfilled union negotiations. The effects are related to the repercussion of the salary increase supposedly due on the other sums calculated based on the employees' salaries.

(iii) Career Plan - related to the request for application of the career and salaries plan for employees of Brasil Telecom S.A., the Santa Catarina Branch (formerly Telesc), with promotions for seniority and merit, supposedly not granted by the former Telesc;

Joint/Subsidiary Responsibility - related to the request to ascribe responsibility to the subsidiary Brasil Telecom S.A., made by outsourced personnel, due to supposed nonobservance of their labor rights by their direct employers;

(iv)

Overtime - refers to the pleading for salary and additional payment due to labor supposedly performed beyond the contracted work time;

(v)

- (vi) Reintegration - pleading due to supposed inobservance of employee's special condition, guaranteeing the impossibility of terminating labor contract without cause;
- (vii) Request for the application of regulation, which established the payment of the percentage incurring on the income of Brasil Telecom S.A., attributed to the Santa Catarina Branch; and
- (viii) Supplement of FGTS fine arising from understated inflation - it refers to requests to supplement indemnification of FGTS fine, due to the recomposition of accounts of this fund by understated inflation.

Brasil Telecom S.A. filed a lawsuit against Caixa Econômica Federal, with a view to ensuring the reimbursement of all amounts paid for this purpose.

Tax

Variations occurred in 2008:

COMPANY CONSOLIDATED

Provisions on 12.31.07	4,974	372,896
Variations to the Result	236	39,227

Variations of Escrow Deposits	-	(93)
Subtotal II (Escrow Deposits)	-	(22,139)
Balance on 03.31.08 Net of Escrow Deposits	5,210	385,964

The main suits provisioned refer to the following controversies:

- (i) Federal Taxes - several additional fiscal assessments that require the payment of taxes and federal contributions on facts qualified in a supposedly inadequate way or on differences when determining and estimating these taxes; and
- (ii) State Taxes - claim for payment of the ICMS tax on operations that, according to the comprehension of the Company, are not subject to taxation based on this tax, and discussions on ICMS credits taken by the Company, which validity or legal status is contested by the State Tax Authorities.

Civil

Variations occurred in 2008:

COMPANY CONSOLIDATED

Provisions on 12.31.07	52	398,899
Variations to the Result	-	104,394
Monetary Restatement	-	12,545

Subtotal II (Escrow Deposits)	-	(145,918)
Balance on 03.31.08 Net of Escrow Deposits	52	323,093

The suits provisioned are:

- (i) Review of contractual conditions - lawsuit where a company which supplies equipment filed legal action against the subsidiary Brasil Telecom S.A., asking for a review of contractual conditions due to economic stabilization plans;
- (ii) Capital Participation Agreements - TJ/RS (court of appeals) has been firmly positioned as to the incorrect procedure previously adopted by the former CRT, a company merged into Brasil Telecom S.A., in lawsuits related to the application of a rule enacted by the Ministry of the Communications. Such lawsuits are positioned in various phases: lower courts, Court of Appeals and Superior Court of Justice;
- (iii) Client service centers - public civil actions, comprising the closing of client services centers;
- (iv) Free Mandatory Telephone Directories LTOG s - lawsuits questioning the non-delivery of printed residential telephone directories; and
- (v) Other lawsuits - related to various lawsuits in progress, comprising civil liability suits, indemnifications for contractual termination and consumer matters under procedural progress in the Special Courts, Courts of Law and Federal Courts throughout the country.

Contingencies for Possible Risk

The composition of contingencies with risk level considered to be possible, and therefore not recorded in the accounts, is the following:

Nature	COMPANY		CONSOLIDATED	
	03/31/08	12/31/07	03/31/08	12/31/07
Labor	1,792	1,737	568,672	542,427
Tax	52,955	51,558	2,097,648	2,113,653

New Shares	-	50,442
Amount estimated on 03.31.08	52,955	2,097,648

The major existing suits are represented by the objects below:

Edgar Filing: BRASIL TELECOM HOLDING CO - Form 6-K

- (i) INSS additional fiscal assessments on the addition of captions in the contribution salary supposedly due by the company;
- (ii) Additional fiscal assessments promoted by the Secretaria da Receita Federal (Federal Revenue Secretariat), resulting from divergences between DCTF and DIPJ;
- (iii) Public civil suits questioning the supposed transfer of PIS and COFINS taxes to end consumers;
- (iv) ICMS incurring on international calls, which tax responsibility for the collection is assigned to other operator;
- (v) ICMS - credit and respective tax rate differential in interstate acquisitions made by the Company;
- (vi) ICMS - additional fiscal assessments on the supposed incurrence of tax on the activities described in the Agreement No. 69/98;
- (vii) ICMS tax credit on cancelled invoices.
- (viii) IR-Withheld at Source - on operations related to the protection for debt coverage;
- (ix) FUST due to the illegal retroactivity, under the best knowledge of the Company, of the effects generated by the change in interpreting its calculation basis by ANATEL.
- (x) ISS - supposed incurrence on communications auxiliary services and discussion on services taxed by the cities listed in the Complementary Law 116/2003.

Civil

Variations occurred in 2008:

COMPANY CONSOLIDATED

Amount estimated on 12.31.07	416	1,129,591
Monetary Restatement	15	43,784
Revaluation of Contingent Risks	-	(19,050)
New Shares	-	42,384
Amount estimated on 03.31.08	431	1,196,709

The major existing suits are represented by the objects below:

- (i) Repayments resulting from Community Telephony Program lawsuits (PCT) - the plaintiffs, together with Brasil Telecom S.A., intend to repay in lawsuits related to the contracts resulting from the Community Telephony Program. Such lawsuits are positioned in various phases: lower courts, Court of Appeals and Superior Court of Justice;
- (ii) Lawsuit for damages and consumers; and
- (iii) Contractual - Lawsuits related to the claim for a percentage resulting from the Real Plan, to be applied to a contract for rendering of services, review of conversion of installments in URV and later in reais, related to the supply of equipment and rendering of services.

Letters of Guarantee

As for passive contingencies, the Company holds contracts for letters of guarantee executed with financial institutions, as a complementary guarantee for judicial proceedings in provisional foreclosure and as performance bond for commitments regarding authorizations granted by ANATEL. The total amount of guarantees contracted and in force on the quarter closing date corresponds to R\$ 1,501 (R\$ 21,483 on 12.31.07) and R\$ 1,995,405 (R\$ 1,381,488 on 12.31.07) for consolidated purposes. The commission charges in these contracts are based on market rates.

b. Contingent Assets

Below are presented the tax related judicial demands, through which the paid taxes recovery is claimed.

PIS/COFINS: judicial dispute about the application of Law 9,718/98, which increased the calculation basis for PIS and COFINS. The period comprised by the Law was from February 1999 to November 2002 for PIS and from February 1999 to January 2004 for COFINS. In November 2005, STF (Federal Supreme Court) concluded the judgment of certain lawsuits dealing with such issue and considered unconstitutional the increase of calculation basis introduced by said Law. Part of the lawsuits filed by the Company and the concessionaires of STFC Region II of the Granting Plan, merged into Brasil Telecom S.A. in February 2000, became final and unappealable, referring to the increase in the mentioned taxes calculation basis. The Company is awaiting the judgments of the other lawsuits, which the assessment of success in future filing of appeals is assessed as probable by the Company's legal advisors. On the quarter ending date, the lawsuits which represented a active and not recognized contingency totaled the amount of R\$17,632 (R\$17,445 on 12.31.07) .

7. SHAREHOLDER S EQUITY

a. Capital Stock

At the Shareholders General Meeting, held on 04.27.07, the grouping of shares representing the capital stock of the Company was approved. Resulting from this process, the shares will be grouped at the ratio of one thousand (1,000) share per one (1) share, and the capital stock will be represented by 134,031,688 common shares and 229,937,525 preferred shares, totaling 363,969,213 shares issued. From the total amount of shares, 1,480,800 common shares are kept in treasury.

The shares grouping aims at bringing the unit price for quotation of shares to a more appropriate level from the market point of view, reducing operating costs for the Company and its shareholders, and increasing the efficiency of registration systems, controls and publication of information to the shareholders. After approval of the grouping, shareholders had a period of 30 days to adjust their share positions in lots multiple of 1,000 (one thousand) shares by kind, by means of negotiation at BOVESPA or over-the-counter market. After that period, the shares are negotiated in groups with unit quotation. The remaining shares fractions were separated and grouped in full numbers and sold at auction at BOVESPA. The amounts resulting from such auction, after final settlement of the sale, were made available on behalf of the respective shareholders.

The Company is authorized to increase its capital stock, according to a resolution of the Board of Executive Officers, in a total limit of seven hundred million (700,000,000) common or preferred shares, observing the legal limit of two thirds (2/3) for the issue of preferred shares without voting rights.

By means of a resolution of the General Shareholders' Meeting or the Board of Executive Officers, the Company's capital may be increased by the capitalization of retained earnings or reserves prior to this allocated by the General Shareholders' Meeting. Under these conditions, the capitalization may be effected without modifying the number of shares.

The capital stock is represented by common and preferred stocks, with no par value, and it is not mandatory to maintain the proportion between the shares in the case of capital increases.

By means of a resolution of the General Shareholders' Meeting or the Board of Executive Officers, the preemptive right for the issue of shares, subscription bonuses or debentures convertible into shares may be excluded, in the cases stipulated in article 172 of Corporate Law.

The preferred shares do not have voting rights, except in the cases specified in sole paragraphs of article 11 and 14 of the Bylaws, but are assured priority in receiving the minimum non-cumulative dividend of 6% per annum, calculated on the amount resulting from dividing the capital stock by the total number of the Company's shares or 3% per annum, calculated on the amount resulting from dividing the net book shareholders' equity by the total number of the Company's shares, whichever is greater.

Subscribed and paid-up capital as of the date of the end of the quarter is R\$ 2,596,272 (R\$ 2,596,272 on 12.31.07), represented by shares without par value as follows:

Share Type	Total Shares		Treasury Stock		Outstanding Shares	
	03/31/08	12/31/07	03/31/08	12/31/07	03/31/08	12/31/07
Common	134,031,688	134,031,688	1,480,800	1,480,800	132,550,888	132,550,888
Preferred	229,937,525	229,937,525	-	-	229,937,525	229,937,525
Total	363,969,213	363,969,213	1,480,800	1,480,800	362,488,413	362,488,413

	03/31/08	12/31/07
Book Value per Outstanding Share (R\$)	14.66	14.47

From the calculation of the book value per thousand shares, the common shares held in treasury are deducted.

b. Treasury Stock

Treasury stocks derive from Stock Repurchase Programs, carried out between 2002 and 2004. On 09/13/04, the material fact of the current proposal approved by the Company's Board of Executive Officers was published, for the repurchase of preferred and common stocks issued by the Company, for holding in treasury or cancellation, or subsequent sale.

The quantity of treasury stocks was the following:

	03/31/08		12/31/07	
	Common Shares	Net	Common Shares	Net
Initial balance in the quarter	1,480,800	20,846	1,480,800	20,846
Final balance in the quarter	1,480,800	20,846	1,480,800	20,846

History cost in the acquisition of shares in treasury stock (R\$ per share)	03/31/08	12/31/07
Weighed Average	14.08	14.08
Minimum	12.40	12.40
Maximum	17.00	17.00

The unit cost in the acquisition considers the totality of stock repurchase programs.

Until the quarter closing date, there were no disposals of purchased common shares.

Market Value of Treasury Stocks

The market value of treasury stocks on the quarter closing date was the following:

	03/31/08	12/31/07
Number of common shares in treasury	1,480,800	1,480,800
Quotation per share on BOVESPA (R\$)	49.35	46.50
Market Value	73,077	68,857

The costs with the acquisition of treasury stocks are recorded in equity's own account. Considering the deduction of

the accounting value of these shares from the balance of the account of accumulated profits, which has originated the repurchase, the balance is as follows:

37

	03/31/08	12/31/07
Accounting Balance of Accumulated Profits	2,157,258	2,095,945
Treasury Stock	(20,846)	(20,846)
Retained Earnings Balance, net of Treasury Stocks	2,136,412	2,075,099

c. Capital Reserves

Capital reserves are recognized in accordance with the following practices:

Reserve for Premium on Subscription of Shares: results from the difference between the amount paid on subscription and the portion allocated to capital.

Other Capital Reserves: formed by the contra entry of the funds invested in income tax incentives.

d. Profit Reserves

The revenue reserves are recognized in accordance with the following practices:

Legal Reserve: allocation of five percent of the annual net income up to twenty percent of paid-up capital or thirty percent of capital plus capital reserves. The legal reserve is only used to increase capital stock or to absorb losses.

Retained Earnings: composed of remaining profit balances of net income for the year, adjusted according to the terms of article 202 of Law no 6,404/76, or by the recording of adjustments from prior fiscal years, if applicable.

e. Dividends and Interest on Shareholders Equity

Dividends are calculated at the end of the fiscal year. Mandatory minimum dividends are calculated in accordance with article 202 of Law 6,404/76, and the preferred or priority dividends are calculated in accordance with the Company's Bylaws.

As a result of a resolution by the Board of Executive Officers, the Company may pay or credit, as dividends, interest on shareholders' equity (JSCP), under the terms of article 9, paragraph 7, of Law No. 9,249, as of 12/26/95. The interest paid or credited will be offset with the minimum mandatory annual dividend amount, in accordance with article 44 of the Company's Bylaws.

The interest on shareholders' equity credited to shareholders and which shall be attributed to dividends, net of income tax, as part of the proposal to allocate results for the fiscal year to close at 2008 year-end, to be submitted for approval of the General Shareholders' Meeting, was the following:

	03/31/08	03/31/07
Interest on Shareholders' Equity - JSCP -Credited	187,000	187,600
Common Shares	68,380	68,600
Preferred Shares	118,620	119,000
Withholding Income Tax (IRRF)	(28,050)	(28,140)
Net Interest on Shareholders' Equity	158,950	159,460

The following table shows the periods in which the deferred tax assets corresponding to income tax and social contribution on net income are expected to be realized, which are derived from temporary differences between book value on the accrual basis and the taxable income, as well as in the tax loss and in the negative basis of social contribution, when existing. The realization periods are based on a technical study that used forecast future taxable income, generated in fiscal years when the temporary differences will become deductible expenses for tax purposes. These assets are recorded in accordance with CVM Instruction 371/02 requirements, and at the closing of the fiscal years the technical study is submitted to the approval of the board of executive officers and the Board of Directors, as well as its examination by the finance committee.

	COMPANY	CONSOLIDATED

Total	61,655	1,730,145
Current	35,445	411,961
Long-term	26,210	1,318,184

The recoverable amount expected after 2017 is a result of a provision to cover an actuarial insufficiency of pension plans that is being settled by the subsidiary Brasil Telecom S.A., according to the maximum remaining period of 13 years and 9 months, in line with the period established by the Supplementary Pension Department (SPC). Despite the time limit stipulated by the SPC and according to the estimated future taxable income, the Subsidiary presents conditions to fully offset the deferred taxes in a period lower than ten years, if it opts to fully anticipate the payment of the debt. The Company does not constitute tax assets in the amount of R\$26,384 and R\$166,928 to the Consolidated, due to the non-existence of the necessary history requirements and/or predictability of tax profits. The indirect subsidiaries which did not constitute such assets were VANT, BrT Multimídia, Freelance and BrT CS.

Other Taxes Recoverable

They are comprised of federal withholding taxes, credits to offset and payments made, calculated based on legal estimates, which will be offset against future tax obligations. The ICMS recoverable arises, for the most part, from credits recorded in the acquisition of fixed assets, whose compensation with ICMS payable may occur in up to 48 months, according to Supplementary Law 102/00.

The provision of recoverable amounts corresponds to the tax credits portion which can be off set in a period which exceeds the next ten years.

23. FIXED-INCOME SECURITIES

Represented by bank deposit certificates (CDB) of Banco de Brasília S.A. BRB, remunerated from 94% to 97% of SELIC rate, maintained by Brasil Telecom S.A. and 14 Brasil Telecom Celular S.A. as guarantee of the financing obtained through Programa de Promoção do Desenvolvimento Econômico e Sustentável do Distrito Federal (Program to Promote Integrated Economic and Sustainable Development of the Federal District - PRÓ-DF). These income securities will be kept during the period of utilization and amortization of financing (liability), whose grace period establishes the first payment for year 2019, payable in 180 monthly, consecutive installments. This asset may be used to pay the final installments of that financing.

(1) Includes exchange variation, bound to investment abroad.

Equities Assessed by Acquisition Cost: correspond to shareholding obtained by converting shares or capital quotas of the tax incentive investments in the FINOR/FINAM regional programs, the Incentive Law for Information Technology Companies, and the Audiovisual Law. The amount is predominantly composed of shares of other telecommunications companies located in the regions covered by the regional incentives.

Fiscal Incentives: arise from investments in FINOR/FINAM and audiovisual funds, originated in the portions allocated to income tax due.

Other Investments: are related to collected cultural assets.

Total		27,008,423	(21,703,712)	5,304,711	5,664,196

(1) Weighed annual average rate

According to the STFC concession agreements, the subsidiary Brasil Telecom S.A.'s assets that are indispensable to providing the service and qualified as revertible assets will be automatically reverted to ANATEL when the concession ends, and the Subsidiary will be entitled to indemnifications established in the legislation and in the respective agreements. The amount of reversible assets on the quarter closing date was R\$ 21,683,683 for cost, with residual value of R\$ 3,102,594.

Commercial Lease

Financial leasing contracts are kept for IT equipment, and the amounts paid as commercial lease are recorded in the account of operating expenses.

Considering the hypothesis of recognition of leased assets in the fixed assets, in consideration to the liabilities of installments payable, the balances calculated on the quarter closing date would be the following:

Property, Plant and Equipment**CONSOLIDATED**

Fixed Assets Type	03/31/08			12/31/07
	Cost	Depreciation Accumulated	Net Value	Net Value
General Use Assets	68,582	(46,385)	22,197	27,016

Obligations in Commercial Lease Agreements**CONSOLIDATED**

	03/31/08	12/31/07

Total	29,392	35,166
Current	25,198	25,361
Long-term	4,194	9,805

The installments that form the long-term obligation are expected to become due in 2009.

The payment of the commercial lease contracts is subject to the DI-Over rate variation.

Insurances (not reviewed by the independent auditors)

Insurance policy programs are held for covering revertible assets, loss of profits and contractual guarantees, as established in

the Concession Agreement executed with the public power, and civil liability for telephony service operations.

The assets, liabilities and interests covered by insurance are:

Mode	Scope	Insured Value	
		03/31/08	12/31/07
Operating Risks	Buildings, machines and equipment, premises, call centers, towers, infrastructure and IT equipment	15,039,478	12,705,368
Loss of Profits	Fixed expenses and net profit	8,955,588	8,669,400
Contractual guarantees	Fulfillment of contractual obligations	94,601	89,405
Civil Liability	Telephony service operations	12,000	12,000

The Company contracted insurance coverage related to civil liability of managers, which also includes the subsidiary Brasil Telecom S.A., which total value is equivalent to US\$ 90,000,000.00 (ninety million American dollars).

There is no insurance coverage for the optional civil liability, related to casualties with vehicles of the Company, involving third parties.

Financing denominated in domestic currency: bear of (i) fixed interest of 2.4% per year to 11.5% per year, resulting in a weighed average rate of 6.71% per year; and (ii) variable interest based on TJLP plus 2.3% to 5.5% per year, UMBNDES plus 5.5% per year, 104% of CDI, resulting in a weighed average rate of 11.25% per year.

Financing denominated in foreign currency: bear of (i) fixed interest of 1.75% to 9.38% per year, resulting in a weighed average rate of 9.35% per year, and (ii) variable interest of 0.5% above LIBOR and 1.92% per year above YEN LIBOR, resulting in a weighed average rate of 3.01% per year. LIBOR and YEN LIBOR rates on 03.31.08, for half-yearly payments, were 3.19% per year and 1.03% per year, respectively.

Debentures issued by the subsidiary Brasil Telecom S.A.

Forth Public Issue: 108,000 debentures not convertible into shares without renegotiation clause, for the unit face value of R\$10, amounting to R\$1,080,000 on June 1, 2006. The payment term is seven years, maturing on June 1, 2013. The remuneration corresponds to the interest rate of 104.0% of CDI and its payment periodicity is semiannual. Amortization, which shall indistinctly consider all debentures, will occur annually as from June 1, 2011, in three installments of 33.3%, 33.3% and 33.4% of the unit face value, respectively. On the quarter closing date there were no issuance debentures in Treasury.

Payment schedule

The long-term debt is scheduled to be paid in the following fiscal years:

Total	4,344,263	4,383,403

Guarantees

Certain loans and financing contracted are guaranteed by collateral of pledge of credit rights derived from the provision of fixed telephony services and the Parent Company's surety.

For consolidated loans and financing, hedge contracts executed with third parties are kept over 60.9% of these obligations in American dollars and yens, aiming at protecting from meaningful oscillations in quotations of these debit correcting factors. On 03/31/08, taking into account the hedge operations and foreign currency investments, the Company had an effective exposure of 8.0% (3.6% on 12.31.06). The gains and losses on these contracts are recognized on the accrual basis.

Debentures issued by Brasil Telecom S.A. have personal guarantee, through surety granted by the Company. According to the deed of issue, the Company, in the capacity as intervening guarantor undertakes before the debenture holders as primary obligor and guarantor, to be jointly liable for all obligations assumed by the Subsidiary related to its debentures.

BrT Celular Financial Contractual Obligation with BNDES

BrT Celular entered into with Banco Nacional de Desenvolvimento Econômico BNDES, on February 19, 2008 the contracting of financing in the amount of R\$ 259,100 to be used in the expansion and modernization of the mobile phone network (personal mobile service) by 2009. The financing shall have the total term of nine years and six months, with a thirty months grace period, from which period the payment in eighty four installments shall begin. The duties regarding such financing are associated to the TJLP variation, plus 3.52% a year. From the amount under contract, the captation of R\$ 100,000 has been effected in the present quarter, and the supplementary part of financial inputs is expected to occur by the end of the fiscal year of 2009. This obligation is guaranteed by cession and binding of receivables resulting from the revenue of Brasil Telecom S.A., as well as guarantee from the same.

37. SERVICE EXPLOITATION LICENSES

	CONSOLIDATED	
	03/31/08	12/31/07
Personal Mobile Service	255,012	242,162
STFC concession	16,421	-
Other Licenses	11,879	11,314
Total	283,312	253,476
Current	99,967	78,844
Long-term	183,345	174,632

The licenses for Personal Mobile Services (SMP) are represented by the terms signed, in 2002 and 2004, by 14 Brasil Telecom Celular S.A. with ANATEL, to offer SMP Services for the next fifteen years in the same area of operation where Brasil Telecom S.A. has a concession for fixed telephony. Out of the contracted value, 10% was paid at the time of signing the contract, and the remaining balance was fully recognized in BrT Celular's liabilities to be paid in equal, consecutive annual installments, with maturities foreseen for the years 2008 to 2010 (balance of three installments), and 2008 to 2012 (balance of five installments), depending on the fiscal year when the agreements were executed. The remaining balance is adjusted by the variation of IGP-DI, plus 1% per month.

The STFC concession relates to the provision constituted by Brasil Telecom S.A., on an accrual basis, based on the application of 1% upon the taxes net revenue. According to the concession agreement in force, the payment in favor of ANATEL becomes due at each two-year period, set up for April of odd years and equivalent to 2% of net revenue verified in the previous fiscal year. The next payment to be carried out is expected to occur in 2009.

The amount of other licenses pertains to BrT Multimídia and refers to the authorization granted to the use of radiofrequency blocks associated with the exploitation of multimedia communication services. Upon such obligation, variation of IGP-DI added by 1% per month applies. The settlement of the balance of such obligation will be paid in four equal, consecutive and annual installments, falling due in May.

38. PROVISIONS FOR PENSION PLANS

They refer to the recognition by Brasil Telecom S.A. of the actuarial deficit of the pension plans of defined benefit managed by FBrTPREV and the pension plan managed by the Parent Company appraised by independent actuaries in accordance with CVM Resolution 371/00. Such sponsored plans are detailed in Note 5.

	CONSOLIDATED

Self-Financing Funds

They correspond to the credits of capital participation, paid by engaged subscribers, for acquisition of the right of use of switched fixed telephone service, still under the elapsed self-financing modality. It happened that, as the shareholders of the subsidiary Brasil Telecom S.A. - Rio Grande do Sul Branch (formerly CRT) had fully subscribed the capital increase made to repay in shares the credits for capital participation, there were no unsold shares to be delivered to the engaged subscribers. Part of these engaged subscribers, who did not accept the Subsidiary's Public Offering for return of the referred credits in cash, as established in article 171, paragraph 2, of Law 6.404/76, are awaiting resolution of the ongoing lawsuit, filed by the Public Prosecution Service and Other, aiming at reimbursement in shares.

41. FUNDS FOR CAPITALIZATION

The expansion plans (self-financing) were the means by which the telecommunications companies financed part of the network investments. With the issue of Administrative Rule 261/97 by the Ministry of Communications, this mechanism for raising funds was eliminated, and the existing consolidated amount of R\$7,974 (R\$7,974 on 12.31.07) derives from plans sold prior to the issue of the Administrative Rule, the corresponding assets to which are already incorporated in the Company's fixed assets through the Community Telephony Plant - PCT. For reimbursement in shares, it is necessary to await the judicial ruling on the suits brought by the interested parties.

42. INFORMATION PER BUSINESS SEGMENT - CONSOLIDATED

Information per segments is presented in relation to the Company and its subsidiaries business, which was identified based on their performance and management structure, as well as the internal management information.

The operations carried out among the business segments presented were based on conditions equivalent to the market.

The income by segment, as well as the equity items presented, takes into consideration the items directly attributable to the segment, also taking into account those which can be allocated on reasonable basis.

Utilization Rate	77.4%	77.4%	0.0 p.p.

With the objective of obtaining the client's loyalty, Brasil Telecom has launched the packages Pluri, which allow the client integrating fixed phone, mobile phone and broadband services.

To expand telephony through lower consumer segments, Brasil Telecom kept on encouraging the plan Controle Total, the prepaid plan of fixed phone, whose offer is made by direct approach in areas with technical availability. By the end of 1T08, 113 thousand clients had already adhered to the plan Controle among which 43% had never had fixed telephone.

In the 1T08, Brasil Telecom has reached 3.6 million lines in local alternate plans of fixed phones and 845.1 lines in alternate plans for long distance calls. By the end of 1T08, the participation in local alternate plans reached 44.8% of the lines base in services as a result of the strategy of approaching the market in a more segmented form.

Traffic

Operational Data	1T08	4T07	1T08/4T07 (%)
Exceeding Minutes (million)	2,434	2,631	-7.5
VC-1 (million minutes)	671	718	-6.6
Minutes Long Distance (million)	1,357	1,378	-1.4
Long Distance	992	1,060	-6.4
VC-2	207	179	16.0
VC-3	158	139	14.0

Local Pulses and Exceeding Minutes

The reduction in traffic in relation to 1T07 was influenced by the lower number of working days of 1T08 and by the reduction of 3.8% in the average lines in service in the period.

VC-1

VC-1 traffic totaled 670.8 million minutes in 1T08, 3.1% lower than 1T07, in function of the fixed-mobile replacement.

Long Distance Traffic

The reduction of 5.6% in the long distance traffic in 1T08 in comparison to 1T07 was partially offset by the increase in traffics VC-2 and VC-3, due to some products of added-value (i.e. the partnership with Big Brother Brasil).

LD Market Share

In 1T08, Brasil Telecom held its leadership position and achieved an average market share of 84.6% in intra-regional segment. In the intra-sectorial segment, Brasil Telecom achieved 89.7% of market share. Brasil Telecom reached 64.3% of market share in inter-regional segment and increased in 1T08, 0.2 p.p. in the international segment, reaching 38.8% of market share.

Mobile Telephony

Operational Data	1T08	4T07	1T08/4T07 (%)
Clients (1,000)	4,577	4,263	7.4
Post-paid	829	856	-3.1
Prepaid	3,748	3,407	10.0
Net Additions (1,000)	315	239	31.8
Post-paid	(26)	(1)	2,408.3
Prepaid	341	240	42.3
Gross Additions (1,000)	669	837	-20.1
Post-paid	75	96	-22.1
Prepaid	594	741	-19.8

Coverage Cell Sites (ERBs)	2,645	2,642	0.1
Commutation and Control Centers (CCC)	11	11	0.0
Employees	628	616	1.9

Mobile Accesses

Mobile telephony reached 4,577.6 accesses in service, which represented net addition of 314.9 accesses in 1T08. By the end of 1T08, the portfolio of clients of BrT Móvel was 25.8% greater than that of 1T07.

By the end of 1T08, the mobile plant was comprised by 829.3 thousand post-paid subscribers (18.1% of BrT Móvel client base) and 3,748.2 thousand prepaid clients. The reduction of 14.2% in the post-paid client bases at 1T08 is mainly due to the migration of clients from the hybrid plan to the pre-paid plan.

Gross additions in 1T08 were 668.9 thousand accesses, 49.6% over 1T07. This result reflects the success of the plans and promotions offered by BrT Móvel and the capillarity increase of the points of sale.

BrT Móvel has maintained the strategy of growth with profitability and assisting the practices of the market in a balanced way. The cost of acquisition of the client (SAC) of BrT Móvel was R\$ 77.6, 20.6% lower in comparison to those obtained at 1T07, due to the reduction of 51.0% in subsidies in function of the shorter addition of post-paid in relation to the pre-paid ones.

The market share of BrT Móvel in Region II was 13.7% by the end of 1T08, 0.8% p.p. over 1T07. BrT Móvel has maintained its third position in the market share in the Federal District and the GO, TO, MT, AC and RO.

DATA**Broadband**

Operational Data	1T08	4T07	1T08/4T07 (%)
ADSL Accesses (1,000)	1,637	1,568	4.4
Net Additions (1,000)	70	45	55.6
ADSL penetration (%)	20.4%	19.5%	4.6 p.p.

Throughout 1T08, Brasil Telecom added 69.5 thousand ADSL accesses to its plant, totaling 1,637.3 thousand accesses in service by the end of 1T08, with an increase of 18.3% when compared to 1T07. ADSL (ADSL/LES) penetration in 1T08 reached 20.4%, against 16.7% in 1T07. In continuity to the expansion of the broadband network, Brasil Telecom has reached 80% of the cities with ADSL coverage, the biggest rate among expressive carriers.

Internet Providers

The Internet Group, Internet unit at Brasil Telecom that comprises the activities of iG, iBest and BrTurbo providers, is the 2nd top broadband provider in the Brazilian market, with 1.3 million clients, representing an increase of 16.2% when compared to the same period in the previous year.

Internet Group also has 4 million clients in dial-up access, in addition to be the 4th top Brazilian portal in audience, with more than 12.1 million home unique visitors per month (source: IBOPE Mar/08) Considering the iG and BrTurbo subscribers, the group maintains the market leadership in Region II.

ECONOMICAL-FINANCIAL PERFORMANCE**Income**

The consolidated gross revenue of Brasil Telecom reached R\$ 4,036.1 million in 1T08, 3.6% higher to that of 1T07, due to the growth of the participation of services of data transmission and mobile phone in the consolidated revenue, as well as the tariff restatements of 2.14% in the basket of services and 3.29% in the VC s occurred in July of the last year.

Local Service

The gross revenue of local services reached R\$ 1,588.8 million in 1T08, 3.6% lower than that recorded in 1T07, mainly because of the drop of 24.5% in the gross revenue of the local traffic and the reduction in the number of subscribers, partially offset by the increase of 3.3% in the gross revenue of subscriptions.

Public Telephony

The gross revenue of public telephony reached R\$ 134.1 million in 1T08, 3.9% higher when compared to the revenue of 1T07, mainly because of the tariff restatement.

Interconnection

The interconnection revenue in 1T08 was R\$ 81.4 million, 4.2% lower to the R\$ 85.0 million registered in 1T07, mainly because of the reduction of 18.3% of the TU-RL in 2007.

Data Transmission

In 1T08, the gross income in data transmission reached R\$791.0 million, with an increase of 23.0% when compared to 1T07, due primarily to an increment of 18.3% in the ADSL client base.

Mobile Telephony

In 1T08, total consolidated gross revenue in mobile telephony totaled R\$466.1 million, from which R\$426.5 million were related to services, and R\$39.5 million to the sale of handsets and accessories. The consolidated gross revenue of services with the 1T08 mobile telephony exceeded in 13.0% that recorded in 1T07, due to the expansion of the clients base and the launch of new services plans.

ARPU (Monthly average net revenue per user)

The ARPU of fixed telephony (excluding data transmission) reached R\$ 78.89 in 1T08, 1.3% above that recorded in 1T07, reflecting the tariff restatements. Including the data transmission revenue, the ARPU recorded in 1T08 was R\$ 101.35, 6.0% above that registered in 1T07, reflecting the growing increase in the penetration and revenue of ADSL.

The ARPU of ADSL recorded in 1T08 was R\$ 68.92, 3.4% lower than the R\$ 71.34 recorded in 1T07, due to more aggressive promotions with discounts to encourage adhesion to Turbo products.

The total ARPU of mobile telephony in 1T08 was R\$ 29.80, mainly because of a change in the behavior in the incoming traffic, which resulted in an impact estimated on the net revenue of interconnection in approximately R\$ 22 million.

Costs and Expenses

Personnel

In 1T08, personnel costs and expenses reached R\$216.7 million, an increase of 43.3% when compared to 1T07. Such increase happened primarily due to the internalization of the call center, accomplished by the end of 2007, the salary adjustments in accordance with collective deals and labor charges resulting from the reduction in the staff and outsourcing of the activity of maintenance of the plant. By the end of 1T08, the BrT group employed a total of 16,578 workers, divided into 5,125 workers in the segment of fixed telephony, data and internet providers, 629 at Brt Móvel, and 10,824 workers in the segment of call center.

Materials

The costs and expenses with materials amounted to R\$ 75.4 million in 1T08, a drop of 2.4% in relation to 1T07, due to the lower cost of merchandise sold despite the increase in the quantity of phone sets traded.

Third Parties Services

The costs and expenses with outsourced services, with exception of interconnection, propaganda and marketing, amounted to R\$ 540.9 million in 1T08, 4.2% below that recorded in 1T07, mainly reflecting the reduction of R\$ 64 million in the call center line by the internalization accomplished by the end of 2007. Such reduction was offset with the increase of R\$ 24.8 million in variable costs connected to the operation and R\$ 13.0 million in corporate consultancy services.

The expenses with advertisement and marketing amounted to R\$ 42.4 million in 1T08, an increase of R\$ 17.6 million in comparison to 1T07, in function of the campaigns for launching new products that took place in the quarter, among which Pluri, added value products (i.e. partnership with Big Brother Brasil), besides campaigns for the new positioning of iG provider.

Provisions for Contingencies

In 1T08, the provisions for contingencies amounted to R\$ 159.3 million, an increase of R\$ 36.7 million in comparison to 1T07, basically due to the taxes, civil and labor contingencies.

PCCR/ROB

The relation of Losses with Receivables (PCCR) with the gross revenue in 1T08 was of 3.0% and amounted to R\$ 119.8 million, 0.5% p.p. above the 2.5% of 1T07, due to the postponing in the maturity of invoices and respective provision caused by the Post Office strike in 1T07 and due to the increase in the default of co-billing.

Depreciation and Amortization

Depreciation and amortization costs totaled R\$546.4 million in 1T08, 16.0% less than 1T07, due to the increase of goods totally depreciated.

Other Costs and Expenses/Operating Income

Other operating costs and expenses amounted R\$ 133.0 million in 1T08 in comparison to 1T07, mainly because of the update of actuarial provisions.

Financial Result

In 1T08, Brasil Telecom registered negative financial result of R\$242.8 million, versus R\$ 333.3 million negative in the previous year. Not taking into account the effect of the interest on own capital, the variation was positive in R\$ 89.9 million, mainly because: (i) of the lower indebtedness, resulting in lower financial expenses in domestic currency and (ii) of the financial revenue of R\$ 65.5 million resulting from taxes deposited at court in past fiscal years, where the Company has been awarded with the decision.

Non-Operating Revenues (Expenses)

The non-operating revenue (expenses) amounted to R\$ 17.0 million in 1T08, 391.3% above the 1T07, mainly because of the sale of investments valued by the cost of acquisition of certificates FINAM and FINOR.

Net Profit

Brasil Telecom registered net profit of R\$ 248.3 million in 1T08, equivalent to R\$0.6850 per share. The net profit per ADR in the period was R\$ 1.9583. In the 1T07, the Company recorded a profit of R\$ 169.9 million, equivalent to R\$ 0.4686 per 1,000 shares, while the profit per ADR in the period was R\$ 1.2741.

Indebtedness*Net Debt*

By the end of the quarter, the consolidated gross debt of Brasil Telecom totaled R\$513.5 million, 55.1% less than that registered at the end of March 2007, especially due to the amortization of debentures, amounting to R\$500 million in April 2007 and the Real valorization, which reduced the debt in foreign currency and the generation of cash in the period.

By the end of 1T08, the debt bound to the exchange variation, not considering the hedge adjustments, amounted to R\$ 690.6 million. On March 31, 2008 Brasil Telecom counted on protection to 53.4% of the debt bound to the exchange variation, resulting in a exposure of only 8.0% of the whole debt.

17.01 - REPORT ON SPECIAL REVIEW - NO EXCEPTIONS

To the Shareholders, Board of Directors and Management of
Brasil Telecom Participações S.A.
Brasília - DF

1. We have performed a review of the accounting information contained in the accompanying interim financial statements, Company and consolidated, of Brasil Telecom Participações S.A. (Company) and subsidiaries for the quarter ended March 31, 2008, consisting of the balance sheets, the related statements of income and cash flows, the performance report and the related notes to the interim financial statements, all expressed in Brazilian reais and prepared under the responsibility of the Company s Management.
2. Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council (CFC), and consisted, principally, of: (a) inquiries of and discussions with certain officials of the Company and its subsidiaries who have responsibility for accounting, financial and operating matters about the criteria adopted in the preparation of the interim financial statements; and (b) review of the information and subsequent events that had, or might have had, material effects on the financial position and results of operations of the Company and its subsidiaries.
3. Based on our review, we are not aware of any material modifications that should be made to the accounting information contained in the interim financial statements referred to in paragraph 1 for them to be in conformity with standards established by the Brazilian Securities Commissions (CVM), specifically applicable to the preparation of interim financial statements, including the News Release of January 14, 2008.
4. As mentioned in note 2, on December 28, 2007, Law No. 11,638 was enacted, altering, revoking and adding new provisions to Law No. 6,404/76 (Brazilian Corporate Law). This Law is effective for fiscal years beginning on or after January 1, 2008 and will introduce changes in Brazilian accounting practices. Although this Law has already become effective, the main changes introduced by it are subject to regulation by regulatory agencies before being fully applied by companies. Accordingly, during this transition phase, CVM, through the News Release of January 14, 2008, has permitted companies not to apply the provisions of Law No. 11,638/07 in the preparation of the interim financial statements. Thus, the interim financial statements for the quarter ended March 31, 2008 have been prepared in conformity with specific instructions of CVM and do not include the changes in accounting practices introduced by Law No. 11,638/07.
5. The accompanying financial statements have been translated into English for the convenience of readers outside Brazil.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
