**RULE CHANGES CONCERNING VALUATION METHODOLOGIES FOR DERIVATIVE INSTRUMENTS**

In 2008, the Colombian Superintendency of Finance issued external circulars 025, 030, 044 and 063 (the 2008 External Circulars ) establishing new guidelines for the valuation of derivatives and structured products to be followed by entities under its supervision. External circular 025 amended chapter XVIII of the Circular Básica Contable y Financiera

In accordance with the 2008 External Circulars, Bancolombia modified the methodology by which it values its portfolio of derivatives and structured products. As a result of this change, Bancolombia's balance sheet and financial results have been impacted as follows:

A reduction in the carrying value of derivatives totaling Ps. 145 billion (approximately US \$60.8 million<sup>2</sup>) was recorded for the 2008 fiscal year, resulting in a reduction on income. After this reduction, income from derivative financial instruments for the year ended December 31, 2008 totaled Ps. 139.1 billion (approximately US \$58.3 million).

An additional reduction of Ps. \$135 billion (approximately US\$56.6 million) in the carrying value of derivatives will be recorded in 2009, resulting in a reduction on income that will be amortized daily, in equal installments, during the first six months of 2009.

The complete text of the 2008 External Circulars, can be downloaded from the web site of the Colombian Superintendency of Finance (<http://www.superfinanciera.gov.co/>), in the "Establecimientos de credito" Normativa section.
