REPORT OF QUARTERLY INFORMATION REVIEW

To the Shareholders, Board Members and Directors of

TELEFÔNICA BRASIL S.A.

São Paulo - SP

Introduction

We have reviewed the individual and consolidated interim accounting information of **TELEFÔNICA BRASIL S.A.** and subsidiaries, contained in the ITR (Quarterly Information Form), referring to the quarter ended on June 30, 2012, which comprises the balance sheet and related statements of income, of comprehensive income, of changes in shareholders' equity and of cash flows for the six-month period then ended, including the notes thereto.

The management is responsible for the preparation of the individual interim accounting information according to CPC Technical Pronouncement CPC 21 – Interim Statement and interim consolidated accounting information according to CPC 21 and international standard IAS 34 – Interim Financial Reporting, issued by International Accounting Standards Board – IASB, as well as for the presentation of such information according to standards issued by CVM (Brazilian SEC), applicable to the preparation of Quarterly Information - ITR. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with the Brazilian and international standards of review of interim information (NBC TR 2410 - Revisão de Informações Intermediárias Executada pelo Auditor da Entidade e ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of inquiries, mainly to those responsible for financial and accounting matters, and the application of analytical procedures and other review procedures.

The scope of a review is significantly less in scope than an audit and, consequently, it did not allow us to obtain assurance that we became aware of all significant matters which could be identified in an audit. Accordingly, we did not express an audit opinion.

Conclusion on individual interim information

Based on our review, we are not aware of any fact which makes us believe that the individual interim accounting information included in the aforesaid quarterly information was not prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of Quarterly Information (ITR) and presented in accordance with the Brazilian SEC (CVM) regulations.

Conclusion on consolidated interim information

Based on our review, we are not aware of any fact which makes us believe that the consolidated interim accounting information included in the aforesaid quarterly information was not prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of Quarterly Information (ITR) and presented in accordance with Brazilian SEC (CVM) regulations.

Other matters

Interim statement of value added

We have also reviewed the individual and consolidated statement of value added (SVA), referring to the six-month period ended June 30, 2012, the presentation of which in the interim information is required according to standards issued by CVM (Brazilian SEC), regulations applicable to the preparation of the Quarterly Information – ITR and considered as supplementary information by IFRS's standards, which do not require the presentation of the

SVA. These statements were submitted to the same review procedures previously described and, based on our review, we are not aware of any fact which could make us believe that they were not prepared, in all material aspects, in accordance with individual and consolidated interim accounting information taken as a whole.

Audit and review of comparative amounts of previous year

The Quarterly Information – ITR, mentioned in the first paragraph, includes accounting information corresponding to income, comprehensive income, changes in shareholders' equity, cash flows and added value of the quarter ended June 30, 2011, obtained from the Quarterly Information – ITR from that period, and those from the balance sheet of December 31, 2011, obtained from the financial statements as of December 31, 2011, presented for comparison purposes. The review of the Quarterly Information – ITR of the quarter ended June 30, 2011 and the examination of the financial statements from the period ended December 31, 2011 were conducted under the responsibility of other independent auditors, who issued review and audit reports dated July 26, 2011 and February 14, 2012, respectively, with no changes.

(In thousands of reais)

1. OPERATIONS

a. Controlling shareholders

Telefônica Brasil S.A. (Company or Telefônica do Brasil) is headquartered at Rua Martiniano de Carvalho, 851, in the capital of the state of São Paulo, Brazil. The Company belongs to the Telefonica Group, the telecommunications industry leader in Spain which is also present in several European and Latin American countries. The Company is controlled by Telefónica S.A., which as of December 31, 2011 and June 30, 2012, held total direct and indirect interest of 73.81% of which 91.76% are common shares and 64.60% are preferred shares.

b. Operations

The Company's business purpose is the rendering of fixed wire telephone and data services in the state of São Paulo and mobile telephone services nationwide under Fixed Switch Telephone Service Concession Agreement (STFC) and authorizations, respectively. The Company and its subsidiaries have also authorizations to provide other telecommunications services, such as data communication to the business market, broadband internet services, mobile telephone services (Personal Mobile Services -SMP) and pay TV services, being: (i) by satellite all over the country; (ii) using (MMDS) Multichannel Multipoint Distribution Service technology in the cities of São Paulo, Rio de Janeiro, Curitiba and Porto Alegre and (iii) through cable in the cities of São Paulo, Curitiba, Foz do Iguaçu and Florianópolis.

The concessions and authorizations were granted by ANATEL, which is in charge of regulating the telecommunication sector in Brazil, according to the Law No 9.472, of July 16, 1997 – General Law of Telecommunication (“*Lei Geral das Telecomunicações*” - LGT), that was amended by Law No 9.986, of July 18, 2000 and No. 12485 of September 12, 2011 (Notes 1.b.1 and 1.b.2).

b.1. Fixed Switch Telephone Service Concession Agreement (STFC)

The Company is the concessionaire of the STFC to render fixed telephony services in the local network and national long distance calls originated in sector 31 of region 3, which comprises the State of São Paulo (except the municipalities that form the sector 33), established in the General Concession Plan (PGO/2008).

The current Concession Agreement dated June 30, 2011, in place since July 1, 2011 awarded as an onerous title, will be valid until December 31, 2025. However, the agreement can be reviewed on December 31, 2015 and December 31, 2020. Such condition allows ANATEL to set up new requirements and goals for universalization and quality of telecommunication services, according to the conditions in place at that moment.

Telefônica Brasil S. A.

NOTES TO QUARTERLY FINANCIAL INFORMATION

June 30, 2012

(In thousands of reais)

The Concession Agreement establishes that all assets owned by the Company which are indispensable to the provision of the services described on such agreement are considered reversible assets and are deemed to be part of the concession assets. These assets will be automatically returned to ANATEL upon expiration of the concession agreement, according to the regulation in force at that moment. On June 30, 2012, the carrying amount of reversible assets is estimated at R\$ 6,744,275 (R\$ 6,698,899 as of December 31, 2011), comprised of switching and transmission equipment and public use terminals, external network equipment, energy equipment and system and operation support equipment.

In accordance with the Concession Agreement, every two years, during the agreement's new 20-year period, public regime companies will have to pay a fee which will correspond to 2% of its prior-year SFTC revenue, net of taxes and social contributions.

b.2. Commitments and relatives frequencies for mobile services

The business of Vivo S.A. (Vivo), including the services they can provide, are also regulated by ANATEL. Its action takes place through the issue of regulations and complementary plans.

The authorizations granted by ANATEL may be renewed just once, for a 15-year period. Biannually, after the first renewal, a payment of rates equivalent to 2% (two percent) of the company's revenue for the preceding year, net of taxes and mandatory social contributions related to the application of the Basic and Alternative Plans of Service.

Vivo is engaged in cellular mobile telephone services (Personal Mobile Service – SMP), including the activities necessary or useful for the performance of said services, in conformity with the authorities granted to it.

In the auctions for sale of national frequencies of 2.5 GHz pegged to the range of 450 MHz performed by ANATEL on June 12 and 13, 2012, Vivo won the lot 3 among those offered, in accordance with the tender

No. 004/2012/PVCP/SPV-Anatel.

Accordingly, when this lot is awarded to Vivo, it will improve its services to the fourth generation technology (4G) throughout the Brazilian territory operating at the range of 2.5 GHz, with bandwidth of 20+20 Mhz. In addition to bandwidth of 2.5 GHz, this lot includes a bandwidth of 450 MHz for rural areas of the states of Alagoas, Ceará, Minas Gerais, Paraíba, Pernambuco, Piauí, Rio Grande do Norte, São Paulo and Sergipe.

The amount offered for lot 3 was R\$ 1.05 billion. The amount to be paid and the use terms will observe the rules provided for by the tender and determined by ANATEL, adjusted in accordance with the remaining term of the licenses.

The end amount of licenses will be recorded as intangible assets by Vivo upon execution of the terms together with ANATEL, which may occur in the third quarter of 2012.

The information on operation areas (regions) and deadlines of authorization for radiofrequencies of 800/1900/2100 MHz and of the 23 lots (900 and 1800 Mhz) where Vivo was the winner, are the same of Note 1.b2 – Authorization and Frequencies in P&L of December 31, 2011.

As a result of the acquisition of its interest in Telecom Itália, Telefónica S.A. has no direct involvement with TIM operations. Furthermore, any transactions between the Company, Vivo and TIM are ordinary transactions regulated by ANATEL.

2. Basis of presentation of quarterly information

The consolidated quarterly financial information (ITR) for the period ended June 30, 2012 are presented in thousands of reais (except when mentioned otherwise) and were prepared considering that the Company will continue operating as a going concern.

The individual quarterly financial information (ITR) was prepared and is presented in accordance with the accounting practices adopted in Brazil, which comprise the rules of the Brazilian Securities and Exchange Commission (CVM) and the Brazilian Accounting Pronouncements Board (CPC), in accordance with the International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB), except for investments in subsidiaries evaluated based on the equity method.

Telefônica Brasil S. A.

NOTES TO QUARTERLY FINANCIAL INFORMATION

June 30, 2012

(In thousands of reais)

The consolidated quarterly financial information (ITR) was prepared and is presented in accordance with International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB), which are not different from the accounting practices adopted in Brazil, which comprise the CVM and CPC's rules.

These quarterly information have been prepared according to the principles, practices and accounting principles consistent with those adopted in preparing the financial statements for the fiscal year ended December 31, 2011, in addition to the new pronouncements, interpretations and amendments that entered into force on 1st January 2012, described as follows:

- **Amendments to IAS 12, Income Taxes - Recovery of Underlying Assets:** This amendment clarified the determination of deferred tax on investment property measured at fair value. Introduces a rebuttable presumption that the deferred tax on investment property measured at fair value model in IAS 40 should be set based on the fact that their carrying amount will be recovered through the sale. The Telefônica Group has chosen not to assess the investment property at fair value method in the initial adoption of International Accounting Standards, so this change does not apply.
- **Changes IFRS 7, Financial Instruments: Disclosures – Increase in Disclosures Related to Write-offs:** This amendment requires additional disclosures about financial assets that were transferred but not written off in order to enable the user of the information understand the relationship with those assets that have not been downloaded and their associated liabilities. In addition, the amendment requires disclosures about the continuing involvement in financial assets written off to allow the user to assess the nature of the entity's continuing involvement in those assets disposed of, as well as the associated risks. This amendment became effective for annual periods beginning on or after July 1, 2011 and in Brazil, only after the approval of the CPC and deliberation by the CVM for public companies. Currently this amendment is in the CPC Public Hearing.

It is worth mentioning that the amendment in question only affects the disclosures, but does not currently apply to the Company and has no impact on their performance or financial condition.

Telefônica Brasil S. A.**NOTES TO QUARTERLY FINANCIAL INFORMATION****June 30, 2012****(In thousands of reais)****New IFRS and Interpretations of the IFRS (International Financial Reporting Interpretations Committee - IFRIC) not yet effective at June 30, 2012**

At the date of these quarterly information the following IFRS, amendments and interpretations of the IFRIC have been issued but their application was not mandatory:

		Application required: fiscal years beginning at
Standards and Amendments to Standards		
Amendments to IAS 1	<i>Presentation of items of other comprehensive income</i>	July 1, 2012
IFRS 10	<i>Consolidated Financial Statements</i>	January 1, 2013

IFRS 9	<i>Financial instruments</i>	January 1, 2015
Amendments to IFRS 7	<i>Disclosure in transaction from IFRS 9s</i>	January 1, 2015

The Company is currently analyzing the impact of the application of these standards, amendments and interpretations. Based on preliminary analysis conducted up to the present date, the Company estimates that their application will not have a significant impact on the consolidated financial statements on first time adoption. Notwithstanding, changes introduced by IFRS 9 will affect the presentation of financial assets and transactions with those occurring as from January 1, 2015.

The Company's Board of Directors, on a meeting held on July 24, 2012, authorized the issuance of this quarterly financial information.

2.1 Comparative information

This ITR compares the quarters ended June 30, 2012 and 2011, except in relation to the balance sheets, which are comparing the financial position as of June 30, 2012 with the financial position as of December 31, 2011.

The Company and its subsidiaries have no seasonal operations.

The table below shows the relationship of the companies directly and indirectly controlled by the Company and the Company's interest in their equity:

(a) fully consolidated since April, 2011 (Notes 1 and 3).

(b) fully consolidated since January 2011 and full subsidiaries as from June 2012.

(c) jointly controlled.

The main events and changes in the consolidation environment that, due to their significance, should be considered for analysis are presented as follows:

a) Acquisition of Vivo Part. by the Company

In the Company's Extraordinary General Meeting held on April 27, 2011, was approved by unanimous vote, the Protocol of Merger of Shares and Justification signed between the Company and Vivo Part.. Each share of Vivo Part. has been exchanged by 1.55 shares of the Company. Due to this merger of shares, the Company's capital was increased by R\$ 31,222,630.

b) Grouping of SMP authorizations and incorporations of Vivo Part.

In the meeting of the Board of Directors of the subsidiary Vivo Part., held on June 14, 2011, was approved the proposal for merger of licenses to provide SMP service (previously held by Vivo Part. in the state of Minas Gerais and by Vivo in other states of Brazil), thus unifying the operations and of Authorization terms of SMP operation in Vivo.

The means proposed in making this corporate restructuring viable were the transfer, on October 1, 2011 of assets, rights and obligations related to the operation of SMP services in Minas Gerais by Vivo Part. to Vivo (mobile operator in the group that had SMP authorizations in other states of Brazil). When this grouping was completed, Vivo Part. became a holding.

In accordance with the provisions of Law No. 6404/76, a specialized company was engaged to prepare a valuation study for the part of Vivo Part.'s net assets corresponding to SMP operations in the state of Minas Gerais that was transferred to Vivo S.A.'s equity, as well as for the net equity of Vivo Part. that was incorporated into the Company.

Telefônica Brasil S. A.

NOTES TO QUARTERLY FINANCIAL INFORMATION

June 30, 2012

(In thousands of reais)

Due to the fact that Vivo Part. was a whole owned subsidiary of the Company, since April 27, 2011, which net equity already included the investment of the shares in Vivo S.A., the merger: i) did not result in a capital increase for the Company; ii) there was no exchange of shares held by Vivo Part. non-controlling shareholders for Company's shares; and iii) there was no need to prepare a net equity valuation report to market price for the calculation of the exchange share ratio, as there didn't exist non-controlling shareholders to be protected.

Accordingly, under the terms of article 226, paragraphs I and II of Law No. 6404/76, the shares held by the Company in net equity value of Vivo Part. were cancelled. On conclusion of the corporate restructuring, Vivo Part. was incorporated by the Company on October 3, 2011 and Vivo S.A. became its full subsidiary, streamlining and rationalizing the cost structure of the companies involved.

The ITR include the Company's consolidated results of Vivo Part. (Incorporated by the Company on October 3, 2011) and Vivo results from April 1st, 2011. Vivo Participações S.A. and Vivo S.A. were included in the Company's consolidated financial statements through the full consolidation method.

c) Consolidation of TVA companies

As from June 1, 2011, the Company started to include the companies GTR Participações e Empreendimentos S.A. (GTR), TVA Sul Paraná S.A. (TVA Sul), Lemontree Participações S.A. (Lemontree) and Comercial Cabo TV São Paulo S.A. (Comercial Cabo) in its consolidated financial statements by applying the full consolidation method. Previously, these companies were included in the Company's consolidated financial statements through the equity method.

d) Acquisition of Lemontree in 2011

On September 29, 2011, the Company purchased 68,533,233 common shares representing 49% of the referred class of shares of Lemontree Participações S.A., which is the holder of 80.1% of the common shares of Comercial Cabo TV São Paulo S.A., a company engaged in cable TV services in the State of São Paulo. As a consequence, the Company currently has an interest of 83% in Lemontree Participações S.A. and 93.19% in Comercial Cabo TV São Paulo S.A. This transaction was considered as a non-controlling shareholders' acquisition for the purpose of disclosure and measurement in these quarterly information.

e) Acquisition of Lemontree and GTR shares in 2012

In June 2012, the Company exercised its call option in relation to (a) 71,330,508 remaining common shares, corresponding to 51% of the voting capital of Lemontree, which controls Comercial Cabo, a company that provides cable television services in the state of São Paulo; and (ii) 923,778 remaining common shares of GTR, holder of 50.9% of TVA Sul common shares, a company that provides cable television services outside the state of São Paulo, given that these shares were previously held by Abril group. The call option was exercised at said date, and concludes the acquisition of Lemontree and GTR remaining shares, which started with the partial exercise of the call option implemented on September 29, 2011, with the acquisition of Lemontree common shares, representing 49% of its capital.

Telefônica Brasil S. A.

NOTES TO QUARTERLY FINANCIAL INFORMATION

June 30, 2012

(In thousands of reais)

The amounts corresponding to acquisition of the remaining common shares of Lemontree and GTR, as described above, totaled R\$ 37,737 and R\$ 6,434, respectively.

This transaction was considered the acquisition of non-controlling shareholders for presentation and measurement of this interim financial information.

With the exercise of this option, the Company now holds all voting shares and equity-representative shares of Lemontree and GTR and, indirectly of the companies providing cable television services located in the cities of São Paulo, Curitiba, Foz do Iguaçu and Florianópolis.

f) Disposal of shares of Zon Multimédia – Serviços de Telecomunicações e Multimédia, SGPS, S.A.

On May 8, 2012, the Company disposed the 1,618,652 (1,196,395 directly and 422,257 through Aliança Atlântica) common shares representing 0.52% of Zon Multimédia – Serviços de Telecomunicações e Multimédia, SGPS, S.A. (ZON) voting capital. The positive consolidated income (amount obtained from the disposal of the shares held and write-off of investments) of this transaction totaled R\$ 1,486.

g) Corporate restructuring

In Board of Directors' meeting held on May 15, 2012, the corporate restructuring proposal was approved for implementation through partial spin-off and merger involving full subsidiaries of the Company A. Telecom S.A. (ATelecom), Telefônica Data S.A. (TData), Telefônica Sistema de Televisão S.A. (TST), Vivo, Comercial Cabo and TVA Sul, so that, at the end of this process, the economic activities which are not telecommunication services, including value added services (as defined in Art. 61 of LGT), provided by the full subsidiaries, will be focused on Telefônica Data S.A. (which will remain operating), and the other telecommunication services will be unified by the Company, which, therefore, will incorporate the

companies.

Besides rationalizing the provision of services, the corporate restructuring (which is now feasible because of the applicable laws to STFC concessionaires) aims at streamlining the Company's current organizational structure, as well as integrating the business and generating synergy.

This operation was submitted to ANATEL on May 15, 2012 and will only become effective after its approval.

3. BUSINESS COMBINATION – ACQUISITION OF VIVO PART.

As described in Note 2.a on April 27, 2011, the shareholders' meetings of the Company and Vivo Part. approved the acquisition of 100% of the shares of the latter by the Company, each share of Vivo Part. has been replaced by 1.55 shares of the Company. This operation was recorded using the acquisition method.

The provisional fair values, goodwill and cost of the identifiable assets acquired and liabilities assumed of Vivo Part. at acquisition dates are as follows:

a) Tax loss carryforward and negative tax base: represent the amount recorded by the Company and its subsidiaries which, pursuant to the Brazilian legislation, may be offset up to the limit of 30% of the taxable income computed in the coming fiscal years and subject to no statute of limitations. The subsidiaries TData, AJato Telecomunicações Ltda (Ajato), GTR, Lemontree and TST did not record the potential deferred income and social contribution taxes credit that would arise from the use of the tax loss carryforwards and negative tax bases in the amount of R\$ 253,328 at June 30, 2012 (R\$ 241,361 at December 31, 2011), given the uncertainty, at this time, as to these subsidiaries ability to generate sufficient future taxable results to ensure the realization of these deferred taxes.

Below we present the tax credit amounts from tax loss carryforwards recognized and not recorded by the Company and its subsidiaries. During six months period ended June 30, 2012, there was no significant change in the Company's business or those of its subsidiaries that would indicate the need for a provision for the aforementioned tax credits.

On June 30, 2012, the Company and its subsidiaries kept various judicial tax deposits amounting to R\$ 1,501,647 (R\$ 1,449,211 at December 31, 2011) for the Company and R\$ 2,113,569 (R\$ 1,938,470 at December 31, 2011) for consolidated. In Note 19 – Provisions, we presented more details on what generated these deposits.

A brief description of the main consolidated judicial tax deposits is as follows:

- PIS and COFINS

The subsidiary Vivo is part in judicial claims involving the following matters: i)

claim arising from tax debits offsetting with credits derived from overpayments not recognized by the tax authorities; ii) tax debt derived from underpayment due to fire in the ancillary statements (DCTF); and iii) disputes referring to changes in rates and increase in the taxable bases introduced by Law No. 9718/98.

As of June 30, 2012, the balance of escrow deposits amounted to R\$ 70,198 (R\$ 68,532 at December 31, 2011). The amounts provisioned related to such escrow deposits are disclosed in note 19.

- CIDE

The Company and subsidiaries are involved in administrative and judicial disputes for the exemption of the CIDE levied on offshore remittances of resources derived from agreements for the transfer of technology, brand and software licensing, etc.

On June 30, 2012, the balance of escrow deposits amounted to R\$ 4,957 (R\$ 4,852 at December 31, 2011) for the Company and R\$ 129,695 (R\$ 123,228 at December 31, 2011) for the consolidated. The amounts provisioned related to such escrow deposits are in note 19.

- FISTEL

Due to extensions of licenses terms for utilization of telephony switches associated with the performance of commuted fixed telephony services (fixed operators) and extensions for the use of radio frequencies associated with the performance of personal mobile services (mobile operators), ANATEL collected TFI on the extension of the licenses granted and on the radio base stations, mobile stations and radio links.

Such tax collection was due to ANATEL's belief that the extension was a TFI taxable event. The Company and its subsidiaries have separately contested this tax at the administrative and judicial levels because they consider this collection improper.

On June 30, 2012, the balance of judicial deposits for Company and consolidated totaled R\$ 794,644 (R\$ 767,530 at December 31, 2011). The amounts provisioned related to these judicial deposits are disclosed in Note 19.

- IRRF

The Company and its subsidiaries had legal discussions related to the following topics: (a) have no IRRF (Withholding Income Tax) incidence over remittances to other countries for out coming traffic (fixed operators); (b) interest on shareholder's equity paid (mobile operators); (c) IRRF levied on rent and royalties income, salary, and fixed-rate financial investments; (d) debts referring to the offsetting of IRPJ and CSLL overpayments not recognized by the Federal tax authorities, and debt referring to fines derived from the untimely payment of IRRF.

As of June 30, 2012, the balance of judicial deposits totaled R\$ 47,458 (R\$ 46,051 at December 31, 2011) for the Company and R\$ 54,225 (R\$ 61,469 at December 31, 2011) for the consolidated. The amounts provisioned related to such escrow deposits are disclosed in note 19.

- IRPJ

The Company and its subsidiaries were party to judicial claims involving the following matters: (a) claims arising from tax debits offsetting with credits derived from overpayments not recognized by the Federal tax authorities; and (b) requirement of IRPJ estimates and lack of payment – debts in the integrated system of economic-fiscal information (SIEF).

As of June 30, 2012, the balance of escrow deposits totaled R\$ 23,449 (R\$ 22,617 at December 31, 2011) for the Company and R\$ 24,698 (R\$ 23,866 at December 31, 2011) for the consolidated. There are amounts provisioned related to such escrow deposits which are disclosed in note 19.

- EBC (Empresa Brasil de Comunicação) Contribution

Sinditelebrasil (Union of Telephony and Cellular and Personal Mobile Service Companies) filed a writ of mandamus challenging the Contribution for Development of the Public Radio Broadcasting payable to EBC, created by Law No. 11,652/2008. The Company and its subsidiaries, as union members, made escrow deposits referring to that contribution.

a) In October 2007, a credit facility to the Company was approved to finance investments in services and products produced domestically. All of these resources have been drawn and their investments are proven and accepted by BNDDES.

b) In August 2007, Vivo entered into a credit facility with BNDDES in the amount of R\$ 1,530,459. The funds borrowed were used to finance investment projects in order to expand coverage and increase network capacity throughout the country. Vivo S.A. received the funding gradually and there was no remaining amount available under this credit facility at December 31, 2011. This agreement has a term of seven years, with repayment of principal in 60 consecutive monthly installments commencing September 15, 2009, after a grace period of two years.

On October 14, 2011 a credit facility totaling R\$ 3,031,110 was obtained from BNDDES. These funds will be invested in the expansion and improvement of the current network, implementation of infrastructure necessary for new technology, in the period from 2011 to 2013, as well as in the construction of a data center in Tamboré (State of São Paulo) and in social projects.

The agreement is effective for eight years and its grace period expires on July 15, 2014, until when only interest will be paid, on a quarterly basis. After this period, interest and amortization of the principal will be paid in 60 consecutive monthly installments.

NOTES TO QUARTERLY FINANCIAL INFORMATION

June 30, 2012

(In thousands of reais)

Since the interest rates applied to two of the five sub-credit lines which constitute this financing agreement are lower than those prevailing in the market (TJLP and TJLP + 1.48%), this transaction falls under the scope of IAS 20/CPC 7. As such, using the effective interest rate method set forth in IAS 39/CPC 38, considerations made are as follows: comparison between i) the total amount of debt calculated based on contractual rates; and ii) the total amount of debt calculated based on market rates (fair value). The government grant from BNDES, adjusted to present value and deferred according to the useful life of the financial asset, was R\$ 19,870 (R\$ 21,418 at December 31, 2011) at June 30, 2012.

Up to June 30, 2012 R\$ 1,004,177 (R\$ 1,004,177 at December 31, 2011) had been released.

c) On January 2010, a financing line with the BNDES in the amount up to R\$ 319,927 was approved through the Investment Maintenance Program (BNDES-PSI). The funds borrowed are being used to improve the network capacity through the acquisition of domestic equipment under previously signed equipment financing with BNDES (Finame), and released as investments are made. Up to June 30, 2012, R\$ 184,489 were approved.

Since the interest rate on this credit line is lower than the rates prevailing in the market (4.5% to 5.5% pre-fixed), this transaction falls into IAS 20/CPC 7. Accordingly, using the effective interest method set forth in IAS 39/CPC 38, considerations made are as follows: comparison between i) the total amount of debt calculated based on contractual rates; and ii) the total amount of debt calculated based on market rates (fair value). The government grant from BNDES, adjusted to present value and deferred according to the useful life of the financed equipment, resulted in the amount of R\$ 26,442 up to June 30, 2012 (R\$ 29,007 at December 31, 2011).

With the merger process mentioned in note 2.1.b, Vivo answers for the loan agreements which belonged to the former Vivo Part. of which the balance totaled R\$ 28,205 at June 30, 2012 (R\$ 24,848 at December 31, 2011).

d) In November 2010 and March 2011, BNDES approved credit facilities for Comercial Cabo TV São Paulo S.A. in the amount of R\$ 40,163. Up to June 30, 2012 R\$ 34,382 (R\$ 24,237 at December, 2011) were granted. This transaction also falls under the scope of IAS 20/CPC 7 because the interest rate is lower than the market rate (5.5% p.a. pre-fixed), and the subvention granted by BNDES, adjusted to present value,

resulted – as of June 30, 2012 – in the amount of R\$ 2,694 (R\$ 2,401 at December 31, 2011).

e) In December 2010, BNDES approved a credit facility for the Company, totaling R\$ 5,417, through PSI program. On June 30, 2012, the balance was R\$ 1,934 (R\$ 1,912 at December 31, 2011). This transaction also fall under the scope of IAS 20/CPC 7, because the interest rate is lower than the market rates (5.5% p.a. pre-fixed), and the subvention granted by BNDES, adjusted to present value, resulted – as of June 30, 2012 – in the amount of R\$ 353 (R\$ 376 at December 31, 2011).

Médiocrédito

Loan agreed in 1993 between Telecomunicações Brasileiras S.A. – Telebrás and Instituto Centrale per il Credito a Médio Termine – Mediocredito Centrale in the amount of US\$45,546, in order to build a rural telephony via satellite network in the State of Mato Grosso. This loan is paid semiannually and matures in 2014. There is a derivative contracted to hedge the exchange rate currency risks related to such debt and, given it is assessed as an effective hedge, the hedge accounting methodology has been adopted. Therefore, at June 30, 2012, the derivative associated to this instrument was recognized at its fair value as of such date.

Banco Europeu de Investimentos - BEI

Vivo signed an agreement with EIB for a credit facility in the amount of €250 million (equivalent to U\$ 365 million). The funding was received in two portions: the first on December 19, 2007 and the second on February 28, 2008. The agreement has a term of seven years, with repayment of principal in two installments falling on December 19, 2014 and March 2, 2015. Interest on this financing is paid semiannually according to the date of credit release. This financing is secured with a swap agreement that converts the foreign exchange risk into a percentage of CDI (interbank deposit rate) variation.

Banco do Nordeste – BNB

On January 29, 2007, Vivo S.A. entered into a credit facility with BNB in the amount of R\$ 247,240. The funds borrowed were used to expand coverage and increase mobile network capacity in the Northeastern region of Brazil. The agreement has a term of ten years, with repayment of principal in 96 installments after a grace period of 2 years.

On October 30, 2008, Vivo S.A. entered into a credit facility with BNB in the amount of R\$ 389,000. Capital raised by Vivo Part.

2nd Issuance

In connection with the First Securities Distribution Program in the amount of R\$2 billion announced on August 20, 2004, the subsidiary Vivo Part. issued debentures related to the 2nd issuance of the Company, in the amount of R\$1 billion, on May 01, 2005, with a term of ten years, starting from the issuance date on May 01, 2005.

Debentures were issued in two series: R\$ 200 million in the first series and R\$800 million in the second series with a final maturity on May 4, 2015. The first series was early redeemed on January 31, 2011, and the second series pay interest semiannually, after rescheduling, at a rate of 106.0% (second series) of accumulated daily averages rates of interbank deposits (DI) calculated and published by CETIP S.A. (Clearing House for the Custody and Financial Settlement of Securities).

On July 29, 2011, the General Debenture holder Meeting resolved on the approval of transfer of debentures of the 2nd Public Distribution issued by Vivo Part. for Telefônica Brasil without changing the top terms and conditions, and the correspondent amendment of the deed in order to reflect the change in the issuer's ownership.

2nd Series

The 2nd series debentures of the 2nd issuance of the company were rescheduled on May 3, 2010, according to the conditions approved at the Board of Directors' meeting held on May 29, 2010. The total rescheduled amount was R\$ 340,230 and the company redeemed and cancelled debentures of dissenting debenture holders in the amount of R\$ 459,770. The new interest accrual period is 24 months from May 1, 2010, during which time the interest accrual conditions established herein shall remain unchanged. During this second interest accrual period (until May 1, 2012), the Company's debentures shall carry an

interest rate of 106.0% of the average rate of one-day interbank deposit (DI), calculated according to the formula stated in clause 4.9 of the "2nd Issuance Indenture".

On April 13, 2012 the Board of Directors approved the anticipate redemption of debentures of the 2nd issue's 2nd series. This redemption took place on May 2, 2012, totaling 21,936 debentures amounting R\$ 219,360, under the following terms and conditions: The debentures were redeemed and canceled, the redemption was performed by the unit nominal value plus remuneration owed up to the payment date, and no premium was paid because the redemption date coincided with the re-agreement due date. The remaining debentures were repurchased on April 9 and 10, 2012, amounting to 539 and 11,548 respectively, totaling R\$ 120,870, considering the Facultative Acquisition Clause of the Deed and later canceled.

4th Issuance

On September 04, 2009, the Board of Directors of Vivo Part. approved the 4th public issuance, by the company, of simple, unsecured debentures not convertible into stock, all of them registered and of book-entry type, issued in up to three series, with term of 10 years.

The total amount of the issuance was R\$ 810 million, of which the basic offering corresponds to R\$ 600 million, added by R\$ 210 million due to the full exercise of the additional debentures option.

Telefônica Brasil S. A.

NOTES TO QUARTERLY FINANCIAL INFORMATION

June 30, 2012

(In thousands of reais)

A total of eight hundred and ten thousand (810,000) debentures were issued in three (3) series, being 98,000 debentures in the 1st series, 640,000 in the 2nd series and 72,000 in the 3rd series. The amount of debentures allocated to each of the series was decided in mutual agreement between the Vivo Part. and the Leader Arranger of the Offering, after the conclusion of the Bookbuilding procedure.

The remuneration for the 1st series is 108.00% of CDI, for the 2nd series is 112.00% of CDI and to the 3rd series, coupon of 7.00% per year (on face value updated by the Extended Consumer Price Index - IPCA variation). These debentures accrue interest payable on a half-yearly basis in the 1st and 2nd series and annual basis in the 3rd series.

Rescheduling of each series is provided for as follows: 1st series, on October 15, 2012, 2nd series, on October 15, 2013, and 3rd series, on October 15, 2014.

The proceeds raised as from the issue of the offering were used for full payment of the debt relating to the 6th issue of commercial promissory notes of the company and to supplement of the working capital of the company.

The transaction costs in connection with this issuance, in the amount of R\$ 1,390 at June 30, 2012 (R\$ 1,981 at December 31, 2011), were allocated to a liabilities reducing account as deferred cost and are recorded as financial expenses, pursuant to the contractual terms of this issue. The actual rate of this issue, considering the transaction costs is 112.13% of the CDI.

The General Debenture-holder Meeting held on July 29, 2011 resolved on the transfer approval of the 4th Public Distribution of debentures issued by Vivo Part. to Telefônica Brasil without changes of terms and conditions, and of the correspondent amendment of the Deed in order to reflect the change in the issuer's ownership.

Funding by Telemig Celular (company incorporated by Vivo Part. at June 1, 2010)

1st Issuance

In compliance with the Contract for Provision of SMP Services, in conformity with the Public Selection No 001/07, the State of Minas Gerais, acting through the State Department for Economic Development, has undertaken to subscribe debentures issued by Telemig (company merged at June 1, 2010), within the scope of the "*Minas Comunica*" Program, using proceeds from the Fund for Universalization of Access to Telecommunications Services (*Fundo de Universalização do Acesso a Serviços de Telecomunicações*) – FUNDOMIC. Under the terms of this Program, Telemig Celular would make the SMP service available to 134 locations in the areas recorded as 34, 35 and 38.

Also according to the program, 5,550 simple, unsecured, nonconvertible, registered, book-entry type debentures would be issued, without stock certificates being issued, in up to five series.

In consideration for the certification by the State Department of Economic Development of the service to be provided to 15 locations, 621 debentures were issued in the 1st series of the 1st issuance, amounting to R\$ 6,210 in December 2007. In March 2008, for the service at 42 locations, 1,739 debentures were issued in the 2nd series of the 1st issuance, valued at R\$ 17,390. At December 31, 2008, for the service at 77 locations, 3,190 debentures were issued in the 3rd series of the 1st issuance, valued at R\$ 31,900 thus completing the program for providing service to 134 locations inside the state of Minas Gerais.

Provisions and labor contingencies refer to labor claims filed by former's employees and employees at outsourced companies (the later alleging joint or subsidiary liability) claiming for, among others, overtime, wage equivalence, post-retirement salary supplements, job hazard premium, additional for unhealthy work conditions and claims related to outsourcing services.

The Company is also defendant in labor claims filed by retired former employees regarding the Medical Care Plan for Retired Employees (PAMA), which require, among other issues, the annulment of the change occurred in such plan. The claims await the decision by the Regional Labor Court of São Paulo. Based on the opinion of its legal advisors and the current jurisdictional benefits, Company management considers this claim as a possible risk. No amount has been assigned for these claims, since in the case of loss, estimating the corresponding amount payable by the Company is not practicable at this time.

Additionally, the Company is part to public civil actions filed by the Department of Labor, in respect of the decision to restrain the Company to continue hiring outsourced companies to carry out the Company's main activities. No amounts were assigned to the possible likelihood of an unfavorable outcome related to these public civil actions in the table above, since in these phases, in the event of loss, it is not possible to estimate the monetary loss for the Company.

FUNTTEL – Telecommunications Technological Development

On June 30, 2012, The Company and its subsidiaries held administrative and judicial proceedings which are awaiting judgment at 1st administrative level and 2nd judicial level. At June 30, 2012, the amounts involved totaled R\$ 185,733 (R\$ 232,343 at December 31, 2011) for the Company and R\$ 591,483 (R\$ 622,606 at December 31, 2011) for the consolidated.

Such proceedings concern the collection of contributions to FUNTTEL on other revenues (not related to telecom services), as well as on income and expenses transferred to other operators (interconnection).

According to the Management and its legal advisors' opinion, the chances of success in these processes are possible.

Telecommunication Inspection Fund (FISTEL)

Due to the extension of the effective term of licenses for using telephony switches related to the exploitation of STFC (fixed line operators) and the extension of the effectiveness of right to use radiofrequency associated with the operation of personal mobile service (Mobile Operators), ANATEL performs the collection of the Installation Inspection Charge (TFI).

This collection derives from the understanding of ANATEL that the extension would represent a taxable event of TFI. Based on the understanding it corresponds to an undue collection, the Company and its subsidiaries separately challenged the aforesaid tax in the administrative and judicial levels. At June 30, 2012, the amounts involved totaled R\$ 216,520 (R\$ 197,666 at December 31, 2011) for the Company with full deposit and R\$ 1,492,115 (R\$ 1,504,365 at December 31, 2011) for the consolidated.

Regulatory provisions

On June 30, 2012, the Company and its subsidiaries were involved in several administrative proceedings against Anatel, which were filed based on alleged non-compliance with the obligations established in industry regulations, as well as in legal claims discussing sanctions by Anatel at administrative level, whose likelihood of an unfavorable outcome was assessed as probable, and a provision was recorded in the amount of R\$ 262,500 (R\$ 236,958 for the Company, given that R\$ 201,573 refers to the provision of administrative proceedings and R\$ 35,385 to administrative proceedings) at June 30, 2012 and R\$ 241,813 (R\$ 217,324 for the Company, given that R\$ 183,073 refers to the provision of administrative proceedings and R\$ 34,251 to evaluation of administrative proceedings filed) at December 31, 2011.

Possible civil contingencies

a) Community Telephone Plan – PCT. Refers to a Public Civil Action to which the Company is party related to the PCT, a plan that claims the possible indemnity rights to purchasers of telephone line expansion plans who did not receive shares for their financial investment in the municipality of Mogi das Cruzes. The total amount involved is approximately R\$ 215,942. Legal counsel assessed chances of loss as possible; São Paulo Court of Justice (TJSP) has amended the decision, judging the action as inadmissible. The telephony association of Mogi das Cruzes (plaintiff) filed a special appeal to alter this judgment, which is currently awaiting a decision.

b) Class actions filed by SISTEL Participants Association in the State of São Paulo, in which participants question the changes made to the health care plan for retired employees (PAMA), claiming the re-establishment of previous “status quo”. The claim is still in process as there is no judicial decision at any instance. The risk of loss attributed to this lawsuit by the Company’s legal counsels is possible. The amount is inestimable and the requests illiquid due to its unenforceability, since they involve the return of the conditions regarding the former plan.

c) Public civil actions filed by the i) ASTEL-SISTEL Members Association in the State of Sao Paulo and by ii) FENAPAS - National Federation of Associations of Pensioners, Pensioners and Pension Funds

Participants in the Telecommunication Sector, both against SISTEL, the Company and other operators, aiming the annulment of PBS pension plan split, claiming “the dismantling of SISTEL Foundation pension system, which originated several specific plans PBS-mirrors, and corresponding allocation of resources deriving from technical surplus and tax contingencies existing at the time of the split. The risk attributed to this lawsuit by the Company’s legal counsels is possible. The amount is inestimable and the requests illiquid due to its unenforceability, since it involves the assets spun-off from SISTEL referring to the telecommunication operators of the former Telebrás System.

d) The Public Prosecutor Office of the State of São Paulo commenced a class action claiming moral and property damages suffered by all consumers of telecommunications services from 2004 to 2009 due to the bad quality of services and failures of the communications system. The public Prosecutor Office suggested that the indemnification to be paid should be R\$ 1 billion. The decision handed down on April 20, 2010 imposes the payment of indemnification for damages caused to all consumers who have filed a suit for such damages. Conversely, in the event that the number of consumers claiming should the award is not in line with the gravity of their damages, after the lapsing of one year, the judge determined that the amount of R\$ 60 million should be deposited in the Special Expenses Fund to Recover Natural Rights Damages (*Fundo Especial de Despesa de Reparação de Interesses Difusos Lesados*). It is not possible to estimate the number of consumers who will individually file suits nor the amounts claimed thereby. The Company filed an appeal on the merits of the case. The judgment effects are in abeyance. No amount has been assigned to the possible likelihood of an unfavorable outcome in connection with this action, since in the case of loss, estimating the corresponding amount payable by the Company is not practicable at this time. Likewise, establishing a provision for contingency equivalent to the amount sought is not possible.

e) The Company and its subsidiaries are involved in other civil claims, at several levels, related to service rendering. Such claims have been filed by individual consumers, civil associations representing consumer rights or by the Bureau of Consumer Protection (PROCON), as well as by the Federal and State Public Ministry. They are also involved in other claims of several types, related to the normal course of business. Total contingency amounts to R\$ 979,745 (Consolidated) and R\$ 420,472 (Company), whose likelihood of an unfavorable outcome has been assessed by their legal advisors as possible.

f) The Company and its subsidiaries have received fines regarding the noncompliance of "Decreto do SAC". We currently have several actions (administrative and judicial proceedings), whose likelihood of an unfavorable outcome has been assessed by legal advisors as possible and the total amount of R\$ 25,526 and R\$ 10,200 for the company.

g) Intellectual Property: Lune Special Projects Telecommunication Trade and Ind. Ltda, a Brazilian company, proposed the lawsuit on November 20, 2001 against 23 operators of mobile telecommunications service claiming to be possessed of the patent for caller ID, and they hold a trademark "Bina". The action is in order to interruption of that service by carriers and compensation equivalent to the amount paid by consumers for using the service.

There was unfavorable judgment to determine that Vivo refrain from selling mobile phones with Caller ID service (Bina), with a daily fine of R\$ 10,000 in case of noncompliance. Furthermore, the sentence condemns Vivo to pay compensation for royalties to be calculated in settlement of the judgment. Embargoes Declaration was opposed by all parties and the motion for clarification of Lune in order to understand the assessment of appropriate injunctive relief stage in the procedure. The Company will appeal against reasonable in light of this decision. The likelihood of an unfavorable outcome has been assessed by external legal advisors as possible. There is no way to determine the extent of potential liabilities with respect to this order.

h) Validity prepaid plan. Vivo, in conjunction with other wireless telecommunications carriers, are defendants in several lawsuits filed by prosecutors and consumer associations to contest the imposition of terms for use of prepaid minutes. The plaintiffs allege that the prepaid minutes must not expire after specific

period. Conflicting decisions were handed down by courts on the matter. Although we believe that our criteria for the determination of the deadline to comply with the standards of ANATEL, the likelihood of an unfavorable outcome has been assessed by their legal advisors as possible, except for collective action against Telemig, for which the probability of an unfavorable outcome in relation to this claim is considered remote, also based on the opinion of our legal advisors.

i) São Paulo Road and Highways Department (DER): The Company filed a legal proceeding with DER – state authority linked to the State Transportation Office – challenging the legitimacy of the charge for use of road areas for installation of the Company’s telephone cables. This proceeding was judged unfavorable at first and second levels and forwarded to the Supreme Court of Justice (STJ), in Brasília, which considered this proceeding totally favorable to the Company, as it understands that it is illegal for the DER to charge any fees. The DER filed appeal which is awaiting judgment. Considering the STJ opinion and the opinion of the Company’s legal counsel, the associated risk is treated as possible. On June 30, 2012, the amount involved totaled R\$ 270,859.

Possible regulatory contingencies

a) The Company and its subsidiaries are involved in administrative proceedings filed based on alleged non-compliance with the obligations established in industry regulations, as well as legal claims which discuss the sanctions by Anatel at administrative level, rating the risk of loss as possible for R\$ 992,190 (being R\$ 991,234 regarding the rating of administrative proceedings and R\$ 956 regarding the assessment of legal claims).

b) The Company maintains the amount of R\$ 34,037 in the judicial sphere, the likelihood of loss of which is possible (being R\$ 34,024 for the Company).

c) Administrative proceedings discussing payment of 2% charge on revenue from interconnection services due to the extension of right of use of SMP related radio frequencies: Under clause 1.7 of the Authorization Terms that grant right of use of SMP related radio frequencies, the extension of right of use of such frequencies entails payment every two years, during the extension period (15 years), of a 2% charge calculated on net revenue from the basic and alternative service plans of the service company, determined in the year before that of payment.

However, ANATEL determined that the 2% charge should be calculated on revenue from service plans as well as revenue from interconnection services, which is not provided for by clause 1.7 of the referred to Authorization Terms.

For considering, based on the provisions of the Authorization Terms, that revenue from interconnection services should not be included in the calculation of the 2% charge for radiofrequency use right extension, Vivo filed administrative proceedings contesting these charges, based on ANATEL's position.

According to its legal advisors' opinion, chances of success in these processes are possible.

d) Administrative Proceeding No. 08012.008501/2007-91: It is a proceeding filed in the scope of the Brazilian System Defending Competition ("SBDC") by Global Village Telecom Ltda ("GVT"), Intelig Telecomunicações Ltda, ("Intelig"), Transit do Brasil Ltda, and Easytone Telecomunicações Ltda, on August 6, 2007 against Claro S.A. ("Claro"), Tim Brasil Serviços e Telecomunicações S.A. ("TIM"), TNL SCS S.A. ("Oi") and Vivo, for supposed trust and price squeeze practices, with the objective of increasing VU-M tariff, thus increasing the costs of competitors. Due to the proceeding filed on August 21, 2008, the Economic Right Department ("SDE") started an administrative proceeding against the defendants in order to evaluate whether the practices adopted would fit into (i) items I, III and IV, article 20 and items V, article 21 and (ii) items I, III and IV, article 20 and items I and V, all of Law No. 8,884/94, to wit trust and price squeeze.

Telefônica Brasil S. A.**NOTES TO QUARTERLY FINANCIAL INFORMATION****June 30, 2012****(In thousands of reais)**

On March 25, 2010, SDE issued a Technical Note which: (i) dismissed the accusation of trust against all the defendants, recommending filing of such accusation, (ii) suggested excluding Oi from the group of defendants in the investigation of price squeeze for considering that its economic group would be responsible for paying VU-M and for not existing evidence of recurrent practices of prices below VU-M; (iii) recommended condemning Vivo, TIM and Claro, based on article 20, items I, III and IV, and article 21, item V, all of Law No. 8,884/94, for the increase in costs of competitors (price squeeze).

The proceeding is pending judgment by Administrative Council for Economic Defense "CADE".

The Company's legal advisors consider that Administrative Proceeding No. 08012.008501/2007-91 involves possible unfavorable outcome, therefore no related provision has been set up. If CADE hands down a proceeding against defendants only for price squeeze, fines imposed for similar cases have ranged from 0.5% to 1% of annual gross billing in 2006. However, in the remote case that CADE accepts the hypothesis of trust, initially dismissed by SDE, fines may range from 10% to 15% of the defendant's gross billing for 2006.

It is worth highlighting that Law No. 12529/12 became effective on May 29, 2012 and there is no case for which CADE has made a decision based on the new criteria. The estimation herein presented is based on a proportional account that considered the previous jurisdiction and the criteria of Law No. 8884/94.

19.4. Guarantees

On June 30, 2012, the Company and its subsidiaries granted guarantees for tax, civil and labor proceedings, as follows:

Closing balance	112,817	3,895,649	1,763,714

In addition to the guarantees presented above, at June 30, 2012, the Company and its subsidiaries had amounts in guarantee for legal proceedings (checking accounts and/or blocked short-term investments)

amounting to R\$ 68,902 (R\$ 73,205 at December 31, 2011), as presented in Note 8.

According to its bylaws, the Company is authorized to increase its capital up to the limit of 1,350,000,000 (one billion three hundred and fifty million) shares, common or preferred. The capital increase and consequent issue of new shares are to be approved by the Board of Directors, with observance of the authorized capital limit.

However, Brazilian Corporation Law – Law No. 6,404/76; article 166; IV establishes that capital may be increased through a general shareholders' meeting resolution held to decide about charter amendment, if statutory share capital limit has been reached.

Capital increases do not necessarily have to observe the proportion between the numbers of shares of each type. However, the number of preferred shares, nonvoting or with restricted voting, must not exceed 2/3 of the total shares issued.

Preferred shares are nonvoting, but have priority in the reimbursement of capital, without premium, and are entitled to dividends 10% higher than those paid on common shares, as per article 7 of the Company's

bylaws and clause II, paragraph 1, article 17, of Law No. 6,404/76.

In April 2011, there was a capital increase of R\$31,222,630 resulting from merger of 100% of shares of Vivo Part. into the Company, approved by the general shareholders' meeting of April 27, 2011 (see Note 3) corresponding to 619,364,658 (six hundred and nineteen million, three hundred and sixty-four thousand and six hundred and fifty-eight) shares of which 212,767,241 (two hundred and twelve million, seven hundred and sixty-seven thousand, two hundred and forty-one) are common shares and 406,597,417 (four hundred and six million, five hundred and ninety-seven thousand, four hundred and seventeen) are preferred shares.

b. Bonus paid on acquisition of interest from non-controlling shareholders

In accordance with the accounting practices adopted in Brazil previously to the adoption of the IFRS/CPC, goodwill was recorded when shares were acquired at a higher value than their book value, generated by the difference between the book value of shares acquired and the transaction's fair value. With the adoption of IAS 27R/CPC 35 and 36, the effects of all acquisition of shares from non-controlling shareholders are recorded under equity when there is no change in the shareholding. Consequently, these transactions no longer generate goodwill or income, and the goodwill previously generated from acquisition from non-controlling shareholders, including expenses inherent to these transactions, were adjusted based on the Company's equity. The acquisition of shares from non-controlling shareholders of Lemontree and GTR (described in Note 2.1e) totaled R\$ 40,519. The balance of this account at June 30, 2012 was R\$ 70,448 (R\$ 29,929 at December 31, 2011).

c. Capital reserves

Special goodwill reserve

This represents the tax benefit generated by the incorporation of Telefônica Data do Brasil Ltda. which will be capitalized annually in favor of the controlling shareholders to the extent the tax credits are realized under the terms of CVM Rule No. 319/99. The balance of this account at June 30, 2012 and December 31, 2011 was R\$ 63,074.

Other capital reserves

Due to the merger of the holdings: TBS Celular Participações Ltda, Portelcom Participações S.A. and PTelecom Brasil S.A. into Vivo; the Company registered the amount of R\$ 47,723 on this caption, which can be used as future capital increase. The balance of this account at June 30, 2012 and December 31, 2011 was R\$ 2,735,930.

Treasury shares

On November 7, 2011, the Company informed its shareholders and the market that the members of the Company's Board of Directors approved the acquisition of common and preferred shares issued by the own company, without capital reduction, for subsequent cancellation, disposal or maintenance in treasury for the purpose of increasing shareholder value. The repurchase will be made through the use of part of the existing capital reserve as of June 30, 2011, except for the reserves referred in Article 7 subsection (a) to (d) of CVM Instruction Nr. 10/80. This repurchase will begin from the deliberation date of the Board of Directors, remaining in force until November 6, 2012, being the acquisitions carried out in BM&FBOVESPA at market prices and is responsibility of Management to decide the moment and number of shares to be acquired, whether in a single operation, whether in a series of operations, as well as to define the parameters for carrying out the repurchase, within legal limits, until a maximum of 2,912,734 common shares and 25,207,477 preferred shares.

These represent the Company's treasury shares arising from: i) incorporation of TDBH (in 2006); ii) incorporation of Vivo Part. shares (in 2011); and iii) repurchase of common and preferred shares which, up to June 30, 2012, totaled R\$ 94,385, given that the average acquisition cost was R\$ 44.74 for common shares and R\$ 48.82 for preferred shares, which correspond to 40,700 common shares and 1,896,000 preferred shares. The balance of this account at June 30, 2012 was R\$ 112,107 (R\$ 79,339 at December 31, 2011).

The legal reserve is set up by allocation of 5% of the net profit for the year, up to the limit of 20% of the paid-up capital stock. Legal reserve may only be used to increase capital or to offset accumulated losses. The balance of this account at June 30, 2012 and December 31, 2011 was R\$ 877,322.

e. Proposed additional dividend

On April 11, 2012, the General Ordinary Meeting approved the allocation of the balance of income for the year ended December 31, 2011 amounting to R\$ 1,888,152, plus dividends and interest on equity for 2011, amounting to R\$ 107,874 less other comprehensive income, amounting to R\$(42,997), totaling R\$ 1,953,029, provided in the proposal for allocation of income to holders of common and preferred shares recorded by the company up to April 11, 2012.

As from May 2, 2012, the first portion, amounting to R\$ 1,075,550, began to be paid and the remaining balance will be paid through December 21, 2012 in one or more installments to be defined by the Company's Board of Directors and informed to the market. (b) Except plan CELPREV, managed by Sistel.

Telefônica Brasil S. A.**NOTES TO QUARTERLY FINANCIAL INFORMATION****June 30, 2012****(In thousands of reais)**

The Company and its subsidiaries, together with other companies from Telebrás System, sponsor pension plans and post-employment medical benefits, as follows: i) PBS-A; ii) PAMA; iii) CTB ; iv) PBS-Telefônica, PBS-Telesp Celular, PBS-TCO, PBS Tele Sudeste Celular and PBS Tele Leste Celular; v) Plano TCP Prev, TCO Prev e CelPrev; and vi) Benefit Plans Visão Telefônica and Visão Celular – Celular CRT, Telerj Celular, Telest Celular, Telebahia Celular and Telergipe Celular.

The Company and its subsidiaries sponsor, individually, a defined benefit retirement plan (PBS Plan), administered by Visão Prev, which covers approximately 0.14% of the Company's employees. In addition, a multiemployer plan (PBS-A) and health care plan (PAMA) are provided by the Company and its subsidiaries to retired employees and their dependents (administered by Fundação Sistel, with constituted fund and participants contributions), at shared costs. Contributions to the PBS Plans are determined based on actuarial valuations prepared by independent actuaries, in accordance with the rules in force in Brazil. The funding procedure is the capitalization method and the sponsor's contribution is a fixed percentage of payroll of employees covered by the plan, as described below:

<u>Plan</u>	<u>%</u>
PBS Telesp	6.82
PBS Telesp Celular	7.16
PBS Tele Sudeste Celular	6.64
PBS Telemig Celular	6.11
PAMA	1.50

For other employees of the Company and its subsidiaries, there is an individual defined contribution plans - Visão Telesp Benefit Plan and for Vivo there is an individual defined contribution plan Vivo Prev Plan, both of them being administrated by Visão Prev complementary providence company. The other Plans are funded by contributions made by the participants (employees) and by the sponsors which are credited to participants' individual accounts. Telefônica Brasil and its subsidiaries are responsible for bearing all administrative plans and maintenance expenses, including participant's death and disability risks. The contributions to those plans are equal to those of the employees, varying from 2% to 9% of the contribution salary for those participants from Telefônica Brasil and from 2% to 8% of the contribution salary for those participants from Vivo based on the percentage chosen by the participant.

Additionally, the Company supplements the retirement benefits of certain employees of the former Companhia Telefônica Brasileira (CTB).

All revenues and expenses relating to defined benefit plans and benefit plans hybrids, such as employer contributions, the current service costs, interest costs and expected return on plan assets are recognized directly in the operating results of the Company and its subsidiaries.

Gains and losses relating to defined benefit plans and benefit plans hybrids, beyond the limitations of the recoverability of surpluses for refunds or reductions in future contributions are recognized immediately in equity, resulting in no impact on the Company's operating and its subsidiaries.

35. FINANCIAL INSTRUMENTS

The Company and its subsidiaries made a valuation of their financial assets and liabilities in relation to market values based on available information and appropriate valuation methodologies. However, the interpretation of market information, as well as the selection of methodologies, requires considerable judgment and reasonable estimates in order to produce adequate realizable values. As a result, the estimates presented do not necessarily indicate the amounts which may be realized in the current market. The use of different market approaches and/or methodologies may have a significant effect on the estimated realizable values.

The table below shows a breakdown of financial assets and liabilities as of June 30, 2012.

Fair value hierarchy

The Company and its subsidiaries use the following hierarchy in order to calculate and disclosure the fair value of financial instruments through the valuation technique:

Level 1: quoted prices (without adjustments) on the active markets for identical assets and liabilities.

Level 2: other techniques to which all data with material effect on the fair value recorded are directly or indirectly observable.

Level 3: techniques using data with relevant effect on the fair value recorded which are not based on data that can be observed on the market.

For the six-month period ended June 30, 2012 no transfers of assessments of fair value between level 1 and level 2 nor level 3 and level 2 were made. The Company and its subsidiaries do not have financial instruments with fair value level 3 assessments.

As authorized by CPC 37, the Company and its subsidiaries did not disclose comparative information on hierarchy of fair value and liquidity disclosures.

Capital management

The purpose of the Company and its subsidiaries' Capital management is to ensure that a solid credit rating is sustained before the institutions, as well as an optimum capital relationship, in order to support the Company's businesses and maximize the value to its shareholders.

The Company and its subsidiaries manage their capital structure by making adjustments and fitting into current economy conditions. For this purpose, the Company and its subsidiaries may pay dividends, raise new loans, issue promissory notes and contract derivative operations. For the three months period ended June 30, 2012, there were no changes in the Company's objectives, policies or capital structure processes.

The Company and its subsidiaries include in its net debt structure: loans, financing, derivative operations, less cash and cash equivalents.

Risk management policy

The Company and its subsidiaries are exposed to various market risks as a result of its commercial operations, debts obtained to finance its activities and debt-related financial instruments.

NOTES TO QUARTERLY FINANCIAL INFORMATION

June 30, 2012

(In thousands of reais)

The key market risk factors that affect the business of the Company and its subsidiaries are detailed below:

a. Foreign exchange risk

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations, which would increase the financial expenses stemming from loans denominated in foreign currency.

At June 30, 2012, 24% (19.32% as of December 31, 2011) of the financial debt was denominated in foreign currency. The Company and its subsidiaries has entered into derivative transactions (exchange rate hedge) with financial institutions to protect itself against exchange rate variation on its gross debt in foreign currency (R\$ 1,316,219 at June 30, 2012 and R\$ 1,198,483 at December 31, 2011). In view of this, the entirety of the debt was covered by asset positions on currency hedge transactions (swap for CDI).

There is also the exchange rate risk related to non-financial assets and liabilities in foreign currency, which can lead to a lower amount receivable or higher amount payable, depending on exchange rate variation in the period.

As from May 2010, hedge operations were contracted to minimize the exchange rate risk related to these non-financial assets and liabilities in foreign currency. This balance is subject to daily changes due to business dynamics, however, the Company aims to cover the net balance of these rights and obligations (US\$ 6,634 and €32,161 payable at June 30, 2012 and US\$ 13,917 and €17,818 payable at December 31, 2011) to minimize the related foreign exchange risk.

b. Interest rate and inflation risk

This risk arises from the possibility of the Company and its subsidiaries incurring losses to of an unfavorable change in internal interest rates, which may negatively affect financial expenses connected with part of debentures link with CDI and liability positions (exchange rate hedge and IPCA) contracted at floating interest rates (CDI).

The debt taken out from BNDES bank is indexed by the TJLP (Long Term Interest Rate quarterly set by the National Monetary Council), which was kept at 6.0% per annum from July 2009 to June 2012. The long-term interest rate was reduced to 5.5% p.a. as from July 2012.

The risk of inflation arises from the debentures of Telemig (merged into Vivo Part. on June 1, 2010), indexed by the IPCA, which may adversely affect our financial expenses in the event of an unfavorable change in this index.

To reduce its exposition to CDI, the Company and its subsidiaries invest cash surplus of R\$2,058,020 (R\$2,862,938 at December 31, 2011), mainly in short-term financial investments (Bank Deposit Certificates) based on CDI variation. The book value of these instruments approximates market, since they are redeemable within a short term.

As of June 30, 2012, the Company and its subsidiary Vivo had financing agreements in force, containing restrictive clauses (covenants), typically applicable to such agreements, relating to cash generation, debt ratios and other restrictions. These covenants – which should be calculated semi-annually and annually could otherwise demand payment of liabilities at an earlier time – have been fully performed by the Company and its subsidiary Vivo, and all economic and financial indexes contractually provided have been achieved.

Telefônica Brasil S. A.

NOTES TO QUARTERLY FINANCIAL INFORMATION

June 30, 2012

(In thousands of reais)

The 1st and 4th issuance of debentures of Vivo Part., taken by the Company on August 19 and September 28, 2011, respectively, have economic and financial indexes that must be determined quarterly, as well as covenants in connection with judicial and out-of-court applications for company economic recovery, liquidation, dissolution, insolvency, voluntary bankruptcy application or adjudication of bankruptcy, payment failure and failure to comply with non-fiduciary obligations. At said date, all financial and economic indices were attained and all these covenants were met.

c. Liquidity risk

Liquidity risk derives from the possibility that the Company and its subsidiary do not have sufficient resources to meet their commitments according to the different currencies and terms of execution/settlement of their rights and obligations.

The Company and its subsidiary structure the maturity dates of the non-derivative financial agreements, as shown in note 17, and their respective derivatives as shown in the payments schedule disclosed in the referred note, in such manner as not to affect its liquidity.

The control of the Company's and its subsidiary's liquidity and cash flow is monitored daily by Management, in such way as to ensure that the operating cash generation and the available lines of credit, as necessary, are sufficient to meet its schedule of commitments, not generating liquidity risks.

d. Credit risk

This risk arises from the possibility that the Company and its subsidiaries may incur losses due to the difficulty in receiving amounts billed to its customers and sales of handsets and pre-activated pre-paid cards to the distributor's network.

The credit risk on accounts receivable is dispersed and minimized by a strict control of the customer base. The Company and its subsidiaries constantly monitor the level of accounts receivable of post-paid plans and limit the risk of past-due accounts, interrupting access to telephone lines for past due bills. In the mobile services the customer base is predominantly, a prepaid system, which requires the prior charging and consequently entails no credit risk. Exceptions are made for telecommunication services that must be maintained for security or national defense reasons.

The credit risk in the sale of handsets and “pre-activated” prepaid cards is managed under a conservative credit policy, by means of modern management methods, including the application of “credit scoring” techniques, analysis of financial statements and information, and consultation to commercial data bases, in addition to request of guarantees.

Telefônica Brasil S. A.

NOTES TO QUARTERLY FINANCIAL INFORMATION

June 30, 2012

(In thousands of reais)

As of June 30, 2012, the Company's customer portfolio had no subscribers whose receivables were individually higher than 1% of the total accounts receivable from services.

The Company and its subsidiaries are also subject to credit risk arising from short-term investments, letters of guarantee received as collateral in connection with certain operations and receivables from swap transactions. The Company and its subsidiaries controls the credit limit granted to all counterparties and diversifies such exposure among top-rated financial institutions, according to credit policy of financial counter-parties in force.

Derivatives and risk management policy

All the Company and its subsidiaries derivative instruments have the objective of providing a hedge against the risk of variation in exchange rates arising from assets and liabilities in foreign currency and against inflation risk from its debenture indexed to IPCA (inflation rate) with shorter term. As such, any changes in risk factors generate an opposite effect on the hedged end. There are no derivative instruments for speculative purposes and liabilities in foreign exchange are hedged.

The Company and its subsidiaries have internal controls over its derivative instruments, which, according to management, are adequate to control the risks associated with each market strategy. The Company's results derived from its derivative financial instruments indicate that the risks have been adequately managed.

The Company and its subsidiaries determine the effectiveness of the derivative instruments entered into to hedge its financial liabilities upon origination and on an ongoing basis (quarterly). As of June 30, 2012, the derivative instruments taken were effective for the debts for which they are intended to provide coverage. Provided these derivatives contracts qualify as hedge accounting, the debt hedge may also be adjusted at fair value as per the rules applicable to fair value hedge. According to cash flow *hedge accounting*, the effective portion of fair value variations of derivatives designated for these hedges is recognized directly in equity.

At June 30, 2012, subsidiary Vivo had an foreign exchange swap of US\$ 102,573 designated as cash flow *hedge*, whose fair value accumulated variation, recognized in equity, was R\$ 1,298.

The Company and its subsidiaries entered into swap contracts in foreign currency at different exchange rates hedging their assets and liabilities in foreign currency.

At October 15, 2009, a swap was contracted by Vivo Part., which was indexed to the IPCA (as for assets), and to the CDI (as for liabilities), in order to cover the exposure of the cash flows of the 3rd series of 4th issuance of debentures to the variation of the IPCA rate. Upon being contracted, this swap was recognized as a fair value hedge.

As of June 30, 2012, the Company and its subsidiaries had not had any embedded derivatives agreements.

Telefônica Brasil S. A.**NOTES TO QUARTERLY FINANCIAL INFORMATION****June 30, 2012****(In thousands of reais)**Fair value of financial instruments

The discounted cash flow method was used to determine the fair value of finance liabilities (when applicable) and derivative instruments considering expected settlement of liabilities or realization of assets and liabilities at the market rates prevailing at balance sheet date.

Fair values are calculated by projecting future operating flows, using BM&FBovespa curves, and discounting to present value through market DI rates for swaps, as informed by BM&FBovespa.

The market values of exchange rate derivatives were obtained through market currency rates in force at the balance sheet date and projected market rates were obtained from currency coupon curves. The coupon for positions indexed to foreign currencies was determined using the 360-calendar-day straight-line convention; the coupon for positions indexed to CDI was determined using the 252-workday exponential convention.

The consolidated derivative financial instruments shown below are registered with CETIP. All of them are classified as swaps and do not require margin deposits.

For the purpose of preparing the ITR's, the Company and its subsidiaries adopted hedge accounting for its foreign currency X CDI and IPCA x CDI swap operations providing financial debt hedge. Under this methodology, both the derivative and the risk covered are stated at fair value.

For the six-month period ended June 30, 2012, derivative operations generated a net consolidated gain of R\$90,370 (loss of R\$104,103 as of June 30, 2011), according to note 28.

As of March 31, 2012, the Company and its subsidiaries registered R\$277,026 as assets and R\$64,964 as liabilities in order to recognize the derivatives position in that date.

Sensitivity analysis of the Company's risk variables

CVM Deliberation 604/09 requires listed companies to disclose, in addition to the provisions of Technical Pronouncement CPC No. 40 - Financial Instruments: Disclosure (equivalent to IFRS 7), a table showing the sensitivity analysis of each type of market risk inherent in financial instruments considered relevant by management and to which the Company is exposed at the closing date of each reporting period, including all operations involving derivative financial instruments.

In compliance with the foregoing, all the operations involving derivative financial instruments were evaluated considering a probable scenario and two scenarios that may adversely impact the Company.

Telefônica Brasil S. A.**NOTES TO QUARTERLY FINANCIAL INFORMATION****June 30, 2012****(In thousands of reais)**

The assumption taken into consideration under the probable scenario was to keep, the maturity date of each transaction, what has been signaled by the market through BM&FBovespa market curves (currencies and interest rates). Accordingly, the probable scenario does not provide for any impact on the fair value of the derivative financial instruments mentioned above. For scenarios II and III, risk variables contemplated 25% and 50% deterioration, respectively, pursuant to the applicable CVM instruction.

Considering that the Company and Vivo has derivative instruments only to cover its assets and liabilities in foreign currency, the changes in scenarios are offset by changes in the related hedged items, thus indicating that the effects are practically null. For these operations, the Company reported the value of the hedged item and of the derivative financial instrument on separate rows in the sensitivity analysis table in order to provide information on the Company's and Consolidated net exposure for each of the three mentioned scenarios, as shown below:

Assumptions for analysis of sensitivity

<u>Variable of Risk:</u>	Probable	Deterioration 25%	Deterioration 50%
USD	2.0213	2.5266	3.0320

EUR	2.5448	3.1810	3.8172
IPCA	5.02%	6.28%	7.53%
UMBNDDES	0.0397	0.0497	0.0596
CDI	8.36%	10.45%	12.54%

To determine the net exposure of the sensibility analysis, all derivatives were considered at market value and only (hedged elements) classified under the accounting method were also considered at fair value.

The fair values shown in the table above are based on the status of the portfolio as of June 30, 2012, not reflecting an estimated realization in view of the market dynamics, always monitored by the Company. The use of different assumptions may significantly impact estimates.
