DNA Brands, Inc.

Notes to Condensed Consolidated Financial Statements

1. Organization and Summary of Significant Accounting Policies

DNA Brands, Inc. (hereinafter referred to as “us,” “our,” “we,” the “Company” or “DNA”) was incorporated in the State of Colorado on May 23, 2007 under the name Famous Products, Inc. Prior to July 6, 2010 we were a holding company operating as a promotion and advertising company. We currently produce, market and sell a proprietary line of five carbonated blends of DNA Energy Drink®, Citrus, Sugar Free Citrus, Original (a unique combination of Red Bull® and Monster® energy drinks), Cryo-Berry (a refreshing mix of cranberry and raspberry) and Molecular Melon (a cool and refreshing taste); as well as three milk based energy coffees fortified with Omega 3. These flavors are Mocha, Vanilla Latte, and Carmel Macchiato.

Our current business commenced in May 2006 in the State of Florida under the name Grass Roots Beverage Company, Inc. (“Grass Roots”). Initial operations of Grass Roots included development of our energy drinks, sampling and other marketing efforts and initial distribution in the State of Florida. In May 2006 we formed DNA Beverage Corporation, a Florida corporation (“DNA Beverage”). Our early years were devoted to brand development, creating awareness through heavy sampling programs and creating credibility among our then core demographic by concentrating marketing efforts on action sports locations and events (surf, motocross, skate, etc.).

Effective July 6, 2010, we executed agreements to acquire all of the assets, liabilities and contract rights of DNA Beverage and 100% of the common stock of DNA Beverage’s wholly owned subsidiary Grass Roots Beverage Company, Inc. (“Grass Roots”) in exchange for the issuance of 31,250,000 shares of our common stock. The share issuance represented approximately 94.6% of our outstanding shares at the time of issuance. As a result of this transaction we also changed our name to “DNA Brands, Inc.” Grass Roots was dissolved and ceased activity on December 31, 2013.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles applicable to interim financial information and the requirements of Form 10-Q and Article 10 of Regulation S-X of the SEC. Accordingly, they do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America for complete financial statements. Interim results are not necessarily indicative of results for a full year. In the opinion of management, all adjustments considered necessary for a fair presentation of the financial position and the results of operations and cash flows for the interim periods have been included.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company, its wholly-owned subsidiary Grass Roots, and Beverage LLC, which is considered a variable interest entity (“VIE”) since the Company is the primary beneficiary of Beverage LLC’s operations and exerts significant control. All significant intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

See Note 1 in the Company's audited 2013 consolidated financial statements in Form 10-K for a summary of the Company's significant accounting policies.

2. Recently Issued Accounting Pronouncements

Accounting standards that have been issued or proposed by the Financial Accounting Standards Board ("FASB") or other standard-setting bodies that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

3. Going Concern

The accompanying financial statements have been prepared on a going concern basis which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business as they become due.

During the three month period ended March 31, 2014, the Company recorded a net loss of \$793,728 and had positive cash flows of \$49,043. At March 31, 2014, the Company had a working capital deficit of \$2,784,944 and a stockholders' deficit of \$3,052,003. The Company has relied, in large part, upon debt and equity financing to fund its operations. These matters collectively raise a substantial doubt about the Company's ability to continue as a going concern.

The ability of the Company to continue as a going concern is dependent on management's plans, which includes implementation of its business plan and continuing to raise funds through debt or equity raises. The Company will likely continue to rely upon related-party debt or equity financing in order to ensure the continuing existence of the business. Additionally the Company is working on generating new sales from additional retail outlets, distribution centers or through sponsorship agreements; and allocating sufficient resources to continue with advertising and marketing efforts.

The financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classification of liabilities that may result if the Company is unable to operate as a going concern.

4. Inventory, Net

The following table sets forth the composition of the Company's inventory at March 31, 2014 and December 31, 2013:

	March 31 2014 (unaudited)
Raw materials	\$ 13,652
Finished goods-beverages	258,073
Total inventory, net	\$ 271,725

5. Accounts Receivable, Net

The following table sets forth the composition of the Company's accounts receivable at March 31, 2014 and December 31, 2013:

	March 31, 2014 (unaudited)	December 31, 2013
Accounts receivable	\$22,109	\$26,414
Allowance for doubtful accounts	(17,664)	(17,664)
Accounts receivable, net	\$4,445	\$8,750

Bad debt expense (recovery) which is included in selling and marketing expenses related to the Company's trade accounts receivable for three month periods ended March 31, 2014 and 2013 was \$2,836 and \$(4,998) respectively.

6. Prepaid Expenses and Other Assets

The following table sets forth the composition of the Company's prepaid expenses and other assets at March 31, 2014 and December 31, 2013:

	March 31, 2014 (unaudited)	December 31, 2013
Short-term security deposit	\$6,000	\$6,000
Prepaid services	35,794	131,441
Prepaid expenses and other current assets	\$41,794	\$137,441

7. Property and Equipment, Net

	March 31, 2014 (unaudited)	December 31, 2013
Equipment	\$18,690	\$18,690
Furniture and fixtures	9,156	9,156
Vehicles	75,907	75,907
Accumulated depreciation	(93,981)	(91,953)
Total property and equipment, net	\$9,772	\$11,800

Depreciation expense for the three month periods ended March 31, 2014 and 2013 was \$2,028 and \$8,539, respectively.

8. Accrued Liabilities

The following table sets forth the composition of the Company's accrued expenses at March 31, 2014 and December 31, 2013:

	March 31, 2014 (unaudited)	December 31, 2013
Salaries and bonuses	\$ 610,307	\$ 505,884
Interest expense on convertible debentures	234,351	202,648
Professional services	45,035	51,035
Payroll taxes and penalties	449,194	449,332
Other	7	8,386
Total accrued expenses	\$ 1,338,894	\$ 1,217,285

In October 2013, Messrs. Marks and Leiner agreed to forgive \$944,000 in accrued salaries which represented the value of substantially all of their compensation from 2010 through July 1, 2013. As a result of this forgiveness we reduced our debt and increased our equity by \$944,000. As of March 31, 2014 and December 31, 2013 the Company's officers were due \$143,500 and \$91,000 as a result of their deferrals and forgiveness; and its employees were owed \$466,808 and \$414,885, respectively.

As of March 31, 2014 and December 31, 2013, accrued payroll taxes and penalties representing the unpaid portion of employer and employee payroll taxes totaled \$217,906 and \$314,122, respectively. The Company has estimated potential penalties associated with these unpaid amounts to be \$231,288 and \$135,210 as of March 31, 2014 and December 31, 2013, respectively. The Company has engaged the services of a professional experienced in payroll tax matters to work with the Company and the Internal Revenue Service ("IRS") to achieve a re-payment plan acceptable to the IRS. During three months ended March 31, 2014 and the year ended December 31, 2013 the Company made payments of \$0 and \$248,394, respectively against this liability.

9. Loans Payable, Net of Discounts

The composition of loans payable at March 31, 2014 and December 31, 2013 was as follows:

	March 31, 2014 (unaudited)	December 31, 2013
Loans Payable	\$ 530,000	\$ 530,000
Discounts	(13,214)	(91,625)
Loans payable, net of discounts	\$ 516,786	\$ 438,375

In June 2013, the Company entered into a loan agreement with Beverage Production and Inventory, LLC ("Beverage") and received a loan of \$265,000. In accordance with ACS 810- 10-55, the Company considered its relationship with, and the terms of its interest in, Beverage and determined that it was a VIE that should be consolidated into its financial statements. The Company's involvement with Beverage is that it serves as an entity to obtain inventory financing for DNA.

As of March 31, 2014 and December 31, 2013 the amounts included in the consolidated liabilities, which are reported in loans payable (before discount) total \$530,000 and \$530,000 respectively, relating to Beverage . The loans payable bear interest at a rate of 6% per annum and were scheduled to be repaid to the lenders in equal installments of 66.67%

of the original principal on September 30, 2013, December 31, 2013 and March 31, 2014. The aggregate value of the repayment installments totals \$530,000. September, December and March installment payments were not made.

10. Convertible Debentures, Net of Discounts

A summary of all convertible notes outstanding at March 31, 2014:

	Default Interest	Interest Rate		Face Value	Original Due Date	Conversion Rate of Face Value to Common Shares	
02/18/2011		12	%	\$ 100,000	02/18/2014	50.00	
07/18/2011		12	%	25,000	07/14/2014	50.00 (1)

Total				\$ 1,125,529			

- (1) The Company has determined the conversion ratio as of March 31, 2014. These debentures were convertible at a conversion price equal to 80% of the average share price of the Company's common stock for the ten (10) previous trading days prior to conversion. As a result, the conversion ratio may fluctuate from period to period. Modified to \$0.02 on October 15, 2013.
- (2) The Company has determined the conversion ratio as of March 31, 2014. These debentures are convertible at a conversion price equal to the lesser of 75% of the average share price of the Company's common stock for the five (5) previous trading days prior to conversion or a base conversion price equivalent to the lowest issued price per share. As a result, the conversion ratio may fluctuate from period to period.
- (3) These debentures are convertible at a conversion price equal to 58% of the average of the 3 lowest share closing bid prices of the Company's common stock on the 10 previous trading days prior to the day of conversion. As a result, the conversion ratio may fluctuate from period to period.
- (4) The Company has determined the conversion ratio as of March 31, 2014. These debentures are convertible at a conversion price equal to 50% of the lowest closing bid price of the Company's common stock on the 20 previous trading days prior to the day of conversion. As a result, the conversion ratio may fluctuate from period to period.
- (5) The Company has determined the conversion ratio as of March 31, 2014. These debentures are convertible at a conversion price equal to 70% of the lowest closing bid prices of the Company's common stock on the four previous trading days prior to and day of conversion, but not less than \$0.0001. As a result, the conversion ratio may fluctuate from period to period.
- (6) The Company has determined the conversion ratio as of March 31, 2014. These debentures are convertible at a conversion price equal to 50% of the lowest intra-day price of the Company's common stock on the 10 previous trading days prior to the day of conversion. As a result, the conversion ratio may fluctuate from period to period.
- (7)

The Company has determined the conversion ratio as of March 31, 2014. These debentures are convertible at a conversion price equal to 50% of the lowest share closing bid prices of the Company's common stock on the 25 previous trading days prior to the day of conversion. As a result, the conversion ratio may fluctuate from period to period.

- (8) The Company has determined the conversion ratio as of March 31, 2014. These debentures are convertible at a conversion price equal to 50% of the lowest share closing bid prices of the Company's common stock on the 20 previous trading days prior to the day of conversion. As a result, the conversion ratio may fluctuate from period to period.

On January 21, 2014, the Company issued a convertible debenture in the amount of \$50,000. The debenture bears interest at 6% per annum, which is payable in the Company's common stock at the time of conversion or maturity. The debenture is convertible at any time prior to maturity at a conversion price equal to 70% of the lowest share closing bid price of the Company's common stock on the four previous trading days prior to and day of conversion. The Company determined that the terms of the debenture created a beneficial conversion feature. Using the Monte Carlo option model, the beneficial conversion feature was valued at \$23,987, and recorded as a discount to the principal amount of the debenture. The discount is amortized using the effective interest method over the term of the debenture and recorded as interest expense in the Company's financial statements.

On January 21, 2014, the Company issued a convertible debenture in the amount of \$75,000. The debenture bears interest at 12% per annum, which is payable in the Company's common stock at the time of conversion or maturity. The debenture is convertible at any time prior to maturity at a conversion price equal to 50% lowest intra-day trading price of the Company's common stock on the ten previous trading days prior to the day of conversion. The Company determined that the terms of the debenture created a beneficial conversion feature. Using the Monte Carlo option model, the beneficial conversion feature was valued at \$75,000, the ceiling of its intrinsic value, and recorded as a discount to the principal amount of the debenture. The discount is amortized using the effective interest method over the term of the debenture and recorded as interest expense in the Company's financial statements.

On February 11, 2014, the Company issued a convertible debenture in the amount of \$50,000. The debenture bears interest at 12% per annum, which is payable in the Company's common stock at the time of conversion or maturity. The debenture is convertible at any time prior to maturity at a conversion price equal to the lesser of \$0.02 or 60% of the lowest bid price of the Company's common stock on the twenty-five previous trading days prior to conversion. The Company determined that the terms of the debenture created a beneficial conversion feature. Using the Monte Carlo option model, the beneficial conversion feature was valued at \$50,000, and recorded as a discount to the principal amount of the debenture. The discount is amortized using the effective interest method over the term of the debenture and recorded as interest expense in the Company's financial statements.

On February 12, 2014, the Company issued a convertible debenture in the amount of \$50,000. The debenture bears no interest and is payable in the Company's common stock at the time of conversion or maturity. The debenture is convertible at any time prior to maturity at a conversion price equal to 50% of the average share closing bid price of the Company's common stock on the thirty previous trading days prior to the day of conversion. The Company determined that the terms of the debenture created a beneficial conversion feature. Using the Monte Carlo option model, the beneficial conversion feature was valued at \$50,000, the ceiling of its intrinsic value, and recorded as a discount to the principal amount of the debenture. The discount is amortized using the effective interest method over the term of the debenture and recorded as interest expense in the Company's financial statements.

On March 14, 2014, the Company issued a convertible debenture in the amount of \$110,000. The debenture bears interest at 5% per annum, which is payable in the Company's common stock at the time of conversion or maturity. The debenture is convertible at any time prior to maturity at a conversion price equal to 50% of the lowest trading price of the Company's common stock on the twenty previous trading days prior to conversion. The Company determined that the terms of the debenture created a beneficial conversion feature. Using the Monte Carlo option model, the beneficial conversion feature was valued at \$110,000, the ceiling of its intrinsic value, and recorded as a discount to the principal amount of the debenture. The discount is amortized using the effective interest method over the term of the debenture and recorded as interest expense in the Company's financial statements.

On March 14, 2014, the Company issued a convertible debenture in the amount of \$200,000. The debenture bears no interest and is payable in the Company's common stock at the time of conversion or maturity. The debenture is convertible at any time prior to maturity at a conversion price equal to 50% of the lowest trading price of the Company's common stock on the twenty previous trading days prior to conversion. The Company determined that the terms of the debenture created a beneficial conversion feature. Using the Monte Carlo option model, the beneficial conversion feature was valued at \$200,000, the ceiling of its intrinsic value, and recorded as a discount to the principal amount of the debenture. The discount is amortized using the effective interest method over the term of the debenture and recorded as interest expense in the Company's financial statements.

The following table set forth the composition of the Company's convertible notes at March, 31 2014 and December 31, 2013:

	March 31, 2014	December 31, 2013
Convertible notes-face value	\$1,125,529	\$942,829
Loan discount	(830,929)	(617,729)
Amortization of loan discount	182,163	294,064
Current portion	(242,082)	(445,289)
Net convertible notes	\$234,681	\$173,875

The calculated value of the conversion feature that resulted in the discount in the table above was estimated using the Monte Carlo option pricing model with the following weighted average assumptions for the periods ended March 31, 2014 and December 31, 2013.

	March 31, 2014	December 31, 2013
Expected dividend yield (1)	—	—
Risk-free interest rate (2)	0.11 – 0.12 %	0.10 – 0.32%
Expected volatility (3)	229.7 – 250.8%	202.3 – 253.50%
Expected life (in years) (4)	0.75 – 1.46	0.60 – 4.00

(1) The Company has no history or expectation of paying cash dividends on its common stock.

(2) The risk-free interest rate is based on the U.S. Treasury yield for a term consistent with the expected life of the awards in effect at the time of grant.

(3) The volatility is based upon the average volatility rate of the Company's common stock trading price.

(4) The expected life represents the due date of the note.

11. Embedded Conversion on Option Liabilities

Edgar Filing: DNA BRANDS INC - Form 10-Q

Due to the conversion terms of certain promissory notes, the embedded conversion options met the criteria to be bifurcated and presented as derivative liabilities. The Company calculated the estimated fair values of the liabilities for embedded conversion option derivative instruments at the original note inception date and as of March 31, 2014 using the Monte Carlo option pricing model using the share prices of the Company's stock on the dates of valuation and using the following ranges for volatility, expected term and the risk free interest rate at each respective valuation date, no dividend has been assumed for any of the periods:

	March 31, 2014		December 31, 2013
Expected dividend yield (1)		—	—
Risk - free interest rate (2)	0.11 – 0.44	%	0.10 – 0.38%
Embedded volatility (3)	158.4 – 228.50	%	223.0– 316.50%
Expected life (in years) (4)	0.36 – 1.76	%	0.15 – 2.17%

- (1) The Company has no history or expectation of paying cash dividends on its common stock.
- (2) The risk-free interest rate is based on the U.S. Treasury yield for a term consistent with the expected life of the awards in effect at the time of grant.
- (3) The volatility for the period ended March 31, 2014 is based upon the historical volatility of the Company's stock price, a period equal to the expected life of the note or twenty one months following the reverse capitalization transaction.
- (4) The expected life represents the due date of the note.

The following reflects the initial fair value on the note inception date and changes in fair value through March 31, 2014 and December 31, 2013:

	March 31, 2014	December 31, 2013
Note inception date fair value allocated to debt discount	\$1,084,661	\$ 878,916
Cumulative change in fair value – (gain)	(363,065)	(554,216)
Embedded note conversion option derivative liability fair value	\$721,596	\$ 324,700

12. Fair Value

FASB Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures ("ASC 820") establishes a framework for all fair value measurements and expands disclosures related to fair value measurement and developments. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 requires that assets and liabilities measured at fair value are classified and disclosed in one of the following three categories:

Level 1—Quoted market prices for identical assets or liabilities in active markets or observable inputs;

Level 2—Significant other observable inputs that can be corroborated by observable market data; and

Level 3—Significant unobservable inputs that cannot be corroborated by observable market data.

The carrying amounts of cash, accounts receivable, accrued salaries payable, accounts payable and other liabilities, accrued interest payable, due to related parties and notes payable - related party approximate fair value because of the short-term nature of these items. The assets or liability's fair value measurement within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. The following table provides a summary of the assets that are measured at fair value on a recurring basis.

	Consolidated Balance Sheet	Quoted Prices in Active Markets for Identical Assets or Liabilities (Level 1)	Quoted Prices for Similar Assets or Liabilities in Active Markets (Level 2)	Significant Unobservable Inputs (Level 3)
Derivative Liabilities:				
March 31, 2014	\$ 729,132	\$ -	\$ -	\$ 729,132
December 31, 2013	\$ 336,884	\$ -	\$ -	\$ 336,884

The following table sets forth a summary of the changes in the fair value of the Company's Level 3 financial liabilities that are measured at fair value on a recurring basis:

	March 31, 2014
Beginning balance	\$ 336,884
Aggregate fair value of conversion features upon issuance	507,263
Gain on change in fair value of conversion features	(115,015)
Ending balance	\$ 729,132

13. Loans Payable to Officers

The following table summarizes the Company's loans payable to officers as of March 31, 2014 and December 31, 2013:

	March 31, 2014	December 31, 2013
Loans payable to officers	\$ 3,757	\$ 3,777

Since the Company's inception, its principal executive officers have loaned the Company significant amounts of operating capital on an interest free basis and without formal repayment terms.

14. Loans Payable to Related Party

Our directors are also executive officers of a company called Illuminations America LLC ("Illuminations") involved with LED lighting. As of December 31, 2013, Illuminations loaned DNA \$67,150. During the three months ended March 31, 2014, the Company repaid \$25,000 of the amount outstanding by to Illuminations. The following table summarizes the Company's loans payable to a related party as of March 31, 2014 and December 31, 2013.

	March 31, 2014	December 31, 2013
Loans payable to related party	\$ 42,150	\$ 67,150

The loans from Illuminations are on an interest free basis and without formal repayment terms.

15. Equity

Preferred and Common Stock

At March 31, 2014 the Company was authorized to issue 10,000,000 shares of \$0.001 Preferred Stock and 400,000,000 shares of \$0.001 par value Common Stock. The holders of common stock are entitled to receive dividends whenever funds are legally available and when declared by the Board of Directors. Each share of common stock is entitled to one vote.

On May 3, 2013 the Company authorized the issuance of 300,000 shares of Series C Preferred Stock (“Series C”) and issued 150,000 shares of Series C to Darren Marks, an officer and director of the Company, in settlement of \$100,000 owed by the Company to Mr. Marks; and issued 150,000 shares of its Series C to Mel Leiner, an officer and director of the Company, in settlement of \$100,000 owed by the Company to Mr. Leiner. Each Series C share entitles the holder to 300 votes on all matters submitted to a vote of the Company's shareholders.

On October 21, 2013 the Company authorized the issuance of 1,800,000 shares of Series D Preferred Stock (“Series D”) and issued 900,000 shares of Series D to Darren Marks in settlement of \$900,000 owed by the Company to Mr. Marks; and issued 900,000 shares of its Series D to Mel Leiner in settlement of \$900,000 owed by the Company to Mr. Leiner. Each share of Series D Convertible Preferred Stock is convertible into 68.2721 shares of our Common Stock. If all of these shares are converted it would result in the issuance of 122,448,780 shares.

On December 27, 2013 Messrs. Marks and Leiner returned their Series D shares and these shares were cancelled. Additionally on December 27, 2013 the Company authorized the issuance of 1,800,000 shares of Series E Preferred Stock (“Series E”) and issued 900,000 shares of Series E to Darren Marks in settlement of \$50,000 owed by the Company to Mr. Marks; and issued 900,000 shares of its Series E to Mel Leiner in settlement of \$50,000 owed by the Company to Mr. Leiner. Each share of Series E stock has voting rights equal to 68.02721 common shares. The Series E is not convertible into any of our common shares.

The number of shares of common stock issued and their respective values for the three month period ended March 31, 2014 is as follows:

	Shares Issued	Value of Issuances
Conversion of convertible debentures into common stock	11,401,737	\$ 104,137
Common stock issued in connection with private offerings	24,187,500	193,500
Total	35,589,237	\$ 297,637

At March 31, 2014 and December 31, 2013, preferred stock issued and outstanding was 2,100,000 and 2,100,000 shares, respectively. At March 31, 2014 and December 31, 2013, common stock issued and outstanding totaled 213,183,424 and 177,594,187 shares, respectively.

Historically, the Company has issued and sold preferred stock, common stock and common stock warrants in order to fund a significant portion its operations. Additionally, the Company has issued shares of its common stock to compensate its employees, pay service providers and retire debt.

Stock Options

Edgar Filing: DNA BRANDS INC - Form 10-Q

In April 2011, the Company adopted an Incentive Stock Option Plan and a Non-Qualified Stock Options Plan. Under these plans, the Company may grant up to 500,000 and 1,000,000 stock options, respectively. As of March 31, 2014 and December 31, 2013, the Company had not granted any options pursuant to either the Incentive Stock Option Plan or the Non-Qualified Stock Option Plan.

	Number of Options	Weighted-Average Exercise Price	Average Remaining Contractual Life (Years)
Outstanding and exercisable on December 31, 2013	326,076	\$ 1.11	2.29
Granted	100,000	0.25	4.75
Exercised	—	—	—
Forfeited and expired	—	—	—
Outstanding and exercisable on March 31, 2014	426,076	\$ 0.93	2.68

Intrinsic value is measured using the fair market value price of the Company's common stock less the applicable exercise price. The aggregate intrinsic value of stock options outstanding and exercisable as of March 31, 2014, was \$-0-.

The aggregate intrinsic value in the preceding table represents the total pre-tax intrinsic value based on the closing price of the Company's common stock of \$0.017 at March 31, 2014, which would have been received by the option holders had all option holders exercised their options as of that date.

As of March 31, 2014 and December 31, 2013, there was \$-0- in unrecognized compensation related to stock options outstanding. All outstanding stock options are vested. Since the inception of the Company, no stock options have been exercised.

Stock Warrants

The following table reflects all outstanding and exercisable warrants for the periods ended March 31, 2014 and December 31, 2013. All stock warrants are immediately vested upon issuance and are exercisable for a period five years from the date of issuance.

	Number of Warrants Outstanding	Weighted Average Exercise Price	Remaining Contractual Life (Years)
Balance, December 31, 2013	2,543,686	\$ 1.32	2.30
Warrants issued	—	—	—
Warrants exercised	—	—	—
Warrants expired	(19,294)	\$ 1.32	—
Balance, March 31, 2014	2,524,392	\$ 1.32	2.08(1)

(1) The remaining contractual life of the warrants outstanding as of December 31, 2013 ranges from .05 to 3.76 years.

Warrant Issued in Exchange for Services

On February 1, 2012, the Company issued warrants to purchase 500,000 shares of the Company's common stock to an investor relations professional engaged by the Company. The warrants can be exercised at a price equal to 70% of the average share price of the Company's common stock for the 5 previous trading days prior to conversion. They expire on January 31, 2017. No warrants were issued for services in 2013.

Due to the exercise terms of common stock warrants, the option met the criteria to be bifurcated and presented as derivative liabilities. The Company calculated the estimated fair values of the liabilities for option derivative instrument at the original grant date and as of March 31, 2014 using the Black-Scholes option pricing model using the share prices of the Company's stock on the dates of valuation and using the following ranges for volatility, expected term and the risk free interest rate at each respective valuation date, no dividend has been assumed for any of the periods:

	March 31, 2014	
Expected dividend yield (1)	—	%
Risk-free interest rate (2)	0.72	%
Expected volatility (3)	241.9	%
Expected life (in years) (4)	5.00	

-
- (1) The Company has no history or expectation of paying cash dividends on its common stock.
 - (2) The risk-free interest rate is based on the U.S. Treasury yield for a term consistent with the expected life of the awards in effect at the time of grant.
 - (3) The volatility for the period ended March 31, 2014 is based upon the historical volatility of the Company's stock price, a period equal to the expected life of the note or twenty four months following the reverse capitalization transaction.
 - (4) The expected life represents the due date of the note.

The following reflects the initial fair value on the date of grant and changes in fair value through March 31, 2014 for warrant derivative liability:

Grant date fair value allocated to derivative liability	\$ 114,315
Change in fair value – (gain)	(106,779)
Warrant option derivative liability fair value on March 31, 2014	\$ 7,536

Stock Based Compensation

For the periods ended March 31, 2014 and December 31, 2013 the Company recorded \$8,987 and \$8,990, respectively, in stock based compensation.

16. Income Taxes

As of March 31, 2014, the Company has available approximately \$12,700,000 of operating loss carry-forwards before applying the provision of Internal Revenue Code (“IRC”) Section 382, which may be used in the future filings of the Company’s tax returns to offset future taxable income for United States income tax purposes. Net operating losses will begin to expire in the year 2022. As of March 31, 2014 and December 31, 2013, the Company has determined that due to the uncertainty regarding profitability in the near future, a 100% valuation allowance is needed with regards to the deferred tax assets. Changes in the estimated tax benefit that will be realized from the tax loss carry-forwards and other temporary differences will be recognized in the financial statement in the years in which those changes occur.

For the period ended March 31, 2014 the change in of the valuation allowance was \$243,723.

Under the provisions of the IRC Section 382, an ownership change is deemed to have occurred if the percentage of the stock owned by one or more 5% shareholders has increased, in the aggregate, by more than 50 percentage points over the lowest percentage of stock owned by said shareholders at any time during a three year testing period. Once an ownership change is deemed to have occurred under IRC Section 382, a limitation on the annual utilization of net operating loss carry-forwards is imposed and therefore, a portion of the tax loss carry-forwards would be subject to the limitation under Section 382.

The tax years 2009 through 2013 remain open to examination by federal authorities and state jurisdictions where the Company operates.

17. Subsequent Events

On April 1, 2014, the Company promoted Eric Fowler to the role of President and CEO, replacing Darren Marks who remains as a Director of the Company.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Forward looking statements are statements not based on historical information and which relate to future operations, strategies, financial results or other developments. Forward looking statements are necessarily based upon estimates and assumptions that are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control and many of which, with respect to future business decisions, are subject to change. These uncertainties and contingencies can affect actual results and could cause actual results to differ materially from those expressed in any forward looking statements made by, or on our behalf. We disclaim any obligation to update forward looking statements.

Our financial statements are prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). These accounting principles require us to make certain estimates, judgments and assumptions. We believe that the estimates, judgments and assumptions upon which we rely are reasonable based upon information available to us at the time that these estimates, judgments and assumptions are made. These estimates, judgments and assumptions can affect the reported amounts of assets and liabilities as of the date of the financial statements as well as the reported amounts of revenues and expenses during the periods presented. Our financial statements would be affected to the extent there are material differences between these estimates and actual results. In many cases, the accounting treatment of a particular transaction is specifically dictated by GAAP and does not require management's judgment in its application. There are also areas in which management's judgment in selecting any available alternative would not produce a materially different result. The following discussion should be read in conjunction with our consolidated financial statements and notes thereto appearing elsewhere in this report.

COMPANY OVERVIEW AND HISTORY

DNA Brands, Inc. (hereinafter referred to as "us," "our," "we," the "Company" or "DNA") was incorporated in the State of Colorado on May 23, 2007 under the name Famous Products, Inc. Prior to July 6, 2010 we were a holding company operating as a promotion and advertising company.

We currently produce, market and sell a proprietary line of five carbonated blends of DNA Energy Drink®, Citrus, Sugar Free Citrus, Original (a unique combination of Red Bull® and Monster® energy drinks), Cryo-Berry (a refreshing mix of cranberry and raspberry) and Molecular Melon (a cool and refreshing taste); as well as three milk based energy coffees fortified with Omega 3. These flavors are Mocha, Vanilla Latte, and Carmel Macchiato.

Our current business commenced in May 2006 in the State of Florida under the name Grass Roots Beverage Company, Inc. ("Grass Roots"). Initial operations of Grass Roots included development of our energy drinks, sampling and other marketing efforts and initial distribution in the State of Florida. In May 2006 we formed DNA Beverage Corporation, a Florida corporation ("DNA Beverage"). Our early years were devoted to brand development, creating awareness through heavy sampling programs and creating credibility among our then core demographic by concentrating marketing efforts on action sports locations and events (surf, motocross, skate, etc.).

Effective July 6, 2010, we executed agreements to acquire all of the assets, liabilities and contract rights of DNA Beverage and 100% of the common stock of DNA Beverage's wholly owned subsidiary Grass Roots Beverage Company, Inc. ("Grass Roots") in exchange for the issuance of 31,250,000 shares of our common stock. The share issuance represented approximately 94.6% of our outstanding shares at the time of issuance. As a result of this transaction we also changed our name to "DNA Brands, Inc."

Grass Roots was dissolved and ceased activity on December 31, 2013.

Edgar Filing: DNA BRANDS INC - Form 10-Q

Our principal offices are located at 544 NW 77th Street, Boca Raton, Florida, 33487, telephone (954) 970-3826. Our website is www.dnabrandsusa.com.

Presented below are our results of operations for the three month periods ended March 31, 2014 and 2013.

RESULTS OF OPERATIONS

Comparison of Results of Operations for the three month periods ended March 31, 2014 and 2013

Revenue

Sales for the three month period ended March 31, 2014 were \$48,073, compared to \$37,948 during the three month period ended March 31, 2013, an increase of \$22,545 (37.3%). This increase in revenue is primarily attributable to our re-branding initiatives compared to a period when we winding down activities of our previous product line. In early July 2013, we began our rebranding efforts concurrent with the delivery of 50,000 cases of our energy drink, each consisting of ten thousand of our new SKU's.

During the past two years we have experienced a shortage of available capital which has prevented us from making inventory purchases in sufficient quantities of our SKU's. Based upon our conversations with our retail customers we believe that they are interested in purchasing larger quantities of our products and putting it on their shelves but until we can raise additional capital we are not able to meet this demand. Also, the lack of capital has limited our marketing, advertising and promotions which are critical revenue drivers in the energy drink industry. No assurances can be provided that we will successfully raise the funding necessary to support our marketing efforts, or that these efforts will generate increased revenues. See "Liquidity and Capital Resources," below.

Gross margin

We calculate gross margin by subtracting cost of goods sold from sales. Gross margin percentage is calculated by dividing the gross margin by sales. Gross margin for the three month period ended March 31, 2014 was \$11,016, compared to \$(1,179) during the three month period ended March 31, 2013. Gross margin percentage for the three month period ended March 31, 2014 was 10.9% compared to (3.0)% during the three month period ended March 31, 2013. The primary reasons for the significant increase in gross margin over the prior year is due to the introduction of our new rebranded product and the discontinuation of our previous product line where we sold our product significantly below cost to raise capital as well low margin sales in 2013 intended to generate interest in our new products.

Since we are still in the early stages of our rebranding efforts and continue to test varying price structures, a small number of sales and transactions can impact our gross margin percentage either positively or negatively. We believe that the gross margin percentage for the three months ended March 31, 2014 is not indicative of future results and that we expect to generate gross margins near historic levels of approximately 25%-30% when calculated over higher sales volumes, although there can be no assurances.

Compensation and benefits

Compensation and benefits for the three month period ended March 31, 2014 was \$265,638 compared to \$241,734 during the three month period ended March 31, 2013. The slight increase in compensation and benefits of \$23,904 compared to the corresponding period in the prior year is attributable to a slight increase in salaries for our employees.

General and administrative

General and administrative expenses for the three month period ended March 31, 2014 were \$91,948 compared to \$122,088 during the three month period ended March 31, 2013. General and administrative expenses are primarily comprised of rent, utilities, insurance, travel and entertainment, and other expenses. This decrease compared to the corresponding period in the prior year is attributable to reduced spending for travel and other administrative activities

in accord with our substantially lower revenue levels.

Professional and outside services

Professional and outside services for the three month period ended March 31, 2014 were \$229,905, compared to \$193,099 during the three month period ended March 31, 2013. Professional and outside services are comprised primarily of accounting fees, legal fees, investor and public relations expenses and other miscellaneous services. The increase in professional and outside services for the three month period ended March 31, 2014 compared to 2013 is attributable to public company expenditures that are required and not proportional to revenue levels.

Selling and marketing expenses

Selling and marketing expenses for the three month period ended March 31, 2014 were \$35,110, compared to \$27,761 during the three month period ended March 31, 2013. The increase in selling and marketing expenses over the prior year period is directly attributable to our efforts to increase awareness and the sales of our new products.

Interest expense

Interest expense for the three month period ended March 31, 2014 was \$297,823, compared to \$165,463 during the three month period ended March 31, 2013. The increase in interest expense over the prior year period is primarily attributable to the non-cash amortization of loan discounts related to convertible debentures.

These debentures and loans were issued with beneficial conversion features or other inducements to the lender to provide funding to us. As a result, we have recorded discounts against these loans that are being amortized over their terms. During the three months ended March 31, 2014 we recorded \$260,574 in non-cash interest expense relative to the loan discounts on these notes.

Net loss

We incurred a net loss for the three month period ended March 31, 2014 of \$793,728 or (\$0.00) per basic and fully diluted share, compared to a net loss of \$646,586, or (\$0.01) per basic and fully diluted share during the three month period ended March 31, 2013. Since our inception, we have generated material operating losses. A significant portion of our losses are non-cash in nature; however, our losses remain substantial even after excluding those items.

We calculate weighted average shares outstanding based upon the physical issuance records of our stock transfer agent. The weighted average number of basic and fully diluted shares outstanding for the three month periods ended March 31, 2014 and 2013 were 183,211,402 and 64,832,425 shares, respectively. There were no dilutive equivalents included in our calculation of fully diluted shares during either period since their inclusion would be anti-dilutive due to our net loss per share.

LIQUIDITY AND CAPITAL RESOURCES

At March 31, 2014, we had \$110,379 in cash.

During the three month period ended March 31, 2014 we recorded a net loss of \$793,728 and had negative cash flows of \$402,600 from our operating activities. At March 31, 2014, we had a working capital deficit of \$2,784,944 and a stockholders' deficit of \$3,052,003. We have relied, in large part, upon debt and equity financing to fund our operations. These matters collectively raise a substantial doubt about our ability to continue as a going concern.

Net cash used in operations for the three month period ended March 31, 2014 was \$402,600, compared to \$442,193 during the three month period ended March 31, 2013. The improvement in net cash used in operating activities of \$37,756 is primarily due to the improvement in our consolidated results of operations excluding non-cash expenses over the prior year period. We recorded a net loss of \$793,728 as compared to \$646,856 in the corresponding period of the prior year.

No net cash was provided by or used in investing activities for the three month periods ended March 31, 2014 and March 31, 2013, respectively.

Net cash provided by financing activities for the three month period ended March 31, 2014 was \$451,643 compared to \$457,000 during the three month period ended March 31, 2013. During the three months ended March 31, 2014, we raised \$478,500 in new capital from debt and equity sources compared to proceeds of \$457,000 during the prior year period.

Since 2011 we have funded our operations through officer loans, the sale of equity, and the sale of convertible notes on terms favorable to investors in order to fund our operations. During 2013 our officers forgave \$944,000 in accrued

salaries and \$1,900,000 in officer loans. We can no longer rely on our officers as the primary source of capital to fund our operations going forward. Our on hand cash balance is not sufficient to fund our operations. We estimate that we will require \$1.0 million to fund our business plan. We believe we can continue to raise equity capital and debt financing to fund our operations and can begin generating positive gross margins from our products in 2014.

TRENDS

In order to increase revenues, our emphasis over the next 12 months will be to increase distribution for both our rebranded and expanded line of energy drinks, our new line of energy coffees, and our “on premise” bag-in-box program. To accomplish our goals we also plan to expand operations into NY, ME, ND, SD, MN, NE, IA, WI, GA, LA, and Florida, New York and Texas represent three of the four top convenience store outlets in the USA. As stated throughout this report, our efforts to accomplish these objectives are directly linked to our ability to raise additional capital. We have been actively involved in discussions with potential investors to provide us with this additional funding.

Creating more brand awareness and trials will be addressed through a significant public relations and advertising program. Public relations, targeted advertising, tab and coupon redemption programs, endorsement of regionally known athletes, increased "cans in hand" sampling, events at new store openings, concerts, festivals and sporting events will be included in this program. We also plan to place regional marketing representatives in territories where distribution volume warrants the expense.

INFLATION

Although our operations are influenced by general economic conditions, we do not believe that inflation had a material effect on our results of operations during the three month period ended March 31, 2014.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company and are not required to provide the information under this item pursuant to Regulation S-K.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures - Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of the end of the period covered by this Report.

These controls are designed to ensure that information required to be disclosed in the reports we file or submit pursuant to the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission, and that such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Based on this evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of March 31, 2014. We believe that our consolidated financial statements presented in this Report fairly present, in all material respects, our financial position, results of operations, and cash flows for all periods presented herein.

Inherent Limitations - Our management, including our Chief Executive Officer and Chief Financial Officer, do not expect that our disclosure controls and procedures will prevent all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. The design of any system of controls is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within our company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdown can occur because of simple error or mistake. In particular, many of our current processes rely upon manual reviews and processes to ensure that neither human error nor system weakness has resulted in erroneous reporting of financial data.

Internal Control over Financial Reporting - Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) or 15d-15(f) promulgated under the Exchange Act. Those rules define internal control over financial reporting as a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company;

- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and the receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the Company; and

- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisitions, use or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal controls over financial reporting may not prevent or detect misstatements. Projections of any evaluation of the effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision of our CEO and CFO management conducted an evaluation of the effectiveness of our internal control over financial reporting as of March 31, 2014 using the criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation management concluded that under this framework that our internal control over financial reporting was not effective for the following reasons:

- Insufficient resources
- Lack of personnel with requisite accounting knowledge
- Inadequate segregation of duties
- Insufficient written procedures
- Inadequate closing financial statement process
- Lack of an audit committee and outside directors on the Company's Board of Directors

Changes in Internal Control over Financial Reporting - There were no changes in our internal control over financial reporting during the three months ended March 31, 2014, which were identified in conjunction with management's evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is party to lawsuit P3DG Protein Enhanced Products, Ltd. et v. Jeff Jonke and DNA Brands, Inc. The suit alleges that DNA conspired with Jonke to steal P30G's products. The Company believes the suit is without merit and will vigorously defend its position.

ITEM 1A. RISK FACTORS

We are a smaller reporting company and are not required to provide the information under this item pursuant to Regulation S-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the quarter ended March 31, 2014 we sold 24,187,500 shares of our common stock and received \$193,500 in gross proceeds. We utilized these proceeds for working capital to fund our operations.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None
