**BRASKEM ACQUIRES THE PROPYLENE SPLITTER ASSETS AT MARCUS HOOK
REFINERY**

São Paulo, Brazil, July 2nd, 2012 - Braskem (BM&FBovespa: BRKM5, BRKM3, BRKM6; NYSE: BAK; LATIBEX: XBRK), the leading resin producer in the Americas, announces to the market that it has acquired the propylene splitter assets at Sunoco's Marcus Hook refinery and has secured feedstock supply from multiple sources that ensures its continuing operations. Braskem will process propylene through the splitter assets for use in its adjacent polypropylene plant. This acquisition represents an important step in fortifying our Marcus Hook facility for the foreseeable future and solidifying Braskem's continued commitment to the North American petrochemical market.

Further information can be obtained from the Company's Investor Relations Department at +55 11 3576-9531 or braskem-ri@braskem.com.br.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
