QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2018

OR

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number 001-34142

OAK VALLEY BANCORP

(Exact name of registrant as specified in its charter)

California **26-2326676**
State or other jurisdiction of I.R.S. Employer
incorporation or organization Identification No.

125 N. Third Ave., Oakdale, CA 95361

(Address of principal executive offices)

(209) 848-2265

Issuer's telephone number

Not applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the issuer (1) has filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company) Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS

State the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: 8,183,005 shares of common stock outstanding as of May 1, 2018.

OAK VALLEY BANCORP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – BASIS OF PRESENTATION

On July 3, 2008 (the “Effective Date”), a bank holding company reorganization was completed whereby Oak Valley Bancorp (“the Company”) became the parent holding company for Oak Valley Community Bank (the “Bank”). On the Effective Date, a tax-free exchange was completed whereby each outstanding share of the Bank was converted into one share of the Company and the Company became the sole wholly-owned subsidiary of the holding company.

The consolidated financial statements include the accounts of the parent company and its wholly-owned bank subsidiary. Unless otherwise stated, the “Company” refers to the consolidated entity, Oak Valley Bancorp, while the “Bank” refers to Oak Valley Community Bank. All material intercompany transactions have been eliminated. In the opinion of Management, the consolidated financial statements contain all adjustments necessary to present fairly the financial position, results of operations, changes in shareholders’ equity and cash flows. All adjustments are of a normal, recurring nature. The interim consolidated financial statements included in this report are unaudited but reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of the financial position and results of operations for the interim periods presented. All such adjustments are of a normal recurring nature. The results of operations for the three and nine month periods ended March 31, 2018 are not necessarily indicative of the results of a full year’s operations. Certain prior year amounts have been reclassified to conform to the current year presentation. There was no effect on net income or shareholders’ equity as a result of reclassifications. For further information, refer to the audited consolidated financial statements and footnotes included in the Company’s Form 10-K for the year ended December 31, 2017.

Oak Valley Community Bank is a California state-chartered bank. The Company was incorporated under the laws of the State of California on May 31, 1990, and began operations in Oakdale on May 28, 1991. The Company operates branches in Oakdale, Sonora, Bridgeport, Bishop, Mammoth Lakes, Modesto, Manteca, Patterson, Turlock, Ripon, Stockton, and Escalon, California. The Bridgeport, Mammoth Lakes, and Bishop branches operate as a separate division, Eastern Sierra Community Bank. The Company’s primary source of revenue is providing loans to customers who are predominantly middle-market businesses.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant accounting estimates reflected in the Company’s consolidated financial statements include the allowance for loan losses, fair value measurements, and the

determination, recognition and measurement of impaired loans. Actual results could differ from these estimates.

NOTE 2 – RECENT ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers (Topic 606). This ASU is a converged standard involving FASB and International Financial Reporting Standards that provides a single comprehensive revenue recognition model for all contracts with customers across transactions and industries. The core principal of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount and at a time that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Subsequent updates related to Revenue from Contracts with Customers (Topic 606) are as follows:

August 2015 ASU No. 2015-14 - Deferral of the Effective Date, institutes a one-year deferral of the effective date of this amendment to annual reporting periods beginning after December 15, 2017. Early application is permitted only as of annual periods beginning after December 15, 2016, including interim reporting periods within that reporting period.

March 2016 ASU No. 2016-08 - Principal versus Agent Considerations (Reporting Revenue Gross versus Net), clarifies the implementation guidance on principal versus agent considerations and on the use of indicators that assist an entity in determining whether it controls a specified good or service before it is transferred to the customer.

April 2016 ASU No. 2016-10 - Identifying Performance Obligations and Licensing, provides guidance in determining performance obligations in a contract with a customer and clarifies whether a promise to grant a license provides a right to access or the right to use intellectual property.

May 2016 ASU No. 2016-12 - Narrow Scope Improvements and Practical Expedients, gives further guidance on assessing collectability, presentation of sales taxes, noncash consideration, and completed contracts and contract modifications at transition.

Table of Contents

Topic 606 was adopted by the Company on January 1, 2018 and did not have a material impact on the Company's consolidated financial statements. No additional disaggregated revenue disclosures are necessary because interest income sources are scoped out and there are no additional significant noninterest income sources to break out on the consolidated statement of income.

In January 2016, the FASB issued ASU No. 2016-01, *Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. The amendments in this ASU make improvements to GAAP related to financial instruments that include the following as applicable to us.

Equity investments, except for those accounted for under the equity method of accounting or those that result in consolidation of the investee, are required to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer.

Simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment - if impairment exists, this requires measuring the investment at fair value.

Eliminates the requirement for public companies to disclose the method(s) and significant assumptions used to estimate the fair value that is currently required to be disclosed for financial instruments measured at amortized cost on the balance sheet.

Public companies will be required to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes.

Requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statements.

The reporting entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets.

ASU 2016-01 is effective for public business entities for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. This ASU was adopted by the Company on January 1, 2018 and impacted our financial statement disclosures, however, it did not have a material impact on our financial condition or results of operations.

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. This ASU was issued to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities, including leases classified as operating leases under previous GAAP, on the balance sheet and requiring additional disclosures of key information about leasing arrangements. ASU 2016-02 is effective for annual periods, including interim periods within those annual periods beginning after December 15, 2018 and requires a modified retrospective approach to adoption. Early application of the ASU is permitted. While the Company has not quantified the impact to its balance sheet, it does expect the adoption of this ASU will result in a gross-up in its balance sheet as a result of recording a right-of-use asset and a lease liability for each lease.

In June 2016, the FASB issued ASU No. 2016-13, *Financial Instruments – Credit Losses (Topic 326)*. This update changes the methodology used by financial institutions under current U.S. GAAP to recognize credit losses in the financial statements. Currently, U.S. GAAP requires the use of the incurred loss model, whereby financial institutions recognize in current period earnings, incurred credit losses and those inherent in the financial statements, as of the date of the balance sheet. This guidance results in a new model for estimating the allowance for loan and lease losses, commonly referred to as the Current Expected Credit Loss (“CECL”) model. Under the CECL model, financial institutions are required to estimate future credit losses and recognize those losses in current period earnings. The amendments within the update are effective for fiscal years and all interim periods beginning after December 15, 2019, with early adoption permitted. Upon adoption of the amendments within this update, the Company will be required to make a cumulative-effect adjustment to the opening balance of retained earnings in the year of adoption. The Company is currently in the process of evaluating the impact the adoption of this update will have on its financial statements. While the Company has not quantified the impact of this ASU, it does expect changing from the current incurred loss model to an expected loss model will result in an earlier recognition of losses.

In January 2017, FASB issued ASU 2017-03, *Accounting Changes and Error Corrections (Topic 250) and Investments - Equity Method and Joint Ventures (Topic 323): Amendments to SEC Paragraphs Pursuant to Staff Announcements at the September 22, 2016 and November 17, 2016 EITF Meetings*. These amendments apply to ASU 2014-9 (Revenue from Contracts with Customers), ASU 2016-02 (Leases), and ASU 2016-13 (Financial Instruments - Credit Losses). The Company does not expect these amendments to have a significant impact on its consolidated financial statements.

Table of Contents

In February 2018, the FASB issued ASU 2018-02, *Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income*. The ASU was issued to address certain stranded tax effects in accumulated other comprehensive income as a result of the Tax Cuts and Jobs Act of 2017. The ASU provides companies the option to reclassify stranded tax effects within AOCI to retained earnings in each period in which the effect of the change from the newly enacted corporate tax rate is recorded. The amount of the reclassification would be calculated on the basis of the difference between the historical and newly enacted tax rates for deferred tax liabilities and assets related to items within accumulated other comprehensive income. The ASU requires companies to disclose its accounting policy related to releasing income tax effects from AOCI, whether it has elected to reclassify the stranded tax effects, and information about the other income tax effects that are reclassified. The guidance is effective for fiscal years beginning after December 15, 2018, including interim periods, therein, and early adoption is permitted for public business entities for which financial statements have not yet been issued. As of December 31, 2017, the Company adopted the ASU and made a reclassification adjustment from accumulated other comprehensive income to retained earnings on the Consolidated Statements of Shareholders' Equity, related to the stranded tax effects due to the change in the federal corporate tax rate applied on the unrealized gains (losses) on investments on a portfolio basis, to reflect the provisions of this ASU.

NOTE 3 – SECURITIES

Equity Securities

The Company held equity securities with fair values of \$3,071,000 and \$3,112,000 at March 31, 2018 and December 31, 2017, respectively. There were no sales of equity securities during the three months ended March 31, 2018. Consistent with ASU 2016-01, these securities are carried at fair value with the changes in fair value recognized in the consolidated statement of income.

Debit Securities

Debt securities have been classified in the financial statements as available for sale. The amortized cost and estimated fair values of debt securities as of March 31, 2018 are as follows:

(dollars in thousands)	Amortized	Gross	Gross	Fair
	Cost	Unrealized	Unrealized	Value

Edgar Filing: Oak Valley Bancorp - Form 10-Q

		Gains		Losses	
Available-for-sale securities:					
U.S. agencies	\$ 46,699	\$ 253		\$ (307)	\$ 46,645
Collateralized mortgage obligations	2,469	1		(53)	2,417

Asset backed securities	26,466	216		(38)	26,644
	\$ 197,932	\$ 1,989		\$ (1,700)	\$ 198,221

The following tables detail the gross unrealized losses and fair values of debt securities aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at March 31, 2018.

(dollars in thousands)

<u>Description of Securities</u>	Less than 12 months		12 months or more		Total	
	Fair	Unrealized	Fair	Unrealized	Fair	Unrealized
	Value	Loss	Value	Loss	Value	Loss
U.S. agencies	\$15,848	\$ (102)	\$5,211	\$ (204)	\$21,059	\$ (306)
Collateralized mortgage obligations	1,540	(489)	876	(37)	2,416	(526)
Municipalities	37,451	(16)	5,531	(120)	42,982	(136)
SBA pools	3,717	(1)	626	(4)	4,343	(5)
Corporate debt	2,016	(49)	11,850	(639)	13,866	(688)
Asset backed securities	5,045	(30)	2,046	(9)	7,091	(39)
Total temporarily impaired securities	\$65,617	\$ (687)	\$26,140	\$ (1,013)	\$91,757	\$ (1,700)

Table of Contents

At March 31, 2018, there were nine corporate debts, six municipalities, four U.S. agencies, two SBA pools, two asset backed securities and one collateralized mortgage obligation that comprised the total debt securities in an unrealized loss position for greater than 12 months and fifty-one municipalities, thirteen U.S. agencies, three asset backed securities, three collateralized mortgage obligation, two SBA pools, and one corporate debt that make up the total debt securities in a loss position for less than 12 months. Management periodically evaluates each available-for-sale investment security in an unrealized loss position to determine if the impairment is temporary or other than temporary. This evaluation encompasses various factors including, the nature of the investment, the cause of the impairment, the severity and duration of the impairment, credit ratings and other credit related factors such as third party guarantees and volatility of the security's fair value. Management has determined that no investment security is other than temporarily impaired. The unrealized losses are due primarily to interest rate changes and the Company does not intend to sell the securities and it is not likely that we will be required to sell the securities before the earlier of the forecasted recovery or the maturity of the underlying investment security.

The amortized cost and estimated fair value of investment securities at March 31, 2018, by contractual maturity or call date, are shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

(dollars in thousands)	Amortized Cost	Fair Value
Debt securities:		
Due in one year or less	\$ 24,003	\$24,302
Due after one year through five years	57,797	57,603
Due after five years through ten years	52,246	52,175
Due after ten years	63,886	64,141
	\$ 197,932	\$ 198,221

The amortized cost and estimated fair values of debt securities as of December 31, 2017, are as follows:

(dollars in thousands)	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale securities:				
U.S. agencies	\$ 29,741	\$ 374	\$ (143)) \$29,972

Asset backed securities	6,154	(13)	333	(1)	6,487	(14)
Total temporarily impaired securities	\$50,603	\$ (316)	\$26,820	\$ (880)	\$77,423	\$ (1,196)

We recognized gross gains of \$1,000 for the three month period ended March 31, 2018, on certain available-for-sale securities that were called, which compares to \$389,000 in the same period of 2017. There was one sale of a municipal bond resulting in a gain of \$70,000 during the first three months of 2018, compared to no sales during the same period of 2017.

Debt securities carried at \$105,639,000 and \$109,158,000 at March 31, 2018 and December 31, 2017, respectively, were pledged to secure deposits of public funds.

NOTE 4 – LOANS

Our customers are primarily located in Stanislaus, San Joaquin, Tuolumne, Inyo, and Mono Counties. As of March 31, 2018, approximately 78% of the Company's loans are commercial real estate loans which include construction loans. Approximately 11% of the Company's loans are for general commercial uses including professional, retail, and small business. Additionally, 6% of the Company's loans are for residential real estate and other consumer loans. The remaining 5% are agriculture loans. Loan totals were as follows:

Edgar Filing: Oak Valley Bancorp - Form 10-Q

(in thousands)	March 31, 2018	December 31, 2017

Table of Contents

Loan Origination/Risk Management. The Company has certain lending policies and procedures in place that are designed to maximize loan income within an acceptable level of risk. Management reviews and approves these policies and procedures on a regular basis. A reporting system supplements the review process by providing management with frequent reports related to loan production, loan quality, concentration of credit, loan delinquencies and non-performing and potential problem loans. Diversification in the loan portfolio is a means of managing risk associated with fluctuations in economic conditions.

Commercial and industrial loans are underwritten after evaluating and understanding the borrower's ability to operate profitably and prudently expand its business. Underwriting standards are designed to promote relationship banking rather than transactional banking. Once it is determined that the borrower's management possesses sound ethics and solid business acumen, our management examines current and projected cash flows to determine the ability of the borrower to repay their obligations as agreed. Commercial and industrial loans are primarily made based on the identified cash flows of the borrower and secondarily on the underlying collateral provided by the borrower. The cash flows of borrowers, however, may not be as expected and the collateral securing these loans may fluctuate in value. Most commercial and industrial loans are secured by the assets being financed or other business assets such as accounts receivable or inventory and may incorporate a personal guarantee; however, some short-term loans may be made on an unsecured basis. In the case of loans secured by accounts receivable, the availability of funds for the repayment of these loans may be substantially dependent on the ability of the borrower to collect amounts due from its customers.

Commercial real estate loans are subject to underwriting standards and processes similar to commercial and industrial loans, in addition to those of real estate loans. These loans are viewed primarily as cash flow loans and secondarily as loans secured by real estate. Commercial real estate lending typically involves higher loan principal amounts and the repayment of these loans is generally largely dependent on the successful operation of the property securing the loan or the business conducted on the property securing the loan. Commercial real estate loans may be more adversely affected by conditions in the real estate markets or in the general economy. The properties securing the Company's commercial real estate portfolio are diverse in terms of type and geographic location. This diversity helps reduce the Company's exposure to adverse economic events that affect any single market or industry. Management monitors and evaluates commercial real estate loans based on collateral, geography and risk grade criteria. As a general rule, the Company avoids financing single-purpose projects unless other underwriting factors are present to help mitigate risk. The Company also utilizes third-party experts to provide insight and guidance about economic conditions and trends affecting market areas it serves. In addition, management tracks the level of owner-occupied commercial real estate loans versus non-owner occupied loans. At March 31, 2018 and December 31, 2017, commercial real estate loans equal to approximately 44% and 43%, respectively, of the outstanding principal balance of our commercial real estate loans were secured by owner-occupied properties.

With respect to loans to developers and builders that are secured by non-owner occupied properties that the Company may originate from time to time, the Company generally requires the borrower to have had an existing relationship with the Company and have a proven record of success. Construction loans are underwritten utilizing feasibility studies, independent appraisal reviews, sensitivity analysis of absorption and lease rates and financial analysis of the developers and property owners. Construction loans are generally based upon estimates of costs and value associated with the complete project. These estimates may be inaccurate. Construction loans often involve the disbursement of

substantial funds with repayment substantially dependent on the success of the ultimate project. Sources of repayment for these types of loans may be pre-committed permanent loans from approved long-term lenders, sales of developed property or an interim loan commitment from the Company until permanent financing is obtained. These loans are closely monitored by on-site inspections and are considered to have higher risks than other real estate loans due to their ultimate repayment being sensitive to interest rate changes, governmental regulation of real property, general economic conditions and the availability of long-term financing.

Agricultural production, real estate and development lending is susceptible to credit risks including adverse weather conditions, pest and disease, as well as market price fluctuations and foreign competition. Agricultural loan underwriting standards are maintained by following Company policies and procedures in place to minimize risk in this lending segment. These standards consist of limiting credit to experienced farmers who have demonstrated farm management capabilities, requiring cash flow projections displaying margins sufficient for repayment from normal farm operations along with equity injected as required by policy, as well as providing adequate secondary repayment and sponsorship including satisfactory collateral support. Credit enhancement obtained through government guarantee programs may also be used to provide further support as available.

The Company originates consumer loans utilizing common underwriting criteria specified in policy. To monitor and manage consumer loan risk, policies and procedures are developed and modified, as needed, jointly by line and staff personnel. This activity, coupled with relatively small loan amounts that are spread across many individual borrowers, minimizes risk. Additionally, trend and outlook reports are reviewed by management on a regular basis. Underwriting standards for 1-4 family, home equity lines and loans follow bank policy, which include, but are not limited to, a maximum loan-to-value percentage of 80%, a maximum housing and total debt ratio of 36% and 42%, respectively and other specified credit and documentation requirements.

The Company maintains an independent loan review department that reviews and validates the credit risk program on a periodic basis. Results of these reviews are presented to management. The loan review process complements and reinforces the risk identification and assessment decisions made by lenders and credit personnel, as well as the Bank's policies and procedures.

Table of Contents

Non-Accrual and Past Due Loans. Loans are considered past due if the required principal and interest payments have not been received as of the date such payments were due. Loans are placed on non-accrual status when, in management's opinion, the borrower may be unable to meet payment obligations as they become due, as well as when required by regulatory provisions. Loans may be placed on non-accrual status regardless of whether or not such loans are considered past due. When interest accrual is discontinued, all unpaid accrued interest is reversed. Interest income is subsequently recognized only to the extent cash payments are received in excess of principal due. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Non-accrual loans, segregated by class of loans, were as follows:

(in thousands)	March 31, 2018	December 31, 2017
Commercial real estate:		
Land	\$993	\$ 993
Commercial and industrial	302	302
Consumer residential	15	16
Total non-accrual loans	\$1,310	\$ 1,311

Had non-accrual loans performed in accordance with their original contract terms, we would have recognized additional interest income of approximately \$19,000 in the three month period ended March 31, 2018, as compared to \$37,000 in the same period of 2017.

The following table analyzes past due loans including the non-accrual loans in the above table, segregated by class of loans, as of March 31, 2018 (in thousands):

<u>March 31, 2018</u>	30-59 Days Past Due	60-89 Days Past Due	Greater Than 90 Days Past Due	Total Past Due	Current	Total	Greater Than 90 Days Past

Impaired Loans. Loans are considered impaired when, based on current information and events, it is probable the Company will be unable to collect all amounts due in accordance with the original contractual terms of the loan agreement, including scheduled principal and interest payments. Impairment is evaluated in total for smaller-balance loans of a similar nature and on an individual loan basis for other loans. If a loan is impaired, a specific valuation allowance is allocated, if necessary, so that the loan is reported net, at the present value of estimated future cash flows using the loan's existing rate or at the fair value of collateral if repayment is expected solely from the collateral. Interest payments on impaired loans are typically applied to principal unless collectability of the principal amount is reasonably assured, in which case interest is recognized on a cash basis. There was no interest income realized on impaired loans for the three months ended March 31, 2018 and 2017.

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Impaired loans as of March 31, 2018 and December 31, 2017 are set forth in the following tables.

Troubled Debt Restructurings – In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed under the Company’s internal underwriting policy.

At March 31, 2018, there were 4 loans that were considered to be troubled debt restructurings, all of which are considered non-accrual totaling \$1,310,000. At December 31, 2017, there were 4 loans that were considered to be troubled debt restructurings, all of which are considered non-accrual totaling \$1,311,000. At March 31, 2018 and December 31, 2017 there were no unfunded commitments on loans classified as a troubled debt restructures. We have allocated \$680,000 of specific reserves to loans whose terms have been modified in troubled debt restructurings as of March 31, 2018 and December 31, 2017.

The modification of the terms of such loans typically includes one or a combination of the following: a reduction of the stated interest rate of the loan; an extension of the maturity date; or a temporary payment modification in which the payment amount allocated towards principal was reduced. In some cases, a permanent reduction of the accrued interest on the loan is conceded.

During the three months ended March 31, 2018 and 2017, no loans were modified as troubled debt restructurings. There were no loans modified as troubled debt restructurings within the previous twelve months and for which there was a payment default during the three month periods ended March 31, 2018 and 2017. A loan is considered to be in payment default once it is ninety days contractually past due under the modified terms.

Loan Risk Grades— Quality ratings (Risk Grades) are assigned to all commitments and stand-alone notes. Risk grades define the basic characteristics of commitments or stand-alone note in relation to their risk. All loans are graded using a system that maximizes the loan quality information contained in loan review grades, while ensuring that the system is compatible with the grades used by bank examiners.

We grade loans using the following letter system:

1 Exceptional Loan

2 Quality Loan

3A Better Than Acceptable Loan

3B Acceptable Loan

3C Marginally Acceptable Loan

4 (W) Watch Acceptable Loan

5 Other Loans Especially Mentioned

6 Substandard Loan

7 Doubtful Loan

8 Loss

1. Exceptional Loan - Loans with A+ credits that contain very little, if any, risk. Grade 1 loans are considered Pass. To qualify for this rating, the following characteristics must be present:

-A high level of liquidity and whose debt-servicing capacity exceeds expected obligations by a substantial margin.

-Where leverage is below average for the industry and earnings are consistent or growing without severe vulnerability to economic cycles.

-Also included in this rating (but not mandatory unless one or more of the preceding characteristics are missing) are loans that are fully secured and properly margined by our own time instruments or U.S. blue chip securities. To be properly margined cash collateral must be equal to, or greater than, 110% of the loan amount.

Table of Contents

2. Quality Loan - Loans with excellent sources of repayment that conform in all respects to bank policy and regulatory requirements. These are also loans for which little repayment risk has been identified. No credit or collateral exceptions. Grade 2 loans are considered Pass. Other factors include:

-Unquestionable debt-servicing capacity to cover all obligations in the ordinary course of business from well-defined primary and secondary sources.

-Consistent strong earnings.

-A solid equity base.

3A. Better than Acceptable Loan - In the interest of better delineating the loan portfolio's true credit risk for reserve allocation, further granularity has been sought by splitting the grade 3 category into three classifications. The distinction between the three are bank-defined guidelines and represent a further refinement of the regulatory definition of a pass, or grade 3 loan. Grade 3A is the stronger third of the pass category, but is not strong enough to be a grade 2 and is characterized by:

-Strong earnings with no loss in last three years and ample cash flow to service all debt well above policy guidelines.

-Long term experienced management with depth and defined management succession.

-The loan has no exceptions to policy.

-Loan-to-value on real estate secured transactions is 10% to 20% less than policy guidelines.

-Very liquid balance sheet that may have cash available to pay off our loan completely.

-Little to no debt on balance sheet.

3B. Acceptable Loan - 3B loans are simply defined as all loans that are less qualified than 3A loans and are stronger than 3C loans. These loans are characterized by acceptable sources of repayment that conform to bank policy and regulatory requirements. Repayment risks are acceptable for these loans. Credit or collateral exceptions are minimal, are in the process of correction, and do not represent repayment risk. These loans:

-Are those where the borrower has average financial strengths, a history of profitable operations and experienced management.

-Are those where the borrower can be expected to handle normal credit needs in a satisfactory manner.

3C. Marginally Acceptable - 3C loans have similar characteristics as that of 3Bs with the following additional characteristics:

Requires collateral. A credit facility where the borrower has average financial strengths, but usually lacks reliable secondary sources of repayment other than the subject collateral. Other common characteristics can include some or all of the following: minimal background experience of management, lacking continuity of management, a start-up operation, erratic historical profitability (acceptable reasons-well identified), lack of or marginal sponsorship of guarantor, and government guaranteed loans.

4W Watch Acceptable - Watch grade will be assigned to any credit that is adequately secured and performing but monitored for a number of indicators. These characteristics may include any unexpected short-term adverse financial performance from budgeted projections or prior period's results (i.e., declining profits, sales, margins, cash flow, or increased reliance on leverage, including adverse balance sheet ratios, trade debt issues, etc.). Additionally, any managerial or personal problems of company management, decline in the entire industry or local economic conditions, or failure to provide financial information or other documentation as requested; issues regarding delinquency, overdrafts, or renewals; and any other issues that cause concern for the company. Loans to individuals or loans supported by guarantors with marginal net worth and/or marginal collateral. Weakness identified in a Watch credit is short-term in nature. Loans in this category are usually accounts the Bank would want to retain providing a positive turnaround can be expected within a reasonable time frame. Grade 4 loans are considered Pass.

5 Other Loans Especially Mentioned (Special Mention) - A special mention extension of credit is defined as having potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may, at some future date result in the deterioration of the repayment prospects for the credit or the institution's credit position. Extensions of credit that might be detailed in this category include the following:

- The lending officer may be unable to properly supervise the credit because of an inadequate loan or credit agreement.
- Questions exist regarding the condition of and/or control over collateral.
- Economic or market conditions may unfavorably affect the obligor in the future.
- A declining trend in the obligor's operations or an imbalanced position in the balance sheet exists, but not to the point that repayment is jeopardized.

6 Substandard Loan - A "substandard" extension of credit is inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Extensions of credit so classified must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected. Loss potential, while existing in the aggregate amount of substandard credits, does not have to exist in individual extensions of credit classified substandard.

Table of Contents

7 Doubtful Loan - An extension of credit classified “doubtful” has all the weaknesses inherent in one classified substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable. The possibility of loss is extremely high but because of certain important and reasonably specific pending factors that may work to the advantage of and strengthen the credit, its classification as an estimated loss is deferred until its more exact status may be determined. Pending factors may include a proposed merger or acquisition, liquidation proceedings, capital injection, perfecting liens on additional collateral or refinancing plans. The entire loan need not be classified doubtful when collection of a specific portion appears highly probable. An example of proper use of the doubtful category is the case of a company being liquidated, with the trustee-in-bankruptcy indicating a minimum disbursement of 40 percent and a maximum of 65 percent to unsecured creditors, including the Bank. In this situation, estimates are based on liquidation value appraisals with actual values yet to be realized. By definition, the only portion of the credit that is doubtful is the 25 percent difference between 40 and 65 percent.

A proper classification of such a credit would show 40 percent substandard, 25 percent doubtful, and 35 percent loss. A credit classified as doubtful should be resolved within a ‘reasonable’ period of time. Reasonable is generally defined as the period between examinations. In other words, a credit classified doubtful at an examination should be cleared up before the next exam. However, there may be situations that warrant continuation of the doubtful classification a while longer.

8 Loss - Extensions of credit classified “loss” are considered uncollectible and of such little value that their continuance as bankable assets is not warranted. This classification does not mean that the credit has absolutely no recovery or salvage value, but rather that it is not practical or desirable to defer writing off, even though partial recovery may be affected in the future. It should not be the Company’s practice to attempt long-term recoveries while the credit remains on the books. Losses should be taken in the period in which they surface as uncollectible.

As of March 31, 2018 and December 31, 2017, there are no loans that are classified with a risk grade of 8- *Loss*.

The following table presents weighted average risk grades of our loan portfolio:

March 31, 2018	December 31, 2017
Weighted Average	Weighted Average

Allowance for Loan Losses. The allowance for loan losses is a reserve established by the Company through a provision for loan losses charged to expense, which represents management’s best estimate of probable losses that have been incurred within the existing portfolio of loans. The allowance, in the judgment of management, is necessary to reserve for estimated loan losses and risks inherent in the loan portfolio. The allowance for loan loss methodology includes allowance allocations calculated in accordance with ASC Topic 310, “Receivables” and allowance allocations calculated in accordance with ASC Topic 450, “Contingencies.” Accordingly, the methodology is based on historical loss experience by type of credit and internal risk grade, specific homogeneous risk pools and specific loss allocations, with adjustments for current events and conditions. The process for determining the appropriate level of the allowance for loan losses is designed to account for credit deterioration as it occurs. The provision for loan losses reflects loan quality trends, including the levels of and trends related to non-accrual loans, past due loans, potential problem loans, criticized loans and net charge-offs or recoveries, among other factors. The provision for loan losses also reflects the totality of actions taken on all loans for a particular period. In other words, the amount of the provision reflects not only the necessary increases in the allowance for loan losses related to newly identified criticized loans, but it also reflects actions taken related to other loans including, among other things, any necessary increases or decreases in required allowances for specific loans or loan pools.

The level of the allowance reflects management's continuing evaluation of industry concentrations, specific credit risks, loan loss experience, current loan portfolio quality, present economic, political and regulatory conditions and unidentified losses inherent in the current loan portfolio. Portions of the allowance may be allocated for specific credits; however, the entire allowance is available for any credit that, in management's judgment, should be charged off. While management utilizes its best judgment and information available, the ultimate adequacy of the allowance is dependent upon a variety of factors beyond the Company's control, including, among other things, the performance of the Company's loan portfolio, the economy, changes in interest rates and the view of the regulatory authorities toward loan classifications.

The Company's allowance for loan losses consists of three elements: (i) specific valuation allowances determined in accordance with ASC Topic 310 based on probable losses on specific loans; (ii) historical valuation allowances determined in accordance with ASC Topic 450 based on historical loan loss experience for similar loans with similar characteristics and trends, adjusted, as necessary, to reflect the impact of current conditions; (iii) general valuation allowances determined in accordance with ASC Topic 450 based on general economic conditions and other qualitative risk factors both internal and external to the Bank and the Company; and (iv) unallocated allowance which represents the excess allowance not allocated to specific loans pools.

The allowances established for probable losses on specific loans are based on a regular analysis and evaluation of problem loans. Loans are classified based on an internal credit risk grading process that evaluates, among other things: (i) the obligor's ability to repay; (ii) the underlying collateral, if any; and (iii) the economic environment and industry in which the borrower operates. This analysis is performed at the relationship manager level for all commercial loans. When a loan has a calculated grade of 5 or higher, a special assets officer analyzes the loan to determine whether the loan is impaired and, if impaired, the need to specifically allocate a portion of the allowance for loan losses to the loan. Specific valuation allowances are determined by analyzing the borrower's ability to repay amounts owed, collateral deficiencies, the relative risk grade of the loan and economic conditions affecting the borrower's industry, among other things.

Table of Contents

Historical valuation allowances are calculated based on the historical loss experience of specific types of loans and the internal risk grade of such loans at the time they were charged-off. The Company calculates historical loss ratios for pools of similar loans with similar characteristics based on the proportion of actual charge-offs experienced to the total population of loans in the pool. The historical loss ratios are periodically updated based on actual charge-off experience. A historical valuation allowance is established for each pool of similar loans based upon the product of the historical loss ratio and the total dollar amount of the loans in the pool. The Company's pools of similar loans include similarly risk-graded groups of commercial and industrial loans, commercial real estate loans, consumer real estate loans and consumer and other loans.

General valuation allowances are based on general economic conditions and other qualitative risk factors both internal and external to the Bank and the Company. In general, such valuation allowances are determined by evaluating, among other things: (i) the experience, ability and effectiveness of the Bank's lending management and staff; (ii) the effectiveness of the Bank's loan policies, procedures and internal controls; (iii) changes in asset quality; (iv) changes in loan portfolio volume; (v) the composition and concentrations of credit; (vi) the impact of competition on loan structuring and pricing; (vii) the effectiveness of the internal loan review function; (viii) the impact of environmental risks on portfolio risks; and (ix) the impact of rising interest rates on portfolio risk. Management evaluates the degree of risk that each one of these components has on the quality of the loan portfolio on a quarterly basis. Each component is determined to have either a high, moderate or low degree of risk. The results are then input into a "general allocation matrix" to determine an appropriate general valuation allowance.

Included in the general valuation allowances are allocations for groups of similar loans with risk characteristics that exceed certain concentration limits established by management. Concentration risk limits have been established, among other things, for certain industry concentrations, large balance and highly leveraged credit relationships that exceed specified risk grades, and loans originated with policy exceptions that exceed specified risk grades.

Loans identified as losses by management, internal loan review and/or bank examiners are charged-off. Furthermore, consumer loan accounts are charged-off automatically based on regulatory requirements.

The following table details activity in the allowance for loan losses by portfolio segment for the three months ended March 31, 2018 and 2017. Allocation of a portion of the allowance to one category of loans does not preclude its availability to absorb losses in other categories.

Table of Contents

The following table details the allowance for loan losses and ending gross loan balances as of March 31, 2018, December 31, 2017 and March 31, 2017 summarized by collective and individual evaluation methods of impairment.

(in thousands)	Commercial Real Estate	Commercial and Industrial	Consumer	Consumer Residential	Agriculture	Unallocated	Total
<u>March 31, 2018</u>							
Allowance for loan losses for loans:							
Individually evaluated for impairment	\$ 680	\$ 0	\$ 0	\$ 0	\$ 0		\$680
Collectively evaluated for impairment	5,458	808	22	297	678	222	7,485
	\$ 6,138	\$ 808	\$ 22	\$ 297	\$ 678	\$ 222	\$8,165
Ending gross loan balances:							
Individually evaluated for impairment	\$ 993	\$ 302	\$ 0	\$ 15	\$ 0	\$ 0	\$1,310
Collectively evaluated for impairment	504,681	69,334	561	36,344	36,137	0	647,057
	\$ 505,674	\$ 69,636	\$ 561	\$ 36,359	\$ 36,137	\$ 0	\$648,367
<u>December 31, 2017</u>							
Allowance for loan losses for loans:							
Individually evaluated for impairment	\$ 680	\$ 0	\$ 0	\$ 0	\$ 0		\$680
Collectively evaluated for impairment	5,651	813	27	300	693	2	7,486
	\$ 6,331	\$ 813	\$ 27	\$ 300	\$ 693	\$ 2	\$8,166
Ending gross loans balances:							
Individually evaluated for impairment	\$ 993	\$ 303	\$ 0	\$ 15	\$ 0	\$ 0	\$1,311
Collectively evaluated for impairment	516,157	69,307	689	37,146	37,934	0	661,233
	\$ 517,150	\$ 69,610	\$ 689	\$ 37,161	\$ 37,934	\$ 0	\$662,544
<u>March 31, 2017</u>							
Allowance for loan losses for loans:							
Individually evaluated for impairment	\$ 680	\$ 0	\$ 0	\$ 0	\$ 0		\$680
Collectively evaluated for impairment	5,586	735	37	310	447	32	7,147
	\$ 6,266	\$ 735	\$ 37	\$ 310	\$ 447	\$ 32	\$7,827

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Ending gross loan balances:

Individually evaluated for impairment	\$ 2,108	\$ 305	\$ 0	\$ 154	\$ 0	\$ 0	\$2,567
Collectively evaluated for impairment	483,262	64,942	714	37,136	24,273	0	610,327
	\$ 485,370	\$ 65,247	\$ 714	\$ 37,290	\$ 24,273	\$ 0	\$612,894

Changes in the reserve for off-balance-sheet commitments were as follows:

**THREE
MONTHS
ENDED
MARCH
31,
2018 2017**

Balance, beginning of period	\$305	\$284
Provision to Operations for Off Balance Sheet Commitments	63	5
Balance, end of period	\$368	\$289

The method for calculating the reserve for off-balance-sheet loan commitments is based on a reserve percentage which is less than other outstanding loan types because they are at a lower risk level. This reserve percentage, based on many factors including historical losses and existing economic conditions, is evaluated by management periodically and is applied to the total undisbursed loan commitment balance to calculate the reserve for off-balance-sheet commitments. Reserves for off-balance-sheet commitments are recorded in interest payable and other liabilities on the condensed consolidated balance sheets.

At March 31, 2018 and December 31, 2017, loans carried at \$648,367,000 and \$662,544,000, respectively, were pledged as collateral on advances from the Federal Home Loan Bank.

Table of Contents

NOTE 5 – OTHER REAL ESTATE OWNED

As of March 31, 2018, the Company owned one property classified as other real estate with no carrying value, as compared to two properties totaling \$253,000 as of December 31, 2017. The property owned at March 31, 2018 and December 31, 2017, was a residential land property that was written down to a zero balance because the public utilities have not been obtainable rendering these land lots unmarketable at this time. This OREO property and the other property owned at December 31, 2017 were acquired through loan foreclosures. During the three months ended March 31, 2018, there was one sale of an OREO property resulting in a gain on sale of \$193,000, and there were no OREO property acquisitions. During the three months ended March 31, 2017, there were no acquisitions or sales of OREO properties.

Real estate properties acquired through, or in lieu of, loan foreclosure are to be sold and are initially recorded at fair value as of the date of foreclosure less selling costs. Subsequent to foreclosure, valuations are periodically performed and any subject revisions in the estimate of fair value are reported as adjustment to the carrying value of the real estate, provided the adjusted carrying amount does not exceed the original amount at foreclosure. Revenues and expenses from operations and changes in the valuation allowance are included in other operating expenses.

NOTE 6 — GOODWILL AND OTHER INTANGIBLE ASSETS

Intangible assets are comprised of goodwill and core deposit intangibles that were acquired through a business combination. Intangible assets with definite useful lives are amortized over their respective estimated useful lives. If an event occurs that indicates the carrying amount of an intangible asset may not be recoverable, management reviews the asset for impairment. Any goodwill and any intangible asset acquired in a purchase business combination determined to have an indefinite useful life is not amortized, but is evaluated for impairment, at a minimum, on an annual basis.

The core deposit intangible represents the estimated future benefits of acquired deposits and is booked separately from the related deposits. The value of the core deposit intangible asset was determined using a discounted cash flow approach to arrive at the cost differential between the core deposits (non-maturity deposits such as transaction, savings and money market accounts) and alternative funding sources. The core deposit intangible is amortized on an accelerated basis over an estimated ten-year life, and it is evaluated periodically for impairment. No impairment loss was recognized as of March 31, 2018. At December 31, 2017, the core deposit intangibles future estimated amortization expense is as follows:

<i>(in thousands)</i>	2018	2019	2020	2021	2022	Thereafter	Total
Core deposit intangible amortization	\$ 114	\$ 105	\$ 96	\$ 93	\$ 89	\$ 236	\$ 733

The Company applies a qualitative analysis of conditions in order to determine if it is more likely than not that the carrying value is impaired. In the event that the qualitative analysis suggests that the carrying value of goodwill may be impaired, the Company, with the assistance of an independent third party valuation firm, uses several quantitative valuation methodologies in evaluating goodwill for impairment including a discounted cash flow approach that includes assumptions made concerning the future earnings potential of the organization, and a market-based approach that looks at values for organizations of comparable size, structure and business model. The current year's review of qualitative factors did not indicate that impairment has occurred, as such no quantitative analysis was performed at March 31, 2018.

NOTE 7 — FINANCIAL INSTRUMENTS AND FAIR VALUE MEASUREMENTS

Fair values of financial instruments — The consolidated financial statements include various estimated fair value information as of March 31, 2018 and December 31, 2017. Such information, which pertains to the Company's financial instruments, does not purport to represent the aggregate net fair value of the Company. Further, the fair value estimates are based on various assumptions, methodologies, and subjective considerations, which vary widely among different financial institutions and which are subject to change.

Fair value measurements defines fair value, establishes a framework for measuring fair value, establishes a three-level valuation hierarchy for disclosure of fair value measurement and enhances disclosure requirements for fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. The three levels are defined as follow:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Table of Contents

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability. Transfers between levels of the fair value hierarchy are recognized on the actual date of the event or circumstance that caused the transfer, which generally corresponds with the Company's quarterly valuation process. There were no transfers between levels during the three month periods ended March 31, 2018 or 2017.

Following is a description of valuation methodologies used for assets and liabilities in the tables below:

Cash and cash equivalents – The carrying amounts of cash and cash equivalents approximate their fair value and are considered a level 1 valuation.

Restricted Equity Securities- The carrying amounts of the stock the Company's owns in FRB and FHLB approximate their fair value and are considered a level 2 valuation.

Loans receivable — The fair value of our loan portfolio is estimated using discounted cash flow analyses, using interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. The Company's fair value model takes into account many inputs including loan discounts due to credit risk, current market rates on new loans, the U.S. treasury yield curve, LIBOR yield curve, rate floors, rate ceilings, remaining maturity, and average life based on specific loan type. Adoption of ASU 2016-01 during the first quarter of 2018 resulted in the use of an exit price rather than an entrance price to determine the fair value of loans not measured at fair value on a non-recurring basis. Loans are considered to be a level 3 valuation.

Deposit liabilities — The fair values estimated for demand deposits (interest and non-interest checking, savings, and certain types of money market accounts) are, by definition, equal to the amount payable on demand at the reporting date (i.e. their carrying amounts). The carrying amounts for variable-rate, fixed-term money market accounts and certificates of deposit approximate their fair values at the reporting date. Fair values for fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of the aggregate expected monthly maturities on time deposits. The fair value of deposits is determined by the Company's internal assets and liabilities modeling system that accounts for various inputs such as decay rates, rate floors, FHLB yield curve, maturities and current rates offered on new accounts. Fair value on deposits is considered a level 3 valuation.

Interest receivable and payable - The carrying amounts of accrued interest approximate their fair value and are considered to be a level 2 valuation.

Off-balance-sheet instruments — Fair values for the Bank's off-balance-sheet lending commitments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the credit standing of the counterparties. The Company considers the Bank's off balance sheet instruments to be a level 3 valuation.

The estimated fair values of the Company's financial instruments not measured at fair value at March 31, 2018 were as follows:

(in thousands)	Carrying Amount	Fair Value	Hierarchy Valuation Level
Financial assets:			
Cash and cash equivalents	\$162,706	\$162,706	1
Restricted equity securities	4,135	4,135	2
Loans, net	638,902	639,830	3
Interest receivable	2,963	2,963	2
Financial liabilities:			
Deposits	(955,341)	(833,945)	3
Interest payable	(43)	(43)	2
Off-balance-sheet assets (liabilities):			
Commitments and standby letters of credit		(1,435)	3

Table of Contents

The estimated fair values of the Company's financial instruments not measured at fair value at December 31, 2017 were as follows:

(in thousands)	Carrying Amount	Fair Value	Hierarchy Valuation Level
Financial assets:			
Cash and cash equivalents	\$149,173	\$149,173	1
Restricted equity securities	4,135	4,135	2

Consumer residential	16	0	0	16
Other real estate owned	253	0	0	253

* Effective January 1, 2018, the Company adopted ASU 2016-01, which requires equity securities with readily determinable fair values to be measured at fair value with changes in the fair value recognized through net income. See Note 1 for additional information on this new accounting standard.

Available-for-sale and equity securities - Investment securities are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted market prices, if available. If quoted market prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions, and other factors such as credit loss assumptions. Level 1 securities include those traded on an active exchange, such as the New York Stock Exchange, U.S. Treasury securities that are traded by dealers or brokers in active over-the-counter markets and money market funds. Level 2 securities include mortgage-backed securities issued by government sponsored entities, municipal bonds and corporate debt securities. Securities classified as Level 3 include asset-backed securities in less liquid markets where significant inputs are unobservable.

Impaired loans - ASC Topic 820 applies to loans measured for impairment using the practical expedients permitted by ASC Topic 310, *Accounting by Creditors for Impairment of a Loan*. The Company does not record loans at fair value on a recurring basis. However, from time to time, a loan is considered impaired and an allowance for loan losses is established. Loans for which it is probable that payment of interest and principal will not be made in accordance with the contractual terms of the loan agreement are considered impaired. Impaired loans where an allowance is established based on the fair value of collateral less the cost related to liquidation of the collateral require classification in the fair value hierarchy. When the fair value of the collateral is based on an observable market price or a current appraised value, the Company records the impaired loan as non-recurring Level 3. Likewise, when an appraised value is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, the Company records the impaired loan as non-recurring Level 3.

Other Real Estate Owned - Other real estate assets (“OREO”) acquired through, or in lieu of, foreclosure are held-for-sale and are initially recorded at the lower of cost or fair value, less selling costs. Any write-downs to fair value at the time of transfer to OREO are charged to the allowance for loan losses, subsequent to foreclosure. Appraisals or evaluations are then done periodically thereafter charging any additional write-downs or valuation allowances to the appropriate expense accounts. Values are derived from appraisals of underlying collateral and discounted cash flow analysis. OREO is classified within Level 3 of the hierarchy.

Table of Contents

Net realizable value of the underlying collateral is the fair value of the collateral less estimated selling costs and any prior liens. Appraisals, recent comparable sales, offers and listing prices are factored in when valuing the collateral. We review and verify the qualifications and licenses of the certified general appraisers used for appraising commercial properties or certified residential appraisers for residential properties. Real estate appraisals may utilize a combination of approaches including replacement cost, sales comparison and the income approach. Comparable sales and income data are analyzed by the appraisers and adjusted to reflect differences between them and the subject property such as type, leasing status and physical condition. When the appraisals are received, Management reviews the assumptions and methodology utilized in the appraisal, as well as the overall resulting value in conjunction with independent data sources such as recent market data and industry-wide statistics. We generally use a 6% discount for selling costs which is applied to all properties, regardless of size. Appraised values may be adjusted to reflect changes in market conditions that have occurred subsequent to the appraisal date, or for revised estimates regarding the timing or cost of the property sale. These adjustments are based on qualitative judgments made by management on a case-by-case basis. No fair value adjustments were made to OREO properties during the three months ended March 31, 2018.

There have been no significant changes in the valuation techniques during the period ended March 31, 2018.

NOTE 8 – EARNINGS PER SHARE

Earnings per share (“EPS”) are based upon the weighted average number of common shares outstanding during each year. The following table shows: (1) weighted average basic shares, (2) effect of dilutive securities related to stock options and non-vested restricted stock, and (3) weighted average shares of common stock and common stock equivalents. Net income available to common stockholders is calculated as net income reduced by dividends accumulated on preferred stock, if any. Basic EPS are calculated by dividing net income available to common stockholders by the weighted average number of common shares outstanding during each period, excluding unvested restricted stock awards. Diluted EPS are calculated using the weighted average diluted shares, which reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. The dilutive shares included in year-to-date diluted EPS is a weighted average of the dilutive shares included in each quarterly diluted EPS computation under the treasury stock method. We have two forms of outstanding common stock: common stock and unvested restricted stock awards. Holders of restricted stock awards receive non-forfeitable dividends at the same rate as common stockholders and they both share equally in undistributed earnings. Therefore, under the two class method the difference in EPS is not significant for these participating securities.

The Company’s calculation of basic and diluted earnings per share (“EPS”) for the three month periods ended March 31, 2018 and 2017 are reflected in the table below.

(In thousands)	THREE MONTHS ENDED MARCH 31, 2018 2017	
BASIC EARNINGS PER SHARE		
Net income	\$2,802	\$2,207
Weighted average shares outstanding	8,075	8,042
Net income per common share	\$0.35	\$0.27
DILUTED EARNINGS PER SHARE		
Net income	\$2,802	\$2,207
Weighted average shares outstanding	8,075	8,042
Effect of dilutive stock options	2	5
Effect of dilutive non-vested restricted shares	24	25
Weighted average shares of common stock and common stock equivalents	8,101	8,072
Net income per diluted common share	\$0.35	\$0.27

During the three month periods ended March 31, 2018 and 2017, there were no anti-dilutive options to purchase shares of common stock, and there were no anti-dilutive non-vested restricted stock grants during the same periods.

Table of Contents

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion explains the significant factors affecting our operations and financial position for the periods presented. The discussion should be read in conjunction with our financial statements and the notes related thereto which appear or that are referenced to elsewhere in this report, and with the audited consolidated financial statements and accompanying notes included in our 2017 Annual Report on Form 10-K. Average balances, including balances used in calculating certain financial ratios, are generally comprised of average daily balances.

The discussion and analysis of our financial condition and results of operations is based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets and liabilities, revenues and expenses, and related disclosures of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates under different assumptions or conditions. This discussion and analysis includes executive management’s (“Management”) insight of the Company’s financial condition and results of operations of Oak Valley Bancorp and its subsidiary. Unless otherwise stated, the “Company” refers to the consolidated entity, Oak Valley Bancorp, while the “Bank” refers to Oak Valley Community Bank.

Forward-Looking Statements

Some matters discussed in this Form 10-Q may be “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 and therefore may involve risks, uncertainties and other factors which may cause our actual results to be materially different from the results expressed or implied by our forward-looking statements. These statements generally appear with words such as “anticipate,” “believe,” “estimate,” “may,” “intend,” and “expect.” Although management believes that the assumptions and expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations will prove to be correct. Factors that could cause actual results to differ from results discussed in forward-looking statements include, but are not limited to: economic conditions (both generally and in the markets where the Company operates); competition from other providers of financial services offered by the Company; changes in government regulation and legislation; changes in interest rates; material unforeseen changes in the financial stability and liquidity of the Company’s credit customers; risks associated with concentrations in real estate related loans; changes in accounting standards and interpretations; and other risks as may be detailed from time to time in the Company’s filings with the Securities and Exchange Commission, all of which are difficult to predict and which may be beyond the control of the Company. The Company undertakes no obligation to revise forward-looking statements to reflect events or changes after the date of this discussion or to reflect the occurrence of unanticipated events.

Forward-looking statements speak only as of the date they are made, and the Company does not undertake to update forward-looking statements to reflect circumstances or events that occur after the date the forward-looking statements are made, whether as a result of new information, future developments or otherwise, except as may be required by law.

Critical Accounting Estimates

Management has determined the following five accounting policies to be critical:

Allowance for Loan Losses

Accounting for allowance for loan losses involves significant judgment and assumptions by management and is based on historical data and management's view of the current economic environment. At least on a quarterly basis, our management reviews the methodology and adequacy of allowance for loan losses and reports its assessment to the Board of Directors for its review and approval.

We base our allowance for loan losses on an estimation of probable losses inherent in our loan portfolio. Our methodology for assessing loan loss allowances are intended to reduce the differences between estimated and actual losses and involves a detailed analysis of our loan portfolio in three phases:

the specific review of individual loans,

the segmenting and review of loan pools with similar characteristics, and

our judgmental estimate based on various subjective factors.

Table of Contents

The first phase of our methodology involves the specific review of individual loans to identify and measure impairment. We evaluate each loan by use of a risk rating system, except for homogeneous loans, such as automobile loans and home mortgages. Specific risk rated loans are deemed impaired if all amounts, including principal and interest, will likely not be collected in accordance with the contractual terms of the related loan agreement. Impairment for commercial and real estate loans is measured either based on the present value of the loan's expected future cash flows or, if collection on the loan is collateral dependent, the estimated fair value of the collateral, less selling and holding costs.

The second phase involves the segmenting of the remainder of the risk rated loan portfolio into groups or pools of loans, together with loans with similar characteristics, for evaluation. We determine the calculated loss ratio to each loan pool based on its historical net losses and benchmark it against the levels of other peer banks.

In the third phase, we consider relevant internal and external factors that may affect the collectability of loan portfolio and each group of loan pool. The factors considered are, but are not limited to:

concentration of credits,

nature and volume of the loan portfolio,

delinquency trends,

non-accrual loan trend,

problem loan trend,

loss and recovery trend,

quality of loan review,

lending and management staff,

lending policies and procedures,

economic and business conditions, and

other external factors, including regulatory review.

Our management estimates the probable effect of such conditions based on our judgment, experience and known or anticipated trends. Such estimation may be reflected as an additional allowance to each group of loans, if necessary. Management reviews these conditions with our senior credit officers. To the extent that any of these conditions is evidenced by a specifically identifiable problem credit or portfolio segment as of the evaluation date, management's estimate of the effect of such condition may be reflected as a specific allowance applicable to such credit or portfolio segment. Where any of these conditions is not evidenced by a specific, identifiable problem credit or portfolio segment as of the evaluation date, management's evaluation of the inherent loss related to such condition is reflected in the unallocated allowance.

Central to our credit risk management and our assessment of appropriate loss allowance is our loan risk rating system. Under this system, the originating credit officer assigns borrowers an initial risk rating based on a thorough analysis of each borrower's financial capacity in conjunction with industry and economic trends. Approvals are made based upon the amount of inherent credit risk specific to the transaction and are reviewed for appropriateness by senior line and credit administration personnel. Credits are monitored by line and credit administration personnel for deterioration in a borrower's financial condition which may impact the ability of the borrower to perform under the contract. Although management has allocated a portion of the allowance to specific loans, specific loan pools, and off-balance sheet credit exposures (which are reported separately as part of other liabilities), the adequacy of the allowance is considered in its entirety.

Non-Accrual Loan Policy

Interest on loans is credited to income as earned and is accrued only if deemed collectible. Accrual of interest is discontinued when a loan is over 90 days delinquent or if management believes that collection is highly uncertain. Generally, payments received on non-accrual loans are recorded as principal reductions. Interest income is recognized after all principal has been repaid or an improvement in the condition of the loan has occurred that would warrant resumption of interest accruals. Loans are considered past due if the required principal and interest payments have not been received as of the date such payments were due.

Table of Contents

Asset Impairment Judgments

Certain of our assets are carried in our consolidated balance sheets at fair value or at the lower of cost or fair value. Valuation allowances are established when necessary to recognize impairment of such assets. We periodically perform analyses to test for impairment of various assets. In addition to our impairment analyses related to loans, another significant impairment analysis relates to other than temporary declines in the value of our securities.

Loans for which it is probable that payment of interest and principal will not be made in accordance with the contractual terms of the loan agreement are considered impaired and are carried at fair value or below. Appraisals are done periodically on impaired loans and if required an allowance is established based on the fair value of collateral less the cost related to liquidation of the collateral. In some circumstances, an impaired loan may be charged off to bring the carrying value to fair value.

Other real estate assets (“OREO”) acquired through, or in lieu of, foreclosure are held-for-sale and are initially recorded at fair value, less selling costs. Any write-downs to fair value at the time of transfer to OREO are charged to the allowance for loan losses, subsequent to foreclosure. Appraisals or evaluations are then done periodically and any subsequent declines in the fair value of the OREO property after the date of transfer are recorded through a write-down of the asset. Any subsequent operating expenses or income, reduction in estimated fair values, and gains or losses on disposition of such properties are charged or credited to current operations.

Net realizable value of the underlying collateral is the fair value of the collateral less estimated selling costs and any prior liens. Appraisals, recent comparable sales, offers and listing prices are factored in when valuing the collateral. We review and verify the qualifications and licenses of the certified general appraisers used for appraising commercial properties or certified residential appraisers for residential properties. Real estate appraisals may utilize a combination of approaches including replacement cost, sales comparison and the income approach. Comparable sales and income data are analyzed by the appraisers and adjusted to reflect differences between them and the subject property such as type, leasing status and physical condition. When the appraisals are received, Management reviews the assumptions and methodology utilized in the appraisal, as well as the overall resulting value in conjunction with independent data sources such as recent market data and industry-wide statistics. We generally use a 6% discount for selling costs which is applied to all properties, regardless of size. Appraised values may be adjusted to reflect changes in market conditions that have occurred subsequent to the appraisal date, or for revised estimates regarding the timing or cost of the property sale. These adjustments are based on qualitative judgments made by management on a case-by-case basis.

Our available for sale portfolio is carried at estimated fair value, with any unrealized gains and losses, net of taxes, reported as accumulated other comprehensive income in shareholders’ equity. We conduct a periodic review and evaluation of the securities portfolio to determine if the value of any security has declined below its carrying value and whether such decline is other than temporary. If such decline is deemed other than temporary, we would adjust the

carrying amount of the security by writing down the security to fair market value through a charge to current period income. The market values of our securities are significantly affected by changes in interest rates.

In general, as interest rates rise, the market value of fixed-rate securities will decrease; as interest rates fall, the market value of fixed-rate securities will increase. With significant changes in interest rates, we evaluate our intent and ability to hold the security for a sufficient time to recover the recorded principal balance. Estimated fair values for securities are based on published or securities dealers' market values. Market volatility is unpredictable and may impact such values.

Fair Value Measurements

We use fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. We base our fair values on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Securities available for sale, derivatives, and loans held for sale, if any, are recorded at fair value on a recurring basis. Additionally, from time to time, we may be required to record certain assets at fair value on a non-recurring basis, such as certain impaired loans held for investment and securities held to maturity that are other-than-temporarily impaired. These non-recurring fair value adjustments typically involve write-downs of individual assets due to application of lower-of-cost or market accounting.

We have established and documented a process for determining fair value. We maximize the use of observable inputs and minimize the use of unobservable inputs when developing fair value measurements. Whenever there is no readily available market data, management uses its best estimate and assumptions in determining fair value, but these estimates involve inherent uncertainties and the application of management's judgment. As a result, if other assumptions had been used, our recorded earnings or disclosures could have been materially different from those reflected in these financial statements.

Income Taxes

Deferred income taxes are provided for the temporary differences between the financial reporting basis and the tax basis of the Company's assets and liabilities. Deferred tax assets and liabilities are reflected at currently enacted income tax rates applicable to the period in which the deferred tax assets or liabilities are expected to be realized or settled using the liability method. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

Table of Contents

The Company files income tax returns in the U.S. federal jurisdiction, and the state of California. With few exceptions, the Company is no longer subject to U.S. federal or state/local income tax examinations by tax authorities for years before 2012.

Introduction

Effective July 3, 2008, Oak Valley Community Bank became a subsidiary of Oak Valley Bancorp, a newly established bank holding company. Oak Valley Bancorp operates Oak Valley Community Bank as a community bank in the general commercial banking business, with our primary market encompassing the California Central Valley around Oakdale and Modesto, and the Eastern Sierras. As such, unless otherwise noted, all references are about Oak Valley Bancorp.

Oak Valley Community Bank commenced operations in May 1991. We are an insured bank under the Federal Deposit Insurance Act and are a member of the Federal Reserve. Since its formation, the Bank has provided basic banking services to individuals and business enterprises in Oakdale, California and the surrounding areas. The focus of the Bank is to offer a range of commercial banking services designed for both individuals and small to medium-sized businesses in the two main areas of service of the Company: the Central Valley and the Eastern Sierras.

The Bank offers a complement of business checking and savings accounts for its business customers. The Bank also offers commercial and real estate loans, as well as lines of credit. Real estate loans are generally of a short-term nature for both residential and commercial purposes. Longer-term real estate loans are generally made with adjustable interest rates and contain normal provisions for acceleration. In addition, the Bank offers traditional residential mortgages through a third party.

The Bank also offers other services for both individuals and businesses including online banking, remote deposit capture, merchant services, night depository, extended hours, traveler's checks, wire transfer of funds, note collection, and automated teller machines in a national network. The Bank does not currently offer international banking or trust services although the Bank may make such services available to the Bank's customers through financial institutions with which the Bank has correspondent banking relationships. The Bank does not offer stock transfer services nor does it directly issue credit cards.

Overview of Results of Operations and Financial Condition

The purpose of this summary is to provide an overview of the items management focuses on when evaluating the condition of the Company and its success in implementing its business and shareholder value strategies. The Company's business strategy is to operate the Bank as a well-capitalized, profitable and independent community-oriented bank. The Company's shareholder value strategy has three major objectives: (1) enhancing shareholder value; (2) making its retail banking franchise more valuable; and (3) efficiently utilizing its capital.

Management believes the following were important factors in the Company's performance during the three month period ended March 31, 2018:

The Company recognized net income of \$2,802,000 for the three month period ended March 31, 2018, as compared to \$2,207,000 for the same period in 2017. The factors contributing to these results will be discussed below.

The Company recognized no loan loss provisions during the three month periods ended March 31, 2018 and 2017, due to normal seasonal declines in loan demand.

Net interest income increased \$1,035,000 or 12.8% for the three month period ended March 31, 2018, compared to the same period in 2017. The increase was primarily due growth of our loan and investment security portfolios.

Non-interest income decreased by \$139,000 or 9.4% for the three months ended March 31, 2018, as compared to the same period in 2017, primarily due to a decrease in gains on called securities.

Non-interest expense increased by \$525,000 or 8.5% for the three month period ended March 31, 2018, as compared to the same period in 2017. The increase was mainly due to increased salaries and benefits, and other general operating expenses required to support the loan and deposit growth.

Total assets increased \$17,961,000 or 1.7% from December 31, 2017. Total net loans decreased by \$14,087,000 or 2.2% and investment securities increased by \$18,931,000 or 10.4% from December 31, 2017 to March 31, 2017, while deposits increased by \$16,459,000 or 1.8% for the same period. Consequently, cash and cash equivalent balances increased due to the decline in gross loans, and the growth in deposits and shareholders' equity, which was offset by the growth in investment securities.

Table of Contents**Income Summary**

For the three month period ended March 31, 2018, the Company recorded net income of \$2,802,000, representing an increase of \$595,000, as compared to \$2,207,000 recorded during the same period in 2017. Return on average assets (annualized) was 1.08% for the three months ended March 31, 2018, as compared to 0.91% for the same period in 2017. Annualized return on average common equity was 12.47% for the three months ended March 31, 2018, as compared to 10.73% for the same period of 2017.

Net income before provisions for income taxes increased \$371,000 for the three month period ended March 31, 2018, from the comparable 2017 period. The income statement components of these variances are as follows:

Pre-Tax Income Variance Summary:

<i>(In thousands)</i>	Effect on Pre-Tax Income Increase (Decrease) Three Months Ended March 31, 2018
Change from 2017 to 2018 in:	
Net interest income	\$ 1,035
Provision for loan losses	0
Non-interest income	(139)
Non-interest expense	(525)
Change in net income before income taxes	\$ 371

These variances will be explained in the discussion below.

Net Interest Income

Net interest income is the largest source of the Company's operating income. For the three month period ended March 31, 2018, net interest income was \$9,117,000, which represented an increase of \$1,035,000 or 12.8%, from the comparable period in 2017. The increase is primarily due to loan and investment portfolio growth.

The net interest margin (net interest income as a percentage of average interest earning assets) was 3.80% for the three month period ended March 31, 2018, compared to 3.69% for the same period in 2017. The increase in net interest margin is primarily due to an increase in the average loan balance and yield on earning assets. In general, the Company has experienced net interest margin compression since the economic downturn in 2008 for several reasons: 1) deposit interest rates have essentially reached a threshold in which they cannot reasonably be further reduced, 2) competition in the lending market has driven new loan rates down and 3) deposit growth in recent years has resulted in high interest-bearing cash balances, which currently yield approximately 1.50%, has compressed our net interest margin.

Earning asset yield increased by 13 basis points for the three month period ended March 31, 2018, as compared to the same period of 2017, mainly due to an increase in loan volume, loan yield, and the yield on cash balances that have been recognized due to the recent FOMC rate hikes. Furthermore, the earning asset yield is trending upward as a result of deploying low yielding cash equivalent balances into the loan and investment portfolios which recognized average balance increases of \$43 million and \$25 million, respectively, in the three month period of 2018 as compared to 2017.

The cost of funds on interest-bearing liabilities increased by 3 basis points for the three month period of 2018, as compared to the same period in 2017, as deposit rates remain low and the banking industry has not reacted to the recent FOMC interest rate hikes thus far. The Company continues to recognize strong core deposit growth as evidenced by the increase in average non-interest-bearing demand deposit balances of \$24 million, for the three month period ended March 31, 2018, as compared to the same period of 2017.

Table of Contents

The following tables shows the relative impact of changes in average balances of interest earning assets and interest bearing liabilities, and interest rates earned and paid by the Company on those assets and liabilities for the three month periods ended March 31, 2018 and 2017:

Net interest spread (3)			3.74 %			3.64 %
Net interest margin (4)			3.80 %			3.69 %

(1) Loan fees have been included in the calculation of interest income.

(2) Yields and interest income on municipal securities and loans have been adjusted to their fully-taxable equivalents, based on a federal marginal tax rate of 21.0%.

(3) Represents the average rate earned on interest-earning assets less the average rate paid on interest-bearing liabilities.

(4) Represents net interest income as a percentage of average interest-earning assets.

(5) Annual interest rates are computed by dividing the interest income/expense by the number of days in the period multiplied by 365.

Table of Contents

Shown in the following tables are the relative impacts on net interest income of changes in the average outstanding balances (volume) of earning assets and interest bearing liabilities and the rates earned and paid by the Company on those assets and liabilities for the three month periods ended March 31, 2018 and 2017. Changes in interest income and expense that are not attributable specifically to either rate or volume are allocated to the rate column below.

Inherent in the nature of acquiring troubled banks, only certain of our acquired clients conform to our long-term business model of in-market, relationship-oriented banking. During the six months ended June 30, 2012, we developed a management tool whereby we have designated loans as strategic that include loans inside our operating markets and meet our credit risk profile. Criteria utilized in the designation of a loan as strategic include (a) geography, (b) total relationship with borrower and (c) credit metrics commensurate with our current underwriting standards. At June 30, 2012, strategic loans totaled \$1.0 billion and had very good credit quality as represented by a 90 days or more past due ratio of 0.2%. We believe this secondary presentation of our loan portfolio provides a meaningful basis to understand the underlying drivers of changes in our loan portfolio balances.

Strategic loans comprised 52.8% of the total loan portfolio at June 30, 2012, compared to 47.7% at December 31, 2011. The table below shows the loan portfolio composition categorized between strategic and non-strategic at the respective dates (dollars in thousands):

	June 30, 2012			December 31, 2011		
	Strategic	Non-Strategic	Total	Strategic	Non-Strategic	Total
Commercial	\$ 146,082	\$ 137,682	\$ 283,764	\$ 191,512	\$ 181,419	\$ 372,931
Commercial real estate	289,227	676,689	965,916	291,051	861,427	1,152,478
Agriculture	129,827	17,216	147,043	131,823	19,580	151,403
Residential real estate	433,670	91,869	525,539	415,730	107,155	522,885
Consumer	47,939	13,873	61,812	55,334	19,020	74,354
Total	\$ 1,046,745	\$ 937,329	\$ 1,984,074	\$ 1,085,450	\$ 1,188,601	\$ 2,274,051

Strategic loans decreased \$38.7 million at June 30, 2012 compared to December 31, 2011. The Commercial category decreased \$45.4 million due to paydowns of existing loans outpacing new originations/fundings during the period. Residential real estate loans increased \$17.9 million driven by strong origination primarily due to low interest rates and high refinance activity.

Commercial loans consist of loans made to finance business operations and secured by inventory or other business-related collateral such as accounts receivable or equipment. Commercial real estate loans include loans on 1-4 family construction properties, commercial properties such as office buildings, shopping centers, or free standing commercial properties, multi-family properties and raw land development loans. Agriculture loans include loans on farm equipment and farmland loans. Residential real estate loans include 1-4 family closed and open end loans, in both senior and junior collateral positions (both owner occupied and non-owner occupied). Consumer loans include both secured and unsecured loans to retail clients and overdrafts.

Table of Contents

Our loan origination strategy involves lending primarily to clients within our markets; however, our acquired loans are to clients in various geographies. The table below shows the geographic breakout of our loan portfolio at June 30, 2012, based on the domicile of the borrower or, in the case of collateral-dependent loans, the geographic location of the collateral (in thousands):

	Loan balances	Percent of loan portfolio
Colorado	\$ 770,220	38.8%
Missouri	416,291	21.0%
Texas	173,523	8.7%
Kansas	111,548	5.6%
California	77,553	3.9%
Florida	73,431	3.7%
Other	361,508	18.3%
Total	\$ 1,984,074	100.0%

The decline in total loans from \$2.3 billion at December 31, 2011 to \$2.0 billion at June 30, 2012 was primarily driven by decreases in our acquired loan portfolios as the problem credits in those portfolios migrated to resolution, as well as the repayment of many loans that do not conform to our business model of in-market, relationship-oriented loans with credit metrics commensurate with our current underwriting standards. We have an enterprise-level, dedicated special asset resolution team that is working to resolve problem loans in an expeditious manner and our resolution of the troubled assets acquired with our acquisitions of three failed banks continues to outpace our originations. Acquired loans were marked to fair value at the time of acquisition and, as a result, we have been able to resolve these assets without significant losses.

New loan origination is a direct result of our ability to recruit and retain top banking talent. New loan originations continued to increase as our Midwest markets stabilized during the period. We expect that our Colorado markets will continue to contribute to loan growth as bankers are further deployed and our presence in those markets increases. The widespread economic uncertainty has limited organic loan growth and we anticipate this will continue to be a challenge in the near future. The following table represents new loan originations for the last six quarters (in thousands):

	Commercial and Agriculture		Commercial real estate	Consumer	Residential	Total
First quarter 2011	\$ 3,101	\$ 1,128	\$ 5,194	\$ 1,223	\$ 14,170	\$ 24,816
Second quarter 2011	2,476	1,390	2,081	2,207	16,707	24,861
Third quarter 2011	651	14,226	818	2,772	16,908	35,375
Fourth quarter 2011	1,575	9,955	4,062	3,083	35,745	54,420
First quarter 2012	7,570	20,102	18,546	3,155	33,016	82,389
Second quarter 2012	22,444	10,799	6,816	4,057	40,123	84,239
Total	\$ 37,817	\$ 57,600	\$ 37,517	\$ 16,497	\$ 156,669	\$ 306,100

Covered loans

The Company has two loss sharing agreements with the FDIC for the assets related to the Hillcrest Bank acquisition and a separate loss sharing agreement that covers certain assets related to the Community Banks of Colorado acquisition, whereby the FDIC will reimburse us for a portion of the losses incurred as a result of the resolution and disposition of the covered assets of these banks.

The Hillcrest Bank loss sharing agreements with the FDIC cover substantially all of the loans acquired in the Hillcrest Bank transaction, including single family residential mortgage loans, commercial real estate,

Table of Contents

commercial and industrial loans, unfunded commitments, and OREO. For purposes of the Hillcrest Bank loss sharing agreements, the anticipated losses on the covered assets are grouped into two categories, commercial assets and single family assets, and each category has its own specific loss sharing agreement. The term for loss sharing on single family residential real estate loans is ten years, and the Company will share in losses and recoveries with the FDIC for the entire term. The term for the loss sharing agreement on commercial loans is eight years. Under the commercial loss sharing agreement, the Company will share in losses and recoveries with the FDIC for the first five years. After the first five years, the FDIC will not share in losses but only in recoveries for the remaining term of the agreement. The loss sharing agreements cover losses on loans (and any acquired or resultant OREO) in the respective categories and have provisions through which we are required to be reimbursed for up to 90 days of accrued interest and direct expenses related to the resolution of these assets. Within the categories, there are three tranches of losses, each with a specified loss-coverage percentage. The categories, and the respective loss thresholds and coverage amounts are as follows (in thousands):

Commercial			Single family		
Tranche	Loss Threshold	Loss-Coverage Percentage	Tranche	Loss Threshold	Loss-Coverage Percentage
1	Up to \$295,592	60%	1	Up to \$4,618	60%
2	\$295,593-405,293	0%	2	\$4,618-8,191	30%
3	>\$405,293	80%	3	>\$8,191	80%

With the purchase and assumption agreement of Community Banks of Colorado with the FDIC, we entered into a loss sharing agreement with the FDIC whereby the FDIC will reimburse us for a portion of the losses incurred as a result of the resolution and disposition of certain covered assets of Community Banks of Colorado. Covered assets include certain single family residential mortgage loans, commercial real estate loans, commercial and industrial loans, agriculture loans, consumer loans, unfunded commitments, and OREO. As of the date of acquisition, covered loans of Community Banks of Colorado totaled approximately 61.8% of the total outstanding loan principal balances of Community Banks of Colorado. For purposes of the Community Banks of Colorado loss sharing agreement, the anticipated losses on the covered assets are grouped into one category, commercial assets, and are subject to one loss share agreement lasting eight years. Under the agreement, the Company will share in losses and recoveries with the FDIC for the first five years and thereafter, the FDIC will not share in losses but only in recoveries for the remaining term of the agreement. The loss sharing agreement covers losses on covered loans (and any acquired or resultant OREO) and has provisions under which we will be reimbursed for up to 90 days of accrued interest and direct expenses related to the resolution of these assets. There are three tranches of losses, each with a specified loss-coverage percentage. The respective loss thresholds and coverage amounts are as follows (in thousands):

Tranche	Loss Threshold	Loss-Coverage Percentage
1	Up to \$204,194	80%
2	\$204,195-308,020	30%
3	>\$308,020	80%

Under the Hillcrest Bank and Community Banks of Colorado loss sharing agreements, the reimbursable losses from the FDIC are based on the book value of the related covered assets as determined by the FDIC at the date of acquisition, and the FDIC's book value does not necessarily correlate with our book value of the same assets. This difference is primarily because we recorded the loans at fair value at the date of acquisition in accordance with applicable accounting guidance.

As of June 30, 2012 and December 31, 2011, respectively, we had incurred \$184.9 million and \$159.5 million of losses on our Hillcrest Bank covered assets since the beginning of the loss sharing agreement as measured by the FDIC's book value, substantially all of which was related to the commercial assets. Additionally, as of June 30, 2012 and December 31, 2011, respectively, we had incurred approximately \$109.2 million and \$43.1 million of losses related to our Community Banks of Colorado loss sharing agreement. The fair

Table of Contents

value adjustments assigned to the related covered loans at the time of acquisition encompassed anticipated losses such as these, and as a result, our financial statement losses are mitigated and do not correspond to the losses reported for loss sharing purposes. Subsequent to June 30, 2012, we submitted a request for \$1.8 million of loss sharing reimbursements from the FDIC for \$3.0 million of losses related to Hillcrest Bank and an additional request for \$33.2 million of reimbursement related to \$41.5 million in losses for Community Banks of Colorado, all incurred (as measured by the FDIC's book value) during the three months ended June 30, 2012.

The status of covered assets and any incurred losses require extensive recordkeeping and documentation and are submitted to the FDIC on a monthly and quarterly basis. The loss claims filed are subject to review and approval, including extensive audits, by the FDIC or its assigned agents for compliance with the terms in our loss sharing agreements.

Our loss sharing agreements cover losses for finite terms—ten years for the assets covered by the single family loss sharing agreement and five years for all assets covered by the commercial loss sharing agreements. We have focused on resolving the covered loans in an expeditious manner in an effort to utilize the benefits offered by the loss sharing agreements, and often times, loans pay down prior to the scheduled maturity date.

The table below shows the contractual maturities of our covered loans for the dates indicated (in thousands):

	June 30, 2012			Total
	Due within 1 year	Due after 1 but within 5 years	Due after 5 years

Accretable Yield

The fair value adjustments assigned to loans that are accounted for under ASC Topic 310-30 are comprised of both accretable yield and a non-accretable difference that are based on expected cash flows from the loans. Accretable yield is the excess of a pool's cash flows expected to be collected over the recorded balance of the related pool of loans. The non-accretable difference represents the expected shortfall in future cash flows from the contractual amount due in respect of each pool of such loans. Similar to the entire fair value adjustment for loans outside the scope of ASC Topic 310-30, the accretable yield is accreted into income over the estimated remaining life of the loans in the applicable pool.

Below is the composition of the net book value for loans accounted for under ASC Topic 310-30 at June 30, 2012 and December 31, 2011 and 2010 (in thousands):

	June 30, 2012	December 31, 2011	December 31, 2010
Contractual cash flows	\$ 1,722,993	\$ 2,030,374	\$ 957,975
Nonaccretable difference	(504,479)	(536,171)	(246,682)
Accretable yield	(158,082)	(186,494)	(74,329)
Total loans accounted for under ASC Topic 310-30	\$ 1,060,432	\$ 1,307,709	\$ 636,964

Loan pools accounted for under ASC Topic 310-30 are periodically remeasured to determine expected future cash flows. In determining the expected cash flows, prepayment assumptions on smaller homogeneous loans are based on statistical models that take into account factors such as the loan interest rate, credit profile of the borrowers, the years in which the loans were originated, and whether the loans were fixed or variable rate loans. Prepayments may be assumed on large loans if circumstances specific to that loan warrant a prepayment assumption. No prepayments are presumed for small homogeneous commercial loans; however, prepayment assumptions are made that consider similar prepayment factors listed above for smaller homogeneous loans. Decreases to the expected future cash flows in the applicable pool generally result in an immediate provision for loan losses charged to the consolidated statements of operations. Conversely, increases in the expected future cash flows in the applicable pool result in a transfer from the non-accretable difference to the accretable yield, and have a positive impact on accretion income prospectively. This re-measurement process resulted in the following changes to the accretable yield during the six months ended June 30, 2012 (in thousands):

Balance at December 31, 2011	\$ 186,494
Reclassification from non-accretable difference	29,483
Reclassification to non-accretable difference	(5,651)
Accretion income	(52,244)
Balance at June 30, 2012	\$ 158,082

Table of Contents

The re-measurement of loans accounted for under ASC Topic 310-30 resulted in the following changes in the accretable yield during the year ended December 31, 2011 (in thousands):

Balance at December 31, 2010	\$ 74,329
Additions through acquisitions	130,321
Reclassification from non-accretable difference	45,871
Reclassification to non-accretable difference	(409)
Accretion income	(63,618)
 Balance at December 31, 2011	 \$ 186,494

Six months ended June 30, 2012

During the six months ended June 30, 2012, we re-measured the expected cash flows of all 30 of the loan pools accounted for under ASC Topic 310-30 utilizing the same cash flow methodology used at the time of acquisition. This resulted in an increase in expected cash flows in certain loan pools for the three months ended March 31, 2012 and an increase in expected cash flows in certain loan pools for the three months ended June 30, 2012. These increases in expected cash flows are reflected as an increase in the accretion rates as well as an increased amount of accretable yield that will be recognized over the expected remaining lives of the underlying loan pools. During the six months ended June 30, 2012, we reclassified \$23.8 million, net, from non-accretable difference to accretable yield. The re-measurements also resulted in a \$13.7 million impairment during the six months ended June 30, 2012, primarily driven by our commercial and industrial, commercial real estate and land pools. One land pool contributed \$4.9 million, or 35.8%, of the total impairment for the six months ended June 30, 2012. These impairments are reflected in provision for loan loss in the consolidated statement of operations.

Years ended December 31, 2011 and 2010

During 2011, we re-measured the expected cash flows in 14 of the 30 (16 of the 30 were created in the fourth quarter of 2011 with the Community Banks of Colorado acquisition) loan pools accounted for under ASC Topic 310-30 utilizing the same cash flow methodology used at the time of acquisition. This resulted in an increase in expected cash flows in certain loan pools for the year ended December 31, 2011. These increases in expected cash flows are reflected as an increase in the accretion rates as well as an increased amount of accretable yield that will be recognized over the expected lives of the underlying loan pools. During the year ended December 31, 2011, we reclassified \$45.5 million, net of non-accretable difference to accretable yield. The re-measurement also resulted in \$4.2 million impairment in 2011 of a commercial and industrial loan pool from the Hillcrest Bank acquisition, a \$0.1 million impairment of an agricultural loan pool and a \$0.7 million impairment in a single family residential loan pool, both of which were from the Bank of Choice acquisition. These impairments are reflected in provision for loan loss in the consolidated statement of operations. We did not re-measure cash flows in 2010.

In addition to the accretable yield on loans accounted for under ASC Topic 310-30, the fair value adjustments on loans outside the scope of 310-30 are also accreted to interest income over the life of the loans. At June 30, 2012, our total remaining accretable yield and fair value mark was as follows (in thousands):

Remaining accretable yield on loans accounted for under ASC Topic 310-30	\$ 158,082
Remaining accretable fair value mark on loans not accounted for under ASC Topic 310-30	28,259
 Total remaining accretable yield and fair value mark at June 30, 2012	 \$ 186,341

Table of Contents

At December 31, 2011, our total remaining accretable yield and fair value mark was as follows (in thousands):

Remaining accretable yield on loans accounted for under ASC Topic 310-30	\$ 186,494
Remaining accretable fair value mark on loans not accounted for under ASC Topic 310-30	42,150
Total remaining accretable yield and fair value mark at December 31, 2011	\$ 228,644

Asset Quality

All of the assets acquired in our acquisitions were marked to fair value at the date of acquisition, and the adjustments on loans included a credit quality component. We utilize traditional credit quality metrics to evaluate the overall credit quality of our loan portfolio; however our credit quality ratios are limited in their comparability to industry averages or to other financial institutions because:

1. Any asset quality deterioration that existed at the date of acquisition was considered in the original fair value adjustments; and

2. 45.4% of our non-performing assets (by dollar amount) at June 30, 2012 are covered by loss sharing agreements with the FDIC. Asset quality, particularly on non-covered loans, is fundamental to our success. Accordingly, for the origination of loans, we have established a credit policy that allows for responsive, yet controlled lending with credit approval requirements that are scaled to loan size. Within the scope of the credit policy, each prospective loan is reviewed in order to determine the appropriateness and the adequacy of the loan characteristics and the security or collateral prior to making a loan. We have established underwriting standards and loan origination procedures that require appropriate documentation, including financial data and credit reports. For loans secured by real property, we require property appraisals, title insurance or a title opinion, hazard insurance and flood insurance, in each case where appropriate.

Additionally, we have implemented procedures to timely identify loans that may become problematic in order to ensure the most beneficial resolution to the Company. Asset quality is monitored by our credit risk management department and evaluated based on quantitative and subjective factors such as the timeliness of contractual payments received. Additional factors that are considered, particularly with commercial loans over \$250,000, include the financial condition and liquidity of individual borrowers and guarantors, if any, and the value of our collateral. To facilitate the oversight of asset quality, loans are categorized based on the number of days past due and on an internal risk rating system, and both are discussed in more detail below.

Our internal risk rating system uses a series of grades which reflect our assessment of the credit quality of covered and non-covered loans based on an analysis of the borrower's financial condition, liquidity and ability to meet contractual debt service requirements. Loans that are perceived to have acceptable risk are categorized as pass loans. Special mention loans represent loans that have potential credit weaknesses that deserve close attention. Special mention loans include borrowers that have potential weaknesses or unwarranted risks that, unless corrected, may threaten the borrower's ability to meet debt service requirements. However, these borrowers are still believed to have the ability to respond to and resolve the financial issues that threaten their financial situation. Loans classified as substandard have a well-defined credit weakness and are inadequately protected by the current paying capacity of the obligor or of the collateral pledged, if any. Although these loans are identified as potential problem loans, they may never become non-performing. Substandard loans have a distinct possibility of loss if the deficiencies are not corrected. Doubtful loans are loans that management believes that collection of payments in accordance with the terms of the loan agreement are highly questionable and improbable. Doubtful loans that are not covered by loss sharing agreements are deemed impaired and put on non-accrual status.

Table of Contents

In the event of borrower default, we may seek recovery in compliance with state lending laws, the respective loan agreements, and credit monitoring and remediation procedures that may include modifying or restructuring a loan from its original terms, for economic or legal reasons, to provide a concession to the borrower from their original terms due to borrower financial difficulties in order to facilitate repayment. Such restructured loans are considered troubled debt restructurings in accordance with ASC Topic 310-40 *Troubled Debt Restructurings by Creditors*. Under this guidance, modifications to loans that fall within the scope of ASC Topic 310-30 are not considered troubled debt restructurings, regardless of otherwise meeting the definition of a troubled debt restructuring. Assets that have been foreclosed on or acquired through deed-in-lieu of foreclosure are classified as OREO until sold, and are carried at the lower of the related loan balance or the fair value of the collateral less estimated costs to sell, with any initial valuation adjustments charged to the ALL and any subsequent declines in carrying value charged to impairments on OREO.

Non-performing Assets

Non-performing assets consist of covered and non-covered non-accrual loans, accruing loans 90 days or more past due, troubled debt restructurings, OREO (56.3% of which was covered by FDIC loss sharing agreements at June 30, 2012) and other repossessed assets. However, loans and troubled debt restructurings accounted for under ASC Topic 310-30, as described below, are excluded from our non-performing assets. Our non-performing assets include \$7.8 million and \$14.8 million of covered loans not accounted for under ASC Topic 310-30 and \$77.5 million and \$77.1 million of covered OREO at June 30, 2012 and December 31, 2011, respectively. In addition to being covered by loss sharing agreements, these assets were marked to fair value at the time of acquisition, mitigating much of our loss potential on these non-performing assets. As a result, the levels of our non-performing assets are not fully comparable to those of our peers or to industry benchmarks.

As of June 30, 2012 and December 31, 2011, 63.3% and 63.3%, respectively, of loans accounted for under ASC Topic 310-30 were covered by the FDIC loss sharing agreements. Loans accounted for under ASC Topic 310-30 were recorded at fair value based on cash flow projections that considered the deteriorated credit quality and expected losses. These loans are accounted for on a pool basis and any non-payment of contractual principal or interest is considered in our periodic re-estimation of the expected future cash flows. To the extent that we decrease our cash flow projections, we record an immediate impairment expense through the provision for loan losses. We recognize any increases to our cash flow projections on a prospective basis through an increase to the pool's yield over its remaining life once any previously recorded impairment expense has been recouped. As a result of this accounting treatment, these pools may be considered to be performing, even though some or all of the individual loans within the pools may be contractually past due. Loans accounted for under ASC Topic 310-30 were classified as performing assets at June 30, 2012 and December 31, 2011, as the carrying value of the respective loan or pool of loans cash flows were considered estimatable and probable of collection. Therefore, interest income, through accretion of the difference between the carrying value of the loans in the pool and the pool's expected future cash flows, is being recognized on all acquired loans accounted for under ASC Topic 310-30.

Table of Contents

The following table sets forth the non-performing assets as of the dates presented (in thousands):

	June 30, 2012			December 31, 2011		
	Non-Covered	Covered	Total	Non-Covered	Covered	Total

(1) Includes restructured loans less than 90 days past due and still accruing.

Our OREO of \$137.7 million at June 30, 2012 includes \$17.8 million of participant interests in OREO, in connection with our repossession of collateral on loans for which we were the lead bank and we have a controlling interest. We have recorded a corresponding payable to those participant banks in other liabilities. The \$137.7 million of OREO at June 30, 2012 excludes \$12.2 million of minority interest in participated OREO in connection with the repossession of collateral on loans for which we were not the lead bank and we do not have a controlling interest. These properties have been repossessed by the lead banks and we have recorded our receivable due from the lead banks in other assets as minority interest in participated OREO.

Six months ended June 30, 2012

Total non-performing assets increased \$16.0 million at June 30, 2012 compared to December 31, 2011. The increase was primarily a result of an increase in OREO offset, in part, by \$0.9 million decrease in non-performing loans. At June 30, 2012, the largest category of non-accrual loans was commercial real estate loans with balances of \$13.9 million, consisting of \$12.6 million of non-covered and \$1.3 million of covered loans.

Table of Contents

At June 30, 2012, the largest category of non-performing loans was commercial real estate loans with balances of \$13.9 million, consisting of \$12.6 million of non-covered loans and \$1.3 million of covered loans. The non-performing non-covered commercial real estate loans include seven loans on non-accrual status totaling \$11.7 million, primarily due to vacancies of commercial properties. We also had four commercial real estate loans on non-accrual status totaling \$1.3 million. Non-performing commercial loans consisted primarily of 10 covered loans totaling \$2.4 million and nine non-covered loans totaling \$0.8 million. Additionally, our residential real estate category had 43 non-covered loans totaling \$2.1 million and one non-covered loan totaling \$0.4 million.

The non-performing loans to total loans ratio at June 30, 2012 increased compared to December 31, 2011 primarily due to the decrease in total loans being greater than the decrease in total non performing loans.

During the six months ended June 30, 2012, \$56.1 million of OREO was foreclosed on or otherwise repossessed and \$31.8 million of OREO was sold, including \$1.9 million of gains reimbursable to the FDIC and \$2.2 million of non-covered gains. OREO write-downs of \$7.2 million were recorded, of which \$6.0 million, or 83.7%, were covered by FDIC loss sharing agreements. The net increase to OREO balances was \$17.1 million. Covered OREO represented 56.3% and 63.9% at June 30, 2012 and December 31, 2011, respectively.

The non-performing assets to total assets ratio increased primarily due to the net increase in OREO coupled with a decrease in total assets.

The following table sets forth the non-performing assets as of the dates presented (in thousands):

	December 31, 2011			December 31, 2010		
	Non-covered	Covered	Total	Non-covered	Covered	Total
Non-accrual loans:

- (1) Includes restructured loans less than 90 days past due and still accruing.

Table of Contents

Years ended December 31, 2011 and 2010

At December 31, 2011, the largest category of non-performing loans was commercial real estate loans with balances of \$30.0 million, consisting of \$22.0 million of non-covered and \$8.0 million of covered loans. The non-performing non-covered commercial real estate loans include four non-covered loans totaling \$18.5 million that were on non-accrual status, largely due to vacancies in commercial properties. These loans were secured by commercial real estate located both in and outside of our markets. We also had three covered commercial real estate loans totaling \$7.9 million that were on non-accrual status at December 31, 2011. Additionally, non-performing commercial loans totaled \$5.5 million, consisting of \$0.8 million of non-covered loans and \$4.6 million covered loans. Non-performing commercial loans largely consisted of four covered loans totaling \$4.5 million and one \$0.5 million non-covered loan. Non-performing residential real estate loans totaled \$2.6 million, consisting of \$2.2 million of non-covered loans and \$0.5 million of covered loans. Non-performing residential real estate loans included six non-covered loans totaling \$0.7 million and one covered loan amounting to \$0.5 million, with the remaining consisting of balances under \$0.1 million.

During 2011, \$52.3 million of OREO was foreclosed on or otherwise repossessed, \$34.3 million and \$29.8 million of OREO was acquired with Bank of Choice and Community Banks of Colorado acquisition, respectively, and \$51.7 million of OREO was sold, with covered gains of \$2.2 million and non-covered gains of \$0.9 million, resulting in a net increase to OREO balances of \$66.6 million. At December 31, 2011, 63.9% of OREO was covered by loss sharing agreements with the FDIC.

At December 31, 2010, there were no non-accrual loans and past due loans 90 days or more and still accruing interest were concentrated in the commercial and commercial real estate categories and 100% of the OREO balance was covered.

The following table presents the carrying value of our accruing and non-accrual loans compared to the unpaid principal balance (UPB) as of June 30, 2012 (in thousands):

	Accruing			Nonaccrual			Total		
	Unpaid principal balance	Carrying value	Carrying value/ UPB	Unpaid principal balance	Carrying value	Carrying value/ UPB	Unpaid principal balance	Carrying value	Carrying value/ UPB
Covered loans:

Table of Contents*Past Due Loans*

Past due status is monitored as an indicator of credit deterioration. Covered and non-covered loans are considered past due or delinquent when the contractual principal or interest due in accordance with the terms of the loan agreement remains unpaid after the due date of the scheduled payment. Loans that are 90 days or more past due and not accounted for under ASC Topic 310-30 are put on non-accrual status unless the loan is well secured and in the process of collection. Pooled loans accounted for under ASC Topic 310-30 that are 90 days or more past due and still accruing are included in loans 90 days or more past due and still accruing interest and are considered to be performing as is further described above under *Non-Performing Assets*. The table below shows the past due status of covered and non-covered loans, based on contractual terms of the loans as of June 30, 2012 and December 31, 2011 (in thousands):

	June 30, 2012			December 31, 2011		
	Non-covered	Covered	Total	Non-covered	Covered	Total
Loans 30-89 days past due and still accruing interest	\$ 19,639	\$ 40,148	\$ 59,787	\$ 31,279	\$ 55,182	\$ 86,461
Loans 90 days or more past due and still accruing interest (accounted for under ASC 310-30)	63,600	86,386	149,986	64,714	109,654	174,368
Loans 90 days or more past due and still accruing interest (excluded from ASC 310-30)	345		345	325	327	652
Non-accrual loans	15,891	4,068	19,959	24,649	13,121	37,770
Total past due and non-accrual loans	\$ 99,475	\$ 130,602	\$ 230,077	\$ 120,967	\$ 178,284	\$ 299,251
Total past due and non-accrual loans to total non-covered, total covered, and total loans, respectively	8.2%	17.0%	11.6%	9.2%	18.7%	13.2%
Total non-accrual loans to total non-covered, total covered, and total loans, respectively	1.3%	0.5%	1.0%	1.9%	1.4%	1.7%
% of total past due and non-accrual loans that carry fair value adjustments	87.9%	98.6%	94.0%	84.0%	98.9%	92.9%
% of total past due and non-accrual loans that are covered by FDIC loss sharing agreements			56.8%			59.6%

% of total past due and non-accrual loans that carry fair value adjustments	84.0%	98.9%	92.9%	100.0%	100.0%	100.0%
% of total past due and non-accrual loans that are covered by FDIC loss sharing agreements			59.6%			91.7%

Six months ended June 30, 2012

Total loans 30 days or more past due and still accruing interest and non-accrual loans represented 11.6% of total loans as of June 30, 2012 compared to 13.2% at December 31, 2011. Loans 30-89 days past due and still accruing interest decreased \$26.7 million at June 30, 2012 compared to December 31, 2011. Loans 90 days or more past due and still accruing interest decreased \$24.7 million at June 30, 2012 compared to December 31, 2011. The decreases in past due loans is a direct result of the successful workout strategies employed by our special assets division during the period. Additionally, of the \$150.3 million of loans 90 days or more past due and still accruing interest, all but \$345 thousand are accounted for under ASC Topic 310-30 and continued to accrete interest and 57.5% of the aforementioned \$150.3 million of loans 90 days or more past due and still accruing interest are covered by FDIC loss sharing agreements.

Non-accrual loans decreased \$17.8 million during the period primarily due to resolution of certain assets and foreclosures during the period. The covered and non-covered non-accrual loans are primarily secured by commercial retail and office buildings both in and outside of our market areas.

Years ended December 31, 2011 and 2010

Total loans 30 days or more past due and still accruing interest and non-accrual loans represented 13.2% of total loans as of December 31, 2011 compared to 10.4% at December 31, 2010. Loans 30-89 days past due and still accruing interest increased \$48.1 million from December 31, 2010 to December 31, 2011. Loans 90 days or more past due and still accruing interest increased \$51.1 million from December 31, 2010 to December 31, 2011. Of the \$175.0 million of loans 90 days or more past due and still accruing interest, all but approximately \$652 thousand are accounted for under ASC Topic 310-30 and continued to accrete interest. Additionally, 63.2% of the aforementioned \$175.0 million of loans 90 days or more past due and still accruing interest are covered.

Table of Contents

Non-accrual loans increased \$37.8 million during the period and was primarily driven by commercial vacancy rates. Seven loans account for \$28.3 million of the increase, of which four loans totaling \$18.5 million were non-covered and three loans totaling \$9.8 million were covered. The covered and non-covered non-accrual loans are primarily secured by commercial retail and office buildings both in and outside of our market areas.

We do not believe comparisons between 2011 and 2010 are relevant due to the acquisition activity during 2011.

Allowance for Loan Losses

The ALL represents the amount that we believe is necessary to absorb probable losses inherent in the loan portfolio at the balance sheet date and involves a high degree of judgment and complexity. Determination of the ALL is based on an evaluation of the collectability of loans, the realizable value of underlying collateral and, to the extent applicable, prior loss experience. The ALL is critical to the portrayal and understanding of our financial condition, liquidity and results of operations. The determination and application of the ALL accounting policy involves judgments, estimates, and uncertainties that are subject to change. Changes in these assumptions, estimates or the conditions surrounding them may have a material impact on our financial condition, liquidity and results of operations.

In accordance with the applicable guidance for business combinations, acquired loans were recorded at their acquisition date fair values, which were based on expected future cash flows and included an estimate for future loan losses, therefore no loan loss reserves were recorded as of the acquisition date. Any estimated losses on acquired loans that arise after the acquisition date are reflected in a charge to the provision for loan losses. Losses incurred on covered loans are reimbursable at the applicable loss share percentages in accordance with the loss-sharing agreements with the FDIC. Accordingly, any provision for loan losses relating to covered loans is partially offset by a corresponding increase to the FDIC indemnification asset and FDIC loss sharing income in non-interest income.

Loans accounted for under the accounting guidance provided in ASC Topic 310-30 have been grouped into pools based on the predominant risk characteristics of purpose and/or type of loan. The timing and receipt of expected principal, interest and any other cash flows of these loans are periodically re-estimated and the expected future cash flows of the collective pools are compared to the carrying value of the pools. To the extent that the expected future cash flows of each pool is less than the book value of the pool, an allowance for loan losses will be established through a charge to the provision for loan losses and, for loans covered by loss sharing agreements with the FDIC, a related adjustment to the FDIC indemnification asset for the portion of the loss that is covered by the loss sharing agreements. If the re-estimated expected future cash flows are greater than the book value of the pools, then the improvement in the expected future cash flows will be accreted into interest income over the remaining expected life of the loan pool.

During the quarter ended March 31, 2012, we re-estimated the expected future cash flows of loans accounted for under ASC Topic 310-30 related to the Hillcrest and Bank of Choice acquisitions. This resulted in an increase in expected cash flows in certain loan pools, which is reflected in increased accretion as well as an increased amount of accretable yield and is being recognized over the expected remaining lives of the underlying loans as an adjustment to yield. The re-measurement of expected future cash flows for the remaining loan pools resulted in decreases in expected cash flows and is reflected as a \$3.3 million provision for loan loss on loans accounted for under ASC Topic 310-30, \$3.0 million of which was covered. During the second quarter ended June 30, 2012, we re-estimated the expected future cash flows of loans accounted for under ASC Topic 310-30. This resulted in an increase in expected cash flows in certain loan pools, which is reflected in increased accretion rates as well as an increased amount of accretable yield is being recognized over the expected remaining lives of the underlying loans as an adjustment to yield. Several of the pools had a valuation allowance of \$0.9 million remaining, which was reversed in the quarter as a result of an increase in expected cash flows. The remaining

Table of Contents

pools experienced a decrease in expected cash flows which resulted in an \$10.5 million provision for loan loss on loans accounted for under ASC Topic 310-30, resulting in a net impairment of \$10.4 million for the three months ended June 30, 2012, \$9.9 million of which was covered.

For all loans not accounted for under ASC Topic 310-30, the determination of the ALL follows an established process to determine the appropriate level of ALL that is designed to account for credit deterioration as it occurs. This process provides an ALL consisting of a specific allowance component based on certain individually evaluated loans and a general allowance component based on estimates of reserves needed for all other loans, segmented based on similar risk characteristics.

Impaired loans less than \$250,000 are included in the general allowance population. Impaired loans over \$250,000 are subject to individual evaluation on a regular basis to determine the need, if any, to allocate a specific reserve to the impaired loan. Typically, these loans consist of commercial, commercial real estate and agriculture loans and exclude homogeneous loans such as residential real estate and consumer loans. Specific allowances are determined by collectively analyzing:

the borrower's resources, ability, and willingness to repay in accordance with the terms of the loan agreement;

the likelihood of receiving financial support from any guarantors;

the adequacy and present value of future cash flows, less disposal costs, of any collateral;

the impact current economic conditions may have on the borrower's financial condition and liquidity or the value of the collateral. At June 30, 2012, there were eight impaired loans that carried specific reserves totaling \$1.9 million. One commercial loan comprised \$1.0 million of the total specific reserves and was an acquired unsecured revolving line of credit scoped out of ASC Topic 310-30. The remaining seven loans were allocated across various segments and classes.

In evaluating the loan portfolio for an appropriate ALL level, unimpaired loans are grouped into segments based on broad characteristics such as primary use and underlying collateral. Within the segments, the portfolio is further disaggregated into classes of loans with similar attributes and risk characteristics for purposes of applying loss ratios and determining applicable subjective adjustments to the ALL. The application of subjective adjustments is based upon qualitative risk factors, including:

economic trends and conditions;

industry conditions;

asset quality;

loss trends;

lending management;

portfolio growth; and

Edgar Filing: Oak Valley Bancorp - Form 10-Q

loan review/internal audit results.

We have identified five primary loan segments that are further stratified into 22 loan classes to provide more granularity in analyzing loss history and to allow for more definitive qualitative adjustments based upon specific factors affecting each loan class.

Table of Contents

Following are the loan classes within each of the five primary loan segments:

Commercial	Commercial real estate	Agriculture	Residential real estate	Consumer
Wholesale	1-4 family construction	Total agriculture	Sr. lien 1-4 family closed end	Secured
Manufacturing	1-4 family acquisition and development		Jr. lien 1-4 family closed end	Unsecured
Transportation/warehousing	Commercial construction		Sr. lien 1-4 family open end	Credit card
Finance and insurance	Commercial acquisition and development		Jr. lien 1-4 family open end	Overdraft
Oil and gas	Multi-family			
All other commercial and industrial	Owner-occupied Non-owner occupied			

Actual historical loss data is limited due to the relatively recent inception date of the Company and the recent acquisitions of the Bank of Choice and the Community Banks of Colorado further limits loss history on those acquired loans. The methodology used in establishing the historical loss ratios for acquired residential real estate, consumer and agriculture loans was the three-year historical net charge-off percentage realized by Bank Midwest prior to our acquisition. We believe use of the historical net charge-off data for the aforementioned residential real estate, consumer and agriculture loans is an appropriate baseline due to the fact that we acquired approximately 84% of these loan types on a combined basis. The percentage acquired by each loan type was as follows: residential real estate (82%), consumer (90%), and agriculture (98%). Bank of Choice was acquired on July 22, 2011, and Community Banks of Colorado was acquired on October 21, 2011, and all of the loans acquired in those transactions were recorded at fair value at the respective dates of acquisition. Additionally, the majority of the loans acquired with those acquisitions are accounted for under ASC Topic 310-30.

Historical loss ratios of loan classes are calculated based on the proportion of actual charge-offs experienced to the total population of loans in the class. The historical baseline is then adjusted based on our analysis of the current conditions as they relate to the subjective adjustment factors described above. The ALL percentage for the remaining loan classes with no relevant history was initially established through the process of assigning the subjective adjustments to the seven subjective factors listed above. Portions of the ALL may be allocated for specific loans or specific loan classes; however, the entire ALL is available for any loan that, in our judgment, should be charged-off.

Six months ended June 30, 2012

In addition to the \$13.7 million of provision for loan losses expense for our loans accounted for under ASC Topic 310-30, we recorded \$6.3 million of provision for loan losses for loans not accounted for under ASC Topic 310-30 as we provided for loan charge-offs and credit risks inherent in the June 30, 2012 non ASC Topic 310-30 balances.

We charged off \$15.2 million of loans during the six-months ended June 30, 2012 primarily related to commercial and commercial real estate loans. Approximately \$8.9 million of these charge-offs were related to loans accounted for under ASC Topic 310-30 and were provided for during the previous re-measurements. Of the \$6.2 million non 310-30 charge-offs, \$2.4 million was related to one commercial and industrial loan which was a result of fraudulent collateral accepted by the acquired institution and is not indicative of expected future charge-offs.

Table of Contents

Years ended December 31, 2011 and 2010

For the year ended December 31, 2011, we recorded \$15.0 million of provision for loan losses for loans not accounted for under ASC Topic 310-30 as we provided for loan charge-offs and risks inherent in the December 31, 2011 non ASC Topic 310-30 balances.

We charged off \$6.4 million of loans not accounted for under ASC Topic 310-30 during 2011, \$3.4 million of which was a result of a large anchor tenant vacating several commercial properties and declaring bankruptcy, and \$1.4 million of commercial and industrial loans primarily as a result of a heavy equipment loan. During 2011, we also charged-off \$3.1 million of commercial and industrial loans accounted for under ASC Topic 310-30 as a result of decreased estimated cash flows.

After considering the abovementioned factors, we believe that the ALL of \$17.3 million and \$11.5 million was adequate to cover probable losses inherent in the loan portfolio at June 30, 2012 and December 31, 2011, respectively. However, it is likely that future adjustments to the ALL will be necessary and any changes to the assumptions, circumstances or estimates used in determining the ALL could adversely affect the Company's results of operations, liquidity or financial condition.

The following schedule presents, by class stratification, the changes in the ALL from March 31, 2012 to June 30, 2012 (in thousands):

	310-30	Non 310-30	Total
Allowance for loan losses at March 31, 2012	\$ 3,327	\$ 9,081	12,408
Charge-offs:			
Commercial	(176)	(127)	(303)
Commercial real estate	(6,613)	(241)	(6,854)
Residential real estate	(144)	(430)	(574)

FDIC Indemnification Asset and Clawback Liability

The FDIC indemnification asset represents the net present value of the expected reimbursements from the FDIC for probable losses on covered loans and OREO that were acquired in the Hillcrest Bank and Community Banks of Colorado transactions. As covered assets are resolved, whether it be through repayment, short sale of the underlying collateral, the foreclosure on, and sale of collateral, or the sale or charge-off of loans or OREO, the portion of any loss incurred that is reimbursable by the FDIC is recognized as FDIC loss sharing income in non-interest income. Any gains or losses realized from the resolution of covered assets reduce or increase, respectively, the amount of the FDIC indemnification asset.

We recorded FDIC indemnification assets at fair value in connection with our Hillcrest Bank and Community Banks of Colorado acquisitions. The initial fair values were established by discounting the expected future cash flows with a market discount rate for like maturity and risk instruments. The discount is accreted to income in connection with the expected timing of the related cash flows, and may increase or decrease from period to period due to changes in amounts and timing of expected cash flows from covered loans and OREO. During the six months ended June 30, 2012, we recognized \$6.3 million of negative accretion related to the FDIC indemnification asset as the performance of our covered assets has improved.

During the six months ended June 30, 2012, we recognized \$6.3 million of negative accretion on the FDIC indemnification asset, and reduced the carrying value of the FDIC indemnification asset by \$68.5 million as a result of claims filed with the FDIC as discussed below. The negative accretion resulted from an increase in actual and expected cash flows on the underlying covered assets, resulting in lower expected reimbursements from the FDIC. The increase in expected cash flows from these underlying assets is reflected in increased accretion rates on covered loans as well as an increased amount of accretable yield on our covered loans accounted for under ASC Topic 310-30 and is being recognized over the expected lives of the underlying covered loans as an adjustment to yield. During the six months ended June 30, 2012, we submitted \$74.1 million of loss share claims to the FDIC for the reimbursable portion of losses related to the Hillcrest Bank and Community Banks of Colorado covered assets incurred during the fourth quarter of 2011 and the first quarter of 2012. Included in the \$74.1 million were \$5.6 million of claims related to additional losses incurred during the period that were not previously considered in the carrying amount of the indemnification asset. The loss claims filed are subject to review and approval, including extensive audits, by the FDIC or its assigned agents for

Table of Contents

compliance with the terms in the loss sharing agreements. During the six months ended June 30, 2012, the FDIC paid \$33.1 million related to losses incurred during the fourth quarter of 2011 and paid us an additional \$13.4 million subsequent to June 30, 2012. The remaining claimed amounts are anticipated to be received during the third quarter of 2012.

During 2011, we recognized negative accretion of \$6.1 million and in 2010 we recognized \$1.7 million of positive accretion related to the FDIC indemnification asset. During 2011, we received \$89.1 million from the FDIC for reimbursement of losses that occurred from the date of acquisition of Hillcrest Bank through September 30, 2011, in accordance with our loss sharing agreements. Included in the \$89.1 million received from the FDIC were reimbursements of expenses incurred for the resolution of covered assets netted with recoveries received on covered assets that were not included in the expected cash flows of the indemnification assets.

Within 45 days of the end of each of the loss sharing agreements with the FDIC, we may be required to reimburse the FDIC in the event that the Company's losses on covered assets do not reach the second tranche in each related loss sharing agreement, based on the initial discount received less cumulative servicing amounts for the covered assets acquired. At June 30, 2012 and December 31, 2011, this clawback liability was carried at \$29.6 million and \$30.0 million, respectively, and is included in Due to FDIC in our consolidated statements of financial condition.

Other real estate owned

OREO is comprised of properties acquired through the foreclosure or repossession process, or any other resolution activity that results in partial or total satisfaction of problem loans. We have a dedicated, enterprise-level problem asset resolution team that is actively working to resolve problem loans and to obtain and subsequently sell the underlying collateral. The OREO balance of \$137.7 million at June 30, 2012 includes the interests of several outside participating banks totaling \$17.9 million, for which an offsetting liability is recorded in other liabilities and excludes \$12.2 million of the Company's minority interests in OREO which are held by outside banks where we were not the lead bank and do not have a controlling interest, for which a receivable is included in other assets. At June 30, 2011, \$69.7 million, or 50.6%, of OREO was related to Hillcrest Bank, \$38.1 million, or 27.6%, of OREO was related to Bank of Choice, and \$29.3 million, or 21.3%, of OREO was related to Community Banks of Colorado. Of the \$137.7 million of OREO at June 30, 2012, \$77.5 million, or 56.3%, was covered by the loss sharing agreements with the FDIC. Any losses on these assets are substantially offset by a corresponding change in the FDIC indemnification asset. During the six months ended June 30, 2012, the Company sold \$35.9 million of OREO and realized net gains on these sales of \$4.0 million, and during the six months ended June 30, 2011 the Company sold \$11.4 million of OREO and realized net losses of \$0.6 million. Changes in OREO for the six months ended June 30, 2012 and 2011 were as follows (in thousands):

	For the six months ended June 30,	
	2012	2011
Balance at December 31	\$ 120,636	\$ 54,078
Transfers from loan portfolio	56,100	29,426
Impairments	(7,213)	
Sales, net of gains and losses	(31,811)	(12,004)
Balance at June 30	\$ 137,712	\$ 71,500

Table of Contents

At December 31, 2011, \$55.5 million, or 46.0%, of OREO was related to Hillcrest Bank, \$38.4 million, or 31.8%, of OREO was related to Bank of Choice, and \$26.6 million, or 22.0%, of OREO was related to Community Banks of Colorado. As such, \$77.1 million, or 63.9%, of OREO was covered by the loss sharing arrangement with the FDIC. Any gains or losses on these assets are substantially offset by a corresponding change in the FDIC indemnification asset. During 2011, we sold \$48.7 million of OREO and realized gains on sales of covered OREO of \$2.2 million. Changes in OREO during 2011 were as follows (in thousands):

Balance at December 31, 2010	\$ 54,078
Purchases through acquisition at fair value	64,084
Transfers from loan portfolio	52,294
Sales, net of gains and losses	(48,682)
Impairments	(1,138)
 Balance at December 31, 2011	 \$ 120,636

Other Assets

Significant components of other assets were as follows as of the periods indicated (in thousands):

	June 30, 2012	December 31, 2011
FDIC indemnification-claimed	\$ 40,956	\$
Minority interest in participated other real estate owned	12,192	
Accrued interest on interest bearing bank deposits and investment securities	7,211	5,651
Accrued interest on loans	7,656	10,371
Other receivable from FDIC	472	11,191
Other	12,161	11,629
 Total other assets	 \$ 80,648	 \$ 38,842

	December 31, 2011	December 31, 2010
Accrued interest on interest bearing bank deposits and investment securities	5,651	2,694
Accrued interest on loans	10,371	7,158
Other receivable from FDIC	11,191	10,027
Other	11,629	4,187
 Total other assets	 \$ 38,842	 \$ 24,066

Six months ended June 30, 2012

The FDIC indemnification-claimed, which is comprised of adjustments to covered assets, reimbursable expenses incurred during the resolution of covered assets, and other miscellaneous adjustments from the FDIC, increased \$41.0 million during the six months ended June 30, 2012 in connection with the loss share claims submitted to the FDIC that remained unpaid as of June 30, 2012. In January 2012, loss share claims for \$34.4 million and \$6.6 million, for Community Banks of Colorado and Hillcrest Bank, respectively, were submitted to the FDIC for loss events and resolution expenses incurred during the fourth quarter of 2011.

Edgar Filing: Oak Valley Bancorp - Form 10-Q

During the six months ended June 30, 2012, we recorded \$12 million of minority interest in participated OREO in connection with the repossession of collateral on loans for which we were not the lead bank and we do not have a controlling interest. These properties have been repossessed by the lead banks and we have recorded our receivable due from the lead banks in other assets as minority interest in participated OREO.

Table of Contents

During the six months ended June 30, 2012, the other receivable due from FDIC decreased \$10.7 million as settlement items related to the Community Banks of Colorado acquisition in the fourth quarter of 2011 were settled with FDIC.

Years ended December 31, 2011 and 2010

Accrued interest on interest bearing bank deposits and investment securities increased \$3.0 million from December 31, 2010 to December 31, 2011. Approximately \$0.5 million of the difference was attributable to the accrued interest related to the pending investment trades that was included in other liabilities at December 31, 2010. The securities and related accrued interest receivable were settled in cash during the first quarter of 2011.

At December 31, 2011 and 2010 we had various receivables due to us from the FDIC. These amounts were primarily attributable to various settlement items related to the Community Banks of Colorado and Hillcrest Bank acquisitions that were outstanding at December 31, 2011 and 2010, respectively.

Other Liabilities

Significant components of other liabilities were as follows as of the dates indicated (in thousands):

	June 30, 2012	December 31, 2011
Participant interest in other real estate owned	\$ 17,850	\$
Accrued and deferred income taxes payable	27,180	45,081
Accrued interest payable	6,533	11,017
Accrued expenses	11,417	15,916
Warrant liability	6,982	6,845
Other liabilities	2,505	5,816
Total other liabilities	\$ 72,467	\$ 84,675

	December 31, 2011	December 31, 2010
Accrued and deferred income taxes payable	\$ 45,081	\$ 5,399
Accrued interest payable	11,017	15,389
Accrued expenses	15,916	7,182
Warrant liability	6,845	6,901
Other liabilities	5,816	1,730
Total other liabilities	\$ 84,675	\$ 36,601

Six months ended June 30, 2012

During the six months ended June 30, 2012, we recorded \$17.9 million of participant interests in other real estate owned which represents participant banks' interests in properties that we have repossessed. These participant interests are also reflected in our other real estate owned balances.

Accrued and deferred income taxes payable decreased \$17.9 million during the six months ended June 30, 2012 primarily as a result of tax payments paid during that period.

During the six months ended June 30, 2012, we continued to lower the interest rates on our deposits, coupled with the shift from higher-cost time deposits to lower cost transaction accounts. The lower cost mix of deposits resulted in a decrease in accrued interest payable of \$4.5 million from December 31, 2011 to June 30, 2012.

Table of Contents

We have outstanding warrants to purchase 830,750 shares of our common stock, which are classified as a liability and included in other liabilities in our consolidated statements of financial condition. The warrants were granted to certain lead stockholders and all warrants have an exercise price of \$20.00 per share. The term of the warrants is for ten years and the expiration dates of the warrants range from October 20, 2019 to September 30, 2020. We revalue the warrants at the end of each reporting period using a Black-Scholes model and any change in fair value is reported in the statements of operations as loss (gain) from change in fair value of warrant liability in non-interest expense in the period in which the change occurred. The warrant liability increased \$0.1 million during the six months ended June 30, 2012. The value of the warrant liability, and the expense that results from an increase to this liability, has a direct correlation to our stock price. Accordingly, any increase in our stock price, whether it be through this offering or otherwise, would result in an increase in the warrant liability and the associated expense. More information on the accounting and measurement of the warrant liability can be found in notes 2 and 19 in our audited consolidated financial statements.

Years ended December 31, 2011 and 2010

During 2011, accrued and deferred income tax payable increased \$39.9 million due to our net income of \$42.0 million, which was largely driven by the \$60.5 million bargain purchase gain associated with the Bank of Choice acquisition. The other liabilities component of total other liabilities increased \$4.1 million due to increases in miscellaneous expenses accrued during 2011.

Accrued interest payable decreased \$4.4 million from December 31, 2010 to December 31, 2011 due to lower interest rates offered on deposits and the shift from longer term time deposits to savings, money market and demand deposits during the period. At December 31, 2010, accrued expenses were up \$8.7 million from the previous year. The increase is reflective of our additional two banks and the inherent increase associated therewith and increased accruals for OREO real estate taxes.

Funding Sources

Deposits from banking clients serve as a primary funding source for our banking operations. Our banking centers function as the primary deposit gathering stations, where we seek to price deposits competitively in accordance with other depository institutions in the area and according to our needs.

In connection with our acquisitions of Bank of Choice in July 2011 and Community Banks of Colorado in October 2011 we transferred approximately \$100 million and \$174 million, respectively, of holding company cash in the form of capital contributions to NBH Bank to provide sufficient capital for the consummation of those acquisitions. Under our agreements with the OCC and the FDIC, NBH Bank is not permitted to pay any dividends to the holding company prior to December 2013. As such, the funding sources for our holding company are currently limited to the cash on hand at the holding company, which was approximately \$110.8 million at June 30, 2012 and \$113.6 million at December 31, 2011.

In conjunction with the consummation of the Hillcrest Bank and Bank Midwest transactions, the Company contributed \$170 million of capital into Hillcrest Bank and \$390 million of capital into Bank Midwest to fund these acquisitions.

Deposits

Our ability to gather and manage deposit levels is critical to our success. Deposits not only provide a low cost funding source for our loans, but also provide a foundation for the customer relationships that are critical to future loan growth. We assumed the majority of our deposit accounts with our acquisitions of Bank Midwest and Hillcrest Bank during the fourth quarter of 2010, our acquisition of Bank of Choice in July 2011, and acquisition of the Community Banks of Colorado in October 2011. The deposits were recorded at their estimated fair value and we marked the time deposits assumed in the Bank Midwest transaction up by \$0.9 million, which is being

Table of Contents

amortized as an adjustment to yield over the expected life of the related time deposits. A fair value adjustment was not deemed necessary on the deposits assumed in the Bank of Choice, Hillcrest Bank, or the Community Banks of Colorado transactions because we had the option to re-price these time deposits at the time of the acquisition.

The following table presents information regarding our deposit composition at June 30, 2012 and December 31, 2011 (in thousands):

	June 30, 2012		December 31, 2011	
Non-interest bearing demand deposits	\$ 633,936	14%	\$ 678,735	13%
Interest bearing demand deposits	527,363	12%	537,160	11%
Savings accounts	183,563	4%	169,378	3%
Money market accounts	998,186	22%	893,184	18%
Total transaction accounts	2,343,048	52%	2,278,457	45%
Time deposits < \$100,000	1,353,239	30%	1,680,531	33%
Time deposits > \$100,000	833,262	18%	1,104,065	22%
Total time deposits	2,186,501	48%	2,784,596	55%
Total deposits	\$ 4,529,549	100%	\$ 5,063,053	100%

During the six months ended June 30, 2012, our total deposits decreased \$533.5 million, as high-priced time deposits assumed in our Hillcrest Bank and Community Banks of Colorado acquisitions matured and were not renewed. Our transaction deposits have been steadily increasing as a result of our strategic shift away from time deposits and to lower cost demand deposits, savings and money market accounts, which is consistent with our consumer banking strategy. As of June 30, 2012, approximately 49% of acquired time deposits have been either repriced or moved out of the bank, the majority of which we believe were priced above market. Approximately 67% of the remaining acquired time deposits are scheduled to mature by December 31, 2012.

The following table presents information regarding our deposit composition December 31, 2011 and 2010 (in thousands):

	December 31, 2011		December 31, 2010	
Non-interest bearing demand deposits	\$ 678,735	13%	\$ 326,159	10%
Interest bearing demand deposits	537,160	11%	211,601	6%
Savings accounts	169,378	3%	107,581	3%
Money market accounts	893,184	18%	563,981	16%
Total transaction accounts	2,278,457	45%	1,209,322	35%
Time deposits < \$100,000	1,680,531	33%	1,497,865	43%
Time deposits > \$100,000	1,104,065	22%	766,152	22%
Total time deposits	2,784,596	55%	2,264,017	65%
Total deposits	\$ 5,063,053	100%	\$ 3,473,339	100%

During the year ended December 31, 2011, our total deposits increased \$1.6 billion, which was attributable to the acquisitions of Bank of Choice and Community Banks of Colorado. Bank of Choice was acquired during the third quarter of 2011 and contributed \$756.3 million of total deposits at December 31, 2011. Community Banks of Colorado, acquired during the fourth quarter of 2011, contributed \$1.1 billion in total deposits at December 31, 2011.

Table of Contents

Approximately 61.9% and 60.4% of the time deposits at June 30, 2012 and December 31, 2011, respectively, were for denominations of less than \$100,000. The remaining maturities of these time deposits are summarized as follows (in thousands):

	June 30, 2012		December 31, 2011	
	Balance	Weighted Average Rate	Balance	Weighted Average Rate
Three months or less	\$ 395,364	1.14%	\$ 446,447	1.22%
Over 3 months through 6 months	307,401	0.82%	345,592	1.09%
Over 6 months through 12 months	350,195	0.77%	627,241	1.11%
Over 12 months through 24 months	223,461	1.07%	180,967	1.54%
Over 24 months through 36 months	35,669	1.83%	34,097	2.00%
Over 36 months through 48 months	22,172	2.31%	23,458	2.61%
Over 48 months through 60 months	13,992	1.76%	17,914	1.93%
Thereafter	4,985	2.43%	4,815	2.72%
Total time deposits < \$100,000	\$ 1,353,239	1.01%	\$ 1,680,531	1.24%

Approximately 60.4% and 66.2% of the time deposits at December 31, 2011 and 2010, respectively, were for denominations of less than \$100,000. The remaining maturities of these time deposits are summarized as follows (in thousands):

	December 31, 2011		December 31, 2010

Table of Contents

In connection with our FDIC-assisted bank acquisitions, the FDIC provided Bank of Choice, Hillcrest Bank, and Community Banks of Colorado depositors with the right to redeem their time deposits at any time during the life of the time deposit, without penalty, unless the depositor accepts new terms. At June 30, 2012 and December 31, 2011, the Company had approximately \$569.8 million and \$1.1 billion, respectively, of time deposits that were subject to the penalty-free withdrawals, the remaining scheduled maturity dates of which are shown below:

	June 30, 2012	December 31, 2011
Three months or less	\$ 277,657	\$ 341,875
Over 3 months through 6 months	81,388	215,327

Regulatory Capital

Our subsidiary bank and the holding company are subject to the regulatory capital adequacy requirements of the Federal Reserve Board, the FDIC and the OCC, as applicable. Failure to meet the minimum capital requirements can initiate certain mandatory and possibly further discretionary actions by regulators that could have a material adverse effect on us. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, banks must meet specific capital requirements that involve quantitative measures of assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices.

Capital amounts and classifications are subject to qualitative judgments by the regulators about components, risk-weightings and other factors. Through these judgments, assets are risk weighted according to the perceived risk they pose to capital on a scale of 0% to 100%, with 100% risk-weighted assets signifying higher risk assets that warrant higher levels of capital. While many non-covered assets (particularly loans and OREO) typically fall in to 50% or 100% risk-weighted classifications, our covered assets are all considered to be 20% risk-weighted for risk-based capital calculations.

Typically, banks are required to maintain a tier 1 risk-based capital ratio of 4.00%, a total risk-based capital ratio of 8.00% and a tier 1 leverage ratio of 4.00% in order to meet minimum, adequately capitalized regulatory requirements. To be considered well-capitalized (under prompt corrective action provisions), banks must maintain minimum capital ratios of 6.00% for tier 1 risk-based capital, 10.00% for total risk-based capital and 5.00% for the tier 1 leverage ratio. In connection with the approval of the de-novo charters for Hillcrest Bank and NBH Bank, we agreed with our regulators to maintain capital levels of at least 10% tier 1 leverage ratio, 11% tier 1 risk based capital ratio and 12% tier 1 risk-based capital ratio at our subsidiary bank(s) through December, 2013. Following the merger of Hillcrest Bank into NBH Bank in November 2011, only NBH Bank remains subject to these capital ratios. In conjunction with the consummation of the Hillcrest Bank and Bank Midwest transactions, the Company contributed \$170 million of capital into Hillcrest Bank and \$390 million of capital into Bank Midwest to provide each of our subsidiary banks with sufficient capital to meet and exceed the above-mentioned agreed-upon capital ratios. In July 2011, we contributed \$100 million to NBH Bank to provide additional capital to fund the acquisition of Bank of Choice from the FDIC. In October 2011 we contributed capital of \$174 million to NBH Bank to fund the Community Banks of Colorado acquisition from the FDIC.

Table of Contents

At June 30, 2012 and at December 31, 2011 and 2010, our subsidiary bank(s) and the consolidated holding company exceeded all capital ratio requirements under prompt corrective action and other regulatory requirements, as is detailed in the table below (dollars in thousands):

	June 30, 2012

NBH Bank	32.7%	317,220	12%	116,419	8%	77,613
Hillcrest Bank, N.A.	76.7%	193,945	12%	30,328	8%	20,218

Table of Contents

- (1) These ratio requirements are reflective of the agreements the Company has made with its various regulators in connection with the approval of the de novo charters for Hillcrest Bank and NBH Bank, as described above.
- (2) In November 2011, Hillcrest Bank, N.A. was merged into NBH Bank. The capital ratios shown are reflective of the merger.
- (3) Due to the conditional guarantee represented by the loss sharing agreements, the FDIC indemnification asset and covered assets are risk-weighted at 20% for purposes of risk-based capital computations.

Results of Operations

Our net income depends largely on net interest income, which is the difference between interest income from interest-earning assets and interest expense on interest-bearing liabilities. Our results of operations are also affected by provisions for loan losses and non-interest income, such as service charges, bank card income and FDIC loss sharing income. Our primary operating expenses, aside from interest expense, consist of salaries and employee benefits, professional fees, occupancy costs, and data processing expense.

Overview of Results of Operations

Three and six months ended June 30, 2012

The six months ended June 30, 2012 represents our first two full quarters with the operations of all of our acquisitions. We earned \$1.6 million during the first quarter of 2012 and \$2.7 million during the second quarter of 2012. These results reflect the increased revenues and expenses associated with our acquisitions of Bank of Choice and Community Banks of Colorado in the second half of 2011, in addition to the further build-out of our business development and operational functions that support our lending activities and the continued integration of our acquisitions. We completed the integration of Community Banks of Colorado in May 2012 and the integration of Bank of Choice in July 2012. During the three and six months ended June 30, 2012 we continued to benefit from the strong yields on our loan portfolio while our dedicated workout group actively worked to resolve our acquired troubled loans. The activity in this resolution process is evidenced by the elevated levels of OREO related expenses and problem loan expenses. During the six months ended June 30, 2012, in addition to net transfers of \$23.8 million of non-accretable difference to accretable yield to be recognized in the future, we recorded \$20.1 million of provision for loan losses, approximately \$15.8 million of which was attributable to covered loans. The FDIC coverage of these impairments is reflected in the estimated cash flows underlying the FDIC indemnification asset.

Years ended December 31, 2011 and 2010

During the year ended December 31, 2011, we recorded net income of \$42.0 million compared to net income of \$6.1 million during the year ended December 31, 2010. The primary drivers of net income during those periods were the gains on bargain purchases of \$60.5 million and \$37.8 million recorded during the years ended 2011 and 2010 in connection with our Bank of Choice and Hillcrest Bank acquisitions, respectively. As previously discussed, meaningful comparability to prior periods is limited due to the Community Banks of Colorado acquisition in October 2011, the Bank of Choice acquisition in July 2011, the Hillcrest Bank and NBH Bank acquisitions in the fourth quarter of 2010, and the lack of banking operations prior to those acquisitions.

Net Interest Income

We regularly review net interest income metrics to provide us with indicators of how the various components of net interest income are performing. We regularly review: (i) our deposit mix and the cost of deposits; (ii) our loan mix and the yield on loans; (iii) the investment portfolio and the related yields; and (iv) net interest income simulations for various forecast periods.

Table of Contents

The following tables present the components of net interest income for the periods indicated. Prior to our acquisition of Hillcrest Bank on October 22, 2010, we did not have any banking operations and subsequent to the Hillcrest Bank acquisition, we have completed three other acquisitions: Bank Midwest on December 10, 2010, Bank of Choice on July 22, 2011 and Community Banks of Colorado on October 21, 2011. As a result, the comparability of the periods presented in the tables below related to 2011 and 2010 is limited. The tables include: (i) the average daily balances of interest-earning assets and interest bearing liabilities; (ii) the average daily balances of non-interest earning assets and non-interest bearing and liabilities; (iii) the total amount of interest income earned on interest-earning assets; (iv) the total amount of interest expense incurred on interest-bearing liabilities; (v) the resultant average yields and rates; (vi) net interest spread; and (vii) net interest margin, which represents the difference between interest income and interest expense, expressed as a percentage of interest-earning assets. The effects of trade-date accounting of investment securities for which the cash had not settled as of December 31, 2010 are not considered interest-earning assets and are excluded from this presentation for timeframes prior to their cash settlement, as are the market value adjustments on the investment securities available-for-sale. Non-accrual and restructured loan balances are included in the average loan balances; however, the forgone interest on non-accrual and restructured loans is not included in the dollar amounts of interest earned. All amounts presented are on a pre-tax basis.

	Three months ended June 30, 2012			Three months ended March 31, 2012

Net interest earning assets	\$ 1,149,709			\$ 1,173,512		

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Net interest margin		4.00%	3.91%
Ratio of average interest earning assets to average interest bearing liabilities	128.27%		127.30%

- (1) Originated loans are net of deferred loan fees, less costs.
- (2) Loan fees, less costs on originated loans, are included in interest income over the life of the loan.

Table of Contents

During the three months ended June 30, 2012, net interest margin improved by 0.09% and our interest rate spread expanded by 0.11% compared to the three months ended March 31, 2012. The increase in net interest margin was driven by a 0.10% decrease in our cost of deposits as we continue to execute our strategy of transitioning to lower cost transaction accounts and away from many of the high-priced time deposits that our acquired troubled banks relied upon. Progress on our deposit mix was evidenced by a \$36.0 million increase in our transaction accounts compared to a \$281.3 million decrease in time deposits as we rolled off high-priced time deposits, many of which were acquired with our Hillcrest Bank and Community Banks of Colorado acquisitions. We continued to earn strong yields on our loan portfolio, as evidenced by a total loan portfolio yield of 8.41% during the three months ended June 30, 2012; however the total loan portfolio yield decreased 0.12% during the quarter. The strong loan yields, particularly on our portfolio of loans accounted for under ASC Topic 310-30, are attributable to the accretion of accretable yield on those loans and increases in the yield on this portfolio are a result of the effects of life-to-date transfers of non-accretable difference to accretable yield that are being recognized over the remaining life of these loans. As a result, we expect downward pressure on our interest income to the extent that the runoff of our acquired loan portfolio is not replaced with comparable high-yielding loans. Note 2 to our audited consolidated financial statements provides more information on the accounting treatment of acquired loans. During the three months ended June 30, 2012, we increased our investment securities portfolio, however with the current low interest rate environment, it resulted in a 0.41% decrease in yield on the total investment portfolio.

Table of Contents

The table below presents the components of net interest income for the three months ended June 30, 2012 and 2011:

	Three months ended June 30, 2012			Three months ended June 30, 2011

Total assets	\$ 6,041,975			\$ 4,657,030		
Interest bearing liabilities:						
Savings deposits and interest bearing checking	\$ 1,687,876	\$ 2,968	0.35%	\$ 967,576	\$ 2,862	0.60%
Time Deposits	2,439,417	14,535	1.20%	2,216,313	18,031	1.64%
Securities sold under agreements to repurchase	55,763	61	0.22%	26,013	41	0.32%
Total interest bearing liabilities	\$ 4,183,056	\$ 17,564	0.84%	\$ 3,209,902	\$ 20,934	1.32%
Demand deposits	634,482			320,752		
Other liabilities	130,724			123,044		
Total liabilities	4,948,262			3,653,698		
Stockholders equity	1,093,713			1,003,332		
Total liabilities and stockholders equity	\$ 6,041,975			\$ 4,657,030		
Net interest income		\$ 105,171			\$ 64,719	
Interest rate spread			3.78%			2.84%
Net interest earning assets	\$ 1,158,086			\$ 944,107		
Net interest margin			3.96%			3.14%
Ratio of average earning assets to average interest bearing liabilities	127.69%			129.41%		

(1) Originated loans are net of deferred loan fees, less costs.

(2) Loan fees, less costs on originated loans, are included in interest income over the life of the loan.

Net interest income totaled \$105.1 million and \$64.7 million for the six months ended June 30, 2012 and 2011, respectively, with the increase primarily attributable to the average interest-earning assets that resulted from the Bank of Choice and Community Banks of Colorado

Edgar Filing: Oak Valley Bancorp - Form 10-Q

acquisitions in the second half of 2011. Average investment securities, measured from the date of settlement comprised \$2.2 billion or 42.0% of total average interest-earning assets during the six months ended June 30, 2012. Average loans made up \$2.1 billion or 40.0% of total average interest-earning assets during the six months ended June 30, 2012.

Table of Contents

The following table summarizes the changes in net interest income by major category of interest earning assets and interest bearing liabilities, identifying changes related to volume and changes related to rates.

	Three Months Ended June 30, 2012 Compared To Three Months Ended June 30, 2011			Six Months Ended June 30, 2012 Compared To Six Months Ended June 30, 2011

(1) Originated loans are net of deferred loan fees, less costs.

(2) Loan fees, less costs on originated loans, are included in interest income over the life of the loan.

Net interest income totaled \$155.5 million and \$15.9 million for the years ended December 31, 2011 and 2010, respectively, and was primarily attributable to the average interest-earning assets that resulted from the Hillcrest Bank, Bank Midwest, Bank of Choice, and Community Banks

Edgar Filing: Oak Valley Bancorp - Form 10-Q

of Colorado acquisitions, and the shift from cash to higher yielding investment securities. Average investment securities, measured from the date of settlement, comprised \$1.8 billion, or 40.4%, of total average interest-earning assets during the year ended December 31, 2011. Approximately \$1.5 billion of investment securities were purchased and/or settled during 2011 as a result of deploying the cash received from the acquisitions, slightly offset by sales of investment securities of \$0.2 billion and \$0.3 billion of maturities and pay downs. Average loans made up \$1.7 billion, or 36.3%, of total average interest-earning assets during the year ended December 31, 2011.

Table of Contents

The vast majority of our loans were acquired and were subject to acquisition accounting guidance whereby the assets and liabilities, including loans, were recorded at fair value at the date of acquisition. The accretible yield on our loans accounted for under ASC Topic 310-30 and the fair value adjustments on our acquired loans excluded from ASC Topic 310-30 are being accreted to income over the life of the loans as an adjustment to yield and, as a result, a significant portion of our interest income on loans is attributable to this accretion. Our acquired loans generally produce higher yields than our originated loans due to the recognition of accretion of interest rate adjustments and accretible yield. As a result, we expect downward pressure on our interest income to the extent that the runoff of our acquired loan portfolio is not replaced with comparable high-yielding loans. Note 2 to our audited consolidated financial statements provides more information on the accounting treatment of acquired loans.

During the year ended December 31, 2011, total interest expense related to interest-bearing liabilities was \$41.7 million compared to \$5.5 million for the year ended December 31, 2010, or an average cost of 1.15% and 1.65% during the respective periods. The largest component of interest expense was related to time deposits, which carried an average rate of 1.49% and 1.98% during the years ended December 31, 2011 and 2010, respectively.

Our rates on deposits have been higher than the average in the markets in which we operate, primarily because our acquired banks had their deposit rates higher than market at the time we acquired them. Since our first quarter of banking operations, we have been steadily lowering deposit rates as we shift towards a more consumer banking strategy based business model and focus on a lower cost transaction accounts.

Below is a breakdown of deposits and the average rates paid during the periods indicated (in thousands):

	June 30, 2012		March 31, 2012		December 31, 2011		For the three months ended September 30, 2011		June 30, 2011		March 31, 2011		December 31, 2010	
	Average Balance	Average Rate Paid	Average Balance	Average Rate Paid	Average Balance	Rate Paid	Average Balance	Average Rate Paid	Average Balance	Average Rate Paid	Average Balance	Average Rate Paid	Average Balance	Average Rate Paid

Provision for Loan Losses

The provision for loan losses represents the amount of expense that is necessary to bring the ALL to a level that we deem appropriate to absorb probable losses inherent in the loan portfolio as of the balance sheet date. The determination of the ALL, and the resultant provision for loan losses, are subjective and involve estimates and assumptions.

Losses incurred on covered loans are reimbursable at the applicable loss share percentages in accordance with the loss-sharing agreements with the FDIC. Accordingly, any provisions made that relate to covered loans are partially offset by a corresponding increase to the FDIC indemnification asset and FDIC loss sharing income in non-interest income. Below is a summary of the provision for loan losses for the periods indicated (in thousands):

Edgar Filing: Oak Valley Bancorp - Form 10-Q

	For the three months ended June 30		For the six months ended June 30	
	2012	2011	2012	2011
Provision for impairment on loans accounted for under ASC Topic 310-30	\$ 10,456	\$ 3,063	\$ 13,735	\$ 4,561
Provision for loan losses	1,770	5,728	6,327	8,125
Total provision for loan losses	\$ 12,226	\$ 8,791	\$ 20,062	\$ 12,686

Table of Contents

The provision for impairment expense on covered assets has an offsetting increase in non-interest income as a result of the loss sharing agreements with the FDIC. The provisions for loan losses charged to non-covered loans were related to a combination of providing an ALL for new loans, changes in the market conditions and qualitative factors used in analyzing the ALL and specific impairments on non-covered loans. Through the re-measurement process, we recorded \$13.7 million of provision for loans accounted for under ASC Topic 310-30 to reflect decreased expected future cash flows, which was primarily driven by our commercial and industrial, commercial real estate and land pools. One land pool contributed \$4.9 million, or 35.8%, of the total impairment for the six months ended June 30, 2012. The decreases in expected future cash flows are reflected immediately in our financial statements. Increases in expected future cash flows are reflected through an increase in accretable yield that is accreted to income in future periods, and during the six months ended June 30, 2012, we transferred \$23.8 million, net, from non-accretable difference to accretable yield to reflect an increase in expected future cash flows on loans accounted for under ASC Topic 310-30.

The table below summarizes the provision for loans accounted for under ASC Topic 310-30 versus loans not accounted for under ASC Topic 310-30 for the years ended December 31, 2011 and 2010 (in thousands):

	2011	2010
Provision for impairment on loans accounted for under ASC Topic 310-30	\$ 5,011	\$
Provision for loan losses	14,991	88
Total provision for loan losses	\$ 20,002	\$ 88

The provision for impairment expenses on loans accounted for under ASC Topic 310-30 during 2011 related to three covered 310-30 pools where expected cash flows decreased resulting in impairment of \$5.0 million. All other 310-30 pools experienced increases in expected cash flows during 2011.

Non-Interest Income

Three and six months ended June 30, 2012 and 2011

For the three and six months ended June 30, 2012 and 2011, service charges comprised the largest component of our non-interest income. Service charges represent various fees charged to clients for banking services, including fees such as non-sufficient funds charges, overdraft fees, service charges on deposit accounts, identity theft protection services, safe deposit box rentals, wire transfer fees, and brokerage fees. Service charges increased \$1.6 million during the six months ended June 30, 2012 compared to the six months ended June 30, 2011, primarily due to the addition of Bank of Choice and Community Banks of Colorado in the last half of 2011. FDIC loss sharing income represents the income or loss recognized in connection with our loss sharing agreements with the FDIC, and is discussed in greater detail below. The table below details the components of non-interest income during the three and six months ended June 30, 2012 and 2011, respectively (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
FDIC loss sharing income	\$ 1,430	\$ 1,924	\$ 1,442	\$ 6,399
Service charges	4,691	3,700	9,067	7,463
Bank card fees	2,020	1,759	4,321	3,540
Gain on sales of mortgages, net	294	357	603	461
Gain on sale of securities, net		158	674	192
Gain on recoveries of previously charged-off acquired loans	257	27	1,790	47
Other non-interest income	1,357	1,548	2,422	1,991
Total non-interest income	\$ 10,049	\$ 9,473	\$ 20,319	\$ 20,093

Table of Contents

Bank card fees are comprised primarily of interchange fees on the debit cards that we have issued to our clients. These transactional charges totaled \$2.0 million and \$1.8 million during the three months ended June 30, 2012 and 2011, and \$4.3 million and \$3.5 million during the six months ended June 30, 2012 and 2011. Bank of Choice and Community Banks of Colorado had substantially fewer debit cards issued and, as a result, the addition of those banks' bank card fees did not mirror that of NBH Bank during similar time periods. Other bank card fees include merchant services fees and credit card fees.

Gain on recoveries of previously charged-off acquired loans represents recoveries on loans that were previously charged-off by the predecessor bank prior to takeover by the FDIC. A portion of these recoveries are shared with the FDIC and the sharing of these recoveries is reflected as reimbursement to FDIC for recoveries on non-covered loans.

Years ended December 31, 2011 and 2010

Non-interest income totaled \$89.5 million and \$42.2 million for the years ended December 31, 2011 and 2010, respectively. The primary components of non-interest income during 2011 were the bargain purchase gain of \$60.5 million resulting from the Bank of Choice acquisition, service charges, which totaled \$16.8 million, and FDIC loss sharing expense of \$4.7 million. The primary driver of non-interest income in 2010 was the \$37.8 million bargain purchase gain that resulted from the Hillcrest Bank acquisition. The table below details the components of non-interest income during the years ended December 31, 2011 and 2010, respectively (in thousands):

	2011	2010
FDIC loss sharing income (expense)	\$ (4,722)	\$ 2,236
Service charges	16,810	1,094
Bank card fees	7,611	517
Bargain purchase gain	60,520	37,778
Gain on sale of mortgages	1,103	268
Gain (loss) on sale of securities	(645)	11
Gain on recoveries of previously charged-off acquired loans	5,902	
Other non-interest income	2,907	259
Total non-interest income	\$ 89,486	\$ 42,163

Excluding the bargain purchase gain associated with the acquisition of Bank of Choice, for the year ended December 31, 2011, 58.0% of our non-interest income was service charges. Non-sufficient funds charges and overdraft fees represented the largest component of service charges and totaled \$13.6 million during 2011.

FDIC loss sharing income (expense)

FDIC loss sharing income (expense) represents the income or loss recognized in connection with the changes in the FDIC indemnification asset and the clawback liability, in addition to the actual reimbursement of costs/recoveries of resolution of covered assets from the FDIC. The primary drivers of the FDIC loss sharing income (expense) are the FDIC reimbursements of the costs of resolving covered assets and the accretion related to the indemnification asset.

Table of Contents

Three and six months ended June 30, 2012 and 2011

Activity in the FDIC loss sharing income (expense) during the three and six months ended June 30, 2012 and 2011 was as follows (in thousands):

	For the three months ended June 30,		For the six months ended June 30,	
	2012	2011	2012	2011
FDIC indemnification asset accretion	\$ (2,646)	\$ 1,509	\$ (6,333)	\$ 3,739
Clawback liability amortization	(357)	(167)	(711)	(327)
Clawback liability remeasurement	1,077		1,067	
Reimbursement to FDIC for gain on sale	(163)		434	117
Reimbursement to FDIC for recoveries			(1)	23
FDIC reimbursement of costs of resolution of covered assets	3,519	582	6,986	2,847
Total	\$ 1,430	\$ 1,924	\$ 1,442	\$ 6,399

Years ended December 31, 2011 and 2010

Activity in the FDIC loss sharing income (expense) during the years ended December 31, 2011 and 2010 was as follows (in thousands):

	2011	2010
FDIC indemnification asset accretion	\$ (6,132)	\$ 1,689
Clawback liability amortization	(845)	(117)
Clawback liability remeasurement	(2,778)	
Reimbursement to FDIC for gain on sale of and income from covered OREO	(1,130)	
Reimbursement to FDIC for recoveries on non-covered loans	(1,227)	
FDIC reimbursement of costs of resolution of covered assets	7,390	664
Total	\$ (4,722)	\$ 2,236

We recorded the FDIC indemnification asset at its estimated fair value of \$159.7 million at the date of the Hillcrest Bank acquisition and an additional \$151.0 million at the date of the Community Banks of Colorado acquisition. The initial fair values were established by discounting the expected future cash flows with a market discount rate for like maturity and risk instruments. The discount is accreted to income in connection with the expected timing of the related cash flows, and may increase or decrease from period to period due to changes in amounts and timing of expected cash flows from covered loans and OREO.

During 2011, we recognized negative accretion of \$6.1 million and in 2010 we recognized \$1.7 million of positive accretion related to the FDIC indemnification asset. The negative accretion in 2011 resulted from an increase in actual and expected cash flows on the underlying covered assets, resulting in lower expected reimbursements from the FDIC. The increase in expected cash flows from these underlying assets, which was driven by an increase in expected cash flows in 10 of the 14 loan pools remeasured during 2011, is reflected in increased accretion rates on covered loans and is being recognized over the remaining expected lives of the underlying covered loans as an adjustment to yield. The decrease in expected cash flows in the remaining four loan pools is reflected as a \$5.0 million provision for loan loss on loans accounted for under ASC Topic 310-30.

In September 2011, we received \$83.5 million from the FDIC for reimbursement of losses that occurred from the date of acquisition of Hillcrest Bank through June 30, 2011, and in December 2011, we received \$5.6 million for reimbursements of losses that occurred during the third quarter of 2011, all in accordance with our loss sharing agreements. As part of the FDIC loss sharing agreement, we share equally in recoveries of loans that had been

Table of Contents

previously charged-off by the acquired institution (Hillcrest Bank and Community Banks of Colorado in this case) with the FDIC. This recovery-sharing arrangement resulted in \$1.2 million of expense during the year ended December 31, 2011 that represents our reimbursement to the FDIC for their portion of these recoveries and is represented in the above table as Reimbursement to FDIC for recoveries on non-covered loans.

Non-Interest Expense

Our operating strategy is to capture the efficiencies available by consolidating the operations of our acquisitions and several of our key operating objectives affect our non-interest expense. First, immediately following each of our four acquisitions, we began efforts to consolidate as many functions as possible and we completed the conversion to our new data processing platform in phases. The first phase was completed during the second quarter of 2011, and the second phase was completed during the fourth quarter of 2011 in connection with the merger of Hillcrest Bank into NBH Bank under a single charter. Our Community Banks of Colorado and Bank of Choice acquisitions were converted in May 2012 and July 2012, respectively. We incurred significant professional fees related to the preparation and conversion of these acquisitions. Second, we believe the merger of Hillcrest Bank into NBH Bank, as well as the conversion and integration of Bank of Choice and Community Banks of Colorado, will provide opportunities to further streamline operations and increase efficiencies. Third, our business strategy includes growth strategies that may require added expenses to be incurred as we grow our operations through acquisitions and organic growth.

We expect to incur certain expenses in connection with our initial public offering that may impact our earnings. As we are not selling new shares in our initial public offering, none of these expenses will be offset against any proceeds, but will be expensed. Such expenses include underwriting discounts and related fees, listing fees on the New York Stock Exchange and related registration and filing fees, printing fees, legal and accounting expenses. We estimate that these expenses will total approximately \$5.0 million, however readers are cautioned that this is an estimate. Additionally, we expect to incur stock based compensation on awards that have a public listing vesting requirement. As discussed below, at June 30, 2012, we had \$3.5 million of stock-based compensation that had previously been deferred, and we expect that at the time of our initial public offering, \$5.0 million of stock-based compensation will have been deferred. We may also incur expenses related to the changes in the value of our warrant liabilities or our value appreciation rights in connection with fluctuations in our share price upon and after our initial public offering.

Three and six months ended June 30, 2012 and 2011

	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Salaries and employee benefits	22,631	15,944	45,044	30,017
Occupancy and equipment	4,740	2,427	9,277	5,260
Professional fees	3,357	1,944	6,248	4,271
Telecommunications and data processing	3,488	2,634	7,219	4,921
Marketing and business development	1,612	918	2,530	1,743
Other real estate owned expenses	63	1,515	8,684	4,453
Problem loan expenses	2,726	871	4,437	2,025

Acquisition related costs	15	339	870	474
Loss (gain) from change in fair value of warrant liability	(589)	791	137	791
Other non-interest expense	3,543	1,708	6,651	3,403
Total non-interest expense	45,301	32,295	98,274	63,148

Table of Contents

Salaries and employee benefits continues to be the largest component of non-interest operating expense. Exclusive of stock-based compensation expense noted below, salaries and employee benefits totaled \$20.5 million and \$11.6 million for the three months ended June 30, 2012 and 2011, and \$40.7 million and \$21.4 million for the six months ended June 30, 2012 and 2011. Increases reflect staff added as part of the Bank of Choice and Community Banks of Colorado acquisitions in the second half of 2011 along with addition of several key corporate and sales staff during 2012.

Salaries and employee benefits included \$2.1 million and \$4.3 million of stock-based compensation expense during the three months ended June 30, 2012 and 2011, respectively, and \$4.3 million and \$8.6 million during the six months ended June 30, 2012 and 2011, respectively. The expense associated with stock-based compensation is being recognized by tranche over the requisite service period and at June 30, 2012, there was \$7.6 million of total unrecognized compensation expense related to non-vested stock options and \$6.1 million of total unrecognized compensation expense related to non-vested restricted stock, which is expected to be recognized over a weighted average period of 0.5 years and 0.6 years, respectively.

Stock-based compensation continues to trend downward as a result of the vesting schedules of awards granted early in the Company's formation, as is discussed in more detail below. However, in accordance with ASC 718, and as further discussed below, we are not yet recognizing the expense related to any awards that have a vesting requirement of the Company's shares becoming publicly listed on a national exchange. Upon listing on a national exchange, we will immediately recognize an expense catch-up for the portion of the expense that has been deferred until that vesting criterion is met. At June 30, 2012, the deferred portion of expense related to awards that have a public listing vesting requirement was \$3.5 million.

Telecommunications and data processing expense totaled \$3.5 million for the three months ended June 30, 2012 compared to \$2.6 million during the three months ended June 30, 2011, an increase of \$0.9 million, primarily due to the impact of our Bank of Choice and Community Banks of Colorado acquisitions in the second half of 2011. These expenses contain both fixed costs and volume-based components driven by the number of customer accounts. While there is a cost associated with each additional account, additional efficiencies are available due to a lower incremental cost per account at higher levels of account volume.

Significant components of our non-interest expense are our problem loan expenses and OREO related expenses. We incur these expenses in connection with the resolution process of our acquired troubled loan portfolios. During the six months ended June 30, 2012, we incurred \$8.7 million of OREO related expenses and \$4.4 million of problem loan expenses. Of the \$13.1 million in collective OREO and problem loan expenses incurred during the six months ended June 30, 2012, \$11.7 million was covered by loss sharing agreements with the FDIC. The losses on covered assets that are reimbursable from the FDIC are based on the book value of the related covered assets as determined by the FDIC at the date of acquisition, and the FDIC's book value does not necessarily correlate with our book value of the same assets. This difference is primarily because we recorded the OREO at fair value at the date of acquisition in accordance with applicable accounting guidance. Any losses recorded after the acquisition date are recorded at the full-loss value in other non-interest expense, and any related reimbursement from the FDIC is recorded in non-interest income as FDIC loss sharing income.

Occupancy and equipment expense totaled \$4.7 million and \$2.4 million for the three months ended June 30, 2012 and 2011, and \$9.3 million and \$5.3 million for the six months ended June 30, 2012 and 2011. The increases are driven by impact of our Bank of Choice and Community Banks of Colorado acquisitions in the second half of 2011.

Professional fees totaled \$3.4 million and \$1.9 million for the three months ended June 30, 2012 and 2011, and \$6.2 million and \$4.2 million for the six months ended June 30, 2012 and 2011. The increases are driven by impact of our Bank of Choice and Community Banks of Colorado acquisitions in the second half of 2011.

Table of Contents

Years ended December 31, 2011 and 2010

Operating results for the year ended December 31, 2011 included non-interest expense of \$155.5 million, compared to \$49.0 million for the year ended December 31, 2010. The primary reason for the increase was due to the fact that our company had been operating for twelve months during 2011 compared to a partial quarter during the three months ended December 31, 2010, and we acquired two banks in 2011.

The table below details the significant components of non-interest expense for the years ended December 31, 2011 and 2010, respectively (in thousands):

	For the years ended December 31,	
	2011	2010
Salaries and employee benefits	\$ 67,480	\$ 25,876
Occupancy and equipment	17,975	1,392
Professional fees	14,250	1,338
Telecommunications and data processing	12,905	849
Marketing and business development	6,034	65
Other real estate owned expenses	7,064	673
Problem loan expenses	4,389	615
Intangible asset amortization	4,359	
FDIC deposit insurance	4,550	712
ATM/debit card expenses	2,892	206
Acquisition transaction costs	4,935	14,076
Loss (gain) from change in fair value of warrant liability	(56)	44
Other non-interest expenses	8,761	3,135
Total non-interest expense	\$ 155,538	\$ 48,981

Salaries and employee benefits is the largest component of non-interest operating expense. During the year ended December 31, 2011, salary and employee benefits totaled \$67.5 million. In the Hillcrest Bank and Bank Midwest acquisitions, the majority of key lending functions were not retained as we are implementing a different lending strategy than the predecessor banks. During the period, several key positions were staffed and additional hiring was in process as we build a workforce to support and grow the Company.

Included in the \$67.5 million of salaries and employee benefits for the year ended December 31, 2011 was \$12.6 million of expense related to stock-based compensation. In connection with the formation of the Company in 2009, all members of the board of directors and executive management and other select members of management were granted stock-based compensation arrangements that contain a variety of vesting requirements over the course of several years. During the fourth quarter of 2011, we reversed approximately \$4.5 million of previously recorded stock-based compensation expense, of which \$2.9 million related to expense recognized during 2010, in connection with the 134,167 restricted shares and 402,500 stock options that were forfeited by our former Chief Financial Officer upon his separation from the Company. Also during the fourth quarter of 2011, the Company granted 195,000 shares of restricted stock and 993,000 stock options all of which are subject to a variety of vesting requirements, including the Company's shares becoming publicly listed on a national exchange. In accordance with ASC Topic 718, the Company will start recognizing compensation expense on the grants that have vesting requirements tied to the Company's shares becoming listed on a national exchange subsequent to that vesting requirement being met, with an expense recognition catch-up for the portion of the expense that has been delayed until that vesting criteria is met. As a result, no expense was recorded on these particular grants during 2011. The expense associated with stock-based compensation is being recognized by tranche over the requisite service period and at December 31, 2011, there was \$8.2 million of total unrecognized compensation expense related to non-vested stock options and \$7.1 million of total unrecognized compensation expense related to non-vested restricted stock, which is expected to be recognized over a weighted average period of 0.8 years and 1.0 years, respectively.

Table of Contents

The valuation methodologies employed in determining the expense associated with stock-based compensation vary widely, as do the award types and the subjective assumptions used in those valuation methodologies. As a result, these differences in practice can have a material impact on the financial performance of us or our peers, and can limit meaningful comparisons between our performance over different periods and the performance results of our peers.

Occupancy and equipment was \$18.0 million and \$1.4 million for the years ended, December 31, 2011 and 2010, respectively, an increase of \$16.6 million. The acquisitions of Bank of Choice, Bank Midwest, Community Banks of Colorado, and Hillcrest Bank and the related additional facilities are the primary reason for the increase.

For the year ended December 31, 2011, professional fees totaled \$14.3 million, exclusive of \$4.9 million of professional fees related to due diligence and transactional expenses on potential and consummated acquisitions that are included in acquisition related costs in the consolidated statements of operations. Professional fees for the year ended December 31, 2011 included expenses related to the accounting and administration of the FDIC loss share agreements, the creation of the new operating platform and the merger of Hillcrest Bank into NBH Bank.

As a result of our acquisitions, telecommunications and data processing expense totaled \$12.9 million for the year ended December 31, 2011, an increase of \$12.1 million over 2010, primarily due to our acquisitions.

We incurred \$7.1 million of net OREO expenses in 2011, which was comprised of \$10.1 million of expenses, offset by \$3.1 million of gains on the sale of OREO properties as we moved these properties through the resolution process. The majority of the OREO expenses were covered by loss sharing agreements, and accordingly, have a corresponding income effect in the FDIC loss sharing income (expenses) in the statement of operations. OREO losses and related expenses covered under the loss sharing agreements that were incurred during 2011 were submitted to the FDIC, and have subsequently been paid to us, for reimbursement of \$26.0 million and \$12.2 million for Hillcrest Bank and Community Banks of Colorado, respectively.

Income taxes

Income taxes are accounted for in accordance with ASC 740, *Income Taxes*. Under this guidance, deferred income taxes are determined based on the estimated future tax effects of differences between the financial statement and tax basis of assets and liabilities given the provisions of enacted tax laws. Deferred income tax provisions and benefits are based on changes to the assets or liabilities from year to year. In providing for deferred taxes, we consider tax regulations of the jurisdictions in which we operate, estimates of future taxable income, and available tax planning strategies. If tax regulations, operating results, or the ability to implement tax-planning strategies varies, adjustments to the carrying value of the deferred tax assets and liabilities may be required.

Valuation allowances are based on the more likely than not criteria of ASC 740. For tax positions meeting the more likely than not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. Interest and penalties on uncertain tax positions are recognized as a component of income tax expense. If our assessment of whether a tax position meets or no longer meets the more likely than not threshold were to change, adjustments to income tax benefits may be required.

Three and six months ended June 30, 2012 and 2011

Income tax expense totaled \$1.7 million in the second quarter of 2012 as compared with \$1.1 million in the second quarter of 2011. These amounts equate to effective tax rates of 39.1% and 40.4% for the respective periods. Income tax expense for the six months ended June 30, 2012 and 2011 totaled \$2.8 million and \$3.2 million, respectively, equating to effective tax rates of 39.3% and 35.9%. The increase in the effective tax rate for the six months ended June 30, 2012 as compared to the six months ended June 30, 2011 is primarily attributable to:

- (i) increased taxable income during 2012.
- (ii) higher state taxes and nondeductible costs associated with compensation.

Table of Contents

Years ended December 31, 2011 and 2010

Income tax expense totaled \$27.4 million and \$3.0 million for 2011 and 2010, respectively. These amounts equate to effective rates of 39.5% and 32.8% for the respective periods. The changes in the effective tax rate between the periods is primarily attributable to increased taxable income during 2011 and 2010.

Additional information regarding income taxes can be found in note 22 of the notes to our audited consolidated financial statements.

Liquidity and Capital Resources

Liquidity is monitored and managed to ensure that sufficient funds are available to operate our business and pay our obligations to depositors and other creditors, while providing ample available funds for opportunistic and strategic investment. Liquidity is represented by our cash and cash equivalents and pledgeable investment securities, and are detailed in the table below as of June 30, 2012 and December 31, 2011 (in thousands):

	June 30, 2012	December 31, 2011
Cash and due from banks	\$ 74,671	\$ 93,862
Due from Federal Reserve Bank of Kansas City	519,625	1,421,734
Federal funds sold and interest bearing bank deposits	110,290	112,541
Pledgeable investment securities, at fair value	2,268,094	1,670,924
Total	\$ 2,972,680	\$ 3,299,060

Total liquidity decreased \$326.4 million from December 31, 2011 to June 30, 2012. The decrease was largely driven by our roll off of high-priced time deposits. Additionally, Due from the Federal Reserve Bank of Kansas City decreased \$902.1 million during the six months ended June 30, 2012 as a result of our investment securities purchases.

Our acquisitions have significantly increased our liquidity position. Net of settlement amounts paid to the respective sellers, we acquired \$1.5 billion of cash and cash equivalents and \$290.6 million of investment securities available-for-sale in our completion of the Hillcrest Bank and Bank Midwest acquisitions. Our acquisitions of the Bank of Choice and Community Banks of Colorado provided \$402.0 million and approximately \$250.2 million of additional cash, respectively, as the FDIC contributed cash as a part of the purchase discount in each of these transactions.

Aside from the deployment of our capital and cash received from acquisitions, our primary sources of funds are deposits from clients, prepayments and maturities of loans and investment securities, the sale of investment securities, reimbursement of covered asset losses from the FDIC and the funds provided from operations. Additionally, we anticipate having access to third party funding sources, including the ability to raise funds through the issuance of shares of our common stock or other equity or equity-related securities, incurrence of debt, and federal funds purchased, that may also be a source of liquidity. We anticipate that these sources of liquidity would provide adequate funding and liquidity for at least a 12 month period.

Our primary uses of funds are loan originations, investment security purchases, withdrawals of deposits, settlement of repurchase agreements, capital expenditures, operating expenses and debt payments, particularly subsequent to acquisitions. For additional information regarding our operating, investing, and financing cash flows, see our consolidated statements of cash flows in the accompanying consolidated financial statements included elsewhere in this prospectus.

Exclusive from the investing activities related to acquisitions, our primary investing activities are sales and purchases of investment securities and originations and pay offs and pay downs of loans. At June 30, 2012,

Table of Contents

pledgeable investment securities represented our largest source of liquidity. Our available-for-sale investment securities are carried at fair value and our held-to-maturity securities are carried at amortized cost. Our collective investment securities portfolio totaled \$2.5 billion at June 30, 2012. Included in the \$2.5 billion were pre-tax net unrealized gains of \$46.0 million. The gross unrealized gains are detailed in note 2 of our consolidated financial statements for the three and six months ended June 30, 2012. As of June 30, 2012, our investment securities portfolio consisted primarily of mortgage-backed securities, all of which were issued or guaranteed by U.S. Government agencies or sponsored agencies, and prime auto asset-backed securities. The anticipated repayments and marketability of these securities offer substantial resources and flexibility to meet new loan demand, reinvest in the investment securities portfolio, or provide optionality for reductions in our deposit funding base.

Through June 30, 2012, the majority of our capital expenditures have been through our acquisitions and the related subsequent branch purchases. Aside from these, our capital outlays were \$33.8 million for the first six months ended June 30, 2012 and \$21.8 million during 2011. The majority of capital outlays were related to the development and implementation of our new operating platform and the build out of the new facilities in downtown Kansas City, Missouri that were completed during the summer of 2011 and now house a significant portion of our operations and the purchase of branch assets from the FDIC subsequent to our acquisitions.

At present, financing activities are limited to changes in repurchase agreements, time deposits, the clawback liability and the repayment of any FHLB advances assumed in acquisitions. Maturing time deposits, and holders of \$569.8 million of time deposits assumed in the Hillcrest Bank, Bank of Choice, and Community Banks of Colorado acquisitions that have not accepted new terms, represent a potential use of funds, as the depositors have the option to move the funds without penalty. As of June 30, 2012, \$1.7 billion of time deposits were scheduled to mature within 12 months. Based on the current interest rate environment, market conditions, and our consumer banking strategy with lower cost transaction accounts, we expect to replace a significant portion of those maturing time deposits.

In July 2011, we joined the FHLB of Des Moines and since have purchased \$7.5 million of FHLB stock as is required by the membership agreement. Through this relationship, we anticipate that we could obtain additional liquidity by pledging unencumbered qualifying loans through borrowings from the FHLB.

As the Company matures, we expect that our liquidity at the holding company will subsequently decrease as we continue to deploy available capital and until such time that our subsidiary bank is permitted to pay, and does pay dividends up to the holding company, which is discussed more below. Additionally, our liquidity may fluctuate due to changes in pledgeable investment securities in response to changes in loan and deposit balances.

NBH Bank is prohibited from paying dividends to the holding company until December 2013. As a result, the holding company's current sources of funds are limited to cash and cash equivalents on hand, which totaled \$110.8 million at June 30, 2012. The holding company may seek to borrow funds and raise capital in the future, the success and terms of which will be subject to market conditions and other factors.

From our inception to date, we have not paid cash dividends to holders of our common stock. Following the completion of this offering, we intend to commence the payment of a \$0.05 per share dividend on a quarterly basis to holders of our common stock. It is also our intent to establish a dividend policy pursuant to which we will distribute an amount equal to 25% of our consolidated annual net income in the form of dividends to holders of our common stock. See Risk Factors Risks Relating to Our Class A Common Stock Our ability to pay dividends is subject to regulatory limitations and our bank subsidiary's ability to pay dividends to us, which is also subject to regulatory limitations.

Through June 30, 2012, stockholders' equity has been most significantly impacted by the repurchase of 6,382,024 shares in 2010 in connection with achieving compliance following the January 6, 2010 and April 23, 2010 interpretive guidance issued on the FDIC Policy Statement, changes in unrealized gains on securities, net of tax, and the retention of earnings. Exclusive of the \$127.6 million reduction in stockholders' equity related to the stock repurchase in 2010, stockholders' equity has increased \$123.1 million since our inception on June 16, 2009.

Table of Contents

As was discussed under Regulatory Capital, we have agreed to maintain capital levels of at least 10% tier 1 leverage ratio, 11% tier 1 risk-based capital ratio and 12% total risk-based capital ratio at NBH Bank until December 2013, and at June 30, 2012 and at December 31, 2011 and 2010, NBH Bank exceeded all capital requirements to which it was subject.

Asset/Liability Management and Interest Rate Risk

The principal objective of the Company's asset and liability management function is to evaluate the interest rate risk within the balance sheet and pursue a controlled assumption of interest rate risk while maximizing earnings and preserving adequate levels of liquidity and capital. The asset and liability management function is under the guidance of the Asset Liability Committee from direction of the board of directors. The Asset Liability Committee meets monthly to review, among other things, the sensitivity of the Company's assets and liabilities to interest rate changes, local and national market conditions and rates. The Asset Liability Committee also reviews the liquidity, capital, deposit mix, loan mix and investment positions of the Company.

Management and the board of directors are responsible for managing interest rate risk and employing risk management policies that monitor and limit this exposure. Interest rate risk is measured using net interest income simulations and market value of portfolio equity analyses. These analyses use various assumptions, including the nature and timing of interest rate changes, yield curve shape, prepayments on loans, securities and deposits, deposit decay rates, pricing decisions on loans and deposits, reinvestment/replacement of asset and liability cash flows.

Instantaneous parallel rate shift scenarios are modeled and utilized to evaluate risk and establish exposure limits for acceptable changes in net interest margin. These scenarios, known as rate shocks, simulate an instantaneous change in interest rates and use various assumptions, including, but not limited to, prepayments on loans and securities, deposit decay rates, pricing decisions on loans and deposits, reinvestment and replacement of asset and liability cash flows.

We also analyze the economic value of equity as a secondary measure of interest rate risk. This is a complementary measure to net interest income where the calculated value is the result of the market value of assets less the market value of liabilities. The economic value of equity is a longer term view of interest rate risk because it measures the present value of the future cash flows. The impact of changes in interest rates on this calculation is analyzed for the risk to our future earnings and is used in conjunction with the analyses on net interest income.

Our interest rate risk model indicated that the Company was asset sensitive in terms of interest rate sensitivity at June 30, 2012. The table below illustrates the impact of an immediate and sustained 200 and 100 basis point increase and a 50 basis point decrease in interest rates on net interest income based on the interest rate risk model at June 30, 2012:

Hypothetical	
Shift in Interest	
Rates (in bps)	% Change in Projected Net Interest Income
200	6.84%
100	4.54%
-50	-0.77%

Many assumptions are used to calculate the impact of interest rate fluctuations. Actual results may be significantly different than our projections due to several factors, including the timing and frequency of rate changes, market conditions and the shape of the yield curve. The computations of interest rate risk shown above do not include actions that management may undertake to manage the risks in response to anticipated changes in interest rates and actual results may also differ due to any actions taken in response to the changing rates.

Table of Contents

The federal funds rate is the basis for overnight funding and the market expectations for changes in the federal funds rate influence the yield curve. The federal funds rate is currently at 0.25% and has been since December 2008. Should interest rates decline further, net interest margin and net interest income would be compressed given the current mix of rate sensitive assets and liabilities.

As part of the asset/liability management strategy, management has emphasized the origination of shorter duration loans as well as variable rate loans to limit the negative exposure to a rate increase. Additionally, the scheduled maturity of our existing loan portfolio, particularly our covered loans, is generally short-term. The strategy with respect to liabilities has been to emphasize transaction accounts, particularly non-interest or low interest-bearing non-maturing deposit accounts which are less sensitive to changes in interest rates. In response to this strategy, non-maturing deposit accounts have been steadily increasing and totaled 52% of total deposits at June 30, 2012 compared to 45% at December 31, 2011. We currently have no brokered time deposits and intend to focus on our strategy of increasing non-interest or low interest-bearing non-maturing deposit accounts and accordingly, we have no current plans to use brokered deposits in the near future.

Off-Balance Sheet Activities

In the normal course of business, we are a party to various contractual obligations, commitments and other off-balance sheet activities that contain credit, market, and operational risks that are not required to be reflected in our consolidated financial statements. The most significant of these are the loan commitments that we enter into to meet the financing needs of clients, including commitments to extend credit, commercial and consumer lines of credit and standby letters of credit. Unused commitments do not necessarily represent future credit exposure or cash requirements, as commitments often expire without being drawn upon. We do not anticipate any material losses arising from commitments or contingent liabilities and we do not believe that there are any material commitments to extend credit that represent risks of an unusual nature. These financing commitments are detailed in the following table (in thousands):

	June 30, 2012			December 31, 2011		
	Covered	Not Covered	Total	Covered	Not Covered	Total
Commitments to fund loans:						
Residential	\$	\$ 68,711	\$ 68,711	\$ 1,517	\$ 30,194	\$ 31,711
Commercial and commercial real estate	574	21,729	22,303	2,437	38,937	41,374
Construction and land development	441	331	772	3,565	776	4,341
Consumer		8,992	8,992		39,690	39,690
Credit card lines of credit		17,581	17,581		20,738	20,738
Unfunded commitments under lines of credit	48,786	188,005	236,791	68,223	135,001	203,224
Commercial and standby letters of credit	5,584	7,892	13,476	3,051	16,986	20,037
Total	\$ 55,385	\$ 313,241	\$ 368,626	\$ 78,793	\$ 282,322	\$ 361,115

Table of Contents**Contractual Obligations**

In addition to the financing commitments detailed above under Off-Balance Sheet Activities, in the normal course of business, we enter into contractual obligations that require cash settlement. The following table summarizes the contractual cash obligations as of December 31, 2011 and the expected timing of those payments (in thousands):

	Less than 1 year	1-3 years	3-5 years	More than 5 years	Total
Long-term debt obligations	\$	\$	\$	\$	\$
Capital lease obligations					
Operating lease obligations	1,888	3,286	3,034	14,555	22,763
Purchase obligations	4,182	12,551	1,708		18,441
Time deposits	2,316,524	362,727	98,228	7,117	2,784,596
Clawback liability				29,994	29,994
Value appreciation rights (1)	575				575
Total	\$ 2,323,169	\$ 378,562	\$ 102,970	\$ 51,666	\$ 2,856,369

- (1) Represents the value appreciation rights issued in connection with the Hillcrest Bank acquisition, as cash settlement is required. At December 31, 2011, we also had \$1.2 million of value appreciation rights issued in connection with Bank of Choice and Community Banks of Colorado acquisitions that may be settled in cash or our stock at the FDIC's option and are not included in this table.

Impact of Inflation and Changing Prices

The primary impact of inflation on our operations is reflected in increasing operating costs and is reflected in non-interest expense. Unlike most industrial companies, virtually all of our assets and liabilities are monetary in nature. As a result, changes in interest rates have a more significant impact on our performance than do changes in the general rate of inflation and changes in prices. Interest rate changes do not necessarily move in the same direction, or have the same magnitude, as changes in the prices of goods and services. Although not as critical to the banking industry as many other industries, inflationary factors may have some impact on our ability to grow, total assets, earnings, and capital levels. We do not expect inflation to be a significant factor in the near future.

Select Historical Financial Data Derived from Assets Acquired and Liabilities Assumed

Pursuant to a request for relief submitted to, and not objected to by the SEC, the unaudited financial information presented below, in conjunction with the audited statements of assets acquired and liabilities assumed, is provided in lieu of certain historical financial information of the assets acquired and liabilities assumed as required by Rule 3-05 and Article 11 of Regulation S-X. The information presented below should be read in conjunction with the statements of assets acquired and liabilities assumed and the notes thereto for the respective transactions.

Hillcrest Bank

Prior to October 22, 2010, the former Hillcrest Bank operated as a commercial bank based in Overland Park, Kansas. Plagued by credit deterioration and diminished capital levels, Hillcrest Bank was ultimately seized by bank regulators and the FDIC was appointed as receiver, at which time the Company acquired selected assets and assumed selected liabilities of this failed bank. The acquisition and assumption of the Hillcrest Bank assets and liabilities served as the commencement of our banking operations.

Table of Contents

The information provided below is derived from information and systems previously maintained and provided by the former Hillcrest Bank and the FDIC. The financial information presented is not indicative of the financial condition or results of operations that may be expected from the assets acquired and liabilities assumed due to the loss sharing agreements with the FDIC, the fair value adjustments taken at the time of acquisition and the related amortization and accretion of those fair value adjustments, where applicable, and due to significant operating strategy differences.

The table below presents information regarding the book balance at the October 22, 2010 acquisition date of acquired interest-earning assets, as well as the related fair value as recorded on the date of acquisition and the average months to maturity and the average effective yield on those assets (dollars in thousands):

	Book balance	Fair Value	Average Months to Maturity (1)	Average Effective Yield
Due from Federal Reserve Bank	\$ 128,531	\$ 128,531	0.0	0.3%
Investment securities	239,297	239,297	42.0	2.0%
Loans:				
Commercial and industrial	155,530	126,071	16.0	6.6%
Commercial construction	173,313	132,995	11.7	5.6%
Commercial real estate	231,202	189,465	12.4	5.8%
Multifamily	76,642	67,088	25.2	4.3%
Land and development	342,928	233,032	10.1	5.5%
Single family residential	21,911	19,540	8.6	4.4%
Consumer	3,486	3,090	26.0	6.0%
Leases	11,382	10,061	33.0	12.5%
Total loans	\$ 1,016,394	\$ 781,342		
Total interest-earning assets acquired	\$ 1,384,222	\$ 1,149,170		

(1) Mortgage-backed investment securities are presented at the estimated weighted average life based on various assumptions including prepayment speeds.

Inclusive of the \$37.8 million gain on bargain purchase and the \$170 million of capital infused upon consummation, the capital ratios of Hillcrest Bank, N.A. were as follows at the time of acquisition:

Tier 1 leverage ratio	13.11%
Tier 1 risk-based capital ratio	93.39%
Total risk-based capital ratio	93.39%

At the acquisition date, Hillcrest Bank was considered well-capitalized under all applicable regulatory capital ratios.

Bank Midwest

Prior to the Bank Midwest transaction, the acquired assets and assumed liabilities were operated by Dickinson Financial Corporation through their subsidiary Bank Midwest. Accordingly, the financial information presented below is based on information previously maintained and provided by DFC and is not inclusive of the fair value adjustments recorded upon consummation of the transaction. As such, the financial information presented is not necessarily indicative of the financial condition or results of operations that may be expected from the assets acquired and liabilities assumed because of the required amortization and accretion of the fair value adjustments and differences in operating strategies.

Table of Contents

The table below presents historical information relative to the average balances, interest earned and paid and average rates of interest earning assets acquired and interest bearing liabilities assumed in connection with the Bank Midwest acquisition (dollars in thousands):

	For the period January 1, 2010 through December 10, 2010			For the period January 1, 2009 through December 31, 2009		
	Average Balance	Interest	Average Rate	Average Balance	Interest	Average Rate
Interest earning assets (1):						
Loans receivable, net	\$ 941,983	\$ 47,142	5.31%	\$ 940,458	\$ 50,412	5.36%
Investment securities (2)	65,100	153	0.25%	147,422	369	0.25%
Total interest earning assets	\$ 1,007,083	\$ 47,295	4.98%	\$ 1,087,880	\$ 50,781	4.67%
Interest bearing liabilities:						
Savings deposits and interest bearing checking	\$ 618,099	\$ 4,155	0.71%	\$ 615,486	\$ 5,316	0.86%
Time deposits	1,587,239	32,867	2.20%	1,764,891	58,888	3.34%
Federal funds purchased and securities sold under agreements to repurchase	34,263	110	0.34%	77,590	303	0.39%
Total interest bearing liabilities	\$ 2,239,601	\$ 37,132	1.76%	\$ 2,457,967	\$ 64,507	2.62%

- (1) The \$1.4 billion of cash acquired by the Company was contributed by Dickinson Financial Corporation, the holding company of Bank Midwest, at the time of closing. As such, these amounts are not presented as overnight deposits.
- (2) Investment securities purchased included U.S. Treasury securities that served as collateral for securities sold under agreements to repurchase. Average balance of investment securities was estimated based on the average securities sold under agreements to repurchase and typical excess collateral positions of these instruments.

Loans

A further breakdown of the historical performance and composition of the acquired Bank Midwest loan portfolio is shown below, exclusive of fair value adjustments recorded at the time of acquisition (dollars in thousands):

	For the period from January 1, 2010 through December 10, 2010			For the year ended December 31, 2009		
	Average Balance	Yield	Effective Rate	Average Balance	Yield	Effective Rate
Commercial	\$ 150,565	4.65%	4.64%	\$ 163,633	4.02%	4.44%
Commercial Real Estate	411,116	5.59%	5.49%	409,127	5.61%	5.58%
Agriculture	65,204	4.90%	5.95%	59,625	5.64%	5.96%
Residential Real Estate	291,929	5.36%	5.28%	292,248	5.44%	5.43%
Consumer	23,169	4.79%	4.94%	15,825	5.44%	5.52%
Total	\$ 941,983	5.30%	5.31%	\$ 940,458	5.28%	5.36%

Core Deposit Intangible Asset

In assuming the deposit liabilities as part of the Bank Midwest acquisition, we believed that the customer relationships associated with the core deposits had an intangible value. This intangible value was measured in accordance with the guidance prescribed in ASC Topic 805/350, *Business Combinations* resulting in an initial

Table of Contents

estimated fair value of \$21.7 million. Factors that were analyzed to determine the value of the core deposit intangible asset included type of deposit, interest rates in effect at the time of assumption of the deposits, deposit retention assumptions, age of the deposit relationships and the maturity schedules of the time deposits. This core deposit intangible asset will be amortized straight-line over its expected useful life of 7 years and will result in approximately \$3.1 million of annual core deposit intangible amortization expense.

While the amortization of the core deposit intangible asset is a non-cash item and will not have a direct impact on cash flows or liquidity, it is considered to be a disallowed asset in the regulatory capital calculations and is a reduction to equity capital for those purposes. We do not expect that this will have a material adverse impact on our regulatory capital ratios.

We review and test the core deposit intangible asset for impairment at least annually to ensure that no impairment has occurred. Should we determine that subsequent impairment has occurred, we would record the impairment expense in the period in which that determination is made in the consolidated statement of operations.

Deposits

In the Bank Midwest acquisition, \$2.4 billion of deposits were assumed. The following table reflects the historical composition, by deposit type, and average rates paid on those deposits. Due to the limited historical data available on the specific deposits assumed, the average balances were calculated based on a simple average of month-end balances during the time periods shown and do not include the fair value adjustments recorded at the time of our assumption of these deposit liabilities (dollars in thousands):

	December 31, 2010		December 31, 2009	
	Average Balance	Average Rate	Average Balance	Average Rate
Non-interest bearing demand deposits	\$ 242,432	0.00%	\$ 233,488	0.00%
Interest bearing demand deposits	136,595	0.25%	130,839	0.27%
Money market	395,469	0.92%	399,227	1.13%
Savings	86,035	0.48%	85,420	0.50%
Time deposits	1,587,239	2.20%	1,764,891	3.34%
Total deposits	\$ 2,447,769	1.60%	\$ 2,613,864	2.46%

As of December 10, 2010, the assumed time deposits with balances over \$100,000 had remaining maturities as follows (in thousands):

Due in 3 months or less	\$ 78,928
Due in 3 to 6 months	94,195
Due in 6 to 12 months	142,958
Due over 12 months	31,716
Total	\$ 347,797

Bank of Choice

Prior to the Bank of Choice acquisition, Bank of Choice was operated as a community bank based in Greeley, Colorado. Bank of Choice was founded in 1997 and suffered significant credit quality deterioration and diminished capital levels, ultimately leading to its failure. On July 22, 2011, Bank of Choice was seized by bank regulators and the FDIC was appointed as receiver, at which time we acquired selected assets and assumed selected liabilities of this failed bank.

Table of Contents

The information provided below is derived from information and systems previously maintained and provided by Bank of Choice and the FDIC. The financial information presented is not indicative of the financial condition or results of operations that may be expected from the assets acquired and liabilities assumed, the fair value adjustments taken at the time of acquisition and the related amortization and accretion of those fair value adjustments, where applicable, and due to significant operating strategy differences.

The table below presents information regarding the book balance at the July 22, 2011 acquisition date of acquired interest-earning assets, as well as the related fair value as recorded on the date of acquisition and the average months to maturity and the average effective yield on those assets (in thousands):

	Book Balance	Fair Value	Average Months to Maturity	Average Effective Yield
Cash and due from banks	\$ 402,005	\$ 402,005	0.0	0.3%
Investment securities	144,209	144,209	66.0	2.3%
Loans:				
Commercial and industrial	77,279	69,020	33.4	5.8%
Commercial construction	135,821	88,212	22.1	5.7%
Commercial real estate	101,078	87,778	5.9	6.5%
Agriculture	16,437	15,819	80.4	6.0%
Single family residential investment	50,515	44,172	51.5	6.3%
Single family residential owner occupied	47,342	41,877	18.2	6.1%
Consumer	18,506	13,618	44.0	6.5%
Leases	761	751	35.0	5.9%
Total loans	\$ 447,738	\$ 361,247		
Total interest-earnings assets acquired	\$ 993,952	\$ 907,461		

Community Banks of Colorado

Prior to its failure on October 21, 2011, Community Banks of Colorado was operated as a community bank based in Greenwood Village, Colorado. Community Banks of Colorado was founded in 1973 and in recent years suffered significant credit quality deterioration and diminished capital levels that resulted in the bank's failure. Upon being seized by its primary regulators, the FDIC was appointed as receiver, at which time we acquired select assets and assumed select liabilities of Community Banks of Colorado from the FDIC.

The information provided below is derived from information and systems previously maintained and provided by the former Community Banks of Colorado and the FDIC. The financial information presented is not indicative of the financial condition or results of operations that may be expected from the assets acquired and liabilities assumed due to the loss sharing agreement with the FDIC, the fair value adjustments taken at the time of acquisition and the related amortization and accretion of those fair value adjustments, where applicable, and due to significant operating strategy differences.

Table of Contents

The table below presents information regarding the book balance at the October 21, 2011 acquisition date of acquired interest-earning assets, as well as the related fair value as recorded on the date of acquisition and the average months to maturity and the average effective yield on those assets (in thousands):

	Book Balance	Fair Value	Average Months to Maturity	Average Effective Yield
Due from Federal Reserve Bank	\$ 212,565	\$ 212,565	0.0	0.3%
Investment securities	11,361	11,361	9.2	.5%
Non-marketable securities	2,753	2,753	0.0	3.8%
Loans:				
Commercial and industrial	194,514	141,831	28.8	5.4%
Commercial real estate	461,402	346,323	45.7	5.3%
Agriculture	94,885	89,196	61.9	6.0%

Consumer	101,195	44,349	27.1	4.5%
Total loans	\$ 966,248	\$ 754,883		
Total interest-earnings assets acquired	\$ 1,192,927	\$ 981,562		

Table of Contents

BUSINESS

National Bank Holdings Corporation is a bank holding company that was incorporated in the State of Delaware in June 2009. In October 2009, we raised net proceeds of approximately \$974 million, through a private offering of our common stock. We completed the initial public offering of our Class A common stock in September 2012. We are executing a strategy to create long-term stockholder value through the acquisition and operation of community banking franchises and other complementary businesses in our targeted markets. We believe these markets exhibit attractive demographic attributes, are home to a substantial number of financial institutions, including troubled financial institutions, and present favorable competitive dynamics, thereby offering long-term opportunities for growth. Our emphasis is on creating meaningful market share with strong revenues complemented by operational efficiencies that we believe will produce attractive risk-adjusted returns.

We believe we have a disciplined approach to acquisitions, both in terms of the selection of targets and the structuring of transactions, which has been exhibited by our four acquisitions to date. As of June 30, 2012, we had approximately \$5.8 billion in assets, \$4.5 billion in deposits and \$1.1 billion in stockholders' equity. We currently operate a network of 101 full-service banking centers, with the majority of those banking centers located in the greater Kansas City region and Colorado. We believe that our established presence positions us well for growth opportunities in our current and complementary markets.

We have a management team consisting of experienced banking executives led by President and Chief Executive Officer G. Timothy Laney. Mr. Laney brings 30 years of banking experience, 24 of which were at Bank of America in a wide range of executive management roles, including serving on Bank of America's Management Operating Committee. In late 2007, Mr. Laney joined Regions Financial as Senior Executive Vice President and Head of Business Services. Mr. Laney leads our team of executives that have significant experience in completing and integrating mergers and acquisitions and operating banks. Additionally, our board of directors, led by Chairman Frank Cahouet, the former Chairman, President and Chief Executive Officer of Mellon Financial, is highly accomplished in the banking industry and includes individuals with broad experience operating and working with financial institutions, regulators and governance considerations.

Our Acquisitions

A key component of our growth strategy is to grow through the acquisition of financial institutions, including distressed financial institutions. A core skill set of the company is its ability to source, diligence and close transactions. We have performed due diligence on 20 banking institutions with total assets of \$28 billion, of which we submitted proposals to acquire eight banking institutions with total assets of \$14 billion and closed on four transactions with a total of \$6.0 billion of assets. We established our presence in the greater Kansas City region through two complementary acquisitions completed in the fourth quarter of 2010. On October 22, 2010, we acquired selected assets and assumed selected liabilities of Hillcrest Bank of Overland Park, Kansas from the FDIC. Through this transaction, we acquired nine full-service banking centers and 32 retirement center locations, which are predominantly located in the greater Kansas City region but also include one full-service banking center and six retirement centers in Colorado and two full-service banking centers and six retirement centers in Texas. Retirement centers offer full-service banking services to residents in retirement communities that value convenience and relationship banking. The centers are designed to be efficient and are located within the premises of each community center and typically measure approximately 130 square feet. They are staffed with a part-time banker and open for three hours per day to offer consumer banking services. The products and services are centered on traditional depository services, including checking, money market, and time deposit accounts. We do not have any current plans to further develop this business line.

On December 10, 2010, we completed our acquisition, without FDIC assistance, of a portion of the franchise of Bank Midwest, one of six subsidiaries of Dickinson Financial Corporation, that consisted of select performing loans and client deposits, and included 39 full-service banking centers. As a result of these

Table of Contents

acquisitions, at June 30, 2011 (the last date as of which data are available), we were the sixth largest depository institution in the Kansas City MSA ranked by deposits with a 5.2% deposit market share according to SNL Financial.

We expanded in the Colorado market through two complementary acquisitions beginning with the purchase of selected assets and assumption of selected liabilities of Bank of Choice, a state-chartered commercial bank based in Greeley, Colorado, from the FDIC on July 22, 2011, which included 16 full-service banking centers. On October 21, 2011, we acquired selected assets and assumed selected liabilities of Community Banks of Colorado, a state chartered bank based in Greenwood Village, Colorado, from the FDIC, which included 36 full-service banking centers in Colorado and four in California. The Community Banks of Colorado acquisition enhanced our penetration into the Colorado market, giving us a combined network of 52 full-service banking centers in that state and ranking us as the sixth largest depository institution by deposits with a 2.2% deposit market share as of June 30, 2011 (the last date as of which data are available) according to SNL Financial.

The following table summarizes certain highlights of our four acquisitions to date as of each s acquisition date:

	Community Banks of Colorado	Bank of Choice	Bank Midwest	Hillcrest Bank
Date Acquired	October 21, 2011	July 22, 2011	December 10, 2010	October 22, 2010
FDIC-assisted	Yes	Yes	No	Yes
Loss Share	Yes (1)	No	No	Yes (2)
Full-Service Banking Centers	40	16	39	9 (and 32 retirement centers)
Deposits (millions)	\$1,195	\$760	\$2,386	\$1,234
Assets (millions)	\$1,228	\$950	\$2,426	\$1,377
Primary Market	Colorado	Colorado	Greater Kansas City Region	Greater Kansas City Region

(1) Commercial Shared-Loss Agreement.

(2) Single Family Shared-Loss Agreement and Commercial Shared-Loss Agreement.

We believe we have a disciplined approach to acquisitions, which has been exhibited in our transactions to date. We believe that we have established critical mass in our current markets and have structured acquisitions that limit our credit risk, which has positioned us for attractive risk-adjusted returns. Further details of our acquisitions appear below.

Hillcrest Bank

On October 22, 2010, we acquired selected assets and assumed selected liabilities of Hillcrest Bank from the FDIC, as receiver. Hillcrest Bank was a state-chartered non-member bank, established on December 3, 1975 as Oak Park National Bank that subsequently changed its name to Oak Park Bank on May 1, 1987 and to Hillcrest Bank on January 1, 1997. Included in the transaction were 41 banking centers, 26 of which are in the greater Kansas City region (six of which are traditional banking centers and 20 of which are banking centers located within senior living facilities that provide convenient, limited scope banking services consisting primarily of time deposits to the employees and residents of these senior living facilities), eight of which are in Texas (two of which are full-service banking centers and six of which are in senior living facilities) and seven of which are in Colorado (one of which is a full-service banking center and six of which are in senior living facilities).

The Hillcrest Bank acquisition gave the Company assets with a fair value of \$1.4 billion, including \$781 million of loans, \$235 million of marketable investment securities, \$134 million of cash and cash equivalents, and \$226 million of other assets. Liabilities with a fair value of \$1.3 billion were also assumed, including

Table of Contents

\$1.2 billion of non-brokered deposits, \$84 million of FHLB advances, and \$21 million of other liabilities. The acquisition excluded deposits of \$250 million that were retained by the FDIC, and the FDIC made a cash contribution of \$183 million to us as part of the transaction.

The FDIC has agreed to absorb a portion of all future credit losses and workout expenses through a loss sharing arrangement that covers single-family mortgage loans for a period of 10 years and commercial loans, including OREO, for a period of five years (excluding \$3.1 million in consumer loans as of the date of acquisition). The coverage amounts are subject to loss thresholds as follows (in thousands):

Tranche	Commercial		Tranche	Single-family	
	Loss Threshold	Loss-Coverage Percentage		Loss Threshold	Loss-Coverage Percentage
1	up to \$295,592	60%	1	up to \$4,618	60%
2	\$295,592-405,293	0%	2	\$4,618-8,191	30%
3	>405,293	80%	3	>\$8,191	80%

We acquired other Hillcrest Bank assets that are not covered by the loss sharing arrangement with the FDIC, including cash, certain investment securities acquired at fair market value and other tangible assets. The loss sharing arrangement does not apply to subsequently acquired, purchased or originated assets. At June 30, 2012, the covered assets consisted of assets with a book value of \$456.0 million. The total UPB (or for OREO, the carrying amount) of the covered assets at June 30, 2012 was \$609.2 million. In connection with the Hillcrest Bank acquisition, we created the newly chartered Hillcrest Bank, N.A. to hold the acquired assets. Hillcrest Bank, N.A. was later merged into Bank Midwest as described under the heading *The Restructuring*.

Bank Midwest

In July 2010, we agreed to acquire, and on December 10, 2010 we completed, the acquisition of certain assets and liabilities formerly held by Bank Midwest, one of six banking subsidiaries owned by Dickinson Financial Corporation, a privately held bank holding company located in Kansas City, Missouri. The acquired assets and assumed liabilities included 39 of Bank Midwest's 58 banking centers, \$2.4 billion of Bank Midwest's \$3.3 billion of deposits and approximately \$905.4 million of Bank Midwest's \$2.4 billion of loans, and the rights to the name *Bank Midwest*.

Of the 39 banking centers included in the transaction, 25 are in the greater Kansas City region and the remaining 14 are elsewhere in Missouri. The transaction excluded all of Bank Midwest's banking centers that were located in Wal-Mart locations, deposits of \$862 million and all non-accrual loans and OREO, which were retained by Dickinson Financial Corporation.

The Bank Midwest acquisition gave us assets with a fair value of \$2.4 billion, including \$882 million of loans, \$1.4 billion of cash and cash equivalents and \$174 million of other assets. Liabilities with a fair value of \$2.4 billion were also assumed, including \$2.4 billion of non-brokered deposits and \$40 million of other liabilities. In connection with the Bank Midwest acquisition, we established the newly chartered national bank NBH Bank, N.A., originally with the name *Bank Midwest, N.A.*, to hold the acquired assets.

As a result of the Hillcrest and Bank Midwest acquisitions, we were, at June 30, 2011 (the last date as of which data are available), the sixth largest depository institution in the Kansas City MSA ranked by deposits with a 5.2% deposit market share, according to SNL Financial.

Bank of Choice

On July 22, 2011, our wholly owned bank subsidiary, Bank Midwest (now NBH Bank, N.A.), acquired selected assets and assumed selected liabilities of Bank of Choice from the FDIC as receiver. Bank of Choice was a Colorado state-chartered commercial bank established in 1896 and based in Greeley, Colorado. Included in this transaction were 16 full-service banking centers in Colorado.

Table of Contents

The Bank of Choice acquisition gave the Company assets with a fair value of \$950 million, including \$361 million of loans, \$134 million of marketable investment securities, \$402 million of cash and cash equivalents, and \$53 million of other assets. Liabilities with a fair value of \$889 million were also assumed, including \$760 million of non-brokered deposits, \$117 million of FHLB advances, and \$12 million of other liabilities.

We did not enter into a loss sharing agreement with the FDIC on the Bank of Choice acquisition, but rather the FDIC contributed a payment of \$274 million, consisting of a \$172 million asset discount and approximately \$102 million for the difference in liabilities assumed and assets acquired.

Community Banks of Colorado

On October 21, 2011, our wholly owned bank subsidiary, Bank Midwest (now NBH Bank, N.A.), acquired selected assets and assumed selected liabilities of Community Banks of Colorado from the FDIC as receiver. Community Banks of Colorado was a Colorado state-chartered, Fed-member, commercial bank established in 1973 as Bank of Cripple Creek and later changed its name to Community Banks of Colorado in 1995 and was based in Greenwood Village, Colorado. Included in this transaction were 40 full-service banking centers, 36 of which are in Colorado and four of which are in California.

The Community Banks of Colorado acquisition gave the Company assets with a fair value of \$1.2 billion, including \$755 million of loans, \$11 million of marketable investment securities, \$250 million of cash and cash equivalents, and \$212 million of other assets. Liabilities with a fair value of \$1.2 billion were also assumed, including \$1.2 billion of non-brokered deposits, \$16 million of FHLB advances, and \$17 million of other liabilities.

The FDIC has agreed to absorb a portion of all future credit losses and workout expenses through a loss sharing arrangement that covers the large majority of the Community Bank of Colorado's commercial loans and OREO (\$480 million) for a term of five years. The loss sharing arrangement does not cover any losses on single-family residential loans or selected commercial real estate loans.

Tranche	Loss Threshold	Loss-Coverage Percentage
1	Up to \$204,194	80%
2	\$204,195-\$308,020	30%
3	> \$308,020	80%

With the Bank of Choice and Community Banks of Colorado acquisitions, we substantially increased our presence in Colorado, becoming the sixth largest depository institution in Colorado ranked by deposits with a 2.2% deposit market share as of June 30, 2011 (the last date as of which data are available), according to SNL Financial. We believe this market and our position in it offer attractive growth potential due to the number of distressed banks, retrenching competitors and attractive demographic characteristics.

The Restructuring

In connection with the Hillcrest Bank and Bank Midwest acquisitions, we established two newly chartered banks, Hillcrest Bank, N.A. and Bank Midwest, N.A. Subsequently, Bank Midwest, N.A. acquired Bank of Choice and Community Banks of Colorado. In November 2011, we merged Hillcrest Bank, N.A. into Bank Midwest, N.A., consolidating our banking operations under a single charter. We changed the legal name of Bank Midwest, N.A. to NBH Bank, N.A., which we refer to as NBH Bank or the Bank, on May 20, 2012. Through our subsidiary NBH Bank, we operate under the following brand names: Bank Midwest in Kansas and Missouri, Community Banks of Colorado in Colorado and California and Hillcrest Bank in Texas. We believe that conducting our banking operations under a single charter streamlines our operations and enables us to more effectively and efficiently execute our growth strategy. On March 26, 2012, we changed our legal name from NBH Holdings Corp. to National Bank Holdings Corporation.

Table of Contents**Market Area****Market Criteria**

We focus on markets that we believe are characterized by some or all of the following:

Attractive demographics with household income and population growth above the national average

Concentration of business activity

High-quality deposit bases

Advantageous competitive landscape that provides opportunity to achieve meaningful market presence

A substantial number of financial institutions, including troubled financial institutions as potential acquisition targets

Lack of consolidation in the banking sector and corresponding opportunities for add-on transactions

Markets sizeable enough to support our long-term growth objectives

Current Markets

Our current markets are broadly defined as the greater Kansas City region and Colorado. Our specific emphasis is on the I-35 corridor surrounding the Kansas City MSA and the Colorado Front Range corridor, defined as the Denver, Boulder, Colorado Springs, Fort Collins and Greeley MSAs. The table below describes certain key statistics regarding our presence in these markets as of June 30, 2011 (the last date as of which data are available), adjusted to reflect our acquisitions of Bank of Choice and Community Banks of Colorado.

States	Deposit Market Share Rank(1)	Banking Centers(1)	Deposits (millions)(1)	Deposit Market Share(1)
Missouri	9	41	\$ 2,246.6	1.7%
Colorado	6	56	2,077.1	2.2
Kansas	12	24	909.2	1.5

MSAs	Deposit Market Share Rank(1)	Banking Centers(1)	Deposits (millions)(1)	Deposit Market Share(1)
Kansas City, MO-KS	6	50	\$ 2,269.8	5.2%
Denver-Aurora-Broomfield, CO	12	21	887.0	1.5
Greeley, CO	2	5	301.7	10.3
Saint Joseph, MO-KS	3	4	268.3	12.9
Maryville, MO	2	3	162.5	31.7
Kirksville, MO	2	2	157.1	25.3
Fort Collins-Loveland, CO	13	4	104.3	2.2

Edgar Filing: Oak Valley Bancorp - Form 10-Q

(1) Note: Excludes our Texas and California operations and MSAs in which we have less than \$100 million in deposits.

Source: SNL Financial as of June 30, 2011, except Banking Centers, which reflects the most recently available data.

We believe that these markets have highly attractive demographic, economic and competitive dynamics that are consistent with our objectives and favorable to executing our acquisition and organic growth strategy. The table below describes certain key demographic statistics regarding these markets.

Markets	Deposits (billions)	# of Businesses (thousands)	Population (millions)	Population Density (# / sq. mile)	Population Growth(1)	Median Household Income	Top 3 Competitor Combined Deposit Market Share
Kansas City, MO-KS							
MSA	\$ 43.6	72.8	2.1	258.0	11.7%	\$ 54,393	33%
CO Front Range(2)	78.2	154.9	4.1	274.0	19.9	57,764	47
U.S.				88.0	10.4	50,227	53(3)

Table of Contents

- (1) Population growths are for the period 2000 through 2011.
- (2) CO Front Range is a population weighted average of the following Colorado MSAs: Denver, Boulder, Colorado Springs, Fort Collins and Greeley.
- (3) Based on U.S. Top 20 MSAs (determined by population).

Prospective Markets

We believe there is significant opportunity to both enhance our presence in our current markets and enter new complementary markets that meet our objectives. As we evaluate potential acquisition opportunities, we believe there are many financial institutions that continue to face credit challenges, capital constraints and liquidity issues. As of June 30, 2012, according to SNL Financial 48 banks in our current markets and in surrounding states had Texas Ratios either (1) in excess of 100% or (2) less than 0%. Texas Ratio is a key measure of a bank's financial health and is defined as the sum of nonaccrual loans, troubled debt restructurings (TDRs), other real estate owned (OREO) and loans 90 days or more past due and still accruing divided by the sum of the bank's tangible common equity and loan loss reserves. If a bank's Texas Ratio is negative, it indicates that the bank has negative tangible common equity and is therefore generally considered insolvent and also a potential acquisition target. Additionally, as of June 30, 2012, according to SNL Financial there were 80 other banks with assets between \$750 million and \$10 billion and Texas Ratios (1) less than 100% and (2) greater than 0%, which present potential acquisition opportunities that we believe would complement our product offerings while simultaneously taking advantage of operating efficiencies and scale and our local branding and leadership. We believe those dynamics will provide ongoing opportunities for us to continue to execute our acquisition strategy over the next several years. We also believe there are a number of healthy banks in these markets that would complement our breadth of products and services and benefit from our operating effectiveness and scale while welcoming our approach to local branding and leadership.

The table below highlights banks with a Texas Ratio either (1) in excess of 100% or (2) less than 0% and banks with a Texas Ratio less than 100% and assets between \$750 million and \$10 billion:

	Banks with Texas Ratios > 100% or <0%			Other Banks with Assets Between \$750mm and \$10bn		
	# of Banks	Total Assets (\$ millions)	Total Deposits (\$ millions)	# of Banks	Total Assets (\$ millions)	Total Deposits (\$ millions)
By Urban Corridor						
Kansas City MSA	8	\$ 4,442	\$ 3,319	5	\$ 8,011	\$ 7,208
Colorado Front Range	8	2,554	2,296	5	8,809	7,137
Urban Corridor Total	16	\$ 6,996	\$ 5,614	10	\$ 16,820	\$ 14,346
By State						
Missouri	19	\$ 13,213	\$ 11,284	20	\$ 27,489	\$ 21,595
Kansas	4	2,145	1,566	10	25,040	17,052
Colorado	13	4,387	3,921	6	11,090	9,056
State Total	36	\$ 19,745	\$ 16,771	36	\$ 63,620	\$ 47,703

Table of Contents**Our Competitive Strengths**

Leading risk-adjusted operating performance Since the fourth quarter of 2010, the beginning of our operating history, we have been able to achieve profitability. For the six months ended June 30, 2012, we had a leading risk-adjusted operating performance for a bank of our size, as measured by our top quartile rank among U.S. bank holding companies with \$3 billion to \$10 billion of total assets in terms of pre-tax provision net revenue to risk weighted assets.

	Pre-Tax Pre-Provision Net Revenue (1)/ Risk- Weighted Assets
For the six months ended June 30, 2012	
NBH (Actual)(2)	2.75%
NBH (Adjusted)(2)	3.20%
Median of U.S. bank holding companies with \$3.0 to \$10.0 billion in Total Assets	2.21%
1st Quartile Cut-Off	2.68%

Source: SNL Financial

- (1) Pre-tax pre-provision net revenue is defined as net income without giving effect to loan loss provision and income tax expense. Pre-tax pre-provision net revenue to risk-weighted assets is a non-GAAP financial measure, which we use as a supplemental measure to evaluate our performance. We believe that the most comparable GAAP financial measure calculated in accordance with GAAP to the ratio of pre-tax pre-provision net revenue to risk-weighted assets is the ratio of net income to risk-weighted assets, which was 0.44% for the six months ended June 30, 2012. For a reconciliation of all non-GAAP financial measures, see Management's Discussion and Analysis of Financial Condition and Results of Operations About Non-GAAP Financial Measures.
- (2) Adjusted pre-tax pre-provision net revenue to risk-weighted assets is a non-GAAP financial measure that excludes stock-based compensation expense, loss (gain) on sale of securities, bargain purchase gains and related acquisition expenses. We believe that it is appropriate to adjust for these items because these expenses do not fluctuate in the same manner, or for the same reasons, as do our other operating expenses or the comparable expenses of our peers, and we believe that the adjusted measure is more representative of management's plans for the future operations and compensatory policies. In connection with the formation of the Company, all members of our board of directors and executive management and other select members of management were granted equity awards, and we do not expect grants of such large quantities to be granted at any single time in the near future. As a result, once the vesting requirements of these awards have been satisfied, we expect that the related compensation expense will decrease substantially. Information with respect to bank holding companies included in the median and first quartile comparative data has not been adjusted to exclude any stock-based compensation expense, loss (gain) on sale of securities, bargain purchase gains and related acquisition expenses. For a reconciliation of this non-GAAP financial measure, see note 6 to the Selected Historical Consolidated Financial Information.
- We believe our ability to operate efficiently is enhanced by our centralized management structure, our access to attractive labor and real estate costs in our markets, and an infrastructure that is unencumbered by legacy systems. Furthermore, we anticipate additional expense synergies from the integration of our recent acquisitions, which we believe will enhance our financial performance.

Disciplined focus on building meaningful scale in attractive markets. We believe our current and prospective markets present substantial acquisition and long-term organic growth opportunities, based on the number of financial institutions, including troubled financial institutions, retrenching competitors and attractive demographic characteristics. We are actively executing on our strategy to build further scale in our markets and, as of June 30, 2011 (the last date as of which data are available), according to SNL Financial, after giving effect to the Bank of Choice and Community Banks of Colorado acquisitions (as of their acquisition dates):

over 77% of our deposits were concentrated in the Kansas City MSA and Colorado;

Table of Contents

we were ranked as the sixth largest depository institution in the Kansas City MSA with a 5.2% deposit market share; and

we were ranked as the sixth largest depository institution in Colorado with a 2.2% deposit market share.

Attractive risk profile. Nearly our entire loan portfolio has been subjected to acquisition accounting adjustments and, in some cases, is also subject to loss sharing arrangements with the FDIC:

as of June 30, 2012, approximately 86.3% of our loans (by dollar amount) were acquired loans and all of those loans were adjusted to their estimated fair values at the time of acquisition;

as of June 30, 2012, 38.7% of our loans and 56.3% of our OREO (each by dollar amount) were covered by a loss sharing arrangement with the FDIC; and

for our Bank Midwest acquisition, we selected the acquired assets based on comprehensive due diligence and purchased only select performing loans at that time and client deposits.

We believe we have developed a disciplined and comprehensive credit due diligence process that takes into consideration the potential for a prolonged economic downturn and continued pressure on real estate values. In addition, we have been able to quickly implement conservative credit and operating policies in acquired franchises, allowing for the application of consistent, enterprise-wide risk management procedures, which we believe will help drive continued improvements in asset quality.

Expertise in FDIC-assisted and unassisted bank transactions. We believe our discipline and selectivity in identifying target franchises, along with our successful history of working with the FDIC and directly with troubled financial institutions, provide us a substantial advantage in pursuing and consummating future acquisitions. Additionally, we believe our strengths in structuring transactions to limit our risk, our experience in the financial reporting and regulatory process related to troubled bank acquisitions, and our ongoing risk management expertise, particularly in problem loan workouts, collectively enable us to capitalize on the potential of the franchises we acquire.

Experienced and respected management team and board of directors. Our management team is led by Mr. Laney, a 30-year veteran of the banking industry with significant experience in running complex franchises at both Bank of America and Regions Financial. Mr. Laney leads a respected executive team of bankers with extensive experience at nationally recognized financial institutions who have, on average, 32 years banking experience and have, collectively, completed 56 acquisitions worth over \$139.0 billion in assets. Many of our management team members have extensive experience working together, including at Bank of America or Citizens Financial Group. In addition, our board of directors, led by Chairman Frank Cahouet, is highly accomplished and well versed in the banking industry and provides substantial expertise and experience and valuable perspective to our growth and operating strategies.

New operating platform implemented and positioned for growth. We have invested in our infrastructure and technology through the implementation of an efficient, industry-leading, scalable platform that supports our risk management activities and our potential for significant future growth and new product offerings. We have centralized many of our operational functions in Kansas City, which has desirable cost and labor market characteristics. We have built enterprise-wide finance and risk management capabilities that we expect will afford efficiencies as we grow. As we continue to pursue acquisitions, we will seek to integrate new banks quickly and seamlessly convert them to our platform, with a focus on exceeding expectations of our clients and employees while keeping our operating costs low.

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Available capital to support growth. As of June 30, 2012, we had approximately \$350 million and \$475 million of excess capital available on a consolidated basis, assuming a 10% and 8% Tier 1 leverage ratio, respectively, to continue to implement our acquisition strategy and to support growth in our existing banking franchises. As of June 30, 2012, our capital ratios exceeded both regulatory guidelines and the level at which we would expect to operate long-term following the deployment of our excess capital.

Table of Contents

Our Business Strategy

Our strategic plan is to become a leading regional bank holding company through selective acquisitions of financial institutions, including troubled financial institutions that have stable core franchises and significant local market share as well as other complementary businesses, while structuring the transactions to limit risk. We plan to achieve this through the acquisition of financial institutions from the FDIC and through conservatively structured unassisted transactions. We seek acquisitions that offer opportunities for clear financial benefits through add-on transactions, long-term organic growth opportunities and expense reductions. Additionally, our acquisition strategy is to identify markets that are relatively unconsolidated, establish a meaningful presence within those markets, and take advantage of the operational efficiencies and enhanced market position. Our focus is on building strong banking relationships with small- and mid-sized businesses and consumers, while maintaining a low risk profile designed to generate reliable income streams and attractive risk-adjusted returns. The key components of our strategic plan are:

Disciplined acquisitions. We seek to carefully select banking acquisition opportunities that we believe have stable core franchises and significant local market share, while structuring the transactions to limit risk. Further, we seek acquisitions in attractive markets that offer substantial benefits through reliable income streams, potential add-on transactions, long-term organic growth opportunities and expense reductions. We believe we utilize a comprehensive, conservative due diligence process that is strongly focused on loan credit quality.

Attractive markets. We seek to acquire banking franchises in markets that exhibit attractive demographic attributes. Our focus is on comparatively healthy business markets that are home to a substantial number of financial institutions, including troubled financial institutions for which we believe there are a limited number of potential acquirors. Additionally, we seek banking markets that present favorable competitive dynamics and a lack of consolidation in order to position us for long-term growth. We believe that our two current markets the greater Kansas City region and Colorado meet these objectives. We intend to continue to make banking acquisitions in these markets and in complementary markets to expand our existing franchise.

Focus on client-centered, relationship-driven banking strategy. We continue to add consumer and commercial bankers to execute on a client-centered, relationship-driven banking model. Our consumer bankers focus on knowing their clients in order to best meet their financial needs, offering a full complement of loan, deposit and online banking solutions. Our commercial bankers focus on small- and mid-sized businesses with an advisory approach that emphasizes understanding the client's business and offering a complete array of loan, deposit and treasury management products and services.

Expansion through organic growth and enhanced product offerings. We believe that our focus on attractive markets will provide long-term opportunities for organic growth, particularly in an improving economic environment. We also believe that our focus on serving consumers and small- to mid-sized businesses, coupled with our enhanced product offerings, will provide an expanded revenue base and new sources of fee income.

Operating platform and efficiencies. We have consolidated our acquired banks under one charter and we intend to continue to utilize our comprehensive underwriting and risk management processes while maintaining local branding, leadership and decision making. We have integrated all of our acquired banks onto one state-of-the-art operating platform that we believe will provide scalable technology to support and integrate future growth and realize operating efficiencies throughout our enterprise.

We believe our strategy growth through selective acquisitions in attractive markets and growth through the retention, expansion and development of client-centered relationships provides flexibility regardless of economic conditions. We also believe that our established platform for assessing, executing and integrating acquisitions (including FDIC-assisted transactions) creates opportunities in a prolonged economic downturn while the combination of attractive market factors, franchise scale in our targeted markets and our relationship-centered banking focus creates opportunities in an improving economic environment.

Table of Contents

Products and Services

Through NBH Bank, N.A., our primary business is to offer a full range of traditional banking products and financial services to both our commercial and consumer customers, who currently are predominantly located in Kansas, Missouri and Colorado. We offer a full array of lending products to cater to our customers' needs, including, but not limited to, small business loans, equipment loans, term loans, asset-backed loans, letters of credit, commercial lines of credit, residential mortgage loans, home equity and consumer loans. We also offer traditional depository products, including commercial and consumer checking accounts, non-interest-bearing demand accounts, money market deposit accounts, savings accounts and time deposit accounts and cash management services.

We offer a high level of personalized service to our customers through our relationship managers and banking center personnel. We believe that a banking relationship that includes multiple services, such as loan and deposit services, online banking solutions and treasury management products and services, is the key to profitable and long-lasting customer relationships and that our local focus and local decision making provide us with a competitive advantage over banks that do not have these attributes.

Lending Activities

Our primary strategic objective is to serve small- to medium-sized businesses in our market with a variety of unique and useful services, including a full array of commercial mortgage and non-mortgage loans. We continue to add consumer and commercial bankers to execute on a client-centered, relationship-driven banking model and of the 22 commercial bankers that we have in our Bank Midwest locations, 14 of those are newly recruited talent. Of the 36 commercial bankers that we have in our Community Banks of Colorado locations, 6 of those are newly recruited talent. Our commercial bankers focus on small- and medium-sized businesses with an advisory approach that emphasizes understanding the client's business and offering a complete suite of loan, deposit and treasury management products and services. Our consumer bankers focus on knowing their individual clients in order to best meet their financial needs, offering a full complement of loan, deposit and online banking solutions. We strive to do business in the areas served by our banking centers, which is also where our marketing is focused, and the vast majority of our new loan customers are located in existing market areas.

Our loan portfolio includes commercial and industrial loans, consumer loans, commercial real estate loans, residential real estate loans and agricultural loans. The principal risk associated with each category of loans we make is the creditworthiness of the borrower. Borrower creditworthiness is affected by general economic conditions and the attributes of the borrower's market or industry segment. Attributes of the relevant business market or industry segment include the competitive environment, customer and supplier power, threat of substitutes and barriers to entry and exit. Our credit policy requires that key risks be identified and measured, documented and mitigated, to the extent possible, to seek to ensure the soundness of our loan portfolio.

Our credit policy also provides detailed procedures for making loans to individuals along with the regulatory requirements to ensure that all loan applications are evaluated subject to our fair lending policy. Our credit policy addresses the common credit standards for making loans to individuals, the credit analysis and financial statement requirements, the collateral requirements, including insurance coverage where appropriate, as well as the documentation required. Our ability to analyze a borrower's current financial health and credit history, as well as the value of collateral as a secondary source of repayment, when applicable, are significant factors in determining the creditworthiness of loans to individuals. We have also adopted formal credit policies regarding our underwriting procedures for other loans including commercial and commercial real estate loans. We require various levels of internal approvals based on the characteristics of such loans, including the size, nature of the exposure and type of collateral if any. We believe that the procedures required by our credit policies enhance internal responsibility and accountability for underwriting decisions and permit us to monitor the performance of credit decisioning. For more detail on our credit policies, see Management's Discussion and Analysis of Financial Condition and Results of Operations Financial Condition Asset Quality.

As of June 30, 2012, approximately 60.2% of our total portfolio was variable rate loans, approximately 39.8% of our total loan portfolio was fixed rate loans and less than 1.7% of our total loan portfolio was unsecured. As of June 30, 2012, of the loans we had originated, approximately 19.4% were variable rate loans and approximately 80.6% were fixed rate loans.

Table of Contents

Commercial and Industrial Loans. We originate commercial and industrial loans and leases, including working capital loans, equipment loans and other commercial loans and leases. The terms of these loans vary by purpose and by type of underlying collateral, if any.

Working Capital Loans. Working capital loans generally have terms of up to one year and have variable interest rates priced over the prime rate as published in the *Wall Street Journal* or LIBOR. The loans are usually secured by accounts receivable and inventory and carry the personal guarantees of the principals of the business.

In some cases, we use an independent third party to assess and recommend appropriate advance rates (i.e., how much we will lend) based on the liquidation value of collateral. Additionally, we may use third-party monitoring of advance rates in some cases. For loans secured by accounts receivable or inventory, principal is typically repaid as the assets securing the loan are converted into cash.

Equipment Loans. Equipment loans have terms of up to three to five years and are amortized over the terms of the loans. Interest rates are either fixed or variable with variable rate loans priced over the prime rate as published in the *Wall Street Journal* or LIBOR. Equipment loans are generally secured by the financed equipment at advance rates that we believe are appropriate for the equipment type.

In our credit underwriting process, we carefully evaluate the borrower's industry, operating performance, liquidity and financial condition. We underwrite credits based on multiple repayment sources, including operating cash flow, liquidation of collateral and guarantor support, if any. As of June 30, 2012, approximately 90.6% of our commercial and industrial loans were secured and a significant portion of those loans were supported by personal guarantees. We closely monitor the operating performance, liquidity and financial condition of borrowers through analysis of periodic financial statements and meetings with the borrower's management. As part of our credit underwriting process, we also review the borrower's total debt obligations on a global basis. As of June 30, 2012, we had \$283.8 million in commercial and industrial loans and leases outstanding, comprising approximately 14.3% of our total loan portfolio. During the six months ended June 30, 2012, we originated and closed \$30.9 million of commercial and industrial loans, which was approximately 18.5% of total loans originated for portfolio investment during that period.

Consumer Loans. We offer a variety of consumer loans, including loans to banking center customers for consumer and business purposes, to meet customer demand and to increase the yield on our loan portfolio. All of our newly originated loans are on a direct to consumer basis. Consumer loans are structured as small personal lines of credit and term loans, with the latter generally bearing interest at a higher rate and having a shorter term than residential mortgage loans. Consumer loans are both secured (for example by deposit accounts, brokerage accounts or automobiles) and unsecured and carry either a fixed rate or variable rate.

Examples of our consumer loans include:

home improvement loans not secured by real estate;

new and used automobile loans; and

personal lines of credit.

As of June 30, 2012, we had \$61.8 million in consumer loans outstanding, comprising 3.1% of our total loan portfolio. During the six months ended June 30, 2012, we originated and closed \$7.2 million of consumer loans, which was approximately 4.3% of total loans originated for portfolio investment during that period.

Real Estate Loans. Our real estate loans consist of commercial real estate loans and residential real estate loans.

Commercial Real Estate Loans. Commercial real estate loans, or CRE loans, consist of loans to finance the purchase of commercial real estate, loans to finance inventory and working capital that are secured by commercial real estate and construction and development loans.

Table of Contents

Our CRE loans include loans on 1-4 family construction properties, commercial properties such as office buildings, strip malls, or free-standing commercial properties, multi-family and investor properties and raw land development loans.

These loans are typically secured by a first lien mortgage on multi-family, office, warehouse, hotel or retail property plus assignments of all leases related to the properties. These loans are generally divided into two categories: loans to commercial entities that will occupy most or all of the property (described as owner-occupied) and non-owner occupied loans. In the case of owner-occupied loans, we are usually the primary provider of financial services for the company and/or the principals. Underwriting guidelines generally require borrowers to contribute cash equity that results in an 80% or less loan-to-value ratio on owner-occupied properties and a 75% or less loan-to-value ratio on non-owner occupied properties. Debt service coverage ratios are also required to comply with our standards. Exceptions to these guidelines are infrequent and are justified based on other credit factors. Substantially all CRE loans require regular monthly amortization of principal and are amortizing over 15 to 25 years with maturity dates that generally do not exceed 3 to 5 years. These loans are either fixed rate or variable rate priced over the prime rate as published in the *Wall Street Journal* or LIBOR. We seek to reduce the risks associated with commercial mortgage lending by focusing our lending in our primary markets and obtaining financial statements or tax returns or both from borrowers and guarantors at regular intervals. It is also our policy to obtain personal guarantees from the principals of the borrowers.

Outside of owner-occupied CRE loans that are repaid through the cash flows generated by the borrowers' business operations, commercial real estate is not a focus in our lending strategy. As of June 30, 2012, we had \$965.9 million in CRE loans outstanding, comprising approximately 48.7% of our total loan portfolio. During the six months ended June 30, 2012, we originated and closed \$25.4 million of CRE loans, which was approximately 15.2% of total loans originated for portfolio investment during that period.

Residential Real Estate Loans. Residential real estate loans consist of loans secured by the primary or secondary residence of the borrower. These loans consist of closed loans, which are typically amortizing over a 10 to 30 year term. We also offer open-ended home equity loans, which are loans secured by secondary financing on residential real estate. Our loan-to-value benchmark for these loans is below 80% at inception along with satisfactory debt-to-income ratios. Residential real estate loans are offered with fixed rates or variable rates priced over U.S. Treasury indices or the prime rate as published in the *Wall Street Journal*.

Our primary focus is to maintain and expand relationships with realtors and other key contacts in the residential real estate industry in order to originate new mortgages. As of June 30, 2012, we had a total of \$525.5 million in outstanding residential real estate loans, comprising 26.5% of our total loan portfolio. During the six months ended June 30, 2012, we originated and closed \$73.1 million of residential real estate loans, which was approximately 43.9% of total loans originated for portfolio investment during that period.

Agricultural Loans. Agricultural loans consist of loans to farmers and other agricultural businesses to finance agricultural production. The principal source of repayment on these loans is the crops sold at the end of the harvest season. Agricultural loans include term loans to finance agricultural land and equipment, as well as short term lines to support crop production. Loans to finance agricultural land are amortized over 15 to 25 years, typically with three to five year maturities. Loans to finance agricultural equipment are amortized over five to ten years, typically with three to five year maturities. Pricing may be fixed rate or variable rate priced over LIBOR or the prime rate as published in the *Wall Street Journal*. We leverage specialists to ensure consistent, disciplined underwriting and structuring of agricultural loans. As of June 30, 2012, we had a total of \$147.0 million in outstanding agricultural loans, comprising 7.4% of our total loan portfolio. During the six months ended June 30, 2012, we originated and closed \$30.0 million of agricultural loans, which was approximately 18.0% of total loans originated for portfolio investment during that period.

Table of Contents

Deposit Products and Other Funding Sources

We offer a variety of deposit products to our customers, including checking accounts, savings accounts, money market accounts and other deposit accounts, including fixed-rate, fixed maturity retail time deposits ranging in terms from 30 days to five years, individual retirement accounts, and non-retail time deposits consisting of jumbo certificates greater than or equal to \$100,000. As of June 30, 2012, our deposit portfolio was comprised of 14.0% non-interest bearing deposits and 48.3% time deposits. We intend to continue our efforts to attract lower cost transaction deposits from our business lending relationships in order to lower our cost of funds and improve our net interest margin.

Deposit flows are significantly influenced by general and local economic conditions, changes in prevailing interest rates, internal pricing decisions and competition. Our deposits are primarily obtained from areas surrounding our banking centers. In order to attract and retain deposits, we rely on providing quality service and introducing new products and services that meet our customers' needs.

Financial Products & Services

In addition to traditional banking activities, we provide other financial services to our customers, including: internet banking, wire transfers, automated clearing house services, electronic bill payment, lock box services, remote deposit capture services, courier services, merchant processing services, cash vault, controlled disbursements, positive pay and cash management services (including account reconciliation, collections and sweep accounts).

Competition

The banking landscape in our primary markets of Colorado, Kansas and Missouri is highly competitive and quite fragmented, with many small banks having limited market share while the large out of state national and super-regional banks control the majority of deposits and profitable banking relationships. We compete actively with national, regional and local financial services providers, including banks, thrifts, credit unions, mortgage bankers and finance companies. Our largest banking competitors in the Kansas City MSA are UMB, Commerce, US Bank, Bank of America, Valley View, Capitol Federal, Central Banccompany, CCB Financial Corp, Enterprise Financial Services Corp, and our largest competitors in Colorado are Wells Fargo, FirstBank, JPMorgan Chase, U.S. Bank, Bank of the West, KeyBank, Alpine Bank, Compass Bank, Vectra Bank and First National Bank of Colorado.

Competition among providers of financial products and services continues to increase, with consumers having the opportunity to select from a growing variety of traditional brick and mortar banks and nontraditional alternatives, such as online banks. Competition among providers is based on many factors. We believe the most important of these competitive factors that determine success are our consumer bankers' focus on knowing their individual clients in order to best meet their financial needs and our commercial bankers' focus on small- and medium-sized businesses with an advisory approach that emphasizes understanding the client's business and offering a complete array of loan, deposit and treasury management products and services. The primary factors driving commercial and consumer competition for loans and deposits are interest rates, the fees charged, customer service levels and the range of products and services offered. In addition, other competitive factors include the location and hours of our branches and customer service orientation of our employees.

We recognize that there are banks with which we compete that have greater financial resources, access to more capital and higher lending capacity than we do and offer a wider range of deposit and lending instruments than we do. However, given our existing capital base, which should be enhanced as a result of this offering, we expect to be able to meet the majority of small- to medium-sized business and consumer credit needs. As of June 30, 2012, our legal lending limit to any one customer was \$131.8 million and our house limit to any one customer was \$30.0 million.

Table of Contents

Employees

At August 1, 2012, we had 1,139 full-time employees and 37 part-time employees. Given the nature of our business, we have moved aggressively to add significant talent to our commercial and consumer bankers as well as our risk management functions.

Facilities and Real Estate

Our principal executive offices are located in the Denver Tech Center area immediately south of Denver. We also have 70,242 square feet of office and operations space in Kansas City, Missouri. At June 30, 2012, we operated 45 full-service banking centers in Kansas and Missouri, 50 in Colorado, four in California and two in Texas, as well as 20 retirement center locations in Kansas and Missouri and six retirement center locations in each of Colorado and Texas. Of these banking centers, 59 locations were leased and 74 were owned.

Legal Proceedings

From time to time we are a party to various litigation matters incidental to the conduct of our business. We are not presently party to any legal proceedings the resolution of which we believe would have a material adverse effect on our business, prospects, financial condition, liquidity, results of operation, cash flows or capital levels.

Table of Contents

SUPERVISION AND REGULATION

The U.S. banking industry is highly regulated under federal and state law. Banking laws, regulations, and policies affect the operations of the Company and its subsidiaries. Investors should understand that the primary objective of the U.S. bank regulatory regime is the protection of depositors, the DIF, and the banking system as a whole, not the protection of the Company's stockholders.

As a bank holding company, we are subject to inspection, examination, supervision and regulation by the Federal Reserve. Our bank subsidiary is subject to supervision and regulation by the OCC. In addition, we expect that the additional businesses that we may invest in or acquire will be regulated by various state and/or federal banking regulators, including the OCC, the Federal Reserve and the FDIC.

Banking statutes and regulations are subject to continual review and revision by Congress, state legislatures and federal and state regulatory agencies. A change in such statutes or regulations, including changes in how they are interpreted or implemented, could have a material effect on our business. In addition to laws and regulations, state and federal bank regulatory agencies may issue policy statements, interpretive letters and similar written guidance pursuant to such laws and regulations, which are binding on us and our subsidiaries. These regulatory issuances also may affect the conduct of our business or impose additional regulatory obligations. The description below summarizes certain elements of the applicable bank regulatory framework. This description is not intended to describe all laws and regulations applicable to us and our subsidiaries. The description is qualified in its entirety by reference to the full text of the statutes, regulations, policies, interpretive letters and other written guidance that are described.

National Bank Holdings Corporation as a Bank Holding Company

Any entity that acquires direct or indirect control of a bank must obtain prior approval of the Federal Reserve to become a bank holding company pursuant to the BHCA. We became a bank holding company in connection with the acquisition of the assets and assumption of selected liabilities of the former Hillcrest Bank from the FDIC by our newly chartered bank subsidiary, Hillcrest Bank, N.A. As a bank holding company, we are subject to regulation under the BHCA and to supervision, examination, and enforcement by the Federal Reserve. Federal Reserve jurisdiction also extends to any company that we directly or indirectly control, such as our non-bank subsidiaries and other companies in which we make a controlling investment. While subjecting us to supervision and regulation, we believe that our status as a bank holding company (as opposed to a non-controlling investor) broadens the investment opportunities available to us among public and private financial institutions, failing and troubled financial institutions, seized assets and deposits and FDIC auctions.

Banking statutes, regulations and policies could restrict our ability to diversify into other areas of financial services, acquire depository institutions and make distributions or pay dividends on our equity securities. They may also require us to provide financial support to any bank that we control, maintain capital balances in excess of those desired by management and pay higher deposit insurance premiums as a result of a general deterioration in the financial condition of Bank Midwest or other depository institutions we control.

NBH Bank, N.A. as a National Bank

NBH Bank, N.A. (formerly Bank Midwest, N.A.); is a national bank, chartered under federal law, and, as such, is subject to supervision and examination by the OCC, NBH Bank's primary banking regulator. NBH Bank's deposits are insured by the FDIC through the DIF, in the manner and to the extent provided by law. As an insured bank, NBH Bank is subject to the provisions of the Federal Deposit Insurance Act, as amended (which we refer to as the FDI Act) and the FDIC's implementing regulations thereunder, and may also be subject to supervision and examination by the FDIC under certain circumstances.

Under the FDIC Improvement Act of 1991 (which we refer to as FDICIA), NBH Bank must submit financial statements prepared in accordance with GAAP and management reports signed by the Company's and

Table of Contents

NBH Bank's chief executive officer and chief accounting or financial officer concerning management's responsibility for the financial statements, an assessment of internal controls, and an assessment of NBH Bank's compliance with various banking laws and FDIC and other banking regulations. In addition, we must submit annual audit reports to federal regulators prepared by independent auditors. As allowed by regulations, we may use our audit report prepared for the Company to satisfy this requirement. We must provide our auditors with examination reports, supervisory agreements and reports of enforcement actions. The auditors must also attest to and report on the statements of management relating to the internal controls. FDICIA also requires that NBH Bank form an independent audit committee consisting of outside directors only, or that the Company's audit committee be entirely independent.

NBH Bank is subject to specific requirements pursuant to the OCC Operating agreement it entered into with the OCC in connection with our acquisition of Bank Midwest. The OCC Operating Agreement requires that NBH Bank maintain total capital at least equal to 12% of risk-weighted assets, tier 1 capital at least equal to 11% of risk-weighted assets and tier 1 capital at least equal to 10% of adjusted total assets and, until December 2013, not pay a dividend to the Company. The OCC Operating Agreement requires, among other things, that NBH Bank provide notice to, and obtain consent from, the OCC with respect to any additional failed bank acquisitions from the FDIC or the appointment of any new director or senior executive officer of NBH Bank. In addition, the OCC Operating Agreement required NBH Bank to submit a comprehensive business plan to the OCC and requires NBH Bank not to significantly deviate from its business plan without the OCC's consent and to review its progress under such plan quarterly.

NBH Bank (and, with respect to certain provisions, the Company) is also subject to a FDIC Order, dated November 4, 2010, issued in connection with the FDIC's approval of our applications for deposit insurance following the Bank Midwest acquisition. The FDIC Order requires, among other things, that until December 2013, NBH Bank must obtain the FDIC's approval before implementing certain compensation plans and certain changes to its management and board of directors, submit updated business plans and reports of material deviations from those plans to the FDIC and comply with the applicable requirements of the FDIC Policy Statement. Additionally, the FDIC Order requires that NBH Bank maintain a ratio of tier 1 capital to total assets equal to at least ten percent until December 2013. The FDIC Order also required that NBH Bank be initially capitalized with at least \$390.0 million of paid-in capital and requires that NBH Bank establish an audit committee of the Board of Directors comprised of at least three directors, none of whom are officers of the bank and all of whom are independent, obtain adequate fidelity coverage, adopt an accrual accounting system, submit to (and receive a non-objection by) the FDIC of a Community Reinvestment Act plan, obtain annual audits of its financial statements by an independent public accounting firm, and make disclosures to proposed directors and stockholders of NBH Bank concerning the interests of any insider in any transaction by the bank.

A failure by us or NBH Bank to comply with the requirements of the OCC Operating Agreement or the FDIC Order, or the objection by the OCC or the FDIC to any materials or information submitted pursuant to the OCC Operating Agreement or the FDIC Order, could prevent us from executing our business strategy and materially and adversely affect us. As of June 30, 2012, NBH Bank was in compliance with all of the material terms of the OCC Operating Agreement and FDIC Order.

We filed two comprehensive three-year business plans with the OCC in connection with the organization and operation of Bank Midwest, N.A. and the acquisition of Hillcrest Bank, N.A. The OCC issued a supervisory non-objection with respect to each plan on March 22, 2011 and our board of directors subsequently adopted each plan. Each plan covers the requirements mandated by OCC, including a mission statement, an assessment of the bank's current and future operating environment, strategic goals and objectives, identification of present and future product lines, adequacy of internal operations, management, staffing, policies and procedures, a risk management program, compensation plans, policies on corporate governance, quarterly financial forecasts, funding plan, capital plan, securities portfolio composition, lending activities, the intended geographic market area and competitive factors, plans to adhere with consumer laws, a description of the bank's Bank Secrecy Act compliance plan, a description of the bank's Community Re-investment Act program, a description of the bank's current and retail branch footprint, a description of the bank's owned and leased premises and equipment, an

Table of Contents

assessment of the bank's technology systems, a list of activities outsourced to third parties, an evaluation of the bank's vendor management program, a review of the bank's security program, and an action plan to adhere with the OCC comprehensive business plans.

We have implemented a quarterly monitoring and reporting process to remain in compliance with the comprehensive business plans and the requirements of the OCC Agreement and FDIC Order. We also file a written quarterly status report to the OCC regarding our adherence to the business plan, capital plan, loan portfolio program, liquidity plan, risk management program, corporate governance, and changes to directors and senior executive officers. In addition, NBH Bank is required to inform the OCC of acquisitions and has previously provided the OCC with detailed acquisition plans for each completed acquisition and received prior OCC supervisory non-objection to execute the acquisitions.

Regulatory Notice and Approval Requirements for Acquisitions of Control

We must generally receive federal bank regulatory approval before we can acquire an institution or business. Specifically, as a bank holding company, we must obtain prior approval of the Federal Reserve in connection with any acquisition that would result in the Company owning or controlling more than 5% of any class of voting securities of a bank or another bank holding company. In acting on such applications, the Federal Reserve considers, among other factors: the effect of the acquisition on competition; the financial condition and future prospects of the applicant and the banks involved; the managerial resources of the applicant and the banks involved; the convenience and needs of the community, including the record of performance under the CRA; the effectiveness of the applicant in combating money laundering activities; and the extent to which the proposal would result in greater or more concentrated risks to the stability of the United States banking or financial system. Our ability to make investments in depository institutions will depend on our ability to obtain approval for such investments from the Federal Reserve. The Federal Reserve could deny our application based on the above criteria or other considerations. For example, we could be required to sell banking centers as a condition to receiving regulatory approval, which condition may not be acceptable to us or, if acceptable to us, may reduce the benefit of any acquisition.

Federal and state laws, including the BHCA and the Change in Bank Control Act, impose additional prior notice or approval requirements and ongoing regulatory requirements on any investor that seeks to acquire direct or indirect control of an FDIC-insured depository institution or bank holding company. Whether an investor controls a depository institution is based on all of the facts and circumstances surrounding the investment. As a general matter, an investor is deemed to control a depository institution or other company if the investor owns or controls 25% or more of any class of voting securities. Subject to rebuttal, an investor is presumed to control a depository institution or other company if the investor owns or controls 10% or more of any class of voting securities and either the depository institution or company is a public company or no other person will hold a greater percentage of that class of voting securities after the acquisition. If an investor's ownership of our voting securities were to exceed certain thresholds, the investor could be deemed to control us for regulatory purposes. This could subject the investor to regulatory filings or other regulatory consequences.

Broad Supervision, Examination and Enforcement Powers

A principal objective of the U.S. bank regulatory regime is to protect depositors by ensuring the financial safety and soundness of banks and other insured depository institutions. To that end, the Federal Reserve, the OCC and the FDIC have broad regulatory, examination and enforcement authority over bank holding companies and national banks to ensure compliance with banking statutes, regulations, and regulatory guidance, orders, and agreements and safe and sound operation, including the power to issue cease and desist orders, impose fines and other civil and criminal penalties, terminate deposit insurance and appoint a conservator or receiver. Bank regulators regularly examine the operations of banks and bank holding companies. In addition, banks and bank holding companies are subject to periodic reporting and filing requirements.

Bank regulators have various remedies available if they determine that a banking organization has violated any law or regulation, that the financial condition, capital resources, asset quality, earnings prospects,

Table of Contents

management, liquidity or other aspects of a banking organization's operations are unsatisfactory, or that the banking organization is operating in an unsafe or unsound manner. The bank regulators have the power to, among other things: enjoin unsafe or unsound practices, require affirmative actions to correct any violation or practice, issue administrative orders that can be judicially enforced, direct increases in capital, direct the sale of subsidiaries or other assets, limit dividends and distributions, restrict growth, assess civil monetary penalties, remove officers and directors, terminate deposit insurance, and appoint a conservator or receiver.

Engaging in unsafe or unsound practices or failing to comply with applicable laws, regulations and supervisory agreements could subject the Company, its subsidiaries and their respective officers, directors and institution-affiliated parties to the remedies described above and other sanctions. In addition, the FDIC could terminate NBH Bank's deposit insurance if it determined that the bank's financial condition was unsafe or unsound or that the bank engaged in unsafe or unsound practices or violated an applicable rule, regulation, order or condition enacted or imposed by the bank's regulators.

Interstate Banking

Interstate Banking for State and National Banks

Under the Riegle-Neal Interstate Banking and Branching Efficiency Act (which we refer to as the Riegle-Neal Act), a bank holding company may acquire banks in states other than its home state, subject to any state requirement that the bank has been organized and operating for a minimum period of time, not to exceed five years, and the requirement that the bank holding company not control, prior to or following the proposed acquisition, more than 10% of the total amount of deposits of insured depository institutions nationwide or, unless the acquisition is the bank holding company's initial entry into the state, more than 30% of such deposits in the state (or such lesser or greater amount set by the state). The Dodd-Frank Act amended the BHCA to require that a bank holding company be well capitalized and well managed, not merely adequately capitalized and adequately managed, in order to acquire a bank located outside of the bank holding company's home state.

The Riegle-Neal Act also authorizes banks to merge across state lines, thereby creating interstate banking centers. The Dodd-Frank Act permits a national or state bank, with the approval of its regulator, to open a de novo branch in any state if the law of the state in which the branch is proposed would permit the establishment of the branch if the bank were a bank chartered in that state. National banks may provide trust services in any state to the same extent as a trust company chartered by that state.

FDIC Statement of Policy on Qualifications for Failed Bank Acquisitions

As the agency responsible for resolving failed depository institutions, the FDIC has discretion to determine whether a party is qualified to bid on a failed institution. The FDIC Policy Statement imposes additional restrictions and requirements on certain private investors and institutions to the extent that those investors or institutions seek to acquire a failed insured depository institution from the FDIC. The FDIC adopted the FDIC Policy Statement on August 26, 2009, and issued guidance regarding the policy statement on January 6, 2010 and April 23, 2010.

The FDIC Policy Statement applies to private investors in a company (such as the Company) that proposes to assume deposit liabilities (or liabilities and assets) from the resolution of a failed insured depository institution, but does not apply to investors with 5% or less of the total voting power of an acquired depository institution or its bank holding company, provided there is no evidence of concerted action by such investors. In the FDIC Policy Statement Q&A, the FDIC indicated that it will presume that concerted action exists where investors with 5% or less of the total voting power of an acquired depository institution or its bank holding company own, in the aggregate, greater than two-thirds of the total voting power of such acquired depository institution or its bank holding company. This presumption may be rebutted if the investors or the placement agent provide sufficient evidence that the investors are not participating in concerted action. In evaluating whether this presumption has been rebutted, the FDIC will consider, among other things: (1) whether each investor was among many potential investors contacted for investment and reached an independent decision to invest, (2) whether any investors are managed or advised by a common investment manager or advisor, (3) whether any

Table of Contents

investors are engaged or anticipate engaging, as part of a group consisting of substantially the same entities as the stockholders of the acquired depository institution or holding company, in substantially the same combination of interests, in any additional banking or non-banking activity in the United States, (4) whether any investor has any significant ownership interest in or the right to acquire shares of any other investor, (5) whether there are any agreements or understandings between any investors for the purpose of controlling the depository institution or its bank holding company, (6) whether any investors (or any directors representing investors) will consult one another concerning the voting of the depository institution or its bank holding company's stock, (7) whether any directors representing a particular investor will represent only the investor which nominated him or her or will also represent additional investors and (8) the primary federal banking regulator's evaluation of whether any investors are acting in concert for purposes of applying the Change in Bank Control Act and the BHCA.

For those institutions and investors to which it applies, the FDIC Policy Statement imposes the following provisions, among others. First, institutions are required to maintain a ratio of tier 1 common equity to total assets of at least 10% for a period of three years, and thereafter maintain a capital level sufficient to be well capitalized under regulatory standards during the remaining period of ownership of the investors. This amount of capital exceeds the amount otherwise required under applicable regulatory requirements. Second, investors that collectively own 80% or more of two or more depository institutions are required to pledge to the FDIC their proportionate interests in each institution to indemnify the FDIC against any losses it incurs in connection with the failure of one of the institutions. Third, institutions are prohibited from extending credit to investors and to affiliates of investors. Fourth, investors may not employ ownership structures that use entities domiciled in bank secrecy jurisdictions. The FDIC has interpreted this prohibition to apply to a wide range of non-U.S. jurisdictions. In its guidance, the FDIC has required that non-U.S. investors subject to the FDIC Policy Statement invest through a U.S. subsidiary and adhere to certain requirements related to record keeping and information sharing. Fifth, investors are prohibited from selling or otherwise transferring the securities they hold for three years after acquisition without FDIC approval. These transfer restrictions do not apply to open-ended investment companies that are registered under the Investment Company Act, issue redeemable securities and allow investors to redeem on demand. Sixth, investors may not employ complex and functionally opaque ownership structures to invest in institutions. Seventh, investors that own 10% or more of the equity of a failed institution are not eligible to bid for that institution in an FDIC auction. Eighth, investors may be required to provide information to the FDIC regarding the investors and all entities in their ownership chains, such as information regarding the size of the capital fund or funds, their diversification, their return profiles, their marketing documents, their management teams and their business models. Ninth, the FDIC Policy Statement does not replace or substitute for otherwise applicable regulations or statutes.

Limits on Transactions with Affiliates

Federal law restricts the amount and the terms of both credit and non-credit transactions (generally referred to as Covered Transactions) between a bank and its nonbank affiliates. Covered Transactions with any single affiliate may not exceed 10% of the capital stock and surplus of the bank, and Covered Transactions with all affiliates may not exceed, in the aggregate, 20% of the bank's capital and surplus. For a bank, capital stock and surplus refers to the bank's tier 1 and tier 2 capital, as calculated under the risk-based capital guidelines, plus the balance of the allowance for credit losses excluded from tier 2 capital. The bank's transactions with all of its affiliates in the aggregate are limited to 20% of the foregoing capital. In addition, in connection with Covered Transactions that are extensions of credit, the bank may be required to hold collateral to provide added security to the bank, and the types of permissible collateral may be limited. The Dodd-Frank Act generally enhances the restrictions on transactions with affiliates, including an expansion of what types of transactions are Covered Transactions to include credit exposures related to derivatives, repurchase agreements and securities lending arrangements and an increase in the amount of time for which collateral requirements regarding Covered Transactions must be satisfied.

Bank Holding Companies as a Source of Strength

The Federal Reserve requires that a bank holding company serve as a source of financial and managerial strength to each bank that it controls and, under appropriate circumstances, commit resources to support each

Table of Contents

such controlled bank. This support may be required at times when the bank holding company may not have the resources to provide the support. Because we are a bank holding company, the Federal Reserve views the Company (and its consolidated assets) as a source of financial and managerial strength for any controlled depository institutions.

Under the prompt corrective action provisions, if a controlled bank is undercapitalized, then the regulators could require its bank holding company to guarantee a capital restoration plan. In addition, if the Federal Reserve believes that a bank holding company's activities, assets or affiliates represent a significant risk to the financial safety, soundness or stability of a controlled bank, then the Federal Reserve could require the bank holding company to terminate the activities, liquidate the assets or divest the affiliates. The regulators may require these and other actions in support of controlled banks even if such action is not in the best interests of the bank holding company or its stockholders.

The Dodd-Frank Act codified the requirement that holding companies, like the Company, serve as a source of financial strength for their subsidiary depository institutions, by providing financial assistance to its insured depository institution subsidiaries in the event of financial distress. Under the source of strength requirement imposed by the Federal Reserve and codified in the Dodd-Frank Act, the Company could be required to provide financial assistance to the Bank should it experience financial distress. If the capital of the Bank were to become impaired, the OCC could assess the Company for the deficiency. If we failed to pay the assessment within three months, the OCC could order the sale of our stock in the Bank to cover the deficiency.

In addition, capital loans by us to the Bank will be subordinate in right of payment to deposits and certain other indebtedness of the Bank. In the event of our bankruptcy, any commitment by us to a federal bank regulatory agency to maintain the capital of the Bank will be assumed by the bankruptcy trustee and entitled to a priority of payment.

Depositor Preference

The FDI Act provides that, in the event of the liquidation or other resolution of an insured depository institution, the claims of depositors of the institution (including the claims of the FDIC as subrogee of insured depositors) and certain claims for administrative expenses of the FDIC as a receiver will have priority over other general unsecured claims against the institution. If our insured depository institution fails, insured and uninsured depositors, along with the FDIC, will have priority in payment ahead of unsecured, nondeposit creditors, including us, with respect to any extensions of credit they have made to such insured depository institution.

Liability of Commonly Controlled Institutions

FDIC-insured depository institutions can be held liable for any loss incurred, or reasonably expected to be incurred, by the FDIC due to the default of an FDIC-insured depository institution controlled by the same bank holding company and for any assistance provided by the FDIC to an FDIC-insured depository institution that is in danger of default and that is controlled by the same bank holding company. Default means generally the appointment of a conservator or receiver for the institution. In danger of default means generally the existence of certain conditions indicating that a default is likely to occur in the absence of regulatory assistance. The cross-guarantee liability for a loss at a commonly controlled institution would be subordinated in right of payment to deposit liabilities, secured obligations, any other general or senior liability and any obligation subordinated to depositors or general creditors, other than obligations owed to any affiliate of the depository institution (with certain exceptions).

Dividend Restrictions

The Company is a legal entity separate and distinct from each of its subsidiaries. Because the Company's consolidated net income consists largely of net income of its bank and non-bank subsidiaries, the Company's ability to pay dividends depends upon its receipt of dividends from its subsidiaries. The ability of a bank to pay dividends and make other distributions is limited by federal and state law. The specific limits depend on a

Table of Contents

number of factors, including the bank's type of charter, recent earnings, recent dividends, level of capital and regulatory status. The regulators are authorized, and under certain circumstances are required, to determine that the payment of dividends or other distributions by a bank would be an unsafe or unsound practice and to prohibit that payment. For example, the FDI Act generally prohibits a depository institution from making any capital distribution (including payment of a dividend) or paying any management fee to its parent holding company if the depository institution would thereafter be undercapitalized.

Dividends that may be paid by a national bank without the express approval of the OCC are limited in the aggregate for any calendar year to that bank's retained net profits for the preceding two calendar years plus retained net profits up to the date of any dividend declaration in the current calendar year. Retained net profits, as defined by the OCC, consist of net income less dividends declared during the period. State-chartered subsidiary banks are also subject to state regulations that limit dividends. Nonbank subsidiaries are also limited by certain federal and state statutory provisions and regulations covering the amount of dividends that may be paid in any given year.

Currently, the OCC Operating Agreement prohibits NBH Bank from paying a dividend to the Company until December 2013 and, once the prohibition period has elapsed, imposes other restrictions on NBH Bank's ability to pay dividends, including requiring prior approval from the OCC before any distribution is made.

The ability of a bank holding company to pay dividends and make other distributions can also be limited. The Federal Reserve has authority to prohibit a bank holding company from paying dividends or making other distributions. The Federal Reserve has issued a policy statement that provides that a bank holding company should not pay dividends unless: (a) its net income over the last four quarters (net of dividends paid) has been sufficient to fully fund the dividends; (b) the prospective rate of earnings retention appears to be consistent with the capital needs, asset quality and overall financial condition of the bank holding company and its subsidiaries; and (c) the bank holding company will continue to meet minimum required capital adequacy ratios. Accordingly, a bank holding company should not pay cash dividends that exceed its net income or that can only be funded in ways that weaken the bank holding company's financial health, such as by borrowing. The Dodd-Frank Act imposes, and Basel III (described below) once in effect will impose, additional restrictions on the ability of banking institutions to pay dividends.

Regulatory Capital Requirements

In General

Bank regulators view capital levels as important indicators of an institution's financial soundness. As a bank holding company, we are subject to regulatory capital adequacy requirements implemented by the Federal Reserve. In addition, the OCC imposes capital adequacy requirements on our subsidiary bank. The federal banking agencies have risk-based capital adequacy guidelines intended to provide a measure of capital adequacy that reflects the degree of risk associated with a banking organization's operations. Under these guidelines, assets are assigned to one of several risk categories, and nominal dollar amounts of assets and credit equivalent amounts of off-balance-sheet items are multiplied by a risk adjustment percentage for the category. NBH Bank is, and other depository institution subsidiaries that we may acquire or control in the future will be, subject to such capital adequacy guidelines.

There are five capital tiers for banks: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized and critically undercapitalized. Failure to meet minimum capital requirements can result in various enforcement actions by the bank's regulator, including directives to increase capital, formal or informal written agreements with the regulator, and various activities restrictions, all of which, if undertaken, could have a direct material effect on our financial condition.

Quantitative measures, established by the regulators to ensure capital adequacy, require that a bank holding company maintain minimum ratios of capital to risk-weighted assets. There are three categories of capital under the guidelines. With the implementation of the Dodd-Frank Act, certain changes have been made as to the type of capital that falls under each of these categories. For depository institution holding companies that (1) have more

Table of Contents

than \$15 billion of total consolidated assets as of December 31, 2009 or (2) were not mutual holding companies on May 19, 2010, tier 1 capital includes common shareholders' equity, qualifying preferred stock and trust preferred securities issued before May 19, 2010, less goodwill and certain other deductions (including a portion of servicing assets and the unrealized net gains and losses, after taxes, on securities available for sale). Tier 2 capital includes preferred stock and trust preferred securities not qualifying as tier 1 capital, subordinated debt, the allowance for credit losses and net unrealized gains on marketable equity securities, subject to limitations by the guidelines. Tier 2 capital is limited to the amount of tier 1 capital (*i.e.*, at least half of the total capital must be in the form of tier 1 capital). Tier 3 capital includes certain qualifying unsecured subordinated debt. See Changes in Laws, Regulations or Policies and the Dodd-Frank Act.

Under the guidelines, capital is compared with the relative risk related to the balance sheet. To derive the risk included in the balance sheet, a risk weighting is applied to each balance sheet asset and off-balance sheet item, primarily based on the relative credit risk of the asset or counterparty. For example, claims guaranteed by the U.S. government or one of its agencies are risk-weighted at 0% and certain real-estate related loans risk-weighted at 50%. Off-balance sheet items, such as loan commitments and derivatives, are also applied a risk weight after calculating balance sheet equivalent amounts. A credit conversion factor is assigned to loan commitments based on the likelihood of the off-balance sheet item becoming an asset. For example, certain loan commitments are converted at 50% and then risk-weighted at 100%. Derivatives are converted to balance sheet equivalents based on notional values, replacement costs and remaining contractual terms. For certain recourse obligations, direct credit substitutes, residual interests in asset securitization and other securitized transactions that expose institutions primarily to credit risk, the capital amounts and classification under the guidelines are subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Banks and bank holding companies currently are required to maintain tier 1 capital and the sum of tier 1 and tier 2 capital equal to at least 6% and 10%, respectively, of their total risk-weighted assets (including certain off-balance sheet items, such as standby letters of credit) to be deemed well capitalized. The federal bank regulatory agencies may, however, set higher capital requirements for an individual bank or when a bank's particular circumstances warrant. At this time, the bank regulatory agencies are more inclined to impose higher capital requirements in order to meet well-capitalized standards, and future regulatory change could impose higher capital standards as a routine matter.

The Federal Reserve may also set higher capital requirements for holding companies whose circumstances warrant it. For example, holding companies experiencing internal growth or making acquisitions are expected to maintain strong capital positions substantially above the minimum supervisory levels, without significant reliance on intangible assets. Also, the Federal Reserve considers a tangible tier 1 leverage ratio (deducting all intangibles) and other indications of capital strength in evaluating proposals for expansion or engaging in new activities. In addition, the federal bank regulatory agencies have established minimum leverage (tier 1 capital to adjusted average total assets) guidelines for banks within their regulatory jurisdictions. These guidelines provide for a minimum leverage ratio of 5% for banks to be deemed well capitalized. Our regulatory capital ratios and those of NBH Bank are in excess of the levels established for well-capitalized institutions.

As an additional means to identify problems in the financial management of depository institutions, the FDI Act requires federal bank regulatory agencies to establish certain non-capital safety and soundness standards for institutions for which they are the primary federal regulator. The standards relate generally to operations and management, asset quality, interest rate exposure and executive compensation. The agencies are authorized to take action against institutions that fail to meet such standards.

In addition, the Dodd-Frank Act requires the federal banking agencies to adopt capital requirements that address the risks that the activities of an institution pose to the institution and the public and private stakeholders, including risks arising from certain enumerated activities. The federal banking agencies recently proposed revised capital guidelines to the Dodd-Frank Act and to effect the implementation of Basel III (described below). In addition, they may make additional changes in the future, based on these or other regulatory or supervisory

Table of Contents

developments. We cannot be certain what impact proposed or future changes to existing capital guidelines will have on us or NBH Bank.

Basel I, Basel II and Basel III Accords

The current risk-based capital guidelines that apply to us and our subsidiary bank are based on the 1988 capital accord, referred to as Basel I, of the International Basel Committee on Banking Supervision (which we refer to as the Basel Committee), a committee of central banks and bank supervisors, as implemented by federal bank regulators. In 2008, the bank regulatory agencies began to phase-in capital standards based on a second capital accord issued by the Basel Committee, referred to as Basel II, for large or core international banks (generally defined for U.S. purposes as having total assets of \$250 billion or more or consolidated foreign exposures of \$10 billion or more). Because we do not anticipate controlling any large or core international bank in the foreseeable future, Basel II will not apply to us.

On September 12, 2010, the Group of Governors and Heads of Supervision, the oversight body of the Basel Committee, announced agreement on the calibration and phase-in arrangements for a strengthened set of capital requirements, known as Basel III. When fully phased-in on January 1, 2019, Basel III increases the minimum tier 1 common equity ratio to 4.5%, net of regulatory deductions and introduces a capital conservation buffer of an additional 2.5% of common equity to risk-weighted assets, raising the target minimum tier 1 common equity ratio to at least 7.0%. Basel III increases the minimum tier 1 capital ratio to 8.5% inclusive of the capital conservation buffer, increases the minimum total capital ratio to 10.5% inclusive of the capital conservation buffer and introduces a countercyclical capital buffer of up to 2.5% of common equity or other fully loss absorbing capital for periods of excess credit growth. The capital conservation buffer is designed to absorb losses during periods of economic stress. Banking institutions with a tier 1 common equity ratio above the minimum but below the conservation buffer may face constraints on dividends, equity repurchases and compensation based on the amount of such shortfall.

Basel III also introduces a non-risk adjusted tier 1 leverage ratio of 3%, based on a measure of total exposure rather than total assets, and new liquidity standards. The phase-in of the new rules is to commence on January 1, 2013, with the phase-in of the capital conservation buffer commencing on January 1, 2016 and the rules to be fully phased-in by January 1, 2019.

In November 2010, Basel III was endorsed by the Group of Twenty (G-20) Finance Ministers and Central Bank Governors and will be subject to individual adoption by member nations, including the United States. On December 16, 2010, the Basel Committee issued the text of the Basel III rules, which presents the details of global regulatory standards on bank capital adequacy and liquidity agreed by the Basel Committee and endorsed by the G-20 leaders. In June 2012, the federal banking agencies released proposed changes to the current capital adequacy standards in light of Basel III and capital changes required by the Dodd-Frank Act. If finalized as proposed in the U.S., Basel III would lead to higher capital requirements and more restrictive leverage and liquidity ratios. The ultimate impact of the new capital and liquidity standards on us and our bank subsidiary is currently being reviewed and will depend on a number of factors, including completion of the rulemaking process and final implementation by the U.S. banking regulators. We cannot determine the ultimate effect that potential legislation, or subsequent regulations, if enacted, would have upon our earnings or financial position.

Prompt Corrective Action

The FDI Act requires federal bank regulatory agencies to take prompt corrective action with respect to FDIC-insured depository institutions that do not meet minimum capital requirements. A depository institution's treatment for purposes of the prompt corrective action provisions will depend upon how its capital levels compare to various capital measures and certain other factors, as established by regulation.

Under this system, the federal banking regulators have established five capital categories, well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized and critically undercapitalized, in which all institutions are placed. The federal banking regulators have specified by regulation the relevant capital levels for each of the five categories. Federal banking regulators are required to take various mandatory supervisory

Table of Contents

actions and are authorized to take other discretionary actions with respect to institutions in the three undercapitalized categories. The severity of the action depends upon the capital category in which the institution is placed. Generally, subject to a narrow exception, the banking regulator must appoint a receiver or conservator for an institution that is critically undercapitalized.

Reserve Requirements

Pursuant to regulations of the Federal Reserve, all banks are required to maintain average daily reserves at mandated ratios against their transaction accounts. In addition, reserves must be maintained on certain non-personal time deposits. These reserves must be maintained in the form of vault cash or in an account at a Federal Reserve Bank.

Deposit Insurance Assessments

FDIC-insured banks are required to pay deposit insurance premiums to the FDIC. The FDIC has adopted a risk-based assessment system whereby FDIC-insured depository institutions pay insurance premiums at rates based on their risk classification. An institution's risk classification is assigned based on its capital levels and the level of supervisory concern the institution poses to the regulators. The FDIC recently raised assessment rates to increase funding for the DIF, which is currently underfunded.

The Dodd-Frank Act makes permanent the general \$250,000 deposit insurance limit for insured deposits. In addition, federal deposit insurance for the full net amount of deposits in noninterest-bearing transaction accounts was extended to January 1, 2013 for all insured banks.

The Dodd-Frank Act changes the deposit insurance assessment framework, primarily by basing assessments on an institution's average total consolidated assets less average tangible equity (subject to risk-based adjustments that would further reduce the assessment base for custodial banks) rather than domestic deposits, which is expected to shift a greater portion of the aggregate assessments to large banks, as described in detail below. The Dodd-Frank Act also eliminates the upper limit for the reserve ratio designated by the FDIC each year, increases the minimum designated reserve ratio of the DIF from 1.15% to 1.35% of the estimated amount of total insured deposits by September 30, 2020, and eliminates the requirement that the FDIC pay dividends to depository institutions when the reserve ratio exceeds certain thresholds.

The Dodd-Frank Act requires the DIF to reach a reserve ratio of 1.35% of insured deposits by September 30, 2020. On December 20, 2010, the FDIC raised the minimum designated reserve ratio of DIF to 2%. The ratio is higher than the minimum reserve ratio of 1.35% as set by the Dodd-Frank Act. Under the Dodd-Frank Act, the FDIC is required to offset the effect of the higher reserve ratio on small insured depository institutions, those with consolidated assets of less than \$10 billion.

On February 7, 2011, the FDIC approved a final rule on Assessments, Dividends, Assessment Base and Large Bank Pricing. The final rule, mandated by the Dodd-Frank Act, changes the deposit insurance assessment system from one that is based on domestic deposits to one that is based on average consolidated total assets minus average tangible equity. Because the new assessment base under the Dodd-Frank Act is larger than the current assessment base, the final rule's assessment rates are lower than the current rates, which achieves the FDIC's goal of not significantly altering the total amount of revenue collected from the industry. In addition, the final rule adopts a scorecard assessment scheme for larger banks and suspends dividend payments if the DIF reserve ratio exceeds 1.5% but provides for decreasing assessment rates when the DIF reserve ratio reaches certain thresholds. The final rule also determines how the effect of the higher reserve ratio will be offset for institutions with less than \$10 billion of consolidated assets.

Continued action by the FDIC to replenish the DIF as well as changes contained in the Dodd-Frank Act may result in higher assessment rates. NBH Bank may be able to pass part or all of this cost on to its customers, including in the form of lower interest rates on deposits, or fees to some depositors, depending on market conditions.

Table of Contents

The FDIC may terminate a depository institution's deposit insurance upon a finding that the institution's financial condition is unsafe or unsound or that the institution has engaged in unsafe or unsound practices or has violated any applicable rule, regulation, order or condition enacted or imposed by the institution's regulatory agency. If deposit insurance for a banking business we invest in or acquire were to be terminated, that would have a material adverse effect on that banking business and potentially on the Company as a whole.

Permitted Activities and Investments by Bank Holding Companies

The BHCA generally prohibits a bank holding company from engaging, directly or indirectly, in activities other than banking or managing or controlling banks, except for activities determined by the Federal Reserve to be so closely related to banking or managing or controlling banks as to be a proper incident thereto. Provisions of the Gramm-Leach-Bliley Financial Modernization Act of 1999 (which we refer to as the GLB Act) expanded the permissible activities of a bank holding company that qualifies as a financial holding company. Under the regulations implementing the GLB Act, a financial holding company may engage in additional activities that are financial in nature or incidental or complementary to financial activity. Those activities include, among other activities, certain insurance and securities activities. We have not yet determined whether it would be appropriate or advisable in the future to become a financial holding company.

Privacy Provisions of the GLB Act and Restrictions on Cross-Selling

Federal banking regulators, as required under the GLB Act, have adopted rules limiting the ability of banks and other financial institutions to disclose nonpublic information about consumers to nonaffiliated third parties. The rules require disclosure of privacy policies to consumers and, in some circumstances, allow consumers to prevent disclosure of certain personal information to nonaffiliated third parties. The privacy provisions of the GLB Act affect how consumer information is transmitted through diversified financial services companies and conveyed to outside vendors.

Federal financial regulators have issued regulations under the Fair and Accurate Credit Transactions Act, which have the effect of increasing the length of the waiting period, after privacy disclosures are provided to new customers, before information can be shared among different companies that we own or may come to own for the purpose of cross-selling products and services among companies we own.

In connection with the regulations governing the privacy of consumer financial information, the federal banking agencies adopted guidelines for establishing information security standards for such information. The guidelines require banking organizations to establish an information security program to: (i) identify and assess the risks that may threaten customer information; (ii) develop a written plan containing policies and procedures to manage and control these risks; (iii) implement and test the plan; and (iv) adjust the plan on a continuing basis to account for changes in technology, the sensitivity of customer information, and internal or external threats. The guidelines also outline the responsibilities of directors of banking organizations in overseeing the protection of customer information and address response programs for unauthorized access to customer information.

A number of states have adopted their own statutes concerning financial privacy and requiring notification of security breaches.

Anti-Money Laundering Requirements

Under federal law, including the Bank Secrecy Act and the PATRIOT Act, certain types of financial institutions, including insured depository institutions, must maintain anti-money laundering programs that include established internal policies, procedures and controls; a designated compliance officer; an ongoing employee training program; and testing of the program by an independent audit function. Among other things, these laws are intended to strengthen the ability of U.S. law enforcement agencies and intelligence communities to work together to combat terrorism on a variety of fronts. Financial institutions are prohibited from entering into specified financial transactions and account relationships and must meet enhanced standards for due diligence, customer identification, and recordkeeping, including in their dealings with non-U.S. financial

Table of Contents

institutions and non-U.S. customers. Financial institutions must take reasonable steps to conduct enhanced scrutiny of account relationships to guard against money laundering and to report any suspicious information maintained by financial institutions. Bank regulators routinely examine institutions for compliance with these obligations and they must consider an institution's anti-money laundering compliance when considering regulatory applications filed by the institution, including applications for banking mergers and acquisitions. The regulatory authorities have imposed cease and desist orders and civil money penalty sanctions against institutions found to be violating these obligations.

OFAC is responsible for helping to insure that U.S. entities do not engage in transactions with certain prohibited parties, as defined by various Executive Orders and Acts of Congress. OFAC publishes lists of persons, organizations and countries suspected of aiding, harboring or engaging in terrorist acts, known as Specially Designated Nationals and Blocked Persons. If the Company or NBH Bank finds a name on any transaction, account or wire transfer that is on an OFAC list, the Company or NBH Bank must freeze or block such account or transaction, file a suspicious activity report and notify the appropriate authorities.

Consumer Laws and Regulations

Banks and other financial institutions are subject to numerous laws and regulations intended to protect consumers in their transactions with banks. These laws include, among others, laws regarding unfair and deceptive acts and practices and usury laws, as well as the following consumer protection statutes: Truth in Lending Act, Truth in Savings Act, Electronic Funds Transfer Act, Expedited Funds Availability Act, Equal Credit Opportunity Act, Fair and Accurate Credit Transactions Act, Fair Housing Act, Fair Credit Reporting Act, Fair Debt Collection Act, GLB Act, Home Mortgage Disclosure Act, Right to Financial Privacy Act and Real Estate Settlement Procedures Act.

Many states and local jurisdictions have consumer protection laws analogous, and in addition, to those listed above. These federal, state and local laws regulate the manner in which financial institutions deal with customers when taking deposits, making loans or conducting other types of transactions. Failure to comply with these laws and regulations could give rise to regulatory sanctions, customer rescission rights, action by state and local attorneys general and civil or criminal liability.

The Dodd-Frank Act creates a new independent Consumer Finance Protection Bureau (which we refer to as the Consumer Bureau) that will have broad authority to regulate and supervise retail financial services activities of banks and various non-bank providers. The Consumer Bureau will have authority to promulgate regulations, issue orders, guidance and policy statements, conduct examinations and bring enforcement actions with regard to consumer financial products and services. In general, however, banks with assets of \$10 billion or less, such as NBH Bank, will continue to be examined for consumer compliance by their primary bank regulator.

The Community Reinvestment Act

The CRA is intended to encourage banks to help meet the credit needs of their entire communities, including low- and moderate-income neighborhoods, consistent with safe and sound operations. The regulators examine banks and assign each bank a public CRA rating. The CRA then requires bank regulators to take into account the bank's record in meeting the needs of its community when considering certain applications by a bank, including applications to establish a branch or to conduct certain mergers or acquisitions. The Federal Reserve is required to consider the CRA records of a bank holding company's controlled banks when considering an application by the bank holding company to acquire a bank or to merge with another bank holding company.

When we apply for regulatory approval to make certain investments, the regulators will consider the CRA record of the target institution and our depository institution subsidiary. An unsatisfactory CRA record could substantially delay approval or result in denial of an application.

Table of Contents

Changes in Laws, Regulations or Policies and the Dodd-Frank Act

Congress and state legislatures may introduce from time to time measures or take actions that would modify the regulation of banks or bank holding companies. In addition, federal and state regulatory agencies also periodically propose and adopt changes to their regulations or change the manner in which existing regulations are applied. Such changes could increase or decrease the cost of doing business, limit or expand permissible activities or affect the competitive balance among banks and other financial institutions, all of which could affect our investment opportunities and our assessment of how attractive such opportunities may be. We cannot predict whether potential legislation will be enacted and, if enacted, the effect that it or any implementing regulations would have on our business, results of operations, liquidity or financial condition.

The Dodd-Frank Act, which was signed into law on July 21, 2010, will have a broad impact on the financial services industry, imposing significant regulatory and compliance changes, increased capital, leverage and liquidity requirements and numerous other provisions designed to improve supervision and oversight of the financial services sector. In addition to certain implications of the Dodd-Frank Act discussed above, the following items are also key provisions of the Dodd-Frank Act:

Limitation on Federal Preemption. The Dodd-Frank Act may reduce the ability of national banks to rely upon federal preemption of state consumer financial laws. The Dodd-Frank Act also eliminates the extension of preemption under the National Bank Act to operating subsidiaries of national banks. The Dodd-Frank Act authorizes state enforcement authorities to bring lawsuits under non-preempted state law against national banks and authorizes suits by state attorney generals against national banks to enforce rules issued by the Consumer Bureau.

Mortgage Loan Origination and Risk Retention. The Dodd-Frank Act imposes new standards for mortgage loan originations on all lenders, including banks, in an effort to require steps to verify a borrower's ability to repay. The Dodd-Frank Act also generally requires lenders or securitizers to retain an economic interest in the credit risk relating to loans the lender sells or mortgages and other asset-backed securities that the securitizer issues. The risk retention requirement generally will be 5%, but could be increased or decreased by regulation.

Corporate Governance. The Dodd-Frank Act addresses many investor protection, corporate governance and executive compensation matters that will affect most U.S. publicly traded companies, including the Company. The Dodd-Frank Act: (1) grants stockholders of U.S. publicly traded companies an advisory vote on executive compensation; (2) enhances independence requirements for compensation committee members; (3) requires companies listed on national securities exchanges to adopt incentive-based compensation clawback policies for executive officers; and (4) provides the SEC with authority to adopt proxy access rules that would allow stockholders of publicly traded companies to nominate candidates for election as a director and have those nominees included in a company's proxy materials.

Many of the requirements of the Dodd-Frank Act will be implemented over time, and most will be subject to regulations implemented over the course of several years. Given the uncertainty surrounding the manner in which many of the Dodd-Frank Act's provisions will be implemented by the various regulatory agencies and through regulations, the full extent of the impact on our operations is unclear. The changes resulting from the Dodd-Frank Act may impact the profitability of our business activities, require changes to certain of our business practices, impose upon us more stringent capital, liquidity and leverage requirements or otherwise materially and adversely affect us.

Table of Contents**MANAGEMENT****Executive Officers and Directors**

The following table sets forth information regarding our directors and executive officers as of August 15, 2012.

Name	Age	Position
<i>Executive Officers:</i>		
G. Timothy Laney	52	President, Chief Executive Officer and Director
Brian F. Lilly	54	Chief Financial Officer
Donald Gaiter	46	Chief of Acquisitions and Strategy
Richard U. Newfield, Jr.	51	Chief Risk Officer
Thomas M. Metzger	59	Division President, Midwest
Kathryn M. Hinderhofer	60	Chief of Integration, Technology and Operations
<i>Non-Executive Directors:</i>		
Frank V. Cahouet	80	Chairman
Ralph W. Clermont	64	Director
Robert E. Dean	61	Director
Lawrence K. Fish	67	Director
Micho F. Spring	62	Director
Burney S. Warren	64	Director
<i>Executive Officers</i>		

G. Timothy Laney, President and Chief Executive Officer

G. Timothy Laney has served as the Company's President and Chief Executive Officer since June 2010. Mr. Laney is the former Senior Executive Vice President and Head of Business Services at Regions Financial, a \$132 billion bank holding company as of December 31, 2010. He joined Regions Financial in late 2007 to lead the transformation of the bank's wholesale lines of business. Prior to his tenure at Regions Financial, Mr. Laney had a 24-year tenure with Bank of America, where he held senior management roles in small business, commercial banking, private banking, corporate marketing and change management. He also served as President of Bank of America, Florida, with more than 800 banking centers and \$50 billion in total assets. He was also a member of Bank of America's Management Operating Committee. Mr. Laney brings to our board of directors valuable and extensive experience from managing and overseeing a broad range of operations during his tenures at Bank of America and Regions Financial.

Brian F. Lilly, Chief Financial Officer

Brian Lilly has served as our Chief Financial Officer since March 2012. Mr. Lilly is the former Vice Chairman and Chief Operating Officer of F.N.B. Corporation (FNB), where he was responsible for all activities of finance, investor relations, treasury, asset and liabilities committee, credit administration, risk management, technology and operations, legal, facilities and consumer finance. He was a key leader in FNB's mergers and acquisitions strategy and execution, helping to build FNB into a leading \$12 billion regional bank. Prior to the Chief Operating Officer role, he spent 6 years as FNB's Chief Financial Officer and Chief Administrative Officer having reestablished those functions following the unique spin-off of the company in 2003. In addition, Mr. Lilly worked with PNC Financial for 15 years, principally in line-of-business and geographic Chief Financial Officer roles as well as corporate strategic planning. Mr. Lilly is also a certified public accountant (inactive) and worked for four years at Ernst & Young.

Table of Contents

Donald Gaiter, Chief of Acquisitions and Strategy

Mr. Gaiter has served as our Chief of Acquisitions and Strategy since June 2009. As a previous Executive Vice President of Citizens Financial Group (CFG), a multi-state bank holding company headquartered in Providence, Rhode Island. Mr. Gaiter was the Head of CFG 's foreign exchange, interest rate derivatives and international division. He is a former Chief Financial Officer of CFG 's Mid Atlantic Region, Head of M&A and Director of Corporate Planning. He was a key participant in CFG 's M&A strategy, including 17 acquisitions totaling \$78 billion in assets during his 14 year tenure. He served as Managing Director of CrossHarbor Capital Partners where he was responsible for originations and acquisitions of financial institutions.

Richard U. Newfield, Jr., Chief Risk Officer

Richard U. Newfield has served as the Company 's Chief Risk Officer since January 2011. Mr. Newfield is the former Head of Business Services Credit at Regions Bank. He joined Regions in 2008 after a 23-year career at Bank of America. Mr. Newfield held various senior positions at Bank of America, including roles in risk management, credit, commercial banking, global bank debt and corporate marketing. He brings significant experience in development and implementation of business models and integration of businesses during mergers. In addition, Mr. Newfield has led credit process reengineering initiatives, including risk and credit policy design, and corporate governance.

Thomas M. Metzger, Division President, Midwest

Mr. Metzger has served as President of Bank Midwest and then as our Division President, Midwest since December 2010 and previously served as our Chief Risk Officer beginning in August 2009. As former Chief Credit Risk Officer and Group Executive Vice President of CFG, Mr. Metzger was responsible for credit, operational and market risk as well as regulatory compliance. He also previously served as Chairman, President and Chief Executive Officer of Citizens Bank New Hampshire. He brings significant experience in regional and community banks from risk, operational & execution perspectives. Prior to joining CFG, he held positions at US Bancorp in St. Louis and its predecessor family of banks, including Firststar Bank and Mercantile Bank. He began his banking career in 1974 at the Federal Reserve Bank of St. Louis and thereafter at the Office of Comptroller of the Currency.

Kathryn M. Hinderhofer, Chief of Integration, Technology and Operations

Ms. Hinderhofer has served as our Chief of Integration, Technology and Operations since April 2010. Ms. Hinderhofer is a former Executive Vice President of CFG where she was responsible for business integration activities for acquisitions and divestitures. She brings impressive experience in business integration and acquisitions having been a key participant in 26 transactions at CFG during her 17-year tenure. She held senior roles at RBS in Citizens Manufacturing division for technology and operations. She began her career in 1976 at Bank of New England and spent 17 years at the Boston Five Cents Savings Bank in various line functions.

Board of Directors

The board currently consists of seven members, Messrs. Cahouet, Clermont, Dean, Fish, Laney and Warren and Ms. Spring. All of the directors other than Mr. Laney qualify as independent directors under the corporate governance standards of the New York Stock Exchange.

Frank V. Cahouet

Frank V. Cahouet has served as the Company 's Chairman of the Board since October 2009. Mr. Cahouet is the retired Chairman, President and Chief Executive Officer of Mellon Financial Corporation, a position that he held from 1987 through 1998. While at Mellon, Mr. Cahouet was responsible for a series of strategic moves that positioned Mellon for growth, including the formation of Grant Street National Bank; the acquisition of PSFS in 1990 and The Boston Company in 1993; and a merger with The Dreyfus Corporation in 1994. Before joining Mellon, Mr. Cahouet served as President and Chief Operating Officer of the Federal National Mortgage

Table of Contents

Association (Fannie Mae) from 1986 to 1987, and as Chairman, President and Chief Executive Officer of Crocker National Bank from 1984 to 1986. Prior to joining Crocker, Mr. Cahouet was a Vice Chairman, Chief Financial Officer and a member of the Office of the Chairman of Security Pacific National Bank. He joined Security Pacific in 1960 and served there for 24 years. Mr. Cahouet is a graduate of Harvard College and the Wharton Graduate School of Finance of the University of Pennsylvania. Mr. Cahouet's extensive experience both leading and growing financial institutions qualifies him to serve on our board of directors. Mr. Cahouet is a member of all of our board committees with full voting rights.

Ralph W. Clermont

Ralph W. Clermont has served as a director for the Company since October 2009 and also serves as Chairman of the audit and risk committee. Mr. Clermont recently retired as Managing Partner of the St. Louis office of KPMG LLP, and was formerly the partner in charge of KPMG's Midwest financial services practice. Mr. Clermont joined the St. Louis office of KPMG in 1969 and was elected to partnership in 1977. Mr. Clermont spent over 39 years providing services to the banking industry and has had responsibility for the audits of numerous banking organizations. Mr. Clermont is a certified public accountant and a member of the American Institute of Certified Public Accountants and Missouri Society of Certified Public Accountants. Mr. Clermont was a member of the KPMG's Assurance Services Committee and was chairman of KPMG's Quality Improvement Audit Subcommittee. Mr. Clermont received a Bachelor of Science degree in accounting from Saint Louis University. Mr. Clermont's qualifications to serve on our board of directors include his expertise in financial and accounting matters for complex financial organizations.

Robert E. Dean

Robert E. Dean has served as a director for the Company since June 2009 and also serves as Chairman of the nominating and corporate governance committee. Mr. Dean is a private investor. From October 2000 to December 2003, Mr. Dean was with Ernst & Young Corporate Finance LLC, a wholly owned broker-dealer subsidiary of Ernst & Young LLP, serving as a Senior Managing Director and member of the Board of Managers from December 2001 to December 2003. From June 1976 to September 2000, Mr. Dean practiced corporate, banking and securities law with Gibson, Dunn & Crutcher LLP. Mr. Dean co-chaired the firm's banking practice and advised bank clients on numerous capital markets and merger and acquisition transactions (including FDIC-assisted transactions). Mr. Dean was Partner-in-Charge of the Orange County, California office from 1993 to 1996 and was a member of the law firm's Executive Committee from 1996 to 1999. From 2004 to 2009, Mr. Dean served as a director, chairman of the Compensation Committee and a member of the Audit Committee of the board of directors of Specialty Underwriters Alliance, Inc. and during 2009 was a member of the board's Strategic Review Committee. From 2004 to 2007, Mr. Dean served as a director, chairman of the Compensation Committee and as a member of the Audit Committee of the board of directors of ResMAE Financial Corporation. Mr. Dean holds a Bachelor of Arts degree, magna cum laude, from the University of California at Irvine and a Juris Doctor degree, magna cum laude, from the University of Minnesota Law School. Mr. Dean's substantial experience in bank capital markets and merger and acquisition transactions, bank regulatory matters and public company corporate governance matters qualifies him to serve on our board of directors.

Lawrence K. Fish

Lawrence K. Fish has served as a director for the Company since January 2010. Mr. Fish served as Chairman and Chief Executive Officer of CFG from 1992 until 2007. Under Mr. Fish's leadership, Citizens grew from a \$4 billion Savings Institution to one of the 10 largest commercial bank holding companies in the United States, with approximately \$160 billion in assets. Mr. Fish was a member of the board of directors of the Royal Bank of Scotland PLC, Citizens' parent company from 1993 through 2008. He is also a past member of the Federal Advisory Council of the Federal Reserve System and a former director of the Federal Reserve Bank of Boston. He is Chairman of Houghton Mifflin Harcourt and a Director of Textron Inc. and Tiffany and Co. and Trustee Emeritus of The Brookings Institution in Washington, D.C. In July 2003, he was named to the MIT

Table of Contents

Corporation, which is the Board of Trustees of Massachusetts Institute of Technology. He serves on the FDIC Commission on Economic Inclusion, a panel that provides the FDIC with advice and recommendations on expanding access to banking services by under-served populations. A 1966 graduate of Drake University, Mr. Fish earned an MBA from the Harvard Graduate School of Business Administration in 1968. Mr. Fish is the recipient of several honorary doctorate degrees. Mr. Fish's extensive financial institutions regulatory and public policy experience as well as executive leadership of financial institutions give him a valuable perspective relevant to our company's business, financial performance and risk oversight and qualifies him to serve on the board of directors.

G. Timothy Laney

See biography above.

Micho F. Spring

Micho F. Spring has served as a director for the Company since October 2009. Ms. Spring is Chair, Global Corporate Practice, and President, New England of Weber Shandwick. Prior to joining Weber Shandwick, Ms. Spring was Chief Executive Officer of Boston Telecommunications Company and served for four years as Deputy Mayor of Boston. She also served as Chief of Staff to Boston Mayor Kevin H. White after four years of service in New York City government. Ms. Spring served as director of Citizens Bank of Massachusetts, a \$35 billion state chartered bank. Ms. Spring currently sits on the Executive Committee of the Greater Boston Chamber of Commerce and holds numerous board memberships, including the John F. Kennedy Library Foundation, The Boston Foundation and the Massachusetts Women's Forum, of which she is a past President. Ms. Spring attended Georgetown and Columbia Universities and received a Masters in Public Administration from Harvard's Kennedy School of Government. Ms. Spring's extensive public policy experience and knowledge of financial institutions qualifies her to serve on our board.

Burney S. Warren

Burney S. Warren has served as a director for the Company since October 2009 and also serves as chairman of the compensation committee. Prior to retirement in December 2007, Burney Warren was Executive Vice President and Director of Mergers and Acquisitions for Branch Banking and Trust Company (BB&T), the twelfth largest commercial bank in the United States ranked by deposits. Mr. Warren was responsible for the development, structure and negotiation of BB&T's bank and non-bank acquisitions. During his tenure, he successfully completed the acquisition of over 50 banks and thrifts and numerous non-bank transactions, including capital markets, brokerage, fixed income and consumer finance. Prior to joining BB&T in 1990, Mr. Warren was President and Chief Executive Officer of First Federal Savings Bank, Greenville, N.C. Mr. Warren is currently chairman of East Carolina University's Real Estate Foundation and serves on the board and executive committee of the East Carolina University Educational Foundation. Mr. Warren received a Bachelor of Science degree in business administration from East Carolina University. Mr. Warren's qualifications to serve on our board of directors include his extensive experience at identifying and integrating acquisitions for complex financial institutions.

Committees of the Board of Directors

Audit and Risk Committee

The members of the audit and risk committee are Messrs. Clermont (Chairman), Cahouet, Dean, Fish, Warren and Ms. Spring, each of whom is an independent member of our board of directors, as defined under the New York Stock Exchange rules and Rule 10A-3 of the Securities Exchange Act of 1934, or the Exchange Act. Mr. Clermont is the chairperson of our audit and risk committee, is our audit committee financial expert, as that term is defined under the SEC rules implementing Section 407 of the Sarbanes-Oxley Act of 2002, and possesses financial sophistication, as defined under the rules of the New York Stock Exchange.

Table of Contents

Our audit and risk committee is responsible for, among other things:

Reviewing our financial statements and public filings that contain financial statements, significant accounting policies changes, material weaknesses and significant deficiencies identified by outside auditors, if any, and risk management issues;

Serving as an independent and objective body to monitor and assess our compliance with legal and regulatory requirements, our financial reporting processes and related internal control systems and the performance of our internal audit function;

Overseeing the audit and other services of our outside auditors and being directly responsible for the appointment, independence, qualifications, compensation and oversight of the outside auditors;

Discussing any disagreements between our management and the outside auditors regarding our financial reporting; and

Preparing the audit and risk committee report for inclusion in our proxy statement for our annual meeting.

Compensation Committee

The members of the compensation committee are Messrs. Warren (Chairman), Cahouet, Dean and Fish, each of whom qualifies as an independent director as defined under the applicable rules and regulations of the SEC, the New York Stock Exchange and the Internal Revenue Service.

Among other things, the compensation committee is responsible for:

Determining the compensation of our executive officers;

Reviewing our executive compensation policies and plans;

Oversight of the Company's compensation practices generally;

Administering and implementing our equity compensation plans; and

Preparing a report on executive compensation for inclusion in our proxy statement for our annual meeting.

Nominating and Corporate Governance Committee

The current members of the committee are Messrs. Dean (Chairman), Cahouet, Clermont and Ms. Spring, each of whom qualifies as an independent director as defined under the applicable rules and regulations of the SEC, the New York Stock Exchange and the Internal Revenue Service.

Among other things, the nominating and corporate governance committee is responsible for:

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Identifying individuals qualified to become members of our board of directors and recommending director candidates for election or re-election to our board;

Compensation Committee Interlocks and Insider Participation

During 2011, our compensation committee consisted of Messrs. Warren, Cahouet, Fish and Dean. None of them has at any time been an officer or employee of the Company (other than Mr. Fish, who acted as Interim Chief Executive Officer after the death of Mr. Connolly), and none has had any relationship with the Company of the type that is required to be disclosed under Item 404 of Regulation S-K. None of our executive officers serves or has served as a member of the board of directors, compensation committee or other board committee performing equivalent functions of another entity that has one or more executive officers serving as a member of the board of directors or commendation committee of the Company.

Code of Business Conduct and Ethics

Our board of directors has adopted a code of business conduct and ethics (which we refer to as the Code of Ethics) that applies to all of our directors, officers and employees, including our principal executive officer, principal financial officer, principal accounting officer and persons performing similar functions. The Code of Ethics is available free of charge upon written request to National Bank Holdings Corporation, 5570 DTC Parkway, Greenwood Village, Colorado 80111, Attention: Corporate Secretary. If we amend or grant any waiver from a provision of our Code of Ethics that applies to our executive officers, we will publicly disclose such amendment or waiver as required by applicable.

Table of Contents

COMPENSATION DISCUSSION AND ANALYSIS

We explain in this section how we compensate the executive officers named in the 2011 Summary Compensation Table below (our NEOs). The NEOs are our Chief Executive Officer (CEO), each individual who served as chief financial officer during 2011 and our three other most highly compensated executive officers for 2011. Our approach to executive compensation is to pay for performance and to ensure compensation programs are aligned with effective risk management. We believe that approaching compensation in this way will create sustainable stockholder value over the long term. To understand the objectives, principles and practices that form our approach to executive compensation described in this section, we will start with the Company's 2011 performance in its little more than one year of business operations and our expectations of management's performance as a newly formed company.

Company Performance and Expectations of Management

We began our existence in 2009 with an initial raise of capital. Our expectation of management was to build an organizational structure and to begin to deploy capital by acquiring financial institutions, while structuring transactions to limit risk. After a period of corporate organization and due diligence on acquisition prospects, we acquired Hillcrest Bank in October 2010. In December 2010, we acquired certain assets of Bank Midwest and during 2011, we added two more banks to our operating franchise: Bank of Choice and Community Banks of Colorado. The acquisitions begin our strategy of creating long-term stockholder value through the acquisition and operation of community banking franchises viewed by the Company to be in our targeted markets. Our emphasis is on creating meaningful market share while delivering strong revenues and operational efficiencies that we believe will produce attractive risk-adjusted returns.

By the end of 2011, the Company had built a significant banking operation in just over one year. While in the fall of 2010 we had no banking operations at all, as of June 30, 2012, we had \$5.8 billion in assets, \$4.5 billion in deposits and \$1.1 billion in stockholders' equity, with a network of 101 full-service banking centers. We continue to adhere to our strategic plan to become a leading regional bank holding company through selective acquisitions, including troubled financial institutions that have stable core franchises and significant local market share, while structuring the transactions to limit risk. Because we are in the process of deploying capital and acquiring selected franchises in our markets, some of which may be failed or troubled institutions, typical performance metrics were not appropriate measures for performance while the Company was operationalizing the business during 2011. We did, however, expect management to identify attractive targets with an acceptable rate of return and to prepare us for an anticipated public offering in 2012. To do so in an effective way, it is important for us to align executive compensation with stockholder value.

Philosophy and Objectives of Our Executive Compensation Program

Because a key expectation of management is to build an effective organizational structure, it is particularly important that our compensation programs be designed to attract, develop and retain the talent needed for the organization's continued success in building a competitive franchise and executing our strategic plan. We intend these programs to be aligned with performance goals that motivate executives to achieve strategic goals prudently and within acceptable risk parameters. Our compensation programs are designed to reward individual contributions and to create long-term stockholder value.

Compensation of our NEOs and for other employees is designed around four key guiding principles: (i) compensation aligns with stockholder interests (using equity-based compensation); (ii) compensation aligns with sound risk management principles; (iii) the Company pays for performance and compensation is designed to motivate executives to maximize performance; and (iv) compensation enables the Company to attract and retain the talent necessary to acquire institutions, consolidate operations, conduct operations at a high level, mitigate risk and operate a public company. Our NEOs for the fiscal year ended December 31, 2011 (and who appear in the 2011 Summary Compensation Table below) were:

G. Timothy Laney, President and Chief Executive Officer

Donald G. Gaiter, Chief of Acquisitions and Strategy and Acting Chief Financial Officer⁽¹⁾

Table of Contents

Thomas M. Metzger, Division President, Midwest

Richard U. Newfield Jr., Chief Risk Officer

Kathryn M. Hinderhofer, Chief of Integration, Technology and Operations

James B. Fitzgerald, former Chief Financial Officer⁽²⁾

- (1) Donald G. Gaiter has been our Chief of Acquisitions and Strategy since June 2009 and served as our Acting Chief Financial Officer from November 2011 through February 2012.
- (2) James B. Fitzgerald served as our Chief Financial Officer from June 2009 through November 2011.

Compensation Components

The total compensation of our NEOs consists primarily of the following components:

Annual Compensation

Component	Purpose	Considerations
Base Salary	To provide a fixed amount of cash compensation upon which our NEOs may rely.	NEO salary levels are based on: experience and education scope of responsibilities individual performance competitiveness with salary ranges at other banking organizations
Annual Incentive Compensation:	To motivate and reward our NEOs for meeting or exceeding corporate, business line and individual performance goals.	For 2011, the Compensation Committee did not predetermine bonus objectives or adopt a formulaic calculation for determining 2011 bonuses. Instead, the Compensation Committee assessed:
Cash Bonus		acquiring and operationalizing financial institutions

deploying capital

delivering operating results

hiring key talent

ensuring appropriate risk management

preparing for the registration and listing of our
common stock

individual performance

Annual incentive opportunity levels for NEOs
ranged from 80% to 150% of annual base salary.

For 2012, we have adopted a new annual bonus
plan which is described below in *Compensation
Program Following this Offering*.

Table of Contents

Annual Compensation

Component	Purpose	Considerations
Long-Term Incentive Compensation:	Equity compensation links performance with the interests of our stockholders and promotes strong annual results. Stock options provide our NEOs with the opportunity to realize value solely from increases in our share price. In addition to linking performance with the interests of our stockholders, restricted stock acts as an effective retention tool for key talent.	Historically, our NEOs received equity-based compensation at the time of their commencement of employment. The Board and Compensation Committee determined it prudent to grant additional awards to the NEOs, other than Mr. Fitzgerald, in October 2011. The October 2011 awards have both market and time-vesting conditions which are structured to be long-term rewards, intended to increase the performance and retention of our NEOs.
Stock Options and Restricted Stock		
Benefits	Benefits are designed to be generally competitive with other banking institutions.	NEOs receive the same benefits offered to other eligible employees of the Company. NEOs are not grossed up for any tax liabilities.
Change in Control and Severance Arrangements	Employment agreements which include severance benefits and certain change in control benefits are intended to reinforce and encourage the continued attention and dedication of our NEOs.	Change in control and severance arrangements also are an effective tool in attracting and retaining talent.

Setting Executive Compensation

Process for Determining Compensation-Role of Compensation Committee

The Compensation Committee determines executive compensation. The Compensation Committee, which is comprised entirely of independent directors, sets compensation policy and administers our executive compensation programs. The Compensation Committee acts independently, but works closely with our Board of Directors and members of management. The Compensation Committee has responsibility for setting the components of the CEO's compensation and uses the assistance of Frederic W. Cook & Co., Inc. (Cook & Co.), its independent compensation consultant in determining executive compensation. The Chairman of our Compensation Committee takes an active role in meeting with Cook & Co. Our CEO, with the assistance of Cook & Co, develops initial recommendations for the other NEOs for the Compensation Committee's consideration.

Role of Compensation Consultant

The Compensation Committee, under its own authority, engages its own advisors to assist in carrying out its responsibilities. In 2011, the Compensation Committee engaged Cook & Co. to evaluate our current executive compensation program and to advise and support the Compensation Committee on future compensation decisions. Cook & Co. has no other financial relationships with the Company and works with management only at the request of the Compensation Committee to obtain data and other information necessary for advising and supporting the Compensation Committee. Cook & Co. developed a peer group analysis based on a selection of 17 financial institutions to assist the Compensation Committee in reviewing comparative compensation data. For 2011, this peer group consisted of:

Bank of Hawaii Corporation
BankUnited, Inc.
Capital Bank Financial Corp.
Commerce Bancshares Inc.

Iberia Bank Corp.
NBT Bancorp, Inc.
Prosperity Bancshares, Inc.
Signature Bank NY

Table of Contents

Community Bank System, Inc.
 Everbank Financial
 First Interstate BancSystem
 First Merit Corporation
 Glacier Bancorp, Inc.

Trustmark Corp.
 UMB Financial Corp
 Umpqua Holdings Corp
 United Bancshares, Inc.

The companies included in the peer group have an asset size ranging from approximately \$600 million to \$16 billion, with a slight bias toward the Company's markets in Kansas City and the Rocky Mountains. Cook & Co. summarized the compensation for each of the top five officers at these banks, using the data provided in the bank's latest available proxy statement. The Compensation Committee used this data to assess the competitive market and did not use this peer group information in 2011 to directly determine specific compensation levels, nor did it target a specific positioning versus our peers for NEO compensation. In making compensation decisions, the Compensation Committee considered Cook & Co.'s competitive analysis together with other factors discussed in this Compensation Discussion & Analysis.

Role of Management

In 2011, our CEO worked closely with the Compensation Committee in managing our executive compensation program. Our CEO attended meetings and made recommendations to the Compensation Committee on the compensation of the other NEOs. We expect that our CEO, and other members of management, will continue to have a role in assisting the Compensation Committee in designing our programs and setting compensation levels. None of our NEOs provided recommendations with respect to his or her own compensation in 2011.

Setting Compensation for our Named Executive Officers

Mr. Laney

The Compensation Committee based the components of Mr. Laney's compensation on those provided to our initial CEO, Mr. Connolly, because of their similar roles and responsibilities within the Company. Lawrence Fish, our then interim chief executive officer, negotiated Mr. Laney's compensation in 2010, and the Compensation Committee and our Board of Directors approved those terms. For 2011, Mr. Laney's compensation was set as follows:

Base Salary and Cash Bonus: The Compensation Committee set Mr. Laney's base salary at \$500,000 for 2011, unchanged from 2010. The Compensation Committee set Mr. Laney's annual incentive opportunity for 2011 at 150% of his annual base salary in order to reflect the increasing level of responsibility and the competitive market for chief executive officers in the banking industry. This is an increase from 100% of annual base salary for 2010. In determining the actual bonus for Mr. Laney the Compensation Committee took into account all of the factors described in the chart above. For 2011, the Company exceeded its targeted operating results, built an operating platform for a new bank, and deployed capital in a timeline acceptable to the Board of Directors. In addition, Mr. Laney had filled the key positions reporting to him. The Compensation Committee was also satisfied with the risk profile of the Company and the maintenance of solid relationships with the Company's regulators. The Compensation Committee determined that Mr. Laney achieved his bonus at 150% of annual base salary. Accordingly, the Compensation Committee approved a discretionary annual bonus payment for 2011 for Mr. Laney of \$750,000.

Equity-Based Compensation: The Compensation Committee, after extensive consideration based on the experience of members of the Compensation Committee, the Company's performance, peer data provided by Cook & Co. and data on compensation expense provided by our management, awarded Mr. Laney stock options to acquire 400,000 shares of common stock and 85,000 shares of restricted stock.

These awards were conditioned upon the listing of shares of our common stock on a national securities exchange. Subject to continued employment through the applicable vesting date, the stock options vest in three equal installments on each of the first, second and third anniversary of the date of grant. The shares of performance-based restricted stock vest, following satisfaction of the listing condition, upon the achievement of specified share prices following minimum service periods.

Table of Contents

Employment Agreement: Effective May 22, 2010, we entered into an employment agreement with Mr. Laney. The employment agreement, which is more fully described below, provides for an annual base salary, bonus opportunity, guaranteed bonus for 2010, sign-on bonus and an initial equity grant. As more fully described in the section entitled *2011 Potential Payments upon Termination or Change-in-Control*, Mr. Laney is also entitled to certain severance benefits upon a termination of employment by the Company without cause or resignation by Mr. Laney with good reason. The terms of Mr. Laney's employment agreement were largely based on the employment agreement that we entered into with Mr. Connolly in connection with the 2009 private offering. We also considered Mr. Laney's prior experience, his compensation at his prior employer and the value of the compensation opportunities he forfeited as a result of accepting employment with us.

Mr. Gaiter

Mr. Gaiter is a founding member of our management team and his initial compensation, including his \$300,000 base salary, was determined after consideration of input from investors at the time that our Company was founded. For 2011, Mr. Gaiter's compensation was set as follows:

Base Salary and Cash Bonus: The Compensation Committee set Mr. Gaiter's base salary at \$300,000 for 2011, unchanged from 2010. The Compensation Committee set Mr. Gaiter's annual incentive opportunity for 2011 at 100% of his annual base salary in order to reflect the arrangement entered into at the time of the initial raise of capital. This was unchanged from 2010. After taking into account all of the factors described in the chart above, particularly the successful deployment of capital to acquire institutions with an acceptable risk profile, the Compensation Committee determined that Mr. Gaiter achieved bonus at 100% of his annual base salary and approved a discretionary annual bonus payment for 2011 in the amount of \$300,000.

Equity-Based Compensation: The Compensation Committee, after extensive consideration based on the experience of members of the Compensation Committee, the Company's performance, peer data provided by Cook & Co. and data on compensation expense provided by our management, awarded Mr. Gaiter stock options to acquire 100,000 shares of common stock and 25,000 shares of restricted stock.

These awards were conditioned upon the listing of shares of our common stock on a national securities exchange. Subject to continued employment through the applicable vesting date, the stock options vest in three equal installments on each of the first, second and third anniversary of the date of grant. The shares of performance-based restricted stock vest, following satisfaction of the listing condition, upon the achievement of specified share prices following minimum service periods.

Mr. Metzger

Mr. Metzger is a founding member of our management team and his initial compensation, including his \$300,000 base salary, was determined after consideration of input from investors at the time that our Company was founded. The Compensation Committee decided to memorialize the existing terms of compensation in the employment agreement entered into with Mr. Metzger in October 2011, along with severance protection that the Compensation Committee determined, along with its independent compensation consultant and the CEO, was reasonable and necessary for retention purposes. For 2011, Mr. Metzger's compensation was set as follows:

Base Salary and Cash Bonus: The Compensation Committee set Mr. Metzger's base salary at \$300,000, unchanged from 2010. The Compensation Committee set Mr. Metzger's annual incentive opportunity for 2011 at 100% of his annual base salary in order to reflect the arrangement entered into at the time of the initial raise of capital. This was unchanged from 2010. After taking into account all of the factors described in the chart above, the Compensation Committee determined that Mr. Metzger achieved 55% of his annual base salary. Accordingly, the Compensation Committee approved a discretionary annual bonus payment for 2011 of \$165,000.

Table of Contents

Equity-Based Compensation: The Compensation Committee, after extensive consideration based on the experience of members of the Compensation Committee, the Company's performance, peer data provided by Cook & Co. and data on compensation expense provided by our management, awarded Mr. Metzger stock options to acquire 50,000 shares of common stock and 10,000 shares of restricted stock.

These awards were conditioned upon the listing of shares of our common stock on a national securities exchange. Subject to continued employment through the applicable vesting date, the stock options vest in three equal installments on each of the first, second and third anniversary of the date of grant. The shares of performance-based restricted stock vest, following satisfaction of the listing condition, upon the achievement of specified share prices following minimum service periods.

Employment Agreement: In October 2011 we entered into an employment agreement with Mr. Metzger. The employment agreement, which is more fully described below, provides for an annual base salary and incentive opportunity. As more fully described in the section entitled "2011 Potential Payments upon Termination or Change-in-Control," Mr. Metzger is entitled to certain severance benefits upon a termination of employment by the Company without cause or resignation by Mr. Metzger with good reason, with such severance amounts to be enhanced if the termination of employment is within two years following a change in control of the Company. The terms of this employment agreement were generally based on Mr. Laney's agreement and the existing compensation being paid to Mr. Metzger. The severance protections are consistent with what the Compensation Committee, based on advice from Cook & Co. and the CEO, determined were adequate given Mr. Metzger's position with the Company and what was believed to be necessary to retain him.

Mr. Newfield

Mr. Newfield negotiated the terms of his employment with Mr. Laney based on his anticipated roles and responsibilities and his anticipated contributions to our growth and expansion. The Compensation Committee approved the final terms of employment for Mr. Newfield and later memorialized those terms in his employment agreement. For 2011, Mr. Newfield's compensation was set as follows:

Base Salary and Cash Bonus: The Compensation Committee set Mr. Newfield's base salary at \$275,000. In November 2011, the Compensation Committee increased Mr. Newfield's annual base salary, effective January 1, 2012, to \$300,000. The Compensation Committee set Mr. Newfield's annual incentive opportunity for 2011 at 100% of his annual base salary in order to reflect the duties and level of responsibility with the Company and to be consistent with similarly situated executives of the Company. After taking into account all of the factors described above, the Compensation Committee determined that Mr. Newfield achieved 90% of his annual base salary and approved a discretionary annual bonus payment for 2011 of \$247,000.

Equity-Based Compensation: In connection with his commencement of employment in January 2011, the Company granted Mr. Newfield 100,000 shares of restricted stock and stock options to acquire 200,000 shares of common stock. These equity awards vest on the same terms as equity awards previously granted to our NEOs, with the vesting of such equity awards being subject to continued employment with us through the applicable vesting dates and, with respect to a portion of the restricted stock grant, the achievement of specified share price-based targets. The Compensation Committee determined the level of the equity awards granted to Mr. Newfield at the time that he commenced employment with us based on grants of equity awards that were previously made to similarly situated executives of the Company. In addition, in October 2011, the Compensation Committee, after extensive consideration based on the experience of members of the Compensation Committee, the Company's performance, peer data provided by Cook & Co. and data on compensation expense provided by our management, awarded Mr. Newfield stock options to acquire 100,000 shares of common stock and 25,000 shares of restricted stock.

The equity awards granted in October 2011 were conditioned upon the listing of shares of our common stock on a national securities exchange. Subject to continued employment through the applicable vesting date,

Table of Contents

the stock options vest in three equal installments on each of the first, second and third anniversary of the date of grant. The shares of performance-based restricted stock vest, following satisfaction of the listing condition, upon the achievement of specified share prices following minimum service periods.

Employment Agreement: In October 2011, we entered into an employment agreement with Mr. Newfield. The employment agreement, which is more fully described below, provides for an annual base salary and incentive opportunity. As more fully described in the section entitled *2011 Potential Payments upon Termination or Change-in-Control*, Mr. Newfield is entitled to certain severance benefits upon a termination of employment by the Company without cause or resignation by Mr. Newfield with good reason, with such severance amounts to be enhanced if the termination of employment is within two years following a change in control of the Company. The terms of this employment agreement were generally based on Mr. Laney's agreement and the existing compensation being paid to Mr. Newfield. The severance protections are consistent with what the Compensation Committee, based on advice from Cook & Co. and the CEO, determined were adequate given Mr. Newfield's position with the Company and what was believed to be necessary to retain him.

Ms. Hinderhofer

The Company hired Ms. Hinderhofer as an employee in 2010. In 2009 and early 2010, she had provided technology- and operations-related consulting services to us. Mr. Fish negotiated with her to determine the terms of her compensation, which were based on contemplated role and responsibilities. The Compensation Committee approved these terms. For 2011, Ms. Hinderhofer's compensation was set as follows:

Base Salary and Cash Bonus: The Compensation Committee set Ms. Hinderhofer's base salary at \$225,000, unchanged from 2010. In November 2011, the Compensation Committee increased her base salary to \$250,000 in recognition of the increased responsibility relating to her role since joining the Company. The Compensation Committee set Ms. Hinderhofer's annual incentive opportunity for 2011 at 80% of her annual base salary in order to reflect her duties and responsibilities with the Company and to be generally comparable to the annual incentive opportunity of our other executives, taking into account differences in her duties and responsibilities. After taking into account all of the factors described in the chart above, the Compensation Committee determined that Ms. Hinderhofer achieved bonus at 80% of her annual base salary and approved a discretionary annual bonus payment for 2011 of \$180,000.

Equity-Based Compensation: The Compensation Committee, after extensive consideration based on the experience of members of the Compensation Committee, the Company's performance, peer data provided by Cook & Co. and data on compensation expense provided by our management, awarded Ms. Hinderhofer stock options to acquire 50,000 shares of common stock and 20,000 shares of restricted stock.

These awards were conditioned upon the listing of shares of our common stock on a national securities exchange. Subject to continued employment through the applicable vesting date, the stock options vest in three equal installments on each of the first, second and third anniversary of the date of grant. The shares of performance-based restricted stock vest, following satisfaction of the listing condition, upon the achievement of specified share prices following minimum service periods.

Employment Agreement: In August 2012, we entered into an employment agreement with Ms. Hinderhofer. The employment agreement, which is more fully described below, provides for an annual base salary and incentive opportunity. As more fully described in the section entitled *2011 Potential Payments upon Termination or Change-in-Control*, Ms. Hinderhofer is entitled to certain severance benefits upon a termination of employment by the Company without cause or resignation by Ms. Hinderhofer with good reason, with such severance amounts to be enhanced if the termination of employment is within two years following a change in control of the Company. The terms of this employment agreement were generally based on Mr. Laney's agreement and the existing compensation being paid to Ms. Hinderhofer. The severance protections are

Table of Contents

consistent with what the Compensation Committee, based on advice from Cook & Co. and the CEO, determined were adequate given Ms. Hinderhofer's position with the Company and what was believed to be necessary to retain her.

Mr. Fitzgerald

The Compensation Committee set Mr. Fitzgerald's base salary at \$300,000, which was unchanged from 2010. The Compensation Committee set Mr. Fitzgerald's annual incentive opportunity for 2011 at 100% of his annual base salary in order to reflect the arrangement entered into at the time of the initial raise of capital. We entered into a separation letter agreement with Mr. Fitzgerald (who was a founding member of our Company), in connection with his ceasing to serve as Chief Financial Officer of the Company in November 2011 and his separation from employment with the Company in January 2012. The separation letter agreement provided that he would continue to provide services to us through January 31, 2012 and during that time would continue to receive his annual base salary, would be entitled to an annual bonus for 2011 (100% of annual base salary) and to the vesting of his time-vesting restricted stock (33,541 shares of restricted stock on his termination date). Additionally, under the separation agreement, all outstanding stock options and performance-vesting restricted stock were forfeited. Mr. Laney negotiated this agreement with Mr. Fitzgerald, and the Compensation Committee approved the final terms. Mr. Fitzgerald did not receive severance payments in connection with his separation from the Company. Consistent with the terms of his separation agreement, the Company paid Mr. Fitzgerald an annual bonus equal to 100% of his annual base salary, or \$300,000, in 2011.

Compensation Risk

While our Compensation Committee is responsible for the oversight of our compensation of employees and directors, the Audit and Risk Committee is responsible for the risk management, including risk as it relates to compensation. We are also subject to regulatory oversight and reviews, whereby our compensation practices are subject to the review of our regulators and any restrictions or requirements that may be imposed upon us. After reviewing our executive and broad-based compensation programs, we do not believe that our overall compensation policies and practices create risks that are reasonably likely to have a material adverse effect on our Company.

Compensation Program Following our Initial Public Offering

Our compensation program following our recent initial public offering will be based on the general principles described above. We expect that the relative weight of the metrics we have used in the past will change as the Company matures. We believe that following our initial public offering, we will have more flexibility in designing compensation programs to attract, motivate and retain our executives, including permitting us to regularly compensate named executive officers with publicly traded non-cash compensation. In addition, our board of directors also plans to implement stock ownership guidelines for directors and executive officers of the Company.

Senior Executive Bonus Plan

In March 2012, our stockholders approved our Senior Executive Annual Bonus Plan (Senior Executive Bonus Plan). The Senior Executive Bonus Plan is intended to provide an incentive for superior work and to motivate covered key executives toward strong achievement and business results, to tie their goals and interests to those of the Company and the Company's stockholders and to enable the Company to attract and retain highly qualified executives.

The Senior Executive Bonus Plan is a performance-based bonus plan under which designated key executives of the Company, including executive officers, will be eligible to receive bonus payments with respect to a specified period (for example, fiscal year). Bonuses generally will be payable under the Senior Executive Bonus Plan upon the attainment of pre-established performance goals. Notwithstanding the foregoing, the

Table of Contents

Company may pay bonuses (including, without limitation, discretionary bonuses) to participants under the Senior Executive Bonus Plan based upon such other terms and conditions as the Board of Directors or a committee of the Board of Directors, which is referred to as the Administrator, may in its discretion determine.

Performance goals under the Senior Executive Bonus Plan may relate to one or more corporate business criteria with respect to the Company or any of its subsidiaries, including but not limited to: earnings or net income (either in the aggregate or on a per-share basis), total revenue, operating margin, return on total risk-weighted assets, return on equity, efficiency ratios, strategic business criteria, operational goals, risk management outcomes, regulatory compliance, employee productivity or retention, any of which may be measured either in absolute terms or as compared to any incremental increase or decrease, or as compared to results of a peer group.

The payment of a bonus to a participant pursuant to the Senior Executive Bonus Plan is generally conditioned on continued employment of such participant through the last day of the performance period; *provided, however*, that the Administrator may make exceptions to this requirement in its sole discretion, including, without limitation, in the case of a participant's termination of employment, retirement, death or disability, or as may be required by an individual employment or similar agreement.

The Senior Executive Bonus Plan is administered by the Administrator. The Administrator will select the participants in the Senior Executive Bonus Plan and the performance goals to be utilized with respect to the participants, establish the bonus formulas for each participant's annual bonus, and certify whether any applicable performance goals have been met with respect to a given performance period. The Company may amend or terminate the Senior Executive Bonus Plan at any time in the Company's sole discretion. Any amendments to the Senior Executive Bonus Plan will require stockholder approval only to the extent required by applicable law, rule or regulation.

Tax Considerations

We do not expect our compensation programs to become subject to Section 162(m) of the Internal Revenue Code until approximately three years after our offering for compensation arrangements that were entered into prior to our offering.

Table of Contents**2011 Summary Compensation Table**

The following summary compensation table sets forth the total compensation paid or accrued for the years ended December 31, 2010 and 2011, for each individual who served as our chief executive officer or chief financial officer during 2011, and our three other most highly compensated executive officers who were serving as executive officers on December 31, 2011. We refer to these officers as our named executive officers or NEOs.

Name and Principal Position	Year	Salary (\$)	Bonus (\$)	Stock Awards (\$) ⁽⁵⁾	Option Awards (\$) ⁽⁶⁾	Change in Pension Value and Non-equity Nonqualified Incentive Plan Compensation		All Other Compensation (\$)	Total (\$)

James B. Fitzgerald ⁽³⁾ Former Chief Financial Officer	2011	300,000	300,000					7,350 ⁽⁷⁾	607,350
	2010	307,272	350,000						657,272

(1) Mr. Laney commenced employment with us in June 2010.

(2) Mr. Gaiter served as our acting Chief Financial Officer from November 2011 through February 2012 and our Chief of Acquisitions and Strategy since June 2009.

(3) Mr. Fitzgerald served as our Chief Financial Officer from June 2009 through November 2011.

(4) Mr. Laney's bonus for 2010 included a \$1.2 million signing bonus, a guaranteed bonus of \$250,000 and a discretionary bonus of \$250,000.

(5) The amounts in this column reflect the grant date fair value of the restricted stock awarded to our named executive officers in 2011 calculated in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation - Stock Compensation (FASB ASC Topic 718). The amounts included in this column for the restricted stock awards subject to performance-based vesting conditions are calculated based on the probable satisfaction of the performance conditions for such awards. If the highest level of performance is achieved for these restricted stock awards, the maximum value of these awards at the grant date would be as follows: Mr. Laney \$1,569,100, Mr. Gaiter \$461,500, Mr. Metzger \$184,600, Mr. Newfield \$1,870,635 and Ms. Hinderhofer \$369,200. See note 17 of the audited consolidated financial statements for an explanation of the assumptions made in valuing these awards.

(6) The amounts included in this column reflect the grant date fair value of stock option awards granted to our named executive officers in 2011. The grant date fair value was determined in accordance with FASB ASC Topic 718. The grant date fair value of the stock options is estimated using the Black-Scholes option pricing model. See note 17 of the audited consolidated financial statements for an explanation of the assumptions made in valuing these awards.

(7) Represents 401(k) contributions by the Company.

(8) Represents 401(k) contributions by the Company of \$7,350 and relocation assistance in connection with Mr. Metzger's relocation to Kansas City with an aggregate value of \$3,199 pursuant to our executive relocation policy.

Table of Contents**2011 Grants of Plan-Based Awards**

The following table sets forth certain information with respect to awards granted to each of our named executive officers under the 2009 Equity Incentive Plan during 2011:

Name	Grant Date	Estimated Future Payouts Under Equity Incentive Plan Awards			All Other Stock Awards: Number of Shares of Stock or Units ⁽³⁾ (#)	All Other Option Awards: Number of Securities Underlying Options (#)	Exercise or Base Price of Option Awards ⁽⁶⁾ (\$/Sh)	Grant Date Fair Value of Stock and Option Awards ⁽⁷⁾ (\$)
		Threshold (#)	Target (#)	Maximum (#)				
G. Timothy Laney	10/11/2011	28,333 ⁽¹⁾	56,667 ⁽¹⁾	85,000 ⁽¹⁾			1,117,183	
	10/11/2011					400,000 ⁽⁴⁾	2,044,000

	10/11/2011					100,000 ⁽⁴⁾	511,000	
Thomas M. Metzger	10/11/2011	3,333 ⁽¹⁾	6,666 ⁽¹⁾	10,000 ⁽¹⁾			131,433	
	10/11/2011					50,000 ⁽⁴⁾	255,500	
Richard U. Newfield	1/25/2011	22,222 ⁽²⁾	44,444 ⁽²⁾	66,667 ⁽²⁾			944,375	
	1/25/2011				33,333		597,661	
	1/25/2011					200,000 ⁽⁵⁾	1,420,579	
	10/11/2011	8,333 ⁽¹⁾	16,667 ⁽¹⁾	25,000 ⁽¹⁾			328,582	
Kathryn M. Hinderhofer	10/11/2011					100,000 ⁽⁴⁾	511,000	
	10/11/2011	6,667 ⁽¹⁾	13,334 ⁽¹⁾	20,000 ⁽¹⁾			262,867	
	10/11/2011					50,000 ⁽⁴⁾	255,500	

- (1) The performance-based restricted stock granted to our named executive officers in October 2011 will only be eligible to vest after our common stock is listed on a public stock exchange and, once listed, will vest according to the following parameters (in each case subject to the named executive officer's continued employment through the applicable vesting date):

1/3 vest upon the later of the first anniversary of the date of grant and after the per share stock price equals or exceeds \$28.00 per share for 30 days

1/3 vest upon the later of the second anniversary of the date of grant and after the per share stock price equals or exceeds \$32.00 per share for 30 days

1/3 vest upon the later of the third anniversary of the date of grant and after the per share stock price equals or exceeds \$34.00 per share for 30 days

- (2) The performance-based restricted stock granted to Mr. Newfield in January 2011 will vest according to the following parameters (in each case subject to Mr. Newfield's continued employment through the applicable vesting date):

1/3 vest after the per share stock price equals or exceeds \$25.00 per share for 30 days

Edgar Filing: Oak Valley Bancorp - Form 10-Q

1/3 vest after the per share stock price equals or exceeds \$28.00 per share for 30 days

1/3 vest after the per share stock price equals or exceeds \$32.00 per share for 30 days

- (3) Fifty percent of the time-based restricted stock vested on October 21, 2011 and the remaining 50% vest on October 21, 2012, subject to Mr. Newfield's continued service through such vesting date.
- (4) Subject to our common stock becoming listed on a public stock exchange and the named executive officer's continued service through the applicable vesting date, 1/3 of the stock options vest on each of the first, second and third anniversary of the date of grant.
- (5) Fifty percent of the stock options vested on October 21, 2011 and the remaining 50% vest on October 21, 2012, subject to Mr. Newfield's continued service through such vesting date.

Table of Contents

- (6) The per share exercise price is equal to the price of a share of our common stock in the 2009 private offering. The Compensation Committee reviewed all relevant factors, including information provided by independent valuation specialists, as contemplated by the 2009 Equity Incentive Plan, and the most recent arm's length transactions involving our common stock, in determining the per share exercise price.
- (7) The amounts in this column reflect the grant date fair value of the restricted stock and stock options awarded to the named executive officers in 2011 in accordance with FASB ASC Topic 718 and, in the case of the restricted stock awards subject to performance-based vesting conditions, are calculated based on the probable satisfaction of the performance conditions for such awards.

Employment Agreements with Named Executive Officers

Mr. Laney's Employment Agreement

Effective May 22, 2010, we entered into a three-year employment agreement with Mr. Laney under which, as our chief executive officer, he will receive an initial annual base salary of \$500,000 and an initial annual incentive opportunity of 100% of his annual base salary, with a guaranteed bonus of \$250,000 for 2010. Mr. Laney was also granted stock options to acquire 850,000 shares of common stock, 50% of which vested on October 21, 2011 and the remaining 50% will vest on October 21, 2012. Additionally, Mr. Laney received 450,000 shares of restricted stock of which (A) two-thirds (300,000 shares) of the restricted stock vests based on the achievement of performance goals relating to increases in the price of a share of common stock (with one-third (100,000 shares) of the restricted stock vesting when the stock price equals or exceeds \$25 per share, one-third (100,000 shares) of the restricted stock vesting when the stock price equals or exceeds \$28 per share and one-third (100,000 shares) of the restricted stock vesting when the stock price equals or exceeds \$32 per share), and (B) one-third (150,000 shares) of the restricted stock vests based on the passage of time (with 50% of the service-based shares vested on October 21, 2011 and the remaining 50% vesting on October 21, 2012). The vesting of Mr. Laney's restricted stock is subject to his continued employment with us. Pursuant to the terms of the employment agreement, upon Mr. Laney's commencement of employment with us, Mr. Laney received a lump-sum sign-on cash bonus of \$1.2 million. Mr. Laney is also eligible to participate in the same Company benefit programs as similarly situated executives of the Company. In the event of termination of Mr. Laney's employment without cause or Mr. Laney's resignation with good reason, Mr. Laney is eligible to receive certain severance benefits, as more fully described in *Potential Payments upon Termination or Change-in-Control* below.

Mr. Metzger's Employment Agreement

In October 2011, we entered into a one-year employment agreement with Mr. Metzger under which, as President, Midwest, he will receive an annual base salary to be \$300,000 and an initial annual incentive opportunity of 100% of his annual base salary. Mr. Metzger is also eligible to participate in the same Company benefit programs as similarly situated executives of the Company. In the event of termination of Mr. Metzger's employment without cause or Mr. Metzger's resignation with good reason, Mr. Metzger is eligible to receive certain severance benefits, including enhanced severance benefits in the event of a termination of employment within two years following a change in control, as more fully described in *Potential Payments upon Termination or Change-in-Control* below.

Mr. Newfield's Employment Agreement

In October 2011, we entered into a one-year employment agreement with Mr. Newfield under which, as Chief Risk Officer, he will receive an annual base salary to be \$300,000 and an initial annual incentive opportunity of 100% of his annual base salary. Mr. Newfield is also eligible to participate in the same Company benefit programs as similarly situated executives of the Company. In the event of termination of Mr. Newfield's employment without cause or Mr. Newfield's resignation with good reason, Mr. Newfield is eligible to receive certain severance benefits, including enhanced severance benefits in the event of a termination of employment within two years following a change in control, as more fully described in *Potential Payments upon Termination or Change-in-Control* below.

Table of Contents*Ms. Hinderhofer's Employment Agreement*

In August 2012, we entered into a one-year employment agreement with Ms. Hinderhofer under which, as Chief of Integration, Technology and Operations, she will receive an annual base salary to be \$250,000 and an initial annual incentive opportunity of 80% of her annual base salary. Ms. Hinderhofer is also eligible to participate in the same Company benefit programs as similarly situated executives of the Company. In the event of termination of Ms. Hinderhofer's employment without cause or Ms. Hinderhofer's resignation with good reason, Ms. Hinderhofer is eligible to receive certain severance benefits, including enhanced severance benefits in the event of a termination of employment within two years following a change in control, as more fully described in *Potential Payments upon Termination or Change in Control* below.

Outstanding Equity Awards at 2011 Fiscal Year-End

The following table provides information regarding outstanding equity awards held by each of our named executive officers on December 31, 2011:

Name	Option Awards					Stock Awards			Equity Incentive Plan Awards: Market or Payout Value of Unearned Shares, Units or Other Rights That Have Not Vested (\$) ⁽⁸⁾

NBH Holdings Corp. 2009 Equity Incentive Plan

Introduction

We adopted the 2009 Equity Incentive Plan on October 20, 2009. The 2009 Equity Incentive Plan provides for the grant of nonqualified and incentive stock options, stock appreciation rights (SARs), restricted stock awards, restricted stock units and other awards that may be settled in or based upon the value of our common stock. Set forth below is a summary of the material features that are in the 2009 Equity Incentive Plan.

Edgar Filing: Oak Valley Bancorp - Form 10-Q

This summary is qualified in its entirety by the actual 2009 Equity Incentive Plan.

Table of Contents

Purpose

The purposes of the 2009 Equity Incentive Plan are to give us a competitive advantage in attracting, retaining and motivating officers, employees, directors and consultants and to provide a means whereby officers, employees, directors and/or consultants can acquire and maintain ownership of our common stock or be paid incentive compensation measured by reference to the value of our common stock, thereby strengthening their commitment to our welfare and that of our affiliates and promoting an identity of interest between our stockholders and recipients of awards under the 2009 Equity Incentive Plan.

Administration

The 2009 Equity Incentive Plan is administered by the Compensation Committee or such other committee of our board of directors as our board of directors may from time to time designate. Among other things, the Compensation Committee has the authority to select individuals to whom awards may be granted, to determine the type of award as well as the number of shares of common stock to be covered by each award, and to determine the terms and conditions of any such awards. Subject to applicable law, the Compensation Committee may allocate all or any portion of its responsibilities and powers to any one or more of its members or persons selected by it.

Eligibility

Current and prospective directors, employees (including executive officers) and/or consultants to us and any of our subsidiaries and affiliates are eligible to participate in the 2009 Equity Incentive Plan.

Shares Subject to the 2009 Equity Incentive Plan

The aggregate number of shares of our common stock available for issuance under the 2009 Equity Incentive Plan at the time of its adoption was 5,750,000. Of the shares issued as restricted stock under the 2009 Equity Incentive Plan, 254,959 have vested. The maximum number of shares of our common stock that may be granted pursuant to stock options is 70% of the shares available for issuance under the 2009 Equity Incentive Plan and the maximum number of shares of common stock that may be granted pursuant to restricted stock and restricted stock units is 30% of the shares available for issuance under the 2009 Equity Incentive Plan. Once the 2009 Equity Incentive Plan becomes subject to Section 162(m) of the Internal Revenue Code, the maximum number of stock options that may be granted to any one individual during any calendar year is 4,025,000 and the maximum aggregate number of shares relating to restricted stock, restricted stock units or performance-based restricted stock that may be granted to any one individual during any calendar year is 1,725,000.

The shares of common stock subject to grant under the 2009 Equity Incentive Plan are to be made available from authorized but unissued shares, from treasury shares, from shares purchased on the open market or by private purchase, or a combination of any of the foregoing. To the extent that any award is forfeited, or any stock option or stock appreciation right terminates, expires or lapses without being exercised, or any award is settled for cash, the shares of common stock subject to such awards not delivered as a result thereof will again be available for awards under the 2009 Equity Incentive Plan. If the exercise price of any option and/or the tax withholding obligations relating to any award are satisfied by delivering shares of common stock (by either actual delivery or by attestation), only the number of shares of common stock issued net of the shares of common stock delivered or attested will be deemed delivered for purposes of the limits in the 2009 Equity Incentive Plan. To the extent any shares of common stock subject to an award are withheld to satisfy the exercise price (in the case of a stock option) and/or the tax withholding obligations relating to such award, such shares of common stock will not generally be deemed to have been delivered for purposes of the limits set forth in the 2009 Equity Incentive Plan.

Table of Contents

The 2009 Equity Incentive Plan provides that in the event of certain extraordinary corporate transactions or events affecting us, the Compensation Committee or our board of directors will make such substitutions or adjustments as it deems appropriate and equitable to (1) the aggregate number and kind of shares or other securities reserved for issuance and delivery under the 2009 Equity Incentive Plan, (2) the various maximum limitations set forth in the 2009 Equity Incentive Plan, (3) the number and kind of shares or other securities subject to outstanding awards and (4) the exercise price of outstanding options and stock appreciation rights. In the case of corporate transactions such as a merger or consolidation, such adjustments may include the cancellation of outstanding awards in exchange for cash or other property or the substitution of other property for the shares subject to outstanding awards.

Awards

As indicated above, several types of awards can be made under the 2009 Equity Incentive Plan. A summary of these awards is set forth below.

Stock Options and Stock Appreciation Rights

Stock options granted under the 2009 Equity Incentive Plan may either be incentive stock options, which are intended to qualify for favorable treatment to the recipient under U.S. federal tax law, or nonqualified stock options, which do not qualify for this favorable tax treatment. Stock appreciation rights granted under the 2009 Equity Incentive Plan may either be tandem SARs, which are granted in conjunction with a stock option, or free-standing SARs, which are not granted in tandem with a stock option.

Each grant of stock options or stock appreciation rights under the 2009 Equity Incentive Plan will be evidenced by an award agreement that specifies the exercise price, the duration of the award, the number of shares to which the award pertains and such additional limitations, terms and conditions as the Compensation Committee may determine, including, in the case of stock options, whether the options are intended to be incentive stock options or nonqualified stock options. The 2009 Equity Incentive Plan provides that the exercise price of stock options and stock appreciation rights will be determined by the Compensation Committee, but may not be less than 100% of the fair market value of the stock underlying the stock options or stock appreciation rights on the date of grant. Award holders may pay the exercise price in cash or, if approved by the Compensation Committee, in common stock (valued at its fair market value on the date of exercise) or a combination thereof, or by cashless exercise through a broker or by withholding shares otherwise receivable on exercise. The term of stock options and stock appreciation rights will be determined by the Compensation Committee, but may not exceed ten years from the date of grant. The Compensation Committee will determine the vesting and exercise schedule of stock options and stock appreciation rights, and the extent to which they will be exercisable after the award holder's service with the Company terminates.

Restricted Stock

Restricted stock may be granted under the 2009 Equity Incentive Plan with such restrictions as the Compensation Committee may designate. The Compensation Committee may provide at the time of grant that the vesting of restricted stock will be contingent upon the achievement of applicable performance goals and/or continued service. Except for these restrictions and any others imposed under the 2009 Equity Incentive Plan or by the Compensation Committee, upon the grant of restricted stock under the 2009 Equity Incentive Plan, the recipient will have rights of a stockholder with respect to the restricted stock, including the right to vote the restricted stock; however, whether and to what extent the recipient will be entitled to receive cash or stock dividends paid, either currently or on a deferred basis, will be set forth in the award agreement.

Restricted Stock Units

The Compensation Committee may grant restricted stock units payable in cash or shares of common stock, conditioned upon continued service and/or the attainment of performance goals (as described below) determined

Table of Contents

by the Compensation Committee. We are not required to set aside a fund for the payment of any restricted stock units and the award agreement for restricted stock units will specify whether, to what extent and on what terms and conditions the applicable participant will be entitled to receive dividend equivalents with respect to the restricted stock units.

Stock-Bonus Awards

The Compensation Committee may grant unrestricted shares of our common stock, or other awards denominated in our common stock, alone or in tandem with other awards, in such amounts and subject to such terms and conditions as the Compensation Committee determines from time to time in its sole discretion as, or in payment of, a bonus, or to provide incentives or recognize special achievements or contributions.

Stock Awards

The Compensation Committee may permit participants to purchase unrestricted shares of common stock pursuant to the 2009 Equity Incentive Plan at a purchase price per share of common stock determined by the Compensation Committee and set forth in the applicable award agreement. The purchase price of any shares of common stock subject to such an award must be paid in full at the time of the purchase.

Performance Awards

Under the 2009 Equity Incentive Plan, the Compensation Committee may determine that the grant, vesting or settlement of an award granted under the 2009 Equity Incentive Plan may be subject to the attainment of one or more performance goals.

The Compensation Committee has the authority to establish any performance objectives to be achieved during the applicable performance period when granting performance awards. However, if an award under the 2009 Equity Incentive Plan is intended to qualify as performance-based compensation under Section 162(m) of the Internal Revenue Code, the performance goals will be established with reference to one or more of the following, either on a Company-wide basis, or, as relevant in respect of one or more affiliates, subsidiaries, divisions, departments or operations of the Company: earnings (gross, net, pre-tax, post-tax or per share), net profit after tax, EBITDA, gross profit, cash generation, unit volume, market share, sales, asset quality, earnings per share, operating income, revenues, return on assets, return on operating assets, return on equity, profits, total stockholder return (measured in terms of stock price appreciation and/or dividend growth), cost saving levels, marketing spending efficiency, core non-interest income, change in working capital, return on capital and/or stock price.

Termination of Employment

The impact of a termination of employment on an outstanding award granted under the 2009 Equity Incentive Plan, if any, will be set forth in the applicable award agreement.

Treatment of Outstanding Equity Awards following a Change in Control

The 2009 Equity Incentive Plan provides that, unless otherwise set forth in an award agreement, in the event of a change in control (as defined in the 2009 Equity Incentive Plan), (1) any restricted stock that was forfeitable prior to such change in control will become nonforfeitable, (2) all restricted stock units will be considered earned and payable in full and any restrictions thereon will lapse, (3) any unexercised stock option or SAR, whether or not exercisable on the date of such change in control, will become fully exercisable and may be exercised in whole or in part, and (4) the Compensation Committee may determine the level of achievement with respect to any performance-based awards through the date of the change in control. The Compensation Committee may make additional adjustments and/or settlements of outstanding awards upon a change in control, including cancelling any awards for cash upon at least ten days advance notice to affected participants.

Table of Contents

A change in control is generally deemed to occur under the 2009 Equity Incentive Plan upon:

- (1) the acquisition by any individual, entity or group of beneficial ownership (pursuant to the meaning given in Rule 13d-3 under the Exchange Act) of 35% or more (on a fully diluted basis) of either (a) the outstanding shares of the Company's common stock or (b) the combined voting power of our then outstanding voting securities, with each of clauses (a) and (b) subject to certain customary exceptions;
- (2) a majority of the directors who constituted our board of directors at the time the 2009 Equity Incentive Plan was adopted are replaced by directors whose appointment or election is not endorsed by at least two-thirds of the incumbent directors then on the board of directors;
- (3) approval by our stockholders of the Company's complete dissolution or liquidation; or
- (4) a merger of the Company, the sale or disposition by the Company of all or substantially all of its assets, or any other business combination of the Company with any other corporation, other than any merger or business combination which would result in (a) the voting securities of the Company outstanding immediately prior to the transaction continuing to represent at least 50% of the total voting power of the Company or such surviving entity outstanding immediately after such transaction, (b) no person (other than any employee benefit plan sponsored or maintained by the surviving company) is or becomes the beneficial owner, directly or indirectly, of 35% or more of the total voting power of the parent company (or, if there is no parent company, the surviving company) or (c) at least two-thirds of the members of the board of directors of the parent company (or, if there is no parent company, the surviving company) following the consummation of the transaction were members of the board of directors at the time the execution of the initial agreement providing for the transaction was approved.

Amendment and Termination

The 2009 Equity Incentive Plan may be amended, altered, suspended, discontinued or terminated by the Board, but no amendment, alteration, suspension, discontinuation or termination may be made if it would materially impair the rights of a participant (or his or her beneficiary) without the participant's (or beneficiary's) consent, except for any such amendment required to comply with law. The 2009 Equity Incentive Plan may not be amended, altered, suspended, discontinued or terminated without stockholder approval to the extent such approval is required to comply with any tax or regulatory requirement applicable to the 2009 Equity Incentive Plan, including, from and after the date on which awards granted pursuant to the 2009 Equity Incentive Plan become subject to Section 162(m) of the Code, as necessary to prevent an award intended to qualify as performance-based compensation under Section 162(m) of the Code to cease to qualify.

Federal Income Tax Consequences Relating to Stock Options and Restricted Stock under the 2009 Equity Incentive Plan

The following discussion summarizes certain federal income tax consequences of the issuance, receipt and exercise of stock options and the granting and vesting of restricted stock, in each case under the 2009 Equity Incentive Plan. The summary does not purport to cover federal employment tax or other federal tax consequences that may be associated with the 2009 Equity Incentive Plan, nor does it cover state, local or non-U.S. taxes.

Incentive Stock Options

In general, a participant realizes no taxable income upon the grant or exercise of an incentive stock option (ISO). However, the exercise of an ISO may result in an alternative minimum tax liability to the participant. With certain exceptions, a disposition of shares purchased under an ISO within two years from the date of grant or within one year after exercise produces ordinary income to the participant (and a deduction for us) equal to the value of the shares at the time of exercise less the exercise price. Any additional gain recognized in the disposition is treated as a capital gain for which we are not entitled to a deduction. If the participant does not dispose of the shares until after the expiration of these one- and two-year holding periods, any gain or loss recognized upon a subsequent sale is treated as a long-term capital gain or loss for which we are not entitled to a deduction.

Table of Contents

Nonqualified Options

In general, in the case of a nonqualified stock option (NSO), the participant has no taxable income at the time of grant but realizes income in connection with exercise of the option in an amount equal to the excess (at the time of exercise) of the fair market value of the shares acquired upon exercise over the exercise price. A corresponding deduction is available to us. Any gain or loss recognized upon a subsequent sale or exchange of the shares is treated as capital gain or loss for which we are not entitled to a deduction.

Restricted Stock

Unless a participant makes an election to accelerate recognition of the income to the date of grant as described below, the participant will not recognize income, and the Company will not be allowed a tax deduction, at the time a restricted stock award is granted. When the restrictions lapse, the participant will recognize ordinary income equal to the fair market value of the common stock as of that date, less any amount paid for the stock, and the Company will be allowed a corresponding tax deduction at that time. If the participant files an election under Section 83(b) of the Code within 30 days after the date of grant of the restricted stock, the participant will recognize ordinary income as of the date of grant equal to the fair market value of the common stock as of that date, less any amount the participant paid for the common stock, and we will be allowed a corresponding tax deduction at that time. Any future appreciation in the common stock will be taxable to the participant at capital gains rates. However, if the restricted stock award is later forfeited, the participant will not be able to recover the tax previously paid pursuant to his Section 83(b) election.

2011 Potential Payments upon Termination or Change-in-Control

The following discussion addresses potential payments to our named executive officers upon termination of employment or a change in control.

Termination of Employment without Cause or Resignation with Good Reason

Severance Under Mr. Laney's Employment Agreement

If Mr. Laney's employment is terminated (i) by us without cause or (ii) by Mr. Laney for good reason, subject to his execution and non-revocation of a release of claims against us and our affiliated entities, Mr. Laney will receive any earned but unpaid base salary and bonuses, accrued unused vacation and a lump sum cash amount equal to the sum of (A) three times his annual base salary immediately prior to the date of the qualifying termination and (B) three times the higher of his annual incentive opportunity for the year of termination or the annual bonus paid or payable to Mr. Laney in respect of the year prior to the year of the qualifying termination. In addition, upon a qualifying termination, all of the stock options granted under Mr. Laney's employment agreement will vest and become exercisable, the time-based vesting portion of the restricted stock award granted under Mr. Laney's employment agreement will vest and the market-based vesting portion of the restricted stock granted under Mr. Laney's employment agreement will be forfeited.

For the purposes of Mr. Laney's employment agreement, good reason generally means (1) a material diminution of annual base salary or annual incentive opportunity, (2) a material diminution in position, authority, duties or responsibilities, (3) any material failure by us to comply with the compensation related provisions of the employment agreement or (4) any material breach by us of the employment agreement.

For the purposes of Mr. Laney's employment agreement, cause generally means the executive's (1) continued failure to perform substantially his duties, (2) willful misconduct or gross neglect in the performance of his duties, (3) continued failure to adhere materially to the clear directions of the board of directors or failure to devote substantially all of his business time and efforts to the Company, (4) conviction of or formal admission to or plea of guilty or *nolo contendere* to a charge of commission of a felony or any crime involving serious moral turpitude or (5) willful breach of any material terms of the employment agreement.

Table of Contents

Severance for Named Executive Officers other than Mr. Laney

If Ms. Hinderhofer, Mr. Metzger or Mr. Newfield's employment is terminated (i) by us without cause or (ii) by the executive for good reason, subject to the executive's execution and non-revocation of a release of claims against us and our affiliated entities, the executive officer will receive any earned but unpaid base salary and bonuses, accrued unused vacation and a lump sum cash amount equal to the sum of (A) his annual base salary immediately prior to the date of the qualifying termination and (B) the higher of his annual incentive opportunity for the year of termination or the annual bonus paid or payable to the executive in respect of the year prior to the year of the qualifying termination. The definitions of cause and good reason in the employment agreements are substantially the same as those set forth in Mr. Laney's employment agreement. Ms. Hinderhofer was not entitled to any severance benefits as of December 30, 2011 because she entered into her employment agreement in 2012. Accordingly, the table below does not disclose any cash severance for Ms. Hinderhofer upon a termination of employment

As of December 30, 2011, Mr. Gaiter was not eligible for severance upon his termination of employment for any reason.

Mr. Fitzgerald's Separation Letter

We entered into a separation letter agreement with Mr. Fitzgerald in connection with his ceasing to serve as Chief Financial Officer of the Company in November 2011 and his separation of employment in January 2012. The separation letter agreement provided that he would provide services to us through January 31, 2012 and during that time would continue to receive his annual base salary, would be entitled to an annual incentive opportunity for 2011 (\$300,000) and the vesting of his time-vesting restricted stock (33,541 shares of restricted stock) on his termination date. Additionally, all outstanding stock options and market-based vesting restricted stock were forfeited.

Equity Awards under the 2009 Equity Incentive Plan

Mr. Laney's employment agreement provides that upon a termination of employment by us without cause or a resignation of employment by Mr. Laney for good reason (each as defined in Mr. Laney's employment agreement) all of the stock options granted in connection with the employment agreement and the time-based vesting portion of the restricted stock award granted in connection with the employment agreement will vest, and, to the extent applicable, become exercisable.

The equity award agreements entered into by us with each of our named executive officers provide that upon a termination of employment without cause or a resignation of employment for good reason, the outstanding unvested stock options and unvested time-based restricted stock held by the named executive officers will immediately vest upon such a termination of employment and the outstanding performance-based restricted stock will be forfeited.

For named executive officers other than Mr. Laney, good reason under the equity awards granted prior to December 31, 2010 generally means (1) material diminution of annual base salary or annual incentive opportunity, (2) material diminution in position, authority, duties or responsibilities, (3) any requirement by us that the named executive officer's services be rendered at a location other than at the Company's primary office location in Boston, Massachusetts, subject to the named executive officer's performance of duties at, and travel to, such other offices of the Company as required to fulfill such duties or (4) any material breach of any written employment agreement by the Company. Equity awards granted since January 1, 2011 limit good reason to clauses (1), (2) and (4) above.

Table of Contents

For named executive officers other than Mr. Laney, *cause* generally means (1) the continued failure of the executive to perform substantially the executive's duties, (2) willful misconduct or gross neglect in the performance of his or her duties, (3) continued failure to adhere materially to the clear directions of the board of directors or failure to devote substantially all of the named executive officer's business time to us, (4) conviction of or formal admission to or plea of guilty or *nolo contendere* to a charge of commission of a felony or (5) willful breach of any material term of any employment agreement.

Termination of Employment For Cause or Resignation without Good Reason

Upon a termination of employment for *cause* or the executive's resignation of employment without *good reason*, the executive is entitled to accrued benefits, including accrued base salary as of the date of termination of employment, accrued vacation and the timely payment of any amounts due and payable under any of our plans, programs, policies or practices.

All unvested equity awards will be forfeited following a termination of employment for *cause* or the executive's resignation of employment without *good reason*.

Termination of Employment due to Death or Disability

Upon a termination of employment due to death or disability, the executive is entitled to accrued benefits, including accrued base salary, as of the date of termination of employment, accrued vacation and the timely payment of any amounts due and payable under any of our plans, programs, policies or practices. All unvested equity awards will be forfeited following a termination of employment due to death or disability.

Change in Control

The employment agreements with Messrs. Metzger and Newfield and Ms. Hinderhofer provide for enhanced severance payments upon a termination of employment by us without *cause* or by the executive with *good reason* within two years following a change in control (similar definition to that in the 2009 Equity Incentive Plan). In the event of such a qualifying termination in connection with a change in control, each such executive would be entitled to two times the sum of (A) his or her annual base salary immediately prior to the date of the qualifying termination and (B) the higher of his or her annual incentive opportunity for the year of termination or the annual bonus paid or payable to the executive in respect of the year prior to the year of the qualifying termination. Ms. Hinderhofer was not entitled to any benefits upon a termination of employment following a change in control as of December 30, 2011 because she entered into her employment agreement in 2012. Accordingly, the table below does not disclose any cash severance for Ms. Hinderhofer upon a termination of employment following a change in control.

All unvested outstanding stock options and time-based restricted stock held by the named executive officers immediately vest, and in the case of stock options, become exercisable, upon a *change in control* of the Company (as defined in the 2009 Equity Incentive Plan). Performance-based restricted stock held by the named executive officers will vest based on performance prior to the change in control, as determined by the Compensation Committee.

Table of Contents

For the named executive officers serving as of December 30, 2011, the potential payments upon termination under various termination scenarios or the occurrence of a change in control are quantified in the table set forth below:

Name	Scenario	Cash Severance (\$) ⁽¹⁾	Stock Option Vesting (\$) ⁽²⁾	Restricted Stock Vesting (\$) ⁽²⁾	Total (\$)
G. Timothy Laney	Voluntary Resignation				
	Involuntary Termination not for Cause	3,750,000		1,456,500	5,206,500
	Involuntary Termination for Cause				
	Involuntary Termination Following Change in Control	3,750,000		1,456,500	5,206,500
Donald G. Gaiter	Change in Control (No Termination of Employment)			1,456,500	1,456,500
	Voluntary Resignation				
	Involuntary Termination not for Cause			651,386	651,386
	Involuntary Termination for Cause				
Thomas M. Metzger	Involuntary Termination Following Change in Control			651,386	651,386
	Change in Control (No Termination of Employment)			651,386	651,386
	Voluntary Resignation				
	Involuntary Termination not for Cause	650,000		651,386	1,301,386
Richard U. Newfield	Involuntary Termination for Cause				
	Involuntary Termination Following Change in Control	1,300,000		651,386	1,951,386
	Change in Control (No Termination of Employment)			651,386	651,386
	Voluntary Resignation				
Kathryn M. Hinderhofer	Involuntary Termination not for Cause	600,000		323,673	923,673
	Involuntary Termination for Cause				
	Involuntary Termination Following Change in Control	1,200,000		323,673	1,523,673
	Change in Control (No Termination of Employment)			323,673	323,673
Kathryn M. Hinderhofer	Voluntary Resignation				
	Involuntary Termination not for Cause			129,473	129,473
	Involuntary Termination for Cause				
	Involuntary Termination Following Change in Control			129,473	129,473
Kathryn M. Hinderhofer	Change in Control (No Termination of Employment)			129,473	129,473

(1) Severance amounts are based on the terms of the applicable employment agreements.

(2) We used information provided by third parties, including independent valuation specialists, as contemplated by the 2009 Equity Incentive Plan, to assist us in our determination of estimates regarding the value associated with the Company's common stock as of December 30, 2011.

2011 Director Compensation

Each non-employee director receives an annual cash retainer of \$50,000 as compensation for his or her services as a member of the board of directors. No individual meeting fees are paid for either board meetings or committee meetings, whether in person or by telephone. The chairman of our board of directors receives an additional \$25,000 cash retainer and the chairs of the Audit and Risk Committee, Compensation

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Committee and Nominating and Corporate Governance Committee each receive additional cash retainers of \$20,000.

Table of Contents

In recognition of the exceptional service to the Company provided by the non-employee directors and the length of time since the previous equity grant to board members (concurrent with the 2009 private offering) each non-employee director was granted stock options in October 2011 with respect to 8,000 shares of Company common stock and 2,500 shares of restricted stock in October 2011. Fifty-percent of the stock option and restricted stock awards will vest on the second anniversary of the date of grant and the remaining 50% of the stock option and restricted stock awards will vest on the third anniversary of the date of grant, in each case subject to continued service through the applicable vesting date and our common stock becoming listed on a public stock exchange.

Compensation for non-employee directors during 2011 was as follows:

Name	Fees earned or paid in cash (\$)	Stock awards (\$)(1)	Option awards (\$)(2)	Non-equity incentive plan compensation (\$)	Change in pension value and nonqualified deferred compensation earnings (\$)	All other compensation (\$)	Total (\$)
Frank V. Cahouet	\$ 75,000	\$ 46,150	\$ 40,880				\$ 162,030
Ralph W. Clermont	\$ 70,000	\$ 46,150	\$ 40,880				\$ 157,030
Robert E. Dean	\$ 70,000	\$ 46,150	\$ 40,880				\$ 157,030
Lawrence K. Fish	\$ 50,000	\$ 46,150	\$ 40,880				\$ 137,030
Micho F. Spring	\$ 50,000	\$ 46,150	\$ 40,880				\$ 137,030
Burney S. Warren	\$ 70,000	\$ 46,150	\$ 40,880				\$ 157,030

- (1) The amounts in this column reflect the grant date fair value of the 2,500 shares of restricted stock awarded to each of our directors in October 2011 calculated in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718, Compensation - Stock Compensation (FASB ASC Topic 718). See note 17 of the consolidated financial statements for an explanation of the assumptions made in valuing these awards. At the end of 2011, the aggregate number of shares of restricted stock held by each current non-employee director was as follows: Mr. Cahouet, 16,875; Mr. Clermont, 12,083; Mr. Dean, 12,083; Mr. Fish, 2,500; Ms. Spring, 12,083; and Mr. Warren, 12,083.
- (2) The amounts included in this column reflect the grant date fair value of stock option awards granted to our directors in October 2011. The grant date fair value was determined in accordance with FASB ASC Topic 718. The grant date fair value of the stock options is estimated using the Black-Scholes option pricing model. See note 17 of the consolidated financial statements for an explanation of the assumptions made in valuing these awards. At the end of 2011, the aggregate number of shares of our common stock relating to stock options held by each current non-employee director was as follows: Mr. Cahouet, 65,500 (28,750 of which are currently vested); Mr. Clermont, 46,333 (19,166 of which are currently vested); Mr. Dean, 46,333 (19,166 of which are currently vested); Mr. Fish, 8,000 (none of which are currently vested); Ms. Spring, 46,333 (19,166 of which are currently vested); and Mr. Warren, 46,333 (19,166 of which are currently vested).

Table of Contents

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

In addition to the director and executive officer compensation arrangements discussed above under Compensation Discussion and Analysis Executive Officer Compensation, the following is a summary of material provisions of various transactions we have entered into with our executive officers, directors (including nominees), 5% or greater stockholders and any of their immediate family members since June 16, 2009, the date National Bank Holding Corporation was incorporated. We believe the terms and conditions set forth in such agreements are reasonable and customary for transactions of this type.

Founders Stock

Prior to the consummation of our 2009 private offering, we sold (1) 125,000 shares of Class A common stock to members of our senior management team and (2) 125,000 shares of Class B non-voting common stock to FBR Capital Markets & Co., one of the underwriters in this offering, for nominal consideration. FBR Capital Markets & Co. transferred all such shares of the Class B non-voting common stock held by it to a member of our board of directors.

Warrants Issued to Certain Stockholders

In connection with the agreement by several of our largest shareholders to be bound by the FDIC Policy Statement, we issued warrants to purchase common stock to such investors. The warrants are exercisable for 10 years from the date of issuance and have an exercise price of \$20.00 per share. We issued (1) a warrant to purchase 237,500 shares of common stock to Ithan Creek Investors USB, LLC (an investment advisory client of Wellington Management Company, LLP) on October 20, 2009, (2) a warrant to purchase 237,500 shares of common stock to Ithan Creek Investors USB, LLC on March 23, 2010, (3) a warrant to purchase 250,750 shares of common stock to Paulson Master Recovery Fund LTD on March 15, 2010, and (4) a warrant to purchase 42,000 shares of common stock to Elliott Associates, L.P. and a warrant to purchase 63,000 shares of common stock to a wholly owned subsidiary of Elliott International, L.P. on September 30, 2010.

Registration Rights Agreement

Concurrently with the consummation of our 2009 private offering, we entered into a registration rights agreement for the benefit of the selling stockholders in this offering, with respect to our common stock sold in the 2009 private offering. Under the terms of the registration rights agreement, within 180 days of our investing at least 25% of the net proceeds of the 2009 private offering, we agreed to file with the Securities and Exchange Commission a shelf registration statement on Form S-1 or such other form under the Securities Act as would allow our stockholders to resell the shares of common stock acquired in the 2009 private offering. Our acquisitions of Hillcrest Bank and Bank Midwest represented over 25% of the net proceeds of our 2009 private offering. Our stockholders subsequently agreed to extend the deadline for filing a shelf registration statement until March 31, 2012.

Further, if the shelf registration statement has not been declared effective by the SEC within 180 days after the filing of such shelf registration statement (which we refer to as the Trigger Date), a special meeting of stockholders must be called in accordance with our amended and restated bylaws solely for the purposes of (1) considering and voting upon proposals to remove each of our then-serving director and (2) electing such number of directors as there are then vacancies on the board of directors. However, stockholders holding two-thirds of the outstanding registrable shares may waive the requirement to hold such special meeting. The special meeting must occur as soon as reasonably practicable following the Trigger Date but in no event more than 45 days after the Trigger Date.

Table of Contents

Under the registration rights agreement, stockholders holding registrable shares may not, subject to certain exceptions, directly or indirectly sell, offer to sell (including, without limitation, any short sale), grant any option or otherwise transfer or dispose of any such shares of our common stock for a period of 60 days following the effectiveness of such registration statement. See also Underwriting No Sales of Similar Securities.

Pursuant to FINRA Rule 5110(g)(1), holders of our common stock who are affiliated with members of the Financial Industry Regulatory Authority, or FINRA, and who elect, pursuant to the registration rights agreement, to include their shares of the common stock for resale pursuant to a shelf registration statement or as a selling stockholder pursuant to an underwritten public offering, are required to refrain, during the period commencing on the effective date of the registration statement and ending on the date that is 180 days after such effective date, from selling, transferring, assigning, pledging or hypothecating or otherwise entering into any hedging, short sale, derivative, put or call transaction that would result in the effective economic disposition of such holder's shares of the common stock through the FINRA member with which such holder is affiliated.

Services Provided by Weber Shandwick

Since 2011, the Company has periodically engaged Weber Shandwick, a unit of The Interpublic Group, for certain public relations services. Micho F. Spring, a director of the Company, is Chair, Global Corporate Practice, and President, New England at Weber Shandwick. In 2011, we paid Weber Shandwick approximately \$378,000 for its services, and, as of June 30, 2012, we have paid an additional approximately \$315,000 in 2012. In addition, we have engaged Weber Shandwick for certain public relations services following this offering. None of the services provided by Weber Shandwick have been pursuant to long-term contracts, and we believe that the services provided by Weber Shandwick have been provided on an arm's-length basis. While all revenues received by Weber Shandwick New England are considered in determining employees incentive compensation, Ms. Spring does not receive any direct compensation, finder's fees or similar payments in connection with the services provided to us.

Statement of Policy Regarding Transactions with Related Persons

Transactions by us with related parties are subject to a formal written policy, as well as regulatory requirements and restrictions. These requirements and restrictions include Sections 23A and 23B of the Federal Reserve Act (which govern certain transactions between us and our affiliates) and the Federal Reserve's Regulation O (which governs certain loans by us to our executive officers, directors, and principal stockholders). We have adopted policies to comply with these regulatory requirements and restrictions. In connection with this offering, we intend to adopt a written policy that complies with all applicable requirements of the SEC and the New York Stock Exchange concerning related party transactions.

Other Relationships

Certain of the executive officers and directors of the Company, NBH Bank and our principal shareholders and affiliates of such persons have, from time to time, engaged in banking transactions with NBH Bank and are expected to continue such relationships in the future. All loans or other extensions of credit made by NBH Bank to such individuals were made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unaffiliated third parties and did not involve more than the normal risk of collectability or present other unfavorable features.

Table of Contents**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

The following table sets forth information about the beneficial ownership of our common stock at September 21, 2012 for:

each person known to us to be the beneficial owner of more than 5% of our common stock;

each named executive officer;

each of our directors; and

all of our executive officers and directors as a group.

Unless otherwise noted below, the address of each beneficial owner listed on the table is c/o National Bank Holdings Corporation, 5570 DTC Parkway, Greenwood Village, Colorado 80111. We have determined beneficial ownership in accordance with the rules of the SEC. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the tables below have sole voting and investment power with respect to all shares of common stock that they beneficially own, subject to applicable community property laws. We have based our calculation of the percentage of beneficial ownership on 53,361,032 shares of common stock outstanding as of September 21, 2012 which was prior to the closing of our initial public offering (including 44,645,886 outstanding shares of Class A common stock, 7,545,353 shares of Class B common stock and 1,169,793 shares of unvested restricted stock granted to certain directors and officers under the 2009 Equity Incentive Plan, which shares of restricted stock are entitled to voting rights).

In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed outstanding shares of common stock subject to options or warrants held by that person that are currently exercisable or exercisable within sixty days of September 7, 2012. We, however, did not deem these shares outstanding for the purpose of computing the percentage ownership of any other person. Beneficial ownership representing less than 1% is denoted with an asterisk (*).

- (4) Includes 15,000 shares of Class A common stock held by Gaiter Investment LLC, of which Donald Gaiter is the Manager; and 25,000 shares of Class A common stock held by Gutierrez Investments, LCC, a Massachusetts Limited Liability Company having Gloria M. Gutierrez, the spouse of Donald Gaiter, one of the Company's executive officers, as the Manager.
- (5) Includes 10,000 shares of Class A common stock held by Frank V. Cahouet Deed of Trust.
- (6) Includes 5,000 shares of Class A common stock held by Ralph W. Clermont Revocable Trust.
- (7) Includes 1,000 shares of Class A common stock held by Robert E. Dean and Ann T. Dean, Trustees of Dean Family Trust.
- (8) Includes 130,000 shares of Class A common stock held by LKF Associates, LLC.
- (9) Includes shares of Class A and Class B common stock and 475,000 warrants owned by institutional investors advised by Wellington Management Company, LLP (Wellington Management), including Ithan Creek Investors USB, LLC and Ithan Creek Investors II USB, LLC. Wellington Management is an investment adviser registered under the Investment Advisers Act of 1940, and, in such capacity, may be deemed to share beneficial ownership over the shares held by its client accounts. The address of Wellington Management is 280 Congress Street, Boston, Massachusetts 02110.
- (10) Includes shares of Class A and Class B common stock and 250,750 warrants owned by Paulson Recovery Master Fund Ltd. (the Fund). Paulson & Co. Inc. (Paulson) and its affiliates provide investment management services to the Fund, other pooled investment vehicles and managed accounts. Paulson is an investment advisor registered under the Investment Advisors Act of 1940. John Paulson is the controlling person of Paulson. The Fund may be deemed to have shared power to vote or to direct the vote and shared power to dispose or to direct the disposition of the shares and warrants reported herein with Paulson and John Paulson. For purposes of the Exchange Act, neither the Fund, Paulson nor John Paulson should be deemed to be the beneficial owner of any securities of NBH. The address of Paulson & Co. Inc. is 1251 Avenue of the Americas, 50th Floor, New York, NY 10020.
- (11) Includes 2,543,125 shares of Class A common stock and 63,000 warrants owned by Elliott Opus Holdings LLC, a Delaware limited liability company, which is a subsidiary of Elliott International, L.P. Hambledon, Inc., a Cayman Islands corporation controlled by Paul E. Singer, is the sole general partner of Elliott International, L.P. In addition, Elliott International Capital Advisors Inc., the investment manager of Elliott International, L.P. which is controlled by Mr. Singer, has shared power with Elliott International, L.P. to vote and dispose of the Securities owned by Elliott International, L.P. Also, includes 1,369,375 shares of Class A common stock and 42,000 warrants owned by Elliott Associates, L.P., a Delaware limited partnership. Mr. Singer, Elliott Capital Advisors, L.P., a Delaware limited partnership which is controlled by Mr. Singer, and Elliott Special GP, LLC, a Delaware limited liability company which is controlled by Mr. Singer, are the general partners of Elliott Associates, L.P. The address of Elliott Management Corporation is 712 Fifth Avenue, New York, NY 10022.
- (12) Includes shares of Class A and Class B common stock owned by Taconic Opportunity Fund L.P., Taconic Opportunity Master Fund L.P. (together, the Taconic Opportunity Funds) as well as Taconic Market Dislocation Fund II L.P. and Taconic Market Dislocation Master Fund II L.P. (together, the Taconic Market Dislocation Funds). Taconic Capital Advisors L.P. and Taconic Capital Advisors UK LLP are the investment managers for the Taconic Opportunity Funds and the Taconic Market Dislocation Funds. Taconic Associates LLC is the general partner of each of the Taconic Opportunity Funds. Taconic MDF LLC is the general partner of each of the Taconic Market Dislocation Funds. Taconic Capital Performance Partners LLC is the general

Table of Contents

- partner of Taconic Capital Advisors L.P. The managing members of Taconic Capital Performance Partners LLC are Kenneth D. Brody and Frank P. Brosens (collectively, the Taconic Managers). Taconic Capital Advisors, L.P., Taconic Associates LLC, Taconic Capital Performance Partners LLC and each of the Taconic Managers may be deemed to beneficially own the securities held by the Taconic Opportunity Funds and the Taconic Market Dislocation Funds. Taconic Capital Advisors L.P., Taconic Associates LLC, Taconic Capital Performance Partners LLC and each of the Taconic Managers each disclaim beneficial ownership of such securities except to the extent of their pecuniary interests therein. The address of each of these stockholders is 450 Park Avenue, 9th Floor, New York, New York 10022.
- (13) Includes Class A common stock, which constitutes 5.71% of the class, owned by an entity that is an investment company registered under Section 8 of the Investment Company Act of 1940 (the Fund) advised by Fidelity Management & Research Company (Fidelity), 82 Devonshire Street, Boston, Massachusetts 02109, a wholly owned subsidiary of FMR LLC and an investment adviser registered under Section 203 of the Investment Advisers Act of 1940. Edward C. Johnson 3d and FMR LLC, through its control of Fidelity, and the Fund each has sole power to dispose of the securities owned by the Fund. Members of the family of Edward C. Johnson 3d, Chairman of FMR LLC, are the predominant owners, directly or through trusts, of Series B voting common shares of FMR LLC, representing 49% of the voting power of FMR LLC. The Johnson family group and all other Series B shareholders have entered into a shareholders voting agreement under which all Class B voting common shares will be voted in accordance with the majority vote of Class B voting common shares. Accordingly, through their ownership of voting common shares and the execution of the shareholders voting agreement, members of the Johnson family may be deemed, under the Investment Company Act of 1940, to form a controlling group with respect to FMR LLC. Neither FMR LLC nor Edward C. Johnson 3d, Chairman of FMR LLC, has the sole power to vote or direct the voting of the shares owned directly by the Fund, which power resides with the Fund s Boards of Trustees. Fidelity carries out the voting of the shares under written guidelines established by the Fund s Boards of Trustees.

Table of Contents

SELLING STOCKHOLDERS

The table below sets forth information concerning the resale of shares of Class A common stock (including shares of Class A common stock issuable upon conversion of shares of Class B non-voting common stock) by the selling stockholders. The selling stockholders acquired securities from us in our 2009 private placement or in a chain of transactions with a purchaser in our 2009 private placement, each of which transaction was exempt from registration under the Securities Act. We will not receive any proceeds from the resale of shares of Class A common stock by the selling stockholders.

We have been advised that as noted below in the footnotes to the table, some of the selling stockholders are affiliates of broker-dealers. We have been advised that each of such selling stockholders purchased our common stock in the ordinary course of business, not for resale, and that none of these selling stockholders had, at the time of purchase, any agreements or understandings, directly or indirectly, with any person to distribute the common stock.

The following table is based on information provided to us by the selling stockholders on or about September 2012 and as of such date. Because the selling stockholders may sell all, some or none of the shares of Class A common stock, no estimate can be given as to the amount of shares that will be held by the selling stockholders upon termination of this offering.

Table of Contents

DESCRIPTION OF CAPITAL STOCK

The following descriptions include summaries of the material terms of our amended and restated certificate of incorporation and bylaws. Reference is made to the more detailed provisions of the amended and restated certificate of incorporation and by-laws, copies of which will be filed with the SEC as exhibits to the registration statement of which this prospectus is a part, and applicable law. The descriptions of the common stock and preferred stock reflect changes to our capital structure that will occur upon the closing of this offering.

General

Our certificate of incorporation authorizes us to issue 200,000,000 shares of Class A common stock, \$0.01 par value per share, 200,000,000 shares of Class B non-voting common stock, \$0.01 par value per share, and 50,000,000 shares of preferred stock, \$0.01 par value per share. The following description summarizes the material terms of our securities. Because it is only a summary, it may not contain all the information that is important to you.

Common Stock

Class A Common Stock and Class B Non-Voting Common Stock

As of the date of this prospectus there are 46,827,200 shares of Class A common stock and 5,904,039 shares of Class B non-voting common stock outstanding.

Our certificate of incorporation provides that, except with respect to voting rights and conversion rights, the Class A common stock and Class B non-voting common stock will be treated equally and identically.

Voting Power. Except as otherwise required by law or as otherwise provided in any certificate of designation for any series of preferred stock, the holders of Class A common stock possess all voting power for the election of our directors and all other matters requiring stockholder action, except with respect to amendments to our certificate of incorporation that alter or change the powers, preferences, rights or other terms of any outstanding preferred stock if the holders of such affected series of preferred stock are entitled to vote on such an amendment. Holders of Class A common stock will be entitled to one vote per share on matters to be voted on by stockholders. Holders of Class B non-voting common stock have no voting power, and have no right to participate in any meeting of stockholders or to have notice thereof, except as required by applicable law and except that any action that would significantly and adversely affect the rights of the Class B non-voting common stock with respect to the modification of the terms of the securities or dissolution will require the approval of the Class B non-voting common stock voting separately as a class. Except as otherwise provided by law, our certificate of incorporation or our bylaws or in respect of the election of directors, all matters to be voted on by our stockholders must be approved by a majority of the shares present in person or by proxy at the meeting and entitled to vote on the subject matter. In the case of an election of directors, where a quorum is present a plurality of the votes cast shall be sufficient to elect each director.

Conversion of Class B Non-Voting Common Stock. Each share of Class B non-voting common stock is convertible into a share of Class A common stock at the option of the holder, provided, however, that each share of Class B non-voting common stock is not convertible in the hands of the initial holder and is only convertible at the time it is transferred to a third party unaffiliated with such initial holder, subject to the transfer restrictions described in the next sentence, if and only to the extent such conversion would not, after giving effect to such conversion, cause the transferee (together with such transferee's related persons and any persons with which such transferee is acting in concert) to own, control or have the power to vote shares of Class A common stock in excess of the ownership limit described below. Shares of Class B non-voting common stock may only be transferred through one or more of the following alternatives: (1) to an affiliate of a holder or to the Company, (2) in a widely dispersed public offering, (3) in a private sale in which no purchaser would acquire Class A common stock and/or Class B non-voting common stock in an amount that, after the conversion of such Class B

Table of Contents

non-voting common stock into Class A common stock, is (or represents) 2% or more of a class of our voting securities or (4) to a purchaser acquiring majority control of the Company notwithstanding such transfer.

Dividends. Holders of Class A common stock and Class B non-voting common stock are equally entitled to receive such dividends, if any, as may be declared from time to time by our board of directors in its discretion out of funds legally available therefor. In no event will any stock dividends or stock splits or combinations of stock be declared or made on Class A common stock or Class B non-voting common stock unless the shares of Class A common stock and Class B non-voting common stock at the time outstanding are treated equally and identically, provided that, in the event of a dividend of Common Stock, shares of Class B non-voting common stock shall only be entitled to receive shares of Class B non-voting common stock and shares of Class A common stock shall only be entitled to receive shares of Class A common stock.

Liquidation Distribution. In the event of the voluntary or involuntary liquidation, dissolution, distribution of assets or winding-up of the Corporation, the holders of our Class A common stock and Class B non-voting common stock are entitled to receive an equal amount per share of all the assets of the Company of whatever kind available for distribution to holders of Class A common stock and Class B non-voting common stock, after the rights of the holders of the preferred stock have been satisfied.

Board of Directors. Each member of our board of directors is elected annually and serves for a one-year term. There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the shares eligible to vote for the election of directors can elect all of the directors.

Preemptive or Other Rights. Our stockholders have no conversion, preemptive or other subscription rights (other than the right of holders of shares of Class B non-voting common stock to convert such shares into shares of Class A common stock as described in *Conversion of Class B Non-Voting Common Stock* above) and there are no sinking fund or redemption provisions applicable to the Common Stock.

No Action by Written Consent. Our certificate of incorporation provides that, subject to the rights of the holders of any series of preferred stock with respect to such series of preferred stock, any action required or permitted to be taken by the stockholders of the Company must be effected at a duly called annual or special meeting of stockholders of the Company and may not be effected by any consent in writing by such stockholders.

Preferred Stock

No shares of preferred stock are currently outstanding. Our certificate of incorporation authorizes our board of directors to issue and to designate the terms of one or more new classes or series of preferred stock. The rights with respect to a class or series of preferred stock may be greater than the rights attached to our common stock. It is not possible to state the actual effect of the issuance of any shares of our preferred stock on the rights of holders of our common stock until our board of directors determines the specific rights attached to that class or series of preferred stock.

Warrants

In connection with the agreement by several of our largest shareholders to be bound by the FDIC Policy Statement, we issued warrants to purchase common stock to such investors. The warrants are exercisable for 10 years from the date of issuance and have an exercise price of \$20.00 per share. We issued (1) a warrant to purchase 237,500 shares of common stock to Ithan Creek Investors USB, LLC (an investment advisory client of Wellington Management Company, LLP) on October 20, 2009, (2) a warrant to purchase 237,500 shares of common stock to Ithan Creek Investors USB, LLC on March 23, 2010, (3) a warrant to purchase 250,750 shares of common stock to Paulson Master Recovery Fund LTD on March 15, 2010, and (4) a warrant to purchase 42,000 shares of common stock to Elliott Associates, L.P. and a warrant to purchase 63,000 shares of common stock to a wholly owned subsidiary of Elliott International, L.P. on September 30, 2010.

Table of Contents

FDIC Value Appreciation Instrument

In connection with each of our three FDIC-assisted acquisitions, we issued a value appreciation instrument to the FDIC with respect to 100,000 units for a total of up to 300,000 units (of which 100,000 are to be settled in cash only). Each unit is equivalent to one share of common stock. The value appreciation instrument provides for a payment to the FDIC, as determined below, in the event that we achieve certain valuation levels following an IPO or sale.

The value appreciation instruments become exercisable upon notice by the Company to the FDIC, which notice must be given within five days after the consummation of a public float event or a sale event. The value appreciation instruments remain exercisable until their expiration dates, which are the earlier of (1) the first anniversary of the public float or the closing of a sale event or (2) two years following the issuance of the instrument (October 22, 2012 in the case of the value appreciation instrument issued in the Hillcrest Bank acquisition, July 22, 2013 in the case of the value appreciation instrument issued in the Bank of Choice acquisition and October 21, 2013 in the case of the value appreciation instrument issued in the Community Banks of Colorado Bank acquisition). A public float event occurs when the Company's public float increases to more than \$50 million for 30 consecutive trading days by means of an IPO or appreciation of market price. A sale event refers to any business combination in which the Company is designated as the selling entity or a sale of all or substantially all of the Company's assets. This offering will constitute a public float event.

With respect to the instrument issued in our acquisition of Hillcrest Bank, during the exercise period, the FDIC will be entitled to exercise the value appreciation instrument and receive a cash payment equal to the product of (1) the number of units with respect to which the FDIC exercises the value appreciation instrument and (2) the difference between the exercise price of \$18.65 and (i) if a public float event occurs, the two day volume weighted average price per unit and (ii) if a sales event occurs, the value of the consideration received per unit.

With respect to the instruments issued in our acquisitions of Bank of Choice and Community Banks of Colorado, during the exercise period, the FDIC will be entitled to exercise the value appreciation instrument and receive a payment in either cash or shares of our common stock. If cash is elected by the FDIC, we must pay cash in an amount equal to the product of (1) the number of units with respect to which the FDIC exercises the value appreciation instrument and (2) the difference between the exercise price (\$17.95 in the case of the value appreciation instrument issued in the Bank of Choice acquisition and \$18.93 in the case of the value appreciation instrument issued in the Community Banks of Colorado acquisition) and (i) if a public float event occurs, the two day volume weighted average price per unit and (ii) if a sales event occurs, the value of the consideration received per unit. If common stock is elected by the FDIC, we must deliver a number of shares of our common stock equal to (1) the number of units with respect to which the FDIC exercises the value appreciation instrument, multiplied by (2) the difference between the exercise price (\$17.95 in the case of the value appreciation instrument issued in the Bank of Choice acquisition and \$18.93 in the case of the value appreciation instrument issued in the Community Banks of Colorado acquisition) and (i) if a public float event occurs, the two day volume weighted average price per unit and (ii) if a sales event occurs, the value of the consideration received per unit, divided by (3)(i) if a public float event occurs, the two day volume weighted average price per unit and (ii) if a sales event occurs, the value of the consideration received per unit.

In the event that neither a public float event nor a sale event occurs by the expiration date of one of our value appreciation instruments or if the FDIC does not exercise the value appreciation instrument, on the expiration date we will pay the FDIC a cash fee equal to the product of (1) the number of unexercised units and (2) the difference between (x) the product of the Company's tangible common equity per share as of the then most recently completed quarter and the prevailing average price to tangible book multiple of the components underlying the Nasdaq Bank Index as of such date and (y) the exercise price.

Table of Contents

Certain Anti-Takeover Provisions of Delaware Law and our Certificate of Incorporation and Bylaws

Special Meeting of Stockholders

Our bylaws provide that special meetings of our stockholders may be called only by the Chairman of the Board, by our Chief Executive Officer or by a majority vote of our entire board of directors.

Advance Notice Requirements for Stockholder Proposals and Director Nominations

Our bylaws provide that stockholders seeking to bring business before our annual meeting of stockholders, or to nominate candidates for election as directors at our annual meeting of stockholders, must provide timely notice of their intent in writing. To be timely, a stockholder's notice must be delivered to our principal executive offices not less than 90 days nor more than 120 days prior to the meeting. Our bylaws also specify certain requirements as to the form and content of a stockholder's notice. These provisions may preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders.

Stockholder-Initiated Bylaw Amendments

Our bylaws may be adopted, amended, altered or repealed by stockholders only upon approval of at least two-thirds of the voting power of all the then outstanding shares of the Class A common stock. Additionally, our certificate of incorporation will provide that our bylaws may be amended, altered or repealed by the board of directors by a majority vote.

Authorized but Unissued Shares

Our authorized but unissued shares of Class A common stock, Class B non-voting common stock and preferred stock are available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Section 203 of the Delaware General Corporation Law

We have not opted out of Section 203 of the Delaware General Corporation Law. Subject to certain exceptions, Section 203 of the Delaware General Corporation Law prohibits a public Delaware corporation from engaging in a business combination (as defined in such section) with an interested stockholder (defined generally as any person who beneficially owns 15% or more of the outstanding voting stock of such corporation or any person affiliated with such person) for a period of three years following the time that such stockholder became an interested stockholder, unless (i) prior to such time the board of directors of such corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder; (ii) upon consummation of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of such corporation at the time the transaction commenced (excluding for purposes of determining the voting stock of such corporation outstanding (but not the outstanding voting stock owned by the interested stockholder) those shares owned (A) by persons who are directors and also officers of such corporation and (B) by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer); or (iii) on or subsequent to such time the business combination is approved by the board of directors of such corporation and authorized at a meeting of stockholders (and not by written consent) by the affirmative vote of at least $66\frac{2}{3}\%$ of the outstanding voting stock of such corporation not owned by the interested stockholder.

Table of Contents

Limitation on Liability and Indemnification of Directors and Officers

Our certificate of incorporation provides that our directors and officers will be indemnified by us to the fullest extent authorized by Delaware law as it now exists or may in the future be amended, against all expenses and liabilities reasonably incurred in connection with their service for or on our behalf. In addition, our certificate of incorporation provides that our directors will not be personally liable for monetary damages to us for breaches of their fiduciary duty as directors, except for breach of their duty of loyalty to us or our stockholders, acts or omissions not in good faith or which include intentional misconduct or knowing violation of law, unlawful payments of dividends, unlawful stock purchases or unlawful redemptions, or any transaction from which the director derives an improper personal benefit.

We have entered into indemnification agreements with our officers and directors pursuant to which they are indemnified as described above and will be advanced costs and expenses subject to delivery of an undertaking to repay any advanced amounts if it is ultimately determined such officer or director is not entitled to indemnification for such costs and expenses.

Renunciation of Certain Corporate Opportunities

Our certificate of incorporation provides that the Company renounces any interest or expectancy in certain acquisition opportunities that our officers or directors become aware of in connection with their service to other entities to which they have a fiduciary or contractual obligation; provided that the Company does not renounce any interest or expectancy it may have in any opportunity that is offered to our officer or directors if such opportunity is expressly offered to officers or directors in writing solely in his or her capacity as an officer or director of the Company.

Transfer Agent and Registrar

American Stock Transfer & Trust Company, LLC is the transfer agent and registrar for the common stock.

Table of Contents

MATERIAL U.S. FEDERAL TAX CONSIDERATIONS

This summary does not address any U.S. federal non-income, state, local or foreign tax consequences, estate or gift tax consequences, or alternative minimum tax consequences, nor does it address any tax considerations to persons other than non-U.S. holders.

The following is a general discussion of certain U.S. federal income tax considerations with respect to the ownership and disposition of shares of our Class A common stock applicable to non-U.S. holders who acquire such shares in this offering and hold such shares as a capital asset (generally, property held for investment). For purposes of this discussion, a non-U.S. holder means a beneficial owner of our Class A common stock (other than an entity or arrangement that is treated as a partnership for U.S. federal income tax purposes) that is not, for U.S. federal income tax purposes, any of the following:

a citizen or resident of the United States;

a corporation created or organized in the United States or under the laws of the United States, any state thereof or the District of Columbia, or a non-U.S. corporation treated as such;

an estate, the income of which is includible in gross income for U.S. federal income tax purposes regardless of its source; or

a trust if (a) a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust or (b) such trust has made a valid election to be treated as a U.S. person for U.S. federal income tax purposes.

This discussion is based on current provisions of the Internal Revenue Code of 1986, as amended, which we refer to as the Code, Treasury regulations promulgated thereunder, judicial opinions, published positions of the Internal Revenue Service, and other applicable authorities, all of which are subject to change (possibly with retroactive effect). This discussion does not address all aspects of U.S. federal income taxation that may be important to a particular non-U.S. holder in light of that non-U.S. holder's individual circumstances, nor does it address any aspects of the unearned income Medicare contribution tax pursuant to the Health Care and Education Reconciliation Act of 2010, any U.S. federal estate and gift taxes, any U.S. alternative minimum taxes or any state, local or non-U.S. taxes. This discussion may not apply, in whole or in part, to particular non-U.S. holders in light of their individual circumstances or to holders subject to special treatment under the U.S. federal income tax laws (such as insurance companies, tax-exempt organizations, financial institutions, brokers or dealers in securities, controlled foreign corporations, passive foreign investment companies, non-U.S. holders that hold our Class A common stock as part of a straddle, hedge, conversion transaction or other integrated investment, and certain U.S. expatriates).

If a partnership (or other entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds our Class A common stock, the tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. Partners of a partnership holding our Class A common stock should consult their tax advisor as to the particular U.S. federal income tax consequences applicable to them.

THIS SUMMARY IS FOR GENERAL INFORMATION ONLY AND IS NOT INTENDED TO CONSTITUTE A COMPLETE DESCRIPTION OF ALL TAX CONSEQUENCES FOR NON-U.S. HOLDERS RELATING TO THE OWNERSHIP AND DISPOSITION OF OUR CLASS A COMMON STOCK. PROSPECTIVE HOLDERS OF OUR CLASS A COMMON STOCK SHOULD CONSULT WITH THEIR TAX ADVISORS REGARDING THE TAX CONSEQUENCES TO THEM (INCLUDING THE APPLICATION AND EFFECT OF ANY STATE, LOCAL, FOREIGN INCOME AND OTHER TAX LAWS) OF THE OWNERSHIP AND DISPOSITION OF OUR CLASS A COMMON STOCK.

Table of Contents

Dividends

In general, any distributions we make to a non-U.S. holder with respect to its shares of our Class A common stock that constitutes a dividend for U.S. federal income tax purposes will be subject to U.S. withholding tax at a rate of 30% of the gross amount, unless the non-U.S. holder is eligible for a reduced rate of withholding tax under an applicable tax treaty and the non-U.S. holder provides proper certification of its eligibility for such reduced rate. A distribution will constitute a dividend for U.S. federal income tax purposes to the extent of our current or accumulated earnings and profits as determined for U.S. federal income tax purposes. Any distribution not constituting a dividend will be treated first as reducing the adjusted basis in the non-U.S. holder's shares of our Class A common stock and, to the extent it exceeds the adjusted basis in the non-U.S. holder's shares of our Class A common stock, as gain from the sale or exchange of such stock.

Dividends we pay to a non-U.S. holder that are effectively connected with its conduct of a trade or business within the United States (and, if a tax treaty applies, are attributable to a U.S. permanent establishment) will not be subject to U.S. withholding tax, as described above, if the non-U.S. holder complies with applicable certification and disclosure requirements. Instead, such dividends generally will be subject to U.S. federal income tax on a net income basis, in the same manner as if the non-U.S. holder were a resident of the United States, provided that the non-U.S. holder timely files a U.S. federal income tax return. Dividends received by a foreign corporation that are effectively connected with its conduct of trade or business within the United States may be subject to an additional branch profits tax at a rate of 30% (or such lower rate as may be specified by an applicable tax treaty).

Gain on Sale or Other Disposition of Common Stock

In general, a non-U.S. holder will not be subject to U.S. federal income tax on any gain realized upon the sale or other disposition of the non-U.S. holder's shares of our Class A common stock unless:

the gain is effectively connected with a trade or business carried on by the non-U.S. holder within the United States (and, if required by an applicable tax treaty, is attributable to a U.S. permanent establishment of such non-U.S. holder);

the non-U.S. holder is an individual and is present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are met; or

we are or have been a U.S. real property holding corporation for U.S. federal income tax purposes at any time within the shorter of the five-year period preceding such disposition or such non-U.S. holder's holding period of our Class A common stock.

Gain that is effectively connected with the conduct of a trade or business in the United States (or so treated) generally will be subject to U.S. federal income tax, net of certain deductions, at regular U.S. federal income tax rates. If the non-U.S. holder is a foreign corporation, the branch profits tax described above also may apply to such effectively connected gain. An individual non-U.S. holder who is subject to U.S. federal income tax because the non-U.S. holder was present in the United States for 183 days or more during the year of sale or other disposition of our Class A common stock will be subject to a flat 30% tax on the gain derived from such sale or other disposition, which may be offset by U.S. source capital losses.

Withholdable Payments to Foreign Financial Entities and Other Foreign Entities

Under recently enacted legislation, a 30% withholding tax would be imposed on certain payments that are made to certain foreign financial institutions, investment funds and other non-U.S. persons that fail to comply with information reporting requirements in respect of their direct and indirect U.S. stockholders and/or U.S. accountholders. Such payments would include U.S. source dividends and the gross proceeds from the sale or other disposition of stock that can produce U.S. source dividends. The Internal Revenue Service has released preliminary guidance indicating that this withholding tax will not be imposed with respect to payments made prior to January 1, 2014.

Table of Contents

Backup Withholding, Information Reporting and Other Reporting Requirements

We must report annually to the Internal Revenue Service and to each non-U.S. holder the amount of dividends paid to, and the tax withheld with respect to, each non-U.S. holder. These reporting requirements apply regardless of whether withholding was reduced or eliminated by an applicable tax treaty. Copies of this information reporting may also be made available under the provisions of a specific tax treaty or agreement with the tax authorities in the country in which the non-U.S. holder resides or is established.

A non-U.S. holder will generally be subject to backup withholding for dividends on our Class A common stock paid to such holder unless such holder certifies under penalties of perjury that, among other things, it is a non-U.S. holder (and the payor does not have actual knowledge or reason to know that such holder is a U.S. person as defined under the Code).

Information reporting and backup withholding generally are not required with respect to the amount of any proceeds from the sale or other disposition of our Class A common stock by a non-U.S. holder outside the United States through a foreign office of a foreign broker that does not have certain specified connections to the United States. However, if a non-U.S. holder sells or otherwise disposes of its shares of our Class A common stock through a U.S. broker or the U.S. offices of a foreign broker, the broker will generally be required to report the amount of proceeds paid to the non-U.S. holder to the Internal Revenue Service and also backup withhold on that amount unless such non-U.S. holder provides appropriate certification to the broker of its status as a non-U.S. person or otherwise establish an exemption (and the payor does not have actual knowledge or reason to know that such holder is a U.S. person as defined under the Code). Information reporting will also apply if a non-U.S. holder sells its shares of our Class A common stock through a foreign broker deriving more than a specified percentage of its income from U.S. sources or having certain other connections to the United States, unless such broker has documentary evidence in its records that such non-U.S. holder is a non-U.S. person and certain other conditions are met, or such non-U.S. holder otherwise establishes an exemption (and the payor does not have actual knowledge or reason to know that such holder is a U.S. person as defined under the Code).

Backup withholding is not an additional income tax. Any amounts withheld under the backup withholding rules from a payment to a non-U.S. holder generally can be credited against the non-U.S. holder's U.S. federal income tax liability, if any, or refunded, provided that the required information is furnished to the Internal Revenue Service in a timely manner. Non-U.S. holders should consult their tax advisors regarding the application of the information reporting and backup withholding rules to them.

Table of Contents

PLAN OF DISTRIBUTION

We are registering the common stock covered by this prospectus to permit selling stockholders to conduct public secondary trading of these shares from time to time after the date of this prospectus. In connection with our October 2009 private placement, we entered into a Registration Rights Agreement with the selling stockholders, pursuant to which we agreed to, among other things, bear all expenses, other than brokers' or underwriters' discounts and commissions, in connection with the registration and sale of the common stock covered by this prospectus. We will not receive any of the proceeds of the sale of the common stock offered by this prospectus. The aggregate proceeds to the selling stockholders from the sale of the common stock will be the purchase price of the common stock less any discounts and commissions. A selling stockholder reserves the right to accept and, together with their agents, to reject, any proposed purchases of common stock to be made directly or through agents.

The common stock offered by this prospectus may be sold from time to time to purchasers:

directly by the selling stockholders and their successors, which includes their donees, pledgees or transferees or their successors-in-interest, or

through underwriters, broker-dealers or agents, who may receive compensation in the form of discounts, commissions or agents' commissions from the selling stockholders or the purchasers of the common stock. These discounts, concessions or commissions may be in excess of those customary in the types of transactions involved, provided that in compliance with FINRA guidelines the maximum compensation to any underwriter, broker-dealer or agent in connection with any sale of Common Stock by a selling stockholder pursuant to this Prospectus will not exceed 8% of the total offering price of the Common Stock by the selling stockholder.

The selling stockholders and any underwriters, broker-dealers or agents who participate in the sale or distribution of the common stock may be deemed to be underwriters within the meaning of the Securities Act. The selling stockholders identified as registered broker-dealers in the selling stockholders table above (under "Selling Stockholders") are deemed to be underwriters. As a result, any profits on the sale of the common stock by such selling stockholders and any discounts, commissions or agents' commissions or concessions received by any such broker-dealer or agents may be deemed to be underwriting discounts and commissions under the Securities Act. Selling stockholders who are deemed to be underwriters within the meaning of Section 2(11) of the Securities Act will be subject to prospectus delivery requirements of the Securities Act. Underwriters are subject to certain statutory liabilities, including, but not limited to, Sections 11, 12 and 17 of the Securities Act.

The common stock may be sold in one or more transactions at:

fixed prices;

prevailing market prices at the time of sale;

prices related to such prevailing market prices;

varying prices determined at the time of sale; or

negotiated prices.

These sales may be effected in one or more transactions:

Edgar Filing: Oak Valley Bancorp - Form 10-Q

on any national securities exchange or quotation on which the common stock may be listed or quoted at the time of the sale;

in the over-the-counter market;

in transactions other than on such exchanges or services or in the over-the-counter market;

through the writing of options (including the issuance by the selling stockholders of derivative securities), whether the options or such other derivative securities are listed on an options exchange or otherwise;

Table of Contents

through the settlement of short sales; or

through any combination of the foregoing.

These transactions may include block transactions or crosses. Crosses are transactions in which the same broker acts as an agent on both sides of the trade.

In connection with the sales of the common stock, the selling stockholders may enter into hedging transactions with broker-dealers or other financial institutions which in turn may:

engage in short sales of the common stock in the course of hedging their positions;

sell the common stock short and deliver the common stock to close out short positions;

loan or pledge the common stock to broker-dealers or other financial institutions that in turn may sell the common stock;

enter into option or other transactions with broker-dealers or other financial institutions that require the delivery to the broker-dealer or other financial institution of the common stock, which the broker-dealer or other financial institution may resell under the prospectus; or

enter into transactions in which a broker-dealer makes purchases as a principal for resale for its own account or through other types of transactions.

To our knowledge, there are currently no plans, arrangements or understandings between any selling stockholders and any underwriter, broker-dealer or agent regarding the sale of the common stock by the selling stockholders.

Our shares of Class A common stock recently began trading on the New York Stock Exchange under the symbol NBHC .

There can be no assurance that any selling stockholder will sell any or all of the common stock under this prospectus. Further, we cannot assure you that any such selling stockholder will not transfer, devise or gift the common stock by other means not described in this prospectus. In addition, any common stock covered by this prospectus that qualifies for sale under Rule 144 or Rule 144A of the Securities Act may be sold under Rule 144 or Rule 144A rather than under this prospectus. The common stock covered by this prospectus may also be sold to non-U.S. persons outside the U.S. in accordance with Regulation S under the Securities Act rather than under this prospectus. The common stock may be sold in some states only through registered or licensed brokers or dealers. In addition, in some states the common stock may not be sold unless it has been registered or qualified for sale or an exemption from registration or qualification is available and complied with.

The selling stockholders and any other person participating in the sale of the common stock will be subject to the Exchange Act. The Exchange Act rules include, without limitation, Regulation M, which may limit the timing of purchases and sales of any of the common stock by the selling stockholders and any other such person. In addition, Regulation M may restrict the ability of any person engaged in the distribution of the common stock to engage in market-making activities with respect to the particular common stock being distributed. This may affect the marketability of the common stock and the ability of any person or entity to engage in market-making activities with respect to the common stock.

Under the terms of existing lock-up agreements, after giving effect to the sale of shares of our common stock by selling stockholders in our initial public offering, existing holders of approximately 12.3 million shares of our common stock, including all of our officers and directors, may not sell such shares until 180 days after September 19, 2012, the date of the prospectus for our initial public offering; existing holders of approximately 17.7 million shares of our common stock may not sell such shares until 120 days after September 19, 2012, the date of the prospectus for our initial public offering; existing holders of approximately 15.0 million shares of our common stock that were issued in our 2009 private placement and not otherwise locked up under an agreement with the underwriters may not sell such shares until 60 days following

September 19, 2012, the effectiveness of

Table of Contents

the registration statement related to our initial public offering; and existing holders of approximately 0.1 million shares of our common stock not otherwise locked up as described above may not sell such shares until 90 days following September 19, 2012, the effectiveness of the registration statement related to our initial public offering. Each of these time periods is subject to waiver and/or extension in the manner described in the sections noted above, except that the 90-day period is subject to waiver by FBR Capital Markets & Co in accordance with the lock-up agreements entered into in connection with our 2009 private offering.

We have agreed to indemnify the selling stockholders against certain liabilities, including liabilities under the Securities Act.

We have agreed to pay substantially all of the expenses incidental to the registration, offering and sale of the common stock to the public, including the payment of federal securities law and state blue sky registration fees, except that we will not bear any underwriting discounts or commissions or transfer taxes relating to the sale of shares of our common stock in this offering.

WHERE YOU CAN FIND MORE INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the Class A common stock offered hereby. This prospectus does not contain all of the information set forth in the registration statement and the exhibits and schedules thereto. For further information with respect to us and our Class A common stock, reference is made to the registration statement and the exhibits and any schedules filed therewith. Statements contained in this prospectus as to the contents of any contract or other document referred to are not necessarily complete and in each instance, if such contract or document is filed as an exhibit, reference is made to the copy of such contract or other document filed as an exhibit to the registration statement, each statement being qualified in all respects by such reference. A copy of the registration statement, including the exhibits and schedules thereto, may be read and copied at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. In addition, the SEC maintains an internet website that contains reports, proxy statements and other information about issuers, like us, that file electronically with the SEC. The address of that site is www.sec.gov.

We are subject to the informational requirements of the Exchange Act. We will fulfill our obligations with respect to such requirements by filing periodic reports and other information with the SEC. We intend to furnish our stockholders with annual reports containing consolidated financial statements certified by an independent public accounting firm. We also maintain an internet site at www.nationalbankholdings.com. Information on, or accessible through, our website is not part of this prospectus.

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012 (Unaudited)

Note 1 Basis of Presentation

National Bank Holdings Corporation, formerly known as NBH Holdings Corp., (the Company) is a bank holding company that was incorporated in the State of Delaware in June 2009 with the intent to acquire and operate community banking franchises and other complementary businesses in targeted markets. The accompanying unaudited consolidated financial statements include the accounts of the Company, and its wholly owned subsidiaries, Bank Midwest, N.A., which was acquired by the Company on December 10, 2010 (now NBH Bank, N.A.), Bank of Choice, which was acquired by Bank Midwest, N.A. on July 22, 2011, Community Banks of Colorado, which was acquired by Bank Midwest, N.A. on October 21, 2011, and Hillcrest Bank, N.A., which was acquired by the Company on October 22, 2010 and merged into Bank Midwest, N.A. in the fourth quarter of 2011 (collectively, the Banks). The results of operations of the Banks are included from the respective dates of the acquisitions (October 22, 2010 for Hillcrest Bank, N.A., December 10, 2010 for Bank Midwest, N.A., July 22, 2011 for Bank of Choice, and October 21, 2011 for Community Banks of Colorado), and as such, the operating results for the three or six months ended June 30, 2011 do not reflect any operations for Bank of Choice or Community Banks of Colorado. The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and where applicable, with general practices in the banking industry or guidelines prescribed by bank regulatory agencies. The unaudited consolidated interim financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair statement of the results presented. All such adjustments are of a normal recurring nature. All significant intercompany balances and transactions have been eliminated in consolidation. The unaudited consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements for the year ending December 31, 2011. Certain reclassifications of prior years' amounts are made whenever necessary to conform to current period presentation. Operating results for the three and six months ended June 30, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012.

The Company's significant accounting policies followed in the preparation of the consolidated financial statements are disclosed in Note 2 of the Company's audited consolidated financial statements and related notes for the year ended December 31, 2011. GAAP requires management to make estimates that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosures of contingent assets and liabilities. By their nature, estimates are based on judgment and available information. Management has made significant estimates in certain areas, such as the amount and timing of expected cash flows from covered assets, the valuation of the FDIC indemnification asset and clawback liability, the valuation of other real estate owned, the fair value adjustments on assets acquired and liabilities assumed, the valuation of core deposit intangible assets, the deferred tax assets, the evaluation of investment securities for other-than-temporary impairment, the fair values of financial instruments, the allowance for loan losses (ALL), and contingent liabilities. Because of the inherent uncertainties associated with any estimation process and future changes in market and economic conditions, it is possible that actual results could differ significantly from those estimates.

Pursuant to the Jumpstart Our Business Startups Act (the JOBS Act), the Company qualifies as an emerging growth company and can elect to opt out of the extended transition period for any new or revised accounting standards that may be issued by the Financial Accounting Standards Board or the SEC. The Company has elected to opt out of such extended transition period, which election is irrevocable.

The Company is still evaluating the JOBS Act and may take advantage of some or all of the reduced regulatory and reporting requirements that will be available so long as the Company qualifies as an emerging growth company, including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive

compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Note 2 Investment Securities

During the six months ended June 30, 2012, the Company re-evaluated the securities classified as available-for-sale and identified securities that the Company intends to hold until maturity. As a result, the Company transferred residential mortgage pass-through securities issued or guaranteed by U.S. Government agencies or sponsored agencies with a collective fair value of \$754.1 million from an available-for-sale classification to the held-to-maturity classification. The \$754.1 million of securities transferred to held-to-maturity included \$38.9 million of unrealized gains, net. As a result of the change in intent, the transferred securities were transferred to held-to-maturity at their fair value on the date of the transfer. The unrealized net gain continues to reside in Accumulated other comprehensive income, net of tax in the Company's unaudited consolidated statement of financial condition and will be accreted into interest income over the remaining life of the securities. This accretion is simultaneously offset by the amortization of the discount that was recorded to the investment securities balance at the time of the transfer, which represents the fair value adjustment, resulting in no impact to earnings.

Available-for-sale

Available-for-sale investment securities are summarized as follows as of the dates indicated (in thousands):

	June 30, 2012			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. Treasury securities	\$ 300	\$	\$	\$ 300
Asset backed securities	92,690	43		92,733
Mortgage-backed securities (MBS):				
Residential mortgage pass-through securities issued or guaranteed by U.S. Government agencies or sponsored enterprises	774,372	18,013	(1)	792,384
Other residential MBS issued or guaranteed by U.S. Government agencies or sponsored enterprises	896,097	22,161	(251)	918,007
Other securities	419			419
Total	\$ 1,763,878	\$ 40,217	\$ (252)	\$ 1,803,843

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

	December 31, 2011			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. Treasury securities	\$ 3,300	\$	\$	\$ 3,300
U.S. Government sponsored agency obligations	3,009	1		3,010
Asset backed securities				
Mortgage-backed securities (MBS):				
Residential mortgage pass-through securities issued or guaranteed by U.S. Government agencies or sponsored enterprises	1,139,058	52,480	(1)	1,191,537
Other residential MBS issued or guaranteed by U.S. Government agencies or sponsored enterprises	620,122	23,503		643,625
Other MBS issued or guaranteed by U.S. Government agencies or sponsored enterprises	20,123	685		20,808
Other securities	419			419
Total	\$ 1,786,031	\$ 76,669	\$ (1)	\$ 1,862,699

At June 30, 2012 and December 31, 2011, mortgage-backed securities represented 94.8% and 99.6%, respectively, of the Company's available-for-sale investment portfolio and all mortgage-backed securities were backed by government sponsored enterprises (GSE) collateral such as Federal Home Loan Mortgage Corporation (FHLMC) and Federal National Mortgage Association (FNMA), and the government sponsored agency Government National Mortgage Association (GNMA).

The table below summarizes the unrealized losses as of the dates shown, along with the length of the impairment period (in thousands):

	June 30, 2012					
	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Mortgage-backed securities (MBS):

Total	\$ 90,316	\$ (252)	\$	\$	\$ 90,316	\$ (252)

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

	Less than 12 months		December 31, 2011		Fair Value	Total Unrealized Losses
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses		
Mortgage-backed securities (MBS):						
Residential mortgage pass-through securities issued or guaranteed by U.S. Government agencies or sponsored enterprises	\$ 20	\$ (1)	\$	\$	\$ 20	\$ (1)
Total	\$ 20	\$ (1)	\$	\$	\$ 20	\$ (1)

Management evaluated all of the securities in an unrealized loss position and concluded that no other than temporary impairment (OTTI) existed at June 30, 2012 or December 31, 2011. The Company had no intention to sell these securities before recovery of their amortized cost and believed it will not be required to sell the securities before the recovery of their amortized cost.

The Company pledges certain securities as collateral for public deposits, securities sold under agreements to repurchase and to secure borrowing capacity at the Federal Reserve Bank, if needed. The fair value of available-for-sale investment securities pledged as collateral totaled \$82.6 million at June 30, 2012 and \$198.6 million December 31, 2011. The decrease of pledged available-for-sale investment securities was primarily attributable to the transfer of a significant amount of pledged securities from available-for-sale to held-to-maturity. Investment securities may also be pledged as collateral should the Company utilize its line of credit at the FHLB of Des Moines; however, no investment securities were pledged for this purpose at June 30, 2012 or December 31, 2011.

The table below summarizes the contractual maturities of our available-for-sale investment portfolio as of June 30, 2012 (in thousands):

	Amortized Cost	Fair Value
Due in one year or less	\$ 300	\$ 300
Due after one year through five years	92,694	92,737
Due after five years through ten years	294,010	296,469
Due after ten years	1,376,454	1,413,918
Other securities	419	419
Total investment securities available-for-sale	\$ 1,763,877	\$ 1,803,843

Actual maturities of mortgage-backed securities may differ from contractual maturities depending on the repayment characteristics and experience of the underlying financial instruments. The estimated weighted average life of the available-for-sale mortgage-backed securities portfolio as of June 30, 2012 was 3.9 years and 3.4 years as of December 31, 2011. This estimate is based on assumptions and actual results may differ.

The Company's U.S. Treasury securities have contractual maturities of less than one year. Other securities of \$0.4 million have no stated contractual maturity date.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)*****Held-to-maturity***

At June 30, 2012 and December 31, 2011 the Company held \$707.1 million and \$6.8 million of held-to-maturity investment securities, respectively. The increase was attributable to the transfer of securities with a fair value of \$754.1 million from an available-for-sale classification to the held-to-maturity classification during the first quarter of 2012. Held-to-maturity investment securities are summarized as follows as of the dates indicated (in thousands):

	June 30, 2012			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Mortgage-backed securities (MBS):				
Residential mortgage pass-through securities issued or guaranteed by U.S. Government agencies or sponsored enterprises	\$ 707,110	\$ 6,021	\$	\$ 713,130
Total investment securities held-to-maturity	\$ 707,110	\$ 6,021	\$	\$ 713,130

	December 31, 2011			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Mortgage-backed securities (MBS):				
Residential mortgage pass-through securities issued or guaranteed by U.S. Government agencies or sponsored enterprises	\$ 6,801	\$ 28	\$	\$ 6,829
Total investment securities held-to-maturity	\$ 6,801	\$ 28	\$	\$ 6,829

The table below summarizes the contractual maturities of our held-to-maturity investment portfolio at June 30, 2012 (in thousands):

	Amortized Cost	Fair Value
Due in one year or less	\$	\$
Due after one year through five years		
Due after five years through ten years		
Due after ten years	707,110	713,130
Total investment securities held-to-maturity	\$ 707,110	\$ 713,130

The carrying value of held-to-maturity investment securities pledged as collateral totaled \$160.2 million at June 30, 2012. At December 31, 2011, none of the \$6.8 million of held-to-maturity investment securities were pledged as collateral. Actual maturities of mortgage-backed securities may differ from scheduled maturities depending on the repayment characteristics and experience of the underlying financial

Edgar Filing: Oak Valley Bancorp - Form 10-Q

instruments. The estimated weighted average expected life of the held-to-maturity mortgage-backed securities portfolio as of June 30, 2012 was 3.9 years and 6.4 years as of December 31, 2011. This estimate is based on assumptions and actual results may differ.

F-12

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)****Note 3 Non-marketable Securities**

Non-marketable securities include Federal Reserve Bank stock and FHLB stock. At June 30, 2012, the Company held \$25.0 million of Federal Reserve Bank stock, \$7.5 million of FHLB Des Moines stock, and \$0.6 million of FHLB San Francisco stock, for regulatory or debt facility purposes. December 31, 2011 the Company held \$25.0 million of Federal Reserve Bank stock, \$3.5 million of FHLB Des Moines stock, and \$0.6 million of FHLB San Francisco stock.

This stock is restricted and is carried at cost, less any other than temporary impairment. There have been no identified events or changes in circumstances that may have an adverse effect on the investments carried at cost.

Note 4 Loans

The loan portfolio is comprised of loans that were acquired in connection with the Company's acquisitions of Bank of Choice and Community Banks of Colorado in 2011, Hillcrest Bank and Bank Midwest in 2010, and new loans originated by the Company. The majority of the loans acquired in the Hillcrest Bank and Community Banks of Colorado transactions are covered by loss sharing agreements with the FDIC, and covered loans are presented separately from non-covered loans due to the FDIC loss sharing agreements associated with these loans.

Covered loans comprised 38.7% of the total loan portfolio at June 30, 2012, compared to 41.9% of the total loan portfolio at December 31, 2011. The table below shows the loan portfolio composition and the amounts of loans that are accounted for in accordance with ASC Topic 310-30 (in thousands):

Loans are considered past due or delinquent when the contractual principal or interest due in accordance with the terms of the loan agreement remains unpaid after the due date of the scheduled payment. Loans accounted for under ASC Topic 310-30 were not classified as non-performing assets at the respective acquisition

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

dates, June 30, 2012 or December 31, 2011 as the carrying value of the respective loans or pools of loans cash flows were considered estimatable and probable of collection. Therefore, interest income, through accretion of the difference between the carrying value of the loans and the expected cash flows, was recognized on all acquired loans accounted for under ASC Topic 310-30.

Pooled loans accounted for under ASC Topic 310-30 that are 90 days or more past due and still accruing are considered to be performing and are included in loans 90 days or more past due and still accruing. At June 30, 2012 and December 31, 2011, \$4.1 million and \$13.1 million, respectively, of covered loans accounted for outside the scope of ASC Topic 310-30 were on non-accrual. Loan delinquency for covered loans is shown in the following tables at June 30, 2012 and December 31, 2011, respectively, (in thousands):

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012 (Unaudited)

Impaired loans

Loans are considered to be impaired when it is probable that the Company will not be able to collect all amounts due in accordance with the contractual terms of the loan agreement. Included in impaired loans are loans on non-accrual status and troubled debt restructurings (TDR s) described below. If a specific allowance is warranted based on the borrower s overall financial condition, the specific allowance is calculated based on discounted cash flows using the loan s initial contractual effective interest rate or the fair value of the collateral less selling costs for collateral dependent loans. Inclusive of TDR s, the Company s unpaid principal balance of impaired loans was \$62.4 million and \$74.7 million at June 30, 2012 and December 31, 2011, respectively.

At June 30, 2012, the Company s unpaid principal balance and recorded investment of impaired loans was \$62.4 million and \$49.9 million, respectively. Of these impaired loans, 33 were within the commercial real estate segment, with an unpaid principal balance of \$34.4 million and a recorded investment of \$32.5 million. Twenty-seven of these commercial real estate loans, with a recorded investment of \$30.2 million and an unpaid principal balance of \$32.1 million were not covered by the FDIC loss sharing agreement, compared to six loans with a recorded investment of \$2.2 million and an unpaid principal balance of \$2.3 million that were covered by the FDIC loss sharing agreement. The commercial loan segment had a total of 44 loans, 28 of which were not covered by the FDIC loss sharing agreement with an unpaid principal balance and recorded investment of \$8.8 million and \$8.4 million, respectively. The 16 commercial loans that were covered by the FDIC loss sharing agreement had an unpaid principal balance and recorded investment of \$13.8 million and \$4.0 million, respectively. The residential real estate loan segment held 57 impaired loans, with an unpaid principal balance of \$5.3 million and a recorded investment of \$4.9 million. Of these 57 loans, two were covered by the FDIC loss sharing agreement with an unpaid principal balance and recorded investment of \$1.6 million and \$1.6 million, respectively, leaving 55 loans not covered by the FDIC loss sharing agreement with an unpaid principal balance of \$3.7 million and a recorded investment of \$3.3 million.

At December 31, 2011, the Company's unpaid principal balance and recorded investment of impaired loans was \$74.7 million and \$50.1 million, respectively. Of these impaired loans, 26 were within the commercial real estate segment, with an unpaid principal balance of \$58.2 million and a recorded investment of \$41.1 million. Twenty-one of these commercial real estate loans, with a recorded investment of \$32.9 million and an

Edgar Filing: Oak Valley Bancorp - Form 10-Q

unpaid principal balance of \$34.9 million were not covered by the FDIC loss sharing agreement, compared to five loans with a recorded investment of \$8.2 million and an unpaid principal balance of \$23.3 million that were covered by the FDIC loss sharing agreement. The commercial loan segment had a total of 20 loans, ten of which were not covered by the FDIC loss sharing agreement with an unpaid principal balance and recorded investment of

F-26

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

\$.8 million and \$.8 million, respectively. The 10 commercial loans that were covered by the FDIC loss sharing agreement had an unpaid principal balance and recorded investment of \$11.9 million and \$4.6 million, respectively. The residential real estate loan segment held 43 impaired loans, with an unpaid principal balance of \$3.9 million and a recorded investment of \$3.6 million. Of these 43 loans, three were covered by the FDIC loss sharing agreement with an unpaid principal balance and recorded investment of \$1.7 million and \$1.7 million, respectively, leaving 40 loans not covered by the FDIC loss sharing agreement with an unpaid principal balance of \$2.2 million and a recorded investment of \$1.9 million.

These loans had a collective related allowance for loan losses allocated to them of \$0.8 million at December 31, 2011. The table below shows additional information regarding impaired loans at December 31, 2011 (in thousands):

Troubled debt restructurings

It is the Company's policy to review each prospective credit in order to determine the appropriateness and the adequacy of security or collateral prior to making a loan. In the event of borrower default, the Company seeks recovery in compliance with state lending laws, the respective loan agreements, and credit monitoring and remediation procedures that may include restructuring a loan to provide a concession by the Company to the borrower from their original terms due to borrower financial difficulties in order to facilitate repayment. At June 30, 2012 and December 31,

Edgar Filing: Oak Valley Bancorp - Form 10-Q

2011, the Company had \$29.5 million and \$12.3 million, respectively, of accruing troubled debt restructurings (TDR s) that had been restructured from the original terms in order to facilitate repayment. Of these, \$3.7 million and \$1.4 million, respectively, were covered by FDIC loss sharing agreements.

F-28

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

During the three and six months ended June 30, 2012, the Company restructured 10 loan with a recorded investment of \$16.1 million and 37 loans with a recorded investment of \$21.6 million, respectively, to facilitate repayment. Loan modifications to loans accounted for under ASC Topic 310-30 are not considered troubled debt restructurings. The table below provides additional information related to accruing TDRs at June 30, 2012 and December 31, 2011 (in thousands):

	June 30, 2012			
	Recorded investment	Average year-to-date recorded investment	Unpaid principal balance	Unfunded commitments to fund TDRs

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Accrual of interest is resumed on loans that were on non-accrual at the time of restructuring, only after the loan has performed sufficiently. The Company had one TDR that had been modified within the past 12 months that defaulted on its restructured terms during the six months ended June 30, 2012. For purposes of this disclosure, the Company considers "default" to mean 90 days or more past due on principal or interest. The defaulted TDR was a non-owner occupied commercial real estate loan with a balance of \$0.6 million at June 30, 2012 and the maximum amount defaulted during the period was \$0.6 million.

F-29

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)***Loans accounted for under ASC Topic 310-30*

Loan pools accounted for under ASC Topic 310-30 are periodically remeasured to determine expected future cash flows. In determining the expected cash flows, the timing of cash flows and prepayment assumptions for smaller homogeneous loans are based on statistical models that take into account factors such as the loan interest rate, credit profile of the borrowers, the years in which the loans were originated, and whether the loans are fixed or variable rate loans. Prepayments may be assumed on large loans if circumstances specific to that loan warrant a prepayment assumption. No prepayments were presumed for small homogeneous commercial loans; however, prepayment assumptions are made that consider similar prepayment factors listed above for smaller homogeneous loans. The re-measurement of loans accounted for under ASC Topic 310-30 resulted in the following changes in the carrying amount of accretable yield during the six months ended June 30, 2012 (in thousands):

Accretable yield balance at December 31, 2011	\$ 186,494
Reclassification from non-accretable difference	29,483
Reclassification to non-accretable difference	(5,651)
Accretion	(52,244)
Accretable yield balance at June 30, 2012	\$ 158,082

Below is the composition of the net book value for loans accounted for under ASC Topic 310-30 at June 30, 2012 and December 31, 2011 (in thousands):

	June 30, 2012	December 31, 2011
Contractual cash flows	\$ 1,722,993	\$ 2,030,374
Non-accretable difference	(504,479)	(536,171)
Accretable yield	(158,082)	(186,494)
Loans accounted for under ASC Topic 310-30	\$ 1,060,432	\$ 1,307,709

310-30 loans acquired w/ deteriorated credit	117,711	706,672	59,139	143,432	33,478	1,060,432
Total loans	\$ 283,764	\$ 965,916	\$ 147,043	\$ 525,539	\$ 61,812	\$ 1,984,074

During the six months ended June 30, 2012 the Company reestimated the expected cash flows of the loan pools accounted for under ASC Topic 310-30 utilizing the same cash flow methodology used at the time of acquisition. The re-measurement resulted in impairments of \$13.7 million, which were primarily driven by impairments of \$7.8 million in the commercial real estate pools, the majority of which was from a Hillcrest Bank acquired loan portfolio, a \$4.9 million impairment of the land and development pools, primarily driven by one loan acquired from Community Banks of Colorado, a \$0.6 million impairment of residential real estate pools in the Bank of Choice acquired portfolio, and a \$0.4 million impairment of a commercial and industrial pool related to the Hillcrest Bank acquired loan portfolio.

In evaluating the loan portfolio for an appropriate ALL level, non-impaired loans were grouped into segments based on broad characteristics such as primary use and underlying collateral. Within the segments, the portfolio was further disaggregated into classes of loans with similar attributes and risk characteristics for purposes of applying loss ratios and determining applicable subjective adjustments to the ALL. The application

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

of subjective adjustments was based upon qualitative risk factors, including economic trends and conditions, industry conditions, asset quality, loss trends, lending management, portfolio growth and loan review/internal audit results. During the six months ended June 30, 2012 the Company recorded \$6.3 million of provision for loan losses for loans not accounted for under ASC Topic 310-30 primarily to provide for credit risk inherent in new loan originations and provide for charge offs previously provided for.

The Company charged off \$5.6 million, net of recoveries, of non-ASC Topic 310-30 loans during the six months ended June 30, 2012, \$2.4 million of which was the result of a large commercial and industrial loan that is not considered indicative of future charge-offs in the commercial and industrial loan category. The Company also charged off \$2.4 million of commercial real estate loans, primarily the result of two commercial real estate loans outside of our core market areas totaling \$2.1 million.

Note 6 FDIC Indemnification Asset

Under the terms of the purchase and assumption agreement with the FDIC with regard to the Hillcrest Bank and Community Banks of Colorado acquisitions, the Company is reimbursed for a portion of the losses incurred on covered assets. FDIC indemnification assets of \$159.7 million and \$151.0 million were established at the respective dates of the Hillcrest Bank and Community Banks of Colorado acquisitions as the estimated fair value of the expected reimbursements from the FDIC for losses on covered loans and OREO. As covered assets are resolved, whether it be through repayment, short sale of the underlying collateral, the foreclosure on, and sale of collateral, or the sale or charge-off of loans or OREO, any differences between the carrying value of the covered assets versus the payments received during the resolution process, that are reimbursable by the FDIC, are recognized in the consolidated statements of operations as FDIC loss sharing income. Any gains or losses realized from the resolution of covered assets reduce or increase, respectively, the amount recoverable from the FDIC.

Below is a summary of the activity related to the FDIC indemnification asset during the six months ended June 30, 2012 and 2011(in thousands):

	June 30, 2012	June 30, 2011
Balance at beginning of period	\$ 223,402	\$ 161,395
Accretion	(6,333)	3,739
Reduction for claims filed	(68,542)	(9,680)
Balance at end of period	\$ 148,527	\$ 155,454

During the six months ended June 30, 2012, we recognized \$6.3 million of negative accretion on the FDIC indemnification asset, and reduced the carrying value of the FDIC indemnification asset by \$68.5 million as a result of claims filed with the FDIC as discussed below. The negative accretion resulted from an overall increase in actual and expected cash flows on the underlying covered assets, resulting in lower expected reimbursements from the FDIC. The increase in overall expected cash flows from these underlying assets is reflected in increased accretion rates on covered loans and is being recognized over the expected remaining lives of the underlying covered loans as an adjustment to yield. During the six months ended June 30, 2012 we submitted \$74.1 million of loss share claims to the FDIC for the reimbursable portion of losses related to the Hillcrest Bank and Community Banks of Colorado covered assets incurred during the fourth quarter of 2011 and the first quarter of 2012. Included in the \$74.1 million were \$5.6 million of claims related to additional losses incurred during the period that were not previously considered in the carrying amount of the indemnification asset. The loss claims

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

filed are subject to review and approval, including extensive audits, by the FDIC or its assigned agents for compliance with the terms in the loss sharing agreements. During the six months ended June 30, 2012, the FDIC paid \$33.1 million related to losses incurred during the fourth quarter and paid us an additional \$13.4 million subsequent to June 30, 2012. The remaining claimed amounts are anticipated to be received during the third quarter of 2012 and are included in other assets.

Note 7 Premises and Equipment

Premises and equipment consisted of the following at June 30, 2012 and December 31, 2011:

	June 30, 2012	December 30, 2011
Land	\$ 29,719	\$ 25,186
Buildings and improvements	69,521	48,933
Equipment	23,283	15,960
Total	122,522	90,079
Less: accumulated depreciation and amortization	(5,614)	(2,764)
Premises and equipment, net	\$ 116,908	\$ 87,315

Premises and equipment increased \$29.6 million from December 31, 2011 to June 30, 2012, primarily because the Company purchased 26 of the banking center premises related to the Community Banks of Colorado acquisition from the FDIC. The Company incurred \$1.8 million and \$0.3 million of depreciation expense during the three months ended June 30, 2012 and 2011 and \$3.0 million and \$0.7 million of depreciation expense during the six months ended June 30, 2012 and 2011, respectively, which is included in occupancy and equipment expense.

Note 8 Other Real Estate Owned

A summary of the activity in the OREO balances during the six months ended June 30, 2012 and 2011 is as follows (in thousands):

	Six Months Ended June 30,	
	2012	2011
Balance at December 31	\$ 120,636	\$ 54,078
Transfers from loan portfolio, at fair value	56,100	29,426
Impairments	(7,213)	
Sales, net of gains and losses	(31,811)	(12,004)
Balance at June 30	\$ 137,712	\$ 71,500

The OREO balance of \$137.7 million at June 30, 2012 includes the interests of several outside participating banks totaling \$17.9 million, for which an offsetting liability is recorded in other liabilities and excludes \$12.2 million of the Company's minority interests in OREO which are held by outside banks where the Company was not the lead bank and does not have a controlling interest, for which the Company maintains a

Edgar Filing: Oak Valley Bancorp - Form 10-Q

receivable in other assets. Of the \$137.7 million of OREO at June 30, 2012, \$77.5 million, or 56.3% was covered by the loss sharing agreements with the FDIC. Any losses on these assets are substantially offset by a corresponding change in the FDIC indemnification asset. During the six months ended June 30, 2012, the Company sold \$35.9 million of OREO and realized net gains on these sales of \$4.0 million, and during the six months ended June 30, 2011, the Company sold \$11.4 million of OREO and realized net losses of \$0.6 million.

F-34

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)****Note 9 Deposits**

As of June 30, 2012 and December 31, 2011, deposits totaled \$4.5 billion and \$5.1 billion, respectively. Time deposits decreased from \$2.8 billion at December 31, 2011 to \$2.2 billion at June 30, 2012. The following table summarizes the Company's time deposits, based upon contractual maturity, at June 30, 2012 and December 31, 2011, by remaining maturity (in thousands):

	June 30, 2012		December 31, 2011	
	Balance	Weighted Average Rate	Balance	Weighted Average Rate
Three months or less	\$ 636,277	1.29%	\$ 746,835	1.30%
Over 3 months through 6 months	500,019	0.89%	554,740	1.15%
Over 6 months through 12 months	526,645	0.83%	1,014,949	1.23%
Over 12 months through 24 months	354,027	1.13%	309,848	1.58%
Over 24 months through 36 months	73,235	1.85%	52,879	2.01%
Over 36 months through 48 months	51,978	2.38%	54,678	2.65%
Over 48 months through 60 months	38,245	1.72%	43,550	1.89%
Thereafter	6,075	2.50%	7,117	2.77%
Total time deposits	\$ 2,186,501	1.12%	\$ 2,784,596	1.33%

In connection with the Company's FDIC-assisted transactions, the FDIC provided Hillcrest Bank, Bank of Choice, and Community Banks of Colorado depositors with the right to redeem their time deposits at any time during the life of the time deposit, without penalty, unless the depositor accepts new terms. At June 30, 2012 and December 31, 2011, the Company had approximately \$569.8 million and \$1.1 billion, respectively, of time deposits that were subject to penalty-free withdrawals.

The Company incurred interest expense on deposits as follows during the periods indicated (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2012	2011	2012	2011
Non-interest bearing demand deposits	\$	\$	\$	\$
Interest bearing demand deposits	308	94	735	223
Money market accounts	980	1,155	2,071	2,428
Savings accounts	76	91	161	211
Time deposits	6,536	8,481	14,536	18,031
Total	\$ 7,900	\$ 9,821	\$ 17,503	\$ 20,893

Note 10 Regulatory Capital

Edgar Filing: Oak Valley Bancorp - Form 10-Q

NBH Bank, N.A. is subject to the regulatory capital adequacy requirements of the Federal Reserve Board, the FDIC, and the OCC, as applicable. Failure to meet the minimum capital requirements can initiate certain mandatory and possibly further discretionary actions by regulators that could have a material adverse effect on the Company's consolidated financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, banks must meet specific capital requirements that involve quantitative measures of assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. Capital amounts and classifications are subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

F-35

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

Typically, mature banks are required to maintain a Tier I risk-based capital ratio of 4.00%, a total risk-based capital ratio of 8.00% and a Tier 1 leverage ratio of 4.00% in order to meet minimum, adequately capitalized regulatory requirements. To be considered well-capitalized (under prompt corrective action provisions), banks must maintain minimum capital ratios of 6.00% for Tier I risk-based capital, 10.00% for total risk-based capital and 5.00% for the Tier 1 leverage ratio. However, in connection with the approval of the de novo charter for NBH Bank, N.A., the Company has agreed with its regulators to maintain capital levels of at least 10% Tier 1 leverage ratio, 11% Tier 1 risk-based capital ratio and 12% Tier 1 risk-based capital ratio through the fourth quarter of 2013.

At June 30, 2012 and December 31, 2011, as applicable, NBH Bank, N.A. and our consolidated holding company exceeded all capital ratio requirements under prompt corrective action or other regulatory requirements, as is detailed in the table below (dollars in thousands):

	Actual		June 30, 2012 Required to be considered well capitalized (1)		Required to be considered adequately capitalized	
	Ratio	Amount	Ratio	Amount	Ratio	Amount
Tier 1 leverage ratio						
Consolidated	17.0%	\$ 981,967	N/A	N/A	4%	\$ 230,790
NBH Bank, N.A	15.2%	861,332	10%	\$ 565,426	4%	226,170
Tier 1 risk-based capital ratio (2)						
Consolidated	49.3%	\$ 981,967	6%	\$ 119,451	4%	\$ 79,634
NBH Bank, N.A	43.8%	861,332	11%	216,102	4%	78,583
Total risk-based capital ratio (2)						
Consolidated	50.2%	\$ 999,572	10%	\$ 199,086	8%	\$ 159,268
NBH Bank, N.A	44.7%	878,937	12%	235,748	8%	157,165

	Actual		December 31, 2011 Required to be considered well capitalized (1)		Required to be considered adequately capitalized	
	Ratio	Amount	Ratio	Amount	Ratio	Amount
Tier 1 leverage ratio						
Consolidated	15.1%	\$ 949,154	N/A	N/A	4%	\$ 251,514
NBH Bank, N.A	13.4%	828,321	10%	\$ 616,919	4%	246,768
Tier 1 risk-based capital ratio (2)						
Consolidated	49.4%	\$ 949,154	6%	\$ 114,077	4%	\$ 76,051
NBH Bank, N.A.	44.2%	828,321	11%	206,258	4%	75,003
Total risk based capital ratio (2)						
Consolidated	50.5%	\$ 960,681	10%	\$ 190,129	8%	\$ 152,103
NBH Bank, N.A	44.8%	839,848	12%	225,009	8%	150,006

- (1) These ratio requirements are reflective of the agreements the Company has made with its various regulators in connection with the approval of the de novo charters for the NBH Bank, N.A., as described above.

Edgar Filing: Oak Valley Bancorp - Form 10-Q

- (2) Due to the conditional guarantee represented by the loss sharing agreements, the FDIC indemnification asset, as well as covered assets, are risk-weighted at 20% for purposes of risk-based capital computations.

F-36

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)****Note 11 FDIC Loss Sharing Income**

In connection with the loss sharing agreements that the Company has with the FDIC in regard to the Hillcrest Bank and Community Bank of Colorado transactions, the Company recognizes the changes in the FDIC indemnification asset and the clawback liability, in addition to the actual reimbursement of costs of resolution of covered assets from the FDIC, in FDIC loss sharing income in the consolidated statements of operations. The table below provides additional details of the Company's FDIC loss sharing income during the three and six months ended June 30, 2012 and 2011 (in thousands):

	For the three months ended		For the six months ended	
	June 30,		June 30,	
	2012	2011	2012	2011
FDIC indemnification asset accretion	\$ (2,646)	\$ 1,509	\$ (6,333)	\$ 3,739
Clawback liability amortization	(357)	(167)	(711)	(327)
Clawback liability remeasurement	1,077		1,067	
Reimbursement to FDIC for gain on sale	(163)		434	117
Reimbursement to FDIC for recoveries			(1)	23
FDIC reimbursement of costs of resolution of covered assets	3,519	582	6,986	2,847
Total	\$ 1,430	\$ 1,924	\$ 1,442	\$ 6,399

Note 12 Stock-Based Compensation and Employee Benefits

The Company provides stock-based compensation in accordance with the NBH Holdings Corp. 2009 Equity Incentive Plan (the Plan). The Plan provides the compensation committee of the board of directors of the Company the authority to grant, from time to time, awards of options, stock appreciation rights, restricted stock, restricted stock units, stock awards, or stock bonuses to eligible persons. On March 22, 2012, shareholders approved an amendment to the Plan, increasing the number of shares of Company stock reserved for issuance under the Plan by a number equal to 10% of the number of shares of common stock issued by the Company in its initial public offering of newly issued shares of common stock. As of June 30, 2012, the Company had not completed its initial public offering, and therefore, the aggregate number of shares of stock which may be granted under the Plan remained 5,750,000 and the maximum number of restricted shares and restricted share units that may be granted remained 1,725,000.

To date, the Company has issued stock options and restricted stock under the Plan. The compensation committee sets the option exercise price at the time of grant but in no case is the exercise price less than the fair market value of a share of stock at the date of grant. The Company has used information provided by third parties, including independent valuation specialists, as required by the Plan, to assist in the determination of estimates regarding fair values associated with the Company's stock-based compensation, including contemporaneous valuations of grant date fair values; however, the Company assumes full responsibility for the assumptions used therein and the resulting values.

The Company issued stock options and restricted stock during the six months ended June 30, 2012. The expense associated with the awarded stock options was measured at fair value using a Black-Scholes option-pricing model. The time vesting component of the restricted stock was valued at the same price as the common shares since they are assumed to be held beyond the vesting period. The market vesting component of the restricted stock was valued using a Monte Carlo Simulation with 100,000 simulation paths to assess the expected percentage of vested shares. A Geometric Brownian Motion was used for simulating the equity prices for a period of 10 years and if the restricted stock were not vested during the 10-year period it was assumed they were forfeited.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

Below are the weighted average assumptions used in the Black-Scholes option pricing model and the Monte Carlo Simulation to determine fair value of the Company's stock options and the market-vesting portion of the Company's restricted stock granted during the six months ended June 30, 2012:

	Black-Scholes	Monte Carlo
Risk-free interest rate	1.06%	1.10%
Expected volatility	38.00%	38.00%
Expected term (years)	6	10
Dividend yield	0.00%	0.00%

The Company's shares are not yet publicly traded and have limited private trading; therefore, expected volatility was estimated based on the median historical volatility, for a period commensurate with the expected term of the options, of 13 comparable companies with publicly traded shares. The risk-free rate for the expected term of the options was based on the U.S. Treasury yield curve at the date of grant and based on the expected term. The expected term was estimated to be the average of the contractual vesting term and time to expiration and the dividend yield was assumed to be zero.

The following table summarizes the material vesting terms of the stock options granted in 2012:

	Number of Options Granted in 2012
Options are time-vested with 1/3 vesting on each of the first, second and third anniversary of the date of grant, and further subject to the Company's shares becoming publicly listed	240,000
Total options granted in 2012	240,000

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

The following table summarizes option activity for the year ended December 31, 2011 and for the three months ended March 31, 2012 and June 30, 2012:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term in Years	Aggregate Intrinsic Value
Outstanding at December 31, 2010	2,357,332	\$ 20.00		
Granted during the three months ended March 31, 2011	203,500	20.00		
Granted during the three months ended June 30, 2011	63,500	20.00		
Granted during the three months ended September 30, 2011	26,500	20.00		
Granted during the three months ended December 31, 2011	993,000	20.00		
Forfeited	(402,500)	20.00		
Exercised				
Outstanding at December 31, 2011	3,241,332	20.00	9.67	
Granted during the three months ended March 31, 2012	215,000	20.00		
Granted during the three months ended June 30, 2012	25,000	20.00		
Forfeited	(8,000)	20.00		
Exercised				
Outstanding at June 30, 2012	3,473,332	20.00	7.33	
Options fully vested and exercisable at June 30, 2012	1,070,418	20.00	7.48	
Options expected to vest	2,302,520	\$ 20.00	7.25	

Options granted during the six months ended June 30, 2012 had weighted average grant date fair values of \$8.77.

Stock option expense is included in salaries and employee benefits in the accompanying consolidated statements of operations and totaled \$1.1 million and \$2.2 million, respectively, for the three months ended June 30, 2012 and 2011, and \$2.0 million and \$4.4 million for the six months ended June 30, 2012 and 2011, respectively. The options to acquire 240,000 shares of common stock granted during the six months ended June 30, 2012 and the options to acquire 993,000 shares of common stock granted during the fourth quarter of 2011 are subject to an additional vesting requirement of the Company's shares being publically listed on a national exchange. In accordance with ASC Topic 718, the Company will start recognizing compensation expense on the grants that have vesting requirements tied to the Company's shares becoming listed on a national exchange subsequent to that vesting requirement being fulfilled, with an expense recognition catch-up for the portion of the expense that has been deferred until that vesting criteria is met. As a result, no expense was recorded on these particular grants during the six months ended June 30, 2012 or during 2011. Upon listing on a national exchange, we will immediately recognize an expense catch-up for the portion of the expense that has been deferred until that vesting criterion is met. At June 30, 2012, the deferred portion of expense related to

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

awards that have a public listing vesting requirement was \$3.5 million. At June 30, 2012, there was \$7.6 million of total unrecognized compensation cost related to non-vested stock options granted under the Plan. The cost is expected to be recognized over a weighted average period of 0.5 years.

Restricted stock may also be issued under the Plan as described above. Compensation expense for the portion of the restricted stock that contains a market vesting condition is recognized over the derived service period based on the fair value of the awards on the grant date. Compensation expense for the portion of the restricted stock that contains performance and service vesting conditions is recognized over the requisite service period based on fair value of the awards on the grant date. The Company did not recognize any expense related to the restricted stock awards that have vesting requirements tied to the Company's shares becoming listed on a national exchange, but will recognize this expense subsequent to that vesting requirement being fulfilled, as described above.

The following table summarizes restricted stock activity for the six months ended June 30, 2012:

	Restricted Stock	Weighted Average Grant Date Fair Value
Unvested at December 31, 2011	1,108,334	\$ 15.58
Vested	(33,542)	20.00
Granted	100,000	19.94
Forfeited		
Surrendered		
Unvested at June 30, 2012	1,174,792	\$ 15.82

As of June 30, 2012, there was \$6.1 million of total unrecognized compensation cost related to non-vested restricted shares granted under the Plan. The cost is expected to be recognized over a weighted average period of 0.6 years. Expense related to restricted stock totaled \$1.0 million and \$2.1 million during the three months ended June 30, 2012 and 2011, respectively, and \$2.3 million and \$4.2 million during the six months ended June 30, 2012 and 2011, respectively, and is included in salaries and employee benefits in the Company's unaudited consolidated statements of operations.

Note 13 Warrants

At June 30, 2012 and December 31, 2011, the Company had 830,750 outstanding warrants to purchase Company stock. The warrants were granted to certain lead stockholders of the Company, all with an exercise price of \$20.00 per share. The term of the warrants is for ten years from the date of grant and the expiration dates of the warrants range from October 20, 2019 to September 30, 2020. The fair value of the warrants was estimated to be \$7.0 million and \$6.9 million at June 30, 2012 and December 31, 2011, respectively. The fair value of the warrants was estimated using a Black-Scholes option pricing model utilizing the following assumptions at the indicated dates:

	June 30, 2012	December 31, 2011
Risk-free interest rate	1.47%	1.56%
Expected volatility	38.00%	34.93%
Expected term (years)	7.3-8.3	8-9

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012 (Unaudited)

The Company's shares are not yet publicly traded and have limited private trading; therefore, expected volatility was estimated based on the median historical volatility, for a period commensurate with the expected term of the warrants, of 13 comparable companies with publicly traded shares. The risk-free rate for the expected term of the warrants was based on the U.S. Treasury yield curve at the date of grant and based on the expected term. The expected term was estimated based on the contractual term of the warrants. The dividend yield was assumed to be zero.

During the three months ended June 30, 2012, the Company recorded a benefit of \$0.6 million and during the three months ended June 30, 2011, the Company recorded expense of \$0.8 million. During the six months ended June 30, 2012 and 2011, the Company recorded expense of \$0.1 million and \$0.8 million, respectively, in the unaudited consolidated statements of operations resulting from the change in fair value on the revaluation of the warrant liability.

Note 14 Common Stock

The Company had 44,645,886 shares of Class A common stock and 7,545,353 shares of Class B common stock outstanding as of June 30, 2012 and 44,612,344 shares of Class A common stock and 7,545,353 shares of Class B common stock outstanding as of December 31, 2011. Additionally, as of June 30, 2012 and December 31, 2011, respectively, the Company had 1,174,792 and 1,108,334 shares of restricted Class A common stock issued but not yet vested under the NBH Holdings Corp. 2009 Equity Incentive Plan. Class A common stock possesses all of the voting power for all matters requiring action by holders of common stock, with certain limited exceptions. The Company's certificate of incorporation provides that, except with respect to voting rights and conversion rights, the Class A common stock and Class B non-voting common stock are treated equally and identically.

At the Company's March 22, 2012 annual shareholders' meeting, shareholders approved an elimination of the restriction on ownership of Class A shares and the automatic conversion of Class A shares into Class B non-voting shares. Shareholders also approved an amendment to the Certificate of Incorporation to add new provisions that would permit the underwriters in a registered offering to cause the conversion of shares of Class B non-voting shares into Class A shares in connection with such registered offerings and to deliver only Class A shares to buyers in such offerings.

Note 15 Income Per Share

The Company had 52,191,239 and 51,936,280 shares issued (inclusive of Class A & B) and outstanding as of June 30, 2012 and 2011, respectively, inclusive of 250,000 shares of founders' shares that were issued in 2009 at par value. Stock options, certain restricted shares and warrants are potentially dilutive securities, but are not included in the calculation of diluted earnings per share because to do so would have been anti-dilutive for the three and six months ended June 30, 2012 and 2011. The Company also has Value Appreciation Rights (VARs) issued to the FDIC in conjunction with the acquisition of Bank of Choice and Community Banks of Colorado that are potentially dilutive should the FDIC choose to settle this right in the Company's stock. The exercisability of the VARs is contingent upon the Company having a triggering event upon public listing of its stock or a sale event, and as of June 30, 2012, the triggering events had not occurred, and as a result, the VARs are not included in the calculations of diluted earnings per share.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

The following table illustrates the computation of basic and diluted income per share for the three and six months ended June 30, 2012 and 2011 (in thousands except earnings per share):

	For the three months ended June, 30		For the six months ended June, 30	
	2012	2011	2012	2011
Basic earnings per share:				
Income available to common stockholders (numerator)	\$ 2,702	\$ 1,685	\$ 4,345	\$ 5,758
Weighted average common shares outstanding	52,191	51,936	52,184	51,936
Basic earnings per share:	\$ 0.05	\$ 0.03	\$ 0.08	\$ 0.11
Diluted earnings per share:				
Income available to common stockholders (numerator)	\$ 2,702	\$ 1,685	\$ 4,345	\$ 5,758
Weighted average common shares outstanding	52,191	51,936	52,184	51,936
Plus: effect of dilutive securities restricted stock (with no performance restrictions)	128	292	127	299
Weighted average shares applicable to diluted earnings per share (denominator)	52,319	52,228	52,311	52,235
Diluted earnings per share:	\$ 0.05	\$ 0.03	\$ 0.08	\$ 0.11

The Company had 3,473,332 and 2,620,832 outstanding stock options to purchase common stock at \$20.00 per share at June 30, 2012 and 2011, respectively, which were not included in the computations of diluted income per share because the options' exercise price was greater than the average market price of the common shares during those periods. Additionally, the Company had 830,750 outstanding warrants to purchase the Company's common stock as of June 30, 2012 and 2011. The warrants have an exercise price of \$20.00, which was out-of-the-money for purposes of dilution calculations. The Company had 1,174,792 and 1,299,168 restricted shares outstanding as of June 30, 2012 and 2011, respectively, which have performance, market and time-vesting criteria, and as such, any dilution is derived only for the timeframe in which the vesting criteria had been met.

Note 16 Commitments and Contingencies***Financial instrument commitments and contingencies***

In the normal course of business, the Company enters into various off-balance sheet commitments to help meet the financing needs of clients. These financial instruments include commitments to extend credit, commercial and consumer lines of credit and standby letters of credit. The same credit policies are applied to these commitments as the loans on the consolidated statements of financial condition; however, these commitments involve varying degrees of credit risk in excess of the amount recognized in the consolidated statements of financial condition. At June 30, 2012 and December 31, 2011, the Company had loan commitments totaling \$355.2 million and \$341.1 million, respectively, and standby letters of credit that totaled \$13.5 million and \$20.0 million, respectively. The total amounts of unused commitments do not necessarily represent future credit exposure or cash requirements, as commitments often expire without being drawn upon. However, the contractual amount of these commitments represents the Company's potential credit loss exposure. Amounts funded at Hillcrest Bank and Community Banks of Colorado under non-cancelable commitments in effect at the date of acquisition are covered under the respective loss sharing agreements if certain conditions are met.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

Total unfunded commitments at June 30, 2012 and December 31, 2011 were as follows (in thousands):

	June 30, 2012			December 31, 2011		
	Covered	Not Covered	Total	Covered	Not Covered	Total
Commitments to fund loans:						
Residential	\$	\$ 68,711	\$ 68,711	\$ 1,517	\$ 30,194	\$ 31,711
Commercial and commercial real estate	574	21,729	22,303	2,437	38,937	41,374
Construction and land development	441	331	772	3,565	776	4,341
Consumer		8,992	8,992		39,690	39,690
Credit card lines of credit		17,581	17,581		20,738	20,738
Unfunded commitments under lines of credit	48,786	188,005	236,791	68,223	135,001	203,224
Commercial and standby letters of credit	5,584	7,892	13,476	3,051	16,986	20,037
Total	\$ 55,385	\$ 313,241	\$ 368,626	\$ 78,793	\$ 282,322	\$ 361,115

Commitments to fund loans Commitments to fund loans are legally binding agreements to lend to clients in accordance with predetermined contractual provisions providing there have been no violations of any conditions specified in the contract. These commitments are generally at variable interest rates and are for specific periods or contain termination clauses and may require the payment of a fee. The total amounts of unused commitments are not necessarily representative of future credit exposure or cash requirements, as commitments often expire without being drawn upon.

Credit card lines of credit The Company extends lines of credit to clients through the use of credit cards issued by the banks. These lines of credit represent the maximum amounts allowed to be funded, many of which will not exhaust the established limits, and as such, these amounts are not necessarily representations of future cash requirements or credit exposure.

Unfunded commitments under lines of credit In the ordinary course of business, the Company extends revolving credit to its clients through the use of bank-issued credit cards. These arrangements may require the payment of a fee.

Commercial and standby letters of credit As a provider of financial services, the Company routinely issues commercial and standby letters of credit, which may be financial standby letters of credit or performance standby letters of credit. These are various forms of back-up commitments to guarantee the performance of a customer to a third party. While these arrangements represent a potential cash outlay for the Company, the majority of these letters of credit will expire without being drawn upon. Letters of credit are subject to the same underwriting and credit approval process as traditional loans, and as such, many of them have various forms of collateral securing the commitment, which may include real estate, personal property, receivables or marketable securities.

Contingencies

In the ordinary course of business, the Company and its banks may be subject to litigation. Based upon the available information and advice from the Company's legal counsel, management does not believe that any potential, threatened or pending litigation to which it is a party will have a material adverse effect on the Company's liquidity, financial condition or results of operations.

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012 (Unaudited)

Note 17 Fair Value Measurements

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to disclose the fair value of its financial instruments. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. For disclosure purposes, the Company groups its financial and non-financial assets and liabilities into three different levels based on the nature of the instrument and the availability and reliability of the information that is used to determine fair value. The three levels are defined as follows:

Level 1 Includes assets or liabilities in which the inputs to the valuation methodologies are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 Includes assets or liabilities in which the inputs to the valuation methodologies are based on similar assets or liabilities in inactive markets, quoted prices for identical or similar assets or liabilities in inactive markets, and inputs other than quoted prices that are observable, such as interest rates, yield curves, volatilities, prepayment speeds, and other inputs obtained from observable market input.

Level 3 Includes assets or liabilities in which the inputs to the valuation methodology are based on at least one significant assumption that is not observable in the marketplace. These valuations may rely on management's judgment and may include internally-developed model-based valuation techniques.

Level 1 inputs are considered to be the most transparent and reliable and level 3 inputs are considered to be the least transparent and reliable. The Company assumes the use of the principal market to conduct a transaction of each particular asset or liability being measured and then considers the assumptions that market participants would use when pricing the asset or liability. Whenever possible, the Company first looks for quoted prices for identical assets or liabilities in active markets (level 1 inputs) to value each asset or liability. However, when inputs from identical assets or liabilities on active markets are not available, the Company utilizes market observable data for similar assets and liabilities. The Company maximizes the use of observable inputs and limits the use of unobservable inputs to occasions when observable inputs are not available. The need to use unobservable inputs generally results from the lack of market liquidity of the actual financial instrument or of the underlying collateral. Although, in some instances, third party price indications may be available, limited trading activity can challenge the observability of these quotations.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of each instrument under the valuation hierarchy:

Fair Value of Financial Instruments Measured on a Recurring Basis

Investment securities available for sale Investment securities available-for-sale are carried at fair value on a recurring basis. To the extent possible, observable quoted prices in an active market are used to determine fair value and, as such, these securities are classified as level 1. The Company classified its U.S. Treasury securities as Level 1 in the fair value hierarchy as of June 30, 2012 and December 31, 2011. When quoted market prices in active markets for identical assets or liabilities are not available, quoted prices of securities with similar characteristics, discounted cash flows or other pricing characteristics are used to estimate fair values and the securities are then classified as level 2. At June 30, 2012 and December 31, 2011, the Company's level 2 securities included asset backed securities, mortgage-backed securities comprised of residential mortgage pass-through securities, other residential mortgage-backed securities, and at December 31, 2011 also included other mortgage-backed securities, all of which were issued or guaranteed by U.S. Government agencies or sponsored agencies. All other investment securities are classified as level 3. There were no transfers between levels 1 or 2 during the six months ended June 30, 2012 or 2011.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

Value appreciation rights issued to the FDIC The Company measures the fair value of the VAR on a recurring basis and is based on the spread between the strike price of the VAR and the average multiple of price to tangible book value indicated by national and regional bank indices, multiplied by the maximum number of applicable units.

Warrant liability The Company measures the fair value of the warrant liability on a recurring basis using a Black-Scholes option pricing model. The Company's common stock is not publicly traded in an exchange, and the fair value measurement of the warrant liability requires significant unobservable inputs to the valuation model.

Clawback liability The Company measures the net present value of expected future cash payments to be made by the Company to the FDIC that must be made within 45 days of the conclusion of the loss sharing agreements on a recurring basis. The expected cash flows are calculated in accordance with the loss sharing agreements and are based primarily on the expected losses on the covered assets, which involve significant inputs that are not market observable.

The tables below present the financial instruments measured at fair value on a recurring basis as of June 30, 2012 and December 31, 2011 on the consolidated statement of financial condition utilizing the hierarchy structure described above (in thousands):

	June 30, 2012			
	Level 1	Level 2	Level 3	Total
Assets:

The following table provides information about the valuation techniques and unobservable inputs used in the valuation of financial instruments falling within level 3 of the fair value hierarchy as of June 30, 2012 (in thousands):

	Fair Value at June 30, 2012	Valuation Technique	Unobservable Input	Quantitative measures
Other securities	\$ 419	Cash investment in private equity fund	Cash investment	
Impaired loans	49,859	Appraised value	Appraised values Discount rate	0-25%
Clawback liability	29,638	Contractually defined Discounted Cash Flows	Intrinsic loss estimates Expected credit losses Asset purchase premium Discount rate Discount period	\$323.3 million - \$405 million \$98 million - \$182.7 million 0.04
Value appreciation rights issued to FDIC	1,767	Contractual	Tangible book value per share	
Warrant liability	6,982	Black-Scholes Finnerty Model	Volatility Holding period Stock price per share	35% - 41% 0.6 - 1.0 (years)

Fair Value of Instruments Measured on a Non-recurring Basis

The Company records collateral dependent loans that are considered to be impaired at their estimated fair value. A loan is considered impaired when it is probable that the Company will be unable to collect all contractual amounts due in accordance with the terms of the loan agreement. Collateral dependent impaired loans are measured based on the fair value of the collateral. The Company relies on third-party appraisals and internal assessments in determining the estimated fair values of these loans. The inputs used to determine the fair values of loans are considered level 3 inputs in the fair value hierarchy. During the six months ended June 30, 2012, the Company measured eleven loans not accounted for under ASC Topic 310-30 at fair value on a non-recurring basis. These loans carried specific reserves totaling \$1.9 million. During the six months ended June 30, 2012 the Company added specific reserves of \$1.2 million for two loans within the commercial segment with carrying balances of \$2.0 million, \$0.3 million for five loans within the commercial real estate segment (non-owner occupied) with carrying balances of \$3.8 million, and \$0.2 million for two residential real estate loans with carrying balances of \$1.8 million. In addition, specific reserves totaling \$0.6 million were eliminated during the six months ended, June 30, 2012 for two loans in non-owner occupied commercial real estate that were charged-off.

OREO is recorded at the lower of the loan balance or the fair value of the collateral less estimated selling costs. The estimated fair values of OREO are updated periodically and further write-downs may be taken to reflect a new basis. The Company recognized \$7.2 million of OREO impairments during the six months ended June 30, 2012, of which \$6.0 million, or 83.7%, were on OREO that was covered by loss sharing agreements with the FDIC. The fair values of OREO are derived from third party price opinions or appraisals that generally use an income approach or a market value approach. If reasonable comparable appraisals are not available, then

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

the Company may use internally developed models to determine fair values. The inputs used to determine the fair values of OREO are considered level 3 inputs in the fair value hierarchy.

Three Months Ended June 30, 2012

	Level 1	Level 2	Level 3	Total	Gains (Losses) From Fair Value Changes
Other real estate owned	\$	\$	\$ 137,712	\$ 137,712	\$ (7,213)
Impaired loans	\$	\$	\$ 49,859	\$ 49,859	\$ (1,756)

The Company did not record any liabilities for which the fair value was made on a non-recurring basis during the six months ended June 30, 2012.

Note 18 Fair Value of Financial Instruments

The fair value of a financial instrument is the amount that would be exchanged between willing parties, other than in a forced liquidation. Fair value is determined based upon quoted market prices to the extent possible; however, in many instances, there are no quoted market prices for the Company's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques that may be significantly impacted by the assumptions used, including the discount rate and estimates of future cash flows. Changes in any of these assumptions could significantly affect the fair value estimates. The fair value of the financial instruments listed below does not reflect a premium or discount that could result from offering all of the Company's holdings of financial instruments at one time, nor does it reflect the underlying value of the Company, as ASC Topic 825 excludes certain financial instruments and all non-financial instruments from its disclosure requirements.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****June 30, 2012 (Unaudited)**

In connection with the Hillcrest Bank, Bank Midwest, Bank of Choice and Community Banks of Colorado acquisitions, the Company recorded all of the acquired assets and assumed liabilities at fair value at the respective dates of acquisition. The fair value of financial instruments at June 30, 2012 and December 31, 2011, including methods and assumptions utilized for determining fair value of financial instruments, are set forth below (in thousands):

	Level in Fair Value Measurement Hierarchy	June 30, 2012		December 31, 2011

Table of Contents

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2012 (Unaudited)

Cash and cash equivalents

Cash and cash equivalents have a short-term nature and the estimated fair value is equal to the carrying value.

Investment securities

The estimated fair value of investment securities is based on quoted market prices or bid quotations received from securities dealers. Other investment securities, including securities that are held for regulatory purposes are carried at cost, less any other than temporary impairment.

Loans and covered loans

The estimated fair value of the loan portfolio is estimated using a discounted cash flow analysis using a discount rate based on interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. The allowance for loan losses is considered a reasonable estimate of any required adjustment to fair value to reflect the impact of credit risk.

Accrued interest receivable

Accrued interest receivable has a short-term nature and the estimated fair value is equal to the carrying value.

Deposits

The estimated fair value of deposits with no stated maturity, such as non-interest bearing demand deposits, savings, NOW accounts, and money market accounts, is equal to the amount payable on demand. The fair value of interest-bearing time deposits is based on the discounted value of contractual cash flows of such deposits, taking into account the option for early withdrawal. The discount rate is estimated using the rates offered by the Company, at the respective measurement date, for deposits of similar remaining maturities.

Securities sold under agreements to repurchase

The vast majority of the Company's repurchase agreements are overnight transactions that mature the day after the transaction, and as a result of this short-term nature, the estimated fair value is equal to the carrying value.

Due to FDIC

The amount due to FDIC is specified in the purchase agreements and is discounted to reflect the uncertainty in the timing and payment of the amount due by the Company.

Value appreciation rights issued to FDIC (VAR)

The estimated fair value of the VAR is tied to the Company's stock price and is fully described in note 4 of the Company's December 31, 2011 audited consolidated financial statements.

Warrant liability

The warrant liability is estimated using a Black-Scholes model, the assumptions of which are detailed in note 17.

Accrued interest payable

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Accrued interest payable has a short-term nature and the estimated fair value is equal to the carrying value.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

National Bank Holdings Corporation:

We have audited the accompanying consolidated statements of financial condition of National Bank Holdings Corporation and subsidiaries (fka NBH Holdings Corp.) (the Company) as of December 31, 2011 and 2010, and the related consolidated statements of operations, stockholders equity and other comprehensive income, and cash flows for the years ended December 31, 2011 and 2010, and for the period from June 16, 2009 (date of inception) through December 31, 2009. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of National Bank Holdings Corporation and subsidiaries as of December 31, 2011 and 2010, and the results of their operations and their cash flows for the years ended December 31, 2011 and 2010, and for the period from June 16, 2009 (date of inception) through December 31, 2009, in conformity with U.S. generally accepted accounting principles.

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

Note 1 Basis of Presentation

National Bank Holdings Corporation, formerly known as NBH Holdings Corp., (the Company) is a bank holding company that was incorporated in the State of Delaware in June 2009 with the intent to acquire and operate community banking franchises and other complementary businesses in targeted markets. The accompanying consolidated financial statements include the accounts of Company and its wholly owned subsidiaries, Bank Midwest, N.A., which was acquired by the Company on December 10, 2010 (now known as NBH Bank, N.A.), including the accounts of the Bank of Choice, which was acquired by Bank Midwest, N.A. on July 22, 2011 and the Community Banks of Colorado, which was acquired by Bank Midwest, N.A. on October 21, 2011, and Hillcrest Bank, N.A., which was acquired by the Company on October 22, 2010 and merged into Bank Midwest, N.A. in 2011 (collectively, the Banks). The results of operations of the Banks are included from the respective dates of the acquisitions (October 22, 2010 for Hillcrest Bank, N.A., December 10, 2010 for Bank Midwest, N.A., July 22, 2011 for Bank of Choice, and October 21, 2011 for Community Banks of Colorado), and as such, the operating results for 2009 do not reflect any results of operations for the Banks. The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) and where applicable, with general practices in the banking industry or guidelines prescribed by bank regulatory agencies. The consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary for a fair statement of the results presented, including retrospective adjustments to the acquisition day fair values of certain assets acquired and liabilities assumed in the Community Banks of Colorado transaction that occurred during the measurement period. All other adjustments are of a normal recurring nature. All significant intercompany balances and transactions have been eliminated in consolidation. Certain reclassifications of prior years amounts are made whenever necessary to conform to current period presentation.

In accordance with the guidance provided by Securities and Exchange Commission (SEC) Staff Accounting Bulletin Topic 1.K, Financial Statements of Acquired Troubled Financial Institutions (SAB 1.K), and pursuant to a request for relief submitted to, and not objected to by the SEC, the Company has omitted certain financial information of its acquisitions that is typically required under Rule 3-05 of Regulation S-X and the related pro forma financial information required by Article 11 of Regulation S-X. SAB 1.K provides relief from certain reporting requirements, including pro forma information in the case of an acquisition of a troubled financial institution for which historical financial information is not reasonably available and in which federal assistance is an essential and significant part of the transaction, or where the nature and magnitude of federal assistance is so pervasive as to substantially reduce the relevance of such information to an assessment of future operations.

As discussed in Note 3, the Financial Accounting Standards Board (FASB) released new guidance to address pro forma disclosure requirements for business combinations. For the Company, disclosure of such information is impracticable as the Company's acquisitions related to troubled financial institutions for which historical financial information is not reasonably available and in which federal assistance was an essential and significant part of the transaction, or where the nature and magnitude of federal assistance is so pervasive as to reduce the relevance of such information to an assessment of future operations.

The Company's significant accounting policies followed in the preparation of the consolidated financial statements are disclosed in Note 2. GAAP requires management to make estimates that affect the reported amounts of assets, liabilities, revenues and expenses, and disclosures of contingent assets and liabilities. By their nature, estimates are based on judgment and available information. Management has made significant estimates in certain areas, such as the amount and timing of expected cash flows from covered assets, the valuation of the FDIC indemnification asset and clawback liability, the valuation of other real estate owned, the fair value

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

adjustments on assets acquired and liabilities assumed, the valuation of core deposit intangible assets, the deferred tax assets, the evaluation of investment securities for other-than-temporary impairment, the fair values of financial instruments, the allowance for loan losses (ALL), and contingent liabilities. Because of the inherent uncertainties associated with any estimation process and future changes in market and economic conditions, it is possible that actual results could differ significantly from those estimates.

Note 2 Summary of Significant Accounting Policies

a) Acquisition activities The Company accounts for business combinations under the acquisition method of accounting. Assets acquired and liabilities assumed are measured and recorded at fair value at the date of acquisition, including identifiable intangible assets. If the fair value of net assets acquired exceeds the fair value of consideration paid, a bargain purchase gain is recognized at the date of acquisition. Conversely, if the consideration paid exceeds the fair value of the net assets acquired, goodwill is recognized at the acquisition date. Fair values are subject to refinement for up to a maximum of one year after the closing date of an acquisition as information relative to closing date fair values becomes available.

The determination of the fair value of loans acquired takes into account credit quality deterioration and probability of loss; therefore, the related ALL is not carried forward. The Company has segregated total loans into two separate categories: (a) loans receivable covered and (b) loans receivable non-covered, both of which are more fully described below.

Identifiable intangible assets are recognized separately if they arise from contractual or other legal rights or if they are separable (i.e., capable of being sold, transferred, licensed, rented, or exchanged separately from the entity). Deposit liabilities and the related depositor relationship intangible assets, known as the core deposit intangible assets, may be exchanged in observable exchange transactions. As a result, the core deposit intangible asset is considered identifiable, because the separability criterion has been met.

An FDIC indemnification asset is recognized when the FDIC contractually indemnifies, in whole or in part, the Company for a particular uncertainty. The recognition and measurement of an indemnification asset is based on the related indemnified items. The Company recognizes an indemnification asset at the same time that the indemnified item is recognized and measures it on the same basis as the indemnified items, subject to collectibility or contractual limitations on the indemnified amounts.

Under FDIC loss sharing agreements, the Company may be required to return a portion of cash received from the FDIC in the event that losses do not reach a specified threshold, based on the initial discount less cumulative servicing costs for the covered assets acquired. Such liabilities are referred to as clawback liabilities and are considered to be contingent consideration as they require the return of a portion of the initial consideration in the event that certain contingencies are met. The Company recognizes clawback liabilities that represent contingent consideration at fair value at the date of acquisition. The clawback liabilities are included in due to FDIC in the accompanying consolidated statements of financial condition, and are periodically re-measured and any changes in value are reflected in both the carrying amount of the clawback liability and the related accretion that is recognized through FDIC loss sharing income in the consolidated statements of operations until the contingency is resolved.

b) Cash and cash equivalents Cash and cash equivalents include cash, cash items, amounts due from other banks, amounts due from the Federal Reserve Bank of Kansas City, federal funds sold, and interest-bearing bank deposits.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

c) Investment securities Investment securities may be classified in three categories: trading, available-for-sale and held-to-maturity. Management determines the appropriate classification at the time of purchase and reevaluates the classification at each reporting period. The Company has classified the majority of its investment portfolio as available-for-sale. Any sales of available-for-sale securities are for the purpose of executing the Company's asset/liability management strategy, reducing borrowings, funding loan growth, providing liquidity, or eliminating a perceived credit risk in a specific security. Held-to-maturity securities are carried at amortized cost and the available-for-sale securities are carried at estimated fair value. Unrealized gains or losses on securities available-for-sale are reported as accumulated other comprehensive income (AOCI), a component of stockholders' equity, net of income tax. Gains and losses realized upon sales of securities are calculated using the specific-identification method and are included in gains or losses on sale of securities, net in the consolidated statements of operations. Premiums and discounts are amortized to interest income over the estimated lives of the securities. Prepayment experience is periodically evaluated and a determination made regarding the appropriate estimate of the future rates of prepayment. When a change in a bond's estimated remaining life is necessary, a corresponding adjustment is made in the related premium amortization or discount accretion. Purchases and sales of securities, including any corresponding gains or losses, are recognized on a trade-date basis and a receivable or payable is recognized for pending transaction settlements.

Management evaluates all investments for OTTI on a quarterly basis, and more frequently when economic or market conditions warrant such evaluation. Impairment is considered to be other-than-temporary if it is likely that all amounts contractually due will not be received for debt securities and when there is no positive evidence indicating that an investment's carrying amount is recoverable in the near term for equity securities. When impairment is considered other than temporary, the cost basis of the security is written down to fair value, with the impairment charge related to credit included in earnings, while the impairment charge related to all other factors is recognized in other comprehensive income. If the Company has the intent to sell the security or it is more likely than not that the Company will be required to sell the security, the entire amount of the OTTI is recorded in earnings. In evaluating whether the impairment is temporary or other than temporary, the Company considers, among other things, the severity and duration of the unrealized loss position; adverse conditions specifically related to the security; changes in expected future cash flows; downgrades in the rating of the security by a rating agency; the failure of the issuer to make scheduled interest or principal payments; whether the Company has the intent to sell the security; and whether it is more likely than not that the Company will be required to sell the security.

d) Non-marketable securities Non-marketable securities include Federal Reserve Bank stock and Federal Home Loan Bank stock. These securities have been acquired for debt or regulatory purposes, are carried at cost, and are classified as available-for-sale.

e) Loans receivable covered Loans acquired in FDIC assisted transactions that are covered under loss sharing agreements are referred to as covered loans. Pursuant to the terms of the loss sharing agreements, the FDIC will reimburse the Company for a percentage of losses on covered assets up to stated loss thresholds. The Company must reimburse the FDIC for its share of recoveries with respect to losses for which the FDIC paid the Company a reimbursement under loss sharing agreements.

Covered loans are recorded at their estimated fair value at the time of acquisition. Estimated fair values of covered loans were based on a discounted cash flow methodology that considers various factors including the type of loan and related collateral, classification status, fixed or variable interest rate, term of loan and whether or not the loan was amortizing, and a discount rate reflecting the Company's assessment of risk inherent in the cash flow estimates. Covered loans were grouped together according to similar characteristics such as type of loan, loan purpose, geography, risk rating and underlying collateral and were treated as distinct pools when applying

Table of Contents

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

various valuation techniques and, in certain circumstances, for the ongoing monitoring of the credit quality and performance of the pools. Each pool is accounted for as a single loan for which the integrity is maintained throughout the life of the asset.

The Company accounts for and evaluates acquired loans in accordance with the provisions of Accounting Standards Codification (ASC) Topic 310-30, *Loans and Debt Securities Acquired with Deteriorated Credit Quality*. When loans exhibit evidence of credit deterioration since origination and it is probable at the date of acquisition that the Company will not collect all principal and interest payments in accordance with the terms of the loan agreement, the expected shortfall in future cash flows, as compared to the contractual amount due, is recognized as a non-accretable difference. Any excess of expected cash flows over the acquisition date fair value is known as the accretible yield, and is recognized as accretion income over the life of each pool. Loans that meet the criteria for non-accrual of interest at the time of acquisition may be considered performing, regardless of whether the customer is contractually delinquent, if the timing and expected cash flows on such loans can be reasonably estimated and if collection of the new carrying value of such loans is expected.

Expected cash flows over the acquisition date fair value are periodically reestimated utilizing the same cash flow methodology used at the time of acquisition and subsequent decreases to the expected cash flows will generally result in a provision for loan losses charge to the Company's consolidated statements of operations. Any increases to the cash flow projections are recognized on a prospective basis through an increase to the pool's accretion income over its remaining life once any previously recorded provision expense has been reversed. These cash flow evaluations are inherently subjective as they require material estimates, all of which may be susceptible to significant change.

Covered loans outside the scope of ASC Topic 310-30 are accounted for under ASC Topic 310, *Receivables*. Discounts created when the loans are recorded at their estimated fair values at acquisition are accreted over the remaining term of the loan as an adjustment to the related loan's yield. Similar to uncovered and originated loans described below, the accrual of interest income on covered loans that are not impaired at the time of acquisition is discontinued when the collection of principal or interest, in whole or in part, is doubtful. Interest is generally not accrued on loans 90 days or more past due unless they are well secured and in the process of collection.

In the event of borrower default of covered loans or non-covered loans, as described below, the Company may seek recovery in compliance with state lending laws, the respective loan agreements, and credit monitoring and remediation procedures that may include modifying or restructuring a loan from its original terms, for economic or legal reasons, to provide a concession to the borrower from their original terms due to borrower financial difficulties in order to facilitate repayment. Such restructured loans are considered troubled debt restructurings and are identified in accordance with ASC Topic 310-40 *Troubled Debt Restructurings by Creditors*. Under this guidance, modifications to loans that fall within the scope of ASC Topic 310-30 are not considered troubled debt restructurings, regardless of otherwise meeting the definition of a troubled debt restructuring.

f) Loans receivable non-covered Loans receivable not covered include loans that are acquired through acquisitions that are not covered by loss sharing agreements and loans originated by the Company. Much like covered loans, acquired non-covered loans are initially recorded at fair value and are accounted for under either ASC Topic 310-30 or ASC Topic 310, as described above. Loans originated by the Company are carried at the principal amount outstanding, net of premiums, discounts, unearned income, and deferred loan fees and costs. Non-refundable loan origination and commitment fees, net of direct costs of originating or acquiring loans, and fair value adjustments for acquired loans, are deferred and recognized as an adjustment to the loans' effective yield over the estimated remaining lives of the related loans.

Table of Contents

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

Interest income on loans that were not impaired at the time of acquisition and interest income on loans originated by the Company is accrued and credited to income as it is earned using the interest method based on daily balances of the principal amount outstanding. However, interest is generally not accrued on loans 90 days or more past due, unless they are well secured and in the process of collection. Additionally, in certain situations, loans that are not contractually past due may be placed on non-accrual status due to the continued failure to adhere to contractual payment terms by the borrower coupled with other pertinent factors, such as insufficient collateral value or deficient primary and secondary sources of repayment. Accrued interest receivable is reversed when a loan is placed on non-accrual status and payments received generally reduce the carrying value of the loan. Interest is not accrued while a loan is on non-accrual status and interest income is generally recognized on a cash basis only after payment in full of the past due principal and collection of principal outstanding is reasonably assured. A loan may be placed back on accrual status if all contractual payments have been received, or sooner under certain conditions and collection of future principal and interest payments is no longer doubtful.

g) Allowance for loan losses The allowance for loan losses (ALL) represents management's estimate of probable credit losses inherent in loans, including acquired and covered loans to the extent necessary, as of the balance sheet date. The determination of the ALL takes into consideration, among other matters, the estimated fair value of the underlying collateral, economic conditions, historical net loan losses, any declines in cash flow assumptions from acquisition, and other factors that warrant recognition. In addition, various regulatory agencies, as an integral part of the examination process, periodically review the ALL. Such agencies may require the Company to recognize additions to the ALL or increases to adversely graded classified loans based on their judgments about information available to them at the time of their examinations.

The Company uses an internal risk rating system to indicate credit quality in the loan portfolio. The risk rating system is applied to covered and non-covered loans and uses a series of grades, which reflect management's assessment of the risk attributable to loans based on an analysis of the borrower's financial condition and ability to meet contractual debt service requirements. Loans that management perceives to have acceptable risk are categorized as Pass loans. The Special mention loans represent loans that have potential credit weaknesses that deserve management's close attention. Special mention loans include borrowers that have potential weaknesses or unwarranted risks that, unless corrected, may threaten the borrower's ability to meet debt requirements. However, these borrowers are still believed to have the ability to respond to and resolve the financial issues that threaten their financial situation. Loans classified as Substandard are inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Substandard loans have a distinct possibility of loss if the deficiencies are not corrected. Doubtful loans are loans that management believes the collection of payments in accordance with the terms of the loan agreement is highly questionable and improbable. Doubtful loans are deemed impaired and put on non-accrual status. Loans accounted for under ASC Topic 310-30, despite being 90 days or more past due or internally adversely classified, may be classified as performing upon and subsequent to acquisition, regardless of whether the customer is contractually delinquent, if the timing and expected cash flows on such loans can be reasonably estimated and if collection of the carrying value of such loans is expected. Interest accrual is discontinued on doubtful loans and certain substandard loans that are excluded from ASC Topic 310-30, as is more fully discussed in Note 7.

The Company routinely evaluates risk-rated credits for impairment. Impairment, if any, is typically measured for each loan based on a thorough analysis of the most probable source of repayment, including the present value of the loan's expected future cash flows, the loan's estimated fair value, or the estimated fair value of the underlying collateral less costs of disposition for collateral dependent loans. General allowances are established for loans with similar characteristics. In this process, general allowance factors are based on an analysis of historical loss and recovery experience, if any, related to the acquired loans, as well as certain industry experience, with adjustments made for qualitative or environmental factors that are likely to cause

Table of Contents

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

estimated credit losses to differ from historical experience. To the extent that the data supporting such factors has limitations, management's judgment and experience play a key role in determining the allowance estimates.

Additions to the ALL are made by provisions for loan losses that are charged to operations. The allowance is decreased by charge-offs due to losses and is increased by provisions for loan losses and recoveries. When it is determined that specific loans, or portions thereof, are uncollectible, these amounts are charged off against the ALL. If repayment of the loan is collateral dependent, the fair value of the collateral, less cost to sell, is used to determine charge-off amounts.

The Company maintains an ALL for loans accounted for under ASC Topic 310-30 as a result of impairment to loan pools arising from the periodic re-valuation of these loans. Any impairment in the individual pool is generally recognized in the current period as provision for loan losses. Any improvement in the estimated cash flows, is generally not recognized immediately, but is instead reflected as an adjustment to the related loan pools yield on a prospective basis once any previously recorded impairment has been recaptured.

h) FDIC indemnification asset An FDIC indemnification asset results from loss sharing agreements in FDIC-assisted transactions and is measured separately from the related covered assets as they are not contractually embedded in those assets and are not transferable should the Company choose to dispose of the covered assets. The FDIC indemnification asset represents the estimated fair value of expected reimbursements from the FDIC for losses on covered loans and covered OREO. Pursuant to the terms of the loss sharing agreements, covered loans and OREO are subject to stated loss thresholds whereby the FDIC will reimburse the Company for a percentage of losses and expenses up to the stated loss thresholds. The FDIC indemnification asset is initially recorded at its estimated fair value. Fair value is estimated using projected cash flows related to the loss sharing agreements based on the expected reimbursements for losses and the applicable loss sharing percentages. These cash flows are discounted to reflect the uncertainty of the timing of the loss sharing reimbursement from the FDIC and the discount is accreted to income in connection with the expected speed of reimbursements. This accretion is included in FDIC loss sharing income (loss) in the consolidated statements of operations.

The accounting for the FDIC indemnification asset is closely related to the accounting for the underlying, indemnified assets. The Company reestimates the expected indemnification asset cash flows in conjunction with the periodic reestimation of cash flows on covered loans. Improvements in cash flow expectations on covered loans generally result in a related decline in the expected indemnification cash flows and are reflected prospectively as a negative yield adjustment on the indemnification asset. Declines in cash flow expectations on covered loans generally result in an increase in expected indemnification cash flows and are reflected as an increase to the indemnification asset. This increase is included in FDIC loss sharing income (loss) in the consolidated statements of operations. As indemnified assets are resolved and the Company is reimbursed by the FDIC for the value of the resolved portion of the FDIC indemnification asset, the Company reduces the carrying value of the FDIC indemnification asset.

i) Clawback liability A clawback liability is recorded to reflect the contingent liability assumed in an FDIC-assisted transaction whereby the Company is obligated to refund a portion of cash received from the FDIC at acquisition in the event that losses do not reach a specified threshold, based on the initial discount received less cumulative servicing amounts for the covered assets acquired. Such a liability is considered to be contingent consideration as it requires a payment by the Company to the FDIC in the event that certain contingencies are met. The clawback liability is recorded at its acquisition date fair value and is included in due to FDIC in the accompanying statements of financial condition. The clawback liability is remeasured at each reporting period and any changes are reflected in both the carrying amount of the clawback liability and the related accretion that

Table of Contents

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

is recognized through FDIC loss sharing income in the consolidated statements of operations until the contingency is resolved.

j) Value appreciation rights Value appreciation rights (VAR) may be issued in business combinations as part of the consideration transferred and a finite term is set forth in each VAR agreement. The VAR is tied to the Company's stock price and is remeasured at each reporting period based on the spread between the strike price of the VAR and the average multiple of price to tangible book value indicated by national and regional bank indices, multiplied by the maximum number of applicable units.

k) Premises and equipment With the exception of premises and equipment acquired through business combinations, which are initially measured and recorded at fair value, purchased land is stated at cost, and buildings and equipment are carried at cost, including capitalized interest when appropriate, less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful life of the asset. The Company generally assigns depreciable lives of 39 years for buildings, 7 to 15 years for building improvements, and 3 to 7 years for equipment. Leasehold improvements are amortized over the shorter of their estimated useful lives or remaining lease terms. Maintenance and repairs are charged to non-interest expense as incurred. The Company reviews premises and equipment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. An impairment loss is recognized when the sum of the undiscounted future net cash flows expected to result from the use of the asset and its eventual disposal is less than its carrying amount.

l) Goodwill and intangible assets Goodwill is established and recorded if the consideration given during an acquisition transaction exceeds the fair value of the net assets received. Goodwill has an indefinite useful life and is not amortized, but is evaluated annually for potential impairment, or when events or circumstances indicate a potential impairment. The Company first evaluates potential impairment of goodwill by comparing the fair value of the reporting unit to its carrying amount. Any excess of carrying value over fair value would indicate a potential impairment and the Company would proceed to perform an additional test to determine whether goodwill has been impaired and calculate the amount of that impairment. Intangible assets that have finite useful lives, such as core deposit intangibles, are amortized over their estimated useful lives.

The Company's core deposit intangible assets represent the value of the anticipated future cost savings that will result from the acquired core deposit relationships versus an alternative source of funding. Judgment may be used in assessing goodwill and intangible assets for impairment. Estimates of fair value are based on projections of revenues, operating costs and cash flows of the reporting unit considering historical and anticipated future results, general economic and market conditions, as well as the impact of planned business or operational strategies. The valuations use a combination of present value techniques to measure fair value and consider market factors. Additionally, judgment is used in determining the useful lives of finite-lived intangible assets. Adverse changes in the economic environment, operations of the reporting unit, or changes in judgments and projections could result in a significantly different estimate of the fair value of the reporting unit and could result in an impairment of goodwill and/or intangible assets.

m) Other real estate owned OREO consists of property that has been foreclosed on or repossessed by deed in lieu of foreclosure. The assets are initially recorded at the fair value of the collateral less estimated costs to sell, with any initial valuation adjustments charged to the ALL. Subsequent valuation adjustments, if any, in addition to gains and losses realized on sales and net operating expenses, are recorded in other non-interest expense. Costs associated with maintaining property, such as utilities and maintenance, are charged to expense in the period in which they occur, while costs relating to the development and improvement of property are capitalized to the extent the balance does not exceed fair value. All OREO acquired through acquisition is

Table of Contents

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

recorded at fair value at the date of acquisition. The Company's loss sharing agreements with the FDIC covers losses and expenses incurred on OREO resulting from the covered assets in the Hillcrest Bank and Community Banks of Colorado transactions in the same manner, and are included in the same loss thresholds, as the covered loans.

n) Securities sold under agreements to repurchase The Company enters into sales of securities under agreements to repurchase as of a specified future date. These repurchase agreements are considered financing agreements and the obligation to repurchase assets sold is reflected as a liability in the consolidated statements of financial condition of the Company. The repurchase agreements are collateralized by debt securities that are under the control of the Company.

o) Stock-based compensation The Company accounts for stock-based compensation in accordance with ASC Topic 718, *Compensation - Stock Compensation*. The Company grants stock-based awards including stock options and restricted stock. Stock option grants are for a fixed number of common shares and are issued to employees and directors at exercise prices which are not less than the fair value of a share of stock at the date of grant. The options vest over a time period stated in each option agreement and may be subject to other performance vesting conditions, which require the related compensation expense to be recorded ratably over the requisite service period starting when such conditions become probable. Certain stock options contain vesting conditions that are tied to the Company's shares becoming publicly listed on a national exchange. Restricted stock is granted for a fixed number of shares, the transferability of which is restricted until such shares become vested according to the terms in the award agreement. Restricted shares typically have multiple vesting qualifications which may include time-vesting of a set portion of the restricted shares following a qualified investment transaction (a performance criterion), market criteria that are tied to specified market conditions of the Company's common stock price and/or vesting tied to the Company's shares becoming publicly listed on a national exchange.

The fair value of awards is measured using either a Black-Scholes model or a Monte Carlo simulation model, depending on the vesting requirement of each grant. Expense is typically recognized over the expected vesting period, by vesting tranche, based on the fair value of the awards on the grant date. In accordance with ASC Topic 718, the Company will recognize compensation expense on the grants that have vesting requirements tied to the Company's shares becoming listed on a national exchange subsequent to that vesting requirement being met. The amortization of stock-based compensation reflects any estimated forfeitures and the expense realized in subsequent periods may be adjusted to reflect the actual forfeitures realized. The outstanding stock options and restricted shares carry a maximum contractual term of 10 years. To the extent that any award is forfeited, surrendered, terminated, expires, or lapses without being exercised, the shares of stock subject to such award not delivered as a result thereof are again made available for awards under the Plan.

p) Warrants The Company issued warrants to certain lead stockholders. The warrants are for a fixed number of shares and expire ten years from the date of issuance. If exercised, the Company must settle the warrants in its own stock. The exercise price and the number of warrants are subject to a down-round provision whereby subsequent equity issuances at a price below the existing exercise price will result in a downward adjustment to the exercise price and an increase to the number of warrants, and as a result, the warrants are classified as a liability in the Company's consolidated statements of financial condition. The Company is required to revalue the warrants at the end of each reporting period and any change in fair value is reported in the statements of operations as loss (gain) from change in fair value of warrant liability in non-interest expense in the period in which the change occurred. The fair value of the warrants is calculated using a Black-Scholes model.

Table of Contents

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

q) Income taxes The Company and its subsidiaries file U.S. federal and certain state income tax returns on a consolidated basis. Additionally, the Company and its subsidiaries file separate state income tax returns with various state jurisdictions. The provision for income taxes includes the income tax balances of the Company and all of its subsidiaries.

Deferred tax assets and liabilities are recognized for temporary differences between the financial reporting basis and the tax basis of the Company's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. Deferred tax assets and liabilities are adjusted for the effects of changes in tax rates in the period of change. The Company establishes a valuation allowance when management believes, based on the weight of available evidence, it is more likely than not that some portion of the deferred tax assets will not be realized.

The Company recognizes and measures income tax benefits based upon a two-step model: 1) a tax position must be more likely than not to be sustained based solely on its technical merits in order to be recognized; and 2) the benefit is measured as the largest dollar amount of that position that is more likely than not to be sustained upon settlement. The difference between the benefit recognized for a position in this model and the tax benefit claimed on a tax return is treated as an unrecognized tax benefit. The Company recognizes income tax related interest and penalties in income tax expense.

q) Earnings (loss) per share (EPS) Basic earnings (loss) per share are computed by dividing income allocated to common stockholders by the weighted average number of common shares outstanding during each period. Diluted earnings (loss) per common share are computed by dividing income allocated to common stockholders by the weighted average common shares outstanding during the period, plus amounts representing the dilutive effect of stock options outstanding, unvested restricted shares, warrants to issue common stock, or other contracts to issue common shares (common stock equivalents). Common stock equivalents are excluded from the computation of diluted earnings (loss) per common share in periods in which they have an anti-dilutive effect.

Note 3 Recent Accounting Pronouncements

Disclosure of Supplementary Pro Forma Information for Business Combinations In December 2010, the FASB issued ASU 2010-29, *Disclosure of Supplementary Pro Forma Information for Business Combinations* to provide guidance on the pro forma revenue and earnings information disclosed subsequent to a business combination. The guidance specifies that if a public entity presents comparative financial statements, pro forma revenue and earnings of the combined entity should be presented as though the business combination(s) that occurred during the current year had occurred as of the beginning of the comparable prior annual reporting period only. The guidance also expands the supplemental pro forma disclosures to include a description of the nature and amount of material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings. The new disclosure requirements are effective for business combinations that occur on or after December 15, 2010. As described in Note 1, the Company has omitted certain financial information of its acquisitions that is typically required under Rule 3-05 of Regulation S-X and the related pro forma financial information required by Article 11 of Regulation S-X pursuant to a request for relief submitted to, and not objected to by the SEC. The Company anticipates that it will request similar relief for any future acquisitions of troubled financial institutions for which historical financial information is not reasonably available and in which federal assistance is an essential and significant part of the transaction, or where the nature and magnitude of federal assistance is so pervasive as to substantially reduce the relevance of such information to an assessment of future operations. Adoption of this ASU affects disclosures only, and the Company does not expect that the adoption of the new guidance will have a material impact on its financial position, results of operations or liquidity.

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

Creditor's Determination of Whether a Restructuring is a Troubled Debt Restructuring In April, 2011, the FASB issued ASU 2011-02 *A Creditors Determination of Whether a Restructuring is a Troubled Debt Restructuring* to clarify existing guidance for determining if a creditor has granted a concession and whether a debtor is experiencing financial difficulties for purposes of determining whether a restructuring constitutes a troubled debt restructuring. The guidance further clarifies that, for loans accounted for in a pool in accordance with Accounting Standards Codification (ASC) Topic 310-30, *Loans and Debt Securities Acquired with Deteriorated Credit Quality*, neither the modification of a loan within a pool nor the changes in expected cash flows of a pool that result from the modification of one or more loans within the pool constitute a troubled debt restructuring. The Company implemented this guidance during 2011 and expects that the adoption of this guidance will increase the classification of loans not accounted for under ASC Topic 310-30 as troubled debt restructurings upon modification of loan terms.

Reconsideration of Effective Control for Repurchase Agreements In April, 2011, the FASB issued ASU No. 2011-03 *Reconsideration of Effective Control for Repurchase Agreements*. The amendments in this ASU remove from the assessment of effective control the criterion relating to the transferor's ability to repurchase or redeem financial assets on substantially the agreed terms, even in the event of default by the transferee. This guidance also eliminates the requirement to demonstrate that the transferor possesses adequate collateral to fund substantially all of the cost of purchasing replacement financial assets. The guidance in this ASU is effective for the first interim or annual period beginning on or after December 15, 2011. The guidance is to be applied prospectively to transactions or modifications of existing transactions that occur on or after the effective date and early adoption is not permitted. The Company will adopt the methodologies prescribed by this ASU by the date required, and does not anticipate that the ASU will have a material effect on its financial statements, results of operations or liquidity.

Fair Value Measurements In May 2011, the FASB issued ASU 2011-04, *Fair Value Measurement* to facilitate convergence between U.S. GAAP and International Financial Reporting Standards (IFRS) to achieve common fair value measurement and disclosure requirements. The amendments in the ASU provide common requirements for measuring fair value and for disclosing information about fair value measurements. They do not require additional fair value measurements and are not intended to establish valuation standards or affect valuation practices outside of financial reporting. The amendments provided in the ASU will be effective for the Company for interim and annual periods beginning after December 15, 2011. The Company does not expect that the adoption of ASU 2011-04 will have a material impact on its financial statements, results of operations or liquidity.

Presentation of Comprehensive Income In June 2011, the FASB issued ASU 2011-05, *Presentation of Comprehensive Income*. This guidance provides entities with an option of presenting the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. This guidance eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders equity. The Company is required to adopt this update retrospectively for the quarter ended March 31, 2012. Adoption of this update will affect the presentation of the components of comprehensive income in the Company's financial statements, but will not have an impact on the Company's consolidated statements of financial condition, results of operations or liquidity. ASU 2011-12 delayed the effective date of certain requirements of ASU 2011-05 related to the presentation of reclassifications of items out of accumulated other comprehensive income.

Goodwill Impairment Testing In September 2011, the FASB issued ASU 2011-08, *Testing for Goodwill Impairment*, which amends ASC Topic 350 to allow companies the option of performing a qualitative assessment

Table of Contents

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

before calculating the fair value of the reporting unit (i.e. step one of the goodwill impairment test). If the Company determines, on the basis of qualitative factors, that it is more likely than not that the fair value of the reporting unit is greater than its carrying amount, the two-step impairment test would not be required. The amendments are effective for interim and annual goodwill impairment tests performed for fiscal years beginning after December 15, 2011. However, early adoption is permitted. The Company will adopt the amended standard for the year ending December 31, 2012, as required. The Company does not expect this standard to have a material impact on its financial statements, results of operations or liquidity.

Note 4 Acquisition Activities

The Company completed two acquisitions in 2011 and two acquisitions in 2010. The Company has determined that each of the acquisitions, as more fully described below, constitutes a business combination as defined in ASC Topic 805, *Business Combinations*. Accordingly, as of the date of the acquisitions, the Company recorded the assets acquired and liabilities assumed at fair value. The Company determined fair values in accordance with the guidance provided in ASC Topic 820, *Fair Value Measurements and Disclosures*. Fair value is established by discounting the expected future cash flows with a market discount rate for like maturity and risk instruments. The estimation of expected future cash flows requires significant assumptions about appropriate discount rates, expected future cash flows, market conditions and other future events and actual results could differ materially. The determination of the initial fair values of covered loans and the related FDIC indemnification asset and clawback liability involve a high degree of judgment and complexity. The Company has made the determinations of fair value using the best information available at the time; however, the assumptions used are subject to change and, if changed, could have a material effect on the Company's financial position and results of operations.

Community Banks of Colorado On October 21, 2011, the Company entered into a purchase and assumption agreement with the FDIC, as receiver, to acquire certain assets and assume substantially all of the liabilities of the former Community Banks of Colorado of Greenwood Village, Colorado. Upon closing the acquisition, the Company reopened the 36 full-service banking centers in Colorado and the 4 full-service banking centers in California previously owned by Community Banks of Colorado, as branches of Bank Midwest, N.A., branded as Community Banks of Colorado.

Excluding the effects of acquisition accounting adjustments, the Company acquired assets of \$1.3 billion and assumed deposits and other liabilities of \$1.2 billion in connection with the acquisition of Community Banks of Colorado. The net assets were acquired at a discount of \$98.0 million, which is reflected as a portion of the cash acquired, and the settlement amount received from the FDIC at close was \$61.4 million. In conjunction with the Community Banks of Colorado purchase and assumption agreement, the Company also provided the FDIC with Value Appreciation Rights (VAR) whereby the FDIC is entitled to a payment equal to the excess of the Company's common stock price and a strike price of \$18.93 per unit at a future time, not to exceed two years. The VAR may be settled in cash or the Company's stock. The VAR is applicable to a maximum of 100,000 units and the Company has estimated the fair value of the VAR at the date of acquisition of Community Banks of Colorado to be approximately \$0.5 million, and is included in Due to FDIC in the accompanying consolidated statements of financial condition.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

The Company has determined that the Community Banks of Colorado acquisition constitutes a business combination as defined under ASC Topic 805. In accordance with that guidance, the Company recorded all assets acquired and liabilities assumed at their fair values as of the date of acquisition. Information regarding the fair value adjustments recorded by the Company in accordance with ASC Topic 805 is shown in the following table (in thousands):

	As Acquired from FDIC	Fair Value Adjustments	Settlement amount received from FDIC	As recorded by the Company
Assets acquired:				
Cash and cash equivalents	\$ 188,770	\$	\$ 61,390	\$ 250,160
Investment securities, available for sale	11,361			11,361
Non-marketable securities	2,753			2,753
Loans	966,248	(211,365)		754,883
FDIC indemnification asset		150,987		150,987
Other real estate owned	72,478	(42,729)		29,749
Premises and equipment	212			212
Goodwill		7,188		7,188
Core deposit intangible asset		4,810		4,810
Due from FDIC	9,936			9,936
Accrued interest and other assets	6,245			6,245
Total assets	\$ 1,258,003	\$ (91,109)	\$ 61,390	\$ 1,228,284
Liabilities assumed:				
Deposits	\$ 1,194,987	\$	\$	\$ 1,194,987
Federal Home Loan Bank advances	15,000	1,381		16,381
Accrued interest payable	553			553
Due to FDIC	630	15,347		15,977
Other liabilities	386			386
Total liabilities	\$ 1,211,556	\$ 16,728	\$	\$ 1,228,284

The fair value of loans and OREO acquired in the Community Banks of Colorado acquisition decreased \$7.1 and \$1.6 million during the measurement period from the original estimates. The change resulted in an increase to the indemnification asset of \$5.5 million, an increase in goodwill of \$2.7 million and a decrease to the clawback liability of \$0.5 million. These adjustments are reflected in the above table.

At the date of acquisition, the gross contractual amounts receivable for loans not subject to the requirements of ASC Topic 310-30 was \$144.7 million, the Company's best estimate of contractual cash flows not expected to be collected was \$27.0 million and recorded fair value was \$116.8 million.

In connection with the purchase and assumption agreement with the FDIC, the Company entered into a loss sharing agreement with the FDIC whereby the Company will be reimbursed by the FDIC for a portion of the losses incurred on certain loans and certain OREO as a result of the resolution and disposition of the problem assets of Community Banks of Colorado. The loss sharing agreement with the FDIC covers a significant portion of the Community Banks of Colorado commercial loans, select other loans and unfunded commitments, and OREO, which

Edgar Filing: Oak Valley Bancorp - Form 10-Q

are collectively referred to as the covered assets. However, the Company also acquired other assets of Community Banks of Colorado that are not covered by the loss sharing agreements, including \$250.2 million of cash and cash equivalents, \$11.4 million of investment securities, \$2.8 million of

F-67

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

non-marketable securities, \$288.2 million of non-covered loans and overdrafts, \$4.9 million of non-covered OREO, and other assets. The loss sharing agreement covers losses on select loans and OREO and has provisions that reimburse the Company for direct expenses related to the resolution of the covered assets. For purposes of the loss sharing agreement, there are three tranches of losses, each beginning after the loss threshold of the previous tranche has been met, and each with a specified loss-coverage percentage. The loss thresholds and coverage amounts are as follows (dollars in thousands):

Tranche	Loss Threshold	Loss-Coverage Percentage
1	Up to \$204,194	80%
2	204,195-308,020	30%
3	>308,020	80%

The FDIC's obligation to reimburse the Company for losses with respect to covered assets begins with the first dollar of loss incurred. The Company is also required to refund to the FDIC its share of recoveries under the loss sharing agreements. The term for the loss sharing agreement is eight years. The Company will share in losses and recoveries with the FDIC for the first five years. After the first five years, the FDIC will not share in losses but only in recoveries for the remaining three years. The reimbursable losses from the FDIC are based on the book value of the relevant covered assets as determined by the FDIC at the date of acquisition and may not directly correspond to the Company's carrying value of the related assets. The expected reimbursements from the FDIC under the loss sharing agreement were recorded as an indemnification asset at the estimated fair value of \$151.0 million at the date of acquisition.

Within 45 days of the end of the loss sharing agreement with the FDIC, the Company may be required to pay the FDIC in the event that losses do not reach a specified threshold, based on the initial discount received less cumulative servicing amounts for the covered assets acquired. The Company recorded \$14.8 million as the estimated fair value of this clawback liability at the acquisition date.

In connection with the Community Banks of Colorado transaction, the Company recognized approximately \$7.2 million of goodwill and a \$4.8 million core deposit intangible. The goodwill of \$7.2 million recorded at the date of acquisition represents the amount by which the fair value of the consideration paid exceeds the acquisition-date fair value of the identifiable net assets acquired and synergies expected to be realized through consolidating the operations of Community Banks of Colorado with the Company's existing operations.

Bank of Choice On July 22, 2011, the Company entered into a purchase and assumption agreement with the FDIC, as receiver, to acquire certain assets and assume substantially all of the liabilities of the former Bank of Choice of Greeley, Colorado through its Bank Midwest, N.A. subsidiary. Upon closing the acquisition, the Company reopened the 16 full-service banking centers previously owned by the Bank of Choice, as branches of Bank Midwest, N.A., branded as Bank of Choice. Excluding the effects of acquisition accounting adjustments, the Company acquired assets of \$772.6 million and assumed deposits and other liabilities of \$872.7 million in connection with the acquisition of Bank of Choice. The net liabilities were acquired at a discount of \$171.6 million, which is reflected as a portion of the cash acquired. In conjunction with the Bank of Choice purchase and assumption agreement, the Company also provided the FDIC with Value Appreciation Rights (VAR) whereby the FDIC is entitled to a cash or stock payment equal to the excess of the Company's common stock price and a strike price of \$17.95 per unit at a future time, not to exceed two years. The VAR is applicable to a maximum of 100,000 units and the Company estimated the fair value of the VAR at the date of acquisition of Bank of Choice to be approximately \$0.6 million, which is included in Due to FDIC in the accompanying consolidated statements of financial condition.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

The Company has determined that the Bank of Choice acquisition constitutes a business combination as defined in ASC Topic 805. Accordingly, as of the date of acquisition, the Company recorded the assets acquired and liabilities assumed at fair value. The Company determined initial fair values in accordance with the guidance provided in ASC Topic 820. Fair value was established by discounting the expected future cash flows with a market discount rate for like maturity and risk instruments. The estimation of expected future cash flows requires significant assumptions about appropriate discount rates, expected future cash flows, market conditions and other future events and actual results could differ materially. The determination of the fair values of loans involves a high degree of judgment and complexity and the Company has made the determinations of fair value using the best information available at the time.

A summary of the assets acquired and liabilities assumed in connection with the Bank of Choice acquisition and information regarding the fair value adjustments recorded by the Company in accordance with ASC Topic 805 *Business Combinations* are shown in the table below (in thousands):

	As acquired from FDIC	Fair Value Adjustments	Settlement amount received from FDIC	As recorded by the Company
Assets acquired:				
Cash and cash equivalents	\$ 128,265	\$	\$ 273,740	\$ 402,005
Investment securities, available for sale	134,369			134,369
Non-marketable securities	9,840			9,840
Loans*	447,738	(86,491)		361,247
Other real estate owned	49,833	(15,498)		34,335
Gain on bargain purchase*		(60,520)		(60,520)
Premises and equipment	21			21
Core deposit intangible asset		5,190		5,190
Other assets	2,496			2,496
Total assets	\$ 772,562	\$ (157,319)	\$ 273,740	\$ 888,983
Liabilities assumed:				
Deposits	\$ 760,227	\$	\$	\$ 760,227
Federal Home Loan Bank advances	106,840	10,308		117,148
Accrued interest payable	751			751
Due to FDIC		2,526		2,526
Other liabilities	4,881	3,450		8,331
Total liabilities	\$ 872,699	\$ 16,284	\$	\$ 888,983

* The fair value of loans acquired decreased by \$2.7 million during the measurement period from the original estimates. The change resulted in a decrease to the gain on bargain purchase of an identical amount. Both adjustments are reflected in the above table.

At the date of acquisition, the gross contractual amounts receivable for loans not subject to the requirement of ASC Topic 310-30 was \$50.2 million, the Company's best estimate of contractual cash flows not expected to be collected was \$7.0 million and recorded fair value was \$43.5

million.

In connection with the Bank of Choice transaction, the Company recognized a \$5.2 million core deposit intangible and a bargain purchase gain of \$60.5 million. The bargain purchase gain of \$60.5 million recorded at the date of acquisition represents the amount by which the acquisition-date fair value of the identifiable net assets

F-69

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

acquired (inclusive of the \$171.6 million purchase discount from the FDIC) exceeds the fair value of the consideration transferred.

Bank Midwest, N.A. In July 2010, the Company agreed to acquire, and on December 10, 2010 completed the acquisition of, certain assets and the assumption of certain liabilities formerly held by Bank Midwest, one of six banking subsidiaries owned by DFC. In this transaction, the Company acquired 40 locations across Missouri and eastern Kansas, \$2.4 billion of deposits and approximately \$905.4 million of loans. The Company had specific performance criteria for the assets purchased and, as a result, did not acquire any non-accrual loans or OREO in connection with the Bank Midwest transaction.

The Company paid \$56.0 million cash for the Bank Midwest net assets. The fair value of consideration paid exceeded the fair value of the Bank Midwest net assets acquired and resulted in the establishment of goodwill in the amount of \$52.4 million, which will be tax deductible. In conjunction with the purchase and assumption of the Bank Midwest net assets, the Company infused \$390 million of capital into Bank Midwest at the time of closing. Information regarding the assets acquired and liabilities assumed on December 10, 2010 in connection with the Bank Midwest acquisition are shown in the table below (in thousands):

	As Acquired from DFC	Fair Value Adjustments	Settlement amount paid to DFC	As recorded by the Company
Assets acquired:				
Cash and cash equivalents	\$ 1,425,737	\$	\$ (56,000)	\$ 1,369,737
Investment securities, available for sale	55,360			55,360
Non-marketable securities	400			400
Loans	905,354	(22,739)		882,615
Premises and equipment	30,662	5,562		36,224
Goodwill		52,442		52,442

Other assets	3,520			3,520
Total assets	\$ 2,425,491	\$ 56,915	\$ (56,000)	\$ 2,426,406
Liabilities assumed:				
Deposits	\$ 2,384,982	\$ 915	\$	\$ 2,385,897
Accrued interest payable	11,089			11,089
Other liabilities	29,420			29,420
Total liabilities	\$ 2,425,491	\$ 915	\$	\$ 2,426,406

Hillcrest Bank, N.A. On October 22, 2010, the Company entered into a purchase and assumption agreement with the FDIC, as receiver, to acquire certain assets and assume substantially all of the liabilities of the former Hillcrest Bank of Overland Park, Kansas.

Prior to the acquisition, Hillcrest Bank was a bank headquartered in Overland Park, Kansas, which operated nine full-service banking branches and 32 retirement center branches in four states. Excluding the effects of acquisition accounting adjustments, the Company purchased assets of \$1.6 billion and assumed deposits and liabilities of \$1.3 billion in connection with the acquisition of Hillcrest Bank. The net assets were acquired at a discount of \$182.7 million, which is reflected as a portion of the cash acquired, and the settlement amount paid to the FDIC at close was \$56.3 million. In conjunction with the Hillcrest Bank purchase and assumption agreement,

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

the Company also provided the FDIC with VAR whereby the FDIC is entitled to a cash payment equal to the excess of the Company's common stock price and a strike price of \$18.65 per unit at a future time, not to exceed two years. The VAR is applicable to a maximum of 100,000 units and the Company has estimated the fair value of the VAR at the date of acquisition of Hillcrest Bank and at December 31, 2010 to be approximately \$0.7 million, which is included in due to FDIC in the Company's December 31, 2010 consolidated statements of financial condition. Any future changes to the value of the VAR will be included in other non-interest expense. The Company infused \$170 million of capital into Hillcrest Bank immediately following the closing of the transaction.

A summary of the assets acquired and liabilities assumed in connection with the Hillcrest Bank acquisition are shown in the table below (in thousands):

	As Acquired from FDIC	Fair Value Adjustments	Settlement amount paid to FDIC	As recorded by the Company
Assets acquired:				
Cash and cash equivalents	\$ 190,344	\$	\$ (56,343)	\$ 134,001
Investment securities, available for sale	235,255			235,255
Non-marketable securities	4,042			4,042
Loans	1,016,394	(235,052)		781,342
FDIC indemnification asset		159,706		159,706
Other real estate owned, covered by loss share agreement	111,332	(59,732)		51,600
Gain on bargain purchase		(37,778)		(37,778)
Intangible assets		5,760		5,760
Premises and equipment	157			157
Other assets	4,882			4,882
Total assets	\$ 1,562,406	\$ (167,096)	\$ (56,343)	\$ 1,338,967
Liabilities assumed:				
Deposits	\$ 1,234,013	\$	\$	\$ 1,234,013
Federal Home Loan Bank advances	80,460	3,434		83,894
Accrued interest payable	7,279			7,279
Due to FDIC		11,454		11,454
Other liabilities	1,575	752		2,327
Total liabilities	\$ 1,323,327	\$ 15,640	\$	\$ 1,338,967

In connection with the purchase and assumption agreement of Hillcrest Bank with the FDIC, the Company entered into loss sharing agreements with the FDIC whereby the Company will be reimbursed by the FDIC for a portion of the losses incurred as a result of the resolution and disposition of the problem assets of Hillcrest Bank. The loss sharing agreements with the FDIC cover substantially all of Hillcrest Bank's loans including single family residential mortgage loans, commercial real estate, commercial and industrial loans, unfunded commitments, and OREO, which are collectively referred to as the covered assets. However, the Company also acquired other assets of the failed bank that are not covered by the loss sharing agreements including \$190.3 million of cash and cash equivalents, \$239.3 million of investment securities purchased at fair value, \$3.1 million of consumer loans and overdrafts, and other tangible assets. For purposes of the loss sharing agreements, the anticipated losses on the covered assets are grouped into two categories, commercial assets and single family assets, and each category has

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

its own specific loss sharing agreement. The loss sharing agreement categories cover losses on both loans and OREO in their respective categories and have provisions that reimburse the Company for direct expenses related to the resolution of these assets. Within the categories, there are three tranches of losses, each beginning after the loss threshold of the previous tranche has been met, and each with a specified loss-coverage percentage. The categories, and the respective loss thresholds and coverage amounts are as follows (in thousands):

Tranche	Commercial		Tranche	Single family	
	Loss Threshold	Loss-Coverage Percentage		Loss Threshold	Loss-Coverage Percentage
1	\$ 295,592	60%	1	\$ 4,618	60%
2	405,293	0%	2	8,191	30%
3	>405,293	80%	3	>8,191	80%

The FDIC's obligation to reimburse the Company for losses with respect to covered assets begins with the first dollar of loss incurred. The term for loss sharing on single family residential real estate loans is ten years, while the term for loss sharing on all other covered loans is five years. The reimbursable losses from the FDIC are based on the book value of the relevant covered assets as determined by the FDIC at the date of acquisition. New loans originated after that date are not covered by the provisions of the loss sharing agreements. The Company will refund the FDIC for its share of recoveries with respect to losses for which the FDIC paid the Company under the loss sharing agreement.

The expected reimbursements from the FDIC under the loss sharing agreements were recorded as an indemnification asset at its estimated fair value of \$159.7 million on the acquisition date. The indemnification asset reflects the present value of the expected net cash reimbursement related to the loss sharing agreement described above.

Within 45 days of the end of the loss sharing agreements with the FDIC, the Company may be required to pay the FDIC in the event that losses do not reach a specified threshold, based on the initial discount received less cumulative servicing amounts for the covered assets acquired. The Company recorded \$11.5 million as the estimated fair value of this clawback liability at the acquisition date, which is included in due to FDIC in the accompanying December 31, 2010 consolidated statements of financial condition.

The Company believes that the FDIC loss sharing agreement mitigates the Company's risk of loss on assets acquired. Nonetheless, to the extent, the actual values realized for the acquired assets are different from the estimates, the FDIC indemnification asset will generally be impacted in an offsetting manner due to the loss sharing support from the FDIC. Additionally, the tax treatment of FDIC assisted acquisitions is complex and subject to interpretations that may result in future adjustments of deferred taxes as of the acquisition date.

In connection with the Hillcrest Bank transaction, the Company recognized approximately \$37.8 million of bargain purchase gain and a \$5.8 million core deposit intangible. The amount of bargain purchase gain recorded represents the excess of the fair value of the assets acquired (inclusive of the \$182.7 million purchase discount from the FDIC) compared to the fair value of liabilities assumed (inclusive of the settlement amount paid to the FDIC of \$56.3 million) at the date of acquisition. The Company incurred \$6.4 million and \$4.3 million of transaction expenses related to the acquisition of Bank Midwest and Hillcrest Bank, respectively, during the year ended December 31, 2010. See Note 18 for additional details regarding acquisition-related costs.

At December 31, 2011 and 2010, mortgage-backed securities represented nearly 100% of the Company's available-for-sale investment portfolio and all mortgage-backed securities were backed by government sponsored enterprises (GSE) collateral such as Federal Home Loan Mortgage Corporation (FHLMC), Government National Mortgage Association (GNMA) and Federal National Mortgage Association (FNMA).

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

At December 31, 2011 and 2010, the Company had \$20 thousand and \$222.4 million of available-for-sale securities that were temporarily impaired by \$1 thousand and \$3.9 million, respectively. Management evaluated all of the securities in an unrealized loss position and concluded that no other than temporary impairment (OTTI) existed at December 31, 2011 or 2010. The Company purchased all of the securities in the fourth quarter of 2010 and throughout the year of 2011. All of the securities in unrealized loss positions had been in continuous unrealized loss positions for less than twelve months at the respective reporting dates. The Company had no intention to sell these securities and believed it will not be required to sell the securities before the recovery of their amortized cost. The table below summarizes the unrealized losses as of the dates shown (in thousands):

	December 31, 2011		December 31, 2010	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
Mortgage-backed securities (MBS):				
Residential mortgage pass-through securities issued or guaranteed by U.S. Government agencies or sponsored agencies	\$ 20	\$ (1)	\$ 79,914	\$ (2,035)
Other residential MBS issued or guaranteed by U.S. Government agencies or sponsored agencies			142,440	(1,907)
Total	\$ 20	\$ (1)	\$ 222,354	\$ (3,942)

The Company pledges certain securities as collateral for public deposits, securities sold under agreements to repurchase, treasury tax and loan agreements, and to secure borrowing capacity at the Federal Reserve Bank, if needed. The carrying value of securities pledged as collateral totaled \$198.6 million and \$119.3 million at December 31, 2011 and 2010, respectively. Investment securities may also be pledged as collateral should the Company utilize its line of credit at the FHLB of Des Moines; however, no investment securities were pledged for this purpose at December 31, 2011 or 2010.

During 2011, the Company sold approximately \$229.5 million of investment securities. The sales were comprised of \$33.4 million of fixed rate MBS pass-through securities and \$153.9 million of fixed-rate residential collateralized mortgage obligations and \$42.2 million of U.S. Treasury securities. The Company realized gross losses of \$0.8 million offset by realized gross gains of \$0.2 million on the sale of these securities during 2011, which is included in gain (loss) on sale of securities in the accompanying consolidated statements of operations.

During 2010, the Company sold \$52.0 million of fixed-rate collateralized mortgage obligations and realized an \$11 thousand gain on the sale, which is included in gain on sale of securities in the accompanying consolidated statements of operations for the year ended December 31, 2010.

The table below summarizes the contractual maturities of our available-for-sale investment portfolio (in thousands):

	Amortized Cost	Fair Value
Due in one year or less	\$ 3,300	\$ 3,300
Due after one year through five years	3,014	3,014
Due after five years through ten years	22,818	23,370

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

Actual maturities of mortgage-backed securities may differ from scheduled maturities depending on the repayment characteristics and experience of the underlying financial instruments. The estimated weighted average life of the mortgage-backed securities portfolio as of December 31, 2011 was 3.4 years. This estimate is based on assumptions and actual results may differ.

The Company's U.S. Treasury securities have contractual maturities of less than one year. Other securities of \$0.4 million have no stated contractual maturity date.

Held-to-maturity

At December 31, 2011 the Company held \$6.8 million of held-to-maturity investment securities, of which \$3.2 million were purchased by the Company under the classification of available-for-sale and transferred to the held-to-maturity classification and \$3.6 million were purchased under the classification of held-to-maturity. None of the held-to-maturity securities were pledged as of the year ended 2011. The Company did not own held-to-maturity investment securities during 2010. Held-to-maturity investment securities are summarized as follows as of December 31, 2011 (in thousands):

	December 31, 2011			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Residential mortgage pass-through securities issued or guaranteed by U.S. Government agencies or sponsored agencies	\$ 6,801	\$ 28	\$	\$ 6,829
Total	\$ 6,801	\$ 28	\$	\$ 6,829

The table below summarizes the contractual maturities of our held-to-maturity investment portfolio at December 31, 2011 (in thousands):

	Amortized Cost	Fair Value
Due in one year or less	\$	\$
Due after one year through five years		
Due after five years through ten years		
Due after ten years	6,801	6,829
Total	\$ 6,801	\$ 6,829

Note 6 Non-marketable Securities

Non-marketable securities include Federal Reserve Bank stock and FHLB stock. At December 31, 2011 the Company held \$25.0 million of Federal Reserve Bank stock, \$3.5 million of FHLB Des Moines stock, and \$0.6 million of FHLB San Francisco stock, for regulatory or debt facility purposes. At December 31, 2010, the Company held \$16.8 million of Federal Reserve Bank stock and \$1.0 million of FHLB Des Moines stock.

This stock is restricted and is carried at cost, less any other than temporary impairment. There have been no identified events or changes in circumstances that may have an adverse effect on the investments carried at cost.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009****Note 7 Loans**

The loan portfolio is comprised primarily of loans that were acquired in connection with the Company's acquisitions of Bank of Choice and Community Banks of Colorado in 2011, Hillcrest Bank and Bank Midwest in 2010, and new loans originated by the Company. The majority of the loans acquired in the Hillcrest Bank and Community Banks of Colorado transactions are covered by loss sharing agreements with the FDIC, and covered loans are presented separately from non-covered loans due to the FDIC loss sharing agreements associated with these loans.

Covered loans comprised 41.9% of the total loan portfolio at December 31, 2011, compared to 44.8% at December 31, 2010. The table below shows the loan portfolio composition and the amounts of loans that showed signs of deteriorated credit quality at the date of acquisition, and therefore, are accounted for in accordance with ASC Topic 310-30 (dollars in thousands):

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

Loans are considered past due or delinquent when the contractual principal or interest due in accordance with the terms of the loan agreement remains unpaid after the due date of the scheduled payment. Loans accounted for under ASC Topic 310-30 were not classified as non-performing assets at December 31, 2011 or 2010 as the carrying value of the respective loan or pool of loans cash flows were considered estimatable and probable of collection. Therefore, interest income, through accretion of the difference between the carrying value of the loans and the expected cash flows, was being recognized on all acquired loans accounted for under ASC Topic 310-30.

TDRs at December 31, 2011 and 2010 were \$1.4 million and \$0.0 million, respectively. At December 31, 2011, \$13.1 million of covered loans accounted for outside the scope of ASC Topic 310-30 were on non-accrual. The Company had no non-accrual loans as of December 31, 2010.

F-78

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

Loan delinquency for covered loans is shown in the following table at December 31, 2011 and 2010, respectively. Pooled loans accounted for under ASC Topic 310-30 that are 90 days or more past due and still accruing are included in loans 90 days or more past due and still accruing interest and are considered to be performing (in thousands):

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

The Company's strategy is primarily to lend to small and mid-sized businesses and consumers in the markets in which the Company operates. Within these areas, the Company diversifies its loan portfolio by loan type, industry, and borrower.

It is the Company's policy to review each prospective credit in order to determine the appropriateness and the adequacy of security or collateral prior to making a loan. In the event of borrower default, the Company seeks recovery in compliance with state lending laws, the respective loan agreements, and credit monitoring and remediation procedures that may include restructuring a loan to provide a concession by the Company to the borrower from their original terms due to borrower financial difficulties in order to facilitate repayment. At December 31, 2011 and 2010, respectively, the Company had \$11.0 million and \$0.0 million of troubled debt restructurings (TDR s) that had been restructured from the original terms in order to facilitate repayment.

Loans are considered to be impaired when it is probable that the Company will not be able to collect all amounts due in accordance with the contractual terms of the loan agreement. Included in impaired loans are loans on non-accrual status and TDR s. If a specific allowance is warranted based on the borrower's overall financial condition, the specific allowance is calculated based on discounted cash flows using the loan's initial contractual effective interest rate or the fair value of the collateral less selling costs for collateral dependent loans. Inclusive of the TDR s described above, the Company had \$35.9 million and \$0.0 million of impaired non-covered loans as of December 31, 2011 and 2010. At December 31, 2011, the Company had \$24.6 million of non-covered, non-accrual loans. The Company did not have any non-accrual loans as of December 31, 2010.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

The following tables reflect the carrying value and loan delinquency of non-covered loans at December 31, 2011 and 2010 (in thousands). Pooled loans accounted for under ASC Topic 310-30 that are 90 days or more past due and still accruing are included in loans 90 days or more past due and still accruing interest and are considered to be performing.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009***Impaired loans*

At December 31, 2011, the Company's unpaid principal balance and recorded investment of impaired loans was \$74.7 million and \$50.1 million, respectively. Of these impaired loans, 26 were within the commercial real estate segment, with an unpaid principal balance of \$58.2 million and a recorded investment of \$41.1 million. Twenty-one of these commercial real estate loans, with a recorded investment of \$32.9 million and an unpaid principal balance of \$34.9 million were not covered by the FDIC loss sharing agreement, compared to five loans with a recorded investment of \$8.2 million and an unpaid principal balance of \$23.3 million that were covered by the FDIC loss sharing agreement. The commercial loan segment had a total of 20 loans, ten of which were not covered by the FDIC loss sharing agreement with an unpaid principal balance and recorded investment of \$.8 million and \$.8 million, respectively. The 10 commercial loans that were covered by the FDIC loss sharing agreement had an unpaid principal balance and recorded investment of \$11.9 million and \$4.6 million, respectively. The residential real estate loan segment held 43 impaired loans, with an unpaid principal balance of \$3.9 million and a recorded investment of \$3.6 million. Of these 43 loans, three were covered by the FDIC loss sharing agreement with an unpaid principal balance and recorded investment of \$1.7 million and \$1.7 million respectively, leaving 40 loans not covered by the FDIC loss sharing agreement, with an unpaid principal balance of \$2.2 million and a recorded investment of \$1.9 million.

These loans had a collective related allowance for loan losses allocated to them of \$0.8 million at December 31, 2011. The table below shows additional information regarding impaired loans at December 31, 2011 (in thousands):

Troubled debt restructurings

At December 31, 2011, the Company had ten accruing loans that it restructured during 2011. Loan modifications to loans accounted for under ASC Topic 310-30 are not considered troubled debt restructurings (TDR s). The table below provides additional information related to troubled debt restructurings made during and as of the year ended December 31, 2011 (in thousands):

Loans accounted for under ASC Topic 310-30

Loan pools accounted for under ASC Topic 310-30 are periodically remeasured to determine expected future cash flows. In determining the expected cash flows, prepayment assumptions on smaller homogeneous loans are based on statistical models that take into account factors such as the loan interest rate, credit profile of the borrowers, the years in which the loans were originated, and whether the loans were fixed or variable rate loans. Prepayments may be assumed on large loans if circumstances specific to that loan warrant a prepayment assumption. No prepayments were presumed for small homogeneous commercial loans; however, prepayment assumptions are made that consider similar prepayment factors listed above for smaller homogeneous loans. The re-measurement of loans accounted for under ASC Topic 310-30 resulted in the following changes in the carrying amount of accretable yield during the year ended December 31, 2011 (in thousands):

Balance at December 31, 2010	\$ 74,329
Additions through acquisitions	130,321
Reclassification from non-accretable difference	45,871
Reclassification to non-accretable difference	(409)
Accretion	(63,618)
Balance at December 31, 2011	\$ 186,494

Below is the composition of the net book value for loans accounted for under ASC Topic 310-30 at December 31, 2011 and 2010 (in thousands):

	December 31, 2011	December 31, 2010
Contractual cash flows	\$ 2,030,374	\$ 957,525
Non-accretable difference	(536,171)	(246,232)
Accretable yield	(186,494)	(74,329)
Loans accounted for under ASC Topic 310-30	\$ 1,307,709	\$ 636,964

Edgar Filing: Oak Valley Bancorp - Form 10-Q

The outstanding balance of loans acquired during 2011 and accounted for under ASC Topic 310-30, including contractual principal, interest, fees, and penalties, as of the dates of acquisition was \$537.8 million for covered loans and \$764.0 million for non-covered loans.

F-91

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009****Note 8 Allowance for Loan Losses**

The table below details the Company's allowance for loan losses (ALL) and recorded investment in loans as of and for the year ended December 31, 2011 (in thousands):

	Commercial and industrial	Commercial real estate	Agriculture	Residential real estate	Consumer and overdrafts	Total
Beginning balance	\$	\$	\$	\$	\$ 48	\$ 48

310-30 ending balance	1,362		128	698		2,188
Ending balance	2,959	3,389	282	4,121	776	11,527
Ending allowance balance attributable to:						
Non-310-30 loans individually evaluated for impairment		608		174		782
Non-310-30 loans collectively evaluated for allowance	1,597	2,781	154	3,249	776	8,557
310-30 loans acquired with deteriorated credit quality	1,362		128	698		2,188
Total ending allowance balance	\$ 2,959	\$ 3,389	\$ 282	\$ 4,121	\$ 776	\$ 11,527
Loans:						
Non-310-30 individually evaluated for impairment	5,374	41,193	29	3,500	1	\$ 50,097
Non-310-30 collectively evaluated for allowance	212,967	241,899	80,546	351,103	29,730	916,245
310-30 loans acquired with deteriorated credit quality	154,590	869,386	70,828	168,282	44,623	1,307,709
Total loans	\$ 372,931	\$ 1,152,478	\$ 151,403	\$ 522,885	\$ 74,354	\$ 2,274,051

During 2011, the Company reestimated the expected cash flows of the 30 loan pools accounted for under ASC Topic 310-30 utilizing the same cash flow methodology used at the time of acquisition. The re-yielding resulted in a \$4.2 million impairment of a commercial and industrial loan pool from the Hillcrest Bank acquisition, a \$0.1 million impairment of an agricultural loan pool and a \$0.7 million impairment in a single family residential loan pool, both of which were from the Bank of Choice acquisition.

In evaluating the loan portfolio for an appropriate ALL level, unimpaired loans were grouped into segments based on broad characteristics such as primary use and underlying collateral. Within the segments, the portfolio was further disaggregated into classes of loans with similar

Edgar Filing: Oak Valley Bancorp - Form 10-Q

attributes and risk characteristics for purposes of applying loss ratios and determining applicable subjective adjustments to the ALL. The application of subjective adjustments was based upon qualitative risk factors, including economic trends and conditions, industry conditions, asset quality, loss trends, lending management, portfolio growth and loan review/internal audit results. The Company recorded \$15.0 million of provision for loan losses for loans not accounted for under ASC Topic 310-30 primarily attributable to deterioration in credit quality since the date of acquisition and new loan originations.

F-92

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

The Company charged off \$6.4 million of non-ASC Topic 310-30 loans during 2011, \$3.4 million of which was a result of a large anchor tenant vacating several commercial properties and declaring bankruptcy and \$1.4 million of commercial and industrial loans primarily as a result of a heavy equipment loan. The Company also charged-off \$3.1 million of commercial and industrial loans accounted for under ASC Topic 310-30 as a result of decreased estimated cash flows.

During 2010, the Company did not have any charge-offs or recoveries. As of December 31, 2010, the Company did not have any impaired or non-accrual loans or specific reserves for loan losses; however, the Company did have a \$48 thousand ALL for general reserves.

Note 9 FDIC Indemnification Asset

Under the terms of the purchase and assumption agreement with the FDIC with regard to the Hillcrest Bank and Community Banks of Colorado acquisitions, the Company is reimbursed for a portion of the losses incurred on covered assets. FDIC indemnification assets of \$159.7 million and \$151.0 million were established at the respective dates of the Hillcrest Bank and Community Banks of Colorado acquisitions as the estimated fair value of the expected reimbursements from the FDIC for losses on covered loans and OREO. As covered assets are resolved, whether it be through repayment, short sale of the underlying collateral, the foreclosure on, and sale of collateral, or the sale or charge-off of loans or OREO, any difference between the carrying value of the covered asset and the payments received that is reimbursable by the FDIC is recognized in the consolidated statements of operations as FDIC loss sharing income. Any gains or losses realized from the resolution of covered assets reduce or increase, respectively, the amount recoverable from the FDIC.

Below is a summary of the activity related to the FDIC indemnification asset during 2011 and 2010 (in thousands):

	2011	2010
Balance at December 31, 2010	\$ 161,395	\$
Additions through acquisitions	150,987	159,706
Accretion	(6,132)	1,689
Reduction for claims filed	(82,848)	
Balance at December 31, 2011	\$ 223,402	\$ 161,395

During 2011, the Company received \$89.1 million from the FDIC for reimbursement of losses that occurred from the date of acquisition of Hillcrest Bank through September 30, 2011, in accordance with the loss sharing agreements. Included in the \$89.1 million received from the FDIC were reimbursements of expenses incurred for the resolution of covered assets netted with recoveries received on covered and non-covered assets that were not included in the expected cash flows of the indemnification assets. During March 2012, a claim was submitted to the FDIC for \$26.5 million for the reimbursable portion of losses incurred at Community Banks of Colorado since the acquisition on October 21, 2011 through December 31, 2011. During January, 2012, the Company also submitted a claim for \$6.6 million for the reimbursable portion of losses related to the Hillcrest Bank covered assets incurred during the fourth quarter of 2011. The loss claims filed are subject to review and approval, including extensive audits, by the FDIC or its assigned agents for compliance with the terms in the loss sharing agreements.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009****Note 10 Premises and Equipment**

Premises and equipment consisted of the following at December 31, 2011, 2010 and 2009:

	2011	2010	2009
Land	\$ 25,186	\$ 14,549	\$
Buildings and improvements	48,933	21,598	
Equipment	15,960	1,264	80
Total	90,079	37,411	80
Less accumulated depreciation and amortizations	(2,764)	(91)	
Premises and equipment, net	\$ 87,315	\$ 37,320	\$ 80

Premises and equipment increased \$50.0 million during 2011 primarily due to the purchase of bank branches from the FDIC and capitalized costs related to the implementation of a new core banking system. Depreciation expense of \$2.8 million and \$91 thousand were included in occupancy and equipment expense in 2011 and 2010, respectively.

The Company committed to purchase 15 Bank of Choice branch assets and certain equipment of the failed institution from the FDIC for \$30.6 million, which is included in premises and equipment, net, and the payable to the FDIC is included in Due to FDIC in the accompanying statements of financial condition at December 31, 2011. The purchase was settled in March 2012. In addition, two branches of Bank of Choice are currently leased. In connection with the Community Banks of Colorado transaction, the Company had the option to purchase the banking center assets and certain equipment of the failed bank from the FDIC for 90 days after the transaction date. During the first quarter of 2012, the Company notified the FDIC of its intent to purchase 26 of the branch premises for a total purchase price of \$24.4 million. The Company also assumed the leases of 14 branch premises.

Note 11 Other Real Estate Owned

At December 31, 2011, the Company had \$120.7 million of OREO of which \$77.1 million, or 63.9%, was covered by the loss sharing with the FDIC. At December 31, 2010, all of the \$54.1 million of OREO was covered by loss sharing agreements with the FDIC. Any losses on these assets are substantially offset by a corresponding change in the FDIC indemnification asset. During 2011, the Company sold \$51.7 million of OREO and realized net gains on sales of OREO of \$3.1 million. Changes in OREO during 2011 were as follows (in thousands):

	2011	2010
Beginning balance	\$ 54,078	\$
Purchases through acquisition, at fair value	64,084	51,600
Transfers from loan portfolio, at fair value	52,294	11,584
Impairments	(1,138)	
Sales	(48,682)	(9,106)
Ending balance	\$ 120,636	\$ 54,078

Note 12 Goodwill and Intangible Assets

Edgar Filing: Oak Valley Bancorp - Form 10-Q

In connection with the Hillcrest Bank, Bank Midwest, Bank of Choice, and Community Banks of Colorado transactions, the Company recorded core deposit intangible assets of \$5.8 million, \$21.7 million, \$5.2 million, and \$4.8 million, respectively. The Company is amortizing the core deposit intangibles on a straight line basis over 7 years from the date of the respective acquisitions, which represents the expected useful life of the assets. This will

F-94

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

result in approximately \$5.3 million of core deposit intangible amortization expense each year through 2017 and \$1.0 million in 2018. The Company recognized \$4.4 million of core deposit intangible amortization expense during 2011, which also totaled the accumulated core deposit intangible amortization at December 31, 2011.

The Company had goodwill of \$59.6 million and \$52.4 million at December 31, 2011 and 2010, respectively. During 2011, the Company recorded goodwill of \$7.2 million in connection with the Community Banks of Colorado acquisition. The goodwill is measured as the excess of the fair value of consideration paid over the fair value of assets acquired. There was no goodwill impairment recorded during 2011 or 2010.

Note 13 Deposits

In connection with the acquisitions of Bank of Choice and Community Banks of Colorado, the Company assumed \$760.2 million and \$1.2 billion of deposits, respectively. As of December 31, 2011 and 2010, deposits totaled \$5.1 billion and \$3.5 billion, respectively. The following table summarizes the Company's time deposits, based upon contractual maturity, at December 31, 2011, and 2010, by remaining maturity (in thousands):

	December 31, 2011	December 31, 2010
Three months or less	\$ 746,835	\$ 564,525
Over 3 months through 6 months	554,740	475,077
Over 6 months through 12 months	1,014,949	732,069
Over 12 months through 24 months	309,848	362,784
Over 24 months through 36 months	52,879	78,764
Over 36 months through 48 months	54,678	14,801
Over 48 months through 60 months	43,550	30,029
Thereafter	7,117	5,968
Total	\$ 2,784,596	\$ 2,264,017

In connection with the Company's FDIC-assisted transactions, the FDIC provided Hillcrest Bank, Bank of Choice, and Community Banks of Colorado depositors with the right to cash in their time deposits at any time during the life of the time deposit, without penalty, unless the depositor accepts new terms. At December 31, 2011 and 2010, the Company had approximately \$1.1 billion and \$727.1 million, respectively, of time deposits that were subject to penalty-free withdrawals.

The Company incurred interest expense on deposits as follows during the years indicated (in thousands):

	2011	2010
Demand deposits:		
Non-interest bearing	\$	\$
Interest bearing	1,091	50
Money market accounts	4,540	414
Savings accounts	355	32
Time deposits	35,588	4,987

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Total	\$ 41,574	\$ 5,483
-------	-----------	----------

F-95

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009****Note 14 Securities Sold Under Agreements to Repurchase**

The following table sets forth selected information regarding repurchase agreements during the years ended December 31, 2011 and 2010:

	2011	2010
Maximum amount of outstanding agreements at any month end during the period	\$ 47,597	\$ 23,787
Average amount outstanding during the period	\$ 31,727	\$ 28,739
Weighted average interest rate for the period	0.31%	0.33%

As of December 31, 2011 and 2010, the Company had pledged mortgage-backed securities and U.S. Treasury securities with a fair value of approximately \$71.2 million and \$42.7 million, respectively, for securities sold under agreements to repurchase. Additionally, there was \$20.3 million and \$16.5 million of excess collateral pledged for repurchase agreements at December 31, 2011 and 2010, respectively.

The vast majority of the Company's repurchase agreements are overnight transactions that mature the day after the transaction. At December 31, 2011 and 2010, the overnight agreements had an average interest rate of 0.31% and 0.25%, respectively. At December 31, 2011 and 2010, \$0.5 million and \$235 thousand of the Company's repurchase agreements were for periods longer than one day.

The Company does not have any borrowings, unused lines of credit, or short-term financing agreements.

Note 15 Regulatory Capital

NBH Bank is subject to the regulatory capital adequacy requirements of the Federal Reserve Board, the FDIC, and the OCC, as applicable. Failure to meet the minimum capital requirements can initiate certain mandatory and possibly further discretionary actions by regulators that could have a material adverse effect on the Company's consolidated financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, banks must meet specific capital requirements that involve quantitative measures of assets, liabilities, and certain off-balance sheet items as calculated under regulatory accounting practices. Capital amounts and classifications are subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Typically, mature banks are required to maintain a Tier 1 risk-based capital ratio of 4.00%, a total risk-based capital ratio of 8.00% and a Tier 1 leverage ratio of 4.00% in order to meet minimum, adequately capitalized regulatory requirements. To be considered well-capitalized (under prompt corrective action provisions), banks must maintain minimum capital ratios of 6.00% for Tier 1 risk-based capital, 10.00% for total risk-based capital and 5.00% for the Tier 1 leverage ratio. However, in connection with the approval of the de novo charter for Hillcrest Bank and Bank Midwest, the Company has agreed with its regulators to maintain capital levels of at least 10% Tier 1 leverage ratio, 11% Tier 1 risk-based capital ratio and 12% Tier 1 risk-based capital ratio at each of the Banks through the fourth quarter of 2013. In conjunction with the consummation of the Hillcrest Bank and Bank Midwest transactions in 2010, the Company contributed \$170 million of capital into Hillcrest Bank and \$390 million of capital into Bank Midwest to provide each of the Banks with sufficient capital to meet and exceed the above-mentioned agreed-upon capital ratios. During 2011, the Company contributed \$274.0 million of additional capital to Bank Midwest to facilitate the acquisitions of Bank of Choice and Community Banks of Colorado.

In November 2011, the Company merged Hillcrest Bank, N.A. into Bank Midwest N.A. The merger did not impact the loss sharing agreements that the Company has with respect to the Hillcrest Bank acquisition. Upon consummation of the merger, the capital of Bank Midwest and Hillcrest Bank were combined for regulatory

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

capital purposes and Bank Midwest (now NBH Bank, N.A.) remains subject to the capital plans submitted to the OCC at its inception that specifically restrict the ability of NBH Bank to declare dividends until the fourth quarter of 2013.

At December 31, 2011 and 2010, as applicable, our subsidiary banks and our consolidated holding company exceeded all capital ratio requirements under prompt corrective action and other regulatory requirements, as is detailed in the table below (dollars in thousands):

	Actual		December 31, 2011 Required to be considered well capitalized		Required to be considered adequately capitalized	
	Ratio	Amount	Ratio	Amount	Ratio	Amount
	Tier 1 leverage ratio					
Consolidated	15.1%	\$ 949,154	N/A	N/A	4%	\$ 251,514

Tier 1 risk-based capital ratio (3)						
Consolidated	49.9%	\$ 949,154	6%	\$ 114,077	4%	\$ 76,051
NBH Bank, N.A. (1)(2)	44.2%	828,321	11%	206,258	4%	75,003
Total risk-based capital ratio (3)						
Consolidated	50.5%	\$ 960,681	10%	190,129	8%	\$ 152,103
NBH Bank, N.A. (1)(2)	44.8%	839,848	12%	225,009	8%	150,006

	Actual		December 31, 2010 Required to be considered well capitalized		Required to be considered adequately capitalized	
	Ratio	Amount	Ratio	Amount	Ratio	Amount
	Tier 1 leverage ratio					
Consolidated	17.9%	\$ 907,958	N/A	N/A	4%	\$ 206,270
NBH Bank, N.A. (1)	10.7%	317,144	10%	296,934	4%	118,773
Hillcrest Bank, N.A. (1)	14.2%	193,938	10%	137,304	4%	54,922
Tier 1 risk-based capital ratio (3)						
Consolidated	69.6%	\$ 907,958	6%	78,308	4%	\$ 52,206
NBH Bank, N.A. (1)	32.7%	317,144	11%	106,718	4%	38,806
Hillcrest Bank, N.A. (1)	76.7%	193,938	11%	27,800	4%	10,109
Total risk-based capital ratio (3)						
Consolidated	69.6%	\$ 908,041	10%	130,514	8%	\$ 104,411
NBH Bank, N.A. (1)	32.7%	317,220	12%	116,419	8%	77,613
Hillcrest Bank, N.A. (1)	76.7%	193,945	12%	30,328	8%	20,218

(1) These ratio requirements are reflective of the agreements the Company has made with its various regulators in connection with the approval of the de novo charters for Hillcrest Bank and Bank Midwest, as described above.

Edgar Filing: Oak Valley Bancorp - Form 10-Q

- (2) In November 2011, Hillcrest Bank, N.A. was merged into Bank Midwest, N.A. (now NBH Bank, N.A.). The capital ratios shown are reflective of the merger.
- (3) Due to the conditional guarantee represented by the loss sharing agreements, the FDIC indemnification asset, as well as covered assets, are risk-weighted at 20% for purposes of risk-based capital computations.

F-97

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009****Note 16 FDIC Loss Sharing Income (Expense)**

In connection with the loss sharing agreements that the Company has with the FDIC in regard to the Hillcrest Bank and Community Bank of Colorado transactions, the Company recognizes the changes in the FDIC indemnification asset and the clawback liability, in addition to the actual reimbursement of costs of resolution of covered assets from the FDIC, in FDIC loss sharing income (expense) in the consolidated statements of operations. The table below provides additional details of the Company's FDIC loss sharing income (expense) during the years ended December 31, 2011 and 2010 (in thousands):

	2011	2010
FDIC indemnification asset accretion	\$ (6,132)	\$ 1,689
Clawback liability amortization	(845)	(117)
Clawback liability remeasurement	(2,778)	
Reimbursement to FDIC for gain on sale of and income from covered OREO	(1,130)	
Reimbursement to FDIC for recoveries on non-covered loans	(1,227)	
FDIC reimbursement of costs of resolution of covered assets	7,390	664
Total	\$ (4,722)	\$ 2,236

Note 17 Stock-Based Compensation and Employee Benefits

The Company provides stock-based compensation in accordance with the NBH Holdings Corp. 2009 Equity Incentive Plan (the Plan). The Plan provides the compensation committee of the board of directors of the Company the authority to grant, from time to time, awards of options, stock appreciation rights, restricted stock, restricted stock units, stock awards, or stock bonuses to eligible persons. The aggregate number of shares of stock which may be granted under the Plan is 5,750,000 and the maximum number of restricted shares and restricted share units that may be granted is 1,725,000.

To date, the Company has issued stock options and restricted stock under the Plan. The compensation committee sets the option exercise price at the time of grant but in no case is the exercise price less than the fair market value of a share of stock at the date of grant. The Company has used information provided by third parties, including independent valuation specialists, as required by the Plan, to assist in the determination of estimates regarding fair values associated with the Company's stock-based compensation, including contemporaneous valuations of grant date fair values; however, the Company assumes full responsibility for the assumptions used therein and the resulting values.

The Company issued stock options and restricted stock during 2011. The expense associated with the awarded stock options was measured at fair value using a Black-Scholes option-pricing model. The time vesting portion of the restricted stock was valued at the same price as the common shares since they are assumed to be held beyond the vesting period. The remaining portion of the restricted stock (market-vesting) is valued using a Monte Carlo Simulation with 100,000 simulation paths to assess the expected percentage of vested shares. A Geometric Brownian Motion was used for simulating the equity prices for a period of 10 years and if the restricted stock were not vested during the 10-year period it was assumed they were forfeited.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

Below are the weighted average assumptions used in the Black-Scholes option pricing model and the Monte Carlo Simulation to determine fair value of the Company's stock options and the market-vesting portion of the Company's restricted stock granted during 2011:

	Black-Scholes	Monte Carlo
Risk-free interest rate	1.40%	1.52%
Expected volatility	34.53%	34.34%
Expected term (years)	5	10
Dividend yield	0.00%	0.00%

The Company's shares are not yet publicly traded and have limited private trading; therefore, expected volatility was estimated based on the median historical volatility, for a period commensurate with the expected term of the options, of 13 comparable companies with publicly traded shares. The risk-free rate for the expected term of the options was based on the U.S. Treasury yield curve at the date of grant. The expected term was estimated to be the average of the contractual vesting term and time to expiration. No forfeitures were assumed in the expected term assumption and the dividend yield was assumed to be zero.

The following table summarizes the material vesting terms of the stock options granted in 2011:

	Number of Options Granted in 2011
Options are time-vested, with $\frac{1}{2}$ vesting in October 2011 and $\frac{1}{2}$ vesting in October 2012	200,000
Options are time-vested with $\frac{1}{2}$ vesting on each of the second and third anniversary of the date of grant	141,500
Options are time-vested with $\frac{1}{3}$ vesting on each of the first, second and third anniversary of the date of grant, and further subject to the Company's shares becoming publicly listed	945,000
Total options granted in 2011	1,286,500

The following table summarizes option activity for the year ended December 31, 2011:

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term in Years	Aggregate Intrinsic Value
Outstanding at December 31, 2010	2,357,332	\$ 20.00		
Granted during the three months ended March 31, 2011	203,500	20.00		
Granted during the three months ended June 30, 2011	63,500	20.00		
Granted during the three months ended September 30, 2011	26,500	20.00		
Granted during the three months ended December 31, 2011	993,000	20.00		

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Forfeited	(402,500)	20.00		
Exercised				
Outstanding at December 31, 2011	3,241,332	20.00	9.67	\$
Options fully vested and exercisable at December 31, 2011	1,070,418	20.00	8.18	\$
Options expected to vest	2,121,264	\$ 20.00	8.95	\$

F-99

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

Options granted during 2011 had weighted average grant date fair values of \$5.58.

Stock option expense is included in salaries and employee benefits in the accompanying consolidated statements of operations and totaled \$5.9 million and \$8.0 million, respectively, for 2011 and 2010. The options to acquire 993,000 shares of common stock granted during the fourth quarter of 2011 are subject to an additional vesting requirement of the Company's shares being publicly listed on a national exchange. In accordance with ASC Topic 718, the Company will start recognizing compensation expense on the grants that have vesting requirements tied to the Company's shares becoming listed on a national exchange subsequent to that vesting requirement being fulfilled, with an expense recognition catch-up for the portion of the expense that has been deferred until that vesting criteria is met. As a result, no expense was recorded on these particular grants during 2011. At December 31, 2011, there was \$8.2 million of total unrecognized compensation cost related to non-vested stock options granted under the Plan. The cost is expected to be recognized over a weighted average period of 0.8 years.

Restricted stock may also be issued under the Plan as described above. Compensation expense for the portion of the restricted stock that contain a market vesting condition is recognized over the derived service period based on the fair value of the awards on the grant date. Compensation expense for the portion of the restricted stock that contains performance and service vesting conditions is recognized over the requisite service period based on fair value of the awards on the grant date. The Company did not recognize any expense related to the restricted stock awards that have vesting requirements tied to the Company's shares becoming listed on a national exchange, but will recognize this expense subsequent to that vesting requirement being fulfilled, as described above.

The following table summarizes restricted stock activity for the year ended December 31, 2011:

	Restricted Stock	Weighted Average Grant Date Fair Value
Unvested at December 31, 2010	1,199,168	\$ 16.79
Vested	(221,417)	19.32
Granted	295,000	14.19
Forfeited	(134,167)	16.68
Surrendered	(30,250)	17.76
Unvested at December 31, 2011	1,108,334	\$ 15.58

As of December 31, 2011, there was \$7.1 million of total unrecognized compensation cost related to non-vested restricted shares granted under the Plan. The cost is expected to be recognized over a weighted average period of 1.0 year. Expense related to restricted stock totaled \$6.6 million and \$8.6 million during 2011 and 2010, respectively, and is included in salaries and employee benefits in the Company's consolidated statements of operations.

During 2011, the Company reversed approximately \$4.5 million of previously recorded stock-based compensation expense, of which \$2.9 million related to expense recognized during 2010, in connection with the 134,167 restricted shares and 402,500 stock options that were forfeited by the former Chief Financial Officer upon his separation from the Company, which is reflected in salaries and employee benefits in the accompanying consolidated statement of operations for 2011.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009****Note 18 Acquisition-Related Costs**

The Company incurred certain expenses related to the completion of its acquisitions. The Company also incurred certain expenses related to other potential acquisitions that the Company did not consummate. The following table summarizes the Company's acquisition-related costs during 2011 and 2010 (in thousands):

	2011			Total	2010			Total
	Bank of Choice	Community Banks of Colorado	Other		Bank Midwest	Hillcrest Bank	Other	
Legal and advisory	\$ 500	\$ 584	\$	\$ 1,084	\$ 4,525	\$ 3,093	\$	\$ 7,618
Professional fees	892	1,153		2,045	1,310	973	1,308	3,591
Due diligence	129	1,035	642	1,806	523	258	2,086	2,867
Total	\$ 1,521	\$ 2,772	\$ 642	\$ 4,935	\$ 6,358	\$ 4,324	\$ 3,394	\$ 14,076

Note 19 Warrants

At December 31, 2011 and 2010, the Company had 830,750 outstanding warrants to purchase Company stock. The warrants were granted to certain lead stockholders of the Company, all with an exercise price of \$20.00 per share. The term of the warrants is for ten years and the expiration dates of the warrants range from October 20, 2019 to September 30, 2020. The fair value of the warrants was estimated to be \$6.8 million and \$6.9 million at December 31, 2011 and 2010, respectively. The fair value of the warrants was estimated using a Black-Scholes option pricing model utilizing the following assumptions at the indicated dates:

	December 31, 2011	December 31, 2010
Risk-free interest rate	1.56%	3.35%
Expected volatility	34.93%	31.32%
Expected term (years)	8-9	9-10
Dividend yield	0.00%	0.00%

The Company's shares are not yet publicly traded and have limited private trading; therefore, expected volatility was estimated based on the median historical volatility, for a period commensurate with the expected term of the warrants, of 16 comparable companies with publicly traded shares. The risk-free rate for the expected term of the warrants was based on the U.S. Treasury yield curve at the date of grant. The expected term was estimated based on the contractual term of the warrants. The dividend yield was assumed to be zero because the Company does not anticipate paying dividends in the foreseeable future.

During 2011, 2010 and 2009, the Company recorded a gain of \$56 thousand, a loss of \$44 thousand and a gain of \$270 thousand, respectively, in the consolidated statements of operations resulting from the change in fair value on the revaluation of the warrant liability.

Note 20 Common Stock

The Company had 44,612,344 Class A common stock and 7,545,353 Class B common stock as of December 31, 2011. Additionally, the Company had 1,108,334 shares of restricted Class A common stock issued but not yet vested under the NBH Holdings Corp. 2009 Equity Incentive Plan. Class A common stock possesses all of the voting power for all matters requiring action by holders of common stock, with

Edgar Filing: Oak Valley Bancorp - Form 10-Q

certain limited exceptions. The Company's certificate of incorporation provides that, except with respect to voting rights and conversion rights, the Class A common stock and Class B non-voting common stock are treated equally and identically.

F-101

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009****Note 21 Income (Loss) Per Share**

The Company had 52,157,697, 51,936,280 and 58,068,304 shares issued and outstanding as of December 31, 2011, 2010 and 2009, respectively, inclusive of 250,000 shares of founders' shares that were issued in 2009 at par value and vested during 2011. Stock options and warrants are potentially dilutive securities, but are not included in the calculation of diluted earnings per share because to do so would have been anti-dilutive for the years ended December 31, 2011, 2010 and 2009. The Company also has VARs issued to the FDIC in conjunction with the acquisition of Bank of Choice and Community Banks of Colorado that are potentially dilutive should the FDIC choose to settle this right in the Company's stock. The exercisability of the VARs is contingent upon the Company having a triggering event upon public listing of its stock or a sale event, and as of December 31, 2011, the triggering events had not occurred, and as a result, the VARs are not included in the calculation of diluted earnings per share.

The following table illustrates the computation of basic and diluted income per share for 2011:

	For the year ended 2011		
	Income (Numerator)	Shares (Denominator)	Per-share amount
Basic EPS			
Income available to common stockholders	\$ 41,963,000	51,978,744	\$ 0.81
Effect of dilutive securities			
Restricted stock		125,277	
Diluted EPS			
Income available to common stockholders	\$ 41,963,000	52,104,021	\$ 0.81

The Company had 2,620,832, 2,343,332 and 1,418,332 stock options to purchase common stock at \$20.00 per share outstanding at December 31, 2011, 2010 and 2009, respectively, which were not included in the computation of diluted income per share because the options exercise price was greater than the average market price of the common shares. Additionally, the Company had 830,750 outstanding warrants to purchase the Company's common stock as of December 31, 2011 and 2010 and 237,500 outstanding warrants as of December 31, 2009. The warrants have an exercise price of \$20.00, which was out-of-the-money for purposes of dilution calculations. The Company had 1,329,751, 1,199,168 and 709,168 restricted shares outstanding as of December 31, 2011, 2010 and 2009, respectively, which have performance, market and time-vesting criteria, and as such, any dilution is derived only for the timeframe in which the vesting criteria had been met.

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009****Note 22 Income Taxes***(a) Income taxes*

Total income taxes for the years ended December 31, 2011, 2010 and 2009 were allocated as follows (in thousands):

	2011	2010	2009
Current expense:			
U.S. federal	\$ 33,258	\$ 291	\$ 162
State and local	4,942	401	6
Total	38,200	692	168
Deferred (benefit) expense:			
U.S. federal	(10,344)	1,600	
State and local	(410)	661	
Total	(10,754)	2,261	
Income tax expense	\$ 27,446	\$ 2,953	\$ 168

(b) Tax Rate Reconciliation

Income tax expense attributable to income (loss) before taxes was \$27.4 million, \$3.0 million and \$0.2 million for 2011, 2010 and 2009, respectively, and differed from the amounts computed by applying the U.S. federal income tax rate to pretax income (loss) as a result of the following (in thousands):

	2011	2010	2009
Income taxes at deferral statutory rate (35% for 2011 and 2010, and 34% for 2009)	\$ 24,293	\$ 3,150	\$ (464)
State income taxes, net of federal benefits	2,946	690	4
Valuation allowance		(720)	720
Restricted stock	230		
Start-up costs		(178)	
Other	(23)	11	(92)
Income tax expense	\$ 27,446	\$ 2,953	\$ 168

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009***(c) Significant Components of Deferred Taxes*

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities at December 31, 2011 and 2010 are presented below (in thousands):

	2011	2010
Deferred tax assets:		
Excess tax basis of assets acquired over carrying value:		
Loans	\$ 29,982	\$ 22,156
Intangible assets	20,705	11,569
Other real estate owned	0	8,663
Accrued stock-based compensation	8,517	6,188
Capitalized start-up and acquisition costs	6,690	4,214
Allowance for loan losses	4,120	29
Accrued expenses	1,917	61
Federal net operating loss	0	1,236
Other	313	99
Total deferred tax assets	72,244	54,215
Deferred tax liabilities:		
Excess carrying value of liabilities assumed over tax basis:		
FDIC indemnification asset net of clawback liability	(55,660)	(55,974)
Other real estate owned	(2,498)	
Unrealized gains	(29,646)	(3,138)
Premises and equipment	(4,264)	
Prepaid expenses	(1,185)	(467)
Other	(144)	(35)
Total deferred tax liabilities	(93,397)	(59,614)
Net deferred tax liability	\$ (21,153)	\$ (5,399)

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities, if any (including the impact of available carryforward periods), projected future taxable income, and tax-planning strategies in making this assessment.

For the year ended December 31, 2011, management believes a valuation allowance on the deferred tax asset is not necessary based on the current and future projected earnings of the Company. Furthermore, the Company is in an overall deferred tax liability position as of December 31, 2011 and 2010. The Company has no unrecognized tax benefits as of December 31, 2011 and 2010. The Company has utilized all remaining net operating loss carryovers as of December 31, 2011.

Note 23 Commitments and Contingencies

Financial instrument commitments and contingencies

In the normal course of business, the Company enters into various off-balance sheet commitments to help meet the financing needs of clients. These financial instruments include commitments to extend credit, commercial and consumer lines of credit and standby letters of credit. The same credit policies are applied to

F-104

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

these commitments as the loans on the consolidated statements of financial condition; however, these commitments involve varying degrees of credit risk in excess of the amount recognized in the consolidated statements of financial condition. At December 31, 2011 and 2010, the Company had loan commitments totaling \$341.1 million and \$225.8 million respectively, and standby letters of credit that totaled \$20.0 million and \$29.1 million, respectively. The total amounts of unused commitments do not necessarily represent future credit exposure or cash requirements, as commitments often expire without being drawn upon. However, the contractual amount of these commitments represents the Company's potential credit loss exposure. Amounts funded at Hillcrest Bank and Community Banks of Colorado under non-cancelable commitments in effect at the date of acquisition are covered under the loss sharing agreements if certain conditions are met.

Total unfunded commitments at December 31, 2011 and 2010 were as follows:

	December 31, 2011			December 31, 2010		
	Covered	Not Covered	Total	Covered	Not Covered	Total
Commitments to fund loans:						
Residential	\$ 1,517	\$ 30,194	\$ 31,711	\$	\$ 1,491	\$ 1,491
Commercial and commercial real estate	2,437	38,937	41,374	17,780	55,147	72,927
Construction and land development	3,565	776	4,341	17,568	1,749	19,317
Consumer		39,690	39,690			
Credit card lines of credit		20,738	20,738		22,661	22,661
Unfunded commitments under lines of credit	68,223	135,001	203,224	571	108,879	109,450
Commercial and standby letters of credit	3,051	16,986	20,037	20,382	8,738	29,120
Total	\$ 78,793	\$ 282,322	\$ 361,115	\$ 56,301	\$ 198,666	\$ 254,967

Commitments to fund loans Commitments to fund loans are legally binding agreements to lend to clients in accordance with predetermined contractual provisions providing there have been no violations of any conditions specified in the contract. These commitments are generally at variable interest rates and are for specific periods or contain termination clauses and may require the payment of a fee. The total amounts of unused commitments are not necessarily representative of future credit exposure or cash requirements, as commitments often expire without being drawn upon.

Credit card lines of credit The Company extends lines of credit to clients through the use of credit cards issued by the banks. These lines of credit represent the maximum amounts allowed to be funded, many of which will not exhaust the established limits, and as such, these amounts are not necessarily representations of future cash requirements or credit exposure.

Unfunded commitments under lines of credit In the ordinary course of business, the Company extends revolving credit to its clients through the use of bank-issued credit cards. These arrangements may require the payment of a fee.

Commercial and standby letters of credit As a provider of financial services, the Company routinely issues commercial and standby letters of credit, which may be financial standby letters of credit or performance standby letters of credit. These are various forms of "back-up" commitments to guarantee the performance of a

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

customer to a third party. While these arrangements represent a potential cash outlay for the Company, the majority of these letters of credit will expire without being drawn upon. Letters of credit are subject to the same underwriting and credit approval process as traditional loans, and as such, many of them have various forms of collateral securing the commitment, which may include real estate, personal property, receivables or marketable securities.

Contingencies

In the ordinary course of business, the Company and its banks may be subject to litigation. Based upon the available information and advice from the Company's legal counsel, management does not believe that any potential, threatened or pending litigation to which it is a party will have a material adverse effect on the Company's liquidity, financial condition or results of operations.

Note 25 Fair Value Measurements

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to disclose the fair value of its financial instruments. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. For disclosure purposes, the Company groups its financial and non-financial assets and liabilities into three different levels based on the nature of the instrument and the availability and reliability of the information that is used to determine fair value. The three levels are defined as follows:

Level 1 Includes assets or liabilities in which the inputs to the valuation methodologies are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Level 2 Includes assets or liabilities in which the inputs to the valuation methodologies are based on similar assets or liabilities in inactive markets, quoted prices for identical or similar assets or liabilities in inactive markets, and inputs other than quoted prices that are observable, such as interest rates, yield curves, volatilities, prepayment speeds, and other inputs obtained from observable market input.

Level 3 Includes assets or liabilities in which the inputs to the valuation methodology are based on at least one significant assumption that is not observable in the marketplace. These valuations may rely on management's judgment and may include internally-developed model-based valuation techniques.

Level 1 inputs are considered to be the most transparent and reliable and level 3 inputs are considered to be the least transparent and reliable. The Company assumes the use of the principal market to conduct a transaction of each particular asset or liability being measured and then considers the assumptions that market participants

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

would use when pricing the asset or liability. Whenever possible, the Company first looks for quoted prices for identical assets or liabilities in active markets (level 1 inputs) to value each asset or liability. However, when inputs from identical assets or liabilities on active markets are not available, the Company utilizes market observable data for similar assets and liabilities. The Company maximizes the use of observable inputs and limits the use of unobservable inputs to occasions when observable inputs are not available. The need to use unobservable inputs generally results from the lack of market liquidity of the actual financial instrument or of the underlying collateral. Although, in some instances, third-party price indications may be available, limited trading activity can challenge the observability of these quotations.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of each instrument under the valuation hierarchy:

Fair Value of Financial Instruments Measured on a Recurring Basis

Investment securities available for sale Investment securities available-for-sale are carried at fair value on a recurring basis. To the extent possible, observable quoted prices in an active market are used to determine fair value and, as such, these securities are classified as level 1. The Company classified its U.S. Treasury securities as Level 1 in the fair value hierarchy as of December 31, 2011 and 2010. When quoted market prices in active markets for identical assets or liabilities are not available, quoted prices of securities with similar characteristics, discounted cash flows or other pricing characteristics are used to estimate fair values and the securities are then classified as level 2. At December 31, 2011, the Company's level 2 securities included mortgage-backed securities comprised of residential mortgage pass-through securities, other residential mortgage-backed securities, and other mortgage-backed securities, all of which were issued or guaranteed by U.S. Government agencies or sponsored agencies, and at December 31, 2010 also included U.S. Government sponsored agency obligations held by the Company at that time. All other investment securities are classified as level 3. There were no transfers between levels 1 or 2 during 2011 or 2010.

Value appreciation rights issued to the FDIC The Company measures the fair value of the VAR on a recurring basis and is based on the spread between the strike price of the VAR and the average multiple of price to tangible book value indicated by national and regional bank indices, multiplied by the maximum number of applicable units.

Warrant liability The Company measures the fair value of the warrant liability on a recurring basis using a Black-Scholes option pricing model. The Company's common stock is not publicly traded in an exchange, and the fair value measurement of the warrant liability requires significant unobservable inputs to the valuation model.

Clawback liability The Company measures the net present value of expected future cash payments to be made by the Company to the FDIC that must be made within 45 days of the conclusion of the loss sharing agreements on a recurring basis. The expected cash flows are calculated in accordance with the loss sharing agreements and are based primarily on the expected losses on the covered assets, which involve significant inputs that are not market observable.

Fair Value of Instruments Measured on a Non-recurring Basis

The Company records collateral dependent loans that are considered to be impaired at their estimated fair value. A loan is considered impaired when it is probable that the Company will be unable to collect all contractual amounts due in accordance with the terms of the loan agreement. Collateral dependent impaired loans are measured based on the fair value of the collateral. The Company relies on third-party appraisals and internal assessments in determining the estimated fair values of these loans. At December 31, 2011, the Company had three impaired loans that were measured at fair value on a non-recurring basis. These loans carried specific reserves totaling \$0.8 million. Two of the impaired loans were within the commercial real estate segment (non-owned occupied) with specific reserves of \$0.6 million and carried balances totaling \$11.5 million at December 31, 2011. The other impaired loan was within the residential real estate segment with a specific reserve of \$0.2 million and carried a balance of \$0.5 million at December 31, 2011. All of these loans were considered level 3 measurements within the fair value hierarchy described above.

OREO is recorded at the lower of the loan balance or the fair value of the collateral less estimated selling costs. The estimated fair values of OREO are updated periodically and further write-downs may be taken to reflect a new basis. The Company recognized \$1.1 million of OREO impairments during 2011, all of which were on OREO that was covered by loss sharing agreements with the FDIC. The fair values of OREO are derived from third-party price opinions or appraisals that generally use an income approach or a market value approach. If reasonable comparable appraisals are not available, then the Company may use internally developed models to determine fair values. The inputs used to determine the fair values of OREO are considered level 3 inputs in the fair value hierarchy.

The Company did not record any liabilities for which the fair value was made on a non-recurring basis during 2011 or 2010. The instruments measured on a non-recurring basis discussed above represent the initial measurement of these instruments on a non-recurring basis.

Note 26 Fair Value of Financial Instruments

The fair value of a financial instrument is the amount that would be exchanged between willing parties, other than in a forced liquidation. Fair value is determined based upon quoted market prices to the extent possible; however, in many instances, there are no quoted market prices for the Company's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using

Table of Contents**NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****December 31, 2011, 2010 and 2009**

present value or other valuation techniques that may be significantly impacted by the assumptions used, including the discount rate and estimates of future cash flows. Changes in any of these assumptions could significantly affect the fair value estimates. The fair value of the financial instruments listed below does not reflect a premium or discount that could result from offering all of the Company's holdings of financial instruments at one time, nor does it reflect the underlying value of the Company, as ASC Topic 825 excludes certain financial instruments and all non-financial instruments from its disclosure requirements.

In connection with the Hillcrest Bank, Bank Midwest, Bank of Choice and Community Banks of Colorado acquisitions, the Company recorded all of the acquired assets and assumed liabilities at fair value at the respective dates of acquisition. Due to the short timeframe between the acquisitions of Hillcrest Bank and Bank Midwest to December 31, 2010, the Company determined that the carrying amount approximated fair value for the Company's assets and liabilities as of December 31, 2010. The fair value of financial instruments at December 31, 2011 and 2010, including methods and assumptions utilized for determining fair value of financial instruments, are set forth below (in thousands):

	December 31, 2011		December 31, 2010	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets:				
Cash and cash equivalents	\$ 1,628,137	\$ 1,628,137	\$ 1,907,730	\$ 1,907,730
Investment securities available-for-sale	1,862,699	1,862,699	1,254,595	1,254,595
Investment securities held-to-maturity	6,801	6,829		
Non-marketable securities	29,117	29,117	17,800	17,800
Loans	2,262,524	2,272,886	1,568,822	1,568,822
Accrued interest receivable	16,022	16,022	10,249	10,249
Financial liabilities:				
Deposits	5,063,053	5,068,771	3,473,339	3,473,339
Securities sold under agreements to repurchase	47,597	47,597	24,164	24,164
Due to FDIC	67,972	67,972	13,564	13,564
Value appreciation rights issued to FDIC	1,767	1,767	746	746
Warrant liability	6,845	6,845	6,901	6,901
Accrued interest payable	11,017	11,017	15,384	15,384
Treasury tax and loan			377	377
<i>Cash and cash equivalents</i>				

Cash and cash equivalents have a short-term nature and the estimated fair value is equal to the carrying value.

Investment securities

The estimated fair value of investment securities is based on quoted market prices or bid quotations received from securities dealers. Other investment securities, including securities that are held for regulatory purposes are carried at cost, less any other than temporary impairment.

Loans and covered loans

The estimated fair value of the loan portfolio is estimated using a discounted cash flow analysis using a discount rate based on interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. The allowance for loan losses is considered a reasonable estimate of any required adjustment to fair value to reflect the impact of credit risk.

Table of Contents

NATIONAL BANK HOLDINGS CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

December 31, 2011, 2010 and 2009

Accrued interest receivable

Accrued interest receivable has a short-term nature and the estimated fair value is equal to the carrying value.

Deposits

The estimated fair value of deposits with no stated maturity, such as non-interest bearing demand deposits, savings, NOW accounts, and money market accounts, is equal to the amount payable on demand. The fair value of interest-bearing time deposits is based on the discounted value of contractual cash flows of such deposits, taking into account the option for early withdrawal. The discount rate is estimated using the rates offered by the Company, at the respective measurement date, for deposits of similar remaining maturities.

Securities sold under agreements to repurchase

The vast majority of the Company's repurchase agreements are overnight transactions that mature the day after the transaction, and as a result of this short-term nature, the estimated fair value is equal to the carrying value.

Due to FDIC

The amount due to FDIC is specified in the purchase agreements and is discounted to reflect the uncertainty in the timing and payment of the amount due by the Company.

Value appreciation rights issued to FDIC (VAR)

The estimated fair value of the VAR is tied to the Company's stock price and is fully described in note 4.

Warrant liability

The warrant liability is estimated using a Black-Scholes model, the assumptions of which are detailed in note 19.

Accrued interest payable

Accrued interest payable has a short-term nature and the estimated fair value is equal to the carrying value.

Treasury tax and loan

Treasury tax and loan liabilities generally have a short-term nature and the estimated fair value is equal to the carrying value.

Note 27 Subsequent Events

On March 22, 2012, the Company held its annual meeting and approved the change of its name to National Bank Holdings Corporation. Additionally, stockholders re-elected all seven of the existing members of the Board of Directors, approved a senior executive annual bonus plan, approved an amendment to the 2009 Equity Incentive Plan and amended the Company's Certificate of Incorporation to eliminate the restriction on owning more than 4.9% of the outstanding Class A shares and to facilitate the conversion of Class B non-voting shares into Class A shares in connection with registered public offerings.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

NBH Holdings Corp.:

We have audited the accompanying statement of assets acquired and liabilities assumed of Hillcrest Bank, N.A. (a wholly owned subsidiary of NBH Holdings Corp.) (the Company) as of October 22, 2010. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of assets acquired and liabilities assumed is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit of a statement of assets acquired and liabilities assumed also includes examining, on a test basis, evidence supporting the amounts and disclosures in that financial statement, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit of the statement of assets acquired and liabilities assumed provides a reasonable basis for our opinion.

In our opinion, the statement of assets acquired and liabilities assumed referred to above presents fairly, in all material respects, the financial position of Hillcrest Bank, N.A. (a wholly owned subsidiary of NBH Holdings Corp.) as of October 22, 2010, in conformity with U.S. generally accepted accounting principles.

Kansas City, Missouri

HILLCREST BANK, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)

Notes to Statement of Assets Acquired and Liabilities Assumed of Hillcrest Bank

As of October 22, 2010

Note 1 Basis of Presentation

The accompanying financial statement includes the assets acquired and the liabilities assumed (net assets acquired) by NBH Holdings Corp. (now National Bank Holdings Corporation, the Company) in the acquisition of the former Hillcrest Bank from the Federal Deposit Insurance Corporation (FDIC) on October 22, 2010. In conjunction with the acquisition of the net assets acquired, the Company obtained a new banking charter from the Office of the Comptroller of the Currency, Hillcrest Bank, N.A. (the Bank), a wholly owned subsidiary of the Company. The assets were acquired and the liabilities were assumed by the Bank on October 22, 2010.

In accordance with the guidance provided by Securities and Exchange Commission (SEC) Staff Accounting Bulletin Topic 1.K, Financial Statements of Acquired Troubled Financial Institutions (SAB 1.K), and pursuant to a request for relief submitted to, and not objected to by the SEC, the Company has omitted certain financial information of Hillcrest Bank that is typically required under Rule 3-05 of Regulation S-X and the related pro forma financial information required by Article 11 of Regulation S-X. SAB 1.K provides relief from certain reporting requirements, including pro forma information in the case of an acquisition of a troubled financial institution for which historical financial information is not reasonably available and in which federal assistance is an essential and significant part of the transaction, or where the nature and magnitude of federal assistance is so pervasive as to substantially reduce the relevance of such information to an assessment of future operations.

Accounting principles generally accepted in the United States of America (GAAP) require management to make estimates that affect the reported amounts of assets acquired and liabilities assumed. By their nature, estimates are based on judgment and available information. Management has made significant estimates in certain areas, such as the amount and timing of expected cash flows from purchased assets, the fair value adjustments on assets acquired and liabilities assumed, the valuation of core deposit intangible assets, the valuation of other real estate owned, the valuation of the FDIC indemnification asset and clawback liability, and the value appreciation rights issued to the FDIC, as defined below. Unless stated otherwise, the amounts presented herein include management s estimates, including the fair value adjustments described in note 3. Because of the inherent uncertainties associated with any estimation process and future changes in market and economic conditions, it is possible that actual results could differ significantly from those estimates.

Note 2 Net Assets Acquired

On October 22, 2010, the Company entered into a purchase and assumption agreement with the FDIC, as receiver, to acquire certain assets and assume substantially all of the liabilities of the former Hillcrest Bank of Overland Park, Kansas. Upon closing the acquisition, the Company reopened the nine full-service banking branches and 32 retirement center branches previously owned by Hillcrest Bank, as branches of Hillcrest Bank N.A.

Excluding the effects of purchase accounting adjustments, the Company acquired assets of \$1.6 billion and assumed deposits and other liabilities of \$1.3 billion in connection with the acquisition of Hillcrest Bank. The net assets were acquired at a discount of \$182.7 million, which is reflected as a portion of the cash acquired, and the settlement amount paid to the FDIC at close was \$56.3 million. In conjunction with the Hillcrest Bank purchase and assumption agreement, the Company also provided the FDIC with Value Appreciation Rights (VAR) whereby the FDIC is entitled to a cash payment equal to the excess of the Company s common stock price and a strike price of \$18.65 per unit at a future time, not to exceed 10 years. The VAR is applicable to a maximum of 100,000 units and the Company has estimated the fair value of the VAR at the date of acquisition of Hillcrest Bank to be approximately \$0.7 million, which is included in Due to FDIC in the accompanying statement of assets acquired and liabilities assumed. Any future changes to the value of the VAR will be included in other noninterest expense.

Table of Contents**HILLCREST BANK, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Hillcrest Bank****As of October 22, 2010**

Information regarding the fair value adjustments recorded by the Company in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 805 is shown in the following table (in thousands):

	As Acquired from FDIC	Fair Value Adjustments	Settlement amount paid to FDIC	As recorded by the Company
Assets acquired:				
Cash and cash equivalents	\$ 190,344	\$	\$ (56,343)	\$ 134,001
Investment securities, available for sale	235,255			235,255

Other assets	4,882			4,882
Total assets	\$ 1,562,406	\$ (167,096)	\$ (56,343)	\$ 1,338,967
Liabilities assumed:				
Deposits	\$ 1,234,013	\$	\$	\$ 1,234,013
Federal Home Loan Bank advances	80,460	3,434		83,894
Accrued interest payable	7,279			7,279
Due to FDIC		11,454		11,454
Other liabilities	1,575	752		2,327
Total liabilities	1,323,327	15,640		\$ 1,338,967

In connection with the purchase and assumption agreement with the FDIC, the Company entered into loss sharing agreements with the FDIC whereby the Company will be reimbursed by the FDIC for a portion of the losses incurred as a result of the resolution and disposition of the problem assets of Hillcrest Bank. The loss sharing agreements with the FDIC cover substantially all of the failed bank's loans, unfunded commitments, and other real estate owned (OREO), which are collectively referred to as the covered assets. However, the Company also acquired other assets of Hillcrest Bank that are not covered by the loss sharing agreements, including \$190.3 million of cash and cash equivalents, \$239.3 million of investment securities, \$3.1 million of consumer loans and overdrafts, and other tangible assets. For purposes of the loss sharing agreements, the anticipated losses on the covered assets are grouped into commercial assets and single family assets, and each category has its own specific loss sharing agreement. The loss sharing agreement categories cover losses on both loans and OREO in their respective categories and have provisions that reimburse the Company for direct expenses related to the resolution of these assets. Within these categories, there are three tranches of losses, each beginning after the loss threshold of the previous tranche has been met, and each with a specified loss-coverage percentage. The categories, and the respective loss thresholds and coverage amounts are as follows (in thousands):

Tranche	Commercial Loss	Loss-Coverage Percentage	Tranche	Single family Loss	Loss-Coverage Percentage
---------	--------------------	-----------------------------	---------	-----------------------	-----------------------------

2	405,293	0%	2	8,191	30%
3	>405,293	80%	3	>8,191	80%

F-116

Table of Contents

HILLCREST BANK, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)

Notes to Statement of assets Acquired and Liabilities Assumed of Hillcrest Bank

As of October 22, 2010

The FDIC's obligation to reimburse the Company for losses with respect to covered assets begins with the first dollar of loss incurred. The term for loss sharing on single-family residential real estate loans is 10 years, while the term for loss sharing on all other covered loans is 5 years. The reimbursable losses from the FDIC are based on the book value of the relevant covered assets as determined by the FDIC at the date of acquisition. The Company will refund to the FDIC its share of recoveries with respect to losses for which the FDIC paid the Company under the loss sharing agreements.

The expected reimbursements from the FDIC under the loss sharing agreements are reflected in the accompanying statement of assets acquired and liabilities assumed as an indemnification asset at its estimated fair value of \$159.7 million.

Within 45 days of the end of the loss sharing agreements with the FDIC, the Company may be required to pay the FDIC in the event that losses do not reach a specified threshold, based on the initial discount received less cumulative servicing amounts for the covered assets acquired. The Company recorded \$11.5 million as the estimated fair value of this clawback liability at the acquisition date.

The Company believes that the FDIC loss sharing agreement will mitigate the Company's risk of loss on assets acquired. Nonetheless, to the extent the actual values realized for the acquired assets are different from the estimated values, the FDIC indemnification asset will generally be impacted in an offsetting manner due to the loss sharing support from the FDIC.

In connection with the Hillcrest Bank transaction, the Company recognized approximately \$37.8 million of bargain purchase gain and a \$5.8 million core deposit intangible. The bargain purchase gain of \$37.8 million recorded at the date of acquisition represents the amount by which the acquisition-date fair value of the identifiable net assets acquired (inclusive of the \$182.7 million purchase discount from the FDIC) exceeds the fair value of the consideration paid.

Note 3 Fair Value Determinations

The Company has determined that the Hillcrest Bank acquisition constitutes a business combination as defined by ASC Topic 805, *Business Combinations*. This guidance requires that all assets acquired and liabilities assumed in a business combination be recorded at their fair values as of the date of acquisition. The fair values have been determined in accordance with the guidance provided in ASC Topic 820, *Fair Value Measurements*.

Fair values of certain assets and liabilities were established by discounting the expected future cash flows at a market discount rate for like maturity and risk instruments. The estimation of expected future cash flows requires significant assumptions and management judgment about appropriate discount rates, the amount and timing of future cash flows, market conditions and other future events, and actual results could differ materially. The determination of the initial fair values of covered loans and the related FDIC indemnification asset and clawback liability involve a high degree of judgment and complexity. The Company has made the determinations of fair value using the best information available. Below is a description of the methods used to determine the fair values of significant assets and liabilities:

(a) Cash and cash equivalents

Cash and cash equivalents have a short-term nature and the estimated fair value was deemed to be equal to the carrying value.

Table of Contents

HILLCREST BANK, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)

Notes to Statement of Assets Acquired and Liabilities Assumed of Hillcrest Bank

As of October 22, 2010

(b) *Investment securities*

The estimated fair values of investment securities were based on quoted market prices or bid quotations received from third-party securities dealers. The fair value of securities held for regulatory purposes were deemed to be equal to par value.

(c) *Loans and covered loans*

The fair value of the loan portfolio was estimated using a discounted cash flow approach. The cash flows were projected based on the expected probability of default, default timing and loss given default rates on loans covered by the loss share agreements. The expected cash flows were then discounted utilizing a discount rate based on interest rates being offered for loans with similar terms to borrowers of similar credit quality at the date of acquisition. In accordance with ASC Topic 805, no allowance for loan losses was carried forward with the acquired loans at the date of acquisition, but rather, any estimated credit losses inherent in the portfolio at the time of acquisition were included in the fair value estimates of the loans.

(d) *FDIC indemnification asset*

The loss sharing agreements with the FDIC resulted in an FDIC indemnification asset that is measured separately from the related covered assets as they are not contractually embedded in those assets and are not transferable should the Company choose to dispose of the covered assets. The fair value of the FDIC indemnification asset was determined based upon projected cash flows from loss sharing agreements and the timing and amount of expected reimbursements for losses on covered assets at the applicable loss sharing percentages in accordance with the terms of the loss share agreements with the FDIC. The projected cash flows were discounted with a market discount rate of similar maturity and risk instruments to reflect the timing and receipt of the loss sharing reimbursements from the FDIC.

(e) *Core deposit intangible asset*

The core deposit intangible asset is representative of the value associated with the relationships that Hillcrest Bank had with its deposit customers at the date of acquisition. The fair value was determined based on a discounted cash flow methodology that considered primary asset attributes such as expected customer runoff rates, cost of the deposit base, and reserve requirements.

(f) *Accrued interest receivable*

Accrued interest receivable has a short-term nature and the estimated fair value was deemed to be equal to the carrying value.

(g) *Deposits*

The estimated fair value of deposits with no stated maturity, such as noninterest-bearing demand deposits, savings, negotiable order of withdrawal (NOW) accounts, and money market accounts, was equal to the amount payable on demand at the acquisition date. The FDIC provided Hillcrest Bank depositors with the right to cash in their time deposits at any time during the life of the time deposit, without penalty, unless the depositor accepts new terms. Additionally, the Company had the opportunity to change the interest rates on these deposits at the time of acquisition. The interest rates on certain deposits were changed at the date of acquisition to rates that the Company determined to be market rates for comparable deposits of similar remaining maturities. As a result, all time deposits were deemed to be at fair value as of the date of acquisition and no fair value adjustments were made.

Table of Contents**HILLCREST BANK, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Hillcrest Bank****As of October 22, 2010****(h) Federal Home Loan Bank Advances**

The fair values of the Federal Home Loan Bank (FHLB) advances were based on discounted values of contractual cash flows of the advances. The discount rate was estimated using market rates at the acquisition date, for advances of similar remaining maturities.

(i) Clawback liability

The clawback liability represents the Company's obligation to refund a portion of the cash received from the FDIC at acquisition in the event that losses do not reach a specified threshold, based on the initial discount received less cumulative servicing amounts for the covered assets acquired. The Company estimated the fair value of the clawback liability based on the net present value of expected future cash payments to be made by the Company to the FDIC that must be made within 45 days of the conclusion of the loss sharing agreements. The expected cash flows were calculated in accordance with the loss sharing agreements and are based primarily on the expected losses on the covered assets, which involve significant inputs that are not market observable.

(j) Due to FDIC

The amount due to FDIC is specified in the purchase agreements and is discounted to reflect the uncertainty in the timing and payment of the amount due by the Company.

(k) Value appreciation rights issued to FDIC

The estimated fair value of the VAR is tied to the Company's stock price and is fully described in note 2.

(l) Accrued interest payable

Accrued interest payable has a short-term nature and the estimated fair value was deemed to be equal to the carrying value.

(m) Treasury tax and loan

Treasury tax and loan liabilities generally have a short-term nature and the fair value was determined to be equal to the carrying value.

Note 4 Investment Securities

The investment securities portfolio comprised investment securities available for sale and non-marketable investment securities. The fair values of investment securities available for sale at the date of acquisition are summarized as follows (in thousands):

	Fair Value	Yield
U.S. sponsored agency obligations	\$ 500	0.23%

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Residential collateralized mortgage obligations	234,755	2.45%
Total investment securities available for sale	\$ 235,255	2.45%
Non-marketable securities	4,042	2.44%
Total investment securities	\$ 239,297	2.45%

F-119

Table of Contents**HILLCREST BANK, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Hillcrest Bank****As of October 22, 2010**

The Company estimates that the weighted average life of the collateralized mortgage obligations portfolio as of the acquisition date was 3.51 years. This estimate is based on assumptions and actual results may differ.

The Company had one FHLB agency debenture for \$0.5 million with a remaining contractual maturity of less than one year.

Certain securities were pledged as collateral for public deposits, securities sold under agreements to repurchase, treasury tax and loan agreements, and to secure borrowing capacity at the Federal Reserve Bank, if needed. \$61.9 million of investment securities were pledged at the acquisition date for such purposes.

Non-marketable securities consist of \$4.0 million of FHLB stock that was required based on the level of borrowings from the FHLB.

Note 5 Loans

The majority of the acquired loans are within the scope of ASC Topic 310-30 except loans with revolving privileges, which are outside the scope of this guidance, and loans for which cash flows could not be estimated, which are accounted for under the cost recovery method.

Substantially all loans are covered by loss sharing agreements with the FDIC. All loans are reflected at their estimated fair value. Generally, the determination of the fair value of the loans resulted in a significant write-down in the value of the loans, which was assigned to an accretable yield or non-accretable difference, with the accretable yield to be recognized as interest income over the expected remaining term of the loan. The following table reflects the composition of all acquired loans as of October 22, 2010 (in thousands):

	Loans accounted for under FASB ASC Topic 310-30	Covered loans		Total covered loans	Non-covered loans	Total loans
		Loans excluded from FASB ASC Topic 310-30				
Commercial and industrial	\$ 79,232	\$ 46,839	\$	\$ 126,071		\$ 126,071
Commercial construction	132,869	126		132,995		132,995
Commercial real estate	188,321	1,144		189,465		189,465
Multifamily	67,088			67,088		67,088
Land and development	220,866	12,166		233,032		233,032
Single family residential	11,552	7,988		19,540		19,540
Consumer*					3,090	3,090
Leases		10,061		10,061		10,061
Total covered loans	\$ 699,928	\$ 78,324	\$	\$ 778,252	\$ 3,090	\$ 781,342

* Consumer loans accounted for under ASC Topic 310-30, but not covered.

The outstanding balance of all non-covered loans, including contractual principal, interest, fees, and penalties, was \$3.2 million as of the date of acquisition.

Table of Contents**HILLCREST BANK, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Hillcrest Bank****As of October 22, 2010**

Below is the composition of the net book value for loans accounted for under ASC Topic 310-30 at October 22, 2010 (in thousands):

Contractual cash flows of loans accounted for under ASC Topic 310-30	\$ 1,034,373
Nonaccretable discount	(246,682)
Cash flows expected to be collected	787,691
Accretable discount	(84,673)
Covered loans accounted for under ASC Topic 310-30	\$ 703,018

Covered loans are considered past due or delinquent when the contractual principal or interest due in accordance with the terms of the loan agreement or any portion thereof remains unpaid after the due date of the scheduled payment. Covered loans accounted for under ASC Topic 310-30 are generally classified as performing, even though they may be contractually past due, as any non-payment of contractual principal or interest was considered in the estimation of expected cash flows and will be included in the resulting recognition of future period covered loan loss provision or future period yield adjustments.

The following table reflects the composition and contractual maturities of loans purchased in the Hillcrest Bank transaction (in thousands):

	Due within 1 year	Due after 1 but within 5 years	Due after 5 years	Total
Commercial and industrial	\$ 49,565	\$ 76,506	\$	\$ 126,071
Commercial construction	71,573	61,422		132,995
Commercial real estate	114,034	75,431		189,465
Multifamily	9,024	58,064		67,088

Multifamily	12,728	45,336	58,064
Land and development	14,678	58,827	73,505

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Single family residential	743	1,341	2,084
Consumer	2,210		2,210
Leases	10,061		10,061
Total loans	\$ 98,731	\$ 260,552	\$ 359,283

F-121

Table of Contents**HILLCREST BANK, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Hillcrest Bank****As of October 22, 2010****Note 6 Other Real Estate Owned**

The accompanying statement of assets acquired and liabilities assumed includes \$51.6 million of other real estate owned. These assets are covered by the loss sharing agreements with the FDIC and are comprised of properties acquired through the foreclosure or repossession process, or any other resolution activity that results in partial or total satisfaction of problem loans. Any losses on these assets or on subsequent foreclosures related to covered loans are substantially offset by a corresponding change in the FDIC indemnification asset. See note 2 for a discussion of the terms of the loss sharing arrangement.

Note 7 Core Deposit Intangible Asset

In connection with the Hillcrest Bank transaction, the Company recorded a core deposit intangible asset of \$5.8 million. The Company will amortize the core deposit intangible asset under the straight-line method over 7 years, which represents the expected useful life of the asset. This will result in approximately \$0.8 million of core deposit intangible amortization expense each year through 2017.

Note 8 Deposits

The scheduled maturity of certificates of deposits of \$100,000 or more, as of October 22, 2010, were as follows (in thousands):

3 months or less	\$ 80,696
Over three months through 6 months	64,349
Over 6 months through 12 months	124,739
Over 12 months	216,830
Total	\$ 486,614

In connection with the Hillcrest Bank acquisition, the FDIC provided the majority of Hillcrest Bank depositors with the right to cash in their time deposits at any time during the life of the time deposit, without penalty, unless the depositor accepts new terms. As of October 22, 2010 the Company had approximately \$922.7 million of time deposits that were subject to penalty-free withdrawals.

Note 9 Federal Home Loan Bank Advances

The Company assumed Federal Home Loan Bank (FHLB) advances with a fair value of \$83.9 million in connection with the acquisition of Hillcrest Bank. The advances were secured with \$31.5 million of loans and \$53.8 million of investment securities. The following table sets forth selected information regarding the FHLB advances assumed:

	Principal amounts due	Range of interest rates
Repayable during the year ended December 31,		
2010	\$ 5,000	5.91%
2011	15,000	0.98%-1.27%
2011	50,000	4.21% -5.33%
2012	3,350	6.35%

Edgar Filing: Oak Valley Bancorp - Form 10-Q

2017	5,000	3.74%
2023	2,110	6.07%
Total contractual amounts due	80,460	
Fair value adjustment	3,434	
Total as recorded by the Company	\$ 83,894	

F-122

Table of Contents**HILLCREST BANK, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Hillcrest Bank****As of October 22, 2010**

The Company paid off all amounts due under the FHLB advances by November 1, 2010. In doing so, the Company paid \$83.9 million, inclusive of \$3.4 million of prepayment penalties.

Note 10 Income Taxes

Due to the nature of the transaction as a taxable asset acquisition, the Company recorded offsetting deferred tax assets and deferred tax liabilities at the time of the acquisition due to the different allocation approaches of GAAP and the requirements of the tax laws. GAAP prescribes a fair value approach for the entire balance sheet (assets and liabilities) based on the purchase price. Tax laws provide a residual approach of asset classes based on the purchase price and the FDIC loss share agreement requires the covered assets to be valued at the greater of their fair market value or their guaranteed value; in addition, tax law does not assign any value to the GAAP loss share indemnification asset or related clawback liability. The two methods provide the same overall net result due to the purchase prices of the assets acquired and liabilities assumed; however, different amounts have been assigned to specific assets and liabilities creating a basis difference for GAAP and tax purposes resulting in offsetting deferred tax asset or liability items. For tax purposes, there was not a bargain purchase gain based on the allocation approach.

Note 11 Commitments

The Company acquired various off-balance sheet commitments that are not required to be recorded on the statement of assets acquired and liabilities assumed. These commitments are financing arrangements that help meet the needs of customers. These financial instruments include commitments to extend credit, commercial and consumer lines of credit, and standby letters of credit and involve varying degrees of credit risk. At the acquisition date, loan commitments totaled \$30.8 million and standby letters of credit totaled \$23.6 million, substantially all of which are covered under the loss sharing agreements with the FDIC. The total amounts of unused commitments do not necessarily represent future credit exposure or cash requirements, as commitments often expire without being drawn upon. However, the contractual amount of these commitments, offset by applicable loss sharing arrangements with the FDIC, represents the Company's potential credit loss exposure.

Total unfunded commitments at the acquisition date of October 22, 2010 were as follows (in thousands):

Commitments to fund loans	
Residential	\$ 670
Commercial and commercial real estate	16,107
Construction and land development	14,109
Commercial and standby letters of credit	23,593
Total	\$ 54,479

Commitments to fund loans Commitments to fund loans are legally binding agreements to lend to customers in accordance with predetermined contractual provisions providing there have been no violations of any conditions specified in the contract. These commitments are generally at variable interest rates and are for specific periods or contain termination clauses and may require the payment of a fee. The total amounts of unused commitments are not necessarily representations of future credit exposure or cash requirements, as commitments often expire without being drawn upon.

Commercial and standby letters of credit Commercial and standby letters of credit include financial standby letters of credit or performance standby letters of credit. These are various forms of back-up commitments to guarantee the performance of a customer to a third party. While these arrangements represent a potential cash outlay for the Company, the majority of these letters of credit will expire without being drawn upon. Many of the letters of credit have various forms of collateral securing the commitment, which may include real estate, personal property, receivables, or marketable securities.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

NBH Holdings Corp.:

We have audited the accompanying statement of assets acquired and liabilities assumed of Bank Midwest, N.A. (a wholly owned subsidiary of NBH Holdings Corp.) (the Company) as of December 10, 2010. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of assets acquired and liabilities assumed is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit of a statement of assets acquired and liabilities assumed also includes examining, on a test basis, evidence supporting the amounts and disclosures in that financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit of the statement of assets acquired and liabilities provides a reasonable basis for our opinion.

In our opinion, the statement of assets acquired and liabilities assumed referred to above presents fairly, in all material respects, the financial position of Bank Midwest, N.A. (a wholly owned subsidiary of NBH Holdings Corp.) as of December 10, 2010, in conformity with U.S. generally accepted accounting principles.

BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)

Notes to Statement of Assets Acquired and Liabilities Assumed of Bank Midwest

as of December 10, 2010

Note 1 Basis of Presentation

The accompanying financial statement includes the assets acquired and the liabilities assumed by NBH Holdings Corp. (now National Bank Holdings Corporation, the Company) in the acquisition of certain assets and liabilities of the former Bank Midwest, a banking subsidiary of Dickinson Financial Corporation (DFC). In conjunction with the acquisition of assets and assumption of liabilities, the Company obtained a new banking charter from the Office of the Comptroller of the Currency, Bank Midwest, N.A. (the Bank), which is a wholly owned subsidiary of the Company. The assets were acquired and the liabilities were assumed by the Bank on December 10, 2010.

As discussed in note 2, the Company acquired only select assets and assumed only select liabilities, and in light of the facts and circumstances involved, historical financial information of the former Bank Midwest provides limited understanding of future operations. Furthermore, the assets acquired and liabilities assumed were not operated as a distinct stand-alone entity with separate, audited financial statements. As a result, and pursuant to a request for relief submitted to, and not objected to by, the Securities and Exchange Commission, the information provided herein is in lieu of certain historical financial information of the net assets acquired required by Rule 3-05 and Article 11 of Regulation S-X.

Accounting principles generally accepted in the United States of America (GAAP) require management to make estimates that affect the reported amounts of assets acquired and liabilities assumed. By their nature, estimates are based on judgment and available information. Management has made significant estimates in certain areas, such as the amount and timing of expected cash flows from purchased assets, the fair value adjustments on assets acquired and liabilities assumed, and the valuation of core deposit intangible assets. Unless stated otherwise, the amounts presented herein include management's estimates, including the fair value adjustments described in note 3. Because of the inherent uncertainties associated with any estimation process and future changes in market and economic conditions, it is possible that actual results could differ significantly from those estimates.

Note 2 Assets Acquired and Liabilities Assumed

In July 2010, the Company agreed to acquire, and on December 10, 2010 completed the acquisition of, certain assets and the assumption of certain liabilities formerly held by Bank Midwest, one of six banking subsidiaries owned by DFC. In this transaction, the Company acquired 39 locations across Missouri and eastern Kansas, \$2.4 billion of deposits and approximately \$905.4 million of loans. The Company had specific performance criteria for the assets purchased and, as a result, did not acquire any non-accrual loans or other real estate owned in connection with the Bank Midwest transaction.

F-126

Table of Contents**BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Bank Midwest****as of December 10, 2010**

The Bank acquired \$2.4 billion of assets, assumed \$2.4 billion of liabilities, and paid \$56.0 million cash for the Bank Midwest net assets. The fair value of consideration paid exceeded the fair value of the assets acquired and liabilities assumed, and resulted in the establishment of goodwill in the amount of \$52.4 million, which will be tax deductible. Information regarding the assets acquired and liabilities assumed on December 10, 2010 in connection with the Bank Midwest acquisition and the fair value adjustments recorded by the Company in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 805, *Business Combinations*, are shown in the table below (in thousands):

	As Acquired from DFC	Fair Value Adjustments	Settlement amount paid to DFC	As recorded by the Company
Assets Acquired:				
Cash and cash equivalents	\$ 1,425,737	\$	\$ (56,000)	\$ 1,369,737
Investment securities, available for sale	55,360			55,360

Intangible assets		21,650		21,650
Accrued interest receivable	4,458			4,458
Other assets	3,520			3,520
Total assets	\$ 2,425,491	\$ 56,915	\$ (56,000)	\$ 2,426,406
Liabilities assumed:				
Deposits	\$ 2,384,982	\$ 915	\$	\$ 2,385,897
Accrued interest payable	11,089			11,089
Other liabilities	29,420			29,420
Total liabilities	\$ 2,425,491	\$ 915	\$	\$ 2,426,406

Note 3 Fair Value Determinations

The Company has determined that the acquisition of assets and the assumption of liabilities constitutes a business combination as defined in ASC Topic 805, *Business Combinations*. This guidance requires that all assets acquired and liabilities assumed in a business combination be recorded at their fair values as of the date of acquisition. The fair values have been determined in accordance with the guidance provided in ASC Topic 820, *Fair Value Measurements*.

Fair values of certain assets and liabilities were established by discounting the expected future cash flows at a market discount rate for like maturity and risk instruments. The estimation of expected future cash flows requires significant assumptions and management judgment about appropriate discount rates, the amount and timing of future cash flows, market conditions, and other future events, and actual results could differ materially. The Company has made the determinations of fair value using the best information available. Below is a description of the methods used to determine the fair values of significant assets and liabilities:

(a) Cash and cash equivalents

Cash and cash equivalents have a short-term nature and the estimated fair value was deemed to be equal to the carrying value.

F-127

Table of Contents

BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)

Notes to Statement of Assets Acquired and Liabilities Assumed of Bank Midwest

as of December 10, 2010

(b) *Investment securities*

The estimated fair value of investment securities was based on quoted market prices or bid quotations received from securities dealers.

(c) *Loans*

The estimated fair value of the loan portfolio was estimated using a discounted cash flow approach utilizing a discount rate based on interest rates being offered for loans with similar terms to borrowers of similar credit quality at the date of acquisition. In accordance with ASC Topic 805, no allowance for loan losses was carried forward with the acquired loans at the date of acquisition, but rather, any estimated credit losses inherent in the portfolio at the time of acquisition were included in the fair value estimates of the loans.

(d) *Core deposit intangible asset*

The core deposit intangible asset is representative of the value associated with the relationships that Bank Midwest had with its deposit customers at the date of acquisition. The Company engaged a third party to assist in the valuation of the core deposit intangible asset and the fair value was determined based on a discounted cash flow methodology that considered primary asset attributes such as expected customer run-off rates, cost of the deposit base, and reserve requirements.

(e) *Premises and equipment*

The estimated fair value of land and buildings was estimated based on third-party appraisals. The carrying value of equipment was deemed to be a reasonable fair value.

(f) *Accrued interest receivable*

Accrued interest receivable has a short-term nature and the estimated fair value was deemed to be equal to the carrying value.

(g) *Deposits*

The estimated fair value of deposits with no stated maturity, such as non-interest-bearing demand deposits, savings, NOW accounts, and money market accounts, was equal to the amount payable on demand at the acquisition date. The fair value adjustment on interest-bearing time deposits is representative of the differences in the contractual interest rates versus market interest rates for time deposits with similar remaining maturities at the date of acquisition. The fair value of these deposits was based on the discounted value of contractual cash flows of such deposits. The discount rate was estimated using market rates at the acquisition date, for deposits of similar remaining maturities.

(h) *Securities sold under agreements to repurchase*

The vast majority of the assumed repurchase agreements were overnight transactions that mature the day after the transaction and, as a result of this short-term nature, the estimated fair value was deemed to be equal to the carrying value.

(i) *Accrued interest payable*

Accrued interest payable has a short-term nature and the estimated fair value was deemed to be equal to the carrying value.

F-128

Table of Contents**BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Bank Midwest****as of December 10, 2010****Note 4 Investment Securities**

Acquired investment securities included \$55.4 million of U.S. Treasury securities with contractual maturities of less than one year and \$0.4 million of investments in Community Reinvestment Act ventures with no stated maturity.

Certain securities were pledged as collateral for public deposits and securities sold under agreements to repurchase. The carrying value of securities pledged as collateral totaled \$55.4 million at the date of acquisition.

Note 5 Loans

The following table reflects the composition and contractual maturities of loans purchased in the Bank Midwest transaction (in thousands):

	Due within 1 year	Due after 1 but within 5 years	Due after 5 years	Total
Commercial	\$ 23,723	\$ 74,453	\$ 30,629	\$ 128,805
Commercial real estate*	134,045	143,722	110,642	388,408

Consumer	9,756	10,134	4,661	24,551
Total	\$ 192,609	\$ 287,406	\$ 402,601	\$ 882,615

* Total includes \$47.1 million of loans secured by farmland.

The following table shows a distribution of acquired loans with a maturity of greater than one year between fixed and adjustable rate loans as of December 10, 2010 (in thousands):

	Fixed	Variable	Total
Commercial	\$ 57,084	\$ 47,998	\$ 105,082
Commercial real estate*	118,555	135,809	254,364
Agriculture	17,762	31,662	49,424
Residential real estate	90,344	175,997	266,341
Consumer	11,853	2,942	14,795
Total	\$ 295,598	\$ 394,408	\$ 690,006

* Includes \$12.6 million and \$31.1 million of fixed and variable rate loans secured by farmland, respectively.

The Company purchased only performing loans in the Bank Midwest acquisition and did not acquire any loans that were 90 days or more past due or on non-accrual status. The gross contractual amounts receivable, including interest, were \$1.3 billion as of the acquisition date and the

estimated contractual cash flows that were not expected to be collected totaled \$13.0 million.

F-129

Table of Contents**BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Bank Midwest****as of December 10, 2010****Note 6 Premises and Equipment**

Premises and equipment consisted of the following at December 10, 2010 (in thousands):

Land	\$ 14,549
Buildings and improvements	21,249
Equipment	426
Total	\$ 36,224

Note 7 Goodwill and Intangible Assets

In connection with the Bank Midwest transaction, the Company acquired a core deposit intangible of \$21.7 million. The core deposit intangible asset will be amortized straight line over seven years, which represents the expected useful life of the assets and will result in approximately \$3.1 million of core deposit intangible amortization expense each year through 2017.

The fair value of consideration paid exceeded the fair value of the Bank Midwest net assets acquired and resulted in the establishment of goodwill in the amount of \$52.4 million. In accordance with ASC Topic 350, *Intangibles - Goodwill and other*, the goodwill will be subject to a fair value-based impairment assessment at least annually. The goodwill will be deductible for income tax purposes.

Note 8 Deposits

The scheduled maturity of certificates of deposits of \$100,000 or more, as of acquisition date, were as follows (in thousands):

3 months or less	\$ 78,928
Over 3 months through 6 months	94,195
Over 6 months through 12 months	142,958
Over 12 months	31,716
Total	\$ 347,797

Note 9 Securities Sold Under Agreements to Repurchase

The Company assumed \$29.1 million of repurchase agreements at acquisition, all of which were deemed to be carried at fair value because the vast majority of the repurchase agreements were overnight transactions that matured within one day.

As of the date of acquisition, the securities sold under agreements to repurchase were secured by U.S. Treasury securities with an estimated fair value of \$55.4 million. At acquisition date, the overnight repurchase agreements had a weighted average interest rate of 0.25% and \$235 thousand were for periods longer than one day.

The Company did not assume any borrowings, unused lines of credit, or short-term financing agreements.

Table of Contents**BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Bank Midwest****as of December 10, 2010****Note 10 Income Taxes**

Due to the nature of the transaction as a taxable asset acquisition, the Company recorded offsetting deferred tax assets and deferred tax liabilities at the time of the acquisition due to the different allocation approaches of GAAP and the requirements of the tax laws. GAAP prescribes a fair value approach for the entire balance sheet (assets and liabilities) based on the purchase price. Tax laws provide a residual approach of asset classes based on the purchase price, inclusive of liabilities assumed based on their contractual terms. The two methods provide the same overall result due to the purchase prices of the assets acquired and liabilities assumed; however, different amounts have been assigned to specific assets and liabilities creating a basis difference for GAAP and tax purposes resulting in offsetting deferred tax asset or liability items.

Note 11 Commitments

The Company acquired various off-balance sheet commitments that are not required to be recorded on the statement of assets acquired and liabilities assumed. These commitments are financing arrangements that help meet the needs of customers. These financial instruments include commitments to extend credit, commercial and consumer lines of credit, and standby letters of credit and involve varying degrees of credit risk. At the acquisition date, loan commitments totaled \$182.9 million and standby letters of credit totaled \$8.8 million. The total amounts of unused commitments do not necessarily represent future credit exposure or cash requirements, as commitments often expire without being drawn upon. However, the contractual amount of these commitments represents the Company's potential credit loss exposure.

Total unfunded commitments at the acquisition date of December 10, 2010 were as follows (in thousands):

Commitments to fund loans:	
Residential	\$ 89
Commercial and commercial real estate	32,115
Construction and land development	3,675
Consumer	43
Credit card lines of credit	22,661
Unfunded commitments under lines of credit	124,335
Commercial and standby letters of credit	8,828
Total	\$ 191,746

Commitments to fund loans Commitments to fund loans are legally binding agreements to lend to customers in accordance with predetermined contractual provisions providing there have been no violations of any conditions specified in the contract. These commitments are generally at variable interest rates and are for specific periods or contain termination clauses and may require the payment of a fee. The total amounts of unused commitments are not necessarily representations of future credit exposure or cash requirements, as commitments often expire without being drawn upon.

Credit card lines of credit Credit card lines of credit have been extended to customers through the use of credit cards issued by the Bank. These lines of credit represent the maximum amounts allowed to be funded, many of which will not exhaust the established limits and, as such, these amounts are not necessarily representations of future cash requirements or credit exposure.

Unfunded commitments under lines of credit Unfunded commitments under lines of credit are revolving credit arrangements extended to customers in the ordinary course of business that may require the payment of a fee.

BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)

Notes to Statement of Assets Acquired and Liabilities Assumed of Bank Midwest

as of December 10, 2010

Commercial and standby letters of credit Commercial and standby letters of credit include financial standby letters of credit or performance standby letters of credit. These are various forms of back-up commitments to guarantee the performance of a customer to a third party. While these arrangements represent a potential cash outlay for the Company, the majority of these letters of credit will expire without being drawn upon. Many of the letters of credit have various forms of collateral securing the commitment, which may include real estate, personal property, receivables, or marketable securities.

Kansas City, MO 64106-2162

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

NBH Holdings Corp.:

We have audited the accompanying statement of assets acquired and liabilities assumed of Bank of Choice (acquired by Bank Midwest, N.A, a wholly owned subsidiary of NBH Holdings Corp. (the Company)) as of July 22, 2011. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of assets acquired and liabilities assumed is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit of a statement of assets acquired and liabilities assumed includes examining, on a test basis, evidence supporting the amounts and disclosures in that financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit of the statement of assets acquired and liabilities assumed provides a reasonable basis for our opinion.

In our opinion, the statement of assets acquired and liabilities assumed referred to above presents fairly, in all material respects, the financial position of Bank of Choice as of July 22, 2011, in conformity with U.S. generally accepted accounting principles.

BANK MIDWEST, N.A.

(A WHOLLY OWNED SUBSIDIARY OF NATIONAL BANK HOLDINGS CORPORATION)

NOTES TO STATEMENT OF ASSETS ACQUIRED AND LIABILITIES ASSUMED OF BANK OF

CHOICE

AS OF JULY 22, 2011

Note 1 Basis of Presentation

The accompanying financial statement includes the assets acquired and the liabilities assumed (net assets acquired) by NBH Holdings Corp. (now National Bank Holdings Corporation, the Company) through its wholly owned subsidiary, Bank Midwest, N.A., in the acquisition of the former Bank of Choice from the Federal Deposit Insurance Corporation (FDIC) on July 22, 2011.

In accordance with the guidance provided by Securities and Exchange Commission (SEC) Staff Accounting Bulletin Topic 1.K, Financial Statements of Acquired Troubled Financial Institutions (SAB 1.K), and pursuant to a request for relief submitted to, and not objected to by the SEC, the Company has omitted certain financial information of the Bank of Choice that is typically required under Rule 3-05 of Regulation S-X and the related pro forma financial information required by Article 11 of Regulation S-X. SAB 1.K provides relief from certain reporting requirements, including pro forma information in the case of an acquisition of a troubled financial institution for which historical financial information is not reasonably available and in which federal assistance is an essential and significant part of the transaction, or where the nature and magnitude of federal assistance is so pervasive as to substantially reduce the relevance of such information to an assessment of future operations.

U.S. generally accepted accounting principles (GAAP) require management to make estimates that affect the reported amounts of assets acquired and liabilities assumed. By their nature, estimates are based on judgment and available information. The initial accounting for the Bank of Choice acquisition has not been completed as it relates to loans and other real estate owned due to the timing of the receipt of current appraisals. Management has made reasonable estimates in these areas and future changes during the measurement period may occur. Management has also made significant estimates in certain other areas, such as the amount and timing of expected cash flows from purchased assets, the fair value adjustments on assets acquired and liabilities assumed, the valuation of core deposit intangible assets, the valuation of other real estate owned, and the value appreciation rights issued to the FDIC, as defined below. Unless stated otherwise, the amounts presented herein include management s estimates, including the fair value adjustments described in note 3. Because of the inherent uncertainties associated with any estimation process and future changes in market and economic conditions, it is possible that actual results could differ significantly from those estimates.

Note 2 Net Assets Acquired

On July 22, 2011, the Company entered into a purchase and assumption agreement with the FDIC, as receiver, to acquire certain assets and assume substantially all of the liabilities of the former Bank of Choice of Greeley, Colorado. Upon closing the acquisition, the Company reopened the 17 full-service banking branches previously owned by the Bank of Choice, as branches of Bank Midwest, N.A., branded as Bank of Choice.

Excluding the effects of purchase accounting adjustments, the Company acquired assets of \$772.6 million and assumed deposits and other liabilities of \$872.7 million in connection with the acquisition of Bank of Choice. The net liabilities were acquired at a discount of \$171.6 million, which is reflected as a portion of the cash acquired. In conjunction with the Bank of Choice purchase and assumption agreement, the Company also provided the FDIC with Value Appreciation Rights (VAR) whereby the FDIC is entitled to a cash payment equal to the excess of the Company s common stock price and a strike price of \$17.95 per unit at a future time, not to exceed two years. The VAR is applicable to a maximum of 100,000 units and the Company has estimated the fair value of the VAR at the date of acquisition of Bank of Choice to be approximately \$0.6 million, which is included in Due to FDIC in the accompanying statement of assets acquired and liabilities assumed.

Table of Contents**BANK MIDWEST, N.A.****(A WHOLLY OWNED SUBSIDIARY OF NATIONAL BANK HOLDINGS CORPORATION)****NOTES TO STATEMENT OF ASSETS ACQUIRED AND LIABILITIES ASSUMED OF BANK OF CHOICE****AS OF JULY 22, 2011**

Information regarding the fair value adjustments recorded by the Company in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 805 *Business Combinations* is shown in the following table (in thousands):

	As Acquired from FDIC	Fair Value Adjustments	Settlement amount received from FDIC	As recorded by the Company
Assets acquired:				
Cash and cash equivalents	\$ 128,265	\$	\$ 273,740	\$ 402,005
Investment securities available for sale	134,369			134,369
Non-marketable equity securities	9,840			9,840
Loans	447,738	(83,807)		363,931
Other real estate owned	49,833	(15,498)		34,335
Gain on bargain purchase		(63,204)		(63,204)
Premises and equipment	21			21
Core deposit intangible asset		5,190		5,190
Other assets	2,496			2,496
Total assets	\$ 772,562	\$ (157,319)	\$ 273,740	\$ 888,983
Liabilities assumed:				
Deposits	\$ 760,227	\$	\$	\$ 760,227
Federal Home Loan Bank advances	106,840	10,308		117,148
Accrued interest payable	751			751
Due to FDIC		2,526		2,526
Other liabilities	4,881	3,450		8,331
Total liabilities	\$ 872,699	\$ 16,284	\$	\$ 888,983

In connection with the Bank of Choice transaction, the Company recognized a \$5.2 million core deposit intangible and a bargain purchase gain of \$63.2 million. The bargain purchase gain of \$63.2 million recorded at the date of acquisition represents the amount by which the acquisition-date fair value of the identifiable net assets acquired (inclusive of the \$171.6 million purchase discount from the FDIC) exceeds the fair value of the consideration transferred.

Note 3 Fair Value Determinations

The Company has determined that the Bank of Choice acquisition constitutes a business combination as defined by ASC Topic 805. This guidance requires that all assets acquired and liabilities assumed in a business combination be recorded at their fair values as of the date of acquisition. The fair values have been determined in accordance with the guidance provided in ASC Topic 820, *Fair Value Measurements*.

Fair values of certain assets and liabilities were established by discounting the expected future cash flows at a market discount rate for like maturity and risk instruments. The estimation of expected future cash flows requires significant assumptions and management judgment about appropriate discount rates, the amount and timing of future cash flows, market conditions and other future events, and actual results could differ materially. The determination of the initial fair values of loans and other real estate owned involve a high degree of

Table of Contents

BANK MIDWEST, N.A.

(A WHOLLY OWNED SUBSIDIARY OF NATIONAL BANK HOLDINGS CORPORATION)

NOTES TO STATEMENT OF ASSETS ACQUIRED AND LIABILITIES ASSUMED OF BANK OF CHOICE

AS OF JULY 22, 2011

judgment and complexity. The Company has made the determinations of fair value using the best information available. Below is a description of the methods used to determine the fair values of significant assets and liabilities:

(a) *Cash and cash equivalents*

Cash and cash equivalents includes cash and highly liquid investments with maturities of three months or less at origination. The estimated fair value of cash and cash equivalents was deemed to be equal to the carrying value.

(b) *Investment securities*

The estimated fair values of investment securities available for sale were based on quoted market prices or bid quotations received from a third-party pricing service. The fair value of the non-marketable equity securities, which consisted of Federal Home Loan Bank of Topeka (FHLB) common stock, was deemed to be equal to par value.

(c) *Loans*

The fair value of the loan portfolio was estimated using a discounted cash flow approach. The cash flows were projected based on the expected probability of default, default timing and loss given default rates on loans. The expected cash flows were then discounted utilizing a discount rate based on interest rates being offered for loans with similar terms to borrowers of similar credit quality at the date of acquisition. In accordance with ASC Topic 805, no allowance for loan losses was carried forward with the acquired loans at the date of acquisition, but rather, any estimated credit losses inherent in the portfolio at the time of acquisition were included in the fair value estimates of the loans.

(d) *Other real estate owned*

The fair value of other real estate owned (OREO) was recorded at the fair value, less estimated selling costs. Fair value of the OREO property is generally estimated using both market and income approach valuation techniques incorporating observable market data to formulate an opinion of the estimated fair value. When current appraisals are not available, judgment was used based on managements' experience for similar properties.

(e) *Core deposit intangible asset*

The core deposit intangible asset is representative of the value associated with the relationships that Bank of Choice had with its deposit customers at the date of acquisition. The fair value was determined based on a discounted cash flow methodology that considered primary attributes such as expected customer runoff rates, cost of the deposit base, and reserve requirements.

(f) *Other assets*

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Other assets, which include accrued interest receivable, are short-term in nature and the estimated fair value was deemed to be equal to the carrying value.

F-137

Table of Contents**BANK MIDWEST, N.A.****(A WHOLLY OWNED SUBSIDIARY OF NATIONAL BANK HOLDINGS CORPORATION)****NOTES TO STATEMENT OF ASSETS ACQUIRED AND LIABILITIES ASSUMED OF BANK OF CHOICE****AS OF JULY 22, 2011****(g) Deposits**

The estimated fair value of deposits with no stated maturity, such as noninterest-bearing demand deposits, savings, negotiable order of withdrawal (NOW) accounts, and money market accounts, was equal to the amount payable on demand at the acquisition date. The FDIC provided Bank of Choice depositors with the right to cash in their time deposits at any time during the life of the time deposit, without penalty, unless the depositor accepts new terms. Additionally, the Company had the opportunity to change the interest rates on these deposits at the time of acquisition. The interest rates on certain deposits were changed at the date of acquisition to rates that the Company believed to be market rates for comparable deposits of similar remaining maturities. As a result, all time deposits were deemed to be at fair value as of the date of acquisition and no fair value adjustments were made.

(h) Securities sold under agreements to repurchase

The vast majority of the assumed repurchase agreements were overnight transactions that mature the day after the transaction and, as a result of this short-term nature, the estimated fair value was deemed to be equal to the carrying value.

(i) Federal Home Loan Bank advances

The fair values of the FHLB advances were based on discounted values of contractual cash flows of the advances. The discount rate was estimated using interest rates at the acquisition date for advances of similar remaining maturities.

(j) Value appreciation rights issued to FDIC

The estimated fair value of the VAR is tied to the Company's stock price and was based on the spread between the strike price of the VAR and the average multiple of price to tangible book value indicated by national and regional bank indices, multiplied by the maximum number of applicable units.

(k) Other liabilities

Other liabilities, which include accrued interest payable, are short-term in nature and the estimated fair value was deemed to be equal to the carrying value.

Note 4 Investment Securities

The investment securities portfolio comprised investment securities available for sale and non-marketable investment securities. The fair values of investment securities at the date of acquisition are summarized as follows (in thousands):

	Fair Value	Average Yield
Residential collateralized mortgage obligations	\$ 100,641	2.42%

Edgar Filing: Oak Valley Bancorp - Form 10-Q

Residential mortgage pass-through securities	33,728	2.51%
Total investment securities available for sale	\$ 134,369	2.44%
Non-marketable securities	9,840	0.59%
Total investment securities	\$ 144,209	2.65%

F-138

Table of Contents**BANK MIDWEST, N.A.****(A WHOLLY OWNED SUBSIDIARY OF NATIONAL BANK HOLDINGS CORPORATION)****NOTES TO STATEMENT OF ASSETS ACQUIRED AND LIABILITIES ASSUMED OF BANK OF CHOICE****AS OF JULY 22, 2011**

All investment securities available for sale were backed by Government National Mortgage Association government sponsored enterprises collateral. The estimated weighted average life of the mortgage-backed securities portfolio as of the acquisition date was 5.50 years. This estimate is based on assumptions and actual results may differ.

Certain securities were pledged as collateral for public deposits, securities sold under agreements to repurchase, and to secure borrowing capacity at the FHLB, if needed. \$119.0 million of investment securities available for sale were pledged at the acquisition date for such purposes.

Non-marketable securities consist of \$9.8 million of FHLB stock, \$5.3 million of which was required based on the level of borrowings from the FHLB.

Note 5 Loans

The majority of the acquired loans exhibited credit quality deterioration at the date of acquisition and are within the scope of Accounting Standards Codification (ASC) Topic 310-30 *Receivables - Loans and Debt Securities Acquired with Deteriorated Credit Quality*. Loans acquired without deteriorated credit quality and loans with revolving privileges are outside the scope of this guidance and are accounted for under the cost recovery method.

Loans are reflected at their recorded fair value. Generally, the determination of the fair value of the loans resulted in a significant write-down in the value of the loans, which was assigned to an accretable yield or non-accretable difference, with the accretable yield to be recognized as interest income over the expected remaining term of the loan. The following table reflects the composition of all acquired loans as of July 22, 2011 (in thousands):

	Loans accounted for under FASB ASC Topic 310-30	Loans excluded from FASB ASC Topic 310-30	Total loans
Commercial and industrial	\$ 45,086	\$ 23,934	\$ 69,020
Construction	85,892	4,906	90,798
Commercial real estate	85,770	2,107	87,877
Agriculture	15,167	652	15,819
Single family residential investment	43,809	363	44,172
Single family residential owner occupied	40,910	966	41,876
Consumer	2,864	10,754	13,618
Leases		751	751
Total loans	\$ 319,498	\$ 44,433	\$ 363,931

The outstanding balance of all loans, including contractual principal, interest, fees, and penalties, was \$463.3 million as of the date of acquisition.

Table of Contents**BANK MIDWEST, N.A.****(A WHOLLY OWNED SUBSIDIARY OF NATIONAL BANK HOLDINGS CORPORATION)****NOTES TO STATEMENT OF ASSETS ACQUIRED AND LIABILITIES ASSUMED OF BANK OF CHOICE****AS OF JULY 22, 2011**

Below is the composition of the net book value for loans accounted for under ASC Topic 310-30 at July 22, 2011 (in thousands):

Contractual cash flows of loans accounted for under ASC Topic 310-30	\$ 448,389
Nonaccretable discount	(95,187)
Cash flows expected to be collected	353,202
Accretable discount	(33,704)
Loans accounted for under ASC Topic 310-30	\$ 319,498

Loans are considered past due or delinquent when the contractual principal or interest due in accordance with the terms of the loan agreement or any portion thereof remains unpaid after the due date of the scheduled payment. Loans accounted for under ASC Topic 310-30 are generally classified as performing, even though they may be contractually past due, as any non-payment of contractual principal or interest was considered in the estimation of expected cash flows and will be included in the resulting recognition of future period loan loss provision or future period yield adjustments.

The following table reflects the composition and contractual maturities of loans purchased in the Bank of Choice acquisition (in thousands):

	Due within 1 year	Due after 1 but within 5 years	Due after 5 years	Total
Commercial and industrial	\$ 32,090	\$ 32,481	\$ 4,449	\$ 69,020
Construction	79,106	11,225	467	90,798
Commercial real estate	30,454	26,800	30,623	87,877
Agriculture	5,940	8,352	1,527	15,819

Table of Contents**BANK MIDWEST, N.A.****(A WHOLLY OWNED SUBSIDIARY OF NATIONAL BANK HOLDINGS CORPORATION)****NOTES TO STATEMENT OF ASSETS ACQUIRED AND LIABILITIES ASSUMED OF BANK OF CHOICE****AS OF JULY 22, 2011****Note 6 Other Real Estate Owned**

The accompanying statement of assets acquired and liabilities assumed includes \$34.3 million of other real estate owned. These assets are comprised of properties acquired through the foreclosure or repossession process, or any other resolution activity that results in partial or total satisfaction of problem loans.

Note 7 Core Deposit Intangible Asset

In connection with the Bank of Choice transaction, the Company recorded a core deposit intangible asset of \$5.2 million. The Company will amortize the core deposit intangible asset under the straight-line method over 7 years, which represents the expected useful life of the asset. This will result in approximately \$0.7 million of core deposit intangible amortization expense each year through 2018.

Note 8 Deposits

The scheduled maturity of time deposits of \$100,000 or more, as of July 22, 2011, were as follows (in thousands):

3 months or less	\$ 91,565
Over three months through 6 months	53,689
Over 6 months through 12 months	45,393
Over 12 months	16,212
Total	\$ 206,859

In connection with the Bank of Choice acquisition, the FDIC provided the majority of the Bank of Choice depositors with the right to cash in their time deposits at any time during the life of the time deposit, without penalty, unless the depositor accepts new terms. As of July 22, 2011 all of the Company's \$365.2 million of assumed certificates of deposit were subject to penalty-free withdrawals.

Table of Contents**BANK MIDWEST, N.A.****(A WHOLLY OWNED SUBSIDIARY OF NATIONAL BANK HOLDINGS CORPORATION)****NOTES TO STATEMENT OF ASSETS ACQUIRED AND LIABILITIES ASSUMED OF BANK OF CHOICE****AS OF JULY 22, 2011****Note 9 Federal Home Loan Bank Advances**

The Company assumed FHLB advances with a fair value of \$117.1 million in connection with the acquisition of the Bank of Choice. The advances were secured with loans of \$218.5 million and investment securities available for sale of \$107.0 million. The following table sets forth selected information regarding the FHLB advances assumed:

	Principal amounts due	Range of interest rates
Repayable during the year ending December 31,		
2011	\$ 30	4.88%
2012	12,060	3.53%-4.88%
2013	20,060	2.71%-4.88%
2014	60	4.88%
2015	60	4.88%
Thereafter	74,570	3.25%-5.32%
Total contractual amounts due	106,840	
Fair value adjustment	10,308	
Total as recorded by the Company	\$ 117,148	

Bank Midwest, N.A. repaid all amounts due under the FHLB advances on July 25, 2011. In doing so, the Company paid \$117.4 million, inclusive of \$10.3 million of prepayment penalties and \$0.3 million of accrued interest payable.

Note 10 Income Taxes

Due to the nature of the transaction as a taxable asset acquisition, the Company recorded offsetting deferred tax assets and deferred tax liabilities at the time of the acquisition due to the different allocation approaches of GAAP and the requirements of the tax laws. GAAP prescribes a fair value approach for the entire balance sheet (assets and liabilities) based on the purchase price. Tax laws provide a residual approach of asset classes based on the purchase price. The two methods provide the same overall net result due to the purchase prices of the assets acquired and liabilities assumed; however, different amounts have been assigned to specific assets and liabilities creating a basis difference for GAAP and tax purposes resulting in offsetting deferred tax asset or liability items. For tax purposes, there was not a bargain purchase gain based on the allocation approach.

Note 11 Commitments

The Company acquired various off-balance sheet commitments that are not required to be recorded on the statement of assets acquired and liabilities assumed. These commitments are financing arrangements that help meet the needs of customers. These financial instruments include commitments to extend credit, commercial letters of credit, and standby letters of credit and involve varying degrees of credit risk. At the acquisition date, loan commitments totaled \$23.3 million and standby letters of credit totaled \$0.8 million. The total amounts of unused commitments do not necessarily represent future credit exposure or cash requirements, as commitments often expire without being drawn upon. However, the contractual amount of these commitments, represents the Company's potential credit loss exposure.

Table of Contents**BANK MIDWEST, N.A.****(A WHOLLY OWNED SUBSIDIARY OF NATIONAL BANK HOLDINGS CORPORATION)****NOTES TO STATEMENT OF ASSETS ACQUIRED AND LIABILITIES ASSUMED OF BANK OF CHOICE****AS OF JULY 22, 2011**

Total unfunded commitments at the acquisition date of July 22, 2011 were as follows (in thousands):

Commitments to fund loans	
Residential	\$ 10,018
Commercial and commercial real estate	11,678
Construction and land development	1,649
Commercial and standby letters of credit	800
Total	\$ 24,145

Commitments to fund loans Commitments to fund loans are legally binding agreements to lend to customers in accordance with predetermined contractual provisions providing there have been no violations of any conditions specified in the contract. These commitments are generally at variable interest rates and are for specific periods or contain termination clauses and may require the payment of a fee. The total amounts of unused commitments are not necessarily representations of future credit exposure or cash requirements, as commitments often expire without being drawn upon.

Commercial and standby letters of credit Commercial and standby letters of credit include financial standby letters of credit or performance standby letters of credit. These are various forms of back-up commitments to guarantee the performance of a customer to a third party. While these arrangements represent a potential cash outlay for the Company, the majority of these letters of credit will expire without being drawn upon. Many of the letters of credit have various forms of collateral securing the commitment, which may include real estate, personal property, receivables, or marketable securities.

Note 12 Subsequent Events

In conjunction with our acquisition of the Bank of Choice our agreement with the FDIC provides us at least 90 days after the acquisition date to notify the FDIC of our intent to purchase the branch premises and equipment of these failed banks. The notification period is still open as the deadline was extended pending receipt of current appraisals of the properties.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

National Bank Holdings Corporation:

We have audited the accompanying statement of assets acquired and liabilities assumed of Community Banks of Colorado (acquired by Bank Midwest, N.A., a wholly owned subsidiary of National Bank Holdings Corporation (fka NBH Holdings Corp.) (the Company)) as of October 21, 2011. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of assets acquired and liabilities assumed is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit of a statement of assets acquired and liabilities assumed includes examining, on a test basis, evidence supporting the amounts and disclosures in that financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit of the statement of assets acquired and liabilities assumed provides a reasonable basis for our opinion.

In our opinion, the statement of assets acquired and liabilities assumed referred to above presents fairly, in all material respects, the financial position of Community Banks of Colorado as of October 21, 2011, in conformity with U.S. generally accepted accounting principles.

BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)

Notes to Statement of Assets Acquired and Liabilities Assumed of Community Banks of Colorado

as of October 21, 2011

Note 1 Basis of Presentation

The accompanying financial statement includes the assets acquired and the liabilities assumed (net assets acquired) by National Bank Holdings Corporation (the Company) through its wholly owned subsidiary, Bank Midwest, N.A., in the acquisition of the former Community Banks of Colorado from the Federal Deposit Insurance Corporation (FDIC) on October 21, 2011.

In accordance with the guidance provided by Securities and Exchange Commission (SEC) Staff Accounting Bulletin Topic 1.K, Financial Statements of Acquired Troubled Financial Institutions (SAB 1.K), and pursuant to a request for relief submitted to, and not objected to by the SEC, the Company has omitted certain financial information of Community Banks of Colorado that is typically required under Rule 3-05 of Regulation S-X and the related pro forma financial information required by Article 11 of Regulation S-X. SAB 1.K provides relief from certain reporting requirements, including pro forma information in the case of an acquisition of a troubled financial institution for which historical financial information is not reasonably available and in which federal assistance is an essential and significant part of the transaction, or where the nature and magnitude of federal assistance is so pervasive as to substantially reduce the relevance of such information to an assessment of future operations.

Accounting principles generally accepted in the United States of America (GAAP) require management to make estimates that affect the reported amounts of assets acquired and liabilities assumed. By their nature, estimates are based on judgment and available information. Management has made significant estimates in certain areas, such as the amount and timing of expected cash flows from assets acquired and liabilities assumed, the fair value adjustments on assets acquired and liabilities assumed, the valuation of core deposit intangible assets, the valuation of other real estate owned, the valuation of the FDIC indemnification asset and clawback liability, and the value appreciation rights issued to the FDIC, as defined below. Unless stated otherwise, the amounts presented herein include management s estimates, including the fair value adjustments described in notes 2 and 3. The fair values of assets acquired and liabilities assumed are subject to refinement for up to one year after the closing date of the transaction as additional information regarding closing date fair values becomes available.

Note 2 Net Assets Acquired

On October 21, 2011, the Company entered into a purchase and assumption agreement with the FDIC, as receiver, to acquire certain assets and assume substantially all of the liabilities of the former Community Banks of Colorado of Greenwood Village, Colorado. Upon closing the acquisition, the Company reopened the 39 full-service banking centers previously owned by Community Banks of Colorado, as branches of Bank Midwest, N.A., branded as Community Banks of Colorado.

Excluding the effects of acquisition accounting adjustments, the Company acquired assets of \$1.3 billion and assumed deposits and other liabilities of \$1.2 billion in connection with the acquisition of Community Banks of Colorado. The net assets were acquired at a discount of \$98.0 million, which is reflected as a portion of the cash acquired, and the settlement amount received from the FDIC at close was \$61.4 million. In conjunction with the Community Banks of Colorado purchase and assumption agreement, the Company also provided the FDIC with Value Appreciation Rights (VAR) whereby the FDIC is entitled to a payment equal to the excess of the Company s common stock price over a strike price of \$18.93 per unit at a future time, not later than October 21, 2013. The VAR may be settled in cash or in shares of the Company s common stock at the FDIC s option. The VAR is applicable to a maximum of 100,000 units and the Company has estimated the fair value of the VAR at the date of acquisition of Community Banks of Colorado to be approximately \$0.5 million, which is included in Due to FDIC in the accompanying statement of assets acquired and liabilities assumed.

Table of Contents**BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Community Banks of Colorado****as of October 21, 2011**

The Company has determined that the Community Banks of Colorado acquisition constitutes a business combination as defined by the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 805, *Business Combinations*. This guidance requires that all assets acquired and liabilities assumed in a business combination be recorded at their fair values as of the date of acquisition. Information regarding the fair value adjustments recorded by the Company in accordance with ASC Topic 805, is shown in the following table (in thousands):

	As acquired from FDIC	Fair value adjustments	Settlement amount received from FDIC	As recorded by the Company
Assets acquired:				
Cash and cash equivalents	\$ 188,770	\$	\$ 61,390	\$ 250,160
Investment securities, available-for-sale	11,361			11,361
Non-marketable investment securities	2,753			2,753
Loans	966,248	(211,365)		754,883
FDIC indemnification asset		150,987		150,987
Other real estate owned	72,478	(42,729)		29,749
Premises and equipment	212			212
Goodwill		7,188		7,188
Core deposit intangible asset		4,810		4,810
Due from FDIC	9,936			9,936
Other assets	6,245			6,245
Total assets	\$ 1,258,003	\$ (91,109)	\$ 61,390	\$ 1,228,284
Liabilities assumed:				
Deposits	\$ 1,194,987	\$	\$	\$ 1,194,987
Federal Home Loan Bank advances	15,000	1,381		16,381
Clawback liability		14,800		14,800
Due to FDIC	630	547		1,177
Other liabilities	939			939
Total liabilities	\$ 1,211,556	\$ 16,728	\$	\$ 1,228,284

The fair value of loans and OREO acquired in the Community Banks of Colorado acquisition decreased \$7.1 and \$1.6 million during the measurement period from the original estimates. The change resulted in an increase to the indemnification asset of \$5.5 million, an increase in goodwill of \$2.7 million and a decrease to the clawback liability of \$0.5 million. These adjustments are reflected in the above table.

In connection with the purchase and assumption agreement with the FDIC, the Company entered into a loss sharing agreement with the FDIC whereby the Company will be reimbursed by the FDIC for a portion of the losses incurred on certain loans and other real estate owned (OREO) as a result of the resolution and disposition of the problem assets of Community Banks of Colorado. The loss sharing agreement with the FDIC covers a significant portion of the Community Banks of Colorado commercial loans, certain other loans and unfunded commitments, and certain OREO, which are collectively referred to as the covered assets. However, the Company also acquired other assets of Community Banks of Colorado that are not covered by the loss sharing agreements, including \$250.2 million of cash and cash equivalents, \$11.4 million of investment securities, \$2.8 million of non-marketable investment securities, \$288.2 million of non-covered loans and overdrafts, \$4.9 million of

Edgar Filing: Oak Valley Bancorp - Form 10-Q

non-covered OREO, \$4.0 million of accrued interest and \$2.2 million of other assets. The loss sharing agreement covers losses on both loans and OREO and has provisions that reimburse the Company for direct expenses related to the resolution of the covered assets. For purposes of the loss sharing

F-147

Table of Contents**BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Community Banks of Colorado****as of October 21, 2011**

agreement, there are three tranches of losses, each beginning after the loss threshold of the previous tranche has been met, and each with a specified loss-coverage percentage. The categories, and the respective loss thresholds and coverage amounts are as follows (dollars in thousands):

Tranche	Loss Threshold	Loss-Coverage Percentage
1	Up to \$204,194	80%
2	\$204,195-\$308,020	30%
3	>\$308,020	80%

The FDIC's obligation to reimburse the Company for losses with respect to covered assets begins with the first dollar of loss incurred. For purposes of the Community Banks of Colorado loss sharing agreement, the anticipated losses on the covered assets are grouped into one category, commercial assets, and are subject to one loss sharing agreement expiring in eight years. Under the agreement, the Company will share in losses and recoveries with the FDIC for the first five years, and after the first five years the FDIC will not share in losses but only recoveries for the remaining term of the agreement. The reimbursable losses from the FDIC are based on the book value of the relevant covered assets as determined by the FDIC at the date of acquisition and may not directly correspond to the Company's carrying value of the related assets.

The expected reimbursement from the FDIC under the loss sharing agreement is reflected in the accompanying statement of assets acquired and liabilities assumed as an indemnification asset at its estimated fair value of \$151.0 million.

Within 45 days of the end of the loss sharing agreement with the FDIC, the Company must pay the FDIC in the event that losses do not reach a specified threshold, based on the initial discount received less cumulative servicing amounts for the covered assets acquired. The Company recorded \$14.8 million as the estimated fair value of this clawback liability at the acquisition date.

In connection with the Community Banks of Colorado transaction, the Company recognized a \$4.8 million core deposit intangible and approximately \$7.2 million of goodwill. The goodwill of \$7.2 million recorded at the date of acquisition represents the amount by which the fair value of the consideration paid exceeds the acquisition-date fair value of the identifiable net assets acquired.

Note 3 Fair Value Determinations

In accordance with ASC Topic 805, the Company has recorded the assets acquired and liabilities assumed of the Community Banks of Colorado at fair value as of the date of acquisition. The fair values have been determined in accordance with the guidance provided in ASC Topic 820, *Fair Value Measurements*.

Fair values of certain assets and liabilities were established by discounting the expected future cash flows at a market discount rate for similar maturity and risk instruments. The estimation of expected future cash flows requires significant assumptions and management judgment about appropriate discount rates, the amount and timing of future cash flows, market conditions and other future events, and actual results could differ materially. The determination of the initial fair values of covered and non-covered loans, other real estate owned, the FDIC indemnification asset and the clawback liability involve a high degree of judgment and complexity. The Company has made the determinations of fair value using the best information available. Below is a description of the methods used to determine the fair values of significant assets and liabilities:

Table of Contents

BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)

Notes to Statement of Assets Acquired and Liabilities Assumed of Community Banks of Colorado

as of October 21, 2011

(a) *Cash and cash equivalents*

Cash and cash equivalents includes cash and highly liquid investments with maturities of three months or less at origination. The estimated fair value of cash and cash equivalents was deemed to be equal to the carrying value.

(b) *Investment securities*

The estimated fair values of investment securities available for sale were based on quoted market prices or bid quotations received from a third-party pricing service.

(c) *Non-marketable equity securities*

The fair value of non-marketable equity securities, which consisted of Federal Home Loan Bank of Topeka (FHLB) common stock and Federal Reserve Bank stock, were deemed to be equal to par value.

(d) *Loans receivable*

The fair value of the loan portfolio was estimated using a discounted cash flow approach. The cash flows were projected based on the expected probability of default, default timing and loss given default rates on loans. The expected cash flows were then discounted utilizing a discount rate based on interest rates being offered for loans with similar terms to borrowers of similar credit quality at the date of acquisition. In accordance with ASC Topic 805, no allowance for loan losses was carried forward with the acquired loans at the date of acquisition, but rather, any estimated credit losses inherent in the portfolio at the time of acquisition were included in the fair value estimates of the loans.

(e) *FDIC indemnification asset*

The loss sharing agreement with the FDIC resulted in an FDIC indemnification asset that is measured separately from the related covered assets as the loss sharing agreement is not contractually embedded in the covered assets and is not transferable should the Company choose to dispose of the covered assets. The fair value of the FDIC indemnification asset was determined based upon projected cash flows from the loss sharing agreement and the timing and amount of expected reimbursements for losses on covered assets at the applicable loss sharing percentages in accordance with the terms of the loss sharing agreement with the FDIC. The projected cash flows were discounted at a market discount rate of similar maturity and risk instruments to reflect the timing and receipt of the loss sharing reimbursements from the FDIC.

(f) *Other real estate owned*

OREO was recorded at fair value, less estimated selling costs. The fair value of OREO is generally based upon current appraisals, using both market and income approach valuation techniques, and incorporating observable market data. When current appraisals are not available, judgment is used based on management's experience with similar properties.

(g) *Core deposit intangible asset*

Edgar Filing: Oak Valley Bancorp - Form 10-Q

The core deposit intangible asset is representative of the value associated with the relationships that Community Banks of Colorado had with its deposit customers at the date of acquisition. The fair value was determined based on a discounted cash flow methodology that considered primary asset attributes such as expected customer runoff rates, cost of the deposit base, and reserve requirements.

F-149

Table of Contents

BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)

Notes to Statement of Assets Acquired and Liabilities Assumed of Community Banks of Colorado

as of October 21, 2011

(h) Other assets

Other assets, which include accrued interest receivable, are short-term in nature and the estimated fair values were deemed to be equal to the carrying value.

(i) Deposits

The estimated fair value of deposits with no stated maturity, such as noninterest-bearing demand deposits, savings, negotiable order of withdrawal (NOW) accounts, and money market accounts, is equal to the amount payable on demand at the acquisition date. The FDIC provided Community Banks of Colorado depositors with the right to withdraw their time deposits at any time, without penalty, unless the depositor accepts new terms. Additionally, the Company had the opportunity to change the interest rates on these deposits at the date of acquisition. As a result, all time deposits were deemed to be at fair value as of the date of acquisition and no fair value adjustments were made.

(j) Federal Home Loan Bank Advances

The fair values of the FHLB advances were based on discounted values of contractual cash flows of the advances. The discount rate was estimated using market rates at the acquisition date, for advances of similar remaining maturities.

(k) Clawback liability

The clawback liability represents the Company's obligation to refund a portion of the cash received from the FDIC at acquisition in the event that losses do not reach a specified loss sharing threshold, based on the initial discount received of \$98 million less cumulative servicing amounts for the covered assets acquired. The Company estimated the fair value of the clawback liability based on the net present value of expected future cash payments to be made by the Company to the FDIC. The expected cash flows were calculated in accordance with the loss sharing agreement and are based primarily on the expected losses on the covered assets, which involve significant inputs that are not market observable.

(l) Due to FDIC

The amount due to FDIC is comprised of the value appreciation rights issued to the FDIC, which are tied to the Company's stock price, and short-term settlement items that, due to their short-term nature, were deemed to have fair values equal to the carrying value.

(m) Value appreciation rights issued to FDIC

The estimated fair value of the VAR is tied to the Company's stock price and, in the absence of a publicly traded stock price, was based on the spread between the strike price of the VAR and the average multiple of price to tangible book value indicated by national and regional bank indices, multiplied by the maximum number of applicable units.

(n) Other liabilities

Other liabilities, which include accrued interest payable, are short-term in nature and the estimated fair value was deemed to be equal to the carrying value.

Table of Contents**BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Community Banks of Colorado**

as of October 21, 2011

Note 4 Investment Securities

The investment securities portfolio comprised investment securities available for sale. The fair values of investment securities available for sale at the date of acquisition are summarized as follows (dollars in thousands):

	Fair Value
U.S. Treasury securities	\$ 8,000
U.S. sponsored agency obligations	3,014
Residential collateralized mortgage obligations	87
Other securities	260
Total investment securities available-for-sale	\$ 11,361

The Company had one FHLB agency debenture for \$3.0 million with a remaining contractual maturity of 2.6 years. The Company estimates that the weighted average life of the collateralized mortgage obligations portfolio as of the acquisition date was 3.34 years. This estimate is based on assumptions and actual results may differ. All other investment securities have a remaining contractual maturity of less than one year.

All securities were pledged as collateral for public deposits, and to secure borrowing capacity at the Federal Home Loan Bank. \$11.4 million of investment securities were pledged at the acquisition date for such purposes.

Note 5 Non-marketable Equity Securities

Non-marketable equity securities consist of \$2.0 million of FHLB stock that was required based on the level of borrowings from the FHLB and \$0.7 Federal Reserve Bank stock that was held for regulatory purposes.

Note 6 Loans Receivable

The majority of the acquired loans are within the scope of ASC Topic 310-30 except loans with revolving privileges, which are outside the scope of this guidance, and loans for which cash flows could not be estimated, which are accounted for under the cost recovery method.

The Company's loss sharing agreement with the FDIC covers commercial loans; however, for purposes of the loss sharing agreement, certain commercial loans, as selected by the FDIC, are excluded from the loss sharing agreement, and certain non-commercial loans are covered. All loans were recorded at their estimated fair value. Generally, the determination of the fair value of the loans resulted in a significant write-down in the value of the loans, which was assigned to an accretable yield or non-accretable difference, with the accretable yield to be recognized as interest income over the expected remaining term of the loan. The following table reflects the composition of all acquired loans at fair value as of October 21, 2011 (in thousands):

Covered loans		Non-covered loans		Total loans
Loans accounted for under FASB ASC	Loans excluded from FASB ASC 310-30	Loans accounted for under FASB ASC 310-30	Loans excluded from FASB ASC 310-30	

Edgar Filing: Oak Valley Bancorp - Form 10-Q

	310-30				
Commercial	\$ 96,193	\$ 43,288	\$ 812	\$ 1,538	\$ 141,831
Commercial real estate	219,835	6,744	118,068	1,676	346,323
Agriculture	58,185	30,056	818	137	89,196
Residential real estate	12,378	29	87,234	33,543	133,184
Consumer	8	6	43,149	1,186	44,349
Total	\$ 386,599	\$ 80,123	\$ 250,081	\$ 38,080	\$ 754,883

F-151

Table of Contents**BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Community Banks of Colorado****as of October 21, 2011**

The outstanding balance of loans accounted for under ASC Topic 310-30, including contractual principal, interest, fees, and penalties, was \$537.8 million for covered loans and \$300.7 million for non-covered loans, as of the date of acquisition. At the date of acquisition, the gross contractual amounts receivable for loans not subject to the requirements of ASC Topic 310-30 was \$144.7 million, the Company's best estimate of contractual cash flows not expected to be collected was \$27.0 million and recorded fair value was \$116.8 million.

Below is the composition of the net book value for loans accounted for under ASC Topic 310-30 at October 21, 2011 (in thousands):

Contractual cash flows of loans accounted for under ASC Topic 310-30	\$ 970,376
Non-accretable difference	(237,070)
Cash flows expected to be collected	733,306
Accretable yield	(96,626)
Loans accounted for under ASC Topic 310-30	\$ 636,680

All loans are considered past due when the contractual principal or interest payments due in accordance with the terms of the loan agreement remain unpaid after the due date of the scheduled payment. Loans accounted for under ASC Topic 310-30 are generally classified as performing, even though they may be contractually past due, as any non-payment of contractual principal or interest was considered in the estimation of expected cash flows and will be included in the resulting recognition of future period covered loan loss provision or future period yield adjustments.

The following table reflects the composition and contractual maturities of loans purchased in the Community Banks of Colorado transaction (in thousands):

	Due within 1 Year	Due after 1 but within 5 years	Due after 5 years	Total
Covered loans:				
Commercial	\$ 55,711	\$ 54,000	\$ 29,770	\$ 139,481

Total non-covered loans	63,788	153,192	216,980
Total loans	\$ 132,607	\$ 377,865	\$ 510,472

Note 7 Other Real Estate Owned

The accompanying statement of assets acquired and liabilities assumed includes \$29.8 million of other real estate owned. These assets are comprised of properties acquired through the foreclosure or repossession process, or any other resolution activity that results in partial or total satisfaction of problem loans. \$24.8 million, or 83.5%, of the OREO are covered by the loss sharing agreement with the FDIC and any losses, as measured by the FDIC's book value, on these covered assets or on subsequent foreclosures related to covered loans are shared with the FDIC at the applicable loss-coverage percentage. See note 2 for a discussion of the terms of the loss sharing arrangement.

Note 8 Goodwill and Core Deposit Intangible Asset

In connection with the Community Banks of Colorado transaction, the Company recorded a core deposit intangible asset of \$4.8 million. The Company will amortize the core deposit intangible asset under the straight-line method over 7 years, which represents the expected useful life of the asset. This will result in approximately \$0.7 million of core deposit intangible amortization expense each year through 2018.

The fair value of consideration paid exceeded the fair value of the net assets acquired and resulted in the establishment of goodwill in the amount of \$7.2 million. In accordance with ASC Topic 350, *Intangibles - Goodwill and Other*, the goodwill will be subject to a fair value-based impairment assessment at least annually. The goodwill will be deductible for income tax purposes.

Table of Contents**BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Community Banks of Colorado****as of October 21, 2011****Note 9 Deposits**

The scheduled maturity of certificates of deposits of \$100,000 or more, as of October 21, 2011, were as follows (in thousands):

3 months or less	\$ 72,707
Over three months through 6 months	78,465
Over 6 months through 12 months	135,424
Over 12 months	89,634
Total	\$ 376,230

In connection with the Community Banks of Colorado acquisition, the FDIC provided the majority of Community Banks of Colorado depositors with the right to redeem their time deposits at any time during the life of the deposit, without penalty, unless the depositor accepts new terms. As of October 21, 2011, the Company had approximately \$733.3 million of time deposits that were subject to penalty-free withdrawals.

Note 10 Federal Home Loan Bank Advances

The Company assumed Federal Home Loan Bank of Topeka (FHLB) advances with a fair value of \$16.4 million in connection with the acquisition of Community Banks of Colorado. The advances were secured with \$121.5 million of loans and \$5.0 million of investment securities. The following table sets forth selected information regarding the FHLB advances assumed:

	Principal amounts due	Interest rates
Repayable during the year ending December 31,		
2012	\$ 5,000	4.93%
2018	10,000	3.34%
Total contractual amounts due	15,000	
Fair value adjustment	1,381	
Total	\$ 16,381	

The Company repaid all amounts due under the FHLB advances on October 24, 2011. In doing so, the Company paid \$16.4 million, inclusive of \$1.4 million of prepayment penalties.

Note 11 Income Taxes

Due to the nature of the transaction as a taxable asset acquisition, the Company recorded offsetting deferred tax assets and deferred tax liabilities at the time of the acquisition due to the different allocation approaches of GAAP and the requirements of the tax laws. GAAP prescribes a fair value approach for the entire balance sheet (assets and liabilities) based on the purchase price. Tax laws provide a residual approach of asset classes based on the purchase price and the FDIC loss sharing agreement requires the covered assets to be valued at the greater of their fair market value or their guaranteed value; in addition, tax law does not assign any value to the GAAP loss sharing indemnification asset or related

Edgar Filing: Oak Valley Bancorp - Form 10-Q

clawback liability. The two methods provide the same overall net result due to the purchase prices of the assets acquired and liabilities assumed; however, different amounts have been assigned to specific assets and liabilities creating a basis difference for GAAP and tax purposes resulting in offsetting deferred tax asset or liability items.

F-154

Table of Contents**BANK MIDWEST, N.A. (A Wholly Owned Subsidiary of National Bank Holdings Corporation)****Notes to Statement of Assets Acquired and Liabilities Assumed of Community Banks of Colorado****as of October 21, 2011****Note 12 Commitments**

The Company acquired various off-balance sheet commitments that are not required to be recorded on the statement of assets acquired and liabilities assumed. These commitments are financing arrangements that help meet the needs of customers. These financial instruments include commitments to extend credit, commercial and consumer lines of credit, and standby letters of credit and involve varying degrees of credit risk. At the acquisition date, loan commitments totaled \$84.3 million and standby letters of credit totaled \$4.6 million. The total amounts of unused commitments do not necessarily represent future credit exposure or cash requirements, as commitments often expire without being drawn upon. However, the contractual amount of these commitments, offset by applicable loss sharing arrangement with the FDIC, represents the Company's potential credit loss exposure.

Total unfunded commitments at the acquisition date of October 21, 2011 were as follows (in thousands):

	Covered	Non-covered	Total
Commitments to fund loans			
Commercial and commercial real estate	\$ 51,692	\$ 2,272	\$ 53,964
Residential	125	16,389	16,514
Agricultural/other	10,949	2,832	13,781
Commercial and standby letters of credit	3,947	619	4,566
Total	\$ 66,713	\$ 22,112	\$ 88,826

Commitments to fund loans Commitments to fund loans are legally binding agreements to lend to customers in accordance with predetermined contractual provisions providing there have been no violations of any conditions specified in the contract. These commitments are generally at variable interest rates and are for specific periods or contain termination clauses and may require the payment of a fee. The total amounts of unused commitments are not necessarily representations of future credit exposure or cash requirements, as commitments often expire without being drawn upon.

Commercial and standby letters of credit Commercial and standby letters of credit include financial standby letters of credit or performance standby letters of credit. These are various forms of back-up commitments to guarantee the performance of a customer to a third party. While these arrangements represent a potential cash outlay for the Company, the majority of these letters of credit will expire without being drawn upon. Many of the letters of credit have various forms of collateral securing the commitment, which may include real estate, personal property, receivables, or marketable securities.

Note 13 Subsequent Events

In connection with the Community Banks of Colorado transaction, the Company had the option to purchase the banking center assets and certain equipment of the failed bank from the FDIC for 90 days after the transaction date. During the first quarter of 2012, the Company notified the FDIC of its intent to purchase 26 of the branch premises for a total purchase price of \$24.4 million. The Company also assumed the leases of 14 branch premises.

On March 22, 2012, the Company held its annual meeting and approved the change of its name to National Bank Holdings Corporation.

PROSPECTUS

43,508,820 Shares

Class A Common Stock

Table of Contents**INFORMATION NOT REQUIRED IN PROSPECTUS****Item 13. Other Expenses of Issuance and Distribution.**

The following table sets forth the costs and expenses, other than underwriting discounts and commissions, payable by us in connection with the sale of the Class A common stock being registered. All amounts, except the SEC registration fee, are estimates.

SEC registration fee	\$ 97,828
Transfer agent and registrar fees and expenses (1)	6,500
Printing fees and expenses (1)	400,000
Legal fees and expenses (1)	1,700,000
Accounting fees and expenses (1)	500,000
Miscellaneous (1)	100,000
Total	\$ 2,804,328

- (1) Includes costs and expenses that were incurred in connection with the substantially contemporaneous registration of our Class A common stock in our initial public offering that cannot be reasonably separated from the costs incurred in this offering.

Item 14. Indemnification of Directors and Officers.

Section 102(b)(7) of the DGCL permits a corporation to provide in its certificate of incorporation that a director of the corporation shall not be personally liable to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the DGCL (regarding, among other things, the payment of unlawful dividends or unlawful stock purchases or redemptions), or (iv) for any transaction from which the director derived an improper personal benefit. Our amended and restated certificate of incorporation to be in effect upon completion of the offering will provide for such limitation of liability.

Section 145(a) of the DGCL empowers a corporation to indemnify any director, officer, employee or agent, or former director, officer, employee or agent, who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of such person's service as a director, officer, employee or agent of the corporation, or such person's service, at the corporation's request, as a director, officer, employee or agent of another corporation or enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding; provided that such director or officer acted in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding; provided that such director or officer had no reasonable cause to believe his conduct was unlawful.

Section 145(b) of the DGCL empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another enterprise, against expenses (including attorneys' fees) actually and reasonably incurred in connection with the defense or settlement of such action or suit; provided that such director or officer acted in good faith and in a manner he or she reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification may be made in respect of any claim, issue or matter as to which such director or officer shall have been adjudged to be liable to the corporation unless and only to the extent that

Table of Contents

the Delaware Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such director or officer is fairly and reasonably entitled to indemnity for such expenses which the court shall deem proper. Notwithstanding the preceding sentence, except as otherwise provided in the by-laws, we shall be required to indemnify any such person in connection with a proceeding (or part thereof) commenced by such person only if the commencement of such proceeding (or part thereof) by any such person was authorized by the board.

In addition, our amended and restated certificate of incorporation will provide that we must indemnify our directors and officers to the fullest extent authorized by law. We are also expressly required to advance certain expenses to our directors and officers and carry directors' and officers' insurance providing indemnification for our directors and officers for some liabilities. We believe that these indemnification provisions and the directors' and officers' insurance are useful to attract and retain qualified directors and executive officers.

We have also entered into, or will enter into prior to the completion of this offering, indemnification agreements with each of our directors and officers. The indemnification agreements provide, among other things, for indemnification to the fullest extent permitted by law and our amended and restated certificate of incorporation and by-laws against (i) any and all expenses and liabilities, including judgments, fines, penalties, interest and amounts paid in settlement of any claim with our approval and counsel fees and disbursements, (ii) any liability pursuant to a loan guarantee, or otherwise, for any of our indebtedness, and (iii) any liabilities incurred as a result of acting on behalf of us (as a fiduciary or otherwise) in connection with an employee benefit plan. The indemnification agreements also provide for, or will provide for, the advancement or payment of expenses to the indemnitee and for reimbursement to us if it is found that such indemnitee is not entitled to such indemnification under applicable law and our amended and restated certificate of incorporation and by-laws. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

The proposed form of Underwriting Agreement filed as Exhibit 1.1 to this Registration Statement provides for indemnification of directors and officers of the Registrant by the underwriters against certain liabilities.

Item 15. Recent Sales of Unregistered Securities.

In the three years preceding the filing of this registration statement, National Bank Holdings Corporation has issued the following securities:

On June 16, 2009 and August 10, 2009 in connection with its incorporation and initial capitalization, National Bank Holdings Corporation issued 250,000 shares of its common stock to members of its board of directors, senior management team and FBR Capital Markets & Co. for \$0.012 per share.

On October 20, 2009, National Bank Holdings Corporation issued an aggregate of 57,500,000 shares of its common stock to private investors and to FBR Capital Markets & Co. for resale to private investors for net consideration of approximately \$1.1 billion in cash. The net proceeds of the offering were used to fund our four acquisitions to date and for general corporate purposes and the Company continues to hold the remaining proceeds (after deduction for the Company's operating expenses) in cash and cash equivalents.

The issuances of securities described in the preceding paragraphs were made in reliance upon the exemption from registration under Section 4(2) of the Securities Act of 1933, as amended, including the safe harbors established in Rule 144A and Regulation D, for transactions by an issuer not involving a public offering. National Bank Holdings Corporation did not offer or sell the securities by any form of general solicitation or general advertising, informed the purchaser that the securities had not been registered under the Securities Act and were subject to restrictions on transfer, and made offers only to the purchaser, whom National Bank Holdings Corporation believed had the knowledge and experience in financial and business matters to evaluate the merits and risks of an investment in the securities.

Table of Contents

As of June 30, 2012 we had 3,473,332 options to purchase an aggregate of 3,473,332 shares of our common stock under the NBH Holdings Corp. 2009 Equity Incentive Plan, 1,070,418 of which were fully vested. These grants were exempt from the registration requirements of the Securities Act pursuant to Rule 701 promulgated thereunder inasmuch as they were offered and sold under written compensatory benefit plans and otherwise in compliance with the provisions of Rule 701.

On October 20, 2009, we issued a warrant to purchase 237,500 shares of common stock to Ithan Creek Investors USB, LLC (an affiliate of Wellington Management Company, LLP). On March 23, 2010, we issued a warrant to purchase 237,500 shares of common stock to Ithan Creek Investors USB, LLC. On March 15, 2010, we issued a warrant to purchase 250,750 shares of common stock to Paulson Master Recovery Fund LTD. And, on September 30, 2010, we issued a warrant to purchase 42,000 shares of common stock to Elliott Associates, L.P. and a warrant to purchase 63,000 shares of common stock to a wholly owned subsidiary of Elliott International, L.P. Such warrants were issued in connection with the agreement by several of our largest shareholders to be bound by the FDIC Policy Statement. The warrants are exercisable for 10 years from the date of issuance and have an exercise price of \$20.00 per share.

Item 16. Exhibits Financial Statements Schedules.

- (a) Exhibits: The list of exhibits is set forth under Exhibit Index at the end of this registration statement and is incorporated herein by reference.

- (b) Financial Statement Schedules: None.

Item 17. Undertakings.

- (a) The undersigned registrant hereby undertakes:
 - (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement.
 - (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;
 - (2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Edgar Filing: Oak Valley Bancorp - Form 10-Q

- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

- (4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser: each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an

II-3

Table of Contents

offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A (§ 230.430A of this chapter), shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

- (b) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
