CSN's Consolidated Results

- **Net revenue** totaled R\$4,185 million in 2Q16, 4% up on 1Q16 and 14% more than in the same period last year. In relation to the previous quarter, the upturn was primarily due to increased sales volume in the mining segment and higher steel prices. Concerning 2Q15, the improvement was also due to the increase in mining sales volume.
- **COGS** amounted to R\$3,263 million, 6% up on the previous three months and 15% more than in 2Q15, chiefly due to higher iron ore output and increased costs as a result of the blast furnace #3 stoppage.
- Second-quarter **gross profit** came to R\$922 million, in line with 1Q16, with a gross margin of 22%, 1p.p. down on the first quarter. In relation to 2Q15, gross profit climbed by 10% and the gross margin narrowed by 1p.p., from 23% to 21%.
- **Selling, general and administrative expenses** totaled R\$498 million, 18% less than in 1Q16, but 18% higher year-on-year. These variations were largely due to distribution costs, which were 11% lower than in 1Q16, but 32% more than in the same quarter last year.
- **Other operating income (expenses)** was a net expense of R\$171 million in 2Q16, 35% up on the quarter before, due to the payment of provisioned taxes, and 23% down on 2Q15.

- **Working capital** came to R\$2,867 million, R\$525 million less than in 1Q16, while the financial cycle closed the second quarter at 82 days, 13 days less than in the previous quarter.
- **Adjusted net debt** fell by 3% over 2Q16, totaling R\$25,873 million, while leverage ended the quarter at 8.3x, versus 8.7x in the previous three months.
- **The proportional net financial result** was negative by R\$220 million in 2Q16, due to: i) financial expenses (excluding the exchange variation) of R\$848 million; ii) the positive exchange variation result of R\$478 million. The result was partially offset by the financial revenue of R\$150 million.

Debt

The adjusted amounts of EBITDA, Debt and Cash included the stakes of 60% in Namisa, 33.27% in MRS and 50% in CBSI until November 2015 and the stakes of 100% in Congonhas Minérios, 37.27% in MRS and 50% in CBSI as of December 2015, as well as financial investments used as collateral for exchange operations on the BM&FBovespa. On June 30, 2016, consolidated net debt totaled R\$25,873 million, while the net debt/EBITDA ratio stood at 8.28x, based on LTM adjusted EBITDA.

Foreign Exchange Exposure

In 2Q16, CSN began reviewing its FX hedge strategy, which led the company to completely unwind its FX derivatives position. As a result, the FX exposure of our consolidated balance sheet on June 30, 2016 was US\$1,791 million, as shown in the table below. It is important to mention that the net FX exposure includes a liability totaling US\$1.0 billion in the Loans and Financing line related to the Perpetual Bonds, which, due to its nature, will not require disbursements for the settlement of the principal amount in the foreseeable future. The

company's hedge strategy began to focus on preserving its cash flow, replacing the exposure generated by the settlement of the derivatives for new Hedge Accounting designations, capturing the existing natural relations, as well as possibly using other financial instruments to protect CSN's future cash flow.

The hedge accounting adopted by CSN correlates the projected export inflows in dollars with part of the scheduled debt payments in the same currency. Therefore, the exchange variation of the dollar-denominated debt is temporarily booked in shareholders' equity, flowing through P&L when revenues in USD from exports occur.

Capex

CSN invested R\$473 million in 2Q16, led by:

- Investments in the new clinker kiln in Arcos-MG, which will start its operation in the 2H16, allowing the cement segment to generate competitive margins and scale gains in the Southeast region due to self-sufficiency in clinker production;
- Projects designed to improve the operational and environmental performance of the Presidente Vargas Plant.

Results from CSN's Steel Operations

- **Total steel product sales volume** came to 1,253,000 tonnes in 2Q16, 1% up on 1Q16. Of this total, 53% went to the domestic market, 40% were sold by our subsidiaries abroad and 7% went to exports.
- Second-quarter **domestic steel sales** totaled 669,000 tonnes, 3% up on 1Q16, 626,000 tonnes of which flat steel and 43,000 tonnes long steel.
- Second-quarter **foreign sales** amounted to 584,000 tonnes, 2% down on 1Q16. Of this total, the overseas subsidiaries sold 499,000 tonnes, 178,000 of which by LLC, 219,000 by SWT and 103,000 by Lusosider, while direct exports came to 85,000 tonnes.
- In 2Q16, CSN increased its **share of coated products** as a percentage of total sales volume, in line with its strategy of adding more value to the product mix. **Total sales** of coated products such as galvanized

items and tin plate accounted for 57% of flat steel sales, versus 58% in the previous quarter. In the **foreign market**, the share of coated products moved up from 77% to 85% in the same period.

- **Net revenue** totaled R\$2,878 million in 2Q16, 2% up on 1Q16, primarily due to the upturn in sales volume and higher prices in the domestic market. Average net revenue per tonnes stood at R\$2,224.

The **parent company's slab** production totaled 500,000 tonnes in 2Q16, 40% and 55% down on 1Q16 and 2Q15, respectively, while flat rolled steel output came to 668,000 tonnes, 11% and 35% less than in 1Q16 and 2Q15, respectively. These results can be explained chiefly by the BF3 stoppage, which was inoperable by 22 days.

- **COGS** came to R\$2,459 million in 2Q16, 7% more than in the previous three months, as a result of the reduction in fixed production cost dilution. The parent company's **production cost** reached R\$1,085 million in 2Q16, 19% down on 1Q16, due to the reduction in period output, due to the maintenance of BF3.
- **Slab production costs** increased by 26%, from US\$274/t, in 1Q16, to U\$345/t.
- **Adjusted EBITDA** amounted to R\$369 million in 2Q16, 12% down on the R\$420 million recorded in the quarter before, accompanied by a 2p,p, reduction in the adjusted EBITDA margin from 15% to 13%.

Mining

In 2Q16, the seaborne iron ore market was influenced by the recovery in demand for steel in China. Policies to stimulate the economy ensured ample available credit, encouraging a recovery in the real estate market and construction activities; on the tax side, we noticed an increase in investments in infrastructure. In addition, low steel inventories throughout the production chain limited immediate delivery availability and positively pressured prices. In response to encouraged demand and fueled by the higher margins, steelmakers increased output by 9%, the highest quarter-on-quarter increase in more than three years. As a result, iron ore demand grew and the commodity's price averaged US\$55.66/dmt (Platts, Fe62%, N. China) in 2Q16, 15% up on 1Q16.

Maritime freight costs on Route CI-C3 (Tubarão-Qingdao) averaged US\$8.43/t in 2Q16, 48% up on 1Q16. The route was positively impacted by a seasonal increase in transported volume by of capesize vessel and higher fuel prices.

Results from CSN's Mining Operations

- In 2Q16, **iron ore production** totaled 8,5 million tonnes, 17% and 26% up on 1Q16 and 2Q15, respectively.
- Second-quarter **iron ore purchases** came to 1,4 million tonnes, 123% up on the previous quarter and 39% more than in 2Q15, as the Company took advantage of market opportunities.
- **Iron ore sales** came to 9,3 million tonnes in 2Q16, 12% and 26% up on 1Q16 and 2Q15, respectively, thanks to sales volume to third parties. Around 695,000 tonnes from Congonhas Minérios were sold to CSN's the Presidente Vargas Plant.

- **Net revenue** from mining operations totaled R\$1,0 billion in 2Q16, 8% up on 1Q16 and 49% more than in 2Q15 1Q15. The upturns in both periods were due to higher total iron ore sales volume, which came to 9,3 million tonnes this quarter.
- Mining segment **COGS** came to R\$743 million, in line to 1Q16 and 39% up on 2Q15, due to the higher volume of iron ore sold and higher purchases from third parties. In 2Q16, Congonhas Minérios recorded a Chinese delivery cost excluding depreciation of US\$28.2/wmt, 10% down on the previous quarter, mainly due to a reduction in the mine's production costs and in seaborne freight charges.
- **Adjusted EBITDA** stood at R\$365 million in 2Q16, 29% and 61% up on 1Q16 and 2Q15, respectively, with an adjusted EBITDA margin of 36%, 10 p.p. higher than 1T16, chiefly due to the increase in FOB export prices and reductions in production cost and seaborne freight.

1. DESCRIPTION OF BUSINESS

Companhia Siderúrgica Nacional “CSN”, also referred to as the Company or Parent Company, is a publicly-held company incorporated on April 9, 1941, under the laws of the Federative Republic of Brazil (Companhia Siderúrgica Nacional, its subsidiaries, joint ventures, joint operations and associates are collectively referred to herein as the “Group”). The Company’s registered office is located in São Paulo, SP, Brazil.

CSN is listed on the São Paulo Stock Exchange (BM&F BOVESPA) and on the New York Stock Exchange (NYSE). Accordingly, the Company reports its information to the Brazilian Securities Commission (CVM) and the U.S. Securities and Exchange Commission (SEC).

The Group's main operating activities are divided into five (5) operating segments as follows:

- **Steel:**

The Company’s main industrial facility is the Presidente Vargas steelworks (“UPV”), located in the city of Volta Redonda, State of Rio de Janeiro. This segment consolidates the operations related to the production, distribution and sale of flat steel, long steel, metallic containers and galvanized steel. In addition to the facilities in Brazil, CSN has operations in the United States, Portugal and Germany, all of them are in line with the plan to achieve new markets and perform excellent services for final consumers. Its steel has been used in home appliances, civil construction and automobile industries.

- **Mining:**

The production of iron ore is developed in the city of Congonhas, State of Minas Gerais.

Iron ore is sold basically in the international market, especially in Europe and Asia. The prices charged in these markets are historically cyclical and subject to significant fluctuations over short periods of time, driven by several factors related to global demand, strategies adopted by the major steel producers, and the foreign exchange rate. All these factors are beyond the Company's control. The ore transportation is accomplished by Terminal de Carvão e Minérios do Porto de Itaguai - TECAR, a solid bulk terminal, one of the four terminals that compose the Port of Itaguai, located in Rio de Janeiro. Imports of coal and coke are held through this terminal and directed to the steel industry of CSN.

From November 30, 2015 the Company has transferred its mining assets, together with its logistical infrastructure, which includes the mine Casa de Pedra and the right to operate the terminal TECAR, to its subsidiary CSN Mineração S.A ("CSN Mineração") (former Congonhas Minérios S.A). On the same date, started to control Nacional Minérios S.A. (NAMISA) through a business combination transaction.

The Company's mining activities also comprises tin exploitation, which is based in the State of Rondônia, this facility is engaged to supply the needs of UPV, with the excess of these raw materials being sold to subsidiaries and third parties.

- **Cement:**

CSN entered in the cement market boosted by the synergy between this new activity and its existing businesses. Next to the Presidente Vargas Steelworks (UPV) in Volta Redonda (RJ), it is installed a new business unit: CSN Cimentos, which produces CP-III type of cement by using slag produced by the UPV blast furnaces in Volta Redonda. It also explores limestone and dolomite at the Arcos unit, located in the State of Minas Gerais, to satisfy the needs of UPV as of the cement plant.

- **Logistics**

Railroads:

CSN has interests in three railroad companies: MRS Logística S.A., which manages the former Southeast Railway System of Rede Ferroviária Federal S.A. (“RFFSA”), Transnordestina Logística S.A. (“TLSA”) and FTL - Ferrovia Transnordestina Logística S.A. (“FTL”), which operate the former Northeast Railway System of RFFSA, in the States of Maranhão, Piauí, Ceará, Rio Grande do Norte, Paraíba, Pernambuco and Alagoas, with TLSA being responsible for the rail links of Missão Velha-Salgueiro, Salgueiro-Trindade, Trindade-Eliseu Martins, Salgueiro-Porto de Suape and Missão Velha-Porto de Pecém (Railway System II) and FTL being responsible for the rail links of São Luiz-Mucuripe, Arrojado-Recife, Itabaiana-Cabedelo, Paula Cavalcante-Macau and Propriá-Jorge Lins (Railway System I).

Ports:

In the State of Rio de Janeiro, by means of its subsidiaries Sepetiba Tecon S.A. and CSN Mineração S.A., the Company operates the Container Terminal (Tecon) and the solid bulk terminal (Tecar), respectively, both located at the Itaguaí Port. Established in the harbor of Sepetiba, the mentioned port has a privileged highway, railroad and maritime access.

Tecon is responsible for the shipments of CSN’s steel products, movement and storage of containers, consolidation and deconsolidation of cargo; The Tecar’s port terminal is engaged to the iron ore shipment overseas and to the landing of coal, petroleum, coke, sulfur and zinc concentrate for our own operation and for third parties.

- **Energy:**

Since the energy supply is fundamental in CSN's production process, the Company owns and operates facilities to generate electric power for guaranteeing its self-sufficiency.

The "note 24 - Segment Information" details the financial information per each of CSN's business segment.

- **Going Concern**

The interim financial statements have been prepared based on the normal continuity of its business. Negotiations in progress to postpone part of the debts do not compromise the Company's operating continuity (going concern), and the Management does not have any other relevant operational restructuring plan that implies a change to the conclusion of the operational continuity (going concern). Further disclosures on the bases for evaluating the operational continuity (going concern) were made in the disclosures of this subject included in the financial statements of December 31, 2016, approved by Management on the same date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.a) Basis of preparation

The consolidated condensed quarterly interim financial statements have been prepared and are being presented in accordance with the International Accounting Standards (IAS 34 – Interim Financial Reporting) issued by the International Accounting Standards Board (IASB), which correlate in Brazil is the CPC 21 (R1) (Interim Financial Statements and Consolidated Interim Financial Statements) issued by the CPC (Accounting Pronouncements Committee) and approved by CVM (Brazilian Securities Commission). All the relevant information required in the financial statements and only these information, are being highlighted and correspond to those used for the Company's management.

The significant accounting policies applied in these condensed interim financial statements are consistent with the policies described in Note 2 to the Company's financial statements for the year ended December 31, 2015, filed with the CVM.

- **Forfaiting**

Trough out the financial year 2015 the Company purchased raw materials from its suppliers located abroad through a foreign trade operation called Forfaiting, in which the financial institution makes the payment in cash to exporter by the net values of the securities (discount rate and other possible expenses already deducted), allowing the Company to finance imported goods by a yearly interest rate from 1.25% to 3.28%, maturing in 12 months.

- Drawee risk

During the financial year 2015 the Company carried out transactions denominated drawee risk, the transaction occurs when the financial institution engaged by the Company anticipates to suppliers the debt securities, so then subsequently receives from the Company on the maturity date those anticipated values.

The Company reclassified the balances of forfaiting transactions and drawee risk with commercial suppliers originally presented in cash flow on June 2015, as follows:

b) Statement of income and statement of comprehensive income at June 30, 2015

The Company has not restated the others statements of June 30, 2015 since the changes in those tables were not material.

2.e) Restatement of the Quarterly Financial Information for the six-month period ended June 30, 2016, previously restated on November 14, 2016.

In addition to the detailed review of the business combination transaction explained in item (a) below, the Company's management performed a thorough review of various components and transactions, including the studies that support the recognition and maintenance of the amounts of long-lived assets, such as investments in subsidiaries and associates, goodwill, property, plant and equipment and tax credits. As a result of this review, a long-lived asset whose realization depends on projections with observable assumptions was revalued and its expected realization was adjusted. Accordingly, the financial statements for the year ended December 31, 2015, originally dated March 28, 2016 and restated on November 14, 2016 due to adjustments in non-controlling interests, were restated for the second time as a result of the detailed review mentioned above, which resulted in material adjustments to the following items:

- (a) Business combination between CSN Mineração and NAMISA; and
- (b) Expected realization of income tax and social contribution tax credits.

We present below further details on the adjustments that led management to opt for the second restatement of the financial statements for the year ended December 31, 2015.

a. Business Combination

The Company is restating the balances of the financial statements for the year ended December 31, 2015, as a result of a detailed review of all aspects of the business combination occurred on November 30, 2015, by which the Company's mining activities were restructured and concentrated on a primary entity, CSN Mineração S.A. This review occurred after the first restatement, on November 14, 2016, of those financial statements resulting from a change in the interpretation of the gains attributed to owners and to non-controlling, as disclosed in note 2.a.b, of those financial statements.

Within this context, the Company identified errors in certain assumptions used in the fair value determination of the entities involved in the transaction, Nacional Minérios S.A. (NAMISA) and CSN Mineração, as well as in the accounting for the clause of the Investment Agreement signed in December 2014 that approached the treatment to be given to NAMISA's assets excluded from the transaction, Fernandinho, Cayman and Pedras Pretas ("excluded assets"). As per that clause, Fernandinho, Cayman and Pedras Pretas assets included in the fair value determination of NAMISA shall be transferred directly to any entity other than CSN Mineração. By mistake, those assets were included within the net assets of NAMISA contributed to CSN Mineração and, in a subsequent act, were transferred from CSN Mineração to another entity, Minérios Nacional S.A (current corporate name of Mineração Nacional S.A.). And finally, the review appointed to a change in the interpretation of the determination of the gain or loss in the pre-existing relationship between the acquirer and the acquiree entities as established in the accounting pronouncement CPC15/IFRS3.

The Company opted to restate the year ended December 31, 2015 as comparative information in the financial statements for the year ended December 31, 2016. Thus, the reasons that led the Company to restate the business combination performed in 2015 are described in detail in Note 2 (ab) to the financial statements for the year ended December 31, 2016, which are being approved on the same date.

b. Estimated losses of deferred income tax and social contribution credits

The Company is restating the balances of deferred income tax and social contribution credits of its financial statements for the year ended December 31, 2015 after the technical review, during 2016, of the negative and positive aspects that supported their maintenance. The main change in the decision for this

restatement is the exclusion of the sale of certain non-core assets from the studies of recovery of credits, reducing the future taxable base of projections, and the higher weight attributed to the observable evidence of tax losses existing in the last years, according to the interpretation given by accounting standard IAS 12 / CPC 32. As established in the standard, in the case of existence of recent history of successive losses or losses alternated in several years, this becomes the primary evidence for assessing the maintenance or recording of tax credits to offset against future taxable profits, with the study of projections of these profits remaining as a source of secondary evidences and with lower weight in the assessment.

**Version:

Thus, the Company elected to maintain in assets an amount of tax losses and negative basis of social contribution equivalent to 30% of the deferred income tax liability balance, an amount that will be used as the deferred tax liability becomes current income tax payable. With this, the total credits arising from temporary differences were accrued and maintained in inventory of credits in the Company's tax books for future utilization. This system of maintenance of tax credits equivalent to 30% of the deferred income tax liability will remain until a new history of taxable profits is formed and the studies of projections of future profits become again primary evidences for the recording of tax credits, when the Company will recognize the temporary differences and higher amounts of tax losses and negative basis of social contribution losses that will be utilized to offset income tax payable arising from future taxable profits.

The adjustments in items (a) and (b) that generated the restatement of the financial statements for the year ended December 31, 2015, which consequently impacted the six-month period ended June 30, 2016 are detailed in the table below:

8. INVESTMENTS

The information related to the description of activities of subsidiaries, jointly controlled entities, associates and other investments did not have changes in relation to that disclosed in the Company's financial statements as of December 31, 2015 and, accordingly, the Company decided not to repeat it in the condensed interim financial statements as of June 30, 2016.

- **Reduce of financial leverage**

With the primary objective of reducing the Company's financial leverage, Management is committed to a plan to dispose of a set of assets, however, it is not possible to confirm that the sale within a period of 12 months is highly probable for any of the assets contemplated. The Company considers several sales scenarios that vary according to different macroeconomic and operational assumptions. In this context, the Company did not segregate and did not reclassify such assets in the financial statements as discontinued operations in accordance with CPC 31 (IFRS 5).

The sale of the subsidiary Metalic Nordeste, as mentioned in note 29 (subsequent events), is part of the Company's effort with the plan of assets disposal and demonstrates Management's commitment with this plan.

- **Transnordestina**

The joint venture Transnordestina is in pre-operational phase and will continue as such until the completion of railway number II (rail network II). Approved construction schedule established the completion of the construction by January 2017. The said schedule is currently under review and being discussed with the government authorities, however, the Company's management believes that any delay in completion of the project will not cause a substantial negative impact on the expected return on the investment. After analyzing this matter, Company's management has concluded for proper of use the accounting basis of operational continuity (going concern) in the preparation of the quarterly financial information.

II – Investments in financial instruments classified as available-for-sale and measured at fair value through OCI

The Company has investments in common (USIM3) and preferred (USIM5) shares of Usiminas (“Usiminas Shares”), designated as available-for-sale financial assets. The Company adopts this designation because the nature of the investment is not comprised in any other categories of financial instruments (loans and receivables, held-to-maturity investments or financial assets at fair value through profit or loss). The asset is classified as a non-current asset in line item “investments” and is carried at fair value based on the quoted price on the stock exchange (BM&FBOVESPA). According to the Company's policy, the gains and losses arising from changes in the price of shares are recorded directly in equity, as other comprehensive income. During March 2016, the Usiminas’ Board of Directors authorized a capital increase amounting to R\$64,882, through the issuance of up to 50,689,310 preferred shares. On April 22, 2016, CSN fully exercised its right of subscription, paying R\$11,603 by 9,064,856 preferred shares. The capital increase has been approved by the Usiminas’ Board of Directors on June 03, 2016.

III - Financial risk management

As of June 30, 2016, there were no changes in the financial risk management policies in relation to those disclosed in the Company's financial statements for the year ended December 31, 2015

12.a) Foreign exchange and interest rate risks

- **Exchange rate risk**

The exchange rate risk arises from the existence of assets and liabilities generated in US dollars or Euros is called natural currency exposure. Net exposure is the result of offsetting the natural currency exposure by hedging instruments adopted by CSN.

The consolidated net exposure as of June 30, 2016 is as follows:

	(Amounts in US\$'000)	06/30/2016 (Amounts in €'000)

During the second quarter of 2016 CSN initiated a process of reviewing its foreign exchange hedging strategy that resulted in the liquidation of the future dollar derivatives portfolio. Consequently, the net foreign exchange exposure on our consolidated balance sheet as of June 30, 2016 was US\$1,790,690 thousand, as shown in the table above. It is important to mention that included in the net foreign exchange exposure there is a liability of US\$ 1 billion, classified as loans and financing, related to perpetual bonds; which will not require a disbursement to settle its principal in the foreseeable future considering corresponding nature. Therefore, excluding perpetual bonds, the Company's net foreign exchange exposure amounts to US\$ 790,690 thousand. The company began to focus its hedging strategy to preserve its cash flow and is analyzing the replacement of the exposure generated by the settlement of derivatives with new designations of hedge accounting, capturing existing natural relations, and may also utilize other derivative instruments with the objective of protecting future cash flows.

- **Interest rate risk**

Risk arises from short and long term liabilities with fixed or post fixed interest rates and inflation rates.

12.b) CSN uses several instruments for protection of foreign currency risk and interest rate risk, as shown in the following topics:

- **Portfolio of derivative financial instruments**

- **Hedge accounting – cash flow**

Beginning November 1, 2014, the Company formally designated cash flow hedging relationships to protect highly probable future cash flows against US dollar fluctuations.

In order to better reflect the accounting impacts of this foreign exchange hedging strategy on its profit, CSN designated part of its US dollar-denominated liabilities as a hedging instrument of its future exports. As a result, foreign exchange differences arising on translating the designated liabilities shall be temporarily recognized in shareholders' equity and allocated to profit or loss when such exports are carried out, which will allow recognizing the US dollar impact on liabilities and exports concurrently.

(*) The effect on the financial result was recorded in net foreign exchange rates.

(1) During the designation on August 2015, we reviewed the future export projections and identified that the amount of US\$ 9 million designated previously were not highly probable due to Platt's quotation reduction. Therefore, the hedge relationship was discontinued from August 2015. The exchange rate of the effective period remains recorded in Stockholders' Equity until the time of debt settlement.

In the hedging relationships described above, the amounts of the debt instruments were fully designated for equivalent iron ore export portions.

The movements in the hedge accounting amounts recognized in shareholders' equity as of June 30, 2016 are as follows:

	12/31/2015	Movement	Realization	06/30/2016
Cash flow hedge accounting	1,520,089	(1,072,884)	(20,523)	426,682

- **Net investment hedge in foreign subsidiaries**

CSN has foreign exchange exposure in Euros arising from a loan made by a foreign subsidiary with functional currency in Reais, for the acquisition of investments abroad whose functional currency is Euro. Such exposure arises from converting the balance sheets of these subsidiaries for consolidation in CSN, and the exchange rate of the loans affected the income statement in the financial result item and the exchange variation of the net assets of the foreign operation directly affected the equity in other comprehensive income.

As from September 1st, 2015 CSN began to adopt hedge of net investment to eliminate exposure in order to cover future fluctuations of the Euro on such loans. Non-derivative financial liabilities have been designated represented by loan agreements with financial institutions in the amount of € 120 million. The carrying amounts on June 30, 2016 are:

Designation Date	Hedging Instrument	Hedged item	Type of hedged risk	Exchange rate on designation	Designated amounts (EUR'000)	06/30/2016 Impact on shareholders' equity
9/1/2015	Non-derivative financial liabilities in EUR – Debt contract	Investments in subsidiaries which EUR is the functional currency	Foreign exchange - R\$ vs. EUR spot rate	4.0825	120,000	47,916
01/31/2016	Non-derivative financial liabilities in EUR – Debt contract	Investments in subsidiaries which EUR is the functional currency	Foreign exchange - R\$ vs. EUR spot rate	(1)	(24,000)	

Total			96,000	47,916
--------------	--	--	---------------	---------------

(1) In January 2016 it was settled the portion of debt designated as a hedge instrument.

The changes in the amounts related to net investment hedge as of June 30, 2016 are presented below:

	12/31/2015	Movement	Realization	06/30/2016
Net Investment hedge accounting	20,148	(68,064)		(47,916)
Fair value of net investment hedge in foreign operations	20,148	(68,064)		(47,916)

On June 30, 2016 hedge relationships established by the Company found to be effective, according to prospective tests. Therefore, no reversal by ineffectiveness of the hedge was recorded.

(*) The Company taxes the foreign exchange differences on a cash basis to calculate income tax and social contribution.

The Company has foreign subsidiaries in its corporate structure, for which profits are taxed at income tax in the countries where they are domiciled by lower rates than those prevailing in Brazil. From 2012 up to the 2nd quarter of 2016 such foreign subsidiaries generated profits amounting to R\$1,706,873. If for some reason tax authorities understand that these profits are subject to additional taxation in Brazil in respect of income tax and social contribution, which if due, would total R\$459.628.

The Company, based on its legal counsel's opinion, assessed the likelihood of loss in a potential claiming by tax authorities which resulted in a possible risk of loss and, therefore, no provision was recognized in the financial statements.

14.c) Income tax and social contribution recognized in shareholders' equity:

The income tax and social contribution recognized directly in shareholders' equity are as follows:

	23,409,091	21,540,763

(*) Tax assessments were canceled due to a favorable decision to the Company in the 2nd administrative judicial level, the referred judgment occurred on February 15, 2016.

(1) The increase is due to an assessment notice received in June 2016, related to the profits from foreign subsidiaries in 2011.

The assessments made by the legal counsel define these administrative and judicial proceedings as entailing risk of possible loss and, therefore, no provision was recorded in conformity with Management's judgment and accounting practices adopted in Brazil.

- Environmental lawsuits

The environmental processes present high complexity for estimating the amount at risk, should be taken into consideration, among various aspects, procedural development, the extent of damage and the projection of repairing costs.

There are other environmental processes for which it is not yet possible to assess the risk and contingency value due to the aforementioned complexity estimation, the peculiarities of the matters involving them and also their procedural steps.

Even though it is an indicator used in segment performance measurement, EBITDA is not a measurement recognized by accounting practices adopted in Brazil or IFRS, it does not have a standard definition, and may not be comparable with measurements using similar names provided by other entities.

As required by IFRS 8, the table below shows the reconciliation of the measurement used by the chief operating decision maker with the results determined using the accounting practices:

26. INSURANCE

Aiming to properly mitigate risk and in view of the nature of its operations, the Company and its subsidiaries have taken out several different types of insurance policies. Such policies are contracted in line with the CSN Risk Management policy and are similar to the insurance taken out by other companies operating in the same lines of business as CSN and its subsidiaries. The risks covered under such policies include the following: Domestic Transportation, International Transportation, Life and Casualty, Health Coverage, Fleet Vehicles, D&O (Civil Liability Insurance for Directors and Officers), General Civil Liability, Engineering Risks, naming Risks, Export Credit, warranty and Port Operator's Civil Liability.

In 2015, after negotiation with insurers and reinsurers in Brazil and abroad, an insurance policy was issued for the contracting of a policy of Operational Risk of Property Damages and Loss of Profits, with effect from September 30, 2015 to September 30, 2016. Under the insurance policy, the LMI (Maximum Limit of Indemnity) is US\$600 million and covers the following units and subsidiaries of the Company: Presidente Vargas steelworks, CSN Mineração, Sepetiba Tecon, and CSN Mining. CSN takes responsibility for a range of retention of US\$375 million in excess of the deductibles for property damages and loss of profits.

In view of their nature, the risk assumptions adopted are not part of the scope of an audit of the financial statements and, accordingly, were not audited by our independent auditors.

29. SUBSEQUENT EVENTS

• Metallic Discontinued Operations

In August 2016, the Company concluded the negotiation and signed an agreement with Can-Pack S.A. to sell 100% shares of its subsidiary Cia. Metalic do Nordeste (“Metalic”), the Company that produces and sells metal packaging. The sale was concluded on November 30, 2016 and the transaction’s base value was US\$98 million.

- **CGPAR business combination**

On September 30, 2016 the Company acquired the remaining 50% of equity interest of its joint-venture CGPAR. Under this acquisition, the Company acquired the majority control of CGPAR– Construção Pesada S.A (“CGPAR”).

- **Possible Proceedings**

- **Significant development of Proceeding No. 19515.723039/2012-79**

In February 2017, the Company was notified of the judgment of the Amendment of Judgment filed due the CARF’s decision on case 19515.723039 / 2012-79, in which the Federal Revenue Service of Brazil challenges the capital gain on the alleged sale of 40% of NAMISA (currently CSN Mineração S.A.). The CARF, in short, agreed with the infringement notice. The Company, however, is taking of the lawfulness of the operation and, therefore, is evaluating the appropriate legal and procedural measures to reverse the decision. It is important to emphasize, finally, that this decision does not alter the assessment of loss on the case, which remains as possible, see note 15.

- **Significant development of Proceeding No. 19515.723053/2012-72**

The Superior Board of Tax Appeals of CARF ruled on 03/14/2017 a special appeal by the National Treasury against a previous decision favorable to Namisa, (currently CSN Mineração S.A.) filed in case No. 19515.723053 / 2012-72, in which the Federal Revenue Service of Brazil challenges the deductibility of goodwill amortization expenses arising from the operation carried out with the Asian Consortium in 2008. The CARF, in summary, agreed with the infringement notice. The Company, however, has absolute conviction of the lawfulness of the operation and, therefore, is taking legal measures. It is important to emphasize, finally, that this decision does not alter the assessment of loss of the case, which remains as possible, see note 15.

• Cautionary decision – TCU – Transnordestina Logistica

The Brazilian Court of Auditors (“TCU”) issued a cautionary decision in May 2016 referred to the action TC 012.179/2016 by which it prohibited new transfers of Government funds to TLSA to be made by Valec Engenharia, Construções e Ferrovias S.A., Fundo de Investimento do Nordeste – FINOR, Fundo Constitucional de Financiamento do Nordeste – FNE, Fundo de Desenvolvimento do Nordeste – FDNE, Banco Nacional de Desenvolvimento Econômico e Social – BNDES and BNDES Participações S.A. – BNDESPar. After TLSA appeal against the cautionary decision and further details to have been provided, in June 2016 the preliminary injunction given by TCU was unanimously revoked by the Court and the continuity of the transfer of funds was re-established.

By means of another protective order issued in January 2017, relating to the case TC 012.179/2016, the Court of Auditors of the Union forbade new transfers of public resources to TLSA by Valec Engenharia, Construções e Ferrovias S.A., Fundo de Investimento do Nordeste – FINOR, Fundo Constitucional de Financiamento do Nordeste – FNE, Fundo de Desenvolvimento do Nordeste – FDNE, Banco Nacional de Desenvolvimento Econômico e Social – BNDES and BNDES Participações S.A.– BNDESPar. The Company has provided the required clarifications to the TCU and has acted firmly in order that the decision can be repealed soon and the flow of investments planned can be restored.

There is an administrative procedure before the Transportation National Agency (“ANTT”), that assesses the regular fulfilling by the grantee FTL of the obligations contained in the Concession Agreement. By an unilateral assessment, ANTT considered that FTL was not compliant with the Term of Conduct Adjustment (“TAC”) signed in 2013 alleging that FTL had not fulfilled the 2013 production plan. ANTT decided to set up an administrative proceedings to investigate the supposed unfulfillment of the concession agreement and, in the case of confirming irregularities, may apply several penalties, including the early termination of the concession agreement. The grantee filed its defense against the administrative proceedings and currently no new decisions have been taken.

- **Independent investigation – Construction of the Long Steel Plant**

Considering the mentioning of a Company's officer in an article disclosed by the press, based on testimonials made before the Court, the Audit Committee decided to hire a specialized forensic service to conduct an external and independent investigation of the contractual relationship related to the construction of CSN's Long Steel Plant (contract in which there would have been alleged improper payments, as bonus, as reimbursement of payments made to political parties supposedly requested by such officer) and to analyze the extent of the commercial relationship between contractor . The conclusion of the investigation is that nothing in the testimonials referred to above was confirmed, there being no contingencies arising from the matters investigated. Consequently, understands the Company that at this moment there is no basis to justify the setting up of a provision for losses or the disclosure of a contingency.

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Board of Directors and Shareholders of

Companhia Siderúrgica Nacional

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Siderúrgica Nacional (“Company”), included in the Interim Financial Information Form (ITR), for the quarter ended June 30, 2016, which comprises the balance sheet as at June 30, 2016, and the statement of profit and loss and statement of comprehensive income for the three- and six-month periods then ended, and the statement of changes in equity and statement of cash flows for the six-month period then ended, including the explanatory notes.

Management is responsible for the preparation of the individual and consolidated interim financial information in accordance with CPC 21 (R1) and IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with the standards on auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual and consolidated interim financial information included in the ITR referred to above is not prepared, in all material

respects, in accordance with CPC 21 (R1) and IAS 34 applicable to the preparation of Interim Financial Information (ITR) and presented in accordance with the standards issued by the Brazilian Securities Commission (CVM).

Emphasis of matter

Restatement of the interim financial information for the six-month period ended June 30, 2016

On November 14, 2016, we reissued the review report, without modification, on the Company's individual and consolidated interim financial information for the three- and six-month periods ended June 30, 2016. As described in note 2.e), the interim financial information referred to above has been adjusted and is being restated to reflect the impacts arising from the restatement of the financial statements for the year ended December 31, 2015, relating to: (i) the accounting and fair value

measurement adjustments upon the application of technical pronouncement CPC 15 (R1) - Business Combination and international standard IFRS 3 - Business Combination, issued by the IASB, concerning the business combination conducted by subsidiary Congonhas Minérios S.A. and (ii) the review of the recoverability analysis and adjustments to deferred income tax and social contribution balances.

Continuity as a going concern of the joint venture Transnordestina Logística S.A.

We draw attention to note 8 to the interim financial information, which describes the completion stage of the new railway network of the joint venture Transnordestina Logística S.A. (“TLSA”), currently under construction, the completion period of which was initially expected for January 2017 and is currently being reviewed and discussed with the relevant governmental agencies. The completion of the construction and consequent startup of operations depend on the continuing contribution of funds by its shareholders and third parties. Those events or conditions, along with other matters described in said note, indicate that a material uncertainty exists, which may cast significant doubt on TLSA's ability to continue as a going concern.

Other matters

Statements of value added

We have also reviewed the individual and consolidated interim statements of value added (“DVA”) for the six-month period ended June 30, 2016, prepared under Management’s responsibility, the presentation of which is required by the standards issued by the Brazilian Securities Commission (“CVM”) applicable to the preparation of Interim Financial Information (ITR), and is considered as supplemental information for International Financial Reporting Standards (“IFRSs”), which do not require the presentation of a DVA. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they are not prepared, in all material respects, in relation to the interim financial information taken as a whole.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil.
