**PART III NARRATIVE**

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

The Registrant's Annual Report on Form 10-K for the year ended December 31, 2007 cannot be filed on or prior to the prescribed February 29, 2008 due date without unreasonable effort and expense. Due to an unanticipated delay in completing the review and approval of certain account reconciliations, the Registrant's tax provision for the fourth quarter and year ended December 31, 2007 and deferred tax balance sheet accounts, the Registrant did not have sufficient time to finalize its review and preparation of its Annual Report on Form 10-K (including audited financial statements) before the February 29, 2008 deadline. As previously reported in the Registrant's periodic reports, the Registrant has identified a material weakness in its internal control over financial reporting with respect to the review and approval of certain account reconciliations, particularly in the areas of accrued liabilities, income taxes, intercompany, and certain other asset accounts. While the Registrant has taken steps to remediate the material weakness and to strengthen its internal control processes and procedures, this material weakness has delayed the review and approval of certain accounts, including without limitation, inventory, accounts receivable, accounts payable and intercompany accounts related to certain of its locations, primarily its Tullamore, Ireland and Andover, England facilities, its tax provision for the quarter and year, and deferred tax balance sheet accounts. The Registrant plans to file the Annual Report on Form 10-K for the year ended December 31, 2007 as soon as possible after the completion of its audited financial statements for the year ended December 31, 2007 and anticipates such filing will be made no later than March 17, 2008, which is within the period prescribed by Rule 12b-25 of the General Rules and Regulations under the Securities Exchange Act of 1934, as amended.

At December 31, 2007, the Registrant's cash totaled \$57.3 million, and it had no outstanding borrowings under its \$300 million revolving credit facility. In March 2008, the Registrant's 2-1/2% Contingent Convertible Subordinated Notes (the "2-1/2% Converts") will mature, which will require it to make a \$120 million principal repayment to the bondholders. The Registrant expects to borrow under its credit facility to fund these repayments. As a result of its ongoing disclosed material weakness and the delay in the filing of its audited financial statements, the Registrant is required to obtain a waiver from its lenders with respect to certain conditions under its credit agreement to enable it to borrow the funds necessary to repay the bondholders. The Registrant has requested a waiver from its lenders so that it will be able to borrow all necessary funds under its credit facility to repay the 2-1/2% Converts; however, the Registrant cannot assure you that the waiver will be granted. If the waiver is not granted and it is unable to borrow funds under its credit facility, the Registrant may be required to seek alternative financing.
