PRELIMINARY PROSPECTUS

57,700,000 Shares

SILVER HORN MINING LTD.

Common Stock

This prospectus relates to the sale by the selling stockholders identified in this prospectus of up to 57,700,000 shares of our common stock, which include 19,200,000 shares of common stock issuable upon conversion of convertible debentures and 33,000,000 shares of common stock issuable upon exercise of warrants.

The prices at which the selling stockholders may sell shares will be determined by the prevailing market price for the shares or in negotiated transactions. We will not receive any proceeds from the sale of these shares by the selling stockholders. All expenses of registration incurred in connection with this offering are being borne by us, but all selling and other expenses incurred by the selling stockholders will be borne by the selling stockholders.

Our common stock is quoted on the regulated quotation service of the OTC Bulletin Board under the symbol "SILV.OB". On July 20, 2011, the last reported sale price of our common stock as reported on the OTC Bulletin Board was \$0.27 per share.

Investing in our common stock is highly speculative and involves a high degree of risk. You should carefully consider the risks and uncertainties in the section entitled "Risk Factors" beginning on page 3 of this prospectus before making a decision to purchase our stock.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is _____, 2011

PROSPECTUS SUMMARY

The following summary highlights information contained elsewhere in this prospectus. It may not contain all the information that may be important to you. You should read this entire prospectus carefully, including the sections entitled “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operation,” and our historical financial statements and related notes included elsewhere in this prospectus.

Overview

We are primarily engaged in the acquisition and exploration of properties that may contain silver deposits. Our target properties are those that have been the subject of historical exploration. We have filed Federal unpatented lode mining claims in Yavapai County, Arizona and Mohave County, Arizona for the purpose of exploration and potential development of silver deposits on a total of approximately 1,000 acres. We plan to review opportunities to acquire additional mineral properties with current or historic silver deposits with meaningful exploration potential.

Our properties do not have any reserves. We plan to conduct exploration programs on these properties with the objective of ascertaining whether any of our properties contain economic concentrations of uranium that are prospective for mining. We have not generated any revenues from our mining exploration to date.

Corporate History

We were incorporated under the name “Swiftly Carwash & Quick-Lube, Inc.” in the state of Florida on September 25, 1997. On October 22, 1999, we changed our name from “Swiftly Carwash & Quick-Lube, Inc.” to “SwiftlyNet.com, Inc.” On January 29, 2001, we changed our name from “SwiftlyNet.com, Inc.” to “Yseek, Inc.” On June 10, 2003, we changed our name from “Yseek, Inc.” to “Advanced 3-D Ultrasound Services, Inc.” We merged with World Energy Solutions, Inc., a private Florida corporation, on August 17, 2005. Advanced 3D Ultrasound Services, Inc. remained as the surviving entity and legal acquirer, and World Energy Solutions, Inc. was the accounting acquirer. On November 7, 2005, we changed our name to “World Energy Solutions, Inc.” and merged with Professional Technical Systems, Inc. We remained as the surviving entity and legal acquirer, while Professional Technical Systems, Inc. was the accounting acquirer. On February 26, 2009, we changed our name to “EClips Energy Technologies, Inc.” For the purpose of changing our state of incorporation to Delaware, we merged with and into our newly-formed wholly-owned subsidiary, EClips Media Technologies, Inc. on April 21, 2010, with EClips Media Technologies, Inc. continuing as the surviving corporation. Effective April 25, 2011, we changed our name to “Silver Horn Mining Ltd.” from “EClips Media Technologies, Inc.” pursuant to a parent-subsiidiary merger under Section 253 of the Delaware General Corporation Law.

Our principal executive offices are located at 3266 W. Galveston Drive, Apache Junction, Arizona 85120, and our telephone number is (480) 288-6566.

The Offering

Common stock offered by the selling stockholders:	57,700,000 shares, consisting of 5,500,000 shares issued to 23 investors in a private placement, 19,200,000 shares of common stock issuable upon conversion of convertible debentures and 33,000,000 shares of common stock issuable upon exercise of warrants
Common stock outstanding before and after this offering:	211,833,555 (1)
Use of proceeds:	We will not receive any proceeds from the sale of shares in this offering by the selling stockholders.
OTC Bulletin Board symbol:	SILV.OB
Risk factors:	You should carefully consider the information set forth in this prospectus and, in particular, the specific factors set forth in the "Risk Factors" section beginning on page 3 of this prospectus before deciding whether or not to invest in shares of our common stock.

(1) The number of outstanding shares before and after the offering is based upon 211,833,555 shares outstanding as of July 20, 2011.

The number of shares of common stock outstanding before and after this offering excludes:

- 19,200,000 shares of common stock issuable upon the conversion of outstanding debentures;
- 36,000,000 shares of common stock issuable upon the exercise of outstanding warrants; and
- 30,000,000 shares of common stock issuable upon the exercise of currently outstanding options with a weighted average exercise price of \$0.05 per share.

RISK FACTORS

Investing in our common stock involves a high degree of risk. Before investing in our common stock you should carefully consider the following risks, together with the financial and other information contained in this prospectus. If any of the following risks actually occurs, our business, prospects, financial condition and results of operations could be adversely affected. In that case, the trading price of our common stock would likely decline and you may lose all or a part of your investment.

Risks Relating to Our Business

WE ARE AN EXPLORATION STAGE COMPANY AND HAVE ONLY RECENTLY COMMENCED EXPLORATION ACTIVITIES ON OUR CLAIMS. WE EXPECT TO INCUR OPERATING LOSSES FOR THE FORESEEABLE FUTURE.

Our evaluation of the 36 federal unpatented lode mining claims located in Yavapai County, Arizona and of the 14 federal unpatented lode mining claims located in Mohave County, Arizona is primarily a result of historical exploration data. Although we have made field observations, our exploration program is just getting under way. Accordingly, we are not yet in a position to evaluate the likelihood that our business will be successful. We have not earned any revenues as of the date of this report. Potential investors should be aware of the difficulties normally encountered by new mineral exploration companies and the high rate of failure of such enterprises. The likelihood of success must be considered in light of the problems, expenses, difficulties, complications and delays encountered in connection with the exploration of the mineral properties that we plan to undertake. These potential problems include, but are not limited to, unanticipated problems relating to exploration, and additional costs and expenses that may exceed current estimates. Prior to completion of our exploration stage, we anticipate that we will incur increased operating expenses without realizing any revenues. We expect to incur significant losses into the foreseeable future. We recognize that if we are unable to generate significant revenues from development and production of minerals from the claims, we will not be able to earn profits or continue operations. There is no history upon which to base any assumption as to the likelihood that we will prove successful, and it is doubtful that we will generate any operating revenues or ever achieve profitable operations. If we are unsuccessful in addressing these risks, our business will most likely fail.

BECAUSE WE HAVE NOT SURVEYED OUR MINING CLAIMS, WE MAY DISCOVER MINERALIZATION ON THE CLAIMS THAT IS NOT WITHIN OUR CLAIMS BOUNDARIES.

While we have conducted mineral claim title searches, this should not be construed as a guarantee of claims boundaries. Until the claims are surveyed, the precise location of the boundaries of the claims may be in doubt. If we discover mineralization that is close to the claims boundaries, it is possible that some or all of the mineralization may occur outside the boundaries. In such a case we would not have the right to extract those minerals.

IF WE DISCOVER COMMERCIAL RESERVES OF PRECIOUS METALS ON OUR MINERAL PROPERTY, WE CAN PROVIDE NO ASSURANCE THAT WE WILL BE ABLE TO OBTAIN FINANCING TO SUCCESSFULLY ADVANCE THE MINERAL CLAIMS INTO COMMERCIAL PRODUCTION.

If our exploration program is successful in establishing ore of commercial tonnage and grade, we will require additional funds in order to advance the claims into commercial production. Obtaining additional financing would be subject to a number of factors, including the market price for the minerals, investor acceptance of our claims and general market conditions. These factors may make the timing, amount, terms or conditions of additional financing

unavailable to us. The most likely source of future funds is through the sale of equity capital. Any sale of share capital will result in dilution to existing shareholders. We may be unable to obtain any such funds, or to obtain such funds on terms that we consider economically feasible and an investor may lose any investment he makes in our shares.

OUR INDEPENDENT AUDITOR HAS ISSUED AN AUDIT OPINION WHICH INCLUDES A STATEMENT DESCRIBING A DOUBT WHETHER WE WILL CONTINUE AS A GOING CONCERN.

As described in Note 2 of our accompanying financial statements, our lack of operations and any guaranteed sources of future capital create substantial doubt as to our ability to continue as a going concern. If our business plan does not work, we could remain as a start-up company with limited operations and revenues.

GOVERNMENT REGULATION OR OTHER LEGAL UNCERTAINTIES MAY INCREASE COSTS AND OUR BUSINESS WILL BE NEGATIVELY AFFECTED.

Laws and regulations govern the exploration, development, mining, production, importing and exporting of minerals; taxes; labor standards; occupational health; waste disposal; protection of the environment; mine safety; toxic substances; and other matters. In many cases, licenses and permits are required to conduct mining operations. Amendments to current laws and regulations governing operations and activities of mining companies or more stringent implementation thereof could have a substantial adverse impact on us. Applicable laws and regulations will require us to make certain capital and operating expenditures to initiate new operations. Under certain circumstances, we may be required to stop exploration activities, once started, until a particular problem is remedied or to undertake other remedial actions.

BASED ON CONSUMER DEMAND, THE GROWTH AND DEMAND FOR ANY SILVER WE MAY RECOVER FROM OUR CLAIMS MAY BE SLOWED, RESULTING IN REDUCED REVENUES.

Our continued success will be dependent on the growth of demand for silver. If consumer demand slows our revenues may be significantly affected. This could limit our ability to generate revenues and our financial condition and operating results may be harmed.

THE GLOBAL ECONOMIC CRISIS COULD HAVE A MATERIAL ADVERSE EFFECT ON OUR LIQUIDITY AND CAPITAL RESOURCES.

The recent distress in the financial markets has resulted in extreme volatility in security prices and diminished liquidity and credit availability, and there can be no assurance that our liquidity will not be affected by changes in the financial markets and the global economy or that our capital resources will at all times be sufficient to satisfy our liquidity needs. In addition, the tightening of the credit markets could make it more difficult for us to access funds, enter into agreements for new debt or obtain funding through the issuance of our securities.

OUR BUSINESS MAY REQUIRE ADDITIONAL CAPITAL FOR CONTINUED GROWTH, AND OUR GROWTH MAY BE SLOWED IF WE DO NOT HAVE SUFFICIENT CAPITAL.

The continued growth and operation of our business may require additional funding for working capital. We may be unable to secure such funding when needed in adequate amounts or on acceptable terms, if at all. To execute our business strategy, we may issue additional equity securities in public or private offerings, potentially at a price lower than the market price at the time of such issuance. Similarly, we may seek debt financing and may be forced to incur significant interest expense. If we cannot secure sufficient funding, we may be forced to forego strategic opportunities or delay, scale back or eliminate operations, acquisitions, and other investments.

Our ability to obtain needed financing may be impaired by such factors as the condition of the economy and capital markets, both generally and specifically in our industry, and the fact that we are not profitable, which could impact the availability or cost of future financings. If the amount of capital we are able to raise from financing activities, together with our revenues from operations, is not sufficient to satisfy our capital needs, even to the extent that we reduce our operations accordingly, we may be required to cease operations.

OUR INABILITY TO USE SHARES OF OUR COMMON STOCK TO FINANCE FUTURE ACQUISITIONS COULD IMPAIR THE GROWTH AND EXPANSION OF OUR BUSINESS.

The extent to which we will be able or willing to use shares of our common stock to consummate acquisitions will depend on (i) the market value of our securities which will vary, (ii) liquidity, which is presently limited, and (iii) the willingness of potential sellers to accept shares of our common stock as full or partial payment for their business. Using shares of our common stock for this purpose may result in significant dilution to existing stockholders. To the extent that we are unable to use common stock to make future acquisitions, our ability to grow through acquisitions may be limited by the extent to which we are able to raise capital through debt or equity financings. We may not be able to obtain the necessary capital to finance any acquisitions. If we are unable to obtain additional capital on acceptable terms, we may be required to reduce the scope of expansion or redirect resources committed to internal purposes. Our failure to use shares of our common stock to make future acquisitions may hinder our ability to actively pursue our acquisition program.

Risks Relating to Our Organization

COMPLIANCE WITH THE REPORTING REQUIREMENTS OF FEDERAL SECURITIES LAWS CAN BE EXPENSIVE AND MAY DIVERT RESOURCES FROM OTHER PROJECTS, THUS IMPAIRING OUR ABILITY GROW.

We are subject to the information and reporting requirements of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), and other federal securities laws, including compliance with the Sarbanes-Oxley Act of 2002 (the “Sarbanes-Oxley Act”). The costs of preparing and filing annual and quarterly reports, proxy statements and other information with the SEC and furnishing audited reports to stockholders will cause our expenses to be higher than they would have been if we were a privately owned company.

It may be time consuming, difficult and costly for us to develop and implement the internal controls and reporting procedures required by the Sarbanes-Oxley Act. We may need to hire additional financial reporting, internal controls and other finance personnel in order to develop and implement appropriate internal controls and reporting procedures. If we are unable to comply with the internal controls requirements of the Sarbanes-Oxley Act, then we may not be able to obtain the independent accountant certifications required by such act, which may preclude us from keeping our filings with the Securities and Exchange Commission current and interfere with the ability of investors to trade our securities and for our shares to continue to be quoted on the OTC Bulletin Board or to list on any national securities exchange.

OUR CERTIFICATE OF INCORPORATION ALLOWS FOR OUR BOARD TO CREATE NEW SERIES OF PREFERRED STOCK WITHOUT FURTHER APPROVAL BY OUR STOCKHOLDERS WHICH COULD ADVERSELY AFFECT THE RIGHTS OF THE HOLDERS OF OUR COMMON STOCK.

Our board of directors has the authority to fix and determine the relative rights and preferences of preferred stock. Our board of directors also has the authority to issue preferred stock without further stockholder approval. As a result, our board of directors could authorize the issuance of a series of preferred stock that would grant to such holders (i) the preferred right to our assets upon liquidation, (ii) the right to receive dividend payments before dividends are distributed to the holders of common stock and (iii) the right to the redemption of the shares, together with a premium, prior to the redemption of our common stock. In addition, our board of directors could authorize the issuance of a series of preferred stock that has greater voting power than our common stock or that is convertible into our common stock, which could decrease the relative voting power of our common stock or result in dilution to our existing common stockholders.

IF WE FAIL TO ESTABLISH AND MAINTAIN AN EFFECTIVE SYSTEM OF INTERNAL CONTROL, WE MAY NOT BE ABLE TO REPORT OUR FINANCIAL RESULTS ACCURATELY OR TO PREVENT FRAUD. ANY INABILITY TO REPORT AND FILE OUR FINANCIAL RESULTS ACCURATELY AND TIMELY COULD HARM OUR REPUTATION AND ADVERSELY IMPACT THE TRADING PRICE OF OUR COMMON STOCK.

Effective internal control is necessary for us to provide reliable financial reports and prevent fraud. If we cannot provide reliable financial reports or prevent fraud, we may not be able to manage our business as effectively as we would if an effective control environment existed, and our business and reputation with investors may be harmed. As a result, our small size and any current internal control deficiencies may adversely affect our financial condition, results of operation and access to capital. Management has determined that our internal audit function is significantly deficient due to insufficient qualified resources to perform internal audit functions. During our assessment of the effectiveness of internal control over financial reporting as of December 31, 2010, management identified significant deficiency related to (i) our internal audit functions, and (ii) a lack of segregation of duties within accounting functions. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with any policies and procedures may deteriorate.

PUBLIC COMPANY COMPLIANCE MAY MAKE IT MORE DIFFICULT TO ATTRACT AND RETAIN OFFICERS AND DIRECTORS.

The Sarbanes-Oxley Act and rules implemented by the Securities and Exchange Commission have required changes in corporate governance practices of public companies. As a public company, we expect these rules and regulations to increase our compliance costs in 2011 and beyond and to make certain activities more time consuming and costly. As a public company, we also expect that these rules and regulations may make it more difficult and expensive for us to

obtain director and officer liability insurance and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. As a result, it may be more difficult for us to attract and retain qualified persons to serve on our board of directors or as executive officers, and to maintain insurance at reasonable rates, or at all.

OUR MANAGEMENT'S AND BOARD OF DIRECTORS' RELATIVE LACK OF PUBLIC COMPANY EXPERIENCE COULD PUT US AT GREATER RISK OF INCURRING FINES OR REGULATORY ACTIONS FOR FAILURE TO COMPLY WITH FEDERAL SECURITIES LAWS AND COULD PUT US AT A COMPETITIVE DISADVANTAGE.

Daniel Bleak, our Chief Executive Officer, Chairman and Chief Financial Officer, and John Eckersley, a director, each have less than one year of experience managing and operating a public company and Joseph Wilkins, Jr., our other director, has no prior experience managing and operating a public company. As our management and board of directors have minimal public company experience, we may have to spend more time and money to comply with legally mandated corporate governance policies than our competitors whose management teams and boards have more public company experience. Any failure to comply or adequately comply with federal securities laws, rules or regulations could subject us to fines or regulatory actions, which may materially adversely affect our business, prospects, results of operations and financial condition.

Risks Relating to Our Common Stock

WE MAY FAIL TO QUALIFY FOR CONTINUED LISTING ON THE OTC BULLETIN BOARD WHICH COULD MAKE IT MORE DIFFICULT FOR INVESTORS TO SELL THEIR SHARES.

Our common stock is listed on the OTC Bulletin Board. There can be no assurance that trading of our common stock on such market will be sustained or that we can meet OTC Bulletin Board's continued listing standards. In the event that our common stock fails to qualify for continued inclusion, our common stock could thereafter only be quoted on the "pink sheets." Under such circumstances, shareholders may find it more difficult to dispose of, or to obtain accurate quotations, for our common stock, and our common stock would become substantially less attractive to certain purchasers such as financial institutions, hedge funds and other similar investors.

OUR COMMON STOCK MAY BE AFFECTED BY LIMITED TRADING VOLUME AND PRICE FLUCTUATIONS WHICH COULD ADVERSELY IMPACT THE VALUE OF OUR COMMON STOCK.

There has been limited trading in our common stock and there can be no assurance that an active trading market in our common stock will either develop or be maintained. Our common stock has experienced, and is likely to experience in the future, significant price and volume fluctuations which could adversely affect the market price of our common stock without regard to our operating performance. In addition, we believe that factors such as quarterly fluctuations in our financial results and changes in the overall economy or the condition of the financial markets could cause the price of our common stock to fluctuate substantially. These fluctuations may also cause short sellers to periodically enter the market in the belief that we will have poor results in the future. We cannot predict the actions of market participants and, therefore, can offer no assurances that the market for our common stock will be stable or appreciate over time.

OUR STOCK PRICE MAY BE VOLATILE.

The market price of our common stock is likely to be highly volatile and could fluctuate widely in price in response to various factors, many of which are beyond our control, including the following:

- changes in our industry;
- competitive pricing pressures;
- our ability to obtain working capital financing;
- additions or departures of key personnel;
- sales of our common stock;

- our ability to execute our business plan;
- operating results that fall below expectations;
- loss of any strategic relationship;
- regulatory developments; and
- economic and other external factors.

In addition, the securities markets have from time to time experienced significant price and volume fluctuations that are unrelated to the operating performance of particular companies. These market fluctuations may also materially and adversely affect the market price of our common stock.

WE HAVE NOT PAID CASH DIVIDENDS IN THE PAST AND DO NOT EXPECT TO PAY CASH DIVIDENDS IN THE FUTURE. ANY RETURN ON AN INVESTMENT IN OUR COMMON STOCK MAY BE LIMITED TO THE VALUE OF THE COMMON STOCK.

We have never paid cash dividends on our common stock and do not anticipate doing so in the foreseeable future. The payment of dividends on our common stock will depend on our earnings, financial condition, and other business and economic factors as our board of directors may consider relevant. If we do not pay dividends, our common stock may be less valuable because a return on a shareholder's investment will only occur if our stock price appreciates.

OFFERS OR AVAILABILITY FOR SALE OF A SUBSTANTIAL NUMBER OF SHARES OF OUR COMMON STOCK MAY CAUSE THE PRICE OF OUR COMMON STOCK TO DECLINE.

If our stockholders sell substantial amounts of our common stock in the public market, including shares covered by the registration statement of which this prospectus forms a part, or upon the expiration of any statutory holding period under Rule 144, or issued upon the exercise or conversion of outstanding options, warrants or convertible debentures, a circumstance commonly referred to as an "overhang" could occur and in anticipation of which the market price of our common stock could fall. The existence of an overhang, whether or not sales have occurred or are occurring, also could make more difficult our ability to raise additional financing through the sale of equity or equity-related securities in the future at a time and price that we deem reasonable or appropriate.

INVESTOR RELATIONS ACTIVITIES, NOMINAL "FLOAT" AND SUPPLY AND DEMAND FACTORS MAY AFFECT THE PRICE OF OUR STOCK.

We expect to utilize various techniques such as non-deal road shows and investor relations campaigns in order to create investor awareness. These campaigns may include personal, video and telephone conferences with investors and prospective investors in which our business practices are described. We may provide compensation to investor relations firms and pay for newsletters, websites, mailings and email campaigns that are produced by third-parties based upon publicly-available information concerning us. We will not be responsible for the content of analyst reports and other writings and communications by investor relations firms not authored by us or from publicly available information. We do not intend to review or approve the content of such analysts' reports or other materials based upon analysts' own research or methods. Investor relations firms should generally disclose when they are compensated for their efforts, but whether such disclosure is made or complete is not under our control. In addition, our investors may be willing, from time to time, to encourage investor awareness through similar activities. Investor awareness activities may also be suspended or discontinued which may impact the trading market our common stock.

The Securities and Exchange Commission and FINRA enforce various statutes and regulations intended to prevent manipulative or deceptive devices in connection with the purchase or sale of any security and carefully scrutinize trading patterns and company news and other communications for false or misleading information, particularly in cases where the hallmarks of "pump and dump" activities may exist, such as rapid share price increases or decreases. We, and our shareholders may be subjected to enhanced regulatory scrutiny due to the small number of holders who initially will own the registered shares of our common stock publicly available for resale, and the limited trading markets in which such shares may be offered or sold which have often been associated with improper activities concerning penny-stocks, such as the OTC Bulletin Board or the OTCQB Marketplace (Pink OTC) or pink sheets. Until such time as our restricted shares are registered or available for resale under Rule 144, there will

continue to be a small percentage of shares held by a small number of investors, many of whom acquired such shares in privately negotiated purchase and sale transactions, that will constitute the entire available trading market. The Supreme Court has stated that manipulative action is a term of art connoting intentional or willful conduct designed to deceive or defraud investors by controlling or artificially affecting the price of securities. Often times, manipulation is associated by regulators with forces that upset the supply and demand factors that would normally determine trading prices. Since a small percentage of our outstanding common stock will initially be available for trading, held by a small number of individuals or entities, the supply of our common stock for sale will be extremely limited for an indeterminate amount of time, which could result in higher bids, asks or sales prices than would otherwise exist. Securities regulators have often cited thinly-traded markets, small numbers of holders, and awareness campaigns as components of their claims of price manipulation and other violations of law when combined with manipulative trading, such as wash sales, matched orders or other manipulative trading timed to coincide with false or touting press releases. There can be no assurance that our or third-parties' activities, or the small number of potential sellers or small percentage of stock in the "float," or determinations by purchasers or holders as to when or under what circumstances or at what prices they may be willing to buy or sell stock will not artificially impact (or would be claimed by regulators to have affected) the normal supply and demand factors that determine the price of the stock.

EXERCISE OF OPTIONS, WARRANTS AND CONVERTIBLE DEBENTURES MAY HAVE A DILUTIVE EFFECT ON OUR COMMON STOCK.

If the price per share of our common stock at the time of exercise of any options, warrants, convertible debentures or any other convertible securities is in excess of the various exercise or conversion prices of such convertible securities, exercise or conversion of such convertible securities would have a dilutive effect on our common stock. As of July 20, 2011, we had (i) outstanding options to purchase 30,000,000 shares of our common stock at an exercise price of \$0.05 per share, (ii) outstanding convertible debentures that are convertible into 19,200,000 shares of our common stock at \$0.025 per share outstanding warrants to purchase 36,000,000 shares of our common stock at \$0.025 per share and (iii). Further, any additional financing that we secure may require the granting of rights, preferences or privileges senior to those of our common stock and result in additional dilution of the existing ownership interests of our common stockholders.

OUR COMMON STOCK MAY BE DEEMED A “PENNY STOCK,” WHICH WOULD MAKE IT MORE DIFFICULT FOR OUR INVESTORS TO SELL THEIR SHARES.

Our common stock may be subject to the “penny stock” rules adopted under Section 15(g) of the Exchange Act. The penny stock rules generally apply to companies whose common stock is not listed on The NASDAQ Stock Market or other national securities exchange and trades at less than \$4.00 per share, other than companies that have had average revenue of at least \$6,000,000 for the last three years or that have tangible net worth of at least \$5,000,000 (\$2,000,000 if the company has been operating for three or more years). These rules require, among other things, that brokers who trade penny stock to persons other than “established customers” complete certain documentation, make suitability inquiries of investors and provide investors with certain information concerning trading in the security, including a risk disclosure document and quote information under certain circumstances. Many brokers have decided not to trade penny stocks because of the requirements of the penny stock rules and, as a result, the number of broker-dealers willing to act as market makers in such securities is limited. If we remain subject to the penny stock rules for any significant period, it could have an adverse effect on the market for our securities. If our securities are subject to the penny stock rules, investors will find it more difficult to dispose of our securities.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains “forward-looking statements,” which include information relating to future events, future financial performance, strategies, expectations, competitive environment and regulation. Words such as “may,” “should,” “could,” “would,” “predicts,” “potential,” “continue,” “expects,” “anticipates,” “future,” “intends,” “plans,” “believes,” “estimates,” and “will” are used to identify forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results and will probably not be accurate indications of when such performance or results will be achieved. Forward-looking statements are based on information we have when those statements are made or our management’s good faith belief as of that time with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Important factors that could cause such differences include, but are not limited to:

- changes in our industry;
- competitive pricing pressures;
- our ability to obtain working capital financing;
- additions or departures of key personnel;

- sales of our common stock;
- our ability to execute our business plan;
- operating results that fall below expectations;
- loss of any strategic relationship;
- regulatory developments; and
- economic and other external factors.

You should review carefully the section entitled “Risk Factors” beginning on page 3 of this prospectus for a discussion of these and other risks that relate to our business and investing in shares of our common stock.

USE OF PROCEEDS

The selling stockholders will receive all of the proceeds from the sale of the shares offered by them under this prospectus. We will not receive any proceeds from the sale of the shares by the selling stockholders covered by this prospectus.

MARKET FOR OUR COMMON STOCK AND RELATED STOCKHOLDER MATTERS

In 2009 and through May 16, 2010, our common stock traded on the OTC Bulletin Board under the symbol EEGT.OB. On May 17, 2010, our trading symbol on the OTC Bulletin Board was changed to EEMT.OB as a result of our merger into our wholly owned subsidiary EClips Energy Technologies, Inc. On April 27, 2011, our trading symbol on the OTC Bulletin Board was changed to SILV.OB as a result of our name change effected pursuant to Section 235 of the Delaware General Corporation Law. The following table sets forth the high and low bid prices for the periods indicated as reported on the OTC Bulletin Board. The quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission, and may not necessarily represent actual transactions.

	Common Stock	
	High	Low
1st 1st quarter 2009	\$ 0.07	\$ 0.02
2nd quarter 2009	0.08	0.01
3rd quarter 2009	1.71	0.01
4th quarter 2009	0.95	0.03
1st quarter 2010	\$ 0.14	\$ 0.05
2nd quarter 2010	0.11	0.01
3rd quarter 2010	0.06	0.03
4th quarter 2010	0.11	0.02
1st quarter 2011	\$ 0.29	\$ 0.10
2nd quarter 2011	0.45	0.13
3rd quarter 2011 (through July 20, 2011)	0.29	0.21

All per share amounts are retroactively adjusted for our 1:150 reverse stock split effective August 25, 2009, our 2:1 forward exchange effective April 21, 2010 and the 2:1 stock dividend issued to certain of our stockholders on December 31, 2010.

The last reported sales price of our common stock on the OTC Bulletin Board on July 20, 2011, was \$0.27 per share. As of July 20, 2011, there were 527 holders of record of our common stock.

DIVIDEND POLICY

In the past, we have not declared or paid cash dividends on our common stock, and we do not intend to pay any cash dividends on our common stock. Rather, we intend to retain future earnings (if any) to fund the operation and expansion of our business and for general corporate purposes. Subject to legal and contractual limits, our board of directors will make any decision as to whether to pay dividends in the future.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATION

Corporate History and Overview

We were incorporated under the name "Swifty Carwash & Quick-Lube, Inc." in the state of Florida on September 25, 1997. On October 22, 1999, we changed our name from "Swifty Carwash & Quick-Lube, Inc." to "SwiftyNet.com, Inc." On January 29, 2001, we changed our name from "SwiftyNet.com, Inc." to "Yseek, Inc." On June 10, 2003, we changed our name from "Yseek, Inc." to "Advanced 3-D Ultrasound Services, Inc." We merged with World Energy Solutions, Inc., a private Florida corporation, on August 17, 2005. Advanced 3D Ultrasound Services, Inc. remained as the surviving entity and legal acquirer, and World Energy Solutions, Inc. was the accounting acquirer. On November 7, 2005, we changed our name to "World Energy Solutions, Inc." and merged with Professional Technical Systems, Inc. We remained as the surviving entity and legal acquirer, while Professional Technical Systems, Inc. was the accounting acquirer. On February 26, 2009, we changed our name to "EClips Energy Technologies, Inc." For the purpose of changing our state of incorporation to Delaware, we had merged with and into our then newly-formed wholly-owned subsidiary, EClips Media Technologies, Inc. on April 21, 2010, with EClips Media Technologies, Inc. continuing as the surviving corporation. Effective April 25, 2011, we changed our name to "Silver Horn Mining Ltd." from "EClips Media Technologies, Inc." pursuant to Section 253 of the Delaware General Corporation Law by merging a newly-formed, wholly-owned subsidiary of ours with and into the Company, with the Company as the surviving corporation in the merger.

Upon the appointment of Daniel Bleak as our Chief Executive Officer and Chairman on May 2, 2011, we focused our business efforts on the acquisition and exploration of properties that may contain mineral resources, principally silver. Our target properties are those that have been the subject of historical exploration or previous production. We have filed federal unpatented lode mining claims in Arizona for the purpose of exploration and potential development of silver on a total of approximately 1,000 acres. We plan to review opportunities to acquire additional mineral properties with current or historic silver mineralization with meaningful exploration potential.

Our properties do not have any reserves. We plan to conduct exploration programs on these properties with the objective of ascertaining whether any of our properties contain concentrations of silver that are prospective for mining.

Recent Events

On June 21, 2010, through our wholly-owned subsidiary SD Acquisition Corp, we acquired all of the business and assets of Brand Interaction Group, LLC. Brand Interaction Group, LLC owned and operated Superdraft, a sports entertainment and media business focused on promotion of fantasy league events through live and online events. In connection with the acquisition, Eric Simon, the control person of Brand Interaction Group, LLC, was appointed as our Chief Executive Officer and was issued 10,000,000 shares of our common stock. We also issued Brand Interaction Group, LLC 20,000,000 shares of our common stock and assumed certain debt that it had previously issued to several of its creditors.

In the fall of 2010, we decided to discontinue the operations of SD Acquisition Corp. because of the disappointing performance and negative results of its most recent fantasy league event in August 2010. Mr. Simon resigned as our Chief Executive Officer on November 15, 2010 and on December 7, 2010, we entered into a spinoff agreement with Brand Interaction Group, LLC, Mr. Simon, SD Acquisition Corp. and certain holders of our outstanding convertible debentures pursuant to which we agreed to spinoff SD Acquisition Corp. to Brand Interaction Group, LLC and Mr. Simon and cancel the 30,000,000 shares of common stock previously issued to Brand Interaction Group, LLC and Mr.

Simon. Upon the execution of the spinoff, we were released from any obligations and agreements incurred by Mr. Simon on behalf of SD Acquisition Corp. As set forth in the spinoff agreement, Brand Interaction Group, LLC is obligated to make direct payments of an aggregate of \$95,000 to certain holders of our convertible debentures in order to retire or reduce, on a dollar for dollar basis, amounts due and payable by us to such holders. In connection with the foregoing, Brand Interaction Group, LLC issued a \$95,000 promissory note to these holders. The note is payable in six equal monthly installments of \$15,833, with the first payment due on January 21, 2011. Between January 2011 and June 2011, Brand Interaction Group, LLC paid the holders approximately \$95,000 and such amount reduced the principal balance of our convertible debentures issued to these holders.

Effective April 25, 2011, we changed our name to “Silver Horn Mining Ltd.” from “EClips Media Technologies, Inc.” Effective April 27, 2011, our common stock began trading under a new symbol, “SILV”, on the OTC Bulletin Board. Until such date, our common stock traded under the symbol “EEMT”. On April 26, 2011, the Can-Am Gold Corp. delivered a quitclaim deed that conveyed to us all of its rights, title and interest in 36 unpatented lode mining claims located in Yavapai County, Arizona. We paid Can-Am Gold Corp. ten dollars (\$10.00) as consideration for the quitclaim deed. On May 2, 2011, our Board of Directors appointed Daniel Bleak, Can-Am Gold Corp.'s President and sole director, as Chairman and Chief Executive Officer. Upon the effectiveness of Mr. Bleak’s appointment, we commenced focusing our business efforts on mining and resources, principally silver exploration and production.

On May 23, 2011, we entered into subscription agreements with certain investors whereby we sold an aggregate of 11,000,000 shares of our common stock at a purchase price of \$0.05 per share and an aggregate purchase price of \$550,000. As set forth in the subscription agreements, we agreed to file a “resale” registration statement with the Securities and Exchange Commission covering 50% of the shares of the common stock sold to each investor in the offering within 60 days of the closing of the offering. We agreed to use our best efforts to cause the registration statement to be declared effective within 120 days.

For the three months ended March 31, 2011, we had a net loss of \$5,879,950 and \$89,543 of net cash used in operations. At March 31, 2011 we had a working capital deficiency of \$9,347,030. Additionally, at March 31, 2011, we had an accumulated deficit of approximately \$42 million and stockholder’s deficit of \$9,462,749. These matters and our expected needs for capital investments required to support operational growth raise substantial doubt about our ability to continue as a going concern. Our consolidated financial statements do not include any adjustments to reflect the possible effects on recoverability and classification of assets or the amounts and classification of liabilities that may result from our inability to continue as a going concern.

Critical Accounting Policies and Estimates

Our financial statements and accompanying notes are prepared in accordance with generally accepted accounting principles in the United States. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. These estimates and assumptions are affected by management's applications of accounting policies. Critical accounting policies for our company include accounting for derivative liabilities and stock based compensation.

Stock Based Compensation

In December 2004, the Financial Accounting Standards Board, or FASB, issued FASB ASC Topic 718: Compensation – Stock Compensation (“ASC 718”). Under ASC 718, companies are required to measure the compensation costs of share-based compensation arrangements based on the grant-date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services. Share-based compensation arrangements include stock options, restricted share plans, performance-based awards, share appreciation rights and employee share purchase plans. Companies may elect to apply this statement either prospectively, or on a modified version of retrospective application under which financial statements for prior periods are adjusted on a basis consistent with the pro forma disclosures required for those periods under ASC 718. Upon adoption of ASC 718, we elected to value employee stock options using the Black-Scholes option valuation method that uses assumptions that relate to the expected volatility of the our common stock, the expected dividend yield of our stock, the expected life of the options and the risk free interest rate. Such compensation amounts, if any, are amortized over the respective vesting periods or period of service of the option grant.

Use of Estimates

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the statements of financial condition, and revenues and expenses for the years then ended. Actual results may differ significantly from those estimates. Significant estimates made by management include, but are not limited to, the assumptions used to calculate stock-based compensation, derivative liabilities, and debt discount.

Derivative Liabilities

In June 2008, a FASB approved guidance related to the determination of whether a freestanding equity-linked instrument should be classified as equity or debt under the provisions of FASB ASC Topic No. 815-40, “Derivatives and Hedging – Contracts in an Entity’s Own Stock” (“ASC 815-40”). The adoption of this requirement will affect accounting for convertible instruments and warrants with provisions that protect holders from declines in the stock price (“down-round” provisions). Warrants with such provisions will no longer be recorded in equity and would have to be reclassified to a liability. Instruments with down-round protection are not considered indexed to a company's own stock under ASC 815-40, because neither the occurrence of a sale of common stock by the company at market nor the issuance of another equity-linked instrument with a lower strike price is an input to the fair value of a fixed-for-fixed option on equity shares. ASC 815-40 guidance is to be applied to outstanding instruments as of the beginning of the fiscal year in which it is applied. The cumulative effect of the change in accounting principle shall be recognized as an adjustment to the opening balance of retained earnings (or other appropriate components of equity) for that fiscal year, presented separately. If an instrument is classified as debt, it is valued at fair value, and this value is re-measured on an ongoing basis, with changes recorded on the statement of operations in each reporting period.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (“ASU”) No. 2010-06, “Improving Disclosures about Fair Value Measurements” (ASU 2010-06”) an amendment to ASC Topic 820, “Fair Value Measurements and Disclosures.” This amendment requires an entity to: (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separate information for Level 3 activity pertaining to gross purchases, sales, issuances, and settlements. ASU 2010-06 is effective for us for interim and annual reporting beginning after December 15, 2009, with one new disclosure effective after December 15, 2010. The adoption of ASU 2010-06 did not have a material impact on the results of operations and financial condition.

In February 2010, the FASB issued an amendment to the accounting standards related to the accounting for, and disclosure of, subsequent events in an entity’s consolidated financial statements. This standard amends the authoritative guidance for subsequent events that was previously issued and among other things exempts Securities and Exchange Commission registrants from the requirement to disclose the date through which it has evaluated subsequent events for either original or restated financial statements. This standard does not apply to subsequent events or transactions that are within the scope of other applicable GAAP that provides different guidance on the accounting treatment for subsequent events or transactions. The adoption of this standard did not have a material impact on our consolidated financial statements.

In July 2010, the FASB issued ASU No. 2010-20, “Receivables (Topic 310): Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses” (“ASU 2010-20”). ASU 2010-20 requires additional disclosures about the credit quality of a company’s loans and the allowance for loan losses held against those loans. Companies will need to disaggregate new and existing disclosures based on how it develops its allowance for loan losses and how it manages credit exposures. Additional disclosure is also required about the credit quality indicators of loans by class at the end of the reporting period, the aging of past due loans, information about troubled debt restructurings, and significant purchases and sales of loans during the reporting period by class. The new guidance is effective for interim and annual periods beginning after December 15, 2010. We anticipate that adoption of these additional disclosures will not have a material effect on our financial position or results of operations.

Other accounting standards that have been issued or proposed by FASB that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

Results of Operations

Three months ended March 31, 2011 compared to three months ended March 31, 2010

Net Revenues. We have not generated revenues during the three months ended March 31, 2011 and 2010.

Operating Expenses. Operating expenses consists of costs associated with our administration and in relation to the public entity. Payroll and stock based compensation expenses were \$9,000 and \$365,417 for the three months ended March 31, 2011 and 2010, respectively, a decrease of approximately of \$356,417 or 98%. The decrease was primarily attributable to the issuance of 10,000,000 shares of common stock to our former Chief Executive Officer and Chairman pursuant to a consulting agreement in February 2010. In connection with the issuance of these shares during the three months ended March 31, 2010, we recorded stock based compensation of \$335,417. We did not have a comparable expense during the three months ended March 31, 2011.

Professional and consulting expenses were \$118,815 and \$766,686 for three months ended March 31, 2011 and 2010, respectively, a decrease of approximately of \$647,871 or 85%. Professional expenses were incurred for our audits and public filing requirements. The decrease was primarily attributable to the issuance of our common stock to two consultants for services rendered amounting to \$690,000 during the three months ended March 31, 2010 offset by increase in professional fees of approximately \$10,000 during the three months ended March 31, 2011.

General and administrative expenses, which consist of office expenses, insurance, rent and general operating expenses totaled \$15,837 for the three months ended March 31, 2011, as compared to \$18,813 for the three months ended March 31, 2010, a decrease of approximately \$2,976 or 16%. General and administrative expenses decreased as a result of cost cutting measures.

Total Other Expense. Our total other expenses during the three months ended March 31, 2011 primarily included expenses associated with derivative liabilities and interest expense.

Change in Fair Value of Derivative Liabilities and Derivative Liabilities Expense

We recorded derivative liability of \$8,981,256 in connection with the issuance of convertible debentures and warrants at March 31, 2011. Change in fair value of derivative liabilities expense consisted of income or expense associated with the change in the fair value of derivative liabilities as a result of the application of ASC 815-40 to our financial statements. The variation in fair value of the derivative liabilities between measurement dates amounted to an (increase) decrease of \$(5,467,711) and \$380,842 during the three months ended March 31, 2011 and 2010, respectively. The increase/decrease in fair value of the derivative liabilities has been recognized as other expense/income. We also recognized derivative liability expense of \$950,166 during the three months ended March 31, 2010 upon issuance of the convertible debentures and warrants in fiscal 2010.

The adoption of ASC 815-40's requirements will affect accounting for convertible instruments and warrants with provisions that protect holders from declines in the stock price ("down-round" provisions). Warrants with such provisions will no longer be recorded in equity. Instruments with down-round protection are not considered indexed to a company's own stock under ASC 815-40, because neither the occurrence of a sale of common stock by the company at market nor the issuance of another equity-linked instrument with a lower strike price is an input to the fair value of a fixed-for-fixed option on equity shares. In connection with the issuance of our 6% convertible debentures beginning on December 17, 2009, we have determined that the terms of the convertible debenture include a down-round provision under which the conversion price could be affected by future equity offerings undertaken by us until the 18 month anniversary of such convertible debenture.

So long as convertible instruments and warrants with down-round provisions that protect holders from declines in the stock price remain outstanding, we will recognize other income or expense in future periods based upon the fluctuation of the market price of our common stock. This non-cash income or expense is reasonably anticipated to materially affect our net loss in future periods. We are, however, unable to estimate the amount of such income/expense in future periods as the income/expense is partly based on the market price of our common stock at the end of a future measurement date. In addition, in the future if we issue securities which are classified as derivatives we will incur expense and income items in future periods. Investors are cautioned to consider the impact of this non-cash accounting treatment on our financial statements.

Interest Expense, Net

Interest expense consists primarily of interest recognized in connection with the amortization of debt discount, amortization of debt issuance cost and interest on our convertible debentures. The increase in interest expense when compared to the same period in 2010 is primarily attributable to the amortization of the debt discount amounting to approximately \$288,854 during the three months ended March 31, 2011, associated with the 6% convertible debenture as compared to \$26,042 during the three months ended March 31, 2010.

Loss from Operations

We recorded loss from operations of \$143,652 for the three months ended March 31, 2011 as compared to \$1,150,916 for the three months ended March 31, 2010.

Net Loss

We recorded net loss of \$5,879,950 for the three months ended March 31, 2011 as compared to \$1,750,249 for the three months ended March 31, 2010. As a result of the factors described above, our net loss per share (basic and diluted) for the three months ended March 31, 2011 was \$0.03 per share as compared to \$0.01 per share during the same period in 2010.

Liquidity and Capital Resources

Liquidity is the ability of a company to generate funds to support its current and future operations, satisfy its obligations, and otherwise operate on an ongoing basis. At March 31, 2011, we had a cash balance of \$129,510. Our working capital deficit is \$9,347,030 at March 31, 2011. We reported a net loss of \$5,879,950 and \$1,750,249 during the three months ended March 31, 2011 and 2010, respectively. We do not anticipate we will be profitable in fiscal 2011.

We reported a net increase in cash for the three months ended March 31, 2011 of \$35,457. While we currently have no material commitments for capital expenditures, at March 31, 2011 we owed \$652,500 under various convertible debentures. During the three months ended March 31, 2011, we have raised net proceeds of \$125,000 from exercise of stock warrants. We do not presently have any external sources of working capital.

We do not have revenues to fund our operating expenses. We presently do not have any available credit, bank financing or other external sources of liquidity. We will need to obtain additional capital in order to expand operations and become profitable. In order to obtain capital, we may need to sell additional shares of our common stock or borrow funds from private lenders. There can be no assurance that we will be successful in obtaining additional funding. Additional capital is being sought, but we cannot guarantee that we will be able to obtain such investments. Financing transactions may include the issuance of equity or debt securities, obtaining credit facilities, or other financing mechanisms. However, the trading price of our common stock and a downturn in the U.S. equity and debt markets could make it more difficult to obtain financing through the issuance of equity or debt securities. Even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect significant amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Furthermore, if we issue additional equity or debt securities, stockholders may experience additional dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of our common stock. If additional financing is not available or is not available on acceptable terms, we will have to curtail our operations.

Operating Activities

Net cash flows used in operating activities for the three months ended March 31, 2011 amounted to \$89,543 and were primarily attributable to our net losses of \$5,879,950, offset by amortization of debt discount and debt issuance costs of \$290,417, change in fair value of derivative liabilities of \$5,467,711, amortization of prepaid expenses of \$45,567, total changes in assets and liabilities of \$14,956 and add back gain from settlement of debt of \$28,244. Net cash flows used in operating activities for the three months ended March 31, 2010 amounted to \$76,629 and were primarily attributable to our net losses of \$1,750,249, offset by amortization of debt discount of \$26,042, stock based expenses of \$1,025,417, derivative liability expense of \$950,166, total changes in assets and liabilities of \$50,787 and add back change in fair value of derivative liabilities of (\$380,842).

Investing Activities

Net cash flows used in investing activities were \$0 for the three months ended March 31, 2011. Net cash flows used in investing activities were \$138,775 for the three months ended March 31, 2010. We paid leasehold improvement of \$8,325 and invested \$130,450 on a 6% demand promissory note receivable.

Financing Activities

Net cash flows provided by financing activities were \$125,000 for the three months ended March 31, 2011. We received net proceeds from exercise of stock warrants of \$125,000. Net cash flows provided by financing activities were \$237,500 for the three months ended March 31, 2010. We received net proceeds from convertible debentures of \$237,500.

Debenture Financing

Between December 2009 and June 2010 we entered into various securities purchase agreements with accredited investors pursuant to which we agreed to issue an aggregate of \$1,025,000 of our 6% convertible debentures for an aggregate purchase price of \$1,025,000. The debentures bear interest at 6% per annum and mature two years from the dates of issuance. The debentures are convertible at the option of the holder at any time into shares of common stock, at a conversion price equal to the lesser of (i) \$0.025 per share or (ii) until the 18 month anniversary of the debenture, the lowest price paid per share or the lowest conversion price per share in a subsequent sale of our equity and/or convertible debt securities paid by investors after the date of the debenture. In connection with the agreements, the investors received an aggregate of 41,000,000 warrants to purchase shares of our common stock. The warrants are exercisable for a period of five years from the date of issuance at an exercise price of \$0.025, subject to adjustment in certain circumstances. Warrant holders may exercise the warrant on a cashless basis if the fair market value (as defined in the warrant) of one share of common stock is greater than the initial exercise price. At March 31, 2011, we owed \$652,500 under these convertible debentures.

Contractual Obligations

We have certain fixed contractual obligations and commitments that include future estimated payments. Changes in our business needs, cancellation provisions, changing interest rates, and other factors may result in actual payments differing from the estimates. We cannot provide certainty regarding the timing and amounts of payments. We have presented below a summary of the most significant assumptions used in our determination of amounts presented in the tables, in order to assist in the review of this information within the context of our consolidated financial position, results of operations, and cash flows.

The following tables summarize our contractual obligations as of March 31, 2011.

	Payments Due by Period				
	Total	Less than 1 year	1-3 Years	4-5 Years	5 Years +
Contractual Obligations:					
Convertible debenture - current	\$ 277,500	\$ 277,500	\$ —	\$ —	\$ —
Convertible debenture – long term	375,000	—	375,000	—	—
Total Contractual Obligations:	\$ 652,500	\$ 277,500	\$ 375,000	\$ —	\$ —

Off-balance Sheet Arrangements

We have not entered into any other financial guarantees or other commitments to guarantee the payment obligations of any third parties. We have not entered into any derivative contracts that are indexed to our shares and classified as stockholder's equity or that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity.

BUSINESS

Corporate History

We were incorporated under the name “Swifty Carwash & Quick-Lube, Inc.” in the state of Florida on September 25, 1997. On October 22, 1999, we changed our name from “Swifty Carwash & Quick-Lube, Inc.” to “SwiftyNet.com, Inc.” On January 29, 2001, we changed our name from “SwiftyNet.com, Inc.” to “Yseek, Inc.” On June 10, 2003, we changed our name from “Yseek, Inc.” to “Advanced 3-D Ultrasound Services, Inc.” We merged with World Energy Solutions, Inc., a private Florida corporation, on August 17, 2005. Advanced 3D Ultrasound Services, Inc. remained as the surviving entity and legal acquirer, and World Energy Solutions, Inc. was the accounting acquirer. On November 7, 2005, we changed our name to “World Energy Solutions, Inc.” and merged with Professional Technical Systems, Inc. We remained as the surviving entity and legal acquirer, while Professional Technical Systems, Inc. was the accounting acquirer. On February 26, 2009, we changed our name to “EClips Energy Technologies, Inc.” For the purpose of changing our state of incorporation to Delaware, we merged with and into our newly-formed wholly-owned subsidiary, EClips Media Technologies, Inc. on April 21, 2010, with EClips Media Technologies, Inc. continuing as the surviving corporation. Effective April 25, 2011, we changed our name to “Silver Horn Mining Ltd.” The name change was effected pursuant to Section 253 of the Delaware General Corporation Law by merging a newly-formed, wholly-owned subsidiary with and into us, and we remained as the surviving corporation in the merger.

Our Current Business

Upon the appointment of Daniel Bleak as our Chief Executive Officer and Chairman on May 2, 2011, we focused our business efforts on the acquisition and exploration of properties that may contain mineral resources, principally silver. Our target properties are those that have been the subject of historical exploration or previous production. We have filed federal unpatented lode mining claims in Arizona for the purpose of exploration and potential development of silver on a total of approximately 1,000 acres. We plan to review opportunities to acquire additional mineral properties with current or historic silver mineralization with meaningful exploration potential.

Our properties do not have any reserves. We plan to conduct exploration programs on these properties with the objective of ascertaining whether any of our properties contain concentrations of silver that are prospective for mining.

THE 76 PROPERTY

The 76 Property is located in Yavapai County, Arizona, 50 miles northwest of Pheonix, Arizona. The property consists of 36 federal unpatented lode mining claims on Bureau of Land Management (“BLM”) land totaling 720 acres that we acquired pursuant to a quitclaim deed that we purchased from Can-Am Gold Corp. for \$10.00 on April 26, 2011. To maintain the mining claims in good standing, we must make annual maintenance fee payments to the BLM, in lieu of annual assessment work. These claim fees are \$140 per claim per year, plus an annual fee of \$10 per claim per year to Yavapai County where the claims are located. We are currently planning an exploration program consisting of sampling, mapping and assaying to determine potential targets for drilling and further development.

With regard to the unpatented lode mining claims, future exploration drilling will require us to either file a Notice of Intent or a Plan of Operations with the BLM, depending upon the amount of new surface disturbance that is planned. A Notice of Intent is for planned surface activities that anticipate less than five acres of surface disturbance, and usually can be obtained within a 30 to 60 day time period. A Plan of Operations will be required if there is greater

than five acres of new surface disturbance involved with the planned exploration work. A Plan of Operations can take several months to be approved, depending on the nature of the intended work, the level of reclamation bonding required, the need for archeological surveys, and other factors as may be determined by the BLM.

The 76 Property does not currently have any reserves. All activities undertaken and currently proposed at the 76 Property are exploratory in nature.

THE COD PROPERTY

The COD Property is located in Mohave County, Arizona, 7 miles southwest of Chloride, Arizona. The property consists of 14 federal unpatented lode mining claims on BLM land totaling 280 acres. We filed the claims with the BLM on July 1, 2011. To maintain the mining claims in good standing, we must make annual maintenance fee payments to the BLM, in lieu of annual assessment work. These claim fees are \$140 per claim per year, plus an annual fee of \$10 per claim per year to Mohave County where the claims are located. We are currently planning an exploration program consisting of sampling, mapping and assaying to determine potential targets for drilling and further development.

With regard to the unpatented lode mining claims, future exploration drilling will require us to either file a Notice of Intent or a Plan of Operations with the BLM, depending upon the amount of new surface disturbance that is planned. A Notice of Intent is for planned surface activities that anticipate less than five acres of surface disturbance, and usually can be obtained within a 30 to 60 day time period. A Plan of Operations will be required if there is greater than five acres of new surface disturbance involved with the planned exploration work. A Plan of Operations can take several months to be approved, depending on the nature of the intended work, the level of reclamation bonding required, the need for archeological surveys, and other factors as may be determined by the BLM.

The COD Property does not currently have any reserves. All activities undertaken and currently proposed at the COD Property are exploratory in nature.

Competition

We do not compete directly with anyone for the exploration or removal of silver and other minerals from our property as we hold all interest and rights to the claims. Readily available commodities markets exist in the U.S. and around the world for the sale of minerals. Therefore, we will likely be able to sell silver and other minerals that we are able to recover. We will be subject to competition and unforeseen limited sources of supplies in the industry in the event spot shortages arise for supplies such as dynamite, and certain equipment such as bulldozers and excavators that we will need to conduct exploration. If we are unsuccessful in securing the products, equipment and services we need we may have to suspend our exploration plans until we are able to secure them.

Compliance with Government Regulation

We are required to comply with all regulations, rules and directives of governmental authorities and agencies applicable to the exploration of minerals in the United States generally. We are also subject to the regulations of the BLM.

We are required to pay annual maintenance fees to the BLM to keep our federal lode mining claims in good standing. The maintenance period begins at noon on September 1 through the following September 1 and payments are due by the first day of the maintenance period. The annual fee is \$140 per claim.

Future exploration drilling on any of our properties that consist of BLM land will require us to either file a Notice of Intent or a Plan of Operations with the BLM, depending upon the amount of new surface disturbance that is planned. A Notice of Intent is for planned surface activities that anticipate less than five acres of surface disturbance, and usually can be obtained within a 30 to 60 day time period. A Plan of Operations will be required if there is greater than five acres of new surface disturbance involved with the planned exploration work. A Plan of Operations can take several months to be approved, depending on the nature of the intended work, the level of reclamation bonding required, the need for archeological surveys, and other factors as may be determined by the BLM. Permits to drill are also required from the Arizona Department of Water Resources.

Facilities

We entered into a month to month lease agreement on May 1, 2011 for warehouse space in Apache Junction, Arizona. The facility is approximately 2,800 square feet. We pay the landlord, Pinal Realty Investments, Inc., an aggregate of \$1,000 per month in rent and management fees. Mr. Bleak and his son each own 31% of Pinal Realty Investments, Inc.

Research and Development

We have not expended funds for research and development costs since inception.

Employees

As of July 20, 2011, we had no full time or part time employees. On April 3, 2011 we entered into a consulting agreement with Mr. Bleak that terminated on June 30, 2011. On June 1, 2011, we entered into a services and employee leasing agreement with MJI Resource Management Corp. pursuant to which it made available to us six of its employees, including Mr. Bleak, for the purpose of performing management, operations, legal, accounting and resource location services. We pay MJI Resource Management Corp. \$15,000 a month under this agreement. Mr. Eckersley, one of our directors, is the President of MJI Resource Management Group.

Legal Proceedings

From time to time, we may become involved in litigation relating to claims arising out of our operations in the normal course of business. Except as described below, we are not currently involved in any pending legal proceeding or litigation and, to the best of our knowledge, no governmental authority is contemplating any proceeding to which we are a party or to which any of our properties is subject, which would reasonably be likely to have a material adverse effect on our business, financial condition and operating results.

MANAGEMENT

The following table sets forth information regarding the members of our board of directors and our sole executive officer. All directors hold office for one-year terms until the election and qualification of their successors. Officers are elected by the board of directors and serve at the discretion of the board.

Name	Age	Position
Daniel Bleak	54	Chief Executive Officer, Chairman of the Board of Directors and Chief Financial Officer
John Eckersley	52	Director
Joseph Wilkins, Jr.	73	Director

Daniel Bleak, Chief Executive Officer, Chairman of the Board of Directors and Chief Financial Officer. Mr. Bleak has served as our Chief Executive Officer and Chairman of the Board of Directors since May 2, 2011 and as our Chief Financial Officer since May 11, 2011. Mr. Bleak has over 30 years of experience in mineral exploration and development and has managed a broad range of exploration projects throughout North America, has discovered several producing mineral deposits, and developed decorative rock and industrial materials businesses in the southwestern U.S. Mr. Bleak has served on the board of directors and as an officer of a number of mining, mineral exploration, and real estate companies. He has served as a director of Continental Resources Group, Inc. (formerly American Energy Fields, Inc.) (AEFI.OB) since November 2010, as a director of Southwest Exploration, Inc. since 2009, as President and director of Pinal Realty Investments, Inc. since 2006, as President and a director of NPX Metals, Inc., a resource acquisition company, since 2006, as President and sole director of Can-Am Gold Corp. since 2009 and as President and director of Black Mountain Mining Company since 2000. Mr. Bleak was appointed to his positions based on his corporate experience and knowledge of the resources industry.

John Eckersley, Director. Mr. Eckersley has served as a director since July 12, 2011. Mr. Eckersley has practiced law as a solo practitioner since 1999. His practice focuses on securities compliance, corporate governance and estate planning. He has also served as the Vice President, Legal and Corporate Affairs, of Passport Potash, Inc. (PPRTE.OTCQX) (PPI.TSXV), a resource company engaged in the exploration and development of advanced potash properties, since December 2010. At Passport Potash, Inc., Mr. Eckersley's responsibilities include corporate counsel, corporate governance, securities compliance, land and mineral resource acquisition and permitting with local, State and federal agencies. Mr. Eckersley served as the Executive Vice President, Secretary and Treasurer of Digital Business Resource, Inc., a telecommunications company, from 1996 to 1999, where he was a founder, and was responsible for developing systems for office management, accounting, client services, vendor coordination and marketing. Prior to this position, Mr. Eckersley served as the General Counsel of TIMI, a public finance advisory company, where he advised the company on corporate strategy and was responsible for the company's compliance filings. Mr. Eckersley was appointed as a director based on his corporate experience and knowledge of the resources industry.

Joseph Wilkins, Jr., Director. Mr. Wilkins has served as a director since July 12, 2011. Mr. Wilkins has over 45 years of experience in mineral exploration and development and has served as a consulting geologist on a broad range of exploration projects throughout North America and Australia. Mr. Wilkins has provided consulting geologist services to OZ Minerals Ltd. (OZL.A), an Australian copper and gold producer, since October 2010; to Continental Resources Group, Inc. (formerly American Energy Fields, Inc.) (AEFI.OTCBB), a uranium exploration company, from August 2010 to September 2010; to Aurum National Holdings, Ltd., a gold exploration company, from February 2010 to July 2010; to West Timmins Mining Inc. (WTM.TSXV), a gold exploration company, from April 2009 to November 2009; to Grand Central Silver Mining, a precious metals exploration company, in August 2009; to NPX Metals, a metal exploration company, from February 2008 to October 2009; to Newcrest Resources, Inc., an Australian copper and gold producer, from June 2007 to July 2007 and to Kennecott Exploration Co., a mineral exploration company, from May 2005 to November 2007. Mr. Wilkins has a BS in Geophysics and Geochemistry and a MS in Geosciences from the University of Arizona. Mr. Wilkins was appointed as a director based on his knowledge of the resources industry and substantial relevant business experience.

There are no family relationships among any of our directors and executive officers.

Board Committees

Audit Committee. We intend to establish an audit committee of the board of directors once we have satisfied the other initial listing standards for listing our common stock on the Nasdaq Stock Market or another national exchange. The audit committee will consist of independent directors, of which at least one director will qualify as a qualified financial expert as defined in Item 407(d)(5)(ii) of Regulation S-K. The audit committee's duties will be to recommend to our board of directors the engagement of independent auditors to audit our financial statements and to review our accounting and auditing principles. The audit committee will review the scope, timing and fees for the annual audit and the results of audit examinations performed by the internal auditors and independent public accountants, including their recommendations to improve the system of accounting and internal controls. The audit committee will at all times be composed exclusively of directors who are, in the opinion of our board of directors, free from any relationship that would interfere with the exercise of independent judgment as a committee member and who possess an understanding of financial statements and generally accepted accounting principles.

Compensation Committee. We intend to establish a compensation committee of the board of directors once we have satisfied the other initial listing standards for listing our common stock on the Nasdaq Stock Market or another national exchange. The compensation committee will review and approve our salary and benefits policies, including compensation of executive officers. The compensation committee will also administer our stock option plans and recommend and approve grants of stock options under such plans.

Code of Ethics

We intend to adopt a code of ethics that applies to our officers, directors and employees, including our chief executive officer and chief financial officer, but have not done so to date due to our relatively small size.

EXECUTIVE COMPENSATION

Summary Compensation Table

The following table summarizes the overall compensation earned over each of the past two fiscal years ending December 31, 2009 and 2010 by each person who served as our principal executive officer during fiscal 2010.

(1) Reflects the grant date fair values of stock awards calculated in accordance with FASB Accounting Standards Codification Topic 718. All stock awards have been adjusted for our 1:150 reverse stock split effective August 25, 2009, our 2:1 forward exchange effective April 21, 2010 and our 2:1 stock dividend issued to certain stockholders on December 31, 2010.

(2) Mr. Croxton resigned from all of his positions with us effective February 4, 2010.

(3) Includes 2,200,000 shares of our common stock issued in connection with the termination of Mr. Croxton's employment agreement.

(4) Mr. Cohen joined us as our Chief Executive Officer, director and Chairman on February 4, 2010 and resigned as our Chief Executive Officer on June 21, 2010 but remained as our Chairman and director until December 31, 2010.

(5) Includes payments of \$80,000 per month made to Colonial Ventures, LLC, an entity controlled by Mr. Cohen, in connection with a consulting agreement between us and Colonial Ventures, LLC.

(6) Includes 5,000,000 shares of common stock issued on February 4, 2010, in connection with the consulting agreement with Colonial Ventures, LLC. We had issued Colonial Ventures LLC and Mr. Cohen's wife an aggregate of 10,000,000 shares of common stock in connection with the agreement and 5,000,000 of these shares were canceled effective December 13, 2010.

(7) Includes \$14,920 for reimbursements for certain health insurance expenses.

(8) Mr. Kesner joined us as our Chief Executive Officer since November 15, 2010 and as a director on February 4, 2010. He commenced serving as our Chairman on December 31, 2010. Mr. Kesner resigned from all of his positions with us on May 2, 2011, except that he remains an officer of our subsidiary RZ Acquisition Corp.

(9) Mr. Kesner received a total of \$9,500 in connection with his service on our board of directors and a total of \$4,500 in connection with his services as our Chief Executive Officer.

(10) Mr. Simon joined us as our Chief Executive Officer on June 21, 2010 and resigned effective November 15, 2010.

(11) Mr. Simon was originally issued 10,000,000 shares on June 21, 2010 in connection with his employment agreement and the 10,000,000 shares were canceled on December 7, 2010.

Employment Agreements

On January 31, 2006, we entered into an employment agreement with Mr. Croxton. The agreement provided for an annual salary of \$156,000, the transfer of 1,200,000 shares of our common stock and severance benefits equal to 52 weeks of base salary. On February 4, 2010, we and Mr. Croxton entered into a release agreement pursuant to which, in consideration for the termination of his employment agreement, we issued Mr. Croxton 2,200,000 shares of our common stock, valued at their fair market value in the amount of \$55,000. Furthermore, we agreed to transfer to Mr. Croxton our former subsidiaries Pure Air Technologies, Inc., Hydrogen Safe Technologies, Inc., World Energy Solutions Limited and Advanced Alternative Energy, Inc. and granted to Mr. Croxton a five-year option for the purchase of H-Hybrid Technologies, Inc.

On February 4, 2010, we entered into a Consulting Agreement with Colonial, a company controlled by Mr. Cohen. The agreement provided that Colonial was to perform consulting and advisory services for us including but not limited to acquisitions, business development, management and sales services, and related services pertaining to our business, and that Mr. Cohen was to serve as our Chairman and Chief Executive Officer and perform the consulting and advisory services for us on behalf of Colonial. Under the agreement, we agreed to pay Colonial \$10,000 per month as well as a discretionary bonus. We issued Colonial 10,000,000 shares of common stock (as adjusted for our April 21, 2010 2:1 forward stock split). Half of these shares vested immediately upon issue and the remaining shares were to vest on the one year anniversary of the agreement, so long as we continued to engage Colonial and so long as Mr. Cohen remained on our board of directors. The agreement was terminable at any time, without cause or for good reason, including upon a change of control. The agreement had an initial term of two years and was to subsequently automatically renew each year, subject to each party giving the other 60 days notice of non-renewal. In the event of termination without cause or for good reason, Colonial was entitled to receive the base salary for the remainder of the term, any unpaid bonus earned through the date of termination and any compensation previously deferred by Colonial. During the term of the agreement and for a period of twelve months thereafter, Colonial and Mr. Cohen were subject to non-competition and non-solicitation provisions. The agreement was terminated effective December 31, 2010 and the 5,000,000 unvested shares issued pursuant to the agreement were cancelled effective December 13, 2010.

Outstanding Equity Awards at Fiscal Year-End

There were no outstanding equity awards held by our named executive officers as of December 31, 2010.

Director Compensation

The compensation paid to Mr. Cohen and Mr. Kesner for their services as directors for the year ending December 31, 2010 is fully set forth above. Daniel Wood, who served as a director from February 4, 2010 to December 31, 2010, did not receive any compensation for his services for the year ending December 31, 2010.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

On December 22, 2009 we entered into a purchase agreement with Mr. Croxton, our former Chief Executive Officer and director, and certain purchasers who represented a controlling interest in us. The agreement was amended on January 12, 2010, and the transactions contemplated therein became effective on February 4, 2010. On that date, we underwent a change of control through (i) the resignation of all of our existing officers and directors, including Mr. Croxton, (ii) the purchase by the purchasers, in privately negotiated transactions, of certain of our outstanding shares of common and preferred stock from Mr. Croxton and (iii) the appointment of Mr. Cohen as our Chairman and Chief Executive Officer and the appointment of Mr. Kesner and Mr. Wood as directors. The purchasers purchased an aggregate of 100,000,000 shares of our common stock (as adjusted for our April 21, 2010 2:1 forward stock split), and

1,500,000 shares of Series D Convertible Preferred Stock (the "Series D Preferred Stock"), which comprised approximately 82% of our issued and outstanding shares of voting stock. As a result of the purchase agreement, Auracana, LLC, the purchaser of the 1,500,000 shares of Series D Preferred Stock, effectively gained control over our voting stock as each share of the Series D Preferred Stock was entitled to 500 votes per share voting as a class with common stock. On April 21, 2010, in connection with our merger with EClips Media Technologies, Inc., each issued and outstanding share of EClips Energy Technologies, Inc. Series D Preferred Stock was converted into two shares of EClips Media Technologies, Inc. Series A Convertible Preferred Stock (the "Series A Preferred Stock"). Glenn Kesner, our former Chairman, Chief Executive Officer and President, is the president and control person of Auracana, LLC.

In connection with our purchase agreement with Mr. Croxton, we issued him 2,200,000 shares of our common stock (as adjusted for our April 21, 2010 2:1 forward stock split) and transferred to him or his designee our former subsidiaries Pure Air Technologies, Inc., Hydrogen Safe Technologies, Inc., World Energy Solutions Limited and Advanced Alternative Energy, Inc. and granted him a five-year option for the purchase of H-Hybrid Technologies, Inc.

From March 2010 through June 2010, we paid leasehold improvements and rent of \$14,025 and \$12,486, respectively, in connection with the office space that we shared with a company controlled by Mr. Cohen, our former Chairman and Chief Executive Officer.

On June 21, 2010, through our wholly-owned subsidiary SD Acquisition Corp, we acquired all of the business and assets of Brand Interaction Group, LLC. In connection with the acquisition, Mr. Simon, the control person of Brand Interaction Group, LLC, was appointed as our Chief Executive Officer and was issued 10,000,000 shares of our common stock. We also issued Brand Interaction Group, LLC 20,000,000 shares of our common stock and assumed certain debt that Brand Interaction Group, LLC had previously issued to several of its creditors.

In the fall of 2010, we decided to discontinue the operations of SD Acquisition Corp. Mr. Simon resigned as our Chief Executive Officer on November 15, 2010 and on December 7, 2010, we entered into a spinoff agreement with Brand Interaction Group, LLC, Mr. Simon, SD Acquisition Corp. and certain holders of our outstanding convertible debentures pursuant to which we agreed to spinoff SD Acquisition Corp. to Brand Interaction Group, LLC and Mr. Simon and cancel the 30,000,000 shares of common stock previously issued to Brand Interaction Group, LLC and Mr. Simon. Upon the execution of the spinoff, we were released from any obligations and agreements incurred by Mr. Simon on behalf of SD Acquisition Corp.

As set forth in the spinoff agreement, Brand Interaction Group, LLC was obligated to make direct payments of an aggregate of \$95,000 to certain holders of our convertible debentures in order to retire or reduce, on a dollar for dollar basis, amounts due and payable by us to such holders. In connection with the foregoing, Brand Interaction Group, LLC issued a \$95,000 promissory note to these holders. The note was payable in six equal monthly installments of \$15,833, with the first payment due on January 21, 2011. On June 20, 2011, Brand Interaction Group, LLC fully paid the entire amount of the \$95,000 promissory note, reducing the principal balance of our convertible debentures issued to these holders by \$95,000.

On April 3, 2011, we entered into a consulting agreement with Mr. Bleak, who was appointed as our Chief Executive Officer and Chairman on May 2, 2011 and as our Chief Financial Officer on May 11, 2011, pursuant to which we agreed to pay him a fee of \$5,000 per month for each of April, May and June 2011 as compensation for his professional services.

On April 26, 2011, we purchased a quitclaim deed for the 76 Property from Can-Am Gold Corp. that conveyed to us all of Can-Am Gold Corp.'s rights, title and interest in 36 unpatented lode mining claims located in Yavapai County, Arizona. We paid ten dollars (\$10.00) as consideration for the quitclaim deed. Mr. Bleak, our current Chief Executive Officer, Chairman and Chief Financial Officer, is the president and sole director of Can-Am Gold Corp.

On May 1, 2011, we entered into a month to month lease agreement for warehouse space in Apache Junction, Arizona with Pinal Realty Investments, Inc., pursuant to which we pay an aggregate of \$1,000 per month in rent and management fees. Mr. Bleak and his son each own 31% of Pinal Realty Investments, Inc.

On June 1, 2011, we entered into a services and employee leasing agreement with MJI Resource Management Corp. pursuant to which we paid MJI Resource Management Corp. \$15,000 a month and MJI Resource Management Corp. made available to us six of its employees, including Mr. Bleak, for the purpose of performing management,

operations, legal, accounting and resource location services. Mr. Eckersley, one of our directors, is the President of MJI Resource Management Group.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth information with respect to the beneficial ownership of our common stock as of July 20, 2011 by:

- each person known by us to beneficially own more than 5.0% of our common stock;
- each of our directors;
- each of the named executive officers; and
- all of our directors and executive officers as a group.

The percentages of common stock beneficially owned are reported on the basis of regulations of the Securities and Exchange Commission governing the determination of beneficial ownership of securities. Under the rules of the Securities and Exchange Commission, a person is deemed to be a beneficial owner of a security if that person has or shares voting power, which includes the power to vote or to direct the voting of the security, or investment power, which includes the power to dispose of or to direct the disposition of the security. Except as indicated in the footnotes to this table, each beneficial owner named in the table below has sole voting and sole investment power with respect to all shares beneficially owned and each person's address is c/o Silver Horn Mining Ltd., 3266 W. Galveston Drive, Apache Junction, Arizona 85120.

As of July 20, 2011, we had 211,833,555 shares outstanding.

SELLING STOCKHOLDERS

Up to 57,700,000 shares of common stock are being offered by this prospectus, all of which are being registered for sale for the accounts of the selling stockholders and include the following:

- 5,500,000 shares of common stock that were issued to investors in connection with a private placement on May 23, 2011;
- 19,200,000 shares underlying outstanding five year convertible debentures convertible into shares of common stock at \$0.025 per share issued to certain investors between February 2010 and June 2010; and
- 33,000,000 shares underlying outstanding five year warrants exercisable at \$0.025 per share that were issued to certain investors between February 2010 and June 2010.

Each of the transactions by which the selling stockholders acquired their securities from us was exempt under the registration provisions of the Securities Act.

The shares of common stock referred to above are being registered to permit public sales of the shares, and the selling stockholders may offer the shares for resale from time to time pursuant to this prospectus. The selling stockholders may also sell, transfer or otherwise dispose of all or a portion of their shares in transactions exempt from the registration requirements of the Securities Act or pursuant to another effective registration statement covering those shares. We may from time to time include additional selling stockholders in supplements or amendments to this prospectus.

The table below sets forth certain information regarding the selling stockholders and the shares of our common stock offered by them in this prospectus. The selling stockholders have not had a material relationship with us within the past three years other than as described in the footnotes to the table below or as a result of their acquisition of our shares or other securities. To our knowledge, subject to community property laws where applicable, each person named in the table has sole voting and investment power with respect to the shares of common stock set forth opposite such person's name.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission. In computing the number of shares beneficially owned by a selling stockholder and the percentage of ownership of that selling stockholder, shares of common stock underlying debentures and warrants held by that selling stockholder that are exercisable within 60 days of July 20, 2011 are included. Those shares, however, are not deemed outstanding for the purpose of computing the percentage ownership of any other selling stockholder. Each selling stockholder's percentage of ownership of our outstanding shares in the table below is based upon 211,833,555 shares of common stock outstanding as of July 20, 2011. With respect to the warrants and debentures there exists contractual provisions limiting exercise to the extent such exercise would cause the holders thereof together with their affiliates or members of a "group", to beneficially own a number of shares of common stock that would exceed 4.99% or 9.99% of our then outstanding shares of common stock following such exercise. The shares and percentage ownership of our outstanding shares indicated in the table below do not give effect to this limitation.

(1) Represents the amount of shares that will be held by the selling stockholders after completion of this offering based on the assumptions that (a) all shares registered for sale by the registration statement of which this prospectus is part will be sold and (b) that no other shares of our common stock beneficially owned by the selling stockholders are acquired or are sold prior to completion of this offering by the selling stockholders. However, the selling stockholders may sell all, some or none of the shares offered pursuant to this prospectus and may sell other shares of our common stock that they may own pursuant to another registration statement under the Securities Act or sell some or all of their shares pursuant to an exemption from the registration provisions of the Securities Act, including under Rule 144. To our knowledge there are currently no agreements, arrangements or understanding with respect to the sale of any of the shares that may be held by the selling stockholders after completion of this offering or otherwise.

DESCRIPTION OF SECURITIES

We are authorized to issue 750,000,000 shares of common stock and 10,000,000 shares of preferred stock. On July 20, 2011, there were 211,833,555 shares of common stock issued and outstanding and 3,000,000 shares of Series A Preferred Stock issued and outstanding.

Common Stock

The holders of common stock are entitled to one vote per share. Our certificate of incorporation does not provide for cumulative voting. The holders of our common stock are entitled to receive ratably such dividends, if any, as may be declared by the board of directors out of legally available funds. Upon liquidation, dissolution or winding-up, the holders of our common stock are entitled to share ratably in all assets that are legally available for distribution. The holders of our common stock have no preemptive, subscription, redemption or conversion rights. The rights, preferences and privileges of holders of our common stock are subject to, and may be adversely affected by, the rights of the holders of any series of preferred stock, which may be designated solely by action of the board of directors and issued in the future.

Preferred Stock

The board of directors is authorized, subject to any limitations prescribed by law, without further vote or action by the stockholders, to issue from time to time shares of preferred stock in one or more series. Each such series of preferred stock shall have such number of shares, designations, preferences, voting powers, qualifications, and special or relative rights or privileges as shall be determined by the board of directors, which may include, among others, dividend rights, voting rights, liquidation preferences, conversion rights and preemptive rights.

On April 20, 2010, in connection with our merger with and into our former subsidiary EClips Media Technologies, Inc., each issued and outstanding share of our Series D Preferred Stock, par value \$0.0001 per share, was converted into 2 shares of Series A Preferred Stock, par value \$0.0001 per share, for a total of 3,000,000 issued and outstanding shares of Series A Preferred Stock. Each share of Series A Preferred Stock is convertible into one share each of our common stock, subject to equitable adjustments after such events as stock dividends, stock splits or fundamental corporate transactions. The holders of our Series A Preferred Stock are entitled to 250 votes for each share of Series A Preferred Stock owned at the record date for the determination of shareholders entitled to vote, or, if no record date is established, at the date such vote is taken or any written consent of shareholders is solicited. In the event of a liquidation, dissolution or winding up of our business, the holder of the Series A Preferred Stock would have preferential payment and distribution rights over any other class or series of capital stock that provide for Series A Preferred Stock's preferential payment and over our common stock.

Convertible Debentures

As of July 20, 2011, we had an aggregate of \$480,000 of 6% convertible debentures outstanding that were issued to certain investors on each of the dates and in the amounts set forth below.

Investment Date	Investment	
	Amount	Conversion Shares
February 4, 2010	\$130,000	5,200,000
March 22, 2010	\$25,000	1,000,000
April 7, 2010	\$20,000	800,000

Edgar Filing: SILVER HORN MINING LTD. - Form S-1

April 21, 2010	\$20,000	800,000
April 30, 2010	\$65,000	2,600,000
May 7, 2010	\$15,000	600,000
May 11, 2010	\$25,000	1,000,000
June 11, 2010	\$180,000	7,200,000

Each debenture is due two years from its date of issuance and is convertible, at the holder's option, into shares of our common stock at a conversion price equal to the lesser of (i) \$0.025 per share, or (ii) until the 18 month anniversary of the date of issuance, the lowest price paid per share or the lowest conversion price per share in a subsequent sale of our equity and/or convertible debt securities. We are to pay interest on the aggregate unconverted and then outstanding principal amount of the debenture on each conversion date, as to the principal amount then being converted, and on the maturity date. We are prohibited from effecting the conversion of the debentures issued on February 4, 2010 to the extent that as a result of such exercise the holder of the converted debenture would beneficially own more than 4.99% in the aggregate of our issued and outstanding shares of common stock. We are prohibited from effecting the conversion of the debentures issued on March 22, 2010, April 7, 2010, April 21, 2010, April 30, 2010, May 11, 2010, May 7, 2010 and June 11, 2010 to the extent that as a result of such exercise the holder of the converted debenture would beneficially own more than 9.99% in the aggregate of our issued and outstanding shares of common stock. The debentures contain provisions that protect the holders against dilution by adjustment of the purchase price in certain events such as stock dividends, stock splits, subsequent rights offerings and other similar events.

Warrants

On each of February 4, 2010, March 22, 2010, April 7, 2010, April 21, 2010, April 30, 2010, May 7, 2010, May 11, 2010 and June 11, 2010 we issued warrants to purchase an aggregate of 36,000,000 shares of common stock. The warrants have a term of five years and are exercisable at any time at an exercise price of \$0.025 per share. We are prohibited from effecting the exercise of the warrants issued on February 4, 2010 to the extent that as a result of such exercise the holder of the exercised warrant would beneficially own more than 4.99% in the aggregate of our issued and outstanding shares of common stock, as calculated immediately after giving effect to the issuance of shares of our common stock upon the exercise of the warrant. We are prohibited from effecting the exercise of the warrants issued on March 22, 2010, April 7, 2010, April 21, 2010, April 30, 2010, May 7, 2010, May 11, 2010 and June 11, 2010 to the extent that as a result of such exercise the holder of the exercised warrant would beneficially own more than 9.99% in the aggregate of our issued and outstanding shares of common stock, as calculated immediately after giving effect to the issuance of shares of our common stock upon the exercise of the warrant. The warrants contain provisions that protect the holders against dilution by adjustment of the purchase price in certain events such as stock dividends, stock splits and other similar events. The holders have the right to exercise the warrant for cash or by means of a cashless exercise.

Options

On May 2, 2011, we issued to Mr. Bleak, our Chairman, Chief Executive Officer and Chief Financial Officer, a five year option to purchase 30 million shares of our common stock. The option may be exercised for cash or shares of common stock at an exercise price of \$0.05 per share. The option is exercisable as to one third of the number of shares granted on each of the first, second and third anniversaries of the date of grant, provided Mr. Bleak continues to serve as a director on such dates.

Registration Rights

In connection with our private placement of 11,000,000 shares of common stock on May 23, 2011, we agreed to file a registration statement with the Securities and Exchange Commission within 60 days of closing (the "Filing Date") covering the resale of 50% of the shares of common stock issued in such private placement, and to use our best efforts to cause the registration statement to be declared effective by the Securities and Exchange Commission on or before 120 days of the closing (the "Effectiveness Deadline"). If (i) the registration statement is not filed on or before the Filing Date or (ii) the registration statement is not declared effective by the Securities and Exchange Commission on or

before the Effectiveness Deadline, then we will make payments to the investors of 1% of their investment for every 30 day period (or pro rata portion thereof) up to a maximum of 5% following the Filing Date or the Effectiveness Deadline, as applicable. Such payments shall be made to the investors in cash or shares of common stock, at our option.

Anti-Takeover Effect of Delaware Law, Certain Charter and Bylaw Provisions

Our certificate of incorporation and bylaws contain provisions that could have the effect of discouraging potential acquisition proposals or tender offers or delaying or preventing a change of control of our company. These provisions are as follows:

- they provide that special meetings of stockholders may be called only by our chairman, our president or by a resolution adopted by a majority of our board of directors;
- they do not include a provision for cumulative voting in the election of directors. Under cumulative voting, a minority stockholder holding a sufficient number of shares may be able to ensure the election of one or more directors. The absence of cumulative voting may have the effect of limiting the ability of minority stockholders to effect changes in our board of directors; and
- they allow us to issue, without stockholder approval, up to 10,000,000 shares of preferred stock that could adversely affect the rights and powers of the holders of our common stock.

We are subject to the provisions of Section 203 of the General Corporation Law of the State of Delaware, an anti-takeover law. In general, Section 203 prohibits a publicly held Delaware corporation from engaging in a “business combination” with an “interested stockholder” for a period of three years after the date of the transaction in which the person became an interested stockholder, unless the business combination is approved in a prescribed manner. For purposes of Section 203, a “business combination” includes a merger, asset sale or other transaction resulting in a financial benefit to the interested stockholder, and an “interested stockholder” is a person who, together with affiliates and associates, owns, or within three years prior did own, 15% or more of the voting stock of a corporation.

Indemnification of Directors and Officers

Section 145 of the General Corporation Law of the State of Delaware provides, in general, that a corporation incorporated under the laws of the State of Delaware, as we are, may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding (other than a derivative action by or in the right of the corporation) by reason of the fact that such person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another enterprise, against expenses (including attorneys’ fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with such action, suit or proceeding if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe such person’s conduct was unlawful. In the case of a derivative action, a Delaware corporation may indemnify any such person against expenses (including attorneys’ fees) actually and reasonably incurred by such person in connection with the defense or settlement of such action or suit if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification will be made in respect of any claim, issue or matter as to which such person will have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery of the State of Delaware or any other court in which such action was brought determines such person is fairly and reasonably entitled to indemnity for such expenses.

Our certificate of incorporation and bylaws provide that we will indemnify our directors, officers, employees and agents to the extent and in the manner permitted by the provisions of the General Corporation Law of the State of Delaware, as amended from time to time, subject to any permissible expansion or limitation of such indemnification, as may be set forth in any stockholders' or directors' resolution or by contract. Any repeal or modification of these provisions approved by our stockholders will be prospective only and will not adversely affect any limitation on the liability of any of our directors or officers existing as of the time of such repeal or modification.

We are also permitted to apply for insurance on behalf of any director, officer, employee or other agent for liability arising out of his actions, whether or not the General Corporation Law of the State of Delaware would permit indemnification.

Disclosure of Commission Position on Indemnification for Securities Act Liabilities

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and persons controlling us, we have been advised that it is the Securities and Exchange Commission's opinion that such indemnification is against public policy as expressed in the Securities Act, and is, therefore, unenforceable.

PLAN OF DISTRIBUTION

The selling stockholders may, from time to time, sell any or all of their shares of common stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be at fixed or negotiated prices. The selling stockholders may use any one or more of the following methods when selling shares:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- short sales;
- broker-dealers may agree with the selling stockholders to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale; and
- any other method permitted pursuant to applicable law.

The selling stockholders may also sell shares under Rule 144 under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the selling stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling stockholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. The selling stockholders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved. Any profits on the resale of shares of common stock by a broker-dealer acting as principal might be deemed to be underwriting discounts or commissions under the Securities Act. Discounts, concessions, commissions and similar selling expenses, if any, attributable to the sale of shares will be borne by a selling stockholder. The selling stockholders may agree to indemnify any agent, dealer or broker-dealer that participates in transactions involving sales of the shares if liabilities are imposed on that person under the Securities Act, as amended.

The selling stockholders may from time to time pledge or grant a security interest in some or all of the shares of common stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time to time under this prospectus after we have filed a supplement to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act, supplementing or amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus.

The selling stockholders also may transfer the shares of common stock in other circumstances, in which case the transferees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus and may sell the shares of common stock from time to time under this prospectus after we have filed a supplement to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act, supplementing or amending the list of selling stockholders to include the pledgee, transferee or other successors in interest as selling stockholders under this prospectus.

The selling stockholders and any broker-dealers or agents that are involved in selling the shares of common stock may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares of common stock purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

We are required to pay all fees and expenses incident to the registration of the shares of common stock. We have agreed to indemnify the selling stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

The selling stockholders have advised us that they have not entered into any agreements, understandings or arrangements with any underwriters or broker-dealers regarding the sale of their shares of common stock, nor is there an underwriter or coordinating broker acting in connection with a proposed sale of shares of common stock by any selling stockholder. If we are notified by any selling stockholder that any material arrangement has been entered into with a broker-dealer for the sale of shares of common stock, if required, we will file a supplement to this prospectus. If the selling stockholders use this prospectus for any sale of the shares of common stock, they will be subject to the prospectus delivery requirements of the Securities Act.

The anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of our common stock and activities of the selling stockholders.

LEGAL MATTERS

Sichenzia Ross Friedman Ference LLP, New York, New York, will pass upon the validity of the shares of our common stock offered by the selling stockholders under this prospectus.

EXPERTS

The financial statements as of December 31, 2009 and 2010 and for the years ended December 31, 2009 and 2010 included in this prospectus have been audited by Randall N. REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and
Shareholders of EClips Media Technologies, Inc.:

We have audited the accompanying consolidated balance sheets of EClips Media Technologies, Inc. and Subsidiaries as of December 31, 2010 and 2009 and the related consolidated statements of operations, stockholders' deficit, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required at this time, to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of EClips Media Technologies, Inc. and Subsidiaries as of December 31, 2010 and 2009 and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, the Company has had recurring losses and negative cash flows from operations. These conditions raise substantial doubt about its ability to continue as a going concern. Management's plans regarding those matters also are described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ECLIPS MEDIA TECHNOLOGIES, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
December 31, 2010 and 2009

NOTE 1 – BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Description of Business

The Company was incorporated under the name “Swifty Carwash & Quick-Lube, Inc.” in the state of Florida on September 25, 1997. On October 22, 1999, the Company changed its name from “Swifty Carwash & Quick-Lube, Inc.” to “SwiftyNet.com, Inc.” On January 29, 2001, the Company changed its name from “SwiftyNet.com, Inc.” to “Yseek, Inc.” On June 10, 2003, the Company changed its name from “Yseek, Inc.” to “Advanced 3-D Ultrasound Services, Inc.”

The Company merged with a private Florida corporation known as World Energy Solutions, Inc. effective August 17, 2005. Advanced 3D Ultrasound Services, Inc. (“A3D”) remained as the surviving entity as the legal acquirer, and the Company was the accounting acquirer. On November 7, 2005, the Company changed its name to World Energy Solutions, Inc. (“WESI”). On November 7, 2005, WESI merged with Professional Technical Systems, Inc. (“PTS”). WESI remained as the surviving entity as the legal acquirer, while PTS was the accounting acquirer. On February 26, 2009, the Company changed its name to EClips Energy Technologies, Inc.

On December 22, 2009, in a private equity transaction (“Purchase Agreement”), the majority shareholder (the “Seller”) and former Chief Executive of the Company entered into agreement, whereby certain purchasers collectively purchased from the Seller an aggregate of (i) 50,000,000 shares of Common Stock of the Company and (ii) 1,500,000 shares of series D preferred stock, \$0.001 par value (the “Preferred Stock”), comprising approximately 82 % of the issued and outstanding shares of capital stock of the Company, for the aggregate purchase price, including expenses, of \$100,000.

In connection with the Purchase Agreement, the Company and Seller entered into a release pursuant to which in consideration for the termination of Seller’s employment agreement, dated January 31, 2006, the Company issued to Seller 2,200,000 shares of the Company’s common stock. Furthermore, the Company agreed to transfer to Seller or Seller’s designee, the Company’s subsidiaries Pure Air Technologies, Inc., Hydrogen Safe Technologies, Inc., World Energy Solutions Limited and Advanced Alternative Energy, Inc. and granted to Seller a five-year option for the purchase of H-Hybrid Technologies, Inc.

On March 16, 2010, the Company filed a definitive information statement on Schedule 14C (the “Definitive Schedule 14C”) with the Securities and Exchange Commission (the “SEC”) notifying its stockholders that on March 2, 2010, a majority of the voting capital stock of the Company took action in lieu of a special meeting of stockholders authorizing the Company to enter into an Agreement and Plan of Merger (the “Merger Agreement”) with its newly-formed wholly-owned subsidiary, EClips Media Technologies, Inc., a Delaware corporation (“EClips Media”) for the purpose of changing the state of incorporation of the Company to Delaware from Florida. Pursuant to the Merger Agreement, the Company merged with and into EClips Media with EClips Media continuing as the surviving corporation on April 21, 2010. On the effective date of the Merger, (i) each issued and outstanding share of common stock of the Company was converted into two (2) shares of EClips Media common stock, (ii) each issued and outstanding share of Series D preferred stock of the Company was converted into two (2) shares of EClips Media Series A preferred stock and (iii) the outstanding shares of EClips Media Common Stock held by the Company were retired and cancelled and resuming the status of authorized and unissued EClips Media common stock. The outstanding 6% convertible debentures of the Company were assumed by EClips Media and converted into

outstanding 6% convertible debentures of EClips Media. All options and rights to acquire the Company's common stock, and all outstanding warrants or rights outstanding to purchase the Company's common stock, were automatically converted into equivalent options, warrants and rights to purchase two (2) times the number of shares of EClips Media common stock at fifty (50%) percent of the exercise, conversion or strike price of such converted options, warrants and rights. Trading of the Company's securities on a 2:1 basis commenced May 17, 2010 upon approval of the FINRA. All shares and per share values are retroactively stated at the effective date of merger.

On June 21, 2010, the Company, through its wholly-owned subsidiary SD Acquisition Corp., a New York corporation ("SD"), acquired (the "Acquisition") all of the business and assets and assumed certain liabilities of Brand Interaction Group, LLC, a New Jersey limited liability company ("BIG") which is described below. In September 2010, the Company decided to discontinue the operations of SD because of the disappointing performance and negative results of its most recent fantasy league event in August 2010. In December 2010, the Company entered into a spin off agreement (the "Spinoff") with BIG and Mr. Eric Simon, the Company's former CEO, pursuant to which the Company returned the Superdraft business to Mr. Simon by exchanging 100% of the issued and outstanding capital stock of SD which owned and operated the Superdraft business, for the cancellation of 30,000,000 shares of the Company owned by Mr. Simon and BIG, the cancellation of the Asset Purchase Agreement and Employment Agreement entered into between the Company, Mr. Simon and BIG in June 2010.

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 December 31, 2010 and 2009

NOTE 1 – BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
 (continued)

Under the Agreement BIG is obligated to make payments for a total of \$95,000 directly to certain holders of the Company's outstanding convertible debentures in order to retire, or reduce, on a dollar for dollar basis, amounts due and payable by the Company to such holders. In connection with the foregoing, BIG entered into a six month promissory note for \$95,000 with the Company's holders, payable in six equal monthly installments on the first day of each succeeding calendar month in the amount of \$15,833 with the first payment due in January 2011.

Acquisition of Business of Brand Interaction Group, LLC

On June 21, 2010, the Company entered into an Asset Purchase Agreement (the "Purchase Agreement") by and among the Company, SD and BIG. Pursuant to the Purchase Agreement, the Company, through its wholly-owned subsidiary SD acquired all of the business and assets and assumed certain liabilities of BIG owned by Eric Simon, the Company's former Chief Executive Officer. BIG owned Fantasy Football SUPERDRAFT TM, and operates as a sports entertainment and media business focused on promotion of fantasy league events through live events hosted in various venues such as Las Vegas, and online, which feature sports and media personalities, and the sale and marketing of various sports oriented products and services.

As consideration for the Acquisition by SD, the Company agreed to issue BIG 20,000,000 shares of the Company's common stock valued at \$0.04 per share (applying FASB ASC 805 "Determination of the Measurement Date for the Market Price of Acquirer Securities Issued in a Purchase Business Combination"). The total purchase price was \$868,152 and included common stock valued at \$800,000 and incurred legal fees of \$68,152. Additionally, in May 2010, the Company issued a demand promissory note agreement and security agreement in the amount of \$110,000 with BIG and such promissory note is included in the liabilities assumed and has been recognized as intercompany transaction following the acquisition. Thus such intercompany transaction has been eliminated in consolidation. The purchase price was allocated as follows:

Assets Acquired		
Cash	\$	5,057
Intangible		
Trademark		3,863
Goodwill		1,043,038
Total assets acquired		1,051,958
Liabilities Assumed		183,806
Net assets acquired	\$	868,152

Since the Company decided to discontinue the operations of SD Acquisition Corp., the Company deemed the acquired goodwill to be impaired and wrote-off the goodwill during the year ended December 31, 2010. Accordingly, the Company recorded an impairment of goodwill of \$1,043,038 included in loss from discontinued operations in the

accompanying statements of operations.

Discontinued Operations

The Company's operations were developing and manufacturing products and services, which reduce fuel costs, save power & energy and protect the environment. The products and services were made available for sale into markets in the public and private sectors. In December 2009, the Company discontinued these operations and disposed of certain of its subsidiaries, and prior periods have been restated in the Company's consolidated financial statements and related footnotes to conform to this presentation. Additionally, in September 2010, the Company decided to discontinue the operations of SD Acquisition Corp. because of the disappointing performance and negative results of its most recent fantasy league event in August 2010.

(continued)

The remaining liabilities of discontinued operations are presented in the balance sheet under the caption “Liabilities of discontinued operation” and relates to the discontinued operations of developing and manufacturing of energy saving and fuel efficient products and services. The carrying amounts of the major classes of these liabilities as of December 31, 2010 are summarized as follows:

	December 31, 2010	December 31, 2009
Assets of discontinued operations	\$ -	\$ -
Liabilities		
Accounts payables and accrued expenses	\$ (155,641)	\$ (104,897)
Liabilities of discontinued operations	\$ 155,641	\$ 104,897

The following table sets forth for the years ended December 31, 2010 and 2009, indicated selected financial data of the Company's discontinued operations. During fiscal 2009, the Company discontinued its operations of developing and manufacturing products and services, which reduce fuel costs, save power & energy and protect the environment. Discontinued operations during fiscal 2010 primarily consisted of the operations of the Company's formerly owned subsidiary, SD Acquisition Corp.

	December 31, 2010	December 31, 2009
Revenues	\$ 178,645	\$ 313,660

Spin off of SD Acquisition Corp.

In December 2010, the Company entered into a spin off agreement (the “Spinoff”) with SD, BIG and Mr. Eric Simon, the Company's former CEO, pursuant to which the Company returned the Superdraft business to Mr. Simon by exchanging 100% of the issued and outstanding capital stock of SD which owned and operated the Superdraft business, for the cancellation of 30,000,000 shares of the Company owned by Mr. Simon and BIG, the cancellation of the Asset Purchase Agreement and Employment Agreement entered into between the Company, Mr. Simon and BIG in June 2010. Additionally, upon the execution of the Spinoff, the Company was released from any obligations and agreements incurred by Mr. Simon on behalf of SD. Such obligations and agreements were assumed by the Company's formerly owned subsidiary, SD. The Company recorded the cancellation of the 30,000,000 shares of common stock at par value in accordance with ASC 505 - 30 “Treasury stock”.

 December 31, 2010 and 2009

NOTE 1 – BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
 (continued)

The spinoff of SD Acquisition Corp. is included in gain on disposal of discontinued operations and is calculated as follows:

Consideration received in connection with the spinoff:		
Cancellation of 30 million shares of the Company's common stock	\$	-
Total consideration received		-
Add: net liabilities of former subsidiary on December 7, 2010		424,131

Basis of presentation

The consolidated financial statements are prepared in accordance with generally accepted accounting principles in the United States of America ("US GAAP"). The consolidated financial statements of the Company include the Company and its wholly-owned subsidiaries. All material intercompany balances and transactions have been eliminated in consolidation.

FASB Accounting Standards Codification

The issuance by the FASB of the Accounting Standards CodificationTM (the "Codification") on July 1, 2009 (effective for interim or annual reporting periods ending after September 15, 2009), changes the way that GAAP is referenced. Beginning on that date, the Codification officially became the single source of authoritative nongovernmental GAAP; however, SEC registrants must also consider rules, regulations, and interpretive guidance issued by the SEC or its staff. The change affects the way the Company refers to GAAP in financial statements and in its accounting policies. All existing standards that were used to create the Codification became superseded. Instead, references to standards consist solely of the number used in the Codification's structural organization.

Use of Estimates

In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the statements of financial condition, and revenues and expenses for the years then ended. Actual results may differ significantly from those estimates. Significant estimates made by management include, but are not limited to, the assumptions used to calculate stock-based compensation, derivative liabilities, debt discount, the useful life of property and equipment, purchase price fair value allocation for the business acquisition, valuation and amortization periods of intangible asset, and valuation and impairment of goodwill.

Reclassification

Certain amounts in the 2009 consolidated financial statements have been reclassified to conform to the 2010 presentation. Such reclassifications had no effect on the reported net loss.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. The Company places its cash with a high credit quality financial institution.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist primarily of cash and cash equivalents. The Company's cash and cash equivalents accounts are held at financial institutions and are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000. During the year ended December 31, 2010, the Company has not reached bank balances exceeding the FDIC insurance limit. While the Company periodically evaluates the credit quality of the financial institutions in which it holds deposits, it cannot reasonably alleviate the risk associated with the sudden failure of such financial institutions. The Company's investment policy is to invest in low risk, highly liquid investments. The Company does not believe it is exposed to any significant credit risk in its cash investment.

Fair Value of Financial Instruments

Effective January 1, 2008, the Company adopted FASB ASC 820, “Fair Value Measurements and Disclosures” (“ASC 820”), for assets and liabilities measured at fair value on a recurring basis. ASC 820 establishes a common definition for fair value to be applied to existing generally accepted accounting principles that require the use of fair value measurements, establishes a framework for measuring fair value and expands disclosure about such fair value measurements. The adoption of ASC 820 did not have an impact on the Company’s financial position or operating results, but did expand certain disclosures.

ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Additionally, ASC 820 requires the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. These inputs are prioritized below:

- Level 1: Observable inputs such as quoted market prices in active markets for identical assets or liabilities
- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3: Unobservable inputs for which there is little or no market data, which require the use of the reporting entity’s own assumptions.

The Company analyzes all financial instruments with features of both liabilities and equity under the FASB’s accounting standard for such instruments. Under this standard, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. Depending on the product and the terms of the transaction, the fair value of notes payable and derivative liabilities were modeled using a series of techniques, including closed-form analytic formula, such as the Black-Scholes option-pricing model.

The following table presents a reconciliation of the derivative liability measured at fair value on a recurring basis using significant unobservable input (Level 3) from January 1, 2010 to December 31, 2010:

	Conversion feature derivative liability	Warrant liability
Balance at January 1, 2010	\$ 67,147	\$ —
Recognition of derivative liability	1,973,938	2,243,759
Extinguishment of derivative liability upon conversion of debt to equity	(66,280)	—
Change in fair value included in earnings	1,128,091	1,362,160
Balance at December 31, 2010	\$ 3,102,896	\$ 3,605,919

Total derivative liabilities at December 31, 2010 amounted to \$6,708,815.

Cash and cash equivalents include money market securities that are considered to be highly liquid and easily tradable as of December 31, 2010 and 2009. These securities are valued using inputs observable in active markets for identical securities and are therefore classified as Level 1 within our fair value hierarchy.

The carrying amounts reported in the balance sheet for cash, accounts payable and accrued expenses approximate their estimated fair market value based on the short-term maturity of these instruments. The carrying amount of the convertible debentures at December 31, 2010 and 2009, approximate their respective fair value based on the Company's incremental borrowing rate.

The Company did not identify any other non-recurring assets and liabilities that are required to be presented on the consolidated balance sheets at fair value in accordance with the relevant accounting standards.

Property and equipment

Property and equipment are carried at cost. The cost of repairs and maintenance is expensed as incurred; major replacements and improvements are capitalized. When assets are retired or disposed of, the cost and accumulated depreciation are removed from the accounts, and any resulting gains or losses are included in income in the year of disposition. The Company examines the possibility of decreases in the value of fixed assets when events or changes in circumstances reflect the fact that their recorded value may not be recoverable. Depreciation is calculated on a straight-line basis over the estimated useful life of the assets.

Impairment of Long-Lived Assets

Long-Lived Assets of the Company are reviewed for impairment whenever events or circumstances indicate that the carrying amount of assets may not be recoverable, pursuant to guidance established in ASC 360-10-35-15, "Impairment or Disposal of Long-Lived Assets". The Company recognizes an impairment loss when the sum of expected undiscounted future cash flows is less than the carrying amount of the asset. The amount of impairment is measured as the difference between the asset's estimated fair value and its book value. In September 2010, the Company decided to discontinue the operations of SD Acquisition Corp. because of the disappointing performance and negative results of its most recent fantasy league event in August 2010. Accordingly, during the year ended December 31, 2010, the Company has determined that an adjustment to the carrying value of goodwill was required. The Company recorded an impairment of goodwill of \$1,043,038 included in loss from discontinued operations in the accompanying statement of operations. The Company recorded a loss on abandonment of assets of \$39,927 due to the abandonment of property and equipment of \$31,418 and rental security deposit of \$8,509 in connection to our previous office space located in New York.

Income Taxes

Income taxes are accounted for under the asset and liability method as prescribed by ASC Topic 740: Income Taxes ("ASC 740"). Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities, and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets are reduced by a valuation allowance, when in the Company's opinion it is likely that some portion or the entire deferred tax asset will not be realized.

Pursuant to ASC Topic 740-10: Income Taxes related to the accounting for uncertainty in income taxes, the evaluation of a tax position is a two-step process. The first step is to determine whether it is more likely than not that a tax position will be sustained upon examination, including the resolution of any related appeals or litigation based on the technical merits of that position. The second step is to measure a tax position that meets the more-likely-than-not threshold to determine the amount of benefit to be recognized in the financial statements. A tax position is measured at the largest amount of benefit that is greater than 50% likelihood of being realized upon ultimate settlement. Tax positions that previously failed to meet the more-likely-than-not recognition threshold should be recognized in the first subsequent period in which the threshold is met. Previously recognized tax positions that no longer meet the more-likely-than-not criteria should be de-recognized in the first subsequent financial reporting period in which the threshold is no longer met. The accounting standard also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosures, and transition. The adoption had no effect on the Company's consolidated financial statements.

Stock Based Compensation

In December 2004, the Financial Accounting Standards Board, or FASB, issued FASB ASC Topic 718: Compensation – Stock Compensation (“ASC 718”). Under ASC 718, companies are required to measure the compensation costs of share-based compensation arrangements based on the grant-date fair value and recognize the costs in the financial statements over the period during which employees are required to provide services. Share-based compensation arrangements include stock options, restricted share plans, performance-based awards, share appreciation rights and employee share purchase plans. Companies may elect to apply this statement either prospectively, or on a modified version of retrospective application under which financial statements for prior periods are adjusted on a basis consistent with the pro forma disclosures required for those periods under ASC 718. Upon adoption of ASC 718, the Company elected to value employee stock options using the Black-Scholes option valuation method that uses assumptions that relate to the expected volatility of the Company’s common stock, the expected dividend yield of our stock, the expected life of the options and the risk free interest rate. Such compensation amounts, if any, are amortized over the respective vesting periods or period of service of the option grant. For the years ended December 31, 2010 and 2009, the Company did not grant any stock options.

Subsequent Events

For purposes of determining whether a post-balance sheet event should be evaluated to determine whether it has an effect on the financial statements for the year ended December 31, 2010, subsequent events were evaluated by the Company as of the date on which the consolidated financial statements for the year ended December 31, 2010, were available to be issued.

Related Parties

Parties are considered to be related to the Company if the parties that, directly or indirectly, through one or more intermediaries, control, are controlled by, or are under common control with the Company. Related parties also include principal owners of the Company, its management, members of the immediate families of principal owners of the Company and its management and other parties with which the Company may deal if one party controls or can significantly influence the management or operating policies of the other to an extent that one of the transacting parties might be prevented from fully pursuing its own separate interests. The Company discloses all related party transactions. All transactions shall be recorded at fair value of the goods or services exchanged. Property purchased from a related party is recorded at the cost to the related party and any payment to or on behalf of the related party in excess of the cost is reflected as a distribution to related party.

Advertising Expense

The Company follows the policy of charging advertising and promotions to expense as incurred. Advertising expense was \$1,676 and \$5,665 for the years ended December 31, 2010 and 2009, respectively. Such expense relates to the discontinued operations and is included in the loss from discontinued operations.

Net Loss per Common Share

Net loss per common share is calculated in accordance with ASC Topic 260: Earnings Per Share (“ASC 260”). Basic loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. The computation of diluted net earnings per share does not include dilutive common stock equivalents in the weighted average shares outstanding as they would be anti-dilutive. At December 31, 2010, the Company has 41,000,000 outstanding warrants and 38,000,000 shares equivalent issuable pursuant to embedded conversion features. There were no dilutive common stock equivalents as of December 31, 2009.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (“ASU”) No. 2010-06, “Improving Disclosures about Fair Value Measurements” an amendment to ASC Topic 820, “Fair Value Measurements and Disclosures.” This amendment requires an entity to: (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separate information for Level 3 activity pertaining to gross purchases, sales, issuances, and settlements. ASU No. 2010-06 is effective for the Company for interim and annual reporting beginning after December 15, 2009, with one new disclosure effective after December 15, 2010. The adoption of ASU No. 2010-06 did not have a material impact on the results of operations and financial condition.

In February 2010, the FASB issued an amendment to the accounting standards related to the accounting for, and disclosure of, subsequent events in an entity's consolidated financial statements. This standard amends the authoritative guidance for subsequent events that was previously issued and among other things exempts Securities and Exchange Commission registrants from the requirement to disclose the date through which it has evaluated subsequent events for either original or restated financial statements. This standard does not apply to subsequent events or transactions that are within the scope of other applicable GAAP that provides different guidance on the accounting treatment for subsequent events or transactions. The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

In July 2010, the FASB issued ASU No. 2010-20, Receivables (Topic 310): Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses. ASU 2010-20 requires additional disclosures about the credit quality of a company's loans and the allowance for loan losses held against those loans. Companies will need to disaggregate new and existing disclosures based on how it develops its allowance for loan losses and how it manages credit exposures. Additional disclosure is also required about the credit quality indicators of loans by class at the end of the reporting period, the aging of past due loans, information about troubled debt restructurings, and significant purchases and sales of loans during the reporting period by class. The new guidance is effective for interim- and annual periods beginning after December 15, 2010. The Company anticipates that adoption of these additional disclosures will not have a material effect on its financial position or results of operations.

Other accounting standards that have been issued or proposed by FASB that do not require adoption until a future date are not expected to have a material impact on the consolidated financial statements upon adoption.

NOTE 2 – GOING CONCERN CONSIDERATIONS

The accompanying consolidated financial statements are prepared assuming the Company will continue as a going concern. At December 31, 2010, the Company had an accumulated deficit of approximately \$36 million, and a working capital deficiency of \$6,893,807. Additionally, for the year ended December 31, 2010, the Company incurred net losses of \$11,579,406 and had negative cash flows from operations in the amount of \$806,061. The ability of the Company to continue as a going concern is dependent upon obtaining additional capital and financing. Management intends to attempt to raise additional funds by way of a public or private offering. While the Company believes in the viability of its strategy to raise additional funds, there can be no assurances to that effect.

NOTE 3 – NOTE RECEIVABLE

During the first quarter of 2010, the Company entered into a secured 6% demand promissory note (the “Demand Note”) with RootZoo, Inc. (“RZ”). RZ owned and operated a website www.rootzoo.com, focused upon providing social networking to sports fans, statistics and commentary to the sports community. During the fourth quarter of 2009 the Company had entered into negotiations with the then fifty (50%) percent owner of the common stock of RZ and one of its then two directors (the “RZ Part Owner”) to acquire RZ pursuant to an Asset Purchase Agreement (the “RZ Acquisition”), but negotiations for the RZ Acquisition broke down and have since been terminated. As a result of the discontinuance of all negotiations for the RZ Acquisition, the Company elected to foreclose on its loan and to acquire the RZ business under its foreclosed loan agreement. On May 15, 2010 the Company demanded repayment of all outstanding amounts under the Demand Note. On June 6, 2010, RZ entered into a Peaceful Possession Letter Agreement with the Company pursuant to which RZ granted the Company all rights of possession in and to the collateral which secures the Demand Note, representing substantially all of the assets of RZ in partial satisfaction with the Demand Note debt. Subsequently the Company, through an Assignment Agreement, assigned the rights and possession of the collateral to its subsidiary, RZ Acquisition Corp. Following termination of negotiations, all of the persons associated with the development of the RZ business resigned. RZ presently has no employees or others who perform services necessary to maintain and develop RZ business successfully. Due to the termination of negotiations, the Company believes that the assets of RZ has no value and worthless. Consequently, the Company recorded a total impairment loss of \$173,257 which represents the principal amount of \$171,100 and interest receivable of \$2,157 in connection with the secured 6% demand promissory note agreement. Such amount is included in the accompanying statements of operations under general and administrative expenses.

NOTE 4 – DERIVATIVE LIABILITIES

In June 2008, a FASB approved guidance related to the determination of whether a freestanding equity-linked instrument should be classified as equity or debt under the provisions of FASB ASC Topic No. 815-40, Derivatives

and Hedging – Contracts in an Entity's Own Stock . The adoption of this requirement will affect accounting for convertible instruments and warrants with provisions that protect holders from declines in the stock price ("down-round" provisions). Warrants with such provisions will no longer be recorded in equity and would have to be reclassified to a liability. The Issue is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Earlier application by an entity that has previously adopted an alternative accounting policy is not permitted.

Instruments with down-round protection are not considered indexed to a company's own stock under ASC Topic 815, because neither the occurrence of a sale of common stock by the company at market nor the issuance of another equity-linked instrument with a lower strike price is an input to the fair value of a fixed-for-fixed option on equity shares.

ASC Topic 815 guidance is to be applied to outstanding instruments as of the beginning of the fiscal year in which the Issue is applied. The cumulative effect of the change in accounting principle shall be recognized as an adjustment to the opening balance of retained earnings (or other appropriate components of equity) for that fiscal year, presented separately. If an instrument is classified as debt, it is valued at fair value, and this value is re-measured on an ongoing basis, with changes recorded on the statement of operations in each reporting period. The Company did not have outstanding instruments with down-round provisions as of the beginning of fiscal 2009 thus no adjustment will be made to the opening balance of retained earnings.

NOTE 4 – DERIVATIVE LIABILITIES (continued)

In connection with the issuance of the 6% Senior Convertible Debentures, the Company has determined that the terms of the convertible debenture include a down-round provision under which the conversion price could be affected by future equity offerings undertaken by the Company until the 18 month anniversary of such convertible debenture. Accordingly, the convertible instrument is accounted for as a liability at the date of issuance and adjusted to fair value through earnings at each reporting date. The Company has recognized a derivative liability of \$ \$6,708,815 and \$67,147 at December 31, 2010 and December 31, 2009, respectively. Derivative liability expense and the loss resulting from the increase in fair value of this convertible instrument was \$3,260,076 and \$2,490,252 for the year ended December 31, 2010. The gain resulting from the decrease in fair value of this convertible instrument was \$233 for the year ended December 31, 2009.

The Company used the following assumptions for determining the fair value of the convertible instruments granted under the Black-Scholes option pricing model:

	December 31, 2010	December 31, 2009
Expected volatility	184% - 236%	231%
Expected term	1.20-5 Years	2 Years
Risk-free interest rate	0.27%-2.62%	0.77%-1.14%
Expected dividend yield	0%	0%

NOTE 5 – CONVERTIBLE DEBENTURES

On December 17, 2009, to obtain funding for working capital, the Company entered into securities purchase agreement with an accredited investor pursuant to which the Company agreed to issue its 6% Senior Convertible Debentures for an aggregate purchase price of \$75,000. The Debenture bears interest at 6% per annum and matures twenty-four months from the date of issuance. The Debenture will be convertible at the option of the holder at any time into shares of common stock, at an initial conversion price equal to the lesser of (i) \$0.05 per share or (ii) until the eighteen (18) months anniversary of the Debenture, the lowest price paid per share or the lowest conversion price per share in a subsequent sale of the Company's equity and/or convertible debt securities paid by investors after the date of the Debenture. On February 4, 2010, the Company amended the terms of this agreement (see note below).

On February 4, 2010 the Company entered into securities purchase agreement with an accredited investor pursuant to which the Company agreed to issue \$200,000 of its 6% convertible debentures for an aggregate purchase price of \$200,000. The Debenture bears interest at 6% per annum and matures twenty-four months from the date of issuance. The Debenture is convertible at the option of the holder at any time into shares of common stock, at an initial conversion price equal to the lesser of (i) \$0.05 per share or (ii) until the eighteen (18) months anniversary of the Debenture, the lowest price paid per share or the lowest conversion price per share in a subsequent sale of the Company's equity and/or convertible debt securities paid by investors after the date of the Debenture. In connection with the Agreement, the Investor received a warrant to purchase 4,000,000 shares of the Company's common stock. The Warrant is exercisable for a period of five years from the date of issuance at an initial exercise price of \$0.05,

subject to adjustment in certain circumstances. The Investor may exercise the Warrant on a cashless basis if the Fair Market Value (as defined in the Warrant) of one share of common stock is greater than the Initial Exercise Price. In accordance with ASC 470-20-25, the convertible debentures were considered to have an embedded beneficial conversion feature because the effective conversion price was less than the fair value of the Company's common stock. These convertible debentures were fully convertible at the issuance date thus the value of the beneficial conversion and the warrants were treated as a discount on the 6% Senior Convertible debentures and were valued at \$200,000 to be amortized over the debenture term. The fair value of this warrant was estimated on the date of grant using the Black-Scholes option-pricing model using the following weighted-average assumptions: expected dividend yield of 0%; expected volatility of 219%; risk-free interest rate of 2.29% and an expected holding period of five years. The Company paid a legal fee of \$12,500 in connection with this debenture. Accordingly, the Company recorded debt issuance cost of \$12,500 which will be amortized over the term of the debenture. As of December 31, 2010, amortization of debt issuance cost amounted to \$5,731 and is included in interest expense. As a result of the Merger with EClips Media on March 16, 2010, the new conversion price of this debenture is equivalent to \$0.025 and the warrants increased to 8,000,000 shares of the Company's common stock.

NOTE 5 – CONVERTIBLE DEBENTURES (continued)

On February 4, 2010, the Company amended the 6% Senior Convertible Debentures agreement dated December 17, 2009 with a principal amount of \$75,000. Pursuant to the terms of the original agreement, the investor was granted the right to receive the benefit of any more favorable terms or provisions provided to subsequent investors for a period of 18 months following the closing of the transaction. As a result of the issuance of the \$200,000 note payable above, the investor was issued a Debenture in the aggregate principal amount of \$75,000 and received a warrant to purchase 1,500,000 shares of the Company's common stock on the same terms and conditions as previously described. The original Debenture was cancelled. These warrants were treated as an additional discount on the 6% Senior Convertible debentures amounting to \$7,610 to be amortized over the debenture term. The fair value of this warrant was estimated on the date of grant using the Black-Scholes option-pricing model using the following weighted-average assumptions: expected dividend yield of 0%; expected volatility of 219%; risk-free interest rate of 2.29% and an expected holding period of five years. As a result of the Merger with EClips Media on March 16, 2010, the new conversion price of this debenture was equivalent to \$0.025 and the warrants increased to 3,000,000 shares of the Company's common stock. During 2010, in a private equity transaction, a shareholder of the Company transferred 3,000,000 shares of the Company's common stock he owned to the holder of this Senior Convertible Debentures amounting to \$75,000. As a result of this private equity transaction and pursuant to a release notice agreement, the Company was released from this Senior Convertible Debentures. During fiscal 2010, the Company cancelled such debenture and recognized capital contribution of \$75,000 to additional paid in capital. Additionally, during fiscal 2010, the Company has reclassified \$66,280 of derivative liabilities to additional paid in capital related to the release and extinguishment of this convertible debenture.

Between March 2010 and June 2010, the Company entered into securities purchase agreements with accredited investors pursuant to which the Company agreed to issue an aggregate of \$750,000 of its 6% Senior Convertible Debentures with the same terms and conditions of the debentures issued on February 4, 2010. In connection with the Agreement, the Investors received warrants to purchase 30,000,000 shares of the Company's common stock. The Warrants are exercisable for a period of five years from the date of issuance at an initial exercise price of \$0.025, subject to adjustment in certain circumstances. In accordance with ASC 470-20-25, the convertible debentures were considered to have an embedded beneficial conversion feature because the effective conversion price was less than the fair value of the Company's common stock. These convertible debentures were fully convertible at the issuance date thus the value of the beneficial conversion and the warrants were treated as a discount on the 6% Senior Convertible debentures and were valued at \$750,000 to be amortized over the debenture term. The fair value of this warrant was estimated on the date of grant using the Black-Scholes option-pricing model using the following weighted-average assumptions: expected dividend yield of 0%; expected volatility of 211%; risk-free interest rate of 2.43% and an expected holding period of five years.

On March 16, 2010, the Company filed the Definitive Schedule 14C with the SEC notifying its stockholders that on March 2, 2010, a majority of the voting capital stock of the Company took action in lieu of a special meeting of stockholders authorizing the Company to enter into the Merger Agreement with its newly-formed wholly-owned subsidiary, EClips Media Technologies, Inc., a Delaware corporation for the purpose of changing the state of incorporation of the Company to Delaware from Florida. Pursuant to the Merger Agreement, the Company merged with and into EClips Media with EClips Media continuing as the surviving corporation on April 21, 2010. As a result

of the Merger with EClips Media, the outstanding 6% convertible debentures of the Company were assumed by EClips Media and converted into outstanding 6% convertible debentures of EClips Media. All options and rights to acquire the Company's Common Stock, and all outstanding warrants or rights outstanding to purchase the Company's Common Stock, automatically converted into equivalent options, warrants and rights to purchase two (2) times the number of shares of EClips Media Common Stock at fifty (50%) percent of the exercise, conversion or strike price of such converted options, warrants and rights.

At December 31, 2010 and December 31, 2009, convertible debentures consisted of the following:

	December 31, 2010	December 31, 2009
Long-term convertible debentures	\$ 950,000	\$ 75,000
Less: debt discount	(632,708)	(67,380)
Long-term convertible debentures – net	\$ 317,292	\$ 7,620

NOTE 5 – CONVERTIBLE DEBENTURES (continued)

Total amortization of debt discounts for the convertible debentures amounted to \$392,292 for the year ended December 31, 2010, and is included in interest expense. Accrued interest as of December 31, 2010 amounted to \$42,916.

In accordance with ASC Topic 815 “Derivatives and Hedging”, these convertible debentures include a down-round provision under which the conversion price could be affected by future equity offerings (see Note 5). Instruments with down-round protection are not considered indexed to a company's own stock under ASC Topic 815, because neither the occurrence of a sale of common stock by the company at market nor the issuance of another equity-linked instrument with a lower strike price is an input to the fair value of a fixed-for-fixed option on equity shares.

NOTE 6 - STOCKHOLDERS' DEFICIT

Capital Structure

On March 16, 2010, the Company filed the Definitive Schedule 14C with the SEC notifying its stockholders that on March 2, 2010, a majority of the voting capital stock of the Company took action in lieu of a special meeting of stockholders authorizing the Company to enter into the Merger Agreement with its newly-formed wholly-owned subsidiary, EClips Media Technologies, Inc., a Delaware corporation for the purpose of changing the state of incorporation of the Company to Delaware from Florida. Pursuant to the Merger Agreement, the Company merged with and into EClips Media with EClips Media continuing as the surviving corporation on April 12, 2010.

On the effective date of the Merger, (i) each issued and outstanding share of Common Stock of the Company shall be converted into two (2) shares of EClips Media Common Stock, (ii) each issued and outstanding share of Series D Preferred Stock of the Company shall be converted into two (2) shares of EClips Media Series A Preferred Stock and (iii) the outstanding share of EClips Media Common Stock held by the Company shall be retired and canceled and shall resume the status of authorized and unissued EClips Media Common Stock. All shares and per share values are retroactively stated at the effective date of merger. Except as otherwise noted, amounts set forth as of December 31, 2010 reflects the effect of the merger.

The authorized capital of EClips Media consists of 750,000,000 shares of common stock, par value \$0.0001 per share and 10,000,000 shares of preferred stock, par value \$0.0001 per share of which 3,000,000 shares have been designated as series A Preferred Stock.

Preferred stock

On February 13, 2009, the Company issued 3,000,000 shares of the restricted Preferred Stock to Benjamin C. Croxton, the Company's prior Chief Executive Officer. The Company exchanged the shares for an assignment of accrued vacation pay and back salary in the amount of \$8,257 due to Mr. Croxton. The issuance of the restricted Preferred Stock and the consideration received by the Company were approved by the Board of Directors at a meeting on February 10, 2009. The shares of restricted Preferred Stock were issued in a private transaction pursuant to the exemption from registration provided by Section 4(2) of the Securities Act of 1933. These shares were sold in a

private equity transaction in late December 2009, resulting in a change in ownership.

On May 7, 2009, 200,000 shares of preferred stock were converted to 734,908 shares of restricted common stock at the request of the holders. The shares were valued at par and recorded to additional paid-in capital, with no effect on operations.

On June 29, 2009, 200,000 shares of preferred stock were converted to 318,472 shares of restricted common stock at the request of the holders. The shares were valued at par and recorded to additional paid-in capital, with no effect on operations.

Common stock

The Company has regularly issued shares for cash. The Company has issued 200,200 common shares for \$286,512 for the year ended December 31, 2009.

The Company has issued shares to consultants and other service providers. The Company valued these shares at the fair market value on the date of grant. Shares are normally for settlement of fees for services provided and accordingly are expensed at the time of grant. Total shares issued were 24,980,090 for the year ended December 31, 2009. The shares were valued at the fair market value for a total of \$725,816.

The Company issued 100,000,000 shares of its common stock on September 15, 2009. The Company issued the Shares in exchange for forgiveness of accrued salary in the amount of \$50,000 due to a Company employee. The Shares were issued pursuant to the transaction exemption from registration in Section 4(2) of the Securities Act of 1933. The Shares were issued to an affiliated person who is a sophisticated investor. The shares were valued at the fair market value of the shares at \$120,500, representing an additional \$70,500 of stock-based compensation, recognized for the year ending December 31, 2009. These shares were sold in a private equity transaction in late December 2009, resulting in a change in ownership.

In connection with the Seller Agreement, the Company and Seller entered into a release pursuant to which in consideration for the termination of Seller's employment agreement, dated January 31, 2006, the Company issued to Seller 2,200,000 shares of the Company's common stock. Furthermore, upon closing, the Company shall transfer to Seller or Seller's designee, all of the capital stock of Pure Air Technologies, Inc., Hydrogen Safe Technologies, Inc., World Energy Solutions Limited and Advanced Alternative Energy, Inc. and the Company shall execute an Option Agreement with Seller for the purchase of H-Hybrid Technologies, Inc. within a five-year period from closing. The Company valued these common shares at the fair market value on the date of grant at \$55,000 and recorded as stock based compensation, included in operating expenses during the year ended December 31, 2009.

On February 4, 2010, the Company entered into a Consulting Agreement with Colonial Ventures, LLC (the "Consultant"), a company controlled by former CEO of the Company. Pursuant to the Agreement, the Company shall pay Consultant \$10,000 per month during the term of the Agreement. The Company issued 10,000,000 (post-merger) shares pursuant to this consulting agreement, 50% of which vested upon execution of the Agreement and the remaining 50% of which will vest on the one year anniversary of the Agreement as long as the Consultant is still engaged by the Company and Designated Person is still serving as chief executive officer or as a member of the board of directors of the Company. The Company valued these common shares at the fair market value on the date of grant of \$575,000. On December 13, 2010, the Company's Consulting Agreement with Colonial Ventures, LLC was amended by cancelling certain unvested shares issued to or on behalf of the Consultant as compensation. As a result 5,000,000 shares of the Company's common stock have been returned for cancellation. In connection with the issuance of these shares during the year ended December 31, 2010, the Company recorded stock based compensation of \$575,000. In connection with the return of the 5,000,000 shares of common stock, the Company recorded such cancellation of shares at par value. As of December 31, 2010, such consulting agreement has been terminated by the Company.

On February 5, 2010 the Company issued an aggregate of 6,000,000 shares (12,000,000 post-merger) of the Company's common stock of the Company to two persons for consulting services rendered. The Company valued these common shares at the fair market value on the date of grant at \$0.115 per share or \$690,000. In connection with the issuance of these shares during the year ended December 31, 2010, the Company recorded stock based consulting of \$690,000.

On April 15, 2010 the Company issued an aggregate of 22,388,354 shares of the Company's common stock of the Company to two consultants for consulting services rendered. The Company valued these common shares at the fair market value on the date of grant at \$1,920,000. In connection with the issuance of these shares during the year ended

December 31, 2010, the Company recorded stock based consulting of \$1,920,000.

On June 21, 2010, in connection with the Asset Purchase Agreement with BIG, the Company issued 20,000,000 shares of common stock valued at \$0.04 per share or \$800,000. The Company valued these common shares at the fair market value on the date of grant (see Note 1). These shares were cancelled in December 2010 in connection with the Spinoff agreement.

Pursuant to an Employment Agreement dated on June 21, 2010 the Company issued 10,000,000 shares of common stock to the Company's former Chief Executive Officer. The Company valued these common shares at the fair market value on the date of grant at \$0.04 per share or \$400,000. In connection with the issuance of these shares during the year ended December 31, 2010, the Company recorded stock based compensation of \$400,000. These shares were cancelled in December 2010 in connection with the Spinoff agreement.

In July 2010, in connection with the sale of the Company's common stock, the Company issued 1,500,000 shares of common stock for net proceeds of approximately \$75,000.

NOTE 6 - STOCKHOLDERS' DEFICIT (continued)

In December 2010, the Company entered into a spin off agreement (the "Spinoff") with SD Acquisition Corp. ("SD"), Brand Interaction Group, LLC ("BIG") and Mr. Eric Simon, the Company's former CEO, pursuant to which the Company will return the Superdraft business to Mr. Simon by exchanging 100% of the issued and outstanding capital stock of SD which owned and operated the Superdraft business, for the cancellation of 30,000,000 shares of the Company owned by Mr. Simon and BIG, the cancellation of the Asset Purchase Agreement and Employment Agreement entered into between the Company, Mr. Simon and BIG in June 2010. The Company recorded the cancellation of the 30,000,000 shares of common stock at par value in accordance with ASC 505 – 30 "Treasury stock".

During 2010, in a private equity transaction, a shareholder of the Company transferred 3,000,000 shares of the Company's common stock he owned to the holder of this Senior Convertible Debentures amounting to \$75,000. As a result of this private equity transaction and pursuant to a release notice agreement, the Company was released from this Senior Convertible Debentures. During fiscal 2010, the Company cancelled such debenture and recognized capital contribution of \$75,000 to additional paid in capital.

Stock Warrants

In connection with the 6% convertible debentures issued between February 2010 and June 2010, the Company granted warrants to purchase 41,000,000 shares of common stock at an exercise price of \$0.025 per share. These warrants are exercisable for a period of five years from the date of issuance. These warrants were treated as a debt discount on the 6% Senior Convertible debentures and were valued at \$957,620 to be amortized over the debenture term. The fair value of this warrant was estimated on the date of grant using the Black-Scholes option-pricing model using the following weighted-average assumptions: expected dividend yield of 0%; expected volatility ranging from 184% to 219%; risk-free interest rate from 2.03% to 2.62% and an expected holding period of five years.

A summary of the status of the Company's outstanding stock warrants as of December 31, 2010 and 2009 and changes during the periods then ended is as follows:

NOTE 7 - RELATED PARTY TRANSACTIONS

On February 4, 2010, the Company entered into a Consulting Agreement with Colonial Ventures, LLC (the "Consultant"), a company controlled by former CEO/director of the Company. Pursuant to the Agreement, the Company shall pay Consultant \$10,000 per month during the term of the Agreement. The Company issued 10,000,000 post-merger shares pursuant to this consulting agreement, 50% of which vested upon execution of the Agreement and the remaining 50% of which will vest on the one year anniversary of the Agreement as long as the Consultant is still engaged by the Company and Designated Person is still serving as chief executive officer or as a member of the board of directors of the Company. The Agreement has an initial term of two years from the date of execution and shall automatically renew on a year-to-year basis unless either party gives notice of non-renewal to the other party at least sixty days prior to the date of the Agreement. During the year ended December 31, 2010, the Company paid \$80,000 in cash to this consultant. Compensation in the amount of \$10,000 was recorded to additional paid-in capital for contributed services provided by such consultant in September 2010. On December 13, 2010, the Company's Consulting Agreement with Colonial Ventures, LLC was amended by cancelling certain unvested shares issued to or on behalf of the Consultant as compensation. As a result 5,000,000 shares of the Company's common stock have been returned for cancellation. As of December 31, 2010, such consulting agreement has been terminated by the Company.

During the year ended December 31, 2010, the Company paid leasehold improvements and rent of \$14,025 and \$12,486, respectively on a facility lease by a formerly affiliated company for which our former CEO/director, Greg Cohen, is the President. Greg Cohen served as the Company's Director until December 31, 2010.

NOTE 8 – COMMITMENTS

Consulting Agreement

On June 24, 2010 the Company engaged Brooke Capital Investments, LLC ("Brooke") to perform certain investor relations, branding and media relations services for the Company for a 12 month period (the "Consulting Agreement"). The Company shall pay to Brooke an amount equal to \$150,000, in cash, on the date of execution of this Agreement. This Agreement may not be terminated during the term and under no circumstance is Brooke under any obligation to return all or any portion of the Consulting Fee to the Company. In connection with this consulting agreement during the year ended December 31, 2010, the Company recorded investor relations expense of \$77,500 and prepaid expense of \$72,500 to be amortized over the term of this agreement.

Pursuant to the compensation plan for the Company's non-employee directors, the Company has undertaken to pay each non-executive director \$1,000 per month in cash and reimburse each director for reasonable expenses incurred in connection with services provided to the Company. Furthermore, each director shall be issued such number of shares of the Company's common stock having an aggregate market value equal to \$2,000 for each meeting of the Board of Directors of the Company attended in person or telephonically. The value of such shares of common stock to be issued shall be based on the average high and low bid price of the Company's common stock as quoted on the Over-the-Counter Bulletin Board or any national securities exchange on the trading day immediately prior to the date of such meeting. The Company has recorded director fees of \$32,500 during the year ended December 31, 2010 and is included in consulting fees in the accompanying consolidated statements of operations. At December 31, 2010, accrued directors' fee amounted to \$23,500 and is included in accrued expenses in the accompanying consolidated

balance sheet.

NOTE 9 – INCOME TAXES

The Company accounts for income taxes under ASC Topic 740: Income Taxes which requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statements and the tax basis of assets and liabilities, and for the expected future tax benefit to be derived from tax losses and tax credit carry forwards. ASC Topic 740 additionally requires the establishment of a valuation allowance to reflect the likelihood of realization of deferred tax assets. The Company has a net operating loss carry forward for tax purposes totaling approximately \$19.8 million at December 31, 2010, expiring through the year 2030. Internal Revenue Code Section 382 places a limitation on the amount of taxable income that can be offset by carry forwards after certain ownership shifts.

NOTE 9 – INCOME TAXES (continued)

The table below summarizes the differences between the Company's effective tax rate and the statutory federal rate as follows for the year ended December 31, 2010 and 2009:

	2010	2009
Tax benefit computed at "expected" statutory rate	\$ (3,936,998)	\$ (838,800)
State income taxes, net of benefit	(62,996)	(74,200)
Permanent differences	3,811,660	73,200
Increase in valuation allowance	188,334	839,800
Net income tax benefit	\$ -	\$ -

Deferred tax assets and liabilities are provided for significant income and expense items recognized in different years for tax and financial reporting purposes. Temporary differences, which give rise to a net deferred tax asset is as follows:

	December 31, 2010	December 31, 2009
Deferred tax assets:		
Net operating loss carryforward	\$ 7,812,134	\$ 7,630,800
Other	-	7,000
Total deferred tax assets	\$ 7,812,134	\$ 7,637,800
Deferred tax liabilities:		
Book basis of property and equipment in excess of tax basis	\$ -	\$ 14,000
Total deferred tax liabilities	\$ -	\$ 14,000
Net deferred tax asset before valuation allowance	\$ 7,812,134	\$ 7,623,800
Less: valuation allowance	(7,812,134)	(7,623,800)
Net deferred tax asset	\$ -	\$ -

After consideration of all the evidence, both positive and negative, management has recorded a full valuation allowance at December 31, 2010 and 2009, due to the uncertainty of realizing the deferred income tax assets. The valuation allowance was increased by \$188,334.

NOTE 10 – SUBSEQUENT EVENTS

In January 2011, the Company issued 219,863 shares in connection with the payment of accrued directors' fee of \$10,000. The Company valued these common shares at the fair market value on the date of grants at approximately \$0.04 per share or \$10,000.

In January 2011, two note holders (the “Assignors”) of the Company’s 6% convertible debentures entered into an Assignment agreement with an unrelated party (the “Assignee”) whereby the Assignors assigned a total principal amount of \$250,000 of the convertible debentures (the “Assigned Debenture”) and 5,000,000 warrants (the “Assigned Warrants”)(the Assigned Debenture and the Assigned Warrants collectively, the “Assigned Securities”). The Assignee purchased the Assigned Securities for \$300,000. Contemporaneously with the closing of this agreement, the Assignee converted the Assigned Debenture into shares of the Company’s common stock and exercised the Assigned Warrants for total net proceeds of \$125,000 to the Company. The Company issued 10,000,000 shares in connection with the conversion of the Assigned Debenture and 5,000,000 shares in connection with the exercise of the Assigned Warrants. The fair value of such shares issued amounted to \$0.025 per share.
