Accretive Health, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 1 — BUSINESS DESCRIPTION AND BASIS OF PRESENTATION

Business Description

Accretive Health, Inc., together with its subsidiaries (the "Company"), is a leading provider of services that help healthcare providers generate sustainable improvements in their operating margins and cash flows while also improving patient, physician and staff satisfaction for its customers. The Company achieves these results for its customers through an integrated approach encompassing an end-to-end revenue cycle management service offering and physician advisory services. The Company does so by deploying a unique operating model that leverages its extensive healthcare site experience, innovative technology and process excellence. The Company also offers modular services, allowing clients to engage the Company for only specific components of its end-to-end revenue cycle management service offering.

The Company's primary service offering consists of revenue cycle management ("RCM"), which helps healthcare providers to more efficiently manage their revenue cycles. This encompasses patient registration, insurance and benefit verification, medical treatment documentation and coding, bill preparation and collections from patients and payers. The Company's physician advisory services ("PAS") offering assists hospitals in complying with payer requirements regarding whether to classify a hospital visit as an in-patient or an out-patient observation case for billing purposes and consists of both concurrent review and retrospective chart audits to help its customers achieve compliant and accurate billing. The Company also provides its customers with retrospective appeal management service support for both governmental and commercial payers.

In December 2015, the Company announced a long-term strategic partnership with Ascension Health Alliance, the parent of our largest customer and the nation's largest Catholic and non-profit health system, and TowerBrook Capital Partners ("TowerBrook"), an investment management firm, which transaction (the "Transaction") was completed on February 16, 2016. As part of the Transaction, the Company amended and restated its Master Professional Services Agreement ("A&R MPSA") with Ascension Health ("Ascension") effective February 16, 2016 with a term of ten years. Pursuant to the A&R MPSA and with certain limited exceptions, the Company will become the exclusive provider of RCM services and PAS with respect to acute care services provided by the hospitals affiliated with Ascension that execute supplement agreements with the Company.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements reflect the Company's financial position as of March 31, 2016, the results of operations for the three months ended March 31, 2016 and 2015, and the cash flows of the Company for the three months ended March 31, 2016 and 2015. These financial statements include the accounts of Accretive Health, Inc. and its wholly owned subsidiaries. All material intercompany amounts have been eliminated in consolidation. These financial statements have been prepared in accordance with United States generally accepted accounting principles ("GAAP") for interim financial reporting and as required by the rules and regulations of the U.S. Securities and Exchange Commission (the "SEC"). Accordingly, certain information and footnote disclosures required for complete financial statements are not included herein. In the opinion of management, all adjustments, consisting of normal recurring adjustments, considered necessary for a fair presentation of the interim financial information have been included. Operating results for the three months ended March 31, 2016, are not necessarily indicative of the results that may be expected for any other interim period or for the fiscal year ending December 31, 2016.

When preparing financial statements in conformity with GAAP, the Company must make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, expenses and related disclosures at the date of the financial statements. Actual results could differ from those estimates. For a more complete discussion of the Company's significant accounting policies and other information, the unaudited condensed consolidated

Accretive Health, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

financial statements and notes thereto should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 (the "2015 10-K").

NOTE 2 — RECENT ACCOUNTING PRONOUNCEMENTS

From time to time, new accounting pronouncements are issued by the Financial Accounting Standards Board ("FASB") and are adopted by the Company as of the specified effective date. Unless otherwise discussed, the Company's management believes that recently issued accounting pronouncements do not have a material impact on the Company's consolidated financial position, results of operations, or cash flows, or do not apply to the Company's operations.

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"), which provides guidance for revenue recognition. ASU 2014-09 requires that a company recognize revenue when it transfers promised goods or services to customers in an amount equal to the consideration to which the company expects to be entitled in exchange for those goods or services. ASU 2014-09 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments. On July 9, 2015, the FASB approved the deferral of the effective date of ASU 2014-09 by one year. As a result, ASU 2014-09 will be effective for the Company's fiscal year beginning January 1, 2018, with retrospective applicability to prior periods. The Company may choose to adopt the standard as of the original effective date of annual reporting periods beginning after December 15, 2016; if it does so, the Company is required to apply the standard beginning in the first interim period within the year of adoption. The Company is currently evaluating the impact of the adoption of this prospective guidance on its consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-05, Customers Accounting for Fees Paid in a Cloud Computing Arrangement ("ASU 2015-05"). The Company adopted ASU 2015-05 on the required date of January 1, 2016 using the prospective method. For the three months ended March 31, 2016, the Company did not enter into any new arrangements covered by this standard.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842) ("ASU 2016-02"), which supersedes existing guidance on accounting for leases in Topic 840, Leases. ASU 2016-02 generally requires all leases to be recognized in the statement of financial position. The provisions of ASU 2016-02 are effective for reporting periods beginning after December 15, 2018; early adoption is permitted. The provisions of ASU 2016-02 are to be applied using a modified retrospective approach. The Company has not yet determined the potential effects of this new standard on its consolidated financial statements, if any.

In March 2016, the FASB issued ASU No. 2016-09, Compensation-Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting ("ASU 2016-09"). ASU 2016-09 simplifies the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures, and statutory tax withholding requirements, as well as classification in the statement of cash flows. The provisions of ASU 2016-09 are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Early adoption is permitted for any entity in any interim or annual period. The Company is currently evaluating the impact of the adoption of this prospective guidance on its consolidated financial statements.

NOTE 3 — FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company has adopted the provisions of FASB Accounting Standards Codification ("ASC") Topic 820, Fair Value Measurements ("ASC 820"), which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. ASC 820 does not require any new fair value measurements, but

provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. The fair value hierarchy distinguishes between assumptions based on market

7

Accretive Health, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

data (observable inputs) and an entity’s own assumptions (unobservable inputs). The hierarchy consists of three levels:

Level 1: Observable inputs such as quoted prices in active markets for identical assets and liabilities;

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly.

These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and

Level 3: Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The carrying amounts of the Company’s financial instruments, which include financial assets such as cash and cash equivalents, restricted cash equivalents, accounts receivable, amounts due from related party, short-term investments and certain other current assets, as well as financial liabilities such as accounts payable, customer liabilities, customer liabilities-related party, accrued compensation and benefits and certain other accrued expenses, approximate their fair values, due to the short-term nature of these instruments. The Company’s financial assets which are required to be measured at fair value on a recurring basis consist of cash equivalents, which are highly liquid money market funds and accordingly are classified as Level 1 assets in the fair value hierarchy. The Company’s certificates of deposit are valued at face value, plus accrued interest, which approximates fair value, and are reported as Level 2 assets in the fair value hierarchy. The Company does not have any financial liabilities that are required to be measured at fair value on a recurring basis.

The Company’s 8.00% Series A Convertible Preferred Stock, \$0.01 par value per share (the “Preferred Stock”), and the Warrant (as defined in Note 10) are Level 3 financial instruments and were valued using a combination of binomial lattice and Black-Scholes models to determine the fair value allocation. The primary assumptions used in such models were expected length of time prior to conversion, and exercise of warrants, of the Preferred Stock and Warrant (5-10 years), the exercise price of the Warrant of \$3.50 per share, the risk free rate over the expected time horizon (1.35% to 1.66%), the Company’s stock price (\$2.65), the expected annual volatility of the Company stock price (40%) and the market rate of preferred stock for comparable companies (9.50%).

NOTE 4 — ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Accounts receivable is comprised of unpaid balances pertaining to non-RCM service fees and net receivable balances for RCM customers after considering cost reimbursements owed to such customers, including related accrued balances.

The Company maintains an estimated allowance for doubtful accounts to reduce its accounts receivable to the amount that it believes will be collected. This allowance is based on the Company’s historical experience, its assessment of each customer’s ability to pay, the length of time a balance has been outstanding, input from key customer resources assigned to each customer, and the status of any ongoing operations with each applicable customer.

Movements in the allowance for doubtful accounts are as follows (in thousands):

	Three Months Ended March 31, 2016 2015 (unaudited)	
Beginning balance	\$99	\$314
(Recoveries) provision	(17)	9

Write-offs	—	(84)
Ending balance	\$82	\$239

8

NOTE 5 — PROPERTY, EQUIPMENT AND SOFTWARE

Property, equipment and software consist of the following (in thousands):

	March 31, 2016 (unaudited)	December 31, 2015
Computer and other equipment	\$ 21,490	\$ 21,348
Leasehold improvements	18,914	17,851
Software	22,700	22,302
Office furniture	4,977	4,888
Property, equipment and software, gross	68,081	66,389
Less: Accumulated depreciation and amortization	(41,058)	(39,172)
Property, equipment and software, net	\$ 27,023	\$ 27,217

The following table summarizes the allocation of depreciation and amortization expense between cost of services and selling, general and administrative expenses (in thousands):

	Three Months Ended March 31, 2016 2015 (unaudited)	
Cost of services	\$2,098	\$1,482
Selling, general and administration	173	235
Total depreciation and amortization	\$2,271	\$1,717

NOTE 6 — CUSTOMER LIABILITIES

Customer liabilities consist of the following (in thousands):

	March 31, 2016 (unaudited)	December 31, 2015
Deferred customer billings, current (1)	\$ 228,102	\$ 130,124
Accrued service costs, current (1)	84,972	70,656
Customer deposits, current (1)	5,824	1,641
Deferred revenue, current	61	95
Current portion of customer liabilities	318,959	202,516
Deferred customer billings, non-current	\$ 22,627	\$ 431,944
Customer deposits, non-current (1)	208	533
Non current portion of customer liabilities	\$ 22,835	\$ 432,477
Total customer liabilities	\$ 341,794	\$ 634,993

(1) Includes \$107.3 million, \$40.5 million and \$1.2 million in current deferred customer billings, accrued service costs and customer deposits, respectively, for a related party that is included in the current portion of customer liabilities - related party in the accompanying Condensed Consolidated Balance Sheets at March 31, 2016. In addition, at March 31, 2016, the Company had \$0.2 million in non-current customer deposits due to such related party.

Accretive Health, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

NOTE 7 — SHARE-BASED COMPENSATION

The share-based compensation expense relating to the Company's stock options and restricted stock awards ("RSAs") for the three months ended March 31, 2016 and 2015 was \$6.9 million and \$5.2 million, respectively, with related tax benefits of approximately \$2.8 million and \$2.0 million, respectively.

Total share-based compensation expense that has been included in the Company's consolidated statements of operations was as follows (in thousands):

	Three Months Ended March 31, 2016 2015 (unaudited)	
Share-based compensation expense allocation details:		
Cost of services	\$2,003	\$1,400
Selling, general and administrative	4,895	3,796
Total share-based compensation expense (1)	\$6,898	\$5,196

(1) Includes \$0.1 million and \$0.2 million in share-based compensation expense paid in cash during the three months ended March 31, 2016 and 2015, respectively.

The Company uses the Black-Scholes option pricing model to determine the estimated fair value of each option as of its grant date. These inputs are subjective and generally require significant analysis and judgment to develop. The Company used Monte Carlo simulations to estimate the fair value of its RSAs with vesting based on market-based performance conditions as of their respective grant dates. Expected life is based on the market condition to which the vesting is tied.

The following table sets forth the significant assumptions used in the Black-Scholes option pricing model and the Monte Carlo simulations and the calculation of share-based compensation expense for the three months ended March 31, 2016 and 2015:

	Three Months Ended March 31, 2016 2015	
Future dividends	—	—
Risk-free interest rate	1.4% to 1.9%	1.5% to 1.8%
Expected volatility	50%	50%
Expected life	6.25	6.25
Forfeitures	5.68% annually	5.68% annually

The risk-free interest rate input is based on U.S. Treasury instruments, and expected volatility of the share price based upon review of the historical volatility levels of the Company's common stock in conjunction with that of public companies that operate in similar industries or are similar in terms of stage of development or size and a projection of this information toward its future expected volatility. The Company used the simplified method to estimate the expected option life for 2016 and 2015 option grants. The simplified method was used due to the lack of sufficient historical data available to provide a reasonable basis upon which to estimate the expected term of each stock option.

Accretive Health, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

Stock Options

A summary of the options activity during the three months ended March 31, 2016 is shown below:

	Shares	Weighted-Average Exercise Price
Outstanding at January 1, 2016	15,260,266	\$ 10.23
Granted	428,549	2.64
Exercised	(38,940)	1.98
Canceled	(64,360)	11.59
Forfeited	(712,570)	6.07
Outstanding at March 31, 2016	14,872,945	\$ 10.23
Outstanding and vested and exercisable at March 31, 2016	9,241,287	\$ 11.46
Outstanding and vested and exercisable at December 31, 2015	8,876,517	\$ 11.63

Restricted Stock Awards

A summary of the restricted stock activity during the three months ended March 31, 2016 is shown below:

	Shares	Weighted-Average Grant Date Fair Value
Outstanding at January 1, 2016	9,255,932	\$ 4.24
Granted	3,071,876	2.58
Vested	(354,497)	7.68
Forfeited	(101,852)	4.94
Outstanding at March 31, 2016	11,871,459	\$ 3.79

In most cases, RSA vesting is based on the passage of time. The amount of share-based compensation expense is based on the fair value of the Company's common stock on the respective grant dates and is recognized ratably over the vesting period.

The Company's RSA agreements allow employees to surrender to the Company shares of common stock upon vesting of their RSAs in lieu of their payment of the required personal employment-related taxes. The Company does not withhold taxes in excess of minimum required statutory requirements. During the three months ended March 31, 2016 and 2015, employees delivered to the Company 129,042 and 77,275 shares of stock, respectively, which the Company recorded at a cost of approximately \$0.3 million and \$0.5 million, respectively. Shares surrendered for payment of personal employment-related taxes are held in treasury.

Accretive Health, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

NOTE 8 — OTHER

Other costs are comprised of reorganization-related and certain other costs. For the three months ended March 31, 2016 and 2015, the Company incurred \$10.8 million and \$1.3 million in other costs, respectively.

Reorganization-related

During the three months ended March 31, 2016, the Company incurred pretax restructuring charges of \$0.7 million, primarily consisting of facilities related expenses. The Company did not incur restructuring charges for the three months ended March 31, 2015. The Company's reorganization liability activity is included in accrued compensation and benefits and other accrued expenses in the accompanying condensed consolidated balance sheets.

The Company's reorganization liability activity was as follows (in thousands):

	Three Months Ended March 31, 2016 2015 (unaudited)	
Reorganization liability, beginning balance	\$2,493	\$3,454
Restructuring charges	687	—
Cash payments	(302)	(1,922)
Reorganization liability, ending balance	\$2,878	\$1,532

Other

During the three months ended March 31, 2016 and 2015, the Company incurred other costs of \$10.1 million and \$1.3 million, respectively. The \$10.1 million of costs incurred during the three months ended March 31, 2016 primarily related to incentive payments and legal fees for the closing of the transaction with Ascension Health Alliance and TowerBrook that was completed on February 16, 2016 (see Note 10). For the three months ended March 31, 2015, the Company incurred other costs of \$1.3 million primarily related to the restatement of its previously issued consolidated financial statements (the "restatement"). These costs were primarily legal, accounting and consulting costs incurred related to the restatement.

NOTE 9 — INCOME TAXES

Income tax provisions for interim periods are based on estimated annual income tax rates, adjusted to reflect the effects of any significant infrequent or unusual items which are required to be discretely recognized within the current interim period. The Company's intention is to permanently reinvest its foreign earnings outside the United States. As a result, the effective tax rates in the periods presented are largely based upon the projected annual pre-tax earnings by jurisdiction and the allocation of certain expenses in various taxing jurisdictions where the Company conducts its business. These taxing jurisdictions apply a broad range of statutory income tax rates.

The income tax expense and benefit for the three months ended March 31, 2016 and 2015 were higher than the amount derived by applying the federal statutory tax rate of 35% primarily due to the impact of state taxes. The tax rate is also impacted by discrete items that may occur in any given period.

Edgar Filing: Accretive Health, Inc. - Form 10-Q

The Company and its subsidiaries are subject to U.S. federal income taxes as well as income taxes in multiple state and foreign jurisdictions. The Company's 2013, 2012, and 2011 U.S. federal income tax returns are currently under examination. State jurisdictions have various open tax years. The statutes of limitations for most states range from three to six years.

Accretive Health, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

During the three months ended March 31, 2016 and March 31, 2015, the Company wrote-off approximately \$1.5 million and \$2.2 million of deferred tax assets due to the expiration and exercise of shared-based awards. The additional paid-in capital was reduced by the corresponding amount.

The decrease in the Company's deferred tax assets in the three month period ended March 31, 2016 is due primarily to the contractual revenue recognition event related to Ascension. This event reduced the deferred customer billings deferred tax asset by approximately \$124.3 million during the reporting period, offset by additions to deferred customer billings during the quarter.

At December 31, 2015, the Company had deferred tax assets of \$300.8 million, of which \$48.2 million related to net operating loss carryforwards. The majority of these carryforwards were generated in 2013, 2014 and 2015 when the Company incurred substantial expenses related to the restatement. On February 16, 2016, the Company entered into the A&R MPSA with Ascension, effective February 16, 2016 with a term of 10 years. Pursuant to the A&R MPSA and with certain limited exceptions, the Company will become the exclusive provider of RCM services and PAS with respect to acute care services provided by the hospitals affiliated with Ascension that execute supplement agreements with the Company. At March 31, 2016, the Company believes its deferred tax assets will be realizable. Should the additional business with Ascension that the Company anticipates receiving in connection with the A&R MPSA not be as profitable as expected, such realizability assessment may change.

NOTE 10 — 8% SERIES A CONVERTIBLE PREFERRED STOCK

At the close of the Transaction on February 16, 2016 (as described in Note 1), the Company issued to TCP-ASC ACHI Series LLLP, a limited liability limited partnership jointly owned by Ascension Health Alliance and TowerBrook (the "Investor"): (i) 200,000 shares of Preferred Stock, for an aggregate price of \$200 million, and (ii) a warrant with a term of ten years to acquire up to 60 million shares of common stock, par value \$0.01 per share ("common stock"), at an exercise price of \$3.50 per share, on the terms and subject to the conditions set forth in the Warrant Agreement ("Warrant"). The Preferred Stock is immediately convertible into shares of common stock.

The Company incurred direct and incremental expenses of \$21.3 million (including \$14.0 million in closing fees paid to the Investor) relating to financial advisory fees, closing costs, legal expenses and other offering-related expenses in connection with the Transaction. These direct and incremental expenses reduced the carrying amount of the Preferred Stock. In connection with the issuance of the Preferred Stock, a beneficial conversion feature of \$48.3 million was recognized. Since the Preferred Stock is presently convertible into common stock, this amount was subsequently accreted to the carrying amount of the Preferred Stock, and treated as a deemed preferred stock dividend in the calculation of earnings per share.

Dividend Rights

The holders of the Preferred Stock are entitled to receive cumulative dividends January 1, April 1, July 1 and October 1 of each year (dividend payment dates), commencing on April 1, 2016, at a rate equal to 8% per annum (preferred dividend) multiplied by the liquidation preference per share, initially \$1,000 per share adjusted for any unpaid cumulative preferred dividends. For the first seven years after issuance, the dividends on the Preferred Stock will be paid-in-kind. As of March 31, 2016, the Company had accrued dividends of \$2.0 million associated with the Preferred Stock. There were no cash dividends declared in the three months ended March 31, 2016.

Conversion Features

Each share of the Preferred Stock may be converted to common stock on any date at the option of the holder into the per share amount (as defined in the Certificate of Designations of the 8.00% Series A Convertible Preferred Stock (the "Series A COD")). Fractional shares will be rounded to the nearest whole share.

Accretive Health, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

Redemption Rights

Since the redemption of the Preferred Stock is contingently or optionally redeemable and therefore not certain to occur, the Preferred Stock is not required to be classified as a liability under ASC 480, Distinguishing Liabilities from Equity. As the Preferred Stock is redeemable at the option of the holders upon a fundamental change (as defined in the Series A COD) and is redeemable in certain circumstances upon the occurrence of an event that is not solely within the Company's control, the Company has classified the Preferred Stock in mezzanine equity on the Condensed Consolidated Balance Sheets.

Voting Rights

Each holder of the Preferred Stock is entitled to vote with the Common Stock on an as-converted basis, and has full voting rights and powers equal to the voting rights and powers of the holders of Common Stock.

The following summarizes the Preferred Stock activity for the three months ended March 31, 2016 and December 31, 2015:

	Preferred Stock	
	Shares	
	Issued	Carrying
	and	Value
	Outstanding	
Balance at December 31, 2015	—	\$—
Issuance of preferred stock	200,000	108,909
Beneficial conversion feature deemed dividend	—	48,320
Accrued dividend payable	—	1,978
Balance at March 31, 2016	200,000	\$159,207

NOTE 11 — EARNINGS PER SHARE

Basic net income per share is computed by dividing net income, less any dividends, accretion or decretion, redemption or induced conversion on the Preferred Stock, by the weighted average number of common shares outstanding during the period. As the Preferred Stock participates in dividends alongside the Company's common stock (per their participating dividends), the Preferred Stock would constitute participating securities under ASC 260-10 and are applied to earnings per share using the two-class method. Under this method, all earnings (distributed and undistributed) are allocated to common shares and participating securities based on their respective rights to receive dividends.

Diluted net income per share is calculated using the more dilutive of the if-converted or the two-class method. For the three months ended March 31, 2016, the two-class method was more dilutive and was computed by adjusting the denominator used in the basic net income per share computation by the weighted average number of common shares outstanding and potentially dilutive securities outstanding during the period plus, when their effect is dilutive, incremental shares consisting of shares subject to stock options, shares issuable upon vesting of RSAs and Preferred Stock.

Accretive Health, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

The following table sets forth the computation of basic and diluted earnings per share available to common shareholders for the three months ended March 31, 2016 and 2015, respectively (in thousands, except share and per share data).

	Three Months Ended	
	March 31,	
	2016	2015
	(unaudited)	
Basic EPS:		
Net income (loss)	\$ 167,403	\$ (30,445)
Less dividends on preferred shares	(50,298)	—
Less income allocated to preferred shareholders	(33,071)	—
Net income available to common shareholders - basic	\$ 84,034	\$ (30,445)
Diluted EPS:		
Net income (loss)	167,403	(30,445)
Less dividends on preferred shares	(50,298)	—
Less income allocated to preferred shareholders	(32,845)	—
Net income available to common shareholders - diluted	\$ 84,260	\$ (30,445)
Basic weighted-average common shares	98,289,802	95,889,146
Add: Effect of dilutive securities	943,172	—
Diluted weighted average common shares	99,232,974	95,889,146
Net income (loss) per common share (basic)	\$ 0.85	\$ (0.32)
Net income (loss) per common share (diluted)	\$ 0.85	\$ (0.32)

Because of their anti-dilutive effect, 21,733,844 and 22,437,635 common share equivalents comprised of stock options and RSAs have been excluded from the diluted earnings per share calculation for the three months ended March 31, 2016 and 2015, respectively.

NOTE 12 — COMMITMENTS AND CONTINGENCIES

Legal Proceedings

The Company is subject to various claims, other pending and possible legal actions for product liability and other damages, and other matters arising out of the conduct of the Company's business. On a quarterly basis, the Company reviews material legal claims against the Company. The Company accrues for the costs of such claims as appropriate and in the exercise of its judgment and experience. However, due to a lack of factual information available to the Company about a claim, or the procedural stage of a claim, it may not be possible for the Company to reasonably assess either the probability of a favorable or unfavorable outcome of the claim or to reasonably estimate the amount of loss should there be an unfavorable outcome. Therefore, for many of the claims, the Company cannot estimate a range of loss. The Company believes, based on current knowledge and after consultation with counsel, that the outcome of such claims and actions will not have a material adverse effect on the Company's results of operations or financial position. However, in the event of unexpected future developments, it is possible that the ultimate resolution of such matters, if unfavorable, could have a material adverse effect on the Company's results of operations or financial position.

Other than as described below, the Company is not presently a party to any material litigation or regulatory proceeding and is not aware of any pending or threatened litigation or regulatory proceeding against the Company

Accretive Health, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

which, individually or in the aggregate, could have a material adverse effect on its business, operating results, financial condition or cash flows.

On May 17, 2013, the Company, along with certain of its former directors and former officers, was named as a defendant in a putative securities class action lawsuit filed in the U.S. District Court for the Northern District of Illinois (*Hughes v. Accretive Health, Inc. et al.*). The primary allegations, relating to its March 8, 2013 announcement that the Company would be restating its prior period financial statements, are that its public statements, including filings with the SEC, were false and/or misleading with respect to its revenue recognition and earnings prospects. On November 27, 2013, plaintiffs voluntarily dismissed the Company's directors and former directors, other than Mary Tolan. On January 31, 2014, the Company filed a motion to dismiss the complaint. On September 25, 2014, the Court granted the Company motion to dismiss without prejudice, however, the plaintiffs filed a second amended complaint on October 23, 2014. On November 10, 2014, the Company filed a motion to dismiss the second amended complaint. While that motion was still pending, on January 8, 2015, plaintiffs filed a motion to amend the second amended complaint, seeking to add allegations regarding the recently issued restatement. On April 22, 2015, the court granted plaintiffs' motion to amend, and a third amended complaint was filed on May 13, 2015. The Company moved to dismiss the third amended complaint on June 3, 2015. On December 7, 2015, the parties executed a memorandum of understanding to resolve the suit for \$3.9 million and filed a notice of settlement with the district court. On March 8, 2016, the district court granted preliminary approval to the settlement. The final fairness hearing has been set for June 28, 2016. The Company believes the settlement payment of \$3.9 million will be covered by insurance.

On February 11, 2014, the Company was named as a defendant in a putative class action lawsuit filed in the U.S. District Court for the Southern District of Alabama (*Church v. Accretive Health, Inc.*). The primary allegation is that the Company attempted to collect debts without providing the notice required by the Fair Debt Collection Practices Act ("FDCPA"). On November 24, 2015, the district court granted the Company's motion for summary judgment and dismissed the case with prejudice. Plaintiff filed a notice of appeal on December 21, 2015, and the appeal has been fully briefed, and will be argued on June 8, 2016.

On July 22, 2014, the Company was named as a defendant in a putative class action lawsuit filed in the U.S. District Court for the Eastern District of Michigan (*Anger v. Accretive Health, Inc.*). The primary allegations are that the Company attempted to collect debts without providing the notice required by the FDCPA and Michigan Fair Debt Collection Practices Act and failed to abide by the terms of an agreed payment plan in violation of those same statutes. On August 27, 2015, the Court granted in part and denied in part the Company's motion to dismiss. An amended complaint was filed on November 30, 2015. Discovery is underway. The Company believes that it has meritorious defenses and intends to vigorously defend itself against these claims. The outcome is not presently determinable.

In April 2015, the Company was named among other defendants in an employment action brought by a former employee before the Maine Human Rights Commission ("MHRC"), alleging that she was improperly terminated in retaliation for uncovering alleged Medicare fraud. The Company filed its response with the MHRC on May 19, 2015 seeking that the Company be dismissed entirely from the action. On June 23, 2015, the MHRC issued its Notice of Right to Sue and decision to terminate its process with respect to all charges asserted by the former employee. The Plaintiff has filed a parallel qui tam action in the District of Maine (*Worthy v. Eastern Maine Healthcare Systems*) in which she makes the same allegations. The U.S. Department of Justice declined to intervene in the federal court action, and the case was unsealed in April 2015. The Company filed a motion to dismiss the Third Amended Complaint on March 21, 2016. The Company believes that it has meritorious defenses to both the employment law-related retaliation claim for which the MHRC has granted the Notice of Right to Sue letter and the federal qui tam case, and intends to vigorously defend itself against these claims. The outcomes are not presently determinable.

On June 17, 2015, the Company filed a confidential arbitration demand with the American Arbitration Association against Salem Hospital for unpaid fees due under the parties' Accretive Health Services Agreement in an aggregate

amount of \$9.3 million. On July 31, 2015, Salem Hospital filed its answer, in which it denied the

Accretive Health, Inc.

Notes to Condensed Consolidated Financial Statements (Unaudited) — (Continued)

Company's claims and asserted counterclaims against the Company in the amount of \$2.7 million. The outcome is not presently determinable.

On November 16, 2015, the Company was named in a putative class action lawsuit filed in the U.S. District Court for the Eastern District of Michigan (*Dye v. Accretive Health, Inc.*). The primary allegations were that the Company attempted to collect debts without complying with the provisions of the FDCPA. The case was voluntarily dismissed on December 4, 2015.

On December 10, 2015, the plaintiff in the *Dye* action filed a class-action complaint in the Circuit Court for the County of Macomb, Michigan, alleging that the Company's attempts to collect his debts had violated the Michigan Occupational Code. The Company filed its motion to dismiss on February 8, 2016 and on April 22, 2016, the Circuit Court Judge dismissed all claims and ordered the case closed.

NOTE 13 — RELATED PARTY TRANSACTIONS

As a result of the closing of the Transaction on February 16, 2016 and Ascension's ownership interest in the Investor, Ascension became a related party to the Company. See Note 10, 8% Series A Convertible Preferred Stock, for additional information.

The Company provides RCM services to Ascension. The execution of the A&R MPSA, as discussed in Note 1, was a contractual settlement agreement of the prior Master Professional Services Agreement between the Company and Ascension. Therefore, during the three months ended March 31, 2016, the Company recorded revenue of \$343.4 million in connection with these services. At March 31, 2016, the Company had \$149.1 million in current portion of customer liabilities for a related party, consisting of \$40.5 million in current accrued service costs, \$1.2 million in current customer deposits and \$107.3 million in current deferred customer billings. In addition, at March 31, 2016, the Company had \$0.2 million in non-current portion of customer liabilities due to such related party.

As Ascension is the Company's largest customer, a significant percentage of the Company's cost of services is associated with providing services to Ascension. However, due to the nature of the Company's shared services and information technology operations, it is impractical to assign the dollar amount associated with services provided to Ascension.

NOTE 14 — SEGMENTS AND CUSTOMER CONCENTRATIONS

The Company has determined that it has a single operating segment in accordance with how its business activities are managed and evaluated. All of the Company's significant operations are organized around the single business of providing end-to-end management services of revenue cycle operations for U.S.-based hospitals and other medical providers. Accordingly, for purposes of segment disclosures, the Company has only one reporting segment. All of the Company's net services revenue and trade accounts receivable are derived from healthcare providers domiciled in the United States.

Hospital systems affiliated with Ascension have accounted for a significant portion of the Company's net services revenue each year since the Company's formation. For the three months ended March 31, 2016 and 2015, net services revenue from hospitals affiliated with Ascension accounted for 98% and 1%, respectively, of the Company's total net services revenue. For the three months ended March 31, 2015, three customers, unaffiliated with Ascension, accounted for 54% of the Company's total net services revenue. The Ascension system, through its individual customer contracts with the Company, accounted for 43% and 75% of the Company's total deferred customer billings at March 31, 2016 and December 31, 2015, respectively. The loss of customers within the Ascension health system would have a material adverse impact on the Company's operations.

The Company does not have a concentration of credit risk within accounts receivable as reported in the consolidated balance sheets with any one large customer at March 31, 2016 and December 31, 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Unless the context indicates otherwise, references in this Quarterly Report on Form 10-Q to "Accretive Health," "the Company," "we," "our," and "us" mean Accretive Health, Inc., and its subsidiaries.

The following discussion and analysis is an integral part of understanding our financial results and is provided as an addition to, and should be read in connection with, our condensed consolidated financial statements and the accompanying notes. Also refer to Note 1 of our condensed consolidated financial statements.

This Quarterly Report on Form 10-Q contains "forward-looking statements" within the meaning of the federal securities laws, that involve substantial risks and uncertainties. These statements are often identified by the use of words such as "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "predict," "project," "would" and similar expressions or phrases. Such forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results and the timing of certain events to differ materially from future results expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed in the section titled "Risk Factors," in Part II, Item 1A of this Quarterly Report on Form 10-Q, and elsewhere in this Report, as well as those set forth in Part I, Item 1A of the 2015 10-K as well as our other filings with the SEC. The forward-looking statements in this Quarterly Report on Form 10-Q represent our views as of the date of this Quarterly Report on Form 10-Q. Subsequent events and developments may cause our views to change. While we may elect to update these forward-looking statements at some point in the future, we have no current intention of doing so except to the extent required by applicable law. You should, therefore, not rely on these forward-looking statements as representing our views as of any date subsequent to the date of this Quarterly Report on Form 10-Q.

OVERVIEW

Our Business

We are a leading provider of services that help healthcare providers generate sustainable improvements in their operating margins and cash flows while also improving patient, physician and staff satisfaction for our customers. Our goal is to help our healthcare provider customers deliver high-quality care and serve their communities, and do so in a financially sustainable way. We help our customers more efficiently manage their revenue cycle process and strive to help prepare them for the evolving dynamics of the healthcare industry, particularly the challenges and opportunities presented by the shift to value-based reimbursement which is designed to reward the value, rather than the volume, of healthcare services provided.

While we cannot control the changes in the regulatory environment imposed on our customers, we believe that our role becomes increasingly more important to our customers as macroeconomic, regulatory and healthcare industry conditions continue to impose financial pressure on healthcare providers to manage their operations effectively and efficiently.

RCM continues to be our primary service offering. Our RCM offering helps our customers more efficiently manage their revenue cycle process. This encompasses patient registration, insurance and benefit verification, medical treatment documentation and coding, bill preparation and collections. We focus on optimizing our customers' entire, end-to-end revenue cycle process, which we believe is more advantageous than alternative approaches that merely focus on certain aspects or sub-processes within the revenue cycle. Our PAS offering complements our RCM offering by strengthening our customers' compliance with certain third-party payer requirements and limiting denials of claims. For example, our PAS offering helps customers determine whether to classify a hospital visit as an in-patient or an out-patient observation case for billing purposes. We believe that the population health capabilities we are integrating into our RCM offering will enhance our value-based reimbursement capabilities to help providers enter into risk-bearing arrangements with payers.

We operate our business as a single segment configured with our significant operations and offerings organized around the business of providing end-to-end RCM services to U.S.-based hospitals and other healthcare providers.

Business Update

In December 2015, we announced the Transaction with Ascension Health Alliance and TowerBrook, which closed on February 16, 2016. As part of the Transaction, we entered into the A&R MPSA with Ascension, effective February 16, 2016 with a term of ten years. Pursuant to the A&R MPSA and with certain limited exceptions, we will become the exclusive provider of RCM services and PAS with respect to acute care services provided by the hospitals affiliated with Ascension that execute supplement agreements with us.

We expect the Transaction to expand our relationship with Ascension, grow our overall business, and improve our ability to win customers outside of the Ascension hospital base. Under the A&R MPSA, our RCM services for both Ascension hospitals that we currently service and Ascension hospitals that we intend to service will be transitioning to an outsourced business model, whereby a significant number of Ascension's revenue cycle employees will become our employees as we begin implementing the A&R MPSA and providing our services to Ascension hospitals over a three year period. As a result of the implementation of an outsourced business model in connection with the A&R MPSA, we expect to expand our operations in the United States and off shore and intend to invest in technology, facilities and talent to support our anticipated growth. Such outsourced business model will also require the transition of the non-payroll related expenses supporting Ascension's revenue cycle operations to direct expenses of Accretive Health. These transitioned expenses have historically been managed by our infused management staff but remained on the hospitals' financial records. This new in-house capability of managing these expenses will allow us to pursue new business opportunities which require an outsourced business model. We believe the ten year term of the A&R MPSA, together with the significant investment in Accretive Health by Ascension, our largest customer, will provide our business with stability and growth. In addition, our management team will benefit from the oversight provided by having TowerBrook involved as a strategic investor.

CONSOLIDATED RESULTS OF OPERATIONS

The following table provides consolidated operating results and other operating data for the periods indicated (unaudited):

	Three Months Ended 2016 vs. 2015			
	March 31,		Change	
	2016	2015	Amount	%
	(In thousands except percentages)

unfav. - Unfavorable

Use of Non-GAAP Financial Information

We typically invoice customers for base fees and incentive fees on a quarterly or monthly basis, and typically receive cash from customers on a similar basis. For GAAP reporting purposes, we only recognize these net operating fees and incentive fees as net services revenue to the extent that all the criteria for revenue recognition are met, which is generally upon contract renewal, termination or other contractual agreement. As such, net operating and incentive fees are typically recognized for GAAP purposes in periods subsequent to the periods in which the services are provided. Therefore, our net services revenue and other items in our GAAP consolidated financial statements and adjusted EBITDA will typically include the effects of billings and collections from periods prior to the period in which revenue is recognized.

In order to provide a more comprehensive understanding of the information used by our management team in financial and operational decision-making, we supplement our GAAP consolidated financial statements with the following non-GAAP financial measures: gross and net cash generated from customer contracting activities, and adjusted EBITDA.

Our Board and management team use these non-GAAP measures as (i) one of the primary methods for planning and forecasting overall expectations and for evaluating actual results against such expectations; and (ii) as a performance evaluation metric in determining achievement of certain executive incentive compensation programs, as well as for incentive compensation plans for employees.

Selected Non-GAAP Measures

The following table presents selected non-GAAP measures for each of the periods indicated. See below for an explanation of how we calculate and use these non-GAAP measures, and for a reconciliation of these non-GAAP measures to the most comparable GAAP measure.

	Three Months Ended March 31,	
	2016	2015
Non-GAAP Measures:	(in thousands)	
Adjusted EBITDA	\$298,696	\$(41,674)
Net cash generated from customer contracting activities	\$(12,643)	\$2,253
Gross cash generated from customer contracting activities	\$40,854	\$54,898
Gross and Net Cash Generated from Customer Contracting Activities		

Gross and net cash generated from customer contracting activities reflect the change in the deferred customer billings, relative to GAAP net services revenue, and adjusted EBITDA (defined below), respectively. Deferred customer billings include the portion of both (i) invoiced or accrued net operating fees and (ii) cash collections of incentive fees, in each case, that have not met our revenue recognition criteria. Deferred customer billings are included in the detail of our customer liabilities balance in the condensed consolidated balance sheet. Deferred customer billings are reduced by the amounts of revenue recognized when a revenue recognition event occurs. Gross cash generated from customer contracting activities is defined as GAAP net services revenue, plus the change in deferred customer billings. Accordingly, gross cash generated from customer contracting activities is the sum of (i) invoiced or accrued net operating fees, (ii) cash collections on incentive fees and (iii) other services fees.

Net cash generated from customer contracting activities is defined as adjusted EBITDA, plus the change in deferred customer billings.

These non-GAAP measures are used throughout this Quarterly Report on Form 10-Q including in this Management's Discussion and Analysis of Financial Condition and Results of Operations.

Gross and net cash generated from customer contracting activities include invoices issued to customers that may remain uncollected or may be subject to credits, and cash collected may be returned to our customers in the form of concessions or other adjustments. Customer concessions and other adjustments have occurred in the past and we cannot determine the likelihood that they will again occur in the future.

Adjusted EBITDA

We define adjusted EBITDA as net income before net interest income, income tax provision, depreciation and amortization expense, share-based compensation expense, restatement-related expense, reorganization-related expense and certain other items. The use of adjusted EBITDA to measure operating and financial performance is limited by our revenue recognition criteria, pursuant to which GAAP net services revenue is recognized at the end of a contract or "other contractual agreement event". Adjusted EBITDA does not adequately match corresponding cash flows resulting from customer contracting activities. Accordingly, as described above, in order to better compare our cash flows from customer contracting activities to our operating performance, we use additional non-GAAP measures: gross and net cash generated from customer contracting activities. We use adjusted EBITDA in our reconciliation of net cash generated from customer contracting activities to our GAAP consolidated financial statements.

We understand that, although non-GAAP measures are frequently used by investors, securities analysts, and others in their evaluation of companies, these measures have limitations as analytical tools, and you should not consider them in isolation or as a substitute for analysis of our results of operations as reported under GAAP. Some of these limitations are:

Gross and net cash generated from customer contracting activities include invoiced or accrued net operating fees, and invoiced as well as collected incentive fees which may be subject to adjustment or concession prior to the end of a contract or "other contractual agreement event";

- Gross and net cash generated from customer contracting activities include progress billings on incentive fees that have been collected for a number of our RCM contracts. These progress billings have, from time-to-time, been subject to adjustments, and the fees included in these non-GAAP measures may be subject to adjustments in the future;
- Net cash generated from customer contracting activities and adjusted EBITDA do not reflect changes in, or cash requirements for, our working capital needs;

Net cash generated from customer contracting activities and adjusted EBITDA do not reflect share-based compensation expense;

- Net cash generated from customer contracting activities and adjusted EBITDA do not reflect income tax expenses or cash requirements to pay taxes;

Although depreciation and amortization charges are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and net cash generated from customer contracting activities and adjusted EBITDA do not reflect cash requirements for such replacements or other purchase commitments, including lease commitments; and

Other companies in our industry may calculate gross or net cash generated from customer contracting activities or adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Reconciliation of GAAP and Non-GAAP Measures

The following table represents a reconciliation of adjusted EBITDA and gross and net cash generated from customer contracting activities to net income (loss), the most comparable GAAP measure, for each of the periods indicated (in thousands, except percentages).

	Three Months Ended		2016 vs. 2015	
	March 31, 2016	March 31, 2015	Change Amount	Change %
Net income (loss)	\$167,403	\$(30,445)	\$197,848	fav.
Net interest income	(84)	(5)	(79)	fav.
Income tax provision (benefit)	111,402	(19,412)	130,814	unfav.
Depreciation and amortization expense	2,271	1,717	554	32.3 %
Share-based compensation expense (1)	6,898	5,196	1,702	32.8 %
Other (2)	10,806	1,275	9,531	unfav.
Adjusted EBITDA	298,696	(41,674)	340,370	fav.
Change in deferred customer billings (3)	(311,339)	43,927	(355,266)	fav.
Net cash generated from customer contracting activities	\$(12,643)	\$2,253	\$(14,896)	unfav.
Net services revenue (GAAP basis)	\$352,193	10,971	\$341,222	fav.
Change in deferred customer billings (3)	(311,339)	43,927	(355,266)	fav.
Gross cash generated from customer contracting activities	\$40,854	\$54,898	\$(14,044)	(25.6)%

Components of Gross Cash Generated from Customer Contracting Activities:

RCM services: net operating fees	\$24,804	\$30,189	\$(5,385)	(17.8)%
RCM services: incentive fees	8,867	18,131	(9,264)	(51.1)%
RCM services: other	4,092	2,251	1,841	81.8%
Total RCM service fees	37,763	50,571	\$(12,808)	(25.3)%
Other service fees	3,091	4,327	(1,236)	(28.6)%
Gross cash generated from customer contracting activities	\$40,854	\$54,898	\$(14,044)	(25.6)%

fav. - Favorable

unfav. - Unfavorable

Share-based compensation expense represents the expense associated with stock options and restricted shares granted, as reflected in our Condensed Consolidated Statements of Operations and Comprehensive Income. See (1) Note 7, Share-Based Compensation, to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q for the detail of the amounts of share-based compensation expense.

Other costs are comprised of reorganization-related, restatement-related and certain other costs. For the three months ended March 31, 2016 and 2015, we incurred other costs of \$10.8 million and \$1.3 million, respectively. The costs incurred during the three months ended March 31, 2016 related to the incentive payments and legal fees for the closing of the Transaction with Ascension Health Alliance and TowerBrook on February 16, 2016. (2) Additionally, for the three months ended March 31, 2016, we incurred reorganization-related costs of \$0.7 million related to the closing of facilities. We did not incur any reorganization-related costs during the three months ended March 31, 2015. For the three months ended March 31, 2015, we incurred \$1.3 million in restatement-related costs related to professional service fees.

(3) Deferred customer billings include the portion of both (i) invoiced or accrued net operating fees and (ii) cash collections on incentive fees, in each case, that have not met our revenue recognition criteria. Deferred customer billings are included in the detail of our customer liabilities account in the condensed consolidated balance sheet. Deferred customer billings are reduced by revenue recognized when revenue recognition occurs. Change in

deferred

22

customer billings represents the net change in the cumulative net operating fees and incentive fees that have not met revenue recognition criteria.

Three Months Ended March 31, 2016 Compared to Three Months Ended March 31, 2015

Net Services Revenues

Net services revenue increased by \$341.2 million, to \$352.2 million for the three months ended March 31, 2016, from \$11.0 million for the three months ended March 31, 2015. The increase was primarily driven by a contractual agreement event related to Ascension during the quarter ended March 31, 2016, resulting in revenue recognition of \$343.4 million. This contractual agreement event did not include all deferred customer billings related to Ascension and the balance of approximately \$107.3 million is expected to be recognized as revenue in the future.

This increase was offset by a \$1.2 million decrease in other service fees revenue to \$3.1 million for the three months ended March 31, 2016 compared to \$4.3 million for the three months ended March 31, 2015. This decrease was primarily driven by a \$0.5 million decline in PAS revenue.

Gross Cash Generated from Customer Contracting Activities (Non-GAAP)

Gross cash generated from customer contracting activities decreased by \$14.0 million, or 25.6%, to \$40.9 million for the three months ended March 31, 2016 from \$54.9 million for the three months ended March 31, 2015. The decrease in gross cash generated was primarily driven by the RCM business, with \$7.5 million of the decrease due to customer attrition primarily attributable to client M&A activity, and \$6.9 million attributable to movement toward fixed fee contracts with one customer contract pending, and a reduction in scope for another customer. Additionally, the decrease in other service fees was partially driven by a \$0.5 million decline in PAS revenue.

For an explanation of how we calculate gross cash generated from customer contracting activities, refer to the reconciliation of GAAP and Non-GAAP measures above.

Costs of Services

Costs of services increased by \$2.9 million, or 7.0%, to \$45.1 million for the three months ended March 31, 2016, from \$42.2 million for the three months ended March 31, 2015. The increase in costs of services was primarily attributable to expansion in our shared services centers and infrastructure related to RCM.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased by \$0.2 million, or 1.0%, to \$17.5 million for the three months ended March 31, 2016, from \$17.4 million for the three months ended March 31, 2015.

Net Cash Generated from Customer Contracting Activities (Non-GAAP)

Net cash generated from customer contracting activities was negative \$12.6 million for the three months ended March 31, 2016, compared to \$2.3 million for the three months ended March 31, 2015. This decrease of \$14.9 million was primarily due to a decrease in gross cash generated from customer contracting activities and an increase in cost of services as explained above. For an explanation of how we calculate net cash generated from customer contracting activities, refer to Reconciliation of GAAP and Non-GAAP Measures above.

Other

Other costs increased by \$9.5 million, to \$10.8 million for the three months ended March 31, 2016, from \$1.3 million for the three months ended March 31, 2015. The increase was primarily attributable to \$8.9 million in costs related to incentive payments and legal fees for the closing of the Transaction with Ascension Health Alliance and TowerBrook on February 16, 2016 and a \$0.3 million increase in reorganization-related costs in the three months

ended March 31, 2016. This increase was offset by a decrease of \$1.2 million in restatement-related costs during the three months ended March 31, 2016.

Income Taxes

Our tax expense increased by \$130.8 million to a tax expense of \$111.4 million for the three months ended March 31, 2016, from a benefit of \$19.4 million for the three months ended March 31, 2015, primarily due to an increase in pretax income. Our effective tax rate for the three months ended March 31, 2016 and 2015 was 40.0% and 38.9%, respectively. Our tax rate is affected by changes in state tax rates and discrete items that may occur in any given period but not consistent from year to year.

CRITICAL ACCOUNTING POLICIES

Management considers an accounting policy to be critical if the accounting policy requires management to make particularly difficult, subjective or complex judgments about matters that are inherently uncertain. A summary of our critical accounting policies is included in Part II, Item 7 "Management's Discussion and Analysis of Financial Condition and Results of Operations - Application of Critical Accounting Policies and Use of Estimates" of our 2015 10-K. There have been no material changes to the critical accounting policies disclosed in our 2015 10-K.

NEW ACCOUNTING PRONOUNCEMENTS

For additional information regarding new accounting guidance, see Note 2, Recent Accounting Pronouncements, to our condensed consolidated financial statements included in this Quarterly Report on Form 10-Q, which provides a summary of our recently adopted accounting standards and disclosures.

LIQUIDITY AND CAPITAL RESOURCES

On February 16, 2016, in connection with the Transaction, the Investor invested \$200 million in Accretive Health in exchange for the Preferred Stock and the Warrant.

Our primary source of liquidity is cash flows from operations. Given our current cash and cash equivalents and accounts receivable, we believe we will have sufficient funds to meet our operating, investing and financing needs for at least the next twelve months.

Our cash and cash equivalents were \$281.0 million at March 31, 2016 as compared to \$103.5 million as of December 31, 2015. Our cash and cash equivalents, at any time, include amounts paid to us in advance by customers for the purpose of reimbursing their revenue cycle operation costs. See Note 2, Summary of Significant Accounting Policies, to our consolidated financial statements included in our 2015 10-K.

Cash flows from operating, investing and financing activities, as reflected in our condensed consolidated statements of cash flows, are summarized in the following table (in thousands):

Cash Flows	Three Months Ended March 31,	
	2016	2015
Net cash provided by (used in):		
Operating activities	\$1,123	\$(14,241)
Investing activities	(2,075)	(3,402)
Financing activities	178,397	4,526

Operating Activities

Cash provided by operating activities for the three months ended March 31, 2016 totaled \$1.1 million, as compared to cash used of \$14.2 million for the three months ended March 31, 2015. The increase in cash provided by operating activities was primarily attributable to the \$18.5 million increase in accrued services costs and customer deposits.

Investing Activities

Cash used in investing activities decreased by \$1.3 million, from \$3.4 million for the three months ended March 31, 2015 to \$2.1 million for the three months ended March 31, 2016. Cash used in investing activities for the three months ended March 31, 2016 was primarily attributable to the purchase of computer hardware and software, as well as for additional leasehold improvements related to the build out of a new shared service center to support the growth of our business.

Financing Activities

Cash provided by financing activities increased to \$178.4 million for the three months ended March 31, 2016, primarily due to investment of \$200 million by the Investor offset by issuance costs of \$21.3 million.

Future Capital Requirements

In connection with our strategic initiatives, we plan to continue to enhance customer service by increasing our investment in technology to enable our systems to more effectively integrate with our customers' existing technologies. We plan to continue to deploy resources to strengthen our information technology infrastructure in order to drive additional value for our customers. We also continue to invest in our shared services capabilities. We also plan on expanding our capabilities in India which will require investments. We may also selectively pursue acquisitions and/or strategic relationships that will enable us to broaden or further enhance our offerings.

Additionally, new business development remains a priority as we plan to continue to boost our sales and marketing efforts. We plan to continue to add experienced personnel to our sales organization, develop more disciplined sales processes, and create an integrated marketing capability.

OFF-BALANCE SHEET OBLIGATIONS

We do not have any off-balance sheet arrangements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Sensitivity

Our interest income is primarily generated from interest earned on operating cash accounts. We do not enter into interest rate swaps, caps or collars or other hedging instruments. As a result, we believe that the risk of a significant impact on our operating income from interest rate fluctuations is not substantial.

Foreign Currency Exchange Risk

Our results of operations and cash flows are subject to fluctuations due to changes in the exchange rate between the U.S. dollar and the Indian Rupee because a portion of our operating expenses are incurred by our subsidiary in India and are denominated in Indian Rupees. However, we do not generate any revenues outside of the United States. For the three months ended March 31, 2016 and 2015, 4.2% and 5.5%, respectively, of our expenses were denominated in Indian Rupees. As a result, we believe that the risk of a significant impact on our operating income from foreign currency exchange rate fluctuations is not substantial.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act")) are designed to ensure that information required to be disclosed by us in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to management including its principal executive officer and principal financial officer to allow timely decisions regarding required disclosures. In connection with the preparation of this report, our management, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures as of March 31, 2016. Based on our identification of material weaknesses in internal control over financial reporting described in "Item 9A - Control and Procedures" in our 2015 10-K, our Chief Executive Officer and Chief Financial Officer concluded that, as of March 31, 2016, our disclosure controls and procedures were not effective. During the first half of 2015, we spent considerable time, and deployed considerable resources, in redesigning our internal controls over financial reporting. Significant effort was expended in the second half of 2015 implementing and executing the new controls. In light of the above timeline, we are unable to demonstrate the sustainability of the controls we have implemented and are therefore unable to conclude that we have remediated our material weaknesses; however, we continue to invest significant time and resources and take actions to remediate material weaknesses in our internal control over financial reporting.

While our remediation efforts continue, we have relied on and will continue to rely on extensive, temporary manual procedures and other measures as needed to assist us with meeting the objectives otherwise fulfilled by an effective internal control environment. These procedures include, but are not limited to:

Execution of a more thorough and repeatable financial statement close process, thereby allowing us to conduct additional analysis and substantive procedures, including preparation of account reconciliations and making additional adjustments as necessary to verify the accuracy and completeness of our financial reporting; and

Hiring additional resources with relevant accounting experience, skills and knowledge, working under our supervision and direction to assist with our remediation efforts.

Notwithstanding the existence of the material weaknesses as described in our 2015 10-K, we believe that the consolidated financial statements in this Quarterly Report on form 10-Q fairly present, in all material respects, our financial position, results of operations and cash flows as of the dates, and for the periods, presented, in conformity with GAAP.

Remediation of Material Weaknesses in Internal Control Over Financial Reporting

Our management is committed to the planning and implementation of remediation efforts to address all material weaknesses as well as other identified areas of risk. These remediation efforts, summarized below, which are implemented, in the process of being implemented or are planned for implementation, are intended to address the identified material weaknesses and to enhance our overall financial control environment.

During 2014 and 2015, numerous changes were made throughout our organization and significant actions have been undertaken to reinforce the significance of a strong control environment, including training and other steps designed to strengthen and enhance our control culture.

To remediate the control environment deficiencies identified herein, our leadership team, including our Chief Executive Officer and our Chief Financial Officer, has reaffirmed and reemphasized the importance of internal control, control consciousness and a strong control environment. In addition, we have developed and implemented a remediation plan to address the material weakness.

Our plan included the following actions:

- adopted new accounting policies for revenue recognition and software capitalization;
- implemented periodic reviews with the relevant internal process owners of tangible and intangible asset acquisitions and dispositions to ensure proper accounting;
- established a contract governance committee to oversee all contracting activity;
- completed the implementation of a more robust contract governance structure to assure appropriate administration, compliance and accounting treatment for new or amended contract terms;
- established a contracting boundaries protocol to clarify the delegation of contracting authority to personnel involved in establishing customer contract terms;
- appointed experienced professionals to key leadership positions;
- established a new reporting structure with more clearly defined accountabilities;
- hired additional accounting personnel with appropriate backgrounds and skill sets, including professionals with certified public accountant qualifications, master's degrees and public accounting experience and creating new positions for a Director of Revenue and a Director of Taxes;
- implemented a new internal reporting model and performance metrics based on cash flow performance;
- centralized certain accounting functions and revised organizational structures to enhance accurate reporting and ensure appropriate accountability;
- established a formal delegation of authority from the Board of Directors to management with further delegation to accountable personnel;
- expanded the use of our financial reporting systems to facilitate more robust analysis of operating performance, budgeting and forecasting; and

strengthened our current disclosure committee with formalized processes to enhance the transparency of our external financial reporting.

Our management believes that meaningful progress has been made against remaining remediation efforts; although timetables vary, management regards successful completion as an important priority. Remaining remediation activities that we have begun to execute against in 2016 include:

- implementing and executing a year-round internal controls testing and monitoring program;
- strengthening information technology general controls;
- enhancing our Sarbanes-Oxley compliance procedures; and
- finalizing our transition to the 2013 COSO framework.

When implemented, operational and demonstrated to be repeatable and sustainable, our management believes the measures described above will remediate the control deficiencies we have identified and strengthen our internal control over financial reporting. We are committed to improving our internal control processes and intend to continue to review and improve our financial reporting controls and procedures. As we continue to evaluate and work to improve our internal control over financial reporting, we may take additional measures to address control deficiencies or determine to modify, or in appropriate circumstances not to complete, certain of the remediation measures described above.

Changes in Internal Control Over Financial Reporting

Other than matters discussed in this Item 4, there have been no changes in our internal control over financial reporting since our 2015 10-K that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Other than as described below, the Company is not presently a party to any material litigation or regulatory proceeding and is not aware of any pending or threatened litigation or regulatory proceeding against the Company which, individually or in the aggregate, could have a material adverse effect on its business, operating results, financial condition or cash flows.

On May 17, 2013, the Company, along with certain of its former directors and former officers, was named as a defendant in a putative securities class action lawsuit filed in the U.S. District Court for the Northern District of Illinois (*Hughes v. Accretive Health, Inc. et al.*). The primary allegations, relating to its March 8, 2013 announcement that the Company would be restating its prior period financial statements, are that its public statements, including filings with the SEC, were false and/or misleading with respect to its revenue recognition and earnings prospects. On November 27, 2013, plaintiffs voluntarily dismissed the Company's directors and former directors, other than Mary Tolan. On January 31, 2014, the Company filed a motion to dismiss the complaint. On September 25, 2014, the Court granted the Company motion to dismiss without prejudice, however, the plaintiffs filed a second amended complaint on October 23, 2014. On November 10, 2014, the Company filed a motion to dismiss the second amended complaint. While that motion was still pending, on January 8, 2015, plaintiffs filed a motion to amend the second amended complaint, seeking to add allegations regarding the recently issued restatement. On April 22, 2015, the court granted plaintiffs' motion to amend, and a third amended complaint was filed on May 13, 2015. The Company moved to dismiss the third amended complaint on June 3, 2015. On December 7, 2015, the parties executed a memorandum of understanding to resolve the suit for \$3.9 million and filed a notice of settlement with the district court. On March 8, 2016, the district court granted preliminary approval to the settlement. The final fairness hearing has been set for June 28, 2016. The Company believes the settlement payment of \$3.9 million will be covered by insurance.

On February 11, 2014, the Company was named as a defendant in a putative class action lawsuit filed in the U.S. District Court for the Southern District of Alabama (*Church v. Accretive Health, Inc.*). The primary allegation is that the Company attempted to collect debts without providing the notice required by the FDCPA. On November 24, 2015, the district court granted the Company's motion for summary judgment and dismissed the case with prejudice. Plaintiff filed a notice of appeal on December 21, 2015, and the appeal has been fully briefed, and will be argued on June 8, 2016.

On July 22, 2014, the Company was named as a defendant in a putative class action lawsuit filed in the U.S. District Court for the Eastern District of Michigan (*Anger v. Accretive Health, Inc.*). The primary allegations are that the Company attempted to collect debts without providing the notice required by the FDCPA and Michigan Fair Debt Collection Practices Act and failed to abide by the terms of an agreed payment plan in violation of those same statutes. On August 27, 2015, the Court granted in part and denied in part the Company's motion to dismiss. An amended complaint was filed on November 30, 2015. Discovery is underway. The Company believes that it has meritorious defenses and intends to vigorously defend itself against these claims. The outcome is not presently determinable. In April 2015, the Company was named among other defendants in an employment action brought by a former employee before the MHRC, alleging that she was improperly terminated in retaliation for uncovering alleged Medicare fraud. The Company filed its response with the MHRC on May 19, 2015 seeking that the Company be dismissed entirely from the action. On June 23, 2015, the MHRC issued its Notice of Right to Sue and decision to terminate its process with respect to all charges asserted by the former employee. The Plaintiff has filed a parallel qui tam action in the District of Maine (*Worthy v. Eastern Maine Healthcare Systems*) in which she makes the same allegations. The U.S. Department of Justice declined to intervene in the federal court action, and the case was unsealed in April 2015. The Company filed a motion to dismiss the Third Amended Complaint on March 21, 2016. The Company believes that it has meritorious defenses to both the employment law-related retaliation claim for

which the MHRC has granted the Notice of Right to Sue letter and the federal qui tam case, and intends to vigorously defend itself against these claims. The outcomes are not presently determinable.

On June 17, 2015, the Company filed a confidential arbitration demand with the American Arbitration Association against Salem Hospital for unpaid fees due under the parties' Accretive Health Services Agreement in an aggregate amount of \$9.3 million. On July 31, 2015, Salem Hospital filed its answer, in which it denied the Company's claims and asserted counterclaims against the Company in the amount of \$2.7 million. The outcome is not presently determinable.

On November 16, 2015, the Company was named in a putative class action lawsuit filed in the U.S. District Court for the Eastern District of Michigan (Dye v. Accretive Health, Inc.). The primary allegations were that the Company attempted to collect debts without complying with the provisions of the FDCPA. The case was voluntarily dismissed on December 4, 2015.

On December 10, 2015, the plaintiff in the Dye action filed a class-action complaint in the Circuit Court for the County of Macomb, Michigan, alleging that the Company's attempts to collect his debts had violated the Michigan Occupational Code. The Company filed its motion to dismiss on February 8, 2016 and on April 22, 2016, the Circuit Court Judge dismissed all claims and ordered the case closed.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors from those disclosed in our 2015 10-K. The risk factors disclosed in Part I, Item 1A of our 2015 10-K, in addition to the other information set forth in this Quarterly Report on Form 10-Q, could materially affect our business, financial condition, or results. Additional risks and uncertainties not currently known to us or that we deem to be immaterial could also materially adversely affect our business, financial condition, or results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Unregistered Sale of Equity Securities

We granted options to purchase an aggregate of 428,549 shares of our common stock with exercise prices ranging from \$2.61 to \$3.20 per share, and we issued 3,071,876 shares of restricted stock during the three months ended March 31, 2016 to employees and directors pursuant to our Amended and Restated 2010 Stock Incentive Plan and/or in reliance upon the exemption from the registration requirements of the Securities Act of 1933 ("Securities Act") provided by Section 4(a)(2) of the Securities Act as sales by an issuer not involving any public offering, as set forth in the tables below. No underwriters were involved in the foregoing transactions. All of such unregistered shares of common stock are deemed restricted securities for purposes of the Securities Act. No such options have been exercised.

The following table sets forth the dates on which such options were granted and the number of shares of common stock subject to such options, the exercise price and the number of employees and directors granted options on each date from January 1, 2016 through March 31, 2016:

Date of Grant	Common Stock Subject to Options Granted	Exercise Price	Number of Employees and Directors Granted Options
1/4/2016	23,438	\$ 3.20	2
2/22/2016	405,111 428,549	\$ 2.61	1

The following table sets forth the dates on which such shares of restricted stock were granted and the number of shares of restricted stock and the number of employees and directors granted restricted stock on each date from January 1, 2016 through March 31, 2016:

Date of Grant	Number of Common Stock Granted	Number of Employees and Directors Granted Restricted Stock
3/3/2016	3,071,876	76

Issuer Purchases of Equity Securities

The following table provides information about our repurchases of common stock during the periods indicated (in thousands, except share and per share data):

Period	Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Maximum Dollar Value of Shares that May Yet be Purchased Under Publicly Announced Plans or Programs (2)
January 1, 2016 through January 31, 2016	83,913	\$ 2.84	—	\$ 50,000
February 1, 2016 through February 29, 2016	23,366	\$ 2.43	—	\$ 50,000
March 1, 2016 through March 31, 2016	21,763	\$ 2.71	—	\$ 50,000

Repurchases of our common stock related to employees' tax withholding upon vesting of RSAs. See Note 7,

(1) Share-Based Compensation, to our condensed consolidated financial statements included in this Quarterly Report on Form 10-Q.

(2) On November 13, 2013, our board of directors announced that it authorized, subject to the completion of the restatement, the repurchase of up to \$50.0 million of our common stock from time to time in the open market or in privately negotiated transactions, (the "2013 Repurchase Program"). The timing and amount of any shares repurchased under the 2013 Repurchase Program will be determined by our management based on its evaluation of

market conditions and other factors. The 2013 Repurchase Program may be suspended or discontinued at any time. We currently intend to fund any repurchases from cash on hand. We did not repurchase any shares of common stock under the 2013 Repurchase Program during the quarter ended March 31, 2016.

In connection with the Transaction, we issued shares of Preferred Stock and the Warrant to the Investor. This issuance and sale was exempt from registration under the Securities Act pursuant to Section 4(a)(2) of the Securities Act. The Investor represented to us that it is an "accredited investor" as defined in Rule 501 of the Securities Act and that the Preferred Stock and the Warrant were being acquired for investment purposes and not with a view to, or for sale in connection with, any distribution thereof, and appropriate legends will be affixed to any certificates evidencing the shares of Preferred Stock, the Warrant or any common stock issued upon conversion thereof.

ITEM 6. EXHIBITS
