NOTE 1. BASIS OF PRESENTATION

For purposes of this report, any reference to "Potlatch," "the company," "we," "us," and "our" means Potlatch Corporation and all of its wholly owned subsidiaries, except where the context indicates otherwise.

The accompanying unaudited consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission pertaining to interim financial statements; certain disclosures normally provided in accordance with generally accepted accounting principles in the United States have been omitted. This Quarterly Report on Form 10-Q should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2013, as filed with the Securities and Exchange Commission on February 14, 2014. We believe that all adjustments necessary for a fair statement of the results of such interim periods have been included.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers. This update was issued as Accounting Standards Codification Topic 606. The core principle of this amendment is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period, with earlier adoption not permitted. The guidance permits two implementation approaches, one requiring retrospective application of the new standard with restatement of prior years and one requiring prospective application of the new standard with disclosure of results under old standards. The adoption of this guidance is not expected to have a significant effect on our consolidated financial statements.

NOTE 3. INCOME TAXES

As a real estate investment trust (REIT), we generally are not subject to federal and state corporate income taxes on income of the REIT that we distribute to our shareholders. We are, however, subject to corporate taxes on built-in gains (the excess of fair market value over tax basis on January 1, 2006) on sales of real property held by the REIT during the first ten years following the REIT conversion. The sale of standing timber is not subject to built-in gains tax. The Small Business Jobs Act of 2010 modified the built-in gains provisions to exempt sales of real properties in 2011, if five years of the recognition period had elapsed before January 1, 2011. The American Taxpayer Relief Act of 2012 extended the reduced five-year holding period for sales occurring in 2012 and 2013. Accordingly, the built-in gains tax did not apply to sales of real property that occurred in 2011, 2012 and 2013.

We conduct certain activities through our taxable REIT subsidiaries (TRS), which are subject to corporate level federal and state income taxes. These activities are principally comprised of our wood products manufacturing operations and certain real estate investments. Income taxes for all periods presented in this Quarterly Report on Form 10-Q were primarily due to income of the TRS.

NOTE 5. EQUITY-BASED COMPENSATION

As of September 30, 2014, we had three stock incentive plans under which performance share grants, restricted stock unit (RSU) grants and stock options were outstanding, with approximately 1,082,692 shares authorized for future use under the 2014 Long-Term Incentive Plan.

On May 8, 2014, our board approved changes to our director compensation program. This amendment states that upon a director's separation from the company, all deferred awards will be settled in company stock and no longer settled in cash. This resulted in a reclassification of the related \$4.3 million liability to stockholders' equity.

As of September 30, 2014, there were 113,148 shares that will be distributed to directors in the future.

The following table details our equity-based compensation expense and director deferred compensation expense for the quarters and nine months ended September 30:

Unvested shares outstanding at September 30	237,175	47.53	\$ 9,537

As of September 30, 2014, there was \$5.1 million of unrecognized compensation cost related to unvested performance share awards, which is expected to be recognized over a weighted average period of 1.3 years.

RESTRICTED STOCK UNITS

The following table summarizes outstanding RSU awards as of September 30, 2014, and changes during the nine months ended September 30, 2014:

On August 12, 2014, we entered into a new amended and restated credit agreement with an expiration date of February 12, 2020, which supersedes our previous credit agreement dated as of December 11, 2012. This new credit agreement provides for a revolving line of credit with an initial aggregate principal amount not to exceed \$250 million, which may be increased by up to an additional \$250 million of principal amount. It also includes a sublimit of \$40 million for the issuance of standby letters of credit and a sublimit of \$25 million for swing line loans. As of September 30, 2014, there were no borrowings outstanding under our revolving line of credit, and approximately \$1.4 million of the letter of credit subfacility was being used to support several outstanding letters of credit. Available borrowing capacity at September 30, 2014 was \$248.6 million.

We signed a purchase agreement to acquire approximately 201,000 acres of timberlands in Mississippi and Alabama from affiliates of Resource Management Service, LLC for \$384 million on October 15, 2014. We expect to finance with new long-term debt and cash. Earnings from these assets will be reported in our Resource segment after closing, which is expected to occur late in the fourth quarter of 2014. The transaction is subject to the satisfaction of customary closing conditions.

Overview

The operating results of our Resource, Wood Products and Real Estate business segments have been and will continue to be influenced by a variety of factors, including the cyclical nature of the forest products industry, which is largely dependent on the economy and U.S. housing starts, changes in timber prices and in harvest levels from our timberlands, competition, timberland valuations, demand for our non-strategic timberland for higher and better use purposes, the efficiency and level of capacity utilization of our wood products manufacturing operations, changes in our principal expenses such as log costs and fuel costs, asset dispositions or acquisitions, and other factors.

Our Resource earnings and cash flows were seasonably strong, although our planned harvest was constrained somewhat by wet weather in the South during the third quarter of 2014. For the quarter and nine months ending September 30, 2014, improved log pricing has resulted in increased revenues and operating income when compared to 2013. The Wood Products and Real Estate business have both performed well throughout 2014.

Results of Operations

Our business is organized into three reporting segments: Resource, Wood Products and Real Estate. Sales between segments are recorded as intersegment revenues based on prevailing market prices. Because our Resource segment supplies our Wood Products segment with a portion of its wood fiber needs, intersegment revenues typically represent a significant portion of the Resource segment's total revenues. Our other segments generally do not generate intersegment revenues.

In the analysis of our consolidated results of operations, revenues are reported after elimination of intersegment revenues. In the analysis by business segments, each segment's revenues are presented before elimination of intersegment revenues.

Consolidated Results Comparing the Quarters Ended September 30, 2014 and 2013

The following table sets forth period-to-period changes in items included in our Consolidated Statements of Income for the quarters ended September 30:

(Dollars in thousands)	2014	2013	Amount of Change	Percent Change

Income tax provision	(6,209) (3,157) (3,052) 97	%
Net income	\$33,154	\$22,191	\$10,963	49	%

Revenues – Revenues increased in the third quarter of 2014 over the same period in 2013 primarily due to increased revenues from both our Resource and Wood Products segments. Resource revenues increased due to higher log prices in both our Northern and Southern regions and increased harvest volumes in the Northern region. Wood Products segment revenues increased due to product pricing. A more detailed analysis of revenues follows in the operating results by business segments.

Cost of goods sold – Cost of goods sold increased in the third quarter of 2014 over the third quarter of 2013 due to the higher logging and hauling costs resulting from increased harvest volumes in our Resource Segment, and higher per-unit costs of logs consumed in our Wood Products segment.

Selling, general and administrative expenses – Selling, general and administrative expenses decreased in the third quarter of 2014 from the same period in 2013 primarily due to non-cash mark-to-market adjustments related to our deferred compensation plans and lower incentive plan expenses.

Environmental remediation charge – In the third quarter of 2013 we recorded a pre-tax charge of \$1.0 million related to remediation costs associated with our Avery Landing site in Idaho. We completed the remediation work in 2013.

Income tax provision – Our consolidated effective tax rate for the third quarter of 2014 was 15.8% compared to 12.5% in the third quarter of 2013. The increase between periods resulted from nonrecurring tax benefits recorded in 2013.

Sawlog	\$50	\$46	\$4	9	%
Pulpwood	\$35	\$33	\$2	6	%

Revenues increased in the third quarter of 2014 from the same period in 2013 as a result of increased harvest volumes and pricing. Increased pricing and harvest volumes accounted for \$7.0 million and \$6.7 million, respectively, of the revenue variance.

In our Northern region, we moved planned third quarter 2013 harvest volumes into the first quarter of 2013 to take advantage of higher pricing. Consequently, sawlog volumes increased in the third quarter of 2014 when compared to 2013. Pulpwood volumes and prices increased in the third quarter of 2014 over the third quarter of 2013 due to stronger demand. An oversupply of residuals and chips in the Northwest in the third quarter of 2013 resulted in decreased pulpwood prices, which led us to minimize pulpwood production in that period.

In our Southern region, demand for hardwood sawlogs during the third quarter of 2014 was stronger than 2013. As a result, we increased hardwood sawlog harvest to realize increased pricing. Pine sawlog prices remained relatively flat. Expenses for the segment increased \$6.2 million, or 12%, in the third quarter of 2014 from the same period in 2013, primarily due to higher logging and hauling costs and depletion expense resulting from the increased harvest volumes.

Wood Products Segment

(Dollars in thousands)	Quarters Ended September 30,		Increase (Decrease)	Percent Change
	2014	2013		
Revenues	\$99,213	\$92,116	\$7,097	8 %

Lumber shipments (MBF)	171,818	173,355	(1,537)	(1)%
Lumber sales prices (\$ per MBF)	\$408	\$363	\$45	12 %

Revenues for the segment increased in the third quarter of 2014 compared to the same period in 2013 due to higher average lumber prices, partially offset by slightly lower shipments. Lumber prices realized in the third quarter of 2014 were relatively stable, particularly when compared to 2013 when prices were recovering from a second quarter correction. Expenses for the segment increased \$2.7 million, or 3%, due primarily to the higher costs of logs consumed.

Real Estate Segment

(Dollars in thousands)	Quarters Ended September 30,		Decrease	Percent Change
	2014	2013		
Revenues	\$6,176	\$8,868	\$2,692)	(30)%

Non-strategic timberland	202	\$610	279	\$608
Total	3,799		5,294	

Revenues decreased \$2.7 million, expenses decreased \$0.9 million and operating income decreased \$1.8 million in the third quarter of 2014 compared to the same period of 2013, due to the sale of 1,495 less acres.

Consolidated Results Comparing the Nine Months Ended September 30, 2014 and 2013

The following table sets forth period-to-period changes in items included in our Consolidated Statements of Income for the nine months ended September 30:

Net income	\$69,774	\$56,860	\$12,914	23	%

Revenues – Revenues increased for all three business segments in the first nine months of 2014 over the same period in 2013. Resource segment revenues increased due to product pricing and mix variances partially offset by lower harvest volumes. Wood Products revenues increased due to increased lumber shipments and pricing. Real Estate segment revenues increased due to real estate acres sold. A more detailed analysis of revenues follows in the operating results by business segments.

Cost of goods sold – Cost of goods sold increased in the first nine months of 2014 over the same period in 2013. Resource segment expenses increased due to higher logging and hauling rates partially offset by lower shipments compared to 2013. Higher costs of logs consumed and increased shipments from our Wood Products segment, and increased basis of real estate sold also resulted in higher costs of goods sold.

Selling, general and administrative expenses – Selling, general and administrative expenses decreased in the first nine months of 2014 from the same period in 2013 primarily due to lower incentive plan expenses and non-cash mark-to-market adjustments related to our deferred compensation plans.

Environmental remediation charge – In the first nine months of 2013 we recorded pre-tax charges totaling \$3.5 million related to remediation costs associated with our Avery Landing site in Idaho. We completed the remediation work in 2013.

Interest expense, net – Net interest expense decreased in the first nine months of 2014 from the same period in 2013 due to debt redemptions in 2013.

Income tax provision – Our consolidated effective tax rate for the first nine months of 2014 was 22.0% compared to 18.1% in the first nine months of 2013. The increase between periods resulted from proportionately higher operating income in the TRS compared to the REIT.

Pulpwood	\$33	\$33	\$—	—	%
Revenues increased in the first nine months of 2014 from the same period in 2013 due to increased prices, partially offset by lower harvest volumes. The increase in pricing accounted for \$9.7 million of the revenue variance, offset by \$6.0 million due to decrease in harvest volumes.					
In our Northern region, we pulled forward a portion of the harvest planned for the second half of 2013 into the first quarter to take advantage of higher prices. Consequently, we had comparatively lower harvest volumes in 2014. Sawlog prices increased in 2014, particularly in the first quarter, due to higher lumber prices given indexing. Pulpwood prices increased in the first nine months of 2014 over the same period in 2013 due to improved demand. An oversupply of residuals and chips in the Northwest in 2013 resulted in decreased pulpwood prices, which led us to minimize pulpwood production in that period.					
In our Southern region, the sawlog harvest in 2014 decreased from 2013 due to wet weather and a shift in mix toward higher value hardwood and pine plywood pine sawlogs. Prices for pine sawlogs and pulpwood were relatively flat between periods for comparable products.					

Wood Products Segment

(Dollars in thousands)	Nine Months Ended September 30,		Increase (Decrease)	Percent Change
	2014	2013		
Revenues	\$287,589	\$278,642	\$8,947	3 %

Lumber sales prices (\$ per MBF)	\$404	\$398	\$6	2 %

Revenues for the segment increased in the first nine months of 2014 compared to the same period in 2013 due to increased shipments and increased lumber prices. Expenses for the segment increased \$15.6 million, or 7%, due primarily to increased shipments and the higher cost of logs consumed, mainly related to increased prices for sawlogs in Idaho and the Lake States.

Revenues increased \$17.0 million, expenses increased \$5.4 million and operating income increased \$11.6 million in the first nine months of 2014 compared to the same period of 2013, due primarily to sales of 9,400 acres of rural real estate in Minnesota in the second quarter of 2014 and 11,000 acres of rural real estate in Idaho in the first quarter of 2014.

Liquidity and Capital Resources

Overview

At September 30, 2014, our financial position included:

- cash and short-term investments totaled \$73.3 million;
- noncurrent investments of \$29.4 million, primarily made up of company owned life insurance (COLI); and
- long-term debt of \$319.7 million

Net Cash from Operations

Net cash provided from operating activities was:

\$107.7 million in 2014 and

\$75.1 million in 2013.

Net cash from operations increased \$32.6 million for the nine months ended 2014 as compared with 2013, primarily due to increased cash received from customers of \$31.4 million. See Note 10: Segment Information for additional information.

Net Cash Flows from Investing Activities

Net cash used for investing activities was \$57.3 million for the nine months ending September 30, 2014, compared to \$11.6 million in 2013. In 2014, we transferred \$25 million of cash to our COLI in order to generate a higher return.

Short-term investments increased \$12.8 million in 2014, compared to a decrease of \$6.3 million in 2013.

Net Cash Flows from Financing Activities

Net cash used for financing activities was \$47.7 million and \$74.5 million for the nine months ending September 30, 2014 and 2013, respectively. In 2014, net cash used for financing activities was primarily attributable to paying our quarterly distribution to shareholders of \$42.6 million. Net cash used for financing activities in 2013 was primarily for our quarterly distribution to shareholders of \$37.7 million and debt redemptions of \$36.7 million.

Unsecured Credit Agreement

On August 12, 2014, we entered into a new amended and restated credit agreement with an expiration date of February 12, 2020, which supersedes our previous credit agreement dated as of December 11, 2012. This new credit agreement provides for a revolving line of credit with an initial aggregate principal amount not to exceed \$250 million, which may be increased by up to an additional \$250 million of principal amount. It also includes a sublimit of \$40 million for the issuance of standby letters of credit and a sublimit of \$25 million for swing line loans.

As of September 30, 2014, there were no borrowings outstanding under our revolving line of credit, and approximately \$1.4 million of the letter of credit subfacility was being used to support several outstanding letters of credit. Available borrowing capacity at September 30, 2014 was \$248.6 million.

The credit agreement contains financial covenants including the maintenance of a minimum interest coverage ratio, a maximum leverage ratio and a maximum number of allowable acres to be sold.

The following table sets forth the financial covenants in the bank credit facility and our status with respect to these covenants as of September 30, 2014:

	Covenant Requirements	Actuals at September 30, 2014
Minimum Interest Coverage Ratio	3.00 to 1.00	7.42 to 1.00
Maximum Leverage Ratio	40%	16%
Maximum Allowable Acres to be Sold	433,051	3,800

The Interest Coverage Ratio is our twelve months ended EBITDDA, which is defined as net income adjusted for interest expense, income taxes, depreciation, depletion and amortization, the basis of real estate sold and non-cash equity compensation expense, divided by interest expense for the same period.

The Leverage Ratio is our Total Funded Indebtedness divided by our Total Asset Value. Our Total Funded Indebtedness consists of our long-term debt, including any current installments on long-term debt, plus the total amount outstanding under the letter of credit subfacility. Our Total Asset Value per the credit agreement is defined as the value of our timberlands, updated for acquisitions and dispositions, the book basis of our wood products manufacturing facilities, cash and short-term investments, and the cash value of our COLI. The book basis of our Wood Products manufacturing facilities and the cash value of our COLI are each limited to 5% of Total Asset Value.

Senior Notes

The terms of our senior notes limit our ability and the ability of any subsidiary guarantors to borrow money, pay dividends, redeem or repurchase capital stock, enter into sale and leaseback transactions, and create liens. Such restricted transactions are permitted if the balance of our Funds Available for Distribution (FAD), plus a basket

amount if needed, provides sufficient funds to cover such restricted payments. Our cumulative FAD was \$89.3 million at September 30, 2014. The balance of the FAD basket was \$90.1 million at September 30, 2014.

Alabama and Mississippi Timberland Acquisition

We signed a purchase agreement on October 15, 2014 to acquire approximately 201,000 acres of timberland in Mississippi and Alabama from affiliates of Resource Management Service, LLC. for \$384 million. We expect to finance with new long-term debt and \$75 million in cash. We plan to transfer approximately \$29 million from our COLI to cash in the fourth quarter. The transaction is subject to the satisfaction of customary closing conditions.

Contractual Obligations

There have been no material changes to our contractual obligations in the nine months ended September 30, 2014 outside the ordinary course of business.

Off-Balance Sheet Arrangements

We currently are not a party to off-balance sheet arrangements that would require disclosure under this section.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK
