**INFORMATION CONTAINED IN THIS FORM 6-K REPORT**

Attached to this Report on Form 6-K as Exhibit 1 is a copy of the press release issued by Euroseas Ltd. (the Company ) on June 23, 2010: Euroseas Ltd. Announces Delivery And Employment Of Recently Acquired Vessel And Reactivation of Laid-Up Vessel.

**Euroseas Ltd. Announces Delivery And Employment Of Recently Acquired Vessel And Reactivation of Laid-Up Vessel.**

**June 23, 2010**, Maroussi, Athens, Greece - Euroseas Ltd., (NASDAQ:ESEA) an owner and operator of drybulk carriers and container vessels and provider of seaborne transportation for dry bulk and containerized cargoes, announced today that it has taken delivery of M/V Oder Trader, an intermediate containership of 2,008 twenty foot equivalent units (teu) built in 1998 in Poland. The vessel, acquired for \$15.85 million as previously announced, will be renamed M/V Aggeliki P.

The Company also announced that the vessel has entered in a time charter contract for a minimum of eleven to a maximum of thirteen months at a gross daily rate of \$7,000 with a major European charterer. The charter will commence about the end of June 2010.

Furthermore, the Company announced the reactivation of M/V Despina P, a handysize containerships of 1,932 teu built in 1990, which has been laid-up since March 2009. The vessel has entered in a time charter contract for about 6 months at a gross daily rate of \$7,500. The charter will commence in the first half of July 2010.

Following the delivery of the M/V Aggeliki P and the employment contracts of M/V Aggeliki P and M/V Despina P, approximately 87% of Euroseas containership fleet days in 2010 and approximately 38% in 2011 will be fixed under period charters.

Aristides Pittas, Chairman and CEO of Euroseas commented: "We are pleased to announce the reactivation of one of our laid-up vessels along with the delivery and chartering of our new containership acquisition. The market is giving us clear signs of recovery evidenced by the fact that the idle containership fleet is being absorbed at a pace which was not expected even by the most optimistic views just a few months ago. We are confident that we will soon be able to reactivate and employ our second laid-up vessel as well.
