Defined terms used in this document:

Annualized rent	Annualized cash base rent (excludes tenant reimbursements, parking income, lost rent recovered from insurance and other revenue) before abatements under leases commenced as of the reporting date. For our triple net Burbank and Honolulu office properties, annualized rent is calculated by adding expense reimbursements to base rent.
Consolidated Portfolio	Includes the properties in our consolidated results, which includes the properties owned by our consolidated JVs.
Leased Rate	Signed leases not yet commenced as of the reporting date.
Rentable Square Feet	Based on the BOMA remeasurement and consists of leased square feet (including square feet with respect to signed leases not commenced), available square feet, building management use square

feet and square feet of BOMA adjustment on leased space.

Total Portfolio	Includes our Consolidated Portfolio plus the properties owned by our unconsolidated real estate Funds.

Forward Looking Statements

This Report contains forward-looking statements within the meaning of the Section 27A of the Securities Act and Section 21E of the Exchange Act. You can find many (but not all) of these statements by looking for words such as “believe”, “expect”, “anticipate”, “estimate”, “approximate”, “intend”, “plan”, “would”, “could”, “may”, “future” or other similar words in this Report. We claim the protection of the safe harbor contained in the Private Securities Litigation Reform Act of 1995. We caution investors that any forward-looking statements used in this Report, or those that we make orally or in writing from time to time, are based on our beliefs and assumptions, as well as information currently available to us. Actual outcomes will be affected by known and unknown risks, trends, uncertainties and factors beyond our control or ability to predict. Although we believe that our assumptions are reasonable, they are not guarantees of future performance and some will inevitably prove to be incorrect. As a result, our future results can be expected to differ from our expectations, and those differences may be material. Accordingly, investors should use caution when relying on previously reported forward-looking statements, which were based on results and trends at the time they were made, to anticipate future results or trends. Some of the risks and uncertainties that could cause our actual results, performance or achievements to differ materially from those expressed or implied by forward-looking statements include the following:

- adverse economic or real estate developments in Southern California and Honolulu, Hawaii;
- a general downturn in the economy, such as the global financial crisis that commenced in 2008;
- competition from other real estate investors in our markets;
- decreased rental rates or increased tenant incentive and vacancy rates;
- defaults on, early termination of, or non-renewal of leases by tenants;
- increased interest rates and operating costs;
- failure to generate sufficient cash flows to service our outstanding debt;
- failure to generate sufficient cash flows to make payments on a ground lease for one of our properties;
- difficulties in raising capital;
- difficulties in identifying properties to acquire and failure to complete acquisitions successfully;
- failure to successfully operate acquired properties;
- real estate investments are generally illiquid and difficult to sell quickly;
- possible adverse changes in rent control laws and regulations;
- environmental uncertainties;
- risks related to natural disasters;
- lack or insufficient amount of insurance, or increases in the cost of maintaining existing insurance coverage;
- inability to successfully expand into new markets and submarkets;
- risks associated with property development;
 - risks associated with
 - JVs;
- conflicts of interest with our officers and reliance on key personnel;
- changes in real estate zoning laws and increases in real property tax rates;
- adverse results of litigation or governmental proceedings;
- complying with laws, regulations and covenants that are applicable to our properties;
- difficulty in liquidating our short term investments;
- the consequences of any possible terrorist attacks or wars;
- the consequences of any possible cyber attacks or intrusions;
- adoption of new accounting pronouncements could adversely affect our operating results;
- weaknesses in our internal controls over financial reporting could result in restatements of our operating results;
- failure to maintain our REIT status under federal tax laws; and
- changes to tax laws that could adversely affect us.

For further discussion of these and other risk factors see Item 1A. "Risk Factors" in our 2016 Annual Report on Form 10-K. This Report and all subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. We do not undertake any obligation to release publicly any revisions to our forward-looking statements to reflect events or circumstances after the date of this Report.

1. Overview

Organization and Business Description

Douglas Emmett, Inc. is a fully integrated, self-administered and self-managed REIT. We are one of the largest owners and operators of high-quality office and multifamily properties in Los Angeles County, California and Honolulu, Hawaii. We focus on owning, acquiring, developing and managing a substantial share of top-tier office properties and premier multifamily communities in neighborhoods that possess significant supply constraints, high-end executive housing and key lifestyle amenities.

Through our interest in our Operating Partnership and its subsidiaries, our consolidated JVs and our unconsolidated Funds, we own or partially own, acquire, develop and manage real estate, consisting primarily of office and multifamily properties in Los Angeles, California and Honolulu, Hawaii. The terms "us," "we" and "our" as used in the financial statements refer to Douglas Emmett, Inc. and its subsidiaries on a consolidated basis. As of June 30, 2017, our portfolio of properties consisted of the following properties (not including two parcels of land from which we receive rent under ground leases):

	Consolidated Portfolio	Total Portfolio
Office (includes ancillary retail space)		
Wholly-owned properties	52	52
Consolidated JV properties	9	9
Unconsolidated Fund properties	—	8
	61	69
Multifamily		
Wholly-owned properties	10	10
Total	71	79

Basis of Presentation

The accompanying financial statements are the consolidated financial statements of Douglas Emmett, Inc. and its subsidiaries, including our Operating Partnership and our consolidated JVs. All significant intercompany balances and transactions have been eliminated in our consolidated financial statements. Our Operating Partnership and consolidated JVs are VIEs and we are the primary beneficiary. As of June 30, 2017, the total consolidated assets, liabilities and equity of the VIEs was \$7.96 billion (of which \$7.51 billion related to investment in real estate), \$4.56 billion and \$3.39 billion (of which \$1.26 billion related to noncontrolling interests), respectively.

The accompanying unaudited interim financial statements have been prepared pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with GAAP may have been condensed or omitted pursuant to SEC rules and regulations, although we believe that the disclosures are adequate to make their presentation not misleading. The accompanying unaudited interim financial statements include, in our opinion, all adjustments, consisting of normal recurring adjustments, necessary to present fairly the financial information set forth therein. The results of operations for the interim periods

are not necessarily indicative of the results that may be expected for the year ending December 31, 2017. The interim financial statements should be read in conjunction with the consolidated financial statements in our 2016 Annual Report on Form 10-K and the notes thereto. References in this Report to the number of properties, square footage, per square footage amounts, apartment units and geography, are outside the scope of our independent registered public accounting firm's review of our financial statements in accordance with the standards of the PCAOB.

2. Summary of Significant Accounting Policies

We adopted ASU No. 2017-01, "Clarifying the Definition of a Business" in the first quarter of 2017. The ASU changed our accounting policy "Investment in Real Estate" disclosed in our 2016 Annual Report on Form 10-K. The ASU generally requires that our property acquisitions be accounted for as asset purchases, and the related acquisition expenses be capitalized as part of the respective asset. We historically accounted for our property acquisitions as business combinations and expensed the related acquisition expenses as incurred. We have not made any other changes during the period covered by this Report to our significant accounting policies disclosed in our 2016 Annual Report on Form 10-K.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make certain estimates that affect the reported amounts in the consolidated financial statements and accompanying notes. Actual results could differ materially from those estimates.

Income Taxes

We have elected to be taxed as a REIT under the Code. Provided that we qualify for taxation as a REIT, we are generally not subject to corporate-level income tax on the earnings distributed currently to our stockholders that we derive from our REIT qualifying activities. We are subject to corporate-level tax on the earnings that we derive through our TRS.

New Accounting Pronouncements

Changes to GAAP are established by the FASB in the form of ASUs. We consider the applicability and impact of all ASUs.

Recently Issued Accounting Pronouncements

In May 2017, the FASB issued ASU No. 2017-09, "Scope of Modification Accounting" which amends "Compensation-Stock Compensation" (Topic 718). The ASU provides guidance regarding the application of modification accounting in Topic 718 when there are changes to the terms or conditions of a share-based payment award. The ASU is effective for annual and interim periods beginning after December 15, 2017, which for us would be the first quarter of 2018, and early adoption is permitted. The ASU amendments are required to be applied on a prospective basis. We do not expect the ASU to have a material impact on our financial statements.

In February 2016, the FASB issued ASU No. 2016-02, "Leases" (Topic 842). The primary difference between Topic 842 and current GAAP is the recognition of lease assets and liabilities by lessees for leases classified as operating leases under current GAAP. The accounting applied by lessors is largely unchanged from current GAAP, for example, the vast majority of operating leases will remain classified as operating leases, and lessors will continue to recognize lease income for those leases on a straight-line basis over the lease term. Topic 842 requires an entity to separate the lease components from the non-lease components (for example, maintenance services or other activities that transfer a good or service to the customer) in a contract. Only the lease components must be accounted for in accordance with Topic 842. The consideration in the contract is allocated to the lease and non-lease components on a relative standalone price basis for lessees, or in accordance with the allocation guidance in Topic 606 for lessors. Topic 842 defines initial direct costs of a lease (which may be capitalized) as costs that would not have been incurred had the

lease not been executed. Costs to negotiate a lease that would have been incurred regardless of whether the lease was executed, such as fixed employee salaries, are not considered to be initial direct costs, and may not be capitalized. The ASU is effective for annual and interim periods beginning after December 15, 2018, which for us would be the first quarter of 2019, and early adoption is permitted. We are currently evaluating the impact of this ASU.

Notes to Consolidated Financial Statements (unaudited) (continued)

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers" (Topic 606), which provides guidance for the accounting of revenue from contracts with customers. The guidance supersedes the revenue recognition requirements in Topic 605, "Revenue Recognition", and most industry-specific guidance throughout the Industry Topics of the Codification. In August 2015, the FASB issued ASU No. 2015-14, which defers the effective date of ASU No. 2014-09 by one year. In March 2016, the FASB issued ASU No. 2016-08, "Principal versus Agent Considerations (Reporting Revenue Gross versus Net)" which amends Topic 606 and clarifies the guidance for principal versus agent considerations. In April 2016, the FASB issued ASU No. 2016-10, "Identifying Performance Obligations and Licensing" which amends Topic 606 and provides guidance for identifying performance obligations and licensing. In May 2016, the FASB issued ASU No. 2016-12, "Narrow-Scope Improvements and Practical Expedients" which amends Topic 606 and provides guidance for a variety of revenue recognition related topics. In February 2017, the FASB issued ASU No. 2017-05 "Other Income - Gains and Losses from the Derecognition of Nonfinancial Assets" (Subtopic 610-20), which provides guidance for recognizing gains and losses from the transfer of nonfinancial assets in contracts with noncustomers. The various ASU's are effective for annual and interim periods beginning after December 15, 2017, which for us is the first quarter of 2018. Earlier application is permitted for annual and interim periods beginning after December 15, 2016, which for us was the first quarter of 2017. The amendments in these ASU's should be applied retrospectively. We are not planning on early adopting the ASU's and we expect to use the modified retrospective method of adoption. We are currently evaluating the impact to our accounting, particularly with respect to our tenant recovery revenues, and whether such changes will be material to our future results of operations and financial position. As noted above, ASU No. 2016-02 "Leases" requires that non-lease components such as tenant recovery revenues be accounted for in accordance with ASU No. 2014-09, which means that the classification and timing of our tenant recovery revenues could be impacted.

The FASB has not issued any other ASUs during 2017 that we expect to be applicable and have a material impact on our financial statements.

3. Investment in Real Estate

We generally account for our property acquisitions as asset purchases. Prior to January 1, 2017 we accounted for our acquisitions as business combinations. The results of operations from our acquisitions are included in our consolidated statements of operations after the respective acquisition dates. The purchase accounting for our 2016 acquisitions is subject to adjustment within twelve months of the acquisition date because they were accounted for as business combinations.

Acquisitions during the six months ended June 30, 2017

On April 25, 2017, a consolidated JV that we manage and in which we own an equity interest acquired two Class A office properties located in downtown Santa Monica, California for a total contract price of \$352.8 million. The properties are located at 1299 Ocean Avenue and 429 Santa Monica Boulevard. The table below (in thousands) summarizes our purchase price allocations for the acquisitions. The difference between the total contract price and respective purchase prices below relates to prorations and similar matters:

Westwood Portfolio Acquisition

On February 29, 2016 (Acquisition Date), a consolidated JV which we manage and in which we own an equity interest acquired four Class A office properties located in Westwood, California (Westwood Portfolio) for a contract price of \$1.34 billion. As of the Acquisition Date, we had contributed sixty-percent of the equity to the JV, which was subsequently reduced to thirty-percent on May 31, 2016 (Sell Down Date) when we sold half of our equity interest to a third party investor. The table below (in thousands) summarizes our purchase accounting and funding sources for the acquisition:

Total source of funds	\$1,332,513	\$ —	\$1,332,513

(1) Reflects the purchase of the Westwood Portfolio on the Acquisition Date when we contributed sixty-percent of the equity to the consolidated JV.

Reflects our sale of thirty-percent of the equity in the JV on the Sell Down Date, presented as of the Acquisition Date, treated as in-substance real estate, which reduced our ownership interest in the JV to thirty-percent. We sold the interest for the \$240.0 million we contributed plus an additional \$1.1 million to compensate us for our costs of holding the investment. We recognized a gain on the sale of \$1.1 million. We used the proceeds from the sale to pay down the balance owed on our revolving credit facility.

(3) As of the Acquisition Date, the weighted average remaining life of the acquired above-and below-market leases was approximately 4.4 years.

(4) The difference between the contract and purchase price related to credits received for prorations and similar matters.

(5) Cash paid included a \$75.0 million deposit, \$67.5 million paid at closing and \$11.2 million spent on loan costs in connection with securing the \$580.0 million term loan.

(6) Reflects borrowings using the Company's credit facility, which bears interest at LIBOR + 1.40%.

(7) Reflects 100% (not the Company's pro rata share) of a \$580.0 million interest-only non-recourse loan, net of deferred loan costs of \$11.2 million incurred to secure the loan. The loan has a seven-year term and is secured by the Westwood Portfolio. Interest on the loan is floating at LIBOR + 1.40%, which has been effectively fixed at

2.37% per annum for five years through interest rate swaps. See Note 7 for information regarding our consolidated debt.

5. Investments in Unconsolidated Real Estate Funds

Description of our Funds

We manage and own equity interests in three unconsolidated Funds, the Opportunity Fund, Fund X and Partnership X, through which we and investors own eight office properties totaling 1.8 million square feet. We purchased a 3.7% interest in the Opportunity Fund during the second quarter of 2017. The Opportunity Fund's only investment is a 13.1% equity interest in Fund X. At June 30, 2017, we held direct and indirect equity interests of 3.7% of the Opportunity Fund, 69.1% of Fund X and 24.3% of Partnership X. Our Funds pay us fees and reimburse us for certain expenses related to property management and other services we provide. We also receive distributions based on invested capital and on any profits that exceed certain specified cash returns to the investors. The table below presents (in thousands) cash distributions received from our Funds:

Debt Statistics

At June 30, 2017, the weighted average remaining life, including extension options, of our total consolidated term debt (excluding our revolving credit facility) was 5.4 years. For the \$3.92 billion of term debt on which the interest rate was fixed under the terms of the loan or a swap, the weighted average (i) remaining life was 5.7 years, (ii) remaining period during which interest was fixed was 3.3 years, (iii) annual interest rate was 3.20% and (iv) effective interest rate was 3.36% (including the non-cash amortization of deferred loan costs). The following table summarizes (in thousands) our fixed and floating rate debt:

	Principal Balance as of June 30, 2017	Principal Balance as of December 31, 2016
Aggregate swapped to fixed rate loans	\$3,147,400	\$2,985,480

9. Derivative Contracts

Derivative Summary

As of June 30, 2017, all of our interest rate swaps, which include the interest rate swaps of our consolidated JVs and our unconsolidated Funds, were designated as cash flow hedges:

	Number of Interest Rate Swaps	Notional (in thousands)
Consolidated derivatives ⁽¹⁾	26	\$3,147,400
Unconsolidated Funds' derivatives ⁽²⁾	4	\$510,000

(1) The notional amount includes 100%, not our pro-rata share, of our consolidated JVs' derivatives.

(2) The notional amount includes 100%, not our pro-rata share, of our unconsolidated Funds' derivatives.

Credit-risk-related Contingent Features

We have agreements with each of our interest rate swap counterparties that contain a provision under which we could also be declared in default on our derivative obligations if we default on the underlying indebtedness that we are hedging. As of June 30, 2017, there have been no events of default with respect to our interest rate swaps or our unconsolidated Funds' interest rate swaps. We do not post collateral for our swaps in a liability position. The fair value of our interest rate swaps in a liability position were as follows (in thousands):

	June 30, 2017	December 31, 2016
Fair value of derivatives in a liability position ⁽¹⁾		
Consolidated derivatives ⁽²⁾	\$4,165	\$ 7,689
Unconsolidated Funds' derivatives ⁽³⁾	\$—	\$ —

(1) Includes accrued interest and excludes adjustments for credit risk.

(2) Includes 100%, not our pro-rata share, of our consolidated JVs' derivatives.

(3) Our unconsolidated Funds did not have any derivatives in a liability position.

Counterparty Credit Risk

We are also subject to credit risk from the counterparties on our interest rate swap and interest rate cap contracts. We seek to minimize our credit risk by entering into agreements with a variety of high quality counterparties with investment grade ratings. We do not receive collateral for our swaps in an asset position. The fair value of our interest rate swaps in an asset position were as follows (in thousands):

	June 30, 2017	December 31, 2016
Fair value of derivatives in an asset position ⁽¹⁾		
Consolidated derivatives ⁽²⁾	\$36,764	\$ 35,144

Unconsolidated Funds' derivatives ⁽³⁾	\$4,506	\$ 3,724
--------------------------------------------------	---------	----------

(1) Includes accrued interest and excludes adjustments for credit risk.

(2) Includes 100%, not our pro-rata share, of our consolidated JVs' derivatives.

(3) Includes 100%, not our pro-rata share, of our unconsolidated Funds' derivatives.

Noncontrolling Interests

Our noncontrolling interests consist of interests in our Operating Partnership and consolidated JVs which are not owned by us. Noncontrolling interests in our Operating Partnership consist of OP Units and fully-vested LTIP Units, and represented approximately 13% of our Operating Partnership's total interests as of June 30, 2017 when we and our Operating Partnership had 160.7 million shares of common stock and 25.0 million OP Units and fully-vested LTIP Units outstanding. A share of our common stock, an OP Unit and an LTIP Unit (once vested and booked up) have essentially the same economic characteristics, sharing equally in the distributions from our Operating Partnership. Investors who own OP Units have the right to cause our Operating Partnership to redeem their OP Units for an amount of cash per unit equal to the market value of one share of our common stock at the date of redemption, or, at our election, exchange their OP Units for shares of our common stock on a one-for-one basis. LTIP Units have been granted to our key employees and non-employee directors as part of their compensation. These awards generally vest over the service period and once vested can generally be converted to OP Units.

Changes in our Ownership Interest in our Operating Partnership

The table below presents (in thousands) the effect on our equity from net income attributable to common stockholders and changes in our ownership interest in our Operating Partnership:

	Six Months Ended June 30,

Equity Compensation

On June 2, 2016, the Douglas Emmett 2016 Omnibus Stock Incentive Plan ("2016 Plan") became effective after receiving stockholder approval, superseding our prior plan, the Douglas Emmett 2006 Omnibus Stock Incentive Plan ("2006 Plan"), both of which allow for awards to our directors, officers, employees and consultants. The key terms of the two plans are substantially identical, except for the date of expiration, the number of shares authorized for grants and various technical provisions. Grants after June 2, 2016 were awarded under the 2016 Plan, while grants prior to that date were awarded under the 2006 Plan (grants under the 2006 Plan remain outstanding according to their terms). Both plans are administered by the compensation committee of our board of directors. Total net stock-based compensation expense was \$2.6 million and \$2.4 million for the three months ended June 30, 2017 and 2016, and \$5.3 million and \$4.7 million for the six months ended June 30, 2017 and 2016 respectively. These amounts are net of capitalized stock-based compensation of \$247 thousand and \$231 thousand for the three months ended June 30, 2017 and 2016, and \$475 thousand and \$448 thousand for the six months ended June 30, 2017 and 2016 respectively. The total intrinsic value of options exercised during the three months ended June 30, 2016 was \$100.8 million, and \$102.1 million and \$101.9 million during the six months ended June 30, 2017 and 2016, respectively.

11. EPS

We calculate basic EPS by dividing the net income attributable to common stockholders for the period by the weighted average number of common shares outstanding during the period. We calculate diluted EPS by dividing the net income attributable to common stockholders for the period by the weighted average number of common shares and dilutive instruments outstanding during the period using the treasury stock method. We account for unvested LTIP awards that contain nonforfeitable rights to dividends as participating securities and include these securities in the computation of basic and diluted EPS using the two-class method. The table below presents the calculation of basic and diluted EPS:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Numerator (in thousands):				
Net income attributable to common stockholders	\$20,244	\$18,482	\$39,293	\$33,848

12. Fair Value of Financial Instruments

Our estimates of the fair value of financial instruments were determined using available market information and widely used valuation methods. Considerable judgment is necessary to interpret market data and determine an estimated fair value. The use of different market assumptions or valuation methods may have a material effect on the estimated fair values. The FASB fair value framework hierarchy distinguishes between assumptions based on market data obtained from sources independent of the reporting entity, and the reporting entity's own assumptions about market-based inputs. The hierarchy is as follows:

Level 1 - inputs utilize unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 - inputs are observable either directly or indirectly for similar assets and liabilities in active markets.

Level 3 - inputs are unobservable assumptions generated by the reporting entity

As of June 30, 2017, we did not have any fair value estimates of financial instruments using Level 3 inputs.

Financial instruments disclosed at fair value

Short term financial instruments: The carrying amounts for cash and cash equivalents, tenant receivables, revolving credit line, interest payable, accounts payable, security deposits and dividends payable approximate fair value because of the short-term nature of these instruments.

Secured notes payable: See Note 7 for the details of our secured notes payable. We estimate the fair value of our secured notes payable, which includes the secured notes payable of our consolidated JVs, by calculating the credit-adjusted present value of the principal and interest payments for each secured note payable. The calculation incorporates observable market interest rates which we consider to be Level 2 inputs, assumes that the loans will be outstanding through maturity, and excludes any maturity extension options. The table below presents (in thousands) the estimated fair value of our secured notes payable:

Secured Notes Payable:	June 30,	December 31,
	2017	2016

Fair value	\$4,355,289	\$4,429,224
------------	-------------	-------------

Carrying value	\$4,355,014	\$4,408,083
----------------	-------------	-------------

Financial instruments measured at fair value

Derivative instruments: See Note 9 for the details of our derivatives. We present our derivatives on the balance sheet at fair value, on a gross basis, excluding accrued interest. We estimate the fair value of our derivative instruments by calculating the credit-adjusted present value of the expected future cash flows of each derivative. The calculation incorporates the contractual terms of the derivatives, observable market interest rates which we consider to be Level 2 inputs, and credit risk adjustments to reflect the counterparty's as well as our own nonperformance risk. Our derivatives are not subject to master netting arrangements. The table below presents (in thousands) the estimated fair value of our derivatives:

	June 30,	December 31,
	2017	2016

Derivative Assets:

Fair value - consolidated derivatives ⁽¹⁾	\$37,092	\$35,656
------------------------------------------------------	----------	----------

Fair value - unconsolidated Funds' derivatives ⁽²⁾	\$4,526	\$3,605
---------------------------------------------------------------	---------	---------

Derivative Liabilities:

Fair value - consolidated derivatives ⁽¹⁾	\$3,353	\$ 6,830
Fair value - unconsolidated Funds' derivatives ⁽²⁾	\$—	\$ —

Consolidated derivatives, which include 100%, not our pro-rata share, of our consolidated JVs' derivatives, are (1) included in interest rate contracts in our consolidated balance sheet. The fair value excludes accrued interest which is included in interest payable in the consolidated balance sheet.

Represents 100%, not our pro-rata share, of our unconsolidated Funds' derivatives. Our pro-rata share of the (2) amounts related to the unconsolidated Funds' derivatives is included in our Investment in unconsolidated real estate funds in our consolidated balance sheet. See Note 5 for more information regarding our unconsolidated Funds.

13. Segment Reporting

Segment information is prepared on the same basis that our management reviews information for operational decision-making purposes. We operate in two business segments: (i) the acquisition, development, ownership and management of office real estate and (ii) the acquisition, development, ownership and management of multifamily real estate. The services for our office segment primarily include rental of office space and other tenant services, including parking and storage space rental. The services for our multifamily segment include rental of apartments and other tenant services, including parking and storage space rental.

Asset information by segment is not reported because we do not use this measure to assess performance or make decisions to allocate resources. Therefore, depreciation and amortization expense is not allocated among segments. General and administrative expenses and interest expense are not included in segment profit as our internal reporting addresses these items on a corporate level. Segment profit is not a measure of operating income or cash flows from operating activities as measured by GAAP, it is not indicative of cash available to fund cash needs, and it should not be considered as an alternative to cash flows as a measure of liquidity. Not all companies may calculate segment profit in the same manner. We consider segment profit to be an appropriate supplemental measure to net income because it can assist both investors and management in understanding the core operations of our properties. The table below presents (in thousands) the operating activity of our reportable segments:

	Three Months Ended June 30,		Six Months Ended June 30,

14. Future Minimum Lease Rental Receipts

We lease space to tenants primarily under non-cancelable operating leases that generally contain provisions for a base rent plus reimbursement of certain operating expenses, and we own fee interests in two parcels of land subject to ground leases from which we earn ground rent income. The table below presents (in thousands) the future minimum base rentals on our non-cancelable office tenant and ground leases at June 30, 2017:

Twelve months ending June 30:

2018	\$511,514
2019	455,813
2020	400,478
2021	325,631
2022	244,806
Thereafter	633,145
Total future minimum base rentals ⁽¹⁾	\$2,571,387

Does not include (i) residential leases, which typically have a term of one year or less, (ii) holdover rent, (iii) other types of rent such as storage rent and antenna rent, (iv) tenant reimbursements, (v) straight line rent, (vi) amortization/accretion of acquired above/below-market lease intangibles and (vii) percentage rents. The amounts assume that early termination options held by tenants are not exercised.

15. Future Minimum Lease Rental Payments

We incurred ground rent expense for a ground lease of \$183 thousand for the three months ended June 30, 2017 and 2016 and \$366 thousand for the six months ended June 30, 2017 and 2016. The table below (in thousands) presents the future minimum ground lease payments as of June 30, 2017:

Twelve months ending June 30:

2018	\$733
2019	733
2020	733
2021	733
2022	733
Thereafter	47,277
Total future minimum lease payments ⁽¹⁾	\$50,942

Lease term ends on December 31, 2086. Ground rent is fixed at \$733 thousand per year until February 28, 2019, (1) and will then reset to the greater of the existing ground rent or market. The table above assumes that the rental payments will continue to be \$733 thousand per year after February 28, 2019.

16. Commitments, Contingencies and Guarantees

Legal Proceedings

From time to time, we are party to various lawsuits, claims and other legal proceedings that arise in the ordinary course of our business. Excluding ordinary, routine litigation incidental to our business, we are not currently a party to any legal proceedings that we believe would reasonably be expected to have a materially adverse effect on our business, financial condition or results of operations.

Concentration of Risk

We are subject to credit risk with respect to our tenant receivables and deferred rent receivables related to our tenant leases. Our tenants' ability to honor the terms of their respective leases remains dependent upon economic, regulatory and social factors. We seek to minimize our credit risk from our tenant leases by (i) targeting smaller, more affluent tenants, from a diverse mix of industries, (ii) performing credit evaluations of prospective tenants and (iii) obtaining security deposits or letters of credit from our tenants. For the six months ended June 30, 2017 and 2016, no tenant accounted for more than 10% of our total revenues.

All of our properties, including the properties of our consolidated JVs and unconsolidated Funds, are located in Los Angeles County, California and Honolulu, Hawaii, and we are therefore susceptible to adverse economic and regulatory developments, as well as natural disasters, in those markets.

We are also subject to credit risk with respect to our interest rate swap counterparties that we use to manage the risk associated with our floating rate debt. We do not post or receive collateral with respect to our swap transactions. See Note 9 for the details of our interest rate contracts. We seek to minimize our credit risk by entering into agreements with a variety of high quality counterparties with investment grade ratings.

We have significant cash balances invested in a variety of short-term money market funds that are intended to preserve principal value and maintain a high degree of liquidity while providing current income. These investments are not insured against loss of principal and there is no guarantee that our investments in these funds will be redeemable at par value. We also have significant cash balances in bank accounts with high quality financial institutions with investment grade ratings. Interest bearing bank accounts at each U.S. banking institution are insured by the FDIC up to \$250 thousand.

Asset Retirement Obligations

Conditional asset retirement obligations represent a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement is conditional on a future event that may or may not be within our control. A liability for a conditional asset retirement obligation must be recorded if the fair value of the obligation can be reasonably estimated. Environmental site assessments have identified twenty-six buildings in our Consolidated Portfolio and four buildings owned by our unconsolidated Funds which contain asbestos, and would have to be removed in compliance with applicable environmental regulations if these properties are demolished or undergo major renovations. As of June 30, 2017, the obligations to remove the asbestos from these properties have indeterminable settlement dates, and we are unable to reasonably estimate the fair value of the associated conditional asset retirement obligation.

Development Contracts

During the first quarter of 2016, we commenced building an additional 475 apartments (net of existing apartments removed) at our Moanalua Hillside Apartments in Honolulu, Hawaii. The \$120.0 million estimated cost of the new apartments does not include the cost of the land which we already owned before beginning the project. We also plan to invest additional capital to upgrade the existing apartments, improve the parking and landscaping, build a new leasing and management office, and construct a new recreation and fitness facility with a new pool. In West Los Angeles, we plan to build a high-rise apartment building with 376 apartments. We expect the cost of the development to be approximately \$120.0 million to \$140.0 million, which does not include the cost of the land or the existing underground parking garage, both of which we owned before beginning the project. As of June 30, 2017, we had an aggregate remaining contractual commitment for these development projects of approximately \$84.7 million.

Table of Contents

Douglas Emmett, Inc.

Notes to Consolidated Financial Statements (unaudited) (continued)

Other Contracts

As of June 30, 2017, we had an aggregate remaining contractual commitment for capital expenditure projects and repositionings of approximately \$9.6 million.

Guarantees

We made certain environmental and other limited indemnities and guarantees covering customary non-recourse carve-outs for our unconsolidated Funds' debt. We also guaranteed the related swaps. Our Funds have agreed to indemnify us for any amounts that we would be required to pay under these agreements. As of June 30, 2017, all of the obligations under the related debt and swap agreements have been performed in accordance with the terms of those agreements. The table below summarizes our Funds' debt as of June 30, 2017. The amounts represent 100% (not our pro-rata share) of amounts related to our Funds:

Fund ⁽¹⁾	Loan Maturity Date	Principal Balance (in millions)	Variable Interest Rate	Swap Fixed Interest Rate	Swap Maturity Date
Partnership X ⁽²⁾⁽⁴⁾	3/1/2023	\$ 110.0	LIBOR + 1.40%	2.30%	3/1/2021
Fund X ⁽³⁾⁽⁴⁾⁽⁵⁾	7/1/2024	400.0	LIBOR + 1.65%	3.44%	7/1/2022
		\$ 510.0			

(1) See Note 5 for more information regarding our unconsolidated Funds.

(2) Floating rate term loan, swapped to fixed, which is secured by two properties and requires monthly payments of interest only, with the outstanding principal due upon maturity. As of June 30, 2017, assuming a zero-percent LIBOR interest rate during the remaining life of the swap, the maximum future payments under the swap agreement were \$3.7 million.

(3) Floating rate term loan, swapped to fixed, which is secured by six properties and requires monthly payments of interest only, with the outstanding principal due upon maturity. As of June 30, 2017, assuming a zero-percent LIBOR interest rate during the remaining life of the swap, the maximum future payments under the swap agreement were \$36.3 million.

(4) Loan agreement includes a zero-percent LIBOR floor. The corresponding swaps do not include such a floor.

(5) Loan agreement includes the requirement to purchase an interest rate cap if one month LIBOR equals or exceeds 3.56% for fourteen consecutive days after the related swap matures.

17. Subsequent Events

On July 20, 2017, a consolidated JV that we manage and in which we own a twenty-percent interest acquired a 171,000 square foot Class A office property located at 9665 Wilshire Boulevard in Beverly Hills, California for a purchase price of \$177.0 million. The JV financed a portion of the purchase price with a \$77.5 million secured, non-recourse, interest only loan that matures in July 2019 and bears interest at LIBOR + 1.55%.

During July 2017, we settled the sale of 1.8 million shares of our common stock under our ATM program for net proceeds of \$69.0 million, completing that program.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our consolidated financial statements and related notes in Part I, Item 1 of this Report, and our Forward Looking Statements disclaimer. Our results of operations were affected by property acquisitions - see Note 3 to our consolidated financial statements.

Business Description

Douglas Emmett, Inc. is a fully integrated, self-administered and self-managed REIT. We are one of the largest owners and operators of high-quality office and multifamily properties in Los Angeles County, California and in Honolulu, Hawaii. We focus on owning, acquiring, developing and managing a substantial share of top-tier office properties and premier multifamily communities in neighborhoods that possess significant supply constraints, high-end executive housing and key lifestyle amenities.

As of June 30, 2017, our portfolio consisted of the following:

	Consolidated Portfolio ⁽¹⁾	Total Portfolio ⁽²⁾
Office		
Class A Properties ⁽³⁾	61	69
Rentable square feet (in thousands)	16,222	18,052
Leased rate	91.5%	91.4%
Occupied rate	89.0%	88.9%
Multifamily		
Properties	10	10
Units	3,320	3,320
Leased rate	99.5%	99.5%
Occupied rate	97.2%	97.2%

(1) Our Consolidated Portfolio includes all of the properties included in our consolidated results. We own 100% of these properties except for nine office properties totaling 2.6 million square feet, which we own through three consolidated JVs. Our Consolidated Portfolio also includes two parcels of land from which we earn ground rent income from ground leases to the owners of a Class A office building and a hotel.

(2) Our Total Portfolio includes our Consolidated Portfolio plus eight properties totaling 1.8 million square feet owned by our unconsolidated Funds, in which we own a weighted average of approximately 60% based on square footage. See Note 5 to our consolidated financial statements in Item 1 of this Report for our unconsolidated Funds' disclosures.

(3) Office portfolio includes ancillary retail space.

Annualized rent

As of June 30, 2017, annualized rent from our Consolidated Portfolio was derived as follows:

Acquisitions, Financings, Developments and Repositionings

Acquisitions

During the second quarter of 2017, a consolidated JV that we manage, in which we own a 20% interest, paid \$352.8 million to acquire two Class A office properties in Santa Monica, California. See Note 3 to our consolidated financial statements in Item 1 of this Report for more information regarding these acquisitions.

On July 20, 2017, the same JV paid \$177.0 million to acquire a Class A office property located in Beverly Hills, California. See Note 17 to our consolidated financial statements in Item 1 of this Report for more information regarding this acquisition.

Financings

During the second quarter of 2017, we closed a secured, non-recourse \$550 million interest-only loan, scheduled to mature in June 2027. The loan bears interest at LIBOR + 1.37%, which we have effectively fixed through an interest rate swap at 3.51% until November 1, 2017 and 3.16% thereafter until June 1, 2022. The loan is secured by four residential properties. Part of the proceeds were used to pay off the existing \$388.1 million loan secured by the same four properties.

During the second quarter of 2017, one of our Funds closed a secured, non-recourse \$400.0 million interest-only loan, scheduled to mature in July 2024. The loan bears interest at LIBOR + 1.65%, which we have effectively fixed at 3.44% for five years through an interest rate swap. The loan is secured by six office properties. Part of the proceeds were used to pay off the existing \$325 million loan secured by the same six properties.

During the second quarter of 2017, we paid off a \$347 million loan that was scheduled to mature in August 2018.

During the second quarter of 2017, we issued approximately 9.1 million shares of common stock under our ATM program for net proceeds of \$346.0 million (of which \$69.0 million was received shortly after June 30, 2017).

See Notes 7 and 10 to our consolidated financial statements in Item 1 of this Report for more detail regarding our debt and equity, respectively.

Developments

We are developing two multifamily projects, one in our Brentwood submarket in Los Angeles, California, and one in Honolulu, Hawaii. Each development is on land which we already own:

We are building an additional 475 apartments (net of existing apartments removed) at our Moanalua Hillside Apartments in Honolulu, which we expect will cost approximately \$120.0 million excluding the cost of the land which we already owned before beginning the project. We also plan to invest additional capital to upgrade the existing apartments, improve the parking and landscaping, build a new leasing and management office, and construct a new recreation and fitness facility with a new pool.

In West Los Angeles, we are planning to build a high-rise apartment building with 376 apartments. We expect the cost of the development to be approximately \$120.0 million to \$140.0 million, which does not include the cost of the land or the existing underground parking garage, both of which we owned before beginning the project.

Repositionings

We often strategically purchase properties with large vacancies or expected near-term lease roll-over and use our knowledge of the property and submarket to reposition the property for the optimal use and tenant mix. The work we undertake to reposition a building typically takes months or even years, and could involve a range of improvements from a complete structural renovation to a targeted remodeling of selected spaces. We generally select a property for

repositioning at the time we purchase it, although repositioning efforts can also occur at properties that we already own. During the repositioning, the affected property may display depressed rental revenue and occupancy levels which impacts our results and, therefore, comparisons of our performance from period to period.

In addition to our Moanalua Hillside Apartments in Honolulu, described above under "Developments", as of June 30, 2017, we were repositioning two properties: (i) a 668,000 square foot office property in Woodland Hills, California, which included a 35,000 square foot gym, and (ii) an 80,000 square foot office property in Honolulu, Hawaii owned by a consolidated JV in which we own a two-thirds interest.

Rental Rate Trends - Total Portfolio

Office Rental Rates

The table below presents the average annual rental rate per leased square foot and the annualized lease transaction costs per leased square foot for leases executed in our total office portfolio:

Historical straight-line rents: ⁽¹⁾	Six months ended June 30, 2017	Twelve Months Ended December 31,			
		2016	2015	2014	2013
Average rental rate ⁽²⁾	\$44.19	\$43.21	\$42.65	\$35.93	\$34.72
Annualized lease transaction costs ⁽³⁾	\$5.44	\$5.74	\$4.77	\$4.66	\$4.16

Because straight-line rent takes into account the full economic value of each lease, including rent concessions and escalations, we believe that it may provide a better comparison than ending cash rents, which include the impact of (1) the annual escalations over the entire term of the lease. However, care should be taken in any comparison, as the averages are often significantly affected from period to period by factors such as the buildings, submarkets, and types of space and terms involved in the leases executed during the respective reporting period.

Reflects the weighted average straight-line annualized base rent (excludes tenant reimbursements, parking and (2) other revenue) per leased square foot. For our triple net leases, annualized rent is calculated by adding estimated expense reimbursements to base rent.

Reflects the weighted average leasing commissions and tenant improvement allowances divided by the weighted (3) average number of years for the leases.

Office Rent Roll

The table below presents the rent roll for new and renewed leases executed in our total office portfolio during the six months ended June 30, 2017:

Rent Roll ⁽¹⁾⁽²⁾	Straight-line Rent	Starting Cash Rent	Expiring Cash Rent
Leases signed during the period	\$44.19	\$42.59	N/A
Prior leases for the same space	\$34.60	\$33.82	\$38.31
Percentage change	27.7%	25.9%	11.1% ⁽³⁾

Represents the average initial stabilized cash and straight-line rents on new and renewal leases signed during the (1) quarter compared to the prior lease on the same space, excluding short term leases and leases on space where the prior lease was terminated more than a year before signing of the new lease.

Our office rent roll can fluctuate from period to period as a result of changes in our submarkets, buildings and term (2) of the expiring leases, making these metrics difficult to predict.

The percentage change for expiring cash rent represents the comparison between the starting cash rent on leases (3) executed during the respective period and the expiring cash rent on the prior leases for the same space.

Office Lease Expirations

As of June 30, 2017, assuming non-exercise of renewal options and early termination rights, we expect to see expiring cash rents in our total office portfolio as presented in the graph below:

(1) Average of the percentage of leases at June 30, 2014, 2015, 2016 with the same remaining duration as the leases for the labeled year had at June 30, 2017. Acquisitions are included in the prior year average commencing in the quarter after the acquisition.

Multifamily Rental Rates

The table below presents the average annual rental rate per leased unit for new tenants.

	Six months ended June 30, 2017	Twelve Months Ended December 31, 2016	2015	2014	2013
Average annual rental rate - new tenants:					
Rental rate ⁽¹⁾	\$29,475	\$28,435	\$27,936	\$28,870	\$27,392

(1) 2016 and 2015 include the impact of a property acquisition in Honolulu at the end of the 2014, so the numbers are not directly comparable with prior years.

Multifamily Rent Roll

During the six months ended June 30, 2017, average rent on leases to new tenants at our residential properties were 4.9% higher for the same unit at the time it became vacant.

Occupancy Rates - Total Portfolio

The tables below present the occupancy rates for our total office portfolio and multifamily portfolio:

Occupancy Rates ⁽¹⁾ as of:	December 31,				
	June 30, 2017	2016	2015	2014	2013
Office portfolio	88.9 %	90.4 %	91.2 %	90.5 %	90.4 %
Multifamily portfolio	97.2 %	97.9 %	98.0 %	98.2 %	98.7 %

Average Occupancy Rates ⁽¹⁾⁽²⁾ :	Six months ended	Twelve Months Ended December 31,			
	June 30, 2017	2016	2015	2014	2013
Office portfolio	89.6 %	90.6 %	90.9 %	90.0 %	89.7 %
Multifamily portfolio	97.7 %	97.6 %	98.2 %	98.5 %	98.6 %

(1) Occupancy rates include the impact of property acquisitions, most of whose occupancy rates at the time of acquisition were below that of our existing portfolio.

(2) Average occupancy rates are calculated by averaging the occupancy rates at the end of each of the quarters in the period and at the end of the quarter immediately prior to the start of the period.

Comparison of three months ended June 30, 2017 to three months ended June 30, 2016

	(in thousands)					
	2017	2016	Increase (Decrease)	Percentage	Commentary	
Revenues						
Office rental revenue	\$135,665	\$126,650	\$ 9,015	7.1	%	The increase was due to rental revenues of \$8.5 million from properties that we acquired in 2016 and 2017 and an increase in rental revenues of \$1.6 million from the properties that we owned throughout both periods, partially offset by a decrease of \$1.1 million in rental revenues from a property that we sold during 2016. The increase from the properties that we owned throughout both periods was primarily due to an increase in rental rates, partially offset by a decrease in occupancy and a decrease of \$0.4 million in the accretion from below-market leases.
Office tenant recoveries	\$12,801	\$10,986	\$ 1,815	16.5	%	The increase was due to tenant recoveries of \$0.9 million from properties that we acquired in 2016 and 2017 and an increase in tenant recoveries of \$0.9 million from the properties that we owned throughout both periods. The increase from the properties that we owned throughout both periods was primarily due to an increase in operating costs.
Office parking and other income	\$27,076	\$25,460	\$ 1,616	6.3	%	The increase was due to parking and other income of \$1.0 million from properties that we acquired in 2016 and 2017 and an increase of \$0.8 million in parking and other income from properties that we owned throughout both periods, partially offset by a decrease of \$0.2 million in parking and other income from a property that we sold during 2016. The increase in parking and other income from the properties that we owned throughout both periods primarily reflects increases in rates, partially offset by a decrease in occupancy.
Multifamily revenue	\$24,090	\$24,119	\$ (29)	(0.1)	%	The decrease was due to a decrease of \$840 thousand in the accretion from below-market leases, almost entirely offset by an increase of \$810 thousand in rental revenues and parking income. The decrease in the accretion from below-market leases was due to the completion in 2016 of the amortization of below-market lease intangibles recorded at the time of our IPO. The increase in rental revenues and parking income was primarily due to an increase in rental revenues due to an increase in rental rates.

Operating expenses

						The increase was due to rental expenses of \$3.4 million from properties that we acquired during 2016 and 2017 and an increase of \$1.5 million from properties that we owned throughout both periods, partially offset by a decrease of \$0.4 million from a property that we sold during 2016. The increase from the properties that we owned throughout both periods was primarily due to an increase in scheduled services, payroll, utilities and real estate taxes.
Office rental expenses	\$57,887	\$53,381	\$ 4,506	8.4	%	
Multifamily rental expenses	\$5,878	\$5,341	\$ 537	10.1	%	The increase was due to an excise tax refund of \$0.5 million in 2016.

	2017	2016	Increase (Decrease)	Percentage	Commentary	
General and administrative	\$8,592	\$9,403	\$ (811)	(8.6)%	The decrease was primarily due to payroll taxes of \$1.4 million related to the exercise of options in 2016, partially offset by an increase in personnel expenses.	
Depreciation and amortization	\$68,793	\$62,568	\$ 6,225	9.9 %	The increase was primarily due to depreciation and amortization of \$4.9 million from properties that we acquired during 2016 and 2017 and an increase of \$1.3 million from properties that we owned throughout both periods. The increase from the properties that we owned throughout both periods was primarily due to an increase in building improvements, tenant improvements and leasing commissions, as well as \$0.4 million of accelerated depreciation of units that were demolished at our Moanalua Hillside Apartments in connection with the development.	
Non-Operating Income and Expenses						
Other income	\$2,331	\$2,143	\$ 188	8.8 %	The increase was primarily due to an increase in interest income and in revenue from the health club that we own and operate.	
Other expenses	\$(1,773)	\$(1,908)	\$ (135)	(7.1)%	The decrease was primarily due to \$0.2 million of acquisition costs we expensed in 2016, while similar costs in 2017 were capitalized as a result of a change in accounting policy. This decrease was partly offset by an increase in expenses from the health club that we own and operate.	
Income, including depreciation, from unconsolidated real estate funds	\$1,113	\$1,644	\$ (531)	(32.3)%	The decrease was primarily due to loan costs incurred in connection with refinancing of a loan for one of our Funds during 2017, partially offset by an increase in operating income for our unconsolidated Funds as a result of an increase in rental rates. See Note 5 to our consolidated financial statements in Item 1 of this Report for more information regarding our unconsolidated Funds.	
Interest expense	\$(38,000)	\$(37,703)	\$ 297	0.8 %	The increase was due to interest expense of \$2.0 million on debt related to our JV acquisitions during 2016 and 2017, partially offset by a decrease in interest expense of \$1.7 million on our remaining debt as a result of lower debt	

balances and lower costs related to refinancings. See Notes 7 and 9 to our consolidated financial statements in Item 1 of this Report for more information regarding our debt and derivative contracts.

The gain in 2016 reflects our sale of thirty-percent of the equity in the consolidated JV that acquired the Westwood Portfolio. See Note 3 to our consolidated financial statements in Item 1 of this Report for more information regarding our acquisitions.

Non-GAAP Supplemental Financial Measure: FFO

Usefulness to Investors

Many investors use FFO as one performance measure to compare the operating performance of REITs. FFO represents net income (loss), computed in accordance with GAAP, excluding (i) gains (or losses) from sales of depreciable operating property, (ii) impairments of depreciable operating property, (iii) real estate depreciation and amortization (other than amortization of deferred financing costs), and (iv) the same adjustments for unconsolidated funds and consolidated JVs. We calculate FFO in accordance with the standards established by NAREIT. Like any metric, FFO has limitations as a measure of our performance, because it excludes depreciation and amortization, and captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our operating results. Other REITs may not calculate FFO in accordance with the NAREIT definition and, accordingly, our FFO may not be comparable to the FFO of other REITs. Accordingly, FFO should be considered only as a supplement to net income as a measure of our performance. FFO should not be used as a measure of our liquidity, nor is it indicative of cash available to fund our cash needs, including our ability to pay dividends. FFO should not be used as a supplement to or a substitute measure for cash flow from operating activities computed in accordance with GAAP.

Comparison of Results

For the three months ended June 30, 2017, FFO increased by \$3.1 million, or 3.8%, to \$84.9 million, compared to \$81.8 million for the three months ended June 30, 2016. The increase was primarily due to (i) an increase in operating income from our office portfolio due to acquisitions in 2016 and 2017 and (ii) a decrease in general and administrative expenses due to payroll taxes related to the exercise of options in 2016, partially offset by (a) an increase in multifamily rental expenses due to a tax refund during 2016 and (b) a decrease in FFO of our Funds due to loan costs incurred in connection with the refinancing of a loan for one of our Funds during 2017.

For the six months ended June 30, 2017, FFO increased by \$10.6 million, or 6.7%, to \$168.6 million, compared to \$157.9 million for the six months ended June 30, 2016. The increase was primarily due to (i) an increase in operating income from our office portfolio due to acquisitions in 2016 and 2017 and (ii) a decrease in other expenses as a result of \$1.7 million of acquisition costs we expensed during 2016, while similar costs in 2017 were capitalized as a result of a change in accounting policy, partially offset by (a) an increase in multifamily rental expenses due to a tax refund in 2016, (b) an increase in general and administrative expenses due to an increase in personnel expenses and (c) an increase in interest expense due to new debt related to our acquisitions during 2016 and 2017.

Reconciliation to GAAP

The table below (in thousands) reconciles our FFO (the FFO attributable to our common stockholders and noncontrolling interests in our Operating Partnerships - which includes our share of our consolidated JVs and our unconsolidated Funds FFO) to net income attributable to common stockholders computed in accordance with GAAP:

Liquidity and Capital Resources

Short term liquidity

Excluding potential acquisitions and debt refinancings, we expect to meet our short term liquidity requirements, which includes our development projects, repositioning of properties and non-recurring capital expenditures, through cash on hand, cash generated by operations and our revolving credit facility. See Note 7 to our consolidated financial statements in Item 1 of this Report for more information regarding our revolving credit facility. See "Acquisitions and Dispositions, Financings, Developments and Repositionings" for more information regarding our developments.

Long term liquidity

Our long-term liquidity needs consist primarily of funds necessary to pay for acquisitions and debt refinancings. We do not expect that we will have sufficient funds on hand to cover these long-term cash requirements due to the nature of our business and the requirement to distribute a substantial majority of our income on an annual basis imposed by REIT federal tax rules. We plan to meet our long-term liquidity needs through long-term secured indebtedness, the issuance of equity securities, including common stock and OP Units, property dispositions and JV transactions.

To mitigate the impact of fluctuations in interest rates on our cash flows from operations, some of our long-term secured loans carry fixed interest rates, and we generally enter into interest rate swap agreements with respect to our loans with floating interest rates. These swap agreements generally expire between one to two years before the maturity date of the related loan, during which time we can refinance the loan without any interest penalty. See Notes 7 and 9 to our consolidated financial statements in Item 1 of this Report for more information regarding our debt and derivative contracts, respectively.

Contractual Obligations

See Note 7 to our consolidated financial statements in Item 1 of this Report for information regarding our minimum future principal payments due on our secured notes payable and revolving credit facility, as well as the interest rates that determine our future periodic interest payments, Note 15 for information regarding our minimum future ground lease payments, and Note 16 for information regarding our contractual obligations related to our developments.

Cash Flows

Comparison of six months ended June 30, 2017 to six months ended June 30, 2016

(In thousands)	2017	2016	Increase (Decrease)	Percentage	
Cash flows from operating activities ⁽¹⁾	\$ 198,602	\$ 166,771	\$ 31,831	19.1	%
Cash flows from investing activities ⁽²⁾	\$ (401,648)	\$ (1,043,008)	\$ 641,360	61.5	%
Cash flows from financing activities ⁽³⁾	\$ 263,270	\$ 851,605	\$ (588,335)	(69.1)	%

(1) Our cash flows from operating activities are primarily dependent upon the occupancy and rental rates of our portfolio, the collectability of rent and recoveries from our tenants, and the level of our operating expenses and general and administrative costs. The increase was primarily due to (i) an increase in operating income from our office portfolio due to acquisitions in 2016 and 2017 and (ii) a decrease in other expenses as a result of acquisition costs we expensed during 2016, while similar costs in 2017 were capitalized as a result of a change in accounting policy, partially offset by (a) an increase in multifamily rental expenses due to a tax refund during 2016, (b) an increase in general and administrative expenses due to an increase in personnel expenses and (c) an increase in interest expense due to new debt related to our acquisitions during 2016 and 2017.

(2) Our net cash used in investing activities is generally used to fund property acquisitions, developments and redevelopment projects, and recurring and non-recurring capital expenditures. The decrease is primarily due to a decrease of \$903 million paid for properties acquired, partially offset by \$241.1 million that we received during 2016 for the sale of our thirty-percent equity interest in the consolidated JV that acquired the Westwood Portfolio.

(3) Our net cash related to financing activities is generally impacted by our borrowings and capital activities, as well as dividends and distributions paid to common stockholders and noncontrolling interests, respectively. The decrease is primarily due to (i) a decrease in net borrowings of \$734 million and (ii) a decrease in contributions from non-controlling interests of \$131.8 million, partially offset by \$277.0 million of proceeds from the issuance of common stock during 2017.

Off-Balance Sheet Arrangements

Our Unconsolidated Funds Debt

Our unconsolidated Funds have their own secured non-recourse debt, and we have made certain environmental and other limited indemnities and guarantees covering customary non-recourse carve-outs for loans related to both of our unconsolidated Funds. We have also guaranteed the related swaps. Our Funds have agreed to indemnify us for any amounts that we would be required to pay under these agreements. As of June 30, 2017, all of the obligations under these loans and swap agreements have been performed in accordance with the terms of those agreements. For information regarding our Funds and their debt and swap arrangements, see Notes 5 and 16, respectively, to our consolidated financial statements in Item 1 of this Report.

Critical Accounting Policies

We adopted ASU No. 2017-01, "Clarifying the Definition of a Business" in the first quarter of 2017. The ASU changes our accounting policy "Investment in Real Estate" disclosed in our 2016 Annual Report on Form 10-K. The ASU requires that our property acquisitions be accounted for as asset purchases, and the related acquisition expenses

be capitalized as part of the respective asset. We historically accounted for our property acquisitions as business combinations and expensed the related acquisition expenses as incurred. We have not made any other changes during the period covered by this Report to our critical accounting policies disclosed in our 2016 Annual Report on Form 10-K. For a discussion of recently issued and adopted accounting literature, see Note 2 to our consolidated financial statements in Item 1 of this Report. Our discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with GAAP, and which requires us to make estimates of certain items, which affect the reported amounts of our assets, liabilities, revenues and expenses. While we believe that our estimates are based upon reasonable assumptions and judgments at the time that they are made, some of our estimates could prove to be incorrect, and those differences could be material. Some of our estimates are subject to adjustment as we believe appropriate, based on revised estimates, and reconciliation to actual results when available.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We use derivative instruments to hedge interest rate risk related to our floating rate borrowings. However, our use of these instruments does expose us to credit risk from the potential inability of our counterparties to perform under the terms of those agreements. We attempt to minimize this credit risk by contracting with a variety of high-quality financial counterparties. See Notes 7 and 9 to our consolidated financial statements in Item 1 of this Report for more information regarding our debt and derivatives. At June 30, 2017, 9.9% of our debt was unhedged floating rate debt. A fifty-basis point change in the one month USD LIBOR interest rate would result in an annual impact to our earnings (through interest expense) of approximately \$2.2 million. We calculate interest sensitivity by multiplying the amount of unhedged floating rate debt by fifty-basis points.

Item 4. Controls and Procedures

As of June 30, 2017, the end of the period covered by this Report, we carried out an evaluation, under the supervision and with the participation of management, including our CEO and CFO, regarding the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) at the end of the period covered by this Report. Based on the foregoing, our CEO and CFO concluded, as of that time, that our disclosure controls and procedures were effective in ensuring that information required to be disclosed by us in reports filed or submitted under the Exchange Act (i) is processed, recorded, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) is accumulated and communicated to our management, including our CEO and our CFO, as appropriate, to allow for timely decisions regarding required disclosure. There have not been any changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2017, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
