RELEVANT FACT

The managements of Telesp Celular Participações S.A. ("TCP") and Tele Centro Oeste Celular Participações S.A. ("TCOPart") hereby make it known to the public, in the form and for the purposes of CVM Instructions no. 319/99, 320/99 and 358/02, that their respective Boards of Directors have approved the proposal to their shareholders of the terms, conditions and justifications for a corporate restructuring involving the referred companies, as described below, the purpose of which is to allow the use, by TCOPart, of the tax benefit arising out of the amortization of the premium resulting from the below described acquisition, by TCP, of preferred shares in TCOPart.

TCP was the original owner of the investments represented by controlling shares in TCOPart, as well as of the preferred shares acquired in the voluntary public offering for acquisition of additional preferred shares in TCOPart, carried out in October 2004 ("OPA") and, consequently, was also the owner of the premium paid for the preferred shares acquired in the OPA (the "Premium"). In order to avoid the transfer of any TCP's debts to TCOPart, the shares in TCOPart owned by TCP consequent of the OPA were transferred by way of an increase of capital to a holding company called Bagon Participações Ltda. ("Bagon"), as an act prior to the below described restructuring process.

The managements of the companies involved in the restructuring process understand that the below described corporate restructuring will add value to the those companies, having in consideration that it will allow: (1) an improvement in the capitalization conditions for TCOPart; and (2) an improvement in the cash flow, resulting from the tax benefit arising out of the Premium amortization. The restructuring contemplated hereunder will be structured in such a manner as to avoid negative impacts over the future results of TCOPart, on account of the amortization of the referred Premium.

1. Implementation of the Corporate Restructuring - The corporate restructuring shall be implemented as follows:

1.1 Merger of Bagon into TCOPart: Bagon, which presently holds the shares in TCOPart and the respective Premium, will be merged into TCOPart, which will remain as the controlling shareholder of Bagon. After the merger, Bagon will be extinguished and TCOPart will succeed to it in all its rights and obligations. The net assets to be merged into TCOPart will comprise the referred equity interest, the Premium value and the provisions for maintaining the wholeness of TCOPart's equity and shall be evaluated based on their book value at 08/15/2005, in accordance with the accounting practices enacted by the applicable laws. The Appraisal Report for Bagon's net assets to be transferred to TCOPart, under the provisions in article 226 of Law nº 6404/76, shall be prepared by Deloitte, Touche, Tohmatsu Auditores Independentes, an independent appraisal firm, *ad referendum* to the shareholders of TCOPart and quotaholders of Bagon. The equity variations occurring between 08/15/2005 and the date of the actual merger shall be absorbed by TCOPart. It is estimated that the net asset value of Bagon to be merged into TCOPart is eight hundred and sixty-nine million, five hundred and fifteen thousand, eight hundred and eighty-one reais (R\$ 869,515,881.00). The merger of Bagon into TCOPart, however, shall not entail an increase in the capital stock of the mergor company, having in consideration that Bagon's equity is represented by its investment in the mergor company and that the premium will be booked in the "Special Reserve of Premium" entry of the mergor.

1.2 TCP, in its capacity as shareholder of Bagon, will receive in substitution for the equity interest it held in the mergee company, 28,084,178 new preferred shares issued by TCOPart, corresponding to the shares issued by TCOPart currently held by Bagon, in such a manner that one new share issued by TCOPart will correspond to each share held by Bagon in the capital stock of TCOPart. The shares in TCOPart to be received by TCP will have the same

rights as the currently outstanding shares issued by TCOPart. No change will occur in the number of shares into which the capital stock of TCOPart is divided, as well as in the voting, dividend and equity rights held by the common and preferred shareholders of TCOPart. Thus, TCP will again hold shares directly in TCOPart, in exactly the same number, type and with the same rights as it held before the transaction.

This transaction was structured with the purpose of avoiding that the amortization of the premium recorded in Bagon adversely affects TCOPart's profit to be distributed to the shareholders. Therefore, if the transaction is approved by the managements of the respective companies, Bagon will book a provision for maintaining the wholeness of the referred companies' and their shareholders' equity. The reversal of such provision will allow the adverse effects arising out of the amortization of the Premium over the balance sheet of TCOPart to be offset, thus ensuring the continuance with the flow of dividends to its shareholders, as set forth in article 16 of CVM Instruction n° 319/99.

2 Additional information about the restructuring process intended for the purposes of Article 2 of CVM Instruction n° 319/99

In addition, the Protocol of Merger and Justification was executed between the managements of TCOPart and BAGON, in accordance with articles 224 and 225 of Law n° 6404/76, providing for the conditions and criteria for merger of Bagon.

2.6 Experts: Deloitte, Touche, Tohmatsu Auditores Independentes, an independent appraisal firm, was hired for preparing the necessary accounting appraisal reports, which hiring shall be confirmed by the general meetings of shareholders of the companies.
