(Registrant's Telephone Number, Including Area Code)

(Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer", "accelerated filer", "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer
Non-accelerated filer	Smaller reporting company
Emerging growth company	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.): Yes No

The number of shares of the registrant's common stock, no par, outstanding at February 10, 2018 was 16,662,386

MANITEX INTERNATIONAL, INC. AND SUBSIDIARIES

GENERAL

This Quarterly Report on Form 10-Q filed by Manitex International, Inc. speaks as of September 30, 2017 unless specifically noted otherwise. Unless otherwise indicated, Manitex International, Inc., together with its consolidated subsidiaries, is hereinafter referred to as “Manitex,” the “Registrant,” “us,” “we,” “our” or the “Company.”

Forward-Looking Information

Certain information in this Quarter Report includes forward-looking statements (within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934 and the Private Securities Litigation Reform Act of 1995). These statements relate to, among other things, the Company’s expectations, believes, intentions, future strategies, future events or future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause actual results, levels of activity, performance or achievements to be materially different from any future results, performance or achievements express or implied by such forward-looking statements. In addition, when included in this Quarterly Report or in documents incorporated herein by reference the words “may,” “expects,” “should,” “intends,” “anticipates,” “believes,” “plans,” “projects,” “estimates” and the negatives there analogous or similar expressions are intended to identify forward-looking statements. However, the absence of these words does not mean that the statement is not forward-looking. We have based these forward-looking statements on current expectations and projections about future events. These statements are not guarantees of future performance. Such statements are inherently subject to a variety of risks and uncertainties that could cause actual results to differ materially from those reflected in such forward-looking statements. Such risks and uncertainties, many of which are beyond our control, include, without limitation, those described below and in our 2016 Annual Report on Form 10-K/A for the fiscal year ended December 31, 2016, in the section entitled “Item 1A. Risk Factors”:

- a future substantial deterioration in economic conditions, especially in the United States and Europe;
- government spending, fluctuations in the construction industry, and capital expenditures in the oil and gas industry;
- our level of indebtedness and our ability to meet financial covenants required by our debt agreements;
- our ability to negotiate extensions of our credit agreements and to obtain additional debt or equity financing when needed;
- the cyclical nature of the markets we operate in;
- the impact that the restatement of our previously issued financial statements could have on our business reputation and relations with our customers and suppliers;
- increase in interest rates;
- our increasingly international operations expose us to additional risks and challenges associated with conducting business internationally;
- our customers’ diminished liquidity and credit availability;
- the performance of our competitors;
- shortages in supplies and raw materials or the increase in costs of materials;
- potential losses under residual value guarantees;

- product liability claims, intellectual property claims, and other liabilities;
- the volatility of our stock price;
- future sales of our common stock;
- the willingness of our stockholders and directors to approve mergers, acquisitions, and other business transactions;
- currency transaction (foreign exchange) risks and the risk related to forward currency contracts;
- compliance with changing laws and regulations;
- a substantial portion of our revenues are attributed to limited number of customers which may decrease or cease purchasing any time;

1

- Impairment in the carrying value of goodwill could negatively affect our operating results;
- difficulties in implementing new systems, integrating acquired businesses, managing anticipated growth, and responding to technological change;
- a disruption or breach in our information technology systems;
- certain provisions of the Michigan Business Corporation Act and the Company's Articles of Incorporation, as amended, Amended and Restated Bylaws, and the Company's Preferred Stock Purchase Rights may discourage or prevent a change in control of the Company;
- Potential negative effect related to the SEC inquiry into our Company;
- Potential risk of being delisted if we are unable to file our Annual Report and Quarterly Reports in a timely manner; and
- other factors.

The risks described in our Annual Report on Form 10-K/A, for the fiscal year ended December 31, 2016, are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition or operating results. If any of these risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary significantly from what we projected. We do not undertake, and expressly disclaim, any obligation to update this forward-looking information, except as required under applicable law.

MANITEX INTERNATIONAL, INC.

ITEM 5: Other Information 53

ITEM 6: Exhibits 53

EXPLANATORY NOTE

The corrections contained in these financial statements restated for the prior comparative period, which we refer to herein as the "Restatement," were prepared following an independent review by the Audit Committee (the "Audit Committee") of the Company's Board of Directors into certain accounting matters, which is further described herein.

The Company's Current Report on Form 8-K filed on November 6, 2017, in 2016 the Company sold 39 cranes for total sales revenues of approximately $15 million to a single broker customer in a series of transactions (the "Transactions") that were each structured as a customary "bill and hold" arrangement. The revenue for the Transactions was originally recognized in 2016. Ten of these units that were sold for an aggregate value of approximately $3 million were returned during 2016 (and were subsequently sold to other customers), such that for 2016, a net of 29 cranes were sold for approximately $12 million. In addition, the Company made various payments to the broker and its wholly-owned subsidiary that were expensed in 2016 and 2017. Furthermore, the debt taken on by the broker customer to purchase the cranes was effectively guaranteed by the Company pursuant to certain related agreements. In connection with its review of its financial results for the quarter ended September 30, 2017, the Company became aware that the prior accounting treatment for the Transactions was not correct. Specifically, the Company has concluded that the relationship with the Broker and its wholly-owned subsidiary qualified as a Variable Interest Entity ("VIE") and should therefore have resulted in a different accounting treatment resulting in the debt of the VIE being reflected in the Company's consolidated balance sheet. The Company has concluded that the revenue recognition criteria for 2016 sales were not met and payments to the Broker were not expenses of the Company. In addition, disclosures were incomplete.

In connection with the foregoing matters, on November 2, 2017, the Audit Committee of the Board of Directors of the Company, in consultation with the Company's management and UHY LLP, the Company's independent registered public accounting firm, determined that the Company's previously issued financial statements for the quarters ended March 31, June 30 and September 30, 2016, year ended December 31, 2016 and quarters ended March 31 and June 30, 2017 included in the Company's Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q for such periods and together with all three, six and nine-month financial information contained therein (collectively, the "Non-Reliance Periods") can no longer be relied upon.

Description of the Restatement related to SVW

When the earlier "Explanatory Note" refers to a broker and its wholly-owned subsidiary, the reference is to SVW Crane & Equipment Company and its wholly owned subsidiary Rental Consulting Service Company (collectively "SVW")

The following describes the impact of corrections that affect the three and nine months ended September 30, 2016. Information concerning 2016 impact is discussed in the Company's amended 10-K/A for the year ended December 31, 2016.

Effect of Recording SVW Debt

As disclosed in Note 11, SVW has five notes outstanding with four financial institutions, each of which was effectively guaranteed by the Company. At September 30, 2017 the value of these notes totaled $6.3 million, net of debt issuance costs of $.2 million. Given SVW's treatment as a VIE, and the fact that the Company effectively guaranteed it, this debt has been consolidated into the restated financial statement.

Effect of Recording Sales to Third Party

Recognizing sales when SVW related inventory was sold to third parties.

Effect of Recording Crane Rentals

Income on the rental of SVW related inventory to third parties has been recorded as revenues for the corresponding.

Effect of Treating Funds Sent to SVW's Wholly-Owned Subsidiary as Advances

During the three and nine months ended September 30, 2017 there were no payments that the Company had originally classified as expenses paid to SVW's wholly-owned subsidiary. Given SVW's treatment as a VIE prior payments have been reclassified as intercompany advances.

Recording of Payments Made by SVW to Lenders

The balance sheet table in Note 2, Restatement of Previously Issued Financial Statements, shows the impact of payments made in connection with the aforementioned SVW debt.

Cumulative Income Tax Effect

This includes the impact on the income taxes for the three and nine months ended September 30, 2017 related to the discontinued operations and SVW restatements discussed above.

Description of the Restatement not related to SVW

Other

The Company disclosed a partial residual value guarantee to support a customer's financing of equipment purchased from the Company that was previously not disclosed (see Note 15). A residual value guarantee involves a guarantee that a piece of equipment will have a minimum fair market value at a future date if certain conditions are met by the customer. The Company has issued partially residual guarantees that have maximum exposure of approximately $1.6 million. The Company, however, does not have any reason to believe that any exposure from such a guarantee is either probable or estimable at this time, as such, no liability has been recorded. The Company's ability to recover losses from its guarantees may be affected by economic conditions in used equipment markets at the time of loss.

This also includes minor rounding and reclassification adjustments not included in previous categories.

Effect of Reclassifying ASV to Discontinued Operations

For the three and nine months ended September 30, 2016, the Company owned a 51% interest in ASV Holdings, Ins., which was formerly known as A.S.V., LLC ("ASV Holdings"). On May 11, 2017, in anticipation of an initial public offering, ASV Holdings converted from an LLC to a C-Corporation and the Company's 51% interest was converted to 4,080,000 common shares of ASV Holdings. On May 17, 2017, in connection within its initial public offering, ASV Holdings sold 1,800,000 of its own shares and the Company sold 2,000,000 shares of ASV Holdings common stock. The Company held a 21.2% interest in ASV Holdings, but no longer has a controlling interest in ASV holdings. ASV Holdings was deconsolidated during the quarter ended June 30, 2017 and is recorded as an equity investment starting

with quarter ended June 30, 2017. Since this 10-Q/A is being filed after the above described events, prior period financial statements included in this 10-Q/A have been restated to reflect ASV Holdings as a discontinued operation.

Additional entries not related to SVW

Adjustments were made to reverse a sale transaction, adjust a deferred gain, increase an inventory reserve and to record additional rent expense and other corrections and reclassification. These adjustments were identified in prior periods but were immaterial for recording at that time. As the Company has identified the restatement adjustments for recording in prior periods, management made the determination that it would also record these previously passed adjustments as part of the restatement of the financial statements.

See Note 2 to the consolidated financial statements which details the impact of the restatement on the Consolidated Statement of Operations for the three and nine months ended September 30, 2016, and Consolidated Statement of Cash Flow for the nine months ended September 30, 2016.

Internal Control and Disclosure Controls Considerations

Our Chief Executive Officer has determined that there were deficiencies in our internal control over financial reporting that constitute material weaknesses, as defined by SEC regulations, at September 30, 2017, with respect to procedures for:

1.We did not maintain an adequate process for the intake of new contracts, customers and vendors, particularly for contracts involving unique transaction structures or unusual obligations on the part of the Company, to ensure that all contracts are appropriately reviewed and approved, and the associated financial reporting requirements associated with such contracts and transactions structures are properly identified and complied with in accordance with Generally Accepted Accounting Principles.

2. We did not maintain adequate entity-level controls with respect to ensuring adequate supporting documentation of journal entries and proper review and approval of journal entries and disbursements that were unusual in nature and of significant amounts.

3.We did not maintain an adequate review process with respect to the accounting of bill-and-hold transactions and ensure proper revenue recognition.

4.We did not maintain a formal and consistent policy for establishing inventory reserves for excess and obsolete inventory.

5.We did not maintain an adequate communication policy with respect to compliance with the Company's Code of Ethics

and availability of the Company's whistleblower hotline to report compliance issues

Accordingly, our Chief Executive Officer has concluded that our internal control over financial reporting and disclosure controls and procedures, as defined by SEC regulations, were not effective at September 30, 2017, as discussed in Part I, Item 4 of this Form 10-Q.

(In thousands, except share and per share data)

1. Nature of Operations and Basis of Presentation

The Condensed Consolidated Balance Sheet at September 30, 2017 and the related Condensed Consolidated Statements of Operations and Comprehensive Loss for the three and nine months ended September 30, 2017 and 2016 (as restated) and Condensed Consolidated Statement of Cash Flows for the nine months ended September 30, 2017 and 2016 (as restated) have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission, and reflect all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial condition, results of operations and cash flows of the Company for the interim periods. Interim results may not be indicative of results to be realized for the entire year. The condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto, together with management's discussion and analysis of financial condition and results of operations, contained in the Company's Annual Report on Form 10-K/A for the year ended December 31, 2016. The Condensed Consolidated Balance Sheet as of December 31, 2016 (as restated) was derived from our audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States ("GAAP"). Certain amounts for prior periods have been reclassified to conform to the current period financial statement presentation. All references in this report to financial results of periods ending prior to the third quarter of 2017 reflect such results as restated pursuant to the previously announced restatement of such periods.

The Company is a leading provider of engineered lifting solutions and operates as a single business segment. Operating activities are conducted through the following wholly-owned subsidiaries: Manitex, Inc. ("Manitex"), Badger Equipment Company ("Badger"), PM Group S.pA. and Subsidiaries ("PM Group"), Manitex Valla S.r.l ("Valla"), Sabre Manufacturing, LLC ("Sabre"), Crane and Machinery, Inc. ("C&M"), and Crane and Machinery Leasing, Inc. ("C&M Leasing").

The condensed consolidated financial statements include the accounts of Manitex International, Inc. and subsidiaries in which it has a greater than 50% voting interest (collectively, the "Company"). All significant intercompany accounts, profits and transactions have been eliminated in consolidation.

Consolidated Variable Interest Entity

Even though it has no ownership interest in SVW Crane & Equipment Company (together with its wholly owned subsidiary, Rental Consulting Service Company, "SVW"), the Company has the power to direct the activities that most significantly impact SVW's economic performance. Additionally, the Company was the primary beneficiary of the SVW relationship. SVW obtained third party financing, which was effectively guaranteed by the Company, on specific cranes the Company manufactured and remitted the loan proceeds to the Company. Other than its business

transactions described herein, SVW had no other substantial business operations. The Company has determined that SVW is a Variable Interest Entity (“VIE”) that under current accounting guidance needs to consolidate in the Company’s financial results.

Non-Cash Transactions

Non-cash transactions for the periods ended September 30, 2017 and 2016 are as follows:

	Nine Months Ended September 30,	
	2017	As Restated 2016
Non cash transactions		
Issuance of common stock in connection with Terex note repayment	$ —	$ 150
Equipment held for sale financed on a capital lease	896	—
Stock issued to purchase Winona facility	154	—

Discontinued Operations

ASV Segment

ASV is located in Grand Rapids, Minnesota and manufactures a line of high quality compact track and skid steer loaders. The products are used in site clearing, general construction, forestry, golf course maintenance and landscaping industries, with general construction being the largest.

Prior to the quarter ended June 30, 2017, the Company owned a 51% interest in ASV Holdings, Inc., which was formerly known as A.S.V., LLC ("ASV Holdings"). On May 11, 2017, in anticipation of an initial public offering, ASV Holdings converted from an LLC to a C-Corporation and the Company's 51% interest was converted to 4,080,000 common shares of ASV Holdings. On May 17, 2017, in connection within its initial public offering, ASV Holdings sold 1,800,000 of its own shares and the Company sold 2,000,000 shares of ASV Holdings common stock. As of September 30, 2017, the Company held a 21.2% interest in ASV Holdings, but no longer had a controlling interest in ASV Holdings. ASV Holdings was deconsolidated during the quarter ended June 30, 2017 and is recorded as an equity investment starting with quarter ended June 30, 2017. Periods ending before June 30, 2017 reflect ASV as discontinued operation. Subsequent to September 30, 2017, the Company sold additional shares of ASV. See Note 18 for additional discussion related to the accounting treatment of the investment in ASV after the sale of the additional shares.

Sales of Subsidiaries

During the year ended December 31, 2016, the Company sold two of its wholly owned subsidiaries: CVS Ferrari, S.r.L ("CVS") and Manitex Liftking ULC ("Manitex Liftking" or "Liftking"). CVS was sold on December 22, 2016 and Liftking was sold on September 30, 2016, and each are presented as a discontinued operation.

Change in Reporting Segments

Prior to the quarter ended June 30, 2017, the Company reported its operations in three segments: the Lifting Equipment segment, the ASV segment and the Equipment Distribution segment. Since 2015, the Company has sought to redefine itself strategically and operationally, including through a series of divestitures. The most recent such divestiture occurred in May 2017, with the sale of a portion of the Company's investment in ASV Holdings. As a result of this sale, the Company has deconsolidated ASV Holdings from its financial reporting, and ASV Holdings is no longer a reporting segment.

The previously reported Equipment Distribution operations was comprised of C&M and C&M Leasing. C&M was acquired by the Company in 2008 and at that time operated primarily as a distributor of Terex Corporation ("Terex") rough terrain and truck cranes. Subsequent to 2008, C&M added a used equipment business, which involved buying both lifting and non-lifting construction equipment and then refurbishing and remarketing that equipment. Recently, the C&M operations evolved and the used equipment sales operations were discontinued.

C&M remains a distributor of Terex rough terrain and truck cranes; however C&M's primary business is the distribution of products manufactured by the Company. C&M Leasing's primary business is the facilitation of sales of products manufactured by the Company through its rent to own program. As C&M and C&M Leasing's primary business is the facilitation of Company manufactured product sales, discrete financial information is not available. Further, the Company's Chief Operating Decision Maker ("CODM") reviews C&M and C&M Leasing operations only to determine their impact on the entire Company. As such, the operations of C&M and C&M Leasing no longer constitute a separate reporting segment.

2. Restatement of Previously issued financial statements

The Company has restated its quarterly Consolidated Statements of Operations, Statement of Comprehensive Income (Loss) and the Statements of Cash Flows for the three and nine months ended September 30, 2016. In addition, the Company has restated the Balance Sheets for the periods ended December 31, 2016. See the Company's restated 10-K/A for the restated balance sheet as of December 31, 2016.

Background

As previously described in the Company's Current Report on Form 8-K filed on November 6, 2017, in 2016 the Company sold 39 cranes for total sales revenues of approximately $15 million to a single broker customer in a series of transactions (the "Transactions") that were each structured as a customary "bill and hold" arrangement. The revenue for the Transactions was originally recognized in 2016. Ten of these units that were sold for an aggregate value of approximately $3 million were returned during 2016 (and were subsequently sold to other customers), such that for 2016, a net of 29 cranes were sold for approximately $12 million. In addition, the Company made various payments that were expensed in 2016 and 2017 to the broker and its wholly-owned subsidiary. Furthermore, the debt taken on by the Broker customer to purchase the cranes was affectively guaranteed by the Company pursuant to certain related agreements. In connection with its review of its financial results for the quarter ended September 30, 2017, the Company became aware that the prior accounting treatment for the Transactions was not correct. Specifically, the Company has concluded that the relationship with the Broker and its wholly-owned subsidiary qualified as a Variable Interest Entity ("VIE") and should therefore have resulted in a different accounting treatment. The Company has concluded that the revenue recognition criteria for 2016 sales were not met and payments to the Broker were not expenses of the Company. In addition, disclosures were incomplete.

Description of the Restatement related to SVW

The following describes the impact of corrections that affect the three and nine months ended September 30, 2016. Information concerning 2016 impact is discussed in the Company's amended 10-K/A for the year ended December 31, 2016.

Effect of Recording Sales to Third Party

Recognizing sales when SVW related inventory was sold to third parties.

(Statement of Operations – Column C)

Effect of Recording Crane Rentals

Income on the rental of SVW related inventory to third parties has been recorded as revenues for the corresponding.

(Statement of Operations – Column C)

Effect of Treating Funds Sent to SVW's Wholly-Owned Subsidiary as Advances

During the three and nine months ended September 30, 2016 there were no payments that the Company had originally classified as expenses paid to SVW's wholly-owned subsidiary. Given SVW's treatment as a VIE these payments have been reclassified as intercompany advances. (Statement of Operations – Column D)

Recording of Payments Made by SVW to Lenders

This includes the impact of payments made in connection with the aforementioned SVW debt. (Statement of Operations – Column E)

Cumulative Income Tax Effect

This includes the impact on the income taxes for the quarter and nine months ended September 30, 2016 related to the discontinued operations and SVW restatements discussed above. (Statement of Operations – Column F)

Description of the Restatement not related to SVW

Other

The Company disclosed a partial residual value guarantee to support a customer's financing of equipment purchased from the Company that was previously not disclosed (see Note 15). A residual value guarantee involves a guarantee that a piece of equipment will have a minimum fair market value at a future date if certain conditions are met by the customer. The Company has issued partially residual guarantees that have maximum exposure of approximately $1.6 million. The Company, however, does not have any reason to believe that any exposure from such a guarantee is either probable or estimable at this time, as such no liability has been recorded. The Company's ability to recover any losses that may occur related its guarantees may be affected by economic conditions in used equipment markets at the time of loss.

This includes minor rounding and reclassification adjustments not included in previous categories.

(Statement of Operations – Column G)

Effect of Reclassifying ASV to Discontinued Operations

For the three and nine months ended September 30, 2016, the Company owned a 51% interest in ASV Holdings, Ins., which was formerly known as A.S.V., LLC ("ASV Holdings"). On May 11, 2017, in anticipation of an initial public offering, ASV Holdings converted from an LLC to a C-Corporation and the Company's 51% interest was converted to 4,080,000 common shares of ASV Holdings. On May 17, 2017, in connection within its initial public offering, ASV Holdings sold 1,800,000 of its own shares and the Company sold 2,000,000 shares of ASV Holdings common stock. The Company held a 21.2% interest in ASV Holdings, but no longer has a controlling interest in ASV holdings. ASV Holdings was deconsolidated during the quarter ended June 30, 2017 and is recorded as an equity investment starting with quarter ended June 30, 2017. Since this 10-Q/A is being filed after the above described events, prior period financial statements included in this 10-Q/A have been restated to reflect ASV Holdings as a discontinued operation. (Statement of Operations - Column B)

Additional entries not related to SVW

Adjustments were made to: reverse a sale transaction, adjust a deferred gain, increase an inventory reserve and to record additional rent expense and other corrections and reclassifications not related to SVW. These adjustments were identified in prior periods but were immaterial for recording at that time. As the Company has identified the restatement adjustments for recording in prior periods, management made the determination that it would also record these previously passed adjustments as part of the restatement of the financial statements. (Statement of Operations – Column G, Statement of Cash Flows – Column K)

See the Company’s Amended Annual Report for the year ended December 31, 2016 for the table that shows the impact that the restatement had on the Company’s Balance Sheet for the year ended December 31, 2016.

The following tables reflect adjustments (restatements) to correct errors identified in connection with the Company's review of its financial results for the quarters ended September 30, 2016.

3. New Significant Accounting Policy and New Accounting Pronouncements

Principles of Consolidation

The Company consolidates all entities that we control by ownership of a majority voting interest. Additionally, there are situations in which consolidation is required even though the usual condition of consolidation (ownership of a majority voting interest) does not apply. Generally, this occurs when an entity holds an interest in another business enterprise that was achieved through arrangements that do not involve voting interests, which results in a disproportionate relationship between such entity's voting interests in, and its exposure to the economic risks and potential rewards of, the other business enterprise. This disproportionate relationship results in what is known as a variable interest, and the entity in which we have this interest is referred to as a Variable Interest Entity ("VIE"). An enterprise must consolidate a VIE if it is determined to be the primary beneficiary of the VIE. The primary beneficiary has both (1) the power to direct the activities of the VIE that most significantly impact the entity's economic performance, and (2) the obligation to absorb losses or the right to receive benefits from the VIE that could potentially be significant to the VIE.

Although the Company does not have an ownership interest in S.V.W. Crane & Equipment Company and its wholly owned subsidiary Rental Consulting Services Corporation (collectively "SVW"), the Company has the power to direct the activities of SVW that most significantly impact its economic performance and is absorbing the losses. As such, the Company has determined that SVW is a VIE that requires consolidation. SVW has obtained financing and has remitted the proceeds to the Company using inventory (cranes) owned by the Company as collateral. The finance companies that hold the loans have a perfected security interest in the inventory and therefore have recourse against this specific inventory. Furthermore, the debt taken on by the SVW was effectively guaranteed by the Company pursuant to certain related agreements.

The Company eliminates from the Company's financial results all significant intercompany transactions, including the intercompany transactions with consolidated VIEs.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are stated at the amounts the Company's customers are invoiced and do not bear interest. Accounts receivable is reduced by an allowance for amounts that may become uncollectible in the future. The Company's estimate for the allowance for doubtful accounts related to trade receivables includes evaluation of specific accounts where the Company has information that the customer may have an inability to meet its financial obligations. The Company had allowances for doubtful accounts of $8 and $7 at September 30, 2017 and December 31, 2016, respectively.

Guarantees

The Company has issued partial residual guarantees to financial institutions related to a customer financing of equipment purchased by the customer. The Company must assess the probability of losses if the fair market value is

less than the guaranteed residual value.

The Company has issued partially residual guarantees that have maximum exposure of approximately $1.6 million. The Company, however, does not have any reason to believe that any exposure from such a guarantee is either probable or estimable at this time, as such, no liability has been recorded. The Company's ability to recover any losses incurred under the guarantees may be affected by economic conditions in used equipment markets at the time of loss.

The Company records a liability for the estimated fair value of guarantees issued pursuant to ASC 460. The Company recognizes a loss under a guarantee when its obligation to make payment under the guarantee is probable and the amount of the loss can be estimated. A loss would be recognized if the Company's payment obligation under the guarantee exceeds the value it can expect to recover to offset such payment, primarily through the sale of the equipment underlying the guarantee.

Inventory Valuation

Inventory consists of stock materials and equipment stated at the lower of cost (first in, first out) or net realizable value. All equipment classified as inventory is available for sale. The Company records excess and obsolete inventory reserves. The estimated reserve is based upon specific identification of excess or obsolete inventories. Selling, general and administrative expenses are expensed as incurred and are not capitalized as a component of inventory.

Accrued Warranties

Warranty costs are accrued at the time revenue is recognized. The Company's products are typically sold with a warranty covering defects that arise during a fixed period of time. The specific warranty offered is a function of customer expectations and competitive forces. The Equipment Distribution segment does not accrue for warranty costs at the time of sales, as they are reimbursed by the manufacturers for any warranty that they provide to their customers.

A liability for estimated warranty claims is accrued at the time of sale. The liability is established using historical warranty claim experience. Historical warranty experience is, however, reviewed by management. The current provision may be adjusted to take into account unusual or non-recurring events in the past or anticipated changes in future warranty claims. Adjustments to the initial warranty accrual are recorded if actual claim experience indicates that adjustments are necessary. Warranty reserves are reviewed to ensure critical assumptions are updated for known events that may impact the potential warranty liability.

Revenue Recognition

Revenue and related costs are recognized when title passes and risk of loss passes to our customers which generally occurs upon shipment depending upon the terms of the contract. Under certain contracts with our customers title passes to the customers when the units are completed. The units are segregated from our inventory and identified as belonging to the customer, the customer is notified that the units are complete and awaiting pick up or delivery as specified by the customer before income is recognized. Additionally, the customer is requested to sign an "Invoice Authorization Form" which acknowledges the contract terms and acknowledges that the customer has economic ownership and control over the unit. It also acknowledges that we are going to invoice the unit per terms of the contract. The Company insures any custodial risk that it may retain.

For FOB contracts, customers may be invoiced prior to the time customers take physical possession. Revenue is recognized in such cases only when the customer has a fixed commitment to purchase the units, the units have been completed, tested and made available to the customer for pickup or delivery, and the customer has authorized in writing that we hold the units for pickup or delivery at a time specified by the customer. In such cases, the units are invoiced under our customary billing terms, title to the units and risks of ownership pass to the customer upon invoicing, the units are segregated from our inventory and identified as belonging to the customer and we have no further obligations under the order. The Company insures any custodial risk that it may retain.

In addition, our policy requires in all instances certain minimum criteria be met in order to recognize revenue, specifically:

a) Persuasive evidence that an arrangement exists;
b) The price to the buyer is fixed or determinable;
c) Collectability is reasonably assured; and
d) We have no significant obligations for future performance.

Interest Rate Swap Contracts

The Company enters into derivative instruments to manage its exposure to interest rate risk related to certain foreign term loans. Derivatives are initially recognized at fair value at the date the contract is entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain or loss is recognized

in current earnings immediately unless the derivative is designated and effective as a hedging instrument, in which case the effective portion of the gain or loss is recognized and is reported as a component of other comprehensive income and reclassified into earnings in the same period or periods during which the hedging instrument affects earnings (date of sale). The Company's interest rate swap contracts are held by the PM Group and are intended to manage the exposure to interest rate risk related to certain term loans that PM Group has with certain financial institutions in Italy. These contracts have been determined not to be hedge instruments under ASC 815-10.

Litigation Claims

In determining whether liabilities should be recorded for pending litigation claims, the Company must assess the allegations and the likelihood that it will successfully defend itself. When the Company believes it is probable that it will not prevail in a particular matter, it will then make an estimate of the amount of liability based, in part, on the advice of legal counsel.

Income Taxes

The Company's provision for income taxes consists of U.S. and foreign taxes in amounts necessary to align the Company's year-to-date tax provision with the effective rate that the Company expects to achieve for the full year. Each quarter the Company updates its estimate of the annual effective tax rate and records cumulative adjustments as necessary. The effective tax rate is based upon the Company's anticipated earnings both in the U.S. and in foreign jurisdictions.

Comprehensive Income

Reporting "Comprehensive Income" requires reporting and displaying comprehensive income and its components. Comprehensive income includes, in addition to net earnings, other items that are reported as direct adjustments to stockholder's equity. Currently, the comprehensive income adjustment required for the Company consists of a foreign currency translation adjustment, which is the result of consolidating its foreign subsidiaries.

Reclassification

Certain reclassifications have been made to the prior period consolidated financial statements to conform to the current period presentation.

Accounting for Equity Investments

The Company is accounting for its 21.2% investment in ASV Holdings under the equity method of accounting. Under the equity method, the Company's share of the net income (loss) of ASV Holdings is recognized as income (loss) in the Company's statement of operations and added to the investment account, and dividends received from ASV Holdings are treated as a reduction of the investment account. ASV Holdings' earnings are recorded on a one quarter lag as ASV Holdings may not report earnings in time to be included in the Company's financial statements for any given reporting period.

On May 17, 2017, the Company's investment in ASV Holdings exceeded the proportional share of ASV Holdings' net assets. Under current applicable guidance, assets and liabilities of the investee (ASV Holdings) are valued at fair market value on the date of the investment. The Company investment, however, is not adjusted for the difference between the Company's proportional share of the net assets and the fair value of the assets that existed on the date that the investment was made. The differences are accounted for on a memo basis. The differences can be either of temporary nature or permanent differences. Adjustment to inventory and identifiable intangible assets with finite lives are temporary differences. Fair market adjustments to land and goodwill are examples of permanent differences. Differences related to temporary items are amortized over their lives. Earnings recognized are the proportional share of investee's income for the period adjusted for reversal of any timing differences or additional amortization related to the memo fair market adjustments of identifiable intangible assets that have finite lives.

Recently Issued Pronouncements – Not Adopted

In February 2016, the FASB issued ASU 2016-02, “Leases (Topic 842),” (“ASU 2016-02”), which requires lessees to recognize assets and liabilities for leases with lease terms of more than 12 months and disclose key information about leasing arrangements. Consistent with current U.S. GAAP, the recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee primarily will depend on its classification as a finance or operating lease. The update is effective for reporting periods beginning after December 15, 2018. Early adoption is permitted. The Company is in the process of evaluating the impact of this update on its consolidated financial statements.

In January 2017, the FASB issued ASU 2017-04, “Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment,” (“ASU 2017-04”). ASU 2017-04 eliminates Step 2 from the goodwill impairment test. Instead, an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit’s fair value, if any. The loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. Additionally, an entity should consider income tax effects from any tax deductible goodwill on the carrying amount of the reporting unit when measuring the goodwill impairment. The effective date will be the first quarter of fiscal year 2020, with early adoption permitted in 2017. The Company is evaluating the impact that adoption of this new standard will have on its consolidated financial statements.

Recently Adopted Accounting Guidance

In May 2014, the FASB issued ASU 2014-09, “Revenue from Contracts with Customers,” (“ASU 2014-09”). ASU 2014-09 outlines a new, single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. This new revenue recognition model provides a five-step analysis in determining when and how revenue is recognized. The new model will require revenue recognition to depict the transfer of promised goods or services to customers in an amount that reflects the consideration a company expects to receive in exchange for those goods or services. In August 2015, the FASB issued ASU 2015-14, “Deferral of the Effective Date”, which amends ASU 2014-09. As a result, the effective date is the first quarter of 2018, with early adoption permitted. The Company has adopted this guidance during the quarter ended March 31, 2018 on a modified retrospective basis. The adoption of this guidance did not have a significant impact on the operating results when adopted.

In July 2015, the FASB issued ASU 2015-11, “Simplifying the Measurement of Inventory,” (“ASU 2015-11”). ASU 2015-11 requires inventory be measured at the lower of cost and net realizable value and options that currently exist for market value be eliminated. ASU 2015-11 defines net realizable value as estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The guidance is effective for reporting periods beginning after December 15, 2016 and interim periods within those fiscal years with early adoption permitted. The Company has adopted this guidance during the quarter ended March 31, 2017 on a prospective basis. The adoption of this guidance did not have a significant impact on the operating results when adopted.

In January 2016, the FASB issued ASU 2016-01, "Financial Instruments-Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities." The amendments in ASU 2016-01, among other things, require equity investments (except those accounted for under the equity method of accounting, or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income requires public business entities to use the exit price notion when measuring fair value of financial instruments for disclosure purposes requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (i.e., securities or loans and receivables) and eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate fair value that is required to be disclosed for financial instruments measured at amortized cost. The effective date will be the first quarter of fiscal year 2018. The Company has adopted this guidance during the quarter ended March 31, 2018. The adoption of this guidance did not have a significant impact on the operating results when adopted.

In March 2016, the FASB issued ASU 2016-05, “Derivatives and Hedging (Topic 815),” (“ASU 2016-05”). ASU 2016-05 provides guidance clarifying that novation of a derivative contract (i.e. a change in counterparty) in a hedge accounting relationship does not, in and of itself, require designation of that hedge accounting relationship. The Company adopted this guidance during the quarter ended March 31, 2017. The adoption of this guidance did not have an impact on the operating results when adopted.

In March 2016, the FASB issued ASU 2016-06, “Derivatives and Hedging (Topic 815),” (“ASU 2016-06”). ASU 2016-06 simplifies the embedded derivative analysis for debt instruments containing contingent call or put options by clarifying that an exercise contingency does not need to be evaluated to determine whether it relates to interest rates

and credit risk in an embedded derivative analysis. The effective date will be the first quarter of fiscal year 2017, with early adoption permitted. The Company has adopted this guidance during the quarter ended March 31, 2017. The adoption of this guidance did not have an impact on the operating results when adopted.

In March 2016, the FASB issued ASU 2016-08, "Revenue from Contracts with Customers (Topic 606) Principal versus Agent Considerations (Reporting Revenue Gross versus Net)," ("ASU 2016-08"). ASU 2016-08 further clarifies principal and agent relationships within ASU 2014-09. Similar to ASU 2014-09, the effective date will be the first quarter of fiscal year 2018 with early adoption permitted in the first quarter of fiscal year 2017. The Company has adopted this guidance during the quarter ended March 31, 2018. The adoption of this guidance did not have a significant impact on the operating results when adopted.

In March 2016, the FASB issued ASU 2016-09, "Compensation-Stock Compensation (Topic 718), Improvements to Employee Share-Based Payment Accounting," ("ASU 2016-09"). ASU 2016-09 is intended to simplify several aspects of accounting for share-based payment awards. The effective date will be the first quarter of fiscal year 2017, with early adoption permitted. The Company has adopted the guidance for the year ended December 31, 2017. The adoption of this guidance did not have an impact on the operating results when adopted.

In April 2016, the FASB issued ASU 2016-10, "Revenue from Contracts with Customers (Topic 606), Identifying Performance Obligations and Licensing" ("ASU 2016-10"). The amendments in ASU 2016-10 are expected to reduce the cost and complexity of applying the guidance on identifying promised goods or services in contracts with customers and to improve the operability and understandability of licensing implementation guidance related to the entity's intellectual property. Similar to ASU 2014-09, the

effective date will be the first quarter of fiscal year 2018 with early adoption permitted in the first quarter of fiscal year 2017. The Company has adopted this guidance during the quarter ended March 31, 2018 on a modified retrospective basis. The adoption of this guidance did not have a significant impact on the operating results when adopted.

In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows (Topic 230) Classification of Certain Cash Receipts and Cash Payments," ("ASU 2016-15"). ASU 2016-15 reduces the existing diversity in practice in financial reporting by clarifying existing principles in ASC 230, "Statement of Cash Flows," and provides specific guidance on certain cash flow classification issues. The effective date for ASU 2016-15 will be the first quarter of fiscal year 2018 with early adoption permitted. The Company made an election to use the "Cumulative Earning Approach" to classify distributions received from equity investments. Other than the aforementioned election (which may have a future impact), the adoption of this guidance during the quarter ended March 31, 2018, did not have an impact on the Company's Statement of Cash Flows.

In October 2016, the FASB issued ASU 2016-16, "Income Taxes (Topic 740) - Intra-Entity Transfer of Assets Other than Inventory," ("ASU 2016-16"). ASU 2016-16 requires recognition of current and deferred income taxes resulting from an intra-entity transfer of any asset (excluding inventory) when the transfer occurs. This is a change from existing GAAP which prohibits recognition of current and deferred income taxes until the asset is sold to a third party. The effective date for ASU 2016-16 will be the first quarter of fiscal year 2018 with early adoption permitted. The Company has adopted this guidance during the quarter ended March 31, 2018. The adoption of this guidance did not have a significant impact on the operating results when adopted.

In January 2017, the FASB issued ASU 2017-01, "Business Combinations (Topic 805): Clarifying the Definition of a Business," ("ASU 2017-01"). ASU 2017-01 provides guidance in ascertaining whether a collection of assets and activities is considered a business. The effective date will be the first quarter of fiscal year 2018, with prospective application. The Company is evaluating the impact that adoption of this new standard will have on its consolidated financial statements. The Company has adopted this guidance during the quarter ended March 31, 2018. The adoption of this guidance did not have an impact on the operating results when adopted.

Except as noted above, the guidance issued by the FASB during the current year is not expected to have a material effect on the Company's consolidated financial statements.

4. Financial Instruments—Forward Currency Exchange Contracts and Interest Rate Swap Contracts

The following tables set forth the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of September 30, 2017 and December 31, 2016 by level within the fair value hierarchy. As required by ASC 820-10, financial assets and liabilities are classified in their entirety based on the lowest level of input that is

significant to the fair value measurement.

The following is summary of items that the Company measures at fair value on a recurring basis:

	Fair Value at September 30, 2017			
	Level 1	Level 2	Level 3	Total
Liabilities:				
Forward currency exchange contracts	$—	$94	$—	$94
Interest rate swap contracts	—	7	—	7
Valla contingent consideration	—	—	216	216
Total recurring liabilities at fair value	$—	$101	$216	$317

	Fair Value at December 31, 2016			
	Level 1	Level 2	Level 3	Total
Liabilities:				
Forward currency exchange contracts	$—	$159	$—	$159
Interest rate swap contracts	—	405	—	405
PM contingent liabilities	—	—	316	316
Valla contingent consideration	—	—	193	193
Total liabilities at fair value	$—	$564	$509	$1,073

22

	Fair Value Measurements Using Significant Unobservable Inputs (level 3)		
	PM Contingent Consideration	Valla Contingent Consideration	Total
Liabilities:			
Balance at December 31, 2016	$316	$ 193	$509
Effect of change in exchange rates	—	23	23
Change in fair value during the period	(316)	—	(316)
Balance at September 30, 2017	$—	$ 216	$216

Fair Value Measurements

ASC 820-10 classifies the inputs used to measure fair value into the following hierarchy:

Level 1 — Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 — Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and

Level 3 — Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

Fair value of the forward currency contracts are determined on the last day of each reporting period using observable inputs, which are supplied to the Company by the foreign currency trading operation of its bank and are Level 2 items.

5. Derivatives Financial Instruments

The Company’s risk management objective is to use the most efficient and effective methods available to us to minimize, eliminate, reduce or transfer the risks which are associated with fluctuation of exchange rates between the Euro, Chilean Peso and the U.S. dollar.

Forward Currency Contracts

When the Company receives a significant order in a currency other than the operating unit’s functional currency, management may evaluate different options that are available to mitigate future currency exchange risks. As of September 30, 2017, the Company had no outstanding forward currency contracts that were in place to hedge future sales. Therefore, there are currently no unrealized pre-tax gains or losses which will reclassified from other comprehensive income into earnings during the next 12 months.

In addition, the Company enters into forward currency exchange contracts in relationship such that the exchange gains and losses on the assets and liabilities denominated in a currency other than the reporting units' functional currency would be offset by the changes in the market value of the forward currency exchange contracts it holds. PM Group has an intercompany receivable denominated in Euros from its Chilean subsidiary. At September 30, 2017, the Company had entered into a forward currency exchange contract that matured on January 29, 2018. Under the contract the Company is obligated to sell 2,500,000 Chilean pesos for 3,201 euros. The purpose of the forward contract is to mitigate the income effect related to this intercompany receivable that results with a change in exchange rate between the Euro and the Chilean peso.

Interest Rate Swap Contracts

A contract was signed by PM Group, for an original notional amount of € 482 (€ 569 at September 30, 2017), maturing on October 1, 2020 with interest paid monthly. PM pays interest at a rate of 3.90% and receives from the counterparties interest at the "Euribor" rate for the period in question if greater than 0.90%.

As of September 30, 2017, the Company had the following forward currency contracts and interest rate swaps:

Nature of Derivative	Currency	Amount	Type
Forward currency sales contracts	Chilean peso	2,500,000	Not designated as hedge instrument
Interest rate swap contract	Euro	482	Not designated as hedge instrument

The following table provides the location and fair value amounts of derivative instruments that are reported in the Consolidated Balance Sheets as of September 30, 2017 and December 31, 2016:

Total derivatives NOT designated as a hedge instrument

		Fair Value	
	Balance Sheet Location	September 30, 2017	December 31, 2016
Liabilities Derivatives			
Foreign currency exchange contract	Accrued expense	$ 94	$ 159
Interest rate swap contracts	Notes payable	7	405
Total liabilities		$ 101	$ 564

The following tables provide the effect of derivative instruments on the Consolidated Statements of Operations for the three and nine months ended September 30, 2017 and 2016:

	Location of gain or (loss) recognized in Income Statement	Gain or (loss) Three Months Ended September 30,		Nine Months Ended September 30,	
		2017	2016	2017	2016
Derivatives Not designated as Hedge Instruments					
Forward currency contracts	Foreign currency transaction gains (losses)	$ 37	$ (22)	$ 133	$ (332)
Interest rate swap contracts	Interest expense	(1)	392	355	787
Forward currency contracts	Income from operations of discontinued operations	—	(32)	—	54
		$ 36	$ 338	$ 488	$ 509

The counterparty to each of the currency exchange forward contracts is a major financial institution with credit ratings of investment grade or better and no collateral is required. Management continues to monitor counterparty risk and believes the risk of incurring losses on derivative contracts related to credit risk is unlikely.

6. Inventory

The components of inventory are as follows:

	September 30, 2017	As Restated December 31, 2016
Raw materials and purchased parts, net	$ 36,988	$ 35,855
Work in process	3,425	4,231
Finished goods	23,009	29,401
Inventory, net	$ 63,422	$ 69,487

The Company has established reserves for obsolete and excess inventory of $3,454 and $1,886 as of September 30, 2017 and December 31, 2016, respectively.

7. Goodwill and Intangible Assets

Intangible assets and accumulated amortization by category as of September 30, 2017 is as follows:

	Useful lives	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Patented and unpatented technology	7-10 years	$ 18,317	$ (11,762)	$ 6,555
Customer relationships	10-20 years	23,639	(9,518)	14,121
Trade names and trademarks	25 years-indefinite	12,607	(2,041)	10,566
Non-competition agreements	2-5 years	50	(45)	5
Customer backlog	<1 year	371	(371)	—
Total intangible assets, net				$ 31,247

Intangible assets and accumulated amortization by category as of December 31, 2016 is as follows:

	Useful lives	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Patented and unpatented technology	7-10 years	$ 17,409	$ (11,004)	$ 6,405
Customer relationships	10-20 years	22,444	(7,870)	14,574
Trade names and trademarks	25 years-indefinite	11,892	(1,894)	9,998
Non-competition agreements	2-5 years	50	(42)	8
Customer backlog	<1 year	370	(370)	—
Total Intangible assets				$ 30,985

Amortization expense for intangible assets was $609 and $1,204 for the three months, and $2,121 and $3,324 for the nine months ended September 30, 2017 and 2016, respectively.

Changes in goodwill for the nine months ended September 30, 2017 are as follows:

	Total
Balance January 1, 2017	$39,669
Effect of change in exchange rates	3,345
Balance September 30, 2017	$43,014

8. Equity Method Investments

ASV Holdings - The Company is accounting for its 21.2% investment in ASV Holdings under the equity method of accounting. Under the equity method, the Company's share of the net income (loss) of the ASV Holdings is recognized as income (loss) in the Company's statement of operations and added to investment account, and dividends received from ASV Holdings are treated as a reduction of the investment account. ASV Holdings' earnings are recorded on a one quarter lag as ASV Holdings may not report earnings in time to be included in the Company's financial statements for any given reporting period.

On May 17, 2017, the Company's investment in ASV Holdings exceeded the proportional share of ASV Holdings' net assets by $862. The following table provides details of fair market adjustment made to reconcile this difference and subsequent amortization of the fair market adjustments:

	Amortization Period	Balance as of May 17, 2017	Cumulative Amortization	Balance as of September 30, 2017
Inventory	1 year	$ 75	$ 9	$ 66
Intangibles other than goodwill	10 to 25 years	787	9	778
		$ 862	$ 18	$ 844

The Company owned 2,080,000 Common Shares of ASV Holdings, which had a market value on September 30, 2017 of $16,910 based on a closing price of $8.13.

The following tables present ASV Holding’s summary financial information:

	June 30, 2017 (2)	December 31, 2016
Current Assets	$43,497	$ 47,556
Non-Current Assets	70,880	72,176
Current Liabilities	21,767	23,654
Non-Current Liabilities	$26,651	$ 42,643

	For the six months ended June 30, (2) 2017
Net sales	$62,250
Gross profit	9,660
Net income	1,984
Net income attributable to the Company (1)	302
Amortization of FMV adjustment	(18)
Income recognized by the Company	$284

(1) Represents 21.22% of ASV Holdings earnings from May 17, 2017 to September 30, 2017
(2) The Company's policy is to record our earnings based on a one quarter lag. As of September 30, 2017, the best available information to us was for June 30, 2017

Over the period from February 26 to 28, 2018, the Company sold an aggregate of 1,000,000 shares of ASV Holdings, Inc. in privately-negotiated transactions with institutional purchasers. All such shares were sold for $7.00 per share. Following such sale transactions, the Company owns an aggregate of 1,080,000 shares of ASV Holdings, Inc., which equates to the Company owning approximately 11.0% percent of ASV. After this transaction, the investment in ASV Holdings, Inc. will no longer be accounted for under the equity method.

Lift Ventures - On December 16, 2014, Manitex International, Inc. (the “Company”), BGI USA Inc. (“BGI”), Movedesign SRL and R & S Advisory S.r.l., entered into an operating agreement (the “Operating Agreement”) for Lift Ventures LLC (“Lift Ventures”), a joint venture entity. The purposes for which Lift Ventures is organized are the manufacturing and selling of certain products and components, including the Schaeff line of electric forklifts and certain LiftKing products. Pursuant to the Operating Agreement, the Company was granted a 25% equity stake in Lift Ventures in exchange for the contribution of inventory totaling $5,951 and a license of certain intellectual property related to the Company’s products.

This investment was a non-marketable equity investment made in a privately-held company accounted for under the equity method.

In 2016, the Company determined its investment in Lift Ventures was impaired and has recognized an impairment charge of $5,647 to write off its entire investment in Lift Ventures LLC.

9. Accrued Expenses

	September 30, 2017	December 31, 2016 As Restated
Accrued payroll	$ 2,192	$ 914
Accrued employee benefits	748	1,215
Accrued bonuses	60	401
Accrued vacation	989	979
Accrued interest	981	1,753
Accrued commissions	478	351
Accrued expenses—other	524	1,052
Accrued warranty	1,669	1,568
Accrued income taxes	465	—
Accrued taxes other than income taxes	1,862	1,950
Accrued product liability and workers compensation claims	404	95
Total accrued expenses	$ 10,372	$ 10,278

10. Accrued Warranty

The accrued warranty liability is established using historical warranty claim experience; however, the current provision may be adjusted to take into consideration unusual or non-recurring events in the past or anticipated changes in future warrant claims.

	For the nine months ended September 30,	
	2017	2016
Balance January 1,	$1,568	$1,328
Accrual for warranties issued during the period	1,390	1,182
Warranty services provided	(1,322)	(1,269)
Changes in estimate	(1)	103
Foreign currency translation	34	26
Balance September 30,	$1,669	$1,370

11. Credit Facilities and Debt

U.S. Credit Facilities

At September 30, 2017, the Company and its U.S. subsidiaries have a Loan and Security Agreement, as amended, (the "Loan Agreement") with The CIBC Bank USA ("CIBC"), formally known as "The Private Bank and Trust Company". The Loan Agreement provides a revolving credit facility with a maturity date of July 20, 2019. The aggregate amount of the facility is $25,000.

The maximum borrowing available to the Company under the Loan Agreement is limited to: (1) 85% of eligible receivables; plus (2) 50% of eligible inventory valued at the lower of cost or net realizable value subject to a $17,500 limit; plus (3) 80% of eligible used equipment, as defined, valued at the lower of cost or market subject to a $2,000 limit. At September 30, 2017, the maximum the Company could borrow based on available collateral was $25,000. At September 30, 2017, the Company had borrowed $12,575 under this facility. The Company's collateral is subject to a $5,000 reserve until the Fixed Charge Coverage ratio exceeds 1.10 to 1.00. The indebtedness under the Loan Agreement is collateralized by substantially all of the Company's assets, except for the certain assets of the Company's subsidiaries.

The Loan Agreement provides that the Company can opt to pay interest on the revolving credit at either a base rate plus a spread, or a LIBOR rate plus a spread. The base rate spread ranges from 0.25% to 1.00% depending on the Senior Leverage Ratio (as defined in the Loan Agreement). The LIBOR spread ranges from 2.25% to 3.00% also depending on the Senior Leverage Ratio. At September 30, 2017, the base rate and LIBOR spreads were 1.00% and 3.00%, respectively. Funds borrowed under the LIBOR option can be borrowed for periods of one, two, or three months and are limited to four LIBOR contracts outstanding at any time.

The underlying reference rate for our base rated borrowings at September 30, 2017 was 4.25%. At September 30, 2017, the Company had four outstanding advances with interest tied to LIBOR. The contracts had an underlying LIBOR rate of 1.27%. In addition, CIBC assesses a 0.50% unused line fee that is payable monthly.

The Loan Agreement subjects the Company and its domestic subsidiaries to a quarterly EBITDA covenant (as defined). The quarterly EBITDA covenant (as defined) are $(1,000) for the quarter ended at March 31, 2017, $0 for the quarter ended June 30, 2017, and $2,000 for all quarters starting with the quarter ended September 30, 2017 through the end of the agreement. Additionally, the Company and its domestic subsidiaries are subject to a Fixed Charge Coverage ratio of 1.05 to 1.00 measured on an annual basis beginning December 31, 2017, followed by a Fixed Charge Coverage ratio of 1.15 to 1.00 measured quarterly starting March 31, 2018 (based on a trailing twelve month basis) through the term of the agreement. The Loan Agreement contains customary affirmative and negative covenants, including covenants that limit or restrict the Company's ability to, among other things, incur additional indebtedness, grant liens, merge or consolidate, dispose of assets, make investments, make acquisitions, pay dividends or make distributions, repurchase stock, in each case subject to customary exceptions for a credit facility of this size.

The Loan Agreement has a Letter of Credit facility of $3,000, which is fully reserved against availability.

Note Payable—Bank

At September 30, 2017, the Company has a $73 term note payable to a bank. The Company is required to make eleven monthly payments of $37 that began on January 30, 2017. The note dated January 18, 2017 had an original principal amount of $400 and an annual interest rate of 2.75%. Proceeds from the note were used to pay annual premiums for certain insurance policies carried by the Company. The holder of the note has a security interest in the insurance policies it financed and has the right upon default to cancel these policies and receive any unearned premiums.

Note Payable—Winona Facility Purchase

At September 30, 2017, Badger has balance on note payable to Avis Industrial Corporation of $486. Badger is required to make 60 monthly payments of $10 that began on August 1, 2017. The note dated July 26, 2017, had an original principal amount of $500 and annual interest rate of 8.00%. The note is guaranteed by the Company.

Notes Payable – SVW

At September 30, 2017, SVW has four loans outstanding with four financial institutions. The Company is not a loan party, but has included the debt associated with these loans in its consolidated financial statements as SVW was determined to be a VIE that requires consolidation (see Note 1). SVW obtained financing using cranes that are included in the Company's inventory as collateral because of SVW's status as a VIE. The funds borrowed by SVW been have remitted to the Company. The finance companies that hold the loans have a perfected security interest in the inventory and therefore have recourse against this specific inventory. For accounting purposes, the Company did not recognize a sale and continues to include these cranes in its inventory. However, the finance company has taken legal title to the cranes used as collateral for the borrowings. The Company has entered into agreements to

repurchase the cranes from the lenders in the event that SVW defaults on any of these loans. Additionally, the SVW debt was also effectively guaranteed by the Company pursuant to certain related agreements.

The following table summarizes the principal terms of the borrowings:

Lending Institutions	Equify	Evolve	Heartland	Element Loan 1
Balance as of September 30, 2017	$ 1,880	$ 1,147	$ 1,412	$ 2,016
Loan origination date	June 27, 2016	July 8, 2016	July 16, 2016	July 28, 2016
Amount borrowed	$ 3,009	$ 2,710	$ 1,648	$ 2,941
Approximate Interest rate	8.07 %	6.75 %	8.00 %	8.00 %
Prepayment penalty	At stipulated vaules	3% decreasing to 2% after 24 months	Not applicable	1% per for each remaining year no penalty if equipment is sold
Required payments:				
First payment stream				
Frequencies of payment	Monthly	Monthly	Monthly	Monthly
Remaining payments	22	21	58	47
Date of first payment	August 1, 2016	August 8, 2016	September 1, 2016	September 1, 2016
Payment amount	$ 33	$ 17	$ 29	$ 50
Final balloon payment				
Date of payment	August 1, 2019	July 9, 2019	August 1, 2022	December 1, 2021
Payment amount	$ 1,391	$ 918	$ 39	$ 1

The September 30, 2017, balances on the above table total $6,455. Total SVW debt on the balance sheet is $6,260 the difference is deferred finance costs of $195 which is netted against the gross debt.

PM Group Short-Term Working Capital Borrowings

At September 30, 2017, PM Group had established demand credit and overdraft facilities with seven Italian banks and six banks in South America. Under the facilities, PM Group can borrow up to approximately €25,507 ($30,131) for advances against invoices, and letter of credit and bank overdrafts. Interest on the Italian working capital facilities is charged at the 3-month or 6-month Euribor plus 200 basis points, while interest on overdraft facilities is charged at the 3month Euribor plus 350 basis points. Interest on the South American facilities is charged at a flat rate of points for advances on invoices ranging from 9%-24%.

At September 30, 2017, the Italian banks had advanced PM Group €20,746 ($24,507), at variable interest rates, which currently range from 1.42% to 1.67%. At September 30, 2017, the South American banks had advanced PM Group €591 ($698). Total short-term borrowings for PM Group were €21,337 ($25,205) at September 30, 2017.

PM Group Term Loans

At September 30, 2017, PM Group has a €10,842 ($12,808) (net of debt issuance costs) term loan with two Italian banks, BPER and Unicredit. The term loan is split into three separate notes and is secured by PM Group's common stock. Debt issuance costs offset against these term loans totaled €358 ($423) at September 30, 2017.

The first note has an outstanding principal balance of €3,595 ($4,247), which is net of unamortized debt issuance costs of €358 ($423) is charged interest at the 6-month Euribor plus 236 basis points, effective rate of 2.09% at September 30, 2017. The note is payable in semi-annual installments beginning June 2017 and ending December 2021. The second note has an outstanding principal balance of €4,394 ($5,191), is charged interest at the 6-month Euribor plus 286 basis points, effective rate of 2.59% at September 30, 2017. The note is payable in semi-annual installments beginning June 2017 and ending December 2021. The third note has an outstanding principal balance of €2,853 ($3,370) and is non-interest bearing. The note is payable in semi-annual installments beginning June 2016 and ending December 2017 with a final balloon payment of €2,500 in March 2022.

The Company acquired PM Group in January 2015 and at acquisition it was determined that the fair value of the term notes described above was €1,460 or $1,725 less than the book value. This reduction is not reflected in the above descriptions of PM debt. As of September 30, 2017, the remaining balance was €665 or $786 and has been offset to the debt.

PM Group is subject to certain financial covenants as defined by the debt restructuring agreement with BPER and Unicredit including maintaining (1) Net debt to EBITDA, (2) Net debt to equity, and (3) EBITDA to net financial charges ratios. The covenants are measured on a semi-annual basis.

At September 30, 2017, PM Group has unsecured borrowings with four Italian banks totaling €13,015 ($15,375). Interest on the unsecured notes is charged at the 3-month Euribor plus 250 basis points, effective rate of 2.17% at September 30, 2017. Principal payments are due on a semi-annual basis beginning June 2019 and ending December 2021. Accrued interest on these borrowings through the date of acquisition at January 15, 2015, totaled €358 ($423) and is payable in semi-annual installments beginning June 2019 and ending December 2019.

At September 30, 2017, Autogru PM RO, a subsidiary of PM Group, has two notes. The first note is payable in 60 monthly principal installments of €8 ($9), plus interest at the 1-month Euribor plus 300 basis points, effective rate of 3.00% at September 30, 2017, maturing October 2020. At September 30, 2017, the outstanding principal balance of the note was €313 ($370). The second note is payable in monthly installments of €6 ($7) beginning on October 1, 2017, increasing to €9 ($11) on January 1, 2018 with a final payment of €395 ($467) due on March 7, 2018 and is charged interest at the 1-month Euribor plus 250 basis points, effective rate of 2.50% at September 30, 2017. At September 30, 2017, the outstanding principal balance of the note was €440 ($520).

PM has an interest rate swap with a fair market value at September 30, 2017 of €6 or $7 which has been included in debt.

PM Debt Restructuring

On March 6, 2018, PM Group and Oil & Steel S.p.A. (PM Group's subsidiary) entered into a Debt Restructuring Agreement (the "Restructuring Agreement") with Banca Monte dei Paschi di Siena S.p.A., Banca Nazionale del Lavoro S.p.A., BPER Banca S.p.A., Cassa di Risparmio in Bologna S.p.A. and Unicredit S.p.A. (collectively the "Lenders"), and Loan Agency Services S.r.l. (the "Agent"). The Restructuring Agreement, which replaces the previous debt restructuring agreement with the Lenders entered into in 2014, provides for, among other things:

- The provision of subordinated shareholders' loans by the Company to PM Group, consisting of (i) conversion of an existing trade receivable in the amount of €3.1 million into a loan; (ii) an additional subordinated shareholders' loan in the aggregate maximum amount of up to €2.4 million, to be made currently; and (iii) a further loan of €1.8 million to be made by December 31, 2018, in each case to be used to repay a portion of PM Group's outstanding obligations to the Lenders;
- Amendments to the 2014 put and call options agreement with BPER to, among other things, extend the exercise of the options until the approval of PM Group's financial statements for the 2021 fiscal year and permit the assignment of certain subordinated receivables to the Company; and
- New amortization and repayment schedules for amounts owed by PM Group to the Lenders under the various outstanding tranches of indebtedness, along with revised interest rates and financial covenants. Under the Restructuring agreement term debt is repaid over a nine-year period starting in 2018 and ending in 2026 (2022 prior to Debt Restructuring Agreement).
- The effect of PM not meeting its December 31, 2017 financial covenants was cured by the Debt Restructuring Agreement

Valla Short-Term Working Capital Borrowings

At September 30, 2017, Valla had established demand credit and overdraft facilities with three Italian banks. Under the facilities, Valla can borrow up to approximately €1,343 ($1,586) for advances against orders, invoices and bank overdrafts. Interest on the Italian working capital facilities is charged at a flat percentage rate for advances on invoices and orders ranging from 4.50% - 4.75%. At September 30, 2017, the Italian banks had advanced Valla €694 ($820).

Valla Term Loans

At September 30, 2017, Valla has a term loan with Carisbo. The note is payable in quarterly principal installments beginning on October 30, 2017 of €8 ($9), plus interest at the 3-month Euribor plus 470 basis points, effective rate of 4.37% at September 30, 2017. The note matures on January 2021. At September 30, 2017, the outstanding principal balance of the note was €110 ($130)

Capital leases

Georgetown facility

The Company leases its Georgetown facility under a capital lease that expires on April 30, 2028. The monthly rent is currently $66 and is increased by 3% annually on September 1 during the term of the lease.   At September 30, 2017, the outstanding capital lease obligation is $5,225.

Equipment

The Company has entered into a lease agreement with a bank pursuant to which the Company is permitted to borrow 100% of the cost of new equipment with 60 months repayment periods. At the conclusion of the lease period, for each piece of equipment the Company is required to purchase that piece of leased equipment for one dollar.

The equipment, which is acquired in ordinary course of the Company's business, is available for sale and rental prior to sale.

Under the lease agreement the Company can elect to exercise an early buyout option at any time, and pay the bank the present value of the remaining rental payments discounted by a specified Index Rate established at the time of leasing. The early buyout option results in a prepayment penalty which progressively decreases during the term of the lease. Alternatively, under the like-kind provisions in the agreement, the Company can elect to replace or substitute different equipment in place of equipment subject to the early buyout without incurring a penalty.

The following is a summary of amounts financed under equipment capital lease agreements:

	Amount Borrowed	Remaining Repayment Period	Amount of Monthly Payment	Balance as of September 30, 2017
New equipment	$ 896	42	$ 18	$ 709

As of September 30, 2017, the Company has two additional capital leases with total capitalized lease obligations of $17.

12. Convertible Notes

Related Party

On December 19, 2014, the Company issued a subordinated convertible debenture with a $7,500 face amount payable to Terex, a related party. The convertible debenture, is subordinated, carries a 5% per annum coupon, and is convertible into Company common stock at a conversion price of $13.65 per share or a total of 549,451 shares, subject to customary adjustment provisions. The debenture has a December 19, 2020 maturity date.

From and after the third anniversary of the original issuance date, the Company may redeem the convertible debenture in full (but not in part) at any time that the last reported sale price of the Company's common stock equals at least 130% of the Conversion Price (as defined in the debenture) for at least 20 of any 30 consecutive trading days.

Following an election by the holder to convert the debenture into common stock of the Company in accordance with the terms of the debenture, the Company has the discretion to deliver to the holder either (i) shares of common stock, (ii) a cash payment, or (iii) a combination of cash and stock.

As of September 30, 2017, the note had a remaining principal balance of $6,968 and an unamortized discount of $532.

Perella Notes

On January 7, 2015, the Company entered into a Note Purchase Agreement (the "Perella Note Purchase Agreement") with MI Convert Holdings LLC (which is owned by investment funds constituting part of the Perella Weinberg Partners Asset Based Value Strategy) and Invemed Associates LLC (together, the "Investors"), pursuant to which the Company agreed to issue $15,000 in aggregate principal amount of convertible notes due January 7, 2021 (the "Perella Notes") to the Investors. The Notes are subordinated, carry a 6.50% per annum coupon, and are convertible, at the holder's option, into shares of Company common stock, based on an initial conversion price of $15.00 per share, subject to customary adjustments. Following an election by the holder to convert the debenture into common stock of the Company in accordance with the terms of the debenture, the Company has the discretion to deliver to the holder either (i) shares of common stock, (ii) a cash payment, or (iii) a combination of cash and stock. Upon the occurrence of certain fundamental corporate changes, the Perella Notes are redeemable at the option of the holders of the Perella Notes. The Perella Notes are not redeemable at the Company's option prior to the maturity date, and the payment of principal is subject to acceleration upon an

event of default. The issuance of the Perella Notes by the Company was made in reliance upon the exemptions from registration provided by Rule 506 and Section 4(a)(2) of the Securities Act of 1933.

In accordance with a Registration Rights Agreement with the Investors dated January 7, 2015, the Company agreed to register the resale of the shares of common stock issuable upon conversion of the Perella Notes. The Registration Statement on Form S-3 filed by the Company was declared effective on February 23, 2015.

As of September 30, 2017, the note had a remaining principal balance of $14,257, net of debt issuance costs of $318, and an unamortized discount of $318.

13. Income Taxes

For the three months ended September 30, 2017, the Company recorded an income tax provision of $281, which included a discrete income tax provision of $15. For the three months ended September 30, 2016, the Company recorded an income tax provision (benefit) of $(691). The calculation of the overall income tax provision for the three months ended September 30, 2017 primarily consists of a foreign income tax expense and a domestic income tax provision resulting from state and local taxes, and an increase in deferred tax liabilities related to indefinite-lived intangible assets.

The Company recorded an income tax provision (benefit) of $416 and $(958) for the nine months ended September 30, 2017 and 2016, respectively. The calculation of the overall income tax provision for the nine months ended September 30, 2017 primarily consists of a foreign tax income provision and a domestic income tax provision resulting from state and local taxes, and an increase in deferred tax liabilities related to indefinite-lived intangible assets.

The effective tax rate for the three months ended September 30, 2017 was an income tax provision of 33.4% compared to an income tax benefit of 7.0% in the comparable prior period. The effective tax rate for the nine months ended September 30, 2017 was an income tax provision of 8.3% compared to an income tax benefit of 5.3% in the comparable period. The effective tax rate for the three and nine months ended September 30, 2017 differs from the U.S. statutory rate of 35% primarily due to the mix of domestic and foreign earnings, nondeductible foreign permanent differences, state and local taxes, and an increase in deferred tax liabilities related to indefinite-lived intangible assets.

The Company’s provision for income taxes consists of U.S. and foreign taxes in amounts necessary to align the Company’s year-to-date tax provision with the effective tax rate that the Company expects to achieve for the full year. Each quarter the Company updates its estimate of the annual effective tax rate and records cumulative adjustments for changes in estimate as necessary. The 2017 estimated annual effective tax rate inclusive of a valuation allowance is based upon the Company’s anticipated earnings both in the U.S. and in foreign jurisdictions.

The Company's total unrecognized tax benefits as of September 30, 2017 and 2016 were approximately $741 and $715 which, if recognized, would affect the Company's effective tax rate. Included in the unrecognized tax benefits is a liability for the PM Group's potential IRES and IRAP audit adjustments for the tax years 2009 – 2013. In July, 2017, the Company received notification from the Internal Revenue Service that its tax return for the year ended December 31, 2015 has been selected for examination. Favorable resolution of an unrecognized tax benefit could be recognized as a reduction in tax provision and effective tax rate in the period of resolution. Unfavorable settlement of an unrecognized tax benefit could increase the tax provision and effective tax rate and may require the use of cash in the period of resolution.

14. Net Earnings (Loss) per Common Share

Basic net earnings per share is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution of convertible debt and restricted stock units. Details of the calculations are as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	As Restated 2016	2017	As Restated 2016
Net income (loss) attributable to shareholders of Manitex International, Inc.				
Net income (loss) from continuing operations attributable to shareholders of Manitex International, Inc.	$(1,522)	$(9,335)	$(6,437)	$(17,227)
(Loss) income from operations of discontinued operations, net of income taxes	(15)	(999)	532	3,228
Less: (income) attributable to noncontrolling interest from discontinued operations	—	(294)	(274)	(566)
(Loss) income from operations of discontinued operations attributable to shareholders of Manitex International, Inc., net of income taxes	(1,537)	(1,293)	(6,179)	2,662
Income (Loss) on sale of discontinued operations, net of income taxes	30	(12,754)	(1,077)	(9,232)
Net loss attributable to shareholders of Manitex International, Inc.	$(1,507)	$(23,382)	$(7,256)	$(23,797)
Earnings (loss) per share				
Basic				
Loss from continuing operations attributable to shareholders of Manitex International, Inc.	$(0.09)	$(0.58)	$(0.39)	$(1.07)
(Loss) earnings from operations of discontinued operations attributable to shareholders of Manitex International, Inc., net of income taxes	$(0.09)	$(0.08)	$(0.37)	$0.17
Loss on sale of discontinued operations attributable to	$—	$(0.79)	$(0.07)	$(0.57)

shareholders of Manitex International, Inc., net of income taxes				
Earnings (loss) attributable to shareholders of Manitex International, Inc.	$(0.09)	$(1.45)	$(0.44)	$(1.48)
Diluted				
Loss from continuing operations attributable to shareholders of Manitex International, Inc.	$(0.09)	$(0.58)	$(0.39)	$(1.07)
(Loss) earnings from operations of discontinued operations attributable to shareholders of Manitex International, Inc., net of income taxes	$(0.09)	$(0.08)	$(0.37)	$0.17
Loss on sale of discontinued operations attributable to shareholders of Manitex International, Inc., net of income taxes	$—	$(0.79)	$(0.07)	$(0.57)
Earnings (loss) attributable to shareholders of Manitex International, Inc.	$(0.09)	$(1.45)	$(0.44)	$(1.48)
Weighted average common shares outstanding				
Basic	16,573,927	16,127,346	16,532,683	16,119,578
Diluted				
Basic	16,573,927	16,127,346	16,532,683	16,119,578
Dilutive effect of restricted stock units	—	—	—	—
	16,573,927	16,127,346	16,532,683	16,119,578

There are 186,778 and 215,842 restricted stock units which are anti-dilutive and therefore not included in the average number of diluted shares shown above for the three and nine months ended September 30, 2017, respectively. There are 267,577 and 267,891 restricted stock units which are anti-dilutive and therefore not included in the average number of diluted shares shown above for the three and nine months ended September 30, 2016, respectively.

15. Equity

Stock Issued to Employees and Directors

The Company issued shares of common stock to employees and Directors as restricted stock units issued under the Company's 2004 Incentive Plan vested. Upon issuance entries were recorded to increase common stock and decrease paid in capital for the amounts shown below. The following is a summary of stock issuances that occurred during the period:

Date of Issue	Employees or Director	Shares Issued	Value of Shares Issued
January 1, 2017	Directors	4,290	$ 54
January 1, 2017	Employees	20,932	266
January 4, 2017	Directors	7,675	47
January 4, 2017	Employees	42,533	258
June 1, 2017	Employees	4,493	32
September 15, 2017	Directors	6,600	35
		86,523	$ 692

On June 1, 2017, the Company paid a portion of employees' bonuses in stock. This resulted in an issuance of 4,493 shares with an aggregate value of $32.

Stock Repurchase

The Company purchases shares of Common Stock from certain employees at the closing share price on the date of purchase. The stock is purchased from the employees to satisfy employees' withholding tax obligations related to stock issuances described above. The below table summarized shares repurchased from employees during the current year through September 30, 2017:

Date of Purchase	Shares Purchased	Closing Price on Date of Purchase

January 1, 2017	6,312	$ 6.86
January 4, 2017	11,750	$ 7.27
	18,062	

Equity was decreased by $129, the aggregated value of the shares reflected in the table above.

2004 Equity Incentive Plan

In 2004, the Company adopted the 2004 Equity Incentive Plan and subsequently amended and restated the plan on September 13, 2007, May 28, 2009, June 5, 2013 and June 2, 2016. The maximum number of shares of common stock reserved for issuance under the plan is 1,329,364 shares. The total number of shares reserved for issuance however, can be adjusted to reflect certain corporate transactions or changes in the Company's capital structure. The Company's employees and members of the board of directors who are not our employees or employees of our affiliates are eligible to participate in the plan. The plan is administered by a committee of the board comprised of members who are outside directors. The plan provides that the committee has the authority to, among other things, select plan participants, determine the type and amount of awards, determine award terms, fix all other conditions of any awards, interpret the plan and any plan awards. Under the plan, the committee can grant stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares and performance units, except Directors may not be granted stock appreciation rights, performance shares and performance units. During any calendar year, participants are limited in the number of grants they may receive under the plan. In any year, an individual may not receive options for more than 15,000 shares, stock appreciation rights with respect to more than 20,000 shares, more than 20,000 shares of restricted stock and/or an award for more than 10,000 performance shares or restricted stock units or performance units. The plan requires that the exercise price for stock options and stock appreciation rights be not less than fair market value of the Company's common stock on date of grant.

Restricted stock units are subject to the same conditions as the restricted stock awards except the restricted stock units will not have voting rights and the common stock will not be issued until the vesting criteria are satisfied.

Restricted Stock Awards

The following table contains information regarding restricted stock units:

	September 30, 2017
Outstanding on January 1, 2017	342,004
Units granted during the period	4,493
Vested and issued	(86,523)
Forfeited	(73,196)
Outstanding on September 30, 2017	186,778

The value of the restricted stock is being charged to compensation expense over the vesting period. Compensation expense includes expense related to restricted stock units of $160 and $334 for the three and $517 and $900 for the nine months ended September 30, 2017 and 2016, respectively. Additional compensation expense related to restricted stock units will be $162, $405 and $155 for the remainder of 2017, 2018 and 2019, respectively.

At the Market Program

On January 23, 2017, Manitex International Inc. entered into a Controlled Equity Offering Sales Agreement ("Sales Agreement") with Cantor Fitzgerald & Co. ("Cantor") pursuant to which the Company may offer and sell shares of its common stock, no par value per share, having an aggregate offering price up to $20,000 through Cantor. The Company thought it prudent to put a mechanism in place by which supplemental liquidity can be provided to address working capital requirements or other capital requirements that may arise in conjunction with production requirements. Under the program, the Company's stock is issued at the current market price and the Company pays a 7% commission to Cantor.

The following table contains information regarding stock issued under the program:

Date of Issue	Shares Issued	Shares Price	Value of Shares Issued	Commissions	Net Proceeds
January 25, 2017	247,604	$8.8750	$2,197	$ 154	$ 2,043
January 27, 2017	27,120	$8.8376	$240	$ 17	$ 223
January 30, 2017	1,100	$8.6464	$10	$ 1	$ 9
January 31, 2017	18,700	$8.6451	$162	$ 11	$ 151
	294,524		$2,609	$ 183	$ 2,426

Winona Plant Purchase

On July 25, 2017, the Company issued 21,783 shares of common stock with a value of $154 to Avis Industrial Corporation. The shares were issued as part of the consideration paid to purchase the Winona manufacturing facility and to pay past due rent.

16. Legal Proceedings and Other Contingencies

The Company is involved in various legal proceedings, including product liability, employment related issues, and workers' compensation matters which have arisen in the normal course of operations. The Company has product liability insurance with self- insurance retention limits that range from $50 to $500.

The Company has been named as a defendant in several multi-defendant asbestos related product liability lawsuits. In certain instances, the Company is indemnified by a former owner of the product line in question. In the remaining cases the plaintiff has, to date, not been able to establish any exposure by the plaintiff to the Company's products. The Company is uninsured with respect to these claims but believes that it will not incur any material liability with respect to these claims.

When it is probable that a loss has been incurred and possible to make a reasonable estimate of the Company's liability with respect to such matters, a provision is recorded for the amount of such estimate or the minimum amount of a range of estimates when it is not possible to estimate the amount within the range that is most likely to occur.

Additionally, beginning on December 31, 2011, the Company's workmen's compensation insurance policy has per claim deductible of $250 and annual aggregates that range from $1,000 to $1,875 depending on the policy year. The Company is fully insured for any amount on any individual claim that exceeds the deductible and for any additional amounts of all claims once the aggregate is reached. The Company does not believe that the contingencies associated with these worker compensation claims in aggregate will have a material adverse effect on the Company

On May 5, 2011, the Company entered into two separate settlement agreements with two plaintiffs. As of September 30, 2017, the Company has a remaining obligation under the agreements to pay the plaintiffs an aggregate of $1,330 without interest in 14 annual installments of $95 on or before May 22 of each year. On, February 3, 2016, the Company entered into another legal settlement with a single plaintiff for €640 ($756). The liability had been fully accrued and resulted in no gain or loss. As of September 30, 2017 the Company has a remaining obligation under the agreement to pay the plaintiff €20 ($24) without interest in monthly installments of €20 ($24). The Company has recorded a liability for the net present value of the liability. The difference between the net present value and the total payment will be charged to interest expense over payment period.

It is reasonably possible that the "Estimated Reserve for Product Liability Claims" may change within the next 12 months. A change in estimate could occur if a case is settled for more or less than anticipated, or if additional information becomes known to the Company.

Residual Value Guarantees

The Company issues residual value guarantees to support a customer's financing of equipment purchased from the Company. A residual value guarantee involves a guarantee that a piece of equipment will have a minimum fair market value at a future date if certain conditions are met by the customer. The Company has issued partial residual guarantees that have maximum exposure of approximately $1.6 million. The Company does not have any reason to believe that any exposure from such a guarantee is either probable or estimable at this time, as such no liability has been recorded. The Company's ability to recover losses experienced from its guarantees may be affected by economic conditions in used equipment markets at the time of loss.

17. Transactions between the Company and Related Parties

In the course of conducting its business, the Company has entered into certain related party transactions.

On December 16, 2014, Manitex International, Inc. (the "Company"), BGI USA Inc. ("BGI"), Movedesign SRL and R & S Advisory S.r.l., entered into an operating agreement (the "Operating Agreement") for Lift Ventures LLC ("Lift Ventures"), a joint venture entity. The purposes for which Lift Ventures is organized are the manufacturing and selling of certain products and components, including the Schaeff line of electric forklifts and certain LiftKing products. Pursuant to the Operating Agreement, the Company was granted a 25% equity stake in the Lift Ventures in exchange for the contribution of certain inventory and a license of certain intellectual property related to the Company's

products.

As a result of the sale of Liftking in September of 2016 Lift Ventures LLC will no longer have the right to sell Schaeff and Liftking products in the future. Additionally, as a result of certain financial difficulties experienced by the partner, who was to contribute design services, it will not be able to provide such services. Given these events, the Company determined that its investment in Lift Ventures was impaired and recognized a full impairment charge in the third quarter of 2016.

The Company, through its subsidiaries, purchases and sells parts to BGI including BGI's subsidiary SL Industries, Ltd ("SL"). Company's former President of Manufacturing Operations is the majority owner of BGI.

The Company through its former Manitex Liftking subsidiary provided parts and services to LiftMaster, Ltd ("LiftMaster") or purchased parts or services from LiftMaster. LiftMaster is owned by an individual who was a Vice President of Manitex Liftking ULC during the period that the Company owned this subsidiary and a relative of his.

C&M is a distributor of Terex rough terrain and truck cranes. As such, C&M purchases cranes and parts from Terex. Additionally, The Company has a convertible note with a face amount of $7,500 payable to Terex. See Note 11 for additional details.

The Company is accounting for its 21.2% investment in ASV Holdings under the equity method of accounting. During a transition period ASV Holdings remains on the Company's fully insured health insurance plan, 401(k) plan and a self-fund short term disability

plan. ASV Holdings reimburses the Company for the actual costs incurred. After the transition period which is expected to end on or before December 31, 2017, the Company does not expect to have any continuing related party transactions with ASV Holdings.

As of September 30, 2017, and December 31, 2016, the Company had accounts receivable and accounts payable with related parties as shown below:

		September 30, 2017	December 31, 2016
Accounts Receivable	SL Industries, Ltd.	$ 28	$ 47
	Lift Ventures	—	22
	ASV Holdings	36	—
		$ 64	$ 69
Accounts Payable	BGI USA, Inc.	$ 1,293	7
	SL Industries, Ltd.	233	471
	Lift Ventures	—	749
	Terex	108	940
		$ 1,634	$ 2,167

The following is a summary of the amounts attributable to certain related party transactions as described in the footnotes to the table, for the periods indicated:

		Three Months Ended September 30, 2017	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2017	Nine Months Ended September 30, 2016
Rent paid	Bridgeview Facility (1)	$ 67	$ 65	$ 197	$ 194
Sales to:	SL Industries, Ltd.	$ 8	$ 11	$ 8	$ 13
	Lift Ventures	—	1	—	14
Total Sales		$ 8	$ 12	$ 8	$ 27
Purchases from:	BGI USA, Inc.	$ 836	$ —	$ 1,690	$ —
	Lift Ventures	—	613	618	1,374
	SL Industries, Ltd.	169	188	307	195
	LiftMaster	—	—	—	1
	Terex	158	1,625	560	1,853
Total Purchases		$ 1,163	$ 2,426	$ 3,175	$ 3,423

1. The Company leases its 40,000 sq. ft. Bridgeview facility from an entity controlled by Mr. David Langevin, the Company's Chairman and CEO. Pursuant to the terms of the lease, the Company makes monthly lease payments of $22. The Company is also responsible for all the associated operations expenses, including insurance, property taxes, and repairs. The lease will expire on June 30, 2020 and has a provision for six one year extension periods. The lease contains a rental escalation clause under which annual rent is increased during the initial lease term by the lesser of the increase in the Consumer Price Increase or 2.0%. Rent for any extension period shall however, be the then-market rate for similar industrial buildings within the market area. The Company has the option, to purchase the building by giving the Landlord written notice at any time prior to the date that is 180 days prior to the expiration of the lease or any extension period. The Landlord can require the Company to purchase the building if a change of Control Event, as defined in the agreement occurs by giving written notice to the Company at any time prior to the date that is 180 days prior to the expiration of the lease or any extension period. The purchase price regardless whether the purchase is initiated by the Company or the landlord will be the Fair Market Value as of the closing date of said sale.

Notes Payable to Terex

As of September 30, 2017, the Company had a convertible note payable, net of debt issuance costs totaling $6,968 payable to Terex. As of December 31, 2016, the Company had a note payable related to the ASV Holdings acquisition totaling $1,594 and a convertible

note payable, net of debt issuance costs totaling $6,862 payable to Terex. See Note 12 for additional details regarding the above convertible note.

On March 4, 2016, CVS and Terex Operations Italy S.R.L. (“TOI”) entered into an agreement whereby TOI acquired certain inventories and intellectual property related to CVS’ terminal tractor line. The transaction totaled €2,839 ($3,119) inclusive of VAT taxes and resulted in a gain of €1,987 ($2,212). This gain was included in other income on the Consolidated Statement of Operations when the March 31, 2016 10-Q was filed. During the fourth quarter of 2016, it was reclassed to discontinued operations.

18. Discontinued Operations

The Company completed the sale of Liftking, CVS and a partial interest in ASV Holdings on September 30, 2016, December 22, 2016 and May 17, 2017, respectively.

Sale of Partial Interest in ASV Holdings

On May 17, 2017, the Company and ASV Holdings completed the previously announced underwritten initial public offering (the “Offering”) of 3,800,000 shares of ASV Holding’s common stock, including 2,000,000 shares sold by the Company. The Company received proceeds net of commissions of $13,020 from the Offering. Additionally, the Company had legal and other expense associated with transaction of $128. In conjunction with the sale, the Company recognized a pre-tax loss of $1,133 and recognized a $23 tax benefit.

Following the sale of the above referenced shares, the Company had significant continuing involvement with ASV in the form of an equity investment (21.2% ownership in ASV). At the time of the above transaction, the Company’s plans were to hold the remaining shares it owns in ASV for an indefinite period. Although the Company had no plans to sell additional shares, the sale of additional shares in the future remained an option. If the Company were to sell more than 117,600 shares, the Company would cease to account for its investment in ASV as an equity investment.

Over the period from February 26 to 28, 2018, the Company sold an aggregate of 1,000,000 shares of ASV Holdings, Inc. in privately-negotiated transactions with institutional purchasers. All such shares were sold for $7.00 per share. Following such sale transactions, the Company owns an aggregate of 1,080,000 shares of ASV Holdings, Inc., which equates to the Company owning approximately 11.0% percent of ASV. After this transaction, the investment in ASV Holdings, Inc. will no longer be accounted for under the equity method.

38

The following is the detail of major classes of assets and liabilities of discontinued operations that were summarized on the Company's Unaudited Consolidated Balance Sheet as of December 31, 2016.

	As of December 31, 2016
ASSETS	
Current assets	
Cash	$ 573
Cash - restricted	535
Trade receivables (net)	13,603
Accounts receivable from related party	501
Inventory (net)	30,922
Prepaid expense and other	511
Total current assets of discontinued operations	46,645
Long-term assets	
Total fixed assets (net)	15,402
Intangible assets (net)	25,824
Goodwill	30,579
Other long-term assets	372
Total long-term assets of discontinued operations	72,177
Total assets of discontinued operations	$ 118,822
LIABILITIES	
Current liabilities	
Notes payable—short term	$ 3,000
Accounts payable	11,976
Accounts payable related parties	2,275
Accrued expenses	6,380
Total current liabilities of discontinued operations	23,631
Long-term liabilities	
Revolving term credit facilities	15,605
Notes payable (net)	26,267
Other long-term liabilities	773
Total long-term liabilities of discontinued operations	42,645
	$ 66,276

The following is the detail of major line items that constitute (loss) income from discontinued operations:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2017	2016	2017	2016

Net revenues	$—	$37,825	$38,357	$130,860
Cost of sales	—	32,428	32,403	109,713

Selling, general and administrative expenses	—	3,333	3,504	12,041
Interest expense	—	(1,148)	(1,156)	(4,614)
Other (expense) income	—	(418)	(40)	32
(Loss) income from discontinued operations before income taxes	—	(106)	560	2,545
Loss on sale of discontinued operations before income taxes	—	(9,502)	(1,133)	(7,290)
Income tax (benefit) expense related to discontinued operations	(15)	4,145	(28)	1,259
Net loss on discontinued operations	$—	$(13,753)	$(545)	$(6,004)

19. Subsequent Events

The Tax Cuts and Jobs Acts

On December 22, 2017, the Tax Cuts and Jobs Acts was enacted into law. The new tax legislation represents a fundamental and dramatic shift in US taxation. The new legislation contains several key tax provisions that will impact the Company including the reduction of the corporate income tax rate to 21% effective January 1, 2018. The new legislation also includes a variety of other changes including a one-time repatriation tax on accumulated foreign earnings that were previously tax deferred, a limitation on the tax deductibility of interest expense, acceleration of business asset expensing, etc. The lower corporate income tax rate will require us to remeasure our US deferred tax assets, valuation allowance and deferred tax liabilities. ASC 740 requires us to recognize the effect of the tax law changes in the period of enactment. However, the SEC staff issued SAB 118 which will allow us record provisional amounts during a measurement period which is similar to the measurement period used when accounting for business combinations. We will continue to assess the impact of the recently enacted tax law on our business, deferred tax amounts and consolidated financial statements, and will reflect the provisional impact of the tax law change in the fourth quarter of 2017.

The Company's total unrecognized tax benefits as of September 30, 2017 and December 31, 2016 were approximately $741 and $741, which, if recognized, would affect the Company's effective tax rate. Included in the unrecognized tax benefits is a liability for the PM Group's potential IRES and IRAP audit adjustments for the tax years 2009-2013. As of December 31, 2017, the Italy IRES and IRAP audit is closed through 2012. The settlement with the taxing authorities is expected to reduce unrecognized tax benefits by approximately $456. The impact of the settlement on the Company's effective tax rate is expected to be minimal. Depending on the final resolution of the PM Group's audits, the ultimate tax liability could be higher or lower than the unrecognized tax benefits provided for in the consolidated financial statements.

SEC Inquiry

In December of 2017, the Company has received an informal inquiry from the SEC requesting certain information in connection with the Company's previously announced restatement of prior financial statements, and is complying with such request.

Non-Compliance Letter from NASDAQ

On November 13, 2017, the Company received a letter notice from the Listing Qualifications Department of the Nasdaq Stock Market ("Nasdaq") stating that because the Company had not yet filed its Quarterly Report on Form 10-Q for the period ended September 30, 2017, the Company was no longer in compliance with Nasdaq Listing Rule 5250(c)(1) for continued listing. Nasdaq Listing Rule 5250(c)(1) requires listed companies to timely file all required period financial reports with the SEC. The 119 Notice has no immediate effect on the listing or trading of the

Company’s common stock on the Nasdaq Capital Market. The Company is working to regain compliance with the Nasdaq listing rules as expeditiously as possible.

Sale of Additional ASV Shares

Over the period from February 26 to 28, 2018, the Company sold an aggregate of 1,000,000 shares of ASV Holdings, Inc. in privately-negotiated transactions with institutional purchasers. All such shares were sold for $7.00 per share. Following such sale transactions, the Company owns an aggregate of 1,080,000 shares of ASV Holdings, Inc., which equates to the Company owning approximately 11.0% percent of ASV. After this transaction, the investment in ASV Holdings, Inc. will no longer be accounted for under the equity method.

PM Debt Restructuring

On March 6, 2018, PM Group and Oil & Steel S.p.A. (PM Group’s subsidiary) entered into a Debt Restructuring Agreement (the “Restructuring Agreement”) with Banca Monte dei Paschi di Siena S.p.A., Banca Nazionale del Lavoro S.p.A., BPER Banca S.p.A., Cassa di Risparmio in Bologna S.p.A. and Unicredit S.p.A. (collectively the “Lenders”), and Loan Agency Services S.r.l. (the “Agent”). The Restructuring Agreement, which replaces the previous debt restructuring agreement with the Lenders entered into in 2014, provides for, among other things:

- The provision of subordinated shareholders’ loans by the Company to PM Group, consisting of (i) conversion of an existing trade receivable in the amount of €3.1 million into a loan; (ii) an additional subordinated shareholders’ loan in the aggregate maximum amount of up to €2.4 million, to be made currently; and (iii) a further loan of €1.8 million to be made by December 31, 2018, in each case to be used to repay a portion of PM Group’s outstanding obligations to the Lenders;

- Amendments to the 2014 put and call options agreement with BPER to, among other things, extend the exercise of the

  options until the approval of PM Group’s financial statements for the 2021 fiscal year and permit the assignment of certain subordinated receivables to the Company; and

- New amortization and repayment schedules for amounts owed by PM Group to the Lenders under the various outstanding tranches of indebtedness, along with revised interest rates and financial covenants. Under the Restructuring agreement term debt is repaid over a nine-year period starting in 2018 and ending in 2026 (2022 prior to Debt Restructuring Agreement).

- The effect of PM not meeting its December 31, 2017 financial covenants was cured by the Debt Restructuring Agreement

Bank Amendment No. 6

As previously disclosed, on July 20, 2016, the Company and certain of its subsidiaries entered into a Loan and Security Agreement (as amended, the “Loan Agreement”) with The Private Bank and Trust Company, now known as CIBC Bank USA (“CIBC”). The Loan Agreement provides the Company with a revolving credit facility, which has a maturity date of July 20, 2019. The Loan Agreement was subsequently amended by a First Amendment dated as of August 2, 2016, a Second Amendment dated as of September 30, 2016, a Third Amendment dated as of November 8, 2016, a Fourth Amendment dated February 10, 2017 and a Fifth Amendment dated April 26, 2017. On March 9, 2018, the parties to the Loan Agreement entered into a sixth amendment to the Loan Agreement (the “Sixth Amendment”). The main modifications to the Loan Agreement resulting from the Sixth Amendment are as follows:

- a consent to the intercompany loan in the amount of $1,500,000 made to PM Group, in December 2017;

- a waiver of certain Defaults or Events of Default that may have been caused by the Company’s financial restatement;

- amendments to the definitions of “EBITDA” and “Fixed Charges” to account for certain impacts arising from the financial restatement;

- a consent to the sale by the Company of up to all of its equity interests in ASV, provided that the proceeds are used to repay outstanding revolving loans under the Loan Agreement;

- a consent to an additional equity investment in, or intercompany loan to, PM Group from the Company, using all or a portion of the remaining proceeds from the sale of the Company’s equity interests in ASV; and

- additional limitations on investments by the Company in foreign subsidiaries, other than the transactions with PM Group described above.

Promissory Note Waivers

Pursuant to a Common Stock and Convertible Debenture Purchase Agreement by and between the Company and Terex Corporation ("Terex"), dated as of October 29, 2014, the Company previously issued a Convertible Subordinated Promissory Note dated December 19, 2014 to Terex, which note remains outstanding as of the date hereof. In addition, the Company, MI Convert Holdings LLC and Invemed Associates LLC (together, the "Holders") are parties to both a Note Purchase Agreement and a Registration Rights Agreement, each dated as of January 7, 2015, pursuant to which the Holders purchased certain notes from the Company. Each of the foregoing agreements included obligations on the part of the Company to timely file with the SEC its reports that are required to be filed pursuant to the Exchange Act. The Company has obtained waivers from each of Terex and the Holders with respect to any breaches, defaults or events of default that may have been or may be triggered in connection with (i) the Company's failure to timely file its Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2017, or its Annual Report on Form 10-K for the year ended December 31, 2017, and (ii) the amendment by the Company of its previously-filed Annual Report on Form 10-K for the year ended December 31, 2016, Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2017 and Quarterly Report on Form 10-Q for the Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2017.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

Manitex International, Inc., through its wholly owned subsidiaries: Manitex, Badger, PM Group, Valla, Sabre, C&M and C&M Leasing, designs, manufactures and distributes a diverse group of products that serve different functions and are used in a variety of industries.

Manitex is located in Georgetown, Texas and markets a comprehensive line of boom trucks, truck cranes and sign cranes.

Badger is located in Winona, Minnesota and manufactures specialized rough terrain cranes and material handling products.

PM Group is a leading Italian manufacturer of truck mounted hydraulic knuckle boom cranes and a product range spanning more than 50 models. Through their consolidated subsidiaries, they have locations in Modena, Italy, Arad, Romania, Chassieu, France, Buenos Aires, Argentina, Santiago, Chile, London, UK and Mexico City, Mexico.

Valla is located in Piacenza, Italy and produces a line of industrial pick and carry cranes using electric, diesel and hybrid power options with lifting capacity that ranges from 2 to 90 tons.

Sabre, which is located in Knox, Indiana, manufactures a comprehensive line of specialized mobile tanks for liquid and solid storage and containment solutions with capacities from 8,000 to 21,000 gallons.

C&M and C&M Leasing are located in Bridgeview, Illinois. C&M is a distributor of new and used Manitex branded products as well as Terex rough terrain and truck cranes. C&M also provides repair services in Chicago and supplies repair parts for a wide variety of medium to heavy duty construction equipment. C&M Leasing rents equipment that is manufactured by the Company as well as a limited amount of equipment manufactured by third parties.

Consolidated Variable Interest Entity

Even though it has no ownership interest in SVW Crane & Equipment Company (together with its wholly owned subsidiary, Rental Consulting Service Company, "SVW"), the Company has the power to direct the activities that most significantly impact SVW's economic performance. Additionally, the Company was the primary beneficiary of the SVW relationship. SVW obtained third party financing, which was effectively guaranteed by the Company, on specific cranes the Company manufactured and remitted the loan proceeds to the Company. Other than its business transactions described herein, SVW had no other substantial business operations. The Company has determined that SVW is a Variable Interest Entity ("VIE") that under current accounting guidance needs to consolidate in the Company's financial results.

Refer to Note 1: Nature of Operations and Basis of Presentation in the accompanying Condensed Consolidated Financial Statements for a description of discontinued operations and changes in reporting segments.

Factors Affecting Revenues and Gross Profit

The Company derives most of its revenue from purchase orders from dealers and distributors. The demand for the Company's products depends upon the general economic conditions of the markets in which the Company competes. The Company's sales depend in part upon its customers' replacement or repair cycles. Adverse economic conditions, including a decrease in commodity prices, may cause customers to forego or postpone new purchases in favor of repairing existing machinery.

Gross profit varies from period to period. Factors that affect gross profit include product mix, production levels and cost of raw materials. Margins tend to increase when production is skewed towards larger capacity cranes.

Economic Conditions

In 2014, the Company saw a decline in orders for cranes with higher lifting capacities largely a result of the fall in oil prices which decreased demand from the energy sector. In 2015, the Company aggressively pursued other markets for its boom trucks including the tree industry, utility industry, and the general construction markets. This focus offset and mitigated the impact of the energy market decline. While oil prices continued to decline and the U.S. oil rig count dropped from 1,600 in January 2015 to just over 500 at end of 2015, we noted that the energy companies began selling excess equipment into our other markets.

In 2016, we noted that this selloff of excess equipment continued and even accelerated through much of the year. Until late 2016, this selloff dampened demand for new equipment in both the energy market and the other markets we serve with our boom trucks. We did note that oil prices did begin to increase and by the beginning of June 2016 were approaching $50 per barrel. Additionally, the oil rig count began to increase again and by year end totaled 525 oil rigs. Late in the year, orders received began to increase and included

orders for a number of cranes to be deployed in a multitude of markets that the Company serves. The positive order trend has continued in 2017. The Company continues to aggressively pursue multiple markets including the tree, utility, general construction and, energy markets.

The market for PM Group knuckle boom cranes has not been significantly affected by the decrease in oil prices. The market for these products has been more stable. The North American market for knuckle boom cranes is growing. PM Group currently has a small share of the market for knuckle boom cranes in North America. The Company has started to manufacture knuckle boom cranes on a limited basis in the United States and is marketing them through the Company's current distribution channels. The Company currently has a strong presence in North America for its boom trucks and believes that it can significantly increase the Company's share for knuckle boom cranes in North America. The Company believes this is an immediate opportunity that will continue to grow over time.

At the end of the quarter, the Company backlog was $50.3 million, including orders from PM Group that now comprise 36% of the total backlog at September 30, 2017.

Three Months Ended September 30, 2017 Compared to Three Months Ended September 30, 2016

Net loss from continuing operations for the three month periods ended September 30, 2017 and 2016

For the three months ended September 30, 2017 and 2016 the Company had a net loss from continuing operations of $1.5 million and $9.3 million, respectively.

For the three months ended September 30, 2017, the net loss from continuing operations of $1.5 million consisted of revenue of $56.5 million, cost of sales of $46.6 million, research and development costs of $0.6 million, SG&A expenses of $8.3 million, interest expense of $1.7 million, and a foreign currency loss of $0.8 million, income from the ASV Holdings equity investment of $0.3 million and income tax expense of $0.3 million.

For the three months ended September 30, 2016, the net loss from continuing operations of $9.3 million consisted of revenue of $39.1 million, cost of sales of $32.6 million, research and development costs of $0.7 million, SG&A expenses of $9.0 million, interest expense of $1.3 million, foreign currency transaction loss of $0.1 million, other income $0.3, income tax benefit of $0.7 million and a loss related to the Company's investment in Lift Ventures of $5.7 million.

Net revenues and gross profit —For the three months ended September 30, 2017, net revenues and gross profit were $56.5 million and $9.9 million, respectively. Gross profit as a percent of revenues was 17.5% for the three months ended September 30, 2017. For the three months ended September 30, 2016, net revenues and gross profit were $39.1 million and $6.5 million, respectively. Gross profit as a percent of revenues was 16.7% for the three months ended September 30, 2016.

Net revenues increased $17.3 million or 44.2% to $56.5 million for the three months ended September 30, 2017 from $39.1 million for the comparable period in 2016. The increase is primarily due to an increase in straight mast cranes revenues. The increase is due to an improvement in market conditions addressed above under the heading "Economic Conditions". The revenues for the three months ended September 30, 2017 were also favorably impacted by a stronger Euro, which accounted for approximately $1.0 million of the increase in revenue.

Our gross profit increased $3.4 million to $9.9 million for the three months ended September 30, 2017 from $6.5 million for the comparable period in 2016. The increase in gross profit is attributable to an increase in revenues and a

0.8% improvement in gross profit percent. The improvement in the gross profit percent is primarily due to an increase in the gross margin percent generated on the sale of straight mast cranes. Boom truck margins were favorably impacted by an increase in production volume and improved pricing. Pricing improved in 2017, largely the result of a decrease in discounts being offered during 2017. The increase in gross profit was partially offset by an inventory reserve adjustment of $1.5 million for the three months ended September 30, 2017.

Research and development —Research and development was $0.6 million for the three months ended September 30, 2017 compared to $0.7 million for the same period in 2016. Research and development expenditures were relatively consistent with the prior period. The Company's research and development spending reflects our continued commitment to develop and introduce new products that give the Company a competitive advantage.

Selling, general and administrative expense —Selling, general and administrative expense for the three months ended September 30, 2017 was $8.3 million compared to $9.0 million for the comparable period in 2016, a decrease of $0.7 million. The decreases are primarily related to the Company's continued cost cutting programs.

Operating income (loss) —For the three months ended September 30, 2017 and 2016 the Company had operating income of $1.0 million compared with operating loss of $3.2 million, respectively. Operating income increased due to changes in revenue, cost of sales and operating expenses explained above.

Interest expense —Interest expense was $1.7 million for the three months ended September 30, 2017 compared to $1.4 million for the comparable period in 2016.

As the majority of the Company's debt is variable interest rate debt, the modest increases in market interest rates including LIBOR and the U.S. prime rates were mostly offset by a decrease in outstanding debt.

Foreign currency transaction losses —For the three months ended September 30, 2017, the Company had foreign currency losses of $0.8 million compared to $0.1 million for the comparable period in 2016. As previously stated, the Company attempts to purchase forward currency exchange contracts such that the exchange gains and losses on the assets and liabilities denominated in a currency other than the reporting units' functional currency will be offset by the changes in the market value of the forward currency exchange contracts it holds. A substantial portion of the losses relate to changes in the Argentinian peso. The Company has not been able to identify a strategy to effectively hedge the currency risks related to the Argentinian peso.

Other income— For the three months ended September 30, 2017, the Company had other income of $0.01 million compared to other income of $0.3 million for the comparable period in 2016.

Income tax — For the three months ended September 30, 2017 and 2016 the Company recorded an income tax expense (benefit) of $0.3 and $(0.7) million, respectively. The calculation of the overall income tax provision for the three months ended September 30, 2017 primarily consists of a foreign income tax provision and a domestic income tax provision resulting from state and local taxes, and an increase in deferred tax liabilities related to indefinite-lived intangible assets.

The effective tax rate for the three months ended September 30, 2017 was an income tax provision of 33.4% compared to an income tax benefit of 7.0% in the comparable prior period. The effective tax rate for the three months ended September 30, 2017 differs from the U.S. statutory rate of 35% primarily due to the mix of domestic and foreign earnings, nondeductible foreign permanent differences, state and local taxes, and an income tax provision resulting from the increase in deferred tax liabilities related to indefinite-lived intangibles.

Income (loss) from equity investments—-For the three months ended September 30, 2017 and 2016 the Company had income of $0.3 million compared to a loss of $5.7 million for the same period in 2016, respectively. Income for the three months ended September 30, 2017 was from earnings from equity investment in ASV Holdings (see Note 7).

In December 2014, Company entered into a joint venture agreement which formed Lift Ventures LLC. The joint venture was formed to manufacture and sell certain products and components, including the Company's Schaeff electric forklift business, which was operated by the Company's Liftking subsidiary and certain other Liftking products. One of the other partners in the joint venture contributed design services which were to be used to develop additional new products for the joint venture. As a result of the sale in the third quarter of the Company's Liftking subsidiary, Lift Ventures LLC will no longer have the right to sell Schaeff and Liftking products in the future.

Additionally, as a result of certain financial difficulties experienced by the partner who was to contribute design services, it will not be able to provide such services. As a result of the these events, the Company has determined that its investment in Lift Ventures has become impaired and has recognized a charge of $5.7 million to write off its entire investment in Lift Ventures LLC during the quarter ended September 30, 2016.

Net loss from continuing operations —For the three months ended September 30, 2017 and 2016 the Company had a net loss of $1.5 million compared to a net loss of $9.3 million, respectively. The change is explained above.

Nine Months Ended September 30, 2017 Compared to Nine Months Ended September 30, 2016

Net loss from continuing operations for the nine month periods ended September 30, 2017 and 2016

For the nine months ended September 30, 2017 and 2016 the Company had net losses of $6.4 million and $17.2 million, respectively.

For the nine months ended September 30, 2017 the net loss of $6.4 million consisted of revenue of $ 148.6 million, cost of sales of $122.0 million, research and development costs of $1.9 million, SG&A expenses of $25.8 million, interest expense of $4.5 million, foreign currency transaction loss of $1.1 million, other income of $0.4 million, income tax expense of $0.4 million and income from the ASV Holdings equity investment of $0.4 million.

For the nine months ended September 30, 2016, the net loss of $17.2 million consisted of revenue of $132.1 million, cost of sales of $108.7 million, research and development costs of $2.2 million, SG&A expenses of $27.5 million, interest expense of $6.1 million, foreign currency transaction loss of $1.0 million, other income of $0.9, and a loss related to the Company's investment in Lift Ventures of $5.8 million and income tax benefit of $1.0 million.

Net revenues and gross profit —For the nine months ended September 30, 2017, net revenues and gross profit were $148.6 million and $26.7 million, respectively. Gross profit as a percent of revenues was 17.9% for the nine months ended September 30, 2017. For the nine months ended September 30, 2016, net revenues and gross profit were $132.1 million and $23.4 million, respectively. Gross profit as a percent of revenues was 17.7% for the nine months ended September 30, 2016.

Net revenues increased $16.5 million to $148.6 million for the nine months ended September 30, 2017 from $132.1 million for the comparable period in 2016. The improvement in market conditions is primarily attributed to increase revenues during the second and third quarters.

The decrease in first quarter revenues was the result of not being able to increase production levels fast enough to react to an increase in orders received. In December 2016, orders began increasing for almost all product lines, but were exceptionally pronounced for the Manitex straight mast cranes. These orders significantly increased backlog, but due to the timing of the orders, production was not able to convert these orders into revenues during the first quarter due in part to the unavailability of chassis needed to mount the cranes.

Our gross profit percent increased to 17.9% for the nine months ended September 30, 2017 compared to 17.7% for the same period in 2016, respectively. The improvement in gross margin percent for the nine month period was affected by $1.5 million in inventory reserve adjustments in the third quarter 2017. Gross margin percent for three months ended September 30, 2017 was 0.8% above the gross margin percent for the comparable three month period in 2016.

Research and development —Research and development was $1.9 million for the nine months ended September 30, 2017 compared to $2.2 million for the same period in 2016. Research and development expenditures were relatively consistent with the prior period. The Company's research and development spending reflects our continued commitment to develop and introduce new products that give the Company a competitive advantage.

Selling, general and administrative expense —Selling, general and administrative expense for the nine months ended September 30, 2017 was $25.8 million compared to $27.5 million for the comparable period in 2016, a decrease of $1.7 million. The three months ended March 31, 2017 includes expenses of $1.2 million incurred in connection with our participation at the 2017 Con Expo trade show. The Con Expo show, which is held every three years, was held in Las Vegas in March of this year. This show is an international gathering place for the construction industries. It is estimated that 130,000 professionals from around the world attended the show.

Selling, general and administrative expenses decreased $2.9 million when Con Expo expenses are excluded. The decrease is primarily related to the Company's continued cost cutting programs.

Operating loss —For the nine months ended September 30, 2017 and 2016 the Company had operating loss of $1.0 million and $6.2 million, respectively. Operating loss decreased due to changes in revenue, cost of sales and operating expenses explained above.

Interest expense —Interest expense was $4.5 million for the nine months ended September 30, 2017 compared to 6.1 million for the comparable period in 2016, a decrease of $1.6 million. A non-recurring expense in 2016 of $1.4 million accounts for the majority of the decrease. The non-recurring charge was the result of expensing deferred financing costs when debt was refinanced.

The remaining decrease of $0.2 million is attributable to a decrease in outstanding borrowing. A lower interest rate on refinanced debt also contributed to the decrease in interest expense. As the majority of the Company's debt is variable interest rate debt, as such the modest increases in market interest rates including LIBOR and the U.S. prime rates partially offset other interest decreases.

Foreign currency transaction losses —For the nine months ended September 30, 2017, the Company had a foreign currency loss of $1.1 million compared to $1.0 million loss for the comparable period in 2016. As previously stated, the Company attempts to purchase forward currency exchange contracts such that the exchange gains and losses on the assets and liabilities denominated in a currency other than the reporting units' functional currency will be offset by the changes in the market value of the forward currency exchange contracts it holds.

The loss for 2016 period includes the recognition of deferred loss of $0.2 million related to an intercompany receivable. The loss had been previously deferred in other comprehensive income as there was an intercompany receivable that was not expected to be repaid. The repayment of the receivable resulted in the recognition of the previously deferred loss. The remaining losses for 2016 and the

losses for 2017 are largely the result of changes in the Argentinian peso. The Company has not been able to identify a strategy to effectively hedge the currency risks related to the Argentinian peso.

Income tax —For the nine months ended September 30, 2017 and 2016 the Company recorded an income tax expense (benefit) of $0.4 million and ($1.0) million, respectively. The calculation of the overall income tax provision primarily consists of a foreign income tax provision and a domestic income tax provision resulting from state and local taxes, and an increase in deferred tax liabilities related to indefinite-lived intangible assets.

The effective tax rate for the nine months ended September 30, 2017 was an income tax provision of 8.3% compared to an income tax benefit of 5.3% in the comparable prior period. The effective tax rate for the nine months ended September 30, 2017, differs from the U.S. statutory rate of 35% primarily due to the mix of domestic and foreign earnings, nondeductible foreign permanent differences, state and local taxes, and an increase in deferred tax liabilities related to indefinite-lived intangibles.

The Company's provision for income taxes consists of U.S. and foreign taxes in amounts necessary to align the Company's year-to-date tax provision with the effective rate that the Company expects to achieve for the full year. Each quarter the Company updates its estimate of the annual effective tax rate and records cumulative adjustments for changes in estimate as necessary. The 2017 estimated annual effective tax rate inclusive of a valuation allowance is based upon the Company's anticipated earnings both in the U.S. and in foreign jurisdictions.

Income (loss) from equity investments—For the nine months ended September 30, 2017 and 2016 the Company had income of $0.3 million compared to a loss of $5.8 million for the same period. Income for the nine months ended September 30, 2017 was from earnings from equity investment in ASV Holdings (see Note 7). The loss for 2016 is related the Lift Venture investment and is explained in the three month discussion above.

Other income— For the nine months ended September 30, 2017 and 2016, the Company had other income of $0.4 and $0.9 million, respectively. For the nine months ended September 30, 2017, other income is the result of revaluing a contingent acquisition liability related to an option to acquire certain PM bank debt. For the nine months ended September 30, 2016, the Company had other income as the fair market value of a contingent liability associated with the PM acquisition was again reduced based on revaluation that used updated information.

Net loss from continuing operations —For the nine months ended September 30, 2017 and 2016 the Company had a net loss of $6.4 and $17.2 million, respectively. The change is explained above.

Liquidity and Capital Resources

Cash, cash equivalents and restricted cash were $3.3 million at September 30, 2017 compared to $5.3 million at December 31, 2016. In addition, the Company has a U.S. revolving credit facility with maturity date of July 20, 2019. At September 30, 2017 the Company had approximately $12.4 million available to borrow under its revolving credit

facility.

At September 30, 2017, the PM Group had established working capital facilities with seven Italian and six South American banks. Under these facilities, the PM Group can borrow $30.1 million against orders, invoices and letters of credit. At September 30, 2017, the PM Group had received advances of $24.5 million. Future advances are dependent on having available collateral.

During the nine months ended September 30, 2017, total debt decreased by $4.9 million to $101.4 million at September 30, 2017, from $106.3 million at December 31, 2016.

The following is a summary of the net decrease in our indebtedness from December 31, 2016 to September 30, 2017:

Facility	Increase/ (decrease)	
U.S. Revolver	$(7.4)	million
Note payable—bank (insurance premiums)	0.1	million
Note Payable-SVW Debt	(4.8)	million
Note payable—Terex	(1.6)	million
Capital leases-equipment	0.2	million
PM working capital (See note 10 for details)	5.9	million
PM other debt (See note 10 for details)	1.5	million
Valla note payable	0.1	million
Valla working capital borrowings	0.8	million
	$(5.2)	million
Debt issuance costs	0.3	million
	$(4.9)	million

Outstanding borrowings

The following is a summary of our outstanding borrowings at September 30, 2017:

(In millions)

	Outstanding Balance	Interest Rate	Interest Paid	Principal Payment
U.S Revolver	$ 12.6	4.27 to 5.25%	Monthly	July 20, 2019 maturity
Note payable bank (insurance premiums)	0.1	2.75%	Monthly	$0.04 million monthly
Note Payable-SVW Debt	6.5	6.75 to 8.07%	Monthly	4 notes with various terms including some with balloon payments
Convertible note—Terex	7.0	7.5%	Semi-Annual	December 19, 2019 maturity
Convertible note—Perella	14.6	7.5%	Semi-Annual	January 7, 2021 maturity
Capital lease—cranes for sale	0.7	4.0%	Monthly	Over 49 months
Capital lease—Georgetown facility	5.2	12.50%	Monthly	$0.06 million monthly payment includes interest
Capital leases—Winona facility	0.5	8.0%	Monthly	$0.01 million monthly
PM unsecured borrowings	15.4	2.17%	Semi-Annual	Variable semi-annual starting June 2017 through December 2021
PM Autogru term loan	0.4	3.00%	Monthly	$0.09 million monthly through October 2020
PM Autogru term loan	0.5	2.50%	Annually	$0.07 monthly payment beginning October 1, final payment on March 7, 2018
PM term loans with related accrued interest, interest rate swaps and FMV adjustments	12.9	0 to 2.59%	Semi-Annual	Variable semi-annual starting June 2016 through March 2022. Payments scheduled for 2017 total $3 million
PM short-term working capital borrowings-Italy	24.5	1.42 to 1.67%	Monthly	Upon payment of invoice

PM short-term working capital borrowings-South America	0.7	9.0 to 24.0%	Monthly	Upon payment of invoice
Valla note payable	0.1	4.37%	Quarterly	Over 14 quarterly payments
Valla short-term working capital borrowings	0.8	4.50 to 4.75%	Monthly	Upon payment of invoice or letter of credit
	$ 102.5			
Debt issuance costs	(0.9)			
Debt net of issuance costs	$ 101.6			

Future availability under credit facilities

As stated above, the Company had cash of $3.3 million and approximately $12.4 million available to borrow under its credit facility at September 30, 2017.

PM Group has their own working capital facilities. As stated above, any future advances against the Italian facilities are dependent on having available collateral. Additionally, the Company is permitted to make limited advances to the Italian operations if needed under the Company's credit facilities.

The Company needs cash to fund normal working capital needs and to make scheduled debt payments as shown in the above table. The U.S. credit facilities are asset based. The maximum the Company may borrow under either facility is the lower of the credit line or the available collateral, as defined in the credit agreements. Collateral under the agreements consists of stated percentages of eligible accounts receivable and inventory.

Under the collateral formulas in the credit facilities accounts receivable collateral is equal to a stated percent of eligible accounts receivable (generally 85%), while inventory collateral is equal to a stated percent of eligible inventory (generally 50%) and caps total borrowing against our inventory. If our revenues were to increase significantly in the future, the provision limiting borrowing against accounts receivable and inventory may result in additional cash constraints. If this were to occur, we would attempt to negotiate higher inventory caps with our banks. There is, however, no assurance that the banks would agree to increase the caps.

The Company expects cash flows from operations and existing availability under the current revolving credit facilities will be adequate to fund future operations. If in the future, we were to determine that additional funding is necessary, we believe that it would be available. There is, however, no assurance that such financing will be available or, if available, on acceptable terms.

We will likely need to raise additional capital through debt or equity financings to fund any future acquisitions. There is no assurance that such financing will be available or, if available, on acceptable terms.

2017

Operating activities consumed $0.5 million of cash for the nine months ended September 30, 2017 comprised of net loss of $7.0 million, non-cash items that totaled $5.1 million and changes in assets and liabilities related to continuing operations consumed $2.3 million. Additionally, discontinued operations generated $3.9 million of cash in the quarter. The principal non-cash items that generated cash are depreciation and amortization of $3.9 million, loss on sale of discontinued operations of $1.1 million, share based compensation of $0.5 million, amortization of deferred financing costs of $0.4 million, amortization of debt discounts of $0.4 million, loss on sale of assets of $0.2 million offset by decrease in inventory reserves of $0.4 million, the gains on revaluation of a contingent acquisition liability of $0.3 million. a gain on interest rate swaps of $0.4 million, and income from equity investments of $0.3 million.

The change in assets and liabilities related to continuing operations consumed $2.3 million. The changes in assets and liabilities had the following impact on cash flows: accounts receivable consumed $10.4 million, inventory generated $9.3 million, prepaid expenses generated $0.4 million, other assets generated $0.1, accounts payable consumed $0.8 million, accrued expenses consumed $0.6 million, other current liabilities generated $0.2 million, and other long-term liabilities consumed $0.4 million.

The changes in assets and liability are calculated based on local currency and then converted into U.S. dollars. As such, the impact of changes in exchange rates on the cash flow statement are included in the line entitled “effects of exchange rates on cash”. The exchange impact is significant as the Company has significant European operations and the Euro exchange rate has increased from 1.0520 at December 31, 2016 to 1.1813 at September 30, 2017. The changes in assets and liabilities on the cash flow statement and the Company’s comments regarding changes in assets and liabilities below exclude currency impacts. Computing changes on balance sheet lines would include the effect of a change in exchange rate. The differences are significant. For example, an asset may increase on the balance sheet from December 2016 to September 2017 but be source of cash when the exchange impact is excluded.

The increase in accounts receivable is due to an increase in revenues. The decrease in inventory was significantly impacted by the sale of SVW inventory to third parties and management’s concerted efforts to manage inventory levels. The decrease in accrued expenses is primarily related to a decrease in accrued interest. The variance in accrued interest is primarily related to the timing of interest payments. The change in other liabilities is due change in the provision for long-term severance liability in Europe.

Investing activities for the nine months ended September 30, 2017 generated $12.0 million of cash. The Company received $12.9 million in net proceeds from the sale of its partial interest in ASV Holdings. The Company used $0.8 million of cash to purchase machinery and equipment.

Financing activities consumed $13.4 million in cash for the nine months ended September 30, 2017. Cash was generated from increases in borrowings under PM's working capital facilities of $4.2 million, the receipt of proceeds of $2.4 related a stock offering, $0.7 million in new debt and $0.9 million from sales and lease of cranes. The cash generated was more than offset by a decrease in borrowings under the Company's revolving credit facilities of $7.4 million, notes payments of $8.4 million, the repurchase of $0.1 million of stock from employees to satisfy employees' tax withhold upon vesting of restricted shares and the payment of $0.8 million under capital lease obligations. Discontinued operations financing activities consumed an additional $5.1 million.

2016

Operating activities consumed $26.1 million of cash for the nine months ended September 30, 2016 comprised of net loss of $23.2 million, non-cash items that in total generated $20.0 million and changes in assets and liabilities related to continuing operations consumed $16.3 million. Additionally, discontinued operations consumed $6.4 million. The principal non-cash items that generated cash are depreciation and amortization of $5.3 million, a net non-cash loss of $6.8 million from the sale of discontinued operations, a $5.7 million impairment charge related to the write-off the Company's investment in Lift Ventures, increases in allowance for inventory reserves of $0.6 million, write down of goodwill of $0.3, amortization of debt discounts of $0.4 million, share based compensation of $0.9 million and amortization of deferred financing costs of $1.9 million. The following are significant non-cash items that consumed cash: a gain of $0.8 million on the mark to market revaluation of interest rate swaps, a changed in deferred taxes of $0.2 million and $0.9 million gain on the revaluation of a contingent acquisition liability.

The change in assets and liabilities related to continuing operations consumed $16.3 million. The changes in assets and liabilities had the following impact on cash flows: accounts receivable consumed $1.1 million, inventory consumed $7.4 million, prepaid expenses generated $1.0 million, other assets generated $0.2 million, accounts payable consumed $5.5 million, accrued expenses consumed $2.7 million, other current liabilities consumed $0.4 million, and other long-term liabilities consumed $0.3 million. The increase in accounts receivable is due to the fact that collections of large receivable has been delayed. This receivable has been fully collected. The increase in inventory is result of holding approximately $10 million of SVW related inventory. The decrease in accrued expenses is due to decrease in a number of different accruals including bonus, taxes and commissions. The fluctuations in the remaining assets and liabilities are within a range that would normally be expected to occur and in part due lower revenues.

Investing activities for the nine months ended September 30, 2016 generated $14.8 million of cash. The Company received $14.0 million from the sale of Liftking. Discontinued operations provided $1.7 million. The Company used $0.9 million of cash to purchase machinery and equipment and generated $0.2 million from the sale of equipment.

Financing activities generated $8.0 million in cash for the nine months ended September 30, 2016. Financing activities that consumed cash include: a $13.7 million decreased in borrowing under the Company's revolving credit facility, note payments of $5.3 million, capital lease payments of $0.4 million, payments of debt issuance costs of $1.2 million and a $0.1 used to repurchase of Company's stock from employees. Cash was provided by an increase in working capital borrowings of $7.2 million, new borrowing of $13.0 million, ($12.2 million of the new borrowing is additional borrowing of SVW) and cash of $4.1 million received from sales and lease back transactions. Discontinued operations contributed an additional $4.4 million of cash.

Related Party Transactions

See Note 17, Transactions between the Company and Related Parties, in the accompanying Condensed Consolidated Financial Statements for a description of the Company's related party transactions.

Critical Accounting Policies

The existing guidance related to accounting for equity investments first became relevant to the Company after our Annual Report on Form 10-K was originally filed for the year ended December 31, 2016 on March 10, 2017 and is considered by the Company to be a significant accounting policy. See Note 2 in the accompanying Condensed Consolidated Financial Statement which describes the Company's policy related to equity investments.

See Item 7, Management’s Discussion and Analysis of Results of Operations and Financial Condition, in the Company’s Annual Report on Form 10-K/A for the fiscal year ended December 31, 2016 for a discussion of the Company’s other critical accounting policies.

Impact of Recently Issued Accounting Standards

See Note 3, New Accounting Standards, in the accompanying Condensed Consolidated Financial Statements for a summary of recently issued accounting standards.

Off-Balance Sheet Arrangements CIBC has issued 2 standby letters of credit at September 30, 2017. The first standby letter of credit is $0.625 million in favor of an insurance carrier to secure obligations which may arise in connection with future deductibles payments that may be incurred under Company's workmen's compensation insurance policies. The second standby letter of credit is $0.02 million in favor of a governmental agency to secure obligations which may arise in connection with workmen's compensation claims.

The Company has issued residual value guarantees to support a customer's financing. A residual value guarantee involves a guarantee that a piece of equipment will have a minimum fair market value at a future date if certain conditions are met by the customer. The Company has issued partially residual guarantees that have a maximum exposure of approximately $1.6 million. The Company, however, does not have any reason to believe that any exposure from such a guarantee is either probable or estimable at this time, as such no liability has been recorded.

See Note 16 – "Legal Proceedings and other Contingencies" in the Notes to the Consolidated Financial Statements for further information regarding our guarantees.

Item 3—Quantitative and Qualitative Disclosures about Market Risk

The Company's market risk disclosures have not materially changed since the 2016 Annual Report on Form 10-K/A was filed. The Company's quantitative and qualitative disclosures about market risk are incorporated by reference from Part II, Item 7A of the Company's Annual Report on Form 10-K/A, for the year ended December 31, 2016.

Item 4—Controls and Procedures

Disclosure Controls and Procedures

Under the supervision of and with the participation of management, including the Chief Executive Officer (principal executive officer) and Vice President of Financial Reporting (principal financial officer), and the Audit Committee of the Board of Directors, the Company conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Securities and Exchange Act of 1934, as of September 30, 2017. The Company's evaluation has identified certain material weaknesses in its internal control over financial reporting as further described in our Annual Report on Form 10-K/A for the year ended December 31, 2016. Based on the evaluation of these material weaknesses, the Company has concluded that the Company's disclosure controls and procedures were not effective as of September 30, 2017 to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Based on a number of factors, including the completion of the Audit Committee's internal investigation, our internal review that

identified revisions to our previously issued financial statements, and efforts to remediate the material weaknesses in internal control over financial reporting described below we believe the consolidated financial statements in this Quarterly Report fairly present, in all material respects, our financial position, results of operations and cash flows as of the dates, and for the periods, presented, in conformity with GAAP.

The effectiveness of any system of controls and procedures is subject to certain limitations, and, as a result, there can be no assurance that our controls and procedures will detect all errors or fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system will be attained.

Internal Control and Disclosure Considerations

As previously described in the Company's Current Report on Form 8-K filed on November 6, 2017, in 2016 the Company sold 39 cranes for total sales revenues of approximately $15 million to a single broker customer in a series of transactions (the "Transactions") that were each structured as a customary "bill and hold" arrangement. The revenue for the Transactions was originally recognized in 2016. Ten of these units that were sold for an aggregate value of approximately $3 million were returned during 2016 (and were subsequently sold to other customers), such that for 2016, a net of 29 cranes were sold for approximately $12 million. In addition, the Company made various payments to the broker and its wholly-owned subsidiary that were expensed in 2016 and 2017. Furthermore, the debt taken on by the broker customer to purchase the cranes was effectively guaranteed by the Company pursuant to certain related agreements. In connection with its review of its financial results for the quarter ended September 30, 2017, the Company became aware that the prior accounting treatment for the Transactions was not correct. Specifically, the Company has concluded that the

relationship with the Broker and its wholly-owned subsidiary qualified as a Variable Interest Entity (“VIE”) and should therefore have resulted in a different accounting treatment resulting in the debt of the VIE being reflected in the Company’s consolidated balance sheet. The Company has concluded that the revenue recognition criteria for 2016 sales were not met and payments to the Broker were not expenses of the Company. In addition, disclosures were incomplete.

In connection with the foregoing matters, on November 2, 2017, the Audit Committee of the Board of Directors of the Company, in consultation with the Company’s management and UHY LLP, the Company’s independent registered public accounting firm, determined that the Company’s previously issued financial statements for the quarters ended March 31, June 30 and September 30, 2016, year ended December 31, 2016 and quarters ended March 31 and June 30, 2017 included in the Company’s Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q for such periods and together with all three, six and nine-month financial information contained therein (collectively, the “Non-Reliance Periods”) can no longer be relied upon.

Our Chief Executive Officer has determined that there were deficiencies in our internal control over financial reporting that constitute material weaknesses, as defined by SEC regulations, at September 30, 2017, with respect to procedures for:

1.We did not maintain an adequate process for the intake of new contracts, customers and vendors, particularly for contracts involving unique transaction structures or unusual obligations on the part of the Company, to ensure that all contracts are appropriately reviewed and approved, and the associated financial reporting requirements associated with such contracts and transactions structures are properly identified and complied with in accordance with Generally Accepted Accounting Principles.

2. We did not maintain adequate entity-level controls with respect to ensuring adequate supporting documentation of journal entries and proper review and approval of journal entries and disbursements that were unusual in nature and of significant amounts.

3.We did not maintain an adequate review process with respect to the accounting of bill-and-hold transactions and ensure proper revenue recognition.

4.We did not maintain a formal and consistent policy for establishing inventory reserves for excess and obsolete inventory.

5.We did not maintain an adequate communication policy with respect to compliance with the Company’s Code of Ethics and availability of the Company’s whistleblower hotline to report compliance issues

Accordingly, our Chief Executive Officer has concluded that our internal control over financial reporting and disclosure controls and procedures, as defined by SEC regulations, were not effective at September 30, 2017, as discussed in Part I, Item 4 of this Form 10-Q.

PART II—OTHER INFORMATION

Item 1—Legal Proceedings

The information set forth in Note 16 (Legal Proceedings and Other Contingencies) to the accompanying Consolidated Financial Statements included in Part I. Item 1 “Financial Statements” of this Form 10-Q is incorporated herein by reference.

Item 1A—Risk Factors

As of the date of this filing, there have been no material changes from the risk factors disclosed in the Company’s Annual Report on Form 10-K/A filed for the year ended December 31, 2016.

Item 2—Unregistered Sales of Equity Securities and Use of Proceeds.

The Company’s credit agreement with CIBC directly restricts the Company’s ability to declare or pay dividends without CIBC’s consent. In addition, pursuant to the Company’s credit agreement with CIBC and other lenders, the Company must maintain as specified in the agreements certain fixed coverage ratios and debt to EBITDA ratios.
